

One Click 1841

[Chapter 1841: Go ahead, grab the front row!](#)

Wait until the tokens are issued one by one.

Immediately aroused the exclamation of countless Emperor Wu and the Great!

They looked at the token in their hands with excitement, and felt that it was very similar to a legend and myth handed down from the primitive age!

In addition, this was made by Su Lang, the ancestor of the human race, and everyone immediately regarded this armor as a legendary fetish!

Instant time!

The warriors who grew up listening to those legends were immediately so excited that they couldn't speak!

"These Shura God of War Kai can help you exert a stronger power!"

"Moreover, this kind of armor can also be regarded as your work clothes, and it can play an important role when you participate in a large project in the future!"

Su Lang looked around at everyone, and his faint words made everyone more excited!

what! ?

This turned out to be work clothes?

They will be involved in a big project! ?

Even Master Renzu said it was a big project, how big it would be! ?

Countless strong people thought together, and their eyes widened in an instant, each of them shone like a searchlight.

Simultaneously.

Emperor Wu and the great emperors have weapons, and it's the turn of Wuxian Wusheng to envy!

Naturally, Su Lang would not forget them.

Although these martial arts and martial arts are weak, they can at least be used as rechargeable batteries!

With these huge numbers of martial arts and martial sages, many formations can be operated with the highest cost performance!

What's more, the materials needed to refine immortal artifacts and sacred artifacts are simply not worth mentioning, and Su Lang can easily refine thousands of pieces!

and so.

Su Lang refined weapons for them on the spot.

This time the armor is also refined, named Haoran Huitian armor!

This is a kind of fairy armor that can greatly increase the recovery of the holy yuan and the immortal yuan, and can heal injuries!

And this ability can be used not only on oneself, but also on other subjects!

In other words.

They became logistic medical soldiers!

It can provide energy in certain battle formations, and can also gather in teams to form a powerful medical team.

The martial sages who got these fairy armors were naturally extremely happy.

They are simply ants in advanced battles, and they can often only cast one or two spells before being half-dead by others' aftermath of battle.

With these armors, they are much safer!

And to be able to maximize their life value, which makes them very satisfied.

"In the interstellar war, Wu Sheng is already the lowest threshold!"

"All the tribesmen who have not reached the martial sage level, you are the future successors and guardians of the Xinghai domain group, try hard to cultivate!"

Su Lang looked at those strong below the Valkyrie who were very envious, but because of his low cultivation base and low self-esteem, and smiled and cheered them on.

"Yes! Great ancestor!"

"I am the future successor of the Xinghai domain group. Come on and practice and guard the star domain!"

"I want to become a martial sage, I want to get Haoran Huitian armor and become a guardian!"

"..."

Countless warriors below the Valkyrie level shouted excitedly, full of motivation one by one.

"All right!"

"This is the end of the alchemy refining array."

"When the materials are enough next time, we will refine better medicine and replace better weapons!"

Su Lang waved his hand lightly, "Now, let's do our own thing!"

This statement came out.

The surrounding starry sky suddenly boiled.

Because all the warriors seem to be reluctant to leave, they want to see Su Lang more.

They saw too many miracles from the legendary ancestor of Su Lang today, and they wanted to continue to admire Su Lang's sacred face.

"okay!"

"It's all gone!"

"If you really want to see Renzu, go to the statue of Renzu to worship!"

"..."

Yan Xingxing stepped forward and blasted away the warriors who were reluctant to leave with the quasi-primordial and godless powerhouses.

"Domain Lord is right!"

"We can't see the real body of Lord Renzu, but we can also worship the statue of Lord Renzu!"

"Walk around, go back quickly, the front row will be occupied by others in a moment!"

"Right, right, rush, grab the front row!"

"..."

The warriors who were blasted off flew toward the planet city where they lived, and wanted to practice in the place closest to the statue of the ancestor.

[Chapter 1842: Interpretation and teaching at Baiyu Emperor Palace](#)

In this way.

As soon as they open their eyes, they can worship Su Lang's statue, recite Su Lang's admonitions, worship devoutly, strengthen their will, and continue to work hard!

quickly.

All the strong below the godless level were all dispersed.

What is left is Yanxingxing and other quasi-primary and godless class!

They are also quite large!

A total of twelve quasi-tai junior warriors, plus Yanxingxing!

Nine Crossing Powerhouses, such as Void, Yuehong and others, have a total of forty-nine!

The rest are godless, there are five thousand two hundred!

This kind of power is already countless times stronger than the land of exile!

Although the Seventy Two Regions of Xinghai are more than seventy times the size of the Land of Exile, most of them are inhabitable voids.

The total surface area of all living planets is not as big as the exile!

It can be seen that the martial arts cultivation civilization of the Xinghai domain group is really advanced!

"bring it on!"

"All come in for a meeting!"

Su Lang's thoughts immediately opened the entrance to the Dantian universe.

"Yes! Patriarch!"

Yan Hingxing and others took their orders one after another, and then flew into Su Lang's Dantian universe.

quickly.

Everyone entered the public universe and saw the blue star and the real sun, which were composed entirely of treasures!

"Wow, this is the life universe of Master Renzu!"

"This planet is all made up of precious land!?"

"This is not the point, you feel that there are countless manifestation rules here, my God, it must be very easy to understand the rules here!!"

"Of course, you have never experienced it. Brother, I used to practice with 50,000 quasi-sages on a small island on the planet Renzu-sama, and I will be sanctified in one day!"

"Hi! Senior, boss, I didn't expect you to have lived from the primitive times to the present. I actually only know now!"

"Cough cough, stop blowing, the one who is fortunate to practice on that holy island is my grandfather's grandfather's grandfather, I envy him to death!"

"Stop talking, look at the sun, it's not a solar projection, but the real sun!"

"..."

When everyone saw Blue Star, they were immediately shocked by the manifest rules.

Soon they looked at the sun again and immediately recognized that it was the real sun.

After Yanxingxing and others explained, they also understood that it was a fragment of the Infinite Sun!

Suddenly.

Everyone admired Su Lang even more.

Oh my god, even the sun of the boundless world can be obtained, and it can be used as energy source in the life universe. It is worthy of being an ancestor!

at this time.

"Bai Yu, come out."

Su Lang whispered, and the White Jade Emperor Palace immediately unfolded on the ground, forming a group of fairy-like palaces.

Qi Ling Bai Yu also immediately came out to bow to Su Lang.

Su Lang nodded and asked her to return to her body.

The White Jade Emperor Palace has always been on the Blue Star, and Chu Xiaobei and others occasionally come to live.

The Soul Chasing Emperor Palace was regarded by Su Lang as his personal cave, and he could take it out to rest wherever he went.

at this time.

Su Lang came to the huge White Jade Square of the White Jade Emperor Palace.

With a thought, countless futons appeared neatly on the ground.

"Sit down!"

Su Lang sat on the head and spoke softly!

"Yes!"

More than five thousand people including Yanxingxing took their seats and sat down on the futon.

As long as the old department of Su Lang naturally sits forward.

The old ministries were separated from men and women.

The female warriors sat with Chu Xiaobei and others.

The male warriors sat with Li Xianyang and others, and Monk Xinzheng was among them.

Yan Hingxing and others naturally saw the monk Xinzheng.

But at a glance, they could see that this monk was completely different from those bald donkeys. Although they were a little puzzled, they were not hostile.

"Everyone."

"You are all the mainstays of the Xinghai domain group and the main force in resisting invasion."

"Now, if you have any questions about cultivation, you can raise them, and I will answer them for you."

Su Lang looked around and saw that many people were stuck in the bottleneck at a glance, and this bottleneck could not be broken through with a pill.

"Patriarch! The stars have just accumulated countless questions!"

Yan Hingxing knew that Su Lang was also unable to use common sense in the exercises. From the bottom of his heart, he believed that Su Lang could completely answer his questions.

In addition to this, there are also the empty moon rainbow and others, all of whom have been indoctrinated by Su Lang!

[Chapter 1843: Interpretation, teaching, and empowerment](#)

"There are countless questions, you can only ask once at a time."

Su Lang smiled faintly, "It's the next person's turn after asking, and it will be your turn after one lap."

"Yes!"

Yan Hingxing was ashamed, "Hingxing is selfish!"

"Okay, ask!"

Su Lang smiled and nodded.

"Yes!"

"This godless-level technique cultivated by the stars, here..."

Yan Hingxing opened his eyes and smiled, and immediately stepped forward to say his doubts.

"That's it."

"Although I haven't seen your practice, I can probably guess what's wrong with you."

Su Lang nodded slightly, and with his own practice experience, he solved the problem of Yanxingxing.
joke.

He has now practiced a lot of different kinds of godless-level exercises!

However, Yanxingxing can only practice some similar types of exercises, and with Su Lang's high-level knowledge, he can give the best answer.

quickly.

Yan Xingxing's doubts were resolved, and the whole person turned out to see the sun, suddenly cheerful, and immediately went to consolidate knowledge.

Next.

It was the second turn!

An Xin, the former alchemy master!

"It's the master!"

Seeing An Xin sitting in front of him, Su Lang shouted jokingly.

"do not!"

"Now it's time for me to call the master..."

An Xin's face reddened slightly, and her head hung slightly embarrassed, and then whispered her doubts.

After Su Lang finished listening, he quickly answered her.

Next, the third one is Xiao Ning, then the sisters Zhulan, Zhuxin, brother Si Yuxiao, etc...

Su Lang answered their questions, and from time to time he would talk about the past and recall pictures after all.

Time passed so slowly.

One by one, the supreme emperor came forward to solve the doubts in Su Lang.

Often Su Lang can point out the answers to their questions on the spot!

Even if it can't be solved immediately, he can still practice his cultivation techniques in the vacant martial arts villain.

Then answer other people's questions while practicing.

After the exercise is completed, the problems that have not been solved before can be solved.

In this way.

There is no problem at all to stop Su Lang!

Time is like a white horse passing through a gap, passing by at a glance.

All the Supreme Emperor answered their questions here in Su Lang, and then went down to ponder and wait for the next question.

When all the questions have been completely answered.

The time is approaching the next day.

During this time.

Su Lang's clones are all condensed, and the various times of the one-key empowerment function are about to be refreshed!

In the principle of no waste.

Su Lang selected some suitable candidates and empowered them with personally selected exercises.

These warriors are basically on the verge of breaking through, and as soon as they receive the empowerment technique, they immediately break through the bottleneck and move to a higher level!

Among them, the emptiness of the Supreme Emperor, the Yuehong Supreme Emperor and other nine-dus godless level.

That's how Su Lang was directly promoted to the quasi-primary level!

Finish it all.

Su Lang selected some strong men to initiate the cultivation base.

After so long of preaching, his cultivation base has been accumulated at a cultivation speed of more than nine thousand trillion times. I don't know how much.

Anyway, it is more than enough to break through to the Primordial Realm.

But because the rules of time have not yet been understood, they cannot break through.

Therefore, it is better to instill these extra cultivation bases into everyone.

And the people who were instilled in the cultivation base were all powerhouses at the quasi-primary level!

Su Lang raised all their cultivation bases to the extreme level of Quasi-primary Beginning.

As long as the rules of time are instilled, it can immediately break through to the real Primordial Realm!

At this moment.

Su Lang's subordinates have reached the level of quasi-primordial powers, which has reached twenty.

Once a breakthrough is made, there will be twenty strong people from the beginning, which is definitely not a weak force.

After instilling the repair base.

Su Lang instilled rules for Ji Ruxue again, and empowered Chu Xiaobei to help them grow.

Finish it all.

The number of one-key empowerments is refreshed again.

But this time Su Lang did not continue to use it, but kept it for backup.

"Everyone!"

"This is the end of this preaching and empowerment!"

Su Lang smiled and looked at the twenty quasi-taichu and five thousand supreme emperors below.

[Chapter 1844: Someone hits the door](#)

"Yes!!"

"Kong and thank the patriarch for answering questions and granting karma and empowerment!"

"I will definitely work hard to cultivate, protect the Xinghai area, and live up to the patriarch's expectations!"

"..."

Everyone bowed down to Su Lang, feeling extremely grateful.

Today is just one day.

Their gains are far more than they had done for 100 million years of hard work before!

"Next!"

"We are here to formulate future strategies."

Su Lang smiled faintly, and looked at Yanxingxing, "I don't know the situation thoroughly enough, so you will preside over it."

"Yes, patriarch!"

Yan Xingxing nodded immediately, and looked sideways at everyone, "Everyone knows that our star field will pass through the small thousand domain ring and the big thousand domain ring uncontrollably, and arrive at Heavenly Continent..."

"and many more!"

"Yanxingxing, you mean that the Xinghai area is out of control?"

Su Lang was surprised and waved his hand to interrupt Yan Hengxing's words.

"Uh! Yes..."

"Originally, the Xinghai region was a disorderly transition under the influence of the turbulence of time and space."

"But then we felt that the hope of the Xinghai domain group to continue to resist the invasion was too slim, so we decided to go to the Heavenly Continent."

"In the Tianmen Continent, there are many strong people who are also resisting the forces of the Tianmi Continent. We plan to join forces."

"After confirming the plan, we used a very rudimentary weapon fragment to provoke the turbulence of time and space, and successfully made it leap to the Heavenly Continent with the Xinghai domain group."

"But the fragments of the weapons of the early days have merged into the turbulence of time and space, and completely locked the way forward."

"Unless the turbulence of time and space is completely consumed, the star sea domain group cannot stop advancing or change direction."

Yan Xingxing slowly explained the reason.

"That's it."

"It seems that there is no way for the time being!"

"I can only try it after I break through to the early stage."

Su Lang nodded slightly and said coldly, "There is no strategy left to speak of. Soldiers will come to cover the water and earth, and people will block the killing **** and the killing god!"

"Yes!!"

Yan Hingxing and others took their orders one after another!

"Go!"

"Everyone is busy with my own affairs, and I have something to do."

Su Lang waved his hand and drove Yanxingxing and others out of the universe of life.

but.

Even with Chu Xiaobei and the others, Su Lang didn't drive away.

Such as Anxin Xiao Ning, Zhu Xin Zhulan, Yuehong Hongxiu, Yaochi Yiran and others.

Let the girls chat with each other.

Su Lang released the Soul Chasing Emperor Palace and suspended it in the air.

Immediately enter the quiet room while refining the parts of the super humanoid weapon, while waiting for the exercises to be completed!

Time passed again.

The Xinghai Great Region made another leap, reaching the edge of the Small Thousand Region Ring, and was about to enter the Great Thousand Region Ring.

And Su Lang has once again refined 18,000 parts!

The number of parts for the super humanoid weapon has reached 116,000, and it will be completely completed with only 4,000!

But at this moment.

"Patriarch!"

"There are a large number of powerful invading our Xinghai domain group!"

"Not only did they have fifty quasi-primary powers, but they also brought a broken weapon of the primordial beginning!"

"At this time, our turbulence in time and space has been torn apart, and they are attacking the Xinghai Huanyu United Array with that broken, too low-level weapon!"

Yan Hingxing came to the outside of the Soul Chasing Emperor's Palace and reported it without delay.

He is also really in no hurry.

Because Su Lang's Xinghai Universe Array is really powerful.

Even the broken, too elementary weapon is difficult to break in a short time!

"Oh!?"

"Someone hit the door. It seems that our whereabouts have been calculated again."

"The old things in Tianmi Continent that are too low-level, their calculation ability is not weak, but they didn't come personally, don't want to break into my star sea area!"

Su Lang collected the refining parts, and muttered in his heart.

In fact, even if he came to a powerhouse at the beginning level, he was not so imaginary.

Anyway, there are so many clones, as well as the back players in the Xinghai Universe Array, just take all the planets in the Xinghai Great Region on the road.

At that time, another clone will be dispatched and replaced, and those people will know what a headless fly is!

[Chapter 1845: Broken primordial weapon](#)

Sneered for a while.

Su Lang came outside the Palace of Soul Chasing Emperor, in front of Yan Xingxing.

"Patriarch!"

Yan Hingxing bowed to Su Lang.

"Let's go."

"Broken primordial weapons, I am very interested!"

The corner of Su Lang's mouth clicked, and he brought Yanxingxing to the battlefield in an instant - this was the use of the power of the Xinghai Universe Array, which could be teleported arbitrarily among the stars.

Stand on the edge of the battlefield.

It is also the edge of the Xinghai domain group.

It can be seen that there are countless strong people outside the big array are struggling to attack!

They have pioneered a relatively stable path from the vast turbulence of time and space, and are now attacking the Xinghai Huanyu United Array.

It was the broken weapon of the early days that opened up the way from the chaos of time and space.

Su Lang took a look and found that this weapon was called Tianjun Xuanyou Disk.

This weapon is really broken. It was originally a complete plate, but now it only has a small bottom, and it doesn't even have the spirit!

at this time.

Tianjun Xuanyou Disk maintains the space-time channel, and the power that can be drawn out to attack the Xinghai Universe Array is pitiful.

The combat power that consumes the Xinghai Huanyu Array depends on those Quasi-Taichu and Supreme Emperors!

Su Lang looked at these invaders again.

Among them, there are not only the monks from Tianmi Continent, but also various other cultivators, which should come from various star regions.

Notice.

There are far more star fields in the Greater Thousand Domain Ring than in the Small Thousand Domain Ring.

Although the cultivation civilization of these star areas is far inferior to Su Lang's star sea area.

But basically a star field can also produce a very powerful Godless Grade, and there is a certain chance of appearing strong in the early days.

therefore.

Su Lang was not surprised that the other party could raise fifty quasi Taichu to intercept them.

"Kill kill kill!"

"Break through this big formation and enter the star sea area, all people will become our slaves. Li!"

"Hahaha, I must **** 10 million women of the human race, one a day, happy for them for twenty to thirty thousand years!"

"..."

Countless warriors brandished their weapons, and under the leadership of fifty quasi-primaries, mad dogs attacked the Xinghai Global Array.

from their perspective.

Your own power is so powerful!

And the intelligence of Xinghai Dayu showed that they only had a dozen quasi-primordial powerhouses, and a few thousand godless grades.

Just this little power.

Five or six times worse than them!

Even if it is exhausted, you can win the opponent!

The nun Huijue, monk Kongzhi, and monk Shi Yu who watched all of this in Tianmi Continent felt the same way.

These three.

They were all powerhouses of the primordial level in Tianmi Continent, and they realized the powerful existence of a trace of time rules.

Each of them has subordinates and believers in units of billions, and holds countless wealth.

"Master Huijue."

"You said that Tongtian Temple was destroyed by people like a bamboo? Even the nun Benhuan has fallen and cannot be resurrected?"

Monk Kongzhi asked the nun Huijue in surprise.

The monk Shi Yu next to him was also a little surprised.

"Not bad!"

"Tongtian Temple was suddenly destroyed, and the nun Benhuan I sat down also fell."

"I guess the person who did it may be the strong one at the beginning, but so far I haven't found a clue."

The nun Huijue frowned slightly, "This time the attack on the Xinghai domain group is a test to see if we can draw out the mysterious powerhouse."

"It's a good strategy."

Monk Kongzhi nodded, and immediately asked, "But can the mysterious powerhouse arrive at the battlefield in such a time?"

"It should be possible."

"Before the Tongtian Temple was destroyed, the Linglian Temple in the Linglian Star Territory was also destroyed by the gods unconsciously."

"The fragments of the black dragon star field that are about to be captured are all missing."

"The time between the destruction of Tongtian Temple and the accident at Linglian Temple was very short, and it is very likely that the same person did it."

"The distance between Linglian Temple and Tongtian Temple is very far."

"Although the distance between Tongtian Temple and this battlefield is farther, if the strong guy wants to support, he will definitely come forward!"

A sneer gradually appeared on the nun Huijue's face, "I will see what kind of character it is, and dare to kill my disciple!"

[Chapter 1846: Then let them watch](#)

"What if that person does not show up?"

Monk Shi Yu smiled and shook his head.

"does not appear!?"

"Then destroy the Xinghai domain group and plunder all its cultivation civilization!"

The nun Huijue sneered even more, "The countless intelligent creatures in it will also convert to my Buddha, become Buddhist followers, and recite my Buddha day and night!"

"Ok."

"Before, Tongtian Temple had infiltrated the Xinghai domain group."

Monk Kongzhi nodded and said with a smile, "There are now fifty quasi-taichu and tens of thousands of godless attacks, and you can break them by keeping a stick of incense!"

"Of course!"

"However, in order to prevent the mysterious strong man from feeling that this star sea area is unsaved and avoiding showing up, I will let my people slow down the offensive."

Nun Huijue gave orders while talking.

then.

The powerhouses who invaded the Xinghai domain group slowed down one after another.

But they are all a little puzzled, because they found that the big array in front of them seems not so easy to break at all!

At this time, the offensive was slowed down, and it was almost impossible to break.

It's just that no one dared to question the nun Huijue's order, even if he had doubts in his heart, he did not dare to show it.

Among the stars of the sea.

"what!"

"These people suddenly slowed down their offensive!"

Seeing the abnormal behavior of those people, Su Lang raised his eyebrows.

"strange!"

Yan Hingxing also said strangely, "They didn't even cause a wave of our great array. Why did they suddenly slow down the offensive? It's like releasing water!"

"It should be someone who issued the order behind the scenes."

"Well, there are strong guys watching this battle and directing them behind the scenes!"

Su Lang smiled and analyzed, "The reason for slowing down the offensive may be to give hope to those who come to rescue!"

"People who came to the rescue!?"

Yan Hingxing said in surprise, "But, is there anyone to rescue us?"

"Haha!"

"In their eyes, the person who is going to come to the rescue is me!"

"Because they don't even know that after I destroy the Tongtian Temple, I can return to the Xinghai domain group in such a short time."

The corner of Su Lang's mouth twitched, "They probably thought I was near the star field of Tongtian Temple!"

"That's it!"

Yan Hingxing suddenly realized, "For them, the pace of the patriarch is too fast, they simply can't keep up!"

"Haha."

"Since they are peeping from behind, let them watch!"

Su Lang smiled, "Well, you go to the battle, I will continue to refine parts."

Anyway, the opponent didn't seriously attack.

Such an offensive is simply impossible to break the Xinghai Global Array, it is better to let them waste their efforts for a while.

"Yes, patriarch!"

Yan Hingxing immediately took his command, and Xuan even took out his weapons and participated in the battle.

Su Lang watched the battle while refining parts of humanoid weapons.

Seen in the battlefield.

The Xinghai Universe Array lay across the void, dividing the battlefield into two parts.

The invading warriors were kept outside the barriers of the formation, constantly attacking the barriers of the formation.

The warriors of the Xinghai large area group are inside the large array.

A large number of warriors wearing awe-inspiring return to the sky instilled spiritual energy into the great formation.

There are also a large number of warriors wearing the Shura God of War armor with the help of formations, constantly swinging attacks towards the outside.

Godless powerhouses and quasi-primary powerhouses such as Yanxingxing are also constantly displaying terrifying spells, bombarding the quasi-primary powerhouses outside.

At this time, Yanxingxing and others all have new weapons, and many people have been instilled with new techniques, their combat power is no longer the same.

Their combat power is far higher than those outside the ordinary quasi-primary powerhouse!

The invaders who were ordered to slow down the offensive were immediately beaten into a panic.

Had it not been for the large number of people, I would have been beaten away long ago!

Both sides just consumed it.

The pressure on everyone in the Xinghai Great Region is very small, and they don't have to swallow the pill to restore spiritual power.

One is because the brand-new Xinghai Universe Array is too strong!

Second, because they backed the entire star field group, their aura was much stronger than the lonely void outside.

Moreover, as the energy providers at the grassroots level, they wear Haoran Huitian armor, which has super recovery ability.

This level of battle has not pushed their limits at all.

Time passed slowly.

The battle continued.

The invaders outside became more embarrassed and suspicious!

[Chapter 1847: Won't look too strong](#)

"This, what is going on?"

"Why is this formation so strong? Hasn't it been breached by Tongtian Temple once?"

"My God, we've been fighting for so long, and there isn't even a trace of cracks in this formation barrier!"

"The attack from inside hasn't diminished at all, they still have more power!"

"No more, I want to take the pill!"

"..."

The invaders talked in disbelief, and many people had already begun to take out the pill and swallow it.

The three nuns Huijue, who were far away in Tianmi Continent, were also surprised.

"what happened?"

The nun Huijue frowned deeply, "Although I let them slow down the offensive, it won't be like this. This is completely at a disadvantage!"

"Yes!"

"That formation is stronger than expected!"

Monk Kongzhi also frowned, "It's really weird. Why did their formation suddenly become so strong?"

"Master Huijue, why not let them step up their offensive!"

Monk Shi Yu said, "If this goes on, the Xinghai domain group can withstand it, and the mysterious powerhouse will never appear!"

"I mean it!"

Master Hui Jue nodded with an ugly face, even before giving orders.

"Great!"

"Master gave an order to let us attack with all our strength!"

"Senior brothers, today we are bound to enter the Xinghai realm and break the precept once,ahaha!"

"..."

The quasi-primary powerhouses beamed their eyebrows, and immediately showed cruel and ruthless expressions, and blasted towards the barrier of the big formation with all their strength.

Those ordinary Godless powerhouses also roared and attacked frantically, just like pirates attacking ships.

Boom boom boom!

Countless attacks fell heavily on the barriers of the big formation!

The aftermath of terrifying power scattered, forming a circle of waves on the surface of the barrier of the big formation.

however!

There was no movement at all in the formation!

Still unscathed, immovable!

"This, how is this possible!"

"We are fifty quasi-primary powerhouses and tens of thousands of godless people at the same time desperately attacking!"

"This formation is clearly at the quasi-primary level, how can it have such a strong defense?"

"This formation can't be that strong, we continue to attack, it can't stop it several times!"

"..."

The invading warriors were stunned by the unsuccessful first attack and exclaimed in disbelief.

Soon.

They continued to attack without believing in evil.

And the warriors of the Xinghai domain group don't want to look at it, and they have also performed powerful attacks to bombard the invaders!

Su Lang joined them immediately!

Although his deity is accumulating parts for refining super humanoid weapons.

But the clones were sent out and transformed into thirteen thousand five hundred nine-dus supreme emperors with Hundred Shadow clones!

Soon.

These Jiudu Godless-level clones all shot together.

Su Lang ordered these clones to disguise themselves as Supreme Emperors of different levels.

Successively displayed different levels of attacks, which can kill the warriors who invaded one by one.

In this way.

Will not appear too strong.

Perhaps it would be able to make the too junior powerhouse peeking behind him contempt, so that he wouldn't become angry, and he immediately rushed to desperately.

at this time.

One by one avatars have chosen the opponent they want to bully, picking up the soft persimmon!

Disguised as a clone of Jiudu and Badu to deal with the invaders of Qidu and Liudu.

Disguised as a clone of Qidu and Liudu to deal with lower-level invaders.

"Ah, what an attack is this!"

"No, I'm locked by the Seven Crossing Strong, I don't want to die!"

"Help, help, a lot of godless attacks, I...!"

"I'm just a one-pass no-god-level, why is there a six-pass...!"

"Escape, hurry...!"

"..."

In a short time.

One by one, the invading Supreme Emperor was beheaded by Su Lang clone, and the exclamation in his mouth stopped abruptly.

A series of system prompts kept appearing in Su Lang's ears.

It reminded him how many immortal source emperor sources he had obtained, and what kind of heavenly materials and treasures he could not stop!

And a large number of invaders fell.

Immediately let the warriors of the Xinghai domain group have an endless admiration for Su Lang like a rolling river!

The invaders are horrified!

Because they find that their people are always bombarded and killed by stronger attacks!

It seems that the opponent does not have a super strong, but there are many more ordinary godless grades than them!

"What's going on again!?"

On Tianmi Continent, Master Huijue's eyes widened and his face was unbelievable.

[Chapter 1848: Three great brain supplements](#)

"what's the situation!?"

"How could there be so many Godless Grades in this large star sea domain group suddenly!"

"Look at this battlefield, there are godless magical moves everywhere!"

"Various kinds of exercises are countless, and all kinds of twisting powers are beyond defense!"

"The warriors we sent over can't stop them at all!"

Monk Kongzhi also thundered, and his face was full of horror.

"This is incredible!"

"They showed thousands of godless people in the last war."

"At this time, based on the speed of their shots and the frequency of their attacks, their newly added Godless Grade is at least 10,000!"

"How could they suddenly cultivate so many Godless Grades!?"

Monk Shi Yu also took a breath, his head buzzing a little.

It takes more than one billion years to develop a godless class.

And this is still in the most smoothest situation.

Even if there are a large number of quasi-no-god-level powerhouses in the Xinghai domain, it is absolutely impossible to be promoted at the same time!

A quasi-no-god-level must break through to the non-god-level.

Need to go through the process of soul fusion to 100%, which is almost equivalent to another great realm!

To achieve this progress.

It is not something that can be accomplished in just a few years and ten years!

But now, this situation happened in the Xinghai large area group.

It's incredible, unbelievable!

"wrong!"

"They can't have so many quasi-no-god-level breakthroughs at the same time!"

Master Huijue had an ugly face, "They must have used some secret method to forcibly increase their combat effectiveness!"

"It may be a secret method, or it may be another method!"

"I have seen that after a quasi-godless soul body is completed, it exerts its godless power through the way of the world of harmony!"

Monk Kongzhi touched his beard under his jaw, and said in a serious analysis.

"Yes, Brother Kongzhi is right!"

"They now have 70 star regions, and each star region has a planet of life ranging from one hundred to two hundred."

"Calculated in this way, if each life planet is combined with a quasi-no-god-level, just over 10,000 quasi-no-god-levels can exert the power of the non-god-level!"

Monk Shi Yu also kept nodding, echoing Monk Kongzhi's judgment.

"This is indeed very possible!"

"However, many of these extra Godless Levels are senior Supreme Emperors!"

"Only relying on Hedao Planet, how can it be possible to exert a stronger power than Yidu!"

Master Huijue shook his head while nodding, still puzzled.

"It's easy!"

"They first used this kind of Harmony Planet method to cross the threshold of Godless Class!"

"Then use various secret techniques and various weapons to increase the combat effectiveness to the current level!"

"Because there is a gap between the secret arts and weapons that everyone has, and there are even people who don't have Godless soldiers available, so there is a huge gap in their strength."

"Furthermore, the original Xinghai domain group had thousands of senior godless ranks!"

Monk Kongzhi said as his eyes were getting brighter, he was clearly determined to his own thoughts.

"Not bad."

Monk Shi Yu continued to echo, "Brother Kongzhi has already analyzed it thoroughly, it should be like this."

"Ok."

Master Huijue Ni also nodded, "I really can't think of how they have so many godless grades."

"Ok!"

"Now the supreme emperor of the Xinghai domain group basically uses secret techniques."

"Their fighting capacity can only be strong for a short time, and they will soon fall!"

Monk Kongzhi looked scheming, "At that time, it will be the time when the great formation is destroyed and the star sea is breached."

"Not bad."

Monk Shi Yu nodded again, "If the mysterious strongman does not appear."

"Humph!"

"If that person does not show up, we have just robbed the cultivation civilization of the Xinghai domain group!"

"With their cultivation civilization, those star regions under my command will greatly increase in strength, and my strength will also increase!"

Master Huijue snorted coldly, with a sneer and excitement on his face.

[Chapter 1849: How could it last so long](#)

at the same time.

Su Lang is still commanding the clones.

Together with the warriors of the Xinghai domain, kill the invading Supreme Emperor.

He didn't even know that the people who spied secretly, such as Huijue Ni, had supplemented each other so much!

"Well!"

"Why don't these people retreat?"

"Everyone has died so miserably. I don't know how to run. Is it cool to have to destroy the group?"

Su Lang looked at the invaders who had once again risen vigorously outside the array, and suddenly felt a little puzzled.

but.

His doubts were soon resolved.

Because he heard the invaders outside yelling through his clone!

"Kill!"

"Master Zhengfo said, they all used secret techniques, and they won't last long!"

"For my Buddha, kill, kill, enter the star-sea realm, and let all tens of thousands of planets take refuge!"

"My Buddha is merciful, this time I will definitely convert to one trillion believers!"

"..."

One by one, the quasi-prime and supreme emperor roared and launched attacks continuously!

Even if there are comrades around him being killed constantly, he doesn't care.

Because in their opinion, the enemy is already at the end of the battle, and soon they will not be able to launch a decent attack!

As long as they persist until the enemy collapses, they will win!

However, the idea is beautiful, but the reality is too skinny!

as time flows.

The invading warriors found that the attack from the formation was completely reduced.

Moreover, the formation barriers are still immobile!

On the contrary, there are fewer and fewer people here!

Even Quasi-Taichu has fallen two!

then.

The invading warriors gradually felt bad.

"not good!"

"The barriers of their formation have not been loosened at all, our attack is completely wasted!"

"My comrades are all dead, we came out of ten star regions together. At this time, I am the only one left. It's cruel!"

"Persevere, persevere, Huijuezheng Buddha said, they used the secret technique, and we gave up the previous sacrifice at this time and it was in vain!"

"No, I don't want to die, let me go, I want to go back!"

"..."

The intruders exclaimed, and even showed signs of infighting.

Simultaneously.

Tianmi continent.

Huijue, Vacant and Shi Yu were shocked once again!

"how can that be!"

"Didn't they use the secret method, how could they persist for so long!"

Master Huijue couldn't help opening his mouth wide and screaming in disbelief.

"This this this!"

"The godless class on our side is going to die!"

"How could they persist for so long? Generally speaking, the godless secret method will end in dozens of breaths!"

Monk Kongzhi grabbed his beard and almost pulled off his beard!

"Damn it!"

"What method did they use to keep such a high combat power!"

"However, fortunately, they can also produce a large number of Godless Grades in batches instead of being too junior."

Monk Shi Yu took a deep breath and said, "Our quasi-primary powerhouse can completely crush them, don't worry too much!"

"Junior Brother Shi Yu is right."

Monk Kongzhi pulled his beard and nodded, the horror on his face gradually eased.

"Yes."

"It's just some godless class."

"Even if it's quasi-primary, it's just ants to me."

"In the beginning, there are all ants, this sentence is not groundless!"

A sneer appeared on Master Huijue's face again.

In her opinion.

There are forty-eight quasi-prime primaries on our side!

Although the opponent killed a lot and seemed to have the upper hand, there was no fundamental reversal.

The forty-eight quasi-prime ancestors of one's own side will definitely be able to break the opponent's large formation.

Although there is a gap between the final outcome and what I expected, it is completely acceptable.

Time passed again.

As the deaths and injuries on the side of the invaders increased, their panic and cowardice grew stronger.

But those quasi-beginners will not allow them to flee the battlefield.

As long as someone escapes, they will be killed immediately by those quasi-primaries.

This.

Seeing Su Lang is heartbroken!

[Chapter 1850: Let's close the door and hit the dog](#)

God!

That is the Supreme Emperor.

Each one has a lot of treasures!

Even many of them are the domain masters of a star field, and don't know how much property they have accumulated.

You need to know that even if it is an enemy injured by a warrior in the Xinghai Great Territory, Su Lang will steal the head quietly.

Now that dozens of Supreme Emperors have been sanctioned by the opponent's Quasi Taichu himself, Su Lang was so distressed that he took a cold breath.

"No way!"

"These godless grades must die in my hands!"

Su Lang rolled his eyes and immediately ordered, "Slow down the offensive, let them fight, and give them a little hope!"

"Yes!!"

Yan Hingxing and others immediately took their orders.

Soon, the order was passed on one by one!

"The ancestors have orders, slow down the offensive!"

"Give the intruders a little hope, tease them!"

"Don't fight, stop!"

"..."

The warriors of the Xinghai domain group immediately released the water under Su Lang's order, and stopped their hands.

Suddenly!

Outside the Xinghai Huanyu United Array.

The pressure on the invaders is directly countless times smaller.

"Hahaha!"

"They can't hold it anymore!"

"Quickly, the sequelae of their secret method is coming up! Go!"

"Break the big formation, kill!"

"..."

The quasi-taichu and the Supreme Emperor who had invaded one by one were happy, and their morale instantly recovered, even beyond that!

They mad dogs generally pounce on the Xinghai Universe Array, using all their energy to attack.

Tianmi continent.

Master Huijue, Monk Kongzhi, and Monk Shi Yu also nodded together, with joy on their faces.

Outside the Xinghai area.

Forty-eight powerful quasi-prime primordial strongmen took the remaining thousands of Godless Grades and attacked like crazy.

Rumble!

Crackling!

Countless magical moves **** photos taken above the barriers of Xinghai Huanyu Array!

A large number of ripples agitated from the surface of the formation barrier, forming a ring of waves, which continued to diffuse toward the surroundings.

The formation that has been motionless for a long time finally fluctuates.

This immediately encouraged the intruders to continue their desperate attacks.

And the warriors of the Xinghai Great Territory behind the formation barrier did not completely stop fighting back.

Especially Su Lang.

Occasionally, the avatars will kill one or two!

Then listen to the pleasant system prompts!

as time flows.

The warriors on the invading side once again killed and wounded more than a thousand Supreme Emperor.

Su Lang secretly shot and killed a quasi-beginner powerhouse!

Immediately, the invaders were left with only 47 Quasi-Taichu and 2,000 very powerful Godless Grades.

This made the invaders and the Huijue Nishi peeping behind the scenes again a bad feeling.

But at this moment.

"Reduce the power of the formation, disguise the cracks, and let them in!"

"By the way, don't forget to close the formation, we are going to close the door to beat the dog!"

Su Lang clicked the corner of his mouth and gave the order with a smile!

"Yes, patriarch!!"

Yan Hingxing immediately took the command, and then relayed the order.

The efficiency of everyone is ridiculous.

After a few breaths.

There were many small cracks in the barriers of the Xinghai Global Array.

"Cracked!"

"They split!"

"Hahahaha, hard work pays off, we are finally about to win!"

"Kill!"

"..."

One by one the invaders saw this scene, and the ills in their hearts disappeared without a trace!

They have reached the most exciting and exciting moment since the beginning of this battlefield!

Each of the invaders was red-eyed, carrying weapons and slammed into the formation barrier.

Gradually more and more cracks!

"I have a crack open!"

"Chong Chong Chong, rush in and kill!"

"I got through here too, kill it!"

"..."

The invaders gradually discovered the fissures that penetrate the barriers of the formation, and they immediately drilled when they saw a hole!

Just a few dozen breaths.

Forty-seven quasi-prime and one-thousand-something godless powerhouses got into the formation, and none of them were present.

"It's all in!"

"It's a pity that the formation is not completely broken, and you can't see the scene inside."

A relaxed smile appeared on Master Huijue's face, and this twists and turns of the invasion war was finally about to be won!
