[Chapter 1861: Infinite Universe](#)

Except besides.

Su Lang also mastered several methods of tempering his soul.

Some of these meanings can be used for other objects.

And these profound meanings are also very soft, not rough, just suitable for the newly born spirit.

Slowly.

It's like feeding a baby with milk powder.

Su Lang watched it continue to grow, continue to grow, and his consciousness became more and more cleansed, and soon he had self!

"what?"

Qi Ling discovered the existence of Su Lang and suddenly made a strange sound.

It is the purest spirit, even without the most basic common sense.

It only knows itself, it doesn't know where it is, everything in front of it is unfamiliar and doesn't understand at all.

"Hey!"

"You finally have yourself, I am Su Lang, and I am your creator!"

Su Lang looked at the spirit, and rubbed his hands with excitement, "I'll give you a name, and you'll be called the Infinite, the infinite in the endless universe!"

"The Boundless Number!"

"The boundless number of the boundless universe!"

The extremely clever Qi Ling immediately followed Su Lang and shouted out.

And it also realized that Su Lang was its creator!

A feeling of closeness spontaneously arises.

It made a sound with excitement, as if it wanted to approach Su Lang.

"Don't worry!"

"You haven't completely finished yet, wait for me to upgrade you!"

Su Lang calmed Qi Ling, and immediately began to prepare to upgrade the Infinity.

The boundless number at this time.

Each part is equivalent to a 'crystal wall cell' fused with soul, body and soul.

It is composed of 120,000 cents-level parts!

It is the 'crystal wall cell' with 120,000 soul-body fusion.

It should be known that even Su Lang has not been able to turn all his body cells into crystal wall cells.

Because the capacity of the living universe is too small, only half of it becomes crystal wall cells.

And the Boundless, which is equivalent to 100% of the body turned into a godless class of crystal wall cells!

just.

The level of these 'crystal wall cells' of Infinity is too low, only a fairy level.

The internal space is also very small, and there is no cohesive avenue rules, unable to exert the power of distortion.

It can be said.

The current Infinity is just a super perfect foundation!

Su Lang needs to constantly upgrade and build on this super perfect foundation, and eventually he will get the most terrifying weapon.

"The power of perfect avenue..."

"There is a way to solve this!"

Su Lang clicked the corner of his mouth and immediately took out a lot of crystals from the storage space!

These crystals are the Supreme Emperor Dao Jing!

It is necessary to know that to reach the rank of the Supreme Emperor is basically a comprehension of relatively complete rules.

Even if it is not as good as Su Lang, it is not much worse!

Among them, there are dozens of Dao Crystals obtained from the powerhouse of the early days, and the rules contained in it are hardly inferior to Su Lang.

after all.

A quasi-prime ancestor who has cultivated for billions of years!

In the long years, most of them have understood all the rules except the time rule!

therefore.

These Dao crystals, which contain perfect avenue rules, are very suitable for the training material of the boundless ship!

"but."

"You still have to eat one bite at a time!"

"The texture of these fairy-level parts is too fragile and must be improved."

"Only after they have been upgraded to the Great Emperor level can they be integrated into Dao Jing!"

After thinking for a while, Su Lang made a decision.

Soon.

He began to select materials to upgrade the Infinity.

As a 'preliminary craftsman', his vision is so harsh.

It is easy to distinguish a large number of upgrade materials suitable for the Infinity, so that it will not go astray!

Not long.

The materials piled up into a continent were selected by Su Lang.

These materials are all-encompassing, and there are even Lingcao Linghua...

"system!"

"Using designated materials, evolve infinite number!"

Su Lang gave the order without hesitation.

"Ding! Consume the Soul of the Great Emperor*... Great Emperor Grade material Xuewutian Spider Silk*54552... Emperor Wu Grade material..."

"The Infinite has successfully evolved!"

Two system prompts sounded.

Amidst the colorful flames of the burning sky, endless rays of light flashed on the Infinity!

[Chapter 1862: I dare not think about it!](#)

The 120,000 fairy-level parts in its body have madly transformed into a monarch-level!

Immediately transformed into a great emperor class!

One hundred twenty thousand emperor soldiers were born like this!

On every part of the Great Emperor's soldiers, a very powerful aura is produced.

It is more powerful than many complete weapons of the Great Emperor!

But these auras did not give birth to consciousness, but a mess of unconscious souls.

They exude an incomparably chaotic aura, and then gather together, condensing into super terrifying disordered consciousness fluctuations.

These disordered consciousness fluctuations automatically formed a very terrifying soul attack!

Anyone will be attacked to the soul just by looking at it!

If one's own spiritual cultivation is relatively strong, it's better to say, it's nothing more than a feeling of fear.

At a weak point, you will feel extremely unwell.

If it is weaker, it is estimated to be jerky.

simply put.

This indescribable super-horror soul attack is the passive ability of the Infinity, which will never stop regardless of the enemy and us!

At this time, the condensed passive soul attack is enough to kill the existence of the Great Emperor level in seconds, threatening the weaker Godless Level!

"incredible!"

"At the Godless level, mental and soul attacks are very rare."

"After all, everyone's soul power is used to fuse the body cells and the universe of life, and the rest is not enough to form an effective mental attack."

"Only people with particularly powerful souls, such as myself, can use soul attacks to destroy the weaker Supreme Emperor."

Su Lang nodded in satisfaction, and immediately observed the Master Consciousness of Infinity, which is the spirit of the device.

The Spirit of Boundless, Boundless, has reached the more powerful level in the broken Nirvana level!

Notice.

Su Lang's soul had just reached Fragmented Nirvana.

For the next soul realm, there is no related description for the time being.

You need to complete the practice of Godless-level exercises to know.

Wuyin reached the current level, almost the same as Su Lang, and could kill the weaker Supreme Emperor in seconds.

"Look at conventional power again."

Su Lang looked at Wuyin again and calculated its conventional strength.

The 120,000 top Emperor soldiers, that is, the quasi-no **** soldiers, add up to the regular strength of Erdu!

"At the quasi-no-god-level, it has the normal power of the non-god-level. It's not bad. It has my original style!"

Su Lang smiled satisfied again, "When I promote you again, I will definitely help you reach a more terrifying realm!"

Just do it!

Su Lang began to choose materials of no **** level!

"In the material this time, you need to put the Dao crystal."

"Let every part contain the perfect power of the great power, and become an engine that condenses the power of twisting!"

"By the way, these parts used to be like crystal wall cells, but now they have been promoted to the quasi-no-god level, the internal space is more like a life universe!"

"This time I am promoted, I am afraid I will evolve the parts of Infinity into a universe of life that may condense and twist the power!"

Thinking of this, Su Lang couldn't help taking a breath.

He himself has only ten life universes, and he is already so awesome, and the condensed twisting power is many, many times that of others.

Well.

Infinity has been promoted to an existence with 120,000 living universes. How terrifying would that be?

"hiss!"

"Try it, try it!"

Su Lang took a breath again, patted his chest, and immediately issued instructions, "System, use specified materials..."

"Ding! Consume...The Infinite has successfully evolved!"

The system prompt appears.

The materials that Su Lang prepared were consumed immediately.

Infinite has indeed evolved successfully.

A total of 10,000 parts have evolved from a quasi-no-god soldier to a cross-no-god soldier!

The level of the Boundless itself immediately reached the Qidu level!

"Amazing!"

"Only one twelfth of the evolution has reached Qidu!"

"Furthermore, these evolved Godless Soldiers have just passed away!"

"If you evolve all of them to the quasi-primordial beginning level... lying noisy, I dare not think about it!"

A bright light broke out in Su Lang's eyes, and immediately selected materials again.

The next step is to continue to evolve part of the Yidu parts.

The first pass evolves into the second pass, and the second pass evolves into the third pass until the material is insufficient!

[Chapter 1863: Evolutionary Boundless, Zhuan Tai Junior](#)

quickly.

Su Lang selected enough materials to activate the evolutionary function.

Suddenly.

Another system prompt sounded!

Among the 10,000 Yidu Godless Parts, 4,300 have been evolved.

The final result is 3,200 Erdu parts, 520 Sandu parts, 300 Sidu parts, and 80 Wudu parts!

When these parts are all promoted.

The level of Boundless was immediately changed from Qidu to Quasi-primary!

after all.

It is not simply piled up one by one with the Supreme Emperor's soldiers.

Each part has an extremely important role, complements other parts and exerts more power than addition!

At this time, the boundless number can already exert the ordinary quasi-primary power!

"This must be too early level!"

"It's really awesome, it's worth noting that I spent so much time refining the parts one by one!"

Su Lang chuckled, and said to his heart that if all the parts were upgraded to the quasi-primary level, that would be fine!

It is a pity that the materials are not enough so far!

"Just get more materials!"

Su Lang touched his chin, and immediately shared the vision of each clone.

But see this time.

Almost the entire Star Territory of Meteophoenix Great Thousand Territory was taken under by the clones.

Except for dozens of star regions with quasi-primary powers, all the other star regions could not be avoided!

In fact, those quasi-beginners can also be subdued.

But the movement will be bigger!

Su Lang already knew at this time that many powerful star regions in this Fang's Fengfeng Great Thousand Territory had been eroded by Buddhism.

The attribution behind it is a too junior monk named Kongzhi.

"Monk Kongzhi!"

"Isn't it the guy who sent people to attack me with Master Huijue Ni and Monk Shi Yu before!"

Su Lang was a little surprised at the news.

Simultaneously.

A strong sense of vigilance also rose.

Since Master Huijue was so far away, he could guess the location of the Xinghai large area group.

And now.

The Xinghai domain group is obviously closer to the Tianmi continent.

Then, Master Huijue Ni can more easily guess the location of the fish in the Xinghai large area.

What's more, this Great Thousand Territory of Fallen Phoenix is still the territory of Monk Kongzhi!

"How to do it?"

"Do you want to mess with him?"

"But what if you provoke a powerful person at the beginning level?"

Su Lang raised his eyebrows, hesitating to take a shot at the Meteofeng Star Region.

After some thinking.

Su Lang used the Xinghai Universe Array to directly ask Yan Star about the approximate time of the next star field transition.

Yanxingxing and others are very concerned about this.

They often study the state of turbulence in time and space, and use a large number of methods to infer the approximate time and location of the star field transition.

These methods include Supreme Computer

——A biological computer built with a lot of the souls of the Supreme Emperor!

Its computing power is terrifying, and it is currently the 'server' of Xinghai Huanyu Array.

When Su Lang re-refined the formation before, he also used the spirit of the quasi-primordial beginning to upgrade it.

at this time.

The computing power of this 'server' has been strengthened again, and its predictive ability has become even more powerful.

quickly.

Su Lang got the result he wanted.

Originally, Xinghai Great Region had just completed its transition, and it would take a whole day to transition again.

But before, a broken weapon of the primordial primacy destroyed itself in the turbulence of time and space, which made the turbulence of time and space more violent.

About ten hours later, the space-time turbulence will reach its peak again, bringing the star sea large domain group to jump.

And the destination is probably near the Tianmen Continent!

"Ten hours."

"Well, that's the case, just wait until the transition is about to start!"

"If the other party has a powerful person who is too junior, I will run away after trying to get him, and he will not be able to catch up with him, happy!"

"It would be better if the opponent did not appear to be too junior strong!"

Su Lang smiled and made a decision immediately!

Immediately after.

Su Lang admired the planets with falling phoenixes and thousands of territories through the perception of clones.

The exotic atmosphere above is simply eye-opening!

Even after watching it for a while, he even learned the place where the Phoenix had fallen through the conquering eyeliner!

[Chapter 1864: Guardian Angrily King](#)

And this place is actually suppressed by a large number of quasi-beginners!

"Ok?"

"The Phoenix has fallen for so long, and there are still people suppressing it here!?"

Su Lang raised his eyebrows and asked in surprise, "Could it be that the Phoenix can still be resurrected?"

In myths and legends.

The phoenix is an existence that can be reborn in Nirvana, it can be said that it is a race that is born and immortal!

"Being killed can also be resurrected from Nirvana!"

"Can only suppress it when it is killed to prevent it from resurrecting?"

Su Lang touched his chin and decided to find a chance to rescue the phoenix once he got up.

at the same time.

In the Tianmi continent.

Master Huijue, Monk Kongzhi, and Monk Shiyu are still together.

After the invading army that had been sent before was destroyed, they did not leave, but waited for the transition of the Xinghai domain group!

but.

Because of the self-destruction of the broken weapons at the beginning.

They can no longer monitor the movement of the Xinghai area, they can only guess the position of the Xinghai area all the time.

But being able to speculate is one thing, and the time required to speculate is another.

The three of them all shot together, constantly speculating.

It was only three hours after the transition of the Xinghai large area group, that the new position of the Xinghai large area group was speculated.

"The Great Xinghai Domain Group has made a leap!"

"Hahaha, it really is in the Great Thousand Territory of Fallen Phoenix!"

Monk Kongzhi guessed the result and laughed loudly.

Upon seeing this scene, Master Huijue Ni and Monk Maki Shiyu immediately stopped their deduction methods.

"Really in the Great Thousand Territory of Fallen Phoenix!?"

"Quickly, let your Arhat Buddhist army go and kill it!"

Master Huijue immediately yelled impatiently, she wanted to see the Xinghai large area group being breached.

"Don't worry!"

"Wait for brother to project the picture over there first!"

Monk Shi Yu smiled at Huijue Nishi.

"Hmm! Wait a minute."

Monk Kongzhi nodded, and immediately used the secret method to contact the leader of the Arhat Buddha under his command.

quickly.

A screen projection appeared in front of the three.

"Abbot!"

"Hui Jue Zheng Buddha! Shi Yu Zheng Buddha!"

In the picture, a ferocious bronze monk salutes the three, like a docile tiger.

Behind him.

It is a huge flame vortex, comparable to a nebula!

The flame inside the vortex was bleeding red, and looking at the starry sky in the distance, I thought it was a blood-colored sun.

This.

This is where the Phoenix fell!

In order to prevent the resurrection of the Phoenix from Nirvana, it would cause a huge disaster.

The Mi Ling Buddha ordered Monk Kongzhi to control the Great Thousand Territories of the Fallen Phoenix, and dispatched an army to suppress the place where the Phoenix had fallen.

to date.

It has been more than four billion years!

Even the warriors in the suppression army are already old and dead!

"Angry King."

"The Xinghai domain group has already jumped to the Meteoric Phoenix domain, you immediately lead the Buddhist army to strangulate!"

"Their strength is not weak. The previous fifty quasi-taichu army has been wiped out."

"You must not be careless. Once you find them, immediately use the Boruo Mantra Buddha Scriptures, and you must break them and occupy them!"

"After the capture, remember not to slaughter, you must let them all convert to our Buddha."

"As for the Phoenix side, it is enough to leave more than a dozen Quasi-Taichu to maintain the seal formation!"

Monk Kongzhi gave orders to the fierce monk, whose bald head was full of flesh.

"Yes! Abbot!"

The angry Karmapa immediately put his hands together and took his command.

But he was very surprised!

Because Bo Ruo cursed the Buddha's verses, they have never used it again since that terrible battle!

At this time, it was used to deal with a star field.

Could it be that the conventional power of that star field has reached the primordial level! ?

Thinking of this, the Angry Karmapa couldn't help getting a little excited.

He was stationed here to suppress the fallen phoenix, almost equivalent to being exiled here, and rarely engaged in real battles.

In this boring time.

I broke all kinds of bans time and time again, and didn't quit anything!

And now.

Finally a good fight!

After taking the order, the extremely excited and angry King immediately ordered his troops.

[Chapter 1865: Let me do everything else](#)

quickly.

The Wrathful King selected ninety-eight quasi-primary powers.

Nine thousand nine hundred and ninety-nine Supreme Emperors over seven crossings.

Immediately, he selected one hundred and thirty-seven Quasi Taichu from the Great Thousand Territory of Meteorite Phoenix, together with thousands of powerful Godless Grades.

Finally, a large group of people headed to the place designated by Monk Kongzhi!

But they don't even know.

As soon as he acted, Su Lang's eyes were completely in his eyes.

Even the godless grades selected by the King of Wrath from the Meteorite Great Thousand Territories have been subdued by Su Lang's Mingguang Wanjie.

"Tsk tut!"

"This time the lineup is really amazing!"

"Almost the entire Thousand Fallen Phoenix Territory and thousands of vast star areas have gathered together, as well as the veteran Quasi-primary Buddhism Arhat guarding the place where the Phoenix fell!"

Su Lang watched this scene through his eyeliner, and suddenly smiled like a flower.

As long as the opponent does not have a real too junior powerhouse to come.

Then these people came here for nothing!

"Again for nothing!"

"I'm so embarrassed!"

There was a playful smile on Su Lang's face.

Under his watch.

The powerful and powerful generals of the angry-eyed King swiftly marched forward, constantly crossing the space, and hurriedly rushing towards the Xinghai domain!

Five hours passed in a blink of an eye.

The time and space turbulence outside the Xinghai domain group is becoming more and more manic, and it will make a leap again soon!

at last!

The super army led by the King of Wrath has arrived outside the Xinghai domain!

"Yanxingxing, prepare everyone for battle."

Seeing this, Su Lang immediately sent a message to Yanxingxing, "More than two hundred quasi-tais have come to the door!"

"what?"

"More than two hundred quasi-primaries?"

"This is more than the quasi-prime clone of the patriarch!"

Yan Xingxing was shocked immediately after receiving the news.

"You panic."

Su Lang smiled faintly, "You only need to supply energy to the Xinghai Huanyu United Array, and let me do the rest!"

"Yes! Patriarch!"

A trace of shame rose in Yan Hingxing's heart.

Just like them, they still want to go to the Heavenly Misty Continent to unite those strong.

If Su Lang didn't come back, they would be finished on the way!

Beyond the turbulence of time and space in the Xinghai area.

"on!"

The angry Karmapa waved his hand, "Open a way for me!"

The Arhats behind him immediately formed a Buddhist formation.

An incomparably huge diamond descending magic pestle condensed and enveloped everyone!

Although this diamond descending magic pestle does not have the power of time, it can bring extremely powerful life recovery to the warriors in the formation.

After the formation of the King Kong Devil Pestle.

Under the impetus of more than two hundred Zhuntaichu and more than 10,000 Supreme Emperors, he slowly plunged into the turbulence of time and space.

Rumble!

Countless turbulence of time and space instantly blasted on the surface of the King Kong Demon Peel.

The space turbulence was completely blocked outside, and the surroundings were restored to normal spaces.

But the turbulence of time cannot be blocked.

A lot of time turbulently got into the interior and fell on the strong.

Suddenly.

The lives and longevity of a large number of strong bodies are greatly lost under the action of time.

but.

Under the protection of the King Kong Demon Peel, their vitality was immediately replenished, and they could maintain their peak combat power.

Even the loss of lifespan has been slowed down, reaching a tolerable range.

Rumble!

The King Kong Jiang Devil Pestle is like a submarine moving forward through the waves, moving forward firmly in the turbulence of time and space.

Among the stars of the sea.

Countless people with strong human bloodlines were summoned.

Anyone who is above the Wusheng level has entered the Xinghai Huanyu United Array, becoming one of the energy batteries.

Even Yanxingxing and others are no exception!

This time, only Su Lang attacked the outside world!

"Master Renzu wants to deal with the more than two hundred Quasi Taichu!"

"It's amazing, that can only be done at the Beginner level!"

"In my eyes, Master Renzu is 10,000 times more powerful than any other primaries!"

"Yes, the primordial level is only a small part of the life journey of Lord Renzu. Lord Renzu will definitely reach a higher realm!"

"..."

Countless warriors of human blood are discussing, and the admiration and worship of Su Lang has formed another wave!

at this time.

A certain direction of the Xinghai domain group.

A sudden change in the turbulence of time and space was immediately detected by the Xinghai Huanyu United Array!

[Chapter 1866: Too elementary Buddhist scriptures!](#)

"The enemy is coming!"

"Don't panic when you encounter things, think about Renzu first, you can rest assured!"

"Now everyone is serious and ready to instill energy!"

"..."

Countless human blood warriors boiled for a while, and immediately calmed down, preparing for the battle with concentration.

Rumble!

The turbulence of time and space was finally completely drained, and the King Kong Jiang Mo pestle appeared outside the crystal clear formation barrier.

"Expand the spiritual sky!"

Seeing the formation barriers appeared in front of him, the angry king was excited and gave orders to his subordinates.

Suddenly.

A large number of Buddhist masters changed the secret method, and the King Kong descending the magic pestle suddenly expanded, opening up a large area of stability in the turbulence of time and space.

Although time is turbulent, there is no way to isolate it.

But finally there is a place where one party can stand firm and let them use their means!

"The powerhouses from the entire Meteoric Phoenix Domain are here!"

"Two hundred and thirty-five quasi Taichu, fourteen thousand three hundred and twenty seven crossings and above the godless level!"

"Tsk tusk, this spree is really amazing!"

Standing behind the formation barrier, Su Lang looked at the fierce and powerful men outside, his face was full of joy.

Outside the barrier.

"A quasi-tai elementary formation!"

"If Abbot Kongchan told me not to be careless, I would attack directly!"

"Anyway, there is no quasi-prime-prime formation in the world that can withstand more than two hundred quasi-prime-prime powers all together!"

The angry king looked at the formation in front of him, and his face full of flesh showed a thick sneer!

In his opinion!

The strength of my own side is so powerful!

Even if it is to attack another big thousand domain with thousands of star domains, it can easily win.

Dealing with this small Xinghai area is simply a sledgehammer!

Of course.

There was monk Kongzhi peeping at this place, and the angry Lord did not dare to mess around.

"All Buddhist disciples listen to orders!"

"King the Prajna secret array, recite the Boruo Mantra, and condense the Buddha's verse!"

The Wrathful King called out loudly, before he became the center of the Prajna secret array, he sat down with his knees and chanted Boruo Mantra.

Suddenly.

The buzzing sound of chanting came from the mouth of the King of Wrath.

The voice was loud and deep, like a series of muffled thunders.

"King the Prajna secret array, recite the Boruo Mantra, and condense the Buddha's verse!"

The remaining ninety-eight quasi-primary arhats and nine thousand nine hundred and ninety ninety-nine godless monks also shouted together!

They take the Wrath King as the center of the formation, and are arranged in a circular formation that is constantly rotating in a special pattern!

Each Buddhism disciple Baoxiang sat cross-legged tightly, and there was a series of scriptures from his mouth.

The terrifying sound of chanting instantly spread throughout the entire spiritual sky.

Immediately after.

A stream of majestic power spilled out of every Buddhist disciple.

Then, centering on the Wrath-hearted Karmapa, a phantom of the Buddha's sutra was gradually condensed.

Those who are not Buddhism, the quasi-prime primaries of the Meteoric Phoenix Great Thousand Territories, looked at the formation barriers one by one as if they were facing an enemy.

Their role is to prevent the enemy from coming out and destroying the Buddha's sutras.

however.

All the quasi-tais of the Meteorite Great Thousand Territory found themselves completely useless.

Because there is no movement in the formation barrier.

No one came to stop the angry Karmapa and the others from condensing the sutras.

"How is this going?"

"Are they completely gone? They didn't even fight for such a good opportunity!?"

"Haha, I guess they are just scared. There is no way. We have more than two hundred quasi-prime primaries. Who can beat them except the strong ones?"

"This battle is really easy. I just lost a little lifespan. I will make up for it later!"

"..."

The Quasi Taichu of the Fallen Phoenix and Great Thousand Territories muttered.

The supreme emperor behind them listened to their words, and anger rose in their eyes.

But no one cared, even if they noticed, they thought that these supreme emperors were annoyed because the Xinghai domain was unable to resist.

Among the barriers of formation.

[Chapter 1867: Three statues are too junior, how could it be possible](#)

"This Buddhist technique is powerful."

"It is to bring together the power of nearly ten thousand godless, and the power of nearly one hundred Zhun Taichu!"

"Unfortunately, although this method is powerful, it can indeed produce conventional power far beyond the quasi-primary level."

"But for each of them, at most only one-third of their power can gather on that Buddhist scripture!"

"This kind of efficiency is far worse than the combination of my Devouring clone and Xing Cuanyun. No, it should be said that I don't deserve to carry shoes."

"My Xing Cuanyun is not simply stacking the powers of the clones, but like the Infinity, it can exert even more terrifying power!"

Su Lang looked at the angry King Falun outside the formation barrier, after a while of analysis, a small smile appeared at the corner of his mouth.

Knowing this, he didn't bother to seize the opportunity.

And the Buddhist scriptures don't need a lot of time.

Just a few breaths, it has completely condensed!

Rumble!

A vast aura that far exceeded the quasi-primary level swept all around.

"This is...too elementary aura!"

"Heaven, it's worthy of the supreme Buddhist method, it can actually condense such power!"

The strong men of the Meteoric Phoenix Great Thousand Territory were stunned, feeling as weak as an ant!

"kill!!!"

The angry king let out an earth-shaking roar.

Immediately, he manipulated the Buddhist scripture that exuded too basic aura to slay towards the barrier of Xinghai Huanyu Array.

"Swallow the clone!"

"Xing Cuan Yun He!"

Su Lang thought of it, and immediately swallowed forty clones.

And the avatar and the twin avatars are forty-five fusions into one!

Suddenly!

Su Lang's aura instantly soared to the point of jaw-dropping.

Although the two conjoined avatars of Xing Cuanyun do not have a living planet, their breath is not weak.

"day!"

"This is the real strength of Lord Renzu!"

"This is definitely the power of the too early level, only too early to be so terrifying!"

"Master Renzu has condensed three primordial combat powers, too strong!"

"This kind of existence will definitely survive in the universe!"

"..."

Countless warriors such as Yanxingxing had already concentrated and held their breath, ready for battle.

But it was inevitably shocked by Su Lang's horrible aura!

"Instill energy!"

While Su Lang reminded everyone loudly, he waved the Youtian Sword and slashed away!

The two Xing Cuanyun avatars, one holding the Godless Dragon Platform, and the other holding the Tianya eight-sided shield.

Use them to exceed the two small levels of the quasi-primordial beginning.

The twisting force that surpassed the ordinary quasi-prime primacy suddenly poured down like a galaxy, and rushed toward the outside of the formation very violently!

Outside the barrier of formation.

The angry king controls the Buddha's sutra to blast towards the formation.

Ninety-eight quasi Taichu and nearly ten thousand Buddhism supreme emperors continue to contribute their strength to maintain the power of the Buddhist scriptures.

The quasi-primordial powerhouses of the Great Thousand Territory of Meteoric Phoenix attacked the formation together.

The supreme emperors behind them are also brewing their most powerful attacks in their lives!

"Humph!"

"Under the too junior Buddhist scriptures, no one can stop them!"

"This star field's broken array will be destroyed immediately, it's really boring!"

The Wrathful King looked at the formation barrier in front of him with contempt, as if he had already seen the scene of annihilation.

But at this moment!

Boom boom boom!

A sword light suddenly rushed out of the formation barrier.

A dragon-shaped twisting force and a group of characteristic twisting force followed closely behind.

Suddenly.

A breath more terrifying than Buddha's verse filled the entire spiritual sky.

The sneer and contempt of the angry king instantly solidified!

Immediately after.

The two attacks collided fiercely!

Click!

A large number of cracks appeared on the golden Buddhist scriptures, and they were shattered instantly.

"how is this possible!!"

"Three statues are too junior!?"

"How could they have such terrifying power!"

"..."

The angry king and those Buddhist monks also trembled all over, blood spurted out of their mouths in horror!

The attacks performed by the quasi-prime primaries of the Fallen Phoenix Great Thousand Territories also fell on the formation barrier at the same time.

Four to five thousand Supreme Emperors with Qidu and above, the condensed attacks also fell on the quasi-prime primaries in front of them!

Endless explosions happen all at this moment!

The aftermath of extremely terrifying energy spread, instantly sweeping across the entire spiritual sky.

[Chapter 1868: Instantly kill ninety-nine quasi-prime primaries](#)

Just then!

Su Lang swung a sword again, this time using all the red and purple qi in the Red Ming space!

A more powerful sword fell out of the battlefield, and instantly beheaded all the quasi-primordial Buddhist masters such as the Wrathful King!

The effect of breaking defense and death is triggered!

Ninety-nine quasi-primordial powerhouses including the Wrath-hearted Karmapa fell directly.

Those who are good at incense sticks immediately broke out and want to embark on the incense stick to survive.

but.

A strange and irresistible attraction suddenly came.

Countless incense and willingness to disappear out of thin air.

"Do not!!!"

"My incense!!!"

"I have stored incense for countless years, enough for me to live forever!!!"

"..."

The Wrath King and other quasi-beginners roared desperately.

However, this can't stop Su Lang's virtual spirit universe from plundering their incense power!

In a flash.

Ninety-nine Buddhas who are quasi-primordial powers have completely fallen!

at the same time!

The aftermath of countless battles slammed into the barriers of the Xinghai Huanyu Array.

Rumble!

The terrifying energy bombarded the formation barriers into a large number of ripples.

Fortunately, this formation was jointly created by Su Lang with the godless-level formation he had learned throughout his life.

Even if hundreds of quasi-beginners make a shot together, it can block a period of time.

at this time.

Although the aftermath of the bombardment of Buddha and Su Lang hit the barrier, there was no crack.

At most, the strong inside the formation received a little shock, but it was not a major problem.

Those weak warriors who stayed in a safer place were not even affected at all.

They should instill energy to instill energy, and restore power to restore power.

I was shocked by the aftermath of the terrifying attack outside the formation barrier.

Look beyond the formation.

The Ling Tian transformed by the King Kong Devil Pestle had collapsed in an extremely terrifying explosion.

A quasi-primary and godless class was completely exposed to the turbulence of time and space.

Suddenly.

They were severely corroded!

However, the turbulence of time and space can hardly bring them fear.

Because this is nothing compared to the three terrifying existences in the Xinghai Huanyu Formation!

"The strong from the beginning!"

"They have three strong men from the beginning!"

"Run away, we can't be their opponents at all!"

"..."

The quasi-prime primordial powerhouses of the Fallen Phoenix and Great Thousand Territories began to flee.

The godless disciples in the Arhat Buddhist Army also turned around and ran away.

But at this moment.

Those godless-level powerhouses who were subdued by Su Lang with the Mingguang Ten Thousand Realms were bold and undaunted!

Before these thousands of Godless Grades made a sneak attack from behind.

Although he didn't kill the quasi-prime powerhouse, it also caused a lot of damage to those people.

At this time, they made another move, and suddenly stopped the disciples of the Arhat Buddhist Army who were preparing to retreat!

"Don't go!"

"Dare to attack our Xinghai domain, you don't even want to run!"

"Leave it to us! Hahahaha!"

"..."

One by one, the Supreme Emperor roared and killed the Arhat Buddhist army.

"You are crazy!?"

"When did you become members of Xinghai Dayu!?"

"Obviously you were still with us before, how could you suddenly rebel?"

"What exactly is going on?"

"..."

One by one, the Arhats were seriously injured.

The most important thing is that their escape is blocked!

This immediately caused them endless fear!

at this time!

Boom! !

The barriers of the Xinghai Universe Array rang out like a heartbeat.

The formation barriers expand and expand outwards instantly, instantly enveloping everyone's invading powerhouses!

But it is different from before.

They were not placed in different cages of formations.

Instead, two formation cages appeared!

One has imprisoned nearly ten thousand Arhats and Buddha army, and one has imprisoned more than one hundred phoenix and great thousand domains.

next moment!

Su Lang and a Xing Cuanyun clone appeared in the cage of the quasi-primary powerhouse.

boom!

An extremely terrifying aura pressed down, as if the sky was falling.

The more than one hundred quasi-prime primaries are like ants in the face of the disaster of extinction. They are terrified in their hearts, and their bodies are soft and almost beyond control!

[Chapter 1869: Tuan Mie Arhat Buddha Army](#)

"Don't, don't kill me!"

"Please don't kill me, I will be able to break through to the primordial level immediately, I am willing to be your slave, the primal servant!"

"Please let me go, I know I was wrong!"

"I was forced, senior!!"

"..."

Suppressed by the two primordial primaries, all the quasi-primordial powerhouses have completely lost all hope.

Some stood motionless, waiting for death.

Others knelt down crazily and begged for mercy, hoping to survive.

"You dare to attack my Xinghai domain, then go to death!"

Su Lang's indifferent and ruthless voice spread throughout the formation cage.

Immediately after.

He raised the Youtian Sword in his hand, and Xing Cuan Yunhe clone also raised the Godless Dragon Platform in his hand.

"Broken a sword!"

With a light wave of Su Lang, a ray of sword light slashed out horizontally as if opening up the world!

Godless Dragon Platform has also turned into Dragon Nest and Shenlong!

"Twisted Dragon's Breath! Shoot!"

Ao Bing yelled, the powerful mental deterrence ability will blank the brains of all locked-in people!

Immediately after.

A distorting force that was extremely terrifying, far surpassing ordinary quasi-prime primaries, bombarded the crowd like a star destroyer.

Moreover, this distorting force exploded, like fireworks, covering all the quasi-primaries in the audience.

next moment.

Bro Yijian Jianguang cut off the body of nearly Baizhun Taichu.

Breaking the defense is triggered by the death feature, these people fell instantly, and even the incense avenue could not be entered.

The remaining quasi-tai was overwhelmed by the twelve-level twisting power of the godless dragon platform.

They all resisted.

However, he found that one hundred of his twisting power may be able to consume the other's twisting power.

This gap is desperate!

Some quasi-beginners knew that they couldn't survive, so they simply gave up resistance and asked for a happy one!

Suddenly!

One by one, they were killed by the twisted Dragon Breath of the Godless Dragon Platform.

Su Lang slashed out again, and the remaining Quasi Taichu who was still resisting also fell together!

The other side!

In a cage that holds thousands of Arhat Buddhist troops.

Tens of thousands of the Buddhist supreme emperors have even united and exerted a power that surpasses ordinary quasi-primary powers.

They condensed an extremely huge Buddha statue, the King Kong glared and mighty!

If the general quasi Taichu fights against them, they are guaranteed to be defeated!

but.

What they had to face was Su Lang's Xing Cuanyun He clone who possessed too low-level conventional power and twelfth-level twisting power!

"Go and die!"

"Pay for your mistakes!"

A Jang roared, and with the help of Su Lang's clone, he condensed the deep-sea-like twisting power, and rushed towards the godless Buddhist disciples.

"Block it!!"

A famous Arhat Buddhist army hissed and roared like an evil spirit.

But their strength alone could not stop the twisting power of the twelfth-level Tianfang Eight-sided Shield!

Boom boom boom!

King Kong glared at the Buddha statue torn apart.

The godless Buddhist army inside spurted blood and died tragically on the spot!

Su Langxing's Cuanyunhe clone and Tianjia's eight-sided shield once again condensed a twisting force, completely crushing the broken Buddha statue into smash!

Suddenly!

Nearly ten thousand senior godless powerhouses have fallen!

Countless system prompts sounded.

Remind Su Lang how many natural treasures, how many immortal sources, and how many soldiers without gods...

So far!

The more than two hundred quasi-primary strong men who came to invade were completely dead.

The Arhat Buddhism army of monk emptiness is equivalent to the entire army being wiped out!

The only thing left are those supreme emperors who have long been subdued by Su Lang with the light of the world.

"These people, let's keep them."

"And their movements should have been seen by Monk Kongzhi."

"In this case, the Meteorite Great Thousand Territory will definitely suffer the anger of Monk Kongzhi, it is better to take it away together!"

Su Lang touched his chin, a smile was drawn at the corner of his mouth, "By the way, there is also the place where the Phoenix has fallen!"

at the same time!

In the Tianmi continent.

Monk Kongzhi, Monk Shiyu, and Master Huijue's faces were ugly as if they were eating shit.

"The three are too elementary power!!"

"When did the Xinghai Great Region have such a terrifying powerhouse?"

Monk Kongzhi murmured in disbelief, his beard trembling.

[Chapter 1870: Pack and take away Meteor Phoenix Great Thousand Domain](#)

"Should not be the real powerhouse at the beginning."

"It's also a too primary conventional power formed by using secret methods!"

"However, their condensed twisting power is indeed far superior to ordinary quasi-primary powerhouses!"

"What happened to the Xinghai domain group, why did its strength suddenly soar so much?"

Monk Shi Yu looked gloomy, and a trace of suspiciousness and disbelief rose in his eyes.

"Arabian Nights!"

"It's a fantasy!"

"Obviously, I was beaten to the collapse of the formation before, and I was fleeing in the whole area!"

"At this time, we have won two consecutive battles and slaughtered all our people!"

Master Huijue Ni took a deep breath, "I think we need to do it ourselves!"

"Not bad!!"

"The previous Godless Grade suddenly turned towards each other, which is also a bit strange."

"It just so happens that I have some Arhat Buddhist troops left behind in the Great Thousand Territory of Fallen Phoenix, I'll go!"

Monk Kongzhi looked like frost and sounded like ice. After sitting up on the futon, he started casting spells!

However, he saw numerous golden scripture marks bursting out of his body, spinning straight into the sky, faintly forming a huge channel!

This is a super teleportation secret that is performed by the profound meaning of Buddhism Tianzutong.

The power of the primordial level of the ether is able to directly reach the Meteorite Great Thousand Territory from the Tianmi Continent with the deployment of the anchor point.

And the remaining Arhat Buddha army is exactly the transmission anchor point of Monk Kongchan!

Of course.

It is not a short time to cross such a terrifying distance.

Even at any cost, it takes a full half an hour!

This seems to be no problem to Monk Kongzhi.

Even if he rushed to the Meteorite Great Thousand Territory after half an hour, the Xinghai Great Territory must have not escaped!

But he didn't know that the period of this transition of Xinghai Great Region would be more than half shorter than before!

He didn't even know that Su Lang could send the clone to the Great Thousand Territory of Meteorite to do things without spending time on the road at all!

When he descends on the Great Thousand Territories of Falling Phoenix, the daylily will be cold!

And just when the monk Kongzhi opened the space channel.

Su Lang does what he says!

Immediately release Ling Xing Cuan Yun, make the clones become one hundred and thirty-five quasi-primary strong.

Then use the Baiying clone to become thirteen thousand five hundred Jiudu powerhouses who are infinitely close to Quasi-Taichu.

Finally, he was sent to leave the Xinghai realm, and dispatched to the meteorite phoenix great thousand realms, to collect planets into the universe of life!

Thirteen thousand five hundred clones.

There are a total of 135,000 life universes, and it's no problem to pack and take the entire Meteorite Great Thousand Domain away!

quickly.

There was an extremely strange scene in the Great Thousand Territories of Meteorite.

An incomparably powerful figure close to the quasi-primary level of the Jiudu powerhouse unfolds the universe of life.

Then, with the cooperation of the conquered Supreme Emperors, the planet was packed into the universe of life and taken away!

Gradually.

More than 10,000 clones worked together.

Tens of thousands of life planets were taken away in almost a moment!

The Meteophon Great Thousand Territory of the Star Territory was immediately empty by a tenth!

Simultaneously.

Where the Phoenix is.

The Arhat Buddhist army who stayed behind had obviously received the news that the army led by the Wrath-hearted Karmapa was annihilated, one by one was scared to death!

Fortunately, Monk Kongzhi is ready to come.

It hit their hearts like a shot in the heart!

"hateful!"

"That Xinghai domain is so powerful!"

"Unexpectedly, we completely destroyed our tens of thousands of Arhats, including ninety-nine quasi-primordial powers!"

"Huh! Our abbot is coming soon, no matter who the opponent is, he will definitely die!"

"Yes, in the vast Xinghai area, it is impossible to suddenly appear too junior powerhouse. There are more than 100 quasi-prime primaries here, and there has not been a single primal primacy in billions of years!"

"..."

One by one left-behind quasi-primary Buddhist monks talked, and their hearts were full of anger and excitement about revenge.

And just now!

Su Lang's two clones suddenly appeared here!

However, the clones had already evacuated the entire Meteorite Great Thousand Territory in a short time, and even the weakest planet of life was not left behind!
