

One Click 1871

[Chapter 1871: This is worse than monkeys](#)

at this time.

When the avatars of the porters were finished, they immediately cancelled the avatars of Baiying and used Xing Cuan Yun He.

Become two terrifying existences with regular too primary power again!

For a moment!

The divine minds of the two clones burst out, spreading across hundreds of billions of miles.

The blood-red flame vortex immediately appeared in Su Lang's vision!

One by one, thundering, the trembling Buddhist experts were also seen by Su Lang.

"Kill them!"

Su Lang thought, and immediately issued instructions.

"kill!"

Two avatars, one holding the Godless Dragon Platform, and the other holding the eight-sided shield of the sky, burst out the trembling star field roar!

Immediately after.

A large amount of twisting power far beyond the ordinary quasi-primary level is like a nine-day galaxy pouring down, drowning out the Buddhist masters!

The number of these left-behind people was originally small, and they couldn't use the Buddhism array to gather resistance.

Suddenly.

One by one the Buddhist monks fell quickly!

Tianmi continent!

Buzzing!

Countless golden scriptures swirled in the sky, gradually forming a channel.

suddenly.

Monk Kongzhi's expression changed wildly, and with a wave of his right hand, a picture suddenly appeared in front of him.

This scene is really the place where the phoenix fell, and the Buddhist monks who stayed behind were bombarded and killed!

"what!?"

"How come there are two too junior powerhouses suddenly appearing here!?"

"It's not right, the twisting power they exert is also not too basic twisting power, but more than the ordinary quasi-primary twisting power."

"This is exactly the same as the previous attacks that appeared outside of the Xinghai Great Domain Formation!"

Monk Shi Yu frowned, and said solemnly, "Could Xinghai Dayu have mastered some kind of method for large-scale cultivation of super strong quasi-primaries!?"

"Their cultivation civilization is very peculiar!"

"Perhaps, they have really worked out another path that can surpass the ordinary quasi-primary!"

A ray of light broke out in Master Hui Jue Ni, "We have to get this path anyway!"

"Not bad!"

"Xinghai domain must be destroyed!"

Monk Kongzhi has cold eyes, "All their cultivation civilization must belong to us!"

Although his Buddhist army has been wiped out.

But the Tianzutong channel has been opened and the exit has been anchored. At this time the channel is being opened and has not been interrupted!

After all, it is a terrifying supernatural power of the primordial level, not so easily destroyed.

Of course.

Monk Kongzhi is destined to run for nothing!

Meteorite phoenix is a thousand domains.

The place where the Phoenix fell.

All the Buddhist troops left behind have been killed by the two clones of Su Lang.

at this time.

Two avatars whose regular powers are too elementary are surrounding the blood-red flame vortex.

The flame vortex is surrounded by formations that draw vitality.

The Arhat Buddhist army used the formation method to extract vitality to prevent the phoenix from Nirvana, while using these vitality to supply their own cultivation.

"Suppressed for billions of years!"

"This is worse than monkeys!"

Su Lang looked at the place where the phoenix had fallen, and couldn't help but sigh.

Soon.

He destroyed all those formations!

Immediately after.

He also refined a large number of pill containing vitality, and sprinkled it into the blood-red whirlpool like a bean.

It is indeed an auspicious beast in myths and legends that has existed since the opening of the world.

Even after being suppressed for billions of years, he immediately reacted to those pills.

Countless blood-red flames rolled upside down, dragging the pill containing countless vitality into the center of the vortex, swallowing it clean in a blink of an eye.

"Tweet——!!!"

Pleasant and crisp phoenix sounds came from the whirlpool.

He hasn't tasted such a delicious pill for billions of years. He is so happy!

Seeing this scene, Su Lang also twitched the corner of his mouth, once again refined a large amount of pill, and threw it into the blood-red whirlpool.

These elixirs are basically used for healing and contain a lot of vitality.

There are also some medicines to enhance the spirit and soul.

Even Su Lang threw some godless soul fragments into it.

But Phoenix seemed to dislike it so much that he threw it out!

[Chapter 1872: Tsundere Phoenix, upgrade function](#)

"I fork!"

"It's like this, but I'm still picky!"

"Should it be said that it is a phoenix that does not see the phoenix trees and does not inhabit?"

Su Lang raised his eyebrows, and threw all the godless-level, quasi-primordial soul fragments to the Moon-Constructing Nest in the Tai Sui universe.

If the Moon's Mother Nest swallowed these soul-body fragments, it could breed more spores and develop more life races.

Ten minutes passed in a blink of an eye.

The blood-red flame vortex that had eaten Su Lang's large amount of medicine pill began to converge in the middle.

finally!

A red giant egg with a deep blood pattern appeared in front of Su Lang!

The dome is translucent, and you can see a small phoenix slowly rotating and flying inside.

Even through the translucent eggshell, you can still appreciate His incomparably graceful and noble posture.

"It's time to leave!"

Su Lang ordered the clones to step forward, put the phoenix egg in his arms, and immediately dispatched back to the star sea area.

And this scene.

Because the Arhat Buddha army had been completely wiped out, Monk Kongzhi and others did not see it.

Among the stars of the sea.

"Tsk tut!"

"It's not in vain of my pills, you guy's current vitality is almost my Xing Cuanyun clone!"

Su Lang looked at the phoenix egg in his hand, and made a tusk.

"Tweeted!"

From the phoenix eggs, there were waves of phoenix sounds.

However, Su Lang, who had a 'proficient in language and writing', immediately heard that Phoenix was disgusting himself.

He said that those pills that are usually not even looked at will be reluctantly eaten during special periods.

"I'm noisy!"

"You spit it out now!"

The corner of Su Lang's mouth twitched, holding the phoenix egg and shaking vigorously.

"Tweeted!"

Fengming sound came again, and he even said that he will pay back by pulling Xiang, and that his Xiang is much better than these pills.

Su Lang almost sprayed after listening.

"Forget it!"

"When your Nirvana is over, I don't want a few bird feathers too much, right?"

Su Lang paused, touching his chin and said.

"Tweeted!"

Phoenix said no, his hair would not be given to anyone.

"I wouldn't save you if I knew it, what a tsundere!"

Su Lang rolled his eyes and threw the phoenix egg directly into the magical universe. It was a life universe with a fire attribute. Maybe a phoenix would be more suitable?

"its not right!"

"Should Tai Sui Universe suit him better?"

"After all, he still needs vitality very much now."

"But even if you are so arrogant, I am afraid you will drain my Tai Sui universe!"

The corner of Su Lang's mouth twitched, and he no longer cared about Phoenix, but put his gaze into the storage space.

The harvest this time is four or five times more than the last time!

The quasi-beginners alone killed more than two hundred!

The materials obtained can completely refine countless pills and upgrade countless weapons.

The most important thing is the system function!

"system!"

"Save me the money first!"

Su Lang thought, and gave instructions.

"Ding, the storage is complete, and the balance is 53.32 million, the superior emperor source!"

"Hey!"

"With so many high-quality emperor sources, you can upgrade system functions again!"

Su Lang clicked the corner of his mouth, "System, first upgrade me the one-key martial arts function!"

"Ding! Consuming 10 million superior emperor sources, the one-click martial arts function has been upgraded to level 47, and the training speed has been increased to 187.7 trillion times the speed of the basic training without lack of qualification!

Suddenly!

The speed of martial arts has doubled!

"Beautiful!"

Su Lang smiled excitedly, "Continue to upgrade me the clone dispatch, one-key treasure hunt, one-key enhancement, and one-key empowerment functions!"

"Ding! Consuming 10 million superior emperor sources, the clone dispatch function is upgraded to level 46, the number of clones is +1, the current number of clones is 46, the number of clones is 46, and the number of twins is 46!"

"Ding! Consumes 10 million superior emperor sources, one-click treasure hunting function...The number of treasure hunting flying flying gliders is 187.7 trillion!"

"Ding! Consumption of 10 million superior emperor sources, one-click enhancement function...The enhancement limit is +1, and the current enhancement can be 7 times!"

"Ding! Consumption of 10 million superior emperor sources, the one-key empowerment function has been increased to 25, the current empowerment efficiency is 100%, and the number of daily empowerments has been increased to 50!"

"Ding! Congratulations on upgrading the one-key empowerment function to the top level. You have obtained the new bonus function "Education but no class", daily empowerment times*10, current daily empowerment times 500 times!"

[Chapter 1873: Bonus functions are taught or not](#)

System prompts appeared one after another.

System functions are upgraded one by one.

The smile outlined at the corner of Su Lang's mouth became more and more brilliant.

When the last system prompt appeared, the corners of the mouth were grinning to the base of the ears!

"A one-key empowerment system that has risen to the top!"

A bright light burst into Su Lang's eyes, "There are five hundred initiations every day!"

Five hundred initiations.

Including cultivation base initiation, exercise initiation, rule initiation, and avenue initiation.

Once you use them all, you can create more godless classes immediately!

"This feature is really awesome."

"It deserves to be a one-key empowerment to the top-level gift function."

Su Lang rubbed his hands with excitement, and immediately called out Chu Xiaobei and others!

After finishing preaching at Baiyu Emperor Palace last time.

The various times of one-key empowerment have been refreshed!

"Su Lang!"

"What's wrong, Brother Su Lang!?"

"..."

Chu Xiaobei and the others all knew that Su Lang was busy now, and knew that something was going to happen if he called himself out.

"Hehe!"

"Call you to come out and have children!"

The corner of Su Lang's mouth twitched, revealing a playful smile.

This statement came out.

Chu Xiaobei Ji Ruxue and Murong Xianxian immediately blushed.

Yuqing, Su Linger, An Xin and other women also had crimson complexions and blinking eyes.

"Su Lang."

"Although we have that kind of medicine."

Chu Xiaobei bit her lip and said, "But didn't you say that we can't be with you if we reach the Godless level...that?"

"Yes!"

"So now I just want to help you upgrade to Godless level!"

Su Lang raised his eyebrows, laughed, and pulled Chu Xiaobei straight in front of him.

"what?"

"Raise directly to the godless level?"

"Su Lang, when did you work out an unreasonable secret technique again!?"

Chu Xiaobei looked at Su Lang dumbfounded, her little hand covered her red lips and exclaimed in a low voice.

The other women also exclaimed for a while, their gazes at Su Lang were brilliant.

"Just now!"

"Come on, I will instill the Dao in you first, and then I will instill in you the exercises and cultivation bases after the instillation!"

Su Lang patted Chu Xiaobei on the shoulder, making him sit cross-legged in front of him.

"Get ready, I'm going to start!"

Su Lang reminded him softly, and immediately pressed his hand to Chu Xiaobei's forehead, even if he activated the one-key empowerment function!

Suddenly.

Five hundred avenues were poured into Chu Xiaobei's body one after another, making her power of attainment immediately reach the level of godless level.

And most of these avenues do not coincide with the rules that have been instilled before!

In other words.

At this time, Chu Xiaobei not only mastered the five hundred avenues, but also mastered the power of one hundred and sixty avenues and hundreds of rules that had been instilled before.

The total number of avenues he controls is close to seven hundred, plus the rules, it exceeds the number of one thousand!

This amount is completely enough to lay a solid foundation of Godless level!

"Next, we will instill the exercises!"

Su Lang reminded Chu Xiaobei who was shocked and dull, and immediately chose a series of exercises to instill.

These exercises are carefully selected by Su Lang, especially suitable for Chu Xiaobei's exercises!

In a blink of an eye.

After the six exercises have been instilled, all of them are Godless!

This directly allowed Chu Xiaobei's masterless godless skills to surpass most godless skills and reached the level of quasi-primordial beginning!

Under the influence of these exercises.

Chu Xiaobei's body was immediately sublimated passively.

Although it is passive, the degree of sublimation is amazing!

In a blink of an eye.

Chu Xiaobei's soul body and soul began to merge automatically!

"Start the cultivation base initiation!"

Su Lang did not drag his feet, and immediately activated the system functions.

Suddenly.

To Su Lang, it's not worth mentioning, but to Chu Xiaobei, the cultivation base that can burst his body is surging down!

Rumble!

The torrential cultivation level poured into Chu Xiaobei's body, causing her to let out a low cry!

"Quickly run the exercises!"

Seeing that Chu Xiaobei was a little dazed, Su Lang reminded him again.

"Oh, oh!!"

Chu Xiaobei nodded suddenly and immediately agreed, and began to run the exercises that Su Lang had instilled in her!

A lot of exercises are running together!

In Chu Xiaobei's body, the soul body and the soul universe accelerated their fusion, and the degree of fusion reached 100% almost instantly!

[Chapter 1874: Chu Xiaobei was promoted to Quasi Taichu](#)

and.

In its pubic area.

A soul body cell began to merge with the soul!

With the support of Su Lang's cultivation base, the first soul body cell was condensed in an instant!

The aura on Chu Xiaobei's body suddenly changed drastically, and he immediately jumped from the quasi-no-god level to the non-god-level.

The bottleneck that countless creatures in the universe cannot overcome in their lifetime.

In front of the cultivation base that Su Lang instilled was too fragile!

Chu Xiaobei actually achieved the achievements of other warriors who have worked hard for hundreds of millions of years in just a few breaths.

And at this time its cultivation base is still skyrocketing!

Countless soul-body cells and soul-yu have been fused to form crystal wall cells!

In a blink of an eye.

Chu Xiaobei's cultivation level has been elevated from the first-passing godless level to the quasi-primary beginning level!

Although she has little power to master the Dao, she was relatively weak in her class at the beginning.

But in any case, it is the quasi-primary level!

Almost all of Chu Xiaobei's soul body cells merged with the soul to form crystal wall cells.

Next.

She only needs to continue to understand more avenues, and she can gradually reach the level of the old quasi-primary!

And this time.

Chu Xiaobei also noticed that his cultivation level had changed drastically and reached a new realm, and he was completely shocked once again!

It's not just Chu Xiaobei.

People like Ji Ruxue were also shocked.

Among them, Yuqing, An Xin, Xiao Ning, Bi Ye Lin and other warriors who have reached the godless level are most shocked.

They are too aware of how difficult the Godless level is!

And now.

Chu Xiaobei jumped from the godless level to the quasi-prime primacy, which is too exaggerated!
can only say.

Su Lang is worthy of being an ancestor, and the methods are really terrifying, it's unreasonable!

"Okay!"

"Next, I will impose a restriction on you, and familiarize yourself with the power."

Su Lang chuckled, "Otherwise you get excited, afraid that you are going to destroy a small star field."

"you are so bad!"

Chu Xiaobei gave Su Lang angrily.

Yu Qing and the others also recovered from the shock, their eyes shyly dodged, and they clearly understood that Su Lang meant something.

"Brother Su Lang!"

"Is it my fault next?"

Ji Ruxue didn't seem to understand, she looked at Su Lang expectantly!

"Okay!"

"It's time to instill rules for you!"

"This time I will promote you to the quasi emperor!"

Su Lang nodded seriously, and then began to instill rules in Ji Ruxue.

When the last preaching.

Su Lang instilled a rule in her.

Coupled with the rules instilled before the sermon, this time only the rules in the early 200s need to be instilled to give her a perfect martial arts foundation.

quickly!

More than two hundred rules have been instilled.

Su Lang instilled suitable Wuxian-level techniques for her, and then instilled her cultivation base, raising her to the quasi-emperor level.

"What a powerful force!"

Ji Ruxue felt the power in her body, her face flushed with excitement!

But then.

She pushed Murong Xianxian in front of Su Lang: "Brother Su Lang, come on, it's time for Sister Xianxian!"

"it is good!"

Su Lang smiled and nodded, and immediately began to instill rules in Murong Xianxian.

After using up the number of instilling rules, it happened that Murong Xianxian mastered more than three hundred and sixty!

then.

Su Lang also elevated her to the level of a quasi-emperor like Ji Ruxue.

When the number of Taoist empowerments is refreshed next time, you can choose one of them to be promoted to Quasi-Taichu!

And this time.

Only the regular and avenue initiations have been used up.

The exercises initiation and cultivation base initiation are almost useless.

therefore.

Su Lang looked at Yuqing and other women again.

"Su Lang..."

Yuqing asked a little timidly and suspiciously, "What are you, can you instill in us?"

Su Ling'er and other women also looked at Su Lang with scorching eyes.

"Of course!"

"But the rules and avenues are exhausted."

"Now I can only instill cultivation bases and techniques for you!"

Su Lang clicked the corner of his mouth, "Guliang Yuqing, why don't you come first?"

"what?"

Yuqing immediately shook her head, "Let Ling'er, Xiaomei, Youzhi and the others first!"

[Chapter 1875: Created more than one hundred quasi-prime primaries](#)

"no thanks!"

"Anyway, His Majesty Su Lang can instill many times every day!"

"So there is absolutely no difference between who we are first and who is second!"

Xiao Mei, who had an offensive personality, smiled and pushed Yuqing to Su Lang's face.

Su Linger and others nodded seriously.

"Ok!"

"thank you all!"

Yuqing glanced at the women gratefully, and then sat down in front of Su Lang nervously.

"What you practice is the exercises of the Supreme Nine Qing Palace."

"I have some exercises that fit it, and the level is higher!"

Su Lang smiled slightly, then covered Yuqing's smooth forehead with his hands, and activated the power initiation function!

Suddenly.

The profound meanings of the six godless-level exercises were imprinted in Yuqing's soul and body, allowing her to grasp these exercises to the founding level at once!

This was the first time that Yu Qing was indoctrinated by Su Lang.

That feeling of incomparable fulfillment swept her body and made her feel extremely fulfilled.

She swims in the endless mystery of the exercises, once unable to extricate herself.

"Next, I will promote you to the quasi-primary level!"

Su Lang saw that Yuqing was attracted by the profound meaning of a large number of exercises, smiled, and continued to activate the function of cultivation and empowerment.

Suddenly!

A large amount of cultivation base poured into Yu Qing's body.

It was originally a Yuqing of Sidu level, and its aura rose layer by layer, and in a blink of an eye it reached the Quasi-primary Beginning level!

"Youzhi, it's your turn!"

Su Lang withdrew his hand in satisfaction and looked at Youzhi.

"Ah? Why is it me?"

Youzhi pointed to herself in surprise, "It should be Ling'er and Xiaomei's turn!"

"Go to Yuzhi!"

"We don't have enough rules to improve!"

Su Ling'er and Xiao Mei pushed You Zhi to Su Lang's face.

"Oh I got it!"

Youzhi sat down in front of Su Lang with a little shock and excitement.

Seeing Su Lang who was close at hand, her face suddenly blushed.

When Chu Xiaobei and others wrote the novel before, she secretly thought about it at night.

"What do you think?"

Su Lang smiled, gently covered Youzhi's forehead, and immediately activated the empowerment function.

Yuori was originally a senior quasi-no-god-level, mastering many great powers and rules.
therefore.

Su Lang directly instilled her cultivation base and exercises.

Because Youzhi possesses the blood of a monster clan ghost spider, the exercises suitable for her are rare.

But in front of Su Lang, all this is not a problem!

There are too many exercises he has now!

Moreover, there are currently five vacancies for martial arts villains, even if Su Lang himself does not master the exercises, he can spend a little time to finish the practice on the spot!

Now the one-key martial arts function has doubled again, reaching 187.7 trillion times. Practicing the godless-level exercises is almost the same as eating and drinking.

It's also more difficult to practice too basic exercises.

The flick passed for a moment.

Youzhi had already been promoted to the quasi-primary level by Su Lang.

Soon, Su Lang successively instilled cultivation skills and techniques to Anxin, Xiao Ning, Yaochi Yiran, Yaochi Zhimeng, Bi Ye Lin and others.

Suddenly.

Everyone immediately reached the quasi-primary level.

Ji Ruxue Murong Xianxian who hasn't reached the quasi-primary level yet, but it's only two days.

Finish it all.

Su Lang immediately called Zhu Xin, Zhu Lan, Xiaojing from the Baiyue Emperor clan, the Xinzheng monk, Yan Hingxing, and the Ziming Emperor Si Yuxiao and others.

These veteran cadres of the Xinghai domain group also received the techniques and cultivation bases instilled by Su Lang.

It was originally a quasi-primary level, which has been improved and supplemented.

Those who have not reached the quasi-primordial level all become quasi-primordial level.

as time flows.

More and more people were sitting cross-legged in front of Su Lang.

At the beginning of the quasi-tai, from a few or a dozen or so, it has become one hundred and sixty-six now!

This!

It was just the result of Su Lang's 'education' in one day.

"Tsk tut!"

"At my rate of enlightenment, I almost have to catch up with the legendary Hongjun!"

Su Lang looked at the quasi-prime primaries who were full of admiration in front of him, and a trace of joy rose in his heart.

Bring up these quasi-primaries.

He didn't spend much time, only less than half an hour.

There is no cost!

Except time, nothing is consumed at all!

what?

You say cultivation base?

Will Su Lang, who can accumulate quasi-primary cultivation base in five or six seconds, lack this?

Even if there were hundreds of quasi-prime primaries, it would be drizzle!

[Chapter 1876: Three quasi-primary soldiers](#)

After stopping to raise the cultivation realm for everyone.

Su Lang didn't drive them away either, letting all the quasi-taichu kneel and sit there respectfully, sorting out the gains they just got.

"I should continue to organize my harvest too!"

Su Lang smiled, his trophies have just finished sorting out the source of Xianyuan Emperor!

Next!

Sort out the medicine!

To be precise, it is to organize the prescription.

Read through all the alchemy classics obtained with divine thought, and record all the alchemy in the heart.

Suddenly.

Su Lang has mastered hundreds of different kinds of godless pill!

Although the effects of these medicines are similar, the formula materials are different.

This allowed Su Lang's alchemy materials to be transformed into pill medicine to a greater extent and exert more value.

Instead of letting some unusable materials continue to accumulate in the storage space and eat ashes.

"system!"

"Start refining the pill for me!"

Su Lang's thoughts moved, and he issued alchemy instructions.

Suddenly.

In the storage space, countless materials began to disappear, countless elixirs appeared out of thin air! at the same time.

Su Lang began to organize the exercises again.

Part of the exercises obtained this time came from the Arhat Buddhist Army.

These Buddhist monks basically practice the same exercises.

Therefore, although the number is as high as more than 10,000, they only contributed seven godless-level Buddhism exercises.

Except besides.

The powerhouses of the Fallen Phoenix Great Thousand Territories have contributed a lot of godless-level techniques, and they are in their early five thousand books!

Not to mention the great emperor level exercises!

"Hey!"

"More than five thousand godless techniques, give me synthesis!"

Su Lang took a deep breath and activated the one-key synthesis function!

Suddenly.

More than five hundred primaries appeared in front of you!

It contains a large number of common techniques, some powerful secret techniques, and treasure techniques related to time and space.

Plus more than three hundred super-primary exercises synthesized before.

Su Lang already had a total of eight hundred and sixty-three great elementary exercises!

"It's a pity that it's hard to understand these primordial techniques now."

"Just wait until the four exercises that are being practiced are finished, and then you can choose the most pleasing exercises from these exercises to practice!"

"With my current practice speed of 187.7 trillion times, I can complete the practice in three hours at most!"

After Su Lang finished his analysis, he rubbed his hands with excitement.

Three hours!

Almost soon!

Next.

Su Lang has synthesized tens of thousands of godless-level exercises and more great emperor-level exercises!

"Yanxingxing."

"These exercises, do you know what to do?"

Su Lang took out the original exercises that had just been synthesized and faced Yanxingxing Dao.

"Subordinates know!"

"Please rest assured, the patriarch!"

Yan Hingxing prostrated and bowed with excitement, catching the exercises that Su Lang handed over.

Looking at the original exercises of the godless level.

There are even some original exercises at the beginning level.

Whether it is Yanxingxing, or the other quasi-primary powerhouses around, they are all stunned, unbelievable!

Fortunately, in their souls, they have deeply remembered the saying "Ancestors cannot use common sense".

quickly.

They suppressed the shock in their hearts.

However, the worship of Su Lang has grown deeper.

Finished the exercises.

Su Lang's eyes finally fell on the weapon!

"Decompose all captured Godless Soldiers!"

Su Lang gave an order, and in the storage space, pieces of supreme Buddha artifacts and pieces of godless soldiers collapsed and turned into countless raw materials.

Suddenly.

The materials for the evolution of the Youtian Sword, Godless Dragon Terrace, and Tianjia Eight-Led Shield are once again gathered!

"system!"

Su Lang directly issued an order, "Immediately retain the designated characteristics, evolve the Youtian Sword, Godless Dragon Platform, and Heavenly Eight-Edged Shield!"

"Ding! Consume Godless Soul*288888, Godless Grade Material Evil Emperor Devil Heart Jade*100000, Eclectic Universe Polar Stone*100000, Blood Rain Underworld Jade*100000...Youtian Sword evolves into the quasi-primary no God soldier!"

"Ding! Consuming Godless Soul*156589...The evolution of the Godless Dragon Platform is quasi. There was no God soldier in the beginning!"

"Ding! Consuming Godless Soul*156354...The evolution of the eight-sided Shield of Heavenly Shield will be the beginning of Godless Soldier!"

[Chapter 1877: The monk of emptiness comes](#)

After the three system prompts.

Su Lang's three commonly used weapons suddenly evolved from the Badu level to the quasi-no God soldier in the beginning!

The Youtian Sword has been strengthened six times, and now has a level of 16 power, which is many times higher than the ordinary Quasi-Taichu!

The Godless Dragon Terrace and the Tianjia Eight-Edged Shield have also been strengthened 4 times. At this time, they are level 14 powers, which are also tens of thousands of times stronger than ordinary quasi-primary weapons!

These three weapons strike at random.

It can easily kill any powerhouse at the quasi-primary level.

Weapons of the quasi-primary level can't be held at all!

"system!"

"Using designated materials...enhance the infinite number of parts!"

Su Lang did not stop and continued to give orders!

System prompts sounded again in an instant.

A large number of parts are evolving rapidly, and the overall level of the parts of the boundless number is rising!

Only 10,000 parts have been evolved before.

At this time, more than 30,000 parts have evolved again.

More than 30,000 parts all evolved to a godless level, and immediately continued to upgrade to a higher level.

When the evolution is over.

More than 40,000 parts have evolved on the body of Infinity.

Most of them are one-pass grades, and the higher the grade, the fewer the number of parts.

There are only seventeen parts of Qidu with the highest grade.

but.

The true combat power of the Boundless has also far surpassed the ordinary quasi-primary powerhouse.

It has even reached a level comparable to a godless dragon platform!

"The potential of Infinity is simply terrifying!"

"This has only evolved a third of the parts!"

"If all its parts evolve successfully, the storage can reach the early stage!"

Su Lang looked at the boundless number exuding terrifying power in the storage space, and a satisfied smile was drawn at the corner of his mouth.

He planned to show the Infinity to everyone.

But at this moment.

The meteorite phoenix is a thousand territories, the place where the phoenix fell, the place where the blood-red vortex disappeared.

Boom boom boom!

Suddenly, endless golden scriptures appeared, circling around, and soon tore a huge golden passage.

Immediately!

An extremely vast golden Buddha statue flew out of the passage.

There is a white beard and bald old man floating inside the head of the Buddha statue, who is the monk of empty wisdom!

"This....."

"Not only my Arhat and Buddha army was completely wiped out, but even the formation to suppress the phoenix was destroyed!"

"The formation was destroyed, and the Phoenix disappeared. It should have been rescued by those two strong men!"

"Hmph, Xinghai domain group, don't think that you have too low-level conventional power to be so reckless!"

"I will let you see the power of the real powerhouse!!"

A terrifying killing intent erupted in the eyes of Monk Kongzhi, and his eyes were angered by the huge golden Buddha statue like a planet outside the body!

Two rays of light, as if it were real, spurted out from the eyes of the Buddha statue!

Wherever the light beam passed, time was suddenly slightly distorted, and pictures of the past appeared.

For example, the two avatars of Su Lang disappeared instantly with the fiery red giant egg transformed by the phoenix.

For example, Su Lang used the hands of two avatars to throw countless godless pills of perfect quality to help the Phoenix Nirvana.

For example, the two clones of Su Lang instantly killed countless Buddhist monks!

The beam of light continued to advance, passing through the vast expanse of space that had become dead.

One by one, Su Lang clones the planet into the universe of life.

Under the influence of Mingguang Ten Thousand Realms, countless powerful men surrendered to the scene.

And the countless treasure hunting flying flying gliders also fell into the eyes of Monk Kongzhi.

"The two regulars are too junior!"

"Thousands of powerhouses close to the quasi-too junior!"

"There are hundreds of billions of strange little flying squirrels!"

"..."

Monk Kongzhi frowned slightly, then stretched out his hand and grabbed it. A large amount of breath emerged out of thin air and entered the golden palm of a mountain-like skill.

Soon.

Monk Kongzhi gave another light wave!

Those breaths merged with a large number of golden Buddhist scriptures and tadpole texts, and a golden avenue was paved, extending towards the Xinghai area!

"The fate of the Xinghai domain group is over."

Monk Kongzhi took a step forward, the heavenly feet and supernatural powers were activated, and the golden Buddha statue instantly disappeared from the place!

When the giant planet-like Buddha appeared again, it had already reached another star field.

Immediately afterwards, Monk Kongzhi took another step, crossing a star field again.

Chapter 1878: Furious emptiness

Not long.

When Monk Kongzhi arrived in the star field closer to the star sea, he immediately found a large number of treasure hunting flying flying flying flying gliders!

"Humph!"

Monk Kongzhi had no mercy, and with a wave of his hand, countless treasure hunting flying flying flying ashes disappeared.

"Are you here!?"

"It's so fast!"

"Unfortunately, no matter how fast you are, you won't be able to arrive before the transition of the Xinghai domain group!"

Su Lang looked at Monk Kongzhi from the perspective of the treasure hunting flying flying, and a sneer was drawn at the corner of his mouth.

Just then.

Rumble!

Violent time and space fluctuations came from outside the formation barrier.

The countless turbulence of time and space has become more and more violent, like a terror tsunami.

"Time and space fluctuations!?"

"Could it be that the Xinghai domain group is making a leap!?"

Monk Kongzhi's complexion changed drastically, and he hurried towards the Xinghai domain.

however!

The speed of the turbulence of time and space is too fast.

In just a few breaths, it reached the critical point of the transition.

"Goodbye, Meteor Phoenix Great Thousand Territories!"

"Monk Kongzhi, next time we meet, it will be your death date!"

Su Lang looked at the outside of the large area of the Star Sea, staring at each other with Monk Kongzhi! next moment.

There was a twisting and flickering in the place where the Xinghai domain group was.

Immediately after.

The entire domain disappeared directly, leaving only countless violent spatial turbulence!

"Vertical!!"

"Even to jump at this time!"

Monk Kongzhi instantly opened his eyes and gritted his teeth.

The Arhat Buddhist Army is one of the strongest Buddhist troops under his command, and he has only three such subordinate forces!

At this time, all the groups in the Xinghai domain were destroyed!

And even let the other party run away, it's like stealing the chicken and losing the rice!

As the abbot of the Sky Temple, the monk of Kongzhi, a disciple of Buddha Mi Ling, and a too junior powerhouse, he has never suffered such a big loss.

This is simply a shame!

"Don't think you can escape!"

"Your destination is nothing more than the Heavenly Misty Continent!"

"As everyone knows, my Tianmi Continent has already opened up the passage to the Tianmen Continent."

"It's just that the main target of Tianmi Continent is the Tianxuan Continent. If you can't make a move, you don't have to deal with Tianmen!"

"But now, the Heavenly Jade Continent has fallen, and our Heavenly Mi Continent will immediately attack the Heavenly Misty Continent, the Star Sea region group, you will definitely perish!"

Monk Kongzhi roared in rage, and horrible energy fluctuations erupted from his body, rushing wildly around!

Suddenly.

Hundreds of light-years around the space shattered!

After venting his anger, Monk Kongzhi suppressed his anger and used Tianzutong again to start returning to Tianmi Continent.

And in Tianmi Continent.

Master Hui Jue and Monk Shi Yu looked at each other, their faces were very ugly!

The Xinghai domain group resisted their attack for the second time, and wiped out all the forces they sent.

This is simply hitting them in the face!

The terrifying killing intent spread from the two, even the sky sank!

at the same time.

Tianmeno outside the mainland.

In the vast void.

Rumble!

A horrible time-space fluctuation suddenly spread, sweeping across a range of hundreds of billions of light years.

Suddenly!

Countless experts on the Tianmen Continent were alarmed, and they all looked up at the void outside the realm!

"Time and space fluctuations!?"

"What exactly is going on?"

"How come there are such terrifying time and space fluctuations? Could it be that Tianmi Continent came to attack our Tianmen Continent?"

"This is impossible, the battle on the Tianxuan Continent is still going on!"

"Just probe it!"

"..."

A strong figure was surprised and guessed, and even the strong figure in the beginning began to deduct it immediately!

quickly!

A powerful person who is too junior has discovered a strange area shrouded by the turbulence of time and space!

The turbulence of time and space is very violent.

Even the eyes of those who are too junior are blocked, unable to see the scene inside.

"what is this?"

"A big world shrouded by the turbulence of time and space?"

"No, that's not right, this should be the large area group of the Star Sea suddenly wrapped in the turbulence of time and space!"

"..."

One by one the primordial powerhouse looked in the distance, watching the time and space turbulence that envelops the large area of the Star Sea gradually began to collapse.

[Chapter 1879: Arrived in Tianmen Continent](#)

at the same time.

The interior of the Xinghai domain group.

"The turbulence of time and space is beginning to collapse."

"Senior Zhaoyu left behind, after all, it is completely consumed."

"The Xinghai domain has completely lost the protection of the turbulence of time and space and needs to rely entirely on itself."

Su Lang looked far away and looked at the outside of the Xinghai Huanyu Array.

The space-time turbulence was over-consuming due to this last transition and could not be maintained, and began to collapse in large numbers.

"go with!"

"Explore what exactly is here."

With a thought, Su Lang immediately dispatched the eight disguised clones.

The reason why only eight avatars were dispatched was because they considered that this place was the Heavenly Misty Continent.

Although the situation of Tianmen Continent was pretty good in intelligence, it was also corroded by Tianmi Buddhism.

So everything is still careful.

After the avatars were dispatched, they flashed and teleported continuously, and they moved madly in all directions!

And this scene.

It also fell into the eyes of those too junior powerhouses on the Tianmen Continent.

"These are... eight quasi-primordial powerhouses?"

"Even though I have made a disguise, I can see that the appearance is the same, the aura is almost the same, it should be the clone of the strong from the beginning!"

"They are making space jumps at extremely fast speeds, and they should be detecting the surrounding environment."

"Look, the turbulence of time and space has completely disappeared, and the inner star field has appeared!"

"Seventy-two domains, it really is the Xinghai domain group!"

"I didn't expect them to escape here."

"..."

The too junior powerhouses who had gathered together looked at each other and talked a lot.

They saw through the details of Su Lang's avatars.

But I didn't feel much surprised, because they were more than eight quasi-prime avatars.

In the long years, everyone has created various clones, about fifteen or six.

The only thing that surprised all the early powers.

It is probably because of these clones that the Xinghai large area group has too low-level powerhouses.

The large star field group of stars is the barren star field on the remotest edge of the boundless universe.

Under normal circumstances, it is difficult for even the Supreme Emperor to appear in a star field.

But now, the emergence of too junior powerhouse is really shocking!

at the same time.

A clone of Su Lang gradually approached the Tianmen Continent.

The too low-level powerhouses of Tianmen Continent did not stop them, just watched quietly.

The other side.

Through the vision of the clone.

Su Lang finally saw the Tianmen Continent!

To be precise, it is the periphery of the Tianmen Continent.

The hollow sphere, which was thousands of times more vast than the star-sea domains combined, was quietly suspended in the lonely universe.

Inside it is an endless supercontinent.

Compared with this continent, the Land of Exile continent is simply a small mountain bag contrasting Mount Everest.

"This is the Tianmen Continent, right!"

"I feel it, familiar breath!"

"It's very similar to Blue Star, Mars and other planets!"

"However, this kind of breath is very weak, and it can't keep up with the 1% of the blue star, Mars and other planets!"

"Well, this is reasonable. After all, my ten life universes contain core fragments of the boundless world!"

A trace of excitement rose in Su Lang's eyes, and he finally saw the legendary boundless world!

Although it is one of the four continents of the Infinite Realm that has been broken for more than four billion years, it is not a complete Infinite Realm.

But Su Lang was still very excited. He was very curious, and wanted to know if there were those gods in the ancient Chinese mythology on the Heavenly Misty Continent!

but.

At this time, Su Lang could only roughly see the huge continent surrounded by the hollow sphere, it was impossible to see carefully.

"These small small continents that make up a hollow sphere are also scattered across the boundless land."

Su Lang's gaze turned to the small broken continents.

They have 100,000 small continents.

These small continents are big and small, small like the blue star, and big like the blue star.

They are formed by the collapse of the boundless land, not by the collapse of ordinary life planets.

therefore.

The rules on these small continents are not flawed, but rather perfect and possess the will of the world.

[Chapter 1880: One hundred thousand heavenly stars](#)

They form a spherical shape like an atmosphere, enclosing the Celestial Continent.

The world consciousness is also condensed into a whole, dominating all the small continents!

"Go and see!"

Su Lang thought, and the clone broke into a small continent.

The world consciousness did not produce any changes, as if nothing had happened.

In the heavenly continent.

The highest summit of a giant peak.

Several figures stood, looking at the stars of the sea.

"The clone from the beginning has entered the One Hundred Thousand Heavens Misty Stars!"

Said an old man with shiny black hair and wearing a blue robes.

"There is no change in world consciousness!"

A gray-robed man with an ordinary face said, "Sure enough, they are blood left over from the Infinite Realm, and they are human blood!"

"Hahaha!"

"Human blood, and there are too low-level powerhouses, which is really good!"

"If you give us some time, these human bloodlines will play a huge role!"

A middle-aged man wearing a loose robe and Confucian attire, with a mighty spirit and holding a folding fan laughed.

"Ok!"

"I just don't know if it is too late to cultivate the human race."

"Although the battle of the Heavenly Jade Continent is still going on, it will end soon!"

"At that time the war will spread to our Heavenly Misty Continent!"

"Although there will be other hidden early powers who will help."

An old woman with her hands on her back and a rickety body, as short as a dwarf, smiled, "But the more the number, the better. It's always a good thing to have one more powerful person!"

"Yes!"

"We are too crowded, I'm afraid that even Emperor Yuan Mingzhou can kill him!"

Another wrinkled, wicked old man smiled.

"You are good at having fun in hardship!"

The ordinary-faced middle-aged man glanced at the old man.

"What he said also makes sense."

"A lot of ants can kill an elephant, right?"

"..."

The others also looked at me and I looked at you, and laughed.

Smile a bit bitterly!

The appearance of Terran was originally a big surprise!

Because the human blood will be recognized by any world consciousness, and its mixed blood will also be recognized.

This is a kind of terrifying cohesive power, which can gather the power of other races in the Boundless Universe onto the Broken Continent of Boundary Boundary.

But now, time is probably too late!

Even if everyone is in control of the time rules, it is too late!

at the same time.

Su Lang's clone has already set foot on the land of that small continent.

This continent is about the same size as the Blue Star, and there are buildings engraved with arrays everywhere.

It seems that the entire continent has become a formation!

but.

Although this continent is small and looks like an array, there are still people living on it.

Great emperor-level powerhouses live here, and they are an organized army of warriors, led by a quasi-no-god-level and no-god-level.

"There are dozens of Godless Grades in a small continent!"

"Quasi-no-God-level and Great Emperor-level more!"

Su Lang raised his eyebrows, a hint of surprise appeared in his eyes, "Is the strength of the Heavenly Continent so powerful!?"

but.

He quickly understood why there are so many powerful warriors here.

After Quasi Taichu's clone disguised, he made some inquiries, and Su Lang got the information he wanted.

The 'atmosphere' to which this small continent belongs is the first layer of defense of the Celestial Continent, called the 'Hundred Thousand Heaven's Miscellaneous Stars'!

The group of 100,000 Celestial Misty Stars has become a powerful Grand Elementary Formation, guarding the Heavenly Misty Continent.

A large number of powerful warriors are stationed on each small continent.

And the 100,000 Celestial Misty Stars belong to the four major forces in the 'Heaven Misty Alliance'!

Among these four forces.

Among them, the two major forces are local forces on the Tianmen Continent, namely the Haoran School of Heavenly Confucianism and the Way of Returning Chaos to Truth.

The other two forces.

One is a family of divine beasts that escaped from the Tianting Continent, known as the Tianyu Demon Court.

One is the warriors who escaped from the Heavenly Jade Continent, forming the Heavenly Jade Army.

In addition to the 100,000 Heavenly Misty Stars, the Heavenly Misty Continent is also divided by the four major forces.

The Haoran School of Heavenly Confucianism and the Taoist Chaos Return to Truth occupy 70% of the land.

Tianyu Demon Court occupies 20% of the land.

The Heavenly Jade Army was formed not long ago, occupying only 10% of the land.
