

## One Click 1881

### [Chapter 1881: Context of the Infinity War to the present](#)

but.

Even if it is the weakest Tianxuan army, there are five too junior strong.

Tianyu Demon Ting has eleven too junior powerhouses.

The Haoran School of Heavenly Confucianism and Chaos Returning to the Truth have 15 powerhouses and 16 powerhouses, respectively.

There are forty-six masters from the early days on the face of Tianmen Continent!

but.

This amount seems considerable.

But it is the number of old antiques and rookies that have remained from the Battle of the Boundless World to the present.

It was also after the split of the boundless world, the only remaining powerhouses on the three major continents were too elementary.

The reason why there are so many powerful warriors on the small continent where the clone is located is also the result of years of accumulation by various forces.

In fact, in addition to the four continents of the Boundless World.

The Great Thousand Domain Ring and the Small Thousand Domain Ring add up definitely a large number of Quasi-Taichu and Supreme Emperors.

However.

The four continents of the boundless world are world-conscious.

It's like the landslide on this day.

Only the outermost 100,000-celestial celestial cluster cannot be entered by 'outsiders'.

Therefore.

The strong of the Great Thousand Domain Ring and the Small Thousand Domain Ring can hardly form support for the four continents.

Before the war of the boundless world.

The human race is just a relatively weak and intelligent race in the vast world of the boundless world.

In the battle of the boundless world.

The Boundless World was defeated, the Western \*\*\*\* system was completely annihilated, and the Eastern cultivation civilization suffered heavy losses.

At that time, the leader of the boundless world saw the advantage of the human blood.

So he wanted to help the human race to multiply and grow, and even expand toward the Great Thousand Domain Ring.

As long as it is a human race.

Can be accepted by any world consciousness of the boundless universe.

At that time, the power of the entire infinite universe will be truly integrated.

but!

These plans are all destroyed!

Emperor Yuanmingzhou also realized the power of the human blood and formulated countermeasures.  
then.

Tianmi Continent turned back halfway, and almost annihilated 99% of the human race!

The only remaining human races have also suffered persecution and have fallen in large numbers.

At that time, even the strong in the early days were constantly falling, and the strong without God was even more vulnerable.

Even if the human race hides in the life universe of the strong, it cannot escape the end of death.

The situation in Infinity is getting worse.

At that time, the leader of the boundless world was also defeated and dying in the battle with Emperor Yuanmingzhou.

That is, the battle, the boundless world is broken!

The leader of the boundless world knows that he is powerless.

Therefore, the remaining human races are used as a backhand, and at the expense of their own time and space avenue, life and universe, together with the core of the boundless world, they cast time and space alien exile.

This alien world of time and space is the universe where the solar system will be afterwards!

The core fragments of the endless universe have become the many planets of the solar system.

And the life universe planet of the strong leader collapsed and became other bright galaxies in that universe!

The leader of the boundless world fell behind.

Emperor Yuanming Zhou killed a large number of early powers, and even stopped and did more important things.

The remaining strong men from the early days fled one after another, spying on the four boundless continents in secret.

More than four billion years.

Emperor Yuan Mingzhou never appeared again.

As a result, some of the power of the boundless world began to recover and re-established a cultivation civilization to fight against the Tianmi continent left by Emperor Yuanmingzhou.

However, in recent years, Emperor Yuanmingzhou's activities have begun to become frequent, and he has even reached the Tianxuan continent from Tianmi continent.

Buddhism in Tianmi Continent also expanded everywhere.

Now that the Tianxuan Continent is about to fall, it is the turn of the Heavenly Jade Continent!

at the same time.

After billions of years, the space-time alien world where the solar system is located has become increasingly fragile.

In the end, at the edge of the boundless universe, it was discovered by the small Fengling tribe on Canglan Star.

So far.

Su Lang could see the development of the Infinite Realm War to the present more clearly.

That is, the battle between the boundless world and the Emperor Mingzhou, failed and broken.

Emperor Yuanmingzhou has been silent for billions of years, and has only started frequent activities in recent years.

And he moved.

Probably heralded the boundless realm, and even the real moment of destruction of the boundless universe was approaching.

#### [Chapter 1882: Receiving the Star Sea Group into the Heavenly Miao Continent](#)

"Emperor Yuan Mingzhou!"

"You achieved the goal of invading the infinite universe, are you going to destroy the infinite universe yourself?"

"You have been active during this period of time. Do you know that the time and space where the solar system is located has become weak?"

"Do you know about my existence?"

Su Lang squinted his eyes, and a deep sense of urgency emerged in his heart!

He didn't know how strong Emperor Yuanmingzhou was.

But he knew that he was definitely not the opponent of Emperor Yuanmingzhou!

"It must be upgraded as soon as possible!"

"Now, in accordance with the predetermined plan, contact the Heavenly Continent!"

"All the strong people above the Godless level gather!"

Su Lang issued an order to gather the powerhouses above the Godless level.

"Knock to the patriarch!"

Under the leadership of Yanxingxing and others, everyone saluted respectfully.

Compared with the title of human ancestor, the title of patriarch is closer.

So Su Lang told them not to call themselves ancestors.

Of course, those warriors whose cultivation bases are too weak, even if Su Lang let them do this, they are not embarrassed and feel that they are not qualified.

The entire Xinghai domain group has almost formed a consensus.

That is, only by becoming the supreme emperor can you call Su Lang the patriarch, otherwise you have to call him the ancestor!

It is their glory to be able to call Su Lang the 'patriarch'!

"Everyone is free!"

"Next, we are going to the Heavenly Misty Continent!"

"It's just that our planet has its own world consciousness and cannot integrate into the Heavenly Continent."

"But it is impossible to abandon the tens of thousands of planets in the Xinghai domain group."

"So I decided to put these planets into my pupil of ten thousand worlds!"

Su Lang looked around at everyone with a solemn expression, "Now, go down and tell everyone about this, and prepare for the price!"

"Yes! Patriarch!"

Yan Hingxing and others quickly took the order and communicated the order.

Suddenly.

The creatures of the entire Xinghai domain group are boiling!

"The Heavenly Continent!"

"We have arrived at Tianmen Continent!"

"The Tianmen Continent is one of the four continents formed by the center of the universe, the Infinity Realm!"

"Our human race is said to be the creatures of the boundless world, now we are returning to our homeland!"

"..."

Countless creatures are excited to talk loudly!

After three billion years of Big Bang development.

Through reproduction and other mysterious means.

At this time, all the intelligent races in the Xinghai large area group have the blood of the human race, which can be regarded as a branch of the human race.

Returning to the boundless land where the human race originated is really like a wandering home who has been wandering for countless years!

Therefore, everyone is very excited!

And a few pure blood tribes.

People like Yanxingxing, Xiao Ning, An Xin, and others, all have bright eyes and become more excited!

quickly!

Thousands of planets are ready for the seventy-two domains of the entire Xinghai domain group!

"It's my turn to do it!"

Su Lang appeared next to a planet, unleashing the power of space avenue and incense aspirations, condensing the space barriers like the life universe.

Immediately after.

Use the pupil of the ten thousand worlds to bring it into the pupil!

Because I was worried that the level of this technique of the Eye of Ten Thousand Worlds was not high enough.

So Su Lang deliberately strengthened it to the godless level!

Time is like a snap!

A few hours later.

Su Lang finally collected all the planets of the large star sea into the pupil of ten thousand worlds, just like those life universes before.

And through the profound meaning of the "Pupil of Ten Thousand Worlds" that is strengthened to the godless level.

The planets of these large areas of the star sea can perfectly sustain themselves in the artificial space barrier of Su Lang.

In addition to being unable to borrow the power of the world.

It cannot be used as an 'engine' to condense the power of distortion.

It was almost the same as the Shifang Life Universe in Su Lang's body!

In fact, Su Lang could also put these planets into the life universe of the clones.

However, he was worried that the clone would fall and the planet would suffer when the war later fought, so he denied this idea.

And after thinking of this.

He also immediately collected all the planets in the avatar universe into the pupil of ten thousand realms, such as the planet of the meteorite phoenix great thousand realms!

At this moment.

Su Lang's Eye of Ten Thousand Worlds immediately added more than 100,000 man-made life universes!

Each of these life universes is equivalent to a godless life universe.

The rest are weaker and smaller, and the universe of life captured from the enemy is as many as ten million!

Finish it all.

Su Lang flew straight towards the hundred thousand heavenly misty stars.

#### [Chapter 1883: Meet the Eight Great Taichu](#)

"The leader of Xinghai Domain is here!"

"He actually put away all the planets in the Xinghai domain group, this method is very good!"

"Hey, something is wrong, you see, this person is only at the quasi-primary level!"

"It's weird, the Xinghai domain group is not too junior, but those clones.....!?"

"Let's go, I'll see this person later!"

"..."

Standing on the top of the Tianmen Continent and talking about the people, after seeing Su Lang's realm clearly, they were suddenly surprised!

Su Lang is not the primordial power they expected, but a quasi-primary primacy!

Although quasi Taichu and Taichu are only a word difference.

But in their eyes, Quasi Taichu is not much different from other godless classes!

It was too early to describe it.

The quasi-prime period can only be described in mere mere words.

Said the old man with shiny black hair and wearing a blue robes.

The man in a gray robe with an ordinary face.

A middle-aged man wearing a broad robe and Confucian attire with a mighty spirit and holding a folding fan.

With her hands on her back, her rickety body, an old woman who was as short as a dwarf.

The old man with wrinkled face and wicked brows.

There are three other too low-level figures, one after another, stepping forward, crossing countless distances in an instant, and reaching the 100,000-day Misty Stars.

It was the small continent where Su Lang was about to settle.

Here.

Su Lang also flew into the One Hundred Thousand Heavens Misty Star Group very smoothly, and was preparing to settle down on the nearest small continent.

And at this moment.

His mind unfolds!

Actually saw the unfathomable figure of Eight Dao aura!

They were in a pavilion on the edge of a giant mountain cliff, and no one was sitting on a futon.

"They are...too junior strong!"

"A total of eight powerful men from the beginning, why are they here?"

"Could it be that I knew I was coming, so I waited for me here!?"

Su Lang raised his eyebrows, then opened everyone's attribute panel and looked at them one by one.

These eight people are indeed too junior.

In the attribute panel, the words from the beginning are extremely dazzling.

And at this time.

Only then did Su Lang know that too junior powerhouses were originally divided into ten small levels!

It is not the same as the Supreme Emperor's level using 'cross' to distinguish levels.

Those who are too junior use "Yan"!

Among the eight super-primary powerhouses in Su Lang Spiritual Mind, their strength is basically around Wuyan.

"Yan?"

"What does this mean?"

Su Lang's eyes showed the color of thinking.

And at this moment.

"Little friend found us!"

"Hahaha, little friends, come sit down!"

"We have been waiting for the little friends for a long time, come and sit down!"

"..."

The voices of those who were too junior and strong rang in Su Lang's ears.

The voice was soft and amiable, obviously treating Su Lang as a lovely junior.

"This....."

"It's really embarrassing!"

Su Lang twitched his mouth, then smiled and shook his head, and flew towards the pavilion on the edge of the cliff.

quickly.

Su Lang entered the pavilion.

Eight people were sitting on the benches surrounded by the pavilion, with a vacant futon in the middle, which was obviously prepared for Su Lang.

"Sit down, little friend!"

"It's really not easy for you to escape here with the Xinghai domain group!"

"Yes, if you change to me, it is really difficult to achieve this only with the quasi-primary cultivation base!"

"..."

The powerhouses in the early days looked at Su Lang, showing appreciation.

"Your elders have praised!"

"The juniors come to the Heavenly Misty Continent, and they are planning to meet with you seniors."

Su Lang calmly sat on the futon in the middle, "I wonder if the younger generation can enter the Tianmen Continent and fight against the Tianmi Continent and Yuanmingzhou Emperor?"

This statement came out.

All the strong from the beginning suddenly smiled!

"of course can!"

"Even if the little friend is not willing, I will leave you behind!"

"Hahahaha!"

"..."

The first strong people said, the smiles on their faces became even worse.

"that would be great!"

"If the Mi Continent is extremely rampant today, I will definitely lead the Xinghai domain group to resist!"

Su Lang solemnly promised to a group of early powers.

but.

At the beginning, all the people looked at each other, thinking in their eyes.

#### [Chapter 1884: You are a little madman!](#)

"Little friend."

"The destiny of the Tianmen Continent is controlled by the powers of the too junior."

"If those of us who are too elementary fail, other forces will have no effect at all."

"You are only at the quasi-primary level now, and the human blood cherishes it, it is the hope of the boundless realm and the entire boundless universe."

"So, we don't want you to take risks with the human blood of the Xinghai domain group, you should keep it as a backhand!"

"..."

After each of the early powerhouses looked at each other, they persuaded Su Lang one after another.

In fact, what they said was reasonable.

The real decisive force in the Battle of the Boundary Realm is the too junior powerhouse.

The rest of the warriors are nothing but cannon fodder!

Human blood can condense the power of the boundless universe, but time is too late.

Therefore, the plan of the early powerhouses is to let the blood of the race continue to lie down!

however!

Although Su Lang knew this, he knew better that his current weakness was temporary!

It doesn't take long for him to immediately become a strong one at the beginning and cultivate more strong ones at the beginning!

It should be known that there are only more than forty Taichu statues in the entire Tianmen Continent.

And once Su Lang grows up to the primordial level, he will be able to cultivate five hundred primordial powers that day!

and so!

"Seniors!"

"I know this is your deliberate plan, and it makes perfect sense."

Su Lang looked at the eight powers from the beginning and said, "However, I still want to lead the human race to participate in this battle."

"the reason?"

The middle-aged man with an ordinary face asked briefly.

This person is named Miao Mingyuan, the strongest present, Liu Yan Taichu!

The other two junior experts did not speak, but they all stared at Su Lang closely.

Su Lang was not as humble as they expected, and bowed his head to them.

Instead, he was calm and even dared to refute!

This is unexpected!

So they all wanted to see what was the name of this quasi-primary powerhouse, who had the confidence to say such things.

"There are two reasons."

"In the last Infinity War, the human race survived as a backhand."

"And this war must be the last one, and there is almost no possibility that the human race will continue to survive!"

"After Emperor Yuanmingzhou succeeds in his goal, he will surely destroy the entire infinite universe. At the end of the day, all his backhands are empty!"

"So I don't want the Human Race as a backhand, continue to linger, and eventually shrink and perish in the corner!"

Su Lang looked around at the crowd, his voice was clear, his speech was clear, without the slightest fear.

"This...it is true."

"But the current strength of the human race cannot play any role in the war."

"Your human race is participating in the war, only to perish yourself. It's better to hide and fight for the glimmer of hope."

The middle-aged man wearing a generous Confucian robe and holding a folding fan slowly shook his head, scornful of Su Lang's statement.

The rest are basically the same.

In their opinion, Su Lang gave up that glimmer of hope and took the human race to participate in the war, which is simply killing himself.

Although courage is commendable, it is done by a reckless man, not desirable!

"Haha!"

"This involves the second reason!"

Su Lang didn't feel apprehensive because of the dissatisfaction of the early bosses, and laughed.

"The second reason?"

The wicked old man smiled and asked, "How else can you toss?"

"toss?!"

"Haha, soon, I will be able to toss out five hundred too junior powerhouses in one day!"

Su Lang smiled, "I know you seniors don't believe it, but this is a fact!"

This statement came out.

Everyone suddenly looked stiff!

The expression on his face immediately solidified!

What the hell?

Toss out five hundred too junior powerhouses in one day, this is simply a fantasy!

They dare not do it in their dreams!

"Little friend!"

"Your words are unbelievable!"

"You know that we have accumulated strength for so long, and now there are only forty or fifty statues in the beginning."

"A quasi-prime primacy wants to break through to the primal primacy level, it's all luck, one millionth of a millionth of luck!"

"The rules of time are not something you can comprehend by working hard!"

"You make five hundred Taichu in one day, you are not a little friend, you are a little madman!"

[Chapter 1885: This son has been stunned!](#)

"..."

All the junior experts looked at Su Lang in astonishment, some still patiently persuaded them, some looked gloomy and kept shaking their heads!

Some are even a little angry!

"Quasily the beginning!"

"Thinking that if you can command a star field group, do you dominate? Can you do whatever you want?"

The old woman with a short stature like a dwarf stared at Su Lang in disgust, "You are so ridiculous, but I am still happy because the human race returned!"

This person's name is Ma Shan, who is jokingly called Ma Shan Tai Po.

"Yes!"

"Extremely ridiculous!"

"You make five hundred Taichu in one day, why don't you say that you can press the Death Origin Emperor Mingzhou with a single finger?"

The thief-eyed old man also glanced at Su Lang, his face full of impatience.

This person's name is Shu Da, who is jokingly called Shu Da.

Although the others behaved better.

But they are almost the same. They think that Su Lang is simply too arrogant, and he is not afraid of getting his tongue out of the wind when speaking big!

"I have already said."

"I know you seniors don't believe it."

"But I will prove this with facts."

Su Lang smiled and stood up, "Now, please ask seniors to arrange a place to stay for Human Race!"

"Where to stay?"

"My life is the safest in the universe!"

The black-haired old man wearing a cyan robe said coldly, "I won't allow you to take the human race to death!"

This person is Qin Song who is chaotic and anti-truth, Wu Yan is too elementary power!

"Not bad!"

"Little friend, hand over the human race!"

"And you, as a human genius, we won't let you die in vain."

The middle-aged man wearing a toga-robed Confucian uniform, with a mighty spirit and holding a folding fan smiled, as if he had taken Su Lang.

This person was named Jiang Wenzheng, and he was a powerful person in the Wuyan Taichu of the Tianru Haoran School.

"Hurry up, kid!"

"Leave the human blood to us for safekeeping, you can't take them to death!"

"..."

The rest of the early powerhouses nodded and persuaded them.

"Seniors!"

"It is impossible for me to hand over the human race."

"In addition, what I said is true. I can really cultivate five hundred strong men from the beginning in one day."

Su Lang said with a serious look, "Although it is only the beginning of Yiyan, but it can definitely play a huge role in the battle!"

"Hi!"

"Don't blow, don't blow, the Heavenly Misty Continent has been blown away by you!"

The thief-eyed old man waved his hand impatiently, "Hurry up, hand over the human blood creatures to us, and those life planets, we know that you have put away the Xinghai domain."

"Not bad!"

The gloomy old woman said coldly, "Little friend, we are not joking with you!"

"No way!"

"I will never promise you!"

Su Lang smiled bitterly and shook his head, "Give me one day, I promise you will see the facts!"

"It's a pity, this child has been stunned!"

The green-robed, black-haired old man sighed and stopped looking at Su Lang.

"You are still stunned!"

The wicked old man threatened, "Be careful, I knock you out and put a sack!"

"Don't don't!"

Su Lang waved his hands again and again, but could not persuade everyone.

He felt bitter. He had known that he would not tell these seniors.

at this time!

Rumble!

A burst of terrifying time and space fluctuations suddenly came!

This kind of temporal and spatial fluctuation is even dozens of times stronger than the time when the Xinghai domain group transitions!

"not good!"

"Someone is breaking through the time and space we set!"

"Damn it, such a terrifying movement must be the offensive gang of dogs in Tianmi Continent!"

"How can it be so fast? It should be a few years before it is supposed to be right!"

"do not know!"

"..."

The expressions of the strong from the beginning changed wildly, even showing some fright!

"Quickly, gather the strong from the beginning to make up for the time and space!"

"If the time and space sky moat is destroyed, the army of Tianmi Continent will formally invade the Tianmen Continent!"

"Be careful of traitors and undercover agents! Tianmi Continent has eroded us for many years!!"

[Chapter 1886: This is about to enter the battlefield!](#)

"..."

After everyone was horrified, they immediately began to gather strength to resist!

"What about this little guy!?"

Shu Da's eyes fell on Su Lang's body.

Grandma Mashan immediately scolded: "Aren't you going to put the sacks? Quickly install!"

"Good good!"

"Pretend now! Pretend now!"

Shu Da grinned and looked at Su Lang coldly, "Don't resist!"

When he finished speaking, he waved his hand, his sleeve turned into a sack, and he wanted to take Su Lang into it.

"It's strange if you don't resist!"

Su Lang's mouth twitched, he didn't want to be put into his sleeve by Shu Da.

In an instant!

Su Lang drew out the Youtian Sword and the Godless Dragon Terrace, and the eight-sided shield of the sky came out!

Boom!

The incomparably vast and distorting power burst out immediately!

It must be known that the Youtian Sword has reached the level of the 16th-level Godless Level, which is more than half of the ordinary quasi-taichu!

Godless Dragon Terrace and Tianjiao Eight-Led Shield are not vegetarian either, they are both at level 14!

At this time, all came out, and the condensed twisting power was simply appalling!

Anyway, the eight primordial powerhouses present have never seen this kind of quasi-primary power!

In a flash!

Su Lang's twisting power collided with Shu Da's supernatural power.

There was a boom.

Shu Da was shocked!

Of course, he didn't actually make a full shot, and he didn't use one-thousandth of his power.

Because he was still more worried about hurting the human genius like Su Lang.

But even so!

Shu Da was still stunned in shock!

The rest of the early powerhouses were also extremely shocked.

"What kind of weapon are you?"

"This quasi-primordial weapon is so terrifying!"

"This is a powerful weapon between Yu Zhuntaichu and Yiyang Taichu emperor soldiers!"

"Who can refine such a weapon is incredible!"

"There are so many weapons like this that it can almost fight against Yiyang Taichu!"

"..."

For people like Jiang Wenzheng, Qin Song, etc., it is almost hard to fluctuate their xinxing.

But at this time, stormy waves have risen one after another!

"Ahem!"

Su Lang gave a light cough and laughed, "This is actually a weapon I made by myself. It's a shame!"

"You refined it yourself!?"

"It turns out that you are still a craftsman close to the beginning level, grab him, don't let him die!"

"Hurry up! This is a big baby!"

"Will he be talking big again?"

"Follow him, catch it first!"

"..."

Everyone stared, and immediately they were about to catch Su Lang again.

"Seniors, you should go to the sky at that time!"

Su Lang hurriedly waved his hand, "I promise, I will never run around, I will stay here!"

"No way!"

"You can't be here! The Heavenly Misty Continent is not absolutely safe!"

"Since you don't want to get into Shu Da's sleeve, just join us."

Qin Song looked serious, and grabbed Su Lang's arm, "But don't be dead, don't leave me within a mile!"

"Yes!"

"And never let the human blood out!"

"You have to cover up your breath yourself!"

"Walk around, go to the time and space, Zeng Baoyu and the others have passed!"

"..."

There was a lot of discussion among the strong in the early days, leading Su Lang to leapfrog the space and move forward.

"I go!"

"I have just settled in the Tianmen Continent for less than ten minutes!"

Su Lang's mouth twitched, and he was planning to take a day off, and he was about to go to the battlefield! ?

Although I just went to see and be a war reporter, I was also on the battlefield!

He is only at the quasi-primary level now, so he is still afraid of it!

But now the attention of all the primordial lords has all fallen on the space-time sky moat!

The huge vibration from the sky through the time and space.

Everyone knows that Tianmi Continent is definitely here for real!

The war of too early level is really about to start!

I don't know how many creatures will die this time!

The powerhouses of the primordial age looked solemn, and constantly shuttled through the space.

After more than a dozen breaths, I finally arrived at a moat composed of time and space turbulence!

At the beginning level.

Everyone is satisfied with the other road rules.

At this time, the competition is the rule of time!

There are only time rules that can stop the too junior strong!

[Chapter 1887: It's not because of him!](#)

Rumble!

The vast expanse of estimation void.

Countless turbulence in time and space has formed an endless moat.

Countless turbulence in time and space roared turbulently.

This is much more terrifying than the turbulence of time and space around the large area of Xinghai!

This is the space-time and sky-grass created by the great powers of the past dynasties of Tianmen Continent!

There are even a few powerful people who cannot survive voluntarily sitting in them.

With its own space-time avenue and life universe, it creates more space-time turbulence and vast space, opening up the distance between the Heavenly Continent and other continents.

And the time and space sky.

It's like the Great Wall of China that lies between the Central Plains and the Xiongnu.

Day after day, year after year, it guards the Tianmen Continent.

Compared with the 100,000-sky constellation, the space-time sky grab is the first line of defense in the true sense.

Today, it has almost changed from a man-made line of defense to a natural cosmic dangerous place.  
at this time.

In the turbulence of time and space, it can be seen that a powerful existence is constantly using the rules of time to smooth it out into a road!

In fact, if you want to sneak into the Tianmen Continent.

Some are too junior and strong can do it.

But if the sky and the sky were not destroyed at this time, the early powerhouses who sneaked into the sky and the Continent would have almost no way out.

Moreover, the goal of everyone is not only to occupy the Heavenly Misty Continent, but also to open up the passage between the two.

Instead of venturing into the Heavenly Continent to fight, and after victory, you can open up the space-time and heaven.

It's better to open up this road when the war starts, so you can advance or retreat, and support faster!

and so.

The powerhouse of Tianmi Continent chose to start and destroy the time and space sky trench!

At this moment.

Dozens of powerful and junior experts in Tianmi Continent are constantly calming the turbulence of time and space.

On the Tianmen Continent, Qin Song, Jiang Wenzheng and others have already joined Zeng Baoyu and others in their mouths.

All forty-six super junior powerhouses are gathered!

Apart from anything else, he also moves towards the time and space and creates more time and space turbulence!

"The other party doesn't seem to have many people!"

Qin Song looked into the space-time Tianmo in the distance, with a trace of doubt in his eyes.

"Perhaps because the war on the Heavenly Jade Continent has not completely ended."

Jiang Wenzheng thought for a while and said, "So they didn't gather all of their too junior powerhouses."

"It should be like this."

Miao Mingyuan said, "Now that these people want to break through the time and space, it is not a temptation."

The others also nodded one after another, and immediately breathed a sigh of relief.

The other party did not swarm up, giving them some time to prepare for the Tianmen Continent.

And prepare.

In fact, they gave the order when they set off.

But the people below can't keep up with the beginner's pace, so it takes time.

Everyone sighed slightly.

There was also an extra 47th person who had been noticed by the early powerhouse, Su Lang!

"what!"

"Why is there one more person? Isn't the young man quasi-beginner?"

"What is the excitement of coming here at the time and sky and the sky? I don't understand the rules of time!"

"That's right! Qin Song what are you doing?"

"..."

The early powerhouses who had never seen Su Lang suddenly became interested and kept looking at Su Lang.

"You can't tell by yourself?"

Qin Song glanced at Zeng Baoyu and others and smiled faintly.

"Ok!?"

"This person...is it a human race!"

"Yes, didn't the Xinghai domain group jump over before, I didn't go to see if something happened!"

"I didn't expect Qin Song to take this child by his side, and he takes it seriously!"

"Of course we must pay attention, the human blood is the hope of the boundless universe!"

"If the human blood had spread, our situation will definitely not be so difficult at this time!"

"..."

At the beginning, the audience looked at Su Lang's eyes shining, and they kept talking, quite excited.

"but!"

"Human blood is so important, this son should be better protected!"

Zeng Baoyu looked at Qin Song and asked strangely, "Why do you want to stay by your side? This is a place where you can come only when you are too junior."

This statement came out.

The rest of the early powers also looked at Qin Song curiously.

"Humph!"

"Not because of him!"

Qin Song snorted and waved his hand, "If you want to know more detailed reasons, ask him yourself!"  
then.

The eyes of more than thirty powerful people from the beginning have shifted to Su Lang's body!

[Chapter 1888: He really dared to say it again](#)

This is if other people are being stared at by so many early powers.

I've been panicking a lot.

After all, these early powerhouses existed at the top of the entire Tianmen Continent.

Even in the entire infinite universe, it is also a top powerhouse.

But Su Lang is absolutely worth it!

"Junior Su Lang, I have met all of you seniors."

Su Lang looked at Zeng Baoyu and the others, smiled and bowed to them.

"Old man Qin said you are stubborn?"

Zeng Baoyu looked at Su Lang curiously, "What's the matter?"

"Hurry up!"

"I have never heard of anyone who dares to slap in front of Old Man Qin, and then there are good fruits to eat!"

"Yes, yes, that old man has always been so bad, he is very careful!"

"..."

The rest of the primordial powerhouse also looked at Su Lang with interest, and they were still joking Qin Song.

They are really curious.

What did this quasi-primary young human race say to Old Man Qin and them?

"Uh, it's actually not a big deal."

Su Lang looked at everyone and smiled, "It's Senior Qin and they forbid me to participate in this day's Battle of the Continent. They want me to continue to lead the human race!"

"Oh!!!"

"Then you are young and unwilling!"

"You have to participate in this day's battle of the Miao continent!"

Zeng Baoyu smiled dumbly, "You're already stubborn!"

The rest of the early powerhouses also nodded one after another, saying that Su Lang should lead the human race to continue.

"The disaster of extinction is coming."

"Where does the human race have a chance to continue lurking!"

"What's more, with me, the human race doesn't need to continue lurking at all!"

Su Lang looked around the crowd and smiled faintly, "Because of me, I can create 500 powerhouses in the early days!"

This statement came out!

All the early powerhouses in the audience almost forgot to instill the power of time and space into the space-time sky trench!

Not only Zeng Baoyu and more than thirty powerful people from the beginning were stunned as if they were struck by lightning.

Even Qin Song and others, who have experienced it once, couldn't help holding their foreheads with their hands, with a face full of helplessness, as if they were saying

—Look, he dare to say it again!

"You, what did you say!?"

"You can make five hundred primaries in one day!?"

"Oh my God, you can really blow, not only the Heavenly Continent, but the entire infinite universe will blow it up for you!"

"Little friend Su, are you experiencing a mental problem?"

"Little friend, my pill, which is too elementary, was finally refined, try?"

"..."

Zeng Baoyu and other early powerhouses recovered from the shock, and you talked about each other.

Everyone looked at Su Lang's eyes with something wrong.

"Seniors!"

"I know you all don't believe it!"

Su Lang laughed, "But wait, you will soon be able to see a master who is too junior!"

"Crazy crazy!"

"It's a pity, what a good young man!"

"Old Qin, who of you is good at alchemy, show me Su Xiaoyou!"

"Who said before that he had a pill of the beginning, take it out soon!"

"..."

Zeng Baoyu and the others looked at each other, and immediately the urge to hold their foreheads with their hands rose in their hearts.

"Humph!"

Qin Song glanced at Su Lang, "After this battle, I will treat this little guy immediately!"

He decides.

After resisting the temptation of Tianmi Continent this time.

Just summon the trustworthy powerhouse to pack Su Lang and the human blood together, and continue to go on as a backhand.

"Ugh!"

"You just don't want to listen to the younger generation."

Su Lang, like all the early powers, helplessly lifted his forehead with his hands.

"You kid..."

At the beginning, the strong men could not help rolling their eyes when they saw this scene.

They have lived for so long, and they have been serious and self-disciplined one by one. They have seen Su Lang's temperament there.

But they did not know.

In fact, Su Lang's character is not detached, and sometimes even worse than them.

And all the 'big talk' he is talking about now is just the big truth.

It's just that this is indeed a bit scary, a bit exaggerated.

"Never mind!"

"After waiting for a while, after refreshing the number of one-key empowerments, they will be able to show them unexpected scenes!"

Su Lang touched his chin, a slight smile was drawn at the corner of his mouth.

#### [Chapter 1889: Quasi-primary](#)

Rumble!

In time and space.

A powerful figure is constantly opening up a smooth path in the turbulence of time and space.

Qin Song and others are constantly adding time and space power to the time and space sky moat to prevent the invasion of the Tianmi continent powerhouse.

Time passed slowly.

Su Lang watched Qin Song and other forty-six primordial elders struggle hard from the side, but he himself was a little bored.

It is too boring.

His eyes fell on his life universe.

At this time, Su Lang's universe of life is very vast!

Among ten life universes.

The planet formed by the core fragments of the Boundless World is covered by countless treasures, and every inch of the entire planet is a coveted treasure!

And in the pupil of ten thousand worlds.

The avatars of Su Lang's free time continue to use the "Nine Lands of Taoism" to convert a large number of ordinary lands into treasure lands!

More than a hundred quasi-too-junior powerhouses worked together, and the effect was really leveraged.

Often a treasure can be created in a short time!

Of course, these treasures are only the most inferior, and they need to be continuously improved.

"Construct Moon Mother Nest!"

Su Lang thought, his consciousness sank into the Tai Sui world, calling out.

"The lower servant knocks on the Lord!"

The moon moth immediately bowed down and looked extremely grateful and excited!

She has always guarded the Tai Sui world and helped Su Lang manage the civilization development of this world.

And Su Lang has not been in contact with her for a long time.

Even if she was upgraded, she would directly issue instructions to let the system evolve her.

therefore.

Su Lang personally called out, which made her extremely excited!

"The Lord's missing did not forget the servant!"

Yue Mo thought so in her heart, determined in her heart that she must make achievements for Su Lang.

Just then.

Su Lang's task was given.

"Moon Moth."

"The Tai Sui World is basically on the right track."

"Now I plan to develop the other nine universes at the same time."

"Of these nine universes, eight worlds are almost blank."

"They, like Tai Sui Universe, have infinite potential!"

Su Lang stared at the mother's nest of the moon, "Can you develop eight universes at the same time?"

"The servant can do it!"

The moon moth immediately replied excitedly.

Su Lang took out a universe for her to supervise and develop, she was very satisfied.

At this time, she took out a whole eight brand-new universes for her to supervise the development. What kind of trust is this!

While developing eight universes at the same time.

If she was the previous one, she definitely couldn't do it.

But now the Moon-Constructing Mother's Nest has not only been evolved to Qidu Godless Level by Su Lang.

And it also swallowed a large number of soul fragments of Godless and Great Emperor-level experts, and I don't know how many spores can be produced!

"Just do it!"

Su Lang asked with a smile, "Then what do you plan to do specifically?"

"The body of the servant can be divided into eight sub-body!"

Yue Mo replied respectfully, "These eight descendants are completely under the control of their servants and can supervise the eight universes at the same time!"

"it is good!"

"In order for you to better develop the eight universes, I decided to strengthen your evolution to the quasi-primary level."

Su Lang nodded slightly, and immediately issued a system command in the moon moth's stunned expression.

In a flash.

System prompts came one after another.

The mother's nest of the moon was first evolved to the Badu level.

Soon it was strengthened twice by enhanced functions, reaching the quasi-primary level!

"The moon moth thank you Lord Longen!"

The inspiration of the device of the mother's nest of the moon burst into tears, and he immediately bowed to Su Lang's five bodies.

"Get up."

"Now separate the sub-body!"

Su Lang smiled faintly and ordered.

"Yes!"

The moon moth took its command and immediately used its methods.

Suddenly.

She suddenly separated eight sub-bodies of approximately the same size on her body, taking advantage of Su Lang's presence.

"go with!"

Su Lang's thoughts moved, and these eight sub-body suddenly appeared in other life universes.

In fact, life adapted to the environment has already appeared on the life planets in these universes.

But it is too early for the emergence of intelligent creatures.

If it is natural development, it will take hundreds of millions of years.

[Chapter 1890: Develop life, universe and wisdom creatures](#)

At this moment.

The eight daughters of the mother's nest appeared on the eight life planets.

Immediately start producing Evolution Spores!

As soon as these spores appeared, they developed many times faster, and quickly evolved into countless creatures, opening the era of the Big Bang!

Just like the original Tai Sui universe.

The planets in the universe of life, such as the Enchanting Universe, the Morning Star Universe, and the Qiming Universe, have all begun to develop rapidly.

The main body of the Mother's Nest is in the Tai Sui universe. Because the ten universes are connected to each other, she can easily control the eight children.

As for the tenth universe?

The moon moth didn't even dare to think about it, and didn't dare to transcend anything at all.

"Good development!"

"The ability to control the speed of spore evolution is even more terrifying."

"These spores evolve tens of thousands of times faster than before, and they have developed a large number of creatures in just a few breaths."

"Wisdom creatures have also begun to appear, and will soon be the protagonists of the times, ruling the entire planet!"

"And they will also provide me with countless incense aspirations and humanity!"

Su Lang watched his life universe from the perspective of God, and nodded with satisfaction.

The development of the universe of life is very troublesome.

With the mother's nest, I don't know how much more convenient it is!

I am afraid that other too junior powerhouses will be envious when they see it!

"The other nine universes are gradually on the right track."

"The most basic and important Dantian universe also needs development!"

"Blue Star is the most cherished Core Fragment of Infinity Realm!"

As Su Lang thought, he looked at Blue Star.

At this time, the blue star was still empty, with only the White Jade Emperor Palace and a few creatures.

"It's time to migrate the human race to this place!"

Su Lang's thoughts moved, and in the pupils of the Ten Thousand Realms, the planets that originally belonged to the Xinghai domain group suddenly remembered his voice!

"A creature of the blood of all races."

"The warriors who meet the standard next will be moved to Blue Star soon!"

This statement came out.

Countless creatures are boiling!

"Oh my God!"

"Blue Star? Can we enter Blue Star cultivation?"

"It is said that the rules of that place are manifested, and they can easily become holy and even become emperors!"

"Blue Star, the legendary second place of origin of the human race, I must go in."

"Just don't know what is the standard among the people's ancestors?"

"..."

Under a certain statue of Su Lang on a planet, a lot of warriors talked a lot, and the whole square was like a boiling pan!

And such a scene.

There are countless on one planet!

And there are more than 10,000 planets in the Xinghai domain group!

It can be seen how terrifying the number of creatures cheering for him!

at the same time.

Yanxingxing also received Su Lang's order to select the most loyal people and enter the life of Blue Star!

Correct.

Mainly loyalty.

Qualifications are secondary.

then.

Yan Hengxing immediately contacted Su Lang's other old men of the human race and took this matter as a top priority!

They personally spread the human race to the large area of the star sea, and they know every star area and even the planet!

It is not suitable for Yanxingxing and others to do this thing!

Here.

Take advantage of Yanxingxing to select the human blood creatures that meet the requirements.

Su Lang began his second expansion of the universe of life.

But before that.

He has to do another thing first.

"system!"

"Give me enhanced Chaos and Dark Eclipse!"

With a thought, Su Lang gave instructions to the system!

"Ding! Consumption... "Chaos and Dark Eclipse" enhancement +1!"

Suddenly.

This high-level exercise was once again elevated.

It has directly reached the top level among the Godless-level exercises.

"You can start!"

Su Lang clicked the corner of his mouth and immediately began to operate the Chaos and Dark Eclipse technique!

Suddenly.

Ten life universes have changed at the same time!

Outside the crystal wall of every living universe, the infinite chaos began to melt away continuously.

Pieces of blank areas appeared.

These are the areas where the universe of life can expand!

next moment!

The crystal walls of the universe of life began to expand, taking these expanded blank areas as their own!
