

## One Click 1891

### [Chapter 1891: On the importance of laying the foundation](#)

The last time Su Lang used Chaos and Dark Eclipse.

Each of the ten living universes has only increased by a tenth of its area.

Although it is not small.

After all, the ten regions of expansion of the universe are added together, which is equivalent to an extra life universe!

But this time the expansion is bigger!

The volume of each living universe has expanded by a full half on the previous basis!

It is the sum of the expansion of the universe.

Su Lang is equivalent to five more life universes directly!

"Lying down!"

"Awesome!"

"With these newly added areas!"

"My cells that have not yet merged with the soul can continue to merge and become crystal wall cells!"

Su Lang's eyes were bright and excited.

Although his current realm has reached the quasi-primary level.

But it is different from other quasi-taichu.

Su Lang's body cells are too numerous.

Even if he has ten life universes, he can't integrate into all the soul cells!

In other words.

Su Lang's ceiling is too high.

The previous breakthrough was considered an incomplete breakthrough, and it did not allow him to reach his own quasi-primary peak state.

If you are promoted to the primordial level at this level, it is not perfect!

"system!"

Su Lang suppressed the excitement in his heart and asked, "Can I consume the cultivation base to merge the soul body and soul?"

"Ding! The host can use the cultivation base to fuse the soul body cell and the soul space!"

The system prompted Su Lang to breathe a sigh of relief immediately.

If you can't use the cultivation base for fusion.

He can only run the exercises by himself, which will consume a lot of time.

And now.

Just consume the repair base!

"It's so beautiful!"

"System I really love you so much!"

Su Lang smiled, and immediately ordered, "Quickly, consume the cultivation base to integrate the remaining soul body cells into the soul!"

"Ding! The fusion begins!"

Accompanied by the appearance of system prompts.

Countless cultivation bases suddenly poured into Su Lang's body from the sea of cultivation bases!

Immediately after.

Ten lives around the universe.

Those soul body cells that have not yet merged with the soul begin to merge immediately!

Each cell merged with the soul and became a crystal wall cell, containing a majestic space, almost like a small world!

as time flows.

One cell, ten million cells, one hundred billion cells...

Countless cells became crystal wall cells.

gradually.

Eighty-two gai cells melted into the soul.

That is, the number of fused cells is about the same as when breaking through the Quasi-primary level.

So far!

All the ordinary soul body cells in Su Lang's body have all been integrated into the soul.

The soul body and the soul universe are completely integrated!

A feeling of incomparable perfection and completeness came to life!

"My combat power directly soared to twice what it was before!"

"Even if I don't use weapons at this time, I can blast the ordinary quasi-primary powerhouse!"

Su Lang felt the majestic twisting force in his body, and an excited smile appeared at the corner of his mouth again.

The higher the level is now.

The more he tasted the sweetness of laying a solid foundation.

Although the cultivation process is a bit 'harder', the gains are simply terrifying!

And Su Lang could predict it.

With his solid foundation, he can definitely exert greater power in a higher realm!

"On the importance of laying the foundation!"

Su Lang chuckled, and then he was about to run the Red Underworld Purple Qi to store the twisting power.

But at this moment!

Rumble!

In time and space.

The offensive on the Tianmi Continent suddenly strengthened!

Extremely terrifying time and space fluctuations came from it, making Qin Song and other early powerhouses look wild in an instant!

"This kind of fluctuation..."

"There are more early powers on the Tianmi Continent!"

"Damn it, an attack of this intensity must not be performed by a hundred powerful masters working together!"

"They can have so many early powers!?"

"What exactly is going on!?"

"..."

Qin Song, Jiang Wenzheng, Zeng Baoyu and others all looked gloomy and their pupils shrank suddenly.

A sense of crisis came, making them tense and standing upside down!

"I fork!"

"What's wrong, why did the opponent's attack suddenly become so much stronger!?"

Su Lang was also surprised, looking at the turbulent flow of the sky.

[Chapter 1892: Something happened to the Tianmen mainland](#)

However, in the turbulence of time and space, dozens of extremely large figures are faintly visible.

The size of these figures is so terrifying that they are comparable to planets!

"It's a family of divine beasts!!"

Suddenly someone shouted loudly and furiously, "They actually mobilized the beasts of the Tianting Continent!"

"hateful!"

"Are the sacred beasts of the Tianting Continent finally surrendered!?"

"I originally thought it was only the strong stars around the Tianting Continent who had surrendered. I didn't expect that the too low-level sacred beasts in the Tianting Continent would also help them to abuse!"

"Damn it, Tianmi Continent has these sacred beasts to help, it is enough to open the path of time, space and sky under our resistance!"

"Yes, although the time is longer, it is impossible for us to stop it!"

"It's over, our Heavenly Misty Continent is over! Although I knew that Heavenly Misty Continent would not be able to withstand the steps of Emperor Yuanmingzhou after all, I didn't expect it to come so fast!"

"..."

Qin Song and others all showed bitterness and despair!

And just when everyone was in despair.

Greater blows followed!

Rumble!

Waves of terror came from the Heavenly Misty Continent.

That turned out to be the power of the beginning level!

"not good!!"

"Something happened to the Tianmen mainland!"

"It must be the undercover Tianmi continent that has eroded in!"

"Can the back hand we leave behind can withstand it!?"

"Our back-hands have already suffered. They have sneaked into 28 Buddhist monasteries!"

"This was premeditated, and other latent resistance forces are too late to support us!"

"They killed it, it's over, it's over!"

"..."

All the junior powerhouses looked back at the Tianmen Continent, with even more despair in their eyes!

There are only forty-six of them.

And the other party just sneaked in, there were twenty-eight figures, more than half of them!

Coupled with the turbulence of time and space, the Tianmi Continent Buddhism powerhouse and the Tianting Continent divine beast clan.

The opponent's too junior powerhouse at least exceeds a hundred!

Such a terrifying number.

They can't stop it at all!

Just then.

Streams of light flew from the direction of the Heavenly Misty Continent!

It was those twenty-eight powerful men who had eroded the Heavenly Continent secretly.

They formed a huge elementary formation, rushing towards Su Lang with a sneer on their faces!

"Lying down!"

"This is the rhythm of conquering the Tianmen Continent in one fell swoop!"

Su Lang looked at the space-time sky moat behind him, and at the twenty-eight powerful men from the beginning, the corners of his mouth twitched!

"Hahahaha!"

"Donor Qin Song, Donor Jiang Wenzheng, don't resist!"

"With us dragging you, the time and space will be opened up, and the Tianmen Continent will eventually fall into our hands!"

"..."

Twenty-eight Supreme Elementary Buddhist monks held an extremely powerful Supreme Elementary Formation and laughed confidently.

Each of them was wearing apricot and yellow robes and red robes, but their faces were hideous, full of murderous intent and sneers.

"you guys!"

"How did you hide in the Tianmen Continent for so long!?"

Qin Song asked in disbelief while using the power of time and space on the time and space.

"Haha!"

"This is to ask your Luming Dao friends!"

Among the twenty-eight Buddhist monks, one with a dark scalp, too junior, looked in a certain direction and sneered even more.

Su Lang glanced at this person, named Zhong Biezhu, whose breath was much weaker than that of the Kongzhi monk.

But this Zhong Biezhu is already the strongest among the twenty-eight powerful men.

As for Qin Song's team.

All the strong from the beginning turned to look at a strong young man.

obviously.

This person is too elementary and powerful in the eyes of those Buddhist monks!

"Dog bald donkey, don't sow discord there!"

Lu Ming saw everyone staring at him in amazement, his face suddenly sank, and he yelled!

"Humph!"

"Lu Ming Dao Fellow can't be yours!"

Qin Song's eyes flickered, and he snapped.

"Oh?"

"So, what about Fellow Daoist Qihuang?"

That Zhong Biezhu turned his head and looked at the other person.

"Humph!"

"Stop talking there!"

The too junior powerhouse named Qihuang sneered.

"So..."

Zhong Biezhu also sneered and spoke again.

"Shut up, Zhong Biezhu!"

A voice came, and Zhong Biezhu's eyes instantly stared!

[Chapter 1893: The three stages of the time rule](#)

"Who!?"

"Who is calling my real name!?"

"I have obviously been lurking for a billion years!"

"Except for the primordial powerhouse lurking next to me, how could anyone know my real name!?"

"It's this kid, this kid is just a quasi-prime! How did he know my real name!?"

"..."

All kinds of horrified thoughts arose in Zhong Biezhu's heart, and then he looked at it.

However, he saw a young quasi-beginner man looking at him with a sneer on his face.

Seeing Zhong Biezhū's horror, the others stared at each other with wide-eyed eyes.

They also know.

Zhong Biezhū's real name is only known by a few people on his side.

And this time.

On the Tianmen Continent, there was a person who broke the real name of his own member!

"Could it be!"

"We have a traitor!?"

Thinking of this, the primordial powerhouse suddenly looked gloomy, exchanged eyes, and his eyes were full of vigilance!

even.

The distance between everyone is widened!

And Qin Song's primordial powerhouse also looked at Su Lang with surprise!

This little guy actually broke the other party's real name! ?

What exactly is going on! ?

"Hahahaha!"

"Don't guess, you did have a traitor, and more than one!"

"Now, your plan has been leaked, and we have already set a trap for you!"

Su Lang suddenly laughed. He saw Zhong Biezhū and others' mutual suspicion, so he pushed the boat along the river, adding fuel to the fire because of the wind and fire!

This statement came out.

Whether Zhong Biezhū and others believe it or not.

The suspicion in their hearts immediately expanded a lot!

then.

Zhong Biezhū and others quietly opened the distance!

The ridiculous Zhong Biezhū wanted to sow discord on Su Feng's side.

But Su Feng was short of words to treat his body with his own way!

"Awesome, really amazing!"

Qin Song and others secretly glanced at Su Feng, and they all praised.

The other side.

"Humph!"

"Don't babble there!"

"There can be no traitors among us!"

"But there are several traitors among you, do you want to guess who it is?"

A Sanyan Taichu who was beside Zhong Biezhu said with a sneer.

"Oh!?"

"Really, Wu Yuquan?"

Su Feng looked at that Sanyan Taichu, and the corner of his mouth twitched.

As soon as the three words Wu Yuquan came out, the corners of Sanyan Taichu's mouth twitched, and his eyes shrank!

Because this is his real name!

"what's the situation!?"

"This son unexpectedly called out his real name again!"

"Is there really a traitor among us?"

"..."

The early powerhouses on Zhong Biezhu's side couldn't help muttering in their hearts, and then once again distanced themselves from the people around them.

Just then.

"Don't talk about you two."

"I know all of you over twenty people!"

Su Feng continued to look around the crowd, pointing to a man with a rickety figure and said, "You are Mu Yizhi. You have mastered the Qing Xiao Wu Qu Qi Qigong, the Shique cloth sword technique and so on!"

When Na Mu Yizhi heard this, he was shocked and his face was shocked!

"Wh...what!?"

"You can even call my name, and you even know the martial arts I practiced when I was a kid!?"

"You, you, who are you!? Are you a Ten Yan Taichu who tracing back the past?"

"..."

Mu Yizhi pointed at Su Feng in disbelief, his arms trembling.

When the rest of the people heard this statement, their whole body was chilled instantly!

The primordial level is divided into levels according to the degree to which the rules of time merge into the primordial body.

The more you master the rules of time and the more you blend into the body of the beginning, the higher the level of the early warrior!

And the mastery of time rules.

It is roughly divided into three stages.

The first stage is now!

The second stage is the future, which can be seen as going down the river of time and deducing the future.

The third stage is the past, which can be seen as going upstream in the long river of time, tracing back to the source!

among them.

The third stage is the most difficult.

Only the strongest in the beginning level can do it!

"That's not it!"

"I'm just a quasi-beginner!"

Su Feng looked at Mu Yizhi with a hint of playfulness on his face.

[Chapter 1894: You have the ability to stand up](#)

But Mu Yizhi was even more shocked when he heard it.

In his mind, he had already made up an extremely terrifying powerhouse from the beginning standing behind Su Lang, overlooking the two dozen of them!

"Don't play mystery there!!"

"In any case, you are all going to die today!"

"Don't listen to his nonsense, let's go and hold them!"

Zhong Biezhū roared and rushed forward.

"Damn it!"

"Why is this guy so reckless?"

"What if there are traitors among us who destroy the formation!?"

"..."

Among the twenty-eight primordial primaries, many people have such thoughts in their hearts.

However, they still followed Zhong Biezhū's back and slammed towards Su Lang with the formation!  
however!

They just flew out for a millisecond!

Wow!

The too elementary formation they were holding was really as they were worried, suddenly broken!

"There are traitors!!!"

"And a lot of people!!!"

"Quickly get out of it——!!!"

"..."

Suddenly, a few powerful people from the beginning screamed, and they dispersed in shock!

Twenty-eight people were separated in a blink of an eye!

Their formation was broken in an instant, and they couldn't hold Qin Song and others!

And this scene.

Everyone was stunned immediately!

What the hell! ?

That extremely powerful too elementary formation was suddenly broken! ?

OMG!

You must know that even if dozens of early powerhouses are blasting against that formation, it will take a long time to break it!

Is it really due to internal reasons! ?

Among the twenty-eight people on Zhong Biezhū's side, there are really traitors! ?

seem.

Only this is a reasonable explanation!

Even Qin Song and others think so, especially among Zhong Biezhū and others!

"The formation we have worked so hard to build is so broken!?"

"Without the formation, it is difficult for the 28 of us to drag out the 46 of the other side!"

"We have a traitor, \*\*\*\* it!"

"..."

Zhong Biezhū and others looked at the others in shock.

If they were shot from behind by the traitors, maybe they would lose their lives!

No one knew that the formation was turned off by Su Lang's control!

"Ha ha!"

"Don't be horrified!"

"Some of you are definitely going to die, now quickly eat a bowl of decapitated rice."

Su Lang looked at Zhong Biezhu and the others faintly, as if these people were all getting fish!

"Who, who is a traitor!?"

"Stand up! If you have the ability to be a traitor, you have the ability to stand up!"

Zhong Biezhu looked at the people around with red eyes, and let out a rant!

However, no one responded to him.

Because this guy who jumped the most is also very likely to be a traitor!

"Ha ha!"

"Our people won't act rashly."

"Only when you really fight, you will know who they are!"

Su Lang looked at Zhong Biezhu and the others faintly, and the sneer outlined at the corner of his mouth grew stronger.

"Asshole!!!"

"You scumbag must be too early, I will kill you!"

Zhong Biezhu cursed incoherently.

But it is impossible for him to do it.

Originally, their number was relatively small.

Now there is no too elementary formation.

The key is that a traitor may appear in your team!

And behind the other party, there is a great possibility that there is a Ten Yan Taichu! !

In such a situation, if you dare to do it, you are looking for death!

Their only role is to stay there, slowly waiting for reinforcements in the time and space to open up a path!

but!

They don't do it, it doesn't mean that Qin Song and others don't do it!

"Great!"

"There really is a traitor among them!"

"As long as we cooperate with the undercover, we can get rid of this group of people immediately!"

"At that time, the puppies of Tianmi Continent have opened up the space-time and sky-grass, and we will be better at dealing with it here!"

A trace of excitement appeared in Qin Song's eyes, and he was about to greet him immediately.  
however.

"Senior Qin Song, don't do it!"

Su Lang's voice sounded in Qin Song's mind, and this was a way of communicating through divine consciousness.

"what?"

"For such a good opportunity, why not do it?"

Qin Song's heart was stagnant, and immediately returned with divine thoughts.

[Chapter 1895: Su Lang was stunned](#)

"because."

"There are no traitors among them, I'm just talking nonsense."

"Their real names are what I used and the method to see."

"I used a special method to destroy that formation!"

"If we do it, they will definitely attack us together, and then my lie will be broken!"

"And you will be temporarily restrained, unable to exert the power of time and space on the time and space sky!"

"This will allow the people of Tianmi Continent to break the space-time and sky trench faster!"

Su Lang smiled and replied with divine thoughts, telling Qin Song the reason.

"what!?"

"They didn't make a traitor!?"

"Then the elementary formation was destroyed by you?"

"This, how is this possible, you are only quasi-primary, how can you destroy the primary formation!"

Qin Song's surface was as usual, but his heart was full of incredible and stormy waves.

Because what Su Lang said is too fantastic!

"Senior Qin Song!"

"You don't believe many things I said!"

Su Lang continued to use his spiritual thoughts to transmit his voice, "But now, as long as you buy me some time, I can let you see the facts!"

"Gooooo!"

Qin Song swallowed, "But if you fail..."

"What if I never showed up?"

Su Lang asked with a smile, "I have never appeared before, what kind of situation will you face?"

"This.....!"

Qin Song was suddenly speechless.

If Su Lang never showed up.

According to the original plan.

They will also come here to exert the power of time and space for the time and space sky.

Then the rear of Tianmen mainland was stolen.

Twenty-eight primordial powerhouses stared at the primordial formation to fight them, dragging them.

Immediately after the Tianmi Continent experts in the space-time sky trench, they will soon enter the space-time sky trench.

At last.

They are going to die!

And this time.

Su Lang relied on a special method to destroy the formation of Zhong Biezhū and others.

And sow discords, making them afraid of each other.

At this time, Zhong Biezhū and the others, standing next to them were like air.

Such a situation.

It's so much better already.

"it is good!"

"Little friend Su Lang, although your words are really incredible, I believe you!"

Qin Song nodded solemnly, and immediately ventilated with Jiang Wenzheng.

Soon.

The two passed on the order, but did not say why.

Everyone looked at each other, not knowing why they had to give up this great opportunity, but they also obeyed the order.

Immediately after.

Qin Song's forty-six ancestors at the beginning of the time instilled the power of time and space into the time and space.

far away.

Zhong Biezhu and the others, who retreated and were jealous of each other, were originally worried that Qin Song would make a move.

They even joined up with people they trusted to prepare for a battle.

but.

Qin Song and others did not do anything!

"They gave up this great opportunity!?"

"They can obviously annihilate us, even if they pay a certain price, they can better face the army of warriors on the Tianmi Continent in the future!"

"What the \*\*\*\* is this!"

"..."

While Zhong Biezhu, Mu Yizhi and the others were relieved, they were also deeply puzzled!

"Could it be!"

"Could it be that the reason they don't do anything is that they have reinforcements!?"

"They are waiting for reinforcements to annihilate us at a lower cost!?"

Wu Yuquan shook his whole body severely, and spoke to Zhong Biezhu and the others in shock.

And this judgment came out.

Immediately make Zhong Biezhu and others stand upside down, like falling into an ice cave!

They remembered what Su Lang said before.

——They have stepped into the trap!

And this time.

Isn't that the other side's attitude that is not in a hurry?

"Gooooo!!!"

"Damn, we really stepped into a trap!"

"How about we withdraw!?"

"But, Emperor Yuan Ming Zhou is there..."

"Doesn't care about him? From beginning to end, have you seen Emperor Yuan Mingzhou!?"

"..."

Zhong Biezhū and others talked about it, their eyes flickered, and they turned and ran!

For a moment!

Eight of the twenty-eight strong men from the beginning ran away!

The remaining twenty, seeing their changes, tightened all over, and then fled one after another!

Such a scene.

Not to mention Qin Song, even Su Lang was stunned.

[Chapter 1896: I ran away](#)

"Lying down!"

"It's gone?"

"What are they thinking?"

Su Lang's mouth twitched, and he didn't expect Zhong Biezhū and the others to run away!

And just now!

In time and space.

The huge figures of mythical beasts suddenly receded!

Those strong in Tianmi Continent also retreated.

In a blink of an eye, the passage they had opened up in the time and space chasm began to heal slowly.

This scene is even more stunned, and the eyes are about to fall!

What the hell!

Zhong Biezhū and the others ran away, as did the army in the time and space moat! ?

"I fork!"

"Everything ran away, I haven't had time to pretend to be forced!"

Su Lang held his forehead with one hand, and he estimated that he would be able to practice the Taichu exercises in about an hour or two and then make breakthroughs!

At that time, he will have more than one hundred Taichu, and then he can use the Taichu formation that he has just learned.

Come this way!

Zhong Biezhū and others don't even want to run!

Then kill Zhong Biezhū and others, and he immediately has more resources to upgrade system functions, evolve weapons, and establish formations!

More than one hundred primordial clones can still use the power of time and space to stop the army of Tianmi Continent.

In this way.

More time will be spent!

But now!

Zhong Biezhū and the others were so scared! ?

"Oh my day!"

"But no matter if they ran away, I'm sure there is nothing wrong. Anyway, I need resources and I will ask Qin Song if they want it."

Thought of this.

Su Lang's mood suddenly improved, and a smile appeared at the corner of his mouth.

Qin Song and the others were even more relieved!

The expected death battle was silly and unfinished, and they didn't have to go desperately!

Don't work hard!

I can stay alive for a few days to see if I can wait for a turnaround.

Thinking of the word transfer.

The eyes of Qin Song and others fell on Su Lang.

Before, Su Lang was a little quasi-prime primacy in their eyes, and the word genius could be added.

but no matter.

Quasi-primary is quasi-primary.

If it hadn't been for Su Lang to be the leader of the Human Race, they would have slapped Su Lang and didn't know where to shoot Su Lang!

But now.

They can avoid deadly battles.

All thanks to Su Lang!

From this incident, they had already seen the tip of Su Lang's iceberg, and they never dared to underestimate it!

Shu Da and Grandma Ma Shan, who had a bad attitude towards Su Lang before, were even hotter on their faces, and they wanted to slap themselves again.

They kept saying that they wanted to catch Su Lang and hide him for protection.

At this time, he was protected by Su Lang!

"Ahem!"

"They ran away!"

Su Lang pointed to the time and space and said with a smile, "Thanks to the seniors!"

"How dare you!"

"I have no merit in waiting, I dare not take it!"

"It's all your credit, Little Friend Su Lang, we all depend on you!"

"Yes, if we didn't have you, we are afraid that someone would fall soon!"

"..."

Everyone, you said and I said, one after another put the credit on Su Lang.

"Hahaha!"

"Everyone, don't laugh!"

"Without the seniors standing behind me, Zhong Biezhū's group had arrested me and killed me long ago!"

Su Lang also humbled a bit, to save face for you seniors.

Everyone laughed.

"correct!"

"Zhong Biezhū's group of dogs did bad things on the Heavenly Continent!"

Su Lang suddenly exclaimed, "Let's go back and have a look!"

"Correct!"

"Go back to a few people and see if the situation is serious!"

"Jiang Wenzheng, you take people back, and I will lead people here to continue filling the power of time and space!"

"..."

After everyone discussed it, it was decided that Jiang Wenzheng would return to the Tianmen Continent with twenty too junior powerhouses.

Qin Song and others kept the power to continue filling time and space.

Su Lang was among the crowd returning to the Tianmen Continent.

"The wind is raging, the tide is raging!!"

Jiang Wen was chanting high in his mouth, and a terrifying aura emerged from all over his body, engulfing everyone and flying towards the Heavenly Misty Continent.

at the same time!

The other side of the space-time Tianmo.

A divine beast with dimmed eyes flew fast in the void.

It looks like they have been forcibly controlled!

[Chapter 1897: It shows how much they hate Su Lang](#)

In addition.

A super junior powerhouse gathered on the huge body of a dragon, with an extremely ugly face!

Most of these people wore apricot and yellow robes and robes of various colors.

It is the Buddhist master of Tianmi Continent!

In addition, there are also strong people in the early days who dress differently.

Outside of Buddhism, they also took refuge in Emperor Yuanmingzhou.

But these people rarely have the right to speak, and basically sit on the periphery without saying a word.

Speaker.

It is those Buddhist monks.

Among them, Monk Shiyu, Master Huijue, and Monk Kongzhi are impressively listed!

The front foot was ran away by Su Lang from Meteophoenix Daqianyu.

The hind feet hurriedly participated in this invasion plan to the Heavenly Continent.

It shows how much they hate Su Lang!

"Damn it!"

"Our plan was unexpectedly understood by them in advance, and the traps were laid out, so we could only give up halfway!"

"Zhong Biezu's rubbish, no one knows when people instigate them!"

"Damn, their gang is almost useless, try to get them back!"

"Well, get them all back and see who the undercover is!"

"..."

On the back of the forcibly controlled dragon, the Buddhist monks were filled with grievances. If it weren't for the lack of hair, they would have been angry.

Among them, the Kongzhi monk and others are the most unwilling.

They all think about it.

After invading the Tianmen Continent, he must catch Su Lang and kill him severely!

But finally caught up with this invasion, but did not expect to fall short!

I'm so angry!

And this time the undercover invading has been exposed and lost its effectiveness. The next time there is only a strong attack!

According to the intelligence that was probed this time.

The opponent's strength is definitely not as weak as it seems.

It is very likely that those forces that are lurking in the dark and resisting Emperor Yuanmingzhou have already connected with the Tianmen Continent and united!

In this way.

I don't know how much power I have to accumulate in the next storm!

"Ugh!"

"It would be great if Emperor Yuanmingzhou's old man made a move!"

"Hmph, His Majesty Yuan Mingzhou has more important things to do, how can these little things trouble him?"

"..."

Everyone sighed and talked, and gradually moved away from the time and space.

The anticlimactic raid came to an end, but a brand-new battle has already begun!

at the same time.

In the heavenly continent.

An extremely tragic scene appeared in front of Su Lang, Jiang Wenzheng and others.

However, there was a huge gap in the 100,000 Heavenly Misty Star Cluster that wrapped the Heavenly Misty Continent.

At least one-fifth was destroyed!

One-fifth, that is 20,000 small broken continents comparable to planets.

I don't know how many strong men stationed above have died!

"Zhong Biezu!!"

"This \*\*\*\* shit!"

"One day, I will thwart you!"

"A huge wound has also appeared on the Tianmen Continent. It is where the Tianxuan Army is located!"

"The Heavenly Jade Army... the compatriots who finally escaped from the Heavenly Jade Continent!"

"..."

Jiang Wenzheng and the others watched the tragic scene in front of them, their eyes were red!

"Perhaps, I can save some people."

"Our Xinghai domain group has developed a peculiar spell, which may be able to be resurrected by some powerful people who died in battle."

Su Lang looked around, he seemed to hear the wailing of the dead soul.

"Really!?"

"Really save it?"

Jiang Wenzheng and the others looked at Su Lang incredulously.

The means to come back from the dead.

They actually have some, but most of them are for their own use.

And he has been alive to this day, almost consumed.

People who want to resurrect the dead in battle on a large scale are simply impossible.

"Some can be saved."

"My secret technique is called Corpse Earth Origin Soul Reincarnation Technique!"

"Using the soil formed by the corpses of the strong as raw materials, summon the remnants of souls that have not yet dissipated, and revive them!"

"It involves many unspeakable meanings, so I won't go into details."

"While it's still early, you seniors quickly gather the corpses of the strong ones you can find!"

"In addition, give me a lot of natural materials and earth treasures to use to revive them!"

Su Lang said with a serious expression, "I will also teach you the exercises to seniors. I think you should learn quickly."

"it is good!"

Jiang Wenzheng and the others' eyes brightened and nodded immediately.

[Chapter 1898: The secret method of reincarnation](#)

Immediately after.

Jiang Wenzheng and others provided all the materials Su Lang needed.

Even give a lot of benefits!

It is estimated to be a reward.

After giving the materials.

All the early strong men immediately went to the battlefield to gather the corpses of those strong men.

"As expected to be too junior boss!"

"Give me so many materials in one breath, more than the one who destroyed hundreds of quasi-primary powers before!"

Su Lang looked at the countless extra materials in the storage space and couldn't help but express his joy.

These materials are more than enough to resurrect the dead who died in battle!

It can also be used to complete other important plans!

Of course.

Jiang Wenzheng's original intention to give these materials was to revive the strong.

So Su Lang naturally took this as his first task!

"To resurrect the godless powerhouse on a large scale."

"It is estimated that some of the current "Dead Earth Origin Soul Reincarnation Technique" is not enough."

"Even if it can be resurrected, it needs to be divided into multiple times, which takes time and effort!"

Su Lang's eyes flashed with thoughtful light, "So, I still have to strengthen this technique!"

After making up your mind.

Su Lang immediately issued instructions to the system to start strengthening the "Soul Origin Soul Reincarnation Technique"!

"Ding! Consume..."Zone Earth Origin Soul Reincarnation Art" enhancement +1!"

"Ding! Consume..."Zone Earth Origin Soul Reincarnation Art" enhancement +1!"

"Ding! Consume..."

After three times of strengthening.

"The Reincarnation Technique of the Origin of the Dead Soul" has changed from a low-level godless level to a level close to the beginning of the exercises!

but.

To ensure that a larger number of dead can be resurrected at once.

Su Lang decided to continue to strengthen.

It was not stopped until it was strengthened into a real too primary secret technique!

then!

The system prompt sounded again!

The fourth, fifth, and sixth strengthening ends one after another!

"Soul Origin Soul Reincarnation Technique" finally entered the primordial level from the godless level!

In fact, Su Lang knew.

This exercise can be strengthened to the primordial level.

It is entirely because it is just a secret technique with a single function.

It is absolutely impossible to reach the Primordial Beginning level by changing to other godless level exercises and strengthening six times.

At most it is close to the early stage.

no matter what.

Now "Soul Origin Soul Reincarnation Technique" has reached the early stage.

More profound meanings about the resurrection of the dead are imprinted in Su Lang's mind and soul, so that he can completely grasp it!

"Such a mysterious meaning!"

"Perhaps, I can resurrect even the too junior strong!"

"However, if you want to resurrect the powerhouse at the beginning level, you don't know how many geniuses and treasures you need to consume!"

Thinking about the profound meanings of the newly acquired exercises in his mind, a smile was drawn at the corner of Su Lang's mouth.

Immediately after.

His eyes fell into the storage space again.

The materials given by Jiang Wenzheng and others are so much.

Even if the "Soul Earth Origin Soul Reincarnation Technique" is enhanced to the primordial level, it only consumes about one-tenth!

"These materials can be used to evolve my various weapons!"

"But forget it, everything has to wait until Jiang Wenzheng and the others have collected the dead body soil and resurrected."

Su Lang thought so, anyway, Jiang Wenzheng and the others couldn't run away right there, just ask them later!

These strong people from the beginning.

It's almost a cash machine!

Next.

Su Lang began to wait for Jiang Wenzheng and others to return.

In this process, no time was wasted.

He dispatched a large number of treasure hunting flying flying gliders to pursue Zhong Biezhu and other early powers!

The death-free level of these treasure hunting flying gliders has reached the godless level.

Only those who are too junior can kill them.

Before you find Zhong Biezhu and others, unless you encounter other too low-level enemies.

Otherwise, there will be absolutely no loss!

time flies.

It's worthy of being the twenty-one primordial masters who personally shot.

Jiang Wenzheng did not let Su Lang wait for long.

Just half an hour.

Come back with all the dead bodies that can be found!

"Little friend Su Lang!"

"These are all the dead bodies that can be found!"

"I want to ask one more question, do those strong men who have been dead for a long time still hope to be resurrected?"

Jiang Wenzheng took a storage ring to Su Lang, and asked with a hint of hope in his eyes.

[Chapter 1899: Resurrect a million Supreme Emperor](#)

"The long-dead strong man!?"

"This...regardless of time, it just depends on whether their remnants still exist."

"Also, for some powerful people who have been resurrected with other secret techniques, I cannot guarantee that this secret technique will have an effect on them."

Su Lang took the storage ring and said in a deep voice.

He is very clear.

Jiang Wenzheng and the others are afraid that they want to resurrect those too low-level powerhouses who died! !

If it can be done.

The Tianmen Continent does not know how much more combat power it can produce!

But Su Lang really couldn't guarantee that he meant to try.

"In that case."

"Then let's resurrect these found dead."

Miao Mingyuan, with an ordinary face, arched his hands at Su Lang, "I'm going to trouble little friend Su Lang!"

"You are Welcome!"

"Time is running out, let's start now!"

Su Lang nodded faintly, and then flew to the 100,000-sky star cluster, the nearest broken continent to the battlefield.

There are a large number of powerhouses stationed in the Sky Cluster.

Almost all those who fell were godless and quasi-primary strong.

Moreover, this place belongs to the near-field void, and the remnants of the dead are more likely to dissipate, and need to be resurrected first.

Standing on this small continent.

Su Lang started the reincarnation ceremony of the dead under the gaze of Jiang Wenzheng and others!

Although "Soul Origin Soul Reincarnation Technique" has been promoted to the early stage.

But the reincarnation ceremony remained basically the same.

First, equip each corpse with enough natural treasures!

Immediately buried in the soil, tombstones made of special materials were erected.

Strange formations are engraved on the tombstone.

This is ready!

Because Su Lang not only mastered the one-key refining function, but also the one-key refining function.

It is not too easy to make a reincarnation tombstone!

Let the system refine it directly, and it will be completed in no time!

The work of burying the corpse soil also has a total of twenty-one primordial powers to do it for you!

Ten minutes passed.

On a huge plain, millions of peculiar tombstones are lined up neatly.

These ones.

It is the warriors who have fallen to the 100,000-sky star group.

Looking at the huge cemetery plain below.

Su Lang couldn't help feeling sighed.

In this world, the strong can do whatever they want, but the life of the weak is like a grass!

Weakness is the original sin!

"Me at this time."

"It is also an ant in the eyes of Emperor Yuanmingzhou!"

Taking a slight breath, Su Lang immediately began to perform the secret method!

"The Origin Soul Calling Spirit Secret Technique!"

Su Lang closed his eyes, and the countless innate Qi in his body revolved in a special week.

In a blink of an eye.

A large amount of aura spilled out, gradually forming a huge and terrifying clock.

This clock is almost like a giant peak standing on top of the earth.

even.

It is already so big that it penetrates the sky and reaches into the void outside the small continent!

"Calling Ling!"

Su Lang's heart moved, and he used the secret method again.

"boom--!!"

The big bell suddenly roared horribly.

The peculiar bell that trembles the soul immediately spread!

The chime of the bell can't even stop the emptiness, and the hole in the 100,000-sky star cluster is instantly covered!

Immediately after.

Remnant souls emerged one after another, were summoned, and flew towards the big clock!

Because there are too many deaths!

The remnant souls almost formed a torrent, constantly pouring into the Great Soul Calling Spirit Bell.

It even formed a strange vortex around it!

"Fortunately Zhong Biezu and the others did not obliterate these remnants."

"It is estimated that they are also disdain to start with these dead warriors."

"If they were more frenzied, and wiped out the remnants of these dead souls, there would be no way to resurrect the Soul Origin Soul Reincarnation Technique."

"But even so, there are still a large number of dead souls completely dissipated."

"Many of the corpses made this time will be rendered useless."

Su Lang watched the death constantly pouring into the big bell, thinking silently in his heart.

In a blink of an eye.

The remnants that can be summoned have all poured into the source soul summoning spirit clock.

They lost the black mist in the Great Bell of Origin Soul Calling Spirit and turned into translucent souls.

"The last step!"

Seeing this scene, Su Lang immediately used the secret method.

The special twisting power condensed by the profound meaning of the corpse soil source soul reincarnation technique is integrated into the source soul calling the spirit clock.

#### [Chapter 1900: Truly set foot on the Heavenly Continent](#)

The huge Origin Soul Summoning Bell crashed!

Soon.

The collapsed fragments of the Origin Soul Summoning Bell and countless twisting powers engulfed the transparent dead souls.

It was like a red Milky Way pouring down from above the nine heavens, forming countless small red streams, pouring into the gravestones.

The lines on the tombstone were gradually immersed in red, rushing towards the bottom of the grave.

but.

There are still one-third of the tombstones that do not have this strange energy infusion mixed with the dead.

Because the dead souls corresponding to their buried corpses have been completely erased.

Shortly after.

The graves began to tremble.

A hand just like a normal person stretched out from the grave.

One by one, the warriors pushed away the tombstone and walked out of the tomb!

They looked around blankly.

When they saw Su Lang and Jiang Wenzheng in the sky, they knelt down on the spot!

Everybody knows.

I was resurrected!

They are back from the dead!

Endless joy appeared in everyone's hearts.

"remember!"

"It is your senior Su Lang who has the grace of rebuilding for you!"

Jiang Wen was looking down at the crowd, and his voice with awe-inspiring aura spread throughout the small continent!

"Junior thank you Senior Su Lang!"

"Thanks to Senior Su Lang for his resurrection!"

"Senior Su Lang gave me a second life, and I will always worship you!"

"..."

Nearly a million Godless powerhouses bowed down to Su Lang, grateful.

"You will be the best reward if you continue to guard the last pure land of the boundless world!"

Su Lang smiled slightly and turned to look at Jiang Wenzheng, "We have to take a trip to the garrison of the Heavenly Jade Army, let's go!"

"it is good!"

"It's not too late, we will start now!"

Jiang Wenzheng nodded, grabbed Su Lang with one hand, and flew toward the Heavenly Misty Continent!

The rest of the primordial powerhouse also followed closely.

In a blink of an eye.

Su Lang was led by Jiang Wenzheng to the top of the Heavenly Misty Continent.

This is the first time he has truly stepped on the land of the boundless world!

Here.

It is one of the four continents after the fragmentation of the Boundless World, the Heavenly Continent!

"Boundless World!"

Su Lang unfolded his spiritual thoughts, probed the surrounding environment, and saw that the concentration of aura around him was extremely rich!

Low-level natural treasures are everywhere, just like ordinary plants and trees!

"Lying down!"

"It's violent!"

"Treasure hunting flying glider, go and pick it for me!!"

Su Lang's eyes burst out with bright light, and immediately dispatched the treasure hunt flying flying flying gliders to pick those treasures of heaven and earth.

These Chinese cabbage are as good as heaven and earth.

Others look down upon him, but Su Lang is always here!

after all.

He not only has a key synthesis function, but also enhanced functions!

"Ding! You get Feihua Tongli\*1!"

"Ding! You get the Constellation Spirit Branch\*1!"

"Ding! You got the earthshak sand\*1!"

"Ding!....."

Accompanied by the treasure hunt, the flying flying gliders collected all the treasures of heaven and earth.

System prompts also kept ringing, almost forming a noisy noise.

Su Lang was so cool and annoying to block the system prompt!

Immediately after.

Under the leadership of Jiang Wenzheng, the Tianxuan Army station arrived.

This was originally the place where the strong who escaped from the Heavenly Jade Continent lived and practiced.

But now it has suffered a devastating blow.

The area of the entire Tianxuan Army station is estimated to be as large as the Canglan Star's southern and northern continents combined!

but now.

It has become a huge pit!

The warriors who escaped from the Tianxuan continent.

Except for a few lucky ones who traveled far away, all were killed!

"Damn!!"

"Zhong Biezu this group of chores!"

"..."

Among the strong in the early days, an old man in the early days had blood red eyes, and his name was Bi Tongguang.

Bi Tongguang was one of the first to escape from the Tianxuan continent.

He brought a large part of the warriors who formed the Heavenly Jade Army.

Bi Tongguang knows well.

These warriors are firm opponents of Yuan Mingzhou Emperor.

Among them, there are a large number of the proud of heaven, and there are even a few who are hopeful of being promoted to the level of the beginning!

But at this time.

They were all killed by Zhong Biezu's group.

fortunately!

With Su Lang, many people can still be saved!

Bi Tongguang looked at Su Lang with gratitude in his eyes.

"I'm going to start!"

Su Lang looked around at the crowd, and immediately took the storage ring with the corpse soil, and came to the endless deep pit.
