[Chapter 1911: Daoist Su Lang, please accept it](#)

"Friend Su Lang!"

"You just broke through now, I'm afraid you still need to consolidate."

"Why don't we go to my Heavenly Confucian Haoran School to retreat and consolidate?"

Jiang Wenzheng smiled, inviting to Su Lang.

"exactly!"

"This can't be sloppy, it needs to be consolidated."

"..."

Bi Tongguang and others also nodded immediately with solemn faces.

"Consolidate?"

"This is not necessary!"

"Just now I have consolidated."

"Look, do I look like I just broke through!?"

Su Lang smiled slightly before letting out all the momentum on his body.

Suddenly.

An aura close to the level of Sanyan Prime Beginning spread!

"what!?"

"This is the aura close to the Sanyan Primordial Realm!"

"This, this, that Fellow Daoist Su Lang had such a combat power as soon as he broke through!"

"The first stage of the first generation has the strength close to that of the first stage of the three generations, fellow Taoist Su Lang, we still underestimate your talent!"

"Yeah, let alone our current dying Heavenly Misty Continent, even if it is the original intact Boundless World, there are few that can compare with the qualifications of Taoist Su Lang!"

"Awesome, Daoist Su Lang is too amazing!"

"..."

Everyone was shocked by Su Lang's breath one after another, and immediately rejoiced, and the eyes looking at Su Lang were bright.

"Actually, I am not very qualified."

"Being able to have the current combat power is mainly due to the many methods of practice and the solid foundation."

Su Lang smiled slightly, his aptitude is not even good, it's just a muddy aptitude.

anyway.

So far, Su Lang has not seen other turbid body qualifications.

He doubted whether this muddy body qualification was unique to him!

Maybe it is!

"Taoist Su Lang is really too humble!"

Jiang Wenzheng smiled, "Since the Daoist is not going to consolidate, what will the Daoist do next?"

"Next?"

"I plan to repair and perfect the 100,000-sky constellation."

"If you fellow Taoists have classics related to alchemy and formation, you can also learn it for me. My talent in these areas is pretty good."

"In addition, this "Dead Earth Origin Soul Reincarnation Technique" is given to you. Before you fellow Taoists can grasp it, you can also bring the corpse and soul of the dead to come to me."

Su Lang spoke lightly and said his thoughts.

After reaching the Taichu level and mastering certain time rules.

He also wanted to give it a try to see if he could resurrect the powerhouse of the primordial level with "Soul Reincarnation Technique"!

"Taoist Su Lang is still very good at formation and alchemy!"

"Able to repair the 100,000-sky constellation, Daoist Su Lang's formation skills are absolutely powerful!"

"Friend Su Lang, here are the formation classics I have collected, see if it works!"

"I also have alchemy classics and alchemy classics!"

"By the way, I am afraid that I will trouble Daoist Su Lang to help revive a person."

"..."

While Jiang Wenzheng, Bi Tongguang and others were astonished, they took out the classics Su Lang needed, and did not hide them privately.

Suddenly!

A large number of classics entered the storage space of Su Lang.

When he was handling it, he swept it with divine thoughts and learned it straight away!

These classics are the great primary alchemy classics that have been circulating in the boundless world for countless years, and no matter how bad they are, they are of no **** level!

Su Lang looked all over.

Suddenly mastered forty-nine too primary formations!

Ninety-nine thousand godless formations.

Thirty-one kind of too elementary pill, and more godless pill.

just.

Su Lang just strengthened the exercises and the Seven Treasure Tree many times.

The materials in the storage space are almost consumed.

If you want to refine the formation and medicine, you have to reach out to Jiang Wenzheng and the others!

"Friend Jiang Wenzheng, fellow Taoists."

"I need a lot of materials to repair the formation and refine the pill."

"It's better to have some more superior sources of energy!"

When he stretched out his hand, Su Lang said calmly.

"completely fine!"

"I haven't given a gift to Daoist Su Lang, Daoist Su Lang, please accept it!"

"These treasures of heaven and earth are useless in my hands. Only in the hands of Daoist Su Lang can they shine!"

"..."

Jiang Wenzheng and other too junior powerhouses have given out a large number of natural treasures to Su Lang, and a large number of superior emperor sources!

[Chapter 1912: I can do it alone](#)

In a blink of an eye.

Su Lang's storage space is full of countless materials!

Alchemy equipment is enough!

"Wait for me to refine the pill."

"Just take a part to give feedback to this group of old daoists."

Su Lang thought in his heart, and continued to greet Jiang Wenzheng and others.

In a blink of an eye.

Twenty-one too junior powerhouses bleed heavily and sponsored a wave of Su Lang!

The resurrected Supreme Emperors below actually wanted to offer thanks to Su Lang.

But they died once, and even the universe of life was reshaped, and the original inventory was long gone.

So he could only give up, thinking that there would be a chance to repay Su Lang well in the future.

Here.

"Thank you fellow daoists."

"Now I'm going to repair the formation of the 100,000 Heavenly Misty Stars!"

"If you fellow Daoists want to be resurrected, you can prepare now."

Su Lang had finished collecting the treasures of heaven, material and earth, his expression was straight, and he said seriously to all the early powers.

"it is good!"

"I am going to prepare the things needed for the resurrection ceremony!"

"I'm going to call the Array Master to fight for Fellow Su Lang!"

"I will lead the way for Fellow Su Lang!"

"..."

Jiang Wenzheng and others talked a lot, and immediately took action.

"and many more!"

Su Lang suddenly spoke, everyone was taken aback for a moment, stopped and looked at Su Lang in surprise.

"Friend Su Lang, is there something else?"

Jiang Wen asked with a smile.

"Yes."

"You fellow Taoists don't need to find a formation mage to fight."

Su Lang smiled slightly, "I alone can restore and perfect the formation of the 100,000-sky star cluster in a short period of time!"

This statement came out.

The scene suddenly fell silent.

One person, in a short time, repair and perfect the formation of the 100,000-sky constellation?

This!

This is too exaggerated!

The formation of the 100,000-sky constellation is a united formation at the beginning level.

It was accumulated over billions of years by the powerful in the early dynasties.

Now that Su Lang has to rely on one person to perfect it in a short time, it is simply too exaggerated.

If it hadn't been for Su Lang to show all sorts of weirdness and create all sorts of miracles, everyone would think that Su Lang was crazy.

But even know that Su Lang is very extraordinary.

They still couldn't believe it, because it was beyond their billions of years of knowledge!

"Friends of Taoism."

"I, Su Lang, never speak big words!"

Su Lang smiled and shook his head, and stretched out his hand, "Hearing is false, seeing is believing, please!"

"it is good!"

"Let's once again witness the miracle created by Daoist Su Lang!"

"Haha, Daoist Su Lang is so confident, we have to change the first person of the Heavenly Misty Continental Formation, don't you think there are many Zhuge formations!"

"..."

Jiang Wenzheng and the others nodded repeatedly, and smiled at one of the tall and sturdy old men with white cloak and meticulous hair.

This old man is Zhuge Zhenduo.

In fact, he was not originally called Zhuge Zhenduo.

It's just that there are a lot of formations, so everyone is used to it.

When everyone gave Su Lang's texts to Su Lang before, he didn't hesitate to give all the texts to Su Lang.

"Hahahaha!"

"Blue is better than blue, and ice is born in water and cold in water. This is what the old man is most happy to say!"

Zhuge Zhenduo had never cared about the name of the first person in the Tianmen Continental Formation.

Knowing that Su Lang had a high level of formation, his first reaction was joy!

Because there are many strong people in Tianmen mainland.

But everybody lives under the heavy pressure exerted by the enemy such as Tianmi Continent every day, and they want to increase their combat power like this.

There are really not many who are willing to learn the formation.

Among these people who study formations, it is even more difficult for a real genius to appear.

Therefore, Zhuge Zhen was really overjoyed to see Su Lang more.

"Friend Zhuge!"

"And fellow daoists!"

"You unconditionally hand over the formation books to me, I will not insult them!"

Su Lang arched his hands at Zhuge Zhen, "I will carry them forward soon!"

"Haha!"

"Good! Good!"

"..."

Everyone immediately clapped their hands and applauded, and immediately flew towards the heavenly stars surrounded by Su Lang.

[Chapter 1913: So strong, what kind of secret is this](#)

In a blink of an eye.

Su Lang, Jiang Wenzheng and the others appeared in front of the 100,000-sky Misty Star Group.

The huge gap in the formation like a black hole still hangs in the void, like a huge mouth opened by a monster.

It was this huge mouth that swallowed a lot of the lives of the Supreme Emperor!

"Damn Zhong Biezhū!"

"Next time I meet them, I will definitely break them into pieces!"

When Jiang Wenzheng and the others saw this void, they suddenly remembered the warriors who died tragically, and couldn't help but curse again.

"Do not worry, fellow daoists."

"I have used special means to track Zhong Biezhū and others!"

"Unless they continue to run to extreme distances from the beginning, they will never escape my tracking!"

Su Lang smiled at Jiang Wenzheng and the others, his eyes full of confidence.

Hear this.

There was another shock in Jiang Wenzheng and the others.

"Friend Su Lang!"

"I didn't expect you to track Zhong Biezu's group accurately!"

"They have infiltrated this Heavenly Continent for an unknown number of years. We have also searched and arrested them on a large scale, but we can never find them!"

"Yes, their concealment methods are very powerful, it is difficult for us to find them!"

"Taoist Su Lang also made great achievements in pursuit, which is really amazing!"

"..."

Everyone looked at each other, and they looked at Su Lang in surprise, somewhat believing in their hearts.

after all.

Su Lang's man is a man who creates miracles one after another!

"Do not worry!"

"They all have to die!"

Su Lang sneered coldly, and immediately looked at the void of the formation of the 100,000 heavenly stars.

How big is this hole?

Almost the size of a star field!

I don't know how many fragments of the continent were shattered.

"The range of the 100,000-sky constellation is vast."

"I need to understand it thoroughly before fixing it!"

While talking, Su Lang dispatched four clones and sent them in four directions.

These four clones came out.

The emotions that Jiang Wenzheng and others had just calmed down suddenly became extremely shocked again!

Yes!

They were shocked again!

Because the four clones of Su Lang also reached the primordial level!

"Friend Su Lang, this is, your clone!?"

"A clone of the beginning level?! So strong, what secret technique is this!!!"

"I have lived for so long, and this is the first time I have seen four Taichu clones. I have seen at most one senior possessing a Yiyan Taichu clone!"

"Hahaha, Daoist Su Lang has four primordial avatars, one person is equivalent to five primordial combat power, great!"

"Yes, in this way, we are equivalent to an instantaneous increase of five primordial combat power!"

"Taoist Su Lang is really a treasure, and it will surprise us from time to time!"

"..."

Stormy waves rose in the hearts of Jiang Wenzheng and others, and immediately the whole person was enveloped in surprise.

They even feel that they are very lucky to meet a treasure genius like Su Lang!

"Haha!"

"That is indeed my clone."

"I asked them to investigate the situation of the formation, please fellow daoists so that the strong garrison do not have to panic."

Su Lang smiled faintly, where there are only six clones.

Counting the forty clones that have not yet been condensed.

He has a full one hundred and thirty-eight super junior clones!

If you use Baiying avatar.

That's 13,800!

Although the combat power will drop to the elementary level.

But it is too low-level combat power!

One can sling countless Supreme Emperors!

The key is that these avatars, Su Lang, can still be dispatched at will, and the mobility is so strong!

"That's it!"

Jiang Wenzheng nodded suddenly, "We have passed the news down!"

"Ok!!"

Su Lang nodded with a smile.

Through the perceptive vision of the clones, he also saw the Supreme Emperor powerhouse kneeling and worshipping.

These powerful men also knew of Su Lang's existence.

More clearly Su Lang resurrected countless comrades in arms.

Tianmen Continent is always facing terrible wars, and people are likely to die at any time.

Although stationed on the 100,000-celestial celestial group, most of the warriors are enlightened.

But when I really think of death, I will definitely be instinctively afraid.

[Chapter 1914: Origin of the universe!](#)

but now.

With Su Lang, a powerful presence that can resurrect a warrior on a large scale.

It was like they had lost another life out of thin air, and they had strong confidence and courage in an instant!

Su Lang, naturally became the object of their worship!

Time passed slowly.

Su Lang's four avatars were continuously dispatched, and his spirit swept through the formations one by one.

These formations were not only learned by Su Lang immediately, but he could also directly gain control of the formations.

The formation is between birth and death, all in his thoughts.

Just when the four avatars gradually included the entire 100,000-sky constellation formation.

Su Lang took this opportunity to organize various resources given by Jiang Wenzheng and others.

First is Diyuan!

At the primordial level, the commonly used spiritual energy crystal is the superior source of emperor.

The lower emperor source can barely be used.

But the effect is not very good, the warrior almost never used it in the early days.

"system!"

Su Lang immediately issued an order, "Give me all the emperor sources into the balance!"

"Ding! The storage is complete, and the balance is 293.33 million, the superior Emperor Yuan!"

"I fork!"

"It has reached more than 200 million!"

"As expected to be too junior big guy, on average, each person gave me more than 10 million superior emperor sources!"

"This is a superior source of emperor, equivalent to more than 100 billion lower source of emperor!"

"This is not the entire net worth, but everyone takes a part of it from his pocket and gives it to me!"

"Tsk tusk, I can only say that I am too rich!"

Su Lang was so excited that he almost wanted to rub his hands.

at this time.

Another system prompt sounded.

"Ding! The current unit is too large and has been replaced with the "Universe Origin", 100 million superior emperor origin equals 1 Universe Origin!"

The system prompt surprised Su Lang.

"The origin of the universe!?"

"100 million superior emperor sources can exchange for 1 universe origin!?"

"Lie noisy, this is the energy of Rush, so awesome?"

Su Lang was taken aback by this terrifying exchange rate!

Soon.

With a hint of expectation, Su Lang began to improve the system's functions.

This time he chose the one-key practice function and the clone dispatch function.

No matter how fast the cultivation speed is!

Therefore, the one-key practice function can be upgraded in one wave.

And the speed of one-key martial arts is assisted by the nine hearts into one function, which can be temporarily slowed down.

As the strongest combat system function, clone dispatch has naturally become the first choice.

"system!"

"Upgrade me the one-key practice function and the clone dispatch function!"

Accompanied by Su Lang's order.

The system prompt sounded immediately.

"Ding! Consumes 1 universe origin, the one-key training function is upgraded to level 48, and the training speed is increased to 37540 trillion times the speed of the basic training without lack of qualification!"

"Ding! Consumes 1 universe origin, the clone dispatch function is upgraded to level 47, the number of clones is +1, the current number of clones is 47, the number of clones is 47, and the number of twins is 47!"

Suddenly.

Su Lang found that his balance had become 0.9333!

"Lying down!"

"No one! I've never been so poor!"

Su Lang couldn't help the corners of his mouth twitching, and the corners of his eyes twitched.
but.

These two cosmic origins are worthwhile!

The speed of the one-key practice function has reached more than 30,000 trillion times.

The speed of the cultivation villain's accumulation of cultivation base has become twice as fast!

In addition, the mental power is constantly growing, and the speed is so fast!

Su Lang reached the early stage.

The soul can finally enter a new spiritual realm-the realm of pure nirvana.

At the current rate of mental power growth.

Just a few minutes and ten minutes to enter a new level!

And after that.

If you want to be promoted to a small realm, you need the soul cultivation to reach the standard.
of course.

For Su Lang.

The improvement of mental strength is simply too simple.

There is no need to improve their mental power like other primordial martial artists.

Look at the clone dispatch function.

There is one more avatar, avatar, and twin avatar.

The total number of clones reached 141.

After using Baiying avatar, it will reach 14,100!

"Cool!!!"

Su Lang couldn't help cheering in his heart.

Soon his gaze fell on the heaven, material and earth treasures in the storage space.

Jiang Wenzheng waited for the old predecessors of Taichu to give a large number of superior emperor sources.

But Tiancai Dibao gives more!

[Chapter 1915: Four early weapons!](#)

"Hey!"

"With these natural treasures!"

"I can evolve or strengthen Youtian Sword and other weapons!"

Su Lang looked at the large number of primordial treasures in the storage space, and couldn't help rubbing his hands in excitement!

These are the treasures Jiang Wenzheng has kept for billions of years.

Su Lang only needs to create the Soul of the Supreme Emperor by himself, and the materials for evolving the Youtian Sword and other weapons are all complete!

As for the Soul of the Supreme Emperor, Su Lang had previously decomposed tens of thousands of Godless Soldiers, which was completely enough!

"Ahem!"

"System, keep me the designated characteristics and evolve the Youtian Sword!"

Su Lang took a deep breath and immediately issued instructions to the system!

"Ding! Consume Godless Soul*1000000, too primary material: Ningtian Mingxin*10, Haoxing Meteor World Core*20, Godless Grade material: Evil Emperor Devil Heart Jade*1000000, Shadow Eclectic Polar Stone*1000000, Blood Rain Underworld Jade*1000000...The Youtian Sword has evolved into a weapon from the beginning!"

Countless materials disappeared from the storage space.

Only the Supreme Emperor's materials are the disappearance of millions, which is terrifying!

of course.

This also illustrates the gap between the weapons of the early primaries and the weapons of the quasi-primaries.

Taichu can completely crush the quasi Taichu!

At this moment.

A strong gloom flashed from the top of Youtian Sword.

The Youtian Sword suddenly soared, and immediately evolved from the Quasi-primary Beginning level to the Primal Beginning level.

In addition, Youtian Sword has been strengthened six times.

At this time, as soon as he evolved to be too elementary, he had a level equivalent to that of Su Lang.

Awesomely approaching the Sanyan Prime Beginning level!

"Tsk tut!"

"It's so cool!"

"Other powerful people who are too junior take hundreds of millions of years and spend countless energy, and they may not necessarily come up with an early weapon!"

"In the blink of an eye, I got a weapon of Taichu, and it's still close to Sanyan Taichu!"

Su Lang was so excited, Xiao You was so excited, he almost jumped out and hung on Su Lang on the spot.

But considering that so many people are watching after all.

In order to avoid shocking the world, Su Lang covered the breath of Youtian Sword with his own aura.

Then he calmed down the extremely excited Xiaoyou who wanted to pu pu ch.

"Xiaoyou, don't worry, when there is no one, cough!"

Su Lang laughed loudly in his heart, and soon cast his gaze on the other weapons.

Godless Dragon Platform must be upgraded.

Tianjia's eight-sided shield also needs to be upgraded.

There is also the Bright Sword, this auxiliary healing weapon will also be upgraded.

"system!"

"Retain the characteristics, evolve the Godless Dragon Terrace and the Heavenly Eight-Led Shield!"

After Su Lang comforted Xiaoyou, he immediately issued instructions.

"Ding! Consuming Godless Soul*556589...The Godless Dragon Platform has evolved into a weapon of the beginning!"

"Ding! Consuming Godless Soul*556354...The eight-sided shield of Tianjia evolved into a weapon of the beginning!"

Two system prompts sounded.

The godless dragon platform and the eight-sided shield of Tianjia both evolved to the early stage.

The same is because it has been strengthened four times.

Their power far surpasses Yiyantai's primary weapons.

Although it is not as powerful as Youtian Sword, it has also entered the threshold of Eryan Taichu!

Cross the level to reach the Taichu level.

Ao Bing and Ajia were also extremely excited, and wanted to run out on the spot and bow down and bow down.

But he was still stopped by Su Lang.

Otherwise, two weapon spirits with too low-level weapons suddenly appeared and bowed down. Jiang Wenzheng and the others must not be scared to tear off their beards?

"Cool!"

"Single assault, group attack and defense weapons are available!"

Su Lang smiled and gave another command, "System, upgrade the Bright Sword to the Primordial Level for me!"

"Ding! Consume no god-level materials, no **** soul*998, light lotus tree heart*590, light feather forbidden jade*509...The Bright Sword evolved into the Wudu Supreme Emperor Soldier!"

"..."

"Ding! Consume the Soul of the Supreme Emperor*426898...The Bright Sword has evolved into a weapon of the primordial beginning!"

It has evolved seven times!

The Bright Sword suddenly evolved from the Sidu Godless Weapon to the Yiyang Taichu Weapon!

"Noisy, noisy!"

"It's really arrogant once!"

Su Lang listened to the system prompts of Bright Sword's continuous promotion, and suddenly couldn't help but admire.

In the storage space.

The Bright Sword has become more and more brilliant and gorgeous!

Assafir was also directly surprised to the sluggishness, and immediately grateful to Su Lang!

[Chapter 1916: So happy to fly](#)

at this time.

Four early weapons evolved.

But this is not over yet!

No, there are enhanced functions that are useless!

"system!"

"Give me the Youtian Sword, the Bright Sword, the Godless Dragon Platform, and the Heavenly Eight-Edged Shield are all strengthened to +7!"

Su Lang licked the corner of his mouth excitedly, and gave instructions.

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthening success, no **** dragon platform +3!"

"Ding! Successfully strengthened, Tianjia eight-sided shield +3!"

"Ding! Strengthen success, Bright Sword +7!"

Instant time!

The storage space is like a black hole!

Countless treasures of heaven and earth disappeared out of thin air!

There are also those seized finished medicines, because they contain impurities, Su Lang completely looks down on them, and they are all consumed as raw materials!

This wave is over.

The power of Youtian Sword has officially reached the Sanyan Taichu level.

Its characteristics of breaking defenses and death are getting stronger, even if the elementary power is injured, they will die on the spot!

And its blade is getting stronger.

Its indestructible characteristics make it tougher than the higher Siyan Taichu weapon!

The terrifying increase in its ability to slash the gods!

And being able to slash a mental attack alone can completely replace Xin Jue Wu Feng Sword.

The key is.

Youtian Sword can cut through most of the time attack methods.

Such as time freezing, time acceleration and deceleration, etc.!

Besides, there is no **** dragon platform.

After strengthening up to seven times.

Its power has also been terribly increased.

However, because the Youtian Sword was inherently incapable of writing this abnormal weapon, its power stopped at the peak of Eryan Taichu.

Even so, it is incredibly tough.

Its group attack capability has increased to an unimaginable level.

Once broke out with full force.

Its firepower can cover dozens of star fields!

An extremely vast natural life planet is as fragile as a pill of mud in front of it.

Except besides.

Godless Dragon Terrace also possesses the power to break time.

It's just not as good as Youtian Sword.

After strengthening the eight-sided shield of Tianjiao.

Wei Neng is similar to Godless Dragon Platform.

Surprisingly reached the pinnacle of Eryan Taichu!

Its defensive ability is extremely strong, and the attack below Sanyan Taichu cannot shake a single trace.

Even Sanyan's attacks above the beginning can be resisted many times.

Moreover, the eight-sided shield of Tianjiao was very powerful against time.

Have his bodyguard.

The general time method is not effective for Su Lang.

Unless the gap between the two sides is too terrifying, it is absolutely impossible to directly break the defense of the eight-sided shield.

The Bright Sword evolved to the primordial level, and after seven more enhancements.

Has also reached the top level of Eryan Taichu.

The healing power it possesses is terrifying.

Unless the gods are destroyed, they can be saved even if they die.

The key operation is very simple.

Just swing everything and people live!

The corpse soil source soul reincarnation technique also requires troublesome steps such as making corpse soil.

Of course.

The Bright Sword is not omnipotent.

Even if it can save the dead, there are many restrictions.

For Su Lang.

The main function of the Bright Sword is to help oneself restore the energy in the body.

With his current energy reserves.

Basically, one-tenth can be recovered with one cut!

It should be known that Su Lang's energy reserves are many times that of other fighters of the same level.

Su Lang reserves one-tenth of his energy, which is more than others in heyday!

Except besides.

The sword of light also has the function of resolving time attacks.

Of course, its capability is not comparable to the other three early weapons.

This can be seen.

The Bright Sword is really powerful.

After all, it is the result of the continuous evolution and strengthening of the system!

This is comparable to the ordinary weapon refining master, who has spent a lot of fortunes, the east and the west, the original weapons that were piled up are much stronger!

"Beautiful, beautiful!"

"Next, wait for the heart lock!"

Su Lang chuckled, so happy that he was about to fly.

at this time.

A system prompt rang.

"Ding! "Trace to the World" has reached the founding level!"

[Chapter 1917: Friends Su Lang, you](#)

"Haha!"

"I didn't expect the Taichu exercises to be completed so quickly!"

"From placing the exercise to the present, it will only take five or six minutes!"

"Awesome!"

Su Lang was so surprised that he almost laughed out loud!

at the same time.

The warm current after the exercises were completed also appeared in Su Lang's body.

A lot of exercises are imprinted on the soul.

In an instant, Su Lang completely mastered this "Trace to the Origin of Eternity".

It's as if I spent countless years slowly thinking and creating it.

And the function of this exercise.

As expected, it is a practice book about "past" time.

It records a very powerful too primary secret technique.

Once on a certain creature.

You can view his past, all the details can be seen at a glance!

And it's very real.

It's so real that it's almost as if I have experienced it myself!

Except besides.

There is also a method to slow down the flow of time. To slow down to the extreme is the flow of time!

"A very powerful technique!"

"It's a pity that I still can't use these methods."

"I have to wait until I have more advanced time rules and more crystal wall worlds that integrate time rules!"

Su Lang's heart was full of enthusiasm, and his eyes fell on other exercises again.

This time he intends to practice the same techniques as "The Boundless World of Hengsha" to strengthen the crystal wall world!

Although this exercise is in a minority.

But Su Lang synthesized a lot of too basic exercises!

Search from more than 800 exercises, let alone one, even ten can be found!

quickly!

Su Lang found an extremely elementary exercise called "The World of Clouds and Fog".

By looking at its name, you can roughly see the exercises like it and Hengsha Blessed World Record.

The meaning is that there are as many water droplets in the universe as there are in the clouds!

The same is the practice of multi-universe, multi-world practice!

"system!"

"Place "Yunyu Mist World Map" to start the nine hearts into one!"

Su Lang smiled, and immediately began to practice this exercise.

Suddenly.

Place the exercises.

The nine martial arts villains began to practice the exercises together.

Presumably, it will not take a few minutes to complete the practice again!

"It's so cool, so cool!"

Su Lang was extremely happy!

Just then.

The four avatars sent out to detect the 100,000 Heavenly Misty Star Cluster have already detected this huge formation.

At this moment!

The entire formation was seen by Su Lang and remembered in his heart.

Every detail in the formation was completely remembered by him.

The formation method was also completely learned by Su Lang.

Moreover, all the formations within the divine mind were controlled by Su Lang, so he could do whatever he wanted!

"A great array of heavenly stars!"

"Twenty-eight primary formations and 70,000 godless formations form a combined formation!"

"On average, every elementary formation is surrounded by two thousand five hundred formations!"

"All kinds of formations are connected to each other to form a unit. A full 49 million units form one-eighth of the entire array!"

"The formation that makes up the entire 100,000-sky stellar cluster is as many as 400 million units!"

"The unit of the combined formation alone is as many as 400 million, and the number of formations among them is countless!"

"It's really amazing to use manpower to complete such a formation!!"

Su Lang closed his eyes, a model of the 100,000-sky star cluster appeared in his mind, and his heartfelt admiration rose in his heart.

Notice.

Others don't have the ability to make thoughts.

Every establishment of a formation requires the joint efforts of countless array masters, consuming countless materials, effort and time.

"Senior Zhuge, I have already discovered the formation!"

Su Lang took a deep breath and respectfully bowed his hands to Zhuge Zhen.

then.

Zhuge Zhenduo was stunned there.

Jiang Wenzheng and the others were all stunned!

The scene was silent.

Even if someone loses a hair, it can be heard by others!

"what!!"

"Su, Daoist Su Lang!?"

"You said you have already detected the formation!?"

"There are a total of 392 million formation units in this constellation large array, and each unit is composed of a different number of 2,500 formations!"

"Daoist Su Lang, you, this, this, this detection is over? Don't you take a closer look!?"

"..."

Zhuge Zhenduo and the others looked at Su Lang in disbelief, as if they had seen a ghost, their eyes were staring!

[Chapter 1918: Repair the formation hole](#)

Jiang Wenzheng and others are more or less godless-level formation masters.

They have also participated in the construction of the One Hundred Thousand Heavens Misty Star Group.

I know how complicated this formation is, how vast, and how difficult it is to build it!

But now.

Su Lang actually said that he had already detected the formation!

OMG!

How long is this?

This completes the detection of the formation! ?

It is incredible! !

If it weren't for the miracle that Su Lang had created before, everyone could not help but doubt it, instead of just wondering now.

"Seniors!"

"There are indeed many formations of the 100,000 Heavenly Misty Stars!"

"However, they are all made up of the same unit."

"So I only need to figure out the unit of the united array, and then understand the way the units are connected."

Su Lang smiled faintly, "Now, we can start to repair the formation!"

"That's it."

"But even a united formation unit is extremely complicated."

"There are so many formations, millions of them, which is incredible!"

"..."

Zhuge Zhenduo and others nodded slightly, but there was still a thick disbelief on their faces.

"So."

Jiang Wenzheng asked curiously, "How does Daoist Su Lang plan to fix this huge loophole in the formation?"

The rest of the early powerhouses also watched Su Lang.

They have a hunch.

Su Lang is about to create a miracle again, yes, he is coming again!

really!

"It's easy!"

"Using the most common method, first build the skeleton and then fill the flesh!"

Su Lang laughed, pointing to the formation and saying, "For example, like this!"

The voice just fell.

Zhuge Zhenduo, Jiang Wenzheng, Bi Tongguang and others looked in the direction of Su Lang's fingers.

Suddenly.

Their eyes widened.

Because at the edge of the void of that formation, one by one, two primary formations appeared!

Immediately after.

At the edge of these two primary formations, one Supreme Emperor rank formation appeared again, as flesh and blood filling the edges of each primordial formation.

In a blink of an eye.

An array unit with millions of levels is actually completed!

This is a unit with millions of formations!

Actually completed the arrangement in a few breaths.

This is almost unbelievable when an ordinary ant has instantly turned into a planet-level behemoth!

"What the **** is this!"

"It's amazing. I have studied the formation for billions of years. I have never seen this kind of formation method!"

"I have arranged and repaired a large number of units of this type of formation, but if I come, it will take at least a hundred days to complete the arrangement!"

"Friend Su Lang, I almost suspect that you used the 'past' time method!"

"This is incredible, Daoist Su Lang, you have created another miracle!"

"..."

Jiang Wenzheng and the others looked at the array units that appeared almost out of thin air, each of them was dumbfounded and breathed!

At this time.

Another exclamation came!

"Look, everyone!"

"Friend Su Lang not only lays out the array so fast that it is against the sky, this array unit is different from ours!"

"Taoist Su Lang has joined other types of formations, making this formation unit more perfect!"

Zhuge Array exclaimed, looking at the brand new array unit, his eyes were like searchlights!

"what!!"

"If this is the case, there are more than twenty kinds of Taichu formations!"

"There are tens of thousands of quasi-primary formations, and more godless-level formations!"

"Aren't those newly added Taichu formations from the classics that we just presented to Taoist Su Lang not long ago!?"

"Could it be that Daoist Su Lang learned all those formations just by looking at it!?"

"This, this, this is simply a fantasy, but it really appeared in front of me!"

"My God, it's unbelievable. Even the entire Infinite Realm, the Infinite Realm with countless powerful people, no one can do this!"

"Now the power of this formation unit is more than ten thousand times stronger than before, Daoist Su Lang is simply incredible!!"

"Friend Su Lang, are you the eternal realm strong reincarnated and rebuilt!?"

"..."

Jiang Wenzheng and others were reminded by Zhuge Zhenduo, and immediately discovered the changes in the new formation unit!

[Chapter 1919: The first division of Tianmeng worshipped](#)

Their faces were full of horror.

A mouth was too shocked to close at all!

The miracle Su Lang created before them was beyond their imagination!

"Friend Su Lang!"

"You, how did you do it!?"

"What kind of anti-sky formation is contained in this!?"

Zhugue Zhenduo asked Su Lang in shock, and even the idea of apprenticeship arose in his mind!

It should be known that he was the first person in the formation of the entire Tianmen Continent.

Almost all the powerful formation wizards in the entire Tianmen Continent were taught by him!

In the eyes of countless people in Tianmen Continent.

Zhugue formation is the **** of formation together!

But now.

He wants to apprentice!

He was conquered by Su Lang's formation method!

"This is a very peculiar means of formation."

Su Lang smiled and shook his head, "But I can't explain it clearly. I know it but I don't know why."

Whether it is the ability to learn formations or the ability to arrange formations, he does it through system functions.

It is impossible to teach other people the method of learning the formation method at a glance and forming a formation with a thought.

of course.

The formations that have been learned can be taught to others.

therefore.

When Zhugue Zhen duo was there, regretful.

"Friend Zhugue."

"I can't teach you this kind of quick learning of formation and rapid formation."

"But those formations you don't understand, I can organize them into a book and give it to you!"

Su Lang smiled faintly, "This can be regarded as my feedback to everyone who sent me the classics of the formation!"

This statement came out.

Everyone was immediately surprised!

"Thank you, Daoist Su Lang! Thank you, Daoist Su Lang!"

Zhugue Zhenduo was even more ecstatic, and his previous regrets had long since vanished!

Notice.

In the brand new formation unit, Su Lang has incorporated 21 more basic techniques that they have never mastered.

There are as many as tens of thousands of godless techniques!

The classics of that too primary formation have been passed down from the time when the boundless world was broken to the present.

Zhuge Zhenduo, the person who has the best grasp, has only realized 26 kinds.

The rest are too junior and strong, some people understand the other two.

It is also precisely using these 28 too elementary formations that they have spent countless years to create a 100,000-day star cluster!

at this time.

Su Lang would organize the formations he learned and give them to them.

Presumably they can also learn very quickly, and then use them in battle, greatly enhancing their combat power!

"Wait for me to make up for the void in this formation."

"Just burn a jade book of classics for you fellow Taoists!"

Su Lang laughed, and immediately began to arrange the elementary array unit again.

Silently.

Countless formations appeared out of thin air.

It's like a ray of granulation growing, making up for and healing the huge wound of void formation!

Time is passing slowly!

A thousand array units are laid out!

Ten thousand array units have been laid out!

This is not over yet.

The number continues to skyrocket!

One hundred thousand million! In the end it reached 10 million!

So far!

The void of the formation is completely made up!

but.

Su Lang's actions did not end there.

In the eyes of everyone.

Su Lang pinched the formation with both hands and activated those brand-new formation units.

Rumble!

There was a roar of terror!

Immediately after.

Jiang Wenzheng and the others discovered that small broken continents from other places were drawn over!

These small continents are arranged in peculiar ways.

Under the action of the formation, the world consciousness of the small continents is connected to each other.

Suddenly!

The World Consciousness Barrier of the One Hundred Thousand Heavens Misty Stars has also been compensated!

As long as there are people from other continents breaking into or even approaching the 100,000 Heavenly Misty Stars.

The world consciousness will immediately form a vision to alert the warriors in the Heavenly Continent!

"Awesome!"

"so amazing!"

"With the formation, move one world at a time!"

"Place the world accurately in a special place!"

"It's really breathtaking, it's amazing!"

"Friend Su Lang, your formation skills are almost endless!"

"..."

Zhuge Zhenduo and others were numb with shock, and the eyes that looked at Su Lang even showed respect!

[Chapter 1920: Daoist Su Lang is really humble](#)

"Haha!"

"Actually, my formation skills are just too early."

Su Lang smiled and shook his head, "If it is a higher level formation, I can't arrange it!"

This statement came out.

Zhuge Zhenduo and the others suddenly smiled dumbly!

"Friend Su Lang!"

"We have only seen Taichu formations, and more advanced formations may not exist at all!"

"But if it really exists, I guess you will learn it for a short while!"

"..."

Everyone laughed and talked.

"I really can't learn it."

Su Lang smiled, he really couldn't help.

Because the one-key formation function has been upgraded to the top, the formation method that can be learned is too basic.

"Taoist Su Lang is really humble!"

"That is, with such a good formation talent, you can definitely learn more advanced formations!"

"If Daoist Su Lang really learns that formation, will we be invincible?"

"That's very possible! Anyway, those bald donkeys can't touch us!"

"..."

While everyone laughed and joked about Su Lang, they imagined a bright future for Su Lang to learn more advanced formations.

"correct!"

"I haven't burned the jade book of the formation law for everyone."

Su Lang suddenly laughed, and took out jade slips one by one, and began to burn the formations.

With his ability at the Beginning Level at this time, let alone the Profound Meaning of Burning Formation Techniques, even if it was burning the Formation Techniques, he could do it.

Almost instantly.

Su Lang has burned the profound meaning of a Taichu formation.

Then gave the jade slip to Zhuge Zhenduo and others!

"This is the profound meaning of the too primary formation!"

"Hiss, so detailed, too detailed, I almost understand it at a glance!"

"You can see with your eyes, and your brain can see, do you understand with your hands, haha!"

"..."

Zhuge Zhenduo and others looked at the formation at the same time, and they were happy, ready for further enlightenment.

But at this moment!

The second jade slip was handed over by Su Lang again!

"this is!"

"Have you finished burning again!?"

"This, so fast!!"

"..."

Everyone is incredible.

But when he thought that Su Lang could even arrange millions of formations in an instant, he accepted it and felt relieved.

Next.

After being burned by Su Lang, the jade bamboo slips and books were handed to Zhuge Zhenduo and others.

In a blink of an eye.

All the primordial formations of the Taichu Formation have been burned.

"The following is a godless formation."

"The Godless-level formation is relatively simple. I will engrave it in a jade album separately!"

After Su Lang finished speaking, without looking at the reaction of Zhuge Zhenduo and others, he immediately began to burn.

have to say.

The Godless-level formation is really too simple compared to the too elementary formation!

Basically, the profound meaning contained in the thousands of supreme emperor's formations is not comparable to that of a too elementary formation.

therefore.

Although there are many types of formations without God level.

But Su Lang's burning speed is also very fast.

About a quarter of an hour.

Su Lang burned all the profound meanings of the Godless Array into a jade slip.

"In this, there are about 130,000 godless-level formations of profound interpretations!"

Su Lang handed this jade slip to Zhuge Zhenduo, "I hope it will be helpful to you!"

"Good, good, good!!"

"A detailed analysis of the 130,000 godless-level formation methods, this will be the treasure of the Heavenly Continent!"

"Friend Su Lang, don't worry, I will let it pass on!"

Zhuge Zhenduo took the jade slip from Su Lang with trembling hands, his eyes full of excitement.

"Not bad!"

"We will let this jade slip be passed on forever!"

"The name of Fellow Su Lang will be passed on forever, and countless warriors will admire you in the future!"

"..."

Jiang Wenzheng and others were also extremely excited.

Su Lang's engraved array of secret analysis is simply too detailed.

Even they can understand at a glance!

"Haha!"

"As long as the jade sword of this formation can help you, everything else is second."

"By the way, I said that I would give you the "Soul Origin Soul Reincarnation Technique", now you can burn it together!"

Su Lang smiled, immediately took out a new jade slip, and began to burn the corpse soil source soul reincarnation technique.
