[Chapter 1921: The Soul of Pure Nirvana](#)

Now it is not difficult for him to burn the profound meanings of the basic exercises.

What's more, "The Reincarnation of Corpse Earth Origin Soul" is just a secret technique quickly.

Su Lang finished recording this secret method and gave it to Jiang Wenzheng and others.

"Great!"

"In the future, even if our warriors die in battle, there will be hope of resurrection!"

"Thank you Daoist Su Lang!!"

"..."

Jiang Wenzheng and the others were pleasantly surprised, and they repeatedly bowed their hands to Su Lang and even faintly bowed.

"You fellow Taoists don't have to thank me so much."

"This is what I should do. We have to fight against Emperor Tian Mi and Yuan Ming Zhou together!"

"This formation unit has been improved by me, and if it can be extended to other formation units and improved, the defense of the 100,000-day Misty Star Swarm Array will skyrocket to the Wuyan Prime Beginning level!"

Su Lang waved his hand with a smile, and continued, "The improvement plan is very simple. I considered it beforehand. You can easily improve other formation units!"

This statement came out.

Everyone suddenly beamed with joy.

It should be known that among the twenty-something primaries of theirs, only five or six reached the level of Wuyan primaries.

The rest are below Siyan Taichu.

If this 100,000-sky star cluster could reach the defense power of the Wuyan Taichu.

On that day, the security of the Miao continent will be greatly improved!

"Friend Su Lang is so thoughtful!"

"Below represents the countless creatures of the Tianmen Continent, thanks to fellow Taoist Su Lang!"

Zhuge Array showed admiration in many faces, and immediately bowed to Su Lang.

The others followed suit and bowed!

"Don't do this, everyone."

"Get up, get up!"

Su Lang lifted everyone up, "I said, this is what I should do."

Hear this.

Everyone smiled.

"Su Lang has what he needs."

"Just ask us!"

"Although we old guys are not useful, we live a long time and collect a lot of things. Keeping them will not disappoint Daoist Su Lang!"

Jiang Wenzheng said to Su Lang solemnly.

"Hahahaha!"

"I really won't be polite to everyone!"

Su Lang laughed loudly, "But forget it now, next time, everyone prepare more! Hehe!"

"Haha, well, I must prepare more when I wait!"

Zhuge Array laughed a lot, "Then let's go down and study the jade slips given by Taoist Su Lang with those disciples and grandchildren, so that we can improve the 100,000-sky star cluster as soon as possible!"

"it is good!"

"I'll wait too!"

"Friend Su Lang, please go together, those boys must pay respects to fellow Daoists!"

"Yes, right, right, Daoist Su Lang has to go, I will prepare some things needed for the resurrection ceremony of the corpse soil source soul, and I will meet you back!"

"Go and go!"

"..."

The crowd made a lot of noise, and Xuan even flew towards a certain broken continent surrounded by Su Lang!

There are also too low-level powerhouses to act separately to prepare the items needed for the resurrection ceremony of the corpse soil source soul.

It still feels very good to be surrounded by strong people from the beginning.

Su Lang enjoyed it!

at this time!

boom!

A roar suddenly sounded in Su Lang's mind.

exactly.

In the sea of knowledge!

"Mental power has broken through!!"

"From the realm of broken nirvana to the realm of pure nirvana!"

Su Lang's body was shocked, his eyes revealed surprise, only to feel that his mental power instantly expanded a hundred thousand times!

Surprise occasion.

He immediately looked inside himself and checked the state of the sea of consciousness.

When the realm of broken nirvana.

The entire world of Consciousness Sea collapsed into countless golden mists!

Even the cohesive sun is no exception.

And those golden mists are the soul power needed to blend into the body of the emperor and the universe of life!

only if.

In order to complete the soul-body fusion and soul-yu fusion!

When both of these are completed, they have reached the realm of the Supreme Emperor.

In this realm is also the spiritual power of the realm of broken nirvana.

The Supreme Emperor is in the process of completing the fusion of soul, body and soul.

It can also continuously expand the golden mist left in the sea of knowledge and make it develop in the direction of qualitative change!

But at this step, most of the godless-level powerhouses were completely fused with the soul, body and soul, which involved all their energy and time, and could hardly strengthen their mental power.

Only by reaching the quasi-primary level, can they spend countless hours and energy on this.

[Chapter 1922: Ethereal universe merges with the world of knowledge sea](#)

But Su Lang is different.

He has the function of mental enhancement.

There is a system to help automatically improve mental power, which can also be said to be soul power.

Therefore, Su Lang's soul power has been growing!

Coupled with the use of the secret method in "Deadwood Condensation of Life" to enhance the soul source.

His soul has always maintained a growth state.

In the sea of knowledge.

Countless golden mist lingers.

These golden mists are full of luster and seem to contain countless energy!

In fact, it is true.

Su Lang's trace of spiritual power can kill countless powerful people!

Of course.

It's impossible to do it with a beginner.

At this moment.

Su Lang's spiritual power reached the realm of pure Nirvana.

The countless golden mist in the sea of consciousness began to gradually become scarce.

But the remaining golden mist became more and more solid!

And gradually formed a crystal clear translucent fluid, gradually forming a human shape!

The outline and appearance of this human figure are exactly the same as Su Lang!

This is the pure Nirvana soul that can almost live forever!

"Incomparably pure soul power!"

"There is no trace of impurities, crystal clear, exquisite and clear heart!"

Su Lang felt the majestic and pure soul power, and he was as comfortable as if he had been sealed for countless years and suddenly gained freedom!

Immediately after.

His heart moved!

Suddenly a piece of land appeared at the feet of Jingni's soul, and it spread wildly in all directions!

In a blink of an eye.

The thick and boundless land reappears in the sea of knowledge.

Above are countless mountains, rivers and oceans, and the vast sky!

The soul of Jingni instantly appeared in the sky, bursting out with endless light, illuminating the whole world!

suddenly!

"Ding! The host's soul breaks through to the realm of pure Nirvana and can merge with the virtual spirit universe!"

The appearance of the system prompt gave Su Lang a slight pause, and he was immediately delighted.

Ethereal universe.

This is an illusory world.

When it was first opened, it was also located below the world of consciousness.

Su Lang was still wondering why he didn't appear in the Sea of Consciousness. It turned out to be waiting for the realm of Nirvana!

"Void Spirit Universe!"

"Know the sea world!"

"Once it merges, more wonderful things will happen!"

There was a glimmer of expectation in Su Lang's eyes, and immediately issued an order, "The system, merge the virtual spirit universe with the world of consciousness!"

"Ding! Start fusion!"

The system prompt sounded again.

Soon.

The Void Spirit Universe, located under the Sea of Consciousness, slowly moved upwards, gradually blending with the World of Consciousness.

Those two Void Dragon Vein Celestial Realms were also integrated into the World of Knowledge!

Silently.

The whole world of Zhihai has become more colorful.

Countless incense-condensed creatures appeared on the earth, and they were infinitely changing like a sea of clouds, which was unpredictable.

Simultaneously.

An incomparably tall and vast colorful giant tree rose to the sky, occupying a corner of the world!

This colorful, crystal clear giant tree is the Seven Treasure Tree!

Inside the giant trunk of the Seven Treasure Tree, a dragon-patterned orb is floating up and down. It is the void dragon vein world that Su Lang has just condensed!

And in the deep sea of the world of knowledge.

A huge longevity lock lay in the bottom of the sea, and the nine black jade chains spread around, with no end in sight!

There is also a dragon-patterned orb inside, which is also a void dragon vein heaven!

This long-life lock is obviously a heart-piercing lock!

of course.

Compared with Qibao Miaoshu.

The volume of the lock is much smaller, and it is faintly illusory.

After all, it didn't take long for it to condense.

"Unexpectedly it turned out to be like this!"

"The world of Consciousness Sea is becoming more and more prosperous, and it merges with the Ethereal Universe, which has something to do with some of my plans."

Su Lang pondered silently, his gaze fell on the Luoyou Mirror, and the exercise technique "Ming Gong Zao Hua Lu" appeared in his mind.

His plan at the time.

It is to create a world of reincarnation and accommodate the souls of the dead in the ten life universes.

These souls can reincarnate in reincarnation, go through all ages, and continue to grow themselves!

And the reincarnation world.

In Su Lang's original vision, it will become the center of incense willingness, a unique 'dantian'!

It will support the second set of Zhoutian veins besides Innate Yiqi, in which the incense aspiration power runs!

[Chapter 1923: Too Beginner](#)

But now.

For Su Lang, ordinary incense wishing power had little effect when used directly.

Therefore, the reincarnation plan has been repeatedly shelved.

Luo Youjing was also faintly hidden by the snow.

"Ming Gong Zao Hua Lu" has almost never been used.

However, by condensing the incense weapon of Qibao Miaoshu.

The sublimated incense aspiration power appeared in Su Lang's vision.

This kind of sublimation qualitative incense aspiration power has undergone a leap in level, and it is not inferior to the distortion power.

It can even be compared with the twisting power of the Taichu level!

In addition, the Ethereal Universe and the Sea of Consciousness merge at this time!

Another unique incense road appeared in front of Su Lang more clearly!

"Now Shifang Life Universe."

"Hundreds of thousands of crystal wall worlds!"

"There are countless creatures alive!"

"Every day countless creatures die, and most of the souls turn into energy and return to heaven and earth."

"These are souls that have finally grown up!"

Su Lang regards himself internally, and the many worlds in his body show a prosperous development state as a whole.

But there are countless souls annihilated because of death.

If you want to bring it into the world of emptiness dragon veins, you need to stare at it all the time.

Su Lang didn't want to do this.

What's more, many of these souls were of great kindness and virtue before they were alive, and it would be inappropriate to put them into the emptiness dragon vein heaven to suffer torment.

"It's time to establish reincarnation!"

Su Lang narrowed his eyes, even if he started to act!

Keep staring at hundreds of thousands of worlds, the life and death of countless creatures.

Su Lang needs a helper!

That is, the network mirror that can save the soul!

"system!"

"Activate the weapon evolution function and evolve Luoyoujing into a weapon of the early days!"

"Ding! Consume no god-level materials, no **** soul*10, nether lotus seed*300, dark soul forbidden jade*500...Luoyoujing has evolved into a soldier of the Second Cross Supreme Emperor!"

"..."

"Ding! Consume the soul of the Supreme Emperor*516898...Luoyoujing has evolved into a weapon of the primordial beginning!"

After a series of system prompts.

Luo Youjing has directly evolved seven times!

From Yidu Godless Soldier to Yiyao Taichu Weapon!

Such a terrifying promotion speed.

If you are personally treated, you will definitely be shocked to the point of cerebral palsy!

Infinite storage space.

Luo Youjing was suspended in the air, and Ling Xiaoluo stayed in the body a little lost and bored.

"The master hasn't used me for a long time."

"Has the master forgotten me?"

"Yes, the master now has so many powerful weapons, I'm really useless."

These are the three sentences that Xiaoluo often chanted recently, but as soon as she finished chanting today, she found bursts of gloom flashing from her body!

Immediately after.

Rumble!

An extremely terrifying force appeared in the body.

In a flash!

Xiaoluo found that his level began to skyrocket!

In an instant, he soared from Yidu to Quasi-primary Beginning, and finally leaped across the moat to reach the Primal Beginning!

"Oh my God!"

"This is evolution, the master is evolving for me!"

"I have evolved into a weapon from the beginning, my God, the master thinks of me, the master hasn't forgotten me!"

"Master! Xiaoluo really wants to see you!"

"..."

Xiaoluo was so excited that he couldn't wait to rush out of the storage space and bow down in front of Su Lang.

"Don't get excited."

"It's not over yet!"

"Next, you can still be promoted!"

Su Lang's soft and gentle voice reached Xiaoluo's mind.

"Also... still promoted!!!"

Xiaoluo was stunned.

The promotion from the weakest soldier of the Supreme Emperor to the weapon of the Beginning is extremely exaggerated, very incredible.

Now Su Lang actually said that he could still be promoted!

Just when Xiaoluo was horrified.

"Start the enhanced function!"

"Strengthen Luoyou Mirror seven times!!"

Su Lang ordered again, and the system prompt suddenly sounded again!

"Ding! Strengthened successfully, Luoyoujing +7!"

Inside the storage space.

The shocked Xiaoluo suddenly found that he had started to improve again.

This time he has improved seven times in a row, and he has stepped into a new realm again!

This is the elementary state of Er Yantai!

He is even close to the early stage of Sanyan!

[Chapter 1924: Build a reincarnation world](#)

Xiaoluo clearly felt that he had mastered a peculiar ability.

That is, time can be stagnated to a certain extent.

At the same time, the mastery of space has reached its limit!

And in her body.

The space where the incense will power and dead soul can be stored on that side has become almost endless!

And for this space.

Xiaoluo can manipulate it as he wants.

Just a thought.

A purple-black earth appeared in the world.

Another thought flashed, and a large number of purple and black swirls appeared in the sky.

but.

Xiaoluo found that he didn't seem to have any other powerful methods.

At least to help Su Lang fight, it is estimated that he can only be a meat shield.

"Xiaoluo, Xiaoluo has lived up to the Lord's expectations..."

A trace of shame and self-blame appeared in Xiaoluo's heart.

She has always been very calm, and even the shock before it has quickly calmed down.

But at this time.

The deep guilt and self-blame are too strong to dissipate.

"Don't be sad, Xiaoluo."

"Your mission is not to fight!"

"I want you to help me build a world of reincarnation!"

"Now, the world you created now fits my mind very well!"

Su Lang's soft and gentle voice appeared in Xiaoluo's mind again.

"what!?"

"Build a world of reincarnation!?"

"Master, what is the reincarnation world, what should Xiaoluo do?"

Xiao Luo heard Su Lang's voice and asked immediately.

"The specific world of reincarnation is like this!"

Su Lang chuckled, divine consciousness carrying a large amount of information flow into Xiaoluo's mind.

Suddenly.

Xiao Luo saw a strange world transformed by Su Lang.

On the vast ground.

An extremely turbid and wide river divides it into two parts.

At the source of the river, a huge stone tablet was erected with the word 'Wang Chuan' engraved on it.

In the middle of the river, a bridge was erected across the river.

A stone tablet was also erected on the bridge head of the bridge with the word 'naihe' engraved on it.

However, the earth on the side of the stele was purple-black, and the sky was bleeding red.

Strange plants grow everywhere on the ground.

Even the mountains are like grave piles, creepy.

A road extends from the stele of the bridge to the end of the purple-black earth, on the edge of a cliff whose bottom is invisible.

There is no bottom under the cliff.

But you can vaguely see an endless round wheel slowly spinning!

The round wheel is composed of countless small squares.

There is a small space in each small square, containing incense power without a trace of impurities.

On the edge of the cliff, there is a stone tablet with the word 'Huangquan' engraved on it.

On both sides of the road.

Eighteen behemoths rising straight into the sky one after another!

Sixteen of them are just shadows.

Only the two closest to the "Yellow Spring" stele can clearly see their appearance.

The first behemoth is a huge colorful tree!

The second behemoth is a long life lock surrounded by black jade chains!

Look at the other side of the bridge.

The sky is full of countless stars.

These stars guard ten suns!

The sun's rays shone on the earth.

The ground is vibrant, peaceful, and very beautiful.

On this ground, there are four giant stone monuments standing up and down.

Four giant stone monuments stand side by side.

The carvings on the above are different, including countless woods, countless beasts, and intelligent human beings living on the earth.

Finally, there are intelligent creatures living in the clouds, high above them.

Just when Xiaoluo looked at this world and pondered the intention of each of these arrangements.

A huge flow of information poured into her mind.

Suddenly.

Xiaoluo thoroughly understood the arrangement of this reincarnation world.

This is a transit point for the reincarnation of a soul.

After the soul enters the world of reincarnation.

The soul that enters for the first time will leave the mark of the true spirit in the reincarnation under that cliff.

Under the action of pure incense, it is guaranteed not to die completely.

Souls that have left the mark of the true spirit will enter Huangquan Road.

After discerning its good and evil cause and effect.

Unqualified people will enter the Hell of Qibao and Heart-piercing Hell!

[Chapter 1925: It's my turn!](#)

Sixteen other hells will be set in the future.

And the number of sixteen is only tentative, there may be more.

Qualified people will walk along Huangquan Road, step on the Naihe Bridge, and cross the Wangchuan River.

When the soul steps on the Naihe Bridge, looking at the river below, you can see the picture of your life experience.

After crossing the Wangchuan River, the memory will be erased.

after that.

These souls who have lost their memories will continue to rely on the merits of good and evil.

They were thrown into the path of vegetation, beast, human, and heaven.

Those who devote themselves to wood will become the soul of Lingzhi Lingcao.

The souls of the beasts are the souls of the beasts, and they are generally spirit beasts with wit.

Those who are committed to humanity are all kinds of humanoid and intelligent creatures in the human world.

Those who devote themselves to the heaven and humanity are the intelligent creatures of the heaven.

The heaven is the heaven created in the world of Puxin.

It is a world that only those who possess great merit are qualified to enter.

And this kind of world, Su Lang wants to promote it in all worlds.

The executor is her Xiaoluo.

Having reached the primordial level, even without the Supreme Emperor's soldiers as a skeleton, she can easily establish a square heaven.

And her body network mirror will be placed in the Dantian universe by Su Lang.

Connect Shifang Life Universe and all crystal wall universes!

In addition.

She was allowed to choose some souls, and gave the dead souls different abilities and responsibilities according to her own preferences.

For example, guiding the soul into reincarnation during death, so as not to dissipate the difference between heaven and earth and so on.

"What a sophisticated setting this is!"

"In this way, those souls will always exist, and maybe some strange changes will occur after many reincarnations!"

Xiao Luo looked at the reincarnation world that Su Lang had transformed into, and couldn't help but exclaim.

At this time.

"Little network!"

"I have instilled into you the criteria for distinguishing the cause and effect of good and evil in a soul."

"From the past, you will be in charge of reincarnation for me!"

Su Lang's voice echoed in Xiaoluo's mind.

Immediately after.

Xiao Luo discovered that his body had been placed by Su Lang on a small table in the Dantian Universe, the White Jade Emperor's Palace.

It's a bit like a makeup mirror.

no one knows.

Inside this mirror is a reincarnation that controls hundreds of thousands of worlds!

And in the future, more and more worlds will be controlled, reaching trillions...

Of course.

Now the world of reincarnation is still out!

"let's start!"

"Don't let the master down!"

Xiaoluo thought about it, and then immediately began to transform the world in the mirror according to Su Lang's settings.

I saw the earth that was originally purple and black.

Suddenly it was divided into two halves by a terrifying rift!

A huge stele appeared at the end of one side of the rift.

The turbulent and turbid river flows through the crack in the middle.

Strange energy radiates from the river, which can easily erase the memory of the soul.

Xiao Luo was originally playing soul.

At this time, he was promoted to too beginner level, and he was still at the beginning of the Second Yan, approaching the level of the beginning of San Yan!

Its control of the soul has reached the point of superb power.

But as long as it is a soul below the primordial level.

None of them could resist the power of the Wangchuan River.

Even the soul of a strong man at the beginning level of Yiyan.

Over time, memories will be gradually erased.

After the creation of Wangchuanhe.

Xiao Luo immediately created Naihe Bridge, Huangquan Road.

The living world on the other side was also created.

And it turned out countless creatures to thrive in it.

Four stone monuments stand on the ground, corresponding to the four reincarnations.

Soon.

Xiao Luo created the Huangquan Road Samsara Cliff and Samsara Disk with his hand!

Her gaze immediately fell to Huangquan Road.

The colorful giant tree and the long life lock entwined with black jade chains were created by her.

There are sixteen unidentified "hells".

Su Lang looked at this scene and nodded very satisfied.

"It's time for me to do it!"

Su Lang's thoughts moved, and a large amount of pure and flawless incense and aspirations poured into the reincarnation disc from the virtual spirit universe, into the countless small grids.

Immediately after.

Two space channels emerged.

They are hidden in the Qibao Miaoshu and the giant sculpture of the Heart-piercing Lock.

These two spatial channels are connected to the real Seven Treasure Tree and Heart-piercing Lock in the virtual spirit universe.

[Chapter 1926: Shocked souls](#)

Once the soul is thrown in.

It will become the incense creature that has been thoroughly brainwashed in the Seven Treasure Tree or the Heart-piercing Lock Dragon Vein.

This will be a terrible punishment!

Next.

But on the other side of the bridge, in a vibrant world.

The four statues also appeared in space channels, connecting hundreds of thousands of worlds.

Xiao Luo will also control the souls of all world creatures after death through these four spatial channels.

Xiao Luo's spiritual thoughts spread out, extending into the world along the space channel.

She suddenly saw hundreds of thousands of planetary worlds with intelligent life.

There are countless creatures living on it, and creatures are born and die at all times.

At this time.

In the reincarnation world.

Millions of souls appeared at the starting point of Huangquan Road, and they were released by Su Lang.

These souls enter Huangquan Road.

Suddenly looked around!

"Where is this place!?"

"What a beautiful colorful giant tree, it's so vast, just like the Milky Way!"

"What is the giant wheel under the cliff behind? It gives people a feeling of eternity!!"

"..."

All sorts of doubts arose in the hearts of a large number of souls, and they never expected to return to this place after their death.

at this time!

The reincarnation disk under the cliff was spinning, and suddenly there was a burst of suction, acting on each soul.

"what!?"

"No, no, no!"

"..."

The souls were terrified, but they didn't have any resistance.

They are fortunate.

I was just a trace of soul origin being sucked into that vast wheel, into small grids.

This trace of true spirit and pure aspiration is infused, and it grows suddenly!

Since then.

Even if these souls are scattered, they will never be completely wiped out.

They will always exist in samsara!

They who have left a trace of true spirit, will not die in reincarnation, they will not die!

This is almost the immortal power that Su Lang gave them!

"I feel it now!"

"I want that great wheel to have a touch!"

"If I can be with it, it is there, I am!"

"What the **** does this mean!?"

"..."

Some of the souls were surprised and some were anxious.

at this time!

A faint voice appeared in the minds of all souls.

"Wait, listen up!"

"I am Luoyou Jing, the master of reincarnation."

"This is the world of reincarnation, the co-master of the endless world, the place of reincarnation created by His Majesty Su Lang for the soul!"

"His Majesty Su Lang can't bear the souls of the dead to dissipate in the heavens and the earth, and specially created reincarnation, so that your souls will be immortal and even be reborn!"

"However, to be eligible for rebirth, one must go through eighteen **** trials!"

"You are very lucky. There are only two hells in operation now. After passing the trial of these two hells, you will be able to reincarnate and regain your life!"

"Now, the Seven Treasure Hell Trial begins!"

"..."

When the souls heard this, they were ecstatic, shocked, or unbelievable.

"what!?"

"Can we not die?"

"This is the world of reincarnation, the world of reincarnation created by His Majesty Su Lang!"

"His Majesty Su Lang, it turned out to be His Majesty Su Lang. I come from the Tai Sui world! His Majesty Su Lang is the Creator we worship!"

"His Majesty Su Lang is the greatest existence. He has created countless worlds and creatures!"

"Reincarnation! This is the end and beginning of all the dead!"

"Which one exists that coercive voice can actually control reincarnation? Could it be the Taoist companion beside His Majesty Su Lang?"

"..."

Countless thoughts arose in the minds of the souls, one by one was dumbfounded, shocked to the point that it was hard for oneself.

suddenly!

The faint voice sounded again.

"While you are waiting, 370,000 people have done too much to kill and steal treasures, and they have gone into Qibao Hell!"

The voice just fell!

370,000 souls were immediately thrown into the space channel of Qibao Hell.

Entered into the emptiness of dragon vein heaven that provides incense and hope for Qibao Miaoshu.

[Chapter 1927: Xiaoluo's practice](#)

"This this this!"

"So many people have not passed the trial!?"

"Fortunately, fortunately, I almost never snatched anything from others!"

"..."

The rest of the soul was panicked and fearful.

Although they don't know what Qibao Hell is, they know that it is definitely not a good place!

"Next."

"Conduct a Hell Trial for Heart-piercing!"

Xiao Luo's faint voice sounded again.

She could easily look at the soul of these memories, and the trial was over soon.

"Among you, 130,000 people have repeatedly restrained and injured innocent people, and they have entered the **** of heart-piercing!"

The voice just fell.

130,000 souls were immediately thrown into the **** through the heart.

These souls kept begging for mercy when they were judged.

It's a pity that Xiaoluo won't open the Internet at all!

Those souls have entered the Seven Treasure Hell or the Heart-piercing Hell, and only the Palace Master of the Endless World, Su Lang can release them!

"Next!"

Xiaoluo's voice sounded again, "The remaining people can walk across Huangquan Road and go to Naihe Bridge to watch their lives."

The remaining hundreds of thousands of souls immediately moved forward with excitement.

They walked on the long Huangquan Road.

I was very excited at first, but Huangquan Road is too long!

They gradually calmed down, and what they had done in life came to mind.

This reincarnation world.

Judging whether to go to **** based on the good and evil of the soul before death.

Once in hell.

Will definitely be severely punished.

At present, there are only Qibao Hell and Heart-piercing Hell.

They managed to escape from the double trial.

But next time?

After reincarnation, can they still escape trial?

"No way!"

"I can't enter hell!"

"I will be a good person, I will be a good person!"

"I want to carve this sentence into the depths of my soul!"

"..."

A large number of souls reflected on Huangquan Road, and then gradually walked to the Naihe Bridge.

Several souls took the lead on the Naihe Bridge.

They looked at the muddy Wangchuan River, the muddy river gradually cleared, and reflected their respective lives.

but.

Everyone can only see the scenes he has experienced in his life, and cannot see other people.

Watching scenes in the river.

Some souls began to sob silently.

Some stood motionless, while others shook their heads and walked towards the end of the Naihe Bridge.

The souls who crossed the Naihe Bridge were immediately erased by Xiaoluo.

Only those obsessions that are deep in the soul still remain.

In fact, these obsessions can also be erased.

But Su Lang asked Xiaoluo to keep it.

"These souls stayed and didn't want to leave."

"When you die, don't miss the past life anymore."

Xiao Luo waved his hand, and the lingering souls were suddenly pulled to the end of the Naihe Bridge, erasing their memories.

The soul whose memory has been erased.

They were put into the Way of Grass and Trees, the Way of Animals, the Way of Humanity and the Way of Heaven and Humanity.

At this step.

The souls who escape the **** trial by chance will be judged again.

Too much sin will turn into vegetation, then beasts, then humanity, and finally the good people can enter the realm of heaven and humanity.

of course.

Those stupid Virgins will not be attributed to heaven and humanity!

Those who can enter the realm of heaven and humanity are all those who have great courage and great merits, and not just a mere kindness can enter, and stupidity is even more impossible!

quickly.

One soul enters the four realms.

Xiaoluo's spiritual thoughts compose these souls, and follow the four spatial channels to connect to Su Lang's ten-plane life universe and hundreds of thousands of crystal wall worlds.

Immediately after.

Throw them into an embryo that has just conceived but has not yet given birth to a soul.

This is reincarnation!

Xiaoluo can have the authority to reincarnate the soul.

Naturally, there was also a reason why Su Lang opened the door to convenience, otherwise she would not be able to travel to so many worlds smoothly.

And these reincarnated souls.

Because of the accumulation of previous lives, it will naturally be stronger than similar!

They will drive the whole world to make a leap forward!

This is exactly one of Su Lang's goals!

It takes a moment to create reincarnation, but the benefits are so many, it's really profitable!

[Chapter 1928: Arrived at Xuanyan Dojo](#)

"Little network!"

"Good job!"

"But you will be tired if you do this!"

"Now that there are not many souls, you can still be busy. In the future, trillions of souls will come in together, and you will feel strenuous."

"So you should find some suitable souls as early as possible and make them into dead souls to help you deal with the affairs of reincarnation!"

Su Lang praised Xiaoluo unreservedly and gave his own suggestions!

"Yes, master!"

Xiaoluo bowed to Yingying in the public universe, his slim figure was fully revealed because of his tight clothes.

"Haha!"

"Next, the authority to collect dead souls is also given to you, come on!"

Su Lang smiled happily, then retracted his gaze and tried the detection range of his mental power.

The breakthrough of spiritual power to pure Nirvana is a great leap and sublimation of the soul!

The total amount of mental power alone has grown 100,000 times!

The detection range has skyrocketed. With Su Lang as the center, it can cover a spherical area with a radius of 100,000 light years!

Coupled with the bonus of other mental power techniques, Su Lang's detection ability has also been greatly improved!

"Such a wide detection range, this is the power of the strong in the beginning!"

The corner of Su Lang's mouth hooked, revealing a satisfied smile!

at this time.

Jiang Wenzheng and others are already surrounded him.

Arrived at the largest broken continent in the 100,000-sky star cluster.

At this moment.

There is simply a sea of people on this continent.

Because countless warriors had been informed in advance by Jiang Wenzheng, Zhuge Zhenduo and other early powerhouses, and gathered.

And these people are not all.

Only less than one percent of people gathered in a short period of time!

"Quickly, go to the Xuanyan Dojo, Senior Su Lang and Zhuge Zhenduo and other seniors are going to preach there!"

"It's not a preaching, but to gather countless array masters to study the array classics gifted by Senior Su Lang!"

"What, this guy just came out of retreat, I don't know what Senior Su Lang is? No matter that, beat him up and explain!"

"..."

Countless warriors rushed towards a huge plain on the broken continent.

If the one hundred thousand heavenly Misty Stars had a preaching by a powerful person, they would go to the Plain of Profound Words.

Over time.

This huge plain became a dojo.

At this moment.

Hundreds of thousands of godless powerhouses have already arrived at the Xuanyan Dojo.

They are looking forward to taking a good position!

Everyone had heard that Su Lang had resurrected countless powerful men, eating and drinking water generally broke through the beginning, and also repaired the empty deeds of the 100,000 heavenly star cluster.

No one wants to see Su Lang's true face!

at this time!

A large group of streamers flew from the void in the distance and stopped above the clouds of the Xuanyan Taoist Temple.

Immediately after.

Streams of light dispersed, revealing the figures of Su Lang, Jiang Wenzheng, Zhuge Zhenduo and others.

"Appeared!"

"Senior Su Lang is the one who is surrounded by all the predecessors from the beginning!!"

"Senior Su Lang is so handsome, so young, he looks like he is twenty years old!"

"The key is that all the seniors are surrounded by senior Su Lang as a treasure, okay, senior Su Lang is really a new hope for our Heavenly Continent!"

"Yeah, my new hope for the Heavenly Continent, I look forward to Senior Su Lang starting a school!"

"..."

Countless warriors looked up at Su Lang in the sky, their eyes were full of admiration and worship!

A large amount of incense aspiration power just rushed to Su Lang, entered the sea of knowledge, and was absorbed by the two void dragon worlds.

"Friend Su Lang!"

Zhuge Zhen Doha laughed and said, "Look, all these little guys are admiring you!"

"Haha."

"Then I will not disappoint everyone."

Su Lang smiled lightly, "I will also participate in the formation of the meeting."

"That's great!"

Zhuge Zhen was overjoyed, "I am here to replace the younger generations and thank Daoist Su Lang first!"

Jiang Wenzheng and others were also full of surprises, even a little embarrassed.

Su Lang not only burned a large number of primordial formations and godless-level formations into the jade slips in great detail.

At this time, he had to personally participate in the formation meeting to be held, which was really the ultimate.

[Chapter 1929: I happen to know some alchemy](#)

"You don't have to be like this."

Su Lang smiled and shook his head, "All this is for the future of our boundless universe!"

"There is Friend Su Lang."

"We finally saw hope in the darkness!"

"..."

Everyone, look at me and I look at you, all smiled and said with emotion.

"Friend Su Lang."

Zhuge Zhen laughed a lot, "At this time, the younger generations have not yet gathered, so it's better to rest for a while."

"Also."

Su Lang nodded and asked, "By the way, I don't know how the alchemy of the Heavenly Continent is?"

"Dando!?"

"The strongest alchemist in our Tianmen Continent is Daoist Jiang Wenzheng."

"Fellow Daoist Jiang Wenzheng is the only Alchemist of the Primordial Beginning in our Tianmen Continent, and the strongest alchemist."

Zhuge Zhen smiled and looked at Jiang Wenzheng, who waved his hand humbly.

"That's it!"

"Friend Jiang Wenzheng, it just so happens that I can do some alchemy!"

"Why don't we take this opportunity to gather the warriors of the alchemy to participate in the research?"

Su Lang said to Jiang Wenzheng seriously.

"what!?"

"Friend Su Lang actually has extremely high attainments in the alchemy!?"

"It seems that Daoist Su Lang's alchemy has reached the primordial level!"

"My God, it's surprising enough that Daoist Su Lang's formation is so powerful, and Dan Dao is also so terrifying!?"

"..."

After hearing Su Lang's words, a group of primordial warriors suddenly widened their eyes in surprise, their faces in disbelief.

"Unexpectedly, Daoist Su Lang has reached the elementary level in Dan Dao!"

"Friend Su Lang, you really deserve to be the genius of our Heavenly Continent!"

"Come here, I happen to have some problems on the Dandao here, let's talk about it!"

Jiang Wenzheng was the most shocked person. It took him billions of years to reach the primordial level on the alchemy, and he knew the difficulty of it.

Su Lang is incredibly strong in cultivation and formation.

There is still time to study the alchemy, and he has reached the same realm as him, this is simply unimaginable!

therefore.

Jiang Wenzheng invited Su Lang to exchange Dandao.

On the one hand, it is a sincere communication, on the other hand, I want to see if Su Lang's alchemy is really so powerful!

"Come, come here!"

Su Lang smiled faintly, and threw out a set of tables and chairs at the rank of Emperor soldiers.

"please!"

Jiang Wen was nodding busy, and sat on both sides of the table with Su Lang.

Zhuge Zhenduo and others also surrounded them with great curiosity.

Basically, they all have a certain amount of achievements in the path of elixir, and they are all alchemists who can refine the godless-level pill.

They also wanted to see Su Lang's alchemy methods.

Sit down in a chair.

"Friend Jiang Dao!"

"I like to study unfamiliar prescriptions the most."

Su Lang smiled faintly, "Why don't everyone take out the pill and let me analyze and participate in the research on the spot!"

This statement came out.

There was another wave of turmoil in the hearts of the strong people from the beginning.

As soon as he came to study an unfamiliar pill on the spot, Su Lang was really confident!

"Ok!"

"These are the alchemy classics that I have collected for many years!"

Jiang Wenzheng laughed loudly, and then took out all his alchemy classics to Su Lang.

This classic is nothing compared to other things.

Being seen by someone is equivalent to giving away.

But Jiang Wenzheng still did, because he was willing to give it to Su Lang.

Even he very much hoped that Su Lang could really show his superb alchemy and defeat him severely.

That way, Su Lang's genius name will rise to the next level.

The light of hope on the Tianmen Continent will also be brighter!

"Friend Su Lang, I have this too!"

"Although these alchemy classics are not comparable to Jiang Wenzheng's, there must be some he doesn't have, hehe!"

"I have this too, and may have some repetitions with other Daoists, but this is a classic book that I have worked **** throughout my life!"

"Me too, I have this too, ahaha!"

"..."

Bi Tongguang and others also took out their collection of alchemy classics and handed them all to Su Lang.

It's like handing over the Formation Classics to Su Lang before!

"Thank you!"

"Thank you fellow daoists!"

Su Lang kept giving thanks.

quickly.

In front of him was piled up a lot of jade slips of alchemy classics.

I even had to make the Great Emperor's Soldier's table a little bigger to put it down!

[Chapter 1930: This question is too simple](#)

"Go ahead, Daoist Su Lang!"

Jiang Wenzheng saw that everyone had taken out the alchemy classics, so he nodded to Su Lang.

"it is good!"

"It starts with this classic book by Daoyou Jiang!"

Su Lang smiled, immediately picked up a jade slip and began to read.

In a blink of an eye.

He finished reading the alchemy classics, and learned it straight away with the function of the system!
then.

Just when Jiang Wenzheng and others were ready to wait for a while.

"I have integrated this alchemy classic!"

Su Lang put down the jade slip in his hand and said to Jiang Wenzheng, Bi Tongguang and others.

This statement came out.

All the too junior powerhouses present were stunned!

What! ?

Haven't you just picked up the alchemy classics?

How is it possible to learn at a glance?

Even if the eyes do, does the brain do?

The brain knows, does the hand know?

"Friend Su Lang, you, are you kidding me?"

Jiang Wenzheng said with a shocked look, "The ancient book just now is the most difficult one of the alchemy books I have collected!"

"Yes!"

"Daoist Su Lang, you really learned it!?"

"This, this, to be honest, Fellow Taoist Su Lang, I can't believe you learned this classic so quickly!"

"..."

Bi Tongguang and others also looked at Su Lang in disbelief.

"Really learned!"

Su Lang nodded earnestly, "If you don't believe me, I'll believe it if you ask Jiang Daoyou to take the exam!"

"This is serious!?"

Zhugue Zhenduo hesitated and said, "Then, Jiang Wenzheng, would you give Daoist Su Lang a question?"

"please!"

Su Lang also nodded to Jiang Wenzheng.

"This....."

"Then I asked."

"Excuse me, Daoist Su Lang, in the ninety-ninth volume of the classics."

"How many refining techniques does Qianyuan Jingwu Tian Dan have?"

"What is the third kind, how many roughly can it be divided into in total?"

"How many steps are there in the subdivision, and what is the 372nd step in the subdivision?"

"..."

Jiang Wenzheng asked a lot of questions in one go.

Everyone looked at each other and even felt a little embarrassed.

but!

"This question is too simple!"

"Everyone, listen to me in detail!"

"There are four kinds of refining techniques recorded in the Qianyuan Jingwu Tiandan, but I have developed the fifth one based on my experience in the way!"

Su Lang laughed, "And the third refining technique can be roughly divided into nine steps, subdivided into..."

Everyone listened to Su Lang and talked freely, and they were all bewildered instantly!

When Su Lang finished speaking, everyone was stunned.

"This, Fellow Jiang Dao?"

Zhuge Zhen regained his sense of shock and hesitated to look at Jiang Wenzheng.

The eyes of the others also shifted from Su Lang to Jiang Wenzheng.

"all right!"

"All of what Daoist Su Lang said is correct!"

Jiang Wenzheng also recovered, and took a breath, "Dare to ask Fellow Su Lang, what is the fifth technique you developed?"

"The fifth technique is the simplest one."

Su Lang smiled faintly, then continued, "This is how it is..."

then.

He said lightly there.

Jiang Wenzheng and the others put their ears up and listened, they looked like students.

Wait for Su Lang to finish again.

Everyone exclaimed and felt incredible!

"Unexpectedly, Qianyuan Jingwu Tiandan could be refined with such a simple method!"

"Yes, Daoist Su Lang's talent on the path of the pill path is not inferior to that of the formation path!"

"It's amazing, Daoist Su Lang, all-rounder!!"

"..."

Jiang Wenzheng and the others felt astonished.

As for whether what Su Lang said was fabricated, they would naturally hear it.

at this time.

"This method is simple."

"But there are a few details that cannot be said."

"I will refine it once for everyone, let everyone see!"

Su Lang laughed again, and directly condensed a pill furnace with colorful burning heaven and wonderful flames.

This colorful burning heaven came out.

Everyone was in an uproar again!

"It's a cosmic fire!"

"Little friend Su Lang actually has a cosmic fire!"

"This is the first time this old man has seen such a colorful cosmic fire after living so long in Tianmen Continent!"

"This flame seems to have countless characteristics, far surpassing those unique fires with a single characteristic!"
