

One Click 1931

[Chapter 1931: Too elementary colorful burning sky wonderful flame](#)

"..."

Jiang Wenzheng and the others looked at Su Lang's strange fire, their eyes brightened, revealing horror.

Yihuo was originally a specialty of Boundless World.

They live in the Tianmen Continent, and naturally they have seen a lot of different fires.

However, the colorful Burning Heaven and Wonderful Flame was obtained by combining a large number of different fires with Su Lang, and Jiang Wenzheng and the others would naturally not have seen it.

"This strange fire is my fusion of various single incomes."

"The method used is the one in the special technique "Fen Tian Great Emperor Jing"."

"Although this technique is relatively low-level, only the emperor's level, but it can condense the cosmic fire, which is also useful."

"I'll give this exercise to you. If you have a strange fire, you can also share it with me."

Su Lang laughed, and before long, he took out the original technique of "Burning Heaven Great Emperor Jing" and put it on the table.

Hear this.

The eyes of Jiang Wenzheng and others suddenly brightened!

The cosmic fire is the strongest among the fires.

Its power level ranges from no ***** to too junior.

The most important thing is that Alien Fire has various special characteristics, these characteristics are created by nature, very mysterious!

Everyone also collects different fires, and what they value is the particularity of the different fires.

At this time, Su Lang's "Burning Heaven Great Emperor Jing" was really extremely useful to them.

"I didn't expect to have such a technique!"

"Thank you so much to Daoist Su Lang. With this technique, we can all have one more method!"

"Yes, if the cosmic fire is continuously improved, it will even reach the peak of the primordial level in the end!"

"By the way, Fellow Daoist Su Lang, this is the 157 different types of fire I have collected in the Infinite Realm. I will give you a part of it!"

"I have this too, some of which are the same as Jiang Wenzheng's, but there are a few things he definitely doesn't have, because the entire Infinity Realm is only one copy, haha."

"..."

Jiang Wenzheng and the others laughed loudly, and then one after another took out the abnormal fires they had collected, and gave some of them to Su Lang.

In a blink of an eye.

There were a total of 197 different kinds of fire in Su Lang's hands!

"Fen Tian Jue, melt!"

Su Lang clicked the corner of his mouth and immediately merged these strange fires into the colorful burning heavens!

Suddenly.

The power of that colorful Burning Heaven Miaoyan skyrocketed wildly, and it reached the primordial level in an instant! !

"hiss!"

"It's really amazing!!"

Jiang Wen was waiting for the strong from the beginning to see this scene, so he sucked in cold air!

It is important to know that something like Alien is made by nature and consumes very little energy to use!

So this is an extremely powerful means of flame!

"This power is pretty good!"

"It's enough to refine the weapons of the early days."

"I also have eighty-eight different fires here for you all."

Su Lang merged the different fires and nodded very satisfied.

Immediately after splitting a part of the different fire found on the blue star, such as the Qinglian dragon pattern fire, they gave it to Jiang Wenzheng and others.

"God, so many different fires!!"

"Friend Su Lang, didn't you live the Heavenly Misty Continent from the future?"

"Why, you have so many kinds of strange fires?"

"Although they are not high-level, they are very powerful!"

"It's like this Xuanyun Jingyuehuo, it can hide its breath, it's comparable to a too basic secret technique!"

"..."

Everyone was dumbfounded when they saw Su Lang's strange fire.

"Our human race was backed by the leader of the boundless world."

"The place where we live and multiply is actually part of the core fragments of the Boundless World!"

"Therefore, there will be these various kinds of strange fires!"

Su Lang did not hide everyone's thoughts either, and said directly.

"The Core Fragment of the Boundless World!!"

"Daoist Su Lang actually has the core fragments of the boundless world!!"

"That is the most important thing in the Boundless Realm. We haven't seen a few early powers in the Tianmen Continent for billions of years. It is because the mainland has lost its core, which has greatly weakened the cultivation environment."

"Furthermore, the core fragment of the Infinite Realm is the most important thing for bonding the four Infinite Continents!"

"Even the core fragments of the Boundless Realm are on Daoist Su Lang, Daoist Su Lang is really the hope of our Boundless Universe!!"

"..."

Jiang Wenzheng and the others were shocked, and they talked a lot, and their gazes at Su Lang became more enthusiastic.

[Chapter 1932: I know how to do it](#)

of course.

They didn't let Su Lang surrender the core fragments of the Infinity Realm.

In the eyes of everyone.

Only Su Lang is qualified to keep the core fragments of the boundless world.

Even Su Lang, the leader of the human race, is the next leader secretly set by the previous leader of the boundless world! !

"Haha!"

"Everyone, I am going to refine the pill now, please look carefully!"

Su Lang smiled faintly, and immediately transformed the more powerful colorful Burning Heaven Miaoyan into a pill furnace.

Immediately after.

He took out a variety of materials from the storage space, and began to process them in a smooth and flowing manner.

Alchemy begins from this step!

And just this first step made Jiang Wenzheng and the others stunned!

Too skilled!

Really too skilled.

When Su Lang shot, it was as if he had practiced for countless billions of years and had become a deep soul and body instinct!

No matter how you look at it, you can't find a trace of flaws!

"Just look at this step!"

Jiang Wen was exclaiming in a cold breath, "Daoist Su Lang's alchemy attainments far exceed me by many times!"

"Hahaha!"

"Daoist Su Lang's alchemy attainments are really as good as the formations' attainments!"

"Our hope has grown again!"

"Great, great!"

"..."

All the early powerhouses were elated and overjoyed.

Soon.

They were once again attracted by Su Lang's alchemy techniques.

Moreover, Su Lang would talk about it when he reached some difficult stages.

This immediately allowed everyone to better learn advanced alchemy skills.

In a blink of an eye.

Su Lang refined a perfect quality Qianyuan Jingwu Tiandan!

This immediately caused everyone to breathe in cold air again.

This is too basic medicine!

Even the most inferior pill of Taichu, in the eyes of everyone is a huge treasure!

What's more, this perfect quality Taichu pill without impurities.

To be honest.

They have lived for billions of years. This is the first time I have seen a perfect quality medicine that is too basic!

"Everyone!"

"From now on, don't call me the first person in the Heavenly Pill Road!"

Jiang Wenzheng stood up and smiled, "This title is only deserved by Daoist Su Lang!"

"me too."

"The title of the first person in the formation is also that of Fellow Su Lang!"

Zhuge Zhenduo also got up immediately, "From then on, Fellow Daoist Su Lang is the first person in the Dao Dan Dao formation in the Heavenly Misty Continent!"

"correct!"

Bi Tongguang's eyes suddenly lit up, "I don't know what Daoist Su Lang's accomplishments are in the Dao?"

This statement came out.

Everyone suddenly looked at Su Lang curiously.

"Which way?"

"I know how to do it."

The corner of Su Lang's mouth twitched, and he smiled, "Similar to Dan Dao formation."

"hiss--!"

All the strong people from the beginning took a cold breath, and didn't know what to say!

Dan Dao array Dao Qidao.

Each of them is as difficult as the way of cultivation.

But Su Lang's achievements far surpassed others not only in practicing together.

They even surpassed their billions of years of achievements at the same time on the three difficult roads of Dan Dao, Zhen Dao, and Qi Dao.

This is really shocking!

"Wait for a chance."

"I will refine too low-level weapons for you fellow Taoists!"

Su Lang smiled at the early powers, "As long as there are materials, there is no weapon that I can't refine!"

If this is spoken in the mouth of others, it will be sprayed with blood from the public, but this is what Su Lang said!

As long as Su Lang said.

They all believe it!

"it is good!"

"I will give the refining materials to Daoist Su Lang!"

"Haha, I still have some pill materials, and I will also ask Daoist Su Lang to refine them. The extras are rewards, please!"

"Me too, me too! Just waiting for this pill to break through, Daoist Su Lang, please!"

"Also ask Daoist Su Lang to help repair my primordial weapon!"

"..."

With all their faces in surprise, everyone took out the materials they had collected and handed them to Su Lang.

basically.

Every strong man in the early days took out all his wealth!

"Good good!"

"Don't worry, everyone, after this preaching, I will refine the pill for everyone and refine the weapons of the beginning!"

Su Lang made a lot of money, naturally he was very happy, and agreed to everyone's request!

[Chapter 1933: The new hope of Tianmen Continent!](#)

Anyway, it's alchemy or something.

Leave it to the system to do it, it's completely easy, no trouble at all!

"Thank you Daoist Su Lang!"

Seeing that Su Lang had promised so simply, all the strong in the early days suddenly liked it!
at this time.

A quasi-primary warrior came outside.

"Enlighten you seniors!"

"There are almost all the warriors who came to participate in the formation meeting"

The quasi-primordial warrior said respectfully, "Do you want to start preaching?"

"Don't be too busy to start!"

"Call us all those who refine pills and tools!"

Jiang Wenzheng laughed and waved, "Let them worship the new hope of our Heavenly Continent together today, Daoist Su Lang!"

"The new hope of Tianmen Continent!"

The quasi-primary warrior couldn't help but glanced at Su Lang with reverence, and then bowed down again, "Yes!!!"

Immediately after.

This quasi-beginner strong immediately went down to deliver orders!

Once the news spread.

Suddenly caused an uproar again!

"Senior Su Lang is our new hope for the Heavenly Misty Continent!!"

"This is something Jiang Wenzheng waited for all the predecessors to admit in person!"

"Oh my God, Senior Su Lang can be recognized by Jiang Wenzheng and other seniors. He must be extremely powerful and can take our Tianmen Continent to a better future!!"

"It is said that this time the conference is not just the formation convention, but the formation, alchemy, and tool ways together!"

"Why is this happening? I guess it must be Senior Su Lang who has unparalleled knowledge on the three avenues of Zhendao Dandao and Qidao!"

"Yes, yes, only in this way can we get the recognition of all the predecessors!"

"..."

Countless warriors talked about it.

Simultaneously.

They are also looking forward to the upcoming Sandao Conference!

Time passed slowly.

Zhuge Zhenduo and Jiang Wenzheng and others went to arrange the venue.

Said it is an arrangement, in fact, it is completed with a wave of hands.

Under the magical powers of all the primordial powers, the countless sea of clouds above the clouds turned into a majestic palace.

Around and below the palace, there are numerous futons made of white clouds.

These futons are naturally a place for those warriors who listen to the Tao to sit cross-legged.

Because the place of preaching is in heaven.

Therefore, there are positions at the front, rear, left, and bottom, and the space is used with maximum efficiency!

Here.

Su Langduan sat in a chair with his eyes closed and rested.

But in fact it is already refining pills and weapons!

"System! Use these designated materials to refine too low-level weapons!"

"System! Start one-key alchemy, and help me refine all these heavenly materials and earth treasures into pill!"

"..."

Orders were issued by Su Lang.

Suddenly.

In the mysterious black space, the pill refining villain and the refining villain were frantically busy.

The treasures of heaven, material and earth disappeared, turning into a large amount of pills and entering Su Lang's storage space.

Pieces of too low-level weapons were refined, and they were randomly displayed inside the storage space like ordinary weapons.

Looking at the countless pills.

Su Lang's heart moved, and he began to synthesize all the low-level medicinal herbs with the one-key synthesis function.

In a blink of an eye.

A large number of godless-level pill were synthesized into one too primary pill.

The rest of the lower-level elixirs have an overwhelming number of them, and they are also synthesized into the emperor-level and godless-level elixirs.

In this way.

These useless elixirs suddenly became valuable and precious elixirs.

It does not take long to synthesize the pill.

quickly!

All the materials obtained from Jiang Wenzheng and others have been refined into pill, and they are all synthesized into the precious no-god-level pill, too primary pill!

Su Lang did not intend to swallow these pills alone.

Instead, he took out a portion and prepared to give some to Jiang Wenzheng and others after a while.

Some of this group of early powers are stuck in the bottleneck.

Once you get the applicable pill, it is very likely to be promoted to a higher level!

After the pill is synthesized.

Su Lang's gaze fell on the technique he was practicing.

"Now my one-key enhancement function is relatively advanced."

"The previous useful but relatively low-level exercises can be fully strengthened."

"It's better to take this opportunity to finish this thing!"

Su Lang showed the light of thinking, and immediately began to choose the exercises that needed to be strengthened.

[Chapter 1934: Strongly strengthen the exercises!](#)

First of all.

Su Lang's mind came up with the super hooligan technique-a thought to seal the sky!

Using Yi Nian Fengtian can pull a target into the Nian Feng space completely isolated from the outside world.

It is difficult for outsiders to influence the Nianfeng Space!

The target sealed in the Nianfeng Space must also be forced to face Su Lang alone.

In short, with this technique.

Thousands of troops can be easily separated in the eyes of Su Lang, and then defeated one by one!

"It's you!"

"System, start one-key enhanced function!"

Su Lang's heart moved, and immediately began to strengthen this technique.

The "One Nian Fengtian" technique had already been strengthened once, reaching the emperor level.

But the second strengthening failed because of insufficient materials!

However, Su Lang now has enough materials.

Don't look at the materials consumed by alchemy refiners are very scary, but they consume only a small part.

More materials are still stored in the storage space, just as the raw materials needed for strengthening!

In a blink of an eye!

"Feng Tian with a thought" was strengthened by Su Lang to the early stage!

The basic functions of the exercises have not changed.

Still drag the designated target into the Nianfeng space for singles.

On this basis, this exercise also adds the function of 'constant time'!

In other words.

Inside the Nianfeng space, it can maintain the same constant time flow as the endless universe!

Unless the enemy's control of the world has far surpassed Su Lang.

Otherwise, it is impossible to threaten Su Lang with time in the Nianfeng space.

"Very awesome!"

"Even time can be constant!"

"Even if the hostility can break the constant at the beginning, it will definitely be very severely weakened!"

"Those who are too junior rely on this to feed, and once they are weakened, they are absolutely uncomfortable to death!"

Su Lang felt the profound meaning of the brand-new "Fengtian with One Thought", and the corners of his mouth suddenly showed a touch of playfulness.

I don't know which unlucky ghost can enjoy his Nianfeng space first!

"Alright, next, the second exercise!"

"What's the best way to strengthen it? By the way, the "Small Mystery Method"!"

"This technique can greatly enhance the effect of mental power detection, and it is an incomparably defying technique at the same level."

"Strengthening to the primordial level is absolutely the same!"

After turning his eyes, Su Lang issued instructions again, and strengthened the "Small Mystery Method" to the primordial level.

Suddenly.

A large number of brand-new exercises and profound meanings appeared in Su Lang's mind and imprinted in his soul.

Not only that.

Under the passive action of Gongfa.

His mental power was strengthened in horror on the spot!

Not only did the detection range of mental power skyrocket again, reaching a radius of 150,000 light years, a direct increase of one-half!

The detection effect of mental power has also undergone earth-shaking changes.

The strong from the beginning of the same level don't even want to use any disguise in front of Su Lang!

Even if it was a stronger primordial level, Su Lang would see through the disguise!

In addition.

Su Lang's detection ability at the micro level has been greatly improved, and he has reached the atomic level!

This level of detection capability.

Coupled with his various supreme magic methods at this time.

It's easy to create a powerful and intelligent creature alone!

"Great!"

"Strengthening a technique, the spiritual power will increase by half directly, cool!"

Su Lang rubbed his hands excitedly, and immediately began to strengthen the next exercise.

This time he chose "Independent World".

This exercise in the independent world comes from the ruler of Hong Tianxing, Ye Chen, a good friend of Li Qijue.

It's a pity that the two of them failed to survive the erosion of time, and the dust returned to the dust long ago.

Closer to home.

"Independent World" contains two stages of explosive mystery.

The first stage is the 'independent world'.

The second stage is the "Broken World"!

Once activated, the warrior will completely explode the energy contained in every atom in the body!

Seen as the profound meaning equivalent to the 'annihilation of the universe'.

The death of the universe is to consume all the energy stored in the whole body, such as Su Lang's innate Qi, all in an instant.

To break the world is to consume the energy latent in the atoms of the body cells.

The side effects of this secret technique are terrifying.

But Su Lang is immune to this side effect and can be used without damage.

As a result, this secret technique of exercises seems even more perverted!

[Chapter 1935: Condensed too primary to break a sword](#)

quickly!

Su Lang finished strengthening "Independent Human World".

Immediately after.

He stared at the Liuben Cultivation Secret Technique again.

The first book is derived from the explosive secret technique "No Shackles" of the Origin Devil Emperor.

The second book, "Kunlun Invisible Step", the secret technique of super-strengthening method.

The third and fourth books are "The Great Sun Haotian Picture" and "The Great Emperor Sutra" respectively.

The fifth and sixth books are "Hidden Scale West Hunting" and "Wanyu Jixizhi".

These exercises are all exercises that Su Lang used very smoothly in previous battles.

Strengthen at this time, and it will be able to reproduce the glory!

"system!"

"Start one-key enhanced function..."

Su Lang took a deep breath, activated the system function, and strengthened all these secret techniques!

Suddenly.

Numerous super-primary profound meanings emerged into Su Lang's mind like a torrent.

A lot of warm currents were integrated into Su Lang's body, which made him form special muscle memory, even an instinctive means.

Immediately after.

Su Lang also selected "Emperor Transformation Sunken Star" and "Emperor Xiang Wu Shi" and other exercises for strengthening.

These exercises are passive exercises.

Once strengthened, countless benefits can be immediately obtained.

At this time, Su Lang strengthened several body-building exercises to the early stage, and his body instantly gained a terrifying increase!

Not to mention the strength and toughness of the body.

Has far surpassed the First Yan Taichu, and even surpassed the Second Yan Taichu!

The key is that Su Lang's cell count has increased by a full six!

The total number of cells, originally one hundred and sixty-four gai, has become one hundred and seventy gai!

"Lying down!"

Su Lang smiled bitterly, "When this continues, when can I complete all the crystal wall talk of the cell and step into a higher realm!"

of course.

To him, the extra six gao cells are actually nothing.

Big deal, wait two more days to save up the cultivation base!

"The technique is almost strengthened."

"Now, let's gather a new breaking sword!"

"Based on my current practice, the condensed Po Yi Jian will definitely be extremely abnormal!"

Su Lang clicked the corner of his mouth and immediately issued an instruction, "The system, activate the source of the exercises function, condense a brand-new breaking sword!"

"Ding! Start deducing the source of the exercise!"

The system prompt sounded, and countless torrents of uprightness suddenly gathered together and turned into a huge colorful ball in Su Lang's consciousness!

When the ball changed from colorful to transparent, it exploded!

Countless moves are constantly pouring into every cell of Su Lang like a tsunami!

In a blink of an eye.

Su Lang found that his "Po Yi Jian" became even more terrifying!

The "one" in Po Yi Sword represents not only a single individual, but also the whole!

It restrains everything in the world!

At this time, a lot of the profound meanings of the basic exercises were deduced.

Even the power of distortion and the power of time can be restrained!

"The level of Po Yijian is too elementary."

"With its restraint, I can definitely leapfrog the enemy!"

There was a glimmer of expectation in Su Lang's eyes.

at this time.

The previous quasi-primary powerhouse once again came to report.

"Enlighten you seniors!"

"The three martial arts of formation, alchemy, and implement are here!"

"But there are more warriors who are not proficient in these three ways, and they also want to enter the Xuanyan Dojo to listen to the Tao."

The quasi-beginners are talking respectfully.

"It depends on whether Daoist Su Lang allows it."

"This preaching is a very serious thing after all, and it's a bit..."

While talking, Jiang Wenzheng looked at Su Lang.

"It's okay!"

"Everyone can come!"

"What if they listen to my preaching and immediately become interested in one of the three teachings?"

Su Lang laughed loudly, waved his hand, yes!

"it is good!"

Jiang Wenzheng and the others nodded immediately.

Immediately, the warrior of the early primaries went down to convey the news.

The warriors who were blocked from the Xuanyan Dojo were immediately released.

"Great! Senior Su Lang let us in!"

"Hahaha, I must study hard today!"

"Senior Su Lang preached, I hope my elm head can gain something!"

"..."

More warriors poured into the Xuanyan Dojo, and the number was densely packed, exactly the same as the locust crossing the boundary!

[Chapter 1936: Jindao Exchange Conference begins](#)

quickly.

All the warriors who participated in this preaching meeting are here.

Under the arrangement of many quasi-primary powerhouses and godless powerhouses.

One by one the warriors found their own Baiyun futon, sat on it properly, and waited for the preaching meeting to begin!

"Friend Su Lang!"

Jiang Wenzheng looked at Su Lang and asked, "Everyone has arrived, shall we start now?"

"let's start!"

Su Lang nodded and got up from the chair.

Jiang Wenzheng, Zhuge Zhenduo, Bi Tongguang and others followed closely and stood up.

Immediately after.

The powerhouses of the early days guarded Su Lang, while discussing and talking, and appeared in front of countless warriors!

"Senior Su Lang!!"

"I saw Senior Su Lang!"

"Senior Su Lang, you are the most handsome person in the world!"

"Ah! Senior Su Lang, do you still lack a maid!"

"..."

All kinds of rotten cheers resounded all over the world, and the sound spread like a tsunami like a tsunami!

People who don't know thought there was a terrible battle here!

"Quiet everyone!"

Su Lang raised his hands and pressed lightly, a faint voice came into the ears of every warrior.

Suddenly.

The scene was so noisy that it seemed like the world was boiling.

Every warrior suppressed the excitement in his heart, holding his breath and waiting for Su Lang to continue speaking.

"Now the boundless universe is at stake."

"When you are practicing, you can cultivate the pill formation and implement the Dao, all of them are great perseverance!"

"Today, I will preach you more of the profound meanings of the alchemy formation and the Taoism Dao, I wish you a higher level!"

With a faint smile on Su Lang's face, he immediately waved his hand again, "Now, open the Array Dao Exchange Conference!"

Immediately after.

Zhuge Zhenduo took a large number of the formation classics that Su Lang had burned forward.

"Look up!"

"These are the essence of the life-long learning of your senior Su Lang!"

"Taoist Su Lang's array skills are more than a hundred times deeper than me!"

"However, these formations are extremely cherished, and to prevent you from being too greedy."

"So we won't make it public. Only with our approval can we formally learn these formations and classics."

"But you don't have to be disappointed. Today, I Zhuge Zhenduo will give you all the answers. If I can't answer, then Daoist Su Lang will go out!"

"Now, those who have questions can be asked, and I will answer them one by one!"

After Zhuge Zhen had finished speaking, he collected all the books of the formation, and then condensed a huge cloud platform and flew up!

"hiss!!"

"Only those who are struggling with Senior Zhuge can ask Senior Su Lang for advice."

"It's almost impossible, we're afraid we won't hear Senior Su Lang preaching!"

"Haha, the predecessors of Zhuge Zhenduo preaching are equally difficult, the last time it was a million years ago!"

"Quickly and quickly, see who can ask questions that are difficult for Senior Zhuge Zhenduo, and get the qualifications to talk to Senior Su Lang personally!"

"..."

Countless warriors talked about it, and a large number of strong formations were eager to try.

More people asked questions immediately!

but.

Zhuce Zhenduo deserves to be the number one person under Su Lang, and solved all the problems almost instantly.

Immediately after.

There are more and more people asking questions, and they are getting tougher.

But Zhuce Zhenduo solved everyone's problems easily.

Even when he was answering questions, he was still distractingly digging into the formation classics written by Su Lang.

Occasionally the brows are slightly frowned, and occasionally the face appears suddenly, and even a slap on the thigh!

Time passed slowly.

Countless people asked questions together, and Zhuce Zhenduo could answer many people's questions at the same time.

As a powerful person, this small method is simply too simple.

finally!

Everyone slowly stopped asking questions.

The formation problems they are currently encountering have all been solved by Zhuce formation.

Even a few powerful people who were too junior went to join in the fun and asked some tricky questions, which were answered by Zhuce Zhen.

"Haha!"

"You guys, really asked some tricky questions!"

"If it weren't for the fact that I had a guide to Su Lang's formations, I would have to think about it for a long time to reluctantly answer you!"

"Okay, now that you have no problem, it is my turn to ask Daoist Su Lang questions, but my stupid head has a lot of doubts!"

"..."

Zhuge array saw no one to continue to inquire, Xuan even laughed, flew from the cloud platform to Su Lang.

[Chapter 1937: Su Lang speaks](#)

And his words fell in everyone's ears.

Suddenly set off a wave of exclamation!

Zhuge Zhenduo, who had been the first person in the Tianmen Continent for countless years, actually wanted to ask Su Lang for questions!

Senior Su Lang, who is regarded as the new hope of the Heavenly Continent, is finally about to speak!

"Great!"

"I thought I couldn't hear Senior Su Lang preaching!"

"Haha, the question asked by Senior Zhuge Zhenduo must be very profound, and it's useless if you listen to it!"

"Who said that, maybe I was inspired!"

"..."

Countless warriors were talking, and their fiery eyes fell on Su Lang.

Immediately after.

"Friend Su Lang, please advise!"

Zhuge Zhenduo bowed to Su Lang.

This is not a polite pre-fight, but a literal meaning, which is to ask for instruction!

"I can't talk about advice, communication is communication!"

Su Lang smiled modestly, "I don't know what question Zhuge Taoist wants to communicate?"

"Is such that.....!"

"I haven't figured it out after thinking for a long time..."

Zhuge Zhenduo was about to talk about the problems he encountered.

"It turned out to be the problem."

Su Lang nodded, and immediately began to explain more to Zhuge Zhen.

He spoke profound theories in simple terms and was very detailed, basically answering Zhuge Zhenduo's questions in a few sentences.

Most of the warriors with their ears underneath could hear them in the mist, and they didn't understand anything.

On the contrary, there was also a genius of formation, who realized the powerful formation method from Su Lang's words, and suddenly bowed and bowed to Su Lang.

In a blink of an eye.

Zhuge Zhenduo's question is temporarily finished.

"Everyone."

"There were not only the martial artists of the Array Dao Alchemy Dao and the Qi Dao, but also other martial artists who had not yet involved these three Dao."

Jiang Wenzheng smiled and said, "It's better to ask Daoist Su Lang to preach for everyone, and guide the warriors who are interested in Sandao to step on the threshold!"

"exactly!"

"Friend Su Lang, please preach for everyone!"

"..."

Zhuge Zhenduo and others also immediately seconded.

This is to allow Su Lang to establish a deeper and greater image in everyone's hearts.

"Then I'll talk about it."

Su Lang smiled faintly, "Since it is to guide everyone to get started, let's say something simple."

This statement came out.

Countless warriors calmed down, holding their breath, staring at Su Lang intently, for fear of missing a word!

Soon!

Su Lang's preaching began.

He really started from the basics.

But because of the high-rise building, even the most basic things can speak new ideas.

It is not only those warriors who have never been in contact with the Array Dao for it.

Even the godless array mage, and even Zhuge array, have some insights!

When Su Lang stopped.

Countless warriors are still immersed in the ocean of formation knowledge, their faces are full of intoxication.

After a while.

Some warriors who had doubts, only opened their eyes slowly, and looked at Su Lang with longing eyes.

"Friend Su Lang!"

Zhuge Zhenduo immediately clarified his question, "The thirty-seventh meaning of the 'nine is the extreme'..."

"This question is like this..."

Su Lang smiled faintly, and immediately answered Zhuge Zhen's question.

Immediately after.

Seeing countless eager eyes below.

Su Lang smiled: "If you have any questions, please speak up. I will answer three questions for everyone!"

Suddenly.

The crowd below burst into cheers.

Soon someone shouted out their own questions.

"Don't be so loud."

"I can hear all your voices!"

Su Lang laughed, and then began to answer questions for countless warriors.

He now has the spiritual realm of Pure Nirvana.

There is also a bonus to the "Golden Mystery Method", it is too simple to distinguish the voices of everyone.

And it's not only clear.

Su Lang can also use his spiritual thoughts to pass the answers that everyone needs directly to their minds!

In a blink of an eye!

The questions of countless warriors were answered, and they immediately bowed to Su Lang.

The countless warriors occupying the entire sky were short in a moment!

[Chapter 1938: Countless warriors knelt down](#)

Su Lang's preaching continued.

Although he quickly explained the basics of formation and answered countless martial artists' questions.

But there are alchemy and instrumental ways!

"The foundation of the formation, and the answer to the puzzle, come here first!"

"Next, I will start to explain the basics of Dan Dao."

"The so-called alchemy, in essence, is to refine the essence of heaven and earth into energy that our human body can absorb!"

"..."

Su Lang spoke slowly, explaining the basics of alchemy in a very novel and impressive way.

Suddenly.

After countless Array Dao warriors bowed down.

There were also alchemy warriors kneeling down.

Jiang Wenzheng, a master who has reached the primordial level on the alchemy, has a vague understanding and has obtained new gains.

Time gradually passed.

Countless alchemy martial artists knelt and listened to Su Lang explaining the basics of alchemy.

After Su Lang conducted a detailed analysis of the basics of the alchemy, it was the turn to answer the questions.

This time everyone answered three questions too!

After the answering session begins.

Numerous alchemy warriors immediately asked questions that had puzzled them for many years.

There are also some warriors who have not studied the alchemy, but have been told by Su Lang at this time to enter the alchemy.

Also tell me some naive questions.

Although in Su Lang's eyes, everyone's problems are very superficial.

But he still patiently answered questions for each warrior.

That gentle tone made countless warriors grateful for it.

When all the martial artist's questions were answered by Su Lang.

Countless warriors bowed down to Su Lang.

He has been regarded as the number one alchemist by countless alchemy warriors, and has become the enlightenment teacher of a large number of alchemy warriors!

Su Lang's preaching immediately came to the last link, explaining the speech!

For Qidao.

Su Lang has yet to show his accomplishments in front of everyone.

therefore.

Although Jiang Wenzheng and others knew that Su Lang would definitely not lie.

It is absolutely possible to have the same advanced knowledge as the Dandao Formation in the Qi Dao.

But they still really want to see Su Lang demonstrate the refinery with their own eyes.

For this.

Su Lang naturally guessed it.

"Next, it's time for the explainer."

"After this time, I will show you again."

Su Lang looked around the sky with countless warriors, and smiled lightly.

"Haha!"

"Great, Senior Su Lang will demonstrate the refining device himself!"

"Quickly, quickly, the image stone is ready, it must be recorded clearly!"

"..."

Countless warriors cheered and exclaimed.

Many warriors also took out brand new image stones to record.

When Su Lang preached before, these warriors were also recorded and prepared to take them back for learning.

Su Lang didn't care about it, and just recorded some basic stuff.

Next.

Su Lang began to explain the basics of Qi Dao.

This is not more difficult than the Array Dao and the Alchemy Dao. It also took a very small amount of time to analyze the basics of the Qi Dao clearly.

The key point is that his method of explanation is different from the traditional one, and he has a more profound and unique understanding.

This allows countless warriors to remember more clearly and understand the content of the sermon more easily.

After finishing talking about the basics of Qi Dao, and answering the questions of countless warriors.

Su Lang took out a trash transparent pot.

Begin to demonstrate refining a holy artifact in the gaze of countless warriors.

"Senior Su Lang is going to demonstrate refining!"

"Look, that cauldron is just one of the most common cauldrons, not even God level!"

"I don't know what kind of weapon Senior Su Lang can refine with it for a cauldron that is not at the **** level."

"I really look forward to it!!"

"..."

The eyes of countless warriors were bright, looking at Su Lang intently like a searchlight.

Wow!

Su Lang waved his hand gently, and the colorful Burning Heaven Miaoyan appeared out of thin air.

The temperature is controlled to the point where the magic pot can withstand it.

Soon.

Su Lang began to process materials.

These materials are very **** materials, almost all of the **** level, and there are only less than one hand at the holy level.

[Chapter 1939: The preaching conference ends here](#)

Only use so few Saint-level materials, and the rest are all Wushen-level materials.

It is almost impossible to refine the holy artifact.

As a result, everyone in the audience was horrified, and there was even greater expectation in their hearts.

Next.

Su Lang smiled faintly.

With special magical powers, all the details of the processed materials will be formed into images.

Then it is projected on the sky, so that all the warriors can see clearly.

then.

Countless warriors looked at Su Lang's tricks like clouds and flowing water, suddenly became intoxicated, or changed some enlightenment!

Even those strong people with very advanced refining knowledge.

Seeing Su Lang's method of handling materials, he was also dumbfounded, and immediately couldn't wait to learn!

In a blink of an eye.

Su Lang processed all the materials.

Immediately, it was the time for the formal refining.

While explaining.

Su Lang poured various materials into the transparent vessel and began to refine the sacred vessel.

All kinds of peculiar techniques were immediately revealed from Su Lang's hands.

His movements are very slow, but they are extremely smooth and complete!

No flaws can be found at all.

The audience didn't know how many billions of warriors, all of them looked dumbfounded.

Time passed unconsciously.

Not long.

A sacred artifact was easily refined by Su Lang.

And it is a very high-quality quasi-immortal device!

Such a result.

In an instant, countless warriors in the entire Xuanyan Dojo boiled.

"Too strong, too strong!"

"As expected of Senior Su Lang, he actually used so little and such a low-level material to make a quasi-immortal weapon!"

"This is simply a miracle in the history of refining, a feat that has never been seen before!"

"..."

Each of the warriors talked and cheered, and the respect for Su Lang in their hearts reached their limit.

Suddenly.

Countless incense aspirations emerged and Su Lang was inhaled into the virtual spirit universe.

Among them, there are even a few too junior warriors who admire Su Lang so much that they generate some incense aspirations!

In addition, there are many quasi-primordial powers and a large number of supreme emperors among the warriors present.

The incense hope that Su Lang has harvested in this wave is very huge!

"Hey!"

"It seems that in addition to preaching, there are still many benefits!"

The corner of Su Lang's mouth twitched, before he tossed the quasi-immortal weapon in his hand, "Go, look for your destined person!"

The quasi-immortal device was thrown out.

Qi Ling immediately began to look for people with destiny from countless warriors.

quickly.

The quasi fairy selected a beautiful girl.

"Thank you, Senior Su Lang!"

The girl warrior never thought that she could actually obtain a weapon refined by Su Lang himself.

At this moment, holding the quasi-immortal implement in his hand, he was grateful and bowed to Su Lang Yingying.

"The preaching conference ends here."

"I hope you can gain something. After you go back, you will study carefully and take it to the next level."

Su Lang smiled and left his blessings, and then turned back to Jiang Wenzheng and the others.

"wonderful!!"

"Bravo!"

"Friend Su Lang, those alchemy basics you talked about really made me cheerful and inspired!"

"The Daoist Fellow Su Lang's refining demonstration was also extremely wonderful. After watching it, many doubts in my heart dissipated on the spot!"

"Hahaha, Daoist Su Lang deserves to be our new hope for the Heavenly Continent!"

"..."

Jiang Wenzheng and other too junior powerhouses surrounded Su Lang in the middle, and words of admiration kept saying.

"Everyone is absurd."

"Everyone is not weak in the formations, alchemy, and taoism."

Su Lang smiled modestly, "I just know a little bit better than everyone."

"Taoist Su Lang is really too humble!"

"Yeah, the three attainments of Daoist Su Lang, I can't compare it to a horse!"

"When will I be able to see the back of Daoist Su Lang on these three paths, I will cheer soon!"

"..."

All the strong from the beginning once again admired.

"It's over!"

Su Lang smiled blankly, "Now that the preaching conference is over, it is time for me to continue preparing for the war!"

This statement came out.

Everyone's body suddenly became dignified.

Although the new hope of Su Lang appeared in Tianmen Continent.

But overall, the situation on the Tianmen Continent is still too bad.

[Chapter 1940: The seventh time to strengthen the reincarnation of the corpse soil source soul](#)

"Our Heavenly Misty Continent is in urgent need of the strong!"

"I don't know how the fellow Taoists who prepared materials for the resurrection ceremony of the corpse soil source soul are doing."

"There is news. Fellow Daoist Li and the others have prepared more corpses of powerful men, among them there are nine powerful men who are too junior!"

"..."

After everyone discussed, Jiang Wenzheng suddenly took out the jade card for communication, with a hint of surprise on his face.

Immediately after.

Everyone's eyes fell on Su Lang.

Although everyone had already received the corpse soil source soul reincarnation technique given by Su Lang.

But they can't learn it in a short time.

So we have to rely on Su Lang to make a move!

"Don't worry, everyone!"

Su Lang nodded solemnly, "I will try my best to resurrect these strong men, let's go!"

Jiang Wenzheng and others nodded one after another.

Immediately, everyone set off together and reached the top of the Heavenly Continent through the teleportation array.

At this time.

Several early powerhouses who had gone to collect the materials needed for the resurrection ceremony of the corpse soil source soul just rushed over.

The two sides merged together immediately.

"Friend Su Lang!"

"These are the corpses and remnants of all the strong men we can collect."

"Including 200,000 too junior strong, 3,000 quasi-primary strong, nine too junior strong!"

A few too junior experts looked at Su Lang with hopeful eyes, and offered the storage ring in their hands with both hands!

"I will try my best!"

Su Lang nodded, and took the materials needed for the Corpse Earth Origin Soul Reincarnation Technique.

Soon.

He began to refine tombstones and corpse soil materials on the spot.

Fortunately, those powerhouses at the Godless and Quasi-primary Beginning levels are basically confident that Su Lang can bring them back to life.

However, Su Lang, the nine too junior strong, was not particularly sure.

after all.

Basically, those who are too junior have all kinds of methods to extend their lifespan, and they have even lived in the second life or even the third life.

The more secret techniques used.

The less likely it is that the corpse earth source soul will succeed.

"Now the one-key enhancement function has reached 7 times."

"It's better to strengthen it again to increase the success rate!"

Su Lang's heart moved, and immediately glanced at the storage space.

I have strengthened a variety of exercises many times before, and the materials in the storage space have consumed a lot.

Except for the treasures of heaven and earth to refine pills and weapons for everyone, I don't know if there is enough.

After all, this is the seventh enhancement, and it is the enhancement of the primordial level!

"system!"

"Activate the one-click enhancement function, and the goal is "Soul Reincarnation Technique"!"

Su Lang eliminated all the useful materials, locked in those useless materials with his spiritual mind, and issued instructions!

Suddenly.

Countless materials are consumed as materials.

"Ding! "Zone Earth Origin Soul Reincarnation Art" enhanced +1!"

The system prompt sounds.

A large number of brand-new exercises and secrets poured into Su Lang's mind and imprinted in his soul.

"Success!!"

Su Lang was overjoyed and glanced at the storage space again.

But after seeing those useful materials, the remaining world, materials and treasures are all consumed!

"Just enough!"

"If it's not enough, you can only ask Jiang Wenzheng and the others for it."

"However, it is estimated that their net worth is almost as much as I want them now!"

"Well, why do I miss Qin Song and the others a little? I don't know what they added to the space-time and sky-grass."

Thoughts flashed in Su Lang's heart, but his hands were unambiguous!

In the gaze of Jiang Wenzheng and others.

Su Lang flew high into the sky, and two hundred thousand corpse soil materials mixed with heaven, material and earth treasures fell on the ground, forming piles of graves!

Immediately after.

One after another tombstones fell to the ground, and fell on the graves, deeply embedded in them.

These tombstones and grave soil were all made by Su Lang using the new reincarnation technique.

The effect is guaranteed to be stronger than before!

After the gravestone tombstone is ready.

Su Lang condensed the Origin Soul Summoning Bell, and then directly released the remnant soul prepared in advance.

Wow!

Suddenly countless remnants of souls gush out, are sucked in by the Origin Soul Calling Lingzhong, and evolve into clear souls.

When all souls have been purified, it is the last step!
