[Chapter 1951: Release the clone and explore intelligence](#)

After a while.

"Taoist Su Lang is indeed the light of hope from the Heavenly Misty Continent!"

"It deserves to be the new leader appointed by the last leader of the boundless world!"

"Taoist Su Lang, I believe that Daoist should have an official leadership status!"

"Right, yes, right, when this is done, we will announce the entire Celestial Continent!"

"..."

With shock and joy in their eyes, Qin Song and others bowed and saluted Su Lang.

This is to recommend Su Lang to officially become the leader of the Tianmen Continent!

Unimaginable.

Su Lang had just arrived on this day and it took less than a day.

Su Lang was naturally willing to become the leader of the Heavenly Misty Continent.

"You trust me so much."

"I will not let you down!"

Su Lang nodded solemnly, and said, "Next, I will send a clone to cross the time and space and the sky to investigate the movements of the Tianmen Continent!"

This statement came out.

Qin Song and the others kept nodding their heads in surprise.

They did not want to detect the situation and situation outside the Tianmen Continent.

However, there is more than enough energy but not enough energy!

Often relying on various means and channels to learn about intelligence outside of the Tianmen Continent, it has been lagging for a long time.

but now.

Su Lang had such a powerful clone.

As long as you can reach the space-time Tianmo, you can rely on close contact with Su Lang to immediately send the latest information back to the Tianmen Continent!

In the war.

Intelligence is always one of the most important things.

Just when Qin Song and others were surprised.

With a thought in Su Lang's heart, the four avatars suddenly broke into the space-time sky trench!

These four avatars have reached the primordial level, and naturally they have some time power.

In addition, they are not afraid of being consumed.

So you can keep moving forward without scruples!

and!

The way they move forward is Su Lang's endless dispatch!

Each dispatch can instantly span a distance of 150,000 light years.

In just one minute, it spanned a distance of nearly 10 million light years!

After a few minutes.

The clones have passed through the time and space and arrived in a brand new void!

"Humph!"

"Scum of Tianmi Continent, here I am!"

"By the way, I have to investigate the situation of the Tianting Continent and the Tianxuan Continent!"

Various thoughts flashed in Su Lang's mind, and then dispatched all the clones.

And use the Baiying avatar function to turn it into more than nine thousand Yiyantai primary avatars, spreading rapidly toward the surroundings!

Su Lang is going to expand the scope of dispatch!

If the entire boundless realm area has been expanded into a dispatchable range.

Then just relying on the super-abnormal mobility of the clone function, Su Lang is sure to clean up the smog of Tianmi Continent!

Although Tianmi Continent has a large number of too junior powerhouses.

There are also terrifying existences like Mi Ling Buddha.

However, Buddhism's cultivation methods are very flawed.

Their way of cultivation is essentially the way of incense.

As long as all its followers are destroyed, the strength of those who are too low-level Buddhist monks will be greatly weakened!

of course.

Less than endless.

Su Lang would not make things so big.

Because with his current strength, it would be too risky to do so!

Time passed slowly.

Su Lang's clone continued to move forward.

at last.

Somewhere in the boundless dead void, the spiritual power of the clones found a flying continent!

This continent is bigger than the quasi-primary life planet!

The driving force for advancement is a beast of the beginning level!

After seeing all this.

Su Lang's eyes trembled suddenly.

Immediately take back the clone.

At this moment, an extremely terrifying time force shrouded all the positions where the clone had stayed before!

"Ok!?"

"Disappeared!!"

"A mere elementary Yiyang can escape in the palm of my hand!?"

On the flying continent, a monk with a long beard was widening his eyes, looking at the place where Su Lang had disappeared in disbelief.

This person is the monk Kongzhi!

In addition to monk Kongzhi, there are also Master Huijue, Monk Shi Yu, and many other early powers.

[Chapter 1952: A clan of beasts, never surrendered](#)

These two junior powerhouses are also unbelievable.

When Su Lang's clone just appeared, they found out together.

However, I noticed that the coming person is only a very basic person.

Therefore, after Monk Kongzhi took the shot, the others did not take the shot.

from their perspective.

Using the means of the empty-witted monk, catching a beginner Yiyangtai is simply a matter of hand.

but!

They didn't expect it.

Monk Kongzhi unexpectedly missed!

It's as incredible as a cooked duck flying away!

"Damn it!"

"What exactly is going on?"

"How could he escape under my nose!?"

Monk Kongzhi stood up angrily.

Under the full view of everyone, even one of the junior Yiyao was not caught, which is simply a shame to him!

"Brother Kongzhi calm down!"

"That person may have come prepared!"

"In my opinion, it should be someone who is rebelling, and there is definitely a very powerful, too junior, powerful behind him!"

"Yes! That's it!"

"..."

Monk Shi Yu and the others were relieved, and immediately let Monk Kongzhi's anger gradually dissipated.

"We are now being targeted by a resistance force that is too rudimentary."

"Unfortunately, the time has been rushed just now, and there was no time to capture that person's breath!"

"Otherwise, you will be able to follow that person's trail and find the person behind him!"

"Now, we have to strengthen the investigation of the surroundings, although the probability of someone shooting us is very small!"

"..."

There was a lot of discussion at the beginning, and they did not expect that the figure that appeared before was a clone of Su Lang, and the power represented was the Heavenly Misty Continent that they had just explored!

"correct!"

"On the other side of Tianmen Mainland, Zhong Biezu contacted me."

"I have dispatched three other too junior powerhouses lurking in the star field near the Heavenly Continent to meet them."

"I believe that with their hidden ability, they will not be discovered by the Heavenly Mian Continent."

"Hmph, after Zhong Biezu and the others come back, I will find the traitors among them!"

"Yes, the traitor must die!"

"..."

At the beginning of the discussion, everyone still believed that a traitor had really appeared among Zhong Biezhū and others.

The other side.

"There's news!"

Su Lang who retracted his clone squinted his eyes and touched his chin.

"what!?"

"There is news so soon!?"

"Dao Fellow Su Lang, your investigative ability is too strong, right? Unbelievably strong!!"

"Daoist Su Lang, please tell me, what's the news!"

"..."

Qin Song and the others looked at Su Lang in shock. It was only a quarter of an hour before they had received the available news.

Had it not been for they had already convinced Su Feng.

Su Feng will definitely be suspicious at this time, thinking that he is fabricating fake news!

"Everyone."

"I saw the people who came to invade the Heavenly Continent."

"Most of them are from the Tianmi Continent, and a few are from other forces."

"And those sacred beasts were forcibly enslaved by them!"

Su Lang's eyes suddenly rose, and then a trace of anger emerged.

He had heard of it before.

When the Tongtian Temple attacked the Xinghai domain group, the beasts of the Tianting Continent dispatched to participate.

However, he fought back halfway with the beast, using his own life as the price to cause huge losses to Tongtian Temple.

even!

The Xinghai large domain group can escape, all have the credit of the sacrificed beast.

therefore.

At that time, I saw a super-primary beast helping a bald donkey in Tianmi Continent to open a space-time channel.

Su Lang felt incredible.

And this time.

The truth is revealed.

The beasts do not voluntarily help the evil spirits, they are all involuntarily!

"The divine beasts and spirit beasts of all races in the Tianting Continent have never succumbed!"

"I don't know how much they have suffered during such a long time."

"I really want to hit the Tianting Continent now and rescue them all!"

Su Lang sighed in his heart. He knew that his current strength was not enough, so he could only wait!

Simultaneously.

Qin Song and the others were relieved and sighed when they learned that the beasts had never succumbed.

They had tried to contact the Tianting Continent before, but they all failed without exception.

Every failure is accompanied by huge losses.

So that later, there was no more power to unite the power of Tianting Continent.

at this time.

Su Lang's expression suddenly moved again: "The person who responded to Zhong Biezhu and the others has appeared!"

[Chapter 1953: Quasi-primary warriors who eat inside and outside](#)

"what!?"

"I appeared so soon!?"

The expressions of Qin Song and others changed, and their faces were shocked.

"Yes!"

"There are three people!"

"These three people should also be gangsters who have gotten into the Heavenly Continent!"

"They brought the teleportation array to meet Zhong Biezhu and others, presumably to move them to a safer place!"

Su Lang looked at the vision screen shared by the treasure hunt flying gliders, and a faint smile was outlined at the corner of his mouth.

"Damn it!"

"I knew that they had eroded the Heavenly Misty Continent for so long, it is impossible not to leave behind any other players!"

Qin Song took a deep breath and asked solemnly, "Daoist Su Lang, can you show us what the three of them look like?"

"No matter who it is."

"If you dare to betray the Tianmen Continent, I will smash him into pieces!"

"Traitors, all damn!"

"..."

The strong people from the beginning also growled in indignation.

"of course can."

"These three are the warriors who respond to Zhong Biezu and others."

Su Lang nodded slightly, and immediately condensed three figures with illusion.

Saw these three people.

The expressions of the strong from the beginning suddenly sank.

Because these three people turned out to be members of the guards of the Heavenly Misty Star Group, all of them are quasi-primary powerhouses that have been painstakingly cultivated!

"It turned out to be them!"

"It's in vain that we trust so much, and I mentioned them many times, hoping they can step into the primordial realm!"

"It's really unforgettable!"

"They all deserve to die!"

"..."

A trace of pain flashed in the eyes of Qin Song and others, and immediately turned into killing intent!

They are fighting hard against outside intrusions.

These three gangsters have eaten inside and out, they are simply unforgivable!

"Their teleportation array is very strange."

"Inferred based on my knowledge of formation."

"They should be heading to a star field outside the Heavenly Misty Continent."

"I guess these three people are not the ones who will eventually respond to Zhong Biezu and others. The real receiver leads others."

"Maybe the real linker is too junior and strong."

Su Lang continued to observe the traces of Zhong Biezu and others, slowly analyzing.

"If there is someone else, I must not let it go!"

"Yes, we should catch them all!"

"Friend Su Lang, is there any way to find someone who really meets Zhong Biezhū and the others?"

"..."

Qin Song and other too junior powerhouses were angry and asked Su Lang one after another.

"can!"

"They are talking now and seem to be exchanging information."

A smile was drawn at the corner of Su Lang's mouth, "I take this opportunity to recreate their teleportation array!"

Although it was too far apart, the formation was no longer in the scope of the divine consciousness, which made it impossible to directly control the formation.

But relying on the formation skills of the early stage.

He can perfectly engrave the opponent's teleportation array, even stealthily.

And just when Su Lang was re-enacting the teleportation array.

The place where Zhong Biezhū and others are located.

A total of twenty-eight powerful experts stayed in a teleportation formation.

But faintly separating some distance from each other is obviously defensive.

In front of Zhong Biezhū and others.

The three quasi-primordial powerhouses are explaining the major events that have happened in the Tianmen mainland recently.

Unbelievable things came out of their mouths.

Immediately made Zhong Biezhū and all those who were too junior and powerful were dumbfounded!

"what!?"

"You said Su Lang, the leader of the human race, suddenly supplemented the celestial constellation that we blasted out of?"

"Huh? It's not just a complement, but also some improvement? How is this possible!!"

"Isn't this the most exaggerated? The exaggeration is that he resurrected a large number of godless powerhouses killed by us!?"

"You say it again? After resurrecting a large number of powerful men, he actually broke through to the Primal Beginning Realm on the spot!?"

"Then Su Lang also convened the Three Dao Meetings of the Array Dao Dan Dao Qi Dao Dao? Any one of accomplishments crushed the entire Heavenly Misty Continent!?"

"Now the entire Tianmen Continent respects him very much, and there are countless incense statues erected for him!?"

"Fake, it must be fake!! How can so many incredible things happen in just one day!"

"What? You saw it with your own eyes? No, your eyeballs must be broken!"

[Chapter 1954: Teleportation Array](#)

"..."

When Zhong Biezu and others listened to the three quasi-taichu in front of them telling the miracles created by Su Lang, they were shocked as if they were electrocuted.

They were dumbfounded, dumbfounded, and shaking their heads constantly, their pupils shrunk like needles.

Those miracles created by Su Lang.

Anything can have a terrifying impact on their outlook on life!

They are instinctively unwilling to believe and unwilling to accept.

but.

they know.

In front of three quasi-prime undercover agents.

At the same time as unbelievable, but still so solemnly passed it as official information.

This means.

Those things really exist!

Su Lang really created so many incredible miracles!

"Gosh."

"Is there really such a terrifying genius in the world!?"

"We are all super geniuses from the beginning, but we are nothing compared to him!"

"It's unbelievable, but Su Lang does exist like this, and we must make a coping strategy!"

"I suggest to assassinate him and kill him in the cradle!"

"Idiot, he must be protected by Qin Song, Jiang Wenzheng, Miao Mingyuan, and others. How can we assassinate him!?"

"No, you can't assassinate. There may be traitors among us. Once the news is leaked, our assassination will turn into a snare!"

"..."

Everyone talked about each other, and continued to analyze.

finally.

They still decided to return to Tianmi Continent first!

"The information transfer is complete."

"Now quickly open the teleportation array, let us go to the Qingsheng domain!"

Zhong Biezhu took a deep breath, and said a little hastily to the three quasi-beginners.

When he thought of the possibility of a traitor in his team, he felt anxious.

If they are now leaked by the traitor, and intercepted by Tai Chu from the Heavenly Continent, I am afraid that many people will be harmed!

"Yes!!"

"Let's open the teleportation array now!"

The three quasi-beginners immediately took out a broken key.

Immediately after.

They are ready to be embedded in the three gaps in the ground transmission array.

The other side.

Su Lang suddenly smiled when he saw the formation keys taken out by the three quasi-primary powers.

He has burned the formation.

But the space coordinates are blank.

At this moment, the left side of the space is in the formation key.

Three separate coordinates, combined together, is a complete three-dimensional coordinate!

Identify by array method.

Su Lang instantly mastered the production methods of the three formation keys and the spatial coordinates contained therein.

but.

The real responder is obviously very cautious!

The teleportation arrays on the Tianmen Continent and the Extraterrestrial Territory are all one-offs.

If it is to open the teleportation array in advance.

After Su Lang took Qin Song and the others out.

All three teleports will be destroyed.

Zhong Biezhū and others will be left in the Tianmen Continent.

When the time comes, Jiang Wenzheng and others can't stop them, and they will surely cause terrible damage in the Heavenly Misty Continent.

Therefore, Su Lang can only start the teleportation array with them at the same time!

Thus.

It will be able to catch the people such as Jiayingren and Zhong Biezhū at the same time outside the star field where Yinren is located.

The battlefield will also be outside the Tianmen Continent.

Will not cause damage to the mainland on the first day.

at this time.

When Su Lang thought, three formation keys were condensed!

then.

At Zhong Biezhū's side, three quasi-prime primaries set the formation key on the formation at the same time.

Su Lang also inlaid the formation key!

Suddenly!

The two teleportation arrays burst out a terrifying white light at the same time!

Zhong Biezhū and others were all shrouded in it.

Su Lang, together with Qin Song and others, were all covered!

next moment.

The white light flickered and disappeared like thunder.

Everyone disappeared!

Outside the mainland of Tianmeng.

In the great area of Qingsheng, on the giant peak of a certain planet.

Three powerful men from the beginning surrounded a teleportation array.

Immediately a white light burst out fiercely.

"coming!"

The eyes of the three primordial powers lit up, and they were slightly relieved.

If Zhong Biezhū and the others are accepted, they can also leave this Qingsheng realm and return to the boundless realm of Tianmi Continent.

[Chapter 1955: The terrified Zhong Biezhū](#)

Simultaneously.

At the same time the light burst.

Zhong Biezhū and the others were also very relieved.

In the Tianmen Continent, they have to endure a lot of pressure every day.

Although their anti-reconnaissance capabilities were very abnormal, Qin Song and others could not find them at all.

But they are also restricted as a result, it is difficult to carry out various actions.

Otherwise, if there is a slight disturbance, you will be found and besieged!

Careful for a billion years.

At this moment, I can finally get free!

"Great."

"I can finally go back."

"The next time you come to this Tianmen Continent again, it will be when the Tianmen Continent is destroyed!"

Zhong Biezhū watched the white light in front of him gradually dissipate, and saw a familiar receiver standing on the edge of the formation directly in front of him, and he suddenly smiled.

But at this moment.

He suddenly noticed that the face of the respondent changed drastically! !

"what's the situation!?"

"What happened? Is it possible?"

Zhong Biezhū felt bad in his heart, and then he felt that the number of people around was wrong!

His team clearly has only 28 people.

Even with the addition of three quasi-primary warriors, there are only 31 people!

But this time!

Twenty-six more people!

In an instant, Zhong Biezhū could see the faces of those extra people.

"Qin Song! Lumen! Qihuang...!"

"It's them, it's people from the Heavenly Misty Continent, how is it possible, how is this possible!!"

"Why do they appear here? Is there really a traitor among us!"

"The traitor not only leaked our whereabouts, but even chased after the responder, and wanted to kill us!!"

"Or in other words, the coordinator betrayed us, this time the reception is actually a trap!!"

"..."

Countless thoughts flashed in Zhong Biezhu's mind, and a trace of panic suddenly appeared in his eyes!

Except for Zhong Biezhu, his companions also reacted in the same way.

One by one, from the excitement that was transmitted, to doubt, to the discovery of the truth, they were extremely shocked and terrified.

Although they are more numerous.

But in their perception, they have fallen into a trap!

Qin Song and others will definitely be fully prepared to kill them all!

at the same time.

The three responders were equally horrified!

But their thoughts are different from those of Zhong Biezhu and others.

When I saw Qin Song and others and Zhong Biezhu and others teleported over.

The three attractors stood upside down instantly, and their scalp exploded!

"what's up!!!"

"How could Zhong Biezhu and Qin Song teleport over with them!?"

"Could it be that Zhong Biezhu and the others have all rebelled!?"

"My God, all twenty-eight people have rebelled!"

"It's over, we are dead!!!"

"No, I don't want to die!!!"

"..."

All kinds of horrified thoughts appeared in the three people's minds, making them horrified and frightened.

But at the same time that Zhong Biezhu and others and the three responders were incredulous and frightened.

Rumble!

A series of terrifying magical powers suddenly broke out!

The three quasi-primary traitors were wiped out in an instant!

One by one unsuspecting too junior powerhouse was seriously injured by Qin Song and others!

In fact, if it wasn't for the spoils of war, Su Lang had instructed Qin Song and others to cede all enemies to him in order to kill him.

Qin Song and others can kill six or seven in this wave!

"escape!!"

"Escape the trap!!"

The next thought of Zhong Biezhu and others was to escape, and also put it into action!

They began to flee around!

but.

How could the prepared Su Lang and others let them escape?

Various means of sealing and interception have been thrown out!

Zhong Biezhu and others, who were already badly injured, immediately slowed down!

Just then.

The three responders finally reacted.

Zhong Biezhu and others did not betray.

But Zhong Qin Song and other primordial powerhouses on the Heavenly Misty Continent didn't know what weird methods they used, and they were sent together!

"fast!"

"Help Zhong Biezhu them!"

"Don't run away, they only have twenty-six people, they are not our opponents!!"

"..."

The three responders yelled an instant, and then one after another helped Zhong Biezhu and others.

[Chapter 1956: Reappearance](#)

Among the crowd.

Su Lang was holding the Youtian Sword and severely injured a Sanyan primordial master.

The opponent had no intention to fight at all, so turned and ran!

But wanting to escape in front of Su Lang is simply wishful thinking!

"Yi Nian·Feng Tian!"

Su Lang's thoughts immediately created a space for the confinement of thoughts, and enveloped the powerful Sanyan Taichu.

then.

The powerful Sanyan from the beginning found that everything around him turned grayish white!

I can't touch them anyway.

I can't even feel the outside atmosphere!

"I was sealed!?"

The strong man from the early days of Sanyan exclaimed, and immediately found a figure with a color, that is Su Lang!

Take a closer look.

After seeing the portrait, he immediately recognized Su Lang.

"It's you!"

"The hope of the Heavenly Continent, the leader of the human race, Su Lang!"

"Unexpectedly, you would have the strength that is close to the beginning of Sanyan!"

"You really are a genius with no one before and after no one!"

"Unfortunately, if you don't hide and practice hard, you suddenly dare to run out to fight!"

"In that case, I am happy to erase the light of hope from your ethereal continent!!"

When the Sanyan Taichu warrior was shocked, he gradually revealed a cruel sneer.

He knew he probably couldn't escape.

However, if you can kill the hope of Tai Miao Continent and have Su Lang buried with you, you will not lose!

As for whether you can kill it?

He never doubted his abilities.

Su Lang is only the first stage of Yi Yan, and the strength he possesses is close to the first stage of San Yan!

This strength.

Compared with his veteran Sanyan Taichu, he is at least a hundred times weaker!

Even if he was seriously injured by surprise now, he was confident that he would take Su Lang within ten breaths.

"Die to me!!"

"Tianhui Xiuquan!!"

With a roar, an extremely basic glove appeared on the right hand of the Sanyan Supreme Beginner powerhouse, instantly blasting towards Su Lang!

"Swallow the clone and break the shackles!"

"Big Sun, Haotian, Supreme Devouring Sun!"

"The inner world of ten directions, the broken world!"

"The Emperor Hua Chen Xing, Kunlun is invisible!"

"Hidden Linxishou, the world is dead! Break a sword!!"

With a thought, Su Lang swallowed five clones, and instantly displayed all the terrifying secrets he possessed!

These secrets.

But all have been strengthened to the early stage!

And he also mastered it all to the founding realm!

Among them, the broken sword is a super horror skill condensed from the essence of all exercises!

Any existence can be restrained!

at this time.

Su Lang's various secret methods erupted together.

The aura soared from the peak of the Second Yan to the Great Beginning of the Third Yan in an instant, and even surpassed the strong of the rushing San Yan at the beginning!

"how is this possible!!"

"What kind of secret technique is this, this can't be true!!"

The eyes of the Sanyan primordial powerhouse suddenly burst, but his fists were already slammed, and there was no way out!

The next moment.

Su Lang's extremely sharp Youtian Sword slammed into the gloves of the Sanyan Beginning Powerhouse!

Rumble!

An immense aftermath of the battle broke out instantly.

It spread wildly around like a terrifying tsunami.

The strong man from the beginning of Sanyan was frightened and flew out!

"Ahhhhhhh!!!"

A screaming scream came out from the gloves, it was the spirit of the weapon screaming! !

Screaming.

Mixed with a hint of crisp breaking sound!

It is the glove that has split a lot of cobweb-like gaps!

"Do not!!!"

Seeing his primordial weapon was seriously wounded and dying, the Sanyan Taichu strongman suddenly let out a miserable cry.

And at this moment.

"Broken a sword!!!"

Su Lang was holding the Youtian Sword and killed him again.

"Time slows down and freezes!!!"

"I don't believe that you are too early, you can fight against the rules of time!!!"

At the beginning, Sanyan's eyes were about to split, and he immediately used his own time rules!

But he was dumbfounded in the next second!

Because he found that no matter how he urged the time rule, it would not have any effect at all!

In this space.

Time is constant as the timeline of the boundless universe and cannot be changed! !

"What kind of weird secret is this!!!"

"How can it be possible to live forever!?"

The strong man in the early days of Sanyan collapsed and became autistic!

[Chapter 1957: Kill Sanyan Taichu](#)

He thought that his time rules could instantly seal Su Lang.

Then kill it easily!

but now.

The time-regular moves that took precious time to perform have no effect at all!

This is simply a fatal result!

Endless panic and despair appeared in the heart of this Sanyan Taichu.

next moment.

Puff!

Su Lang's Youtian Sword pierced through all his defenses fiercely, killing him completely!

Under the Youtian Sword breaks the defense and dies, Su Lang's "perfect plunder", and the "Void Spirit Universe".

All the backhands prepared by Sanyan's primordial powerhouse for him are useless!

In an instant!

This powerful Sanyan was dead in the beginning.

Not only the Soul of the Beginning was taken away instantly.

Even the body was broken down into fragments of the primordial body by the system and stored in the storage space.

The opponent died and disappeared.

Su Lang's Nianfeng space suddenly failed and collapsed.

Immediately after.

He immediately beat Qin Song and others who were severely wounded and dying, and killed the primordial powerhouse who could not fight back.

And this time.

Zhong Biezhu and others finally realized that they had not fallen into the trap after five severely wounded and dying too junior experts were beheaded by Su Lang.

And they did not appear as traitors!

If there was a traitor, he would have turned against him at this time.

But the fact is that everyone is being hunted down by Su Lang and Qin Song!

and so!

Zhong Biezhu and others understood.

Everything was brought here by Su Lang and others using special secret methods and riding their ride!

There are now 26 people in total, which is about the same number as Su Lang and others!

The teleportation array has been completely destroyed.

They don't have to worry about Jiang Wenzheng and others being able to support them in a short time.
even.

As long as you keep an eye on every opponent, Su Lang and others cannot place the teleportation array, and Jiang Wenzheng and others can support it!

"There are quite a lot of people, but we are stronger and we can fight!!"

"Kill Su Lang's miscellaneous, revenge for our fellow Taoists who died in battle!"

"Kill Su Lang and erase the hope of the Heavenly Misty Continent!"

"The dying Tianmiao continent should become a dead place!"

"..."

At the call of Zhong Biezhu, the early powerhouses who fled frantically stopped one after another, condensed the intent to fight, and fought fiercely with everyone in the Tianmen Continent.

Suddenly.

The aftermath of countless horrible battles spread.

Various temporal and spatial fluctuations are constantly appearing, and time turbulence and spatial turbulence are everywhere.

Such a battlefield.

As soon as the quasi-tai entered, he would die immediately!

And in the battlefield.

Zhong Biezhu and others all wanted to kill Su Lang.

They kept approaching Su Lang while fighting.

Qin Song and others frantically pestered their opponents.

But Qin Song's overall strength was slightly weaker, and he was gradually approached Su Lang.

But they are not very worried.

Because Su Lang had told them long ago that there was no problem with his safety.

At this moment.

A powerful Wu Yantai junior expert, at the cost of serious injury, forcibly thrown off the opponent who was entangled with him, and killed Su Lang fiercely.

But at this moment!

Rumble!

Two mysterious powerhouses approaching Wuyan Tai's primary level suddenly appeared, protecting Su Lang behind him.

This is not over yet!

Suddenly the two mysterious Taichu unfolded the universe of life, and a total of twenty-seven Taichu powerhouses emerged within them! !

It was Jiang Wenzheng and others who were taken over by Su Lang clone.

Even Yuwen Xingyuan and others who had just been resurrected were among them.

Although they have not yet recovered their full strength at this time, they can barely fight.

As long as they can fight, they won't watch it! !

"Protect Fellow Su Lang!!"

Jiang Wenzheng and others spread instantly, protecting Su Lang in the middle!

Even more powerful people instantly greeted Wu Yan Taichu who attacked and killed Su Lang.

"what!!"

"How can so many powerful people suddenly appear!"

"It's Jiang Wenzheng and the others, how could they suddenly cross such a long distance from the Heavenly Misty Continent to this Qingsheng Great Realm!?"

"That's... the dead Yuwen Xingyuan! And Lu Qiuyue, Xu Yongxin, Di Haokuo, Pu Liangcai, and Yi Hongye!"

"How is it possible, they are obviously dead, how can they be resurrected!?"

"It's over, they are now more than fifty people, we are not opponents at all!"

"Escape, one who can escape is one!!"

[Chapter 1958: The enemy's life Su Lang comes to reap](#)

"..."

Zhong Biezhu and the others were shocked and stunned when they saw so many early powers suddenly appeared on Su Lang's side.

Endless panic filled their minds.

The fighting intent that had just condensed was instantly washed away.

The thought of fleeing reoccupied everyone's minds.

Suddenly.

On Zhong Biezhu's side, all the early powerhouses tried their best to get rid of their opponents.

but.

After Jiang Wenzheng and others came to support him.

Basically, each of them was entangled by two powerful men, and they couldn't escape at all!

What's more terrifying is.

There are two mysterious masters who have freed their hands to participate in the siege everywhere, attacking and killing all the powerful ones!

These two mysterious masters are naturally the clones made by Su Lang using Xing Cuanyun.

These two avatars consist of forty-seven avatars and forty-seven twin avatars, respectively.

Although there is no living planet in the living universe.

But their strength also reached the terrifying level of the five generations.

And Zhong Biezu's side.

Wuyan level is already the top powerhouse!

The rest of those who are too elementary also have three or four levels.

Each of them was entangled by the two powerhouses on Su Lang's side, and was attacked and killed by Su Lang's clone.

Group fights three to one.

Moreover, the Wu Yan-level Su Lang clone also used sneak attacks.

Zhong Biezu's too junior can't hold it!

It often breaks down with a few strokes.

They died away!

In a short time.

There are a total of five too junior powerhouses being killed by Su Lang's clone!

And Qin Song and others were greeted by Su Lang.

They all knew that they would leave the opponent's life to Su Lang to harvest.

therefore.

Su Lang's opponents became those too junior powerhouses who were beaten to death.

Rumble!

Amidst the void, the aftermath of the terrifying explosion burst out, disrupting even time and space!

A junior powerhouse of Santai was blasted by Bi Tongguang.

He spurted blood, his face was like golden paper, and his chest was punched with a big hole through his chest and back!

"Traitor of the boundless world, **** it!!!"

Bi Tongguang's eyes condensed, and another punch was blasted out, and the terrifying twisting power fell on the seriously injured early powerhouse.

boom! !

The strong man from the beginning suddenly flew out like a tattered puppet, losing all resistance.

at this time.

Su Lang traveled through the space, and the Youtian Sword in his hand severely chopped down at the difficult-to-resist and dodge Sanyan Taichu.

Under the blessing of various secret techniques.

The Youtian Sword that condensed this terrifying power suddenly broke through all the defenses of this Taichu, and pierced his head fiercely.

"Ding! You get the soul of the primordial*1, the universe of the primal life*1, the fragments of the primordial body*3000000, the material of the primordial...no god-level material...the superior emperor source*23656589."

The system prompt sounded, announcing the complete fall of this powerful man!

"Friend Su Lang, good job!"

Bi Tongguang laughed, his eyes full of excitement and shock.

It should be understood that Su Lang has just broken through, and he can actually kill Sanyan Taichu, which is incredible!

"Thank you Bi Tongguang Fellow Daoist for giving me his life!"

Su Lang smiled brightly, and slightly bowed his hand to Bi Tongguang.

"Although I don't know what Daoist Su Lang's intention is."

"But since it was the request of Daoist Su Lang, we only obeyed!"

Bi Tongguang seriously bowed his hand in return, immediately laughed, and continued to join the battle group.

at this time.

In the distant battlefield.

A Wuyantai junior strong was cut through the defense by Qin Song with a sword, and was instantly seriously injured!

Immediately after.

Qin Song's attack fell like a violent storm on that Wu Yantai junior.

Suddenly.

Blood rush!

"stop!"

"Qin Song, stop, I surrender!!"

"I have surrendered, I am willing to help you resist Tianmi Continent!"

"..."

This Wuyan too junior strong man kept screaming for mercy, terrified!

"Humph!"

"You, a dog who betrays the boundless universe, count on me to spare you, dream!"

Qin Song's eyes were blood red, and the attacks in his hands continued to blast out, and the terrifying twisting power blasted the already seriously injured Wu Yan Taichu completely beyond recognition!

How fast is a battle that is too elementary.

In a blink of an eye.

At the beginning, Wu Yan became half-dead in Qin Song's hands.

[Chapter 1959: Zhong Biezhū, begging for mercy](#)

Immediately after.

Qin Song squeezed Wu Yan Taichu's neck, imprisoned it, and instantly shuttled through space to Su Lang's Xing Cuan Yun He clone.

"Thank you Daoist Qin Song!!"

Su Lang laughed and passed the Youtian Sword to the clone.

Immediately, the Wuyan-level clone holding the Youtian Sword severely slashed and killed the Wuyan Taichu enemy who was pinched by Qin Song!

"Ding! You get the Soul of the Beginning*1, the Universe of the Beginning Life*1, the Fragment of the Body of the Beginning*5500000, the too Elementary Materials..."

Another system prompt sounded.

A Wuyantai junior powerhouse fell into Su Lang's hands.

"Hahahaha!"

"It's so happy!"

Qin Song laughed loudly, dropped the corpse in his hand, and immediately continued to hunt down the other members of Zhong Biezhū's gang.

far away.

Rumble!

Crackling!

The incomparably vast battle vision blooms in the void, like patches of nebula!

It was Miao Mingyuan and Zhong Biezhū who were fighting in it!

Miao Mingyuan's face was ordinary, but he was from the beginning of Liu Yan, and his strength was stronger than Qin Song and Jiang Wenzheng!

And Zhong Biezhū is just the peak of the Wuyan Taichu.

At this time, he broke out all kinds of desperate secret techniques, and barely resisted Miao Mingyuan's several moves!

"Damn!!"

"I'm afraid I will really be planted here today!"

"How could it be like this, we are already very careful!!"

"Why, why are they being tracked, why are they suddenly showing up so much support!"

"What the **** is going on with that Su Lang dog chop? As soon as he appeared, everything changed drastically!!"

"He, who is he!"

"..."

Zhong Biezhū kept desperately resisting Miao Mingyuan's attack, but countless horrified thoughts flashed in his mind.

Especially watching one after another companion fall.

Intense fear swept through the whole body, making him cold like falling into an ice cave!

Except Zhong Biezhū.

His accomplices, Wu Yuquan, Mu Yizhi and others were also very frightened.

Zhong Biezhū can hold a few moves under Miao Mingyuan's hands.

But each of them can hardly resist two opponents.

and.

With them, one by one, the powerhouses at the beginning level were killed.

Su Lang's side vacated more and more early powers.

These free powers, such as Bi Tongguang and Qin Song, can immediately participate in the siege of other battle groups.

Under the gang fight.

Almost a moment, someone fell from Zhongbiezhu's side.

Once the balance of victory begins to vent, the losing party will lose faster and faster!

The winner will be as unstoppable as a snowball, crushing the loser.

at this time.

Su Lang's side was like a snowball, and the offensive became more and more fierce.

Zhong Biezhū's primordial powerhouse was seriously injured one by one and was dying, and then they were harvested by Su Lang.

First, Sanyan all fell from the beginning.

Then it was Siyan Taichu's turn.

After Siyan Taichu died, only Zhong Biezhū and three stubborn Wuyan Taichu were left.

And they will face the siege of fifty or sixty powerhouses from Su Lang's side!

"Qin Song, Jiang Wenzheng, Miao Mingyuan!"

"You go around us, we can help you undercover Tianmi Continent!"

"You will be much better if we are secretly making trouble in Tianmi Continent!"

"Trust us, we can swear, we can be imposed by you and let you control it!"

"..."

In the siege of Su Lang and others, Zhong Biezhū and other five Wuyan too junior powerhouses began to beg for mercy in horror.

In order to survive.

They have given up all bottom lines.

In fact, they can betray the boundless universe and have been poisoning the Heavenly Continent for a billion years. They are a group of people without a bottom line!

"Zhong Biezhū!"

"You dogs are unforgivable!"

"Even if we have the means to control you, don't think we will agree, because you betrayers are not worthy!"

"Go to death for me!!!"

"..."

Qin Song, Jiang Wenzheng and others angrily attacked Zhong Biezhū and others.

For the Tianmen continent.

The harm caused by Zhong Biezhū and others was really too great.

It's too serious to be forgiven!

and so.

Even Zhong Biezhū and others still have some value.

Qin Song and neither of them would spare their lives.

[Chapter 1960: Kill Zhong Biezhū](#)

Not to mention.

Now there is Su Lang who can use magical means to investigate outside.

Even before, the retreating army of Tianmi mainland warriors had been found.

The undercover value of Zhong Biezhū and others is not great.

Next.

In the extremely desperate eyes of Zhong Biezhū and others.

Qin Song and others resorted to their best efforts, attacked frantically, and vented their anger and hatred fiercely on them.

A total of fifty or sixty powerful, too junior and powerful people all started together.

Countless terrifying supernatural powers almost want to penetrate this star field!

In an instant.

Zhong Biezhū and others were completely submerged in the ocean formed by supernatural powers.

Distorted screams continued to spread from it.

One by one, the Five Yan-level Taichū was seriously injured and dying.

Immediately after.

Everyone's attacks will avoid these seriously injured and dying people, and let Su Lang's clone kill them!

In a blink of an eye.

Zhong Biezhū became a polished commander.

And he had been beaten to death by Qin Song and others.

At this moment, he saw his clothes shattered, disheveled hair, gray-headed face, blood spurting in his mouth, and his body showed unnatural distortions in many places.

The internal injuries are more serious.

A large number of crystal wall cells have been shattered, and even his too rudimentary life universe has been affected, killing and wounding countless creatures!

"No, I don't want to die..."

Endless fear rose in Zhong Biezhū's eyes.

Being too junior and strong will generally have a life span of five billion years.

The higher the level, the more secrets you have, and the longer your life span!

Zhong Biezhū's life span can be measured in units of 100 million years. How could he be willing to die!
but.

He has no choice!

His life and death are in the hands of Su Lang.

If Su Lang wants him to be born, he will live, and if Su Lang wants him to die, he must die!

"kill him!"

A cold light flashed in Su Lang's eyes.

As soon as the order was issued, the two Wuyantai avatars immediately launched a fierce attack.

Two stars Cuanyun joined the clone.

One holds the Youtian Sword and the other holds the Godless Dragon Platform.

Countless energies paid attention to it, and displayed a terrifying attack, which instantly fell on Zhong Biezhū.

"The secret technique of immortality in the underworld!"

Zhong Biezhū was dying and struggling, using a powerful secret technique like a flashback, blocking the attack of the two clones of Su Lang.

But the next moment.

Qin Song and others, who were assisting by the side, immediately took action.

The endless terrorist attack completely dissipated the effect of Zhong Biezhū's secret technique.

And Su Lang's clone once again condensed a tsunami-like energy attack and a sword light, instantly penetrating Zhong Biezhū!

Rumble!

Po Yi Jian immediately broke Zhong Biezhū's defense and pierced his head violently.

The sea-like energy attack of the Godless Dragon Tower immediately poured into his body, destroying his cells one by one!

Zhong Biezhū's vitality was quickly consumed.

Gradually, in the eyes of Su Lang, Qin Song, Jiang Wenzheng and others, the ashes disappeared!

"Ding! You get the Soul of the Primal Beginning*1, the Primal Life Universe*1, the Fragment of the Primordial Body*5990000, the Primal Material...the Godless Grade Material...The Supreme Emperor*53656589."

The system prompt sounds.

Represents Zhong Biezhū's complete fall.

So far.

This too junior gang that has hidden in the Heavenly Continent for a billion years.

Together with the three Taichū who corresponded to them.

All fall! !

"Hahaha!"

"They are all dead, great!"

"I used to dream of catching these traitors and making them pay the price, but this is finally realized!"

"Hahaha, this time the Zhongbiezhū group can be eliminated, mainly thanks to Taoist Su Lang!"

"Yes, if it wasn't for Daoist Su Lang, we wouldn't even be able to catch them. How can we kill them all!"

"Yes, it is because of Daoist Su Lang's strange supernatural powers that we can support us so quickly!"

"The two clones of Fellow Su Lang are also incredibly powerful, and they have exerted the power of Wu Yantai!"

"The performance of Daoist Su Lang himself was beyond expectation. It is hard to imagine that Daoist Su Lang broke through to the primordial level in less than a day!"

"..."

Qin Song and the others got rid of their many years of heart troubles, and immediately burst into laughter with joy.

Simultaneously.

They also knew that Zhong Biezhū and others could be wiped out this time.

Su Lang plays the most crucial role in it!

Therefore, everyone is not hesitant to praise and give the credit to Su Lang.
