

## One Click 1971

### [Chapter 1971: One hundred million crystal wall world](#)

They are all quasi-primary level.

The repair base has reached the ceiling.

It is necessary to condense the rules of time to enter the realm of the beginning.

"Yan Hengxing, Xiao Ning, don't worry."

"Soon, I will be able to make you break through to the Primordial Beginning in a few moments."

Su Lang looked at Yan Hingxing and the others, and said with a gentle expression.

This statement came out.

Yan Xingxing and others were shocked and moved.

Since Su Lang returned, they have grown up in the miracle created by Su Lang almost all the time.

At this moment, he could break through to the Primordial Realm very soon.

All this is almost dreamlike.

Simultaneously.

Jiang Wenzheng, Qin Song and others also thought of the Haikou where Su Lang boasted.

That is to create five hundred powerful masters in one breath!

We must know that there are countless geniuses in the entire Heavenly Misty Continent, and there are not many who can achieve the Primordial Realm!

Since the last World War of the Infinite Universe, the primordial powers of the Infinite Realm have faded away, and only a dozen primordial primaries have appeared in the Tianmen Continent billions of years.

This number is far too few compared to five hundred.

For Jiang Wenzheng and others, the five hundred of Taichu is an astronomical number!

And as soon as I thought of the Heavenly Misty Continent, there would be 500 brand new powerhouses from the beginning.

While everyone was excited, they felt a little pressure.

In my heart, I was determined to make good use of the pill that Su Lang gave me.

Next.

Su Lang asked Jiang Wenzheng and the others to go back to practice.

Yanxingxing and others continued to arrange Su Lang's incense statue.

Although there is a spiritual Internet, the incense statue is still quite important.

After all, what Su Lang wanted to collect was the incense aspiration power of the entire Tianmen Continent.

at this time.

Everyone has dispersed.

"The realm has been broken."

"It's time to improve more Crystal Wall world!"

Su Lang looked inside his body for a moment, and immediately decided to raise the crystal wall world around the Yingzhu Universe.

After making a decision.

Su Lang immediately began to operate the Hengsha Infinite Boundary Record.

Cultivate crystal wall cells one by one with countless innate qi.

A large amount of energy poured into a crystal wall cell, and in a blink of an eye it grew to a level comparable to the emperor-level life universe.

time flies.

Su Lang sat on the ground, desperately upgrading his crystal wall cells.

Because of the breakthrough to the second Yan Taichu level.

His innate energy has also been sublimated, and his reserves have become higher.

Therefore, the efficiency of growing crystal wall cells has also been improved.

At the same time.

Before Su Lang only grew 10 million Crystal Wall World.

This time, 20 million crystal wall worlds were created!

And Su Lang did not stop there.

Instead, they constantly absorb the energy of the sun, take restorative pills, and continuously sublimate the crystal wall cells into the crystal wall world.

It persisted until the Dantian universe and the Yinghu universe had 50 million crystal wall worlds at the same time.

Su Lang was sweating profusely, and stopped panting.

"Lying down!"

"This has only completed the number of 100 million!"

"Compared to the number of cells in my entire body, it's insignificant!"

Su Lang sucked in cold air, feeling that this time the sublimation crystal wall cells were simply more tired than fighting with Zhong Biezhū and others.

but.

A world of 100 million crystal walls has brought great benefits to Su Lang!

These crystal wall cells can condense a higher quality and more quantity of twisting power, so that Su Lang can fight across the realm more easily!

In addition.

A world of 100 million crystal walls also means that Su Lang can stuff 100 million life planets into it!

What is this concept?

Equivalent to a billion life universe!

The power of humanity and the power of the world brought by this plus Chengdu will be extremely terrifying!

"I'm really looking forward to it!"

Su Lang clicked the corner of his mouth, then looked at his Dantian universe.

However, around the Dantian universe, the 300,000 crystal wall worlds with living planets have expanded to 320,000!

Among them are more than 10,000 natural life planets in the Qingsheng Dayu.

There are also planets that the clones gather around without stopping.

"correct!"

"The life planet of Zhong Biezhū and others should also be included in the crystal wall world."

Su Lang's eyes suddenly brightened, and his eyes fell on the more than 30 life universes in the storage space.

[Chapter 1972: The Phoenix is resurrected!](#)

There are a total of thirty-four life universes.

Thirty-one primordial level and three quasi-primary level

"Look at what the life planet of Wuyan Taichu was like."

Su Lang curiously took out Zhong Biezhū's life universe.

Then tear a gap and observe the situation inside.

This is another universe that is almost independent of the boundless universe.

Because it has the power of time rules!

Its internal space is also extremely vast, comparable to multiple star sea large domain groups!

In the inner space of the universe of life, a huge planet is slowly spinning.

Even experienced the terrible too junior war.

This life planet was squeezed most thoroughly before Zhong Biezhū died.

But the planet remains intact.

There is even life on the surface.

"This planet is comparable to a thousand Canglan stars!"

Looking at this planet, Su Lang couldn't help but be speechless.

Such a huge planet.

His crystal wall world simply can't hold it!

"It seems that some crystal wall worlds have to be expanded first!"

Su Lang thought so, and then used the profound meaning of Hengsha Boundless World Record again to expand a selected crystal wall world.

This is equivalent to the second round of growth!

The energy consumed is terrible!

And the time spent has become longer.

It's not easy.

Su Lang only expanded the first Crystal Wall world for the second time.

So that it can barely pretend to be Zhong Biezhū's life planet.

Next.

Su Lang began to transfer the planet of life.

It took a lot of time to transfer it to the crystal wall world.

"What the hell."

"Finally finished."

"However, there are still thirty crystal wall worlds waiting to grow!"

Su Lang glanced at the remaining 30 super-primary life universes, and suddenly rolled his eyes.

Immediately after.

He chose thirty crystal wall worlds and used the power of nine nips and two tigers for the second expansion.

Finally, thirty super-primary planets were finally transferred to the crystal wall world.

Among them, there are sixteen crystal wall worlds containing very primary life planets near the Dantian universe.

There are fifteen near the magic universe.

These primitive life planets are basically due to being squeezed in the war, and the creatures are almost dead!

This requires Su Lang to transfer his souls to live.

Fortunately, none of these living planets have world consciousness, and the road rules are perfect enough to make any creatures survive on them.

"It's easy to transfer creatures!"

"Just find some worlds, pick some life races and throw them in."

"These thirty-odd life planets are too elementary. There are a lot of opportunities on them. They are treasures everywhere!"

"Those who have been moved are lucky!"

Su Lang smiled, and then began to select life races from other life planets.

This thing is very simple.

It was almost done in a moment!

then.

Thirty crystal wall worlds immediately became lively.

Countless creatures built a brand new order on it and developed a peculiar warrior civilization.

Just then.

Su Lang's expression suddenly moved, and his eyes instantly turned to Yinghu Universe.

But I saw endless flames of magma suddenly erupted from the endless volcanoes on the earth of the planet of gleaming life!

If it were on an ordinary life planet, this would definitely be a fatal disaster.

However, it would not cause much loss in Yinghuo, the core fragment of the endless realm dominated by the fire system.

at this time.

After the continuous volcanic group erupted.

A crisp and melodious bird's song suddenly spread throughout the world of Yingzhuo.

In an instant.

Countless creatures worshipped the erupting volcano group!

Especially those bird creatures.

I can't wait to bury my head in the sand to express my humbleness.

Accompanied by the crisp birdsong.

A graceful phoenix with golden red as the main color and multicolored colors rushed straight into the sky, and the horror breath immediately burst out!

It overlooks the whole world, proud but noble!

"The Phoenix is resurrected!?"

A glimmer of joy flashed in Su Lang's eyes, "I didn't expect it to be so fast!"

[Chapter 1973: Super arrogant phoenix](#)

Enchanting the universe.

"This place feels so familiar!!"

Phoenix looked down at Su Lang's fascinating planet, with a trace of surprise in his eyes.

At the time when the Nirvana of Meteophoenix became a phoenix egg.

Although he has some consciousness, he is very weak, and it is the limit to be able to complete some of the most basic actions.

It is impossible to detect the abnormality of the surrounding environment in detail.

But at this time Nirvana rebirth is complete.

He immediately noticed the strangeness of this planet!

The familiar and unfamiliar feeling moved him a little, and some wanted to cry!

"I remember."

"This is the breath of the core of the boundless universe!"

"And it's the feeling of the core origin of the fire element, this planet is transformed by the core fragments of the boundless world!!"

"Billions of years, I haven't experienced this feeling for billions of years!"

"No wonder I can complete Nirvana in such a short time!"

"If you change to another place, it will take hundreds of years!"

"What is the identity of the person who saved me before? Why are there core fragments of the infinite universe in his life universe!?"

"..."

Stormy waves rose in Phoenix's heart, already extremely strong curiosity.

As an extremely primary beast that existed before the Great War of the Boundless World.

He understands the preciousness of the core of the Infinite Realm. It is the most treasured treasure in the entire Infinite Universe. It is transformed by the core of the Infinite Universe!

but now.

A strong man actually appeared, possessing such a huge core fragment of the Fire Element Infinite Realm, much more than what he had originally!

How does this make him not curious?

at this time!

Phoenix suddenly felt a trace of spatial fluctuation.

Soon after, he found himself in a wider world.

Another breath of familiarity and strangeness came, causing a faint splendor to rise in the Phoenix's eyes.

"This is the boundless world!"

"Yes, although it has been weakened countless times, this is indeed the boundless world!"

"It looks like this is a quarter of the original split of the boundless world!"

Phoenix's heart was shaken, and at the same time a little surprised.

He was sealed in the Great Thousand Territory of Fallen Phoenix, a place far away from the Boundless Realm.

He remembered that he should be a quasi-primary warrior.

But how could the quasi-primary warrior reach the boundless realm from the Meteorite Great Thousand Territory in such a short time?

Think of it here.

He looked at Su Lang beside him with a trace of doubt.

Because he returned to the Boundless Realm, he moved a lot in his heart, so he turned his attention to Su Lang at this time.

"Little bird, is it resurrected?"

Su Lang looked at this extremely proud phoenix, raised his eyebrows, and said jokingly.

Although this phoenix had succeeded in Nirvana, it only had the strength of a primordial stage.

This strength is no longer worth mentioning in front of Su Lang.

"you!"

"You are the warrior who saved me!?"

"But you are clearly at the Quasi-primary Beginning level, how come you suddenly become the Second Yan Primal Beginning, and the aura on your body is even comparable to the Sanyan realm!"

Phoenix looked at Su Lang in shock, "Could it be that it was only your clone that saved me back then!?"

"It's me who saved you."

"As for how I was promoted from the quasi-primary early to the early-primary level in a short time, this is difficult to explain, and you will never believe it."

Su Lang smiled, not intending to explain.

"That must be your avatar who saved me."

"Anyway, it is impossible for a quasi-primary primordial genius to be promoted to the Second Yan Primal Beginning Stage in such a short time!"

Phoenix said confidently, "Also, no matter what, thank you for saving me."

"Ok."

"If you want to thank me, you can't say it verbally."

The corner of Su Lang's mouth ticked, "Look, do you mean something in return?"

"Humph!"

"What a greedy guy."

"If I still have the original cultivation base, I will definitely fix you."

Phoenix glanced at Su Lang incomparably arrogantly, and didn't mean to give any reward.

"Lying down!"

"You are so proud!"

"I saved you and you still have to fix me. You knew you wouldn't save you!"

"I didn't expect that Phoenix would look like this, it's totally different from what I imagined!"

Su Lang looked at Phoenix with contempt, "Well, disappointed, really disappointed!"

[Chapter 1974: I have eaten several](#)

"Humph!"

"It is your honor to be able to save the great phoenix... eh eh, let go of this phoenix!!"

Phoenix still wanted to say something arrogantly, but Su Lang pinched his neck in an instant and twisted it like a chicken!

"Just ask if you are still arrogant?"

Su Lang hooked his mouth and asked playfully.

"This Phoenix won't give in!"

Phoenix snorted coldly, as if dead pigs were not afraid of boiling water.

"Ok."

"Originally, I also prepared a lot of delicious and primary medicines for you."

"But you are so to me, I can only seal you up again!"

Su Lang sighed regretfully, then took out a few pills containing powerful fire element spiritual energy to play with.

Phoenix originally wanted to hum with disdain.

But when his eyes fell on the pill, he couldn't move immediately!

Even his eyes widened fiercely, and his entire pupils were filled in an unbelievable moment!

Because he found out.

The pill that Su Lang took out turned out to be too low-level pill of perfect quality! !

Tianle!

For the sacred animal clan, it is not easy to eat too low-level pill.

It is a great blessing even for Phoenix to be able to eat the super-primary pill of perfect quality!

In his long years, the perfect quality he has eaten is too low-level pill, which can be counted by both hands!

But now.

The young Taichu warrior in front of him actually took out five perfect quality Taiji pill in his hands!

This is simply unimaginable!

"What to look at!?"

"Can you afford to eat you?"

"Pull out your whole body and you can't afford my medicine!"

Su Lang glanced at the phoenix disdainfully, with a look in his eyes.

"what!"

"You little thing said that I can't afford this medicine?"

Phoenix glared at him and retorted, "I have eaten several pieces!"

"How many!?"

"You only eat a few, it really is a local chicken."

Su Lang smiled contemptuously, and immediately with a wave of his right hand, dozens or hundreds of perfect-quality primordial pills appeared.

"how can that be!!"

"How can you have so many perfect quality pills?"

"Could it be that you are the alchemist who can refine the perfect pill of the beginning?"

Phoenix looked at the densely packed perfect quality pill in disbelief.

So many primordial pills of perfect quality appeared at the same time, it was a wonder he had never seen before!

In his memory.

Even the original leader of the boundless world, it is impossible to come up with so many perfect primordial pills at once!

"You are not convinced to say that you are ignorant and ignorant."

Su Lang looked at Phoenix faintly, "Have you seen these pills, have you eaten them?"

"you you you!"

"I have eaten more natural treasures!"

"Our sacred beasts don't need to be refined into pill, we just swallow the treasures of heaven and earth!"

Phoenix still said with a face full of dissatisfaction, "Only you paupers can carefully refine the treasures of heaven and earth into pill!"

"Tsk tut!"

"This is the first time I have heard that people will not make alchemy so fresh and refined!"

Su Lang smiled and shook his head, and immediately put the pill into the storage space.

"Humph!"

Phoenix snorted and glanced at Su Lang from time to time.

He is still locked in his throat, which is extremely uncomfortable.

"Phoenix."

"Although you are so rude."

"But for the sake of you fighting for the boundless world, I won't punish you."

"Now, go wherever you like."

Su Lang smiled, and even let go of his hand, letting Phoenix go free.

"what?"

Phoenix was stunned, and then said arrogantly, "It seems that you are still afraid of this Phoenix, so you dare not attack this Phoenix!"

"I hold a grass!"

"I have to eat Orleans' secret roast chicken today!!"

The corners of Su Lang's eyes and mouth twitched at the same time, and he immediately started to attack Phoenix.

"Stop it!"

"I'm leaving now!"

Seeing that Su Lang moved really well, Fenghuang suddenly exclaimed, and then flew away desperately.

"Lying down."

"This Phoenix seems to have a problem with IQ!"

"Is it a sequelae after Nirvana?"

Su Lang looked at Phoenix, who was going away, and suddenly rolled his eyes.

#### [Chapter 1975: Refresh the number of empowerments](#)

far away.

"Ah, this is just nirvana, my head is really stiff!"

"However, I didn't expect him to really let me go!"

"It seems that he doesn't covet my Phoenix blood and flesh and blood materials."

"A young man of the early age with the core fragments of the boundless realm, who can even come up with a large amount of perfect pill, who is he?"

"Wait until you figure out his identity before contacting him."

As Phoenix thought, he randomly found a place to continue to recover his strength.

After Nirvana.

His strength will quickly return to its peak, and the environment is not very demanding.

The other side.

With a thought in Su Lang's heart, a treasure hunting flying flying glider immediately activated its soul-retrieving ability and chased the Phoenix.

He is very interested in Phoenix, a beast with a long history.

Because this was the first divine beast he had come into contact with that existed before the Great War of the Boundless World.

Perhaps he would have some information about the sacred beasts that Bi Yelin didn't know.

In addition.

Su Lang sent the treasure hunt flying flying flying flying phoenix to protect the phoenix.

Although Tianmen Continent is already very safe, it still needs to be just in case.

but.

After releasing the treasure hunt flying flying fly.

Su Lang suddenly realized that Phoenix hadn't flew very far, and he didn't even fly out of the area covered by his divine consciousness.

"What does this guy want to do?"

Su Lang raised his eyebrows, a little puzzled.

at this time.

A system prompt appeared suddenly!

"Ding! The number of one-key empowerment functions has been refreshed!"

"I fork!!"

"Finally refreshed!"

"My five-hundred Spartans, oh no, it's the five-hundred primordial creation plan that can finally be implemented!"

Su Lang's eyes brightened, and immediately sent a message to Yanxingxing and others who had left soon!

Jiang Wenzheng, Qin Song and others did not leave either.

All important subordinates were notified.

Somewhere on the ground.

"what!!"

"The patriarch said he can give us time rules!?"

"Time rules, time rules! This is a stepping stone to getting into the elementary level!"

Yanxingxing and others are gathering the creatures in the life universe, preparing to build incense statues while distributing the terminals of the spiritual internet.

After receiving the message.

They were so excited instantly!

Immediately, everyone flew in the direction Su Lang was extremely excited.

other places.

In the heaven and blessed land with extremely rich aura.

Jiang Wenzheng and others have conveyed the news of the spiritual Internet.

After seeing countless warriors pouring into the spiritual internet with excitement,

So he began the solemn rituals of bathing, burning incense, meditation, etc., ready to take the pill given by Su Lang.

But at this moment.

They received the message from Su Lang.

"what?"

"His Majesty the Infinite Universe has been able to create five hundred too early!"

"Each of us can choose a few quasi-prime juniors who are good at fighting and participate in the 500-prime primaries plan!"

"Hi, this miracle of no one before and after no one is finally created in the hands of His Majesty Su Lang!?"

"Oh my God, Your Majesty Su Lang deserves to be the new leader of the Boundless World. With this hand, he is even more powerful than the old leader!"

"..."

Jiang Wenzheng and the others were terrified, and temporarily put away the pill, and then immediately screwed on his optimistic Quasi Taichu, and rushed to the place where Su Lang was!

In a blink of an eye.

Because of the existence of the spiritual internet and transportation network.

The crowd soon gathered in front of Su Lang!

"Subordinates knock on the patriarch!"

"Your subordinates see the great and infinite Emperor Zhou!"

When everyone saw Su Lang, they knelt down on one knee and bowed.

Because of the excitement, their voices were shaking.

Among them, the most exciting is the quasi-beginners brought by the powerful men such as Jiang Wenzheng and Qin Song.

When they learned that they were about to get the opportunity given by His Majesty Su Lang to break through to the Primordial Beginning Realm, they were shocked and stupid at first!

On the way to being screwed, I felt that everything was not real, as if I was dreaming!

At this moment.

Seeing Su Lang who was smiling, they were so excited that they couldn't speak.

"Get up all!"

Su Lang smiled and held up the crowd, "In addition to you, there are hundreds of people who are quasi-primary strong."

### [Chapter 1976: People with stagnant thinking](#)

Talking.

Su Lang waved his hand gently.

Suddenly, more than three hundred quasi-too junior powerhouses appeared in front of everyone.

Except for Chu Xiaobei's daughters, such as Monk Xinzheng, all have been upgraded to the quasi-primary level.

Some of them were temporarily promoted by Su Lang to the quasi-primordial stage.

The reason why hundreds of human races were created at the beginning was naturally to enhance the dominance of the Heavenly Continent.

Moreover, the human race is the glue that condenses the boundless cosmic power, and it is beneficial and harmless to expand the human race.

At this moment.

In addition, the human race released by Su Lang from the universe of life is almost the beginning.

There were exactly five hundred Quasi Taichu standing under Su Lang!

"hiss!!"

"These five hundred quasi-too-beginners will soon become too-beginners!"

"God, I don't know what kind of means can be used to turn them into the power of the beginning, and how much time and effort it will take for His Majesty Emperor Zhou!"

"The luck of these younger generations is really against the sky. You don't need to be like us, who have worked hard for billions of years to break through to the beginning level by chance!"

"If they dare to live up to the expectations of the great and infinite Emperor Zhou, they must be severely punished!"

"..."

Jiang Wenzheng and the others thought so, of course they don't have to envy these juniors, because they have received the perfect Godless pill from Su Lang!

at the same time.

In a mountain range not far away.

The Phoenix is floating in the air to recover its strength.

Suddenly he looked surprised and looked in the direction of Su Lang.

"How come there are so many powerful people who are too junior suddenly gather?"

"There is actually a senior Taichu who is at the level of Liuyan, and this Taichu has a strange smell, like a resurrected dead person!"

"And these people actually bowed down to the young Taichu? The expression of respect does not seem to be fake, and it is not controlled!"

"That young too early to save me can get so many too juniors! Those too early to call it the boundless Emperor Zhou?"

"His Majesty the Emperor of the Boundless Universe is the title of the leader of the Boundless Realm. Is this young and powerful man named Su Lang the leader of this term?"

"Impossible, he's just an Eryan who is too junior. There are so many people who are stronger than him. How can he convince the crowd?"

"Also, why are those strong in the early days still chanting about the five hundred quasi-prime primaries? How could it be possible? It's crazy!"

"These people... are really puzzling!!"

"..."

Phoenix watched the scenes before him, and a lot of horror and incomprehensible thoughts emerged in his heart.

at this time!

Su Lang once again uttered words that made everyone tremble.

"Everyone!"

"The so-called Five Hundred Preliminary Plan is to create five hundred preliminaries at once!"

"However, this one time is once a day, which is to create five hundred Taichu every day!"

Su Lang carried one hand on his back, smiled and looked around the crowd, and said a few words that were earth-shattering.

This statement came out.

Including Phoenix, the individuals of Jiang Wenzheng and Qin Song were thunderous in an instant, they were dumbfounded, their thinking was stagnant, and their brains were blank!

what! ?

The Five Hundred Taichu plan is to create 500 Taichu every day! ?

Five hundred a day, ten days is five thousand, ten thousand days is five million primordial beginnings!

This is too much madam!

The entire Tianmen Continent has accumulated dozens of too juniors for billions of years!

Everyone was completely stupid.

They couldn't imagine how Su Lang could do such a thing against the sky!

"This is impossible!"

"This has violated the principled rules of the universe!"

"Unless, unless it is with the unqualified core origin of the universe, it is possible to do it!!"

"..."

Phoenix's pupils shrank suddenly, horrified like a blasted rooster! !

At this time.

Su Lang's voice came out again.

"You don't have to be so horrified."

"Soon you will get used to it."

"Now, Yanxingxing, you come first."

Su Lang smiled faintly, and immediately waved at Yanxingxing.

"Yes, patriarch!!"

Yan Hingxing trembled all over, came to Su Lang and knelt down.

#### [Chapter 1977: Too Junior Yanxing](#)

A familiar feeling surfaced in his mind.

He remembered the first experience of being instilled rules by Su Lang on the island in the blue star sea.

quickly.

Su Lang stretched out a hand and placed it on his forehead.

"is coming!!"

"I, I am going to break through the primordial realm!"

"The bottleneck that has not been able to pass for hundreds of millions of years is important to be wiped out in the hands of the patriarch!!"

Yan Xingxing was extremely excited and grateful to the extreme.

at this time!

"system!"

"Start one-key empowerment, rule empowerment!"

"Instill the time rules I currently have for the designated target!!"

Su Lang thought, and gave instructions to the system.

"Ding! Time rules are being instilled!"

The system prompt sounds.

Immediately, Yanxingxing felt countless mysteries about the rules of time appearing in his mind, deeply imprinted in his soul!

In a blink of an eye.

Yan Hengxing has mastered the same time rules as Su Lang's current level!

That is, the time rules of the Eryan Taichu level!

Because Su Lang had instilled enough cultivation skills into Yanxingxing for a long time, he could complete the breakthrough only by the rules of time.

at this time.

Yanxingxing not only got the time rules.

He even got a time rule comparable to Eryan Taichu level.

The most difficult bottleneck suddenly disappeared, and the breakthrough was a matter of course!

In the perception of Yanxingxing.

Countless godless elements merged with the power of time and immediately melted into the life universe of Dantian!

quickly.

There are rules of time in the rules of the entire universe!

Of course, it's just time rules, not time avenues.

no matter what.

All the rules are completely complete, and it immediately brings earth-shaking changes to the universe of life!

After the rules are completely fulfilled.

The godless element immediately sublimated quickly and became a primordial energy.

This kind of energy is different for every elementary person, and each has its own characteristics.

For example, Su Lang's "congenital qi" is too elementary.

But under normal circumstances, it will be collectively referred to as 'primary Yuanneng'!

On the basis of consummation rules and Yuanneng in the early days.

A new twisting force can be condensed!

This is the power of too primary distortion!

but.

To truly display the power of too primary distortion, you have to integrate the rules of time into the crystal wall cells.

And this process.

After the universe of life was integrated into the rules of time, it immediately began.

Although Yan Hingxing is also a human super genius, it is incomparable to Su Lang.

He hasn't practiced much exercise techniques.

Therefore, the number of cells is much less than that of Su Lang.

Probably only less than two gai.

But under normal circumstances, an ordinary quasi-primary powerhouse has only one cell number.

Therefore, the number of cells in Yanxingxing is much more than that of martial artists of the same level.

After all, apart from Su Lang, he is the first genius of the human race!

At this moment.

The rules of time spread from the universe of life.

Using countless sublimated Primordial Yuan Energy as the medium, it gradually extends into the crystal wall cells.

In a blink of an eye.

Covers countless crystal wall cells.

When this process stopped, Yan Xingxing had already been promoted from Quasi-primary Beginning to Yiyuan Primal Beginning Stage!

and.

The time rules he mastered reached the beginning of Second Yantai.

It was only because the ratio of the crystal wall cells that were integrated into the time rule to the whole body cells was not up to the standard, it did not break through to the second level.

But the most difficult time rules have broken through the small bottleneck and reached the level of Eryan Taichu, and other breakthrough procedures have become simpler.

"Okay, it's done!"

Su Lang slowly retracted his hand covering Yan Xingxing's forehead, with a smile on his face.

"Stars kowtow to the patriarch for the gift!"

Yan Hingxing's eyes flushed with excitement, and he squatted deeply in front of Su Lang.

"Go ahead."

"Manage those chores well."

"By the way, I will soon teach you that your practice is too elementary, so don't think about it yourself."

Su Lang smiled, preparing to practice a super-primary exercise method fused with crystal wall cells, and then instilled this exercise method and "The Boundless World of Hengsha" to Yanxingxing and others.

after all.

A single path to the universe is too difficult!

It is also suitable for Su Lang to practice by himself.

"Yes! Patriarch!"

Yan Xingxing once again bowed deeply to Su Lang, and then slowly retreated.

And the scene where Yan Hingxing broke through from the quasi-primordial beginning to the primordial realm instantly under Su Lang's palm made Jiang Wenzheng and the others and Phoenix once again dumbfounded!

#### [Chapter 1978: A miracle that a phoenix can't imagine](#)

"This, this! This is a breakthrough from the quasi-primary beginning to the realm of the beginning!?"

"How long is this!? A hundred breaths have not been spent, right!"

"This is really a breakthrough to the Primordial Beginning Realm, not a breakthrough from Body Tempering to the official Martial Artist Realm?"

"So fast, fake it, it took me a full 100,000 years to completely break through the bottleneck and break through to the primordial stage!"

"..."

Jiang Wenzheng and the others stared blankly at Yanxingxing who retreated from Su Lang, all with a dull expression.

They are really unimaginable.

It only takes this little time to break through from the quasi-primordial realm to the primitive realm!

This is really exaggerated!

at the same time.

Phoenix also opened his eyes wide, looking at Su Lang and Yan Hingxing in disbelief.

"What method did Su Lang use!?"

"How could he turn a quasi-primary primacy into a strong primordial primacy stage in such a short time!?"

"Even in the age when the boundless universe is the most prosperous and the powers of the primordial stage are like clouds, it is impossible for someone to develop such a terrifying secret technique!"

"This Su Lang, how did he do it!?"

"..."

Stormy waves rose in Phoenix's heart, constantly recalling his own memories of long years.

But in any case, he couldn't remember when he had heard of such a means to create a powerful person in such a short time.

The key is.

This method can be used many times in a short time.

Su Lang wants to create five hundred strong men at the beginning!

Moreover, five hundred Taichu can be created every day. Even the well-informed Phoenix is unbelievable!

but.

No matter how unimaginable and unacceptable it is.

The facts are in front of you.

Su Lang has used his actions to confirm what he said is true!

at this time.

"Come on, next one."

Su Lang ticked the corner of his mouth and waved at the crowd of Zhun Taichu.

The hundreds of quasi in Tianmen Continent were so shocked at first that they couldn't react for a while.

The quasi-primordial powerhouses of the Xinghai domain group had already seen Su Lang's anti-sky.

They deeply knew that Su Lang was an unreasonable figure, and even a truly omnipotent great god.

So they can accept this earth-shattering miracle more easily and faster.

However, the crowd did not swarm up, but pushed Chu Xiaobei out.

"Then I will come!"

Chu Xiaobei smiled slightly and came to Su Lang, looking at him with big eyes full of water.

"Come, close your eyes!"

Su Lang smiled and nodded, and reached out to touch Chu Xiaobei's forehead.

"It's like a prelude to the wall dong."

A playful smile appeared on Chu Xiaobei's face.

"Uh!"

"When you break through to the Primordial Beginning Realm, you will be blown away!"

Su Lang smiled brilliantly, "Come on, get ready!"

"Hmm!"

Chu Xiaobei nodded.

Among all the people, she was the most experienced one, so she was well prepared soon.

Immediately after.

Su Lang began to instill the rules of time for her.

It is the same as helping Yan Xingxing get promoted.

A large number of time rules are integrated into Chu Xiaobei's soul, then into the life universe, into the crystal wall cells...

After a while.

Chu Xiaobei suddenly heard a powerful aura that was too basic!

"I have broken through! I have become stronger!"

Chu Xiaobei opened his eyes, and there was a deep excitement and a hint of shyness in his eyes.

She remembered Su Lang's words clearly.

When she reaches the realm of the beginning, she can have children together!

"It looks like you are in a hurry, Beckham!"

Su Lang seemed to see Chu Xiaobei's thoughts and asked with a chuckle.

"Nothing!"

Chu Xiaobei quickly denied it, and then immediately pushed Ji Ruxue up.

Su Lang laughed, then looked at Ji Ruxue.

But I saw that Ji Ruxue was also shy and infinite.

"Don't worry, don't worry!"

There was a playful smile at the corner of Su Lang's mouth, and he was promoted for Ji Ruxue.

To promote the quasi-primordial primacy to the primordial primordial realm, currently only needs to instill the power of the rules, without the need to use the avenue to instill the times.

Therefore, Ji Ruxue is only a quasi emperor now.

In Su Lang's hands, he can also break through to the Primordial Beginning Realm!

[Chapter 1979: Breakthrough from Wuxianjing to Taichu](#)

at this time.

Su Lang first instilled 500 great roads for Ji Ruxue!

Immediately, she instilled her cultivation base, and continuously raised her realm to the Quasi-primary Beginning realm.

Finally, it is to instill the rules of time and promote it to the primordial stage!

quickly.

Ji Ruxue became the third primordial powerhouse who broke through today.

Although because of her weak foundation, her strength is very weak at the same level.

But in any case, it is completely possible to crush the quasi-tai!

And Ji Ruxue's breakthrough.

It was from Zhundi, that is, Wuxian level soared all the way to the realm of the beginning!

This is simply more exaggerated than a body tempering warrior instantly becoming Emperor Wu!

The people of Jiang Wenzheng who witnessed all this were so shocked that their eyes were about to fall out!

OMG!

Raise a Wuxian to the Primordial Realm instantly!

This is incredible!

And just when everyone was shocked and lost.

"As expected of the patriarch who cannot reason!"

"Yeah, no reasoning, no reasoning!"

"The most unreasonable great man since the birth of the endless universe!"

"..."

A murmur came from the mouths of many quasi-prime primaries in the Xinghai large area group.

Jiang Wenzheng and the others heard it, and instantly understood that Su Lang was a man who couldn't make sense!

The other side.

Phoenix stared at Su Lang blankly, and an astonishing light burst into his eyes.

"I understand!"

"Su Lang is definitely a successor left by the last Emperor Zhou!"

"Not only that, he is better than blue because of blue, and wins a lot!"

"This young man is the hope of the whole boundless world!"

"He can save the Tianting Continent and the boundless universe!"

"..."

Every thought of horror arose in Phoenix's heart and made a decision.

He decided to contact Su Lang again.

No, it's not just contact, but surrender!

Yes.

Leave for a short time.

He intends to return automatically to find Su Lang and admit his mistake!

Although he left arrogantly and returned to hit himself in the face at this time, he didn't think there was anything.

For the Tianting Continent, this is nothing at all!

Next.

Phoenix stared intently at Su Lang's promotion to a strong man from the beginning.

Boom boom boom!

Within a short period of time, a powerful primordial realm aura burst out!

If this sky had not been suppressed by Su Lang's formation, there would have been countless turbulences long ago!

quickly.

Except for Murong Xianxian because he didn't have the power to master the great power, he could only postpone his promotion.

All the remaining Xinghai domains have been promoted from the beginning.

It also includes strong men like Yuqing, Youzhi, and Xinzheng who have followed from the place of exile.

Chu Xiaobei and others looked at Su Lang admiringly and excitedly.

The eyes of the rest are endless admiration, awe and compliance!

Su Lang has been more than a kind of reinvention to them.

This gave them absolute loyalty to Su Lang.

Even the most painful punishment could not make them betray Su Lang.

At this time.

Su Lang's gaze fell on the hundreds of quasi Taichu in the Heavenly Misty Continent.

These quasi-primordial warriors witnessed the birth of more than a hundred primordial realm, and at this time they were almost trembling with excitement!

Seeing Su Lang's gaze came over.

Everyone lowered their heads in awe, crawling deeply in Su Lang's sight, and their hearts were full of endless desire.

"Teng Yi, come on."

Su Lang's gaze fell on a senior quasi Taichu, and said with a smile.

This Quasi Taichu named Teng Yi is stronger than the rest.

The foundation is also super strong, and he has experienced thousands of battles and has a strong will. He is the strongest one in front of the hundreds of quasi-tai junior high schools.

"Yes, His Majesty the stalwart Emperor Zhou!"

Teng Yi was called out by Su Lang's name, and his whole body trembled, and his brain went blank.

He never expected that Su Lang would know his name, and this feeling of being valued made him grateful!

After instinctively thank you.

Teng Yi came to Su Lang as if dreaming.

Su Lang put a hand on his forehead with a smile.

Not long.

He has become a real powerhouse in the early stage!

"His Majesty Su Lang, the great infinite emperor!"

"Teng Yi must be the forerunner for you, and he will be crushed, and he will never regret it!"

Teng Yi, full of excitement, disbelief and gratitude, bowed deeply to Su Lang.

Then he returned to his position like a dream, unable to calm his emotions for a long time.

### [Chapter 1980: Create five hundred new Jin Taichu](#)

Next.

It was the turn of the rest of the Heavenly Mian Continent, Quasi Taichu.

They are also the same as Teng Yi.

From the beginning to the end, he was excited almost all the way to the blank of his brain and stagnant thinking.

At the same time, I am also grateful to Su Lang, completely dedicated, and offer absolute loyalty!

Not long.

A total of five hundred powerful men from the beginning appeared in front of everyone!

"Five hundred, five hundred powerhouses of the primordial stage!!"

"Those who are strong in the early stage can also be cultivated in batches!!"

"This is the strong man standing at the tip of countless creatures on the Tianmen Continent, and there are so many at once!"

"The Tianmen Continent has risen, and under the leadership of His Majesty Su Lang, the great emperor, it has risen!"

"I will return to prosperity, regain the other three continents, and drive Yuanmingzhou Emperor out of the boundless universe!"

"..."

Although everyone knew that what Su Lang said was true, they couldn't help but tremble when they saw this miracle happen.

They felt it deeply.

From now on.

Earthshaking changes have really taken place in the Tianmen Continent!

This is a turning point in an endless river of time.

It is the beginning of a new era!

After the defeat of the Infinity War, billions of years have been filled with countless haze.

The gloom of Tianmen Continent was completely dispelled by Su Lang!

Everyone looked up at Su Lang floating in the air, as if looking at a brand new bright sun.

They knelt down one after another, and bowed deeply at Su Lang.

The entire Tianmen Continent, everyone up and down, completely surrendered to Su Lang at this moment.

Not only that!

"Tweet—!!!"

A crisp and sweet phoenix sound came.

Immediately after.

A holy and proud red figure flew from a distance and fell in front of Su Lang.

It is the Phoenix!

The phoenix, which has never been a phoenix tree without falling, also crawled on the ground under Su Lang's feet.

And the appearance of the phoenix.

And immediately Jiang Wenzheng and others fell into endless shock and joy!

"Phoenix!"

"Unexpectedly, the phoenix appeared!"

"Even a phoenix! A beast that only existed before the Battle of the Infinite Realm!"

"His Majesty Su Lang, who opened up a new era, worships even the Phoenix!"

"..."

Countless thoughts arose from the strong people from the beginning.

In their view, Phoenix is auspicious, representing the legitimacy of Su Lang's new leader of the boundless world!

"You are here too."

"I'm not afraid I will make you Orleans roast chicken!?"

Su Lang looked at Phoenix, raised his eyebrows, and asked with a smile.

"can!"

Phoenix looked up at Su Lang and nodded seriously.

"Uh."

"Forget it."

Su Lang's mouth twitched.

Xin said that this Phoenix was too arrogant before.

Now he is kneeling in front of him, and being able to die by himself unconditionally, I am afraid that this is really a bit difficult.

"Xie Wuyin Zhou Emperor for mercy!"

Phoenix seriously thanked Su Lang.

Such a scene.

I saw Jiang Wenzheng and the others stunned.

Dare to love this Phoenix's sin, Your Majesty Su Lang, is here to apologize?

Everyone imagined.

He probably understood that the arrogant Phoenix didn't like the young Su Lang, and then a contradiction arose.

At this time, seeing that Su Lang had created five hundred strong men from the beginning, he was immediately convinced.

Thought of this.

Everyone looked at Su Lang again.

Faced with the phoenix who has sinned against himself, he can let it go lightly. With such a broad mind, he is indeed the boundless Emperor Zhou!

At this time.

Su Lang looked away from Phoenix and looked around at everyone.

"Everyone."

"Today's 500 Taichu has already finished."

"However, I just raised your realm before."

"Now you don't have any mastery at all."

"Although you already have some time rules."

"But I still decided to instill in you a book about the rules of time that is too elementary."

Su Lang smiled faintly, "Now, just follow the previous order and receive the exercises one by one!"

This statement came out.

Although Chu Xiaobei, Yan Xingxing and other stars in the Star Sea are a little surprised, most of them are surprises.

And Jiang Wen is waiting for the primaries of the Heavenly Misty Continent, as well as the Phoenix, they are thunderous again!

what?

Instilling too basic exercises?

Can you instill too basic exercises?

And it seems to be instilled five hundred times! !

It's another unreasonable method!
