

## One Click 1981

### [Chapter 1981: This is too bad!](#)

Fortunately, the horror passed before.

At this time, Jiang Wenzheng and others are already somewhat immune.

Soon, everyone recovered from the shock and watched Yanxingxing first walk to Su Lang.

"A practice that is too elementary can be divided into two parts in general."

"The first part is the time rule, and the second part is the crystal wall cells in the body."

"Before, I promised to pass on your exercises from the beginning, but the time has not arrived, so I will pass on your exercises related to time rules first."

"In addition to the profound meaning of the time rule, this technique also records some details about the Primordial Beginning Realm. "

"For those of you who have just broken through, it is very useful."

Su Lang smiled and pressed his hand to Yan Xingxing's head, and immediately started the instillation, and instilled "Moment of Eternity" into him.

Suddenly.

Yan Hingxing felt that countless exercises were imprinted in his soul, completely integrated and indelible forever.

It contains some secrets of time rules.

And some other knowledge about the elementary level, which benefited him immensely.

"Stars kowtow to the patriarch for the gift!"

Yan Hingxing thanked Su Lang deeply and immediately returned to his position.

Immediately after.

Su Lang successively instilled the basic exercises to the rest of the early powers.

The new primordial powerhouses were shocked and excited to look at the endless exercises in their minds.

Those warriors on the Heavenly Continent are the most incredible!

Because they only found out after they got the exercises taught by Su Lang.

What Su Lang instilled in them was not any obscure content.

And let them directly understand and master a super elementary exercise method, and directly master the level of the founder.

This completely exceeded their imagination and cognition!

quickly.

The people who knew that Su Lang couldn't make sense no longer thought about it.

They bowed deeply to Su Lang and were grateful.

And Su Lang's gaze.

It fell on Jiang Wenzheng and others.

"Everyone."

"I also have a book about the "future" time exercises."

Su Lang smiled and said, "I can instill it in you until tomorrow."

This statement came out.

Jiang Wenzheng and others couldn't help being shocked again!

They never expected.

Su Lang had just been promoted to the Supreme Beginning Stage, and he had actually mastered the future time exercises.

This is too bad!

Immediately after.

Jiang Wenzheng and the others kowtowed to Su Lang with great gratitude: "Thank you, your Majesty Su Lang, the infinite emperor of the universe!"

"Get up all."

"Next, I will announce one more thing."

"I have a weapon called a super humanoid weapon."

Su Lang smiled slightly, "This weapon can combine your strengths into one, condensing a terrifying attack!"

Hear this.

Even Phoenix was extremely shocked.

It is important to know that those who are too junior and strong are unique.

The secret arts and weapons that can combine the power of the warriors in the early days are almost non-existent.

But now.

Su Lang actually has a weapon that can condense hundreds of powers from the beginning, which is too exaggerated.

however.

What Phoenix didn't expect was that he still underestimated Su Lang's defying nature!

"This weapon consists of 120,000 parts in total."

"Each part can be stationed in a powerful person in the early stage!"

"Moreover, in the future, parts can be added to this weapon to increase the upper limit of the number of troops stationed in Taichu!"

Su Lang looked around at the crowd and said indifferently, as if he was not talking about something remarkable.

Phoenix, Jiang Wenzheng and others heard this.

They were already shocked and numb, and they trembled like an electric shock again, in disbelief, staring at Su Lang intently!

A weapon composed of 120,000 parts!

A total of 120,000 powerful people from the Primordial Realm can be settled!

You can even add parts later to increase the number of warriors stationed! !

This weapon is simply the most terrifying weapon in the universe!

If there are really 120,000 primordial powerhouses stationed in super humanoid weapons at the same time, the power that can be gathered is absolutely unimaginable!

"At present, this weapon is still quasi-primary level."

"So I will not use the super humanoid weapon for the time being. I will wait until I increase its level."

The corner of Su Lang's mouth raised slightly, "However, this time will not be too long, just a few days!"

[Chapter 1982: Phoenix who surrendered](#)

"A few days..."

"In a few days, can the quasi-primary weapon be promoted to too junior?"

"Could it be that His Majesty Su Lang is actually an extremely junior crafting master with defying craftsmanship!?"

Phoenix looked at Su Lang in horror.

Soon it noticed that the primaries around him were not shocked, but pleasantly surprised.

I immediately understood that my speculation was true.

In addition to the heaven-defying methods used to bring up too low-level powerhouses, Su Lang also possesses heaven-defending refining skills!

at this time.

"just now."

"The Five Hundred Taichu Plan has completely ended."

"The next step is to wait for me to promote the super humanoid weapon to too junior."

"You guys should disperse first. It is time to consolidate the realm of cultivation, and it is time to try to break through."

Su Lang smiled slightly and waved everyone away.

"Yes!"

"His Majesty Su Lang, the stalwart Emperor Su Lang!"

Everyone saluted, and immediately all dispersed.

After Yanxingxing and others will consolidate their realm, they will continue to build incense statues.

At the same time, people will be sent to further guide the countless creatures of Tianmen Continent into the spiritual Internet world.

Jiang Wenzheng and other veteran players will return to his cave to try to break through.

The hundreds of newly promoted Taichu in the Heavenly Misty Continent were almost all the strong guards on the 100,000 Heavenly Misty constellation.

They want to return to the line of defense of the Celestial Star Group, while consolidating the realm of cultivation, while continuing to stick to their posts.

"So, how about you, Phoenix?"

Su Lang's gaze fell on Phoenix, "Where are you going next?"

"The Phoenix is willing to follow in the footsteps of His Majesty Su Lang, the emperor of the boundless universe."

"Strengthen step by step, conquer the land of the boundless world, defeat Emperor Yuanmingzhou, and save the boundless universe!"

Phoenix crawled on the ground, with a respectful and sincere voice, "Before the Phoenix has offended your Majesty, please discipline your Majesty, although you die!"

"I have already said about it."

"Although you are a bit arrogant, but for the sake of fighting for the boundless world, I won't punish you."

Su Lang smiled and shook his head, and immediately asked with interest, "By the way, I previously suspected that there was a problem with your brain, right?"

Hear this.

"This, in fact, was suppressed for too long..."

A trace of embarrassment suddenly appeared in Phoenix's eyes: "And just after Nirvana, my brain is really not good enough, now it's much better..."

"Uh!"

"It's actually true?"

"No wonder you are so arrogant as if you have only one tendon."

Su Lang's mouth twitched, and immediately smiled, "Since your head is not working well, I don't even bother to punish you."

"Yes!"

"Thank your majesty for forgiveness!"

Phoenix immediately bowed his head and thanked him.

"okay."

"The phoenix shouldn't fall to the ground, get up."

Su Lang smiled slightly and lifted the Phoenix from the ground.

Phoenix also breathed a sigh of relief in his heart, and was very happy.

Except when he was killed, he fell to the ground for the first time in billions of years.

Now I can finally get up!

"correct!"

Su Lang suddenly asked, "Are there any other people in your Phoenix clan besides you?"

Hear this.

"Of course."

"The Phoenix family is immortal."

"It's just that my people have all died in battle, and they are probably suppressed in the Tianting Continent."

"Or it may be swallowed by Emperor Yuanmingzhou and sealed forever, and the sun will disappear."

Phoenix's eyes were a little dim, but when he looked at Su Lang, a bright light burst out again.

In his view, a new leader of the boundless universe like Su Lang can definitely regain the Tianting Continent and rescue the beast clan!

"Do not worry."

"I will save them."

"There are also the Qilin family, the Shenlong family, the Xuanwu family, Gourmet, Qiongqi, Kunpeng, Golden Crow..."

"The previous Bi Ye Rin belonged to the Bi-blooded Qilin clan, you can also talk to her."

Su Lang saw Phoenix's hope and replied with a smile.

Simultaneously.

He also understood the heaven-defying nature of Phoenix-immortality!

Even if you die, you can continue to rebirth from Nirvana, which is really the darling of the universe.

"it is good!"

"Then, Your Majesty Su Lang, can I live in your life universe in the future?"

Phoenix said with great eagerness, "I may be able to reach the quasi-eternal state when I practice there."

[Chapter 1983: Receive phoenix, give treasure tree](#)

Although he can quickly return to the peak state.

But even when he recovered to the peak, he was only in the Qiyang Primordial Stage.

The phoenix knows the horror of Emperor Yuanmingzhou!

And Emperor Yuan Mingzhou was more than one person.

Under the command of this horrible existence, there are countless army of strong men.

The Buddhism in Tianmi Continent is just a betrayer that Emperor Yuanmingzhou has conquered in the boundless universe.

As an emperor of the universe.

As the ruler of another natural universe, the powerful people surrounded by Emperor Yuanmingzhou are simply countless!

Qiyang is too early.

It's really not that strong.

In the eyes of Phoenix.

Su Lang will eventually become the existence of Yuan Mingzhou Emperor's level.

And he, and other boundless powerhouses.

It must be strong and reach a higher realm, enough to deal with the powerful under Emperor Yuanmingzhou!

in this way.

Only then can Su Lang concentrate on dealing with Emperor Yuan Mingzhou.

The odds of winning in the final battle will be greater!

"Do you want to live in the universe of life?"

"You are talking about the universe of Nirvana before?"

Su Lang smiled slightly, "That is the Yinghua Universe, one of my ten life universes."

"what?"

"One of the ten life universes!?"

"His Majesty Su Lang, the emperor of the boundless universe, has ten universes of life?"

Phoenix was stunned by Su Lang's words. It was the first time that he heard of someone possessing ten life universes.

"Yes!"

"Except for the world transformed by the crystal wall cells."

"For life universes like the Dantian universe, I have ten, and the other nine are gold, wood, water, fire, earth, and scenery."

"The planets in these ten living universes are all core fragments of the Boundless World."

"Before your Nirvana, the luminous universe is the core fragment with the pure fire system avenue!"

The corner of Su Lang's mouth was Yang, Phoenix couldn't betray anyway, it didn't hurt to tell him these secrets.

"hiss!!"

"All are the core fragments of the Infinity Realm!"

Phoenix asked in shock, "I'm afraid that it's not the only remaining core fragments that are on your Majesty!?"

"Not bad."

"The descendants left behind by the last Emperor of Infinite Universe included Human Race and Fragments of Infinite Realm."

Su Lang smiled and nodded, "The remaining fragments of the Infinite Realm formed a small galaxy, which is the predecessor of my ten life universe."

"That's it!"

Phoenix nodded suddenly, "Then, I would like to enter your Majesty's Gloomy Universe to practice, and I hope your Majesty will allow it!"

"of course can!"

"But from now on you have to follow my command completely."

Su Lang nodded slightly, "With your arrogant temperament, can you accept it?"

"can!"

"Before Your Majesty, I am not qualified to be arrogant."

Phoenix nodded solemnly and seriously, "Your Majesty Su Lang told me to go east and I will go east, and if you let me go west, I will go west!"

"Hahaha!"

"That's it!"

Su Lang laughed and said immediately, "If you trust me so much, I will give you a gift too!"

This statement came out.

Phoenix suddenly showed surprise and looked forward to it.

"This gift is a peculiar treasure named Qibao Miaoshu!"

"Using this treasure, you can take away the weapons in the enemy's hands, and it is difficult for the enemy to resist."

Su Lang smiled lightly. The reason why he planned to use the Seven Treasure Tree for Phoenix was because he couldn't control too many weapons.

The Qibao Miaoshu is an auxiliary weapon.

It is a good choice to make the Phoenix hold it and support it during the battle.

Immediately after.

Su Lang took out the Seven Treasure Tree.

Suddenly.

A brightly colored, exquisite and translucent colorful tree appeared in front of Phoenix, full of weird and powerful aura.

"Seven Treasure Tree!"

"I seem to have heard of magical powers similar to this treasure."

"But it has been lost for a long time before the Battle of the Infinite Realm."

Phoenix's eyes lit up, staring at Qibao Miaoshu, obviously very satisfied.

As a phoenix, he is full of face control.

The beauty of this treasure of Qibao Miaoshu has reached its peak, and it is his favorite!

[Chapter 1984: Secret, the core origin of the universe](#)

"you have heard!?"

"Well, I have also heard that it is a guy named Kong Xuan who possesses similar supernatural powers."

"However, his supernatural powers are only colorful divine light, not comparable to this Seven Treasure Tree."

"Although this Seven Treasure Tree is not of high level right now, it will soon become one of the strongest treasures in the universe!"

Su Lang clicked the corner of his mouth. He has weapon evolution and enhancement functions, and he is afraid that the Qibao Miaoshu will not be awesome?

"Kong Xuan?"

"I haven't heard of this. It may be the existence that fell before the Great War of the Boundary Realm."

Phoenix thought about it, but did not find information about Kong Xuan in his memory.

"Ok."

"should be."

"Now this Seven Treasure Tree is growing in my Void Dragon Vein."

"When fighting, I will use it for you. You must hide it in your tail feathers to avoid damage."

Su Lang smiled slightly, and immediately gathered the Seven Treasure Tree into the Void Dragon Vein.

"Yes, Your Majesty!"

Phoenix immediately agreed to Su Lang's request.

Next.

"A few more questions for you."

Su Lang groaned and asked, "It is said that Emperor Yuanmingzhou has been living in the simple for billions of years, and has barely moved. Do you know what he is doing?"

"This....."

"The battle between Emperor Yuanmingzhou and the previous Emperor Infinity, naturally will not go unscathed."

Phoenix replied, "He is probably healing his injuries these years, but he will not let go of his original purpose."

"Healing?"

"Yes, he can't be unscathed..."

Su Lang nodded slightly and asked, "Then, what is the purpose of Emperor Yuanmingzhou's invasion of the boundless universe?"

"It's for the origin of the universe and the more cherished core origin of the universe!"

"Emperor Yuan Ming Zhou has reached the state of eternity, but he wants to completely transcend the universe."

Phoenix took a deep breath and replied, "Therefore, he intends to use the primitive energy that formed the universe, which is also the top energy in the universe, the core origin of the universe!"

This statement came out.

Su Lang immediately raised his eyebrows!

Origin of the universe!

He has this thing!

The last time he killed Zhong Biezu and others, he obtained nearly ten cosmic origins!

After upgrading the system, only three were used, and more than six were left.

Unexpectedly, this kind of energy could even be seen by Emperor Yuan Mingzhou, and even regarded it as a target for invasion and plunder!

"Tsk tut!"

"The origin of this universe is very rare in the universe, right!"

"My system function can convert low-level energy into the origin of the universe!"

"In the future, it may be possible to transform the origin of the universe into the mysterious and powerful core origin of the universe!"

"This is simply a heaven-defying method of turning waste into treasure."

"Sure enough, it is a system, even the most inconspicuous function is so defying!"

Su Lang thought in his heart, eyes flashing with excitement.

Immediately after.

"Where is the core origin of the universe?"

Su Lang looked at Phoenix and asked again: "What effect does it have?"

"I don't know much about this."

"Probably at the core of Infinity Realm."

"The core fragment of the boundless universe may be the core origin."

Phoenix replied, "The specific effect is even less clear, but it must be very powerful. After all, it is a treasure to the Eternal Realm!"

"That's it."

Su Lang nodded slightly, then asked, "You participated in that battle personally, what do you think of Emperor Yuanmingzhou?"

"Emperor Yuanmingzhou is a real eternal realm powerhouse, extremely powerful!"

"At the beginning I cultivated to the Qiyuan Primordial Realm, but I didn't even have the qualifications to meet him."

"It has a large number of powerful people under his command, including many powerful people in the quasi-eternal realm, and a large number of primordial realms.

"After the war, some of these powerhouses were brought into their life universe by Emperor Yuanmingzhou, and some returned to the original Yuanming universe."

"Once the war starts, those strong ones will probably appear immediately."

"If it weren't for your Majesty Su Lang's appearance, we would have no hope of defeating Emperor Yuan Mingzhou!"

While talking, Phoenix looked at Su Lang, his eyes full of joy.

[Chapter 1985: Siyan Supreme Beginning Realm Boundless Number!](#)

"Sure enough!"

"However, just give me some time to grow, and I will kill him, Emperor Mingzhou!"

The corner of Su Lang's mouth outlines a sneer and killing intent!

"Your Majesty has this potential!"

Phoenix nodded and said, "But you still need to practice carefully, and you can't collapse in the middle."

"I know!"

Su Lang nodded slightly, smiled and waved, "Well, you can go to my Yinghui universe now."

"Yes, Your Majesty!"

The phoenix took command.

Immediately after.

Su Lang opened his own magical universe and let Phoenix live in.

after.

Phoenix is one of his thugs.

He must be able to recover better in the magical universe, even surpass his previous glory and reach a higher state.

Received the Phoenix.

Su Lang's gaze fell on the super humanoid weapon.

When I was in Meteorite Great Thousand Territory before.

Su Lang has evolved super humanoid weapons several times.

at this time.

More than 40,000 parts have evolved on the body of Infinity.

Most of them are one-pass grades, and the higher the grade, the fewer the number of parts.

There are only seventeen parts of Qidu with the highest grade.

Its power is equivalent to the quasi-primary weapon of the 'fourteen', and it has initially possessed the power of a primordial weapon.

at this time.

Su Lang intends to evolve it into a real too junior weapon! !

Although the Youtian Sword and other weapons have been evolved before, they have also refined too low-level weapons for Yanxingxing and others.

But the materials harvested by killing Zhong Biezhu and others are still a lot!

There are even a lot of too primary materials that are not used!

Su Lang predicted that it should be no problem to evolve all the parts to the Jiudu level.

And after evolution.

The remaining miscellaneous materials can also be used for strengthening!

Anyway, the enhancement function is not picky at all.

Even if it is garbage, as long as there is enough, it can be enhanced once!

quickly.

Su Lang sorted out the materials in the storage space.

Put the materials needed for evolution into different categories.

Immediately after.

"system!"

"Using designated materials...evolving infinite number parts!"

Su Lang locked the pre-arranged pieces of materials with his spiritual thoughts and gave instructions to the system!

"Ding! Consuming Emperor Grade material Tianli Blood Taoyu\*152524... Godless Grade material Chiyun Meteorite Sacred Stone\*452... Successful evolution!"

With the system prompt, a large amount of materials disappeared out of thin air.

And the boundless number.

Those 80,000 parts that had never evolved before suddenly all evolved into a godless soldier!

The overall strength of the Infinite has reached the sixteenth-level quasi-primary power!

"Continue to evolve!"

"System, use specified materials..."

Su Lang kept giving orders, and countless materials quickly disappeared.

And the parts of Boundless have been continuously evolving!

finally.

All parts have reached the level of Jiudu Godless Soldier!

Infinite has become a super weapon composed of 120,000 Nine Crossing Godless Soldiers as parts!

Just a Nine Crossing Godless Soldier is very powerful.

A full 120,000 godless soldiers complement each other.

Immediately pushed the conventional power of Infinity to the junior level of Sanyantai!

But this is not over yet!

"system!"

"Start one-key enhanced function!"

"Consume designated materials to strengthen the Infinite Number!"

Su Lang locked some useless materials in the storage space and issued instructions again.

"Ding! Consume...The Infinite Number has been strengthened successfully!"

"Ding! Consume..."

"..."

Three consecutive strengthening reminders sounded!

Infinite number of parts generally reach the level of strengthening three times!

This allowed the power of the Boundless to rise again, and the conventional power reached the Siyan Taichu level!

This.

It's just the power of Infinity.

The fundamental purpose of Su Lang's creation of Boundless is to gather the power of the strong.

Waiting for a large number of powerhouses of the Primordial Realm to settle in the Infinity, it will surely be able to make it play an extremely terrifying power!

Even if it is the number of powerhouses in the Primordial Beginning Realm currently under Su Lang.

If all of them are stationed in the Infinite, it is estimated that they can also exert the power of the Qiyuan Primordial Realm!

And Su Lang is the owner of the most infinite number.

With it, you will be able to exert the power of time rules far beyond your own realm!

#### [Chapter 1986: A group of uninvited guests](#)

For example, the methods in "Future Good Fortune Mystery".

Although Su Lang has mastered it, his strength is not enough to use.

However, with the help of the boundless number that can exert the power of the Qi Yan Primordial Realm, you can use the powerful methods in the exercises.

"Humph!"

"If you had the current Infinity in the battle with Zhong Biezhong and others."

"Many of my subordinates have settled in them, and one finger can press the dead bell, don't forget the early strong ones!"

The corner of Su Lang's mouth twitched, revealing a satisfied smile.

Immediately after.

And at this moment.

He suddenly received a message from Yanxingxing via the spiritual internet.

As the master of the spiritual internet.

Su Lang is the "God" who controls the overall situation, able to overlook and hear any movement in the spiritual Internet world.

Wherever Yanxingxing and others are.

As long as you log into the Spiritual Internet, you can contact Su Lang.

The news from Yanxingxing made Su Lang very interested.

—Outside the 100,000 Heavenly Misty Stars, a group of strong people actually appeared!

It contains more than twenty Taichu!

However, the identity of this group of powerhouses is very strange, claiming to be the ancient witches who broke away from the boundless world many billions of years ago!

And their purpose of coming is actually to enter the Continent of Heaven!

"Witch!?"

"Perhaps it is the Wu Clan in the Primordial Era!"

"I mentioned Kong Xuan in front of Phoenix before."

"Although he has no impression, he has heard of magical powers similar to the Seven Treasure Tree."

"In this way, it can be speculated that the prehistoric era in the ancient Chinese mythology is a very long period before the Great War of the Boundless World."

"In the ancient times, the new born Phoenix had never heard of the things and legends of the ancient times."

"The Human Race can learn about the Primordial Land completely because the past dynasties have lived on the core fragments of the boundless world without any barriers."

"As the core of the Boundless Realm, the Blue Star bears the mark of the Primordial Era and records countless fragments of the era, including the Primordial Era!"

"..."

Su Lang pondered silently, and with a thought, he arrived in the 100,000 Heavenly Misty Stars through the transportation network.

Yes.

The Tianmen Star Group has been merged into the Internet by Su Lang.

As the first line of defense, the One Hundred Thousand Heavens Misty Star Group is also included in the scope of the spiritual Internet and the transportation network.

The warriors inside can log on to the Spiritual Internet and meet relatives far away in the Heavenly Continent.

They can also use the transmission Internet to obtain extremely terrifying mobility and support in battle at any time!

At this moment.

Twenty-seven powerful men from the beginning!

And thousands of quasi-primordial powerhouses are suspended outside the 100,000-celestial celestial array.

"You wait to quickly open the big formation, let us in!"

"We are the Wu Clan from the ancient times of Boundless Realm. I left Boundless Realm after the catastrophe, independent of one side!"

"Now that the Infinite Realm is in trouble, it has turned into four continents. We should take over and guard the last line of defense of the Tianmen Continent."

"Don't let go, do you really want to try our witchcraft!?"

"Do you have to beat you down to get convinced?"

"..."

One by one, the powerful Wu Clan stared at the Heavenly Continent Martial Artists in the big formation with expressions of gaze, and they kept humming in their mouths.

In the big array.

Jiang Wenzheng and others have arrived at the first time.

The five hundred newly promoted Taichu also gathered together, staring at the Wu Clan outside.

"Listen to the Wu Clan outside!"

"Recently we just killed dozens of too junior traitors!"

"If you are also sent by Tianmi Continent to play tricks, I advise you to leave as soon as possible!"

"What kind of Wu Clan, it is ridiculous that it will enter the Heavenly Miao Continent as soon as it comes!"

"..."

In the formation, Jiang Wenzheng and the others didn't mean to open the formation at all.

And after hearing the words of those witches, they sneered again and again.

They have maintained the Tianmen Continent for billions of years, and these witches have never appeared before. At this time, they want to run to be the masters, which is a laugh!

"Humph!"

"Even our Wu clan don't know!"

"You people are really ignorant!"

"Forget it, since you don't listen to what you say well, then we let you see our strength!"

"..."

The witches had a violent personality at the beginning, and after being refused to taunt, they immediately started to do it.

### [Chapter 1987: The Unexpected Witch](#)

They were cut off by the big formation, and I don't know how many early powers there are.

But according to intelligence, there are only a few dozen, and they are not afraid at all!

And at this moment.

"Hold on!!"

A faint voice spread all around.

Immediately after.

Those witches found that Jiang Wenzheng and others pushed aside to both sides, forming a wide passage.

even.

Jiang Wenzheng waited for everyone to kneel down respectfully!

"Ok!?"

"Here is the one who can decide!?"

Seeing this scene, the witches suddenly changed their expressions and looked into the big formation.

Soon they looked at each other in astonishment!

Because they discovered that the person who came was actually a very young man.

No matter how you look at it, you can't see the breath of years in the man.

"This... is this their leader?"

"It's so young, fake it!"

"According to my guess, he has hardly experienced the baptism of a long river of time!"

"This son is so young that he is actually praised as a leader by the Tianmen Continent. Is there no one in the Tianmen Continent?"

"Hmph, the Heavenly Misty Continent is so weak, we should rule it!"

"..."

Seeing that Su Lang was so young, the witches suddenly felt contemptuous and sneered.

at the same time.

Su Lang looked at the more than 20 primordial witches and thousands of quasi primordial witches in front of him, and he was suddenly stunned.

Because these witches are different from the image of witches in his imagination.

In imagination.

The Wu Clan is a very large figure, with a strong physical body, and most of its faces are firm and rough.

And the witches should be more fond of playing with small animals, such as playing with snakes, just wear snakes on their ears...

but.

The group of witches in front of them is very different from the imagination!

But I saw them wearing large cloaks and long robes, mostly black, with very mysterious patterns on the robes.

Under the cloak, the light of wisdom flashed in his eyes.

The most conspicuous are the \*\*\*\* and sticks in their hands.

It is very powerful, comparable to a very basic weapon!

Moreover, through the weapon recognition, Su Lang discovered that there was another powerful and mysterious power on the stick, and he felt like he was able to use a small force to defeat a strong force.

The \*\*\*\* in the hands of the Wu Clan at the beginning are even more huge planets!

They use the planet as their weapon!

The only thing that is closer to imagination is that the bodies of this group of witches are very powerful, even comparable to too basic weapons!

"How could this group of witches be like this?"

"Isn't everyone playing snakes, wands and planets?"

"Could it be that after they withdrew from the stage during the Lich Catastrophe of the Primordial Era, they left their homes, walked far away, and embarked on other roads?"

Su Lang was very surprised, and immediately called out the attribute panel of the witches.

However, the leader is named Ying Wa, a Qiyuan Primordial Realm!

And based on various details, Su Lang speculated that Yingwa's strength was also very strong among Qi Yan.

Except besides.

The remaining twenty-six primordial primaries are basically about three generations and four generations, and two of them are from the first stage.

"Qiyuan is too early."

"And it looks more powerful than the same level."

"No wonder you have the guts to enter the Heavenly Misty Continent."

"Before the Phoenix recovers, I can only use super humanoid weapons to fight against them."

"However, their purpose is to lead the Heavenly Misty Continent to resist Yuan Mingzhou Emperor. They can be regarded as a group of people."

"As a last resort, I still won't fight them."

"Well, just show them their muscles."

Su Lang thought so, and took out the super humanoid weapon with his hand!

Rumble!

A huge super humanoid weapon appeared in front of everyone, like an extremely vast mecha!

"day!"

"What is this? It has the aura of the Siyan Primordial Stage!"

"This is a super humanoid weapon, the super humanoid weapon that His Majesty Su Lang said!"

"His Majesty Su Lang said just now that the super humanoid weapon is only the quasi-primary level. At this time, it has become the Siyan level. It's really against the sky!"

"This super humanoid weapon can condense our strength, so that we can work together to deal with the enemy!"

"..."

After Jiang Wenzheng saw the brand-new super humanoid weapon, everyone was extremely surprised, and immediately ecstatic!

Simultaneously.

The powerful Wu clan outside saw the super humanoid weapons, and they were shocked and unbelievable.

#### [Chapter 1988: 120,000 people stationed in humanoid weapons](#)

"This this this!"

"I didn't expect to see a refining concept similar to ours in the Tianmen Continent!"

"Not only that, for the existence of refining this unique weapon, its refining attainments are definitely deeper than ours!"

"From the surface of this weapon, I can't see any flaws at all, it's just perfect!"

"..."

Ying Wa and other early powerhouses of the Wu Clan all opened their eyes wide, looking at the super humanoid weapon in shock.

The witch alchemy developed by them kept flashing in their minds.

It is also refining various parts, and finally put them together to form a powerful weapon.

but.

Among the materials used in their witch family alchemy.

There are not only the cold heaven and earth treasures, but also various powerful flesh and blood bodies!

Among them, the body of the strong is one of their favorite alchemy materials.

Such as the fragments of the soul of the Great Emperor, such as the soul of the Supreme Emperor, such as the fragments of the body of the beginning!

And among the witches.

The reverence for knowledge is absolute!

The existence of powerful alchemy can be worshipped by countless witches, and even more advanced powerhouses!

Because their witches are naturally good at the body, but they don't have the soul, only the soul origin.

This makes it extremely difficult for them to understand and master all kinds of mysterious knowledge!

Scholars with countless knowledge are the most respected existence.

Among these witches with countless knowledge, the witches with knowledge of alchemy are more popular.

Because they can help others refine weapons, witch formations, and potions, and most directly enhance others' strength.

The rest of the knowledge, such as a certain secret technique, even if taught by words and deeds, is very difficult for the Wu clan to master.

In addition.

Relative to the profound meaning of the mysterious and mysterious.

Alchemy appears to be more traceable and faster to learn, which completely establishes the position of alchemy in the witch race.

at this time.

The early powers such as Ying Wa saw super humanoid weapons similar to the alchemy concept of the Witch.

It is almost equivalent to seeing a great being with super alchemy.

Even if this person is not a member of the Witch Clan, it still makes them respectful.

And at this moment.

One hundred thousand days of the phantom star cluster.

"Everyone, enter the super humanoid weapon according to the serial number!"

Su Lang looked around at all his subordinates, gave orders loudly, took out a large number of serial number tokens, and fell into the hands of Yanxingxing, Jiang Wenzheng and others while waving his hands.

In addition to more than five hundred too junior strong.

One hundred thousand quasi-primary, the supreme emperor strong also got the token!

"Yes! Your Majesty Su Lang, the emperor of the boundless universe!!"

Yan Hengxing and the others were so excited that they took the token and bowed to Su Lang on one knee!

Those quasi-taichu and supreme emperors were most excited.

They never thought that they could get the favor of Su Lang and be qualified to be stationed in super humanoid weapons!

When everyone kneeled.

Bright beams of light were projected onto the warriors from the super humanoid weapon.

For an instant.

One hundred thousand warriors were transferred to the parts of the super humanoid weapon!

Not only that.

Su Lang also released all his clones, avatars, and twin avatars.

Using Baiying's clone again, it turned into more than nine thousand super-primary clones with second generation combat power!

Soon.

These clones have also entered parts of super humanoid weapons!

One hundred thousand quasi Taichu, Supreme Emperor plus more than nine thousand clones, and Yanxingxing Jiang Wenzheng and more than five hundred Taichu.

The number of warriors stationed in super humanoid weapons suddenly reached 119,999!

Only one person!

Immediately after.

The super humanoid weapon's head and eyebrow projected the largest and brightest beam of light, leading Su Lang to the core parts!

So far.

The 120,000 parts of super humanoid weapons have all settled in powerful warriors!

Inside a huge super humanoid weapon.

Su Lang floats in the space of the core parts, perfectly controlling the control of the super humanoid weapon!

He seems to have an indomitable and junior mecha!

At this time, the super humanoid weapon, with the joint blessing of a full 120,000 powerful people, is already infinitely close to the combat power of the Bayan Prime Beginning Realm!

## Chapter 1989: Close to the combat power of the Bayan Prime Beginning Stage

"Humph!"

"Previously, it was speculated that the Five Hundred Great Beginnings were stationed in super humanoid weapons, and that they could enter the Seventh Generation Realm. It was true!

"Now that there are more than 110,000 more martial artists, and my more than 9,000 clones, they are about to enter the Bayan Taichu level!"

"With such a powerful force, if these witches go one by one, no one is my opponent."

"Of course, if they attacked in groups, it would be a little troublesome!"

"But I don't want to fight them either. I just want to shock them. The current strength should be enough!"

Su Lang faintly looked at Ying Wa and others outside the big formation, and various thoughts flashed in his mind.

at the same time.

Outside the big array.

The powerful Witch clan powerhouses who were terrified by the super humanoid weapons were even more shocked.

They couldn't even think of breaking their heads, that powerful humanoid weapon could actually be stationed in warriors, bringing together the power of powerful warriors!

This kind of function is simply against the sky!

At this time, even if there is a big blockade, it hides the breath.

They all felt the deadly threat from the super humanoid weapon!

Just then!

A crack appeared in the vast array of 100,000 heavenly ethereal stars that lay across the void.

Rumble--! !

An incomparably terrifying and vast aura descended on the witches through the cracks.

In an instant.

The faces of all the witches changed wildly!

"This is... the aura close to the beginning of Bayan!!!"

"Their weapon condenses many powerful players, and they actually possess a power that is extremely close to that of Bayan Tai!"

"With such a terrifying power, none of us is an opponent!"

"If it is a siege, we may be difficult to defeat even if we pay a heavy price!"

"Unexpectedly, the real situation in Tianmen Continent is completely different from the intelligence we got!"

"According to the intelligence of that group of cultivators, the strongest person in the Tianmen Continent should be only Liu Yan!"

"Yeah, and they also said that it was the latest information. Now it seems that they were wrong!"

"..."

The witch clan's primordial powers were horrified and talked, and there was a strong fear in their hearts for Su Lang's super humanoid weapons!

"Dear friends of the witch race."

"Now, do you still want to enter the Heavenly Misty Continent and become the leader of everyone?"

Su Lang controlled the super humanoid weapon to emit vibrating void energy fluctuations, forming a deafening sound.

"Are you the ruler of the Tianmen Continent now?"

"With this magical humanoid combination weapon, you are indeed very strong!"

Ying Wa took a deep breath and said solemnly, "But you have to know that we are facing Emperor Yuanmingzhou, if I control this weapon..."

"Don't even think about it!"

"Why should I give you my weapon? You have such a big face!"

"In addition, in the billions of years after the Battle of the Boundless Realm, you hide your head and show your tail, have you ever resisted the forces of Emperor Yuanmingzhou?"

Su Lang interrupted Ying Wa directly and sneered, "Now, as soon as he appears, he will live to rule the Continent, don't you think you are ridiculous!"

This statement came out.

The witches suddenly sneered.

"We all the powerful Wu clan participated in the Battle of the Boundless Realm, and as a result all those who participated in the war died."

"Our Witch civilization has gone backwards for five billion years, and only now has it recovered some vitality."

"And as soon as we had some combat power, we ventured out to resist Emperor Yuanmingzhou!"

"You said, is our Wu Clan that kind of despicable and shameless person?"

"Now I am the strongest person. Put aside my attachment to power and let me lead you. There is only one purpose, and that is to resist Yuan Mingzhou Emperor!"

Ying Wa looked at Su Lang coldly, his face solemn, and a trace of death in his eyes.

"Ha ha!"

"Yingwa, you are indeed better."

"However, Qi Yan Taichu will soon appear in our Tianmen Continent!"

"And I can tell you clearly, there is more than one Qiyang strong!"

"In addition, let me tell you that my current strength is less than Siyan, but I am revered as the boundless emperor of this term!"

Su Lang smiled faintly, "Yingwa, do you want to know why everyone trusts me?"

Hear this.

The witch clan powerhouses suddenly appeared astonished.

[Chapter 1990: Come in if you want to know](#)

"what!?"

"He said he has less than the strength of Siyan Taichu!"

"With such a strength, even I can't defeat it. How can I command everyone and become the great Majesty Emperor Zhou?"

"Yes, Emperor Infinite Universe, is the title of the ruler of the entire Infinite Universe. How can he be qualified for this in the beginning of the Four Emperors?"

"But he has already been respected by those early powers as His Majesty the Boundless Emperor Zhou, why is that!"

"..."

The strong men of the Witch clan looked at each other and talked a lot, their faces and words were incredible.

"You only have less than the elementary combat power of Siyan?"

Ying Wa looked at the super humanoid weapon in a daze, "You, how on earth are you revered as the Emperor of Infinite Universe?"

"Hahaha!"

"If you want to know, you can enter the formation to see."

Su Lang clicked the corner of his mouth, "You can use your clone, and the rest can come in and take a look!"

This statement came out.

Ying Wa and the others suddenly changed their expressions, and a deep curiosity arose in their hearts.

They also wanted to see what happened in Tianmen Continent.

Why is the situation here very different from what was expected!

They were not afraid of being entrapped by Su Lang.

After all, just put a clone in.

At their level, the low-level clones can be condensed easily!

"it is good!"

"Then we will gather the clone to go in and take a look!"

"Don't you let us in and just look at the scenery and it's over!"

"..."

Ying Wa and the others looked at each other, exchanged their eyes, Xuan even condensed one by one clone.

quickly.

All the powerful witches gathered a clone, and a large group of people flew into the formation.

When passing through the gap between the formation barriers.

Tai Chu, who is proficient in alchemy and the side of the witch formation among the powerful witches, immediately saw the extraordinariness of this huge array!

Although the overall defensive power of this formation is only Sanyan Taichu Stage.

But the defensive range is extremely vast, and a sphere has formed to envelop the entire Celestial Continent!

It must be known that the Tianmen Continent is a quarter of the boundless world!

I don't know how vast the area is!

The formation that can envelop the entire Heavenly Misty Continent, just this scale makes all the powerful Wu clan \*\*\*\* cold.

If they were to refine the formation and devote the power of the whole clan, it would take countless time and would not be able to complete one ten thousandth of this formation.

"This formation is called the One Hundred Thousand Heavens Misty Star Group Great Formation."

"A total of 392 million array units are composed."

"The formation is basically arranged by the strong people under my command."

"I just improved the formation unit later, so that the power of each formation unit increased ten thousand times."

"In the past, this formation seemed to have only the defensive power of the First Elemental Stage."

Seeing that many people in the Wu clan were observing the formation, Su Lang smiled and introduced it.

And this statement came out.

The witches suddenly looked unbelievable at first.

They all know that Su Lang is very, very young.

And these formations can only be mastered through years of research.

It is almost impossible for young people to master high-level formations.

Even if you are talented, it is impossible to be as powerful as such a terrifying level!

But at this moment.

Voices came from the super humanoid weapon.

"Looking at your disbelief, we need to correct your mistakes!"

"These formation units are indeed improved by His Majesty Su Lang, the great infinite emperor."

"His Majesty Su Lang's formation skills are many times beyond what we don't know, and he has even reached the level of horror that can form an array!"

"You hidden in the depths of the universe, ignorant Wu Clan have not seen it before, it is hard to believe how His Majesty Su Lang arranged the formation!"

"..."

Jiang Wenzheng and the others uttered one after another, so that Yingwa and the others were stunned!

"what?"

"A thought is formed? This is impossible!"

"Absolutely impossible! You are lying with that Su Lang!"

"..."

Ying Wa and the others were surprised, and immediately shook their heads again, completely distrusting what Jiang Wenzheng and others were saying.

"I don't seem to show it personally."

"You really don't want to believe me."

Su Lang smiled faintly, and the formations appeared out of thin air while waving his hands, trapping the avatars of Ying Wa and others.
