[Chapter 1991: The brains of these people are really stubborn](#)

For an instant.

Ying Wa and others were dumbfounded, dumbfounded!

They clearly know that there is no formation near them!

At this time, a separate formation appeared out of thin air, separating everyone's clones alone!

This is incredible!

"A thought is formed! It turned out to be true!"

"Could it be that Su Lang really has such a terrifying formation skills!?"

"No, it shouldn't be that Su Lang. It may be that the other powerful array wizards have arranged the formation, but they have pushed the function to Su Lang's head!"

"Yes, he is so young, how can he have such a heavenly formation?"

"..."

After Ying Wa and others were horrified, they did believe in the existence of a highly accomplished array mage.

But they didn't believe it was Su Lang who was the Array Master.

"Lying down!"

"The brains of these people are really stubborn!"

Seeing this scene, Su Lang suddenly shook his head helplessly, and then flew out of the super humanoid weapon.

The group of Wu Clan is a force against Yuan Mingzhou Emperor.

He intends to convince him and earn his subordinates!

"Your Majesty Su Lang!"

"Your Majesty Emperor Zhou!"

"..."

When Jiang Wenzheng and the others saw Su Lang leaving the super humanoid weapon, they suddenly exclaimed eagerly.

"Stay in the formation!"

Su Lang smiled faintly, and his eyes fell on the avatars of Ying Wa and others.

at this time.

Talents such as Ying Wa had the opportunity to observe Su Lang carefully.

"So young!"

"Yes, I just calculated his bone age, it's incredibly short!"

"Me too. I measured it to be twenty years old. This is definitely impossible. Maybe his face has been disguised!"

"Well, he seems to have only the second-yan's realm fluctuation, but his aura is very strong, far surpassing the same level, reaching the point where the third-yan is close to the four-yan!"

"Hey, able to have the power to cross a small realm in the primordial realm, this Su Lang is definitely a goddess with terrifying qualifications!"

"..."

At the beginning, the witch races looked at each other one after another, exchanging their own opinions, and their gazes at Su Lang were full of surprise.

Just then.

"Do you not believe in my formation skills?"

Su Lang smiled faintly, and several strange formations appeared in front of everyone in the wave of hands!

And these formations came out.

At the beginning, the witches all trembled, and their eyes burst!

Because the formation that appeared in front of them was absolutely the elementary witch formation of their witch clan!

"This is the Twelve Heaven-shaking Witch Formation that we have researched through all the hard work!"

"Oh my God, this witch formation is our unspoken secret. Since researching it out, it has never been spread out. Only a few people know it. How could it appear here!"

"The key point is that it appeared out of thin air, without going through a long process of formation!"

"Could it be that these formations were all arranged by Su Lang's thoughts!?"

"Huh? How could he have our formation, and then arrange it in one thought, fake it!"

"Fake, this must be illusion!"

"..."

At first, the witch races couldn't believe it at all, so they stepped forward to try.

however.

They were immediately stunned by the power of the formation.

Because the formation is indeed real, not an illusion, and it is indeed a witch formation they are extremely familiar with!

Suddenly.

All of them are like ducks with their necks pinched, their mouths are wide open, but they can't make any sound!

They couldn't think of it anyway.

These witch formations were placed on the planetary weapons in their hands, and Su Lang immediately grasped it!

"It's true, it's true that the twelve skyshaking witch formations have been repaired and destroyed!"

"Oh my God, how did it appear? Su Lang really arranged it?"

"..."

The crowd gradually recovered from the shock and talked in disbelief.

at this time.

"This formation is indeed arranged by me."

"And I also found a flaw in the formation, right here."

Su Lang carried one hand on his back, a slight smile was outlined at the corner of his mouth, and pointed out a flaw in the formation.

At first glance, the witch races found out that Su Lang was right.

That is indeed a flaw in the formation.

Once attacked to this weakness, the formation will immediately fall apart!

[Chapter 1992: The witches were embarrassed in the beginning](#)

"hiss!!"

"This, this, you really arranged it!?"

"You, did you take a look at the formation on our planet and you learned it!?"

"This, what a terrifying array talent!?"

"..."

The witches took a cold breath at the beginning and looked at Su Lang like ordinary people.

"Forgot to tell you."

"That super humanoid weapon was also made by me."

Su Lang looked at the terrified Wu Clan Taichu, and smiled faintly.

"what?"

"Not only do you have a powerful refining attainment, but also refining attainment is so terrifying?"

"This is impossible. Our alchemists will either refine witchcraft, witch formation, or witch medicine. It is impossible to have the attainments of the Primordial Realm in both directions!"

"..."

Ying Wa and others shook their heads like rattles.

For Su Lang's Dao Qi Dao's attainments are equally powerful, they all can't believe it!

But at this moment.

"You are wrong."

"Not only do I have attainments in the Primordial Realm on the Array Dao, but also on the Alchemy Dao!"

The corner of Su Lang's mouth twitched, and he smiled, "You should always know the alchemy, one of the three ways outside the cultivation way!"

"This this this?"

"He said that he also has the attainments of the Primordial Beginning Realm with the medicine?"

"This is impossible, absolutely impossible!"

"Unless you see it with your own eyes, you will kill you or believe it!"

"..."

Ying Wa and others all shook their heads, expressing their firm disbelief!

"Ok."

"It is necessary for you to see and see with your own eyes!"

Su Lang smiled slightly, and then took out a Godless Soldier to resist the sky wall.

Immediately after.

He stretched out his hand and waved.

A large number of colorful burning heaven and wonderful flames suddenly condensed into a transparent pot.

Just this colorful burning sky and wonderful flames made Yingwa and others' eyes brighten!

then.

In full view!

The Heavenly Wall and a large amount of refining materials were thrown into the cauldron by Su Lang.

This time Su Lang did not use system functions to help.

After all, it's just raising the level of a Godless Soldier.

With the strength of his current Second Yan Primal Beginning Realm, coupled with his powerful refining skills, he can easily complete it!

In a blink of an eye.

A few minutes passed.

In the early horrified eyes of Yingwa and other Wu Clan.

Su Lang evacuated the colorful Burning Heaven Miaoyan, revealing the Heaven Repelling Wall that was promoted to Erdu Godless Soldier!

"hiss!!"

"Unexpectedly, I was promoted to a godless soldier in less than a quarter of an hour!"

"I clearly saw all the details in the cauldron. This level of refinement skills is far beyond what I don't know!"

"This Su Lang, he really has this powerful refining skill!"

"..."

Seeing that Su Lang was promoted to a godless soldier in a short while, a stormy sea raged in the hearts of Ying Wa and others.

But then.

They discovered that Su Lang had condensed the wonderful strange fire into a transparent furnace!

"This, is it to refine pill?"

"Our Wu Clan's potion is this way. Although the form is different, the essence is the same!"

"..."

Ying Wa and other Wu Clan stared at each other in shock at first.

Next.

Su Lang really began to refine the pill!

It also took a very short time to refine a perfect quality too primary pill!

This is more shocking than raising the level of Godless Soldiers in a moment!

After all, this is too basic a perfect quality medicine!

"Oh my God!"

"This Su Lang...Master Su Lang really has incredible accomplishments on the Dao Dao Dan Dao at the same time!"

"This must be one of the important reasons why the powerhouses of the Heavenly Continent regard him as the Emperor of the Infinite Universe!"

"..."

Ying Wa and others had seen Su Lang's three attainments, and they couldn't calm down for a long time.

They adore knowledge so much that they are even a little embarrassed.

And at this moment.

With a thought, Su Lang conveyed orders to Yan Hingxing and Jiang Wenzheng.

Suddenly.

All of the primordial powerhouses of the Heavenly Misty Continent under his command flew out of the super humanoid weapon.

More than five hundred Taichu stood neatly behind Su Lang.

[Chapter 1993: Born Lord of the Universe](#)

More than five hundred strong in the beginning.

Ying Wa and the others opened their eyes suddenly, dumbfounded!

"what!?"

"More than five hundred too junior strong!?"

"Our witches have been recuperating for billions of years, and there are only twenty or thirty witches, and we have left a lot of resources from our ancestors!"

"How could the Heavenly Misty Continent have so many primordial powerhouses? I thought they were just quasi-primary primaries!"

"Unbelievable, unbelievable! How did this happen?"

"..."

Ying Wa and others talked in disbelief, the scene was as noisy as a vegetable market.

And at this moment.

"I am waiting to reach the Primordial Stage."

"All are gifted by His Majesty Su Lang, the great infinite Emperor Zhou!"

"Submit to Your Majesty Su Lang, and you will also receive a reward beyond imagination!"

Yan Hingxing and a group of strong men who had just been promoted to the Primordial Stage by Su Lang knelt down and bowed.

"I'm already dead."

"It was His Majesty Su Lang, the great infinite emperor who brought us back to life!"

"At this time we have the hope of stepping into a higher realm!"

Yuwen Xingyuan and others stepped forward and bowed deeply to Su Lang.

"I will soon be able to break through to the Liuyan, and even Qiyan realm."

"All of this is also a gift from His Majesty Su Lang, Emperor of Boundless Universe!"

Jiang Wenzheng, Qin Song and others stepped forward and bowed deeply to Su Lang.

"Not long ago."

"I'm waiting even more under the leadership of His Majesty Su Lang, killing thirty-one strong opponents from the beginning!"

"At this point, our Tianmen Mainland has been able to eliminate internal troubles and start to resist external troubles!"

Miao Mingyuan added with excitement, and paid homage to Su Lang!

More than five hundred primordial strong men bowed down to one person at the same time.

This is the first time Ying Wa and others have seen it in billions of years of life.

This is simply a scene they can't imagine!

"This, this this!"

"Su Lang, Your Majesty Su Lang is really so powerful!?"

"At the beginning of more than five hundred, he actually created it by himself!?"

"It's impossible, how could a primordial warrior in the second development realm personally create so many primordial powerhouses!"

"Even he has resurrected several early powerhouses, among them there are six generations of existence!"

"..."

Ying Wa and others looked at Su Lang in disbelief, everyone's outlook on life and world was shocked! suddenly!

"Tweet—!!!"

An extremely clear and sweet phoenix sound came.

Immediately afterwards, a fiery red figure flew out of Su Lang's body, worshipping Su Lang's side!

"what!?"

"Phoenix, it turned out to be a Phoenix!"

"I have seen the feathers of a phoenix. This is definitely the purest phoenix!"

"How can the extremely proud Phoenix bow to others!?"

"Could it be that Su Lang... even Phoenix is convinced?"

"..."

Ying Wa and other Wu Clan Power looked at Phoenix in disbelief, and a tsunami-like storm rose in his heart.

As the Wu clan, they fought against the monster clan in a very long time, and the Phoenix is one of them.

So they can recognize it accurately.

The one who worshipped Su Lang was indeed a phoenix of pure blood.

The Phoenix is immortal and will never surrender like others.

But now, they saw a phoenix surrendering to Su Lang.

Even Phoenix was convinced, how amazing is Su Lang!

Ying Wa and others have deeply understood that Su Lang definitely possesses means and personality charm beyond imagination!

Only in this way can all the powerhouses of the Heavenly Misty Continent and the extremely proud Phoenix surrender!

And those means beyond imagination.

They saw the three ways of refining alchemy by refining the formation and refining, and what those early powerhouses who were kneeling beside Su Lang said, they created five hundred early days with one hand! Resurrect the dead early powerhouse!

It can also give a huge help to the early powerhouses with advanced cultivation bases!

Thought of this.

Ying Wa and the others couldn't help shaking slightly.

so horrible!

Those kinds of heaven-defying methods, even if one person gets one, can become the top primordial powerhouse.

And those methods actually gathered together on Su Lang!

Su Lang, who possesses those methods, is simply the natural Lord of the universe!

They Wu Clan, let alone who they are, even if they all add up, they are not qualified to compete with Su Lang for the leadership position!

[Chapter 1994: Let the witch people see and see](#)

"Yingwa!"

"Surrender to the deity!"

A slight smile was drawn at the corner of Su Lang's mouth, "The deity will lead the Wu Clan to restore its glory, and even reach a higher level!"

This statement came out.

Ying Wa and other early powers were shocked!

As a powerhouse of the Primordial Stage, standing at the top of the cosmic pyramid, they are undoubtedly proud.

The word surrender has never appeared in their lives, or even ever.

But now.

The reason why they came out was to resist Yuan Mingzhou Emperor.

And this needs to condense all the remaining forces of the endless universe and develop and grow!

Originally, they thought they were the best candidates to lead the expansion of the boundless universe.

but now.

Compared with Su Lang, the hope they can bring to the boundless universe is simply too slim!

under these circumstances.

Ying Wa and others gradually let go of the arrogance and the burden of the strong in their hearts, gradually compromised, and almost acquiesced in the end.

but.

"Your Majesty Su Lang."

After all, Ying Wa said: "We are not familiar enough with you after all. I hope we can give us some more time!"

It was only an hour from arriving in Tianmen Continent to now.

They still don't know enough about the Heavenly Continent.

It's a big deal.

Ying Wa is burdened with the fate of the entire Wu clan, he dare not rush!

"Haha, nothing is impossible."

"Your clone can move around in the Heavenly Misty Continent!"

"By the way, I also established a spiritual internet and a transmission internet."

"This is a privileged terminal. Let's try it. It will definitely surprise you."

Su Lang laughed, then waved his hand and took out some spirit internet terminal tokens to Ying Wa and others.

The so-called privileged terminal.

It is the terminal used by Su Lang and his subordinates.

Its privileges are mainly manifested in the unrestricted use of the transmission Internet.

The warriors of ordinary terminals can only teleport to designated locations, similar to a shared teleportation hall.

But with a privileged terminal, you can send it to any place covered by the Internet!

This is just convenient for communication and support.

Su Lang gave the privilege terminal to Yingwa and others.

It is also to allow them to see this super convenience, and to further generate admiration.
at this time.

Ying Wa and others got the privileged terminal.

Jiang Wenzheng stepped forward to explain the terminal usage to them.

Everyone is too rudimentary and strong, and you will know these things as soon as you talk!
quickly.

Ying Wa and others entered the spiritual Internet world through terminal tokens.

Almost instantly.

They were all shocked and lost!

This world is too real!

It is simply the second Heavenly Misty Continent!

And there are countless warriors inside, and they easily gather from far away places to exchange knowledge that they don't have!

This made Ying Wa and others immediately think of the difficulty of reviving the Wu Clan.

The hidden area where the Wu people live is also very large and there are many people.

It is precisely because the site is large enough and the population base is large enough.

Only the witch clan can have a new generation of Taichu and a large number of quasi Taichu.

But the vast territory also brought serious obstacles to the exchange of civilizations.

This is true for the Tianmen Continent.

This is especially true for the Witch race, which is already a little behind in civilization!

"Oh my God!"

"If we have any kind of world that can allow all the witches to communicate unimpeded, how many thoughts and inspirations will have to collide!"

"A huge civilization system often originated from a small inspiration."

"If we develop for billions of years in such a world, I am afraid that our Wu clan has already developed no weaker than the original boundless world!"

"This world was created by His Majesty Su Lang, a miracle in the entire infinite universe!"

"If our Wu clan can use this world, we will definitely be able to quickly develop a more profound and mysterious Wu clan civilization!"

"..."

Ying Wa and others walked around in the world of the spiritual Internet, uttering low exclamations in their mouths.

at this time.

A young man walked in front of everyone, it was Yanxingxing.

[Chapter 1995: Tianmen Mainland Exchange Building](#)

"Friends of Taoism."

"You can not only teleport in this illusory world."

"Using a privileged terminal, you can also send it in the real Celestial Continent."

Yan Hingxing came to Ying Wa and other early powers, and introduced with a smile.

He was ordered by Su Lang to serve as a tour guide for Ying Wa and others.

Anyway, it is to take the Wu Clan group of early powerful people to see and see other miracles created by Su Lang.

quickly.

Ying Wa and others began to try to transmit.

When they found out that they could transmit to any place within the coverage of the transmission internet, they were shocked!

On their Wu Clan continent.

Because alchemists are scarce, there are even fewer alchemists.

So even short-distance teleportation arrays are rare, and long-distance teleportation arrays are even rarer.

Often they have to reach a certain place, and it takes a lot of time to hurry.

And this time.

On the Celestial Continent, which is larger than their Wu Clan Continent.

It's an incredible miracle to be able to go wherever you want.

"hiss!!"

"With this means of random transmission."

"It can not only strengthen communication, but also enhance support capabilities!"

"In just an instant, the power of the entire continent can be consolidated into one!"

"..."

Ying Wa and the others thought about it in shock, and countless horrified eyes flashed in their eyes.

Next.

Yan Hingxing took them to see the Tianxuan army station where Su Lang resurrected countless powerful men.

And the place where hundreds of thousands of godless powerhouses and six super junior powerhouses were resurrected.

After learning that Su Lang actually waved his hand, so many too junior powerhouses were resurrected.

Ying Wa and others immediately opened their mouths with surprise.

They couldn't help thinking of the dead powerhouses in the Wu Clan Continent.

If Su Lang can resurrect them, the Wu Clan will have at least five more senior primordial powers.

Immediately after.

Yan Hengxing led everyone to the exchange building again!

To benefit from the creation of the Internet of Spiritual Transmission, the exchange buildings do not need to be spread all over the country, just a large headquarters.

The exchange building on the Tianmen Continent is composed of a continuous group of palaces. The scale is so huge that it can be compared to a giant city.

And among the countless exchange houses.

It is a huge incense statue of Su Lang.

The statue is like a giant peak, lifelike, with a vast and deep gaze overlooking the entire exchange building.

Near the exchange building.

There are a thousand teleportation points, allowing the warriors to reach the exchange building easily.
now.

The exchange building has been opened!

And this first day of opening.

There are countless warriors in the entire Tianmen Continent, but all those who have spiritual power and can log in to the spiritual Internet are here!

Endless warriors emerged through the teleportation point.

Then we walked into the exchange building one after another

——Under the incense statue of Su Lang, the warriors voluntarily banned flying to show respect.

And the exchange building.

Because the power of the space avenue was used during construction.

So the inside of the exchange building looks much wider than the outside.

But even if the exchange building can accommodate hundreds of billions of warriors for exchange business at the same time, it is not enough.

Because there are too many warriors on the Tianmen Continent!

Therefore, the transmission network has actually restricted the transmission flow of the exchange building.

Otherwise, let alone trillions, it's normal for trillions of warriors to come at the same time!

at this time.

Yan Hingxing took Yingwa and the others to stay in the extreme distance and observe with spiritual thoughts.

See so many warriors appearing in this place at the same time.

Ying Wa and others were shocked and puzzled.

I don't know where it is.

Until Yanxingxing explained to them the role of the exchange building.

Ying Wa and other talents suddenly realized that they were shocked and exclaimed in disbelief!

"what!?"

"In this place, can low-level materials be exchanged for high-level materials?"

"And the exchange rate is so low? Isn't this the equivalent of giving high-level materials to low-level warriors for nothing?"

"This...is this a gift from His Majesty Su Lang to the entire Heavenly Misty Continent!?"

"But, where did Your Majesty Su Lang get so many high-level materials? Even the very basic materials can be exchanged here!"

"This is too generous! Your Majesty Su Lang's cultivation resources are already large enough to give away for nothing!"

"..."

Ying Wa and the others looked at the exchange building in the distance and the giant statue of Su Lang overlooking the earth, and they sucked in cold air!

[Chapter 1996: The stunned Wu Clan](#)

from their perspective.

In doing so, Su Lang was completely using his treasures to paste those low-level warriors.

This is a very loss-making practice.

Could it be that Su Lang is making money at a loss?

"Everyone!"

"His Majesty, the great infinite emperor, is unreasonable."

"The Exchange House seems to be at a huge loss, but in fact, instead of losing money, your Majesty has integrated the resources of the entire Heavenly Continent, which is even more useful!"

"Of course, what is the method of His Majesty Su Lang, we don't know, maybe it is some kind of heaven-defying method to raise the level of materials!"

Yan Hengxing smiled and introduced to Yingwa and others. In fact, this kind of speculation, Yingwa and others also wanted to get it.

"The heaven-defying means to improve the level of materials!!"

"Could it be the legendary sage alchemy!?"

"But, that's just speculation. No one can really master the alchemy of sages!"

"..."

Ying Wa and others thought of the alchemy of the sages in their witch clan legends, and felt unbelievable.

In the legend of the Witch.

After the alchemy is promoted to the extreme, it can directly improve the level quality of the treasures of heaven and earth by some means!

And this method is called sage alchemy.

But what the ultimate of alchemy is, has never been known, it is just the yearning and fantasy of the alchemists of the witch clan.

But now.

They saw the exchange building.

And Su Lang, who built the exchange building, is very likely to have a similar method.

This suddenly made the image of Su Lang more stalwart and mysterious in the hearts of the Wu Clan Da Neng.

at this time.

"Everyone."

"Let's go in and see?"

Yan Xingxing sent an invitation to Wa and others, which was naturally also indicated by Su Lang.

"Okay, go in and have a look!"

Ying Wa and the others looked at each other and nodded one after another.

Immediately, under the leadership of Yanxingxing, everyone entered the exchange building.

Soon.

They saw small lattice-like rooms.

These small rooms are basically closed, and the people inside cannot be detected.

Occasionally a grid room opens.

The warrior inside was happily ran out with excitement, and immediately there was another person rushing in!

"These grids are set up to protect privacy."

"No one can know what you have exchanged in the exchange building to prevent murder and treasure from happening."

"There is no staff in the grid, everything is exchanged for self-service."

"Because this place is controlled by a super junior clone of His Majesty Su Lang, and with the assistance of the spiritual Internet server, it is enough to make the exchange building run at full capacity."

Yan Hengxing introduced it with a smile, and then said, "Do you want to try it?"

Ying Wa and the others looked at each other, and immediately nodded!

Immediately after.

After waiting for the empty grid room, they got in.

Sure enough, there is no staff in the grid, there is only a screen on which there is an emotional spirit.

This divine mind is the spiritual internet server.

Exchangers can inquire about the items and ratios that can be exchanged through this divine mind.

When the changer makes a decision.

The server will feed back to Su Lang's clone.

Immediately afterwards, he was authorized by Su Lang to use the clone of unlimited storage space to complete the storage and distribution of items.

That's all for one exchange!

At this time, Ying Wa and the others used their clones to enter the Tianmen Continent without any treasures.

They flipped through the grids to look at the nearly unlimited exchangeable list, and their eyes were about to fall out of shock.

But see the redemption list.

Not only are there items that are too elementary, but they are also not ordinary goods.

It's all kinds of precious too elementary materials, perfect quality too elementary pill, extremely rare and powerful too elementary weapons, and even the infinitely valuable original of the original technique!

even!

Not on the list.

You can also write down your 'expected items' in the message, describing the item's name, appearance, characteristics and more!

When the desired item appears.

You will receive a reminder from the Spirit Internet Terminal, and then come to redeem!

[Chapter 1997: Ying Wa and others are heartbroken](#)

Look at the precious treasures that are too basic.

Ying Wa and others coveted almost to get into the screen!

They even wished to rush over with all their belongings immediately and exchange everything they wanted!

however.

They can't do it now!

Can only look at the countless treasures in the redeemable list, but cannot redeem.

at this moment.

Ying Wa and others' thoughts of joining Su Lang's command became stronger!

As long as you join in, you can redeem these treasures!

Once they get these treasures, they have a high probability of breaking through!

Not only them.

And the whole Wu Clan!

If the entire Wu clan can enjoy the benefits of the exchange building, then the Wu clan's strength can definitely skyrocket!

This is also an irresistible temptation for Wa and others!

In the grid room.

Ying Wa and the others stayed for a long time, until the time limit expired, was forced out of the room by the exchange building.

"Everyone!"

"This exchange building is a boon for the entire Tianmen Continent."

"If you join in with the Wu Clan, you can also enjoy the same benefits."

"In addition, if you still know the rest of the situation, take them to join in, you can also get the rest of the reward from His Majesty Su Lang!"

According to Su Lang's instructions, Yan Hingxing said with a smile to Ying Wa and others.

This statement came out.

Yingwa and others' eyes brightened!

"Daoist Yanxingxing!"

"I wonder what kind of treasures His Majesty Su Lang will reward!?"

With deep curiosity and expectation, Ying Wa asked Yan Xingxing.

"At least it's too basic treasure."

"Perhaps it is a hundred perfect quality too primary pill!"

"Perhaps it is a very powerful weapon too junior!"

"Perhaps it is to come up with a hundred too basic exercises, and you can pick them at will!"

"Or, directly instill a copy of Taichu exercises into your soul, so that you can instantly master that exercise to the level of the founder!"

Yan Xingxing laughed, and Ying Wa and the others were short of breath.

Especially when I heard the last words Yan Hengxing said.

The ability to directly instill the founder's level of exercises is unbelievable and can be called a fantasy.

"Daoist Yanxingxing!"

"You, what you said is true?"

"His Majesty Su Lang can actually instill a founder-level super-primary technique!?"

Ying Wa took a deep breath and asked incredulously.

"Of course."

"Otherwise, why do you think we have so many primaries?"

"Could it be possible to pile up so many primaries just by piling up resources?"

Yan Hingxing laughed and said, "We still have to rely on His Majesty Su Lang to help us get promoted!"

When Ying Wa and the others listened, they suddenly remembered the five hundred Taichu that appeared behind Su Lang before.

Including the Yan star in front of him.

At first glance, it looked like it had just broken through.

It is impossible for five hundred statues to break through at the same time under normal circumstances.

There can only be one explanation.

It was Su Lang who helped them get promoted at the same time!

"day!"

"It turned out to be true. His Majesty Su Lang can really instill the exercises, which is straightforward!"

"This method is simply too bad!"

"..."

Ying Wa and other elders of the Wu clan thought so, with shocked and dull expressions on their faces.

Immediately after.

"Daoist Yanxingxing!"

"To be honest, we already want to join His Majesty Su Lang, but His Majesty Su Lang has followed!"

"However, we still want to see the methods of His Majesty Su Lang with our own eyes!"

"In addition, we intend to persuade an elementary force who is as far away as us from the depths of the universe to join His Majesty Su Lang!"

Ying Wa finally couldn't help it, expressing his wish to join, and even pulled others to join!

"Hahaha!"

"His Majesty Su Lang said."

"It's not only the elementary forces, but any forces that are interested in resisting Emperor Mingzhou, as long as they pass the test loyally, they will all be accepted!"

"We want to gather the power of the entire infinite universe against Emperor Yuanmingzhou!"

Yan Xingxing laughed and asked immediately, "By the way, what is the name of the too elementary power that fellow Taoist said?"

"That force is called the Cultivation World!"

Ying Wa replied, "The warrior inside calls himself a monk!"

[Chapter 1998: Half-step eternity incarnate in the world](#)

"what!?"

"Cultivation of Ten Thousand Realms!?"

Su Lang, who was monitoring Yingwa and others through the mental Internet, raised his eyebrows, revealing a touch of surprise!

Cultivation of all realms!

He is familiar with this thing, to be precise, he has heard of it many times on Blue Star.

At that time, when the world of comprehension was mentioned, no young people didn't know it!

And this time.

In one of the centers of this endless universe, on the Tianmen Continent.

Su Lang unexpectedly heard the word again!

Well, it's just a coincidence of names.

Or is it really similar to the familiar world of cultivation?

"Yan Hengxing, ask carefully the cultivation world!"

With a thought, Su Lang gave instructions to Yanxingxing.

In the exchange building.

Yan Hingxing immediately obeyed Su Lang's order, and made detailed inquiries to Corresponding Wa.

Immediately after.

Through Ying Wa's narrative, Su Lang had a more detailed understanding of the cultivation world.

And this cultivation world is really similar to the cultivation in his memory.

The so-called cultivation world.

It is a semi-independent universe composed of a large number of cultivation worlds.

According to Ying Wa, the realm of cultivation is the body of a half-step eternal powerhouse.

The worlds in his body became realms of cultivation.

The realm of comprehension is divided into the mortal realm, the spiritual realm, the **** realm, the immortal realm, the demon realm, the demon realm, the ghost realm and so on according to the concentration of aura, the size of the world, and the characteristics of the world.

The practitioners in it call themselves monks.

The realm of cultivation is roughly similar to that of Qi Lian Qi Zhu Fund Dan Yuan Ying and so on.

There are probably hundreds of thousands of worlds in the cultivation world at this time.

Most of them are in the mortal realm, followed by the spiritual realm. The higher the level, the smaller the number.

The monks through their own efforts.

It can continue to ascend from the low-level world, and finally reach the world with the highest concentration of aura.

The strongest people in the entire cultivation world are all concentrated in those worlds with the highest concentration of spiritual energy.

There are thirteen such worlds.

Every world is ruled by one or two powerhouses of the Primordial Realm.

The overall strength of the Cultivation Ten Thousand Realms is about the same as that of the Wu Clan, with a total of more than 20 powerhouses of the Primordial Beginning Stage.

Among the more famous ones are Han Li Mozun, Luotian Supreme, Fengtian Supreme, Beichen Emperor and so on.

"Unexpectedly, it is similar to the cultivation world in the impression."

"At the beginning, there were a lot of books about cultivation on Blue Star, it really wasn't groundless."

"It is estimated that people at that time were able to write books related to the realm of cultivation, probably because of the influence of the imprint of the core fragments of the Blue Star Infinity Realm."

"It's like Blue Star's ancient information about the primordial land, which is all affected by the imprint of the core fragments."

"From this, it can be inferred that the cultivation world must have existed on the boundless world, and it has left a deep enough mark."

"Perhaps, it is the fallen quasi-eternal power, the ancestor of comprehension!!"

"..."

Various thoughts arose in Su Lang's mind, and a glimmer of suddenness flashed in his eyes occasionally. at the same time.

He has also developed an extremely strong interest in the cultivation of ten thousand realms.

The Cultivation World not only has a large number of strong people, but also a world transformed by half-step eternal strong body.

And the cultivation system is an extremely mature and extraordinary system.

It contains many powerful mysteries.

It's like the witch race.

Su Lang felt a kind of subtle power similar to 'lever' from the Witch's primordial scepter.

Through the "leverage", the powerful of the Wu clan can use a few forces to leverage huge power!

There is quite a feeling inside.

And this kind of thing is figured out with the martial artist's cultivation system, and can be used for reference.

The realm of cultivation is a major cultivation system in the boundless universe.

After countless billions of years, it is still unfailing, enough to see its uniqueness.

If it can be brought under his command, there are definitely many benefits!

"Yanxingxing."

"Let Yingwa and the others try their best to persuade the cultivation world to join me."

"Also, let him bring a treasure hunting flying flying glider over so that I can go to the realm of cultivation in the future!"

Su Lang gave an order to Yanxingxing, a smile was drawn at the corner of his mouth.

Yan Hingxing naturally agreed to it immediately, and tried his best to persuade Ying Wa to join Su Lang with the cultivation world as much as possible.

Ying Wa and others had such an idea, so naturally they patted their chest loudly!

[Chapter 1999: Yunyu and fog circle map is complete](#)

then.

Next.

Ying Wa and others withdrew their clones, and then sent someone to take one of Su Lang's treasure hunting flying flying flying flying away from the Tianmao Continent to the realm of cultivation.

They have a relatively close connection with the cultivation world.

Naturally, he can reach the realm of cultivation very quickly.

And just when Ying Wa and others wanted to join very much, and went to the cultivation world to persuade countless strong people to join Su Lang's command.

A surprising system prompt flashed through Su Lang's mind.

"Ding! "Yunyu Mist World Map" has reached the founding level!"

"what?"

"Another too elementary exercise has reached the founding level!"

The corner of Su Lang's mouth twitched, Xuan even felt a lot of warmth flowing out of his mind and body.

Numerous exercises are imprinted in the soul.

A large number of warm currents continuously enhance Su Lang's body strength!

And this "The Clouds and Fog Realms" is indeed the same type of Daqian cosmic road exercises as "The Boundless World of Eternal Sand".

The main idea is to grow the crystal wall cells individually!

And this exercise turned out to be a semi-passive exercise!

At this time Su Lang finished his training.

The body immediately got a huge improvement under the action of the exercises.

This improvement is for all cells in the body!

At this time, the one hundred and seventy gai cells in Su Lang's body had all been improved.

With the hundreds of millions of cells that have been expanded through "Hengsha Wuliangjielu", the space has increased by about one third again.

And the crystal wall cells that have never grown, all have grown dozens of times!

Although the degree of this growth is hundreds of times weaker than the Hengsha Blessed World.

But this is the improvement of whole body cells!

In terms of overall improvement, it far surpasses Hengsha Boundless World Record!

At this moment.

Almost all the cells in Su Lang's body had increased by several tens of times.

Add up.

The internal space has increased thousands of times!

This alone made Su Lang's body space countless times greater than that of the ordinary Taichu of the same level.

of course.

Because the degree of elevation of each crystal wall cell is not great.

And the inner space cannot put down the planet of life.

Therefore, these cells can only increase Su Lang's twisting power to a certain extent.

If you want to make it pretend to be the next life planet, you still need to use constant sand immeasurable world record to continue to improve.

And Su Feng knew.

In fact, this technique of Yunyu Wujie Map is super awesome.

If you practice from the beginning to the founding level in general, you can definitely increase the space of each crystal wall cell in your body by thousands of times.

Such a capacity is enough to place a small life planet like Canglan Star.

However, he has too many cells, which is more than a hundred times that of normal Taichu.

The benefits brought by the Yunyu Mist World Map are flat on each cell, and it can only be increased by dozens of times!

but.

With Yunyu Wujie Map, the whole body cells are improved.

In the future, the difficulty of using the constant sand immeasurable boundary record to upgrade the cells will also be greatly reduced.

"system!"

"Open the properties panel for me!"

With a thought, Su Lang called out the attribute panel.

"Properties panel!"

"The endurance level has been raised to Siyan too early."

"In other words, I now have a battery life equivalent to the Beginning of the Fourth Evolution in the realm of the Second Evolution!"

"In addition, the attack level is infinitely approaching Siyan Taichu."

Su Lang ticked the corner of his mouth and nodded in satisfaction, "This improvement is not bad!"

Immediately after.

His gaze fell on the technique in the storage space.

[Chapter 2000: Practice Hao Day, Smoke and Moon Picture](#)

"It's time to practice the next exercise!"

Su Lang's thoughts moved, and a large number of primary exercises appeared in front of him.

This time he still chose the passive exercise technique!

The active exercise method currently has "Hengsha Boundless World Record" is enough.

At this moment.

Su Lang has become too junior powerhouse.

I even practiced several too basic exercises.

Therefore, we can have a more detailed understanding of the unfamiliar Taiyuan Gongfa.

but.

After some careful selection.

Su Lang did not find a method that he was more satisfied with.

"In that case!"

"Then do a wave of synthesis!"

Su Lang's heart moved, and a large number of godless techniques appeared in front of him.

Some of these godless techniques were obtained from Zhong Biezu and others.

Another part was collected from a large number of godless-level powerhouses in the Heavenly Continent through the exchange building.

At this time, Su Lang possessed tens of thousands of non-synthetic godless-level exercises!

This is enough for Su Lang to synthesize it into thousands of basic techniques!

"system!"

"Start one-key synthesis and skill synthesis!"

"Combine the designated exercises into the primary exercises!"

Su Lang first picked out a large number of body-building exercises, and then activated the system functions!

next moment.

System prompts began to ring continuously!

"Ding! The synthesis is successful, and you have obtained the "Can Ruo Fan Xing Lu" of the too basic technique!"

"Ding! If the synthesis is successful, you will get the "Xingyu Chess and Arrangement" technique!"

"Ding! The synthesis is successful, you get...!"

Accompanied by the constant ringing of system prompts.

A copy of the original forging exercises of the too primary body appeared in the storage space.

The exercises were originally bizarre, some resembled diamond-shaped stars, and some resembled shrinking sun and moon...

And Su Lang quickly found a book "Horri Smoke and Moon Picture" that was very suitable for him!

This book "Horri, Smoke and Moon Picture" aims to grow every crystal wall cell like the sun and the moon.

Not only the internal space of each crystal wall cell will be much larger, but also the energy reserve will be greatly enhanced!

The largest increase is the reserve capacity of the sun and the moon.

Corresponding to the sun and the moon are yin and yang, fire, water, and other attributes.

In addition, it is not an exaggeration to say in the exercise that a crystal wall cell grows like the sun.

Because the sun here refers to the ordinary sun.

Rather than the infinite sun fragments in Su Lang Dantian universe!

The energy contained in it is roughly equivalent to the energy contained in the solar projection theory in an endless star field at the edge of the universe.

Even so.

It is also a very powerful source of energy!

"system!"

"Place "Horri, Smoke and Moon Picture" to start nine hearts into one!"

Su Lang thought about it and placed the exercises in place.

Suddenly.

The nine martial arts villains began to practice "The Moon and the Sun" together.

It must not be long.

Su Lang will be able to obtain a founding-level Taichu exercise once again and continue to grow his crystal wall cells!

Put the exercises.

Su Lang's gaze fell on the rest of the godless level exercises.

Put aside the forging exercises.

There are more exercises left!

Naturally, Su Lang would not let them just lie in the storage space and eat ashes.

If you want to eat ash, you have to synthesize it before eating it.

quickly.

Su Lang synthesized all the remaining exercises at once.

It's not just a godless exercise.

The exercises from the low level to the great emperor level were all synthesized at once.

After the synthesis is completed, it is thrown into the exchangeable list of the exchange building.

Presumably these new exercises can search a lot of resources.

And the warriors of the Tianmen Continent will also earn a wave of blood.

In short.

It is also a win-win situation for Su Lang and Tianmen Mainland!

After the exercise is completed.

Su Lang sorted out the treasures that he had searched!

I have to say that there are really too many treasures of heaven and earth in the Heavenly Continent!

The exchange building only opened for less than a day.

Su Lang has received countless various genius treasures!
