

## ONE-CLICK TRAINING SYSTEM INSTANTLY MILLIONS

### Chapter 2: The first function is activated!

"What what? System!?"

Su Lang's eyes widened fiercely, and he, who was familiar with various types of novels, wouldn't he know the existence of the system against the sky!

Anyone who gets the system takes off all the way, stands on the pinnacle of life, has countless beautiful women, and leads a life of sexual happiness and happiness.

"This is too timely, what am I afraid of with the system!?"

Su Lang opened his mouth wide in horror. If his injury hadn't allowed him, he would have laughed loudly.

"...99%...100%, the system is activated!"

"Haha! activated, activated!"

The prompt in his mind was so beautiful, Su Lang trembled with excitement,

"System, system! Tell me how you use it!"

"Host, unfortunately, the system does not currently have any functions."

The system's response made Su Lang's smile instantly stiff, and the corners of his mouth twitched unconsciously.

"No function?"

Su Lang stared at the trembling door, "Then how can I turn around!?"

What could be more desperate than giving people hope, and then shattering his hope! ?

"By the way, the system replied with the word'current'! That is to say..."

Su Lang's expression moved, and hope immediately rekindled in his heart, "How can the system have functions?"

He is very worried at this time, if the requirements for obtaining functions are too harsh, then he is done!

"Host, only spend 10 gold coins to activate the first function!"

"It can be activated with money! Great!"

Su Lang showed ecstasy and immediately endured the pain, stretched out his hand and took out a bag from under the pillow.

The predecessor parents knew that they were hunting fierce beasts every day, and the bad luck was unpredictable, so they kept the money.

Pour out all the coins inside, a total of 16 gold coins, which is not a small amount of money for ordinary people.

"Chu Gang, are you waiting for me!!!"

Su Lang grinned and let out a deep and excited laugh, "System, activate the first function!"

"Ding! Consume 10 gold coins, the sea of cultivation is opened, and the one-key cultivation function is activated!"

"Ding! The main practice "Infinite Heart Sutra" is detected, and the one-key practice function is activated!"

"Ding! Congratulations on activating the first function. You get the bonus function "Property Panel" to observe the detailed properties of yourself and the enemy!"

In an instant, a mysterious black space appeared in Su Lang's mind. Inside, there was a white villain with a similar profile and appearance as Su Lang sitting cross-legged and practicing.

There is a large amount of golden air flow in the white little human body that continuously circulates the sky in accordance with the "Boundless Heart Sutra", at an extremely fast speed.

As soon as Zhou Tian turned around, Su Lang felt that a large amount of spiritual energy was rushing into his body.

In addition, there are also the medicinal properties that have deposited in the body after taking rare medicinal materials before, and they also burst out crazy, quickly advancing his cultivation base.

In an instant, half of the white villain turned golden!

At this time, a large amount of more detailed information appeared in his mind, so that Su Lang immediately understood all the characteristics of the one-key practice function.

After the one-key practice was activated, Su Lang began to practice automatically for 24 hours. When the white villain turned golden, it was the time of breakthrough.

And his cultivation speed is equivalent to the top flawless aptitude, can run a week every 1 minute!

This kind of abnormal cultivation speed is more than a thousand times faster than Fanpin's qualification!

If there is no external force, Fanpin qualification takes more than 30 years to complete the body quenching, while the flawless qualification can be completed in just 10 days.

And the abnormality of the one-key practice function is not only that!

Because, the rest of the warriors spend only five or six hours in meditation a day.

Even if you work harder, you can only practice for 12 hours a day at most. No matter how much it is, you won't be able to persist for a long time.

Because they also need to practice moves, go out to experience, cultivate and learn, deal with chores, exercise at night...

These will take up a lot of time and energy.

But Su Lang was able to cultivate automatically 24 hours a day, and his cultivation time was doubled!

"In other words, I can finish body tempering in 5 days at most, so abnormal!!!"

Su Lang was stunned at once, he knew that the system was very abnormal, but the simple and crudely abnormal function of one-key training was still too shocking.

"And this is the first function, there are more functions waiting for me to activate!"

Su Lang was so excited that he trembled, took a deep breath, and suppressed the impulse to laugh.

at this time!

"Host, the sea of cultivation is full, is it a breakthrough?"

The extraordinarily beautiful system prompt sound shocked Su Lang with excitement.
