

One Click 2001

[Chapter 2001: The clone arrived in Tianmi Continent](#)

"system!"

"Turn on the one-key synthesis function!"

Su Lang started to synthesize a lot of materials!

Countless materials have been raised from the lower level, and finally can even reach the primordial level.

Whether it is used for alchemy or refining, it has great use!

"system!"

"Start one-key alchemy function!"

Su Lang's heart moved, and he began to refine a large number of pills!

Some of these pills were thrown into the exchange building and continued to search for materials.

Another part is used to reward subordinates.

If you want a horse to run, you have to graze it, and there is no harm in preparing something for reward.

In addition to refining pills.

Su Lang also refined several Yiyantai primary weapons.

The last remaining materials were used by Su Lang to strengthen weapons.

At this time, Youtian Sword and other exercises were all strengthened eight times, reaching the upper limit of strengthening.

Therefore, Su Lang's gaze fell on the mirror in the body!

As the reincarnation master of countless worlds in Su Lang's body, Luo Youjing's strength must also keep up.

"Not enough evolutionary materials."

"But reinforcement must be enough!"

Su Lang ticked the corner of his mouth and issued an instruction, "System, strengthen Luoyou Mirror!"

"Ding! Consume...Luoyou Jing strengthens +1!"

Suddenly.

Luo Youjing has completed the eighth enhancement!

This time the enhancement made its power formally enter the Sanyan Primordial Realm!

"Xiao Luo thanks Master for his support!"

In Luoyou Mirror World, Qi Ling Xiaoluo bowed deeply to Su Lang with excitement.

And in the world of reincarnation under her feet, the souls of countless creatures are endless, and the deserted world of reincarnation is completely prosperous!

Simultaneously.

Xiaoluo followed Su Lang's suggestion and selected some souls as his helpers, forming a job posting system in the world of reincarnation.

For example, on Huangquan Road, there is a first judge and a second judge.

When they arrived at Naihe Bridge, there was also the Wang Chuan girl who went through the third inspection and trial.

After crossing the bridge, there was another woman who checked the memory of the soul. Those who did not meet the conditions would fill a bowl of Wangchuan water...

"Xiaoluo, are you doing a good job, keep working hard."

Su Lang looked at the prosperous world of reincarnation, and suddenly smiled.

"Yes! Great master!"

Xiao Luo bowed down to Su Lang again.

Su Lang smiled slightly and looked away from the world of reincarnation.

And at this moment.

His expression changed suddenly.

Because it was dispatched outside the Tianmen Continent, it was constantly being dispatched all the time, and the clone who shuttled through the space finally saw an incomparably vast continent!

This continent is Tianmi continent! !

As Yuan Mingzhou Emperor's first dog in the boundless universe.

The strength of Buddhism in Tianmi Continent is the most powerful in the boundless universe!

So strong that their entire continent is not fortified at all!

Because no one believes that anyone dared to invade Tianmi Continent.

"I didn't expect to arrive at Tianmi Continent so soon!"

"At this time, it is estimated that those monks Kongchan and others have not yet arrived at Tianmi Continent, but I came first!"

"Well, the group of Monk Kongchan, there are thirty-nine primordial powerhouses, plus forty-three primordial beasts under control, there must be 82 primordial beasts!"

"There are three abilities of the seven-generation level, and there are also many abilities of the six-generation level."

"With the power I currently have, the Qiyang-level Boundless Number, and I can swallow the clone, and Jiang Wenzheng and others, including Yingwa and others at most, it is probably still a bit unstable."

"It seems that I have to make a big fuss on this Tianmi Continent first, and collect enough resources to talk about it!"

The corner of Su Lang's mouth twitched, and immediately his thoughts moved, and countless treasure hunting flying flying gliders appeared within the scope of the clone's divine consciousness!

Immediately after.

These treasure hunting flying flying flying into the edge of Tianmi continent!

Tianmi Continent is extremely prosperous!

Because Buddhism needs endless power of faith.

They used secret methods to force countless creatures to overload and multiply, giving birth to an endless number of creatures.

These creatures are the tools of Buddhism.

Because there are too many people, the resources that each of them can allocate are very few, so it is very difficult.

But they have to offer a lot of incense to the Buddha on their heads every day!

Sometimes the Buddha is upset and will cause them some disasters!

If you are in a good mood, some rewards will be given!

Whenever these creatures seek benefits from the Buddha, they will offer countless admiration and worship.

But don't know.

All those sufferings are given by the Buddha!

[Chapter 2002: Treasure hunting flying flying feast](#)

At this moment!

After a large number of treasure hunting flying flying flying into the edge of the continent.

Su Lang discovered that most of these people are very poor, only those Buddhist holy places are fat and oily!

"Humph!"

"Groups of birds and beasts in human skin."

"It's disgusting to set up an archway when you become a frame, and make people admire you!"

Su Lang sneered again and again, and immediately thought of it, the treasure hunting flying flying flying towards those so-called Buddhist holy places!

The level of the one-click treasure hunting function has reached level 47, with 375 trillion treasure hunting flying gliders!

These treasure hunting flying flying flying across the sky, instantly obscuring the sky!

There is darkness between heaven and earth!

"How could it be!?"

"How did the sky turn black!!"

"I am Buddha, what is going on here!"

"Blessed by the Buddha, blessed by the Buddha, blessed by the Buddha—!!!"

"Are there any demons and monsters coming!? Only one natural disaster happened a hundred years ago!"

"..."

Countless warriors talked in horror, and immediately knelt down to pray to the nearest Buddhist shrine! at the same time.

The treasure hunt flying glider made such a big noise.

Many Buddhist shrines were naturally discovered at the first time!

"What are these things!?"

"What a strange creature, they can't detect a trace of aura in their bodies, but they have a speed comparable to that of the beginning!"

"It's horrible, all have the quasi-primary speed!!"

"Quickly report to Buddha!!"

"..."

Among the magnificent Buddhist sacred places, countless Buddhas and monks looked at the dark sky in horror.

These Buddhist sacred places are generally hosted by some non-God-level orthodox Buddhas.

How could they not be afraid of the treasure hunting flying gliders whose speed is comparable to that of the beginning! ?

And just when they reported the news to the more powerful Buddhist forces.

The feast of the treasure hunting flying glider's "copying home" is officially opened! !

But I saw a treasure hunting flying flying flying into the Buddhist holy places, instantly snatching everything that I could see!

Even the floor tiles, soil, and stones that contain aura are not let go!

The foundations of the temples and temples built with precious materials are instantly demolished!

A Buddha statue made of more precious materials was also torn to pieces in an instant, turned into pieces of material and appeared in Su Lang's storage space!

Those Buddhists and monks are also extremely miserable!

The twittering treasure hunt flying flying flying past their bodies, and they even took away their clothes!

"This this this!!!"

"What are these things!"

"My Buddhist clothing, my robe, give it back to me!!"

"Damn, what are these things, I can't hurt them at all!"

"Kill, kill, kill them, damn, I have no gods, I can't kill a little bug!!"

"..."

Countless buddhists and monks resisted with grim faces, but as soon as their weapons were taken out, they were swarmed by a large number of treasure hunting flying flying gliders, and even their weapons were snatched away!

Even some Buddhists and monks have practiced special techniques to refine their bodies to resemble the treasures of heaven and earth, and they are also targeted by the treasure hunting flying flying gliders.

The treasure hunting flying flying gliders displayed their heaven-defying 'gathering methods', and they have 'collected' all the powerful ones!

The scariest thing is.

The Buddhists and monks find that it is useless to resist no matter what!

No one can hurt a single vellus hair of those weird golden-haired mice!

Suddenly!

Endless despair began to spread among a large number of Buddhist holy places.

The violent panic even triggered a series of tragedies in which Buddhists and monks killed each other! at the same time.

News of the treasure hunt flying flying strays has also continued to spread.

Even the Mi Ling Buddha in Tian Mi Ling Mountain noticed these weird little things!

"What is this?"

"The Godless Grade can't hurt them!"

"Huh? Outside of Tianmi Continent, where did the one-level Taijun come from?"

"Those weird flying squirrels were released by him!?"

In Tianmi Ling Mountain, Buddha Mi Ling opened his eyes, and the terrifying Heavenly Eyes and supernatural powers immediately unfolded.

His deep gaze passed through countless spaces and fell on those treasure hunting flying flying gliders and Su Lang clones.

[Chapter 2003: Qiyao Taichu Weapon Point Mi Jinfly](#)

A deep incomprehension appeared in the eyes of Buddha Mi Ling.

This is very, very rare.

Because as the ruler of Tianmi Continent, he is an eternal powerhouse.

The things that shocked and puzzled him in the entire universe almost no longer exist!

But now, there are two types!

That weird flying squirrel that cannot be hurt by the Supreme Emperor.

And the Yiyao Taichu realm martial artist who didn't know where he came from.

From these two things, he felt a weirdness!

"Could it be a special existence beyond common sense that existed since the beginning of the universe!?"

"Those things often have very strange characteristics. Such weird flying squirrels cannot be harmed by the Godless. Perhaps it is the characteristics of their villages."

"And that Yiyao Taichu... I really can't think of a history!"

"However, all those flying squirrels attack are in the Buddhism land without the Primordial Beginning Stage. They must be afraid of the warriors of the Primal Beginning Stage."

"That Yiyao wasn't very powerful at the beginning, and they are not a trouble."

Thinking of this, the Mi Ling Buddha slowly withdrew the Tianyantong and withdrew his gaze.

Immediately after.

With a light wave of his hand, a golden dragonfly with a large palm appeared out of thin air.

"Go ahead."

"Kill them out."

"Leave a few livelihoods, I want to put them in the ten thousand Buddhas and ten thousand realms."

Buddha Mi Ling waved his hand again, the golden dragonfly flapped its wings and instantly disappeared from the spot.

This dragonfly is small and nothing special.

But it is one of Mi Ling Buddha's primary weapons, named Dian Mi Jin Ting, which has reached the realm of Qi Yan Primal Beginning!

Although no one instilled energy into it.

But its power can easily kill ordinary too elementary.

In the eyes of Buddha Mi Ling, it is not too easy to clean up Su Lang's clone and those weird flying squirrels.

at the same time.

When Mi Ling Buddha was watching Su Lang Baiying's clone.

Su Lang, who used the perfect leaning to control the avatar, also felt a creepy breath.

An even more intense sense of crisis has come, making Su Lang seem to have seen a deadlock!

"Lying down!"

"I am not even afraid of Qiyan at the beginning."

"It can cause me a great horror between life and death. The one who paid attention to me just now is definitely an extremely terrifying power!"

"Bayan is unlikely, it may be the beginning of Jiuyan, more likely it will be half-step eternal!"

"If it is half-step eternity, it should be the ruler of Tianmi Continent, the Buddha of Mi Ling!"

"Yes, it can span countless spaces and instantly pay attention to my clone. These methods are definitely the Buddha of Mi Ling."

"Buddha Mi Ling is a half-step eternal strong, and exists at the same level as the ancestor of the ten thousand realms!"

"However, since he didn't take the shot himself, he probably didn't put me in his eyes, so I can take this opportunity to do a good job!"

Su Lang thought so, and immediately thought of it, and countless treasure hunting flying flying flying frantically spreading around him.

This is developing a dispatch map!

Although the use of clones can more easily develop dispatchable maps.

But Su Lang didn't want to expose too many clones too early.

Therefore, currently only the treasure hunt flying flying gliders are sent to develop the map.

But even if it is a treasure hunting flying fly, the speed of developing the map is terrifying!

Because there are hundreds of billions of them, wherever they can be dispatched.

Su Lang thought.

They can instantly expand a large distance!

Simultaneously.

Are a small part of the treasure hunting flying flying strays left behind, constantly plundering those Buddhist holy places.

The so-called Buddhist sacred places where the treasure hunting flying gliders passed, not to mention the remaining, even the ruins no longer exist!

A large number of Buddhists and monks were robbed.

As long as there is no inner world, all of them are robbed of their wealth.

If there is an inner world, if you dare to open the inner world and rescue the treasures inside, you will be immediately taken advantage of by the treasure hunting flying flying gliders and run into the inner world to take everything away!

Countless treasure hunting flying flying gliders brought countless gains to Su Lang in an instant.

of course.

Most of these gains can only be used as strengthening materials.

After all, it's just a godless thing.

[Chapter 2004: Come on baby](#)

Time passed slowly.

suddenly.

The message of the death of a large treasure hunt flying flying flying flying into Su Lang's mind.

"Oh?"

"Any strong man above the beginning has taken action?"

"Isn't it the strong man sent by Buddha Mi Ling?"

Su Lang had already expected this, so he was not surprised.

He immediately shared the vision of a large number of treasure hunting flying gliders, and found the existence that killed the treasure hunting flying gliders.

It was a golden dragonfly that nobody controlled.

Su Lang used the weapon recognition function to see that it was a Qiyang primordial weapon. Click Mi Jinfly!

At this moment.

Dian Mi Jin Ting is constantly shuttled through space.

Its goal is the clone that Su Lang currently controls!

And every time it travels through the space, if it encounters a treasure hunting flying fly, it will all kill it!
at this time.

After killing several waves of treasure hunt flying gliders.

Dian Mi Jinfly has quickly approached Su Lang.

As for Su Lang, he was looking at Mi Jinfly with a look of surprise and weirdness.

"What the hell!?"

"Send a weapon to take care of me!?"

"Lie noisy, this is simply a gift package for me!"

"Although it is a Qiyang-level weapon, no one controls it. It depends on how I took you today!!"

Su Lang looked at the uncontrollable Dian Mi Jinfly, and a look of excitement instantly rose in his eyes.

His Seven Treasure Tree hasn't opened yet!

At this time, I encountered a too low-level weapon that no one controlled, even Qiyang could collect it!

"Hey!"

"Come on, little baby!"

Su Lang was so excited that he was about to laugh.

He gathered a large number of treasure hunting flying flying gliders in the middle, as if to lead his troops to escape.

in this way.

It will be able to attract that little Mijinfly to the door faster!

Simultaneously.

Su Lang also issued an order in the Heavenly Misty Continent, summoning all the too junior powerhouses, more than one hundred thousand quasi Taichu, and the Supreme Emperor.

He even contacted the primordial powerhouses and quasi-prime primaries of the Wu clan and asked them not to pit a Mi Ling Buddha.

Ying Wa and others of the Wu clan were stunned instantly!

what! ?

Hang a wave of Mi Ling Buddha! ?

When did the Tianmen Continent actually pit Mi Ling Buddha?

This is simply a fantasy!

But time is pressing.

Su Lang only gave Ying Wa and the others a breath of time to consider!

Ying Wa and the others wanted to join the Tianmen Continent, so they all agreed!

Soon.

All the strong who have been summoned are gathered together through the transmission Internet!
at this time.

The super support function of transmitting the Internet is reflected.

Instantly gather all the warriors above the Martial King realm in the entire Tianmen Continent can do it!

Closer to home.

After Jiang Wenzheng, Yan Hengxing and others were gathered.

Immediately under Su Lang's order, he was stationed in the Infinity!

Su Lang himself is stationed in the Infinity!

In addition to this, there are forty clones that have been reunited, as well as ninety-four clones and twin incarnations.

The clones all used Baiying clones, turned into more than 10,000 too junior clones, and stationed in the Infinity.

And the appearance of these clones.

It was also in the eyes of Yingwa and other Wu Clan.

Seeing more than 10,000 clones, all the Wu Clan warriors were shocked! !

They always thought that Su Lang was able to become the leader of the Heavenly Misty Continent because of his means against the sky, unlimited potential, and his personality.

I didn't expect it.

Su Lang himself has more than 10,000 clones of the Primordial Beginning! !

This is really incredible!

At the same time, seeing these avatars of Su Lang, Ying Wa and the others also wanted to join Su Lang's command.

Because they have predicted.

Su Lang will definitely become a great super powerhouse, bringing great hope to resist Yuan Mingzhou Emperor!

now!

After leaving a substitute for death.

Su Lang's more than 10,000 clones, plus more than 70 powerful primaries such as Jiang Wenzheng and Ying Wa, plus more than 100,000 quasi-primordial and supreme emperors.

Everyone, all entered the Infinity!

With Ying Wa, Qiyao Taichu, and other senior Taichu powerhouses.

Wuyin's regular-level power has officially reached the Bayan level!

At this moment, Ying Wa screamed!

Bayan level, this is the power he dreams of!

At this time, he finally realized the super humanoid weapon created by Su Lang!

[Chapter 2005: Qibao Miaoshu opened](#)

The rest of the too junior powerhouses also experienced power far beyond their imagination.

Can't help but have endless respect for Su Lang who built a super humanoid weapon!

And just now!

Dian Mi Jinfly has appeared in front of Su Lang Baiying's clone.

Hum! Hum! !

The wings of the golden dragonfly fluttered continuously, and an extremely powerful might descended on Su Lang's body.

Suddenly!

Su Lang, a Baiying avatar of the Yiyao level, was restrained, unable to move!

"It looks like I want to catch my mouth."

"Yes, anyone who sees such a weird thing as the treasure hunt flying flying will want to figure it out!"

"Unfortunately, you want to catch me alive, but I still want to catch you alive!"

The corner of Su Lang's mouth twitched, and his thoughts moved, and he instantly replaced the clone with the clone on the edge of the Tianmi continent!

Rumble!

The incredibly terrifying breath of the Beginning of Eight Yao descended on the edge of Tianmi continent!

Endless creatures knelt down instantly!

Among the Mi Ling Tianshan, the Buddha Mi Ling who had just closed his eyes opened his eyes abruptly, and a trace of doubt and surprise appeared in his eyes!

"Eight-Earth Realm powerhouse?"

"No, it's a strange weapon!"

"It should have gathered a lot of powerful people inside, so that it can exert its conventional strength at the eighth level."

"But it is just a conventional force, without the power of time, and it is not very threatening."

"The key is that the way it appears is too weird, it appears instantaneously without any spatial fluctuations!"

"This is the same as the previous warrior of the Yiyan Primordial Stage."

"Could it be that this weapon is also made from certain materials at the beginning of the universe, and possesses weird characteristics beyond ordinary space avenues?"

Thinking of this, even Mi Ling Buddha's eyes flashed with fire.

at the same time.

At the edge of Tianmi Continent, Su Lang thought, and a huge colorful tree suddenly appeared in the hands of Infinity!

This colorful giant tree is naturally transformed from the Seven Treasure Tree.

At this time, it became very huge, and it matched the size of Wuyin.

And the point Mi Jinting who suppressed Su Lang's clone was still a bit daunted.

It is really impossible to imagine that a guy in the first stage of the first generation will suddenly become a terrifying powerhouse with the aura of the eight generations!

And just now!

"Seven Treasure Tree, brush it!!!"

Su Lang waved his hand, and the endless energy was immediately instilled into the Seven Treasure Tree, almost bursting it!

Immediately after.

An incomparably weird power radiated from the top of the Seven Treasure Tree, and directly fell on the Dianmi Goldenfly!

"what--!!!"

"What kind of power is this, why can't I offset it at all, let alone defensively, unable to resist!!!"

The spirit of Dian Mi Jinting finally let out a horrified cry.

However, it is too late to escape at this time!

Under the coercive effect of the Sulang Boundless Eight Yan Primordial Realm and the Qibao Miaoshu, the Dianmi Goldenfly was enveloped in a burst of colorful colors and could not move at all!

Immediately after.

Infinity reached out and grabbed it, pinching it in the palm of his hand!

"what!!"

"Obviously there is only the regular strength of Bayan, how can it be possible to instantly control my Dianmijinfly!?"

Upon seeing this scene, Buddha Mi Ling was shocked, and then instantly displayed Tianzutong, a golden figure threw out from his body and disappeared directly from the place.

As a half-step eternal strong.

His golden figure almost spanned half a continent in one step, and a terrifying aura fell on Infinity's body!

"Yoyo, I'm angry!!"

Su Lang smiled, the clone replacement has begun!

next moment.

The Boundless ship disappeared from the place in an instant, and a avatar appeared, pinched by the Mi Ling Buddha!

"What exactly is this?"

"I can go under my nose!!"

Buddha Mi Ling looked at the afterimage of the Infinite Voyage that was gradually disappearing, and then at the avatar of Su Lang who was tightly sealed in his hand, the doubt and shock in his eyes could not dissipate for a long time.

And just now!

Huh!

The avatar of Su Lang in his hand also disappeared!

Disappeared with it is the endless treasure hunt flying flying glider!

"what!?"

"I clearly used a very strong blockade method. How can I escape at a small level!?"

The doubt and shock in the eyes of Buddha Mi Ling was again intense.

[Chapter 2006: An increasingly lofty position](#)

I thought that the Tianting Continent's sacred beast was kept in captivity.

The Heavenly Jade Continent was captured, and the Heavenly Jade Continent lingered.

In the depths of the universe there are still a few small fish and shrimps that are not strong.

The Buddhism that rules Tianmi Continent will not pose any threat at all.

But at this time.

Some active forces resisting Tianmi Continent appeared in the universe.

He even made him lose his hand under the carelessness of the half-step eternal strong man!

"Before Zhong Biezhū and others were inexplicably annihilated, did they use their hands?"

"No, it shouldn't. The Heavenly Misty Continent is too far away from the Tianmi Continent. Even I cannot cross such a long distance in an instant."

"Then, it should be two forces! It seems that we still have to send strong people to strengthen inspections around Tianmi Continent."

"There is still time for Monk Cicada, Master Huijue Ni and others, and they must return as soon as possible."

"The attack on the Tianmen Continent has to be investigated clearly before proceeding with this strange force that suddenly appeared."

"Dian Mi Jin Ting was taken away by that weird force, maybe it's a good thing instead."

"Dian Mi Jinting can't surrender, even if it surrenders, it is just a surrender, and can inquire about some available information for me."

"..."

Buddha Mi Ling thought so, and immediately issued many orders.

Immediately after.

His golden figure returned to Mi Ling Tianshan.

Although the appearance of Su Lang shocked the Mi Ling Buddha.

But in the eyes of Buddha Mi Ling.

Su Lang is also just a disease of scabies, even if it is difficult, it will not have any impact on the overall situation.

For the Buddha Mi Ling, the most important thing is to complete the task assigned to him by Emperor Yuanmingzhou. After all, it is impossible to accomplish it.

As for the mission that Emperor Yuan Mingzhou had assigned to him, only he knew.

at the same time.

In the heavenly continent.

The Infinity stood steadily on a vast plain.

Many powerful men flew out of it one after another, floating around the huge Infinity, forming dense black spots.

at this time.

Everyone's face is full of deep disbelief and expressions of shock, horror, and excitement!

Because they even snatched a weapon from the hands of Buddha Mi Ling just now!

And also managed to escape!

This is so dreamy!

That's the Mi Ling Buddha, a half-step eternal strong man!

"Oh my God, in just an instant, we snatched an extremely junior weapon from the Mi Ling Buddha!?"

"Hi, I still feel like I'm dreaming now!"

"Really, it's too unreal, but it just happens to be true!"

"All these are the heaven-defying methods of the great and infinite Emperor Zhou!"

"With the great and boundless Emperor Zhou, we can escape from the hands of the Mi Ling Buddha today, and we will be able to kill the Mi Ling Buddha in the future, and even the Yuan Ming Zhou Emperor!!"

"..."

The horrified powerhouses talked a lot, after the initial unreality, the eyes burst out with extremely strong light!

Resisting Tianmi Continent was originally a goal with no hope.

But after Su Lang appeared, they saw bright hope.

at this time.

The day after Su Lang appeared, they followed Su Lang and snatched a weapon from the Mi Ling Buddha!

This really made them feel the joy of victory.

It also made the hope they saw brighter and brighter!

In the eyes of everyone.

Su Lang has become an existence like the sun.

He shines on people who have lost their light.

Guiding people to resist the Tianmi Continent, and ultimately to clear Liuhe and sweep Emperor Yuanmingzhou!

"His Majesty the Great Emperor Zhou, you are the hope of all living beings!"

"His Majesty Su Lang, the great infinite emperor, your devout believers worship you!!"

"..."

A large number of strong men became Su Lang's fanatics on the spot, including Yuwen Xingyuan and other resurrected early strong men.

Jiang Wenzheng was waiting for the strong from the beginning, and he also directly placed Su Lang in the highest and highest position in his heart, which was almost a god!

Although Ying Wa and others had just contacted Su Lang not long ago, they completely placed Su Lang as the ruler.

"What a strong incense willingness!"

"I didn't expect such a windfall."

Su Lang absorbed a lot of incense and aspirations from the strong, and a hint of surprise flashed in his eyes.

[Chapter 2007: Decomposition point](#)

Immediately after.

His gaze fell on Dian Mi Jinting's body!

At this time, this Qiyao weapon was still under control.

However, because a large number of powerful people have left the Infinite, the strength of the Infinite has declined, and Dianmi Jinting has a faint intention to break free!

"Humph!"

"Don't want to run away if you are under control."

With a tick at the corner of Su Lang's mouth, the one-key decomposition function is instantly activated!

"what--!!"

"His Majesty the Great Emperor Zhou, Dianmi Jinting is willing to surrender to you!!"

Dian Mi Jinting instantly felt a strong life and death crisis, and quickly surrendered.

He originally thought that even if Su Lang caught him, he would definitely not be able to kill him.

But he knew he was wrong.

Su Lang actually has the means to easily kill and destroy him!

"Is it?"

Su Lang raised his eyebrows, "Then report all the information about Buddha Mi Ling!"

Before Mi Ling Buddha made a move, but the deity did not come, but used a golden figure, which can temporarily exert the strength of the Jiuyan Supreme Beginning Stage.

therefore.

Su Lang did not see the attribute panel of the Mi Ling Buddha.

at this time.

With the help of this little Mijinfly, perhaps we can get some information about Mi Ling Buddha.

"This."

"Buddha Mi Ling is a half-step eternal powerhouse!"

"It can be said that it is the number one powerhouse in the current infinite universe, except for Emperor Mingzhou!"

"He mastered countless subtle Dharma, raised sentient beings, and grabbed the power of faith."

Dian Mi Jinting said hesitantly, "But it is strange that he has never left the Tianmi Continent, even when he attacked the Tianxuan Continent, he never left."

"Oh?"

"Can't leave Tianmi Continent?"

"Then the golden figure he just cast can leave Tianmi Continent?"

Su Lang smiled with joy, "Also, for what reason did he not leave Tianmi Continent?"

"The golden figure should be able to leave Tianmi Continent."

"And why the deity of Mi Ling Buddha can't leave, I don't know!"

Dian Mi Jinting said hesitantly, it seems that he doesn't know much about Buddha Mi Ling.

"Ok."

"Since you don't know, there is no value."

A sneer appeared at the corner of Su Lang's mouth, and immediately activated the one-key decomposition function again!

"Do not--!!!"

Dian Mi Jinting didn't expect Su Lang to start immediately.

He let out the last scream, and then turned into countless raw materials and entered Su Lang's storage space!

Yan Hingxing, Jiang Wenzheng, Ying Wa and others looked at this scene, and their faces were shocked!

That's a Qiyian-level early weapon!

Its strength far exceeds the body of the Qiyian primordial strong man.

It stands to reason that even a conventional force at the Bayan level is difficult to destroy.

But now that powerful Qiyian Primordial Weapon was wiped out in Su Lang's hands. There was no resistance, it was incredible!

After the shock.

The endless admiration and worship of Su Lang immediately rose in the hearts of everyone.

at the same time.

In the Mi Ling Tianshan, the Mi Ling Buddha, who was just about to enter concentration, trembled again and opened his eyes.

"Dian Mi Jinfly is destroyed!"

"They were destroyed in such a short time, how could they have such a powerful force!"

"It seems that the harm of this disease of scabies has exceeded my expectations!"

"..."

A trace of doubt and anger flashed in the eyes of Buddha Mi Ling, and immediately his heart moved, and a large number of orders were passed on.

Suddenly!

A terrifying powerhouse moved, gathered as one, and rushed out of the Tianmi Continent.

Simultaneously.

Being dragged by dozens of divine beasts on a continent that is advancing continuously.

Monk Kongchan and others also received the order from the Mi Ling Buddha.

"Mi Ling Buddha wants us to return as soon as possible."

"However, after returning, you don't need to enter Tianmi Continent, but to patrol the outer space?"

"A strange force has appeared outside the Tianmi Continent, need to be guarded?"

"..."

Monk Kong Chan, Master Hui Jue Ni, Monk Shi Yu and other early powerhouses looked at each other, and there was a hint of horror in their eyes.

A force that even Mi Ling Buddha feels needs to be guarded against, that must be a bit of strength!

but.

The horror of Monk Kongchan and others soon disappeared.

Because they know that no matter what forces, they can never shake Tianmi Continent!

[Chapter 2008: Kill the monk Kongchan](#)

"Let's go!"

"At the current speed, at most one hour can reach the Tianmi Continent!"

"At that time, we will be patrolling the periphery. If the weird forces still dare to appear, then they will definitely die!"

"..."

After some discussion, Monk Kongchan and others continued to march towards Tianmi Continent.
at the same time.

In the heavenly continent.

Su Lang, who has broken down a little bit of goldenfly, is very happy!

Because of the Dianmi Goldenfly in the Qiyao Primordial Realm, the material obtained after decomposition is really too much!

Although it was impossible to evolve the Youtian Sword and other weapons because of the type of material.

But it's something that can be done to strengthen the Infinity!

"Tsk tut!"

"The Qibao Miaoshu has such a great harvest as soon as it opens, which is really amazing!"

Su Lang laughed, he immediately locked a large amount of materials in the storage space with his divine mind, and issued system instructions!

"system!"

"Use designated materials to strengthen the Infinite Number!"

Su Lang had just issued the order, and countless materials disappeared in the storage space.

Immediately after.

A series of gloomy lights flashed from the top of the infinite number.

It was like a gloomy lightning flashed across the surface of the super mecha!

After the gloomy light flashed.

All parts of the Infinity have been strengthened once.

A full 120,000 parts have all reached the level of four enhancements!

But this is not over yet.

Because there are still a lot of materials left in the storage space!

"Although the remaining material is not enough to make all 120,000 parts strengthen again."

"But it is completely possible to strengthen half of the quantity and 60,000 parts!"

After Su Lang speculated, a satisfied smile appeared at the corner of his mouth.

Immediately after.

He prioritized the selection of more core parts, and successively selected 60,000 parts for the fifth enhancement!

Sure enough, the same as expected.

These 60,000 parts have all been strengthened for the fifth time!

After strengthening.

Su Lang took back all the clones stationed in the Infinity.

The rest of the warriors also left the Infinity.

At this time, the uninhabited Boundless Ship exudes the atmosphere of the Wuyan Primordial Stage, and its overall strength has once again crossed a small realm!

"If you use the previous lineup to be stationed in Infinity."

"I can definitely become a strong player in Bayan Tai Junior High School!"

"But this is only a regular-level power. The parts of the Infinity are now the Supreme Emperor Jiudu, and they don't have the power of time."

"We still have to collect more materials as soon as possible, and evolve its parts from the foundation to become parts of the Primordial Realm!"

"In this way, you can definitely enter the level of the Jiuyan Prime Beginning Stage!!"

A thoughtful light flashed in Su Lang's eyes.

Immediately after.

A group of people appeared in his mind!

"Monk Kongchan and others are on their way back to Tianmi Continent at this time."

"This is a good time to kill them!"

Su Lang narrowed his eyes, and a strong murderous aura flashed, "It's time to solve them completely!"

The force that attacked the Xinghai domain group was Tongtian Temple.

And behind the Tongtian Temple, there stood Master Huijue Ni, an early powerhouse.

This hatred.

Su Lang has always kept it in his heart and never forgot!

At this time, when you have enough strength and the time is right, you will naturally get rid of it!

"Everyone!"

"It's not enough to **** some Mijinfly from Mi Ling Buddha!"

"The group of people who tried to calm the time and space and the sky, the group of people who attacked the Tianmen Continent is returning on their way, and they can just be intercepted!"

Su Lang looked around at a group of early powers, "So, next, give me stationed in the Infinity!!!"

This statement came out.

Everyone was shocked.

I just snatched a little goldfly from the Buddha Mi Ling, now it is time to attack the forces of Tian Mi Continent! ?

God!

Unknowingly, our side is already so strong, is it enough to confront Tianmi Continent?

Immediately after.

All the early powerhouses looked up at Su Lang suspended in the air.

Let's look at the super humanoid weapon.

The horror in my heart suddenly turned into surprises!

Although it is like a dream, it is all true!

Under Su Lang's leadership, they really had the initial strength to fight against Tianmi Continent!

[Chapter 2009: Battle against the Eighty-Two Taichu](#)

"Enter the Infinity!"

"Work together to fight against Tianmi Continent!!!"

"His Majesty Su Lang, the stalwart and boundless emperor of the universe, I will fight for you!"

"Your Majesty Su Lang, the direction of your will is the direction of our sword!"

"..."

A strong figure of the Primordial Realm rose from the ground, and flew into the parts of the Infinity with a firm complexion.

Suddenly.

A wave of power radiated from them.

Through the integration of the Infinity, the extremely terrifying Eight Yan Primordial Realm power has been formed!

Not only could Su Lang feel this power, but they could also feel it very clearly.

of course.

Only Su Lang can use this power, and those who are stationed in the parts can only continue to contribute their own strength.

At this moment.

All the primordial powerhouses, the quasi-primary primacy powerhouses, the supreme emperor of Jiudu, and the avatar of Baiying all entered the Infinity.

Su Lang also immediately entered the core parts, and with the assistance of Qi Ling, took over all the power of Infinity!

"Eight-Earth Realm conventional power!"

"And I can use my time means such as "Moment of Eternity" and "Future Good Fortune"!"

"Monk Kongchan and others are the strongest at Qiyang level, and they won't be my opponent at all!"

A killing intent flashed across Su Lang's eyes.

Immediately left a replacement clone, and sent a large number of clones out to find the broken continent where Monk Kongchan and others are located.

Because I have found the continent where Monk Kongchan and others are located once before.

So this time, Su Lang's clone quickly followed the presumed route, and once again discovered the broken continent pulled by dozens of divine beasts.

Monk Kong Chan and others also discovered the existence of Su Lang's clone for the first time.

"Appeared again!!"

"The weird one who peeped at us before was too early!"

"Furthermore the information contained in the Buddha's orders, this weird presumed to be the same force as the one that made trouble on the Tianmi Continent!"

"It's them, I didn't expect them to be the first to stare at us!"

"The Buddha's oral statement said that they can assemble into an existence with the basic power of Bayantai, so be careful!"

"What are you worried about? It's just conventional power, but we have three Qiyang Taichu!"

"Yes, according to our time rules, if they do appear, we will be able to eliminate them!"

"..."

Monk Kongchan and others looked at Su Lang's clone, and exchanged thoughts many times in an instant. quickly.

They believe that their own power can definitely resist the other party's conventional power!

however.

They don't know.

Su Lang also holds a good time power here!

At this moment!

The flying continent gradually stopped.

Kong Chan and others stood up one after another.

A divine beast that was forcibly controlled also flew to the mainland, floating there like a walking corpse, waiting for orders.

They have a total of thirty-nine primordial powers, forty-three primordial beasts, and a total of 82 primordial combat power!

Among them, there are three Qiyang primordial realm powerhouses!

There are six primordial realms at the Liuyang level!

Just these nine people could almost wipe out the Heavenly Misty Continent not long ago!

And just as Monk Kongchan and others were preparing to fight.

Su Lang wrapped the Boundless with his spiritual thoughts and activated the clone replacement function!

Instant time!

The incomparably huge Infinity appeared in the dead void.

The powerful Bayang Primordial Realm aura spread around like a tsunami.

"Kill me!!!"

Monk Kongchan and others do it instantly!

Numerous golden Buddha seals, golden Buddha palms, golden robes... like a storm and bombarded the Infinity.

These are not ordinary magical powers!

Each path carries a powerful time force.

Mix together to form a super time turbulence!

Among them, the time power of Qiyang Taichu, such as Monk Kongchan, is the most powerful!

The three of them reached the Qiyang Primordial Realm, stepped into the past realm of time, and were able to continuously slow down time, even stagnating.

Relatively speaking.

The time rules related to the 'now' level can only stagnate time in a 'dot' shape, that is, stagnation for an instant!

Not as continuous as time slows down.

The gap between the two sides is very big!

But in the face of such a powerful attack, Su Lang is not afraid!

[Chapter 2010: The future of good fortune will accelerate](#)

"Future good luck!!"

With a thought, Su Lang mobilized the conventional power of the Bayan level, and used his future good fortune mysterious arts to reach the founding level to use the time acceleration method!

This is the best way to fight time slowdown! !

And it can easily break the time rule of the 'now' level.

But I saw countless platinum storms condensed in the hands of Infinity.

Immediately, it was like a star exploding, forming an incomparably terrifying force, blasting together with the power of more than 80 primordial powers such as Kong Chan!

"Humph!!"

"How is it possible for a mere conventional force to oppose the time force of the 'past' level!"

"The next moment, you will be caught in the vortex of time slowing down, and gradually become stagnant!"

The thoughts of disdain flashed in the hearts of Monk Kongchan, Master Huijue, and Monk Shi Yu.

Most of the rest of the primordial strong think the same way.

Think that Su Lang's side cannot withstand his own attack!

however.

Something that horrified them had happened.

In the platinum storm displayed by the super giant in the sky.

The subtle Dharma they displayed has started to die out at an accelerated rate!

Almost instantly.

Except for the 'past' level time power displayed by the three Qiyan Taichu.

The rest of the time forces are all calmed, assimilated, and accelerated, and various powers are transformed into primitive heaven and earth forces in an instant, dissipating in the universe.

Even the power of the 'past' level time displayed by Monk Kong Chan and other Qi Yan Taichu.

Because I am not proficient in the exercises

——The 'past' level Taichu exercises they practiced are basically at the beginner and minor level.

And because of their own fighting, the energy to mobilize the power of time is insufficient.

So even if the level is higher, it is still gradually offset by Su Lang's attack!

"how is this possible!!"

"How could they display such a terrifying time acceleration method!?"

"Quickly, use time means to offset their time to accelerate the attack!"

"..."

Monk Kongchan and the others looked at the Infinite Ship controlled by Su Lang in horror.

Everyone's eyes burst open, their mouths wide open, and their eyes are full of incredible!

Immediately after.

They used their best efforts and constantly displayed the power of time.

It even ordered those controlled mythical beasts to perform all kinds of desperate secret techniques and launch attacks regardless of all losses!

"Hoho——!!!"

"Woohoo!!!"

"Tweet--!"

The beasts uttered painful screams, but they could not disobey the orders, they could only use desperate means to attack the Infinity!

"My family!!!"

"Your Majesty Su Lang, please save them!!!"

In a certain core component, Phoenix showed grief and sent a request to Su Lang.

Originally as a Phoenix family.

When the Boundless World was intact, he couldn't look down on the rest of the beast races.

But times have changed, and he has long been able to put down his arrogance and accept those of his fellow race.

They even feel heartache because of their tragic experience.

Also heartbroken, there is Bi Ye Rin in another part.

She has become a blue-blooded unicorn of the primordial realm, fighting for Su Lang in the Infinity!

In the land of exile, her dream is to return to the Tianting Continent and save the Tianting Continent.

Although she knew it was impossible, she still clung to that dream forever.

After following Su Lang, Bi Yelin found that her dream was getting closer to reality!

"I want to save you all and contribute everything!!"

Bi Yelin roared in her heart, and unexpectedly displayed the racial secret technique, bursting out a powerful force, all poured into the Infinity!

"rest assured!"

"I won't hurt them!"

Su Lang felt the expectations of Phoenix and Bi Yelin and nodded immediately.

Even without Phoenix and Bi Yelin's expectations and requests, he would do his best to save the beasts.

At this moment.

Monk Kongchan and a large number of mythical beasts performed terrifying attacks.

Su Lang's previous acceleration force of time was immediately cancelled out.

"Ha ha!"

"Two attacks can offset one of my attacks! What are you fighting against me?"

A trace of killing intent flashed in Su Lang's eyes, and his thoughts moved, and he sent an order to the Wa!
