

One Click 2021

[Chapter 2021: Reap countless intelligent creatures](#)

It's just because Kong Chan and others died.

The universe of life lost its sense of **** and began to gradually go into chaos.

However, almost all of them are in wars on the vast life planets.

Countless creatures are gathering together one by one strong, attacking and killing each other!

"If this kind of war continues for an extra second, it will bring great losses!"

Su Lang narrowed his eyes and immediately activated the clone dispatch function!

These living planets have been protected by the power of time and space.

But Su Lang had already mastered the power of time, and could easily send his clone to cross the barrier of time and space.

at this time.

One avatar was dispatched to those life universes.

Hundreds of Hundred Shadow clones have been dispatched in each universe, and each clone is a powerhouse of the Primordial Realm!

Almost instantly.

On all life planets, any struggle will stop in an instant!

"Too, too early stage!!"

"Is a strong person in the Primordial Stage, many Primal Stages, hundreds of them!!"

"Oh my God, the powerful of the dignified Primordial Realm actually lined up like small soldiers!!"

"It was their master who killed our Lord of the World. He is too strong. With so many subordinates in the Primordial Realm, the level of that strong is simply unimaginable!"

"Surrender, only surrender can survive and have a future. Following this strong man, we can go further!"

"Have you seen the 'soldiers' of the Primordial Realm? As long as we surrender, we can also become one of them!!"

"Quick, hurry up and bow down to our new master!!"

"..."

A quasi-beginner powerhouse was horrified, and immediately knelt down in ecstasy, hoping to join Su Lang's command!

Their approach is very wise, and Su Lang is very satisfied!

"You are smart!"

"From today onwards, you are the creatures under the seat of the Emperor of My Boundless Universe!"

"Now, let's go to my inner world to survive for a while, and soon, I will bestow you the cultivation of the Primordial Beginning Stage!"

Su Lang's voice sounded in every living universe, as if the whole world was talking.

Countless creatures knelt down after hearing it!

And those quasi-beginners are extremely excited, worshipping frantically, and even throwing their heads into the ground, wishing to knock their heads into the mud!

The boundless Emperor Zhou! !

Their new owner is a Emperor Zhou! !

And also promised to give them the cultivation base of the Primordial Beginning Realm! !

This made all the quasi-prime primaries on the thirty-nine life planets so excited that they were like Fan Jin in Zhongju, almost going crazy on the spot!

of course.

These people also understand very well.

I must change my mind and dedicate my loyalty and unreservedness to this new master Su Lang before they can be accepted!

therefore.

Countless people are preparing to overthrow the old and evil forces and establish new forces that believe in Su Lang.

To this.

Su Lang just smiled faintly.

Then he strengthened the Mingguang Ten Thousand Realms Emperor Sutra to the Supreme Beginning Realm, and immediately caused the clones to unfold.

Suddenly.

The endless bright light dispelled all the darkness.

The loyalty of all creatures in the world instantly belongs to Su Lang!

If Su Lang does not take the initiative to revoke the effect of Mingguang Ten Thousand Realms.

Unless these creatures can break through to the Primordial Beginning Realm, there is a little possibility of breaking free from the shackles of the light world.

But it is only a possibility.

At this moment.

In the thirty-nine primary life universes, countless creatures surrendered to Su Lang.

In an instant, Su Lang brought countless incense and aspirations!

It should be noted that the original masters of these life universes are almost all Buddhist masters. What they are best at is to contribute incense and aspirations!

Now it's all cheaper Su Lang!

"Tsk tut!"

"Hundreds of thousands of Seven Treasure Trees' special aspirations are crystallized!"

"After a while, the Seven Treasure Tree will be able to evolve again!"

Su Lang smiled happily, and then selected thirty-nine crystal wall worlds near the Dantian universe.

Immediately after.

"Hengsha Blessed World!!"

Su Lang's eyes condensed, and the extremely majestic energy poured into the 39 crystal wall worlds, and began to frantically expand the space within.

This is a second expansion for the crystal wall world.

So that its internal space can accommodate the planets of primary life.

[Chapter 2022: Forty-three super elementary beasts](#)

In fact, Su Lang didn't even want to let go of the crystal wall of the universe of life in the beginning.

I want to put the complete universe of Primordial Life into the crystal wall world.

But this is too difficult!

The complete universe of primordial life was too big, and the crystal wall world of the second expansion could not contain it at all.

Therefore, only the planet of life can be transferred.

And the empty universe of life can only be thrown into the pupil of ten thousand worlds to save.

Time passed slowly.

Thirty-nine crystal wall worlds have gradually expanded to the extent that they are large enough to accommodate planets that are too primary.

Soon.

Su Lang began to transfer the planet of life.

Even with his current cultivation base, this is a rather troublesome thing.

It took a while.

Only then did all thirty-nine life planets be installed into his crystal wall world.

"I go!"

"I feel that my body has become heavier!"

"Well, it's such a powerful world power, and humane power is also very sufficient!"

"Now it is possible for Xiaoluo to send the 'ghost' of the reincarnation world into these worlds and capture the souls of dead creatures!"

"There is also the Mother's Nest of the Moon, and let it send its clones into these worlds and supervise the development of the world!"

A satisfied smile was drawn at the corner of Su Lang's mouth, and then he gave orders to Xiao Luo and Yue Mo.

Xiaoluo and Yue Mo immediately joined forces to take over 39 worlds.

Make the most of it!

quickly!

There are countless souls in the world of reincarnation!

After these souls are judged, the unqualified will be thrown into Qibao Hell and Heart-piercing Hell.

Those who qualify will enter the cycle!

Simultaneously.

The moon moth also received a huge amount of fragments of the original body from Su Lang!

At present, there is no Absolute Beginning Realm powerhouse that can revive Su Lang.

Therefore, the body fragments of the Supreme Emperor and Taichu can only be used as food for the moon mother's nest.

So that it can produce more spores of life, bred more wisdom and civilization!

And after Gouyue Brood was promoted to the Sanyan Supreme Beginning Stage and strengthened eight times, its abilities had been qualitatively changed and sublimated!

That is to collect genes and improve your own gene bank, and it is no longer limited to the clan of Moon Moths!

At present, the mother's nest has collected the genes of countless creatures.

even.

The moon moth also got the phoenix's unintentionally scattered genes from the magic universe.

There are also many genes of forty-three divine beasts that were just saved by Su Lang!

Those creatures who were brought into the Crystal Wall World by Su Lang will also be collected by the moon moth for backup and use.

Now the spores of the mother's nest of the moon can breed terrifying potential spores, which can evolve into countless species!

This has also greatly enriched the biological diversity of Su Lang's life universe and the crystal wall world.

In those very barren worlds.

Moon moths can use spores to develop a race of creatures most suitable for those worlds!

It can be said.

In the creation of Su Lang's life and universe, the mother nest of the moon has played an extremely important role.

If it depends on Su Lang himself.

Even he also has "The Sutra of Nirvana Without God".

It can absorb the blood of countless creatures and reproduce it in the world, and it takes a lot of time to complete!

at this time.

After dispatching missions to Xiaoluo and Moonmoth.

Su Lang's gaze fell on the forty-three divine beasts!

These beasts are of different types.

But it is divided into several categories.

The first category is the Shenlong category, including the colorful dragons such as Qinglong, Bailong and Heilong, the branch of dragons such as Yinglong, Chilong, and horned dragon, and even special dragons such as Taixu Zhoulong!

When Su Lang was in the Exile, he summoned a large number of true spirits of the Universe Universe Dragon.

At this time, the true spirits are still being placed by the sun to absorb energy, and have not yet been resurrected.

In addition to the dragon clan, there are also the sacred beasts of the bird family, such as the Suzaku, Qingluan, Xuantian Kunpeng, and Eclipse Kunpeng.

In addition, there are Qilin, Shengyu, Qiongqi, Zhu Wei and so on!

Forty-three divine beasts, a total of thirty-two different races.

Su Lang guessed that they probably all represented the best of their respective races, successfully breaking through to the Primordial Realm, but unfortunately they were arrested and reduced to slaves. Li general existence!

"It's time for you to be free again!!"

Su Lang's eyes flashed, and he called Phoenix and Bi Yelin up.

Soon.

Then he appeared in a universe of life with forty-three Buddhist treasures, and came to the forty-three gods and beasts!

[Chapter 2023: Rescue the first beast Suzaku](#)

"this is....."

"Before those sacred beasts that were slaves to the strong men of the Tianmi Continent!!"

"There is my kylin clan, the predecessors of the three generations of the profound blood kylin clan at the Primordial Beginning!"

"And Kunpeng, Shenlong, Xuanwu, Suzaku, Qingluan..."

Bi Yelin looked at the full forty-three divine beasts in front of him, and suddenly his eyes turned red, thinking of the tragic experience of the Tianting Continent's divine beasts!

Most of the sacred beasts have extraordinary talents, and even in the Tianting Continent where resources have been raided, a large number of powerful people can emerge one after another.

But the strongest is also at the primordial level, and it is extremely easy to be hunted down, it is almost like a fish!

The powerhouse of the Primordial Beginning Realm has never appeared, which has puzzled the countless creatures of the sacred beasts in the Tianting Continent.

Bi Ye Lin was also one of the people who had doubts.

But she understands now.

Those sacred beasts that secretly broke through to the Primordial Beginning Realm, certainly without exception, all became the slaves of Tianmi Continent.

"Tianmi Continent..."

Bi Yelin clenched her fists, her knuckles turned white, and her hatred was overwhelming.

Simultaneously.

Phoenix also had cold eyes.

As a high-ranking member of the sacred beast clan, seeing these sacred beasts so miserable, it was naturally angry.

The Tianmi Continent completely treats the sacred beasts of the Tianting Continent as livestock in captivity, and they want to slaughter the riders at will!

This is really unbearable!

"Bi Yelin, Phoenix."

"Don't worry, we will soon have the power to save the Tianting Continent!"

"Now let's help these mythical beasts get out of pain."

Su Lang patted Bi Yelin on the shoulder, nodded at the Phoenix, and then turned to look at the forty-three divine beasts.

At this time, forty-three Buddhist treasures were controlled by Su Lang.

Without his command, the sacred beasts are like walking corpses, their eyes standing there blankly.

"Able to limit the beasts that are too elementary."

"These Buddhist treasures are extraordinary!"

"Unfortunately, no matter how subtle and complex the weapons and treasures are, I can see them through at a glance!"

Su Lang took out a Buddhist treasure, and while activating the weapon recognition function, he used the micro-mystery technique to expand his spiritual thoughts and explore!

Almost an instant of time.

Su Lang can see clearly the material and function of this Buddhist treasure.

Immediately after.

Su Lang's mind came up with many ancient Buddhist refining books on Tianmi mainland that had just been learned!

quickly.

He relied on his incomparably powerful knowledge and attainments to speculate on the method of refining Buddhist treasures.

As long as the materials are sufficient.

Su Lang himself can refine the same Buddhist treasure!

Even the method of refining the treasure has been speculated, and it is naturally clear how to release the control of the Buddhist treasure from the beast of the beginning!

"The specific method is to melt the Buddha's treasure in a special way!"

"Finished into a special pill with powerful alchemy attainments."

"Finally, give it to the beast to completely restore its freedom!"

"Except for this method, even if the other methods can take the beast out of control, it is only superficial freedom."

"The bald donkeys that refine these Buddhist treasures are really sinister!"

Lights flashed through Su Lang's eyes.

Soon, he started to melt the first Buddhist treasure with the method that he predicted!

quickly.

This Buddhist treasure turned into a pool of golden liquid in Su Lang's hands.

Finish this step.

One of the Suzaku controlled by this Buddhist treasure was initially out of control, and his eyes gradually began to shine.

"where is this place?"

"That is, Phoenix? Qilin? I was rescued!?"

"But it seems that the person who saved me was not the phoenix and the unicorn, but the humanoid intelligent creature. This kind of breath is a human race!?"

Suzaku saw Su Lang, Phoenix, and Bi Yelin, and she immediately showed ecstasy, and immediately felt a little weird that Su Lang was the rescuer.

In the impression of Suzaku.

Human race is a very weak existence, and the current human race young man at least possesses the strength of the Second Yan Primordial Stage!

This makes him a little unbelievable.

at this time.

Zhu Que found that Su Lang had a new movement.

With a light wave of Su Lang's right hand, a large amount of the abnormal fire of the Primordial Beginning Realm turned into a crape myrtle indeterminate fire, forming a pill furnace.

[Chapter 2024: Xuanxue Qilin Fengyun](#)

Immediately after.

Su Lang kept throwing ingredients into the pill furnace, and finally threw the golden liquid into it.

Under the gaze of Phoenix, Bi Ye Rin and Suzaku.

A golden pill was quickly refined by Su Lang!

"Scatter!"

Su Lang waved his hand lightly again, and the purple flame suddenly disappeared.

A billowing golden pill appeared in Su Lang's hands.

"This, this, what kind of medicine is this!?"

"Why can I have such a powerful temptation!?"

Suzaku looked at the pill in Su Lang's hand, and suddenly couldn't move his eyes.

He wanted to eat that pill too much, and instinctively felt that taking it would be of great benefit to him.

At this moment,

Su Lang flew in front of Suzaku and threw the pill into his mouth.

The pill will melt in your mouth.

He entered Suzaku's body instantly.

Immediately after.

Suzaku felt as if a kind of magical power filled his body.

As if some of the things that he lacked were completely made up, the whole body gave him a feeling of completeness and perfection from the inside!

At last.

A strong clear flow flows out of Suzaku's sea of consciousness.

Dissipate all the haze in the sea of his knowledge, so that he can completely restore his clear mind!

"I...I am completely free!!!"

"I'm free again, I can use my will to control my body and strength at will!!!"

Suzaku felt her own changes, and fire-red tears flowed from her eyes, turning into cherished crystals.

"You are free, Little Suzaku!"

"Come on, come to me!"

Phoenix was also very happy, raising his wings and beckoning at Suzaku.

"Yes! Master Phoenix!"

Suzaku burst into tears with excitement.

But he knew that Su Lang saved himself.

Therefore, he first performed the most humble and respectful etiquette of the Suzaku clan to Su Lang, before he flew to Phoenix!

The closer to the Phoenix.

The more Suzaku felt the endless sense of security and relaxation.

This feeling.

Since He was born and his parents died, he has never felt it again.

For billions of years, he grew tremblingly in the Tianting Continent, trying his best to conceal himself, breaking through the realm of the beginning.

In the end, he realized that his every move was seen by the guards of the Tianting Continent from beginning to end.

On the day he broke through, he was captured and plucked all the Suzaku's feathers, and was almost drained of the Suzaku's blood, and suffered brutal torture!

In the end, he was even more controlled by his mind, and even his thinking, and completely reduced to a puppet slave.

His life, only now is he truly experienced the beautiful things!

at this time.

The rescued Suzaku leaned against Phoenix and confided her experience to Phoenix and Bi Yelin.

And Su Lang began to rescue the second beast.

This time, Su Lang chose the mysterious blood unicorn.

This is a giant black unicorn, looks extremely mighty, full of endless awe.

But he, controlled by the treasures of Buddhism, has become a walking dead.

"Colorful Burning Heaven, Condensation!"

After Su Lang used a special method to melt the Buddha's treasure, he started alchemy again.

It went well together!

A golden pill was refined by Su Lang and fed to the black blood unicorn who had restored some sanity.

"Kirin Fengyun, thank you fellow Daoist for saving his life!"

After Xuanxue Qilin completely recovered his mind, he was equally excited.

But he was more stable than Vermillion, and he was a little more vicissitudes of life. After solemnly thanking Su Lang, he looked at Bi Yelin.

"Senior Fengyun!!"

Bi Yelin bowed slightly at the mysterious blood unicorn, her eyes full of excitement.

This is the first family she has seen in over a billion years!

"Haha!"

"The little girl from the Jade Clan is really talented!"

"Even so young that he broke through to the realm of the primordial beginning, I am afraid that I might hope to be the realm of the nine generations!"

Feng Yun looked at Bi Yelin in the Supreme Beginning Realm and said in surprise.

"All these are gifts from His Majesty Su Lang!"

"It is His Majesty Su Lang, the stalwart Emperor Su Lang, who bestowed me a cultivation base of the Primordial Beginning Stage!"

Bi Yelin said excitedly, "Senior Profound Blood, under the leadership of His Majesty Su Lang, we will definitely be able to conquer the Tianting Continent!"

[Chapter 2025: All the gods and beasts surrender](#)

"Your Majesty Su Lang!!"

"You are the new infinite Emperor Zhou!"

Feng Yun looked at Su Lang in shock, and bowed deeply again, "Feng Yun sees His Majesty the Emperor Zhou!"

"No need to be polite."

"When I rescue the other forty beasts, I will tell you about the situation on our side."

Su Lang smiled and held up the mysterious blood unicorn, and immediately began to rescue the third and fourth...the beasts.

Time passed slowly.

Su Lang refines pieces of Buddhism treasures into pills, and gradually rescues all the controlled beasts. at last!

Forty-three divine beasts hovered in front of Su Lang, their expressions grateful and respectful.

They already had the young man who had rescued themselves before him, who was the new infinite Emperor Zhou from the beginning!

And they didn't doubt that Su Lang's strength was enough.

Because they watched Su Lang beheading thirty-nine Taichu!

With such a powerful combat power, none of them are qualified to question it.

And through Bi Ye Rin and Phoenix.

Many sacred beasts already know that Su Lang's most powerful place lies in potential!

This new majesty, the boundless Emperor Zhou will soon become a stronger powerhouse, and is the hope of the entire boundless universe!

"Everyone!"

"I, Su Lang, the new infinite Emperor Zhou, need your help."

Su Lang looked around at a group of sacred beasts, "Stay, follow me to fight the Tianmi Continent, and resist Yuan Mingzhou Emperor!"

"Yes! Your majesty, the boundless Emperor Zhou!"

"Your Majesty Su Lang, it is our duty!"

"Please let us offer everything, fight for you, fight for the boundless universe!"

"Mythical beasts, never regret it!"

"..."

The gods and beasts swore in excitement and expressed their determination!

Being enslaved by Tianmi Continent for so long, how can they not hate it, and they can follow

"well!"

"You guys just got out of the sea of suffering, so let's go back to my life universe to rest and recover!"

"These are the pills I refined, and they will be of some help to you!"

Su Lang laughed loudly, and then took out a large amount of perfect primordial pill to distribute to the gods and beasts.

These sacred beasts have a harder life than the warriors of the Heavenly Continent.

Even the most basic pill is rarely taken.

At this moment, I was stunned and stupid to see so many perfect primordial pills!

"His Majesty Su Lang has rewarded us with so many elixirs!!"

"They are all too low-level pill. They seem to be all the legendary perfect quality pill. It's incredible!"

"This is the first time in my life that I have received such a precious pill!"

"His Majesty Su Lang deserves to be the new infinite Emperor Zhou!"

"..."

The gods and beasts looked at the pill in ecstasy in ecstasy, and each of them burst into tears with excitement.

No one has ever treated them so well in their lives!

"you're welcome."

"Take them all, and I still have a lot after eating!"

"Your own strength is the most precious, don't bear these pills!"

Su Lang looked at the beasts that seemed to be loved by his old father, and suddenly smiled brightly.

"Yes!"

"His Majesty the Great Emperor Zhou!"

"We must break through as soon as possible and fight for you!"

The gods and beasts agreed with gratitude.

They are also telling the truth, as the best in the sacred beast clan, their qualifications are truly terrifying.

Even when the resources are extremely poor, they have cultivated to the level of three generations and four generations.

With Su Lang's pill now, it will definitely break through the bottleneck faster!

"It's a pity that my cultivation base is not big enough for myself."

"It's okay to promote the quasi-primordial beginning to the beginning of the primordial state, but it's not okay to instill the cultivation base for the primordial state.

"Only wait for one's own cultivation level to be higher before instilling cultivation skills for the subordinates of the Primordial Beginning Realm!"

"Of course, after I practice more exercises, I will instill in them the exercises and time rules. This is as important as the cultivation base!"

Su Lang thought about it in his heart, and immediately opened his Dantian universe, putting Bi Yelin and the sacred beasts into it.

Compared with other life universes, the Dantian universe has the most abundant energy, because the sun exists in this universe!

The rest of the universe can only obtain energy from the sun's projection and Su Lang itself, and the energy is naturally weaker.

[Chapter 2025: All the gods and beasts surrender](#)

"Your Majesty Su Lang!!"

"You are the new infinite Emperor Zhou!"

Feng Yun looked at Su Lang in shock, and bowed deeply again, "Feng Yun sees His Majesty the Emperor Zhou!"

"No need to be polite."

"When I rescue the other forty beasts, I will tell you about the situation on our side."

Compared with other life universes, the Dantian universe has the most abundant energy, because the sun exists in this universe!

The rest of the universe can only obtain energy from the sun's projection and Su Lang itself, and the energy is naturally weaker.

Chapter 2027: The Beginning Punishment of the New Wu Clan

"what is that!!"

"It's huge, it's countless times bigger than our Wu Clan's largest alchemy creation!"

"What the **** is this, the aura on it is too terrifying, is it going to destroy our Wu Clan!?"

"No, the great witch world lord, save us!"

"..."

On the earth, countless witch warriors flee in panic and shout.

But at this moment.

"Children of the Witch tribe, don't panic!"

"I am Yingwa Great Witch, and the Wu Clan has been embraced by the new infinite Emperor Su Lang, and will usher in a better future!"

"Now, all of our witch races are already creatures under His Majesty Su Lang's command. Give me - kneel down!!"

"..."

Ying Wa's voice spread across countless areas, immediately causing a large number of Wu Clan warriors to stop fleeing.

But the people of the Wu tribe obviously couldn't believe it!

"Where does the arrogant come from, dare to pretend to be Teacher Yingwa!!"

"Is there any new emperor infinite emperor, it is ridiculous, today I am at the time, and I will expose your true face!!"

A witch clan of the primordial realm of Yiyan rose into the sky, holding the heart of mortal, and madly slaying to the boundless.

This is a witch clan of the Primordial Beginning Realm who has just broken through.

He knew that Ying Wa and others had left the Wu Clan Continent.

According to common sense, it is impossible to come back so quickly, so he does not believe in Ying Wa's identity.

As a descendant of the Wu Clan in the Primordial Era, this strong character is also fierce and fierce, even if he knows that he is bound to die, he must attack the Infinite!

Rumble! !

However, he saw that this powerful man and his own planetary magic weapon merged into one, turned into a huge planet, and smashed into the boundless.

But at this moment!

"Xingguan! Blind your dog's eyes!"

A loud shout came from the Infinity!

Immediately afterwards, a group of witches were released by Su Lang at the beginning and stopped in front of the huge planet.

"what!!"

"It's really Teacher Yingwa!!"

"There are also teachers such as Ji Xin, Ni Jin, and Cong Shi!"

"Seniors, why did you return to the Wu Clan mainland so quickly!?"

The new Wu Clan named Xingguan withdrew his magical powers, and looked at the wizards in front of him in disbelief.

"Humph!"

"His Majesty Su Lang, the great infinite Emperor Zhou is omnipotent!"

"What's the point of rushing back to the Wu Clan Continent from the Tianmen Continent!"

"Xingguan, you dare to speak wild words to His Majesty Su Lang, don't kneel down and apologize!"

Ying Wa stared at Xingguan angrily, his tone was extremely harsh!

"Don't kneel down yet!"

Ji Xin, Ni Jin, Congshi and other Wu clan powers also shouted!

Puff! !

Xingguan knelt down instantly.

Ying Wa and others are his mentors, how dare he not listen!

"The villain penalizes, see His Majesty Su Lang, the emperor of the infinite universe!"

"The villain has eyes but no beads, I beg your Majesty Su Lang to punish!"

Xing caring frightened and confessed his guilt by kowtow to Infinity.

In his opinion, to be able to subdue the great powers of the Wu Clan such as Yingwa, the new Emperor Zhou should at least be a powerful person from the beginning of Jiuyan!

But he guessed wrong.

Su Lang is only in the second primordial stage.

"Those who don't know are not guilty, get up."

"Unexpectedly, there will be another Taichu Wu Clan, which is really good."

"These pills are given to you, go and consolidate your cultivation."

Su Lang didn't bother to care about the punishment, smiled faintly, called him up, and rewarded him with some too low-level pills.

"Ah this!?"

"His majesty Su Lang, he is guilty of punishment and dare not collect his alchemy, so he asks for punishment!!"

Xing Guan Mingming's eyeballs were about to grow on those too low-level pills, but he was able to hold back his greed and continued to beg Su Lang for mercy.

For him, Su Lang would feel better immediately if he punished him.

Su Lang didn't punish him, but he was worried!

"I go!"

"Diaomei? You have to be punished!"

"Well, then I will satisfy you and punish you!"

Su Lang rolled his eyes, and immediately used energy to condense a hand, tapping three times on his forehead, "Okay, now forgive you."

"Xingguan, thank Your Majesty Su Lang for forgiveness!"

Xingguan breathed a sigh of relief, and then worshipped Su Lang three times.

Immediately, he was extremely excited, and tremblingly accepted those extremely cherished and infinitely valuable pills!

"Yingwa!"

Su Lang turned to look at Ying Wa, "Go and spread the news. I will lead the Wu Clan to officially return to the boundless universe and appear in the eyes of all beings in the universe again!"

[Chapter 2028: Layout arrays all over the continent](#)

"Yes! Your Majesty Su Lang!"

Ying Wa and the others quickly knelt down to take the order, and Xuan even dispersed with the penalty.

After the crowd dispersed, each was responsible for an area, and began to spread Su Lang's orders.

At this time.

Ying Wa and others found that such efficiency is too low!

If it is the Wu continent, it can also transmit the Internet with the spirit of the heavenly continent.

If you shout out a word, all the creatures in the entire Wu Clan continent can know it clearly!

"The Wu Clan Continent is really too backward!"

"Fortunately, I have led the Wu Clan to join His Majesty Su Lang's subordinates!"

"Soon, the Wu Clan Continent will be able to enjoy the convenience of spiritual transmission on the Internet like the Tianmen Continent!"

Ying Wa thought this way, and there was a hint of expectation and excitement in his eyes.

Except for Yingwa, the rest of the Wu Clan's early powerhouses also thought so!

At the beginning, everyone was excited because the Wu Clan Mainland was about to become Su Lang's subordinate.

Time passed slowly.

Ying Wa and others gradually relayed the news.

They are all the strongest of the Witch Clan and possess absolute authority.

So everything went well, no one dared to raise objections!

quickly.

The entire Wu Clan continent knew of Su Lang's existence.

That is the new master of the Wu Clan continent, the hope of the entire infinite universe!

The creatures don't know how terrifying Su Lang's strength is. They can only imagine a brilliant, extremely lofty and great image in their minds!

Immediately after.

Su Lang issued orders one by one and began to collect resources from the Wu Clan mainland to establish formations!

The formation he wants to build is to assist the clone to accommodate the primordial combined formation of the Wu Clan continent!

Because the Wu Clan Continent is too huge.

The life universe of ordinary clones is difficult to contain.

Even the Dantian universe where the stars and clouds are combined, the space is super vast and almost endless.

But because the Wu Clan Continent is too big, it also needs the assistance of a formation to be able to fit into the universe of life.

at this time.

After Su Lang's order was issued, it was quickly carried out by Ying Wa and others.

Numerous resources began to gather towards Su Lang.

Su Lang received countless resources in a blink of an eye!

Su Lang didn't want these resources in vain, they would return them back in the future.

Anyway, with the existence of the exchange building, it is still not possible to make a wave of blood from these resources.

The warriors are very efficient.

And the cultivation resources are mostly concentrated in the hands of powerful warriors.

Therefore, the collection of refining materials is very smooth, and it does not take much time.

In a short time, a huge amount of heaven, material and earth treasures gathered in Su Lang's hands!

In addition to Su Lang's own refining materials, it is more than enough to arrange a combined formation to help the Wu Clan mainland make a leap!

Next.

Su Lang dispatched a large number of avatars and began to arrange formations around the Wu Clan mainland.

"A thought is formed!"

Taking a step forward, Su Lang thought, and immediately countless formations appeared out of thin air, uniting with each other, covering the sky and the sun!

"Oh my God, so many formations suddenly appeared!"

"It is His Majesty Su Lang who is arranging the formations. With so many powerful formations in an instant, what realm has your Majesty's cultivation reached?"

"It's amazing, these formations make me feel like a great witch!!"

"..."

On the earth, countless Wu Clan warriors looked at the formations that appeared out of thin air in the sky, and they were very excited to discuss.

Refining formation is almost the most difficult thing for the Wu Clan!

Much more difficult than refining equipment and refining pharmaceutical agents!

Therefore, Su Lang immediately arranged a large number of formations, and immediately convinced countless witches.

And just when the Wu Clan warriors looked up to the miracle of the formation created by Su Lang.

Su Lang also occasionally glanced at the scenery on the Wu Clan mainland.

The vast land is full of witch tribes.

Most of them will gather together, and there are a lot of buildings in the tribe.

And the most important buildings are the Witch Arena and the Witch Alchemy Tower!

There are many Witch arenas, but there are few Witch alchemy towers.

The Witch arena is a place used to practice physical bodies for the Witch warriors.

This is a practice method that has been passed down for countless times, and it is now very mature!

[Chapter 2029: The peculiar witch training system](#)

They practice the physical system.

It has been possible to break the barriers of realm with the body and reach the level of the emperor!

But if you want to continue cultivating, you have to cultivate your spiritual soul.

The Wu Clan Alchemy Tower is the second cultivation system developed by the Wu Clan, a system for cultivating the spiritual soul.

Those who can cultivate here are either the physical emperor or the wizard genius with innately powerful soul.

In ancient times, these witch geniuses with innately powerful souls were the diviners, patriarchs, etc. of a witch tribe.

They can use the power of the soul, can also use spells, and have a very high status.

As the Wu clan has developed to this day, the cultivation of spiritual soul has become more common.

They established places like the Wu Clan Alchemy Tower.

A large number of witch geniuses cultivate and conduct research in it, and then they are passed on from generation to generation to form a knowledge system that the witch cherishes.

nowadays.

The two systems of the Witch's Arena and the Witch's Alchemy Tower have begun to merge with each other, forming a more powerful training system exclusively for the Witch.

For example, the witches who practice the flesh in the arena of the witch race often have crude tattoos on their bodies.

These tattoos are not decorations, but an alchemy array with magical power.

"The system of the witch clan developed slowly in the early stage."

"Moreover, more resources are needed. To cultivate the physical body requires too many treasures!"

"But in the later stage, with a strong physical body as the foundation, the speed of cultivation will become faster!"

"The current system is considered to be a sub-civilization of warriors, with advantages and disadvantages."

"If we can integrate into the traditional martial arts of the Tianmen mainland and complement each other, we can accelerate the improvement."

"With the spirit to transmit the Internet, this kind of integration will be very fast!"

Su Lang caved through the cultivation system of the Wu Clan, and thoughts flashed in his mind.

Immediately after.

He began to observe the alchemy system of the Witch Clan again.

The Wu clan alchemy system is a system that integrates alchemy tools and Dao formations.

Compared with traditional Dan Dao Qi Dao Zhen Dao.

The alchemy system of the Wu clan is a little weird, mysterious, and metaphysical.

Along the way, Su Lang saw a large number of alchemy creations.

Special weapons bred from flesh and metal, weird potions or formations like living creatures.

There are even some powerful witches who use their bodies as raw materials for alchemy.

In addition, there is a peculiar method of alchemy using incense power.

For example, using the power of despair to make gold, using the power of admiration to make gold, and using the power of fear to make gold, forming all kinds of weird and powerful things, which are somewhat similar to Su Lang's Void Dragon Vein Heaven Realm.

And in the alchemy system.

The "leverage" of the Witch tribe is vividly reflected.

Most of the refining effects will be surprisingly powerful.

"The alchemy system of the Wu clan also has merits."

Su Lang pondered silently, "If it collides with the orthodox three-way pill formation, perhaps a more brilliant pill formation system can be developed."

He has learned the top alchemy system of the Witch clan, plus the three attainments of the orthodox alchemy array he has mastered, and his attainments in this area are almost unmatched.

However, many great things come from thoughts, thoughts, and auras that seem inconspicuous.

Therefore, Su Lang is looking forward to the collision and fusion of the Wu clan alchemy system and the orthodox alchemy system.

Time passed slowly.

Su Lang kept setting up the formations, and when the formations were completely set up, he had already seen all of the Wu Clan mainland.

With the existence of a clone, it can be dispatched and replaced, and he spends very little time on the road.

In about half an hour, a six-circle vertical and horizontal combination of too elementary combined formations was arranged!

Six circular joint formations, three horizontally surrounding the Wu Clan mainland, and three vertical surrounding the Wu Clan mainland, completely encompassing it.

The formation is filled with terrifying spatial fluctuations.

Even if it has not been activated at this time, the surrounding space will show a twisted wave!

The formation is completed.

Su Lang gathered all the powers of the Wu clan.

[Chapter 2030: Accommodate the super giant Wu Clan continent!](#)

"Your Majesty Su Lang!"

Ying Wa and other early powers knelt in front of Su Lang respectfully, with an additional penalty inside.

"I have finished the formation!"

"Next, I will take the Wu Clan Continent into the clone universe!"

Su Lang looked around at the crowd and announced lightly.

"Yes! Your Majesty!"

"Your Majesty, can we help you?"

"..."

Ying Wa and others nodded one after another.

"of course."

"I need you to be stationed in Infinity!"

Su Lang ticked the corner of his mouth, "Now, let's go in!"

Finished talking.

With a wave of Su Lang's big hand, beams of light were projected from the Boundless Ship, shining on a powerful Wu Clan Taichu.

The next moment.

The Witch Clan entered the Infinity in the early days.

Entering the Xingguan of Infinity for the first time was full of excitement and curiosity.

Through his teachers, Ying Wa and others, he had already heard of the strangeness of Infinity.

At this time, how can you not be excited and excited?

"The Boundless Number!!!"

"This is simply the greatest alchemy creation in the universe!"

"This is made by His Majesty Su Lang, the stalwart and infinite emperor. It's too strong!!"

In the core of an important part, the penalty gate is suspended in space, and everything in the outside world can be seen in front of the eyes.

A strange force connected him to the Infinity.

His power is all blessed on the Infinity.

And the power of Boundless, Xingguan can also be felt very clearly.

He just broke through to the primordial level, and at this time he felt a higher level of conventional power.

That was the vast energy he couldn't imagine, as if it could flood the universe!

Moreover, Xingguan also felt the second and third generations...until the power of time mastered by the powers of the Qiyan level.

Although he can't use it, he can experience and observe closely.

Immediately, he understood countless truths!

at this time.

"Xingguan, hold your breath, be serious."

A voice appeared in Xingguan's mind, and it was his teacher Yingwa.

The 120,000 parts of the Infinity Number complement each other, and the warriors stationed in it can also communicate with each other.

"Yes, Great Witch!"

Xingguan's expression condensed, immediately suppressed his excitement, and dedicated himself to the boundless ship!

Simultaneously.

Su Lang also controlled the Infinity to fly to the far east of the mainland and entered the formation that had just been set up.

Immediately after.

"Clone dispatch, Xing Cuan Yun He!!"

With a thought, Su Lang immediately released his clone avatar and twin avatars.

Soon.

Forty-eight avatars immediately merged into one.

A powerful existence in the Qiyan Primordial Realm was formed!

The forty-eight Gemini avatars also use the combination of stars and clouds to fuse into a powerful person in the Qiyuan Primordial Realm.

Next.

One of the avatars of Xing Cuanyun He was dispatched to the westernmost part by Su Lang and integrated into the formation.

Another one was dispatched to the bottom of the Wu Clan Continent, directly opening up his life universe.

Silently.

A huge space channel appeared at the bottom of the Wu Clan Continent, it was like a black hole to swallow everything!

"Formation! Kai!!"

Su Lang's eyes condensed, and he activated the combined formation of the Supreme Beginning Realm that had just been arranged.

Suddenly.

An extremely terrifying suction power came from the formation.

The energy of everyone in the Boundless was madly absorbed.

The Western Xing Cuan Yun He clone is also crazy to absorb energy by the formation.

Not only that.

The formation method also draws heaven and earth energy from the entire Wu Clan continent.

After absorbing the vast energy, the formation was officially launched!

However, there was an extremely terrifying spatial fluctuation formed in the six ring-shaped too elementary combined formations.

Looking at the Wu Clan Continent from the lonely void far away.

You can find that the entire Wu Clan continent seems to be shrinking!

The shrinking Wu Clan continent gradually became about the same size as the cosmic space channel of Xing Cun Yun He Clone.

The next moment!

It's like a beating heart.

The space channel of Xing Cuan Yun He Clone swelled and contracted fiercely, and immediately took the entire Wu Clan continent into the universe of life.

Simultaneously.

The Infinity and another clone under Su Lang's control also entered the life universe, continuously maintaining the too-primary united space formation!

Only in this way can the universe of life continue to accommodate the Wu Clan continent!
