[Chapter 2031: The witches return to the boundless world](#)

Immediately after.

Su Lang started the clone dispatch and dispatched the Xing Cuanyun He clone directly to a certain edge of the Tianmen Continent.

As soon as the clone appeared, it immediately opened the life universe channel.

Immediately, the Wu Clan Continent was released and appeared on the edge of the Heavenly Misty Continent, in the middle of the 100,000 Heavenly Misty Stars.

The Wu Clan Continent is also part of the Boundless World.

It was taken away by the ancestral witch of the witch clan at the beginning, but now it can be regarded as returning to its original place.

"Mom."

"It's so difficult to move such a big'rock'!"

"It's harder than killing thirty-nine bald donkeys such as Kongchan with one sword!"

In the Boundless Voyage, Su Lang wiped his sweat somewhat prostration and let out a sigh of relief.

Soon.

Su Lang released all the Wu Clan people who were also prostration.

The two Xing Cuanyun combined clones were also restored into ninety-six clones and were collected into the clone pool.

"This is the Heavenly Misty Continent!!"

"Yes, this is the Tianmen Continent. I feel the existence of the Internet of Spiritual Transmission!!"

"Heaven, His Majesty Su Lang's methods are so powerful that he sent the Wu Clan Continent to the edge of the Tianmen Continent in an instant!"

"If we rely on us alone, it is estimated that we will not be able to move the Wu Clan Continent to the Tianmen Continent in a lifetime!"

"Look at it, the borders of the Wu Clan Continent and the Tianmen Continent are spliced together and become part of the Tianmen Continent!"

"Our Wu Clan has returned to the Boundless World!!"

"Thanks to the great Majesty Su Lang!"

"..."

Ying Wa and others felt the breath of the spiritual transmission Internet, and they were so excited that they couldn't restrain themselves, and they continued to bow to Su Lang!

Simultaneously!

On the Wu Clan continent.

Countless Wuzu warriors have seen a different sky!

They saw the sky composed of hundreds of thousands of misty stars. How gorgeous and beautiful it was!

Suddenly.

A large number of witches have also realized that their world has moved!

They were terrified and unbelievable, and at the same time they knew that the powerful Emperor Su Lang did it.

Such a miracle, suddenly let not know how many Wuzu warriors shocked and worshipped it.

"Get up all!"

"This is the spiritual internet terminal I refined, and I will first distribute it to more important people."

"The terminal of the other Wu Clan warriors, go to Jiang Wenzheng and the others to get it."

Su Lang looked at Ying Wa and others who were kneeling in the void, smiled faintly, lifted them up, and took out a space ring.

"Yes! Your Majesty Su Lang, the great infinite Emperor Zhou!"

Ying Wa and others once again thanked Su Lang, and then took the space ring that was full of Internet terminals.

in fact.

When the Wu Clan Continent was brought under his command, Su Lang was the one who gained the most!

from now on.

The entire Wu Clan continent, and even the entire Wu Clan, belong to him!

It only needs to spread the spirit to the Internet to spread it on the Wu ethnic mainland.

You can immediately harvest countless incense power from countless people of the Witch tribe!

The resources on the Wu Clan Continent can also be gathered crazily through the exchange building and become Su Lang's power in a short time.

"Next."

"You left some people on the Wu Clan Continent."

"I will also send strong people to help you lead the Wu Clan Continent into the Celestial Continent."

Su Lang said to a group of Wu Clan Taichu, and immediately contacted the Heavenly Miao Continent Taichu who had not yet been closed.

After all, the civilization of the Wu Clan Continent is different from that of the Tianmen Continent. If you let it go, it is easy to cause problems, so you need to leave the strong for supervision.

"Yes! Your Majesty Su Lang!"

The witches took their orders from the beginning.

Then he chose the powerful early power with higher prestige and stayed in the Wu Clan mainland.

However, Yingwa did not stay.

He intends to follow Su Lang closely!

at this time.

The powerhouses in the early days of the Tianmen Continent that Su Lang contacted also arrived here through the Internet.

"Subordinates knock on your Majesty Su Lang!"

At the beginning, the crowd bowed to Su Lang one after another, and they were also extremely shocked at this time.

Unexpectedly, Su Lang would be able to bring such a huge continent back from the depths of the universe to the Heavenly Mian Continent in such a short period of time.

It should be noted that the area of the Wu Clan Continent is about one percent of the Tianmen Continent!

In the eyes of the primaries, this is an unimaginable miracle!

[Chapter 2032: Siyan primordial realm attack level](#)

Immediately after.

Su Lang explained the task to a group of his subordinates.

Let them help the Wu Clan integrate into the Heavenly Misty Continent, and they must not make any mistakes!

Everyone patted their chests to ensure that they would complete the task perfectly!

Soon.

Su Lang flew to the Wu Clan mainland.

Decomposed all the Taichu united formations, and then returned the raw materials to the Wu people.

This incredible scene immediately shocked everyone, and the words "His Majesty Su Lang cannot reason" came up in their hearts!

"Yingwa!"

"Now show me the way, I'm going to cultivate ten thousand realms!"

"Yes! Your Majesty Su Lang!"

Yingwa knelt down to take the order, and immediately entered the Infinity with twenty statues of Taichu.

"The clone dispatch, the clone replacement!"

Su Lang thought about it, and immediately arrived at the original place of the Wu Clan mainland with the Infinity.

According to Ying Wa.

The place where Cultivation World is located is not far from the Wu Clan continent, just behind another time-space fault in the same universe!

Under the leadership of Ying Wa.

Su Lang controlled the Boundless, while flying towards the cultivation world, while releasing the clone, it continuously opened the dispatchable range.

After a short time.

A brand-new space-time fault appeared in front of Su Lang.

"Enlighten Your Majesty Su Lang!"

"We have a certain exploration of this space-time fault, and know the way to the realm of cultivation."

"However, this channel is very unstable. If the people of the ten thousand realms do not want us to enter, they will disrupt the space-time channel!"

Ying Wa said respectfully.

"It's not polite not to go in person."

"So send someone to knock on the door."

Su Lang nodded slightly, "Yingwa, go there by yourself."

"Yes!"

"Your Majesty Su Lang!!"

Yingwa immediately took the command, and immediately flew out of the Infinity, and flew towards the space-time fault!

In a blink of an eye.

Su Lang watched Yingwa enter a gap in the space-time fault.

Just then.

A system prompt appeared in Su Lang's mind.

"Ding! "Hao Ri Yan Yue Tu" has reached the founding level!"

In a flash!

Numerous profound meanings appeared in Su Lang's mind!

Not only that, there was also an incomparably vast and vast warm current that appeared out of thin air in Su Lang.

These warm currents poured into all the crystal wall cells up and down the body!

Those cells that have not been actively promoted by Su Lang have grown more than ten times in a short period of time!

Although the multiplier of growth is not as large as that of "Yunyuwujietu".

but.

These crystal wall cells have all been expanded and promoted by "Yunyu Mist Boundary Map".

It is already a very good effect to be able to grow more than ten times again.

Moreover, the 100 million crystal wall cells that Su Lang actively expanded have also been improved a lot!

The key is.

The technique of "Horri, Smoke and Moon" has another effect.

That is to greatly enhance the energy storage capacity of crystal wall cells!

At this time, the energy reserve of every crystal wall cell in Su Lang's body has increased by about one-tenth compared to the original!

Don't look at it as one tenth.

It should be known that Su Lang's crystal wall cells have a full one hundred and seventy gai.

The total energy reserve increased by one-tenth, which is estimated to be equivalent to the total energy of dozens of Eryan Taichu!

In addition, the crystal wall cells are all promoted.

This allowed Su Lang's twisting power to condense more and faster!

"System! Open the properties panel!"

A ray of light flashed in Su Lang's eyes, and the system command was issued.

"Attack level and endurance level have been improved!"

"The income brought by "Hao Ri Yan Yue Tu" is really good!"

A smile was drawn at the corner of Su Lang's mouth and nodded in satisfaction.

Soon.

He looked at the next exercise that needed to be practiced.

[Chapter 2033: Wu Lang](#)

At this time, Su Lang had too many exercises.

There are so many to choose from to be dazzling!

However, Su Lang had already set a book "World Heavenly Witch Fulcrum" from the Wu Clan!

"Originally, I planned to practice "Universal Normalization", and then instill it in Yanxingxing and others so that they can cultivate to a higher level faster."

"But now the number of empowerments will be refreshed for a while."

"So let's practice "World Sky Witch Fulcrum" first!"

Su Lang thought so, and then activated the Jiu Xin Guiyi, placed the exercises on the martial arts villain and started practicing.

Finish it all.

Su Lang looked at the space-time fault again.

But seeing that Yingwa had returned from the space-time fault, his complexion was a bit ugly.

"Enlighten your majesty Su Lang!"

"The Cultivation World does not want us to enter."

"Even if I have mentioned the great achievements of your majesty, they still sneered, did not believe it at all, and wanted to continue to avoid the world."

Ying Wa came to Su Lang and knelt to report.

"Not willing?"

"As the only powerful force in the boundless universe."

"At the last moment of life and death in the boundless universe, did you choose to avoid the world like an ostrich?"

"In that case, don't blame me for forcing it to subdue!"

Su Feng blinked and waved his hand and ordered, "Yingwa, return to Wuyin!"

"Yes!!"

"Your Majesty Su Lang!"

After Yingwa took the order, he quickly returned to the parts of Infinity.

Immediately after.

Su Lang thought.

Fourteen thousand four hundred clones appeared in the Infinity.

Suddenly!

The power of Infinity has been greatly improved!

It should be known that Su Lang now possesses the attack power of the Four Generations level and the endurance level that exceeds the Four Generations Realm.

Even the Baiying clone has all aspects of the power of the three generations.

More than 14,000 clones of Sanyan Taichu are stationed in the Infinity Parts.

The power it brings is terrifying!

But Su Lang did not intend to forcibly attack the space-time fault.

After all, that is the space-time fault in the universe. Once it collapses, the power that erupts may reach a half-step eternal state.

That is too dangerous!

Therefore, Su Lang intends to use the clone to expand the dispatchable map, and then directly enter the realm of cultivation!

"The space-time passage is narrow, and only one clone can be sent."

Thoughts flashed in Su Lang's heart, and soon sent a Baiying clone out.

Follow the path before Yingwa into the gap channel in the space-time fault.

With the guidance of the experienced Ying Wa, Su Lang's clone easily traveled most of the distance.
at this time.

A huge building palace appeared in the divine mind of the clone!

Sitting cross-legged in the building is a powerful primordial realm powerhouse, who has a realm close to the Qiyan level!

Su Lang called up this person's attribute panel and found that he was named Wu Lang.

"Who would dare to break into the realm of cultivation without authorization?"

"Our meaning has been very clear, we don't want to participate in the war between the boundless world and the Emperor Yuanmingzhou!"

"Now you leave immediately, I will not embarrass you, but if you continue to entangle, I will be blamed for being merciless!"

There was a cold voice from the powerhouse of the Primordial Realm in the building, which even contained a trace of murderous aura.

"Ha ha!"

"There are no eggs under the covering nest!"

"If the boundless universe is destroyed by Emperor Yuanmingzhou, how can you preserve the ten thousand realms?"

Su Lang used the perfect lean to control the avatar, a sneer at the corner of his mouth.

"Humph!"

"Our cultivation world exists behind the time-space fault."

"This place is extremely special. Even if Emperor Yuanming Zhou killed all the creatures in the boundless universe, he would not be able to kill it here!"

"It's a big deal. I wait to completely destroy this space-time channel, and then the cultivation world will be the largest universe!"

"Also, Emperor Yuan Ming Zhou didn't stay in the boundless universe all the time, he always wanted to leave."

"When he leaves, it is the moment when our cultivation of all realms will be dispatched to revive the entire infinite universe."

"Before this, all the resistance made by the Infinite Universe was in vain, and we will not accompany you to die!"

"That's the end of the story. I don't want to say this for the third time. Go back. After three breaths, I will kill you!!"

Wu Lang's voice was extremely indifferent, and his murderous aura became more and more serious.

[Chapter 2034: Forcibly break into the realm of cultivation](#)

"original."

"You have completely lost hope in the ten thousand realms of cultivation."

"You actually hope that you can escape the catastrophe of Emperor Yuanmingzhou's destruction of the boundless universe?"

"You ostrich should be thorough enough!"

"Unfortunately, do you think that with the power of Emperor Yuan Mingzhou, you will not be found?"

"That is the strong man who controls the Avenue of Time, almost equivalent to a human-shaped infinite universe, how can it be blocked by this mere space-time fault!?"

"I can feel that the cultivation world is actually in fear, in despair, and there is no resistance at all. I can only hope that Emperor Yuanmingzhou will show mercy and spare your lives!"

Su Lang controlled the clone and said lightly, with contempt in his tone.

"No one knows how to avoid catastrophes better than our cultivation world!"

"Now that the three breaths have arrived, I will give you one last chance to get out of here!"

Wu Lang's voice became more and more cold, and the extremely terrifying aura had already pressed down on Su Lang clone.

"Hehe, you know the king?"

The corner of Su Lang's mouth drew a hint of playfulness, and immediately shook his head, and directly sent the clone dispatch!

next moment!

Su Lang's clone appeared behind the pavilion hall!

"what!?"

"How can you teleport in space under my nose!?"

"Damn it, don't realize it, don't blame me for killing you!!"

Wu Lang was horrified, and immediately became angry, and instantly displayed extremely terrifying magical powers, and slayed Su Lang's Baiying clone.

But at this moment.

"and many more!"

Su Lang controlled the clone and took out a perfect quality too low-level pill, "If you want, stop!"

"joke!"

"The one who caught you is mine!!"

Wu Lang's eyes brightened, and he recognized that it was a too low-level pill of perfect quality, almost extinct in the world of cultivation!

And such a treasured thing.

He didn't believe that Su Lang would destroy it!

He planned to catch Su Lang, **** the medicine, and kill it again.

however!

What happened in the next moment made him completely confused

—Su Lang actually rubbed his hands and instantly kneaded the pill into powder! !

"what!!"

"You, you, you actually ruined that too basic perfect pill!!"

Wu Lang's movements were stiff in the air, his face was full of incredible color, and even his eyes were red!

"A mere pill of perfect quality at the beginning is a fart!"

"As long as you join my underlings, there are so many pills like this that your eyes will pop out!"

Su Lang smiled disdainfully, and a lot of perfect quality primordial pills appeared again in his hands.

And the pill that was kneaded into powder was not wasted, and it was stored in the storage space as a strengthening raw material!

at this time.

Seeing a large number of the perfect pill from the beginning of Su Lang.

Wu Lang instantly thundered and trembled all over!

"you!!"

"You actually have so many perfect quality pills from the beginning?"

"Are you the Majesty Su Lang in Yingwa's mouth? You really have a unique alchemy in the universe!?"

"No, it's impossible, this must be the inheritance you got from above!"

"Nowadays, no one can refine the perfect quality medicine of the beginning!"

"If you want to die, die by yourself, don't try to pull the cultivation world back!"

Wu Lang was terribly shocked, but he still couldn't believe Su Lang's strangeness, and his murderous intent once again spread.

however.

The avatar of Su Lang severely threw the pill to Wu Lang.

—Just give this future thug's subordinate in advance!

"This!!"

Wu Lang's complexion changed drastically, and he quickly withdrew his magical powers so as not to damage the medicine!

But when he caught the pill perfectly, he found that Su Lang had disappeared again.

He could see through a broader spiritual mind that Su Lang appeared in a very far place in an instant, and he was one step closer to the cultivation world!

"what!!"

"He wants to single-handedly break into the realm of cultivation!?"

"What exactly does he want to do, in a trivial state, and dare to break into the realm of cultivation?"

There was a trace of horror in Wu Lang's eyes, and immediately changed to contempt and disdain.

There are strong people in the realm of cultivation, such as clouds, and there are only seven or eight in the early days of the Sanyan realm!

[Chapter 2035: All the monks in the early days were shocked](#)

"I want to see what you can do when you go to the Cultivation World!"

Wu Lang did not pursue Su Lang, but only passed the news to the other powerful masters in the early stage of the cultivation world.

He stayed in place to prevent Yingwa and others from sending people over.

But what he did was in Su Lang's arms.

"Humph!"

"If you don't chase, then I'm not welcome."

The corner of Su Lang's mouth raised vigorously, and immediately dispatched clones to keep close to the world of cultivation!

quickly.

The exit of the space-time channel appeared in front of you!

The spirit of Su Lang's clone has even seen the scene in the world of cultivation!

And at this moment.

"Hahahaha!"

"In the early days of Sanyan, I really dared to trespass our cultivation world!"

"I heard that he has a large number of too low-level pills, and they are of perfect quality, incredible!!"

"It doesn't look like this person is a member of the Wu clan. It should be a warrior of the boundless world. Our cultivation world just lacks communication with foreign civilizations. Grab this little guy, we should communicate with him!"

"..."

A powerful primordial martial artist appeared in front of Su Lang clone.

You don't have to think about it and you will know that these were called by Wu Lang from the beginning!

The cultivating power Han Li Mozun, Luo Tian Zhizun, Fengtian Zhizun, Beichen Emperor Zun and so on that I learned from Yingwa before are all among them!

But Su Lang looked at the many powerhouses in the primordial stage in front of him, and he didn't even bother to move.

Immediately after.

Luo Tianzhi stretched out his big hand and grabbed Su Lang's clone in his hand!

"Ok?"

"Is it caught? No resistance at all?"

Luo Tianzhi looked at Su Lang avatar a little strangely.

Han Li Mozun, Fengtian Supreme, Beichen Emperor and others were also surprised.

"This guy came to cultivate ten thousand realms just to get caught?"

"Does he think we will do nothing to him?"

"Hmph, this is the cruelty of unaware of the cultivation world!"

"Give him to me, I am best at puppet art, refine it into a puppet, everything is ours!"

"Why give it to you, you should give it to me!"

"..."

The great powers of the cultivators of all realms looked at each other, and gradually a ray of cold light appeared in their eyes.

Some of the more wicked Taichu Demon Cultivators even made Su Lang's clones into puppets!

But at this moment!

"You want me to know what cruelty is?"

A voice came from behind the Cultivation Ten Thousand Realms Taichu.

"what!?"

"Someone behind him, when did they show up!!"

"It's a big humanoid magic weapon, what kind of magic weapon is this, it is so terrifying!!"

"This, this, this is the power of the Bayan Realm!!"

"how is this possible!!"

"..."

Han Li Mozun, Luo Tianzhizun, etc., over twenty-odd in the beginning, looked at the immensity that did not know when they appeared in Divine Mind, and they were shocked!

Everyone was stunned, looking at the Boundless Ship controlled by Su Lang in disbelief, and was shocked by the power of the Eight-Earth Realm that pervaded the Boundless body! !

Although they have more than 20 early powers, most of them are at the Siyan level.

There is only one Qiyang level!

With the gap between the small realms of the Beginning of the Ethereal Realm, they would not be the opponents of the Su Lang Wuyin together!

"answer me!"

Su Lang stood in the core parts of the Infinite, faintly overlooking the primordial celestial cultivators, "Do you want me to know what cruelty is?"

Hear this.

The primordial primordial cultivators of the ten thousand realms suddenly fell into an ice cave, completely cold and speechless!

At this time.

"Catch it!!"

"Let's see if that kid still has a pill!"

"Oh my God, this is the first time I have seen so many perfect pill that is too basic, and I have made a lot of money!!"

Excited shouts came from the time and space channels.

Then Wu Lang appeared excitedly in the minds of everyone.

Soon!

Wu Lang's spiritual mind also saw many pale, motionless passages of the Primordial Beginning Realm.

And the infinite number that stands in the void like a huge humanoid planet!

and.

Wu Lang found that the eyes of Han Li Mozun and others looking at him were very complicated, with anger, sympathy, and others as if looking at a fool.

[Chapter 2036: Recruiting all the primordial monks](#)

"This!!"

"This is what happened!?"

"Why do you all look like this!!"

"What is that strange giant magic weapon in human form and when did it appear?"

"You...Could it be that this is the weapon of Emperor Wu Bian Zhou!?"

Wu Lang first asked some questions in a daze.

His eyes widened in disbelief, his mouth opened wide, and his body began to tremble gradually.

He originally thought that Han Li Mozun and other junior fellows could easily catch the Sanyan Taichu who ran to the realm of cultivation.

But never expected.

When I saw all my colleagues again, everyone turned out to be a mouse being watched by a cat, too scared to move! !

at this time.

A breath of incomparable terror enveloped.

It is the terrifying atmosphere of the Eight-Earth Realm of Infinity!

In that terrifying breath.

Wu Lang only felt that he was as vulnerable as an ant! !

"None... Emperor Zhou!"

"You, you, when did you come in!?"

"I, I know I was wrong, I'll return these medicines to you!!"

Wu Lang looked at Infinity with fear, then tremblingly took out the pill that he had received before and respectfully returned it to Su Lang.

"Humph!"

"Take it to you!!"

Su Lang lifted his hand and shot the pill back and fell in front of Wu Lang.

Wu Lang caught the pill, but did not dare to accept it.

In his opinion, Su Lang was unwilling to take back these pills, but he did not intend to forgive him!

"It's over!"

"It must be over this time!"

"Unexpectedly, my Wu Tieniu would fall in this way after practicing as a mortal farmer in a small village area..."

In Wu Lang's mind, there were various pictures of himself embarking on the path of cultivation and walking step by step to the present, and he couldn't help but feel sad.

But at this moment.

"Everyone of the world of cultivation!"

"Even I can sneak into the world of cultivation quietly!"

"Then the emperor Yuan Mingzhou of the eternal realm can't find you, can't kill you? Too naive!!"

"Now, I give you one last chance to join my subordinates to resist Yuan Mingzhou Emperor."

"Otherwise, don't blame me for doing it. It's hard to say whether you are dead or alive. Anyway, I am not particularly short of subordinates now."

Su Lang looked around at everyone and said lightly.

This statement came out.

Wu Lang suddenly breathed a sigh of relief.

Su Lang gave them another chance. If they agree, the previous events will probably be revealed!

"Your Majesty Su Lang."

"In Xia Wulang...I would like to join your command!!"

Wu Lang thought about it in his heart, and felt that if he refused, he would definitely die. Although he would inevitably die against Yuanmingzhou Emperor, it was better than death now!

And those pills are really tempting...

"well!"

"Friend Wu Lang, come here."

"Those medicinal pills before, just take it as my meeting gift."

Su Lang smiled faintly, and a powerful force fell on Wu Lang while waving his hand, pulling him to his side.

"Yes!!"

"Subordinates thank your Majesty Su Lang for the reward!"

Wu Lang didn't dare to resist, letting Su Lang pull himself to the side of Infinity.

When the rest of the Cultivation Realm saw this scene at the beginning, their expressions changed drastically.

Wu Lang is the second strongest in the world of cultivation, only weaker than the first strong Han Limozun.

But now.

Wu Lang went directly to Su Lang's command!

"Friends of Taoism!!"

"Your Majesty Su Lang is right!"

"I'm going to fight instead of just sitting and waiting!"

"Friends of Daoist Han, Daoist Bai, friend Daoist Meng...you can't hide in all realms!"

As soon as Wu Lang joined Su Lang's subordinates, he immediately opened his mouth to help Su Lang persuade him to surrender, which was pretty good.

"This!!"

"However, Emperor Yuan Mingzhou is so powerful, I have no hope at all!"

Luo Tianzhi said with a sad expression, "Rather than go out to die, it is better to enjoy your old age and wait for the ethereal hope!"

The rest was initially shaken.

But at this time, upon hearing this, his complexion suddenly turned dark.

Facing the Emperor Mingzhou in the eternal realm, they didn't believe that anyone could resist.

[Chapter 2037: The black sheep must be eliminated](#)

"Humph!"

"Luo Tian, since you have completely lost your courage."

"Then it's not suitable for living in this world!"

Su Lang looked at Luo Tian Zhizun, frowned and raised his right hand, the giant Youtian Sword suddenly appeared!

boom!

The extremely terrifying killing intent was diffused from the Youtian Sword!

Even Han Li's powerful monk from the beginning, his body trembled and his complexion turned pale!

They have already felt that the long sword in the hands of the giant has definitely killed more than half a hundred powerful people!

Among them, there is no shortage of Qiyao realm powerhouses with the same realm as his Han Li Mozun!

"Su, Your Majesty Su Lang, Luo Tian knows his fault!!"

"Luo Tian is willing to fight to the death for the boundless continent!"

Luo Tian was even more scared to stand upside down, and his scalp was about to explode.

Even Han Li and the others were panicked. How could he not be afraid of a four-generation realm too early?

In the face of the great horror of death.

Luo Tian knelt to Su Lang on the spot!

But Su Lang did not intend to be merciful.

Even if people like Luo Tian are under the command of income, they are still distracting the military, and they might even invest in Tianmi Continent!

The black sheep must be eliminated! !

"Broken a sword—!!!"

Su Lang's heart moved, and he controlled the Boundless to severely cut out a sword!

In a flash.

A sword of light cut on Luo Tian, who was evasive, and directly smashed his defense!

Puff!

Blood splattered, and the deadly head flew high!

The system prompt also sounded immediately.

At the beginning, a statue of Siyao Stage was so easily beheaded by Su Lang.

"I am waiting to resist Yuan Mingzhou Emperor!!"

The rest of the monks of the Primordial Beginning Realm were slaughtered, and they knelt tremblingly at the feet of Infinity!

First, the monks from the lower realm of the Primordial Realm knelt down.

Immediately after.

More and more monks were surrendering, and eventually even Qiyao Realm monk Han Li Mozun knelt down to Su Lang!

"I know you are forced by the situation now."

"But I believe that when you arrive at the Heavenly Misty Continent, you will thank yourself for your decision!"

Su Lang's voice became friendly, "At that moment, I hope you can shout out the word 'true fragrance' loudly."

Hear this.

Han Li Mozun and others were half-understandable.

Why do you want to shout the word Zhenxiang?

However, Ying Wa and others knew the meaning of the word Zhenxiang.

Who made them the people who have been on the Internet of Heavenly Spirit of the Mainland?

"I promise, they will call out the word "True Fragrance"!"

"Of course, we were also the same at the beginning, and later did not follow His Majesty Su Lang!"

"These people will soon know the greatness of His Majesty Su Lang!"

On the Infinity, Ying Wa and others communicated with each other, with huge smiles on their faces. at this time.

"You cultivators of the ten thousand realms."

"Since you have joined my subordinates, I will naturally not be stingy with you."

"These pills can probably help you break through a small realm. Accept them all, there will be more in the future."

"Of course, I also need your absolute loyalty. In fact, I have a way to forcibly collect your loyalty, but I don't want to treat you like this."

Su Lang sprinkled a lot of the perfect pill from the beginning, while talking lightly.

Han Li Mozun and the others looked at the pill in front of them in horror, while looking up at the tall Boundless Number, suddenly felt that following Su Lang seemed to be a good choice.

at least.

These perfect quality medicines from the beginning were cultivation treasures that he had never dared to think of!

"Subordinates thank your Majesty for the generous gift!!"

"Since I have already made a choice, there is no turning back!"

"I will swear with my Dao heart, I will follow your Majesty's steps with one heart and one mind, and resist Yuan Mingzhou Emperor, even if the disaster is over, I will never regret it!!"

"..."

Han Li Mozun and others knelt at Su Lang's feet, swearing with Dao heart.

For monks, Dao Xin is a kind of strange existence related to soul and state of mind condensed by senior monks on the path of cultivation, half virtual and half real, mysterious and mysterious.

Swear by Dao Xin, it has a terrifying restraint effect on monks.

And the higher the cultivation base, the stronger the binding force of Dao Xin.

Like a monk in the Primordial Realm, those who violate the oath will not only cut off the path of cultivation, but even fall into the Primordial Realm.

Han Li Demon Sovereign and others swear by Dao Xin, it can be seen that they have really made up their minds.

"well!"

"Next, let's all enter the boundless ship!"

Su Lang smiled slightly and waved his right hand lightly. More than twenty beams of light were projected from the Infinity, which fell on Han Li Mozun and the others.

[Chapter 2038: All cultivation enters boundless](#)

Suddenly!

Han Li Mozun and others felt a faint attraction.

"We can also enter the Infinity Ship!!"

"Such a powerful magic weapon, the great Majesty Su Lang allowed us to enter!"

"..."

The primordial monks felt Su Lang's deep trust, and their hearts moved!

Immediately after.

They followed the suction force, hovered, and flew into the parts that Su Lang had prepared for them.

In an instant.

Everyone felt that their power was integrated with a large number of powerful people under the influence of Infinity, forming a more terrifying power!

"Let you feel the power we have."

"Lest you are always full of pessimism!"

Su Lang smiled faintly, and immediately moved his mind, summoning the sacred beasts one after another and entering each part.

Suddenly.

The power of Boundless has increased again!

This is not over yet.

In order for Han Li and others to better feel the powerful power of the Infinity.

Su Lang began to use the power of time in various stages.

Starting from the "Moment of Eternity" in the 'now' stage, then the "Silence Heart Sutra", the "Future Good Fortune Mystery" in the 'future' stage, and the "Trace to the Origin of Eternity" in the 'past' stage.

Every exercise has been mastered to the extreme!

Therefore, the profound meaning of time displayed by Su Lang shocked all the early powers!

Even a cultivator of Qiyang Taichu such as Han Li, after comparing Su Lang's time and profound meaning, all discovered his own shortcomings!

Especially in the 'past' stage.

Han Li can only enter the realm of Qiyang, contacting the 'past' stage of time.

However, Su Lang has mastered "Trace to the Origin of Eternity" to the founding level.

The profound meaning of time in the 'past' stage has been mastered very profoundly.

Han Li felt it a little, and immediately benefited a lot. He felt fortunate to join Su Lang's subordinates in an instant!

It's not just Han Li.

Ying Wa of the Wu clan got a lot of inspiration from Su Lang's profound meaning of time!

This is true even for the two Qiyang primaries.

The rest of the witches and monks in the Primal Beginning Realm will naturally gain more!

"I didn't expect this powerful humanoid magic weapon to have such incredible functions!"

"Our energies are not only gathered together, but we can even feel the profound meaning of a higher realm. It is incredible!"

"Joining His Majesty Su Lang's subordinates is the most correct choice!"

"I have seen a glimmer of hope!!"

"..."

All sorts of thoughts arose in the hearts of the primordial monks, and a light of excitement flashed in their eyes.

They suddenly remembered what Su Lang had just said

—If you feel grateful and grateful for the decision you have made, shout the word 'true fragrance'.

Although they don't know what the true fragrance represents, they also read it silently in their hearts! at this time.

"Everyone!"

"Our strength is far more than that."

"Furthermore, under my leadership, you will be able to make continuous progress. In the future, everyone will become half-step eternal, it is possible!"

Su Lang's voice spread through everyone's minds again.

Suddenly.

All the early monks trembled together!

Become half-step eternity! ?

This is too exaggerated!

It should be understood that this cultivation of the ten thousand realms is transformed by the half-step eternal realm strong.

In such a realm, how can they have the courage to covet it?

but.

Everyone suddenly heard Ying Wa's voice: "Don't think that His Majesty Su Lang is bragging, he never tells lies!"

This statement came out.

A hint of surprise rose in the hearts of all the monks from the beginning.

They are neighbors with the Wu clan, and they have had some dealings with Yingwa over the long years.

They know that Ying Wa is a very arrogant and stubborn person, and never bothers to lie.

In this matter, even Ying Wa thought that it is possible for him and others to become half-step eternal, which means that under Su Lang's leadership, they really have the opportunity to become half-step eternal strong!

Thought of this.

The first cultivators couldn't help being so excited that their hearts trembled!

"I will definitely follow in the footsteps of Your Majesty!!!"

"The direction of your Majesty Su Lang's will is the direction I wait for the blade!"

"The great Majesty Su Lang will surely lead us to defeat Tianmi Continent, resist Yuan Mingzhou Emperor, and save the boundless universe!"

"..."

One by one from the beginning, the strong made their own voices, letting Su Lang see his firm will!

[Chapter 2039: Cultivation of the demon outside the ten thousand realm](#)

"well!"

"I will condense the power of the entire infinite universe little by little to defeat Emperor Yuan Mingzhou!"

Su Lang's solemn voice came, "Now, I declare that the realm of cultivation has merged into the Continent of Heaven, Han Li, now take me to take over the realm of cultivation!"

"Yes!!"

"His Majesty Su Lang, the stalwart Emperor Su Lang!"

Han Li immediately took the order, and then began to guide Su Lang and introduce the situation of the cultivation world.

There are a total of 99,980,000 small worlds in the cultivation world.

The lower the level of the small world, the greater the number.

The higher the level of the world, the fewer the number.

There is only one largest world, Tianhanjie!

Tianhanjie is a half-step eternal monk who has turned into the realm of all realms. The universe of life of the ancestor of monks is extremely vast!

Except besides.

The rest of the world is the crystal wall world of the ancestor of the monk.

The ancestor of the monk obviously took the ordinary path of the beginning, fusing the crystal wall world with each other, reducing the number, thereby reducing the difficulty of cultivation.

Perhaps this is also an important reason why he can reach the half-step eternal state.

At this time, the world in which the Boundless was located belonged to the Boundless universe, not in the realm of cultivation.

At this moment.

Under the leadership of Han Li, Su Lang controlled the Infinity, and soon came to a lonely void.

"Your Majesty Su Lang, the cultivation world is below!"

Han Li pointed at the foot of the Infinity and reported to Su Lang.

No need to say Han Li.

Su Lang has also seen the full picture of the cultivation world!

It was like a huge crystal tower standing in the endless void!

but.

This huge tower is irregular, like a crystal sand tower piled up by a large number of crystal particles, just like a masterpiece of a child on the beach.

There are the most 'crystal particles' under the giant tower of the cultivation world, and besides the formation of the 'tower base', it even paved a 'sand sea'.

Those are the lowest level of the world.

Called the mortal world by the monks!

The mortal world is also divided into high and low levels.

The higher the level of the mortal world, the stronger the spiritual power, and the inner monks can cultivate to a higher realm.

Going up the tower base is the spiritual realm with stronger spiritual power, then the **** realm, the holy realm, the immortal realm, the mysterious realm, the celestial realm, the Taiyi celestial realm, and the heavenly realm.

It's not that there are no mortals in the world with higher levels.

There are mortals in these cultivation worlds, and the bigger the world, the more mortals!

For example, Tianhanjie is a comprehensive world.

There are from the lowest-level mortals to the powerhouses of the Primordial Beginning Realm, similar to the small Tianmen Continent.

at this time.

Han Li also introduced the situation of the internal forces in the cultivation world.

The cultivation world is close to 100 million worlds, divided and occupied by twenty-seven monks of the Primordial Beginning Realm.

The higher the strength of the monks of the Primordial Beginning Realm, the more world they rule.

And the world under their command will occasionally go to war.

However, the monks in the early days would not attack each other, and the world wars under their command were just for fun in the leisure time of cultivation.

but.

One of them was too early, but Han Li and others had already regarded it as a real enemy!

That was a monk of the Qiyao Realm of Taichu named 'Baitian'!

This person was originally just an ordinary monk from the beginning, and his ranking was not high.

However, he was lodged by the 'extraterrestrial demon' and embarked on the weird way of incense from the demon, and his speed soared sharply.

Before Han Li and others could react, they had already been promoted to the realm of Qiyao Prime Beginning!

"Exterior Demon?"

"Han Li, talk about this thing carefully!"

Su Lang heard about the extraterritorial celestial demon, and suddenly became interested. He often saw this when he used to read books.

It might be the existence that left a strong mark in the core of the boundless world.

But I haven't seen it in the boundless universe.

"Return to Your Majesty Su Lang!"

"This extraterritorial celestial demon has to start from three billion years ago!"

"The cultivation world at that time was far more prosperous than this time, and the subordinates were only able to reach the realm of Jiudu Supreme Emperor."

"But one day, a powerful monster suddenly appeared in the cultivation world, claiming to be an innate demon."

"A large number of powerful people from the beginning have all shot together, but they are not the opponents of the innate demon at all. Instead, they have suffered heavy casualties!!"

When Han Li said here, his face was pale, showing how terrifying the battle was at that time!

[Chapter 2040: The difficult worship of the gods](#)

"go on!"

Su Lang nodded slightly, thoughts flashed in his eyes, innate demon, a bit interesting!

"Yes, Your Majesty!!"

"In the end, the primordial powerhouses of the ten thousand realms will not survive, and they will run away!"

"And the innate demon did not chase and kill, but stayed in the realm of cultivation for a short period of time, took away something very important, it is suspected to be a blessing opportunity left by the ancestor of the eternal monk!"

"And during the time this innate demon was staying, countless extraterritorial demon was produced, hiding in the void, everywhere..."

"..."

Han Li continued to talk about the intelligence of the extraterritorial demon.

Those extraterrestrial demon are like some kind of weird incense creatures, able to absorb negative incense smell, and possess incomparably evil abilities!

They can occupy the monk's body and live in it to become a symbiosis.

Those who are boarded with symbiosis will be broken, and will be extremely painful.

But they can embark on another weird path, where incense and spiritual power are cultivated, and they will be extremely powerful!

That "Baitian" is because of being lodged by a powerful extraterritorial demon.

Only in a very short period of time will have such a strong strength.

For those extraterrestrial demons, Han Li and others had also thought about eliminating them, but there was no obvious effect at all.

One is because the extraterritorial celestial demon is composed of a strange incense power that has sublimated qualitatively and it is more difficult to eliminate.

The second is because there are too many extraterritorial heavenly demons, and they are hidden deep and run fast, making it difficult to kill them all.

And they can divide themselves, more and more, they can't kill them!

The third is because the extraterritorial demon has become the object of protection by 'Baitian'!

'Baitian' is powerful due to the extraterritorial demon, so it admires the extraterritorial demon very much.

He even established the worship of the gods, and gathered countless monks who were boarded and symbiotically hosted by the gods outside the territory, and the power grew stronger.

Countless monks have no hope of a higher realm.

Many people will choose to live with the demons outside the territory, become evil people, and cause disaster!

Especially the monks at the bottom are most susceptible to the temptation of extraterritorial demon.

Therefore, many of the worlds in the realm of cultivation have been eroded by the worship of the gods and turned into real demons.

In the past, the so-called Demon Realm was nothing more than an axe, and it was not evil at all, so it was no longer called the Demon Realm, and it was all called the Spirit Realm.

Of course, the previous demon world was also the world that transformed into the real demon world the most.

Moreover, the tentacles of BAITIEN Demon Sect are very deep and very wide.

Based on the information obtained by Han Li et al.

In the entire world of cultivation, it is estimated that one-fifth of the world has shown signs of worshipping the demon!

Even this is a conservative estimate, the real situation may be more serious than this!

"and so!"

"Cultivation of the Ten Thousand Realms is actually very serious!"

"Just being a worshipping demon cult, an extraterritorial demon, has already caused you to be devastated."

"This is also the reason why you were unwilling to leave the realm of cultivation and follow me to resist Tianmi Continent at first!?"

Su Lang listened to Han Li's narration, and a slight smile suddenly appeared at the corner of his mouth.

"Your Majesty's insight is like a torch!"

"This silent expansion of the worshipping demon cult, I am almost helpless."

"Originally, I was waiting to gather strength to eliminate BAITIEN, but we no longer know how strong BAITIEN is at this time, so we are hesitant and dare not do it."

Han Li smiled bitterly and nodded, "I remember the first time we had a dozen or so cultivators to eliminate BAITIEN, and we almost lost manpower."

"Yes!"

"Baitian is too strong!"

"The main reason is that the incense way of the extraterritorial demon is too weird. If you are not careful, you will be assimilated and contaminated!"

"Then BAITIEN's resistance to the rules of time is extremely terrifying. We can not restrain him if we use the rules of time together."

"..."

The early monks who had participated in the war said with lingering fears, and there was a glimmer of expectation in their eyes.
