

One Click 2051

[Chapter 2051: Frightened and desperate prayer](#)

So he didn't realize that it was Su Lang's deity.

Otherwise, BAI Tian would have returned his hand long ago and attacked Su Lang.
at this time.

Su Lang was also a little surprised.

"Does this guy actually do anything to my clone?"

"I'm ready to sacrifice some clones, he won't do anything?"

"Now my deity appears, he still doesn't do it?"

"Afraid of this?"

Su Lang raised his eyebrows, "Forget it, no matter what he thinks, let's kill it."

Thought of this.

Su Lang immediately unfolded his virtual spirit universe, covering a range of tens of billions of light years! !

Baitian is naturally within the envelope of the virtual spirit universe!

A terrifying mysterious force immediately fell on BAITIEN's body, causing him to suffer extremely intense burning pain!

"what!!!"

"What's wrong with me!?"

"Why do I feel so painful!"

"My strength, my strength is disappearing, how is this possible!"

"Exterior Demon Ancestor, Extraterritory Demon Ancestor! What the **** is happening here!!!"

"..."

The advancing Baitian suddenly stopped and let out a scream, but he didn't know why he was like this.

Because he subconsciously believed that Su Lang's clone could not cause harm to himself.

So he couldn't figure out what happened.

"Baitian!!!"

"My strength is also dissipating!!!"

"Isn't this situation like the death of the strong under our command!!!"

"That clone, the Martial Artist clone of the early days may be the key, kill him, kill him soon!!"

"..."

The foreign demon ancestors who lived with BAITIEN also suffered endless suffering.

Even because he was a pure incense body, the damage he suffered was far greater than that of BAITIEN!

"Ah! My power!"

"I want to kill...Kill him!!"

After BAI Tian received the reminder of the outer demon ancestor, he suddenly exploded with majestic killing intent, carrying endless pain, and slaying Su Lang fiercely!

then.

Su Lang saw a scorched ghoulish humanoid monster with black smoke and twitching body killing him.

"incredible."

"I can survive for so long in my virtual spirit universe."

"And there is the power to fight back! It's a pity that you can't attack me if you take the initiative!"

Su Lang smiled lightly, whispering a faint voice in his mouth.

"Voidling universe?"

"I don't care what you do, I'll kill you in the beginning of the Siyan!"

Baitian heard Su Lang's whispering voice, and instantly roared with resentment, killing him like a madman.

however.

The power on his body madly dissipated, and his cultivation level continued to decline.

When he flew in front of Su Lang, he was about to fall into the Siyan realm!

"Sky Demon Dazzling Sword Technique——!!!"

"You die for me!"

Baitian roared incomparably stern and stern, and holding a four-dimensional twisted long sword, he slammed Su Lang fiercely!

However, Su Lang didn't even bother to hide!

"The evil cultivator who coexists with the celestial demons outside the territory dare to say that they want to kill me, it is ridiculous!"

Su Lang had a calm expression with both hands. He calmly looked at the long sword that came in front of him, and a slight smile was drawn at the corner of his mouth.

The next moment.

A shield emerged directly, forming an extremely strong barrier, instantly blocking the long sword of Baitian!

Ding dumbstruck— — ! !

An extremely harsh sound erupted in the surroundings along with violent energy ripples!

The barrier formed by Tianjia's eight-sided shield shuddered slightly.

Su Lang didn't even blink his eyes!

"what!!"

"Even blocked?"

"It's impossible, no, it's not true!!"

"Ahhhh! My body, my strength, no, I don't want to die!"

"Master Innate Demon, look, your people are going to be killed!!"

"..."

Baitian saw that his long sword was blocked, and he roared in horror and despair.

Within the coverage of the Ethereal Universe.

The power of BAITIEN is being deprived all the time!

He has only one chance.

But he failed, and death is waiting for him!

And just now!

[Chapter 2052: Innate Demon Awakens](#)

"Ok?"

A somewhat confused voice came from the void, with a trace of laziness in it.

But even if it is confused and lazy, it cannot conceal the ferocity and evil aura!

It is the innate demon that woke up from the deep sleep!

On his extremely huge black body, two extremely huge red cracks slowly grinned, revealing two bony white weird pupils!

In his mouth, there was a slightly faint voice before.

And this extremely terrifying existence possesses half-step eternal terrifying power!

Just a faint voice made Su Lang face pale and burst into cold sweat!

"Lying down!"

"so smart!"

"I'm afraid I will lose my life here today!"

Su Lang raised his eyebrows and placed his clone, ready to trigger death replacement.

Simultaneously!

"Master Innate Demon!"

"Please help me, help me!"

"I don't want to lose my strength, I'm going to fall into the first stage, I'm going to die!!"

"..."

Seeing that the innate demon was awake, Baitian suddenly screamed, and the sound was mixed with horror, despair and ecstasy. It was getting complicated!

"Who dares to fight by my side?"

"Oh, is it a little monk who has parasitized the alien monster?"

"He seems to be miserable, how could he become like this? What is it?"

"The other one seems to be...Huh? It's Human Race!"

"Unexpectedly, after countless hours, the human race as weak as ants will also appear strong in the beginning."

"Moreover, it ran right in front of me, it was incredible!"

"However, whether it is a monk or a warrior, I am...hungry now!!"

The innate demon didn't need divine thoughts at all, and saw the existence of Su Lang and BAI Tian, a trace of surprise appeared in his eyes, and then he became indifferent.

As a half-step eternal existence that has lived for countless billions of years.

He has seen too many in the ordinary primordial realm.

In front of Him, it is no different from other 'ants', they are all food.

To be precise, it is a tool for making food.

Yes.

What He eats is not flesh and blood, but all kinds of negative emotions.

The extraterritorial demon inherited his habits!

And the extraterritorial demon.

In fact, it is his staple food, and at the same time it releases the tools to make food.

simply put.

It is to release the 'food' such as the alien demon, let them parasitize the intelligent creatures, swallow the negative emotions and strengthen themselves.

In this way, delicious food will grow up on its own...

at this time.

Seeing BAITIEN living with the alien celestial demon and the energetic Su Lang, the congenital demon suddenly had an appetite.

When Su Lang and Baitian heard the words of the Innate Demon, their expressions changed.

"what!?"

"Master Innate Demon, you want to eat me as food!?"

"No! Lord Innate Demon, I am your citizen!"

"Master Demon, I am your descendant, please don't eat me!"

"..."

BAITIEN and the Outer Demon Ancestor begged for mercy in disbelief at the same time, and couldn't believe that the innate demon would eat themselves!

But Su Lang was simply nauseous.

He doesn't want to be eaten.

At this time.

"come on!"

"Let me lick it first!"

The innate demon's cold voice came, but the content of the words caused Su Lang's mouth to twitch.

"Lying down!"

"Also lick it first?"

Su Lang stood upside down, "Is this innate demon a pervert?"

at this time!

The innate demon suddenly stretched out a tentacle...

"I hold a grass!"

Su Lang's eyes twitched, "All the tentacles are out!"

The next moment.

The black ferocious tentacles spanned an unknown number of light years, and instantly stretched out in front of Su Lang, wanting to eat BAITIEN first.

however!

Zi Zi Zi!

Zi Zi Zi!

Thick smoke burst out from the black hideous tentacles instantly!

It's exactly the same as the Baitian on the side!

"what!!"

"What is going on, what is it that can swallow my energy!?"

The pupils of the innate demon instantly shrank, and they were filled with a thick incredible.

He has lived so long and grown up so long, this is the first time he has encountered this situation! !

[Chapter 2053: Don't run, let me eat a few more bites](#)

Not only the innate demon.

Baitian on the side was even more horrified.

In his heart, he is invincible to the universe, Lord Innate Demon.

He was being drawn and devouring power just like himself! !

So what exactly is Su Lang's background? Obviously, he has only Siyan-level combat power, and he can actually cause damage to the half-step eternal level Innate Demon Lord! ! ?

Simultaneously.

Su Lang is also a bit surprised...

He had no idea that he could absorb the power of the innate demon!

but.

When I thought about it again, he was stunned.

No matter how strong the innate demon is, its path is also a special incense path.

As long as it is related to the incense aspiration, it must be restrained by the virtual spirit universe!

Therefore.

Even the innate demons that are as strong as half-step eternity are also drawn by the Ethereal Universe to devour incense power!

At this moment.

Countless incense will power was sucked out from the tentacles of the innate demon, and then swallowed into the virtual spirit universe.

In a flash!

Su Lang discovered that the Ethereal Universe began to grow wildly!

Not only that!

In the Qibao Miaoshu Void Dragon Vein Celestial Realm, the speed of condensing special incense crystals has increased wildly!

Countless incense creatures have become extremely powerful under the infusion of a huge amount of incense!

Immediately, the special incense aspirations produced by these incense creatures were more and more pure, and the speed of condensing incense crystals naturally became much faster!

In a short time.

Countless incense crystals were condensed.

Soon it reached the point where it could upgrade the Qibao Tree!

at the same time!

In the heart-piercing lock void dragon vein heaven, the incense creatures have also become extremely powerful, and then they have produced countless special incense aspirations.

In the Heart-piercing Lock Void Dragon Vein Celestial Realm that presents the appearance of a scroll, the Heart-piercing Lock becomes more and more clear, as if it is about to fall out of the painting!

at this time!

"what!!"

"I don't want to die!"

"Master Innate Demon, please don't give up on me, save me!"

"Master Innate Demon, I will definitely help you find more food!"

"Ah, I'm going to die!"

"no no!"

Baitian made an extremely screaming scream, and not only his voice, but also the voice of that foreign demon ancestor!

Driven by the desire to survive, they screamed in horror and despair, begging!

But the innate demons didn't even look at them.

As the two of them became weaker and weaker, the speed at which Su Lang Xu Ling universe extracted incense power became faster and faster.

in a blink!

Baitian became a black scum on the ground.

The demon ancestor outside the territory was swallowed completely and completely disappeared!

"hiss!!"

"A lot of incense and willingness, the heart-piercing lock will soon be condensed!!"

Su Lang felt the constant flow of incense and willingness, and his face suddenly became excited.

Simultaneously.

"Unbelievable!"

"It's incredible!"

"Unexpectedly, there is such an existence in the world, capable of absorbing incense willingness regardless of everything!!"

The innate demon watched BAI Tian being killed by Su Lang alive, and then looked at his tentacles that were constantly bubbling with smoke and also drawn out of power, and suddenly murmured in disbelief.

Simultaneously.

Because of being absorbed the power of incense.

A torrent of intense pain came from the tentacles, and the Innate Demon couldn't help but want to withdraw the tentacles first, and then take a closer look at Su Lang!

Huh!

With a fierce move of the tentacles braving the endless thick smoke, they immediately left the enveloped area of the Ethereal Universe.

have to say.

The innate demon in the half-step eternal state is too powerful!

A space of tens of billions of light-years, if you say that you cross it, you can cross it!

but!

Just when the Innate Demon planned to investigate Su Lang carefully.

"Hi!"

"Don't run, let me eat a few more bites!"

Seeing the hideous tentacles disappear, Su Lang raised his eyebrows and his face was unhappy.

His piercing lock has not had time to condense!

And condensed the piercing lock, can't this condense more incense weapons! ?

How can the innate demon be let go?

Others are afraid of innate demons, Su Lang is not afraid!

Anyway, he now has forty-nine lives!

[Chapter 2054: It's so cool](#)

"Start the avatar dispatch function!"

Su Lang thought, and a Baiying clone suddenly appeared closer to the innate demon!

"Ok!?"

"what's the situation?"

"Why did this strange guy who looks exactly like that human clan suddenly come here!?"

"There was no spatial fluctuation during this period, which is really strange!"

"What kind of strange trick is this!?"

"..."

The innate demon looked at the avatar of Su Lang Baiying who appeared not far away, and his face was suddenly shocked.

Following Su Lang's method of extracting incense power.

He saw another trick that was difficult to see through!

Soon.

The Innate Demon once again stretched out a thin tentacle, preparing to stab Su Lang's Baiying clone to death.

But at this moment!

"Clone replacement!"

Su Lang's heart moved, and he immediately exchanged positions with the clone!

The tentacles extended by the Innate Demon happened to be within tens of billions of light-years from Su Lang's side.

then!

Zi Zi Zi!

Zi Zi Zi!

Another endless smoke came out of the tentacles, and the intense pain caused the tentacles of the innate demon to twitch!

"what!?"

"This Human Race kid unexpectedly swapped places with that thing before!!"

"He still maintains the same means of absorbing the incense willpower!"

"This kid, he is going to chase me to suck!"

"..."

Unbelievable arose in the heart of the innate demon!

Not only is he unbelievable about Su Lang's clone dispatch and clone replacement functions.

I also feel incredulous that Su Lang dared to chase after himself to smoke incense!

OMG!

He is a half-step eternal strong, innate demon, cross-border universe, almost invincible!

And Su Lang is just a little man with the power of the Siyan Taichu!

At a mere four levels, in the eyes of the innate demon, it is really no different from the ants!

Su Lang chased the innate demon spirit and sucked the incense, like a little ant chasing a human to bite!

A strong sense of absurdity appeared in the heart of the innate demon.

"I'm afraid this little thing is crazy!"

"A mere four generations level, you are not afraid of death chasing me to suck!"

"Well, since you are looking for death, then I will fulfill you!"

The Innate Demon thought so, and immediately drew out three tentacles again, preparing to kill Su Lang!

But at this moment.

One of Su Lang's Baiying avatar appeared closer to the innate demon, almost touching his face!

Soon.

Su Lang collected all the treasures in his body into the storage space.

Then he did not hesitate to use the clone replacement, and appeared near the innate demon.

Here.

Looking up, the innate demon is suspended in the universe like an endless black planet!

Su Lang can even see more details on the innate demon's body!

Simultaneously.

The innate demon was also successfully enveloped by the virtual spirit universe!

For a moment!

Zi La Zi La!

Countless thick smoke emerged from the innate demon.

The pain that swept from the whole body made the innate demon tremble fiercely like an electric shock!

"how is this possible!"

"He can span such a long distance and run directly in front of me!"

"His weird supernatural powers can cover my body!"

"Ah, it hurts, my power! My power is fading!"

"Damn, he can draw incense aspirations so fast!"

"Dare to deceive my face, I must kill you today!"

The innate demon was enveloped by Su Lang's Ethereal Universe, and it was suddenly shocked and angry!

In a flash!

Numerous spikes pierced fiercely from the huge body of the innate demon, and instantly fell on Su Lang's body!

An extremely terrifying force came.

Su Lang's eyes were too late to blink, and the death substitution was triggered instantly!

A clone that had been prepared for a long time completed the death.

Su Lang instantly stood in the original position of the death clone.

"Ooooooo!"

"This breath is so cool!"

"Sucking the entire body of the Innate Demon in one sip is a million times more powerful than the incense wish obtained by sucking a tentacle!"

Su Lang looked at his Void Spirit Universe, and he was suddenly so excited.

The incense aspiration drawn by this mouthful is too much!

He not only increased the radius of the Ethereal Universe by a full billion light-years, but also condensed the heart-piercing lock!

[Chapter 2055: It's completely dead now](#)

but.

Su Lang does not plan to check the heart-through lock for the time being.

"Damn it, so much of my incense aspirations!"

"Fortunately, I woke up early, or if I was secretly sucked by him while I was asleep, I shouldn't lose money?"

"..."

The innate demon thought that Su Lang was already dead, so he snorted viciously, and then prepared to recuperate.

But at this moment!

call!

A Baiying clone of Su Lang appeared again, and was replaced by Su Lang!

"what!?"

"Also, not dead yet!?"

The innate demon's eyes glared, and immediately began to emit thick smoke again!

"Ah~"

"This incense willpower is awesome!!"

Su Lang felt the incense and willingness of continuously inhaling the virtual spirit universe, and suddenly showed intoxicated expression.

"Wow!!"

"How can you ant have not died yet!?"

"I killed you, I killed you!!"

"Die to me!!"

The innate demon was dumbfounded, and immediately roared extremely cruelly. Tentacles stretched out from his body, forming countless weapons, and slashed at Su Lang's body.

Puff puff!

The sound of countless sharp blades pierced into the flesh sounded.

Death substitution is triggered again!

Su Lang suddenly appeared somewhere far away.

"Always kill now!"

"I don't believe it, this Human Race kid can come back from the dead!!"

"Damn it, I was sucked a lot of incense and willingness again, **** it!"

"..."

The congenital demon looked at Su Lang (actually a clone) who was chopped into minced meat, and his teeth tickled with anger!

but.....

Huh!

The avatar of Su Lang appeared again, and then Su Lang replaced the avatar again!

The virtual spirit universe, which had grown to a radius of 12 billion light-years, instantly enveloped the entire body of the innate demon!

Accompanied by a sizzling voice.

Countless thick smoke has risen again!

The severe pain once again filled the body of the Innate Demon, making him dumbfounded.

"Also...not dead yet!?"

"How is this possible, how can Human Race have this ability to come back from the dead?"

"Is anyone using the rules of time to help him resurrect, but there is no other powerful existence around!"

"What's more, a person who is revived by the rules of time, if the rules of time on his body are synchronized by the boundless universe, he will immediately return to the state of death!"

"How can this mere four-level guy maintain the time rules that resist the infinite universe?"

"What the **** is going on, what is this human guy!?"

"Does he possess some kind of treasure related to time when the universe was born?"

The innate demon was stunned, even with his countless years of experience and insights, it can only be explained by the treasures produced at the beginning of the universe.

Just when his thoughts are full!

[Chapter 2056: Don't kill him this time, catch him](#)

Su Lang appeared again!

The virtual spirit universe spread out, and countless thick smoke appeared on the body of the innate demon!

"what!"

"so comfortable!"

"It would be even better if this innate demon didn't resist!"

Su Lang was suspended in the void, constantly extracting the power of the innate demon, his face almost bloomed with a smile!

"Appeared again!"

"Does he really have some kind of special treasure related to the Avenue of Time at the beginning of the universe's birth!?"

"Don't kill him this time, catch him!!"

Seeing that Su Lang appeared, the innate demon immediately stretched out a very thick tentacle and directly wrapped Su Lang!

Zi Zi Zi!

Countless thick smoke rose from the tentacles.

A huge amount of incense will be swallowed by Su Lang's Ethereal Universe!

"Are you going to kill me again?"

"What's the matter, I still have more than forty lives, come on, kill me!"

Su Lang looked at the tentacles wrapped around his body, and a bold smile suddenly appeared at the corner of his mouth.

but.

Surprisingly.

The innate demon's spirit light wrapped his tentacles around him, and did not kill him!

and!

There were also many small tentacles like kelp silk growing on the tentacles, groping on Su Lang..

"Lying down!"

"This innate demon has been eating negative incense and willingness, and it really has become a pervert!!"

"This is so terrible, it's worse than death!"

"Forget it, for the sake of incense strength, just treat it as a rope!"

Su Lang saw the 'kelp' condensed by the innate demons swimming up and down around him, and he suddenly felt a chill.

But in order to absorb the power of incense, he planned to endure it.

You can absorb countless incense and aspirations for a moment!

at the same time.

"No!?"

"How could it not!?"

"He didn't have a special treasure related to the Great Avenue of Time at the beginning of the universe. How did he come back to life!?"

The innate demon didn't find the expected treasure from Su Lang, and his face suddenly appeared astonished!

Immediately after.

An idea appeared in his mind.

"He must have that special treasure!"

"But he was not placed outside, but in the body, either in the flesh and blood somewhere, or in the universe of life!"

"Hmm, I must find your treasure!!"

The eyes of the innate demon flashed a bright light, condensing more 'kelp', grabbing Su Lang's body and tearing it hard!

Hiss!

Death substitute trigger.

The avatar was splashed with blood and broken to pieces...

Simultaneously!

A whole ten life universes were captured by the innate demons with special means, and emerged in the void!

Not only that.

Those shredded flesh and blood were also split into individual crystal wall cells by the innate demons in a strange way!

He wanted to find the treasure he suspected from the flesh and blood of Su Lang and the universe of life!

But He did not know.

It was not Su Lang that he shredded, but Su Lang's clone!

At this moment.

Seeing Su Lang (the clone) so many life universes and crystal wall cells, even the innate demons were shocked!

"hiss!!"

"This little human race has ten living universes and so many crystal wall cells!!"

"This cell... one, two, three, four, five... a full one hundred and seventy crystal wall cells!"

"With so many crystal wall cells, how did this guy cultivate!?"

"It's no wonder that his cultivation base is only two generations, but his combat power is four generations. Such a good foundation is incredible!"

"No matter, let's see if there are any treasures in his cells!"

"..."

Various thoughts arose in the heart of the innate demon, and even if he began to sweep the universe of life with his spiritual thoughts!

But the next moment he was stunned again.

Because the ten life universes are all empty!

"how is this possible!?"

"Ten life universes, but not even the weakest life planet!?"

"It's impossible! Doesn't he need humanity?"

"Did he transfer the planet to the crystal wall cell!?"

"Although this is a bit abnormal, it is also possible. Look at the crystal wall cells first!"

After a period of horror, the innate demon began to detect the crystal wall cells with divine mind.

[Chapter 2057: Stand obediently and let me get full](#)

however.

still none!

There was no crystal wall cell with living creatures at all.

Can't find the special treasure in that guess!

And look for it.

The innate demon suddenly discovered that the corpse had turned into a strange mist, and gradually disappeared!

"What's happening here!?"

The innate demon roared incredible!

at this time,

The avatar of Su Lang appeared again, and then replaced with Su Lang's deity!

The virtual spirit universe spreads out.

Start to draw the incense aspiration power of the innate demon again.

"Resurrected again!"

"How did you do it!?"

"No one in the universe can be resurrected multiple times for no reason!!"

The innate demon stared at Su Lang fiercely, not even the pain on his body!

"Sorry."

"then I can!"

"Innate Demon, you can't kill me, stand obediently and let me get full!"

Su Lang with one hand on his back, looked at the innate demon with a playful look, as if I would take you.

Although he actually only has more than forty lives, he can pretend to have countless lives!

"what!?"

"Can't kill you!?"

"There is no one in the world that I can't kill, you die for me!"

The innate demon was furious, and instantly stretched out countless tentacles to pierce Su Lang (the clone) to a chill!

After death substitution is triggered.

Su Lang immediately dispatched the clone to replace it, and continued to use the Void Spirit universe to devour the incense and desire power of the innate demon.

"Do not!"

"This is not true! I am going to kill you!"

The innate demon roared with incomparable anger and disbelief, and waved his tentacles again to kill Su Lang (the clone)!

but.

He killed again and again!

Su Lang has been constantly resurrecting out of thin air, reappearing, and continue to consume his power! !

ten times!

Twenty times! Thirty times!

At the fortieth time, the innate demon gave up the attack in a daze!

"it is true."

"He really can't kill, he can always be resurrected!!"

"What the **** is going on, what methods did he use?"

"I can't kill him in a mere four-generation realm. Moreover, he can ignore my defenses and continue to draw my strength!"

"If this continues, I will die!"

"No, I have to escape!!"

A rare trace of horror rose in the heart of the innate demon!

In countless years, he has absorbed countless fears and despair, but he has never personally born such emotions!

Immediately after.

The scared innate demon gave up the attack and fled straight away!

For an instant.

He crossed countless spaces and reached another deadly universe.

"Have you come after!?"

"It doesn't seem to be chasing me!"

"Huhu, there is such a weird thing in this boundless universe, Tianke me, it really scares me to death!"

"Damn it, he has absorbed a lot of incense power!"

"Moreover, the cultivation world doesn't dare to go back!"

"I spent so much time preparing food, now it's all cheaper, that guy, I'm so heartbroken!"

"..."

The innate demon first looked at the direction of the place where he was before.

Then he checked the incense willingness he had lost.

Suddenly a pain!

Immediately after.

In order to be safe, the innate demon teleported again for unknown light years.

Soon he stopped to cultivate and recover.

at the same time.

"Yo?"

"Scared away?"

"I still have nine lives for nothing!"

Su Lang looked at the empty universe after the innate demon left, and suddenly raised his eyebrows.

but.

Having absorbed so much incense aspiration power, it is also profitable!

And if there are only nine lives, it's almost the same. Keeping nine lives is just enough to deal with some accidents.

Of course.

It is impossible to let go of the innate demon!

"Treasure Hunt Flying Flying Glider!"

"Activate the "Soul Soul" function!"

Su Lang thought, countless treasure hunting flying flying flying.

"Squeak!"

Treasure hunting flying gliders, densely like locust swarms, collected the breath of innate demons.

Then keep moving towards the place where the innate demon is!

"Oh!"

"In that direction, go and go, open up a dispatch path for me!"

Su Lang looked at the direction the treasure hunting flying flying flies, suddenly showing a touch of playfulness, and then sent a large number of Hundred Shadow clones to constantly rush to the place where the innate demon was.

However, Su Lang did not intend to send the clone to the side of the innate demon, so as not to startle the snake.

Feeling that the distance is almost the same, the clone will be taken back.

at this time.

While sending a clone, Su Lang looked at the Heart Piercing Lock that had just been condensed in the Void Spirit universe!

[Chapter 2058: Cohesion and evolution through the heart lock](#)

After repeatedly absorbing the incense aspiration power of the innate demon.

The area of the Ethereal Universe has expanded to a radius of 15 billion light years!

The diameter has reached 30 billion light years!

Because the incense of the innate demon is a negative incense.

Therefore, the colorful world before is completely gone.

The virtual spirit universe has become a purple-black world.

There are weird and twisted incense plants, incense animals, ghost-like clouds...

In short.

It looks like a ghost mythical creature!

Of course, this has no actual impact on Su Lang.

Anyway, he is immune to the erosion of all incense aspirations, and will not change at all because of the incense aspirations!

at this time.

In this very vast purple-black world.

Two small light spots floated up and down in a corner.

A lot of incense aspiration power is being absorbed by these two light spots.

Pulling in a little bit, you can see that these two light spots are actually the Seven Treasure Tree and the void dragon vein heaven world through the heart lock!

They take on the appearance of two scrolls.

It is painted with the Qibao Miaoshu and the lock of the heart.

In this purple-black world, they are the only colors.

Su Lang first looked at the piercing heart lock void dragon vein heaven.

But I saw that the heart-piercing lock on this picture scroll, like the Qibao Miaoshu, was completely transformed into a real object, ready to be used!

"Netherworld Dragon Vein Heaven Realm, now!"

With a thought in Su Lang, he instantly took out the Heart-piercing Lock Void Dragon Vein Heaven Realm and presented it before his eyes.

A huge picture scroll emerged, slowly flying in the void.

Immediately after.

Su Lang stretched his hand into the picture scroll and fished it lightly. It was as if he was fishing for the moon in the water, and he took out the heart-through lock!

Suddenly.

A longevity lock with three white jade chains hung appeared in Su Lang's hands!

The longevity lock exudes strange power, even Su Lang feels a bit creepy.

"Just after condensing, it is the first stage of Yi Yan!"

"Moreover, it is the strongest kind of Yiyan Taichu, which can be easily blocked and tortured by Yiyan Taichu strong!"

Su Lang carefully felt the power of the heart-piercing lock, and immediately his eyes condensed, and a lot of energy poured into it!

Instant time!

Three white jade chains release nine black jade chains, shaking their heads like nine ferocious black dragons, choosing people to eat!

A more terrifying breath radiated from above.

If the quasi-beginners saw these nine chains, they would not be able to bear it just by looking at them, and the soul would be banned!

"Unexpectedly, this piercing lock can not only block a single target."

"It also has the ability to attack in groups, and can block relatively weak warriors in a large area!"

"This is really a good treasure!!"

Su Lang nodded in satisfaction, and immediately looked into the picture scroll.

of course.

In Su Lang's eyes, he saw the emptiness of dragon veins in the world inside the scroll!

A large number of special wish power crystals have been condensed in that huge world core that has spawned countless dragon vein continents!

Yes, that's right.

The incense aspiration power drawn from the innate demon not only condenses the heart-piercing lock, but also condenses tens of millions of incense aspiration power crystals!

"Hahahaha!"

"So many incense and willingness to crystallize, it is enough for me to evolve the heart lock several times!"

An excited smile was drawn at the corner of Su Lang's mouth, and then he immediately collected those special wish power crystals into the storage space.

Immediately after.

"system!"

"Evolve me a heart lock!!"

Su Lang thought, and immediately issued instructions to the system.

"Ding! Consume the special incense wish power crystal *1000000, the heart-piercing lock evolves into the second Yan Taichu weapon!"

"Hi, just use a million!"

Su Lang sucked in a cold breath and immediately ordered again, "System, continue to evolve the heart lock for me!"

"Ding! Consumption of special incense wish power crystal *3000000, the heart-piercing lock evolves into a Sanyan Taichu weapon!"

"Ding! Consume the special incense wish power crystal *5000000, the heart-piercing lock has evolved into a Siyan Taichu weapon!"

"Ding! Special incense is not enough to crystallize!"

After the piercing lock evolved three times in a row, the special incense wishing power crystals were almost consumed.

[Chapter 2059: Wuyantai Primary Seven Treasure Tree](#)

"Evolved three times!"

"Achieved the Siyan Taichu level!"

"Tsk tusk, not bad, it has reached the realm of Siyan!"

"If it is strengthened again, it will definitely become one of the strongest weapons in my hand!"

Su Lang rubbed his hands in excitement, and immediately issued instructions, "The system, give me the specified materials, strengthen the heart-piercing lock!"

"Ding! Consumes Canglong Ice Emperor Liu*45865, Moon Scroll Demon Eye Rock*98658...Heart-piercing lock strengthens +1!"

"Ding! Consume Gu Feng Yuyu Jade*1589564, Fang Yingjinlinyan*74524...Heart-piercing lock strengthens +1!"

"Ding!....."

System prompts sounded continuously!

After the piercing lock was strengthened three times, Su Lang found that his material couldn't hold it!

The power of the heart-piercing lock is very scary, but the materials consumed for strengthening are also explosive!

Because it has a very high foundation, it has directly reached the Siyan Primordial Stage, and naturally more materials are needed for strengthening!

And the rest of the weapons.

For example, Su Lang's Youtian Sword, Godless Dragon Terrace, etc., were all strengthened when their level was lower before, and the materials consumed were much less.

Of course, the reinforcement completed by the consumed materials is naturally not as strong as the reinforcement completed by the consumption of more materials.

So till now.

The Youtian Sword itself is the realm of Sanyan Taichu.

But it has been strengthened a full eight times, and the combined power has only half of the foot into the realm of Wuyan Taichu.

But the heart lock is different.

It has a high foundation and consumes a lot of materials for strengthening. At this time, one strengthening can increase the power of a small realm!

After strengthening three times.

The true level of Heart Piercing Lock has reached the Qiyao Primordial Realm, becoming the highest level weapon in Su Lang's hands! !

"It would be great if the weapons such as Youtian Sword could be strengthened again."

"Although they have been strengthened eight times now, the previous few strengthenings are almost useless at the current level, which is equivalent to using the strengthening times for nothing."

Su Lang thought silently, and soon he put the Heart Piercing Lock into the Void Dragon Vein Heaven Realm again, and then put it into the Void Spirit Universe again.

Immediately after.

Su Lang's gaze fell on another void dragon vein heaven.

"Heart-piercing lock void dragon vein heaven has condensed so many incense and desire power crystals."

"Seven Treasure Trees, Void Dragon Vein Heaven Realm must also condense a lot of special incense crystallization!"

"This time, it is estimated that the Qibao Miaoshu can be raised to a very powerful level!"

Su Lang ticked the corner of his mouth, and then took the Seven Treasure Tree Void Dragon Vein Heaven Realm from the Void Spirit Universe.

Suddenly.

Another picture scroll appeared in front of Su Lang.

Su Lang skillfully took out the Seven Treasure Tree.

And counted the special incense wish power crystals condensed in the void dragon vein heaven, and then put them into the storage space.

Compared with the piercing heart lock void dragon vein heaven, there is more incense and wish power condensed on the Qibao Miaoshu!

The number has reached a full 13.5 million pieces!

"Heart-piercing locks need to condense themselves."

"The Qibao Miaoshu has already condensed itself, so the incense will have more crystals!"

"A full 13.5 million pieces can definitely evolve to the realm of the beginning!"

Su Lang licked his lips excitedly, and then gave the system an instruction, "System, evolve the Qibao Tree for me!"

The voice just fell.

The system prompt sounded.

"Ding! Consuming special incense and wishing power to crystallize *500000, Qibao Miaoshu has evolved into Liudu Godless Soldier!"

"Ding! Consuming special incense and wishing power to crystallize *600000, Qibao Miaoshu evolved into Qidu Godless Soldier!"

"Ding! Consume... Qibao Miaoshu has evolved into an Eight-Duty Godless Soldier!"

"Ding! Consume... Jiudu has no **** soldiers!"

"..."

This time.

Until the time when the special incense wish power crystal is consumed.

The system prompt sounded nine times! !

Qibao Miaoshu also successfully evolved from the Wudu Godless Soldier to the Siyan Taichu realm!

This has reached the same realm as the heart-piercing lock!

and.

The Qibao Miaoshu had been strengthened seven times.

Although it was a reinforcement at a low level, it was better than nothing at all.

Its power at this time has reached the realm of five eaves!

[Chapter 2060: The third incense weapon!](#)

"It has reached the realm of five evolves!"

"And it can be strengthened once!"

Su Lang suddenly brightened his eyes, preparing to strengthen the Qibao Miaoshu to the limit of eight times.

But when he saw the inventory in his storage space, the corner of his mouth suddenly twitched.

However, there is not much material in the storage space that can be used for one-click enhancement.

"There are so many materials used to strengthen the weapons of the early days!"

"The materials just obtained from BAITIEN are so used up!"

"It seems that I can only return to the world of cultivation and search for a wave!"

Su Lang sighed slightly, before he gathered the Seven Treasure Tree, and threw it into the Void Spirit universe to continue growing.

but.

Su Lang did not immediately return to the realm of cultivation.

Because he was going to choose a new weapon and condense it out of the emptiness dragon vein heaven!

After some thinking.

A purple-black gourd appeared in Su Feng's mind.

This gourd is the Zijin gourd!

The purple gold gourd is a powerful magic weapon that appeared in the prehistoric era.

The legend is the beginning of chaos, the world has opened up, and at the foot of a certain giant mountain, there is a wisp of fairy vine knotted with a purple, gold and red gourd!

Later, a strong person picked it and refined it into a magic weapon, purple gold gourd.

The ability of Zijin Gourd is very peculiar.

As long as the name is called, if the enemy responds, it is already inside.

Immediately, he posted a post saying "The Supreme Master is anxious like a law and order," and it turned into pus in a moment.

"This thing is quite similar to the "Death King" I learned before."

"However, "Dying the Great Emperor" is a causal secret technique. Its principle is the avenue of causal rules. It is estimated that it is strengthened to the Primordial Realm, and it is difficult to escape the framework of the avenue of heaven and earth, and it is easy to crack the defense."

"If I condense a special incense weapon with the Void Dragon Vein Heaven Realm, the characteristics it possesses will no longer be among the three thousand six hundred avenues, and it will not be easy to crack!"

"Yeah! This is the purple gold gourd!"

Su Lang thought about it, and immediately decided.

Immediately after.

He used "Netherworld Dragon Vein Heaven" to condense the third incense dragon vein world.

And put it into the virtual spirit universe.

This is not over yet.

"Little network!"

"Establish a third area, gourd hell!"

"Judgment rules, as long as those who like to expose people are short, and... these people just throw them into me!"

After thinking about it, Su Lang laid down the rules of the trial.

The rules are rather weird, and Su Lang didn't think about how many souls could be grabbed from the reincarnation to the third void dragon vein heaven.

The incense creature in this third dragon vein world.

Su Lang intends to mainly use the captured enemy souls to act!

Anyway, there are countless extraterritorial celestial demons and monks who live with them!

Once these extraterrestrial demons and evil monks were killed, their souls would all return to Su Lang!

It is definitely enough to fill the third dragon vein world at that time!

at this time.

Su Lang threw the souls obtained by strangling the outer heavenly demons and monks into the third dragon vein world.

Suddenly.

These souls were assimilated by countless incense aspirations and turned into incense creatures!

At last.

Su Lang sent many Baiying avatars in, acting as a 'life mentor' to guide those confused souls!

He is already very skilled in this series of methods!

Therefore, the void dragon-veined heaven that condensed the "Purple Golden Gourd" was immediately on the right track!

"Hey!"

"Zijin Gourd, another treasure that ignores defense!"

"I don't know if I can condense it after I go back and wipe out all the outer celestial demons."

Su Lang thought so, and immediately took out the Infinity, and then entered the most core part.

"Your Majesty Su Lang!!"

"Your Majesty Su Lang, you can be regarded as letting us out! Are you okay!"

"His Majesty Su Lang, are you okay? What about that prayer, if you don't kill it, then forget it, let's talk about it later, don't risk it now!"

"Your Majesty, I really hate myself for being so useless, letting you take the risk of chasing BAITIEN! Old and incompetent!"

"..."

Ying Wa, Han Li and others were very worried about Su Lang in the Dantian universe.

Although Dantian Universe has been fine, it means that Su Lang should be safe.
