

One Click 2081

[Chapter 2081: Then I will dig your roots](#)

"Ding! Consumes 10 universe origins, the one-key enhancement function is upgraded to level 9, and the enhancement limit is +1. Currently, it can be enhanced 9 times!"

"Ding! Consumes 10 universe origins, the one-click treasure hunting function is upgraded to level 48, and the number of treasure hunting flying gliders is 750 trillion!"

Two system prompts echoed through my mind.

One-key enhanced function and one-key treasure hunting function are all promoted!

Previously, the treasure hunting flying flying wing was killed by a large number of whispers.

But at this time Su Lang immediately added a new 375 trillion treasure hunting flying flying fly!

"Hey!"

"If you can't search the Tianmi Continent, go and scrape the star fields under your Tianmi Continent!"

"Or simply take away all the life planets in the outer star regions of your continent!"

"The foundation of your Buddhism is believers, then I will dig your roots! Hahaha!"

The corner of Su Lang's mouth raised slightly, and he immediately dispatched the treasure hunting flying flying gliders to the vicinity of the Tianmi Continent, and then dispatched one Hundred Shadow avatars toward the surrounding areas to open up dispatchable areas.

Because this time the treasure hunt flying flying glider and Baiying clone did not approach the Tianmi Continent.

Therefore, the Bailian, Bliss, Posu and Ruohai guarding the four directions of Tianmi Continent did not find anything unusual!

Gradually.

Su Lang's avatars found the star regions that belonged to Buddhism.

Among these star regions, there was none in the beginning.

Those who have reached the elementary level have all gone to the Tianmi Continent, and the strongest person in the star field is Zhuntaichu.

This is so convenient for Su Lang's Hundred Shadow clones and the treasure hunting flying flying strays!

First, the avatar unfolds the divine mind, envelopes the selected star field, and sees each life planet clearly.

Soon.

Su Lang accurately dropped the treasure hunting flying flying gliders on the planets of life, and they spread all over the planet.

Suddenly!

Countless treasures of heaven, material and earth are looted by treasure hunting flying flying flying into the storage space like a torrent!

Moreover, Su Lang's Baiying clone was also idle, opening up his life universe one by one, squeezing life planets into it.

As soon as these life planets were squeezed into the life universe, they were immediately transmitted to Su Lang's crystal wall world.

therefore.

The universe of life of the clones remains empty almost all the time, and can be continuously stuffed into the planet of life.

The ten life universes of each clone have almost become a teleportation array for ten special teleportation planets!

In a blink of an eye.

There are tens of thousands of life planets that have been incorporated into the crystal wall world by Su Lang.

of course.

Buddhism in Tianmi Continent is not vegetarian either.

Among their strongest magical powers is a kind of 'Tianyan Tong', which can see scenes far beyond the scope of their spiritual thoughts.

This is even more powerful than Su Lang's "Eye of Nine Yin Candles", because the premise of the use of "Eye of Nine Candles" is that something big happens.

But the 'Tianyan Tong' is always available and effective at any time.

In addition, the Buddhist Gate of Tianmi Continent also has a "Tianzutong", as long as there are anchor coordinates, you can directly reach very far places.

At the beginning, Monk Kongchan used this trick to hunt down Su Lang in the Great Thousand Territory of Meteoric Phoenix, but Su Lang ran away.

at this time.

There was an accident in several star fields full of Buddhist believers. The people of Tianmi Buddhist School quickly got the news, and it immediately spread to the ears of Bailian and others.

"what?"

"That kind of weird flying squirrel that cannot be killed by the strong in the beginning has appeared again?"

"Furthermore, the suspected half-step eternal strongman sent a clone again, and is still madly stealing the planet in our star field!?"

"Damn, that weird force has shifted the target, and they are starting to work on the star regions outside our Tianmi continent!"

"The star fields are scattered throughout the starry sky, covering an area much larger than the Tianmi continent!"

"Although almost all of these star regions have Tianzutong anchor points, we have limited manpower!"

"Yes, Kongchan and others were killed. In the early days of the Tianmi Continent, there are fewer than a hundred people in the world."

"Moreover, this is very likely to be a way to adjust the tiger away from the mountain. If I wait to leave, with the ability of the opponent to appear and disappear out of thin air, I will definitely appear on the Tianmi Continent!"

"But you can't leave it alone. First, dispatch some early powers to guard the more important star regions!"

"Damn it, if the Mi Ling Buddha didn't retreat now, how could they be allowed to be rampant!"

"..."

[Chapter 2082: The strengthening limit is nine](#)

Bailian, Po Suo and other four exchanged, their faces became extremely ugly!

Su Lang's move simply hit their weakness!

Soon.

Bai Lian and the four others dispatched one after another from the Supreme Beginning Realm Buddhism powerhouse to guard each star region.

Once Su Lang's treasure hunt flying flying gliders and clones appeared, they would try their best to resist and reduce losses.

at the same time.

In the heavenly continent.

Su Lang had already retracted his sight and began to sort out the various materials he had obtained.

First of all.

Still refining a large number of pills.

Some of these pills were swallowed directly by Su Lang, speeding up the accumulation of cultivation!

The remaining elixirs.

Part of it was put into the exchange building list to gather more materials from the Everbright Warrior Group.

The other part is left in the storage space for spare use. It is okay to eat it yourself and reward subordinates.

Looking at the pill that is constantly being refined.

Looking at the cultivators who all turned into golden again by taking the medicine pill, Su Lang was very happy!

"Soon, we will be able to break through again!"

Su Lang licked his lips excitedly, his eyes fell on the weapon.

At this point, the one-key enhancement function has been promoted to level 9, and the upper limit of enhancement is nine times.

Therefore, all weapons such as Youtian Sword can be further strengthened!

"Great!"

"First come to Youtian Sword!"

Su Lang clicked the corner of his mouth and pulled the Youtian Sword from his hair bun and placed it in his palm.

"What does the master want?"

Xiaoyou stretched out and ran out, her voice lazy like a sleeping beauty who just woke up.

"Strengthen it for you, otherwise what can I do?"

Su Lang raised his eyebrows, his eyes revealed a touch of playfulness.

"Of course there are other things to do!"

Xiaoyou blinked her big eyes at Su Lang, as if you knew it.

"Ahem."

"Why don't I understand this?"

"Come here, stop talking, do business."

Su Lang smiled blankly, this girl really dared to answer like this...

"Hmm."

"I'm business!"

Xiao You smiled slyly, then got into the body.

"Can't stand it uh..."

Su Lang rolled his eyes and immediately issued instructions to the system, "System, use designated materials to strengthen Youtian Sword!"

The voice just fell.

The system prompt sounded.

"Ding! Strengthened successfully, Youtian Sword +1!"

Suddenly.

Youtian Sword has completed the ninth strengthening!

Reaching the level of the Sanyan, and completing the ninth enhancement, the power of the Youtian Sword has officially entered the Five Element Primal Beginning Realm!

Immediately after.

Su Lang glanced at the materials in the storage space, and after summing it up, he decided to strengthen the defensive weapon "Heaven's Eight-Edged Shield"!

After some operations.

Tianjia's eight-sided shield was successfully strengthened, and it also possessed the power of the Wuyan Primordial Stage.

Regardless of the loss, even Liu Yan Taichu's moves can resist.

"There is still a lot of material left."

"But to strengthen the early weapons is too wasteful of raw materials."

"Weapons such as the Godless Dragon Station, Heart Piercing Lock, Qibao Miaoshu, etc., are estimated to be ruined once I strengthen them."

"Forget it, it's better to strengthen the parts of Infinity!"

Su Lang pondered for a while, and finally decided to strengthen the parts of Boundless!

At present, all the parts of Wuyin are quasi-primary soldiers, and they have all been strengthened five times!

"The current material is estimated to be enough for 40,000 parts to strengthen the sixth time."

"After strengthening, I still have some spares left."

Su Lang thought silently, and locked the 40,000 parts in the Infinity with his spiritual mind, and issued a system command, "System, consume designated materials, strengthen designated targets!"

The system prompt sounds immediately!

Complete the sixth enhancement with 40,000 parts!

The conventional power of Boundless has reached the top level of the Qiyuan Primordial Realm!

If all the parts have completed the sixth strengthening, it is safe enough to reach the normal level strength of the Bayan Realm.

If you stationed enough primordial martial artists.

The conventional power of the Nine Evolutions Realm can definitely be achieved!

"Hey!"

"Bai Lian, Bliss, Suo and Ruohai!"

"It won't be long before I can catch one of you and kill it!!"

A light flashed in Su Lang's eyes, and then once again shared the vision of the dispatched clone and the treasure hunting flying flying fly.

[Chapter 2083: Make trouble, take it all for me](#)

Suddenly!

Scenes after scenes appeared before Su Lang's eyes.

It was the scene seen by the clones and the treasure hunting flying gliders.

With Su Lang's strength at this time, checking a large amount of vision at the same time is not a problem at all!

However, I saw countless treasure hunting flying flying gliders and clones who had harmed the five star regions surrounding Tianmi Continent.

In every star field, there are countless treasure hunting flying flying flying flying celestial treasures on the planet of natural life. Wherever they pass, if there is a trace of aura, even the mud will be dug away for you!

The clone is constantly opening the universe of life to accommodate life planets!

They are so fast that they can take a planet in a few seconds.

In a short time.

In these five star regions, a total of more than 50,000 natural life planets were taken away by the clones and passed to Su Lang's crystal wall world.

Otherwise dig.

Su Lang also got a huge population.

These people were the diehard loyalists of Tianmi Buddhism, but in Su Lang's bright world, they suddenly changed their beliefs and began to worship Su Lang.

"Ooo!"

"Five star regions with more than 50,000 planets, there is no Buddhist strong to stop it?"

"Bliss, Ruohai, you really can hold your breath!"

"However, if you have to bear it, then you have to bear it!"

The corner of Su Lang's mouth clicked, and he kept issuing instructions to the system in his heart to dispatch the treasure hunting flying flying gliders and clones to find the rest of the star field.

Not long.

Another star field appeared in front of Su Lang.

"Give me up!"

"Get everything to me!"

Su Lang laughed, and immediately let the clones and the treasure hunt flying gliders start to work.
then.

Trillions of treasure hunting flying flying flying into the planets.

Several Baiying avatars also began to incorporate natural planets.

The remaining Baiying clones were sent out by Su Lang and continued to search for the remaining star regions.

But at this moment.

"Bold fanatic!!"

"To dare to offend to the head of Tianmi Buddhism, really knows how to live and die!!"

"Today, I am going to kill all of your weird and slippery things!!"

With a roar, a golden light exploded fiercely from the center of the star field, just like a sun burst, extremely dazzling!

At the same time, not only the light that pierced the eyes of the blind, but also a powerful breath of the Primordial Realm!

That is the powerful aura of the Wuyan Primordial Realm!

Bai Lian, Bliss and others knew that Su Lang clone had a strong combat power.

They are not stupid.

Naturally, we will not send weak Buddhas and monks to die.

As long as those who go to fight are all powerful from the primordial stage above the Five Elements Realm!

They are bound to make Su Lang pay the price!

"Oh?"

"It seems that I didn't let me mess around, and I called someone to intercept my subordinates and Jerry."

"Unfortunately, the person you called is still too weak. In the early days of Wu Yan, this is for nothing!"

Su Lang looked at the doppelganger's field of vision, with a golden body and an angry face, the too junior monk suddenly sneered.

He stretched out his hand and waved.

The Boundless number suddenly emerged.

The remaining hundreds of Baiying clones and phoenixes and other super-primary beasts immediately moved in.

Immediately after.

Su Lang ruled Jiang Wenzheng and the others again, so that all those who did not retreat immediately put aside what they were doing and stationed in the Infinity!

Because of the existence of the spiritual transmission Internet.

At the beginning, no matter where they were, all the people appeared in front of Su Lang instantly, and without a word, they entered the Infinity.

In a flash.

Su Lang's Boundless has stationed hundreds of veteran Taichu, nearly 400 quadrant combat power clones, and a large number of newly promoted Taichu powerhouses!

Although there are no tens of thousands of Taichu clones stationed.

But the power of Infinity has also reached the Bayan Primordial Stage!

at this time.

Seen in that huge star field.

"evil creature!"

"Give me my life!"

The Wuyan Taichu monk put his hands together, his eyes were angry, and he took a step forward.

He appeared in front of one of Su Lang's clone instantly, and the endless lotus-shaped golden flame poured down, filling the void, and he was about to burn Su Lang's clone of Baiying!

however!

next moment.

An extremely large figure appeared in front of the monk of the Wuyan Supreme Beginning Stage.

It was Su Lang who replaced the position with Baiying avatar!

To be precise, it is the boundless number!

[Chapter 2084: What is the best thing to wear a heart lock](#)

Rumble!

Numerous golden lotus-shaped flames fell on Su Lang's Infinity, but they had no effect at all.

The flames of the five evolving realms were so small that even the defense of the Boundless could not be broken.

"what!!"

"What is this, how can it suddenly appear!?"

"This, this, eight, the aura of the Bayan Primordial Beginning Realm!"

The monk at Wuyan Realm was horrified and horrified instantly.

He didn't want to throw out a weapon of the Primordial Beginning Realm that looked like a Buddha bell in an instant, but he immediately fled!

but.

Everything is a dying struggle!

Huh—!

A colorful ray of light flashed, and the Buddha Bell of the Primordial Beginning Realm had no resistance at all. It was immediately engulfed by the light and disappeared instantly.

at the same time.

Nine black jade chains were shot from the hands of Infinity, and in an instant, they crossed the endless void, and penetrated the body of the monk of the Five Element Realm from the back!

Puff puff!

The sound of a sharp knife piercing into the flesh sounded.

In a blink of an eye, the black jade chain passed through the head, limbs, chest and abdomen of the monk in the Five Evolution Realm, and the golden light all over his body dimmed directly!

A large amount of black aura permeated the body of the monk in the Wuyan Realm, and endless pain swept through!

"what!!"

"It hurts, it hurts, my soul!!"

"no, do not want!!"

"..."

Wu Yanjing monk Shang Li, who was blocked by the heart-piercing lock, let out an extremely miserable cry.

As a monk in the Five Essence Realm, his path of practice has surpassed countless creatures, and his tolerance for pain is very abnormal.

Under normal circumstances, even if his body was beaten to pieces and his soul was severely injured, he might not say a word.

however.

Wearing a heart lock is terrifying!

It is a super abnormal weapon born for torture.

Restraint, restraint, whipping, torture, etc... it is the best at it!

Even the Primordial Beginning Realm can hardly endure the pain caused by the heart-piercing lock!

Therefore, in the prehistoric times, this weapon is also a fearsome existence!

at this time.

The monk at Wuyan Realm was locked by the heart-piercing lock, and he was so painful that he doubted his life, wishing to kill himself.

Unfortunately, he couldn't do anything when he was blocked!

The only thing I can do is scream, scream, or scream!

"Humph!"

"Tianmi Buddhism people, all deserve to die!"

"You don't know how many sentient beings have been harmed. Let you pay for these sins today!"

Su Lang smiled coldly, didn't kill the Wuyan Realm monk, but just blocked him on the Piercing Lock, letting him suffer endless torture!

This scene.

Suddenly, Bai Lian and others who were far away in Tianmi Continent saw it with the eyes of heaven.

"what!"

"This is the weird humanoid weapon that killed Monk Kongchan and other primaries!"

"It's still the Bayan Realm, and its power is about the same as the last time I saw it back in time."

"Unexpectedly, they even dared to show up, they simply don't put our Tianmi Buddhism in their eyes!"

"He appeared so unscrupulously, I am afraid that he has grasped our ideas, and we are sure that we dare not do it at will!"

"Damn it, this weird humanoid weapon is the same as that mysterious clone. It can appear in unexpected places at any time. His main target must be Tianmi Continent!"

"But he can't let him go down like this unscrupulously, maybe this time is also an opportunity to completely eliminate this humanoid weapon!"

"Yes, we can lay a trap, let him run wild first, and kill him in one fell swoop when he is least vigilant!"

"Just do it like this, but here we still have to leave the clone as a blindfold to disturb the eyes and ears of the mysterious existence!"

"..."

Bailian, Bliss, Posuo, Ruohai and the Four Great Nine Yan Taichu exchanges in the air, and make a decision immediately!

Soon.

Bai Lian and Po Suo left their clones, pretending that the deity was still guarding the two directions of Tianmi Continent.

Their deity used Tianzutong to travel to two small star regions.

But Bliss and Ruohai are still guarding in place.

They only sent two people, which can be said to be very cautious.

In the eyes of the four people including Bai Lian.

If Su Lang continues to plunder the star field near Tianmi Continent, he will always fall into the trap of waiting for the rabbit and be bombarded and killed by Bailian and Posu!

And if Su Lang dared to change the target and attack Tianmi Continent, he would also be killed by Bliss and Ruohai!

[Chapter 2085: Could it be that they have to do things to me](#)

at this time.

In the early days, the four great Nine Yans of Tianmi Buddhism set up traps, and waited for Su Lang to step into them automatically, killing himself.

But they don't know.

Su Lang seems to be very rampant, but in fact very aggressive.

He is always paying attention to the surrounding situation, and the clone replacement has been in a half-activated state, and he can return to the Tianmen Continent with a move of his mind!

and.

Su Lang also directly prepared the avatar for death.

If you really can't escape, immediately take the Infinity into the universe of life, and directly wait for death to replace it.

After doing all kinds of safety guarantees.

A little smile flashed across Su Lang's face.

Immediately after.

Just like this, Su Lang dragged the monk in the Wuyan Realm, constantly wandering among the planets, accommodating life planets with his hands!

at the same time.

In the boundless number.

Han Li and other early cultivators were so excited that they wanted to scream, just like the recruits who just entered the battlefield!

As soon as they joined Su Lang's command, they were led to participate in the war against Tianmi Continent! !

That is Tianmi Continent!

There are alive half-step eternal powerhouses, as well as a large number of powerful primordial realm powerhouses.

Its strength is what the cultivation world has always felt desperate!

But at this time.

The fear of Tianmi Continent completely dissipated in their hearts.

It turns out that Tianmi Continent is nothing more than that!

With Su Lang here, the bald donkey who lied to the Tianmi Buddhism school was like butchering a dog!

Simultaneously.

It is the second time that Ying Wa and others, Jiang Wenzheng and others have participated in such a battle, and they are also very excited.

"Hahaha!"

"Caught a primordial bald donkey in the Wuyan Realm!"

"These monks betray the boundless universe, their sins are unforgivable, and a billion years of torment is not enough!"

"Your Majesty Su Lang is mighty! Your Majesty Su Lang is domineering!"

"..."

All sorts of exciting thoughts arose in the hearts of all the people at the beginning, looking at where Su Lang was, their eyes full of endless admiration and admiration.

Time passed slowly.

Su Lang dragged the Wuyan Realm monk who screamed constantly.

While taking the planet of this star field into the crystal wall world, while waiting for the reaction of Tianmi Continent.

however.

There has never been a new powerhouse from the Primordial Beginning Realm, so he just allowed him to raid the star field.

"Something's wrong!"

"I haven't had time to block Star Territory's external communication channels."

"Furthermore, which one of Bliss and others is not supernatural?"

"It's impossible for them not to know that I'm doing things here, but why don't people come?"

"Could it be that they have to do things to me too!?"

"..."

Su Lang was shocked, and immediately sent some treasure hunting flying flying flying back to Tianmen Continent, monitoring everything!

Simultaneously.

He also dispatched several Baiying clones to the vicinity of Tianmi Continent.

This is Su Lang's purpose to find out the movements of the Tianmi Buddhist monks such as Bliss and Ruohai!

quickly!

Su Lang discovered that there was no abnormality in the Tianmen Continent.

then.

He focused all his attention on the avatars of Baiying sent to Tianmi Continent.

The four clones were madly dispatched from four directions, flashing forward, and gradually approaching Tianmi Continent.

When approaching Tianmi Continent for a certain distance, he suddenly entered the surveillance range of the people of Bliss!

"Weird choppy, dare to come!?"

"I want to see, how many clones you still have to die!!"

Bliss took the lead and instantly appeared in front of Su Lang's clone of Baiying, slapped him to death.

Not only that.

He also used the time method of the 'future' stage to make Su Lang's clone corpse dissipate quickly, and there was no trace of it in an instant!

Simultaneously.

Ruo Hai also made a move and killed a clone of Su Lang.

Immediately after.

It was the clone of Bai Lian and Po Suo, and Su Lang's clone of Baiying was also discovered.

"Humph!"

"Sure enough, the thief's heart is not dead, trying to attack my Tianmi continent in vain!!"

"Unfortunately, the clone of the four-evolution realm is also an ant in front of my clone!"

"..."

Through her clone, Bai Lian saw Su Lang's clone of Baiying with Buddhist supernatural powers, and she sneered again and again.

Immediately after.

He ordered the clone to kill Su Lang's Baiying clone.

Po Suo was clean and tidy, and flew over. Without a word, countless Buddhist mantras turned into sharp blades, cutting Su Lang clone into meat!

[Chapter 2086: Everything is insightful](#)

"That mysterious strong man sent four clones!"

"Sent from a different direction, it must also be to inquire about our movements!"

"This person is thoughtful, but it's a pity that his clone only has the combat power of the four-evolution realm, so we can't see the strength of our clone."

"Now, the mysterious powerhouse probably thinks that the four of us are defending Tianmi Continent, let him do anything wrong!"

"Hmph, his vigilance will definitely decrease, we really have the opportunity to kill him this time!"

"..."

After a brief exchange between Bliss and others, they all showed sneers.

however!

They didn't even know that all their tactics had been understood by Su Lang at a glance! !

because.

Su Lang had long realized that the other party was likely to be secretive.

So when the clone saw Bailian, Bliss and other four people, he immediately called up the other party's attribute panel and grasped all their information clearly!

"Ha ha!"

"Four Jiuyan primordial powers."

"But two of them are only in the realm of six generations, with clones of seven generations."

"It seems that Bai Lian and Po Suo have temporarily left the Tianmen Continent. They should be waiting for the rabbits at some other party!"

"Besides, you are not stupid, you didn't dispatch all of them, but left Bliss and Ruohai."

"If I were to attack Tianmi Continent, both Bliss and Ruohai would beat me."

"However, since I already know your weaknesses, how can I let you take advantage of it!"

"Not only will I not let you take advantage, but I will also let you suffer a big loss!!"

Su Lang narrowed his eyes, his eyes flashed with thoughtful light, and in the end everything turned into a touch of playfulness.

Next.

Su Lang quickly formulated a plan and put it into action.

He pretended not to know anything, and continued to sweep the current star field.

quickly.

All the planets in this star field were taken into the power crystal wall world by Su Lang.

But the treasure hunt flying gliders and some clones were sent out by him long ago, and they found other star regions, and they were looting.

The almost endless treasure hunting flying flying gliders are constantly searching for the heaven and earth treasures on the planet, and no one can stop it!

The avatar of Su Lang is also constantly collecting planets in the star field.

These found in the Tianmi Buddhism star field.

There are some who are not guarded by the strong in the beginning, and the treasure hunting flying flying gliders and clones can search the entire star field carefree.

And there was no such early powerhouse who came with Tianzutong to kill Su Lang's clone and the treasure hunting flying flying flying fly.

There are also a few strong guards in the early stage.

As soon as Su Lang's treasure hunt flying flying wing appeared, they were killed.

But when they wanted to kill Su Lang's clone, they always took a slow beat, as if they were waiting for Su Lang teleportation to arrive in the past!

"A bit cunning!"

"All the star regions guarded by the powerhouse of the Primordial Realm are giving me the opportunity to teleport and descend."

"Those star regions that were not guarded by the strong in the early days are even more empty. I will go if I want. It's a bit empty."

"In this way, I can hardly find in which star field Bailian and Posu are hidden."

"If I want to kill those monks in the Primordial Beginning Realm who are used as bait, I will most likely fall into the hands of the Jiuyan Primordial Beginning Realm. Then there is only one way to escape."

"Although I can't die, the possibility of the Infinity being lost is unlikely, but I still don't bother to take risks."

"Those star regions that are not guarded by the powerhouses of the Primordial Realm can allow clones and treasure hunting flying flying strays to do it casually."

"But those star regions that are guarded by the powers of the Primordial Realm will temporarily give up and go around."

"On my side, let's kill a clone of Jiuyan Taichu first. This is much cooler than killing a few **** Taichu!"

"..."

Su Lang kept thinking, all thoughts flickered in his heart, and quickly figured out the strategy of Bai Lian and others.

Everything is insightful! !

After making a decision.

Su Lang directly dispatched a Baiying clone to the place where Bailian clone was! !

"what!?"

"Dare to come?"

Bai Lian's clone was shocked instantly, her pupils shrank suddenly, and at the same time she also activated powerful supernatural powers, and immediately killed Su Lang's clone!

however.

Just before the avatar was about to die.

[Chapter 2087: Kill the Bailian clone!](#)

Rumble!

A super-giant mecha-shaped humanoid weapon carrying a terrifying aura replaced the clone and appeared in front of the Bailian clone.

"Ah!"

The screaming monk of Wuyan Realm was also dragged by Su Lang and sent over!

And the magical power of Bailian clone directly fell on Wuyin's body.

Silently, all the attacks were frozen there, and they could no longer move forward!

At the same time, the one who was frozen by time was Bai Lian's Qiyuan Realm clone!

And at this moment.

Bai Lian has seen the situation of the clone!

"this is!?"

"That mysterious strong man actually made this weird humanoid weapon come and kill my clone!?"

"Damn it, he has seen through the disguise of my clone, otherwise he would not dare to kill my clone with the weird humanoid weapon of the Eight Evolving Realm!"

"It's over, one step is wrong, and you lose everything!!"

Bai Lian's face was horrified, anxious, and unwilling, but it was useless!

Although her clone also holds a very terrifying combat power.

Even its combat power surpassed a small realm of its own cultivation realm.

But the gap between a small realm of the Primordial Realm is really terrifying.

Su Lang drove the Infinite, possessing the conventional power of the Bayan Realm.

Moreover, there are Yingwa and Han Li in Wuyin, but Su Lang himself has two founding-level 'past stages' time techniques!

He mobilized the power of the Boundless, and the time spent on display was frozen, which was simply not something that Bailian Qiyang clone could resist.

At this moment.

The moment when Bai Lian clone was frozen.

Su Lang did not hesitate to sacrifice the Heart-piercing Lock!

"Ah! It hurts!"

The Wu Yanjing monk screamed, and the nine black jade chains on his body suddenly stretched out, instantly piercing the motionless white lotus clone.

Blood splattered!

The black jade chain slammed through the body of the white lotus clone and tightened fiercely!

It wasn't that Su Lang wanted to torture the Bai Lian clone.

At this time, the four people including Bai Lian and Ji Le might support him at any time, he didn't have that time!

The reason why the Heart Piercing Lock was used first was because the Heart Piercing Lock level was as high as Qiyang Realm, and could easily break the body defense of the Bailian clone.

After breaking the defense, they can be killed more easily with the Youtian Sword.

at this time.

Nine penetration-shaped wounds appeared on Bai Lian's body, and the defense had been broken.

"Go on the road, go to see your Buddha, and say that Su Lang killed you!"

Su Lang smiled coldly, squeezed his right hand, an extremely huge long sword appeared in the hands of Infinity, and directly cut it down at Bai Lian.

A sword light fell directly on a **** wound of Bai Lian clone and penetrated straight into it!

Suddenly.

The weird characteristic of breaking the defense and dying broke out from the Youtian Sword, directly harvesting the life of Bai Lian clone!

"Ding! You get the soul of the primordial beginning*1, the universe of the primal life*1, the fragments of the primordial body*6184500, the material of the beginning too...there is no god-level material...the superior emperor source*183678726."

The system prompt came, announcing the death of Bai Lian clone!

Just then.

A huge golden long leg that is extremely large, almost comparable to the Infinity, fell from the sky, and it was the white lotus that used Tianzutong!

"Ha ha!"

"Now come back and kill me!?"

"Bai Lian, you are afraid that you are in a hurry!"

Su Lang instantly activated the clone replacement and exchanged positions with a Baiying clone! at the same time.

Su Lang also dispatched two Baiying clones to the place where the Posuo clone was located.

And in a star field guarded by the powers of the primordial stage of Six Yan!

Almost at the same time, Po Suo also directly used Tianzutong to return to Tianmi Continent.

Obviously, he already knew about the tragic death of Bai Lian clone, and he didn't want his clone to follow in the footsteps!

But Bai Lian and Su Lang's actions were in the heart of Su Lang!

Because they returned to Tianmi Continent, in the outer star field, no one could threaten Su Lang!

"system!"

"Clone replacement!!!"

Su Lang instantly activated the clone replacement, and arrived in the star field guarded by the Liuyan Primordial Realm.

It just so happened that the monk from the Primordial Stage of Liu Yan shot angrily, trying to kill Su Lang's clone!

Rumble!

Su Lang suddenly descended on the Infinity, and the nine black jade chains of Piercing Lock instantly penetrated the Liuyan Taichu monk.

Suddenly.

There is a crazy and screaming powerhouse from the beginning! !

[Chapter 2088: Angry and sad white lotus](#)

Void near Tianmi Continent.

Bai Lian's face was as ugly as if she had wiped the bottom of a pot.

"hateful!"

"My clone, the clone I have spent a whole billion years training!!"

"Su Lang!? Your name is Su Lang, **** it, today's hatred, I will return it a hundred times and a thousand times!"

"..."

Bai Lian stood at the place where her clone died, gritted her teeth, her eyes were cracked!

at this time.

"Oh no!"

"Bai Lian, we are in the game!"

"Then Su Lang went to the Bolian Star Territory, the Bolian holy monk has been murdered!!"

A voice appeared in Bai Lian's ear, a whirling sound transmission!

Was worried that her clone would be killed by Su Lang before, so she returned to the place where the clone was from the lurking star field.

But when he killed Su Lang's clone, he discovered that Su Lang's deity had no plans to kill his clone.

Po Suo knew that she and Bai Lian had been fooled, and Su Lang must have gone to the outer star field again!

then.

He hurriedly used Tianyantong, and he saw the scene of Su Lang blocking the monk Pulian with the heart-piercing lock!

"what!!"

"He actually killed Monk Pulian!!"

"This Su Lang, I don't share the same spirit with him!"

When Bai Lian heard the news, her expression of sorrow suddenly appeared.

Monk Pulian is a strong under his command, and the two have a good relationship, but now they are killed by Su Lang, how can she not be angry?

"Ugh!"

"This is no way."

"Who knew that Su Lang was able to see through the disguise of our clone and acted directly!!"

"If we don't come back, if he kills any of our clones, he can spread to Tianmi Continent and wreak havoc!"

The whirling resentful and helpless voice continued to ring in Bai Lian's ear.

"whirling!"

"We can't let Na Su Lang run rampant in the outer star field!"

"You, Bliss and Ruohai, guard the three directions of Tianmi Continent respectively, and I will chase and kill Na Su Lang!"

Bai Lian was really angry, and he left a word, took one step, and instantly set foot in the Bolian star field!

At this moment.

Su Lang was dragging two monks from the Primordial Beginning Realm with a black jade chain, and then collecting planets one by one.

Just then.

Rumble!

A long golden leg fell from the sky and stepped on Su Lang with one foot.

"I fork!"

"Dare to step on me with a smelly foot, I remember!"

Su Lang raised his eyebrows and immediately replaced him with a clone, disappearing directly from the spot.

When he appeared on the Infinity, he had already reached another star field that had already been discovered by the clones.

In this star field, there is also a primordial realm powerhouse lurking.

Su Lang appeared.

This monk of the Primordial Beginning Realm suddenly discovered the extremely large Infinity, and the powerful and explosive Bayan Realm aura!

"what!?"

"This ghost has come here, why am I so unlucky!?"

"No, I have to escape!!"

"..."

This too junior Buddhist monk showed horror, and without even thinking about it, he immediately set off to escape.

but.

It's too late!

"Put the heart lock!!"

As soon as Su Lang lifted his hand, the nine black chains flew out, silently traversing countless spaces, and went straight through the body of that too junior monk!

Puff!

Blood splattered.

Nine big holes suddenly appeared on that too junior monk!

"what!!!"

"It hurts, it hurts, what is this!?"

"No, no, please give me a happy one!"

"Let me die, let me die..."

Unimaginable pain swept through the body of the monk of the Primordial Beginning Stage.

It turned out that this strong man who had practiced for countless years instantly burst into tears and burst into tears, crying miserably.

"Su Lang!!!"

"You stand still, I will kill you today!"

An extremely terrifying aura came, and it turned out that Bailian was chasing him up.

"Tsk tut!"

"So fast?"

"Unfortunately, it's still a bit slower than me, I'm going to say goodbye!"

Su Lang dismissed it with a smile, and used the clone to replace it again, appearing in a new star field.

In this star field, there is also a monk too junior!

At this time, this too junior monk had received the news from above, and asked them all to return to Tianmi Continent.

So he is using Tianzutong to return to Tianmi Continent,

When Su Lang appeared, the monk had already stepped out with half his foot, and Tianzutong was halfway through.

[Chapter 2089: Four monks wear a string](#)

"Leave me you!"

Su Lang smiled coldly, wearing a heart lock in his hand to show off again.

Nine black jade chains instantly pierced the monk and immediately imprisoned him!

"Ah!"

Suddenly, the screams of the fourth monk from Taichu rang.

"Su Lang thief!"

"Do you dare to kill innocent people indiscriminately, just when there is no one in Tianmi continent?"

"Don't put down the butcher knife and become a Buddha on the spot!!"

Bai Lian's extremely angry voice came, and he had already descended half of his body into this star field.

"Ha ha!"

"Why don't you take off your clothes and become a prostitute right away?"

Su Lang sneered, and disappeared from the spot directly with the clone replacement.

"Damn it!"

"How dare you humiliate me so much, I will surely let you kowtow for a billion years in the endless Buddha flame!"

Bai Lian descended completely, his eyes were ferocious, his right hand grabbed Su Lang's Baiying clone, and directly squeezed it to pieces!

But Su Lang never appeared in a certain star field or Tianmi continent again.

Because it can be seen from the fourth Taichu monk that he is about to run away, the Buddhism Taichu powerhouses in the remaining star regions must have returned to Tianmi Continent.

And Bai Lian dared to catch up alone.

It must also be fully prepared in Tianmi Continent.

In the case of unclear intelligence.

Once Su Lang goes to Tianmi Continent, he is likely to face an attack from the powerful Jiuyan Taichu.

If you are entangled at that time, you will face the worst.

In addition.

Su Lang's Hundred Shadow clone was almost exhausted, and if it continued like this, it would be dead.

Still have to keep some to prevent accidents.

therefore.

Su Lang directly drove the Infinite and appeared in the Tianmi Continent.

of course!

He wouldn't just stop doing things like this!

"One-click treasure hunt to start, treasure hunt flying gliders, go, grab everything!"

Su Lang's thoughts moved, and trillions of treasure hunting flying flying flies suddenly appeared in the outer star fields of Tianmi Continent, and they began to search for the treasures of heaven, material and earth.

But Bai Lian didn't see Su Lang appearing, she was trembling with anger!

Immediately after.

She quickly used all kinds of terrifying time methods, trying to use the power of time to find Su Lang!

But it's useless at all!

The Tianmen Continent is too far away from this place.

The length of time that Bai Lian can mobilize is only within a certain range of the body, and it is impossible to reach the Tianmen Continent at all!

therefore.

As long as Su Lang does not appear.

She couldn't find where Su Lang was!

"Damn chopsticks!"

"Kill my clone, kill the strong under my command!"

"Su Lang, I don't care who you are, I will make you pay the price one day, and let you become a buddha under my feet!"

"..."

Bai Lian was extremely angry, raising his head and roaring, the entire star field was shaking, and countless creatures died directly!

Immediately after.

She was sitting cross-legged in this star field, waiting for Su Lang to appear again!

but.

Su Lang just won't come out.

He first dispatched countless treasure hunting flying flying gliders to go wild in those star fields.

Anyway, there were no strong people stationed in the early days, and those star fields seemed undefended to the treasure hunting flying gliders.

The gates of the star fields opened one by one, waiting for the treasure hunting flying flying flying to search for treasures!

Bailian, Po Suo, and Bliss Ruohai all saw this scene through Tianyantong, and they gritted their teeth with anger.

"No way!"

"Can't let Su Lang unscrupulously scrape the star fields!"

"Without resources in these star regions, creatures cannot survive at all, and the entire world will be destroyed due to civil strife!"

"Whish, you leave your clone, lurking in the surrounding starfields, and dispatching the strong from the beginning as bait to induce Su Lang to appear!"

"..."

Bai Lian really couldn't bear this shameful shame, and even planned to trap Su Lang!

"This!"

"Well, I'll give it a try!"

Whirling hesitated for a moment, then agreed.

Because he knew that Su Lang, such a cautious person, would definitely make a decision on whether to take action after investigating the information.

This booby trap is likely to return without success!

of course.

He has already agreed to do something no matter what.

then.

Po Suo immediately left a clone, secretly concealed his figure, and sneaked into a certain star field.

[Chapter 2090: I thought of this stupid way](#)

He abandoned Tianzutong, a very convenient, but mighty magical power.

Using more concealed magical powers, he kept lurking forward in a star field, and gradually, he finally appeared in a star field.

The star fields around this star field are all being plundered by treasure hunting flying flying gliders.

Presumably, a treasure hunt flying flying glider will find this star field soon, and then pounce like a locust crossing the border.

And this period of time lurking forward.

Su Lang's treasure hunting flying flying glider once again took away the wealth of several star regions, and began to spread further around.

The other party has not sent a too low-level powerhouse to stop him, which also made Su Lang think.

"They are so tolerant?"

"Could it really be that you have given up chasing me, and have also given up those star regions?"

"Or are they plotting to make trouble again?"

"Hmph, no matter what, they only have four Jiuyan Supreme Beginning Realm powerhouses!"

"There are not enough people, so I can be a firefighter everywhere. Let me see if you have gone to the Star Territory to prepare to fight the fire..."

Su Lang thought so in his heart, and the corner of his mouth gradually outlined a sneer.

Immediately after.

He dispatched some treasure hunting flying flying gliders to the four directions guarded by Bai Lian and others in Tianmi Continent to conduct investigations.

Because the number of Baiying avatars is not enough, so I can only use the treasure hunting flying flying fly.

Although the speed of treasure hunting flying gliders is much slower.

But now he is not in a hurry, Bai Lian and others are not panicking, he panicked with a hammer.

Slowly.

Treasure hunting flying flying flying closer to the destination.

But no one.

"Ok?"

"Did they change directions?"

Su Lang raised his eyebrows and dispatched more treasure hunting flying flying gliders to search in other directions.

quickly.

A large number of treasure hunting flying flying gliders were all killed near three locations around Tianmi Continent.

The three people guarding Tianmi Continent by the other side have been continuously attacking.

As long as the treasure hunting flying flying flying close to a certain distance, it will be instantly killed.

"Yo!"

"Awesome, I thought of this...stupid way."

Su Lang raised his eyebrows, and a sneer appeared at the corner of his mouth.

At this time, Bai Lian was sitting in the outer star field of Tianmi Continent.

Only Bliss and Ruohai guard the three directions around Tianmi Continent.

At this time, the three of them continuously launched attacks to prevent Su Lang's clone or the treasure hunt flying flying flying close to them.

It's nothing more than not wanting Su Lang to discover whether these three 'guardians' are the deities!

So, this kind of means there is no silver three hundred taels here.

of course.

Su Lang would not rely on his own speculation to make rash decisions and act accordingly.

"Humph!"

"If your method is really useful for others."

"No one can get close to you, and no one can find out if your guardian is the powerful Jiuyan."

"But for me, it's nothing more than a delay."

"My treasure hunt flying glider, as long as I can see it, I can dispatch it!"

Su Lang sneered coldly, and then sent out some treasure hunt flying gliders again.

As soon as these treasure hunt flying gliders appeared, they immediately looked into the distance.

Su Lang immediately saw the distant scene clearly through perception and sharing.

Just then.

The powerful attack rushed over like a tsunami, killing all of Su Lang's treasure hunt flying flying gliders.

however.

Su Lang has opened up a dispatchable area closer to the three!

"Continue to send me!"

The corner of Su Lang's mouth was hooked, and some treasure hunting flying flying gliders appeared.

This time.

These treasure hunting flying gliders appeared on the edge of the dispatchable area opened by the last batch of treasure hunting flying gliders, and continue to develop dispatchable maps.

Countless treasure hunting flying flying swans in batch after batch, fearlessly fearing death, piled up with their lives, and constantly approached the most central clones of Bliss, Ruohai and Posuo from all directions!

Such a huge scene.

Treasure hunting flying gliders are constantly approaching.

Suddenly, Bai Lian and the others' complexions changed drastically, and they were dumbfounded.

They never expected that Su Lang would have so many weird flying squirrels.

And those flying squirrels turned out to be like ocean waves, pushing waves one after another, and constantly pounced on the three of them!

"Damn!!"

"Why are these flying squirrels so weird!"

"Obviously fragile and vulnerable, a magical power can kill hundreds of millions of animals, but it can't stop them from moving forward!"

"If this goes on, then Su Lang will definitely find that Su Lang is a clone!"

"Our strategy will be shattered!"

Bai Lian and the others all looked ugly, and their plans were already on the verge of being shattered.
