

## One Click 2091

### [Chapter 2091: I'm not welcome](#)

But they have no other way.

"It won't work like this!"

"If Su Lang found out that I was the one guarding the southeast of Tianmi Continent, he would definitely do it."

"Elysium and Ruohai have no way to keep my clone in time. If I return, he will attack the star field again!"

"We have no way to trap Su Lang at all. Now we can only find a way to stop the loss."

The whirling voice appeared in Bai Lian's ear, her tone full of helplessness.

"We can only stop loss in time."

"Husuo, go back, I'll stop the loss!"

Bai Lian stood up, waved her hand, and immediately gathered the surrounding stars into her crystal wall cells.

What she practices is similar to the "Universal Normalization Diagram", which combines crystal wall cells to grow stronger with each other to speed up cultivation.

Reach the realm of Jiuyan Taichu.

In Bailian's body, there are also many huge crystal wall worlds.

But most of these crystal wall worlds have been filled with the earth, forming a small world, and supporting countless Buddhas.

and so.

Bai Lian couldn't take the life planet into his crystal wall world together, and could only search for the creatures away.

Anyway, for the Buddhist monks, believers are the most important cultivation resource...

And just as Bai Lian began to collect countless creatures and stopped loss in time.

Su Lang's treasure hunters finally saw three people guarding the Tianmi continent.

Bliss, Ruohai, and whirling clones.

"Hey!"

"Leaving a avatar here, I really don't want to die, and want to \*\*\*\* me!"

"If this is the case, then I will kill your clone!"

A sneer appeared on Su Lang's face, and he was about to kill the avatar.

But at this moment.

Beside the avatar of Po Suo, a huge golden figure descended, it was the deity of Po Suo.

"Oh?"

"Giving up on me?"

Su Lang raised his eyebrows, dispelling the thought of teleporting.

Immediately after.

He dispatched the treasure hunt flying flying glider to the star field where Bai Lian was located, and immediately found that the star field was empty!

On each planet, the ground was scraped away by one layer, and all the buildings and creatures on it disappeared.

"This is a stop loss!"

"It seems that I have given up killing me temporarily."

"In that case, I'm not welcome!"

Su Lang chuckled as he dispatched the treasure hunting flying flying flying flying to find and monitor the white lotus.

While sending out more treasure hunt flying gliders and the remaining clones.

Feel free to search the resources in each star field, or simply take the entire planet one by one.

Seeing this scene, Bai Lian and others were extremely angry and frustrated.

But Po Suo and others can only stay near Tianmi Continent.

As soon as they went to those star areas to kill Su Lang's clones and the treasure hunting flying flying flying gliders, Su Lang would go to Tianmi Continent to make trouble.

If an early powerhouse with a lower cultivation base was sent to guard the star field, Su Lang would kill them one by one.

Bai Lian was capable of killing Su Lang, but she couldn't catch up.

and so.

Po Suo and the others did not dare to move, and Bai Lian had no choice but to go to each star field, and searched all the land and the building population of each planet.

Suddenly.

They formed a search competition with Su Lang!

Search faster than anyone searching the star field!

But sadly.

The land that was raided was the star field under the command of Tianmi Buddhism.

no matter what.

Su Lang is taking advantage of it, and Bai Lian and others are losing blood!

"Ugh!"

"It would be great if those strong in the Bayan Realm did not follow the Mi Ling Buddha in retreat!"

"Then Su Lang can exert the power of the Bayan Realm, and Bayan can fight him for a while at the beginning."

"If there is to guard the Tianmi Continent, then the three of us will be able to pull away and hunt down Su Lang."

"I thought that our Four Great Nine Yans had made the move at the beginning, and Tianmi Continent was foolproof, but who would have thought that Su Lang would be so strange and difficult to be entangled so much that it forced us like this!"

"..."

Bai Lian and the others looked at the Tianmi Buddhism star field that was being frantically searched by Su Lang with the sky eyes, and their hearts were bleeding.

These star fields close to the Tianmi Buddhism are subordinate forces that have been cultivated for a long time, and the quality of believers on them is very high.

But at this time, they are constantly losing, constantly losing...

The other side.

Su Lang was also embarrassed in his heart when he was taking over the Tianmi Buddhism star field.

Because he also found out.

In Tianmi Continent this time, there was no primordial powerhouse in the Bayan Realm.

[Chapter 2092: His Majesty Su Lang is really the light of hope](#)

"This is a bit strange."

"In the beginning, there were four in Jiuyan."

"In the early days of Bayan, there were none at all? This is impossible!"

"Then, Tianmi Continent suffered such a loss, and Bayan did not appear in the early days, so there must be a more important task!"

"The old bald donkey of Mi Ling couldn't leave the Tianmi Continent, and even if he moved in the Tianmi Continent, he could only rely on the golden figure, not even the clone."

"Those Bayan is too early, I am afraid that they are doing key things with Mi Ling old bald donkey?"

"Unfortunately, even the magic weapon of Buddha Mi Ling, "Dian Mi Jin Fly", does not know what he is doing."

"Forget it, I'm too lazy to guess, the boat will go straight to the bridge head..."

Su Lang thought silently, then smiled and shook his head.

Soon.

His eyes fell on the four monks of the Primordial Beginning Realm wearing the black jade chains.

"Ah! It hurts!!"

"Master Su Lang, please, give me a good time!"

"Su Lang, give me a decent way to die, I don't want to be tortured to death!"

"Kill me, kill me!"

"..."

The four monks in the Primordial Beginning Stage were in great agony and spoke all kinds of words about death.

"You want to die?"

"Yes, come, come, I will find a place for you to kneel down!"

"Kneel for a certain hour, I will give you a happy one!"

Su Lang sneered coldly, then moved his body and directly reached the exchange building square via the Internet.

The exchange building at this time has completely become the center of the entire Tianmen Continent.

It has also become a place where all cultivation civilizations blend.

The warriors of the Heavenly Continent, the cultivators of the Ten Thousand Realms, and the warriors of the Wu Clan from the Wu Clan Continent all gathered here.

Because the number is increasing.

The square around the exchange building has expanded dozens of times again!

If everyone were not able to communicate in the virtual Celestial Continent, I am afraid this square would have to expand hundreds of thousands of times!

now.

Su Lang appeared on the exchange building square driving the Infinite.

Immediately attracted the attention of countless people!

"It's Boundless!!"

"It is the boundless number controlled by His Majesty Su Lang!"

"His Majesty Su Lang, the great infinite emperor, has appeared! Majesty Su Lang, I worship you!"

"Look, there is a longevity lock in the hands of Boundless, nine black jade chains stick out from the lock, and the chains are wearing four too junior monks!"

"Oh my God, it really is! Four too junior monks have been captured by His Majesty Su Lang! His Majesty Su Lang has hit the Tianmi Continent!"

"Your Majesty Su Lang is mighty, your Majesty Su Lang is domineering, and he hit the Tianmi Continent so soon. In my opinion, the Tianmi Continent is about to die!"

"Yes, His Majesty Su Lang is really the light of hope for our boundless universe!"

"..."

Countless warriors and monks knelt directly at the feet of Infinity, but they couldn't help talking, because they were so excited.

None of these warriors who had reached the elementary level had fought against Tian Mi with Su Lang.

It was the first time they saw Su Lang capture and kill the early powerhouse of Tianmi Continent.

For them, this is the Heavenly Continent, or in other words, a huge progress in the boundless universe, a milestone progress!

Heavenly Continent.

Already have the strength to counterattack Tianmi Continent!

This is great news!

Countless warriors instantly relayed this news, and spread it directly to the entire Celestial Continent, Cultivation Worlds, and Wu Clan Continent through the spiritual Internet!

All the warriors exclaimed with excitement and worshiped in the direction Su Lang was in!

Their hearts all raised strong confidence and straightened their backbones.

And the unreserved admiration, admiration, and worship of Su Lang...

To this.

Su Lang also looked in his eyes and smiled sincerely.

The reason why he didn't execute the four people including Monk Pulian.

It is for the countless hesitant, hesitant, and unconfident people in Tianmen Continent to straighten their spine!

"Everyone, Boundless Universe has stood up!!!"

Su Lang shouted, shaking his right hand.

The four monks of the Primordial Beginning Realm were immediately wrapped in the heart-piercing lock, and fell on the vast square, kneeling fiercely under the gaze of countless people!

#### [Chapter 2093: Phoenix on the verge of breakthrough](#)

"boom!!"

The sound of knees hitting rocks spread throughout the audience!

Pu Lian and the other four monks from the Primordial Beginning stage knelt directly on the square of the Exchange Building and made four huge potholes!

"Ahhh!!"

"No, no, it hurts me so much, please let me go!"

"Kill me, kill me!"

"..."

The four primordial monks twisted like four maggots.

But their posture cannot be changed, they can only maintain the posture of bowing and forgiving!

"From today!"

"You sinners, kneel here for me."

"I want everyone to humiliate you and let you know what you will end up as a betrayer in the boundless universe!"

Su Lang looked at the monk who was constantly wailing, and his eyes showed a trace of indifference!

Had it not been for Tianmi Continent's counterattack.

The boundless universe will not lose so fast, and the situation is definitely not as severe as it is now.

It was the Tianmi Buddhism, which led to the crazy decline of the boundless world, and became the ghost of the present.

at this time.

The four monks were thrown there by Su Lang wearing a heart-piercing lock, and they are about to be spurned by countless people!

Simultaneously.

At the time of strengthening the hearts of the people in the mainland.

It also faintly issued a warning, if someone dared to be a gangster, it would be so miserable!

After leaving the four monks in the Primordial Realm.

Su Lang simply put the heart-through lock here temporarily, and then ordered Jiang Wenzheng to wait for the first time to go back to each house, and then accept the boundless number.

Soon.

He randomly found a place, arranged a formation, and began to retreat.

This time I went to Tianmi Continent to do things.

The gains were neither more nor less, only part of it had been used by Su Lang.

Just save the remaining trophies and use them later.

And just when Su Lang began to retreat and was ready to enter Ding.

"Tweet!"

A crisp and pleasant phoenix sound came from the Yingluo universe.

"Ok?"

Su Lang raised his eyebrows and looked at Yinghu Universe.

Suddenly discovered that the Phoenix was flying amidst the worship of countless creatures on the planet of Yingluo Life!

"this is.....!"

"Not only has the Qi Yanjing restored, but there are faint signs of breakthrough!"

Su Lang could see the status of Phoenix at a glance, and he was immediately delighted.

This phoenix had lived for countless years.

He has been stuck in the Qiyan Realm for many years.

After being stationed in the Boundless Ship many times and experiencing higher powers, he also lifted the fog of higher realms and saw a clear path to cultivation.

"Your Majesty Su Lang!"

"Subordinates are about to break through, and hope to use your core fragments of the universe!"

Phoenix knew that Su Lang was watching him at this time, so he looked up at the sky and respectfully made his request.

"of course can!"

"To ensure the success rate of breakthroughs."

"These perfect quality Taichu pills are for you."

While Su Lang waved his hand, a large number of too low-level pill appeared in front of Phoenix, all of which were conducive to breakthrough.

But this is not over yet.

"In addition."

"This "Universe Origin" may be useful to you!"

Su Lang waved his hand again and took out the only remaining Universe Origin from the system balance and gave it to Phoenix.

after all.

Now his system functions need a lot of cosmic origins to upgrade.

A mere cosmic origin is useless to keep.

And if Phoenix could break through to the Eight Yan realm, it would be an extremely huge gain for him!

The Phoenix with the Bayan Primordial Beginning Stage entered the Infinity.

In addition to the rest of the powers of the Primal Beginning Realm, the Infinite can definitely burst out of Jiu Yantai's primary regular power!

In terms of time rules, it can also approach the Jiuyan level.

At that time, you might be able to fight against Bailian and others for a few rounds!

but.

In Su Lang's view, the origin of the universe was nothing great, but Phoenix was instantly stunned!

"The Origin of the Universe!!"

"His Majesty Su Lang, the great infinite emperor, please take back the origin of this universe. It is so precious!"

Phoenix exclaimed, his eyes widened, and the whole person...the birds were stunned.

It was like a poor man who was suddenly stuffed with 100 million in cash, and he was directly scared.

[Chapter 2094: The founding class has no great worlds](#)

"Ok?"

"Why is this?"

Su Lang asked in surprise.

In his eyes, the origin of the universe is a cultivation resource that is much larger than that of the emperor.

But no matter how tall they are, they are also cultivation resources, and they are used.

"Return to Your Majesty Su Lang!"

"The origin crystal of the universe is a treasure associated with the beginning of the universe!"

"The origin of the universe contains all the mysteries in the universe, which is extremely mysterious."

"In addition, seeing the origin of the universe, I awakened some memories from before Nirvana."

"The origin of the universe is the important goal of Emperor Yuanmingzhou's invasion of the boundless universe!"

"Moreover, the origin of the universe seems to be related to the core of the infinite realm, and the core fragments of the infinite realm are suitable for the source of the emperor of the world."

"In addition, during the time of the Infinite World War, based on various signs, we guessed that Emperor Yuanmingzhou had a certain method to re-refine the cherished heavenly materials and earth treasures into the origin of the universe!"

"The reason why the Mi Ling bald donkey retreats day and night, and even the Mi Ling Tianshan can't leave, is likely to be the origin of the Emperor Mingzhou to refining the origin of the universe!"

Bright divine light flashed in Phoenix's eyes, and he spoke quickly of the effective information he had obtained from his awakening memory.

"That's it!"

"Emperor Yuan Mingzhou regards it as an important goal!"

"It seems that I really underestimated the origin of the universe."

"However, no matter what, it is just a cultivation resource. Use it, use it!!"

Su Lang's face was stunned and thoughtful, but he did not recover the origin of the universe, but continued to let Phoenix use it.

"This!"

"Your Majesty Su Lang, please take it back and die!"

Phoenix looked surprised, then said in fear.

"Don't be crooked."

"Quickly give me a breakthrough to the Bayan Primordial Beginning Stage!"

Su Lang rolled his eyes and squeezed the origin of the universe directly in front of Phoenix.

"Yes!"

"Subordinates must break through the Bayan Primordial Beginning Realm as soon as possible!"

"There is this origin of the universe... in a very short time!"

Phoenix couldn't escape, so he could only accept the origin of the universe. After thanking Su Lang, he dived into the planet Yinghua and began to retreat!

at this time.

The entire Mars became his eggshell.

And Su Lang's side.

He also sat cross-legged on the futon and slowly closed his eyes.

but.

Just when Su Lang was about to cultivate, he was interrupted again.

What interrupted him this time was a system prompt, which was good news.

"Ding! "A Thousand Great Thousand Realms" has reached the founding level!"

Along with the system prompt appears.

Numerous warm currents suddenly appeared in Su Lang's body.

Su Lang's body, to be precise, is countless crystal wall cells, and immediately began to passively improve!

"Hey!"

"I practiced another Taichu exercise!"

"The speed of one-click martial arts training is really abnormal!"

Su Lang looked at himself, observing his own crystal wall cell world.

However, every crystal wall cell has been improved by nearly ten times!

Of course, the 100 million crystal wall cells that Su Lang actively promoted will have a smaller degree of improvement.

But no matter what.

Close to ten times, it is also a huge improvement!

It should be known that Su Lang's 170-gaps cells had been promoted many times in succession.

Each time the improvement is ten times, dozens of times or even hundreds of times.

After repeated upgrades, the crystal wall cells have reached thousands of times their previous size!

The difficulty of upgrading the crystal wall cells is also increasing.

This "Infinite Thousand Worlds" exercise method can be increased tenfold, which is already very powerful and too basic exercise method!

"The effect of passively improving body exercises is getting weaker and weaker."

"However, as long as it is useful, it is better than nothing!"

"Anyway, it only takes an hour to practice a exercise to the founding level!"

"When it is completely useless in the future, you can start practicing the technique of actively promoting crystal wall cells!"

"..."

Several thoughts flashed in Su Lang's mind, and immediately, he began to choose the basic exercises for cultivation.

This time.

He chose an exercise called "Smoke Cage Sand".

The concept of the exercise is also the 'Tao of the Great Thousand Universe', aiming to practice a large number of crystal wall cells at the same time.

#### [Chapter 2095: Deceased](#)

And this exercise has a very interesting method.

That is to temporarily fuse certain crystal wall cells together to form super large crystal wall cells!

But there is a certain time limit, after the time limit is reached, it will be restored immediately!

therefore.

This method is not helpful in increasing the proportion of time rules.

Its main function is to create one or more temporary giant crystal wall cells.

"Yanlongsha!"

"Smoke and sand have infinite meanings."

"The word "cage" means that the two can overlap. This is the means of temporarily creating giant crystal wall cells!"

"Well, this technique is really good, and it might be useful in some cases!"

Su Lang nodded in satisfaction, and immediately issued an instruction, "System! Activate the one-key martial arts·Nine hearts into one function, and start practicing "Smoke Cage Sand"!"

Accompanied by Su Lang's order.

The nine martial arts villains suddenly became frantically busy!

After a very short time.

They will once again bring huge benefits to Su Lang!

Place good exercises.

Su Lang closed his eyes again, looking inside himself.

However, there are 100 million crystal wall cells in the body that have been actively promoted, and the internal space is dozens of times larger than the rest of the crystal wall cells!

And among these crystal wall cells.

Many of them were filled with life planets or small worlds in the realm of cultivation by Su Lang.

The small world of the realm of care and cultivation has filled more than 70 million.

There are hundreds of millions of life planets!

"It's been a long time since I actively promoted crystal wall cells."

"Before only one billion cells have been promoted. This time, it's much better!"

Su Lang thought silently, and immediately his eyes flickered, and he began to run the exercise technique "Hengsha Boundless World" that actively promotes crystal wall cells!

Accompanied by his continuous exercises.

Countless sublimated and qualitatively transformed congenital cells poured into the crystal wall cells at once!

These crystal wall cells suddenly began to grow slowly.

The space inside is expanding rapidly, becoming more and more lofty and open, giving people a sense of opening up!

The cultivation realm has reached the Sanyan primordial stage, and after his strength has reached the fifth stage primordial stage, Su Lang's cell-up speed has become more handy!

as time flows.

One hundred thousand, one million, ten million, hundreds of millions...

Not long.

There are a full 900 million crystal wall cells that he has promoted once, reaching a level similar to the 100 million crystal wall cells originally promoted.

"Enough one billion actively promoted crystal wall cells!"

"Unfortunately, the number seems to be a lot. Compared to the total number of my cells, it is not worth mentioning. I have a total of 170 cells."

Su Lang took a deep breath, deeply feeling the difficulty of his path.

of course.

No matter how difficult the road is, I choose it by myself, and go on no matter what!

Su Lang knew that as long as he persisted, he would definitely get an unexpected and terrifying harvest!

"call!!!"

"continue!"

Su Lang let out a spit of air, and immediately began a new round of ascension.

This time.

Until the number of actively promoted cells reached 10 billion, it stopped temporarily.

in fact.

Su Lang stopped this time and was also interrupted

—In the outer star field of Tianmi Continent, something interesting to him has appeared!  
at this time.

Su Lang continued to cultivate in the Tianmen Continent to improve himself.

But his Hundred Shadows clones and countless treasure hunting flying flying gliders are in a 'scratch match' with Bai Lian!

A huge amount of resources, an entire planet, is constantly being owned by Surangna.

Hundred Shadows avatars and the treasure hunting flying flyings also traveled through seventeen star fields one after another!

In the eighteenth star field.

Through the avatar's vision, Su Lang saw a battle!

To be precise, it was a massacre! !

A strong man in the primordial realm of Yiyan, holding a quasi-primary weapon, frantically slaughtered the Buddhist monk on Tianmi mainland in the star field!

And this powerhouse of the Primordial Realm turned out to be an acquaintance, the female warrior of the Ship of Ten Thousand Realms, Zhu Shan!

"Unexpectedly, no one from the early stage has come to kill me?"

"I'm about to give this star field to Tu Guang!"

"Could it be that the too junior bald thieves in Tianmi Continent are dead?"

#### [Chapter 2096: Zhu Shan](#)

"..."

Zhu Shan chased and killed the horrified Buddhist supreme emperors, the whip in his hand seemed to become a starry dragon across the universe.

Even the supreme emperor Buddhism powerhouse who escapes no matter how far away will be beaten with a whip by her!

But Zhu Shan's heart is actually more worried!

Because she killed so far, she has completed the mission sent by the Ark of Ten Thousand Regions, and also killed many enemies additionally.

But the expected too junior Buddhist monk did not appear!

This is very strange.

at this time.

"Long time no see, Daoist Zhu Shan!"

A voice suddenly resounded throughout the star field.

"this is!?"

"Su...Su Lang's voice?"

Zhu Shan was shocked, and there was a hint of horror and surprise on his charming face.

She frantically searched the surroundings with her spiritual mind, but did not see anyone there.

suddenly.

"Squeak!"

"Squeak!"

Countless weird flying squirrels flew from the distant space, and even formed a large swath of golden smoke, covering a large swath of cosmic void!

And in the middle of these weird flying squirrels, surrounded by this handsome man with a smile on his face, is a clone of Su Lang.

At this time, this Baiying clone has been controlled by Su Lang with a perfect lean!

"Su Lang!!!"

"It's really you! God, you have become so strong!"

"Are you... the Three Evolution Stage? No, the cultivation base of the Five Evolution Stage?"

When Zhu Shan saw Su Lang, he immediately showed a look of horror, his entire face was full of disbelief!

although.

At the beginning in the boat of ten thousand domains.

All of them knew that Su Lang was a super genius who would never be born.

Not only has a strong cultivation aptitude, but also has the terrifying talents of Alchemy Dao, Tool Dao, and Formation Dao, which can refine various treasures of the quasi-primary level!

but.

In such a short time.

Su Lang turned from a supreme emperor to a powerhouse in the early stage.

Moreover, it is also suspected to be a powerful person in the Wuyan Primordial Stage!

This is beyond Zhu Shan's imagination!

"Haha!"

"Zhu Shan, don't come here unharmed?"

"You have also broken through to the primordial stage, which is really gratifying!"

"This whip is still at the quasi-primary level. It should be a bit uncomfortable. I will upgrade you later!"

Su Lang came to Zhu Shan with a bright smile on his face.

"Su Lang...really you!"

"You really, haven't changed at all, you still test other people's imagination like that!"

Zhu Shan became more excited when he heard the familiar tone.

"Ok!"

"How will you be here?"

Su Lang clicked the corner of his mouth and asked with a smile, "Could it be the mission of the Ship of Ten Thousand Realms?"

"Yes!"

"The Ark of Ten Thousand Regions discovered that this star region has a Quasi Taichu who is about to be promoted, and assigned a task, so I killed him."

"But the strange thing is that the mission went smoothly without any danger at all."

"Before and after I killed the Buddhist genius, there was no one to support him."

"I thought there would be too junior bald donkeys to stop me, and I was even ready to die."

"Unexpectedly, even now that I have killed, Tianmi Continent has not responded at all, and a strong person from the beginning has not appeared!"

As Zhu Shan was talking, a trace of surprise suddenly appeared on his face. He looked at Su Lang and said, "Su Lang, does this have anything to do with you!?"

"clever!"

"The Tianmi Continent didn't come out of the strong in the early days. It was indeed my cause."

"This matter is a long story, you listen to me talking..."

Su Lang smiled, and immediately began to talk about the process of guerrilla warfare between himself and Bai Lian and others.

Say a sentence.

There was a burst of horror on Zhu Shan's face, his eyes widened and his mouth opened wider and wider. It was incredible to the extreme!

When Su Lang finished the matter.

Zhu Shan was completely shocked there, his body trembling slightly, as if being electrocuted.

"Su Lang, you, you actually have the ability to play with the Jiuyan Primordial Realm!"

"This is too exaggerated, right? How long have you been practicing?"

"Even if it is in our boat of ten thousand domains, it has only been more than thirty thousand years!"

"..."

Zhu Shan looked at Su Lang in disbelief, as if an ordinary person had seen a ghost and would doubt his life.

### [Chapter 2097: I want it all!](#)

"Actually, it's nothing great."

"Only one clone of Bai Lian was killed this time."

Su Lang smiled faintly, "If you can kill a real Jiuyan Taichu, then it's worth mentioning!"

This statement came out.

Zhu Shan suddenly couldn't help rolling his eyes.

Killing a clone of Jiuyan Taichu, and forcing four Jiuyan Taichu to knock out their teeth and swallow them in their stomachs, this is not worth mentioning...

at this time.

"Zhu Shan, how is your boat of Ten Thousand Domains now?"

Su Lang asked with a smile, "How many are there in the primordial stage like you?"

Hear this.

A smile and gratitude gradually rose on Zhu Shan's face.

"Su Lang!"

"Thanks to the pill that you refined for us, as well as the annotated exercises, and the original exercises left behind!"

"Of our group, one hundred and sixty people have already been promoted to the Supreme Beginning Stage!!"

Zhu Shan smiled and said, "Of course, we can't compare to you. Up to now, the strongest Hao Xingren is still in the first stage."

"Rely on the pills I gave you!"

"As well as some difficult and obscure too basic exercises."

"It's really amazing that you can break through to the Primordial Beginning Stage in just 30,000 years!"

Su Lang nodded to Zhu Shan very seriously, showing his approval.

Thirty thousand years.

It was an extremely short time for a Wuxian Wudi.

But Zhu Shan and others were able to break through to the Primal Beginning Realm in such a short time, it was really too strong!

Although they are in the boat of ten thousand domains.

Everyone can communicate with each other without reservation, can exchange various items, as well as the pill and exercises given by Su Lang.

But they are definitely the most gifted group of people in the boundless universe.

Not only the talent for cultivation, but also the talent for fighting.

Joining the Ship of Ten Thousand Domains means endless battle.

Countless missions will push Zhu Shan, Yi Heguang, and Hao Xingren to fight against Tianmi Continent and do things everywhere.

It is really not easy to survive countless extremely dangerous battles.

And these battles are also a huge motivation to promote their promotion.

A battle that is infinitely close to death can always make it easier to understand the truth.

"Hey!"

Zhu Shan smiled, and then hesitated to ask, "Su Lang, are you alone against Tianmi Continent now?"

"Haha!"

"I haven't given up on the careful thought of letting me join the Ship of Ten Thousand Domains!"

"Now, I am not alone against Tianmi Continent."

"Behind me stands the entire Heavenly Misty Continent, the Cultivation Realm, and the Wu Clan Continent!"

"Now, there are more than one hundred senior primaries under my command, and there are nearly a thousand new primaries!"

"It is with the power of these fellow-daoists that my Boundless Number can be so powerful and able to compete with the four Bailians of the Jiuyan Prime Beginning Stage!"

Su Lang carried one hand on his back, with a faint smile on his mouth.

That sentence made Zhu Shan "dead" on the spot again, and his brain went blank!

"The entire Heavenly Misty Continent!!!"

"There is also the legendary cultivation world, the Wu Clan continent!?"

"Su Lang, are you now the ruler of the Heavenly Continent?"

"Also, the senior Taichu who is more than a hundred, the new Taichu who is close to a thousand people, I, I am not dreaming!"

"..."

After listening to Su Lang's words, Zhu Shan was so shocked that he was shocked.

"Not bad."

"I have now become the new boundless emperor of the universe recognized by the Heavenly Misty Continent, the Cultivation Realm and the Wu Clan Continent!"

"I will lead the entire Boundless Universe to rise, destroy the Tianmi Buddhism, and annihilate the Yuanmingzhou Emperor, so that the Boundless Universe will return to its peak and even more prosperous!"

Su Lang smiled and nodded, then his expression changed, "Now, you in the ship of ten thousand domains, join me too!"

This statement came out.

"This, we must be willing."

Zhu Shan gradually recovered from shock, "But the problem is that we can't leave the boat of ten thousand domains."

From all the details, Zhu Shan knew that Su Lang must be telling the truth.

Therefore, she believes in Su Lang very much and is very willing to join Su Lang's team.

but.

The Ship of Ten Thousand Domains deprived them of their freedom!

"It's ok!"

"You, and the boat of ten thousand domains, and even the land of exile, I want them all!"

The corner of Su Lang's mouth twitched, revealing a touch of excitement and expectation.

[Chapter 2098: With Zhushan travels to Tianmen Mainland](#)

"what!?"

"We, the ship of ten thousand domains, and the whole place of exile!!!"

"However, the Land of Exile and the Ship of Ten Thousand Territories are the means laid by Senior Zhaoyu, and we cannot change it at all!"

"The strong in the ship of ten thousand domains can only follow the established footsteps of the ship of ten thousand domains and resist little by little."

"We don't have any freedom of choice..."

When Zhu Shan heard Su Lang's words, he was shocked at first, and then looked sad.

"Hahahaha!"

"Don't worry, when I take the Ship of Ten Thousand Realms in my hands, you will also be truly free!"

"Let's go, now let me go back to the Heavenly Misty Continent, I want to explain some things, and then go to the place of exile!"

Su Lang laughed, and suddenly remembered something, "By the way, can you leave here now? If you leave, you won't be punished by the Ship of Ten Thousand Realms?"

"My task has been completed."

"And got a stay of two quarters of an hour."

"I just don't know if this time is enough to go to the Tianmen Continent."

Zhu Shan showed thoughts and expectations, but she really wanted to see the Tianmen Continent.

"That's good!"

"Two quarters of an hour is enough!"

Su Lang clicked the corner of his mouth and stepped forward, grabbing Zhu Shan directly, "Don't resist, I will put you into the universe of life."

"it is good!"

Zhu Shan nodded and let Su Lang put it into the universe of life.

Of course, it is the life universe of this Baiying clone.

After entering the universe of life.

Zhu Shan immediately found that this place was empty, there was no life planet at all!

But she was just a little confused.

I found myself removed from the universe of life, and a whole new scene appeared before my eyes!

This is in an array space.

And in front of her, two Su Lang appeared!

The 'Su Lang' who grabbed her arm was already strong enough, but the Su Lang sitting on the futon was even stronger!

"Well, what is going on!?"

Zhu Shan's horrified eyes moved back and forth between Su Lang and Baiying's clone.

"correct!"

"Forgot to tell you, this is my score."

Su Lang stood up and said with a smile, "You should find that there is no life planet in his life universe."

"Fen... Clone!"

"So, Su Lang, your clone is so strong!!"

"This is really...it can't be compared!"

Zhu Shan recovered from the horror and shock, and his gaze at Su Lang unknowingly brought a trace of awe.

at this time.

"Haha."

"I'm just a little bit faster than others' cultivation speed."

"I use my clone to accompany you to see the Heavenly Misty Continent, as well as the Cultivation World and the Wu Clan Continent."

"By the way, I will also explain the matter."

Su Lang laughed, and then continued to use the perfect leaning to control the clone, leading Zhu Shan to leave the formation.

Suddenly.

Zhu Shan saw the endless plains, mountains, and the vast sky of Tianmen Continent!

"This world is really too big!"

Zhu Shan looked at the various natural landforms and the ever-changing scenery in the divine mind, and suddenly expressed emotion.

"It's nothing good."

"I will show you another Heavenly Misty Continent!"

Su Lang smiled faintly, then handed Zhu Shan a privileged terminal...

Next.

Under the leadership of Su Lang's clone, Zhu Shan traveled all over the Internet through various places and spirits in the Tianmen Continent.

She was stunned and unbelievable.

Although Zhu Shan had never been to Tianmen Continent, she knew a little about the information here.

In the information she knows.

The Tianmen Continent is definitely not as advanced as it is now, but it is countless times worse!

Immediately after.

Zhu Shan understood that these changes were all caused by Su Lang's short period of three to five days after he came to Tianmen Continent.

This is even more shocking to her so hard for herself.

Shocks and surprises gradually condensed into a fiery ball of light in Zhu Shan's heart, bursting with light called hope!

### [Chapter 2099: Refining the Gate of Exile!](#)

As the "reincarnation" of the ship of ten thousand domains

She has been to many places in the Infinite Universe, and knows that it is very difficult for the Infinite Universe to escape the end of destruction!

Even, it is almost impossible!

The entire Ship of Ten Thousand Domains is adhering to Senior Zhaoyu's will, struggling hopelessly.

But at this time.

Zhu Shan saw hope.

And Su Lang looked at Zhu Shan's bright eyes, also very happy.

"do not worry."

"One day, we will win."

Su Lang patted Zhu Shan on the shoulder, "Okay, now I'm done explaining things, I can go to the place of exile!"

"Hmm!"

"Su Lang, if the Ship of Ten Thousand Domains can be controlled by you, it will definitely play a greater role!"

"I will return to the Ark of Ten Thousand Realms by teleportation now, and we are waiting for you!"

Zhu Shan nodded solemnly, immediately contacted the Ship of Ten Thousand Domains and began to return!

Suddenly.

A beam of light emerged out of thin air, covering Zhu Shan's entire body.

next moment.

The beam disappeared with Zhu Shan.

"The power of time and space!"

"And it's very powerful, surpassing Bailian and the others."

"Senior Zhaoyu was at least a half-step eternal powerhouse, right?"

"It may even be the strongest person besides the last infinite emperor."

"Even if Emperor Yuanmingzhou killed him, he could still leave the land of exile and the boat of ten thousand domains..."

Various thoughts arose in Su Lang's mind, and immediately took out some lost Xuanwu remains from the storage space.

"system!"

"Activate the one-key mixer function and refine the door of exile for me!"

Su Lang thought, and immediately issued instructions.

In the mysterious black space, the refining villain performed some operations.

Some of the bones of the lost Xuanwu were immediately consumed.

Then a door of exile appeared in Su Lang's storage space.

"Land of Exile!"

"Ship of Ten Thousand Domains!"

"It involves the existence of Time Avenue!"

"If I can take it back to myself, I will be able to play an extremely huge role."

Su Lang's eyes flickered, and countless innate qi was directly poured into the gate of exile!

next moment!

The door of exile shattered and turned into a small space-time passage.

but.

A space-time passage created by the Gate of Exile could not allow Su Lang to pass through.

"You have to refine a few more."

Su Lang smiled and shook his head, and immediately used a large amount of lost basalt bones to refine the gate of exile.

however.

Still not enough!

"It seems that it's time to use a certain technique!"

The corner of Su Lang's mouth twitched, and the profound meaning of various exercises emerged in his mind

——It is the profound meaning of the Wanhua Promise Nirvana Sutra!

"Well!"

"This technique should be strengthened."

"It would be embarrassing if the lost Xuanwu that I made was not useful!"

Su Lang thought so, even if Xuan used the one-click enhancement function, he strengthened the "Wan Hua Wu Ji Nirvana Sutra" to the realm of the beginning!

Suddenly.

More, more detailed, and more esoteric exercises appeared in Su Lang's mind.

"There is absolutely no problem now!"

Su Lang licked his lips, his eyes condensed, and he stretched out his right hand.

But saw a small flesh and blood tentacles growing out of his palm!

Immediately after.

The tentacles gradually grew and got into the remaining lost basalt bones.

After learning enough information.

The tentacles made up of Su Lang flesh and blood grew bigger and bigger, and then directly separated from the palm of the hand, gradually becoming a basalt!

This is the singular function of the "Wanhua Promise Nirvana Sutra".

It can perfectly simulate any creature and cast it out!

at this time.

The basalt in front of Su Lang is the lost basalt.

Needless to say, under Su Lang's control, it did not produce the mind.

"This is the first time to use my own flesh and blood refining device!"

Su Lang smiled, and then refined the Lost Xuanwu that his flesh and blood had turned into a gate of exile!

Use this gate of exile.

Su Lang successfully expanded the space-time passage to the extent that he can pass through.

"Land of Exile, here I am!"

The corner of Su Lang's mouth clicked and he went directly into the passage of time and space.

There is no discomfort, just a flower in front of me, and a brand new scene appears.

[Chapter 2100: Coming to the land of exile again!](#)

Here is the place of exile!

Su Lang left the place of exile three to four thousand years later.

The doors of exile gradually merged behind him, without a trace.

"God, open!!"

With a move of Su Lang's thoughts, he unfolded his spiritual thoughts, and immediately included the area with a radius of 500,000 light years!

Time has passed.

Three to four thousand years have passed since the place of exile, the vicissitudes of life, and the environment has already undergone tremendous changes.

There are no familiar scenes around.

Of course, this could not be difficult for Su Lang's clone dispatch.

He has opened up many dispatchable places in the Exile, such as those coordinates in the sky, which will not change easily.

"Ten thousand times the flow rate of time!"

"It must be used!"

Su Lang thought silently in his heart, and immediately sent a Baiying clone out.

Immediately after.

He used the clone to replace it again, and came to a position near the center of the exile.

When the Coffin of Nine Dragons appeared, it would first come to the center of the exile, so Su Lang would come.

"First get the Ship of Ten Thousand Territories."

"Then come and take away the exile!"

Su Lang's eyes flashed, and a trace of soul power touched the mark left by the coffin spirit of Nine Dragons.

Suddenly.

The two sides have a closer relationship!

Rumble! !

The sky of the exile suddenly showed the power of time and space that was extremely terrifying.

The whole sky seems to be turned into a whirlpool, constantly spinning!

A small black spot appeared in the center of the vortex, the black spot getting bigger and bigger, and it was gradually seen that it was a space channel.

at this time!

"The Kowloon Coffin!!!"

"It's the Kowloon Coffin, hahaha, the Kowloon Coffin has appeared again!"

"Although I don't know why the Nine Dragon Coffin appeared, this is my only chance!!"

"I want to set foot on the coffin of Kowloon and go to the unknown!!"

"..."

There was a burst of excitement, and it was a little familiar.

Su Lang swept away his spiritual thoughts, and suddenly found a gray-haired man in a long robe.

It turned out to be the famous strong man in the place where he was exiled, and then he was directly blown up by him, and almost died Chang Henzi!

"This guy is still alive."

"But the strength still hasn't recovered, it looks like the cultivation base has regressed."

The corner of Su Lang's mouth outlines a playful smile in a sneer.

This long hate child may be in trouble at the beginning.

Engaged here for a while, engaged there for a while, and continued to provoke Su Lang...

At this time.

The vortex in the sky is getting bigger and bigger!

The black space channel in the middle gradually reflected a hint of gold!

"The Kowloon Coffin!!"

"Hahaha, the coffin of the Kowloon is really about to appear!"

"I don't know which strong man actually called the Nine Dragon Coffin in a strange way. It's incredible!"

"However, no matter who you are and what method you use, I have secured a seat for the Kowloon Coffin!"

"..."

Chang Henzi let out a low cry with great excitement, then kept flying and teleporting, moving forward with the teleportation array...

30,000 years ago, the land of exile experienced a great battle, and the godless powerhouse was killed and wounded.

Although his cultivation base has regressed a bit, he is still considered a tall man among short ones.

Therefore, he wants to seize the opportunity to ride in the Nine Dragon Coffin!

but.

When he continued to move forward for hundreds of light years, he suddenly found Su Lang floating in the air!

then.

Chang Henzi instantly froze in place, his eyes violent, as if he had been given a hold technique!

"Su...Su Lang!!"

"How could it be you!? Haven't you already disappeared!?"

"How could it be you, you can't be here! No, it's not true!!"

"I must be having a nightmare, I am sleepwalking!"

"..."

Suddenly, Chang Henzi twitched like an electric shock, then his complexion was distorted, and he let out a hysterical, incredible roar.

Chang Henzi broke his head and couldn't think of it.

He would even encounter Su Lang, the nightmare in his life!

He really hates and scares!

Of course the main reason was fear, because Chang Henzi clearly felt the unmatched power of Su Lang.

That is the terrifying power that can easily destroy all the creatures on the surface of the exile!
