[Chapter 21: Activate the second function!](#)

"Ding! Consume 1000 gold coins, the one-key training function is upgraded to level 3, and the training speed is increased to 4 times the basic speed!"

"Ding! Host, congratulations on getting the activation permission for the new feature, you only need 10 gold coins to activate!"

Two successive system prompts made Su Langshuang almost fly!

Especially the last one, new features! The first function is so perverted, can the second function be worse! ?

"System, activate the second function for me!"

Su Lang did not hesitate and immediately chose to activate.

"Ding! Consume 10 gold coins, the heart of martial arts is opened, and the one-click martial arts function is activated!"

"Ding! Congratulations on activating the second system function. You have obtained the bonus function 'The Melting Pot of Ten Thousand Laws', you can practice all the techniques in the world!

As soon as the system prompt disappeared, Su Lang felt a shock in his mind, and information about the one-click martial arts function emerged.

At the same time, a white villain suddenly appeared in the mysterious black space!

This white villain is still the silhouette of Su Lang, but unlike the first white villain, it is standing.

"Hahahaha!"

Seeing the second white villain in the mysterious black space, Su Lang couldn't help laughing up to the sky.

At this moment, he has fully understood all the characteristics of the second function-that is to automatically practice exercises other than the main exercises!

In this era, the cultivation method is divided into two parts!

The first part is mainly to practice the exercises, specifically to improve the realm of cultivation. Now everyone is practicing the Boundless Heart Sutra.

And the second part is focused on attacking, killing, defensive and self-cultivation.

These exercises can be roughly divided into three categories, namely physical exercises for the body, weapon exercises for practicing weapon fist, and attribute exercises for manipulating various extraordinary energies.

According to the degree of preciousness, it is divided into elementary, intermediate, advanced, and top.

It is said that there are more mysterious techniques above the top level, but it is only said.

In fact, according to Su Lang's understanding, the realm of cultivation is equivalent to level, and the second most of the exercises are equivalent to skills and moves!

The main practice of cultivation depends on aptitude, while the mastery of 'skills' and 'movements' depends on comprehension and hard work.

To practice any of the second major exercises, one must have sufficient understanding.

If you have a high understanding, you will need less hard work. If you have a low understanding, you can only spend a lot of time and energy to make it together.

But in any case, it takes time and energy to practice.

Moreover, even the basic exercises are staggeringly expensive, and they are simply not affordable for ordinary people.

In addition, even those wealthy young masters would not choose to practice the second most of the exercises during the tempering period.

Because compared with directly improving the realm of cultivation, the price/performance ratio is horribly low.

Originally, Su Lang also planned to practice the second most of the exercises after he was promoted to the martial artist.

But this time is different, there is a one-click martial arts function, he can automatically learn martial arts 24 hours a day, anytime, anywhere!

"The system, how to turn on the one-key martial arts function?"

Seeing the motionless little white man, Su Lang's heart was itchy like a cat's claw scratching.

"Host, only need to place one exercise to activate the one-key martial arts function!"

"The current one-key martial arts function is level 1, and the martial arts speed is the basic speed. You can place a martial arts technique, which can be replaced after placement."

"It's detected that the host possesses the Guiyuan Bodybuilding Jue. Will it be placed?"

Su Lang's expression was taken aback, he had no impression of this "Guiyuan Training Art".

But soon he found this exercise from the memory of his predecessor.

It turns out that this is the most basic elementary exercise technique that almost every official martial artist must practice, coming from his predecessor parents.

Just because the predecessor couldn't practice, naturally he couldn't practice martial arts, and in the end he had no choice but to forget it.

"System, place it immediately for me!"

Su Lang grinned with a big smile.

"Ding! The "Guiyuan Forging Body Jue" has been placed, and the one-key martial arts function is on!"

In an instant, in the mysterious black space, the second standing white villain moved.

It is constantly doing various exercises in the "Guiyuan Body Training Jue", the posture is abnormally standard, and no one can pick out a flaw when it sees it.

At the same time, Su Lang felt that a small warm current was continuously flowing out of the limbs.

Although these warm currents are so subtle that they are almost impossible to find, they accumulate little and add up. In just a few breaths, Su Lang feels that his body has strengthened!

[Chapter 22: Super abnormal one-click martial arts!](#)

"This speed is definitely at the level of an evil genius!"

Su Lang's eyes widened suddenly, his eyes full of shock and ecstasy.

Don't look at the "Guiyuan Forging Body Jue" is just a basic exercise.

In fact, it is a body-building exercise that has undergone more than a thousand years of innovating and updating. Although it is moderate and ordinary, it is not easy to practice, and it is difficult for most people to get started!

People's mastery of the exercises is divided into four levels: entry, small achievement, great achievement, and perfection.

Reaching the level of Consummation means that you have mastered the exercises and can use it easily and freely.

However, most people need to invest a lot of energy and time even if they practice "Guiyuan Training Jue" to the beginning.

For example, the parents of the predecessor had to work hard every day for more than a month before reaching the entry level.

But at this time, the one-key martial arts function has such a remarkable effect after only turning on a few breaths, which shows how abnormal this function is!

"This function is really awesome!"

Su Lang trembled with excitement, "Now the function is only level 1, and after the upgrade, it can increase the speed of martial arts!"

Moreover, according to the system prompts, more exercises can be placed after the upgrade!

When that happens, I will be able to perform all kinds of magic skills, sling everything, and it is refreshing to think about it! "

It is necessary to know that the practice of the second part of the exercises is very difficult, and it is considered awesome that a general martial artist can practice two or three exercises to the Dacheng level in his lifetime.

But what about Su Lang?

At such an abnormal pace of practice, a few dozen exercises are not enough to cram teeth.

And the most important thing is that others need to work hard to practice martial arts, but Su Lang can sit back and enjoy it. This is simply one of the coolest things in the world.

At this time, Su Lang licked his lips and asked excitedly: "System, how much does it cost to upgrade the one-click martial arts function?"

The one-click martial arts function is so abnormal, how could he forget about the upgrade! ?

"Host, the gold coins consumed to upgrade the one-key martial arts function are the same as the one-key practice function."

"Up to level 2 requires 100 gold coins, and the martial arts speed is twice the base speed."

"Up to level 3 requires 1000 gold coins, and the martial arts speed is 4 times the base speed."

"It takes 10,000 gold coins to reach level 4, the speed of martial arts..."

"When the one-click martial arts function is upgraded to level 3, the host will be able to obtain the activation permission for the next function!"

"My fork, the system is so awesome!"

Just after the system prompt ended, Su Lang's eyes widened with excitement!

It only takes 100 gold coins to upgrade the one-click martial arts function to level 2. At this time, he has 568 gold coins, which can be upgraded to one level!

Moreover, the remaining 468 gold coins are only half of the 1000 gold coins, and the activation of the third function is almost right in front of you!

"Quick, system, upgrade me the one-click martial arts function!"

Su Lang did not stray at all and immediately issued the upgrade order.

"Ding! Consume 100 gold coins, the one-click martial arts function is upgraded to level 2, and the martial arts speed is increased to twice the basic speed!"

In an instant, Su Lang felt more warm currents gushing out of the limbs.

He can even clearly feel that his strength, defense, physical strength and endurance have improved to a certain extent.

at this time!

"Ding! "Guiyuan Bodybuilding Jue" has reached the entry level."

"Like, I'm getting started so soon!?"

Su Lang's expression moved, and the shock on his face was hard to conceal.

Immediately afterwards, with a thought, he exhaled his attribute panel.

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Peak body quenching

[Attack Level]: Peak Tempering Body+

[Defensive Level]: Peak Tempering Body+

[Shenfa Level]: Peak Body Tempering+

[Endurance Level]: Peak Tempered Body+

[Mastering the exercises]: Infinite Heart Sutra, Guiyuan Training Jue (Elementary, Beginner)

[Activated system function]: One-key training function (level 3), one-key martial arts function (level 2)

"Hey, the stamina of attack and defense is a plus, it's a lot of money!"

Su Lang couldn't help letting out a deep and excited laugh, "When this matter is over, I will go back and find more exercises to practice!"

[Chapter 23: Elementary Weapon Technique](#)

After a long time, Su Lang finally calmed down his excitement and restored his faint expression.

At this time, he remembered that there was a woman standing beside him.

Su Lang turned his head and saw that the woman in blue was looking at him blankly.

"Don't look, let's go."

Su Lang waved his hand, turned and left.

"Ah!? Oh!"

The woman recovered, and quickly followed.

She looked at Su Lang in front of her, wondering why Su Lang's expression had changed so much before, as if she had encountered something great.

It's just that even if her imagination was full, she couldn't think that Su Lang would cultivate a technique to the entry level in a minute or two.

Soon, Su Lang took the beautiful woman outside the house where the three of Dou Zhong had been killed.

"There are some women who are sick and pitiful with you."

Su Lang pointed to the door of the house and said, "You are also a junior body tempering anyway, so take them out of this magic cave. I will give you the safest route."

"Then...what about you? Are you not taking me with you?"

The blue-clothed women all counted on Su Lang to protect her. At this time, hearing Su Lang's words like this, she was suddenly anxious.

"Me? You care about me, go quickly, and you won't be able to leave when the stronghold comes back."

Su Lang smiled noncommittantly, then took out the map and drew the route, threw it to the blue-clothed woman, turned around and left.

The sea of women that Su Lang had experienced in his previous life is gone, and he wants to let him be saddled with a stubborn flower that meets by the water, delusional!

He is not licking a dog, but a killer with no emotions!

The woman in blue looked at Su Lang's decisive back, she could only sigh and let go of the thoughts in her heart.

Immediately, she came to the gate, preparing to take women who are sick and pitiful to leave here.

"Crunch..."

The door opened.

"what--!!"n(o./v)/e-L)-♠(/1--n

The woman in blue let out a horrified scream.

Behind the door are three tattered corpses and eight women like evil spirits. The scene is extremely bloody, it is almost asura hell!

...

After Su Lang handed the map to the blue woman, he did not leave the stronghold.

Most of the masters in this stronghold are hunting quasi-E-class wind wolves.

The wind wolves that can reach the quasi-E level are definitely the wolf kings. They are often surrounded by dozens of hundreds of low-level wind wolves. It is not a simple matter for everyone in the Broken Axe Hunting Group to hunt them down.

Even if everyone in the Broken Axe Hunting Group is fully prepared, they will definitely be exhausted after winning the battle, and then it will be a good opportunity to shoot.

And Su Lang himself also needs time to improve his cultivation realm.

After the one-key training function was upgraded to level 3, his training speed soared to four times that of a genius with no lack of aptitude, and it only took 2 hours to break through to the quasi-warrior level.

And the time for the Broken Axe Hunting Group and others to count on the journey, rectification, exploration, battle, and return journey is definitely far more than 2 hours!

Therefore, Su Lang intends to search the stronghold first, and then wait for it!

Ten minutes later, Su Lang ransacked the bodies and dormitories of the members of the Broken Axe Hunting Group, and obtained 89 gold coins in total.

In addition, there are many other items such as fierce animal materials, medicinal materials, ores, but these things cannot be stored in the system and can only be temporarily left aside.

"Adding the remaining 468, I already have 557 gold coins!"

Su Lang smiled brightly, "In this way, we are one step closer to upgrading the one-key martial arts function to level 3 and opening new functions!"

After searching the body and dormitory of the personnel, Su Lang returned to the residence of the guards in the stronghold.

Although the gold coins in the safe were finished, there were public funds from the Broken Axe Hunting Group, and the guards' private collections had not yet been searched.

After some searching, Su Lang harvested another 123 gold coins, and there were already 680 gold coins in the system.

And this is not what excites Su Lang the most!

"Unexpectedly, in addition to gold coins, you can find a technique!"

Su Lang was holding a thin book, sitting on the chair excitedly and looking through it.

This exercise is called "Ghost Moon Sword Technique", which is a basic weapon exercise. Su Lang speculated that it was prepared by the stronghold guard to break through the official martial artist.

"Tsk tusk, although it is a basic weapon technique, it is far more profound than the sword techniques in my previous life."

"Furthermore, this exercise is obviously more mysterious and difficult than the "Guiyuan Training Jue". Once practiced, the benefits are definitely greater."

Su Lang saw it and praised it, and soon he read it in its entirety.

[Chapter 24: Crush opponents at the same level!](#)

"Ding! The elementary exercise "Ghost Moon Knife Method" is detected, do you place it?"

Just after reading, the system prompt came.

"Looking noisy, just read it once, without careful study at all, can it be placed?"

Su Lang's eyes brightened with surprise.

In this way, he would only need to read the profound techniques in the future to start practicing automatically, without any effort at all!

After the excitement, Su Lang pondered and said, "System, how long will it take for the Guiyuan Body Training Art to reach the Xiaocheng state?"

"Host, it will take 24 hours to reach the Xiaocheng level."

"It only takes a minute or two to get started, and it takes 24 hours to reach Xiaocheng. It's really difficult!"

Su Lang sighed with emotion, and immediately said, "System, replace the "Guiyuan Forging Body Jue" with "Ghost Moon Blade Technique" for me."

If you continue to practice the "Guiyuan Exercise Jue" automatically, it will take a day to reach the Xiaocheng level.

But changing to "Ghost Moon Blade Art" will definitely reach the small level in a short time.

So now I switch to "Ghost Moon Knife Method" and the benefits are significantly greater.

"Ding! The practice method is replaced with "Ghost Moon Blade Method"!"

When the system prompt came, Su Lang moved into the mysterious black space.

I saw an illusory long knife in the hands of the white villain who was doing various exercises.

It is holding a long knife and constantly rehearsing the "Ghost Moon Sword Technique".

His sword practice is very smooth and natural, and it is as pleasing as artistic.

Su Lang just sat in the chair and waited quietly.

Two minutes later.

"Ding! "Ghost Moon Blade Technique" has reached the entry level!"

Su Lang felt a shock in his mind, and a large amount of understanding about "Ghost Moon Blade Technique" was imprinted in his soul, making his mastery of this technique directly enter the entry level.

"It is worthy of the level 2 one-key martial arts function!"

Su Lang smiled slightly, and then flipped his wrist, a flash of lightning-like sharp blade light burst out instantly, and then instantly converged.

If it weren't for a scary knife mark on one thick wall, everything seemed to have never appeared.

"This attack power can already crush the peak body tempering!"

Looking at the scary knife marks that almost penetrated the wall, Su Lang ticked the corner of his mouth and called out the attribute panel.

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Peak body quenching

[Attack level]: quasi-warrior

[Defensive Level]: Peak Tempering Body+

[Shenfa Level]: Peak Body Tempering+

[Endurance Level]: Peak Tempered Body+

[Mastering the exercises]: Boundless Heart Sutra, Guiyuan Training Body Jue (Elementary, Elementary), Ghost Moon Blade Technique (Elementary, Elementary)

[Activated system function]: One-key training function (level 3), one-key martial arts function (level 2)

"Sure enough, the attack state has reached the level of a quasi-warrior!"

"When I break through to a quasi-warrior, I will be able to crush opponents at the same level in all aspects!"

"This feeling is so wonderful, so refreshing!"

Su Lang felt his own strength, and the smile on the corner of his mouth gradually widened.

Although he is a killer, what he likes the most is to hit the enemy from the front, crying and crying, kneeling and begging for mercy!

"Now I am waiting for one-key practice to improve my realm."

Su Lang poured himself a cup of tea and drank it leisurely.

At the same time, in the west of the stronghold, outside the Gourd Valley, fifteen members of the Broken Axe Hunting Group were ready to go.

Among the fifteen people, there are two quasi-martial masters, and the rest are pinnacle tempering and advanced tempering.

"You remember all your tactics, let's go!"

The guard, headed by the stronghold, wore a strong red suit with a long sword on his waist, and walked into the gourd valley with a big wave of his hand.

The others followed suit one after another, ready to fight.

Soon, there was an angry wolf howl in the Gourd Valley, and it was obvious that everyone in the Broken Axe Hunting Group was discovered.

After the first wolf howl, there were continuous wolf howls in the valley, and even long howls came from around the Gourd Valley.

"Quick! Get in!"

A quasi-warrior yelled and rushed forward violently. The rest of the people also hulled out their weapons and swarmed up.

When the wind wolves in the valley saw everyone from the Broken Axe Hunting Group, they all rushed up with blood red eyes.

In an instant, the two sides met hand in hand, and the sound of wolves roaring, roaring, slashing, and cursing was endless.

[Chapter 25: I have been waiting for a long time](#)

Two hours later.

"Host, the sea of cultivation is full, is it a breakthrough?"

Half-squinted, Su Lang suddenly opened his eyes, bursting out an astonishing light.

For him, this system reminder is even more beautiful than the sound of the best stunner called X!

"System, give me a breakthrough!"

Su Lang chose to break through without hesitation.

In an instant, a huge warm current circulated throughout the body, making the muscles and muscles more tenacious and powerful!

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Quasi-warrior

[Attack Level]: Junior Warrior-

[Defensive Level]: Quasi-Warrior+

[Shenfa Level]: Quasi-Warrior+

[Endurance Level]: Quasi-Warrior+

[Mastering the exercises]: Boundless Heart Sutra, Guiyuan Training Body Jue (Elementary, Elementary), Ghost Moon Blade Technique (Elementary, Elementary)

[Activated system function]: One-key training function (level 3), one-key martial arts function (level 2)

"What the hell!"

Looking at the property panel, Su Lang jumped up from his chair.

He never expected that his attack level had reached the official martial artist level!

Although there is a minus sign at the back, it is also a tangible official warrior level!

The difference between the realm of quasi-warriors and the realm of warriors is the difference between heaven and earth, and the difference between clouds and mud.

Even if a dozen quasi-war fighters besieged and killed an official warrior, the final result is definitely that the quasi-warrior was crushed and killed!

"Jie Jie, as long as I don't meet an official warrior, then I am invincible!"

Su Lang grinned with a big smile, "Even if I meet a martial artist, I have the strength to retreat all over!"

At this moment, shouts suddenly came from outside.

"Quick, open the door! Boss Shi Yi is injured!"

"Where are the special people? If you don't open the door, labor and management will take your skin off!"

"Open the door, there are injured brothers waiting for treatment!"

"..."

Rude yelling kept coming.

Needless to think, I also know that the members of the Broken Axe Hunting Group who hunted the semi-E-class wind wolves are back.

"I've been waiting for a long time... Revenge, and the truth!"

A sneer appeared at the corner of Su Lang's mouth, and then he hurried to the gate of the stronghold.

"Which mess is guarding the gate today? Isn't it open?"

"Making a coin, my brother is going to die!"

"..."

The members of the Broken Axe Hunting Group outside became even more angry at this time, obviously their situation is not optimistic.

"Here, I am sorry that something happened just now."

Su Lang shouted a few times behind the door, and then opened a gap in the thick door.

"Something? If my brother is gone, you will really have something!"

A big man cursed and squeezed into the door with a full face, "Small, don't you open the door a bit!?"

With that, the big man squeezed into the door and saw Su Lang with a smile in his eyes.

"you are....."

Seeing Su Lang's face, the big man suddenly wanted to question him in shock.

But before he finished speaking, he felt a sharp light before his eyes, followed by a cold neck, and he lost consciousness.

"The peak body tempering, vulnerable!"

Su Lang Tang's knife swung away, and the blood on the blade spilled into the sky.

"Made, what are you talking about?"

At this moment, a member of the Broken Axe Hunting Group pushed the door open.

Immediately, all the members of the Broken Axe Hunting Group saw Su Lang holding a long knife and a headless body with blood spurting from the neck.

"this is!!"

"The base has changed!?"

"There are enemies! What? Alone!?"

Including the two quasi-warriors, everyone looked at Su Lang with disbelief.

They couldn't believe that someone dared to strike the tiger's whiskers of the Axe Hunting Group and wiped out their stronghold!

They couldn't believe that the one who destroyed the stronghold turned out to be a body quencher with no spiritual fluctuations!

They couldn't believe that this body temperer didn't escape after destroying the stronghold. Instead, he waited for them to come back and killed people in front of them!

This is really incredible, too incredible.

When everyone in the Broken Axe Hunting Group stared at Su Lang in shock, Su Lang was also looking at the group.

Counting those killed just now, there were a total of fourteen people, and each was wounded. One of them was still lying on a stretcher. Obviously, the loss was not light under the wind wolf claws.

[Chapter 26: Cut three people at your fingertips](#)

"Under Tengbao, who is your excellency?"

"Why are you having trouble with my Broken Axe Hunting Group?"

The guardian man in a strong red costume took a deep breath, suppressed the stormy sea in his heart, and asked coldly.

"Boss, why tell him so much and let me kill him!"

"Yeah, Boss Teng, let us kill him!"

"Humph!"

Teng Leopard snorted coldly and waved one hand, and everyone immediately closed their mouths.

"Su Lang, do you know?"

Su Lang ticked the corner of his mouth and said lightly.

"What? Su Lang? Shouldn't Su Lang be dead?"

Teng Bao looked surprised, and immediately said, "No, you should be here to avenge Su Lang, dare to provoke me to the Axe Hunting Group, what a bravery!"

If you can have the courage, there must be someone behind you, right? Tell me, which force gave you this courage? "

As soon as he said this, Su Lang knew that this Tengbao must be related to the death of his predecessor.

It's just that this person has never seen himself, or has seen it and forgot.

"Sorry, I am Su Lang."

Su Lang shrugged and looked at Teng Leopard with a playful look, "How about it, isn't it very pleasant and exciting?"

"You are Su Lang? This is impossible, he is obviously an ordinary person!"

Teng Bao looked at Su Lang coldly, "Fine, it provokes my Broken Axe Hunting Group, whoever you are, you must die!"

"Hahahaha, so arrogant and overbearing!"

"It's a pity... just a few of you, I can kill with my finger!"

Su Lang looked up to the sky and laughed. With a flick of his thumb, a sharp blade of light burst out of the sheath.

"The yellow-haired child is not ashamed!"

Teng Bao sneered and drew out his long knife, "I'm going to see how you can kill me with just a few fingers. Wait, give it to me!"

"Everyone go together!"

"I want to peel his skin and drink his blood!"

"Keep alive, this little skin and tender meat is rare!"

"..."

The other twelve people showed cruelty and drew out their weapons and rushed towards Su Lang.

For a time, the sword and shadow, the forest is as cold as snow.

In the eyes of the Broken Axe Hunting Group and others, Su Lang was so young and had no spiritual fluctuations in his body, at best he was a quasi-warrior.

The group of them killed even two quasi-E-level wind wolf kings, and also killed dozens of low-level wind wolves incidentally.

With such a powerful strength, is it not easy to deal with a young quasi-martialer?

However, when Su Lang made the move, their thoughts were subverted instantly!

"Ghost month, plunder!"

Facing more than a dozen people who rushed up, Su Lang took a step forward, the sword moved with him, and the blood suddenly appeared!

In an instant, three people in the Broken Axe Hunting Group separated their heads and two were seriously injured.

"not good!!"

"He is so strong!?"

"You can kill with your finger... Really kill three people with your finger!"

The other members of the Broken Axe Hunting Group were shocked, their cruel smiles were instantly replaced by panic.

"Ghost Moon Blade Technique?"

Tengbao's pupils also shrank suddenly, "Did he find my practice and successfully practiced it?"

Do not! What a joke, how can he succeed in training with his body tempering! ?

I have been thinking about it for a whole year, but I can't perform a single trick!

But he showed up, what is going on? "

Teng Bao's face was dull, he was completely messy at this time.

"I like your unexpected look!"

Su Lang sneered and pulled a knife, shook off the blood on the knife, and made its cold glow reappear.

"He is just a martial artist, don't panic, follow me to besiege him!"

Tengbao swallowed his saliva. Although he knew that Su Lang was strong, he didn't think that Su Langneng was strong enough to destroy them all.

As long as Su Lang can't kill everyone in a short time, he will be slowly entangled and besieged!

"Fight!"

"Avenge my brothers!"

Under the leadership of Tengbao, the remaining seven people all killed Su Lang.

As the main force, Teng Leopard and another quasi-warrior rushed to the front, killing Su Lang in half a breath.

One of them is holding a long sword, and the other is holding a long sword.

"Guiyue, cut!"

Su Lang's footsteps kept turning, Tang Dao slashed down while turning his wrists, pulling out a piece of snow.

[Chapter 27: Then I will fulfill you](#)

"Boom!"

"Ding stunned--!"

The sound of two golden and iron clashes came out at the same time, and the swords and swords screamed with sorrow.

Under the attack of Su Lang martial artist level, Tengbao and the other person were simply unable to parry, their weapons were instantly swept away, and the door opened wide.

At the same time, that terrifying invisible force was uploaded from the sword, making half of their bodies numb, and they were unable to make quick movements in a short time.

"It's absolutely impossible!!"

Teng Leopard was dumbfounded, unable to believe that his strength in the realm of quasi-martialists for many years was not the enemy of a young man!

Another quasi-war fighter of the Broken Axe Hunting Group was also terrified and unbelievable.

However, the facts are in front of them, and they can only accept it if they refuse to believe it!

"Ghost month, Nai!"

At this moment, Su Lang shot his sword again, and the throats of the three Broken Axe Hunting Group members broke again, and blood was flowing like a fountain.

"Unbeatable, go!"

Seeing this scene, Tengbao and two were frightened, and they were about to withdraw immediately.

"Want to go now? Guiyue, Shun!"

Su Lang sneered proudly, and took a step forward, straddling several meters, cutting to Teng Leopard.

"So fast!!"

Teng Bao looked at the gradually enlarged blade, his scalp exploded with horror.

He instinctively raised the long knife to block it in front of him, but the deadly blade light suddenly folded and slashed straight to his waist.

"puff!"

Cut into the flesh, bringing out a piece of scarlet.

Tengbao's eyes were violent, and the endless pain almost took away his strength, making him stagger and staggering out of balance.

"Boss Teng!"

"The boss is defeated, what should I do!?"

"Run! One who can run is one!"

"..."

The remaining three members of the Broken Axe Hunting Group saw Teng Leopard seriously injured, and suddenly Liushen was without a master.

Then, under the leadership of the quasi-warrior, they began to flee in all directions.

"Don't go! Come back!"

Teng Leopard looked desperate and sat down on the ground.

He never expected that these guys who usually call brothers and sisters would be so selfish and unloyal at the critical moment!

"Do you want them back? I will help you!"

When Su Lang ridiculed, his body had already chased the escaped quasi-warrior.

With his quasi-warrior + level, he caught up with the quasi-warrior in just three breaths.

"Die me!"

The quasi warrior felt the needle light on his back, his hair was terrified, and immediately turned around and swung his sword.

"Ding stunned!"

The long sword wailed, and a head flew high.

The other two members of the Broken Axe Hunting Group who were fleeing saw that the quasi-warriors were all killed with a single knife, and they were frightened and shuddered.

One person was even more so frightened that his legs became weak, fell to the ground, and then prostrated on the ground and kept protruding his head to Su Lang.

"Don't stand still?"

Su Lang looked indifferently at the last man of the Broken Axe Hunting Group who was still running away, his voice was as cold as coming from a bottomless abyss.

The last man in the hunting group of Broken Axe who was running away trembled and stopped involuntarily.

Immediately afterwards, he turned around stiffly and knelt down tremblingly.

"Very obedient, not bad."

Su Lang smiled slightly and walked towards the pale face of Teng Bao.

As Su Lang's footsteps got closer and closer, Teng Bao's body was instantly wet with cold sweat.

"Come on, why kill me?"

With a wave of Su Lang Tang's sword, he touched Teng Leopard's eyebrows, and a few hairs were cut by the blade and drifted away.

"You... are you really Su Lang?"

Tengbao's voice trembled so much that he could hardly hear him.

Su Lang nodded and said: "Yes, tell me why you want to kill me, I can give you a happy one."

"I still don't believe... you are Su Lang..."

Tengbao shook his head in disbelief, and then laughed like crazy.

"Hahaha!"

"What if you are really Su Lang?"

"I'm going to die anyway, why should I tell you?"

"Hahaha, after I die, someone will definitely give me revenge. The background of the Broken Axe Hunting Group is not something you can fight against!"

"You bitch, kill me, come on!"

Teng Bao seemed to have overcome his fear, his eyes were blood red, and he stared at Su Lang closely, gritted his teeth and cursed.

"Hehe, this is forcing me to use those cruel 'craftsmanship'!"

Su Lang looked down at Teng Leopard condescendingly, "Okay, then I will fulfill you!"

After speaking, Su Lang smiled, and lightly cut Teng Bao's face with a slice of flesh and blood like fish scales.

"What are you going to do!?"

Although the wound was small, Tengbao had an extremely bad feeling.

However, Su Lang no longer answered his questions at all, instead focusing all his attention on the blade.

Ling Chi's craft...

Once you don't perform well, the target will die!

[Chapter 28: Ye family, what a Ye family!](#)

"what!!"

"No!"

"Stop! Kill me!"

"Spare me, kill me!"

A few minutes later, Tengbao screamed in horror.

At this time, his face, neck, and shoulders were already covered with a lot of fine wounds.

Blood leached from the wound, making him look like he was covered with hideous red-edged scales.

In fact, the physical pain is still the second place. The most tormenting thing is the fear and anxiety in the heart!

The knife dangling in front of me was like a picky venomous snake, wondering where the next bite should be!

"This is just the beginning, you can't stand it anymore?"

Su Lang clicked the corner of his mouth and sneered, "Unfortunately, once it starts, there is no way to stop..."

"No! I will tell you what you want to know!"

"Please give me a pleasure, don't torture me anymore!"

Teng Leopard is like a wailing stray dog.

The two big men of the hunting group with Broken Axe who were kneeling aside were also scared to death, their bodies trembling as if they were sifting chaff.

"Well, for your poor sake..."

As Su Lang spoke, his hands kept moving, "I will do it while listening to you. When I am satisfied, I will give you a good time."

"No! No... good! I said!"

Teng Leopard has spoken incoherently, "The reason why I want to kill you is because of your parents!"

"Your parents became Yejia Keqing not long ago, and were sent to the very dangerous D-class beast area to perform missions. They were killed in Huangquan."

"According to the Keqing agreement, the Ye family needs to compensate each person with 2000 gold coins, which would have fallen into your hands."

"But this amount of money is not a small sum, and you are...just an ordinary person, so...the sixth master fell in love with the money..."

"Later the order came to me, and I arranged two men to kill you!"

"..."

"That's it."

Su Lang withdrew Tang Dao indifferently.

Although he was calm on the surface, the hatred in his heart was already surging.

Why did the former parents become Yejia Keqing?

It's not to make more money, so that his body can step into the way of martial artist.

However, the Ye Family sent them to the D-class fierce beast area at the martial artist level, killing them.

Not only that, but in the end, he slashed the roots in order to pay the compensation, and he really ate and wiped his bones without vomiting.

"Ye Family, what a Ye Family!"

Su Lang swung his knife sharply and cut off Teng Bao's neck.

Immediately afterwards, he turned around and coldly looked at the two members of the Broken Axe Hunting Group who were kneeling on the ground.

"Please forgive me!"

"Please spare me, I will be your dog from now on!"

The members of the two Broken Axe Hunting regiments still have the temperament of fierce bandits. They buried their heads in the dust in a humble manner, and kept saying begging for mercy.

"Go and gather all the valuable things before me."

Su Lang's faint voice came, "Don't play any tricks, otherwise you will be worse than Tengbao."

There are still many materials and resources in the stronghold, worth at least five or six hundred gold coins, and Su Lang does not intend to let them go.

"Yes Yes!"

"Let's go now!"

The two members of the Broken Axe Hunting Group were both surprised and scared. They scrambled up from the ground and began to collect valuables.

Su Lang stood there, silently thinking about the Ye Family's information.

The entire Red Maple City stronghold has a total of four major forces, each of which has a military commander-level powerhouse, and the Ye Family is one of them.

The remaining three powers are Wuzhe Alliance, Yu Family, and Bao Family.

Broken Axe Hunting Group has such a background, and it does have arrogant confidence.

If it is an ordinary warrior, I am afraid I really dare not kill Tengbao.

But for Su Lang, even if it is the Heavenly King Laozi, he can still kill him!

As the culprit, the Ye Family became the target of Su Lang's revenge, especially the Sixth Young Master of the Ye Family!

"Unfortunately, there are not enough gold coins, otherwise the system will be upgraded every minute to revenge!"

Su Lang's eyes flashed with cold light, and then asked: "System, how long will I be able to advance to the martial artist level?"

"Host, you can be promoted to a martial artist in five hours!"

"Five hours, this is the power of the pill."

Su Lang calculated that he had now eaten the fourth body-tempering pill, plus the fifth pill, the power of the medicine could only last for 3 hours.

"It seems that you still need to buy a pill."

Su Lang found a stone and sat down, waiting for the two members of the Broken Axe Hunting Group to collect items.

[Chapter 29: Be a good person in the next life](#)

Ten minutes later, a large amount of items appeared on the open space in front of Su Lang.

There are a lot of fierce beast materials, not only wind wolves, but also other F-class fierce beasts.

In addition to the medicinal materials and minerals, the most precious one is the Tier 5 main medicine that Tengbao and others have just obtained.

"Bring these things."

Su Lang waved his hand, "Hurry up."

"Yes Yes!"

The two big men of the Broken Axe Hunting Group hurriedly said yes, and then put everything on a cart.

"Good job, I hope you can be good people in your next life."

Su Lang nodded indifferently, and then slowly pulled out Senhan's Tang Sword.

"Do not!"

The two big men were shocked physically and mentally, and looked desperate.

"Ghost month, plunder!"

The light of the knife flickered, converging into its sheath.

Immediately, Su Lang pushed the cart and walked towards the entrance of the barrier.

Yes, he just wants to sell these things!

Although selling these things will inevitably bear risks, compared with the income of nearly a thousand gold coins, this risk is simply not enough.

What's more, as long as the strength is strong, no trouble can't be solved! ?

A few hours later, it was late at night, and Su Lang hid the cart in a hidden woods. After making sure that he would not be found, he walked towards the entrance of the barrier.

A big man was guarding the entrance, and when he saw Su Lang, he just nodded slightly and let Su Lang in.

Once again through the long and narrow passage, Su Lang came to the tower hall and found a window to purchase materials and treasures of heaven, material and earth.

But just as Su Lang passed by, a man suddenly ran over and blocked him with a smile on his face.

"Eh heh, hello!"

This man looks like a profiteer, and he doesn't sell it. "Looking at you with a murderous look, what you have to deal with may not be right.

Oops, don't rush to deny it, I see you a lot, I can't read it wrong, let's put it straight, I am from Yinbaolou.

We collect and sell all kinds of fierce animal materials, natural materials and treasures. The key is to only make transactions, and do not ask a word about the others, and will never reveal customer privacy.

The headquarters of our Yinbaolou is in Dongshan big stronghold. We have done business in more than a dozen strongholds around, and our reputation is absolutely trustworthy! "

Su Lang's expression moved.

Soon after searching in his memory, he really found information about the hidden treasure pavilion.

However, because the front door didn't go out, he just heard his parents talk about it once, if it weren't for this hidden treasure pavilion's presence in front of him, he couldn't remember it.

"Hmm... how do you call it? What is the price?"

Although Su Lang is not afraid of trouble, if he can get rid of the beginning and the end, it is naturally better.

"Hey, you can call me old money."

Seeing Su Lang's interest, Lao Qian smiled brighter, "The price we bought is 80% of the gate tower hall, and we will receive the goods at home to ensure that there will be no worries."

"80%? That's OK."

Su Lang nodded faintly, "My things are worth close to a thousand gold coins. Prepare yourself."

"More than a thousand gold coins? No problem!"

The old Qian smiled and nodded, "Let's go, the goods are outside the city, right? When I go to inspect the goods, I will return to the city and give you money if there is no problem."

Seeing that Old Qian agreed so easily, Su Lang was even more relieved.

Soon, the two went out of the city to the hidden woods and found the cart.

"Oh, there are also Tier 5 main medicines, not bad, not bad!"

The old money looked at the materials on the cart proficiently, and finally said: "These things are worth 900 gold coins, giving you 720 gold coins."

Su Lang frowned, this was one or two hundred gold coins less than expected.

Seeing that Su Lang hesitated, Old Qian said, "It looks like you are trading with us for the first time, and you have 750 gold coins for Tier 5 main medicine, how about?"

"Deal."

Su Lang nodded, he didn't want to get too much ink.

"Okay, then return to the city to trade."

When the deal is concluded, the old money also smiles, "Just put these things here, and I will arrange for someone to receive them."

"Then go."

Su Lang nodded in satisfaction. Although the price was a bit less, the service at Yinbaoge was indeed quite good.

Soon, the two entered the barrier. Old Qian went to the tower hall to take 7 low-grade spirit stones and 50 gold coins and hand them to Su Lang.

"I have been here, looking forward to the next transaction!"

Lao Qian stretched out his hand and shook Su Lang, then turned around and went busy.

[Chapter 30: The third anti-sky feature!](#)

"Hey, now there are 1430 gold coins, and you can already upgrade the one-click martial arts function!"

Su Lang couldn't help smiling, but he still bought a 12-gold high-grade body tempering pill before leaving the tower hall.

Walking on the road, Su Lang thought: "The system, convert all these spirit stones into gold coins, and deposit all the gold coins!"

"Ding! The exchange is successful, the deposit is successful!"

In the mysterious black space, the number behind the money symbol once again rose to four digits-1418!

"System, upgrade me the one-click martial arts function!"

Su Lang did not hesitate and immediately ordered.

"Ding! Consume 1000 gold coins, the one-click martial arts function is upgraded to level 3, and the martial arts speed is increased to 4 times the basic speed!"

"Ding! Host, congratulations on getting the activation permission for the new feature, you only need 100 gold coins to activate!"

The wonderful system prompt makes Su Lang's soul fly quickly!

"call--!"

Su Lang exhaled a bit of excitement, "System, activate new functions!"

"Ding! Consume 100 gold coins, the clone dispatch function is activated!"

"Ding! Congratulations on activating the third system function. You have obtained the bonus functions 'perfect plunder', 'clone perception', and 'item delivery'!"

"Ding! The current avatar dispatch function is level 1, which can dispatch a avatar that is exactly the same as the host to fight. It will take 24 hours for the avatar to regroup after death!"

"Ding! Host, congratulations on successfully activating the three functions. The system has opened the storage space for you, and you can store items indefinitely."

A series of system prompts made Su Lang's face dull.

Immediately afterwards, there was a turmoil in his mind, and a purple villain gradually condensed in the mysterious black space.

The outline of this purple villain and Su Lang are almost carved out of the same mold.

It stood behind the two white little men, waiting motionlessly for dispatch.

At the same time, messages about the dispatching function of the clone flooded into Su Lang's mind, making him instantly understand everything about this function.

First of all, this clone has exactly the same combat power as Su Lang.

Undoubtedly, this is very abnormal and very bad!

You must know that the clone exercise method is extremely rare and has surpassed the category of top-level exercise methods. Not to mention military generals and military commanders, even the king of martial arts is difficult to have.

Moreover, even if those strong people have cultivated clones, they are often only one-tenth of the strength of the deity, or lower!

What's more against the sky is that Su Lang's clone can ignore space barriers and dispatch to any place where Su Lang has a specific impression.

For example, the Hall of the Warrior Alliance, the F-level stronghold of the Broken Axe Hunting Group, the tower hall, the trading street, the restaurant...

Wherever Su Lang had seen, the clone could be instantly dispatched to one of the specific coordinates.

Moreover, Su Lang can gain the perception of the clone, wherever the clone has seen it is the place he has seen!

That means that wherever the clone has been, it can be dispatched instantly again!

In addition, the 'perfect plunder' function gave Su Lang and his clone a 100% 'burst rate'!

Any object that was killed by Su Lang and his clone, the directly possessed items, whether it was valuable materials on the body, or the things in the space ring or Xumi space, would be attributed to the loot, looted and stored in the storage space in.

This storage space is also so abnormal that it can store items infinitely!

You must know that space treasures can only be owned by generals, and their space ring has a few cubic meters that is great.

Compared to Su Lang's storage space, this is simply rubbish!

Finally, the "item transfer" function is also very easy to use. With it, Su Lang can transfer items to the clone, which can be used in many cases.

"Mad, this system function is super amazing!"

"With this function, I can send a clone to hunt and earn gold coins."

"Furthermore, if you encounter an enemy, you can send it out for a siege, which greatly increases your combat power!"

Su Lang regained his senses from the shock, then he kept sucking in his excitement.

The third system function is really abnormal!

The only shortcoming is probably that the clone's spiritual intelligence is too low.

The clone at this time can only fight or execute some of the simplest commands.

Even speaking, Su Lang must give orders to speak some simple words.

However, this does not affect the combat power of the clone at all!

"I can't wait to see this clone!"
