### [Chapter 2131: Enter the training area](#)

Immediately after.

Countless creatures logged into the heavenly virtual world.

Many creatures went to places that were not covered by the network at the first time. They went to travel to increase their knowledge...

of course.

More people are still waiting for the announcement.

Because everyone knows that the heaven and earth energy of the Heavenly Misty Continent has dropped drastically, and they have doubts in their hearts.

Just then.

Under Su Lang's order, the Heavenly Misty Void Server issued an announcement.

"Attention please!"

"Announcement: The Celestial Void Realm update is completed. This update adds a training area inside and outside the Exile. The creatures that conform to the standard can apply to the Celestial Void World Spirit to enter."

"In addition, the heaven and earth energy of the Heavenly Misty Continent generally declines because the energy is concentrated in the cultivation area."

"At present, Nirvana Shahai has added 100 million teleportation points, please try your best to practice in the training area!"

"To enter the corresponding training area, you need to meet the corresponding access standards, the access standards are as follows!"

System prompts appeared one after another.

Immediately all the wise creatures knew the reason for the decline in the energy concentration of the Heavenly Continent.

"It turns out that the energy concentration has already gathered together!"

"Haha, His Majesty the great Boundless Emperor Zhou has built a super-large spirit gathering array and gathered all the energy!"

"The energy concentration in the rest of the cultivation must be very strong! I really look forward to it!"

"..."

When countless wise creatures were discussing, they saw the access standards issued directly to the server.

Suddenly.

Countless wise creatures are talking again, causing an uproar at the same time in the Celestial Continent and the Celestial Void Realm!

"His! The training area inside the Exiled Land has 100,000 times the time flow rate and 1 million times the energy concentration!"

"One million times the energy concentration, oh my god, a dog can become an emperor when it enters!"

"It's not just Emperor Cheng. As long as there is enough time, I'm afraid that it can reach the Emperor level!"

"Look at the access standards, haha, I have served as a soldier in the Celestial Cluster and have been on duty for a billion years. I agree with the standards for entering the internal training area!!!"

"Hey, I am the sect master of a sect. I have personally accepted a lot of apprentices, trained a lot of people, and can enter the internal training area!"

"Wow, I am really envious. I can only enter the first level of the outer area, but the first level is also good, one hundred times the time flow rate and ten thousand times the energy concentration. As long as I work hard to make dedication to the Heavenly Continent, I will soon You can enter the internal training area!"

"Quickly, apply to go to the training area, I want to apply to go to the inner training area of the Exile!!!"

"I will go to the outer training area to practice for a period of time, and then I will apply for the Heavenly Misty Star Group guard troops!"

"In addition to going to guard troops, it's okay to receive more disciples!"

"There are other access standards, such as..."

"..."

Almost all of countless creatures are excited about the discussion, and almost all have begun to send applications to the server.

After the server was upgraded by Su Lang, it was able to cope with such a huge amount of applications and approve applicants.

quickly.

Countless creatures were transported to the training areas inside and outside the exile.

at this time.

The first floor of the outer area of the Exile.

A large number of intelligent creatures are teleported from the teleportation point!

The brief but slight time confusion let them know that they have come to a different place.

"Is this the first level of the outer cultivation area?"

"Heaven, it's so rich in heaven and earth energy, it's stronger than the energy in our gated land, it's amazing!"

"Yes, here I can definitely cultivate to Emperor Wu level as soon as possible!"

"..."

Countless cultivators looked around excitedly and exclaimed.

Immediately after.

Some sat down on the spot and started practicing.

Some started to call friends and friends to share their practice experience.

Some find places with few people and start practicing their martial arts!

Even the practitioners in the outer area were very satisfied.

The cultivators who entered the training area inside the Exile were even more excited!

at this time.

Countless Wudi, Great Emperor, Supreme Emperor, a large number of early and quasi-prime cultivators have been sent in.

[Chapter 2132: All beings are the master!](#)

Jiang Wenzheng, Hao Xingren and other people who set access standards for Su Lang before are also there.

Not only that.

Su Lang also moved those subordinates of the Primordial Realm who were in retreat to the exile!

Feel the energy of heaven and earth with a concentration of a million times

Countless warriors were thrilled on the spot!

"Millions of energy concentration!!!"

"One hundred thousand times the flow rate of time!!!"

"This world is full of floating rivers of energy, and the sky is full of energy droplets!"

"Heaven, one day of cultivating here is absolutely equivalent to tens of thousands of years of cultivating outside the world!!!"

"Hahahaha, great, my breakthrough is expected!"

"All these are gifts from His Majesty Su Lang, thank His Majesty Su Lang for giving me such a superior cultivation environment!"

"Yes, without Your Majesty Su Lang, we are just a dog hiding in Shangada, how can we have today?"

"I worship the great Majesty Su Lang, everything I will be dedicated to you!"

"The great Majesty Su Lang is here..."

"..."

Countless creatures burst into tears with excitement, and knelt down in pieces.

Some visualized the magnificent and sacred image of Su Lang in their hearts and kept praying.

There are also a large number of warriors united to cast Su Lang's giant incense statues for the surrounding practitioners to worship.

Simultaneously.

The aboriginal creatures in the exile are even more excited!

Because they found that they had come into contact with the creatures of the legendary boundless universe!

"They are from the boundless universe!"

"Heaven, the land of our exile is connected to the boundless universe!?"

"We are no longer forgotten creatures, and we are no longer a real place of exile!"

"Good news, good news, His Majesty Su Lang, the Emperor of the Boundless Universe, has built our exile area into the strongest training area in the Boundless Universe. The creatures of the Boundless Universe can come here to practice. We are also the subjects of His Majesty the Boundless Universe and can go to the Boundless Universe. Up!"

"Hahaha, we don't have to fight for the coffin of Nine Dragons anymore, we can go directly to the endless universe and see the vast world!"

"There are so many strong people who come to our exile. It's like the Supreme Emperor walks all over the place. In the beginning, the strong people are all in groups!"

"I also want to become such a powerful existence, thank the great Emperor Su Lang for giving me the opportunity!"

"..."

The creatures in countless places of exile couldn't help but arouse endless admiration and gratitude to Su Lang.

There are also some creatures who knew Su Lang's existence, such as the sacred beasts and monsters of Jade Blood Heaven, some personnel of the Supreme Nine Qing Palace, the supreme master of Riyue Mountain, etc...

After they learned that Su Lang had become the Emperor of Boundless Zhou, their first reaction was incredible.

But they soon saw the incense statues of Su Lang cast by countless cultivators on the Tianmen Continent.

And Bi Yelin, Mo Lu, Yuqing and others also appeared.

then.

They couldn't believe it, they all believed it!

All the aboriginal creatures in the exile have reached a consensus in a short period of time

——The place of exile no longer wanders, but has returned to the embrace of the boundless universe and has become a world of belonging. Their co-master is the great boundless emperor Su Lang!

Suddenly.

Whether it is the wise creatures of the Heavenly Continent or the Exile Land.

They all produced countless incense power to Su Lang!

Because the shock that the Exile Land has brought to countless creatures is too fierce.

So this time Su Lang got so many incense wishes that were terrifying!

Not only the Seven Treasure Trees and the Void Dragon Vein Heaven Realm that pierced the Heart Lock produced a huge amount of special aspirations.

Even the Zijin gourd is further consolidated!

Presumably soon, you will be able to get the fourth incense weapon!

At this moment.

Su Lang was in the Ship of Ten Thousand Domains, overlooking the entire World of Exile, a happy smile was drawn at the corner of his mouth.

A new place of exile.

It will become the center of the Heavenly Misty Continent and the core of his forces!

There will be countless powerhouses out here, stationed in the Infinity, and help him fight the Emperor Yuanmingzhou! !

### [Chapter 2133: Land of exile](#)

"My strength will be greatly improved."

"But the most important thing is my own strength!"

"A full 100,000 times the flow rate of time, before Emperor Yuanmingzhou exits the barrier, I will definitely be able to reach the eternal realm!!!"

There was a bright light in Su Lang's eyes.

One hundred thousand times the flow rate of time, plus his own cultivation speed far surpassing that of the same level.

Even if his own crystal wall cells far exceed the same level.

It is absolutely possible to complete multiple breakthroughs within the extremely short and infinite universe timeline.

"Small boat."

"Teleport me to the exile!"

With a thought, Su Lang issued instructions to the Ship of Ten Thousand Domains.

"Yes, master!"

Qi Ling Xiaozhou immediately took his order, and immediately teleported Su Lang to the inside of the Exile.

Silently.

Su Lang appeared on an unnamed mountain in the Land of Exile.

He looked around.

Suddenly felt the details of the tremendous changes in the place of exile.

For example, the surrounding plants have all become low-level spiritual plants, which can be used to research and refine pill.

The surrounding creatures were also nourished by the spiritual energy, possessing more powerful power, and forming powerful monsters.

Even the soil underfoot.

They all contain incomparably rich heaven and earth energy, which can be regarded as a kind of heaven and earth treasure.

Many of the originally relatively advanced treasures of heaven and earth have even turned into intelligent creatures and turned into special intelligent creatures!

"A million times the energy concentration of heaven and earth is really awesome!"

A satisfied smile was drawn at the corner of Su Lang's mouth, and then he planned to practice here.

Because the energy of heaven and earth in the Exile is the same everywhere, even the void outside the sky is the same, full of countless heaven and earth energy.

So where to practice, it has little effect.

but.

Su Lang did not directly start practicing.

Because in his body, there are also Chu Xiaobei, Ji Ruxue, Murong Xianxian, Youzhi... and so on, as well as a large number of human warriors.

As an ancestor.

Naturally, take care of the warriors of the human race.

In addition to this, there are also mythical beasts who can also be released for cultivation.

"Come out!"

Su Lang waved his hand, in the Dantian universe, the human race on the blue star stopped immediately no matter what they were doing.

Except for the sacred beasts that exist in all life universes, all the other sacred beasts are fully prepared.

They all felt the power of Su Lang!

Soon.

Countless human races were released from the Dantian universe by Su Lang, and scattered on the land of exile.

These human races comprehend the rules of heaven and earth because they were practicing in retreat in Su Lang's Dantian universe.

So the news is relatively blocked.

They became the last wave of people who knew that Su Lang upgraded the Celestial Void Realm and created the Deeds of Exile.

at this time.

Countless human races were completely stunned!

"Su Lang, what is this place!?"

"Heaven, such a rich energy of heaven and earth, there is no need to practice, the energy of heaven and earth is actively infiltrating into the body!"

"Too rich, the energy of this world is so strong that it makes you feel suffocating!"

"Brother Su Lang, this must be the practice site you created!"

"..."

Chu Xiaobei, Ji Ruxue and the others stared at Su Lang with brilliant eyes.

The other sacred beasts and human warriors did not dare to disturb Su Lang and Chu Xiaobei and other women, so they stayed around in groups, talking excitedly.

"Haha!"

"Ru Xue guessed right."

"This is indeed a training place I built."

"Then you guys know what place was before here?"

Su Lang looked around at the girls, a faint smile was drawn at the corner of his mouth.

"Uh!"

"This... Divine Mind can't see the side, it's vast, and can't see where it is!"

"Yes, such a big place, could it be somewhere on the Heavenly Continent?"

"..."

Chu Xiaobei and the other women began to have spiritual thoughts and uttered their guesses.

"You must not think of it."

"This is the place of exile where you have stayed for more than a hundred years!"

Su Lang laughed and told the truth.

This statement came out.

Chu Xiaobei and other women, as well as countless human warriors were shocked!

[Chapter 2134: Start practicing](#)

"what?"

"A place of exile?"

"Brother Su Lang, you turned the place of exile into a training place?"

"Yes, Brother Su Lang, you must have taken a fancy to the flow of time here!"

"..."

Chu Xiaobei and the other women were very smart, and soon understood Su Lang's plan.

They are also very clear.

Su Lang must have made perfect preparations long ago, and could freely travel back and forth to the Heavenly Misty Continent.

really.

Su Lang nodded immediately and explained all the things he had done recently.

In addition to accepting strong players such as Hao Xingren, bringing replay to each place, and upgrading the heavenly virtual world and other major events.

Even the plan to be promoted to the Coffin of Nine Dragons, to transform and perfect the Ship of Ten Thousand Territories, and to build the main temple in the future, has all been said.

"The main temple!!"

"Brother Su Lang, you want to build the main temple, it's amazing!"

"With the main temple, we can move freely in all places in the endless universe!"

"..."

When Ji Ruxue and other women heard that Su Lang was going to build the main temple, they were suddenly very excited.

They have seen many 'ancient novels' unearthed by Blue Star, and they know what the main temple does, so they know the role of the main temple!

Through the main temple, the warriors can not only directly reach the designated location in the universe to perform tasks, but also use rewards to further motivate the warriors to practice and perform tasks.

At present, although the exchange building of Tianmen Continent said that Su Lang and the Tianmen Continent warriors had reached a win-win situation.

But for the warriors of Tianmen Continent, the exchange building is a kind of welfare facility.

This will encourage them to search for treasures, exchange for more advanced treasures, and promote them in a more convenient and convenient way.

For combat training, there is much less.

The task of the main temple will allow the warriors to experience more fighting, accelerate their growth rate, and hone their fighting talents.

In this way, the geniuses hidden among the crowd can be better discovered.

"Hahaha!"

"You are right, the main temple does have a lot of benefits."

"After it is built, it will definitely bring greater promotion effects to the Tianmen Continent."

Su Lang stretched out his hand and rubbed Ji Ruxue's hair, and smiled complimentingly at the girls.

Everyone couldn't help showing excitement and joy.

"All right."

"Time is precious, so go to good students and practice!"

Su Lang patted Ji Ruxue's forehead again and said to the girls.

"Hmm!"

"We must work hard to cultivate!"

"We want to contribute more strength to Brother Su Lang on the Infinite Ship!"

"..."

The girls nodded one after another, and immediately found a place and began to practice seriously.

Su Lang nodded in satisfaction, and immediately looked at the human warriors in the distance.

Countless human martial artists saw Su Lang, suddenly kneeled and bowed, and then went to practice very consciously.

See this scene.

Su Lang smiled, and set a formation himself and began to practice.

Just sat down.

Su Lang's gaze fell into the mysterious black space.

But I saw that the cultivator had already turned golden, and I didn't know how many cultivation bases he had stored.

"The stored cultivation base must be enough for breakthrough!"

"System, give me time rules!"

A bright light flashed in Su Lang's eyes and directly issued an order to the system.

"Ding! Time rules are beginning to comprehend!"

As soon as Su Lang's voice fell, the system prompt appeared immediately.

The next moment.

The countless cultivation bases in the sea of cultivation bases are pouring out, turning into a subtle time rule!

These time rules are all related to the 'future' stage, which is the basis for the implementation of the 'time acceleration' approach.

After this slight time rule appeared, it was directly integrated into Su Lang's soul.

quickly.

Su Lang has mastered some of the time rules of the 'future' stage and has reached the standard of breaking through the Siyan primordial realm.

"The time rules for the future stage have finally been mastered."

"In the future, with my own strength, I can also use those time acceleration methods."

Su Lang felt the profound meaning of the time rule in his mind, and an excited smile was outlined at the corner of his mouth.

[Chapter 2135: Breakthrough, Siyan Primordial Realm](#)

Although he could also use time acceleration before.

It is even a more advanced time deceleration and solidification method.

But that was a means of relying on the Wuyin, with the help of Yingwa and other Qiyantai junior powerhouses based on the time rules, and used it.

This is not your own power after all.

In this world, external forces can never compare to the mighty forces attributed to oneself!  
at this time.

The time rules of the future stage are mastered to the extent that they can be broken.

Su Lang immediately glanced at the mysterious black space.

I saw that the golden villain still kept his whole body golden, which was obviously enough to break through to the next level!

"Great!"

"System, give me a breakthrough!"

A trace of excitement flashed in Su Lang's eyes, and he gave the order directly.

"Ding! Start breaking through!"

Accompanied by the appearance of system prompts.

All the golden villains turned white directly!

The cultivation base accumulated in it crazily poured into Su Lang's body, and then mixed with the rules of time, into the crystal wall cells!

This time.

The cultivation base and the time rules are integrated into the Tai Sui universe.

The sublimated cells are the same as the previous ones, reaching the same number.

"Again!"

"I have reached the Siyan Primordial Stage."

"The cells that incorporate the rules of time in the body have reached the fourth level."

"Compared to my full one hundred and seventy gai number of crystal wall cells, this is really too few!"

"This potential is too great, and it's also an annoyance!"

Su Lang felt the majestic energy in his body once again, and he was slightly emotional.

I don't know whether others will spit blood after they know his thoughts.

After the breakthrough is complete.

Su Lang began to get acquainted with his own strength and consolidated his cultivation.

Immediately after.

It's time to continue practicing again!

"It's time to take the initiative to upgrade the crystal wall cells!"

Su Lang took a deep breath, closed his eyes, and started running "Hengsha Blessed World Record"!

The exercises work mysteriously.

The extremely majestic innate qi, with the profound meaning of the immeasurable world of Hengsha, formed a special force, and began to blend into the crystal wall cells.

Under the influence of these forces.

As long as the crystal wall cells are integrated, the internal space and cell crystal walls begin to grow wildly!

quickly.

These crystal wall cells have reached the limit that "The Boundless Boundary of Constant Sand" can grow.

Su Lang immediately shifted the target and began to strengthen the remaining cells.

Strengthening crystal wall cells consumes energy very much.

However, Su Lang's battery life not only surpassed his own cultivation level by countless times, he had already reached the stage of the Primordial Six Emperors, approaching the realm of the Primordial Seven Emperors.

The public cosmos contains a part of the sun itself, providing countless energy at all times.

Moreover, the current external environment is also full of energy.

Therefore, the congenital qi in Su Lang's body will never be able to make ends meet.

This makes him do not need to stop and rest at all, just keep doing it and it's done!

Time gradually passed.

In a blink of an eye, another system prompt appeared.

It turns out that "The Secret Book of Universe Ling Jue" has reached the level of founder.

The moment the exercise is completed.

Numerous warm currents poured into every crystal wall cell in Su Lang.

Suddenly, the crystal wall cells grew passively one by one, increasing by one ten thousandth on the current basis.

However, the crystal wall cells that Su Lang had actively promoted only grew by one tens of millions.

"The effect of passive exercises is getting closer to zero."

Su Lang paused the operation of Hengsha Boundless Boundary Record, his spiritual thought swept through the crystal wall cells in his body, and he sighed slightly in his heart.

Immediately after.

He also chose a passive exercise technique "Taiyi Tianluo Chuangshijing" that looks like the sword goes slanting forward!

This exercise is called such a name.

It's because it was synthesized by Su Lang using the cultivation technique of the ten thousand realms!

In the cultivation world, Taiyi Yuxian is the Supreme Emperor, and Taiyi is also called Taiyi Tian Luojing.

"I hope this exercise can surprise me."

A glimmer of expectation flashed in Su Lang's eyes, and he immediately activated the nine hearts into one function and began to practice "Taiyi Tianluo Chuangshijing".

Finish it all.

Su Lang closed his eyes and continued to lift the crystal wall cells.

The crystal wall cells became larger in the endless innate energy.

It has a stronger energy storage efficiency and energy conversion ability, and the distortion power conversion ability.

#### [Chapter 2136: Passive forging method fails](#)

Time passed gradually.

In an instant, the system prompt sounded again.

"Taiyi Tianluo Chuangshijing" has also reached the founding level!

Numerous warm currents merged into Su Lang's body, directly enhancing a large number of crystal wall cells.

And this exercise with the characteristics of the cultivation system of the ten thousand realms, the effect was better than expected.

Even if compared with the previous "Secrets of Universe Ling Jue", the effect is still attenuated.

However, the degree of attenuation was lower than originally expected by Su Lang.

"It's really a surprise."

"Then next, let's practice a body-refining exercise of the Wu Clan Mainland."

Su Lang smiled slightly, and immediately chose a passive exercise method synthesized with the Wu Clan exercises to start practicing!

After placing it.

Su Lang continued to run "Hengsha Boundless Boundary Record", raising the crystal wall cells to the limit that this technique can improve.

Time passed again.

Soon, the previously placed Wu Clan characteristic exercises also reached the founding level.

The crystal wall cells above and below Su Lang's body also got a slight improvement.

Even the crystal wall cells that have been actively promoted have not been passively promoted.

"It seems that the passive exercise is about to fail."

"If you can practice one book at most, it will completely fail!"

Su Lang took a deep breath, selected the last passive exercise technique, and ordered the nine martial arts villains to practice.

He himself continued to operate the Hengsha Boundless World Record, constantly improving the crystal wall cells.

In a blink of an eye.

The last passive exercise technique has also reached the founding level.

As expected.

This exercise only produces an almost negligible improvement to the exercises that have not been actively promoted.

"The passive forging technique has completely failed."

"One more way to improve crystal wall cells!"

Su Lang sighed. Next, he will rely on his own initiative to improve.

Fortunately, he has practiced a large number of passive exercise techniques so far, and every crystal wall cell has far surpassed the martial artist of the same level, reaching a very terrifying point.

These gains.

Those ordinary Taichu warriors can't get it even after spending countless years.

In short, Su Lang has made a lot of blood!

Next.

Su Lang first chose an active exercise technique and turned on the one-key martial arts function to practice it.

Soon.

Then began to continue to operate the Hengsha Blessed Boundary Recording Technique.

Su Lang actively promoted the crystal wall cells.

Every hour or so, there will be a master exercise practice to the founding level.

but.

At present, the primary exercises practiced are all exercises that actively promote crystal wall cells.

Therefore, after the practice is completed, huge benefits will not be directly obtained.

of course.

Su Lang knew very well that once these exercises were operated, the effect would be absolutely leveraged!

Time passed quickly.

Don't know how much time passed.

Su Lang practiced a large number of active exercise methods, the number of which is similar to the passive exercise methods.

At this time, accompanied by the appearance of the system prompt.

Another active exercise method to complete the exercise.

Su Lang opened his eyes, a glimmer of joy flashed in his eyes.

"The number of active exercises is completely enough."

"In order to ensure perfection, let's practice another "Record of Wan Lian Tianjun"!"

"..."

While thinking about it, Su Lang placed the last exercise on the nine martial arts villains.

Immediately after.

His gaze shifted to his crystal wall cells.

So far, he has actively promoted a full one trillion crystal wall cells, and his strength has increased again.

"One trillion crystal wall cells!"

"Although the ratio to the body is small."

"But there are already a lot of them."

"Now that the cultivation base has accumulated some more, just use it first, and then continue to upgrade the crystal wall cells!"

Su Lang pondered for a while, and immediately issued an order to the system, "System, give me time rules!"

"Ding! Start to condense the time rules!"

The system prompt sounded directly, very simply.

then.

Su Lang felt a bit more difficult and obscure the time rules of the 'future' stage into his soul.

His mastery of the time rules immediately reached the Wuyan Taichu Stage.

[Chapter 2137: Make another breakthrough, Qiyang Realm combat power](#)

"awesome!"

"System, give me another breakthrough!!"

Su Lang showed his excitement and gave instructions again.

Accompanied by the system prompt appears again.

Su Lang, who had just broken through, began to make a breakthrough again!

The breakthrough process is similar to before.

Both the cultivation base and the rules of time are integrated into the universe of life, this time it is the universe of enlightenment.

Then it merged into the surrounding crystal wall cells from the Qiming universe.

After completion.

of course.

The crystal wall cells surrounding the previous five life universes have also been integrated into a new time rule and have been even more improved.

After the integration is complete.

Su Lang's cultivation reached the realm of the Wuyan Primordial Beginning!

And the time he needs to cultivate is only half a day.

This is the horror of the one-key practice function.

It directly compresses the cultivation process of others for one billion years, two billion years... and even more years to the extreme! "System! Open the properties panel!"

Su Lang's eyes flashed, and he gave instructions.

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Wuyan Taichu

[Attack level]: Qiyang Taichu

[Defensive level]: Qiyang Taichu

[Shenfa Level]: Liuyan Taichu+

"The combat power has stepped into the realm of Qiyan Taichu in all directions."

"The small realm of the Primordial Realm has a bigger gap, the higher the level, the bigger the small realm gap."

"It is too terrifying to master the power of the Five Element Primal Beginning Realm with the Qi Yan Primal Beginning Realm."

"Even if the time rules are weaker, it is completely easy to deal with the ordinary Liuyan Taichu."

Su Lang looked at his attribute panel and nodded with satisfaction.

Immediately after.

He intends to continue to upgrade his crystal wall cells.

But at this moment.

Suddenly, there was an extremely pleasing sound in the luminous universe, just like the clear sound of the sky!

"It's Phoenix!"

Su Lang's expression moved, and an avatar was condensed in his hands and appeared in the magical universe.

Immediately after.

He once again saw the elegant and noble Phoenix!

And this time.

Phoenix's body was filled with the powerful strength of the Eight Yan Primordial Stage!

"The Phoenix has broken through!"

"Haha, I originally planned to let it cultivate in a place of exile if it delays in breaking through, but I didn't expect it to break through like this."

"The realm of the Bayan Primordial Realm, the real strength of the Bayan Realm, hehe, I have one more powerful general under my command!"

"..."

Seeing the phoenix soaring happily in the sky and surrounded by countless bewitching creatures in the universe, Su Lang was very happy.

At this time.

Phoenix also sensed Su Lang's incarnation, and suddenly showed excitement, shrank and flew to Su Lang's incarnation.

"Little Phoenix pays homage to His Majesty Emperor Zhou!"

In front of Su Lang, the phoenix respectfully lowered his arrogant head, and revealed his heartfelt respect.

"Congratulations on your breakthrough!!"

"Come, come out and relax."

Su Lang smiled slightly, and released the phoenix from the magical universe.

Suddenly.

The phoenix appeared in front of Su Lang from the Enchanting Universe.

One appeared.

Phoenix felt Su Lang's powerful Wu Yan Tai Primary cultivation realm and Qi Yan Tai Beginning realm aura.

In an instant.

He couldn't help but exclaim.

"His Majesty!"

"You broke through two small realms at once!!"

Phoenix was really shocked. He never expected that Su Lang directly broke through two small realms.

This is unique in the history of Infinity Realm!

"calm down!"

"Don't be surprised what happens to me!"

Su Lang laughed and nodded Phoenix's forehead.

"Yes!"

"His Majesty Su Lang can't make sense!"

"By the way, Your Majesty, after Xiaohuang was promoted to the Bayan Primordial Stage, he once again awakened some memories from before Nirvana."

Phoenix nodded with deep approval, and immediately said very excitedly, "This time I have mastered a magical power. As long as I'm in the same time and space, I can sense the origin of the Phoenix's birth in the Tianting Continent."

### [Chapter 2138: The phoenix breaks through, the Bayan Realm!](#)

"The source of the birth of the phoenix?"

Su Lang's expression moved, his eyes revealed surprise, "That means you can easily perceive the specific location of Tianting Continent!"

Although the boundless world is divided into four parts, and the general direction is relatively clear.

But the emptiness of the universe is too vast.

Even if you know the general direction, it is not easy to find a specific location.

Until now.

The clone that Su Lang dispatched had not yet found the specific location of the Tianting Continent.

The Heavenly Jade Continent knows the exact coordinates, because he has a Heavenly Jade army composed of warriors from the Heavenly Jade Continent.

Currently.

Only Tianting Continent was not found.

But now, the Phoenix can sense the origin of the Phoenix's birth on the Tianting Continent, and naturally it can directly find the location of the Tianting Continent.

"Yes, great majesty!"

"Little Phoenix can sense the location of Tianting Continent!"

"Not only that, Xiaohuang can use the talent and magical powers of the Phoenix family to return directly to the nest and return to the birthplace of the Phoenix on the Tianting Continent!"

Phoenix nodded in various ways, and said news that surprised Su Lang even more.

"Go straight back to Tianting Continent!?"

"This is really good news!"

"The periphery of Tianting Continent must be the same as Tianmi Continent, with a large number of martial artists to monitor."

"My treasure hunt flying flying gliders and clones are going to reach the Heavenly Continent, and they will definitely be discovered."

"If you want to unknowingly enter the Celestial Continent, it is not easy."

"Now that we can directly reach the Tianting Continent, those who are stalking outside will definitely not be able to find it."

A gleam of excitement flashed in Su Lang's eyes, "Go, let's go to the Heavenly Continent to have a try!!"

Talking.

Su Lang took the phoenix together, and through the teleportation function of the Celestial Void Realm, left the place of exile and arrived at the Celestial Continent.

Just appeared in the Tianmen Continent.

Su Lang and Phoenix felt that the energy of the heavens and the earth around them was so thin that they were unbearable.

"This is how easy it is to change from frugality to luxury, and it is difficult to change from luxury to frugality."

"In the future, I am afraid that no one will want to leave the training area of the exile!"

Su Lang thought in his heart, then looked at Phoenix, "How about it, can you feel the source of the Phoenix?"

There is no cost to feel the source of the birth of the phoenix.

If you use the homing ability, you need to pay a certain price.

"Your Majesty, I will try now!"

The phoenix nodded, then closed his eyes and began to use his talents and supernatural powers, feeling the existence of the source of the phoenix.

quickly.

He opened his eyes.

Excitement and excitement in his eyes!

"His Majesty!"

"I have felt the existence of the source of the birth of the phoenix!"

"If you spend a certain price, you can come home now!"

The phoenix said excitedly, after he was killed, he was sealed for billions of years.

At this moment, he felt the existence of the source of the phoenix, and the long-lost feeling surged in his heart, making him feel excited and difficult to calm down.

"Really!"

"That's great!"

Su Lang also opened his eyes and smiled, "Is that right, I just don't know if the movement when returning home is big."

This question came out.

"Your Majesty, the movement is indeed quite big."

"And also to pay a certain price."

Phoenix suddenly smiled bitterly: "In addition, Emperor Yuanmingzhou's subordinates are constantly monitoring the Tianting Continent. Once Xiaohuang returns, he will still be discovered."

"that's true."

"However, one more way to travel to the Tianting Continent is better than none."

"In the future, it may be useful to get this."

Su Lang nodded slightly before asking again, "What useful news is there in your awakened memory?"

"Return to your Majesty!"

"There is really a news."

"At the time when the Infinite Realm fought, the predecessor of the Infinite Universe, the eternal powerhouse under the command of the emperor, the leader of the mythical beast clan, Oriental Taiyi, was suspected of being seriously injured and not dead."

"It stands to reason that the Tianting Continent has resisted stubbornly and refused to surrender for billions of years. The Emperor Yuanming Zhou had already destroyed it."

"It's like destroying the Heavenly Jade Continent, killing all the creatures on it."

A gleam of surprise flashed in Phoenix's eyes, "But he didn't do that. There must be some scruples about this!"

#### [Chapter 2139: Suspected Touhou Taiichi](#)

"Cause?"

"The purpose of Emperor Yuanmingzhou's invasion of the boundless universe currently seems to have two, namely, the core fragments of the boundless world and the origin of the universe."

"If Dongfang Taiyi is not dead and hides in the Tianting Continent, perhaps he will use this to threaten Emperor Yuanmingzhou and make him afraid to kill the Tianting Continent."

"This is also the reason why the Tianting Continent has been oppressed for a long time, but has not been wiped out."

Su Lang muttered in a low voice, picking up some clues, a hint of excitement in his eyes.

Dongfang Taiyi, the leader of the mythical beast clan, is another eternal powerhouse.

If he really is not dead.

Rescuing him must be another extremely powerful combat force!

of course.

Su Lang knew.

What I guessed based on limited clues is probably wrong.

after all.

Even Phoenix couldn't be sure if Dongfang Taiyi was still alive.

"For the time being!"

"In my boundless universe, in addition to the innate demons, there are still half-step eternal powerhouses surviving!!"

Su Lang took a deep breath and made up his mind to take advantage of the fact that Emperor Yuanmingzhou was still in the Heavenly Jade Continent and must conquer the Heavenly Ting Continent as soon as possible.

Soon.

Su Lang asked Phoenix some more questions.

For example, some details of the original war, how many strong people participated in the war, etc.

This question.

Phoenix's emotions were obviously prevented from becoming heavy.

"His Majesty!"

"The battle at that time was really terrifying!"

"At the beginning, there were eternal powers in the Western God System, but the entire Western God System was completely destroyed!"

"We, the eternal powerhouse of the Eastern Gods, became the leader of the boundless universe, but still lost in the hands of Emperor Yuanmingzhou."

"During the war, the half-step eternal strong have lost the number of hands, Jiuyan, Bayan...more!"

"Yiyuan Mingzhou Emperor's power, even among the eternal realm powerhouses, is the top one."

"I still remember that the strong people had another name for him back then, that is the hunter of the natural universe!"

"..."

The phoenix said in a low voice, but soon returned to cheerfulness, "However, with His Majesty Su Lang's miracle, he will soon surpass Emperor Yuanmingzhou, beheading him, and saving the boundless universe!"

"Natural universe hunter!"

"Hunting the universe, directly against a natural universe!"

"Slay the two great eternal realm powers with one's own power, slaughter countless of their powers, and break the boundless world to pieces!"

"This is the power of Emperor Yuanmingzhou, it is indeed very strong and terrifying!"

"I have to practice as soon as possible. If a second is wasted, there will be more risk!"

Su Lang thought so, and immediately looked at Phoenix, "Our strength is still too weak, even the Tianmi Continent can't be destroyed, hurry up and cultivate."

"Yes!"

"Your Majesty Su Lang!"

Phoenix nodded respectfully, and immediately gave Su Lang the space-time coordinates he sensed.

"Good job."

"When I finish one thing, I will go back together."

Su Lang nodded slightly, then patted his clothes lightly, "Ao Yu, come out and help me monitor the world."

"Yes, master!"

The Nine Yin Eyes of Candle, which turned into a pattern, suddenly broke away from Su Lang's clothes, and Qi Ling Ao Yu also appeared to lead her.

Soon.

Su Lang put Ao Yu into the Heavenly Void Realm.

With the help of the servers of the Heavenly Void Realm, Ao Yu can better sense the big things happening in the Heavenly Continent.

And the server spirit of the virtual world of the sky can also complement Ao Yu.

at the same time.

Su Lang also released a large number of treasure hunting flying flying gliders, sent to major places, such as the cultivation world, the Wu Clan mainland, the heavenly stars, the exchange building and so on.

There is a triple surveillance of the Heavenly Void Realm, the Eye of the Nine Yin Candles, and the Treasure Hunting Flying Flying Dancing.

Even in the land of exile, Su Lang can sit back and relax!

Immediately after.

Su Lang took the phoenix back to the exile.

After returning to the exile, Phoenix ran away to practice.

Clearly feel the majestic energy around him.

Phoenix was also extremely shocked and pleasantly surprised.

After asking the surrounding monsters, I found out.

Not only the energy concentration here is one million times that before the Exile, but also the time flow rate has reached one hundred thousand times!

"His Majesty Su Lang is really the light of hope in the boundless universe!"

"No matter how strong Emperor Yuanmingzhou is, as long as there is enough time, His Majesty Su Lang will definitely be able to beat him!"

Phoenix thought so, and immediately went to consolidate the realm seriously.

And Su Lang's side.

Also began to practice!

The main thing is to actively promote the crystal wall cells.

The one trillion crystal wall cells that have been ascended before are not worth mentioning compared to the entire body.

Time passed slowly.

quickly.

The last active exercise technique "Wan Lian Tianjun Lu" that I practiced has also reached the founding level!

And Su Lang is still using "Blessed Sands" to upgrade those crystal wall cells that have never been upgraded.

After all cells have been raised to the limit by the Hengsha Boundless Boundary Technique.

You can use the second active exercise method, and do it again!

at this time.

After completing the practice of "Wan Lian Tian Jun Lu",

Su Lang immediately selected a large number of exercises to put in front of him, all of which were too elementary exercises related to time.

From the 'now' to the 'future' and then to the 'past', dozens of exercises have been selected for each of the three stages!

Choose one of them and use Jiu Xin Guiyi to start practicing.

Su Lang began to upgrade the crystal wall cells again.

An hour is like a flash.

The practice of one exercise is finished.

Part of the crystal wall cells have been ascended.

Su Lang placed the exercises back and forth and continued to practice!

at the same time.

Most of the day has passed in the land of exile.

Outside, the Heavenly Misty Continent, less than a second passed!

Outside the exchange building.

There are countless times fewer practitioners than before.

But there are still many warriors in need who come to the exchange building to exchange the items they need.

As long as the cultivators passing through the exchange building square.

Everyone will go to the place where the Heart Piercing Lock is located to see the five powerhouses of the Primordial Beginning Realm who were imprisoned by Su Lang!

"Ah!!! It hurts, it hurts!!!"

"Give me a good time, come on, give me a good time!"

"Kill me, whoever will kill me, kill me I will give him all the inheritance!"

"..."

Under the torture of the heart-piercing lock, the five powerful men from the beginning were making endless screams all the time!

Its loud screams spread throughout the exchange building square, shaking the air.

"Tsk tut!"

"The five powerhouses of the Primordial Beginning Stage were so helpless to fight back that they were caught by the great Su Lang!"

"His Majesty Su Lang's methods are too powerful, and the powerful in the early days have been tortured like this!"

"Haha, opposing our great Majesty Su Lang is simply looking for death!"

"Everyone takes a warning, don't be a traitor!"

"..."

Countless warriors formed a torrent, expressing contempt for these five early betrayers of the boundless universe.

This is a great humiliation in the eyes of Shen Shuang, Pu Lian and others!

At this time, almost all the warriors who passed through the exchange building square were very weak and weak.

This level of realm is simply a microbe-like existence than it is too basic, and it can blow countless people to death in one breath.

But now.

They are being despised and humiliated by those insignificant little cultivators. This is simply a third torture to them besides body and soul.

"I'm not reconciled!"

"Why, why should I be so unlucky, I just sneaked into the land of exile at that time!?"

"Ah, it hurts, I don't want to live anymore, I want to die, let me die!"

"Kill kill kill, kill me!!"

"..."

Shen Shuang let out a scream of incomparable pain, and the whole person was almost going crazy.

And just now!

A voice suddenly appeared in his heart.

"Shen Shuang!"

"where are you now?"

"What happened to you?"

It's the voice of a young woman!

"this is?"

"The Immortal Emperor Zhou!!"

"My Immortal Emperor Zhou, please help me!"

"..."

When Shen Shuang heard the woman's voice, she was shocked at first, and then a trace of hope suddenly rose in her desperate heart!

He knows the identity of the voice owner very well

-Immortal Emperor Zhou!

The Immortal Emperor Zhou also has another incomparably noble status, that is, the Taoist companion of Emperor Yuanmingzhou, a half-step eternal powerhouse, and the true guardian of the Tianting Continent!

Only the immortal Emperor Zhou.

Only by silently planting a mark on Shen Shuang's body.

At this time Shen Shuang was captured on the Tianmen Continent, and Emperor Zhou followed the imprint he planted to find him!

of course.

Emperor Immortal claimed to be Emperor Zhou, but in fact he just exaggerated himself.

She is not a true eternal realm powerhouse, only relying on the relationship with Yuanmingzhou Emperor, dare to call herself Emperor Zhou.
