[Chapter 2161: Make another move and kill Chunqiu Yi!](#)

"the host!!"

Feeling the appearance of Su Lang, Li Xianyang immediately called out respectfully, and was ready to give way.

"let me do it!"

Su Lang rushed into the Infinity and came to the core parts.

Li Xianyang automatically returned to his original parts and continued to provide strength to the Infinite.

Because the flow of time in the Exile is 100,000 times faster than that of the endless universe.

and so.

Although Su Lang stayed in the Exile for a while.

But on the Heavenly Continent, not even a second passed.

therefore.

Chunqiu Yi, the last of the four Jiuyan Taichu strongmen who invaded the Tianmen Continent, has not been killed by Li Xianyang.

At this time, Chunqiu Yi was fleeing in extreme horror.

He broke his head and never expected that his three companions would die so quickly!

Even though I couldn't escape from the mainland, I was caught up!

If not all three companions died.

Chunqiu Yi almost thought that the three companions deliberately released the water...

"Chunqiu Yi!"

"Fourth Jiuyan Taichu!"

"Become a dead soul under my sword!"

Su Lang stared at Chunqiu Yi closely, his icy voice was like a cold wind blowing from the ice hell.

"Do not!"

"I am the strong under Emperor Yuanmingzhou!!"

"If you dare to kill me, you will definitely die!"

"Su Lang, listen to me, there is still a way to survive by taking refuge in Emperor Yuanmingzhou!"

"With your qualifications, you can definitely be valued by Lord Yuanmingzhou and be as loyal to him as Mi Ling Buddha!"

"..."

In order to survive, Chunqiyu immediately issued a heartbreaking threat.

"Ha ha!"

"It's so funny!"

"Die to me!!!"

Su Lang sneered, and when he moved in his heart, the Boundless Space passed through the Celestial Void Realm Teleportation Net to kill behind Chunqiu Yi!

"The world is extinguished·Breaking a sword——!!!"

Accompanied by Su Lang's angry shout, Youtian Sword descended from the sky, engulfing extremely terrifying power and slaying towards Chunqiu Yi.

"no, do not want!"

"I was wrong, I knew it was wrong!"

"Please let me go...Ah!!!"

Chunqiyu begged for mercy in horror and despair.

However, he didn't finish his begging for mercy, and he was split in half by Youtian Sword.

"Ding! You get the Soul of the Beginning*1, the Life Universe of the Beginning*1, the Fragment of the Body of the Beginning..."

A system prompt sounded.

All of Chunqiu Yi's net worth was immediately taken away by the perfect plundering function.

Countless treasures of heaven, material and earth and various treasures appeared in Su Lang's storage space, piled up into a giant continent.

"Hey!"

"Another all the wealth of Jiuyan Taichu!"

"Next, kill those eight Bayan Realm Taichu, and the loot must be enough to greatly increase my combat power!"

A gleam of excitement flashed in Su Lang's eyes, and he immediately called out the information collected by the Heavenly Void Realm, and immediately grasped the traces of the eight people.

The remaining eight evolving realm powerhouses.

A few pretended to hide from the beginning, hoping to survive.

Others who fled quickly, after realizing that there was no hope of escaping from the Heavenly Continent, they immediately disguised themselves.

"kill!"

Su Lang gave an order and drove the Boundless Ship towards the nearest Bayan Realm Taichu.

Infinite number.

Everyone quickly recovered their energy, and soon reached the point where they could kill the Beginning of the Bayan Realm!

The other side.

This Bayan Realm primordial powerhouse was named Zi Zhong, and he was very frightened at this time.

"Damn it!"

"How can there be no one in this city?"

"Even the beast with a little cultivation base has disappeared!"

"What does this make me pretend to be? Stone!?"

"..."

Turning into an ordinary man, Zi Zhong was in an empty city, and the cold wind blew through, making it extremely messy.

He has passed several cities.

But these cities were all empty. Not only did he pretend to be an incomparably conspicuous creature and would be seen directly, but he also didn't have the capital to threaten Su Lang with the city.

"Damn it, let's pretend to be a stone first!"

After some struggle, Zizhong became a stone.

His disguise is actually very good.

If you don't specifically check the general Jiuyan Primordial Stage, you can hardly find any abnormalities if you look at it.

however.

In front of Su Lang.

Even the best disguise is no use!

[Chapter 2162: Like cutting fruits, one sword is one](#)

Rumble!

The world suddenly changed color.

Under the endless pressure, the entire sky is about to rotate and collapse!

An indomitable giant occupies most of the sky, and an endless shadow casts down the stone that Zi Zhong has turned into!

The person who came is naturally Su Lang who holds the Boundless Ship!

"what!?"

"He unexpectedly appeared here!"

"Could it be that he has found me!?"

"No, this is not true, I was not discovered, he just happened to..."

Zi Center screamed frantically, terrified, and could only pray that Su Lang just passed by.

but.

What happened in the next moment severely shattered all his hopes!

I saw that incomparably tall Infinity suddenly lifted the Milky Way-like Youtian Sword and stab it directly.

Hiss!

With an extremely terrifying power, this sword pierced the stone-turned Zi Zhong directly!

"Do not!!!"

"I don't want to die!"

Zi Zhong let out an unwilling and desperate roar, trying to escape.

But under the sword of Infinity at this time, his speed was too slow!

Puff!

The tip of the Youtian Sword directly pierced it through, and the giant sword body shredded it like a tomato.

"Ding! You get the Soul of the Beginning*1, the Universe of Life*1..."

The system sounds.

Again, a huge amount of wealth entered Su Lang's storage space.

"next!!!"

Su Lang smiled coldly, and drove the Boundless Ship towards the next Eight Yan Realm Taichu.

To behead the Nine Generations realm powerhouse, he also needs to use the Universal Annihilation Profound meaning.

After killing one, all energy will be exhausted and you have to rest for a while to kill the next one.

But Qin Song was happy to kill Bayan Realm at the beginning.

There is no need for any secret technique at all, just a simple Youtian Sword plus one sword, it is like cutting a fruit, one sword at a time!

In a short time.

Su Lang drove the Infinity to various places in the Tianmen Continent.

Kill all the hidden Bayan Realm from the beginning!

Suddenly.

All the powerhouses who invaded the Heavenly Continent from the Heavenly Ting Continent were all killed!

The beasts are about to be released from control and regain their freedom!

"Humph!"

"I killed so many strong men."

"The Immortal Emperor Zhou must be very angry!"

"I don't know if this guy will come to **** me right away?"

"Well, it is suspected that there is Dongfang Taiyi in the Tianting Continent, she may not leave there."

"So what about Tianmi Continent? Will you do it on me?"

Su Lang thought about it, his eyes flashed, and a trace of killing intent shot!

At this time, he was able to kill the Jiuyan Realm Taichu!

Don't do it, don't stop, just do a wave of Tianmi Continent!

Although in Tianmi Continent there is no such convenient transmission network as the Heavenly Misty Void Realm, its mobility is a little less mobile.

And there is Mi Ling Buddha sitting in town.

However, if you give it a try, you might be able to kill a few people!

of course.

With Su Lang's caution, it was impossible to run over directly.

"Let's first see if the Emperor Zhou is ventilating with Tianmi continent!"

"If the two sides have communicated, Tianmi Continent should have action."

"Maybe a trap will be set against me!"

"..."

Su Lang's eyes flashed with thoughtful light, and immediately with a thought, he sent out a huge amount of treasure hunting flying gliders.

On the Tianmi continent.

Among the dispatchable maps that have been developed.

Whether it is inside Tianmi Continent, those places that have been raided.

It was also a place guarded by Bailian and others outside Tianmi Continent.

There have been countless treasure hunt flying gliders!

"Squeaky!!"

Treasure hunting flying flying like locusts that cover the sky and the sun flew by at a speed comparable to the beginning!

They frantically searched for everything on the way, and once again set off a storm on the Tianmi Continent!

at the same time.

Su Lang also used the perception sharing function to observe the Tianmi Continent through the treasure hunting flying flying flying.

quickly.

Su Lang found that the place where Bai Lian and others had guarded was no longer there.

"Ok?"

"Bai Lian didn't guard the periphery?"

"Sure enough there is a situation!!"

Su Lang raised his eyebrows, a trace of vigilance rose in his heart!

[Chapter 2163: I still want to mess with you guys!](#)

at the same time.

At the center of Tianmi Continent, on the Tianshan Mountain.

Including Bailian and other four people.

The thirteen eight-level monks under the command of Mi Ling Buddha.

And dozens of good and bad, too low-level strong people below the Qiyan realm.

A strong man who respects Tianmi Buddhism has gathered here.

Even the eight evolving realm experts who assisted Mi Ling Buddha to practice the origin of the universe all appeared.

Except besides.

There is also a respectable person who is too junior and powerful who has gathered from all directions!

They must gather their crushing power and immediately head to the Heavenly Continent to eradicate Su Lang directly!

Simultaneously.

Bai Lian and others also learned the specific reasons for this action from the mouth of Buddha Mi Ling

—The Heavenly Ting Continent invaded the Tianmen Continent, and was actually killed by Su Lang. It even included the four masters of the Jiuyan Primordial Realm under the command of the Origin Mingzhou Emperor!

Hear the news.

Bailian and others were shocked!

"what!"

"That Su Lang actually defeated the invading army of the Tianting Continent!?"

"Oh my God, the real controller of the Tianting Continent is the immortal Emperor Zhou, a half-step eternal powerhouse!"

"Even if Emperor Immortal Eternal did not take the initiative to take the initiative, Emperor Yuanming Emperor's four subordinates of the Nine Evolution Realm are completely enough to destroy the Heavenly Mian Continent!"

"Then Su Lang obviously could only kill my clone before, even the Bayan level can deal with him."

"At this moment, he can actually deal with Jiuyan Taichu, and he is more than just one. Does he already have half-step eternal combat power!?"

"Unbelievable, unbelievable!"

"..."

Bai Lian and others are really incredible.

Not long ago, they were still dealing with Su Lang. If it hadn't had too few hands, they would have caught Su Lang or killed him.

but.

In a blink of an eye.

Just in a blink of an eye!

Su Lang has such a powerful combat power, comparable to the half-step eternal state!

This kind of thing is really fantastic.

however.

This is the fact before us.

It is precisely because of this that they will be gathered here by the Mi Ling Buddha, to launch a general attack on the Tianmen Continent, and eliminate the threat of Su Lang in the bud.

"This Su Lang is so weird, growing so fast in a short time, it's not normal at all!"

"We must kill him this time, and we can't let him become a climate!"

"..."

Bai Lian and the others looked at each other, and they all saw the horror and killing intent in each other's eyes!

at the same time.

Tianmeng above the mainland.

After Su Lang discovered that Bai Lian and the others had disappeared, he immediately knew that Tianmi Continent would have a big move!

"Bai Lian and the others know that Mi Ling's bald donkey can't come out."

"I will cause a certain threat and damage to Tianmi Continent, but still give up guarding the Tianmi Continent border."

"I'm afraid it was Mi Ling Bald Donkey or Immortal Emperor Zhou who gave the order before they would do this."

"And Bai Lian and others are dispatched, this time Tianmi Continent's actions will definitely be very big."

"If I didn't guess wrong, Tianmi Continent is definitely going to gather all its strength this time and directly destroy my Tianmi Continent!"

Su Lang thought silently in his heart, he had probably guessed that the immortal Emperor Zhou let the Mi Ling Buddha take action.

Immediately after.

The corner of his mouth twitched, and a sneer appeared.

"Hum hum!"

"You want to **** me, I still want to **** you!"

"Now that your external defenses are empty, don't blame me for being rude!"

Su Lang laughed, and immediately moved his heart, sending more treasure hunt flying flying flying to the Tianmi Continent.

Suddenly.

Countless treasure hunt flying flying flying everywhere!

Under Su Lang's control, these treasure hunting flying flying flying directly moved towards the interior of Tianmi Continent.

A part of the treasure hunting flying gliders rushed specifically to develop dispatchable maps.

Another part is looting all the way, such as locusts crossing the border, frantically snatching all supplies on the way!

"Squeak!"

"Squeaky!!"

Their shrill screams are full of treacherous flavors, coupled with the invincible characteristics below the elementary level, it is simply a nightmare for all monks in Tianmi continent!

"Run away!!"

"Those weird mice are even more!!"

"Damn, we can't do harm to these weird flying squirrels at all!"

"My treasures, no! They have penetrated into my life universe, no!!!"

"Quickly, quickly, report to the Buddha in the sky! Only the real Buddha can kill these nasty flying squirrels!"

[Chapter 2164: The horror of Buddhism at the beginning](#)

"..."

Countless Tianmi Buddhist monks screamed in horror.

Treasure hunting flying flying gliders stealing their wealth is as painful as digging meat from them!

In a short time.

A large area fell under the raid of the treasure hunting flying flying gliders.

Even in places where there were too junior strong guards before, no one can stop them at all!

Those quasi-prime people placed their hopes on some powerful treasures and formations, but they still couldn't hurt the slightest bit of the treasure hunting flying flying flying stray!

These very high-level Buddhist holy sites have fallen.

It also immediately brought huge profits to Su Lang1

Simultaneously.

Tianmi Continent, Mi Ling Tianshan.

Bai Lian and other too junior powerhouses also received the bad news from countless believers.

Bai Lian and others immediately fell into shock and the two men.

"what!?"

"That kind of weird flying squirrel has appeared again!?"

"It's Su Lang, it's the gangster who came to Tianmi Continent to commit a crime!!"

"How is it possible? Isn't he dealing with those strong under the command of Immortal Emperor Zhou in the Heavenly Misty Continent?"

"That's four Jiuyan too junior powerhouses equal to ours. If Su Lang wants to deal with them, how can he spare time to attack Tianmi Continent!?"

"..."

Bai Lian and the others got the news from the believers and looked at each other in horror.

Whether it is the Mi Ling Buddha or them.

They all thought that Su Lang was held back by the powerful under Emperor Zhou, and would not have a chance to attack Tianmi Continent.

Now they understand that they have made a mistake!

Su Lang could even spare the time and energy to attack Tianmi Continent while chasing and killing the four Jiuyan Prime Beginner levels!

This is incredible, unbelievable!

"This Su Lang is even weirder than we thought!"

"Oh my God, while dealing with the four Jiuyan Taichu of the Tianting Continent, he still has enough energy to invade us!"

"What can we do now, should we gather all our forces to attack the Tianmen Continent, or stay on the Tianmi Continent!?"

"..."

When the Tianmi Continent was horrified at the beginning, a wave of anger and irritation rose in their hearts.

at this time.

A voice rang directly in everyone's mind.

"My disciples."

"Don't be fooled by appearances."

"That Su Lang just sent these weird flying squirrels to invade Tianmi Continent, this is to confuse us."

"He already knows that the Tianmi Continent is about to attack the Tianmen Continent with all its strength, so he wants to use this to delay our pace."

This voice is extremely magnificent, just like the grandest and most sacred voice in the universe.

The speaker is the master of Tianmi Continent, the Buddha of Mi Ling!

"So that's the case, thank you for the great master!"

Bai Lian and the others heard the voice of the Buddha Mi Ling, and suddenly put their hands together, the color of enlightenment in their eyes.

"Disciples."

"Now the deity cannot leave the customs."

"You wait to deal with those flying squirrels that are looting."

The voice of Mi Ling Buddha once again sounded in the minds of Bai Lian and others.

"Yes!"

"Master!"

Bai Lian and the others took their orders one after another, and immediately scattered and killed in all directions of Tianmi Continent.

Simultaneously.

A trace of sneer and irony appeared in everyone's hearts.

"Humph!"

"Su Lang, you little bastard, wanting to delay my waiting is just a delusion!"

"Master will leave the customs today, and next is the end of your Heavenly Continent!"

"All resistance will disappear, and the boundless universe will completely become the dinner plate of Emperor Yuanmingzhou!"

"We will kill these weird flying squirrels unceremoniously, just as an appetizer for you before despair!"

"..."

The primordial powerhouse of Zhongtianmi Buddhism thought so, and then fiercely slammed Su Lang's treasure hunting flying fly.

But during this time.

The Treasure Hunting Flying Flying Glider, which Su Lang specially dispatched to develop the map, has spread to too many places!

Even though the early powerhouses of Tianmi Buddhism had powerful magical powers like 'Tianzu Tong', they were very mobile.

But it is far worse than Su Lang's Celestial Void Transmission Network!

[Chapter 2165: Treasure hunting flying flying glider!](#)

Su Lang can go anywhere.

But at the beginning of the Tianmi Buddhist Gate, these people could only go to places with anchored coordinates.

And the number of Tianmi Buddhism primordial powers relative to the area of the entire Tianmi Continent is really too small.

If the treasure hunt flying gliders invaded, if they hadn't spread and were contained, it would be a good deal.

At this time, the treasure hunt flying flying flying has spread.

It is equivalent to a levee that has opened numerous gaps.

It is equivalent to the spread of infectious viruses in a large area among the living groups.

At this time, it is too difficult to contain it!

therefore.

When Bai Lian and others began to kill Su Lang's treasure hunt flying gliders, they realized that they couldn't kill the treasure hunt flying gliders at all!

Often kill the treasure hunting flying gliders here.

The Buddhist shrine on the other side has been looted again!

Although the people had already ordered from the beginning, countless Buddhist monks tried to rescue their belongings from the outside world.

But there are still many properties that are simply difficult to collect into the universe of life.

Unless they dig up a layer of the entire land of Tianmi Continent, don't think of not losing money under the scavenging of the treasure hunting flying flying gliders!

then.

Treasure hunting flying gliders are endless.

There are also more and more Buddhist sacred places that have been looted and looted, and there are simply too many to count!

Countless treasure hunting flying flying flying have completely spread to all sides of Tianmi Continent.

Moreover, it is being partly dispersed, and more places will be included in Su Lang's dispatch map!

"Damn it!"

"How many such weird flying squirrels does that little bunny Su Lang have!!!"

"Why kill so many, there are so many, it's almost endless!"

"Damn, those flying squirrels appeared in my temple too! The tombs of the patriarchs have been planed!"

"..."

Bai Lian and other too low-level experts went around killing the treasure hunting flying flying gliders, but they couldn't kill them at all, and they became angry with Su Lang's hatred.

as time flows.

The anger in the hearts of everyone is getting more and more!

"Damn, I can't stand it anymore!"

"We can't watch these weird flying squirrels looting on our Tianmi Buddhism site!"

"That Su Lang is dealing with the four masters of the Jiuyan primordial realm under Emperor Yuanmingzhou at this time, there is definitely no way to worry about this side!"

"Yes, sending these weird flying squirrels is already his limit!"

"..."

After the crowd couldn't bear it at first, they got together to discuss.

In the end, it was concluded that Su Lang was unable to send more forces to invade the 'truth' of Tianmi Continent.

then.

They decided to further disperse their strength and kill Su Lang's treasure hunting flying flying flying glider.

The specific operation is to use the technique of clones and lend their weapons to trusted quasi-primary powerhouses, so that they can exert their powers that are too basic.

In this way.

The primary combat power of their Tianmi continent will at least expand dozens of times!

In that way, Su Lang's treasure hunt flying gliders can be killed faster!

The Buddhist monks in the world are not procrastinated, just do what they say, and implement the plan quickly!

"The technique of Maha Sula's clone!"

"The art of Indra clone!"

"The Art of Kaye Clone!"

"..."

The powerful Buddhist monks in the heavens are all too elementary, and naturally master a variety of avatars.

at this time.

It's like a white lotus.

She has mastered the technique of a single clone, and cultivates a single clone, which is very powerful.

of course.

The clone of Bai Lian had been killed by Su Lang.

Except besides.

She also mastered other avatars, such as temporarily creating avatars, dividing her own power into multiple parts, forming more and more primary combat power.

Under normal circumstances.

As Jiu Yantai's elementary Bailian, he can create hundreds of super elementary clones, but his strength will not be very strong, so it will be about Eryan.

And her own combat power will also drop sharply, temporarily losing the combat power of the Jiuyan Prime Stage.

If the power is further dispersed, it will have an impact on her foundation.

The rest of the too junior powerhouses also mastered the similar technique of clone.

The cost performance of this clone technique is very low.

Usually they don't use this method.

Just now.

They speculated that Su Lang would not have the power to continue to threaten the Tianmi Continent, so he would choose such a method to clean up the treasure hunting flying flying gliders.

[Chapter 2166: Bai Lian and others are so wrong](#)

At this moment.

A crazy clone of the Buddhist monks in all heavens.

And distribute his own weapons, one weapon is used by many quasi-primaries together to kill the treasure hunting flying flying gliders.

Suddenly!

Tianmi Buddhism powerhouses directly have thousands of extra elementary combat power!

Countless treasure hunting flying flying gliders were killed.

The spread of the treasure hunting flying flying gliders on the Tianmi Continent suddenly slowed down.

The loss of Tianmi Continent is also further reduced.

The situation looks better and better.

The mood of Bai Lian and other experts in Buddhism is gradually getting better!

however.

They don't know that they have been so wrong!

Not to mention that Su Lang's treasure hunting flying gliders amounted to 750 trillion, and only a part of it was sent out at this time.

It would be ridiculously wrong to just disperse their strength from the Tianmi Buddhist monks!

They thought that Su Lang was still dealing with the powerful under Emperor Yuanmingzhou.

But he didn't know that Su Lang had already killed all the four Jiuyan Taiji and ten Bayan Taichu strongmen long ago.

Now Su Lang can go all out to deal with them!

At this moment.

Learn about the movements of Bai Lian and others through the treasure hunt flying flying flying.

Su Lang's mouth suddenly outlined a sneer!

"Tsk tut!"

"I really thought that just a few Jiuyans could hold me back in the beginning!?"

"Bai Lian, whirling, you are simply fantastic!"

A murderous intent arose when Su Lang sneered in his eyes!

Immediately after.

While sending out more treasure hunting flying flying gliders, he began to prepare plans for Bai Lian and others.

Because Tianmi Continent has the Mi Ling Buddha sitting in town, Su Lang does not plan to take risks with the deity.

Instead, send a clone over!

Notice.

At this time, he has 14,400 avatars of Hundred Shadows.

Even if the Baiying avatar was formed by a avatar or an avatar divided into one hundred parts, each of them also possesses the power of Bayantai primary!

Bayan is too junior.

On the Tianmi Continent, it is completely possible to run wild.

At this time, Su Lang took full control of the Tianmi Buddhism Congregation and the position of its clones, and sent the clones accordingly.

To deal with the general too junior strong, send ordinary Baiying clones.

To deal with the relatively powerful Bayan Realm Taichu, I sent a complete clone of the Jiuyan Realm!

To deal with the four of Bailian, Broken, Bliss and Ruohai, send Xing Cuanyun He clone!

"Well, the avatars are already strong enough to form a crush."

"Bai Lian and the others were not good at killing them, but they are now dispersing their strength. They only have the strength of the peak of the Eight Yan realm. The Xing Cuanyun clone can definitely kill them!"

"But there is only one chance. After all, they are powerful players in the Nine Evolution Stage. Maybe they have some powerful cards. I have some insurance!"

After making a plan.

Su Lang thought for a while, and immediately decided to increase the power of Po Yijian!

The last time he condensed and broke a sword.

It was when he was preaching in the Xuanyan Taoist Hall of the Heavenly Mian Continent.

At that time, Su Lang had just broken through to the elementary level, and he hadn't mastered many techniques that were too elementary.

At that time, the condensed Po Yijian already possessed all the powerful characteristics of restraining time and space, and the power of too primary distortion.

at this time.

Su Lang has mastered dozens of founding-level super-primary techniques, and the condensed Po Yi Jian will definitely be even more terrifying!

"system!"

"Activate the source of the exercises function and give me a brand-new breaking sword!"

Su Lang's eyes flashed, and he immediately issued instructions in his heart!

"Ding! Start deducing the source of the exercise!"

The system prompt immediately resounded in my mind!

The next moment,

Numerous exercises and profound meanings emerged from Su Lang's soul.

These are the profound meanings contained in the exercises that Su Lang has practiced.

Including a large number of physical exercises he later practiced and three-stage time system exercises!

After the uproarious torrent of these exercises appeared, they immediately merged into an incomparably bright and colorful strange orb.

It continued to condense and condense in Su Lang's consciousness, and the colors gradually mixed and merged, turning into a translucent color, and continued to move toward a colorless state!

When this sphere of deep meaning of exercises completely becomes colorless.

It exploded fiercely, forming a new mystery, imprinted in Su Lang's soul and blended into his body!

[Chapter 2168: Then cut the Nine Yan powerhouse Ruohai!](#)

The golden figure of Mi Ling Buddha slapped it with a vicious palm.

Just when its terrifying power is about to touch Su Lang!

"Yi Nian·Fengtian!!!"

Seeing that Su Lang was controlling the clone, he directly pulled a frightened Buddha in the area covered by the divine mind into the confinement space.

In a flash.

Nianfeng space is formed.

A strange grey barrier stood between Su Lang and the golden figure of Buddha Mi Ling.

"Buddha Mi Ling, meet again!"

In the Nianfeng space, Su Lang turned his head to look at the golden figure of Buddha Mi Ling, his eyes full of playfulness.

"what!?"

The golden figure of Buddha Mi Ling was shocked and unbelievable.

He didn't expect that Su Lang would have spare capacity to display such strange magical powers.

But before he had time to think about it, the powerful Dharma and supernatural powers in his hand had already blasted above the barrier of Nianfeng space.

Boom—!!

Click!

An extremely terrifying explosion sounded, and with the aftermath of the endless battle, the Nianfeng space turned into countless fragments and scattered!

but.

The moment of time won with the help of Nianfeng Space.

Su Lang directly dispatched this Xing Cuanyun He clone to the second Jiuyan Taichu Ruohai's side!

"It's Su Lang!!"

"Damn, he can kill me directly!!"

Ruo Hai has already learned about the fall of Bai Lian through Mi Ling Buddha.

Just as horrified, before making the preparation for defense, I saw the extremely terrifying Su Lang clone come!

He was really horrified.

With Su Lang's unpredictable and unpredictable displacement supernatural powers, it is a level higher than Tianzutong!

Simultaneously.

A strong sense of panic and crisis could not stop emerging.

Because Su Lang had already controlled the clone, holding the Youtian Sword, severely slashed it with one attack! !

"Do not!!"

"Buddha help--!!!"

Ruohai was terrified, his complexion distorted, his facial features shifted, and he let out a helpless cry.

Even Bai Lian couldn't resist Su Lang's sword.

How can he stop Su Lang's attack if he is the sea?

Just when Ruohai called for help.

boom!

A terrifying thigh descended from the sky, and it was the golden figure of the Buddha Miling who chased it using Tianzutong!

The Mi Ling Buddha, who has been in the Tianmi Continent for countless years, has indeed controlled any place on this continent and can be reached directly.

however.

Even if the Mi Ling Buddha can reach anywhere in Tian Mi Continent at will.

But at this time, he was just a golden figure, and his cultivation was similar to that of Su Lang's clone, but his actions were a bit slower.

Half of his body emerged from the void.

Su Lang's Youtian Sword had already stood fiercely on Ruo Hai!

Hiss!

An extremely terrifying breaking sword restrained everything and directly shredded Ruohai's defenses.

"Dare Zhuzier!!"

The golden figure of Mi Ling Buddha completely emerged.

With the help of his surplus power, he fell directly from the sky with one foot, to suppress Su Lang under his feet.

But it's too late!

Su Lang's Youtian Sword pierced Ruo Hai's heart, and it came out directly from behind him. The sharp point of the sword was raised high, and the blood gurgled out!

"Do not.....!"

If the sea shows pain, the eyes are full of fear and despair.

next moment.

The Youtian Sword's characteristic of breaking the defense and dying broke out.

The system prompt sounds.

"Ding! You get the Soul of the Beginning*1, the Life Universe of the Beginning*1, Fragment of the Beginning Body*1..."

This statue of Jiuyan also immediately followed in the footsteps of Bailian at the beginning, lost all consciousness and completely fell!

Suddenly.

Ruo Hai's body directly collapsed into countless fragments of the primordial body, and was taken into Su Lang's storage space as a trophy by perfect plunder!

"Su Lang dog thief, die!"

The afterimage of the golden body of the Mi Ling Buddha was almost splitting his eyes, and his body's strength gathered in one place, directly crushing the sky and suppressing the world!

Faced with such a terrifying attack.

"Ha ha."

"Don't give up after failing once?"

But Su Lang was still calm and unhurried, smiling coldly.

It's just a matter of time.

He once again performed a thought to confine the heavens, and included a Buddha within the scope of the divine mind into the confinement space.

Wow!

Another weird gray barrier blocked the attack of the golden figure of Buddha Mi Ling.

[Chapter 2169: Slaughter Tianmi Buddhism in One Second](#)

"boom--!!"

Amid the violent explosion, Nianfeng space shattered.

But Su Lang also took this opportunity to use his clone to send away again, and kill the third Jiuyan too junior powerhouse, Bliss!

boom--! !

After the golden figure of Mi Ling Buddha stepped on the Nianfeng space with one foot, it fell straight to the ground.

The land tens of light-years away collapsed instantly!

A huge pit of incomparable horror was formed.

Within this attack range, all creatures have no resistance and all died!

This can be seen.

Mi Ling Buddha never regarded believers as human beings!

Don't care about their life or death at all!

at this time.

Seeing Su Lang fleeing once again, the golden figure of the Mi Ling Buddha trembled with anger and raged.

With a move, he spanned countless light years and continued to chase Su Lang!

It seems that if you don't kill Su Lang here, he won't let it go!

And Su Lang's side.

Already used the clone dispatch function to kill Bliss.

unfortunately.

The time of bliss is more abundant than that of Ruohai, and a very comprehensive and powerful defense method has been deployed!

Countless barriers are layered on top of each other, layered on top of each other, spreading continuously, creating a super large turtle shell.

But Bliss looked pale in this big turtle shell, and felt uneasy in his heart.

Su Lang could take the life of a Jiuyan Taichu with a single sword, Bai Lian and Ruo Hai both died in a battle, and they had no resistance at all.

Bliss didn't know if he could stop Su Lang.

Just when he was extremely worried.

Su Lang appeared, with the terrifying aura of faintly stepping into the half-step eternal realm, and crushing the world!

Bliss was so scared that cold sweat broke out all over his body, and his pupils shrank like needles!

But at this moment.

Su Lang left gently, just as he came gently, waving his sleeves, not taking away a cloud.

Because Su Lang was not sure that he could kill the Bliss of full defense with one click, he didn't waste time.

He directly shifts the target

——To kill those Bayan Realm too early!

And just as Su Lang shifted his target, the golden figure of Buddha Mi Ling reappeared in the place where he just stayed, and slammed it down!

boom! !

This foot instantly stepped on the countless defensive barriers arranged by Bliss.

Suddenly.

Countless defensive barriers were shattered, and the bliss hiding in the middle was shaken.

"He escaped!?"

The golden figure of the lingering Buddha looked extremely embarrassed, and the embarrassing atmosphere filled.

"Thank you Buddha for your life-saving grace!!"

Bliss instantly knelt down and thanked Mi Ling Buddha, alleviating the embarrassment.

"You immediately meet with Pusa and head to Miling Tianshan!!"

"Don't be defeated by that Su Lang one by one again!!"

Mi Ling Buddha gave an order to Bliss, and his heart was extremely heartache!

because.

Just as Su Lang killed Bai Lian and Ruo Hai.

The rest of Su Lang's avatars were not idle either, they were all dispatched by Su Lang, either one-on-one, or group fights.

In less than a second!

Except for the bliss and the whispering, as well as the few stronger Bayan Taichu.

All the other too junior powerhouses are defeated by one move!

after all.

But Su Lang had mental arithmetic and unintentional circumstances.

To deal with every enemy, the clone lineup sent is much stronger!

In this way.

A real spike is completely normal!

At this moment.

The Xing Cuanyun He clone controlled by Su Lang appeared in front of a badly wounded and dying Bayan Realm primordial powerhouse, and cooperated with another clone to directly solve it!

The last Bayan Realm was too early to defeat the avatar of Su Lang, and died on the spot!

So far.

Except for good luck bliss and whirling.

And Mi Ling Buddha, the ruler of Tian Mi Continent.

The rest of the Tianmi Buddhism primordial powerhouse were all killed by Su Lang.

the whole process.

It didn't take even a second from Su Lang dispatching the clone to killing everyone.

This is a real spike!

Finding that the Buddhism that he had cultivated for countless years had all fallen in the beginning, how could the Mi Ling Buddha not be heartbroken? He was almost crazy with heartache!

Simultaneously.

Su Lang was extremely happy!

I had planned to engage in a wave of Tianmi Buddhism, the anti-skeletal boy, and I finally let out a sigh of relief today!

at this time.

"Niezha, die for me!!"

The extremely resentful Buddha Mi Ling's golden figure once again slammed in front of Su Lang's clone!

[Chapter 2170: This is not over yet, keep on messing up!](#)

This time.

It seems that Mi Ling Buddha has spared his blood and injected even more terrifying power into the golden figure.

Although it still hadn't reached the true half-step eternal state, it also suppressed Su Lang's Xing Cuanyun He clone.

"You are the evil barrier, your whole family is the evil barrier!"

Su Lang ticked the corner of his mouth and took all the clones back!

Suddenly.

The golden figure of the Mi Ling Buddha directly rushed into the air!

"Damn it!!"

"Su Lang, you wicked animal, when I leave the customs, you will definitely die!"

Mi Ling Buddha's eyes were cracked with hatred, and his eyes burst through gritted teeth.

This scene.

Su Lang also caught sight of the treasure hunt flying flying glider that had not yet recovered.

"Ha ha!"

"Pick me up after I leave the customs?"

"Could it be that you thought I would stop here? No!"

Su Lang smiled coldly, he didn't give up continuing to engage in Tianmi Continent.

The details of Tianmi Continent are now understood.

Bailian and Ruohai were killed, but the real body of Buddha Mi Ling did not appear.

That being the case.

Su Lang's fear of Mi Ling Buddha naturally decreased a lot.

He just wanted to take advantage of Mi Ling Buddha's real body to be unable to make a move, and slap him fiercely!

With his current strength, he can indeed do this!

because.

His real trump card is still boundless!

Xing Cuanyun He clone can merge clone, avatar, and twin avatars into three powerful clones respectively.

But Boundless could gather the power of all clones!

no limit!

And it can also gather the power of the great juniors!

In the end, he can officially enter the half-step eternal level, which is stronger than the golden figure of the Buddha!

Besides!

He just got countless resources, and he can further improve his strength!

of course.

Su Lang still kept a trace of vigilance in his heart.

One is the vigilance of Mi Ling Buddha, and the other is the vigilance of the immortal Emperor Zhou.

He intends to grasp the movement of the immortal Emperor Zhou, and then continue to work on the Tianmi Continent!

Thought of this.

Su Lang immediately began to act.

He directly contacted the phoenix in a core part of the Infinity.

"Your Majesty Su Lang!"

"Excuse me, what's your order!?"

Phoenix asked respectfully.

"Tianmi Continent has been massacred by me for the most part too early."

"Currently there are only Mi Ling bald donkeys and two Jiuyan Taichu."

"Next, I will continue to work on the Tianmi Continent while the Buddha Mi Ling can't leave the customs!"

"Before this, I plan to try to grasp the traces of the immortal Emperor Zhou."

"Phoenix, can you sense the source of the birth of the phoenix and present its image in real time?"

Su Lang spoke quickly to Phoenix.

And his words did not cover up, and all the other too junior powerhouses had also heard them.

Suddenly.

All the early powerhouses were stunned! !

"What? I heard it right!"

"His Majesty Su Lang has actually eliminated most of the too low-level experts in Tianmi Continent!?"

"On the Tianmi Continent, there is only the polished commander Miling Bald Donkey, Ling and the two miserable Jiuyans!?"

"Isn't Tianmi Continent the enemy I need to look up to before, it is so weak? No, it should be His Majesty Su Lang who is too strong!!"

"He just killed the Indestructible Emperor Zhou's invaders on the Tianting Continent, and didn't even breathe a single breath. The Tianmi Continent was also almost killed by His Majesty Su Lang!!"

"Awesome, amazing. Your Majesty Su Lang is indeed the hope of our boundless universe. The Tianmi Continent is about to fall, and our counterattack has been sounded!"

"Next, Your Majesty Su Lang will do something on the Tianmi Continent. I really hope that we can also participate and contribute a meager strength!"

"..."

In the Boundless Voyage, all kinds of shock, ecstasy, awe, worship... and many other thoughts emerged in the hearts of all the primordial and quasi-primary strong.

Of course, reverence and looking up absolutely dominate!

Simultaneously.

Phoenix was also extremely shocked, and replied in a dazed manner: "Yes, your Majesty Su Lang, the great infinite Emperor Zhou!!"

"That's good!"

"Hurry up and follow my request to project the scene of the birth of the Phoenix in the Tianting Continent in real time!"

Su Lang was delighted and spoke quickly.
