### [Chapter 2201: I will show you something](#)

First, deal with materials.

Then came the refining pill.

Any process, any technique, is just like a natural instinct!

This amazing scene directly opened up Dongfang Taiyi's mouth.

then.

In Dongfang Taiyi's extremely surprised expression.

Su Lang succeeded in refining except for a perfect too primary pill!

The time spent was particularly short, less than half an hour, ten minutes.

"In less than a quarter of an hour, I refined a perfect too primary pill!!"

"This, this, even the infinite Emperor Zhou couldn't do it. It will take him at least a few days to refine one, and the quality depends on luck!"

"Su Lang's alchemy skills are so terrifying, it's incredible!"

Dongfang Taiyi thought buzzing in his head, the whole person was overwhelmed by shocked emotions!

but.

Soon, she recovered from the shock.

"Su Lang!"

"A Qi Yan from the beginning, how can he refining the perfect too junior pill!?"

"In my opinion, you are the emperor Yuan Mingzhou changed!"

"Hmph, Emperor Yuanmingzhou, want to lie to me, no way!"

"Retract your tricks, otherwise I will immediately destroy the entire Tianting Continent!"

Dongfang Taiyi took a deep breath and shouted with determination in his eyes.

This statement came out.

Su Lang was not calm at once.

"Lying down!"

"East One!"

"Just because I'm too good, do you think I was changed by Emperor Yuanmingzhou?"

"Why can't I be more powerful than Emperor Yuan Mingzhou?"

"If I am not so powerful, how can I unify the Tianmen Continent, how can I promote so many subordinates of the beginning, and how can I refine the boundless title behind me?"

Su Lang covered his forehead with a headache.

He also did not expect that he acted too badly, and as a result, he shocked Dongfang Taiyi so much that he didn't believe it.

"you....."

"But, do people like you really exist in the boundless universe?"

Dongfang Taiyi knew that she was too tricky, but she must be so cautious.

Otherwise, once she falls into the trap of Emperor Yuanmingzhou, her billions of years of persistence will be wasted.

"Ugh."

"In this way, I will show you something more!"

"In order for you to see more carefully, you can use the clone to come and look up close!"

Su Lang shook his head and sighed, and then directly opened his life universe, as well as the tens of millions of crystal wall worlds!

Suddenly!

A lot of space channels have emerged!

Including the Shifang Life Universe, Su Lang's inner world was all revealed in front of Dongfang Taiyi.

"this is....."

"The Core Fragment of the Boundless World!!"

"And there are so many, this is definitely the vast majority of the infinite fragments scattered when the infinite realm is shattered!!"

"You, you are not Emperor Yuanmingzhou!!"

After seeing Su Lang's Shifang Life Universe, Dongfang Taiyi immediately felt an extremely familiar aura.

——The breath of the core fragments of the boundless world!

The ten planets all exude a different atmosphere of infinite fragments!

At the beginning!

The Boundless World is a vast continent.

It is much larger than the current Tianmeng, Tianxuan, Tianting and Tianmi continent combined!

In the war that destroyed the world.

The boundless world was shattered from the center and divided into four continents.

And the center of the Boundless Realm is where the core of the Boundless Realm condenses!

The Boundless World was crushed to pieces, and the core of the Boundless World was broken into many pieces.

Most of them were saved by the predecessor, Emperor Wu Bian Zhou, and exiled by the Great Way of Time and Space!

It is also because of distraction.

The disadvantage of the former Emperor Wuyin Zhou became more serious, and he was eventually beheaded by Emperor Yuanming Zhou.

The remaining small part of the core fragments of the Infinite Realm, most of which were obtained by Emperor Yuanming Zhou!

That scene was seen by Dongfang Taiyi!

Except for the core fragments of the Infinite Realm that were exiled, and the core fragments of the Infinite Realm that were obtained by Emperor Yuan Ming Zhou.

There are also some core fragments of the Infinity Realm.

Some of these infinite core fragments are hidden in four continents.

After Emperor Yuanming Zhou recovered from healing.

It took away the core fragments of the boundless world of Tianmi Continent.

The core fragments of the boundless world of the Heavenly Jade Continent, at this time, are also very bad luck.

originally.

After capturing the boundless core fragments of the Tianmi Continent, Emperor Yuanming Zhou wanted to do something on the Tianting Continent.

#### [Chapter 2202: Ecstatic Touhou Taiichi](#)

But because of the existence of Taiyi in the East.

Emperor Yuanming Zhou temporarily abandoned the Tianting Continent and turned to deal with the Tianxuan Continent.

And Dongfang Taiyi controls the core fragments of the boundless world of Tianting Continent!

Including the source of the birth of the phoenix that Su Lang had visited before.

There used to be a core fragment of the Fire Element of the Boundless Realm.

Later, with the permission of the Phoenix clan, he was taken away by Dongfang Taiyi.

In fact, to be precise.

In fact, Dongfang Taiyi could not control the core fragments of the Infinite Realm, and she could not use the core fragments of the Infinite Realm at a deeper level.

Only with the special magical powers of the Golden Crow, it can be destroyed!

At this moment.

Seeing Dongfang Taiyi's expression of surprise and excitement.

Hear those words in her mouth.

"Hahaha, you finally believe me!"

Su Lang also showed a smile again: "I knew this would happen, so I just let you take care of me."

"I want to take a closer look!"

Dongfang Taiyi looked at Su Lang excitedly and said.

"I said, you can send a clone..."

Su Lang laughed, but was interrupted by Dongfang Taiyi before he finished speaking.

"Do not."

"I want you to come down and come to me!"

Dongfang Taiyi said eagerly, "I can't leave here, otherwise I will lose control of the chip of Tianting Continent."

"It turned out to be so."

"Okay, I will come down now!"

Su Lang smiled and nodded, and immediately went straight through the space and appeared in the magma underground.

After coming several times.

Su Lang arrived at the magma sea where Dongfang Taiyi was located.

However, Dongfang Taiyi in a red robe lay down again, and Miaoman's figure was wrapped in hot lava.

"Come!"

"let me see!"

Seeing Su Lang's appearance, Dongfang Taiyi immediately couldn't wait to say.

"Ah this...good."

Su Lang smiled, and immediately walked a few steps closer to the side of Dongfang Taiyi.

It's close enough here.

Immediately after.

"Open your inner world channel!"

When Dongfang Tai saw Su Lang approaching, he stared at Su Lang directly, and said anxiously.

"Oh, don't worry!"

Su Lang smiled blankly, and then opened the channels of his life universe and crystal wall world again.

"You...huh!"

Dongfang Taiyi also felt a little gaffe, and snorted a little embarrassingly. He took a deep breath and looked at Su Lang's life universe with full concentration.

quickly.

The joy on Dongfang Taiyi's face grew stronger.

"It's really the core fragment of the boundless world!"

"It's the nine pieces that were banished back then...The wind attributes are divided into two parts by you. They should be one."

Dongfang Taiyi stared with excitement, and occasionally murmured a few words.

In his eyes, the color of memories gradually emerged.

There is a trace of sadness in her memories.

These are all fragments!

Fragments that represent the broken of the boundless world, and the fiasco of the boundless universe!

"Dongfang Guliang."

"Did you see this blue planet?"

"I am the human warrior who grew up on this planet!"

Su Lang pointed to his Dantian universe and said with a smile.

"That is the core existence of the Infinite Realm!"

"And the most important existence!"

Dongfang nodded too much and said, "One of the biggest purposes for Emperor Yuanmingzhou to invade the boundless universe is it!"

"Can you tell me what the Emperor Yuan Ming Zhou is doing?"

Su Lang asked strangely, "Why does he need the Core Fragment of the Boundless Realm?"

"It hasn't reached the level of eternity."

"I can't tell what his specific purpose is."

"I can only guess, probably to make up for my own foundation."

"The powerful in the realm of eternity have mastered the Great Dao of Time, and have completed their grasp of the Dao."

"But the universe of life is created by the warrior himself, and innate is not comparable to the natural universe..."

Dongfang Taiyi talked about his own guess, which was not a presumption, but an educated guess.

"It's very possible!"

"The realm of eternity, known as eternity, jumps out of the universe, immortality."

"But in fact, another universe was formed, a brand new, nascent universe."

"This new universe needs growth and nutrients!"

Su Lang nodded slightly, agreeing with Dongfang Taiyi's statement.

At this time.

"This is... the earth in Tianmi Continent?"

Dongfang Taiyi suddenly exclaimed, "You lifted the land of Tianmi Continent!?"

[Chapter 2203: It's too powerful, and it's too much relief](#)

original.

Dongfang Taiyi saw those Tianmi continent land and Buddhist buildings that were collected by Su Lang in the crystal wall world.

Looking at the endless Buddhist architecture.

And various Buddhist treasures, and even countless intelligent creatures who have not completely erased the characteristics of Buddhist disciples.

Dongfang Taiyi was stunned!

With so many disciples from the land and Buddhism, Su Lang was afraid that it wasn't the entire surface of the Tianmi Continent that had been scraped! ?

and.

Among those Buddhism buildings, there are some more familiar buildings in Oriental Taiyi

——They are all buildings in Mi Ling Tianshan!

Dongfang Taiyi had seen these buildings before, and she never expected that these buildings in the Mi Ling Tianshan were taken by Su Lang.

Could it be that Su Lang also ran to Miling Tianshan to make a fuss! ?

Will Mi Ling Tianshan be almost destroyed?

Thought of this.

Dongfang Taiyi couldn't help staring directly at Su Lang, his eyes full of hot gazes.

"Aha, yeah!"

"I just rushed over from Tianmi Continent!"

"Just before, I took my subordinates and drove my boundless ship to the Tianmi Continent."

"Then I killed all the super juniors in Tianmi Continent, and all the white lotus whirling bliss like the sea and ilk died."

"There is already only Mi Ling bald donkey left in Tianmi Continent, but he should be refining the origin of the universe, and at a critical moment, he can't do anything against me."

"So he has nothing to do with me, he can only watch me scourge Tian Mi Continent and Mi Ling Tianshan!"

Seeing Dongfang Taiyi in shock and excitement, Su Lang couldn't help laughing, and said what he had done in Tianmi Continent.

"what!?"

"You have killed all the Taichu in Tianmi Continent!"

"Hahaha, kill well, kill well, those traitors deserve death, kill well!"

"By the way, Su Lang, can you still run directly from Tianmi Continent to Tianting Continent? What kind of means is this!?"

Dongfang Taiyi heard Su Lang's words, and suddenly became more excited and happy.

"Haha."

"It's a means of transmission."

"As long as I see it, I can send it directly."

"And my eyes are very, very many, and I see very, very far."

"Not long ago, my eyes sneaked into the Tianting Continent and went to the birthplace of the Phoenix."

"Later I discovered that Emperor Zhou was talking to you, and that she was arranging the means to monitor and suppress you."

"And her purpose is to go to Tianmi Continent to clean up me!"

A faint smile was drawn at the corner of Su Lang's mouth, "Because I not only harmed the Tianmi Continent, but also killed all the four Jiuyan Taichu under her command and the ten Bayan Taichu."

Hear this.

Dongfang Taiyi couldn't help being even more shocked!

Su Lang has done so many important things, not only did he harm the Buddhism of Tianmi Continent, but he also caused the immortal Emperor Zhou!

You know, billions of years.

Dongfang Taiyi was trembling, facing the conspiracy of the Emperor of Immortality at any time, and could only see tricks and tricks. He had never lost, but he would never be able to take advantage of the Emperor of Immortality.

but now.

Su Lang actually killed so many powerful subordinates of Emperor Zhou!

This is simply too powerful, and too much relief!

at this time.

Su Lang continued to speak.

"It's not over yet!"

"I found out that Emperor Zhou is going to Tianmi Continent to clean up me."

"Of course I have to take advantage of this opportunity!"

"So, I took advantage of her to reach the Tianmi Continent, and the Tianting Continent was guarded against the emptiness, so I came directly to the Tianting Continent!"

"She went to clean up me, now I am afraid that I have cleaned up loneliness!"

"In addition, I also ruined her most convenient and quick way to return to the Tianting Continent. Now she can only find a way to slowly return to the Tianting Continent!"

"It is estimated that Emperor Zhou has already discovered that I am not in Tianmi Continent. She should have sent the weak and weak ones before!"

Su Lang hugged his arms, the smile on his face became brighter and brighter!

"Hahahaha!"

"A dignified half-step Eternal Realm powerhouse, Yuan Mingzhou Emperor's nominal Taoist companion, was actually led by the nose to play like this!"

"The Immortal Emperor Zhou must be mad now!"

"Quiet, too much relief!"

"Refreshing, so refreshing!"

Dongfang Taiyi smiled happily, she had never been so cool before!

[Chapter 2204: You hurry up with me](#)

And all this was brought by Su Lang.

I saw Su Lang's ten directions, as well as various methods and various results.

At this time, she had put down her guard against Su Lang, and developed a strong sense of trust and goodwill.

"Hey!"

"Emperor Immortal Zhou must be very angry at this time, maybe he is about to cry!"

"While she can't come back in a short time now, you go with me!"

"With me, you will soon be able to recover to your peak, and with my help, you will definitely be able to break through to the eternal state in the future!"

The corner of Su Lang's mouth raised slightly, his expression straightened, and he said very seriously.

"what!?"

"Restore the peak? Break through to the eternal state!"

Dongfang Taiyi smiled bitterly and shook his head, "I dare not think about it, I have been in the half-step eternal state for five billion years, it is too difficult to break into the eternal state!"

"You don't have to worry about breakthroughs."

"You also saw the means I just used to enhance the strength of my subordinates."

Su Lang laughed, "As long as I break through to the eternal state, you will definitely be able to break through!"

"Ah this!!!"

"Help others break through to the eternal state?"

"This, this is incredible!"

Dongfang Taiyi looked at Su Lang blankly, completely unable to believe his ears.

"Really!"

"Hurry up, let's return to Tianmi Continent!"

"Then go to practice in a place of exile with a flow rate of 100,000 times the time!"

"It won't be long before I can break through to the eternal state, and then promote you to the eternal state!"

Su Lang's eyes were bright, and he smiled, "At that time, we will go and kill the Emperor Yuanmingzhou together!"

Hear this.

Dongfang Tai's eyes widened, and he looked at Su Lang more shocked: "What? One hundred thousand times the flow rate of time!?"

One hundred thousand times the time flow!

That's something that can only be done in the eternal realm!

And it can only be done in a short time!

Su Lang was obviously only a primordial Qiyao Realm, even if he relied on weapon bonuses, he could be half-step eternal.

Such strength.

How can it be possible to produce a flow rate of one hundred thousand times! ?

"Yes!"

"One hundred thousand times the flow rate of time!"

Su Lang nodded solemnly and asked, "Guliang Dongfang, do you know Zhaoyu?"

"Zhaoyu!"

"Senior Zhaoyu!?"

"The strongest half-step eternal realm powerhouse under the predecessor of the endless Emperor Zhou!"

"He is the second half-step eternity that has the most hope to break through in the Boundless Realm. Unfortunately, he was killed by Emperor Yuanmingzhou."

There was a trace of memory in Dongfang Taiyi's eyes, and admiration and regret appeared on his face.

"Ok....."

"I got the legacy left by Senior Zhaoyu."

"He used his own power of time and space, the universe of life, and countless treasures of heaven and earth to create a place of exile, a boat of ten thousand domains!"

"I transformed the Ship of Ten Thousand Territories and the Land of Exile, making it a practice dojo with a flow of time 100,000 times and the energy concentration of heaven and earth a million times!"

"Of course, in order to do this, I sacrificed the lifespan of the Ship of Ten Thousand Territories and the Land of Exile, as well as the heaven and earth energy of the Celestial Continent."

"Calculated based on the timeline of the boundless universe, the practice dojo in the exile can last about a month."

"However, within this month, I am confident that I can break through to the eternal state!"

Su Lang spoke to Dongfang Taiyi earnestly.

The expression of Eastern Taiyi became more and more shocked and unbelievable.

"The energy concentration of heaven and earth is a million times?"

"A million times based on the Tianmen Continent!!!"

"Plus a flow rate of 100,000 times, this is too powerful!"

"However, Su Lang, is it too exaggerated if you want to break through to the eternal state within this little time?"

Dongfang Taiyi feels that his receptive ability is already very strong.

But Su Lang said that she could break through to the real eternal state within a month, so she was really unbelievable, even unimaginable!

Because that is really exaggerated.

Not to mention the endless universe, even if it is the sum of many unknown natural universes, Dongfang Taiyi dare to conclude that no one has achieved such a miracle!

[Chapter 2205: I can't go](#)

"Haha!"

"This is indeed a bit exaggerated,"

"However, I can do it."

Su Lang laughed and said, "Do you know how many days it took me to break through from the First Stage Yiyao to the current one?"

"day?"

"Your breakthrough is calculated by the sky?"

"Should we not use 100 million years as a unit?"

Dongfang Taiyi didn't even think about Su Lang's problem, and was directly shocked.

The time unit used by Su Lang to break through turned out to be 'day'?

This is absolutely unprecedented!

"Ahem."

"I use the sky as a unit."

"With the timeline of the boundless universe, it took me only five days to break through from the first stage of the first evolution to the present state? Six days? Don't remember, it's not more than ten days anyway?"

Su Lang touched his chin and said with a smile, "I have only used it for a few hundred days since a mortal practiced."

"..."

"Break through to the Qiyao Realm in less than ten days!?"

"From the cultivation of a mortal to the beginning of Qiyao, it only took a few hundred days!?"

Dongfang Taiyi was so shocked that his chin was about to fall.

Su Lang's breakthrough speed is beyond her imagination!

It's abnormal.

It's really perverted.

He completed the realm that others could only develop in billions of years in a few hundred days!

"Hmm!"

"Anyway, that's the way it is, I practice quickly."

"Then, after I break through, I can also promote you to the eternal state."

Su Lang nodded heavily, then smiled, "Get up now and follow me!"

"Ah this."

"Su Lang, it's not that I don't believe you."

There was a trace of apology in Dongfang Taiyi's eyes, "I...I believe you, but I can't leave the Tianting Continent now."

"Uh."

Su Lang asked softly, "Are there any concerns?"

"Ok!"

"Emperor Yuan Mingzhou didn't dare to attack me, but he used a simple marking method on me."

"This method does no harm to me, but once I leave the scope of the Tianting Continent, he will immediately know."

"Because he can deal with the Heavenly Jade Continent at any time, but in the Tianting Continent, with me, he has scruples and dare not do it!"

"So, if he learns that I am leaving, Emperor Yuan Mingzhou will definitely put down the Heavenly Jade Continent temporarily and come to the Tianting Continent!"

Dongfang Taiyi smiled bitterly and shook his head, "Su Lang, or you should go, I can protect yourself, you can cultivate yourself, I am here waiting for you!"

His words were full of helplessness.

Su Lang fell into silence when he heard this, only to feel that 10,000 alpacas were running wild in his heart.

totally unexpected.

The Immortal Emperor Zhou was taken away, and he successfully persuaded Dongfang Taiyi, but Dongfang Taiyi couldn't leave...

"Su Lang, go quickly!"

"The time to practice in the dojo of exile is limited. Go back and practice quickly!"

"As long as Emperor Yuanmingzhou is unwilling to give up the Tianting Continent, he dare not do anything to me!"

"I have seen hope in you, I believe you, you will win!"

When Dongfang Tai saw that Su Lang was silent, he immediately persuaded him again.

"Do not!"

"I'm not reconciled!"

"Come to the Tianting Continent, I can't get nothing!"

Su Lang shook his head fiercely, then gritted his teeth, "Guliang Dongfang, you said, as long as you leave the area of the Tianting Continent, you will be found, right?"

"Yes!"

"Once I leave the Tianting Continent, I will be discovered by Emperor Yuan Mingzhou!"

Dongfang Taiyi was a little anxious, "You go back quickly..."

"Hahaha!"

"I understand!"

"You can't leave the Tianting Continent, but it doesn't mean that the Tianting Continent cannot leave this cosmic void!"

Su Lang laughed wildly and interrupted Dongfang Taiyi's words directly, "If this is the case, I will pack you and the Tianting Continent together!!"

This statement came out.

Dongfang Taiyi was directly suppressed!

If you can't take people away, you just pack up the mainland! ?

This this this!

So domineering!

However, taking away the Tianting Continent would be too fantastic!

"Su Lang, don't do this..."

"The Heavenly Ting Continent is one of the four major fragments of the Boundless Realm. How can it be packaged and taken away because of its vastness?"

Dongfang Tai had a big mouth, looked at Su Lang in disbelief, and seriously discerned whether Su Lang was crazy.

[Chapter 2206: Pack and take away together](#)

"Uh."

"Don't look at me like this, I'm serious!"

Su Lang was a little unbearable by Dongfang Taiyi's weird eyes, smiled and shook his hand.

"Are you serious!?"

Dongfang Taiyi smiled bitterly and shook his head, "No, no, Su Lang, go back to the Heavenly Misty Continent!"

"Do not."

"I really mean it."

Su Lang said sternly, "Guliang Dongfang, you should have heard of the Wu Clan, right?"

"Witch?"

"Of course I have heard of it."

"At the beginning, there were several big battles between our monster race and the witch race."

"Later, the Wu clan withdrew from the boundless realm, and disappeared."

"By the way, the subordinates around you seem to have the atmosphere of the Witch Clan!"

"Before you said that you gathered the Wu Clan continent, did you find those Wu Clan?"

Dongfang Taiyi looked at Yingwa and other Wu Clan Taichu, and immediately his eyes flickered, and asked a little excitedly.

The Witch Race can compete with the Monster Race!

Although lost.

But the strength is absolutely fierce!

"Not bad!"

"I have taken the Wu Clan Continent into my own."

"The Witch Clan Continent is a piece of land that the Witch Clan took away from the Boundless Realm after it retreated."

"At the beginning, the lord of the witch tribe used their race's special technique "World Heavenly Witch Fulcrum" to pry their land away!"

""World Heavenly Witch Fulcrum" can use itself as the "fulcrum", and use the "lever" to display an unexpectedly powerful power!"

"The huge Wu Clan continent, under the action of the "World Heavenly Witch Fulcrum" technique, travels through countless spaces and arrives at a time-space fault in the boundless universe, and has settled in it ever since!"

"Later, I used a lot of formation methods to cooperate with my clone and brought it directly back to the Tianmen Continent!"

"Now, I have practiced "World Sky Witch Fulcrum" to the founder proficiency level!"

"Not only that, but I also have a variety of formation methods that the Lord of the Witch Clan does not have, and the boundless number that can gather the power of the strong!"

"With the power of you and me, coupled with the Infinite Number, countless formations, and my skills, there may be a chance to move the Tianting Continent and bring it to the Tianmen Continent, so that the two will merge again!"

When Su Lang said this, there was an extremely bright light in his eyes, and his determination was extremely firm!

And these words.

Dongfang Taiyi was dumbfounded.

She thought that Su Lang was only ruling the Wu Clan.

Unexpectedly, Su Lang directly brought the Wu Clan Continent back to the Heavenly Misty Continent! and.

Su Lang even practiced the Wu Clan's town clan exercises to the level of the founder, which is too outrageous!

But this kind of outrageous thing came out of Su Lang's mouth, and it was convincing.

Because Su Lang has proved to Dongfang Taiyi that he will not lie or lie.

"Su Lang."

Dongfang Taiyi took a deep breath, "Are you sure you can really move the Tianting Continent!?"

"There is no small guarantee!"

"You and I are already two half-step eternal!"

Su Lang twitched the corner of his mouth and smiled, "If this is not enough, then I will find another half-step eternal helper!"

"what?"

"There is still a half-step Eternal Realm helper?"

Dongfang Taiyi asked in shock, "There is still half an eternal existence in our infinite universe?"

"Not bad."

Su Lang nodded, "This half-step eternal name is Congenital Demon, maybe you have heard of it."

"Innate Demon!?"

"In that rumor, hidden in the shadow of the boundless universe, absorbing the power of negative incense for half an eternity? He didn't even die?"

Dongfang Taiyi's eyes widened and said in disbelief, "That guy is extremely dark and extremely selfish. How can he help us?"

The innate demon is extremely selfish, and only knows how to avoid bad luck.

At the beginning of the Infinite Realm battle, He never appeared!

Because he didn't dare to participate in the war of eternal realm bosses.

[Chapter 2207: He can only be obedient](#)

"Not bad!"

"It's the innate demon you mentioned!"

"He is really selfish, short-sighted, and he has the strength of half a step in the eternal realm, but he only knows to survive."

"If it's someone else, I can't let him make a move, but I can't control him perfectly!"

"At the beginning I was only Eryan too junior, so I chased him everywhere, and also sucked a lot of incense and aspirations from it!"

A sneer was drawn at the corner of Su Lang's mouth, "Now my strength is soaring, and he is not my opponent anymore. If he doesn't want to die, he can only obey!"

Hear this.

Dongfang Taiyi was shocked again!

"what!?"

"Su Lang, your Er Yan is too junior, so you chase a half-step Eternal Realm everywhere!?"

"Did you say it or did my ears break? There is such an unthinkable thing under the sun!?"

Dongfang Taiyi looked at Su Lang blankly, completely unable to believe his ears.

"Hahaha!"

"You heard me right, my restraint ability is too strong!"

Su Lang laughed and said, "If I couldn't catch up, I would just \*\*\*\* him to death!"

"This is too powerful!"

Dongfang Taiyi couldn't help but exclaimed, and immediately asked, "By the way, you absorbed his negative incense aspiration power, is it okay?"

"Of course, no problem!"

"Any incense aspiration power cannot have any influence on me."

"On the contrary, it will bring me many benefits. For example, these two Jiuyantai primary weapons are forged with incense power and possess very terrifying characteristics."

While talking, Su Lang took out the Qibao Miaoshu and the Heart-piercing Lock and showed them to Dongfang Taiyi.

"The Jiuyan Realm is too low-level weapon!"

"This is actually made with incense willingness, it is amazing!"

Dongfang Taiyi looked at Qibao Miaoshu and Chuanxinsu in surprise, "In the original Boundless World, although the incense way was very prosperous, I have never seen such a powerful incense weapon!"

"Actually I have a third one."

"It's just that the weapon is a bit weak now, and it hasn't been cultivated yet."

Su Lang smiled and said, "Now, you believe I can call the Innate Demon!"

"Hmm!"

"Innate demons are greedy for life and fear for death!"

Dongfang nodded too much, "If you can threaten his life, he will definitely agree!"

"Well, I set up the formation first, and then go to the Innate Demon."

"I have already probed his location, and I have been keeping my eyes on him!"

The corner of Su Lang's mouth twitched, and immediately smiled, "By the way, you can try the Boundless, you are familiar with it."

Talking.

Su Lang gave orders to Wuyin with a thought.

Suddenly.

The Boundless Number brought a group of early powerhouses inside, and then appeared directly beside Su Lang.

Even without Su Lang settled in.

At this time, the Boundless has a large number of clones and senior primaries, and also has a strong power, which can be worthy of a half-step eternal strength.

"What a wonderful creation!"

Dongfang Taiyi exclaimed, "It is the most perfect weapon I have ever seen!"

"Humph!"

"And Xiaoyou!"

Xiaoyou suddenly jumped out and said angrily.

Dongfang Taiyi and Su Lang had spoken for so long, she was a little unhappy.

"Ah this... Jiuyan is too low-level weapon!!"

"This weapon is so curious that it gives me a sense of danger of death!"

"What kind of weapon is this, more powerful than the Infinite!"

Dongfang Taiyi looked at Xiaoyou, and finally noticed the hairpin in Su Lang's bun, and the light in his eyes became brighter.

"She's called Youtianjian."

Su Lang smiled and said, "Anyone who breaks the defense by her, even if only the skin is broken, will die directly."

"hiss!"

"There is such a nature against the sky!"

Dongfang Taiyi was even more surprised, "Could it be made from special materials born at the beginning of the universe?"

"Special materials born at the beginning of the universe? Maybe they are."

Su Lang was a little astonished, "Only the innate materials at the beginning of the birth of the universe can have such characteristics."

"Ok!"

"This weapon is too strong."

Dongfang Taiyi nodded heavily, "She is our weapon to kill the Emperor Mingzhou!"

"Yes!"

"Come on, Dongfang Guliang, try entering the Infinite Ship!"

Su Lang smiled slightly, causing the Infinity to sink into the magma and project a beam of light.

[Chapter 2208: You gave it to me like this](#)

"it is good!"

Dongfang nodded too much, and immediately followed the beam into the Infinity.

As a strong man in the half-step eternal realm, he possesses extremely terrifying power.

Therefore, Su Lang directly arranged the second core position for Eastern Taiyi, and could even take over the first core position at critical moments!

at this time.

Dongfang Taiyi entered the Infinity.

A breath of horror was immediately exuded from the Infinity!

"This is... true half-step eternal strength!!"

"The power of all the members of the Infinity has been gathered together. This is really a heaven-defying weapon!"

Dongfang Taiyi was in the second core part of Infinity, feeling the power that had surpassed himself, and he was suddenly amazed.

Because of her injury, her strength dropped sharply, and she was very weak in the Half-Step Eternal Realm.

But at this time.

Dongfang Taiyi felt a stronger force than his own heyday.

That kind of long-lost powerful force, she has spent countless hours unable to recover.

And now.

In the Infinity, she once again possessed such power.

This immediately amazed her!

Immediately after.

Through the mutual communication function of the Infinite, she was even more stunned when she saw the clones of Su Lang in the Infinite!

"Oh my God, these are Su Lang's clones!?"

"There are more than 14,000! All of them have the aura of the Bayan Primordial Beginning Realm!"

"Su Lang has so many clones, how did he do it!?"

"It's amazing, even in the original Infinity Realm, it is absolutely impossible for anyone to create so many clones that are not far from their own strength!"

"..."

Dongfang Taiyi looked at Su Lang's dense avatar, only to feel that Su Lang became more and more mysterious.

If it weren't for Su Lang who was a human race and inherited the ten core fragments of the Infinite Realm, she would definitely be suspicious again.

at this time.

Dongfang Taiyi's expression moved, and he found that Su Lang had also entered the Infinity.

"How about, Dongfang Guliang?"

Su Lang looked at Dongfang Tai with a smile and asked.

"Unbelievable!"

"Unbelievable!"

"If this weapon is stronger and the warriors stationed in stronger, I am afraid it will not be able to reach the point of touching the eternal state!"

"At that time, in addition to the Avenue of Time, the regular-level power will definitely reach the eternal level!"

"If Emperor Yuanmingzhou doesn't make a move, we will be able to recover three continents soon!"

Dongfang Taiyi said very excitedly, as if he had already seen the scene where three boundless continents were conquered and ready to march into the Heavenly Jade Continent.

"Hahahaha!"

"As long as there are enough heaven and earth treasures."

"My custody can directly promote the Infinity to the Half-Step Eternal Realm, or even evolve it to the real Eternal Level!"

"As for the warriors who are stationed in, soon, I will be able to bring out more of the strong from the beginning, let them become the cells of the Infinite, and provide a strength for the Infinite!"

"In addition, Dongfang Guliang, if you are there, they can also feel the time rules of the half-step eternal realm, and they can break through faster!"

A bright smile was drawn at the corner of Su Lang's mouth, and he nodded while talking.

He does not mean that.

Dongfang Taiyi immediately caught Su Lang's needs at this time

——A lot of natural treasures!

"Su Lang!"

"As long as you have enough heaven, material and earth treasures, you can upgrade the Infinite to the half-step eternal state? Or even the true eternal state?"

Dongfang Taiyi said in astonishment, "In this case, I still have some treasures of heaven and earth and the source of Xianyuan, you might as well use them!"

Talking.

She took out a huge amount of natural treasures from her life universe and handed them directly to Su Lang.

"Yes?"

"This, this is the baby you have left until now. It must be very precious. You gave it to me like this!?"

Su Lang asked in surprise, only to feel that all this was quite bald.

It seems that he hasn't shown his refining methods.

He said that he could promote the Boundless, and Dongfang Taiyi had an unconditional letter, which was really a bit overwhelming.

[Chapter 2209: Ah this, i see](#)

"Haha!"

"Su Lang, Your Majesty!"

"Now I have admitted your identity as the new Emperor Boundless Zhou!"

"In this case, I will trust you wholeheartedly and support you!"

"Su Lang, you have any needs, just say, I will never refuse!"

Dongfang Taiyi laughed, looked straight at Su Lang, and said very seriously.

"Ah this!"

"I understand!!"

"Soon, I will surprise you!"

Su Lang nodded seriously as well, and soon accepted all the treasures that Dongfang Taiyi handed over.

In order to be able to pack the Tianting Continent away.

Su Lang decided to see if he could improve the Infinity or his own strength!

then.

He let Dongfang Taiyi familiarize himself with the power of Infinity.

He started to count the treasures in the storage space.

Except for the huge amount of natural treasures and the source of the Emperor Xianyuan given by Eastern Taiyi.

The spoils obtained by the two great Jiuyantai junior powerhouses, Po Suo and Bliss, have not been carefully counted.

It is just used for most of the less effective materials as raw materials for strengthening functions.

Finally, there are the too junior powerhouses in the Tianting Continent who were killed not long ago, that is, those guys who were shivering with fright, but were stern.

"First take the life universe of these betrayers!"

With a move of Su Lang's heart, he immediately took all the continents, planets, and creatures in the universe of life and the crystal wall world into his body.

Immediately after.

Use the function of Mingguang Ten Thousand Realms to conquer all those wise creatures!

Suddenly.

Su Lang found that the speed at which he was accumulating incense and wishing power had become a bit faster.

"Hey!"

"Really good!"

"When the first three incense weapons are raised, the fourth incense weapon will be gathered!"

Su Lang clicked on the corner of his mouth, and then cast his gaze on the energy spar and Xianyuan Emperor Source, "System, save all these Xianyuan Emperor Source for me!"

"Ding! The deposit is successful, and the balance is 188.8 Universe Origin!"

"More than a hundred!"

"It's even close to two hundred!"

"Haha, it's great!"

"Killing so many Jiuyan Taichu and Bayan Taichu... and also scraping the entire Tianmi Continent, it is only two hundred universe origins."

"Now I didn't expect to have nearly two hundred universe origins again!"

"With so many origins of the universe, most of them must be Taiyi Oriental. I am so grateful to her!"

"..."

Su Lang showed an extremely excited smile, extremely excited in his heart!

The origin of the universe more than one hundred.

Enough to improve his system function again!

One-key training, one-key martial arts, and one-key treasure hunting functions can all be improved!

The first two have reached level 49, and they will reach level 50 immediately!

Once you reach level 50, there must be very anti-sky system features!

Thinking of this, Su Lang was even more excited, his face almost turned into a sunflower.

Dongfang Taiyi also noticed Su Lang's reaction, and immediately laughed.

She is also very happy to be able to help Su Lang!

at this time.

After a while of excitement.

Su Lang took a deep breath and immediately issued instructions to the system, "System, give me a one-key training function!"

The main thing he lacks at present is his cultivation!

Therefore, it is imminent to improve the one-key practice function!

"Ding! Consume 100 universe origins, upgrade the one-key training function to level 50, and increase the training speed to 150,160 trillion times the speed of the basic training without lack of qualifications!"

"Ding! Congratulations on upgrading the one-key training function to level 50, and you have obtained the new bonus function "Crystal Wall Universe"!"

Accompanied by the appearance of two system prompts.

Su Lang immediately discovered that his cultivation base accumulation rate had doubled, becoming 15 trillion times, or 1.5 billion times!

This number is so abnormal, it's almost impossible to count the number of zeros.

Simultaneously!

Also got a new bonus feature, Crystal Wall Universe! !

at this time.

The explanatory information about the new function also appeared directly in Su Lang's mind.

[Chapter 2210: Metamorphosis comes with a functional crystal wall universe](#)

Crystal Wall Universe:

Active function!

After using it, you can consume a certain amount of cultivation base to strengthen the crystal wall cells to a level close to your own life universe.

The universe of life represents the upper limit of the crystal wall universe, which cannot be surpassed!

"Noisy, noisy!"

"Isn't this a function of my heart!?"

"It can consume cultivation base to upgrade the Crystal Wall world, and it can be upgraded to a level close to the life universe!"

"My full one hundred and seventy gai crystal wall world, if all are raised to the level close to the life universe, who can compare this?"

"Moreover, the universe of my life can continue to improve, which means that the ceiling of the crystal wall world is also improving."

"In the future, my crystal wall world will probably be stronger than the life universe of the same level!"

Su Lang looked at the function description information in his mind, and he was almost stunned.

This feature is really awesome!

The thought that every cell in my body can turn into a huge world like the universe of life is simply numbing!

of course.

The premise is enough cultivation base!

At present, Su Lang is lacking the cultivation base to improve the realm, and there is no extra cultivation base to improve the crystal wall world.

You can only do it yourself and use the technique of actively promoting crystal wall cells to improve.

"Axi, the cultivation base is really not enough!"

"If only I could get more of the origin of the universe."

"However, one-key cultivation needs 1000 Universe Origins to be upgraded next. Where can I find this special?"

Su Lang felt a headache, and immediately shook his head fiercely, throwing his troubles aside.

Immediately after.

Su Lang's eyes fell on those treasures of heaven and earth again.

But I saw that the genius treasures given by Dongfang Taiyi included both very high-level treasures and a large number of low-level treasures.

It even includes a large number of broken weapons and wreckage of the strong.

Yes.

Too rudimentary wreck must also be a kind of treasure!

However, after Su Lang digs away the Crystal Wall world, the remaining things will be given to the Moon Mother Nest, allowing her to help create creatures.

At this time, the mother's nest of the moon is not only strong, but also very hard. It can give birth to trillions of spores in one second.

Then, she will use a very fast evolution speed to cultivate these spores crazy into beings, bringing strong humanity to Su Lang!

Closer to home.

Looking at these treasures from Dongfang Taiyi.

Su Lang suddenly understood that these were probably things that Dongfang Taiyi picked up on the battlefield.

It can also be seen from those broken weapons that are too elementary, how terrible and cruel the original battle was.

"call!!!"

"Emperor Yuan Mingzhou, you will pay for your invasion!"

Su Lang let out a spit of air, and immediately activated the one-key decomposition function to decompose all the weapon remains into raw materials.

In addition, there are a large number of elixirs.

These impurity-containing pills are also decomposed by Su Lang into raw materials, which can be used to refine the pill of perfect quality.

After breaking down a huge amount of material.

Su Lang sorted and stored them in different categories, and selected the materials used to upgrade the Infinite.

There are two ways to upgrade the Boundless.

The first is weapon evolution, and the second is enhanced functions.

This time.

Su Lang discovered that the materials provided by Eastern Taiyi were enough to allow the Infinite to evolve in all directions, and even have surplus!

then.

He intends to use evolution and enhancement together!

"system!"

"Start the weapon evolution function!"

Su Lang took a deep breath, locked the 120,000 parts of the Infinity with his divine mind, and resolutely issued the order!

The order has just arrived.

In the storage space, those evolutionary materials disappeared suddenly!

The huge amount of material turned into a powerful and mysterious force, flooding into every part of Infinity!

In a flash.

The Dongfang Taiyi and others in the Boundless Ship all felt the upgrade of the Boundless Ship!

They are among the parts, and they have a very clear perception of the changes that have taken place in the parts of Infinity!

"This is...The Infinity has been upgraded!!"

"Oh my God, the part I'm in has directly increased by one level!"

"This is your Majesty Su Lang's promotion of Boundless! His Majesty Su Lang is really amazing, I admire it!"
