[Chapter 2261: Super rich loot](#)

It is Emperor Yuan Mingzhou!

He is refining the origin of the universe, trying to form a more cherished core origin of the universe!

And this time.

He felt the fall of the twenty-four subordinates instantly!

"Instantly kill my twenty-four half-step eternal subordinates!?"

Emperor Yuan Mingzhou opened his eyes expressionlessly, revealing indifferent star eyes, only a slight surprise flashed through his eyes.

As a true eternal realm powerhouse.

Emperor Yuanmingzhou has lived for hundreds of billions of years, hunting each and every natural universe.

His knowledge is definitely the widest in this universe.

But even so, Emperor Yuan Mingzhou has never seen him, in the half-step eternal realm, can instantly kill 24 warriors of the same level!

"Su Lang?"

"interesting."

"Kill my twenty-four subordinates, either you will replace them, or the dust will return to the dust."

Emperor Yuanmingzhou slowly closed his eyes, he was invincible, not only in this ruined infinite universe!

And Su Lang.

In his eyes, it was really just a bigger ant that could be killed at any time. He was not in a hurry at all.

And compared to the death of twenty-four subordinates.

The cosmic source energy in hand is more treasured.

Besides, it won't take long.

at the same time.

In the heavenly continent.

A series of system prompts finally resounded.

Twenty-four half-step eternity has completely become the past, and can no longer be resurrected.

All their wealth was taken by Su Lang's perfect plundering function!

One by one extremely powerful weapon, one by one hides the broken body of a huge world, one by one the highest quality and purest soul of the beginning, as well as countless heavenly materials and earth treasures, Xianyuan Diyuan...

"Tsk tut!"

"The power that is infinitely close to the eternal state is awesome!"

A trace of excitement flashed in Su Lang's eyes, but a trace of vigilance was hidden under his eyes.

He directly collected the Infinity into the universe of life, and the replacement clone and the death clone were already ready.

He is waiting for Emperor Yuanmingzhou to appear!

Killing so many half-step eternity, really want to guard against such a hand!

but.

Su Lang, who was ready to run at any time, did not wait for Emperor Yuanmingzhou to appear.

A whole hour has passed, and since the beginning of the exercises have been practiced ten books, Yuan Mingzhou Emperor did not appear!

"It seems that Emperor Yuanmingzhou really doesn't pay much attention to his subordinates."

"In other words, I don't pay much attention to me, don't put me in the eyes, think I can kill at any time, so don't worry!"

"Humph, no matter which one it is, I like it very much!"

Su Lang chuckled, then disintegrated the Ten Thousand Flow Killing Array in an instant, and used the Celestial Void Teleportation Network to enter the Exile.

boom!

The surrounding energies of the world suddenly surged, giving Su Lang a sense of comfort in lying in a natural hot spring.

Soon.

Su Lang immediately began to count the spoils obtained this time.

"system!"

"Deposit all the fairy source, emperor source, fairy jade, fairy stone, spirit jade, mysterious crystal..."

Su Lang looked at the energy spar like Xianyuan Diyuan in the storage space and ordered it to be stored in the system.

Some of these energy spars come from the rest of the natural universe, with different types and different names, but they are all 'currency' recognized by the system.

After the order is issued.

All the "currency" in the storage space disappeared immediately, and the system prompt suddenly sounded!

"Ding! The storage is successful, the balance is 5298 Universe Origin!"

"Lying down!"

"There are more than five thousand universe origins!"

"Noisy, this one is too fat!"

Su Lang was shocked, his eyes filled with overjoy.

More than 5,000 universe origins!

How many system functions can this be upgraded!

It seems that functions that have not reached the upper limit can be upgraded!

"hiss!"

"This is so awesome!"

Su Lang's eyes flashed with extremely excited light, and immediately issued instructions, "System, upgrade me the one-key practice function!"

"Ding! Consumes 1000 universe origins, the one-key training function is upgraded to level 51, and the training speed is increased to 300,320 trillion times the speed of the basic training without lack of qualification!"

[Chapter 2262: The swallowing clone status can be permanent!](#)

The system prompt sounds.

Su Lang's cultivation speed doubled again, reaching 300,000 trillion times, or 30 Beijing times!

Such a terrifying speed of cultivation.

Plus the time flow rate of the Exile.

Compared to the normal timeline of the infinite universe, that is 3 million Jing, or a speed of 300 Gai...

At this time, Su Lang watched his cultivation level skyrocket, and it was one-third in a short period of time!

This is the eternal cultivation base of Jiuyan from the early stage to half a step!

No one else can practice for billions of years before they have the slightest hope of breakthrough?

Putting it here in Su Lang is as simple as breathing!

"It's so awesome!"

"If this continues, I will be able to quickly condense the Time Dao and be ready to fight with Emperor Yuanmingzhou!"

Su Lang took a deep breath and immediately issued instructions again, "System, improve the one-key martial arts function!"

"Ding! Consumes 1000 universe origins, the one-click martial arts function is upgraded to level 51, and the training speed is increased to 3000 trillion times the speed of the basic training without lack of aptitude!"

Suddenly.

The speed of one-click martial arts has increased again!

And Su Lang has a total of ten martial arts villains, and the speed has increased tenfold, reaching 30,000 trillion times! !

This speed.

Practicing too basic exercises is like drinking water, and it's done with a grunt!

"Ding! "The Great Spiritual Book of Crossing Edge" has reached the founding level!"

Look, just come!

Su Lang immediately placed another exercise "Wen Yu Ji Xin Qi Lu", and let ten martial arts villains practice together.

Soon.

"system."

Su Lang issued an instruction again: "Give me one-key enhancement!"

"Ding! Consumes 1000 universe origins, the one-key enhancement function is upgraded to level 11, the enhancement limit is +1, and the current enhancement can be 11 times!"

As the system prompts appear.

Su Lang is bleeding again!

But the increase in the upper limit of the one-key enhancement function is also a great thing for Su Lang.

"Next!"

"It's the turn of the clone dispatch function and the one-click treasure hunt function!"

"These two functions can reach level 50 this time. What kind of bonus functions will I get?"

"..."

There was a strong expectation in Su Lang's eyes, and he immediately issued an order to upgrade the dispatch function of the clone first!

"Ding! Consume 1000 universe origin, the clone dispatch function is upgraded to level 50, the number of clones is +1, the current number of clones is 50, the number of clones is 50, and the number of twins is 50!"

"Ding! Congratulations on upgrading the clone dispatch function to level 50. You have obtained the bonus function 'cooldown reduction'!"

Accompanied by the appearance of system prompts.

A message appeared in Su Lang's mind, it was the explanatory message about the cooling down of the bonus function.

Su Lang opened his mouth in surprise when he saw it!

Cooldown doubled: The cooling time after the death of the clone, avatar, and twin avatars is further reduced, and the cooling can be completed in half an hour!

"Half an hour to cool down!"

"I intervened, this is too abnormal!"

Su Lang stared at the information in his mind dumbfounded, with an extremely bright light in his eyes.

After getting the 'cooling down' function, the clones can cool down in an hour, which is already very abnormal.

Now it turned out to be half an hour to cool down!

In this way.

The cooling time of the clone is the same as the duration of the devouring clone!

In other words, as soon as the duration of the swallowing clone is over, the clone is cooled down at the same time, and Su Lang can continue to swallow the clone, maintaining a combat power far beyond normal!

"This is equivalent to the swallowing clone status can be permanent!"

"In addition, the cooling time of the clone has been reduced, which is equivalent to the indirect enhancement of the death-replacement function!"

"Tsk tsk, it's worthy of the bonus function of level fifty, it's amazing!"

"With this function, you can be more sure about Emperor Fu Yuanmingzhou!"

Su Lang thought with his eyes shining brightly, and he immediately focused on the fifth system function, searching for treasure with one click!

The one-click treasure hunting function at this time is level 48, and upgrading to level 50 requires 1100 universe origin.

And the balance, just left 1298 universe origin!

"What bonus functions can I get with the one-click treasure hunting function?"

Su Lang rubbed his hands in excitement, and immediately gave instructions to the system, "System, give me two levels of one-click treasure hunting function!"

[Chapter 2263: Super abnormal treasure hunting ancestral glider](#)

"Ding! Consume 100 universe origins, the one-click treasure hunting function has been upgraded to level 49, and the number of treasure hunting flying flying gliders is 1,500 trillion!"

"Ding! Consume 1000 universe origins, the one-click treasure hunting function has been upgraded to level 50, and the number of treasure hunting flying flying gliders is 3000 trillion!"

Two system prompts appear in succession.

The number of treasure hunting flying gliders has directly reached three thousand

Trillion!

This is not over yet!

Another system prompt appeared!

"Ding! Congratulations on upgrading the one-click treasure hunting function to level 50. You have obtained the bonus function 'Treasure Hunting Ancestral Flying Eagle'!"

Immediately after.

Two pieces of information appeared in Su Lang's mind!

"Two bonus functions! Great!"

Su Lang was overjoyed and immediately began to check the information of the two functions.

Golden Body from the Beginning: The level of the treasure hunting flying flying fly reaches the top level of the too basic, and is immune to all too basic and lower-level attacks!

Treasure Hunting Ancestral Flying Glider: All the treasure hunting flying flying gliders of the current level merge together to form a Treasure Hunting Ancestral Flying Glider!

Treasure hunting ancestral gliders exist for 24 hours, the level reaches a higher level across the current level, the speed reaches the eternal realm of a universe, and is immune to all eternal realm attacks!

"At the beginning of the golden body!"

"Treasure hunting ancestral glider!!"

"The first bonus feature is expected, and the latter feature is abnormal!"

"All the treasure hunting flying flying gliders can be merged into one of the strongest treasure hunting ancestral flying flying gliders, even in the eternal realm!"

"Its speed has reached the eternal realm of one universe, one universe, is this the way to divide the eternal realm?"

"Hahahaha, no matter what, with this treasure hunting ancestral glider, I can do something to Emperor Yuanmingzhou!!"

An eager excitement rose in Su Lang's eyes!

but.

He did not rashly go directly to the trouble of Emperor Yuanmingzhou.

After all, his current strength is not enough to face Emperor Yuan Mingzhou. If Emperor Yuan Mingzhou abandons the Heavenly Jade Continent and has to come out and **** him, he might really be finished.

therefore.

Su Lang decided to go quietly to Yuanming Universe to do things! !

Not bad!

Just go to Yuanming Universe!

Just before, when he monitored the conversation between Emperor Immortal Emperor Zhou and others on the Heavenly Jade Continent through his clone, he didn't forget to analyze the formations that opened up the universe!

at this time.

Su Lang has thoroughly seen all the formations refined by Emperor Yuanmingzhou, as long as the materials are sufficient, they can be refined!

The most troublesome thing about refining the formation that opens up the passage of the universe is the Avenue of Time!

Why do we have to connect the time avenues that merge the two natural universes when opening up the passage?

Because if you don't do butt.

There will be an extremely terrifying time turbulence in the two natural universe channels with different time avenues, and it is difficult for even the strong of the eternal realm to cross!

If you step into the Eternal Realm halfway, you will definitely die!

After all, the Avenue of Time is the most terrifying force in the natural universe!

And the thing of Time Avenue.

Su Lang couldn't get it out.

The only way to get the power of the Time Dao is probably to go to the Heavenly Jade Continent to steal the Time Dao array left by Emperor Zhou!

but.

Once you steal it, even if it succeeds, it will definitely attract the attention of Emperor Yuanmingzhou.

That's the battlefield leading to his hometown, how can you not care?

The result of caring is that it is extremely likely to abandon the Heavenly Jade Continent and run out to chase Su Lang.

Su Lang understands this very well!

Therefore, he will not steal those time spheres!

Well.

How should we sneak into the source universe and do things?

If it was before, Su Lang really had no choice!

but now.

With the bonus function of treasure hunting ancestral flying, everything is solved! !

Treasure hunting ancestral gliders are immune to all attacks in the eternal realm, which is the power of the natural universe, and of course can survive the turbulence of the time avenue when the two natural universes are docked!

and so!

Su Lang only needs to open up the channels between the two natural universes, and he doesn't need to worry about the turbulence of the Time Avenue.

"This is a trick to encircle Wei and save Zhao. If you attack the enemy, you must save it!"

"Once I get involved in Yuanming Universe, if Emperor Yuanmingzhou knows, he might return, and I will be much better by then!"

"Now I'm cultivating in a place of exile, and I have nothing to do, so let's start to refine the formation!"

[Chapter 2264: Refining the gate of the natural universe](#)

"..."

Su Lang showed excitement, and immediately began to design a new natural universe channel array based on his knowledge of the formations of Emperor Yuanmingzhou!

His own formation knowledge is very powerful, and at this time he also obtained the top formation knowledge of Yuanming Universe from the formations of Emperor Yuanmingzhou.

This allowed him to further sublimate his formation attainments to an even more unpredictable level!

From the formations of Emperor Yuanmingzhou, Su Lang learned the space formation technique to break through the barriers of the natural universe.

Moreover, he combined his knowledge of the avenue to design a avenue that has no time, but is more powerful on the avenue of space!

"This kind of formation is called the 'gate of the natural universe'!"

Su Lang looked at the illusory formation just designed in his mind, and a sneer was outlined at the corner of his mouth.

Next!

It is to refine the formation!

This kind of formation that opens up the passages of the natural universe, to be refined into an eternal realm, will consume countless hours!

But Su Lang has a one-key formation function, and can refine countless formations instantly.

Considering that the upper limit of one-key refining is the Primordial Realm.

Therefore, as early as when he designed the array, he designed the array into a modular array similar to the Infinity.

In this way, it can be refined with system functions!

In fact, Emperor Yuanmingzhou's set was also considered a combined formation, but it was a bit rougher than Su Lang's.

"system!"

"Start the one-key array refining function!"

Su Lang's mind came up with the components of the 'gate of the natural universe' and gave instructions to the system.

Suddenly!

The one-click array refining function started to run wildly, refining arrays containing horror space avenues!

Take advantage of the one-click refining function to refine the array.

Su Lang's gaze fell on the rest of the spoils.

After counting and using 'currency' such as Xianyuan Diyuan, those too low-level weapons became Su Lang's second target.

"A full twenty-four statues are half-step eternal, oh no, it should be twenty-five statues..."

"Emperor Emperor Zhou still has some too low-level weapons and treasures!"

"Well, go and **** her baby now, and torture information by the way!"

As Su Lang thought, the corners of his mouth raised slightly, and then he took out the purple golden gourd!

However, seeing this purple gold gourd occasionally tremble slightly, it is the immortal Emperor Zhou who is struggling inside, trying to escape!

"Hmph, still want to escape!"

"Clean up your property today!"

Su Lang clicked the corner of his mouth and took out the Qibao Miaoshu and threw it directly into the gourd.

Inside the purple gold gourd.

"Su Lang, let me go!

"My husband will come to rescue me soon, you are dead!"

"Only I can help you survive, you let me out immediately!"

"Little bastard, are you ignoring me, ah, ah, let me out!"

"..."

Indestructible Emperor Zhou kept shouting in Su Lang's purple and golden gourd, screaming at the threats from the inside, shouting hoarse...

at this time!

A ray of colorful light suddenly descended from the sky, illuminating the entire nether and hell-like space like a dream.

however.

This scene caused the eyes of the Emperor Zhou to shrink suddenly, terrified!

Because she had already experienced this kind of colorful light once, and was directly robbed of Jiyuan Heavenly Sword and her clothes!

And this time.

She was wearing a too basic treasure, and she was holding a Bayan too basic long sword in her waist!

"Su Lang, dare you!!"

Immortal Emperor Zhou looked at the colorful rays of light from the sky shrouding him, and suddenly let out a sharp scream.

"Do you care so much?"

Su Lang's faint voice suddenly appeared in the ears of Emperor Zhou.

The colorful haze in the sky also slowly stopped.

"Su Lang!"

"Emperor Yuan Mingzhou has never touched my clothes. If you dare to move, he will not let you go even if I plead with you!"

"Listen to me, let me go out quickly, before Emperor Yuanmingzhou comes down, you still have a chance to survive!"

[Chapter 2265: You already believe it](#)

"..."

Emperor Immortal Zhou said in a cold tone, it seemed that Emperor Yuanmingzhou would abandon the Heavenly Jade Continent to chase Su Lang.

however.

Next, Su Lang's words seemed like a basin of ice water poured on her head.

"Indestructible Emperor Zhou, do you still expect Emperor Yuan Mingzhou to appear now?"

"If he really wants to come, he will come as long as I kill twenty-four statues in half a step for eternity!"

"Now, I have killed 24 of his subordinates and arrested you, his nominal Taoist companion. He has not appeared!"

"It can be seen that your status is really low in his heart, and it is not as good as some dead things, hahaha, do you think it is ridiculous that you expect him?"

Su Lang's faint voice was full of playfulness and sarcasm.

And this statement came out.

The Immortal Emperor Zhou suddenly looked like a goose pinched around his neck, with his mouth wide open, but he couldn't speak for a long time.

For a while.

The Emperor Zhou tremblingly returned to his senses, but the stunned expression on his face still occupies the entire face.

"You, what did you say!?"

"You killed those twenty-four statues in half a step for eternity!!"

"No, it's impossible, how long it took you to catch me in, how could you kill twenty half-step eternal powers in such a short time!"

"Only the real eternal realm powerhouse can do it. You can't do it, it's impossible!"

"You are lying, you must be chased by those twenty-four half-step eternal realm powerhouses now!"

"Let me out, you let me out quickly, I will help you intercede!"

"..."

Emperor Zhou didn't believe that Su Lang could kill a total of twenty-four half-step eternal powers in such a short period of time.

That is half an eternity accumulated over countless years in the entire three natural universes!

In her opinion, there must be only the eternal realm strong who can kill so many half-step eternal powers at once!

But just when her voice fell.

"you do not believe?"

"Then look, what are these!"

The corner of Su Lang's mouth raised slightly, and he directly took out the twenty-four half-step eternal powerhouse weapons and some items that could represent identity, and showed them to Emperor Yuanmingzhou.

Suddenly!

Pieces of Jiuyantai junior weapons appeared in front of the immortal Emperor Zhou.

In addition, there are some body fragments of half-step Eternal Realm powerhouses, and even the universe of life!

"Do not!"

"This is not true, this is illusion!"

"This must be an illusion, it is impossible for you to kill so many half-step eternal powerhouses!"

"..."

Emperor Immortal Zhou looked at the familiar weapons, his whole body trembled, and his eyes were unbelievable.

In fact, she had already seen that those weapons and other things were real!

But she is really hard to accept!

Because this is too exaggerated!

That's a total of twenty-four statues half-step eternal!

Each one is standing at the top level in the natural universe. How could it be possible to fall so many at once?

"Tsk tut!"

"Indestructible Emperor Zhou, you already believe it, don't you?"

"I caught you and killed so many half-step eternal powerhouses under his command."

"Your titular husband turned a blind eye and turned a deaf ear to him, but instead practiced the Heavenly Jade Continent wholeheartedly!"

"How about, you are disappointed, hahaha!"

Su Lang looked down at the immortal Emperor Zhou in the purple gold gourd, his eyes flickered, "Ru Yanying, if you provide me with some valuable information on the source of the universe, maybe I can spare your life."

"what!!!"

"You, how do you know my real name!?"

"It's impossible. The one who knows my real name is now my husband alone!"

When the Emperor Zhou listened to Su Lang's words, his whole body trembled again.

"Don't be surprised, I know more."

"Now, you have to seize the last chance."

"Emperor Yuan Mingzhou doesn't come to save you. In my hands, you are a completely worthless bargaining chip."

"If you don't choose to cooperate with me, then I can only kill you!"

Su Langsenhan's voice was like a cold wind blowing from hell, making the Emperor Zhou cold, like falling into an ice cave!

[Chapter 2266: I cannot use common sense](#)

The feeling of death has come again!

Last time, a strand of hair left by Emperor Hades rescued her, now?

Is there any more! ?

"He will protect me... he will, he will!"

Indestructible Emperor Zhou murmured with red eyes, but in fact she didn't believe it.

Even the last time that Emperor Yuanmingzhou left her to save her, it was all unexpected.

For a long time, Emperor Yuanming Zhou treated her very indifferently, almost the same as treating the rest of the people, there was nothing special, they were all... as ants.

She was really just a Taoist companion in the name of Emperor Yuanmingzhou, she had only one name, and nothing else.

This time.

She was arrested, Emperor Yuan Mingzhou did not put down the Tianxuan continent to rescue her.

Then, if she is going to be killed, will Emperor Yuan Mingzhou appear?

"Tsk tut."

"I really don't hit the south wall or look back."

"In that case, then I can only kill you!"

Su Lang's eyes were cold, and he directly took out the Infinity and entered the core parts.

Immediately after.

At this time, there are still many clones in the Infinity, and the real half-step eternity of Evil Devouring!

Su Lang stationed in it.

The Boundless suddenly exploded with the terrifying power of killing 24 people instantly.

Soon.

Su Lang controlled the Infinite, and directly entered the inner space of Zijin Gourd.

boom!

An incomparably vast breath descended, covering the entire world within the purple gold gourd.

Such a powerful Boundless, Immortal Emperor Zhou had not seen it because he was caught early.

At this time, seeing the infinite number in its heyday, Emperor Zhou finally understood why the twenty-four half-step eternal would all be killed in a short time!

In the eyes of the immortal Emperor Zhou.

The conventional power of Boundless is infinitely close to the real state of eternity!

Coupled with that terrifying weapon, half-step eternal time rules, half-step eternal level trapping and killing formation, all kinds of means erupted together, instant killing 24 people is completely possible!

"Su Lang...when did you have such terrifying power!!"

"This is not in line with the common sense of the universe, you can't progress so fast!"

"There are also those weapons, which obviously require countless time to temper, how can they suddenly become half-step eternal weapons!"

"..."

Emperor Zhou looked at the Boundless Number holding the Youtian Sword in front of him, his whole body collapsed from three perspectives, dumbfounded!

"Sorry."

"I can't use common sense!"

"Now, the immortal Emperor Ru Yanying, your death date has come."

"Pray that your ruthless husband will come to save you!"

Su Lang's indifferent voice came from the Infinity.

Immediately after.

With a move of both hands, Wu Bian raised the extremely sharp Youtian Sword aloft!

Wow!

A more fierce and terrifying aura condensed, making Immortal Emperor Zhou's heart palpitations instantly, and his face suddenly changed.

"My husband...will come to save me!"

Emperor Zhou was muttering words that he didn't believe, and his heart was full of sorrow.

"Lying down, this scheming is useless?"

Su Lang raised his eyebrows, and immediately narrowed his eyes, bursting out a dangerous light.

His hands clenched the sword of nothingness and cut it down!

Infinity made a synchronized action, and the Youtian Sword in his hand that looked like a waterfall suddenly slashed towards the immortal Emperor Zhou who was blocked by the heart-piercing lock.

Stabbed!

The extremely terrifying Po Yi Jian Jian Qi instantly slammed in front of the Immortal Emperor Zhou.

Emperor Zhou didn't have any resistance at all, he could only watch death keep approaching him.

In front of death.

Time seems to pass extremely slowly.

Scenes in her life flashed past her eyes constantly.

After being born, he was above the countless people in Yuanming Universe, surrounded by countless people.

After that, the current Emperor Yuanmingzhou was born and was hailed as the first genius of Yuanming Universe, and she could be called the son of the universe. She was betrothed to him and became a Taoist companion.

Since then, she has lived in an identity, the Taoist companion of Emperor Yuanmingzhou.

As a cultivator, Emperor Yuanmingzhou had only actually met her three times in his long life.

The rest of the time are avatars and communication phantoms, but the frequency is very small.

This was especially true after Emperor Yuanming Zhou took over the banner of Yuanming Universe and began to expand territory.

This kind of thing is almost universally known.

And now, she was going to die.

Emperor Yuanmingzhou will come to rescue her. Really, will I see her for the fourth time?

[Chapter 2267: This is really the last chance](#)

"He won't come..."

"A strand of hair is the greatest gift."

Emperor Immortal Zhou suddenly realized that in the eyes of Emperor Yuanmingzhou, everything was empty, only cultivation was true.

at this time!

Wow...

The extremely powerful Po Yi sword suddenly dispersed, forming countless spots of light, which passed by the immortal Emperor Zhou like wind.

"It seems that you finally recognize the reality."

The corner of Su Lang's mouth twitched, but he possessed the Ethereal Universe, not only the incense, but also the overflowing emotional thoughts.

Therefore, he clearly captured the emotional changes of the Immortal Emperor Zhou, and immediately took the initiative to disperse Po Yijian.

"I....."

Emperor Immortal opened his mouth, with the joy of the rest of his life and the shame and anger of being seen through his mind.

"In that case."

"Let's talk about it, Yuanming Universe's intelligence!"

"Also... what do you know about Emperor Yuan Mingzhou."

Su Lang ticked the corner of his mouth and smiled faintly, "Speak out, and you can continue to live."

"Ha ha."

"I will die too."

"Because you will definitely die in the hands of Emperor Yuanmingzhou."

"Emperor Yuan Ming Zhou will kill me after killing you."

Emperor Zhou took a deep breath, sneered, and said in a cold tone.

"No, you are wrong, so wrong!"

"Emperor Yuan Mingzhou can't kill me, so he can't kill you either."

"But if you don't say it, you are really dead, and you are going to die now."

Su Lang's expression was indifferent, "I know you must say something is impossible, I tell you, everything is possible."

"joke."

"Even if you are strong, you are only half an eternity!"

"Half-step eternity and true eternity, there is an insurmountable gap, you can't win."

"Even if the left and the right are going to die, why don't I die more loyal?"

Emperor Zhou sneered and shook his head, completely refusing to cooperate.

"You are the joke."

"Talking to Emperor Yuanmingzhou about loyalty is a laugh."

Su Lang sneered, the expression of Emperor Zhou's expression changed indefinitely.

Yes.

What did Emperor Yuan Mingzhou think of her? Ants, at best they were special ants.

"Heaven and earth have the greatest life."

"Indestructible Emperor Zhou, surrender, I will protect you from death."

Su Lang looked at Emperor Zhou with indifferent tone, "This is really the last chance. It's life or death, it's all between your thoughts."

Talking.

The Infinity raised the Youtian Sword once again!

"you win....."

"I really want to see how you survived Emperor Yuanmingzhou and defeated him!"

"If you can't, it would be a great pleasure to watch you die with your own eyes!"

The expression of Emperor Zhou suddenly calmed down, and a strange light showed through his eyes.

"You start to live for yourself."

Su Lang saw the state of Emperor Zhou at a glance, smiled and nodded.

Emperor Zhou was taken aback for a moment, the corners of his mouth raised slightly but he did not speak.

"So."

"Let's talk about it, what do you know about Emperor Yuan Mingzhou."

"Also, the information of Yuanming Universe, such as the core location and important areas of Yuanming Universe."

"By the way, I am also very interested in the natural universes that Emperor Yuanming Zhou hunted."

Su Lang nodded slightly, his eyes faintly looking at Emperor Zhou.

then.

Emperor Zhou spoke up.

"Emperor Yuan Mingzhou, Yunge after his real name!"

"I don't know how strong he is, but he has hunted nine natural universes!"

"Not all natural universes have eternal powers."

"Of the nine natural universes, three of them are natural universes without eternal powers."

"Therefore, it is the eternal realm in the hands of Emperor Yuanmingzhou, with a full six!"

"Besides, there are more than fifty eternal strong men who died in his hands!"

"Emperor Yuan Ming Zhou possesses an extremely powerful weapon that has swallowed many powerful people. Now I don't know what level of power it has reached."

"About Emperor Yuanmingzhou, that's all I know, he is too mysterious."

The Immortal Emperor Zhou paused, and immediately began to tell the information about Yuanming Universe.

[Chapter 2268: Information given by the emperor of immortality](#)

"Yuanming Universe is a very powerful natural universe."

"This universe does not exist like the Infinity Realm."

"It is composed of countless galaxy regions, with nine largest star regions and nine most terrifying planets!"

"Of the nine largest star regions, only six are naturally formed cosmic star regions, and the remaining three are artificial star regions."

"And in the center of these nine star regions, on the nine most massive planets, all those who survive are Godless and above."

"Around it are smaller planets with weaker creatures."

"Of course, a strong presence can also enter the surrounding area, but the weak cannot enter the area where the strong is located."

"And these nine largest planets are also the time and space ports of Yuanming Universe to the other nine natural universes that have been hunted."

"The so-called space-time port is a permanent natural universe channel!"

Speaking of this, Emperor Zhou stopped and looked at Su Lang.

"Oh."

"The nine largest star fields form the nine centers of Yuanming Universe, right."

"These nine centers have permanent access to the other nine universes, time and space ports!"

"So, what about the coordinates of these nine centers?"

Su Lang nodded slightly after hearing the words of Emperor Zhou, and immediately asked his own question.

"Do you want the coordinates of the nine largest star regions?"

"Do you want to go to Yuanming Universe, and you will save it when you attack the enemy? Lead Yuanmingzhou Emperor away?"

The Immortal Emperor Zhou was a little surprised, and immediately sneered, "Don't even think about it. Without the power of the Great Avenue of Time, it is impossible to pass through the natural universe!"

"Ha ha."

"It won't bother you to worry about it."

"Soon, you will see the familiar scenery of Yuanming Universe with your own eyes!"

Su Lang hooked the corner of his mouth and said with a slight smile.

"Humph."

"Could it be that you have the treasures of the time and space avenue left by the predecessor of the endless Emperor Zhou?"

Emperor Zhou's eyes flickered, and he was surprised.

"No."

Su Lang smiled and shook his head, "I can walk through the natural universe channel to reach Yuanming universe."

"That's impossible!"

Emperor Zhou said coldly, but his tone was not very firm.

Too many unreasonable things have happened to Su Lang, and it is not enough to describe those things with the word miracle!

Therefore, the immortal Emperor Zhou was a little shaken.

at this time.

"One more question for you."

"Since Emperor Yuanmingzhou built a time and space port to the other nine natural universes."

"So, why didn't he build a space-time port leading to the boundless universe?"

Su Lang asked curiously.

It stands to reason.

From the perspective of Emperor Yuanmingzhou, the boundless universe must have fallen into his hands four billion years ago.

Why not take the time to build a space-time harbor so that your subordinates can come over at any time and clean up the boundless universe?

"I don't know much about this."

"I and him...too little contact."

Emperor Zhou shook his head and said hesitantly, "Perhaps, he has any scruples about the boundless universe?"

"Cause?"

Su Lang raised his eyebrows, and there was a stronger doubt in his eyes.

The boundless universe is just a dilapidated natural universe, what is Emperor Yuanmingzhou still caring about! ?

"I just guessed it casually."

Indestructible Emperor Zhou sneered, "If you want to know the real answer, you can ask Yuanming Universe yourself."

"Ha ha."

"I will find him."

"Now, let's talk about Yuanming universe and the strength and characteristics of the nine natural universes!"

Su Lang looked at the immortal Emperor Zhou with a touch of determination in his eyes.

One day, he will face Emperor Yuanmingzhou!

"Okay."

"Then I will tell you about it."

"Yuanming Universe's half-step eternal command, in fact, anyone who can move at will is killed by you."

"The remaining thirty or so are guarding nine central planets and nine natural universes."

"If you can really get into the Yuanming universe, those people are not a threat to you."

"However, you have to know that Emperor Yuan Mingzhou is not alone!"

"Although I have very little contact with Emperor Yuanmingzhou, I gradually learned some clues that he is connected to some unknown eternal realms."

Emperor Immortal Zhou said blankly, "So, if you go, you may not only face Emperor Yuanmingzhou's subordinates, but you may even stabbed a bigger hornet's nest."

[Chapter 2269: Su Lang, your hope is slim](#)

This statement came out.

Su Lang raised his eyebrows immediately.

Emperor Yuanmingzhou is connected with more eternal realms!

In other words, forming a gang! ?

Such a tall existence in the Eternal Realm is also forming cliques?

However, Su Lang was relieved very quickly. Where there are people, there are rivers and lakes. They are also humans in the eternal realm. They are just too powerful and not as strong as humans, but a human-shaped universe!

"I understand."

"But I will not give up Yuanming Universe."

"What about more eternal states? Once I break through to the eternal state, hehe!"

A faint smile was drawn at the corner of Su Lang's mouth, revealing a strong confidence.

"Break through to the eternal state?"

"So what, the eternal realm is also divided into strong and weak!"

"I just broke through to the Eternal Realm. Compared with the senior Eternal Realm, the gap is very big!"

Immortal Emperor Zhou looked at the tall Infinity and shook his head slowly.

"Then tell me, how does the eternal state cultivate?"

Su Lang smiled disapprovingly, and asked, "Why does the eternal realm use 'Zhou' as a sign of realm division?"

"Not sure."

"The things of the eternal state are only known when the eternal state is reached."

"But I know that the cultivation of the eternal realm is related to the origin of the universe and the core origin of the universe."

"They also involve a secret technique called "Chaos Refining Anti-True Dao"."

"Mi Ling knows this exercise. Of course, it is unclear whether he has recorded the exercises in his mind."

Emperor Zhou said so, "I have said so much, is it enough?"

"Enough for the time being."

"If it is not enough, I will come to you again!"

Su Lang smiled, and immediately waved his hand, and the light from the Seven Treasure Trees suddenly fell, covering the Immortal Emperor Zhou.

The next moment.

The Bayan Taichu weapons and the treasures in the hands of Emperor Zhou were swept away by the Qibao Miaoshu.

"Humph!"

Emperor Zhou coldly snorted and closed his eyes.

Su Lang glanced at Emperor Immortal Zhou, and immediately left the inner space of the Zijin Gourd under the Infinity.

"Su Lang..."

"You have no hope!"

Emperor Zhou's eyes trembled lightly, and immediately turned into a sculpture, without moving a bit.

The other side.

Su Lang drove the Infinity to return to the place of exile, and the aura around him suddenly swarmed in, making him extremely comfortable.

Next.

Su Lang's gaze fell on the captured weapons.

"system!"

"Start the one-click decomposition function!"

Su Lang locked onto a powerful weapon and treasure of the primordial era with his spiritual thoughts, and directly issued instructions to disassemble it.

The next moment.

"what!!"

"no, do not want!"

"Great existence, I am willing to surrender to you!"

"Please, don't kill me!"

"..."

Dozens and hundreds of too low-level weapons screamed bitterly, but they could not escape the destiny of being decomposed, and they were all restored into countless materials.

The soul of the primordial beginning emerged.

That is the soul of the strong man in the early days that was conceived in the countless years of the natural universe.

Pieces of heaven, material and earth treasures piled up into the mainland.

It is a rare treasure from various natural universes, extremely strange!

of course.

Su Lang has a treasure recognition function and can see the detailed information of any natural treasure at a glance.

"Tsk tut!"

"Counting down, a total of 87 pieces of too low-level weapons have been broken down!"

"The Jiuyan primordial weapon had thirty-seven handles, and the rest were small gadgets of the eightyan, the Qiyan and below.

"Look at the Soul of the Beginning...Well, there are nine hundred and seventy thousand!"

"It's amazing. I don't know how long it took those nine natural universes to have so many souls of the beginning."

Su Lang exclaimed, with emotion.

In a natural universe, the extremely powerful and rare primordial powerhouse is counted in units of 10,000!

perhaps.

This is the vision of the eternal realm?

Even those who are too junior are ants. They are just a little bigger, with a smaller number, and many of them can appear over time.

[Chapter 2270: Youtian Sword evolution half-step eternal](#)

At this time.

Su Lang looked at the decomposed treasures.

These treasures of heaven, material and earth from various universes are very numerous in variety and quantity!

With these materials.

The raw materials for strengthening weapons are definitely enough!

just.

The evolution function can only reach half-step eternity, and cannot be used.

Because the limit of the one-key mixer function is too basic!

As a subsidiary function of the one-key mixer function, the limit of the weapon evolution function is naturally also the original level.

Half-step eternity is too elementary limit.

Further up is the real eternal state!

As for a weapon that is too elementary, its spirit has turned into a real creature with flesh and blood. If you want to be promoted to the eternal realm, you must master the Great Way of Time!

and.

The attributes of weapons are generally very single, and their weapon spirits are not like the warriors of the Primordial Realm. They control the perfect universe except the Dao of Time.

As a result, even if the too elementary weapon is promoted to the eternal realm, it is also a weak stroke in this great realm.

It can only be regarded as a kind of incomplete eternal state that is more advanced than half-step eternity, and masters the path of time.

Because the Eternal Realm is a perfect 'humanoid universe'!

of course.

It's not that there is no way to change this...

at this time.

Su Lang looked at the various high-level heavenly materials and earth treasures piled up into continents, and a flash of excitement flashed in his eyes.

Although his weapon is temporarily unable to be promoted to the eternal state, it is possible to be promoted to the half-step eternal state!

"system!"

"Start the enhanced reset function, target Youtian Sword!"

"Start the weapon evolution function, target Youtian Sword!"

With a thought, Su Lang gave instructions to the system!

In an instant.

The system prompt sounds.

"Ding! Consume the Soul of the Beginning*100000, and the Elementary Material Yuhengyu Heart Star*266884...The Youtian Sword has evolved into a half-step eternal primordial weapon!!"

For an instant.

Suddenly countless mysterious powers merged into the Youtian Sword, and its power skyrocketed!

But this is not over yet.

Su Lang did not stop.

"system!"

"Start the one-click enhancement function, target Youtian Sword!"

Su Lang took a deep breath and gave instructions again.

Suddenly, countless materials continued to disappear out of thin air, turning into mysterious power into the Youtian Sword that had just evolved.

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthened successfully, Youtian Sword +1!"

This time, the system reminded me three times, and the Youtian Sword has also evolved three times on the basis of half-step eternity!

An extremely terrifying breath radiated from the top of the Youtian Sword.

Even Su Lang felt deep palpitations for it.

Fortunately, he immediately suppressed the breath of Youtian Sword.

Otherwise, this breath will be able to spread throughout the entire exile, causing countless warriors to become confused in panic!

"Master, I'm stronger again!!"

Youtian sword tool Ling Xiaoyou came out of her body, staring at her body dumbfounded, that powerful force gave her a deep sense of dreams!

Compared with before.

She is so powerful now!

"Hahaha, are you satisfied?"

"Such power is absolutely invincible under the eternal realm!"

"Even those who have spent countless years in the half-step eternal state are definitely not as good as you!"

Su Lang held the body of the Youtian Sword, and stroked the white jade sword with his palm, very gentle.

"Satisfied, of course satisfied!"

"The master is so kind to me!"

"I must help the master hack to death Emperor Mingzhou!"

Xiaoyou said with great excitement, almost wishing to cut the Origin Emperor Mingzhou immediately.

"Haha."

"Wait a little longer, now it must be steady."

Su Lang smiled blankly, "Okay, tie up my hair."

"Yes, dear master!"

Youtianjian nodded excitedly, before turning Su Lang's hair into a bun, and turning it into a hairpin to fix it.

At this time.

Su Lang took out a second weapon, the Tianjia eight-sided shield.

"the host!!"

Qi Ling Ajia emerged from his body and knelt in front of Su Lang very enthusiastically.

The Heavenly Eight-Edged Shield, its level is the same as the previous Youtian Sword, and the Jiuyan Prime Beginning Stage has been strengthened twice.
