### [Chapter 2271: Half-step eternal ceiling](#)

"Be prepared."

Su Lang smiled slightly, Xuan even started the process of upgrading Youtian Sword.

First, strengthen the reset.

Then evolve, and finally strengthen again.

After some operations.

Tianjia's eight-sided shield has also become a half-step eternal realm treasure that has been strengthened three times, and its defensive power can hardly be broken except for the eternal realm!

"Ajia, thank you Master for his kindness!"

Qi Ling Ajia knelt at Su Lang's feet, almost losing himself with enthusiasm.

"No gift, get up."

Su Lang nodded slightly, turning the octagonal shield into a pattern on his clothes.

Immediately after.

Su Lang took out the boundless ship again.

"Everyone."

"All come out!"

With a thought, Su Lang retracted the Baiying avatar in the Infinity, and gave orders to everyone in the Infinity.

"Yes! Your Majesty Su Lang!"

Everyone took their orders one after another, and then left the Infinity and came to the land of exile.

Back to the practice dojo with a million times the energy concentration of the world.

Everyone couldn't help but show a smooth and intoxicated color.

Even though they have been cultivating here for a while, they still feel extremely shocked when they come back here.

among them.

The most shocking thing is no more than the first time to bite the evil here.

"hiss!!"

"One hundred thousand times the time flow rate, one million times the energy of heaven and earth!"

"His Majesty Su Lang's methods are really terrifying. This is the place to make powerhouses in batches!"

"..."

Biting Evil felt the incomparable energy of the world around him, and its huge eyes widened in shock.

Although he relied on the incense and willingness to improve himself, he also needed the energy of heaven and earth.

And he has the means to transform the energy of heaven and earth into incense and aspiration. Of course, the efficiency is not so high...

at this time.

Everyone noticed Su Lang's movements again.

But seeing Su Lang wave his hand, the breath of the Boundless Ship suddenly decreased crazily, and in a blink of an eye he fell into the Jiuyan Prime Stage.

"Your Majesty Su Lang, this is...!"

Ji Xie was puzzled by this, because he had never seen Su Lang promoted to the Boundless.

but.

As soon as the question was asked, he noticed the excited expressions on the faces of the people around him.

Suddenly.

Jixie understands that this must be a good thing, not a bad thing!

really!

Next.

In the gaze of Evil Devouring Eyes, the breath of Infinity began to rise again, reaching a half-step eternal state in a blink of an eye.

and!

The breath of Boundless is still increasing crazily.

When the aura stopped growing, the regular power of Infinity reached the level that everyone had settled in before.

—A thousand times higher than the half-step eternal realm!

But this is not over yet!

After a short pause.

The breath of the Boundless has begun to surge again!

In the end, he reached a level far surpassing the half-step eternal state tens of thousands of times!

"Wuyin has become stronger again!"

"Hahaha, this breath has almost surpassed the level we were in before!"

"Great, we are one step closer to destroying Emperor Mingzhou!"

"Vengeance, revenge! We want to follow your Majesty Su Lang, revenge!"

"..."

Everyone didn't know how the Infinity became stronger, but this did not prevent them from being excited about it!

"This power is invincible under the eternal realm again!"

"All the parts have evolved to the realm of Siyan Taichu, plus a full eleven enhancements..."

Su Lang was also a little excited, but more helpless.

Even if the Infinity had been upgraded to this level, it would still be unable to break through to the eternal state.

It has been suppressed by the ceiling and can only grow horizontally to increase its volume, but cannot perform power sublimation.

"The main reason is the lack of time."

"If you can instill the avenue of time for him, he will definitely be promoted to the eternal level!"

"Even if it is only incomplete, I have a way to gradually make up for it and make it stronger and stronger!"

"Huh, cultivation base, quick accumulation!"

There was a hint of expectation and eagerness in Su Lang's eyes.

Soon.

He took a deep breath.

Then he took out three very basic weapons.

They are Luoyou Mirror, Lunar Mother's Nest and Bright Sword.

The offensive and defensive is almost the same as Wuyin, Youtian Sword and Tianjiao Eight-Edged Shield.

And the auxiliary aspect.

You need to produce the Moon-Constructing Mother's Nest, Luoyou Mirror, and the Restorative Light Sword!

[Chapter 2272: Three more weapons](#)

Youtian Sword, Infinite Number and Tianjiao Eight-Edged Shield have risen to such a terrifying level.

Nature needs more majestic energy to support operation!

Although Su Lang had a huge amount of too primary pill to take, it was a consumable after all.

A restoration treasure that can be used permanently is a must.

therefore.

Su Lang would choose to upgrade the Bright Sword.

And promotion to build the Moon Mother Nest is naturally to create more intelligent creatures and cultivation civilization.

nowadays.

Su Lang's Crystal Wall worlds are numerous, and they will be promoted to Crystal Wall Universe in the future, so naturally they cannot be left empty.

Therefore, it is necessary to construct the mother's nest!

As for Luo Youjing.

Acting for Su Lang to reincarnate in the body.

Dealing with countless souls all the time, indirectly raising the level of the world in Su Lang's body and increasing the power of humanity!

at this time.

Luo Youjing, Bright Sword, and Moon-Constructing Brood are all relatively low-level. They have been strengthened nine times on the current basis, and they are only in the Five Beginning Stage.

"How about such a low level?"

Su Lang smiled slightly, and immediately began the operation of strengthening reset, evolution, and strengthening.

quickly!

The Bright Sword, Luoyou Mirror, and the Mother Nest of the Moon were all evolved by Su Lang to the state of Jiuyan Taichu.

And on this basis, it has been strengthened three times, reaching a level that is stronger than the half-step eternal level.

Suddenly.

The recovery ability of the Bright Sword has directly reached the point of incomparable horror, and it can even bring back a powerful person who has just died! !

And the mother's nest of the moon has become stronger.

Not only has the number and quality of spores increased wildly, but it has even mastered the real time acceleration method for spores!

Before, it could only accelerate the spore creatures physically, which is an ability to increase the speed of cell metabolism and the speed of thinking.

At this time there is a certain time acceleration means.

The spores produced by the mother's nest can develop at tens of millions, or even hundreds of millions of times, the speed of normal human development!

Almost a breathing room.

A simple civilization of intelligent creatures can be born, and with a little more time, these civilizations can become mature!

then.

The humane power born of these civilizations will be attributed to the virtual spirit universe!

After Luo Youjing was promoted.

The transformed world of reincarnation is more real and majestic, and the ability to collect the souls of the world in Su Lang's body is also greatly increased!

Hardly any soul that can be pulled into reincarnation will be missed!

Except besides.

There are other magical functions, such as cultivating dead souls.

at this time.

The promotion of the three weapons is completed.

"Xiaoluo thanked Master!"

"Yue'e, thank you Master!"

"Assafir thank you Master!"

Three Qi Ling immediately grateful to Su Lang.

"How can you treat you badly if you do things for me."

Su Lang smiled slightly, then waved his hand, "Now that you are promoted to this level, you should change your name."

Talking.

In the eyes of the three spirits extremely expectant.

Su Lang gave three new weapons with different names.

They are the mirror of reincarnation, the sword of life, and the nest of creatures!

"Go!"

After the three weapons once again thanked him, Su Lang waved him back.

In an instant.

The three weapons returned to their respective positions.

The Mirror of Reincarnation enters Su Lang's Dantian universe and controls the universe of ten directions, the reincarnation of countless creatures in the crystal wall world.

The Nest of Living Beings enters the Tai Sui universe, continuously producing spores, throwing out the heavens and worlds in Su Lang's body.

The sword of life turned into a pattern on Su Lang's other sleeve, which could restore Su Lang's strength and heal his injuries at any time!

So far.

This aspect of weapons is handled.

Su Lang's gaze fell on the newly obtained Gongfa classics.

He has roughly processed those exercises, and at this time he is looking for the "Chaos Refining Anti-True Dao" in the mouth of the immortal Emperor Zhou!

Unfortunately.

Carefully searched for many Mi Ling bald donkeys, but did not find this exercise.

Unwilling to reconcile, Su Lang searched for the other twenty-four half-step eternal realm powerhouses' various classics, but did not find this technique.

"Looking at the source, Emperor Mingzhou doesn't allow them to burn this technique."

"In that case, I can only go to Yuanming Universe to try my luck. If you haven't, you can only talk about it after the Emperor Yuanming Universe."

Su Lang thought so, and soon took out the body fragments and life universe of twenty-four half-step Eternal Realm powerhouses.

Not bad.

He wants to transfer the life universe and crystal wall world that the half-step eternal powerhouses have operated for countless years!

[Chapter 2273: Twenty-Four Super Giant Life Universe](#)

"Appear!"

Su Lang flicked his right hand in front of him.

Suddenly, bright spherical life universes emerged, a total of twenty-four!

These ones.

All are artificial life universes that have been managed by half-step eternal powers for countless years.

And these people were killed by Su Lang with a single sword.

There is no long-term fierce battle.

Therefore, the world inside them is relatively well preserved.

Only a few half-step eternal use of explosive mystery is too cruel, causing most of the lives in the universe to die tragically!

In these half-step eternal life universe.

Su Lang discovered that their insides were a little different from the life universe of the boundless universe warrior.

The life universe of the boundless universe warrior is roughly a huge planet.

And the half-step eternity of these Yuanming universe, its life universe will be a galaxy!

These galaxies are very large, with many small planets.

"It's a bit strange."

"This approach can probably reduce the difficulty of creating a universe of life?"

Su Lang thought so and continued to observe these life universes.

As a result, he was surprised to find hundreds of powerful men from the beginning!

Count carefully.

There are a full 531!

Among them, there are many masters of Qiyang, Bayan, and even Nine Yan.

"These were those half-step eternal subordinates from the beginning!"

"Twenty-four statues are eternal in half a step, each with more than 20 subordinates too!"

"Hey, now these too junior warriors are mine!"

The corner of Su Lang's mouth twitched, revealing a bright smile!

Immediately after.

"Clone dispatch!"

With a thought of Su Lang, he sent an avatar into these life universes.

Soon.

One by one incredibly powerful clones unfolded the Mingguang Myriad Realms, and began to illuminate the countless creatures in the universe of life!

The clone at this time was almost the same as Su Lang, and it could be easily crushed by ordinary people who were too junior.

Not to mention.

In a living universe, there are often six or seven clones simultaneously opening up the Mingguang Ten Thousand Realms.

And the level of Mingguang Ten Thousand Realms has been raised to the highest level of being too elementary by the top function of the exercise technique!

therefore.

One life in the universe.

No matter how strong the existence is, it will be transformed into Su Lang's own person by Mingguang Wanjiedu in a short time.

Instant time!

Twenty-four life universes, more than five hundred senior primaries, and countless creatures have become Su Lang's subordinates.

have to say.

It is really terrifying that this technique of Mingguang Ten Thousand Realms has been raised to its current level!

"Next."

"Just put it in the body!"

Su Lang looked at the twenty-four giant life universes in front of him, and immediately began to move into the Universe.

This approach.

He also used it when he accepted Mi Ling's life universe before.

Under the profound meaning of Yuhua unity.

Suddenly.

In the 24 parts of Su Lang's body, countless crystal wall cells began to fuse with each other.

In a blink of an eye.

Twenty-four extremely large crystal wall cells appeared!

Next.

Su Lang put the twenty-four half-step eternal life universe into it.

The barriers of the twenty-four life universes and the barriers of the crystal wall cells merged with each other and gradually merged into one, completely becoming Su Lang's internal world.

Suddenly obtained a full twenty-four half-step eternal life universe.

Whether it was the power of the world or the power of humanity, Su Lang felt a great improvement.  
Especially the power of humanity.

How many creatures exist in the twenty-four half-step eternal life universe!

These living enzymes produce countless incense aspirations every minute, and then they are all absorbed by Su Lang's Ethereal Universe!

In a short time.

In the imaginary universe, the three imaginary dragon vein heavens, a large number of special aspiration crystals have been produced.

One hundred thousand!

million!

Even tens of millions!

"hiss!"

"So much incense is willing to crystallize!"

"I don't know if weapons go with incense, can they bypass the Avenue of Time and enter the realm of eternity?"

"Perhaps it is possible! I will save some more hope to crystallize and try it later!"

A look of expectation flashed in Su Lang's eyes.

Immediately after.

He brought the body fragments of twenty-four half-step eternal strong men in front of him, and began to transfer the crystal wall world among them.

[Chapter 2274: The gate of the natural universe is refined](#)

Because these twenty-four people are not the existence of incense.

So instead of building the Crystal Wall world like Mi Ling went crazy, and pushed the number to a full one trillion!

The crystal wall world of these twenty-four people is basically in the billions.

Add up to hundreds of billions.

The key point is that the quality of these crystal wall worlds is much better than the quality of the Mi Ling Buddha crystal wall world.

Every crystal wall world is more complete, and the living creatures are stronger.

at this time.

Su Lang detected all the half-step eternal body fragments, and began to transfer the crystal wall world.

First dig out the world in each crystal wall cell, and then throw it into your own crystal wall world.

He was already familiar with this kind of thing, and quickly completed the transfer of all crystal wall worlds.

At last.

He has a hundred billion more crystal wall world with creatures.

The incense willingness gained has skyrocketed again!

Suddenly, a huge amount of special aspirations condenses!

but.

Su Lang didn't care about it for the time being, but planned to store more willpower crystals to use together.

Next.

His eyes fell on those alchemy classics and heavenly materials!

Killed twenty-four half-step eternity.

There are so many alchemy materials that Su Lang has obtained, and I don't know how many pills he can refine!

"Look at the alchemy classics in Yuanming Universe first, and learn."

Without immediately refining alchemy, Su Lang took out a large number of alchemy classics from Yuanming Universe to read.

quickly.

Countless alchemy knowledge was absorbed and digested by him and turned into his alchemy attainments.

The alchemy of Yuanming Universe is indeed a little different from the alchemy of Infinite Universe.

Su Lang has gained many benefits, making his alchemy vision wider.

"system!"

"Start one-key alchemy function!"

After Su Lang finished reading the classics, he immediately began to refine alchemy.

Suddenly.

System prompts appeared one after another.

Every system reminder means that Su Lang has received five perfect quality pills!

Immediately after.

Su Lang began to use these pills to synthesize more advanced pills.

It didn't stop until those pills became too primary pills, even half-step eternal realm pills!

"So many elixirs can just help me!"

Su Lang clicked the corner of his mouth and directly took out a huge amount of the perfect Taichu pill and started taking it!

One pill, two pills...

The extremely majestic medicinal power spreads in the body, and is transformed into a cultivation base by the system's function, and is stored in the body of the cultivation villain.

I saw the speed at which the cultivator turned golden, and it immediately accelerated a lot!  
at this time.

The one-key mixer villain finished his work

——All the parts of the 'Gate of the Natural Universe' have been refined!

"Emperor Yuan Mingzhou may appear at any time."

"If you want to do something, you must be as early as possible, otherwise it will be too late!"

Su Lang's eyes flashed, and the clone was dispatched instantly.

Because opening the space-time channel of the natural universe will inevitably produce huge movements.

Therefore, he did not intend to open up the space-time channel on the Heavenly Misty Continent.

Instead, choose a very remote place!

The next moment.

This avatar of Su Lang appeared in a void far away from Canglan Star.

There is a planet in this void named Feixue Star!

At first, in order to find Yuanli Baoyu.

Su Lang dispatched his clone to move towards the extreme east of the Xinghai Great Region, and found Feixuexing on the way.

I also saw a quasi-no-god-class in the world of Hedao.

at this time.

Not far in front of Su Lang's avatar, is the ice-blue Flying Snow Star!

Xinghai Dayu came to its original position because of the attack of Tongtian Temple.

But because Feixuexing was too remote, he actually stayed here, and it happened to be a coordinate for Su Lang to dispatch the clone.

"The left and right are also a life planet, so just accept it."

With a thought, Su Lang ordered the clone to take the Flying Snow Star into his body.

Immediately after.

He made the clone continue to move far away.

It wasn't until countless light years had passed without encountering a planet, even if it was a Death Star, that Su Lang stopped the clone.

#### [Chapter 2275: Activate the treasure hunting ancestral flying function](#)

"Start the clone replacement function!"

When Su Lang moved in his heart, he directly exchanged positions with the clone.

Suddenly.

He left the place of exile and appeared in the extremely remote and lonely void.

Here, it is almost the farthest place from the Tianmen Continent and the Tianxuan Continent.

"Just here!"

Su Lang looked around the empty void, waved his hand to arrange the elements of the gate of the natural universe!

Countless array components have been arranged.

A huge sphere was formed immediately!

The surface of the sphere is composed of countless array parts.

They are connected to each other to form a whole, and the size is larger than ordinary planets!

This is the gate of natural universe refined by Su Lang!

at this time.

Su Lang waved his hand again, instantly throwing out countless superior emperor sources, blending into those formation parts.

The entire gate of the natural universe received sufficient energy, and a faint light suddenly lit up.

The light gradually became brighter and brighter, and finally condensed a strange pattern, like countless shiny silk threads.

But in fact.

These are the rays of light distorted by time and space!

Has not officially opened yet.

This is the vision.

It is enough to see how terrifying the natural universe gate refined by Su Lang is!  
at this time.

"The door of the natural universe, open!"

Su Lang's eyes condensed, and countless strength poured into the formation!

It contains a perfect space avenue.

boom! !

An extremely terrifying spatial fluctuation exploded, forming a vast ripple, dispersing in all directions!

In a flash.

This ripple spread over tens of millions of light years, and even continues to spread!

If this is done on the Heavenly Misty Continent, the custody will be sensed by the Emperor Mingzhou of the Heavenly Jade Continent.

Maybe that guy would run out to stop Su Lang.

after all.

Su Lang's goal is his lair!

at this time.

After the first terrifying space ripples swayed.

The second, third...Continuous spatial ripples continue to appear, like a tsunami, and become denser!

After a dozen breaths.

The spatial ripples are completely connected.

And at the inner center of the entire planet-shaped political arena, a small black spot appeared!

The immense power of time and space burst out.

The whole formation trembled fiercely! !

Fortunately, Su Lang had already considered the existence of time when refining the formation.

Therefore, he added a huge amount of time rules to the battlefield.

The turbulent flow of the time avenue of the universe channel gathers inside the channel, and only a very small amount of power escapes.

and so.

Su Lang's natural universe channel array has been preserved and continues to operate!

Next.

The black spot in the middle of the battlefield gradually expanded.

The light emitted from the array turned into an arc, surrounding the black hole, forming a strange picture scroll.

quickly.

The black light spot in the altar became a huge hole, and it remained the same without changing.

"The passage has stabilized."

"A place full of turbulence on the Avenue of Time!"

Su Lang looked solemn, took a deep breath, and soon summoned all the treasure hunt flying flying gliders!

A full three trillion flying flying flying flying gliders appeared around Su Lang, densely packed, like endless cosmic dust!

"system!"

"Start the treasure hunt ancestral flying function!"

With a thought, Su Lang issued instructions to the system.

Instant time!

A total of three quadrillion treasure-hunting flying flying gliders suddenly merged together, forming a treasure hunting flying flying flying flying that has been completely dark and has three golden patterns on its back!

A weird breath radiated from this treasure hunting ancestral glider.

If the rest of you see it, you will definitely get terrified and palpitations.

But in Su Lang's view, the treasure hunting ancestral glider is full of intimacy!

"Hey!"

"The treasure hunting ancestral glider of the eternal realm!"

"An existence that can't be killed even in the Eternal Realm!"

"Its speed has reached the realm of a universe of eternity! The general half-step eternity is afraid that even the shadow is hard to find!"

An excited smile appeared at the corner of Su Lang's mouth, "Go, give me the door to the natural universe!"

[Chapter 2276: Then you see what this is](#)

Following the order of Su Lang.

The treasure hunting ancestral glider flew into the gate of the natural universe instantly.

Its speed was so fast that Su Lang could not see clearly.

Had it not been for him and the treasure hunting ancestral glider, he had an extraordinary connection.

It is almost impossible to find a big mouse flying in front of him!

The other side.

The treasure hunting ancestral glider entered the gate of the natural universe, and indeed passed through the terrifying turbulence of the time avenue, and continued to advance in the time and space tunnel.

Su Lang shared the perception of treasure hunting ancestral flying.

I just felt like a moment passed in the time tunnel, and it seemed like a long time passed.

The next moment!

A purple-red nebula appeared in front of him!

"Arrived!"

"Yuanming Universe!"

"Hahaha, Emperor Yuanmingzhou, I didn't expect it, this uncle is going to steal your home!"

Su Lang laughed, with a touch of excitement in his eyes.

Immediately after.

Through the perception of the flying flying flying treasure hunting.

Su Lang carefully observed the surrounding environment and found that except for the purple-red nebula, the rest of the place was a dead void.

"I don't know if I can use the avatar dispatch function."

Su Lang narrowed his eyes, "Before I master the rules of time, the clone cannot travel through the turbulent flow of time. At this time, it may be difficult to cross the turbulent flow of time."

Next.

Su Lang tried to dispatch the clone.

It turns out that it really doesn't work.

The avatar cannot cross the turbulence of Time Avenue!

"It seems that you can only use the treasure hunting ancestral glider to do things!"

With a thought, Su Lang dispatched the treasure hunting ancestral glider, "Go! See where that nebula is!"

"Squeak!"

The treasure hunting ancestral glider made a shrill cry and instantly disappeared from the spot.

When it appeared again, it had already entered the purple-red nebula!

original.

This purple nebula is a star field!

There are a large number of stars and more planets in the star field, forming a constellation galaxy!

In these galaxies.

Some actually existed.

Unfortunately.

This is like a very remote star field.

Those galaxies where life exists, the cultivation civilization is relatively backward.

"Relative to the entire Yuanming Universe, this is probably a small village, right?"

"Even, there are very few star teleportation arrays in the galaxies here."

"Well, this can't work, this kind of remote and poor place is not my goal!"

Su Lang thought so, slowly shook his head, and immediately moved his mind, taking out the purple golden gourd!

When I talked with the Emperor Zhou before, I was busy with other things before I got the coordinates of the nine time-space ports.

Ask now!

"Stop struggling?"

Su Lang looked at the still purple gourd in his hand and smiled coldly.

Since the previous conversation ended.

The immortal Emperor Ru Yanying never struggled anymore.

She chose to yield, and Su Lang was a grasshopper on the same rope.

But in her heart she didn't believe that Su Lang could defeat Emperor Yuan Mingzhou, and she was in a very contradictory state.

"Where are the nine time and space ports in Yuanming Universe?"

With a flash of Su Lang's figure, he entered the inner space of Zijin Gourd.

"Are you here again?"

Immortal Emperor Zhou looked at Su Lang with a smile on his face, suddenly his face was surprised.

Didn't Su Lang just ask her a lot of questions and then left?

Why did you run in again in a blink of an eye?

"Yes."

"I'm back again!"

"Indestructible Emperor Zhou, I have entered the Yuanming universe!"

Su Lang looked at the immortal Emperor Zhou who was bound by chains and smiled lightly.

However this sentence.

It fell into the ears of the Immortal Emperor Zhou, but it was like a thunderstorm.

"what!?"

"what did you say!?"

"You have entered the Yuanming universe? Haha, how is this possible!!"

"Only by mastering the power of the Time Avenue can you enter the Yuanming universe. You have not broken through to the eternal state at all. How can you pass through the natural universe channel?"

"Su Lang, your lie is too ridiculous, huh!"

Emperor Zhou looked at Su Lang in disbelief, and immediately showed sarcasm.

"Ha ha."

"Do not believe?"

"Then look what this is!?"

Su Lang clicked the corner of his mouth and waved his right hand lightly, and the Zijin Gourd suddenly punched a crack, revealing the door of the natural universe outside.

[Chapter 2277: Let you know](#)

But I saw the endless darkness of darkness.

The huge gate of the natural universe stands, like a strange planet.

"This is... the formation!?"

"You have refined so many space-time channel formations!"

"These formations... have a familiar feeling, as if they are somewhat similar to those refined by Emperor Yuanmingzhou!?"

"No, these formations do not have the power of time and avenues, and the rest are more refined and perfect than those refined by Emperor Zhiyuan Mingzhou!!"

"Could it be that when you watched me on the Heavenly Jade Continent, you learned the refining methods of those formations by the way?"

"This, how is this possible, how can you learn in such a short time, how can you refine such a perfect formation?"

"What's more, each of these formations is extremely complex and extremely difficult to refine!"

"Even for the existence of the Eternal Realm, it takes ten thousand years to refine so many time-space channel formations!!"

"How long has it passed since you were in the Tianxuan Continent? It's not even a few hours!!"

"You can't refine these formations in such a short time!"

"..."

Emperor Zhou looked at Su Lang like an ordinary person saw a ghost. He was dumbfounded, dumbfounded, and his face was full of disbelief.

"But I made these formations!"

"By the way, there are also this chain, this gourd, that endless number, the Youtian sword...I made it by myself!"

The corner of Su Lang's mouth twitched, revealing a slight smile.

"what!"

"Your refining skills are so terrifying!?"

"No, it's impossible, you're just a half-step eternity, and you still don't know how to force promotion in a short time."

"You can't have such a powerful refining method!"

"This is unmatched by Emperor Yuan Mingzhou!"

"..."

The Immortal Emperor Zhou shook her head in disbelief, but she couldn't think of other possibilities ——If these weapons such as the formation and the Infinity were not made by Su Lang, where did they come from? Unexpectedly the possible origin!

Only the hands of Su Lang are the most reliable...

Thought of this.

Emperor Zhou immediately felt a strong sense of absurdity.

Immediately after.

"Su Lang, you don't have the power of time avenue at all in your formation!"

"How can you cross the channel and enter the Yuanming universe?"

The Immortal Emperor Zhou suddenly changed his expression and exclaimed, "Sure enough, you are still lying, your formation is just like a fake!"

Finished talking.

Emperor Zhou shook his head in disdain.

"Tsk tut."

"It's really long and short."

"In that case, I will let you see and see today."

Su Lang ticked the corner of his mouth and waved his hand to visualize the shared treasure hunting ancestral flying vision.

Suddenly.

A miniature purple-red nebula appeared in front of the immortal Emperor Zhou.

"what is this?"

"A tiny nebula?"

Emperor Zhou looked suspiciously at the nebula that Su Lang transformed into.

"Not bad."

Su Lang nodded slightly, "This is the nebula of Yuanming Universe. I have just been there just now. Have you seen it?"

"whispering sound!"

"How could I have seen so many nebulae in Yuanming Universe."

"In my opinion, you just turned into a nebula casually!"

Indestructible Emperor Zhou sneered, but he was a little surprised, because the nebula that Su Lang transformed into did have the characteristics of the Nebula Universe!

But from the bottom of her heart, she didn't believe that Su Lang could enter the Yuanming universe, so she instinctively denied the nebula.

"Is it?"

"Then you give me the coordinates of the nine major time and space ports, and I will go and see."

"Then, I will show you what I saw!"

Su Lang clicked the corner of his mouth, "By the way, I can also show you how I harmed Yuanming Universe, hahahaha!"

Finished talking.

Su Lang stared at the Immortal Emperor Zhou, as if quickly gave me coordinates.

"Humph!"

"What about you."

"I want to see if you have actually entered the Yuanming universe!"

The Immortal Emperor Zhou gave a cold snort, and then directly gave nine coordinates and some reference objects.

Su Lang remembered the coordinates and references given by Emperor Immortal Emperor in his heart.

Immediately dispatched the treasure hunting ancestral glider, searched for relevant documents everywhere in the purple nebula to find the location of the current nebula.

Fortunately, everything went well.

The treasure hunting ancestor glider quickly grabbed some documents from the masters of a planet, recording the current position of the nebula.

#### [Chapter 2278:](#)

According to this clue, and the information given by the immortal Emperor Zhou.

Su Lang quickly determined the approximate locations of the nine space-time ports!

Immediately after.

"Go, go to the nearest space-time port first!"

Su Lang hooked the corner of his mouth, and then dispatched the treasure hunting ancestral flying!

Suddenly!

Treasure Hunt Flying Flying Drifters have started dispatching again and again!

Even if it does not have strong enough divine consciousness, the dispatch distance is still very far!

Every dispatch.

Su Lang's shared vision will change!

And this scene after scene.

Has been transformed by Su Lang in real time and presented to the immortal Emperor Zhou!

Looking at the constantly changing picture.

Emperor Zhou couldn't help but feel shocked in his heart, and he was also shaken by his previous judgment!

Time passed slowly.

With a familiar galaxy appearing in Su Lang's disillusioned picture, a stormy sea suddenly rose in the heart of Emperor Zhou!

She has been to that galaxy before!

"It's really a galaxy in Yuanming Universe!"

"Su Lang, you actually entered the Yuanming universe!"

"Although he didn't go in by himself, he could cross the barriers of the natural universe and explore the source universe!"

"This, how is this possible, how did you do it!?"

"..."

Emperor Zhou looked at Su Lang in disbelief, his face was full of shock.

Only by mastering the power of Time Avenue can we shuttle through the barriers of the natural universe.

This is common sense recognized by countless natural universes!

however.

Su Lang clearly did not master the Avenue of Time, but used a certain method to explore the interior of the rest of the natural universe!

This directly subverted the common sense of the immortal Emperor Zhou! !

"Hahaha!"

"Believe it now?"

"I said earlier, I can enter the Yuanming universe!"

"Next, you will see me doing things in Yuanming Universe with your own eyes, hehe!"

Su Lang smiled happily, and while continuing to dispatch the treasure hunt flying flying flying forward, he dispatched a clone to maintain the gate of the natural universe, and used the clone to replace it directly back to the exile.

Time is precious.

Su Lang still prefers to stay in the land of exile!

at this time.

He took the purple gold gourd and appeared on a peak in the Exile Land.

The illusion of Yuanming universe in front of him still exists.

But the screen is like being pressed to slow down, it becomes extremely slow, and it will flicker from time to time!

Because of the external flow of time, it was originally a hundred thousand times slower than the Exile.

And the treasure hunting ancestral glider is in Yuanming universe.

The time flow rate of Yuanming Universe is different from that of Infinite Universe.

This causes the picture to become slower and somewhat unstable.

"It's uncomfortably slow to watch the sight of the treasure hunting ancestor glider here!"

Su Lang shook his head helplessly, but had no choice but to continue to maintain the perception sharing function.

Purple gold gourd.

Emperor Zhou also looked at the slowing down scene, and flashes of horror flashed in his eyes.

She has seen it.

The time flow rate of the place where you are now is countless times faster than the outside world!

and.

The energy concentration of heaven and earth here is extremely high and terrifying.

The energy of heaven and earth is higher than anywhere in Yuanming universe!

"This is a practice dojo with extremely fast time flow!!"

"No wonder Su Lang can cultivate to this level in a very short time."

"No, that's not right, even with such a fast time flow and heaven and earth energy concentration, it is impossible for him to break through so many realms in just a few days!"

"There are other secrets in him!!"

"This man is so mysterious!!"

"..."

In the heart of Emperor Immortal Zhou rises heavy stormy waves. In her eyes, Su Lang's body is almost full of mist!

Immediately after.

She also continued to watch the vision of the treasure hunting ancestor glider transformed by Su Lang.

The picture was so slow that it was heartbreaking and violent, but there was no way to speed it up.

Both Su Lang and Emperor Zhou could only show patience and wait slowly.

Time passed slowly.

Countless heaven and earth energy poured into Su Lang's body, turning into endless cultivation in the sea of cultivation.

quickly.

The cultivator has completely turned golden!

Su Lang ignored him temporarily.

To break into the half-step eternal realm.

Need to condense more powerful time rules.

And the rules of time must be integrated into a living universe and part of the crystal wall cells in the body.

#### [Chapter 2279:](#)

Su Lang is going to wait for a while.

Then a breakthrough!

Time continues to pass.

The treasure hunting ancestral glider keeps moving forward.

The pictures in front of Su Lang and the Immortal Emperor Zhou changed very slowly, just like slow-moving landscape paintings.

An extremely majestic!

Nebulae with very regular shapes appeared in the sight of the treasure hunting ancestral glider.

It also appeared in the picture before Su Lang and the immortal Emperor Zhou.

"It's a time and space port!!"

"Yuanming Time and Space Port, one of the nine time and space ports of Yuanming Universe, is connected to the evil nature and universe!"

Emperor Zhou recognized that nebula for the first time.

Amazingly, it is the Terrible Star Territory, one of the nine star regions of Yuanming Universe, the place where the Terrible Time and Space Harbor is located!

Saw Shikonggang.

The question of Su Lang in the heart of Emperor Zhou completely disappeared, replaced by the horror of the shaking heart!

but.

"Su Lang!"

"You can't enter the Yuanming universe by yourself."

"You are only able to detect Yuanming Universe, and at most you can get some detailed information, how can you cause chaos in Yuanming Universe?"

Emperor Immortal Zhou turned his head and looked at Su Lang, somewhat confused, somewhat disturbed, and somewhat ironically asked.

No matter how Yuanming Universe is her hometown.

Even when she was born, she was one of the masters of Yuanming Universe.

How would you like to see Su Lang making trouble in Yuanming Universe?

"Ha ha."

"I really can't personally enter the Yuanming universe."

"But it doesn't mean I can't make trouble!"

"Look, this time and air port will soon be destroyed by me!"

Su Lang grinned with a cold smile.

Soon.

The scene of the treasure hunting ancestral flying darts constantly approaching the time and space of the fierce world appeared in the picture.

Gradually.

A galaxy outside of the Ferocious Pluto star field appeared beside the treasure hunting ancestor glider.

Because of the powerful means of warriors.

There are more than twenty planets in this galaxy, all of which are living planets!

then.

The treasure hunting ancestral glider landed on a planet, instantly locked some kind of treasure, and flew directly over.

In the picture transformed by Su Lang.

The treasure hunting ancestral glider flies very slowly.

However, comparing the treasure hunting ancestral glider with this galaxy and the creatures in the galaxy, you can find that the entire galaxy and any existence on the planet are almost static!

Only one creature is moving! !

This is the abnormal speed of the Eternal Realm of One Universe!

Immediately after.

Emperor Zhou saw the treasure hunting ancestor flying past the warriors, and all the valuable things on his body were found!

Those warriors all maintained a 'static' state.

Even if the wealth of the whole body, and even the clothes were taken away, I still failed to notice the changes in my body!

Emperor Zhou watched the treasure hunt ancestor glider search all the top people on the planet.

Then he also scoured all the palaces and residences of these people and the places where various cultivation resources were produced!

The scariest thing is.

After doing all this.

The goal of treasure hunting ancestral flying has become the entire planet!

It plunged into the bottom of the planet, shuttled around without any barriers, frantically plundering underground mineral resources.

The treasure hunting ancestral glider is now an eternal existence.

I don't know how terrifying the efficiency of its search for heaven, material and earth treasures is, it can take a whole mountain-like underground vein in an instant!

Inside the planet.

All valuable treasures have been completely searched by the treasure hunting ancestor gliders, and even the core of the planet, the treasures born over millions of years!

When the treasure hunting ancestor glider completed the search, the entire planet became extremely barren, and the energy of heaven and earth declined in an instant, as if entering the age of the end of the law!

In the picture transformed by Su Lang.

Treasure hunting ancestral gliders are very slow, everything seems to be watching slow motion.

But in fact.

Treasure hunting ancestral glider finished all this, it took a breath of time!

After searching the first planet.

It immediately went to the second planet, and in the same way, all the valuable treasures of this planet were searched away!

of course.

Treasure hunting ancestral gliders will not be attached to the galaxies outside these fierce Pluto stars.

It walked all the way, in a straight line, towards the center of the evil star field, and rushed to the evil time and space port!

[Chapter 2280:](#)

Along the way.

The immortal Emperor Zhou watched as the treasure hunting ancestor glider would scrape all the planets along the way!

As you get closer to the center of the evil star field.

The bigger the planet, the stronger the energy of the heavens and the earth, the more the treasures of the heavens and the earth, and the stronger the strong above it.

But no matter what.

No planet, no strong man, in front of the treasure hunting ancestral glider, can not escape the fate of being raided.

This extremely terrifying search ability.

Suddenly the emperor Emperor Zhou was shocked, and he couldn't help but feel angry and aggrieved!

Yuanming universe is where she was born and grew up.

The nine major time and space ports, such as Xiaoming Shikonggang, are places she has lived in for many years, and she is very familiar with it!

Watching that familiar hometown was harmed by Su Lang.

How can the immortal Emperor Zhou not be sad?

"how?"

"Feeling very sad?"

Su Lang turned his head and looked at the immortal Emperor Zhou, with a sneer in his eyes.

"Humph!"

Emperor Zhou hummed coldly and said nothing.

"Ha ha!"

"You are sad!"

"Where are you when the universe is cruel and poisonous?"

"What about the time when the previous Emperor Infinite Universe was killed, countless powerful men were killed, and the Infinite Realm was abruptly broken into four pieces?"

"Now, I just use the way of the person to treat the person."

"That's it, right now, it's just an appetizer!!"

"It's a pity that Emperor Yuanmingzhou failed to witness all this with his own eyes."

"However, with his means, he can definitely keep in touch with Yuanming Universe and learn about Yuanming Universe's suffering!"

Su Lang looked at the immortal Emperor Zhou. Even if this woman surrendered, she could not conceal and erase her crimes against the boundless universe.

"you....."

After listening to Su Lang's words, Emperor Zhou couldn't refute it at all.

at this time.

The treasure hunting ancestor glider successfully entered the center of the evil star field, the evil superstar, the whole process is like entering no man's land! !

"Ferocious superstar!"

"It's really vast, worthy of being one of the nine centers of Yuanming Universe!"

Su Lang looked at the scene in the sight of the treasure hunting ancestor flying, a trace of coldness flashed in his eyes.

Fierce star.

Ten times larger than the half-step eternal life universe planet Mi Ling Buddha! !

Countless creatures live on it.

For the vast majority of creatures, the land of the evil superstar is almost limitless!

And this planet.

It is also one of the nine most prosperous planets in the Yuanming universe!

"Hey!"

"Soon, this place will become a piece of white ground!!!"

Su Lang ticked the corner of his mouth and ordered the treasure hunting ancestral glider to move on

——Go to the fierce natural universe!

He has to develop a dispatchable map in the fierce natural universe, and then he will attack the time and space port!

The Haunted Spaceport is just above the Haunted Star.

It looks like a huge black sun is hanging, surrounded by silky arcs of light, which is quite mysterious!

Guarding the fierce time and airport are two half-step eternal strong men!

but.

These two half-step eternal powerhouses did not react at all.

The treasure hunting ancestral glider disappeared in the space-time channel!

I felt some strange reactions in the space-time channel.

The expressions of these two half-step eternal powerhouses changed drastically, they looked at each other in disbelief, and their facial features were about to shift in horror!

In the picture transformed by Su Lang.

Compared with the treasure hunting ancestral glider, the speed of the two is extremely slow, all movements and expressions are extremely slow, like sloths, extremely funny!

Immediately after.

The treasure hunting ancestral glider entered the fierce natural universe!

This is the third natural universe that Su Lang has come into contact with!

Real-time image transformed by Su Lang.

Emperor Zhou also saw everything the treasure hunter ancestor saw. She opened her mouth slightly, her face full of shock and anxiety.

"It's a fierce natural universe!!"

"You actually entered the fierce natural universe!"

"Could it be that you will not only cause chaos in the Yuanming universe, but also in the fierce natural universe!?"

"..."

Indestructible Emperor Zhou looked at Su Lang incredulously, it was hard to imagine that Su Lang's appetite would be so terrifying!

"Hahahaha!"

"I don't just want to do things in Yuanming and Fierce Universe."

"I want Emperor Yuanmingzhou to do harm to all the natural universe!"

There was a sneer at the corner of Su Lang's mouth, and his eyes were full of cold light.
