[Chapter 2311: Xing Cuan Yun and Two Universe Void Realm](#)

In addition to the shock in his mind, it is incredible!

She knew that Su Lang was extremely perverted.

But the perversion to such a degree is completely incomprehensible!

Simultaneously.

Tianmi continent.

The reaction of Evil Devouring was as shocking and incredible as Dongfang Tai.

Because of the late contact with Su Lang.

He was even more shocked, and Su Lang and him were not in the same world, and the feeling of doubting the world and the life of himself!

at this time!

Even more incredible things have happened!

"system!"

"Activate the function of 'Claim Dispatch·Xing Cuan Yun He'!!!"

With a thought in Su Lang, the fifty avatars and fifty twin avatars sent out merged with each other in an instant, forming two more terrifying Xing Cuanyun He clones!

Boom boom boom!

Fifty eternal clones of Void Realm merged.

A two-plane virtual realm eternal realm star Cuanyunhe clone appeared!

The incomparably terrifying aura not only directly enveloped the entire continent, but even spread to the heavenly Continent through the distant void!

That feeling as if the entire universe had come down, made countless warriors panic!

Everyone speculated.

Did Emperor Yuan Mingzhou come here? ?

But in an instant.

The server machine spirit of the heavenly virtual world issued an announcement.

"note!"

"Announcement: In order to speed up the advancement of Tianmi and Tianting Continent, His Majesty Su Lang, the emperor of the infinite universe, used powerful magical powers, please don't panic!"

The announcement came out.

People breathed a sigh of relief in an instant, turning their fright into surprise, almost jumping with excitement.

"My God, His Majesty Su Lang, the emperor of the boundless universe, has displayed such a terrifying supernatural power. It is simply a cosmic-level aura!"

"Yes, His Majesty Su Lang always makes people look at him with admiration, and it will grow to an unimaginable level in an instant. It is indeed the hope of our boundless universe!"

"Hahaha, great, we will surely see the victory of the boundless universe, a day of revival!"

"..."

Countless warriors shouted in surprise, enthusiastically worshipping under the statue of Su Lang.

Su Lang immediately contributed a wave of incense aspirations.

Simultaneously.

Among Tianting Continent and Tianmi Continent.

Two eternal clones of the Second Universe Void Realm appeared in front of Dongfang Taiyi and Jixie respectively.

"Subordinates knock on your Majesty Su Lang!"

Biting the evil immediately gave a big gift to meet Su Lang.

"Your Majesty Su Lang!"

"You, you have broken through to the eternal state!?"

Dongfang Taiyi looked at Su Lang's avatar, his eyes flashed wildly with crystal light, shocked, unbelievable, and deeply moved!

Su Lang broke through to the eternal realm!

This means that the boundless universe truly has the ability to comeback!

She persisted in Tianting Continent for countless years just to wait for this moment to come!

"Hahaha!"

"There is no real eternal state."

"Because I didn't comprehend the avenue of time, it was just a conventional power that crossed the moat and reached the eternal state."

"However, it is fast to comprehend the time avenue, and then Emperor Yuan Mingzhou will be able to complete the results!"

"By the way, I'm teaching Yuan Mingzhou Emperor now, he is sad now!"

"..."

Su Lang used Perfect Possession to control the avatar of Xing Cuanyun and said to Dongfang Taiyi.

Now that there is good news.

Naturally, I have to say it and share it with my friends. Let's have fun together!

at this time.

In Dongfang Taiyi's dumbfounded, dumbfounded expression.

Su Lang told the story of the ancestral flying ancestor he sent to hunt for treasure.

Dongfang Taiyi gradually recovered a trace of God from the shock, and his gaze at Su Lang was full of endless touch, surprise, fanaticism, worship...

From Su Lang.

She felt a sense of security that she had never felt before!

Su Lang carried everything!

And is about to blow away all the oppression fiercely and ruthlessly! !

This made her whole person relaxed countless times at once, with sincere touch and joy on her face, she wished to pounce on Su Lang and cry.

[Chapter 2312: Make you come back thousands of times](#)

"Well....."

"That's it... now my treasure hunting ancestral glider is still digging for the superstar Qiulong!"

"Every moment, countless treasures enter my pocket and become my capital for resisting Emperor Yuanmingzhou."

"And now, I'm sending a clone here to make the three continents merge faster, which is more conducive to the time-flow practice dojo in the place of exile."

Su Lang looked at Dongfang Taiyi with red eyes with excitement, and said with a smile.

"Hmm!"

"By combining the three continents, the energy concentration of heaven and earth can be further increased!"

Dongfang Tai nodded again and again, and his eyes towards Su Lang were full of brilliance.

"Well, let's start now!"

Su Lang smiled lightly, and immediately looked straight, and instantly took control of the formation that enveloped the Tianting Continent.

next moment!

Su Lang controlled the avatar of Xing Cuanyun and displayed a powerful force on the Tianting Continent, instantly making the Tianting Continent soar!

at the same time.

The same is true for the Tianmi Continent, driven by the Xing Cuanyun He clone, it is advancing rapidly toward the Tian Mi Continent!

Originally, it took more than half a day, and it was completed in just a dozen breaths.

Tianting Continent and Tianmi Continent were extremely close to Tianmen Continent, and even a strong gravitational force was generated between the three.

This almost increased the speed of Tian Mi and Tian Ting Continent.

of course.

Su Lang will not let the three continents collide!

The two eternal clones of the Second Universe Void Realm showed their endless mighty power together, causing the speed of Tianting Continent and Tianmi Continent to suddenly slow down!

When the three continents meet.

Tianting Continent and Tianmi Continent have completely stopped!

Suddenly.

The three continents were successfully spliced together to form an even more expansive continent! !

But this is not over yet.

Because there are still rifts between the three continents.

"Your Majesty Su Lang!"

"Next, do you want to merge the three continents together?"

Dongfang Taiyi seemed to understand Su Lang's thoughts and asked immediately.

"Not bad!"

"If the three continents are not fused together, and the ground veins cannot be connected, they are not a whole."

Su Lang nodded, looked at Dongfang Taiyi who was hesitant to speak, and smiled, "If you have any suggestions, just say it straight."

"Uh, actually, it's not really a suggestion."

"Actually, what truly merges the four continents of Tianmen, Tianxuan, Tianting, and Tianmi are the core fragments of the Infinite Realm."

"If this is not the case, even if the four continents merge, it will only be a superficial fusion."

"However, the core fragments of the Boundless Realm have been built by your Majesty into a life planet in the universe of life. Used to integrate into these four continents, the loss will be very large."

As soon as Dongfang Tai talked about it, she stopped talking, she just meant to point this out, and everything was left to Su Lang to judge and decide.

"I understand."

"The core fragments of the Infinity Realm are indeed extremely important."

"I plan to roughly merge the mainland first, and I'll talk about the rest later."

"And before that, you come with me, and we will move the Tianxuan continent back!"

The corner of Su Lang's mouth turned into a huge giant directly, stretching out his arms and opening his palms.

"it is good!!"

Dongfang Taiyi naturally wouldn't refuse, and stood on the palm of Su Lang clone with excitement.

Immediately after.

With a thought of Su Lang, he took away all the world fulcrum lever formations surrounding Tianting Continent and Tianmi Continent.

Anyway, these two continents don't need this kind of formation.

Just use this ready-made formation to transfer the Heavenly Jade Continent.

Take away the formation.

Su Lang dispatched the clone to the Heavenly Jade Continent.

Eat evil over there.

Su Lang was going to be more brutal, let the clone catch the evil spirits directly, and activated the clone dispatch function.

In an instant.

Two eternal clones of the virtual realm appeared on the Tianxuan continent!

This is the second infinite fragment continent that has been harmed by Emperor Yuanmingzhou.

Before the Emperor Yuanmingzhou left, Su Lang sent a clone to investigate the continent, and found that countless cavities as large as planets had appeared in the continent!

"Humph!"

"Emperor Yuan Mingzhou, if you take my things, I will make you return it thousands of times!"

A cold light flashed in Su Lang's eyes, and then ordered the clone to start arranging the formation.

[Chapter 2313: Move Tianxuan Continent](#)

The formations are readily available.

It is the two half-step eternal formations of 'Mainland Migration' arranged on Tianting Continent and Tianmi Continent.

And the size of the Heavenly Jade Continent is similar to Tianting and Tian Mi.

therefore.

Even if Su Lang didn't leave the place of exile, he went out in person.

By remotely controlling the clone, the two formations can be perfectly installed on the Tianxuan continent!

And still use two whole formations together!

In addition, Su Lang's strength is no longer the same. Xing Cuanyun and the level of the clone have reached the terrifying Second Universe Void Realm eternal.

The strength and formation have been greatly improved.

To transfer a Heavenly Jade Continent, it is not too simple!

Under the arrangement of two powerful clones.

The two continent shifting formations were quickly transferred and arranged, wrapping the entire Tianxuan continent.

but.

To be safer.

Su Lang did not immediately activate the formation.

Instead, let the clone surround the entire Tianxuan Continent and search the Tianxuan Continent with extremely large mental power.

In the absence of any abnormalities.

Su Lang then caused the clone to activate the two large moving formations, and began to move the Heavenly Jade Continent.

Instantly!

Countless energies of heaven and earth gathered in the two formations.

A cosmic-level powerful spatial fluctuation slowly generated around the Tianxuan continent, and gradually drifted away!

The two eternal avatars of Void Realm moved up and down, suspended in the formation, madly instilling their own strength.

of course.

The most important thing is the "world pivot lever profound meaning" derived from the Wu clan!

Because the level of all exercises has been elevated to the eternal state.

The profound meaning of "World Heavenly Witch Fulcrum" has also successfully advanced to the eternal level.

Although the power cannot be completely released without the bonus of Time Avenue, with the current power, there has also been an increase of hundreds of thousands of times!

Under various better conditions.

Don't transfer the Tianxuan continent too easily!

Almost instantly.

The cosmic space folding tunnel is perfectly formed!

The incredibly huge Tianxuan Continent began to "sink" slowly, entering the seemingly bottomless, but actually connected to another starry sky!

Tianmiao on the mainland side.

A safe distance away.

The extremely terrifying time and space fluctuations suddenly opened!

It spread to the other three continents almost instantly!

If it was before.

Those creatures would be extremely panicked.

But now.

The warriors on the Heavenly Continent have already experienced the spatial fluctuation of the continent shift twice.

Feel this familiar spatial fluctuation.

Countless creatures cheered on the spot!

"It's another spatial fluctuation caused by the movement of the mainland!"

"Hahahaha, this must be His Majesty Su Lang who has also snatched the Tianxuan continent!"

"Yes, we have gathered three Boundless Broken Continents, and this fourth one must be the Heavenly Jade Continent!"

"It is said that Emperor Yuanmingzhou is on the Continent of Heavenly Jade. His Majesty Su Lang can move the Continent of Heavenly Jade. Has he already driven away or killed Emperor Yuanmingzhou?"

"I don't know, but what is certain is that even Emperor Yuan Mingzhou cannot stop our great Majesty Su Lang!"

"Yes, our Majesty Su Lang regained all the other three continents in just one or two days. This time is simply a flash of time. This miracle can be achieved. How does the Emperor Yuanming and our Su Your Majesty Lang fight?"

"Yes, we have already won, and the great Majesty Su Lang has already been able to defeat the Emperor Zhou!"

"Your Majesty Su Lang, we praise you, your greatness cannot be expressed in words!"

"..."

Whether it is the Heavenly Misty Continent, the Cultivation Realm, the Wu Clan Continent, or the place of exile, countless creatures are talking excitedly and admiring the statue of Su Lang!

Simultaneously.

The server spirit in the heavenly virtual world also issued an announcement, the official announced the return of the Tianxuan continent!

At this moment, countless creatures cheered more excitedly.

Countless fanatical beliefs are rolling toward Su Lang, almost forming a colorful galaxy visible to the naked eye!

Just then.

Rumble!

More terrifying spatial fluctuations came.

In the distance on the side of the Tianmen continent, an equally large continent appeared.

[Chapter 2314: Preliminary reappearance of the boundless world](#)

As soon as it appeared, it flew quickly toward the Tianmen Continent!

This is because Su Lang ordered the clone to push the mainland, causing it to float over at an extremely fast speed.

With two full eternal clones of Star Cunyun and Void Realm, as well as two large shifting formations, Su Lang could perfectly control the connection between the Heavenly Jade Continent and the Heavenly Misty Continent.

After just a few breaths.

The Heavenly Jade Continent is spliced on one side of the Heavenly Jade Continent!

Just watch it from the outside.

The four broken continents have been completely closed, the territory has become more and more vast, and it instantly expanded to four times its original size!

At this moment.

It was broadcast live all over the world by Su Lang through the world of heaven and earth.

In an instant it caused the biggest cheer in history!

The whole continent is like a boiling pot of oil. Countless people danced and cheered, talked about, worshipped, tears streaming down their faces, and they were extremely moved!

"Finally, recovered!!!"

"Wuyinjie, it's back again!"

"Our boundless universe is finally going to be revived!"

Dongfang Taiyi couldn't help but burst into tears with excitement.

She stayed alone in Tianting Continent for billions of years, and now she finally saw the result in her dream!

"Four continents merge, and the boundless world has appeared again!"

"His Majesty Su Lang completed this incredible scene in just a few days. It is incredible!"

"Even if I saw it with my own eyes, I couldn't believe my eyes."

"But that's true. His Majesty Su Lang really won, and the Infinite Universe has achieved a phased victory!"

"..."

Xie Xie's eyes widened, and his eyes were full of deep shock, as well as the enthusiasm and worship of Su Lang!

"Finally closed!"

"It's not easy!"

Su Lang looked at this scene with emotion.

of course.

This is just a close on the surface.

The ground veins inside the four continents are not yet connected.

This makes it difficult for the energy contained in the continent to be shared. Only relying on the air condensed around the continent to conduct the energy of heaven and earth, the efficiency is very slow.

therefore.

Su Lang began to implement the decision before

——Fuse the ground veins of the four continents to make a relatively shallow fusion connection.

"Go!"

"My clones!"

Su Lang ticked the corner of his mouth and dispelled Xing Cuanyun and his clone.

Immediately after.

A full 150 clones used the Hundred Shadow clone function to become a full 15,000 clones, instantly appearing in the place where the Heavenly Misty Continent connects with the rest of the continent.

"Space Avenue!"

"Earth System Avenue!"

"Golden Avenue!"

"..."

The 15,000 powerful clones used various powerful methods to completely heal the cracks that spread in light years.

Countless earth veins, magma fusion, gradually merged the four continents, and the energy of heaven and earth was initially connected.

Suddenly.

The heaven and earth energy on the three continents Tianting, Tianxuan and Tianmi began to spread towards the Tianmen Continent.

The Heavenly Misty Continent, which was originally drawn by the Heavenly Misty Void Realm and turned into aridity, began to slowly rise for more than two years.

Continental fusion.

The energies of heaven and earth are also merging with each other.

Of course, this process cannot be accomplished overnight.

It will take some time to complete.

therefore.

Su Lang's attention temporarily moved away from the 15,000 clone and the "Boundless Realm", and once again moved to the Yuanming universe.

In this short period of time.

The treasure hunting ancestor glider has shown great power and has almost dug out the superstar of Qiulong!

The entire huge planet has collapsed a whole circle!

And the void in the distance.

Yuan Mingzhou Emperor Kuang Hou Yunge watched this scene broadcast by his subordinates, his eyes were red with anger, his fists clenched, and he wished to find the treasure ancestor flying desperately.

but.

He is not impulsive.

quickly.

Emperor Yuanming Zhou removed the broadcast picture and continued to collect the natural life planets in the universe wholeheartedly.

He is fast.

Since the collection of Xuanhao superstars, millions of life planets have been collected!

have to say.

Emperor Yuanmingzhou's stop loss ability is quite strong.

unfortunately.

Most of the high-level resources of Yuanming Universe have hit the top nine superstars.

[Chapter 2315: The collapse of Qiulong Milan superstar](#)

Emperor Yuanmingzhou struggled to rescue those small life planets.

But its value is really inferior to the two superstars of time and space, Qiulong and Milan.

Besides!

The goal of treasure hunting ancestral flying.

It's not just Yuanming, a natural universe!

Time passed slowly.

At a certain moment.

Rumble--! !

The disaster of the collapse of heaven and earth once again occurred on the superstar Qiulong.

And this time, it was also the last disaster that happened to it, because it could no longer withstand the large-scale excavation of the treasure hunting ancestral glider, and it collapsed!

"Another superstar!"

"Damn, I will kill you one day!"

After the Emperor Yuanmingzhou learned of the news, his chest suddenly felt tight, and his mouth was so sweet that he almost sprayed out blood.

In the land of exile.

Su Lang was completely the opposite, showing an extremely cheerful smile.

"awesome!"

"Another superstar has been destroyed!"

"Who said that treasure hunting ancestral gliders have no combat effectiveness, look at this world-destroying power, haha!"

Su Lang laughed, and then dispatched the treasure hunting ancestral flying to the Milan superstar.

"Squeak!"

The treasure hunting ancestral glider was very excited, and immediately began to work without feeling tired at all.

In a blink of an eye.

The underground veins and mineral veins were dug away by it and put into the storage space of Su Lang.

And the Milan superstar also repeated the same mistakes as the previous Qilong superstar, and gradually began to collapse!

During this time.

Anything that can be used to refine pill medicine.

Su Lang immediately refined into a pill to further increase the speed of his cultivation base accumulation.

As for the refining materials, they will be kept temporarily, not yet in time!

In a blink of an eye.

A wave of powerful destruction that trembles the void of the universe swayed away, and countless rubbles splashed around, turning into countless meteor showers flying towards the distance.

——Milan's superstar was also dug to collapse!

"Squeak!"

The treasure hunting ancestral glider appeared at the original position of the Milan superstar's star core, a pair of cunning and excited eyes looked in other directions.

In the starry sky, the stars are shining brightly.

These are all its favorite prey!

but.

Su Lang did not let it dig those planets.

During this period of time, all the planets with higher value have been taken away by Emperor Yuanmingzhou.

The remaining small planets are all barren and there are no high-level resource planets.

Perhaps the largest resource on some planets is population.

Looking back.

The other nine natural universes were looted and looted by Emperor Yuanmingzhou.

But after billions of years of restorative development, many valuable planets or void continents have emerged!

therefore.

Su Lang's goal was directly transferred to the nine natural universes.

"Go!"

"First search for the valuable things in the fierce universe!"

Su Lang hooked his mouth and smiled coldly, directly causing the treasure hunting ancestral glider to cross the barriers of the natural universe and appear in the fierce universe.

at the same time.

Emperor Yuan Mingzhou received the news of the collapse of the Milan superstar, and was furious again with incompetence.

Immediately after.

Deep worries appeared in his heart again.

Where will the treasure hunting ancestor fly after digging for the Milan superstar?

Or.

Will it appear in which planet he is about to take over by Emperor Mingzhou?

Thought of this.

Emperor Yuanmingzhou couldn't help shaking his whole body, his eyes were cracking, his fists were pinched as if he was about to explode.

"damn it!"

"If I continue to collect planets next, I must carefully detect each planet."

"Not only is this extremely troublesome, but some of the weird flying squirrels may not be detected at all."

Emperor Yuan Mingzhou stood on the spot, looking at the slowly rotating Great Emperor-class planet in front of him, a touch of reluctance appeared in his eyes, and he turned into decisiveness.

He decided.

Give up temporarily to collect these less valuable planets, look at the situation, and make a decision after the treasure hunting ancestral glider reveals its traces again.

then.

Emperor Yuan Mingzhou stopped at the same place, waiting with a pale face, as if there was a fire burning in his heart, almost igniting his whole person.

soon.

Finally, he got some information

——Some subordinates in the evil universe are dead!

[Chapter 2316: Open up nine other natural universes](#)

original.

Because of the shortage of communication circles across the barriers of the natural universe.

The powerful subordinates of Emperor Yuanmingzhou in the fierce universe also chose to use death to remind Emperor Yuanmingzhou.

"Something happened to the evil universe!"

"The black gold patterned shards appeared in the fierce universe!"

"It can pass the barriers of the natural universe silently, it's incredible!"

"..."

Emperor Yuanmingzhou's eyes opened in anger, his pupils shrank suddenly, and his eyes were full of incredible colors.

But things happened.

Even if you cannot accept it, you must accept it and come up with countermeasures.

But there is only one dumb way

——Stop loss!

"Could it be."

"Do I have to sacrifice the Crystal Wall Universe in my own body?"

"If this continues, I've finally paved the road to promotion, and it will be difficult to narrow it down again!"

"Well, go to rescue some important places, the rest can only be given up."

Emperor Yuanmingzhou's pupils trembled, and the endless resentment and anger almost sprayed out.

Immediately after.

He forcibly suppressed the tsunami-like emotions in his heart and began to use the avenue of time and space to shuttle to other natural universes.

However, he did not choose Fierce Universe, but Xuanhao Universe.

Xuanhao Universe is one of the natural universes he manages best, second only to Yuanming Universe, and there are many important things in it.

For example, believers who provide incense aspirations!

In the Xuanhao universe, his best believers are the ones who survive.

At this moment.

Rumble!

An extremely terrifying wave of time and space exploded from Emperor Yuanmingzhou's body, instantly covering a radius of hundreds of millions of light years!

Immediately after.

A gloomy light appeared behind him, slowly growing, covering it completely.

For an instant.

Emperor Yuanmingzhou, who was shrouded in gloom, left Yuanming Universe and arrived at Xuanhao Universe.

Just came in.

Emperor Yuanmingzhou felt the incense strength of incense, and his mood improved.

at the same time.

The Heavenly Mian Continent, no, it should be said that it is in the exile land of the 'Boundless World'.

Su Lang has always shared the perception of the treasure hunting ancestral glider, and has witnessed the destruction of the five Jiuyan Taichu.

"It is to remind Emperor Yuan Mingzhou with his life."

"Haha, it's really miserable!"

"With these people's reminders, Emperor Yuan Mingzhou may not dare to come to this fierce universe."

"So, which of the other eight natural universes will he go to?"

"Well, it should be priority to go to the more important one."

"When I sent the treasure hunting ancestral flying 'step on the spot' before, I discovered that the Xuanhao universe is different from the rest of the universe. It looks like a universe that has never raised believers."

"Moreover, the quality of believers is still very high!"

"Then, he is likely to go to this universe."

"It doesn't matter if you guess wrong, it's nothing more than sending out treasure hunting ancestral flying a few more times."

"..."

Su Lang thought so, with a sneer in his eyes.

The next moment.

He dispatched the treasure hunting ancestral flying to the Xuanhao universe.

Because when stepping on the spot, the treasure hunting ancestral glider travels through the passage of time and space, so the dispatchable map is also near the passage of time and space.

It was just at the beginning of the construction of the airport.

It is near the most prosperous cosmic area in the natural universe.

therefore.

As soon as the treasure hunting ancestral flying appeared, he immediately faced Emperor Yuanmingzhou!

"Squeak!"

The treasure hunting ancestor glider looked at a galaxy floating in the distance, and the emperor Yuan Mingzhou floating above a certain planet, exuding the eternal horror, made a cunning cry.

"It's you, Miscellaneous flying squirrel!!!"

Emperor Yuanmingzhou also looked at the treasure hunting ancestral flying stunned, his face was full of anger, aggrieved and incredible colors.

In his heart, there are endless stormy waves beating his chest.

Emperor Yuanmingzhou couldn't believe it.

The miscellaneous flying squirrel that was supposed to be in the fierce universe suddenly appeared in the Xuanhao universe, and it appeared in front of him! !

After an instant of horror and disbelief.

Emperor Yuanmingzhou felt a strong sense of play

——He is being played by the squirrel, or the man behind the squirrel!

[Chapter 2317: Yuan Mingzhou Emperor mentality exploded](#)

"Dog offal!!!"

"who are you!"

"Why, why are you targeting me so much!?"

"I am also an eternal state, you show up to fight with me, even if you die in your hands, I don't want to be teased by you!"

Emperor Yuan Mingzhou roared, and waves of anger rose from his heart, almost bursting him on the spot.

"Ha ha!"

"After the situation, Yunge, do you think I am an eternal state of other natural universes?"

"It's really dark under the light, the deity is far away from the horizon, hahaha!"

Seeing this scene, Su Lang couldn't help but let out a small smile.

The immortal Emperor Zhou, who was bound by the heart-piercing lock, also saw this scene, with a complex look on his face.

Emperor Yuanmingzhou, that unbelievably powerful man, was incredibly furious in Su Lang's palm! at this time.

"Squeak!"

The treasure hunting ancestor glider looked at the huge planet not far away, squeaked at the Emperor Yuanmingzhou, and then flew to that planet.

"You...you, miscellaneous flying squirrel, dog byproducts, I will kill you!"

Emperor Yuanmingzhou watched the treasure hunting ancestor flying towards the planet, and suddenly became so angry that his facial features were about to shift!

That was his pre-selected target planet!

As an enemy, the treasure hunting ancestral glider swaggers to **** the planet under his nose. This is simply naked contempt and naked humiliation!

The great shame and shame swept through Emperor Yuanmingzhou like a tsunami, and his teeth burst with hatred.

However, there is no way to stop it.

I can only give up this planet to prevent the treasure hunting ancestral glider from being collected into the body, causing myself to suffer.

"Dogs!"

"Even if I am dead, you need to know who is playing with me, I want to find you, behind the scenes!!"

Emperor Yuan Mingzhou roared heartbreakingly.

He trembled all over, like sifting chaff, and his blood-red eyes were full of thick anger, and even an endless will to fight.

Immediately after.

He directly abandoned his plan to collect the planet himself.

Instead, let those powerful warriors from the beginning to accept the planets and the creatures in the universe.

And he himself began to make preparations to investigate and find the origin of the treasure hunting ancestral glider!

"This ghost appeared in Yuanming Universe at first!"

"I want to return to Yuanming Universe, find out its origin, and directly deal with the black hand behind the scenes!"

"Anyway, it's a death, it's better to die vigorously, anyway, it didn't live tens of billions of years in vain!"

"..."

Emperor Yuanmingzhou clenched his teeth and began to use the Dao of Time and Space to return to Yuanming Universe.

In his speculation.

To be able to possess the strange spirit pet of the treasure hunting ancestral glider, the black hand behind the scenes must be very strong!

Therefore, he almost has a mortal heart!

In the land of exile.

"Oh?"

"Just give up the stop-loss plan, are you going to find out my behind-the-scenes?"

"And it's still speculating that I am a strong man behind the scenes."

"This is my mentality exploded!?"

Su Lang saw Emperor Yuan Mingzhou's anger and roar through the treasure hunting Ancestral Flyer, and the corner of his mouth immediately hooked, revealing a strong playfulness.

Soon.

The color of playfulness disappeared.

The solemn color revealed from Su Lang's eyes.

Emperor Yuanming Zhou thought he was a stronger eternal realm powerhouse.

But he is not.

If he was caught by Emperor Yuanmingzhou, he would have to face a battle. With his current strength, it was not enough!

"You must be prepared!"

"It's time to upgrade a wave of weapons and treasures."

"Insufficient combat power, come with equipment!"

"However, without the Dao of Time and Space, I can at best guarantee that I will not die under the pursuit of Emperor Yuan Mingzhou."

"The most important thing is Time Avenue!"

"The system immediately refines the new materials I currently obtain into a pill, and then synthesizes and strengthens me to the half-step eternal level!"

While thinking about it, Su Lang gave instructions to the system.

"Ding! Successful alchemy, you will obtain the perfect quality Jiuqiao Miechen Pill*5!"

"Ding! Successful alchemy, you will get the perfect quality Yuanshixuan Access Control Pill*5!"

"Ding! The synthesis is successful, you will get the Jiuyantai primary perfect pill, Taiwei Qingshi Dan*1!"

"Ding! Successfully strengthened, you will get a half-step eternal level perfect pill, too clean Shi Dan*1!"

"..."

A series of system prompts appeared, and a half-step eternal realm perfect pill appeared in the storage space.

Whenever one appears.

As long as it is a cultivation type of medicine, he will swallow all of it instantly!

at the same time.

Su Lang waved his big hand, and the Youtian Sword, Tianya Eight-Edged Shield, Infinity... and other weapons appeared in front of him, floating up and down, exuding an extremely powerful aura.

It's time to strengthen the weapon!

[Chapter 2318: You don't want to order me](#)

There are six weapons in front of Su Lang!

Youtian sword, Tianjia eight-sided shield!

The mirror of reincarnation, the sword of life, the nest of creatures, and the Infinity!

among them.

The levels of Youtian Sword and Tianjia Eight-Edged Shield have reached the Half-Step Eternal Realm, and on this basis, they have been strengthened three times!

Its power.

Almost reached the ceiling of the half-step eternal state.

The state of reincarnation, the sword of life, and the nest of creatures have all reached the nine-generation primordial stage, and strengthened three times to reach the half-step eternal level.

As for the boundless number.

It is also invincible under the eternal realm, completely reaching the ceiling of half-step eternity, unable to reach the next level.

You can only accumulate energy in the current realm and try to use quantitative changes to cause qualitative changes to see if you can break through to the eternal realm.

"Just come from Youtian Sword first."

"The system, immediately activate the enhanced reset function, target Youtian Sword."

With a thought, Su Lang issued instructions to the system.

Suddenly.

The mysterious strengthening effect disappeared from Youtian Sword, and his power suddenly began to fall.

But even so, after all the strengthening effects disappear, the power of the Youtian Sword is much stronger than the ordinary half-step eternal, enough to complete a spike!

"system!"

"Start the weapon evolution function!"

"Target, Youtian Sword!"

Su Lang held the Youtian Sword in his hand, took a deep breath, and gave instructions.

"Ding! Insufficient function level!"

"Ding! Using the 1000 universe core source can raise the limit of the current function and unlock the current function to level 16!"

"Ding! Insufficient materials! Lack of the origin of the universe*100!"

"Ding! Youtian Sword has insufficient conditions, and the spirit has not yet merged with Time Avenue!"

The four system prompts sounded in Su Lang's mind, which immediately surprised him.

"Lying down."

"I just want to try to see if it can evolve, but I didn't expect to get so many hints!"

"The level of the one-key mixer function reached the limit of level 15 a long time ago, and now it is possible to use the core of the universe to increase the function limit and unlock it to level 16!"

"Tsk tsk, I never expected it!"

"In addition, the evolution of the Youtian Sword actually requires the origin of the universe and the Great Avenue of Time."

"Where can I find these two things now."

"It seems that the Youtian Sword cannot be evolved today."

The light in Su Lang's eyes flickered, with surprise and helplessness.

"the host!"

"it does not matter!"

"Even if it is Emperor Yuanmingzhou, even if it is an eternal powerhouse, Xiaoyou will help you cut him!"

"Even if Xiaoyou's body is broken, she will never regret it!"

Xiao You emerged from her body, squeezed her fist, and said very seriously.

"what!"

Hearing this, Su Lang was immediately stunned. It was the first time he saw Xiao You so serious, and he couldn't help being a little moved.

however.

"Anyway, if Xiaoyou is finished, the master must be finished too!"

Xiaoyou continued to say earnestly, "Xiaoyou is already very happy to be buried with his master!"

"puff--!!"

"Lie noisy, you don't want me to be good!?"

"Give me back to your funeral, God, I will give you a funeral, today this deity will let you know who is the master!"

Su Lang rolled his eyes and the corners of his mouth twitched on the spot, then stretched out his hands and grabbed Xiao You.

"what!"

"Brother Su Lang is the master, and Xiaoyou is the maid!"

"Master, master, what are you going to do to Xiaoyou, Xiaoyou is still a child!"

Xiaoyou thumped his hands and feet like a caught cat, exclaiming in her mouth.

"I won't do anything to you."

"Just to let you know that flesh and blood is itchy!"

The corner of Su Lang's mouth twitched, one hand grasped Xiaoyou, and the other began to tickle.

This is no ordinary tickling.

Instead, special techniques are used.

Anyway, I don't know which strange technique I learned from. This technique has been passively raised to the eternal level!

then.

Under the super tickle means of the eternal realm.

"what!"

"Master, no, no!"

"Hahaha, itchy, haha, itchy, itchy!"

"Stop it, Master, Xiaoyou can't take it anymore!"

"..."

Xiaoyou, who had been terribly skinny before, suddenly screamed and itchy, and immediately began to beg for mercy.

[Chapter 2319: The process is too fast](#)

"Humph!"

"See if you dare to hide in the future."

Su Lang let go of Xiaoyou temporarily with a soft snort.

"Slightly, isn't it still Xiaoyou!"

Xiaoyou's eyes rolled around, and he ran into the body with his tongue out.

"This stinky girl!"

The corner of Su Lang's eyes twitched, and he immediately used methods to pull Xiaoyou out and continue to clean up.

But at this moment.

"the host!"

"Xiaoyou will not be finished, neither will the master."

"It is Emperor Yuanmingzhou who is going to die. We will definitely kill him. We don't want to die together, we must live together!"

Xiaoyou's voice filled Su Lang's mind full of excitement.

"Well...it's almost the same!"

Su Lang raised his eyebrows and nodded slightly.

But in the next moment he activated his "Hexintong" and quietly looked at Xiaoyou.

"Hehe!"

"Successfully changed the subject, the owner is so cute~"

Xiaoyou was full of joy in her heart, completely unaware that her thoughts had been understood by Su Lang!

"Ah, I really want to... forget it!"

The corner of Su Lang's mouth twitched, and he quickly took a deep breath, suppressing the idea of catching Xiao You out for education in his heart.

Xiaoyou, the girl's temperament, hardly changed.

"call!"

Su Lang let out a long sigh and immediately issued instructions, "System! Activate the one-key enhancement function! Target Youtian Sword!"

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthening success..."

"Ding!....."

The system prompt sounded six times in succession, and the Youtian Sword was strengthened six times!

One after another extremely powerful aura sprayed out of You Tianjian's body.

To the end.

The breath of Youtian Sword is so terrifying that it can easily crush a powerful person from the beginning!

If it weren't for Su Lang to suppress it, it would definitely sweep the entire place of exile and accidentally kill a huge number of warriors!

"Wow!"

"Six times, so comfortable!"

"It's just that the process is too fast, it would be better if you can experience it for a longer time!"

In the Youtian Sword, Xiaoyou felt the majestic energy all over his body, and suddenly groaned in comfort.

at the same time.

The immortal Emperor Zhou, who was bound by the piercing heart lock, was dumbfounded!

"what's the situation!!"

"In the end what happened!?"

"That extremely powerful half-step eternal weapon, why in the hands of Su Lang, it became even stronger in an instant!"

"This majestic breath is already comparable to the eternal realm!"

"Hey, how did this happen!!"

Although Emperor Eternal Emperor had seen the natural universe gate array refined by Su Lang, as well as weapons such as Zijin Gourd.

But I haven't seen the scene of Su Lang upgrading his weapon with his own eyes!

At this moment, she saw Su Lang lifting the Youtian Sword with her own eyes, and she was shocked again.

Emperor Zhou couldn't help but look at Su Lang, and he felt a great horror!

Su Lang is really too strong.

And it's almighty and powerful, there is no shortcoming kind!

The cultivation speed and the real combat power are beyond imagination. Even the three ways of refining and refining alchemy are extremely abnormal!

This is simply a freak that is difficult to appear in countless natural universes and countless epochs!

The immortal Emperor Zhou clearly realized.

Give Su Lang a little more time, and Emperor Yuanmingzhou will lose! !

at the same time.

Su Lang faintly smiled at the shock of the immortal Emperor Zhou, and then used the weapon recognition function to see the information of Youtian Sword in his eyes.

Youtian sword at this time.

Based on the half-step eternal realm, six enhancements were made.

The powerful energy it mastered was crazily concentrated and increased crazily, but the qualitative change... still did not occur.

It is equivalent to Su Lang himself, possessing a regular-level power comparable to the eternity of a universe, belonging to the eternity of a universe.

just.

The conventional power is like a bubble in front of the real eternal powerhouse.

No matter how big a bubble is, it bursts with a single poke.

"really."

"After all, we still have to condense the Avenue of Time!"

There was a dignity in Su Lang's eyes, and he immediately looked at the cultivator and tried to condense the path of time.

"Ding! Insufficient cultivation, unable to condense Time Avenue!"

The system prompt seemed a bit ruthless.

[Chapter 2320: Eternal Weapon of Void Realm](#)

"Still not enough!"

"Well, let's upgrade the weapon first!"

Su Lang frowned slightly, and immediately threw a half-step eternal realm pill that had just been refined into his mouth, and then continued to strengthen the weapon.

Behind the Youtian Sword, there is the Eight-Edged Shield of Tianjiao.

The level of the eight-sided shield of Tianjiao is the same as that of the Youtian Sword.

Su Lang didn't use enhanced reset anymore, because he couldn't evolve anyway.

Directly on the current basis, the Heavenly Eight-Edged Shield was strengthened three times, so that its regular-level defensive ability also reached a virtual realm eternal.

Immediately after.

Su Lang took the sword of life, the mirror of reincarnation, and the nest of creatures.

"system!"

"Start the enhanced reset function!"

Su Lang holds the sword of life and activates the system functions.

"Ding! Strengthen the reset successfully!"

A system prompt appeared, and the nine enhancements of the Sword of Life suddenly returned to zero, and its power fell back to the realm of the Jiuyan Prime Beginning.

"System, start the weapon evolution function!"

"Only retain the current characteristics, promote the sword of life!"

Su Lang started to evolve the sword of life!

"Ding! Consume the soul of the primordial *86988, the elementary material, the life and death jade of the sun and the moon *1889688...The sword of life has evolved into a half-step eternal weapon of the primordial primacy!!"

The system prompts that the voice has just dropped.

Su Lang immediately issued the second instruction: "Activate the enhanced function, target the sword of life!"

In an instant!

Countless materials disappeared.

Turn it into an incomparably mysterious and powerful force, pour it into the sword of life, and increase its power level by level!

Strengthen once, strengthen twice, strengthen three times...

The same is after six enhancements.

Su Lang just closed the enhancement function.

So far.

The power of the sword of life has also reached the eternal level of a universe of Void Realm!

As long as Su Lang wields his sword, he can immediately resurrect countless creatures who have died soon, and they are full of blood and blue.

of course.

The sword of life was prepared by Su Lang for himself.

This is equivalent to a comprehensive recovery medicine bottle, which can recover a huge amount of life and mana at one time.

The key can be reused, which is awesome.

"Assafir thanked the master for his power!"

The spirit Asafi flew out of the sword of life and bowed in front of Su Lang.

He has angel wings on his back, full of holy energy.

"Ok."

Su Lang nodded slightly, took it into the sword of life, and then blended it into his robe to form a pattern.

Soon.

Su Lang brought the realm of reincarnation and the nest of creatures before his eyes.

These two auxiliary weapons continued to manage the inner world for Su Lang, and everything was developing methodically and rapidly.

Now every moment.

There are endless incense aspirations into the Void Spirit universe, entering the three major void dragon vein worlds, and turning them into special aspirations!

and so.

Regardless of the fact that the two of them have no sense of existence, they are actually very important.

"System! Start the enhanced reset function!"

Su Lang grasped the realm of reincarnation, and started to improve again...

A short moment.

Countless materials disappeared in the storage space.

The state of reincarnation has evolved to a half-step eternal state, and it has been strengthened three times, possessing very powerful power.

"Xiaoluo thanked Master!"

Qi Ling Xiaoluo also came out to thank you immediately. The woman was dressed in white, with a slightly frosty sleeve, her temperament surpassing all beings.

"Ok."

"Go back and take charge of reincarnation!"

Su Lang smiled and nodded, and collected it into the Dantian universe.

Finally, it was the turn of the living creatures' nest.

Using the same method, Su Lang evolved it once and strengthened it three times, reaching the same level as the Reincarnation Realm.

"Today's nest of creatures has greatly improved!"

"The creation of countless spores is just the most basic function, more characteristic abilities, but it has become a derivation civilization!"

"Now, there are countless derivative cultivation civilizations formed on the basis of martial arts civilization in my body."

"In that case, you should call it the Nest of Civilization."

Su Lang thought for a while, renamed the Nest of Living Beings to the Nest of Civilization, and then put it into the universe of life.

Next.

It's the turn of Infinity!

Last time.

All the parts of Infinity have evolved into the realm of the Siyan Taichu.

The number of enhancements has reached the limit of the one-key enhancement function, eleven times!

Its power has skyrocketed to the level of tens of thousands of times the ordinary half-step eternal.
now.

He ushered in another promotion!
