

One Click 2351

[Chapter 2351: Upgrade five system functions!](#)

"I....."

Emperor Yuanmingzhou's pupils trembled, and the last thought did not appear completely, and his consciousness plunged into darkness.

"Ding! You get Eternal Soul*1, Eternal Dao Crystal*1, Eternal Life Universe*1, Eternal Body*1, Origin of the Universe*8848, Eternal Realm Material..."

The system prompt came.

Yuan Mingzhou Emperor Kuang Hou Yunge, who declared his impossibility, died completely!

"It's over."

Su Lang looked at the shattered, empty and lonely universe, and couldn't help letting out a sigh of relief.

Choosing Yuanming Universe as the main battlefield is right.

Look around.

Even if there is a space for chanting, it is ruined.

I don't know how many star fields have been destroyed, and countless creatures have fallen.

If this is to fight in the boundless world.

I'm afraid I will break it into countless pieces again.

"It's time to count the trophies!"

"In this battle, killing eight eternal realm powers, the origin of the universe alone is tens of thousands, so beautiful!"

There was a hint of excitement in Su Lang's eyes, and immediately issued an instruction, "The system, deposit all the origins of the universe and the emperor source of the universe into the balance!"

"Ding! The storage is complete, the balance is 52856 universe origin!"

The system prompt appears.

Su Lang suddenly became even more excited!

More than 50,000 universe origins, all functions can be upgraded!

"Hurry up!"

Su Lang rubbed his hands in excitement and ordered, "Upgrade all functions for me!"

"Ding! Consumes 10,000 cosmic origins, the one-key training function is upgraded to level 52, and the training speed is increased to 600,640 trillion times the speed of the basic training without lack of qualification!"

"Ding! Consume 10,000 cosmic origins, upgrade the one-key martial arts function to level 52, and increase the training speed to 6000 trillion times the speed of the basic training without lack of qualifications!"

"Ding! Consumes 10,000 universe origins, the clone dispatch function is upgraded to level 51, the number of clones is +1, the current number of clones is 51, the number of clones is 51, and the number of twins is 51!"

"Ding! Consumption of 10,000 universe origins, the one-click treasure hunting function has been upgraded to level 51, and the number of treasure hunting flying gliders is 6,000 trillion!"

"Ding! Consumes 10,000 universe origins, the one-key enhancement function is upgraded to level 12, the enhancement limit is +1, and it can currently be enhanced 12 times!"

System prompts appear one after another.

All of the five system functions have been upgraded again, and the functional effects have become even more terrifying!

"2856 universe is left."

"I can use my cultivation base to replace the origin of the universe and fill the universe of life and crystal wall universe."

"These cosmic origins are used to upgrade the Youtian Sword and other weapons."

"But before that, we have to disassemble those three weapons."

Su Lang thought about this, his eyes fell on the three eternal weapons in the storage space.

Immediately after.

"Ding! The decomposition is successful, you will get half-step Eternal Soul*98, Universe Origin*3233..., Eternal Grade material..."

"Ding! The decomposition is successful,..."

"..."

At the moment of Su Lang's thought, the decomposition function was activated, and the three rare and eternal weapons were restored into countless materials.

After this decomposition.

Unexpectedly, a large amount of cosmic origin was obtained.

Su Lang immediately deposited it into the system, and the balance suddenly became the origin of the 12121 universe.

Immediately after.

His eyes were placed on the almost innumerable treasures of heaven and earth.

"The souls such as the Eternal Soul and the Soul of the Beginning are all thrown into the void dragon vein world of the Void Spirit universe!"

"Once these eternal souls become incense souls, they will surely provide me with countless incense aspirations."

"A soul can be compared to a half-step eternal life universe!"

The corner of Su Lang's mouth raised slightly, and with his hand, the eight eternal souls of Emperor Yuanmingzhou and others, as well as the souls obtained from the decomposition of weapons, were all collected into the world of void dragon veins.

By the way, I also took a look at the situation in the three void dragon veins world.

Because the incense is very powerful.

The three void dragon worlds have gathered a large number of special wish power crystals, which can almost evolve three weapons.

[Chapter 2352: One-key mixer function breaks the limit](#)

"First upgrade the Youtian Sword and other weapons."

"The evolution of incense weapons will wait until all the harvested crystal wall world and life universe are transferred to my body."

A ray of light flashed in Su Lang's eyes, and he immediately issued instructions to the system, "The system, using the 1000 universe origin, raises the limit of the one-key mixer function!"

"Ding! Consuming 1000 universe origins, the one-key refining function breaks through the limit, unlocks to level 16, and can refine Yizhou Eternal and its lower level weapons!"

The system prompts that the voice has just dropped.

"Start the enhanced reset function!"

Su Lang took the Youtian Sword in his hand and gave instructions.

"Ding! Strengthen the reset successfully!"

Accompanied by the system prompt, the breath of Youtian Sword burst down.

"Start the one-key mixer function!"

Su Lang issued an order again, "Only retain the current characteristics, evolve the Youtian Sword!"

At this moment.

The refining functions, weapon conditions, and upgrade materials are all ready, and the Youtian Sword can naturally evolve.

"Ding! Consumes the soul of the primordial *880000, the origin of the universe *100, the material of the eternal realm...the material of the primordial element...the Youtian sword has evolved into an eternal weapon of the primordial universe!!!"

The system prompt sounds.

Countless materials turned into mysterious and powerful energy, which was integrated into the Youtian Sword.

In an instant.

The true realm of Youtian Sword has evolved into an eternity!

An extremely terrifying aura radiated from the Youtian Sword, which was the aura of the power of the universe.

But this is not over yet.

"system!"

"Start one-key enhanced function!"

Su Lang's heart moved, and he gave instructions again.

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding!....."

"..."

After the system prompt is over, Youtian Sword has strengthened four times!

Its power has been greatly improved again, and it has the true power of the eternal state of the three universes.

"the host!"

"My strength has become stronger!"

"I have an unprecedented power, so powerful, it seems to be able to annihilate all existence!"

Xiaoyou ran out of her body excitedly, and she hung her arms around Su Lang's neck.

"That is the power of the universe!"

"You have obtained the cohesion and use of the power of the universe, and you are truly eternal!"

Su Lang smiled and rubbed Xiaoyou's hair, with a hint of joy in his eyes.

"Hehe, so happy, so hi~"

Xiaoyou smiled in excitement, her body writhing constantly.

Seeing that she was so happy, Su Lang did not interrupt her, and instead took out the weapons such as the Heavenly Armor and Eight-Edged Shield.

Seeing this scene, the weapon spirits of Tianjia's eight-sided shield and other weapons did not dare to bother.

Next.

Su Lang uses the same method.

First strengthen the reset, then evolve, and finally strengthen again.

Immediately, the eight-sided shield of the sky, the mirror of reincarnation, the sword of life, and the nest of civilization all evolved to the eternal realm of one universe.

And these four weapons have all been strengthened three times, and their power has reached the Eternal Realm of the Second Universe!

The spirits of the spirits were excited and cheered, and one after another they thanked Su Lang for the gift.

Su Lang himself was very happy.

In his current eternal realm, he possessed five eternal weapons. If someone saw him, he would be so surprised that his eyes would fall out.

What's more, his five eternal weapons are not ordinary one-plane eternal weapons, the worst are of the second-plane level!

"It's so cool."

"Five eternal weapons, almost make me invincible at the level of the three universes."

"Next, let's start sorting out the rest of the spoils."

Su Lang licked his lips excitedly, and then waved his big hand. Eight life universes and eight eternal bodies appeared in front of him.

Eight life universes.

Nature is the eternal life universe of Emperor Yuanmingzhou and others.

Although it was taken into the body, it was bound to merge some crystal wall worlds.

But Su Lang is not an ordinary eternal realm.

Even if some crystal wall worlds merge into a larger crystal wall universe, cultivation bases can also be used to replace the origin of the universe to fill and improve.

The big deal is to wait a little longer for sufficient cultivation.

This was nothing compared to the eternal life universe.

Except for the eight eternal life universes.

Those eight bodies were the eternal bodies of the eight people including Emperor Yuanmingzhou.

Perhaps it is because the eternal realm itself is equivalent to a complete universe, so it is not divided into body fragments by the perfect plundering function.

And among these eight eternal bodies.

There are almost countless crystal wall worlds!

"let's start!"

Su Lang took a deep breath and began to transfer the eternal life universe!

[Chapter 2353: Fusion of eternal life universe](#)

Randomly selected one from the eight eternal life universes.

Su Lang took it in front of him and looked at it with his spiritual thoughts.

This eternal life universe is much larger than the half-step eternal life universe.

There are nine planets inside, slowly rotating around a star.

These nine planets and stars are very huge, almost comparable to the nine space-time superstars in the source universe.

but.

The composition of these nine planets and stars is very simple.

The nine giant planets are condensed from ordinary land.

That huge star is slightly better.

But it's just the ordinary stars that the emperor had picked up from the natural universe, and then added his own fire system, light system, radiation system and other great powers.

Its internal energy is far inferior to that infinite star fragment in Su Lang's body.

To this.

Su Lang was not surprised at all.

Because all treasures that are cherished will be reversely refined into the origin of the universe by the eternal realm powerhouse.

among them.

The innate spirits produced at the beginning of the universe are most suitable for refining the origin and core origin of the universe.

The second is the eternal body of the rest of the eternal realm powerhouse!

Yes, it is the corpses of the rest of the eternal realm!

Next, there are all kinds of treasures, heaven and earth treasures, heaven and earth energy and so on.

Ordinary land can actually reverse the origin of the universe.

But this is too difficult, countless ordinary lands, it is difficult to reverse the origin of the universe.

A strong eternal realm, unless he is as poor as an ordinary person, he will not refining ordinary land.

at this time.

Su Lang's spiritual thoughts continued to deepen and fell on the nine huge planets.

However, the creatures on these nine planets have been killed and injured.

Many creatures have been drained of energy!

The cities became ghost towns, and they were full of corpses, turning into ashes when the wind blows.

but.

The number of surviving creatures is countless, regardless of the proportions and the numbers.

"Ming Guang Wanjie, illuminating the universe!"

"The one who praises my true name, Ke Huer and other true spirits, enter the cycle of reincarnation, and have the soul eternal life..."

Su Lang unfolded the eternal level of bright light, and the endless light illuminates the sorrowful universe of life.

Suddenly.

All living beings instantly worship Su Lang as their master!

And offer his pious incense power.

This is an everlasting universe of life. I don't know how many years it has been in business development. Even with heavy casualties, countless creatures survive.

At this time they all became the fanatics of Su Lang!

Countless incense and wish power poured into Su Lang's virtual spirit universe.

In a short time.

A large number of special aspiration power crystals have once again condensed in the three void dragon worlds!

"Next, I will incorporate it into my body and become a part of me!"

A bright light flashed in Su Lang's eyes, and immediately began to run "Universal Normalization" and other profound meanings.

Suddenly.

The crystal wall cells merged with each other to form an extremely vast crystal wall world.

This crystal wall world is almost comparable to Su Lang's ten life universe at this time!

Next.

Su Lang collected the eternal life universe into this crystal wall world.

It's not over after receiving it.

It has to use the powerful cosmic power to refine and fuse the cosmic crystal wall and the crystal wall of the crystal wall cell world.

This is not difficult.

quickly.

Su Lang turned this eternal life universe into his own body world.

The inner beings also entered his reincarnation system.

Soon.

Su Lang brought the remaining seven universes of eternal life in front of him.

Then use the same method to integrate it into the body.

then.

In addition to his own life universe, Su Lang had eight eternal life universes.

These life universes come from different emperors.

There are also very, very subtle, almost imperceptible differences in the power of rules and avenues within.

But those differences do exist.

After Su Lang obtained eight different eternal realm life universes, he could feel that the power of the Great Dao he mastered was supplemented by a little bit on the basis of Consummation.

[Chapter 2354: Transfer the Crystal Wall World](#)

"The power of the great power of each natural universe is extremely different."

"Every Emperor Zhou who was born in a different natural universe has a great way of comprehension, but it is just the perfection of his own natural universe."

"Throughout the endless natural universe, there are countless countless numbers, and the accumulation of small differences is extremely terrifying."

"So, at the time of eternity, the power of the avenue can be further sublimated, including the most advanced time avenue!"

"The road to cultivation is long and long, and we still need to work hard."

A touch of firmness rose in Su Lang's eyes, and he immediately looked at the eight eternal bodies.

The corpses of eight eternal class powerhouses.

Not only contains countless crystal wall worlds, it is also an extremely treasured treasure.

Eternal powerhouses hunt the natural universe, not only hunting the natural universe itself, but also hunting the eternal realm powerhouses in that universe.

Once you kill the opponent, you can seize the eternal body and refining the origin of the universe!
of course.

Refining the eternal body as the origin of the universe, of course, it is impossible to refining all the origin of the universe that it has integrated into the body during its lifetime.

Under normal circumstances, it is usually a few tenths, and at most one-tenth of the origin of the universe can be reversed.

"It has to be reversed."

"It's really troublesome."

"If you can reverse the exercise with one key, it will be good."

Su Lang touched his chin, and his eyes lit up, "By the way, I can try the one-key decomposition function!"

Thought of this.

He couldn't help getting excited, and he had an instinct that would definitely be possible.

However, Su Lang did not immediately disassemble the eternal body.

After all, the crystal wall world inside hasn't moved yet!

"First transfer the crystal wall world!"

There was a hint of excitement at the corner of Su Lang's mouth, then grabbed an eternal body and started to work.

First, I used my spiritual mind to view the crystal wall world of this eternal body.

Good guys.

There are two hundred and thirty-three!

This number is too small compared to Su Lang.

But lower than the ordinary one-cosmic eternity, for the two-cosmic eternity, it is already a lot.

It should be noted that the half-step eternal strong, usually only a few dozen gai of crystal wall world.

Next.

Su Lang's spiritual thoughts swept through the crystal wall world one by one.

These crystal wall worlds are large and small, and many creatures live in them.

The total number of all creatures is many times more than those in the eternal life universe.

"Tsk tsk, got these creatures."

"My incense aspiration is about to usher in a huge explosion."

Su Lang smiled, even if Xuan began to transfer the planets and continents in the crystal wall world, of course, it also included the creatures above.

This job is much easier than housing the universe of life.

Although there are a lot of crystal wall worlds, but the size is too small, Su Lang can transfer dozens of worlds in one breath!

Wow!

Countless planets and continents were sucked out from that eternal body, and transformed into a galaxy, blending into Su Lang's body.

After searching this eternal body.

Su Lang successively scavenged all the remaining seven eternal bodies of the crystal wall world.

Suddenly.

In Su Lang's body there was a full two thousand crystal wall worlds with planets or continents.

As for how many more creatures are there?

I don't know it, it's totally innumerable!

After scraping the crystal wall world of the eternal body.

really.

Su Lang's incense willingness has grown tremendously!

The endless incense is willing to integrate into the virtual spirit universe.

Not only did the three Void Dragon Vein worlds condense a mountain of special aspiration crystals, but it also expanded the Void Spirit universe by a hundred times!

In the past, the radius of the Ethereal Universe was 30 billion light years.

At this time, it has become three trillion light years! !

It should be understood that this is Su Lang's passive ability.

He doesn't do anything, all the incense within three trillion light-years, and even the emotional thoughts that spill out, will be captured by him!

"Hey!"

"Next, you can upgrade the incense weapon!"

Su Lang rubbed his hands excitedly, and then took out the three incense weapons.

Wearing heart lock, Qibao wonderful tree and purple gold gourd.

If these three weapons have reached the eternal state, then the previous battle can be easier!

At this time these three weapons.

The first two are the seven generations plus eight enhancements, and the Zijin gourd is the nine generations.

[Chapter 2355: Evolution Incense Weapon](#)

"Let's wear the heart lock first"

"System, start the enhanced reset function!"

Su Lang's thoughts immediately reset the strengthening effect of the Heart Piercing Lock.

Suddenly.

The strengthening effect of the Heart Piercing Lock disappears, and the power drops back to the Qiyao Primordial Stage.

"system!"

"Start the weapon evolution function, and the goal is to wear the heart lock!"

Su Lang held the heart lock in his hand and issued the order again.

"Ding! Consume the special incense wishing power to crystallize *15000000, the heart-piercing lock evolves into a weapon of the Bayan Taichu!"

"Ding! Consume the special incense wishing power to crystallize *18000000, the heart-piercing lock evolves into the Jiuyan Taichu weapon!"

"..."

Three consecutive system prompts sounded.

The level of Heart-piercing Lock has been evolved to a half-step eternal state!

This is not over yet.

The next step is to strengthen.

Reinforcement does not require the use of special aspirations to crystallize, just ordinary natural treasures.

"system!"

"Start one-key enhanced function!"

Su Lang locked the heart-piercing lock with his divine mind and gave instructions.

Suddenly!

"Ding! Strengthened successfully, +1 through the heart lock!"

"Ding! Strengthened successfully, +1 through the heart lock!"

After the two system prompts, a strong eternal atmosphere erupted from the heart-piercing lock.

It has reached the eternal realm of a universe, and its aura is larger than weapons such as the dead universe and the cave feather golden string.

However, it appears to be relatively vain, and it is obviously still eternal in the virtual state, not the real eternal state.

"Incense weapons are inherently non-functional."

"Even if I have the ability to instill in a great way, I can't find the spirit to instill it."

"The road of incense has reached half an eternity, and the realm on it is not clear."

"Even, it is not clear whether there is an eternal sublimation of the incense aspiration force."

"..."

Su Lang frowned, feeling that he was in trouble.

but.

He changed his mind, his eyes flashed, and his expression immediately eased.

"There is no weaponry."

"Then I will create an instrument spirit!"

"The guy who eats evil is born with incense and matches my incense weapon very well."

"Well, just do it, let him integrate into my weapon and become a weapon!"

"But don't worry about this, let's finish the rest first."

Su Lang touched his chin, a smile was drawn at the corner of his mouth.

Next.

He reset the strengthening effects of Qibao Miaoshu and Zijin Gourd.

And evolve them all to the half-step eternal state, and then strengthen them twice to reach the same level as the heart-piercing lock.

So far.

Three pieces of eternal incense weapons in the cosmic virtual realm are completed.

Don't think they are just virtual realms, because the incense system is very different and can have a significant effect on the eternal realm!

"The three incense weapons are completed."

"According to the previous plan, we must condense the fourth incense weapon."

Su Lang had already thought about what weapon to condense.

At present, his weapons are both offensive and defensive, as well as therapeutic and production, and all of his powers have reached the Eternal Realm of the Second Universe.

So this time.

He intends to condense the illusion weapon in his impression [King Hua Shui Yue] with incense and willingness.

Jinghua Shuiyue's ability is

—Completely control the feeling of the hand, so that it can fully believe in the appearance, shape, quality, breath and other perceptions of a specific object as the weapon owner hopes!

This weapon has a wide range of uses.

The illusion weapon was also what Su Lang lacked.

This is much more powerful than the illusion that uses the eternal realm with no hands.

It's like the [Eternal Reincarnation Fairy Eye] previously performed on Emperor Yuanmingzhou, and its effect is definitely not as good as the [Mirror Flower Water Moon] in the Eternal Realm.

"It's beautiful, let's get started!"

Su Lang's eyes flashed and he rubbed his hands gently!

Suddenly.

The power of the universe, which contains the power of the perfect road, surging out, condenses into an illusory orb with colorful dragon patterns!

On this illusory orb.

Those colorful dragon-patterned roots grew out of the semi-illusory orb and spread in all directions.

Finally, these unfolded colorful dragon patterns form a spherical world barrier against the invisible border.

This new emptiness dragon vein heaven is completed like this.

It is the eternal world of emptiness dragon veins.

Su Lang guessed that the incense weapon condensed by it might be the eternal realm just after condensing it.

Next.

He casually threw the fourth void dragon vein heaven into the void spirit universe.

[Chapter 2356: Condensed Mirror Flower Water Moon](#)

Suddenly.

The imaginary dragon-veined heaven realm, which looked like a bead, became like a scroll.

But there was nothing on it, with only some looming colorful dragon patterns.

At this time.

The incense aspiration power lingering in the virtual spirit universe, poured into it like a black hole, making its colorful dragon pattern more and more conspicuous.

"Jinghuashuiyue, Vientiane is blurred!"

"The incense souls in the Void Dragon Vein Celestial Realm should believe that they can completely control all the feelings of their counterparts."

"Well, it's time for training."

"..."

A gleam of thought flashed in Su Lang's eyes.

Then he grabbed some heinous souls during his lifetime and put them into the empty dragon vein heaven.

These souls enter it.

Soon it was eroded by the incense aspiration, and became a lunatic soul of incense.

Immediately!

"Clone dispatch!"

With a thought, Su Lang threw all the clones into the void of the Dragon Vein Celestial Realm, except for the clone that was used as a substitute for death.

These avatars were transformed into 'Life Mentors' under his command.

They act wildly, 'teaching' those incense souls to believe that they can dominate others.

quickly.

The first batch of incense souls were induced to embark on the 'right path of light', and then the following scene appeared.

I saw two incense souls, one tall and one short, standing face to face, staring with small eyes.

Soon.

"you are tired!"

The tall man's incense soul pointed at the short man and shouted very seriously.

"You are in pain!"

The short man pointed to the tall man and said solemnly.

"You are hot!"

The tall man pointed at the short man again, exclaiming in a sensational manner.

"You are...you are so cool!"

The short man pointed to the tall man...

This almost unreasonable behavior looks ridiculous!

but.

In their bodies, they have condensed a special incense aspiration power

—It is the raw material to condense [Mirror Flower Water Moon]!

"Hey, on the right track!"

"Now put in more souls and let them support each other."

Seeing this scene, Su Lang immediately opened his eyes and smiled, and then lost more souls to the Void Dragon Vein Heaven Realm.

The clone remains in it, and you can dispatch it at any time if you want to use it.

Next.

Su Lang summoned Xiaoluo of the "Mirror of Reincarnation" again.

Make it build a fourth judgment **** in the cycle of reincarnation, to collect souls, and put it into the fourth heaven of emptiness dragon veins.

Finish it all.

Su Lang temporarily put the matter of incense weapons aside, and then brought an eternal body in front of him.

"system!"

"Start the one-click decomposition function!"

Su Lang locked the eternal body with divine thoughts and issued instructions.

"Ding! Decomposition failed!"

A system prompt dispelled Su Lang's expectations.

"Failed."

Su Lang raised his eyebrows, but he was not surprised.

Follow the system function instructions.

The one-click decomposition function can only perfectly decompose any artificially refined items into various materials!

The eternal body is obviously not a refined item.

"Never mind."

"When I learn the anti-truth of chaos, I will reverse all the eternal body into the origin of the universe!"

"Hey, I will definitely make a lot of money again."

Su Lang rubbed his hands and put the eight eternal bodies into the storage space.

Immediately after.

He began to sort out the techniques he obtained from the eternal powerhouses.

The first is "Chaos Refining Anti-True Dao" and "Zhou Yuan Refining True Dao".

These two exercises were mastered by each of the eight people including Emperor Yuanmingzhou, and they were regarded as the basic exercises for the eternal realm.

The former is used to refining the origin of the universe and the core origin of the universe.

The latter can be reversed to the origin of the universe, restoring the cost.

The two exercises are all methods of using the power of the universe based on the Great Way of Time.

In addition to these two exercises.

There are also the eternal realm technique "Yuanming Infinite Dao" obtained from Emperor Yuanmingzhou, the "Xuanyu Without Reading Sutra" obtained from Xuanyuzi, and Emperor Fenglingzhou...

Su Lang temporarily put the rest of the exercises aside, picked up the "Chaotic Rebellion Anti-True Dao", and turned the look with his spirit.

The technique of eternal realm is difficult and obscure!

Even with this kind of exercise that everyone masters, the amount of information is so large that Su Lang speaks terribly!

Fortunately, you don't have to learn it by yourself.

You only need to read it once, and you can put it on the martial artists and let them work!

[Chapter 2357: Natural universe, endless universe](#)

"Go ahead, little babies!"

After Su Lang finished reading "Chaos Refining Anti-True Dao", he looked excited and threw it on the ten martial arts villains.

Suddenly.

Ten martial arts villains began to practice desperately!

The current one-key martial arts function has reached level 52, and the speed is 6000 trillion times.

Ten martial arts villains practice at the same time, and the speed will increase tenfold, reaching 60,000 trillion times! !

presumably.

It won't take long.

The martial artist will be able to finish it!

"Ah, so cool!"

Su Lang showed an intoxicated smile.

After a while.

His smile gradually faded, and the secrets and intelligence he had obtained from Emperor Yuanmingzhou appeared in his mind.

The first is information about the natural universe.

The natural universe is not unique, but there are countless numbers.

And countless natural universes constitute a piece of universe.

All the cosmic domains together are collectively called the endless cosmic domain.

There is a gap between the natural universe and the natural universe.

This is manifested in two aspects.

One is the resource abundance of the natural universe, and the second is the time flow rate of the natural universe!

Not bad.

The time flow rate of the natural universe is different.

The natural universe with faster time flow generally has abundant resources.

With the combination of the two, the time for the birth of the strong is much faster than that of the universe with low velocity.

And there are more!

Almost relative to the natural universe with the higher the flow rate of time, the stronger the stronger and the greater the number.

In general.

The natural universe in the endless universe is divided into levels according to the speed of time flow.

Specifically divided into bottom, lower, middle, upper and top!

The Boundless Universe and Yuanming Universe are just the lowest natural universe.

The flow of time is slow, and the training resources are not abundant.

Because the natural universe with a higher flow rate of time, relatively speaking, the faster the cultivation speed, the stronger will probably be more and stronger!

Their combat power can almost completely crush the lower-level universe!

So they all like hunting the universe with low time flow.

Once the coordinates of the underlying natural universe are exposed, it is easy to be killed by people!

The eternal realm powerhouses who were born in the bottom universe will be very eager for the universe with higher time flow, and hope to enter into it to practice.

of course.

There are also strong people who live in low-time flow areas, mostly salted fish that have lost their enterprising spirit.

Because of the rigid demand for cultivation resources.

In the endless universe, the eternal powerhouses often attack each other and occupy each other's universe.

This also prompted some eternal powerhouses to hug each other, just like the seven people such as Xuanyuzi.

This kind of group is the embryonic form of the eternal power.

In the endless years.

Even the eternal powerhouses, who are extremely few in number, have established powers one after another, occupying one side of the universe.

The forces will also attack each other and fight fiercely.

There are also neutral forces, accepting eternal strong from various places, which is equivalent to an exchange and trading platform, earning some security guarantee money.

And the information obtained by Emperor Yuan Mingzhou.

It comes from an eternal strong man in the universe with a high time flow rate in the universe.
even.

Yuanming universe can develop to this day, Yuanmingzhou emperor can hunt the nine natural universes.

It's all because of the benefits gained from this eternal strong man.

Mo Wuyuan is the name of that strong man.

"did not expect."

"One by one, the natural universe will be such a world."

"Sure enough, it's still the same cruel, even more cruel!"

"The Boundless Realm is just the bottommost universe. There are countless universes with a faster flow rate than the Boundless Realm."

"Those who are in the universe with a high time flow rate, their cultivation speed is faster than that of the endless universe, I don't know how much."

"Well, if you come into contact with a higher-level natural universe and a more powerful existence in the future, my terrifying speed of cultivation will be able to flicker to a certain extent."

"..."

Su Lang thought so, and immediately looked at the second piece of information from Emperor Yuanmingzhou.

This information related to the boundless universe answered a doubt in Su Lang's mind.

[Chapter 2358: Xin Mi, Nine Desolate Universe Region](#)

exactly.

It's the secret of the boundless world.

As a powerful eternal realm powerhouse.

Emperor Yuanmingzhou survived for tens of billions of years.

He had known the coordinates of Infinity Boundary a long time ago and started the invasion plan.

It was definitely not a rash attack in person at first.

Rather, it is trying to detect intelligence and plan to move.

This also made Emperor Yuanmingzhou's understanding of the Boundless Realm far surpassing Dongfang Taiyi's half-step eternity.

Even Eastern One is a strong man born and raised in the boundless world.

As for eating evil.

This guy did not dare to show up when the boundless universe was prosperous, for fear of being killed by the strong.

So He has been hiding in a very remote place.

Even the Battle of the Boundless Realm didn't participate, just watched from a distance for a while.

Although he was born at the beginning of the universe.

But before meeting Su Lang, he had never stepped into the boundless world.

Therefore, his understanding of the Boundless Realm was actually very weak, and he could not tell Su Lang any valuable information.

at this time.

From the body of Emperor Mingzhou.

Only then did Su Lang get some secrets about Infinite Realm.

The boundless universe.

He even once teamed up with the rest of the universe to form a small force called the Nine Desolate Universe!

The Nine Desolate universe is composed of nine bottom natural universes, and has nine eternal realm powerhouses.

And that era was called the Hunyuan era.

The Hunyuan era is the most powerful era in the boundless universe, with a large number of half-step eternal strong men, and warriors in the early days are not uncommon.

The Buddhism eternal level secret technique 'Hexintong' and 'Divine Realm Communication' practiced by Su Lang.

It came from one of the natural universes called Tianfan.

The nine natural universes gather together, communicate with each other, and gradually develop and grow.

But at a certain moment.

The Nine Desolate Universe has been plundered from the higher universe.

Almost all of the nine natural universes suffered devastating disasters.

Take the endless universe as an example.

At that time, the eternal realm powerhouse died directly.

A lot of half-step eternity also vanished.

Infinity was not a continent at that time.

It is a super-giant planet with nine layers of space-time walls, and its name is 'Wuyin'.

The space-time superstars of Yuanming Universe are nothing compared with them.

In that plunder of the upper universe.

Most of the "Boundless" was robbed directly, and the rest formed the Boundless Realm.

The core of the Boundless Realm contained in it was only a very small part of the 'Boundless', and most of it was looted.

As for why this is left, the circumstances at the time are not known and cannot be inferred.

After the Nine Desolate Universe was looted.

The eternal realms of the various universes fell one after another and became extremely weak.

To protect yourself.

The major universes have agreed not to disclose their space-time coordinates.

Immediately disconnected, each closed and self-contained, recuperating and restoring vitality.

After the long years.

In the nine natural universes of the Nine Desolation Universe, one after another, the universe reappeared in the eternal state.

But some, but there is still no eternal state.

Based on the understanding of each of the nine natural universes, one can roughly guess when the other party will be able to appear strong in the eternal realm.

therefore.

As time goes by.

In the nine natural universes.

In some natural universes that have not yet produced the powerful in the eternal realm, their rulers have begun to worry and panic.

In this cruel world.

Alliances can only exist with equal strengths.

Otherwise, you will only have the remaining chips.

For example, three of the seven people of Xuanyuzi have mastered the coordinates of the higher-level natural universe, and can use them as a bargaining chip to increase their weight.

In the Nine Desolate universe.

The coordinates of the natural universe without eternity are known by other universes.

Therefore, it is very likely to become a hunted target.

In an extremely intense crisis.

The previous agreement not to disclose coordinates to each other became a piece of waste paper.

This is how the boundless universe was betrayed.

According to the information obtained by Emperor Yuanmingzhou.

It was the 'Genluo Universe' in the Nine Desolate Universe, which leaked the coordinate information of the Infinite Universe to 'Milan Universe'.

Exactly not long after, Emperor Yuanming Zhou hunted the 'Milan Universe' and learned the news.

But 'Genluo Universe' is a chicken thief and has not revealed its coordinates.

therefore.

Emperor Yuanmingzhou only got the coordinates of the boundless universe, and then started the invasion plan.

[Chapter 2359: Clean up the source universe](#)

When trying to explore the situation of the boundless universe.

Origin Mingzhou Emperor discovered.

There is a space-time shuttle channel in the natural universe that is about to be built, relying on the veins of the Infinity Realm.

This natural universe space-time shuttle channel must be connected to the rest of the universe in the Nine Desolate Universe.

No matter what the previous purpose was.

At this time, this passage that is about to be built is likely to become a way for the boundless world to obtain support.

therefore.

In the middle of the war.

Emperor Yuanmingzhou deliberately crushed it into four broken continents.

Destroyed the space-time shuttle channel to be built in the veins.

"So this is the ins and outs of things."

"The ruler of the Genluo universe speculated that there was a strong eternal realm in the Infinite Universe, so he acted first to be strong and leaked the coordinates."

"Sure enough, Emperor Yuanmingzhou got the coordinates and came to invade the boundless universe. It was so successful."

"If it were not for me, the boundless universe would have fallen into the eternal night."

"Tsk tsk, this trick to provoke a tiger and drive a wolf is quite easy to use."

Su Lang narrowed his eyes slightly, and a sneer was slowly drawn at the corner of his mouth.

According to the information obtained from Emperor Yuanmingzhou.

There are still fragments of the space-time barrier passage in the deep veins of the Boundless World, and inside it contains the coordinates of the other eight natural universes!

Emperor Yuanmingzhou was very happy to plan to reverse the Boundless Realm, and immediately searched for the coordinates and continued to hunt the rest of the universe in the Nine Desolate Universe.

of course.

He has no chance!

"The coordinates of the other eight natural universes belong to me!"

"Gen Luo Universe, right? When I finish dealing with things here, I will find time to be a guest!"

There was a dangerous light in Su Lang's eyes.

The Boundless Universe is his territory. He was betrayed by Genluo Universe and almost finished. How could he just laugh it off?

Adhere to the principle that hatred must be avenged, and the world has no hatred.

Su Lang immediately decided that he must retaliate back!

of course.

before this.

There are more important things to do.

That is to search the natural universe of Xuanyuzi and others first.

This is a ready-made trophy.

"Let's start with Yuanming Universe first!"

"There are still some remnants of Emperor Yuanmingzhou in this universe."

"These guys were also sinners who invaded the endless universe!"

Su Lang's eyes were cold, and the icy killing intent almost frozen the surrounding void.

next moment.

"The one-click treasure hunt function is activated."

"The auxiliary function 'Soul Soul' is activated!"

With a thought of Su Lang, he immediately let the treasure hunting ancestral glider return to Yuanming Universe, and immediately launched his 'hunting soul' ability.

Those twenty-odd and half-step eternal strong.

All the treasure hunting ancestral gliders have been seen, and naturally it is very easy to start the soul tracking.

Not long.

The treasure hunting ancestral glider, who possessed the eternal speed of one universe, found the first half-step eternity.

This half-step eternal prostrate in a quiet room with a very respectful posture, trembling slightly, waiting for the winner to come.

His life is closely related to Emperor Yuanmingzhou.

Emperor Yuan Mingzhou fell, he felt it for the first time, and was seriously injured as a result.

But it's not dead.

So planned to surrender to the next eternal strong.

suddenly!

"Squeak!"

The treasure hunting ancestral glider with black gold stripes appeared in front of him instantly.

"Xia Nu knock to see seniors!"

"There is still value in being a slave, please forgive me!"

"..."

In this half step, the eternal strong man grabbed the ground with his head, banged and banged, and his whole body was thrown to the ground with five bodies, which was extremely humble.

however.

No matter how humble, there is no use for eggs.

"Clone dispatch!"

Su Lang dismantled the avatars of Xing Cuanyun and soon dispatched one of them.

then.

An indifferent clone appeared before the half-step eternity.

"Rao--!"

The half-step eternal and stern begging for mercy just came to an abrupt end.

"next!"

Su Lang's expression remained unchanged, and he continued to give orders, taking away his eternal life one and a half steps.

then.

Treasure hunting ancestral gliders and clones cooperate.

Started to hunt down eternity one and a half steps.

No matter where those half-step eternal powerhouses escaped, they couldn't escape the treasure hunting ancestral glider's soul search method.

There is only one word in the final end, and that is death!

[Chapter 2360: The cautious Emperor Zhou](#)

It was also when Su Lang cleaned up the remaining power of Emperor Yuanmingzhou.

A prosperous natural universe.

Suddenly an extremely strong temporal and spatial fluctuation erupted in a pitch-black void!

"what?"

"Someone has entered my natural universe!?"

"Damn, when were the coordinates leaked?"

"If this is the powerful eternity of the high-level universe, I will be finished!"

"No, all the back players arranged before must be activated. Once the comer is too strong, I will avoid other places!"

"..."

In the natural universe, in an endless sea of red clouds.

A middle-aged man with a high crown on his head and vicissitudes of life but extremely sharp eyes is refining some treasures.

This person is called the "Yushu Zhou", is a three-plane eternal realm cultivator.

Suddenly, Emperor Yushu Zhou's face changed drastically.

The next moment.

He immediately used his supernatural powers to stare at the time and space fluctuations, and activated various backhands, ready to run away at any time!

Just then.

At that time, the sky volatility became more and more intense.

suddenly.

An extremely coquettish woman appeared, her expression nervous, her face pale!

This person just showed up.

Yushu Emperor Zhou suddenly widened his eyes, revealing an unbelievable look.

Because the comer turned out to be a half-step eternity!

"Junior and coquettish woman, see your majesty the great eternal emperor!"

Half a step, the eternal woman knelt directly in the void, bowing down with a trembling voice.

The eternal emperor.

It is a more common name for someone who is unfamiliar and eternally strong, not a special name for someone.

Therefore.

This glamorous woman actually didn't know what kind of eternal power she would face.

She just followed the order given by her master in advance.

Through the prepared space-time barriers of the natural universe, travel to this natural universe and ask to see the master of this universe.

"A half-step eternity?"

"Dare to come to my universe alone?"

"However, it looks like something is going on!"

"Something is wrong, there may be fraud in it! I must be careful!"

Emperor Yushu Zhou's expression loosened first, and then he became more cautious than before, and even planned to leave here.

but.

He still took a deep breath and didn't escape.

Immediately after.

Yushu Emperor Zhou made a clay figure out of the mud, used the technique of time and space, and threw it in front of the coquettish woman.

"Who on earth are you?"

"What is the purpose of coming to my natural universe?"

"I only give you three breaths. If you can't tell, I will kill you!"

The clay figure looked angry and yelled at the coquettish woman. A very powerful aura erupted from his body, and he was about to act in the next instant.

"Master Zhou, please spare your life!"

"The little girl just passed this thing to an adult in the name of the master!"

The fascinating woman was terrified and said with trembling all over, and tremblingly took out a jade slip, her head was lowered, and her hands were offered.

"what?"

"Give me something?"

"I don't know anyone in the eternal realm!"

"Could it be that this is a confession given to me so that I can catch it?"

Emperor Yushu Zhou took a deep breath, the drum in his heart beating faster and faster.

Soon.

He was a little scared to let the clay figure take the jade slip in the hand of the coquettish woman.

The coquettish woman was terribly scared, knelt there trembling and uneasy.

"If it's really the ultimatum."

"How can that be good?"

Yushu Emperor Zhou thought very worried, and then began to check the contents of the jade slip.

This look.

Suddenly he was dumbfounded.

I saw in the jade slip:

The junior Zhang Shan, pay a visit to Senior Yushu... Therefore, the junior has fallen at this time... The seven natural universe coordinates are provided. When the senior hunts the seven people, by the way, revenge for the junior!

"what!?"

"Give me the coordinates of the natural universe!?"

"How is this possible, such a good thing, it is impossible to hit me in the head!"

"It's incredible, this is absolutely fake, it's definitely a trap!"

"Don't go, don't go to death!"

"..."

After reading the contents of the jade slip, Yushu Emperor Zhou was not ecstatic, but was shocked and his expression changed drastically.

He has come to this point with far more caution than others, he will not easily believe in such a good thing!
