[Chapter 2361: Search forty-eight natural universes](#)

"And this woman."

"It's also very possible that something has been put down on him, which can be tracked or monitored!"

"It must be disposed of, but it cannot be killed. Killing may trigger any other means."

"Catch it up first!"

"..."

Yushu Emperor Zhou thought so, and then took control of the glamorous woman in the air, and imprisoned him on the spot.

And the imprisonment is extremely exaggerated.

Used a variety of eternal realm secret techniques, displayed thousands of cages, and kept the woman in them.

Immediately after.

He then used time and space shuttle means.

I went directly to a natural universe I had hunted, ready to stand up and observe the situation with the eyeliner left.

Emperor Yushu Zhou didn't know.

His caution allowed him to successfully avoid a catastrophe!

Because at the same time.

Su Lang had already begun to attack the natural universe of the seven people including Xuan Yuzi.

Nature also includes Zhang Shan's natural universe.

If Emperor Yushu Zhou was delighted and immediately started hunting the natural universe, it would probably have encountered Su Lang.

At this moment.

Su Lang used the power of the Great Dao of Time and Space to shuttle through the barriers of the natural universe and came to the universe of Mysticism.

Mysterious universe.

It is a very old natural universe.

The innate universe-level treasures like the core of the boundless world are gone, and they have long been eaten up by the eternal ages.

Also the Boundless Universe, in the most resource-rich era, was robbed by a big man once, leaving behind the leftovers that looked down upon, and there was no eternal realm powerhouse who had time to refine it, and those remaining Boundless Realm cores would remain until now.

Wandered around in the mysterious universe.

Su Lang found that the heaven and earth aura in this universe was quite sufficient.

In addition, the population is very, very large.

"To the eternal state."

"Ordinary warriors need to use the origin of the universe to perfect the crystal wall universe."

"And I don't have to be the origin of the universe. It can also be used by absorbing the energy of the universe and transforming it into a cultivation base, and it is more convenient and faster."

"These natural universes of Emperor Xuanyu Zhou and others can be used to extract cosmic energy!"

"Those populations are collected into the crystal wall world in the body."

"Now, the crystal wall world where I live in is only more than 1,000 gai, and there are more than 60,000 gai left, which can completely collect a large number of planets and continents."

"..."

Thinking about this, Su Lang immediately issued an order.

Let the clone cast Baiying clone, transform into more than 15,000 clones, and begin to scrape the natural universe in front of him.

The clones are all eternal levels now!

Even if the Hundred Shadows clone function is used, the combat power drops sharply, it is still eternal!

Fifteen thousand five hundred eternal eternity, just ask if you are afraid!

These eternal clones work super fast.

When collecting the planet of life, it is the collection of an entire galaxy.

After that, he transferred it to the deity of Su Lang, put it into the crystal wall world, and transformed it into a mad believer with the light of the world.

No matter what level of powerhouse, even if it is half-step eternity, it will not be spared under the shining light of the Myriad Realms.

"This time add the ten natural universes of Emperor Yuanmingzhou."

"I got a total of forty-eight natural universes!"

"These natural universes are very barren to the eternal state."

"Even if I have various system functions and can use resources with terrifying efficiency, it is not enough."

"At the time of eternity, the demand for cosmic energy alone is very scary. The cosmic energy to **** up a living planet in one breath is all pediatrics."

"You still have to go up and look for a more advanced natural universe, where the flow of time and cosmic energy will be higher."

"Otherwise, staying in this basic-level universe will lead to a slow increase in strength. If you are crushed by the bosses of the higher-level universe, and instantly overturn dozens of my universes, I might be stunned even if I have a dead clone."

"..."

Su Lang's eyes were shining brightly, and he made up his mind to go to a more advanced universe if he had the opportunity!

Next.

Su Lang was ready to set up a great gathering array in the mysterious natural universe.

He wants to take away most of the life planet and cosmic energy in this world!

of course.

Before the formation, some preparations must be made.

[Chapter 2362: Founding Chaos Refining Anti-True](#)

He read all three classics of Pill, Formation, and Qi of Xuan Yuzi and others.

It turned out that some ancient books actually recorded the formation and pill of Eternal Realm!

These formations and alchemy, because his one-key formation and alchemy functions have reached the limit, they cannot be learned instantly.

"It's time to improve system functions again."

"The one-key mixer function was raised to the limit before, and 11021 universe origins remain."

"This can completely improve the functions of one-key formation and alchemy."

Su Lang ticked the corner of his mouth and gave the instruction directly.

Suddenly.

"Ding! Consume 1000 universe origins, unlock the one-key alchemy function to level 16, you can refine the eternal eternity and its lower-level pill!"

"Ding! Consumes 1000 universe origins, unlocks the one-click array function to level 16, and can refine the one-time eternal and lower-level arrays!"

After the system prompt ends.

Su Lang immediately realized that he could learn those classics in an instant.

quickly.

He learned all the classics, and made his own three-dimensional pill formation attain a brand-new breakthrough and entered the eternal level!

"It's so cool!"

Su Lang nodded in satisfaction, and then went to the most abundant cosmic energy area of the Mystic Universe, and began to design a combined spirit gathering formation method!

Based on his knowledge of the formation at this time, and integrating the essence of dozens of universes, the combined formation that he designed has properly reached the eternal level!

"Start the formation!"

Su Lang designed the eternal realm united formation and immediately began to deploy.

Su Ta's current soul has broken through the previous limit, and the detection range of his divine consciousness has skyrocketed ten thousand times, reaching a terrifying one trillion light-year radius! !

Use the function of one thought formation.

Within the scope of the divine mind, countless formations appeared instantly!

These formations are like huge vortices composed of countless small vortices, and like a huge black hole lying in the center of the universe.

The energy floating in the void of the universe is like iron filings encountering a strong magnet, and it is involuntarily drawn over.

In a blink of an eye.

A large amount of cosmic energy appeared in the formation.

Because the concentration is too high, it directly condenses into solid crystals!

This is not over yet.

The array that Su Lang arranged can further compress it, become more compact, and have a higher energy level!

"A natural universe with eight eternal spirit gathering formations is almost enough."

Su Lang speculated based on the current situation, and then immediately went to the other seven directions and successively arranged seven eternal realm spirit gathering formations.

Suddenly.

The eight eternal spirit gathering formations frantically extract cosmic energy in the eight directions of the natural universe and turn them into pieces of energy spar.

Immediately after.

Su Lang immediately went to the next natural universe.

In the same way, set up an eternal spirit gathering array.

Simultaneously.

The clones are also frantically collecting the planet of life.

Has a one-key dispatch function.

The mobility of these clones is super terrifying, they can dispatch trillions of light years at a time, and then collect the life planets within the scope of the divine mind!

Even some inanimate planets, as long as they feel valuable, they will all be taken away!

In a blink of an eye.

The Xuanyu universe became empty, and all the planets of life entered the crystal wall world of Su Lang.

Time passed slowly.

Including Yuanming Universe.

The entire forty-eight natural universes were finally scraped by Su Lang!

All life planets were taken into the crystal wall world by him.

Every natural universe has become clean, leaving only eight eternal realm united spirit gathering formations.

They continue to extract cosmic energy and turn them into energy spars, waiting for Su Lang to harvest.

That was when Su Lang arranged the spirit gathering formation in the last universe.

"Ding! "Chaos Refining Anti-True Dao" has reached the founding level!"

A system prompt sounded suddenly.

Immediately after that, a large amount of the profound meaning of the exercises was integrated into Su Lang's soul, making him directly master the exercises to the founding level as if he had practiced for countless years.

"Oh~!"

"This exercise is finally completed!"

"From then on, I can also reverse the origin of the universe."

"The key is that I still have so many clones, and I can reverse the origin of the universe together!"

"The half-step eternal powerhouses who have subdued in the natural universe before can also grant the Avenue of Time, let them break through to the eternal state, and then work for me!"

"In addition, I have a book of "Nine Lands of Taoism", which can transform ordinary land into treasure land!"

"Now this exercise is also an eternal exercise, and it can instantly transform ordinary land into a high-level treasure."

"After the transformation, I will use it to reverse the origin of the universe. It's so beautiful!"

Thinking of this, Su Lang couldn't help his eyes light up.

[Chapter 2363: Three Nine Wilderness Universe Coordinates](#)

There are more than 15,000 eternal realm clones to help.

Su Lang got the origin of the universe much faster than others!

"I really want to try it now."

"Anyway, the clones are now finished."

"[Jinghua Shuiyue] In the Void Dragon Vein Celestial Realm, those incense souls are also on the right track, and no longer need the guidance of the 'Life Mentor'."

"The liberated clone is temporarily used to reverse the origin of the universe. I don't know how much can be reversed in a day?"

"..."

A light of thought flashed in Su Lang's eyes, and he immediately decided to return to the boundless universe, and then began to execute the plan.

of course.

Before that.

It is also necessary to leave an eyeliner in these more than forty natural universes.

It is the best choice to choose forty-eight Baiying clones as eyeliner.

Anyway, if they stay here, it won't prevent them from refining the origin of the universe for Su Lang.

Just do it.

Su Lang first took "Zhou Yuan Refining the Truth" to the villain Xiwu to wash his face.

Then left one clone in each of the forty-eight natural universes.

Immediately after.

Then returned to the boundless universe.

Back to the boundless world.

Su Lang did not refining the origin of the universe for the first time, accumulating cultivation.

Instead, he sent a clone to sink into the bottom of the Boundless World, and began to search for the coordinates of the natural universe in the Nine Desolate Universe.

At that time, the time-space barrier channel of the natural universe that was about to be completed in the boundless realm was the array method used.

For Su Lang, it is easier to find!

The divine consciousness that covers a radius of one trillion light-years unfolds, and only needs to search in the earth veins.

quickly.

Su Lang found the existence of some suspected formations.

"The channel formation at the time was very badly damaged!"

"It turned into such a crushed state!"

"Fortunately, I have the formation control function, and now I have reached the eternal state, and can perfectly analyze the residual fragments of these formations."

"..."

Su Lang frowned slightly, and various thoughts emerged in his mind.

suddenly.

His eyes lit up!

Because he analyzed the space-time coordinates of a natural universe from an inconspicuous array fragment!

"Hey!"

"Found one!"

"Unfortunately there is no name. I don't know which of the eight natural universes this space-time coordinate represents?"

While thinking about it, Su Lang kept the space-time coordinates firmly in his mind.

Soon.

He continued to search and analyze the coordinates with the clones.

In a blink of an eye.

He has searched the entire boundless world.

The boundless world is really huge, very vast.

But in front of Su Lang at this time, it was nothing at all, the divine consciousness of a trillion light-year radius could directly cover a quarter of the boundless world!

Next.

It is the pure analysis link of space-time coordinates.

After spending a little time.

Su Lang successfully resolved the coordinates of the three natural universes, and there was nothing more.

"There are only three."

"It seems that the original endless universe did not dare to contact all of the eight natural universes."

"And these three natural universes are probably presumed to be universes without eternal realms."

The corner of Su Lang's mouth raised slightly, and a smile was outlined, "In that case, go and take a look when things are almost done here."

The remaining forty-eight natural universes have been cleaned up.

just now.

It's the turn of the endless universe.

Because this is a grassroots universe.

So Su Lang didn't plan to stay here for a long time, but planned to pack everything away.

Including the vast continent of Boundless Realm, it must be taken away.

"With my current formation skills."

"There is no need to build a shuttle formation with the help of the earth veins like the previous infinite powers, just find a place."

"Cavages, go, pack all the planets of the boundless world."

"..."

Su Lang thought, and finally sent the clones out again.

And he himself.

Then entered the land of exile.

[Chapter 2364: You successfully seized the opportunity](#)

"The time acceleration effect of Exile has been greatly reduced."

"I am now equivalent to a complete universe."

"The place of exile created by Zhaoyu's life's painstaking efforts has been transformed by me to its current appearance, but unfortunately it can't keep up with my pace."

"The effect of time acceleration has almost no effect on me."

"Fortunately, the energy transmission network of the Celestial Void Realm is still useful and can condense the extremely high concentration of cosmic energy."

Su Lang thought so, and immediately looked at his cultivator villain.

After this time.

Its color has all become golden again, and it is still continuing to cultivate more!

"So many cultivation bases can almost perfect a lot of Crystal Wall Universe!"

"But now I don't convene much, save more cultivation base, and wait for me to test whether the three incense weapons can evolve."

Su Lang touched his chin, and immediately a thought flashed in his heart, summoning the biting evil.

Evil Devouring is in the land of exile.

Called by Su Lang, he rushed over.

"Meet the great Lord!"

Evil Devouring turned into a human form, kneeling before Su Lang, trembling, respectful.

"Look at what this is."

Su Lang nodded slightly, and immediately stopped selling it.

With a wave of his hand, he took out the Qibao Miaoshu, the Purple Gourd and the Heart-piercing Lock and placed them in front of the evil spirits.

"This is... an incense weapon!?"

"Using endless special incense, condensed, an incense weapon with strange characteristics!"

Devouring evil is worthy of being an innate creature with incense. He could see the details of the three weapons at a glance, and he was stunned in surprise.

Incense will power is omnipotent.

It is not uncommon to use it to build weapons. It can be used to create creatures.

but.

If it is Qibao Miaoshu and other three pieces of up to half-step eternal grade, and the characteristics are extremely pure incense weapons.

Eat evil has never imagined!

Because it requires too much special incense power!

Even if he is an innate incense creature who has an instinctive means of controlling incense aspiration, it is difficult to create such a wonderful, but extremely pure weapon.

The most arrogant thing about eating evil is his control of the power of incense.

But Su Lang could **** his incense aspiration power at any time, and at this time he could create such a terrifying and pure incense weapon.

This made him doubt about life, whether he was a creature of innate incense!

Perhaps, he is not, Su Lang is! ?

"Not bad."

"This is the weapon I made with the special incense willingness."

"But they have no weaponry, they cannot control the avenue of time, and it is difficult to sublimate to the eternal state."

"Therefore, I want to ask you if you are interested in being a tool for them."

"If you succeed in becoming their spirit, then you will evolve to the eternal state in a very short time, and your subsequent ascension will be easier."

Su Lang smiled slightly, he had already given the chance, and it was up to him whether he could grasp the evil spirit.

"Subordinates are willing!"

"Great Lord!"

"Subordinates are willing to be the spirit of these three incense weapons!"

Ji Xie did not hesitate, and immediately kowtowed to Su Lang with an excited expression.

"well."

"You successfully seized the opportunity!"

Su Lang smiled slightly, "Trust me, you will be thankful for it."

"Subordinates believe the Lord's words unconditionally."

Ji Xie kowtowed again, and then hesitated, "The subordinate has a question. There are three incense weapons, but there is only one subordinate..."

"You don't need to worry about this."

"I have prepared a solution."

"Come here, I will instill an eternal realm technique for you!"

Su Lang smiled faintly, and gently waved at the biting evil.

"what!"

"Eternal Realm Technique!?"

"To instill in subordinates!?"

"This, this, my subordinates thank the Lord for your kindness!"

After listening to Su Lang's words, Ji Xie was so excited that he was shaking all over.

The eternal realm's exercises!

He devours evil, although he is an innate incense creature, he has a great advantage.

But it is precisely because of this.

He is not only a child with no father and no mother, but even no class.

The rest of the wise creatures can have various inheritances, but he only has two inborn too elementary methods, eating the hearts of demons and crossing time and space.

Do not even think about the eternal realm's exercises.

[Chapter 2365: Eat Evil and Kill Thirteen Corpses](#)

but now.

Su Lang is going to give him.

This is another great gift!

With endless excitement, Ji Xie knelt before Su Lang, raising his head excitedly.

"Start the exercise empowerment!"

Su Lang pressed the center of his eyebrows, his heart moved, and he began to instill the exercises.

This exercise Su Lang was obtained from a long time ago, and it was called "Thirteen Corpses".

This was originally a godless incense technique.

It was also the first book that Su Lang got, a technique that can protect people from incense!

Its biggest feature is that after practicing, you can integrate the incense aspiration power into yourself, cutting out thirteen incense avatars such as joy, anger, sorrow, and joy!

This ability is quite tasteless for Su Lang.

But for the biting evil at this time, it just solved the trouble.

Although the "Thirteen Corpses" that has reached the eternal state can still only cut out thirteen clones.

But you can freely choose to cut out any clone of incense.

In other words.

After Qi Xie got this technique.

You can cut out clones that fit the "Seven Treasure Tree", "Purple Gold Gourd" and "Piercing Heart Lock" respectively.

There will be more incense weapons in the future.

For example, Jinghua Shuiyue is condensed, and Evil Devouring can also cut out the clone corresponding to this weapon.

These clones will be used by Su Lang as refining materials and incorporated into the incense weapon to be refined into spirits.

Because the Evil Devouring clone matches the weapon's characteristics, it will not cause any bad effects on the weapon itself.

At this moment.

Instilled in Su Lang's exercises.

Evil Devouring mastered the Eternal Realm "Thirteen Corpses" almost instantly!

"It turned out to be such a technique!"

"Furthermore, his subordinates directly grasped it to the founding level!"

"Evil devouring and thanking the Lord for his generous gift, will definitely live up to the Lord's high hopes!"

Ji Xie turned to look at the profound meaning of the exercise in his mind, his expression was so excited, he could hardly wait to hug Su Lang's thigh.

Although he is currently only half of the eternal state.

But "Thirteen Corpses" fits perfectly, and at this time it is almost instinctive.

It is completely achievable to cut out the clone with the deep meaning of the exercises.

"Okay."

"Cut out the clone now."

"Well, cut according to these three incense characteristics!"

Su Lang smiled faintly, and then took out three crystals, which were the special aspirations of the Qibao Miaoshu and other three weapons.

"Yes, Lord!"

Jixie took three special aspiration power crystals, and then began to feel the characteristics of incense aspiration power.

"Seven Treasure Tree, I can **** others' things, but others can't defend it!"

"Punching the heart lock can not only seal the body and soul, but also make life worse than death during the sealing process!"

"Zijin Calabash, as long as the real name is called, if the enemy responds, it will be installed in it. It is only a matter of thought!"

Biting evil felt the characteristics of the crystals of three special aspirations, and muttered silently in his mouth.

He is very powerful in the grasp of incense willingness.

therefore.

In an instant.

The clone to be cut has already been determined!

Immediately after.

Under Su Lang's gaze.

"Thirteen corpses! Open!"

The Evil Devourer rose into the sky, rose to the sky, suddenly transformed into the body, and performed the exercise!

Suddenly!

A burst of incomparable weirdness caused the horrifying breath of countless people in the Exiled Land to blow away, filling the surroundings.

Soon.

Seeing that the giant body like the black hole of the evil spirits began to slowly split into four parts!

Every serving is the same size!

Each one contains the soul that has mastered the path of time!

At the beginning.

The four 'little devourers' are still somewhat unstable.

Each one showed an extremely painful and distorted form.

It is simply worrying whether they will explode in place.

But soon.

The four "Little Evil Devourers" completely stabilized

"Master!"

They all flew in front of Su Lang and turned into four children in black.

"Yes, well done."

"Next, I will refine three of your clones into weapons."

Su Lang nodded with satisfaction, "You must bear the pain."

"Don't worry, Lord!"

"Even if your subordinates die, they won't be so painful!"

The four "little biting evil spirits" spoke in unison, with serious faces.

[Chapter 2366: Sublimation, incense weapon of eternal realm](#)

"it is good!"

"Then start now."

Su Lang nodded slightly, then stretched out his hand, and suddenly a handful of flames appeared in front of him.

It is the 'Colorful Burning Heaven's Wonderful Flame'!

but.

It is no longer the previous level.

because.

Alien fire is not only in the boundless universe.

They were born in the innate treasure land where the endless energy condensed at the beginning of the universe, which is the core fragment of the boundless world.

During the birth of the rest of the natural universe, there are also core fragments similar to the infinite realm, which will naturally produce abnormal fire.

After killing Yuan Mingzhou and others.

Su Lang has once again received a large number of strange fires, as many as tens of thousands of types! at this time.

Those alien fires have all been integrated into the 'Colorful Burning Heaven's Wonderful Flames' by Su Lang, evolving them into an eternal level!

This level of strange fire.

Not only is the combat ability very strong, but it can be used to refine the alchemy and refine the array. at this time.

Colorful Fentian Miaoyan turned into a pitch black vessel under Su Lang's control.

This cauldron is both a cauldron and a fire!

"Go!"

Su Lang nodded at Shixie, then waved the Qibao Miaoshu into the cauldron.

"Yes! Lord!"

Ji Xie nodded solemnly, and immediately one of the clones jumped and plunged into the pitch black cauldron.

See this scene.

Su Lang also took out a large number of the special aspiration crystals condensed in the Seven Treasure Tree Void Dragon Vein Heaven Realm, and threw it into the Qi Ding.

Immediately after.

The pitch black cauldron suddenly began to spin.

The three evil-eating clones outside the cauldron were shocked, their complexions were painful, and almost all their facial features were distorted.

But even so.

He did not exhale in pain.

Su Lang nodded slightly, and then began to concentrate on refining the Seven Treasure Tree.

This refining is not a refining from scratch.

It's just that the clone of Devouring Evil is integrated into it, so that it fits and forms a spirit.

therefore.

This does not take long.

After an hour.

The pitch black vessel cauldron slowly stopped its operation, and immediately collapsed into countless colorful flames, lingering in the void, extremely gorgeous.

Among the brilliant colorful flames.

A brand new Qibao wonderful tree appeared.

It is as radiant as ever, but it has a strong spirituality, which makes people know that this is a living thing at first glance!

"how do you feel?"

Su Lang looked at the brand new Seven Treasure Tree, his eyes flashed.

"The lower servant, thank the Lord for the gift!"

"The servant feels good, like...getting a new life!"

The Seven Treasure Tree flew directly in front of Su Lang and became a tree man with branches above his head.

Although the color is still colorful, it is not messy, but has a regular charm.

"Ah, very good!"

Su Lang smiled faintly, "Next, let's try evolution!"

Searched eight eternal bodies, forty-eight natural universes, countless life planets and life continents.

There are more than 100 billion trillion crystal wall worlds containing creatures in Su Lang!

There are simply innumerable intelligent creatures living in it.

Every minute and every second, there is a huge amount of incense and wishing power pouring into the virtual spirit universe, into the void dragon vein heaven!

therefore.

Until now.

A large number of special aspirations have been gathered in the three void dragon-veined heaven realms including the Qibao Miaoshu!

Su Lang speculated that these crystals were enough to make Qibao Miaoshu and other weapons evolve once!

At this moment.

Su Lang waved away the strengthening effect of Qibao Miaoshu.

The two strengthening effects disappeared, and the power of the Seven Treasure Tree was reduced to a half-step eternal level.

But the Seven Treasure Tree, which possesses the magical spirit, has mastered the power of the time avenue, which is obviously stronger than before!

"system!"

"Start weapon evolution, target Qibao Miaoshu!"

Su Lang directly locked the Seven Treasure Tree with his spiritual thoughts, and issued an evolution order!

"Ding! Consuming special incense and wishing power to crystallize *100 million, Qibao Miaoshu has evolved into an eternal weapon!"

Accompanied by system prompts.

The incomparably majestic and mysterious power was integrated into the Seven Treasure Tree, and it was immediately sublimated!

But seeing Qibao Miaoshu's body burst out incomparably powerful and unique aura, as if all the weapons would be taken away if you were close to him.

[Chapter 2367: Crystal Wall Universe is strengthening](#)

"Evolution succeeded!"

Su Lang ticked the corner of his mouth, very happy.

"Master!"

"The servant evolution succeeded!"

"I feel that the eternal nature of the force has changed into energy, called 'Nian Yuan'!"

"..."

Colorful Treeren said to Su Lang in ecstasy.

Su Lang also learned the result of the further qualitative change of the incense aspiration power-the power of Nian Yuan!

The power of mind source is divided into many types.

The power of the omnipotent source of thought is the most terrifying, and it can be transformed into any substance or even beings that does not exceed the level of the current source of thought. ,

just.

The power of perfection and perfection is almost non-existent.

Because there are too many thoughts of endless beings, and all beings are endless, the types of thoughts they generate will never end and tend to be infinite.

In addition, it is extremely difficult to obtain the power of mind source.

Therefore, it is almost impossible for anyone to condense the true universal power of thought source!

Under normal circumstances, they can only condense the power of a certain characteristic of the source of thought.

Just like now.

The Seven-Colored Treeman, who is the fusion of the Evil-Evil Clone and the Seven Treasure Tree, has condensed the power of the source of thought with the characteristic of 'looting weapons'.

Using this power of thought source, it can fight against the power of the universe to a certain extent and plunder the weapons of the eternal realm!

"The power of Nian Yuan."

"That's it."

Su Lang nodded slightly, a gleam of light flashed in his eyes.

He also understood and mastered the power of an eternal state.

This is of great benefit to Su Lang!

Next.

Su Lang once again condensed the pitch-black cauldron with the colorful burning sky.

One after another, the second and third avatars of Evil Devouring were integrated into the heart-piercing lock and the purple gold gourd.

It went smoothly.

These two weapons also reached the Eternal Realm of the Universe, and mastered the corresponding power of thought source.

"Great."

"There are three more weapons that can deal with enemies in the Eternal Realm!"

"Okay, you can go down now."

Su Lang smiled slightly, then looked at Evil Devouring, "When the fourth incense weapon is released, you will cut out the fourth clone."

"Yes, Lord!"

The Evil Devouring body respectfully took orders, and then slowly retreated.

After eating evil away.

Su Lang observed the current situation of the exile with his spiritual thoughts.

Countless energies from the heavens and the earth are pouring into his body, causing the energy concentration in the Exile Land to no longer reach the previous million times the level.

Currently.

It has probably been reduced by a third.

"To the eternal state."

"In this basic universe."

"It's really difficult to maintain a rate of 600,640 trillion times the one-key training function!"

Su Lang smiled with emotion.

The energy he absorbs every second is almost equal to the energy absorbed by 600,640 trillion eternal warriors of the same level in one second!

Even if a natural universe is so vast, it can't stand such a suck!

Then ordered.

Let the clones of the other forty-eight natural universes stay behind and transfer the cosmic energy crystals condensed by the eternal spirit gathering array.

Suddenly.

Clusters of cosmic energy crystals like crystal mountains appeared around Su Lang.

The extremely rich cosmic energy spilled from these crystals, which was sucked away by Su Lang in an instant.

"Next."

"It's the cultivation time."

Su Lang slowly closed his eyes, accumulated cultivation base, and practiced exercises.

Simultaneously.

The clones slowly collected all the star fields in the endless universe, and finally only the endless world remained.

Time passed slowly.

The energy contained in the land of exile, even if it is compensated by cosmic energy crystals, is gradually declining.

at last.

At a certain moment.

Su Lang slowly opened his eyes and temporarily turned off the one-key practice function.

Because the energy concentration in the exile has dropped to a very low level, if it continues like this, it will be sucked up.

"Currently accumulated cultivation base."

"It's enough for me to perfect a lot of Crystal Wall Universe!"

"Then, let's start!"

Su Lang adjusted his state slightly, before he gave an instruction, "System, activate the function of 'Crystal Wall Universe', and perfect Crystal Wall Universe for me!"

"Ding! Crystal Wall Universe is strengthening!"

The system prompt resounded through my mind.

The crystal wall world selected by Su Lang has all begun to undergo a qualitative change!

Countless cultivation bases were integrated into these crystal wall worlds, and all the power of the great Dao that Su Lang had understood was manifested.

They are condensed into a peculiar flow of imaginary and illusory energy, and merge with each other to form a transparent and invisible force.

then.

Suddenly exploded again, restored to countless more perfect powers of the Great Dao, and reintegrated into the Crystal Wall Universe.

Next.

The Crystal Wall universe began to grow rapidly, and a powerful cosmic force was brewing, which was controlled by Su Lang!

Gradually.

Su Lang's crystal wall universe is more and more, more and more...

[Chapter 2368: Synthesis and empowerment break the limit](#)

One hundred thousand!

one million!

Tens of millions, hundreds of millions... trillions...!

More and more crystal wall worlds have been perfected into crystal wall universes.

When the cultivation base was exhausted, the crystal wall universe that Su Lang could generate the power of the universe had reached the number of one hundred!

This immediately made Su Lang feel that his strength has risen sharply.

Of course, to advance the realm to the level of the Second Universe, this is not enough.

Under normal circumstances.

To reach the level of the Second Universe, it is necessary to perfect the 200-gaps crystal wall universe!

The five two-plane eternal emperors, such as Yuanmingzhou Emperor, Xuanyuzi, and Zixuzhou Emperor, are more than 200 gai crystal wall universe.

The total crystal wall world in their bodies is more than two hundred gai.

Therefore, there is an urgent need for the core origin of the universe to sever its huge crystal wall world to form more numbers.

Except for this method.

There is no other way to increase the crystal wall world.

It's useless for some bodybuilding exercises!

"For a short time."

"This is what others have achieved for nearly 20 billion years, constantly refining the origin of the universe and improving themselves!"

"This efficiency is also gratifying enough, but it is a pity that the cosmic energy of the Exile has been reduced to freezing point."

"In the rest of the natural universe, the cosmic energy crystals condensed by the Eternal Spirit Gathering Array have also been temporarily consumed."

"You must wait for a while, until the cosmic energy in the exile becomes more concentrated, before you can practice again."

"In the infinite universe now, except for the infinite realm, almost all the other planets have been taken into my body."

"It's time to set up the Eternal Realm Spirit Gathering Array to absorb the cosmic energy of the boundless realm."

A light of thought flashed in Su Lang's eyes.

Immediately he got up and left the place of exile, and came to the outer boundless continent, which originally belonged to the Tianxuan continent.

"A thought is formed!"

With a move in his heart, within the coverage of Su Lang's spiritual thoughts, countless formations suddenly appeared, filling the sky and deep underground!

Immediately after.

Su Lang stepped forward step by step, wherever he passed, new formations appeared one after another within the scope of his divine consciousness!

It didn't take long.

The entire Boundless Realm was wrapped in a new eternal realm formation!

The spirit gathering formation of this eternal realm is divided into two levels overall.

The formation method of the first layer is to gather the energy in the boundless universe outside the boundless realm and merge it into the boundless realm.

The formation of the second layer is the expanded 'Sky Misty Realm'.

At this time, the 'Tian Mian Void Realm' can no longer be called this name.

Instead, it should be renamed as the 'infinite virtual world'.

Because it enveloped the entire boundless world, including the parts previously named Tianxuan, Tianting and Tianmi.

Countless creatures living in the vast infinite realm have the right to link to the "infinite virtual realm."

Simultaneously.

"Boundless Virtual Realm" also inherited the previous energy transmission network.

The energy in the entire boundless world can be extracted and distributed arbitrarily.

After doing this.

Su Lang obviously felt that the heaven and earth energy in the land of exile began to rise again.

It just takes a little bit of time to reach the level of cultivation.

Taking advantage of the free time of gathering spirits in the land of exile.

Su Lang checked the situation of the clones refining the origin of the universe.

More than 15,000 clones, working together to reverse the origin of the universe, are really super fast. at this time.

They have used the eternal body of Emperor Yuanmingzhou and others to refining the origin of thousands of universes.

"Ok!"

"Not bad!"

Su Lang nodded slightly and smiled.

Immediately after.

He deposited it into the system, and immediately, the balance number broke 10,000 again, reaching 10,233!

"It's possible to improve the rest of the system functions that have reached the limit!"

"What can be improved now is the one-key synthesis function and the one-key empowerment function!"

With a thought, Su Lang directly issued instructions to the system and began to improve its functions.

"Ding! Consumes 1000 universe origins, the one-key synthesis function breaks through the limit, and is upgraded to level 16, which can be synthesized with the same Eternal Eternal or lower level materials and medicines! The synthesis ratio is 10:1!"

"Ding! Consumes 1000 universe origins, the one-key empowerment function breaks through the limit and is upgraded to level 26. The current empowerment efficiency is 100%, and the number of empowerments per day is 520!"

[Chapter 2369: Founder Zhou Yuan Refines the Dao](#)

The system prompt appears.

The functions of the two systems simultaneously break the limits.

"The synthesis function has reached the eternal state."

"From now on I will be able to synthesize treasures of the eternal realm!"

"Hey, the materials of the Eternal Realm are very rare. I can use too elementary materials to synthesize the things of the Eternal Realm. This must be developed!"

"The one-click empowerment function is also good. If you open a store and sell these times, you can make a huge profit by keeping it!"

"It's also very good to instill rules and avenues to your subordinates, and it can create a large number of powerful subordinates!"

Su Lang is still very satisfied with the two system function enhancements.

The functions produced by the system are useless.

Upgraded system functions.

The balance 8233 is the origin of the universe!

"This is the origin of the universe, save it and use it later."

Su Lang thought about this, and immediately thought for a while, summoning the 520 strongest masters under his command, including eating evil.

As for the East One.

She was at the critical moment to break through to the eternal state, and Su Lang did not disturb her.

At this time, among the powerhouses summoned.

Chu Xiaobei, Ji Ruxue and other women, and Yan Hingxing and other old men were among them.

In these days, once the one-key empowerment function is refreshed, Su Lang will indoctrinate everyone, and will naturally not ignore those who are closer.

Anyway, to promote the too junior strong now, the cultivation base consumed is nothing to Su Lang. therefore.

Chu Xiaobei and other women, as well as those old men, who are familiar with them, have all been promoted above Qiyang Taichu.

"This time I summon you."

"One is to instill some exercises, rules, and great ways for you."

"The second is to give you a task, that is, to use the techniques I instilled in you to create treasures!"

"This exercise belongs to the eternal level, but you can also use some of its methods!"

While talking, Su Lang waved to Chu Xiaobei, instilling from her!

Next.

He instilled the exercise method "Nine Places of Taoism" in everyone.

By the way, for different people, the rules and the power of the great were instilled in a targeted manner to enhance their strength.

Suddenly.

The strength of Chu Xiaobei and others has risen!

Immediately after.

Everyone took Su Lang's orders to various places in the Exile and began to use "Nine Places of Taoism" to create treasures.

"There are more treasures, more quality."

Su Lang smiled slightly, "Let the clone go to harvest and refining the origin of the universe!"

at this time.

Another system prompt sounded.

"Ding! "Zhou Yuan Zhen Dao" has reached the founding level!"

Accompanied by the sound of the system.

The incomparably majestic information flowed into Su Lang's mind, and it was the profound meaning of the technique!

The function of "Zhou Yuan Refining the True Dao" is to refine the origin of the universe back to the original matter.

Under normal circumstances, it is not used, but when it is used, it is very useful!

"It's another eternal realm technique."

"Next, let's practice "The Origin of the Underworld Infinite Dao"."

"Well, this exercise is a method of using the power of the universe. After using it, it can increase the effect of a certain great power alone."

"For example, Emperor Yuanmingzhou was able to shuttle through the barriers of the natural universe faster than others because of the increase in time and space with this technique."

While thinking about it, Su Lang issued instructions, "The system, start the ten-heart martial arts practice, and practice "The Source of the Underworld"!"

Suddenly.

The ten martial arts villains who had rested for a few seconds began to work again.

at the same time.

Su Lang put another exercise before his eyes.

The name of this exercise is "Xiantian Yuanmingxin Heart Sutra", which is the main exercise method of Emperor Yuanmingzhou, and corresponds to the "Infinite Heart Sutra" practiced by Su Lang.

"The Infinite Heart Sutra is the strongest major practice technique in the Infinite Universe."

"But in the endless natural universe, it is certainly not the strongest."

"Maybe I can find a more mysterious major practice technique to further increase my cultivation speed?"

Su Lang's eyes flashed with thoughtful light, and he began to read the Xianyuan Mingxin Sutra.

but.

quickly.

Su Lang discovered that the Innate Source Ming Heart Sutra was actually comparable to the Infinite Heart Sutra.

Then he looked at the other major exercises practiced by Xuan Yuzi and others, and it was still the same.

[Chapter 2370: Eternal Realm Breaking a Sword](#)

"In this case, there is no need for replacement."

"Let's talk about getting more advanced major exercises in the future."

Su Lang temporarily put aside the matter of majoring in exercises, and his eyes fell on the "source of exercises".

Because of the emergence of the function of 'the top of exercises', all of Su Lang's exercises have been elevated to the eternal state.

This makes the effect of the function of "source of exercises" invisibly increased countless times!

"The exercises have become eternal."

"It's also time to condense a brand new breaking sword."

"With the Po Yi Sword of the Eternal Realm, it is even easier to kill a warrior of the same level!"

Su Lang laughed, and did what he said, and immediately issued instructions, "The system, use the "source of exercise" function to update the moves and break a sword!"

"Ding!"

"The Source of Cultivation Method' has been launched, and the update is in progress!"

The system prompt resounded through my mind.

Immediately after.

Su Lang discovered that the mystery of countless exercises he had mastered turned into a colorful torrent and emerged.

These are the profound meanings of the eternal realm.

I don't know how many times stronger it is than the profound meaning of the exercise that appeared last time!

After the torrent of brightly colored exercises appeared, they began to merge with each other. quickly.

These profound meanings changed from the bright seven colors to the crystal clear appearance.

This is how the profound meanings of the exercises that have been mastered are all condensed, immersed, and merged into one.

Next, we must deduce the "Broken Sword" from it!

Maybe it's because of the high realm.

This time, the time for breaking a sword to condense was obviously longer than before.

of course.

It doesn't grow much longer, just a few minutes.

Not long.

Those converging and merging methods exploded and dispersed again.

The brand-new Po Yi Jian Profound meaning condensed in it was directly imprinted into Su Lang's soul!

Features are still the same

-Restrain everything!

The defense of Emperor Zhou at the same level is as fragile as a paper in front of Po Yijian, and it will be broken with a poke!

"Tsk tut."

"With my current strength, if I use Po Yi Sword, I am afraid that the eternal realm of the four cosmos level will be able to fight it!"

Su Lang felt the brand-new Po Yi Jian's profound meaning in his mind, and there was a bright light in his eyes.

Weapons and moves have reached the eternal state, and they crush the same level, and can even leapfrog the enemy!

It's almost a realm of cultivation!

The realm of a cosmic level is indeed a little lower, and the power of the universe is a little less.

Such strength.

To embark on the road of exploring the endless natural universe, the fire is still a bit short.

"Next, let's practice for a while!"

"By the way, I also learned several eternal realm pill before, although they are all restoration pill, they can be refined."

"Also, the one-key synthesis function has also reached the eternal state, maybe you can try to synthesize some eternal state's cultivation pill?"

"..."

Su Lang thought about it, and then while saving his cultivation base, he started one-key alchemy and began to refine the pills with a lot of materials.

Time passed slowly.

In a certain natural universe.

After this period of time, Emperor Yushu Zhou's fear and fear of the unknown universe has been reduced a lot.

"It's been so long."

"The natural universe where the coquettish woman is, still no one comes over!"

"If someone really comes to invade, after discovering that the trick to lure the enemy has failed, they should take the initiative to invade!"

"But now, why is there no movement!?"

"Would you like to send someone to have a look!?"

Wang Jingchan's expression changed uncertainly.

but.

After some ideological struggle.

He still felt unsafe, so he decided to wait for some more time, depending on the situation!

at the same time.

In another unknown natural universe.

The center of the universe.

Three planets larger than the space-time superstar of Yuanming Universe stand here.

There is a huge red sun inside, slowly spinning, emitting light and heat.

On those three giant planets.

Countless wise creatures are lighting up their lights, seemingly preparing for something big!

Time passed slowly.

In the boundless world, in the land of exile.

"The cultivation base has saved a lot."

"Forty-nine nature and the universe of heaven and earth energy, I have swallowed so much again, this time I will definitely enter the realm of the two universes!"

Su Lang closed his eyes and slowly drew a smile, and immediately activated the function of 'Crystal Wall Universe'!

Suddenly!

Countless cultivation bases have been integrated into the crystal wall world, and will grow into a crystal wall universe!
