

## One Click 2381

### [Chapter 2381: Zhe Li Zhou Emperor androgynous](#)

What?

This Emperor Zheli Zhou turned out to be hermaphrodite! ?

"Lying down!"

"Why are you looking for me to split the soul and nurture the sons of the soul?"

A stronger nausea rose from the bottom of his heart, and Su Lang rolled his eyes fiercely!

"Su Lang!"

"Today you have to agree if you don't agree!"

"If you resist stubbornly, Zhemou will draw out your entire soul!"

"Although you are not willing, the success rate is almost zero, but I want to try!"

The two statues of the Three Universes transformed by Emperor Zhe Li Zhou made eternal sounds, one male and one female.

"Humph."

"Different racial talent, divided into two?"

"It's really powerful in front of general eternity, but to show off in front of us is simply a trick!"

Su Lang glanced at Emperor Zheli with disdain, and said coldly.

"Friend Su Lang!"

"Don't hold on any more!"

"With your strength, it can't be the right of Lord Zheli Zhou...!"

Qian Xiyu's words have not been finished yet.

"Shut up!"

"Dare to play tricks on me and let me suffer for you, you are also the one I will kill!!!"

Su Lang glanced at Qian Xiyu coldly.

The chill in his eyes instantly made Qian Xiyu's hair stand upside down.

"you!!!"

"Su Lang, let me see how you died!!!"

Qian Xiyu clenched his fists, gritted his teeth, and became angry.

He didn't expect that Su Lang not only was not suppressed by Emperor Zheli Zhou, but was so arrogant.

The current situation is irreversible.

Su Lang is killed, and his Qianxiyu will once again become the target of Emperor Zheli...

I thought of my fate.

He hates and scares!

"Su Lang!"

"Zhe Mou gives you one last chance!"

"If you don't agree, Zhemou will kill you and go to destroy your endless universe!"

The strange voices of two emperor worms, one female and one male, were full of killing intent.

"Give me a chance?"

"Are you laughing at me?"

"Today I will let you see what is called the art of clone!"

Su Lang narrowed his eyes and instantly activated the clone dispatch function!

boom! !

In a flash.

More than one hundred and fifty clones appeared around!

One after another incomparably terrifying force was suppressed, and each of them reached the eternal state!

This is a sudden scene.

Suddenly, Emperor Zhelizhou and Qianxiyu were thunderous, their bodies stiffened, their pupils suddenly shrunk, and their brains dizzy! !

Immediately after.

"what!"

"More than one hundred and fifty eternal existences at the level of three universes!!!"

"How is this possible? Even if it is the entire Xiyi Terrace, there are only three eternities in the hands of the three universes, how can there be so many here!!!"

"The key is that these people actually look exactly like Su Lang!!!"

"Could it be that these three cosmic eternal realm powerhouses are actually his clones!"

"No, it's impossible, it's absolutely impossible. I have the racial talent to separate two clones. How could he have more than one hundred and fifty clones!"

"..."

Emperor Zhe Li Zhou looked at the three eternal powerhouses standing in the sky, and his heart was completely filled with disbelief!

He really broke his head and couldn't imagine that an eternal realm could have so many clones, and they were all three eternal levels!

As for Qian Xiyu.

This guy was even more unbearable than Zhe Li Zhou, and he was stupid on the spot!

There are more than one hundred and fifty three eternal clones of the Three Universes, and any clone can stare at him with one stare, and he is going to calculate others! ?

Isn't this really too long? ?

A deep despair and regret appeared in Qian Xiyu's heart.

If he knew Su Lang's strength in advance, he would definitely not dare to offend Su Lang.

Instead, he would beg to hug Su Lang's thighs, and Su Lang would help resolve the crisis.

at this time.

"Could it be!"

"Are you actually all clones of another eternal powerhouse!"

"That eternal realm powerhouse has reached an unimaginable level!?"

Emperor Zheli Zhou looked at Su Lang in fear, and the bodies of the two emperors trembled crazily, and they had lost all their hearts to fight!

"Ha ha."

"you are wrong."

"I am the deity, they are all my clones!"

With one hand on his back, Su Lang walked out of the Heavenly Palace of Clouds step by step, sneering and killing intent in his eyes.

[Chapter 2382: Sanzhou Eternal Kneeling](#)

"Do not!"

"This is impossible!"

"You are only at the level of Three Universes, how can there be so many clones of the same level!!"

"This is not true!"

The two bodies of Emperor Zhe Li Zhou made trembling sounds, which became more sharp and unpleasant!

"Believe it or not."

"Now give you a chance to tell me all the coordinates of the natural universe you know."

"Including the location of Xiyitai!!"

"If there are positions for the rest of the Eternal Realm organization, that would be even better."

"If you don't tell me, then your tens of billions of years of cultivation will be in vain!"

Su Lang stared faintly at Emperor Zheli, and all the other clones stared at Emperor Zheli.

Being stared at by more than one hundred and fifty statues of Three Universes.

The pressure on Emperor Zhe Li Zhou is so great! !

He wanted to speak on the spot.

but.

"No, I can't say!"

"One of the conditions for joining Xiyi Station is not to reveal its coordinates!"

"Nothing about the natural cosmic coordinates of Xiyitai can be revealed!"

"Once I say it, I will die immediately!"

Emperor Zhe Li Zhou said in fear, there was no more arrogance before.

"You will die if you say it?"

The corner of Su Lang's mouth raised slightly, "Well, then you can tell me the natural cosmic coordinates that can be said."

"This!"

"I said that I know the coordinates of the natural universe, Xiyitai knows it!"

"Among them, it also includes my own natural cosmic coordinates!"

"So... I don't have more natural cosmic coordinates for you!"

"Senior Su Lang, please let me go, I know I was wrong, I'll kowtow to you!"

"..."

Emperor Zhe Lizhou trembling, withdrew his talent and supernatural powers and became that beautiful woman, then knelt in the void and apologized to Su Lang.

however.

This appearance made Su Lang disgusting.

"Ha ha."

"I don't know, right?"

Su Lang sneered, "Then don't blame me for killing you."

"Do not!"

"Senior Su Lang, Xiyitai is also very strong!"

"Xiyi Taichung, there is the Four Eternal Realm, and it is connected with other forces, and has been to the high-level natural universe!"

"Once you kill me, you will also cause a lot of trouble!!"

"You let me go, I can give you a lot of compensation!"

"Don't you want to join the forces of the Eternal Realm, I can help you inquire about forces other than Xiyitai!"

"Please, my lord, please go around me once!!"

Emperor Zheli Zhou knelt in the void, begging to go around in fear. As an eternal realm with almost infinite life span, he really didn't want to die!

"Master Su Lang!!"

"Please be merciful and forgive us!"

"We must help you find out about the other eternal forces! Inquire about more natural universe coordinates!"

"..."

Qian Xiyu also knelt down, begging tremblingly.

he knows.

Su Lang wants to kill Emperor Zheli, but also kill him!

In order to survive, he can only beg for mercy in a humble manner!

"Ha ha!"

Su Lang glanced at Qianxiyu, and said coldly, "Qianxiyu, hand over all the natural cosmic coordinates of the Nine Desolate Universe!"

"Predecessor..."

"I have already reported the coordinates of the rest of the natural universe in the Nine Desolate Universe to the Xiyi Station. I can't say it. If I say it, I will die immediately!"

"Please give me some more time, I will find more natural cosmic coordinates for you!"

"..."

Qian Xiyu was so scared to hear what Su Lang said.

Su Lang can't tell the rest of the natural universe coordinates in the Nine Desolate Universe.

therefore.

Qian Xiyu thought that Su Lang did not actually come from the eternal realm of the boundless universe.

It is the super eternal powerhouse who hunted the boundless universe, maybe it is the power of the higher universe, the level of the seven universes and eight universes! !

"Reported to Xiyi Station?"

"Oh, then you are really worthless."

"Anyway, I still know the other two natural cosmic coordinates in the Nine Desolate Universe."

"Presumably, they will be happy to tell me something useful."

"Now, go to death!"

Su Lang waved his hand, all the weapons of the eternal realm appeared, and all the clones moved together!

### [Chapter 2383: Kill Qian Xiyu and Zheli](#)

In a flash!

More than a hundred incomparably majestic and eternal auras of the three universes shrouded.

There are more eternal weapons such as the Youtian Sword, the Heart-piercing Lock, the Eight-Edged Shield, the Sword of Life, the Seven Treasure Tree, and the Purple Gourd.

Such a horrible scene.

Directly make Emperor Zhelizhou and Qian Xiyu cold and desperate!

"In addition to so many Three Universe Grade clones, there are so many Eternal Realm weapons!"

"Su Lang...could it be that the power of the middle and high-level universe is not successful?"

"It's over, it's dead, and even if Xi Yitai knows that I died by his hands, dare to shoot against him, it is unknown!"

"..."

Emperor Zhe Li Zhou looked up at Su Lang, who stood out of thin air with an indifferent expression, and trembled violently.

As for Qian Xiyu.

This person has been completely limp in the void, completely losing all will to resist.

"Senior Su Lang!"

"Please go around me once!"

Emperor Zheli sorrowfully carried out his final struggle.

He secretly displayed the Avenue of Time and Space, wanting to escape from this natural universe!  
but.

Under the suppression of Su Lang and more than 150 clones of the same level, as well as so many weapons of the eternal realm.

Even in the eternal realm of the three universe level, it is impossible to shuttle through the barriers of the natural universe!

"Ha ha."

"Dare to make small moves when you die."

A slight smile was drawn at the corner of Su Lang's mouth, and then he waved his hand gently.

"kill!!!"

More than a hundred clones drank together, uttering the law and following the law, and terrifying power came surging.

Suddenly.

Qian Xiyu who calculated Su Lang exploded instantly and died directly.

"Do not--!"

"..."

Emperor Zheli Zhou let out a roar of unwillingness, resentment and pain.

As an eternal state with almost unlimited life span.

He still has countless beautiful years to enjoy!

He really doesn't want to die!

But no matter how stern screams, they are all in vain.

"Broken a sword!!!"

More than one hundred and fifty avatars shouted again, all condensing a broken sword.

"The emperor is immortal!"

Emperor Zheli resisted desperately with a flywheel-shaped eternal weapon.

He also displayed another racial talent, his whole body suddenly became hard and transparent, as if impeccable.

Simultaneously!

A gray-white 'cloth' also unfolded from his body, forming a powerful protective barrier.

This is a defensive weapon of the eternal realm, but it is only one-world level.

"Miaoshu, do it!"

With a thought, Su Lang gave orders to Qibao Miaoshu.

"Yes, master!"

The Seven Treasure Tree already has a part of eating evil as its spirit, and with sufficient energy, it can act autonomously!

At this time, Su Lang personally provided him with the power of the universe, and the power effect increased sharply.

Just listen to the voice just fell.

Miaoshu burst out with brilliant colorful rays of light, covering Emperor Zheli Zhou.

"Buzzing!"

Both of Zhe Li Zhou's two eternal weapons began to struggle violently.

But Miaoshu was still separated from Zheli for a certain distance!

It was this moment.

"Stab!"

More than one hundred and fifty piercing swords of sword light stab at Emperor Zheli Zhou from up, down, left, and right.

Puff!

There are no accidents.

Emperor Zheli was directly pierced into a sieve!

"I can not be reconciled!"

Countless scenes appeared in the mind of Emperor Zheli Zhou, which was the experience of this life.

But soon.

All the pictures are blurred, gray, and about to disappear.

Emperor Zheli, who didn't want to die, instinctively displayed a variety of powerful life-saving secret techniques.

Some can make him recover in an instant, and some can make him shed his old body and be reborn in his own natural universe...

But at this moment.

A sword rang through the void.

A long sword pierced his head instantly!

"Ding! You get Eternal Soul\*1, Eternal Dao Crystal\*1, Eternal Life Universe\*1, Eternal Body\*1, Universe Eternal Weapon\*2, Universe Origin\*23668, Eternal Realm Material... "

Emperor Zhe Lizhou stared at Su Lang indifferently, Su Lang's indifferent face reflected in his eyes.

The sight seen by his eyes.

Simultaneously appeared in the Xiyi Natural Universe, three mysterious people shrouded in black robes. at this time.

The tension of the three people finally eased.

#### [Chapter 2384: Xiyitai Eternal Warrior's Brain Supplement](#)

"Su Lang!?"

"More than one hundred and fifty three eternal clones!"

"That self-proclaimed deity is Su Lang, and it must be a clone, a clone of a high-level cosmic horror powerhouse!"

"Well, otherwise it would be impossible for a three-world eternity to have more than one hundred and fifty clones of the same level!"

"It's really terrifying, just a clone can form a top power in the lower universe!"

"It is estimated that this is the clone of the unknown powerhouse who was specially released to hunt the natural universe, and his deity must be in a high-level universe with a fast flow at some time."

"Well, it was really dangerous this time. Fortunately, Emperor Zheli didn't tell us our cosmic coordinates, otherwise we would have to give up most of the natural universe and escape immediately."

The three black robe powerhouses looked at each other and exhaled a long suffocating breath.

"The remaining natural cosmic coordinates of the Nine Desolate Universe must be immediately abandoned."

"In addition, anyone who knows the coordinates of any one of us in the natural universe must be called back."

"The contact with Hei Bing Tower and Ling Yu Wanjie Pavilion must be immediately interrupted."

"Our natural universe they know, they all rush to carry out the most thorough plunder!"

One of them said very seriously.

"Yes, we must be prepared."

"In the rest of the natural universe in the Nine Desolate Universe, you should also keep a few eyeliners and pay attention to the movement of the strong clone."

The other nodded and added.

"correct."

"Have you ever thought that Su Lang who claims to be the deity is really the deity?"

"Maybe his strength declines before he will be reduced to the lower level, the basic level universe?"

"If this is the case, we will not only have opportunities for revenge, but also many opportunities!"

The third strong black robe pondered and hesitated.

"Dispel your unrealistic thoughts."

"Even if it is possible, the powerful eternity in this high-level universe, even in the kind of situation you mentioned, still holds countless cards, which we cannot deal with."

The black robe Emperor Zhou who was the first to speak shook his head, with a hint of warning in his tone.

"Not bad."

"The Four Eternal Realm is just the threshold of entering the middle universe."

"We, Xiyitai, are very powerful in the grassroots universe, but in the face of such existence, it is no different from a chicken!"

"We who are too weak must avoid provoking the strong!"

The second black-robed Emperor Zhou said with emotion.

"Ok."

"In that case."

"We might as well design and leak the individual coordinates of the Black Ice Building and Lingyu Wanjie Pavilion to that Su Lang?"

"With those two forces attracting firepower, we become safer!"

The third black robe Emperor Zhou was also persuaded and made his own proposal.

"What is it called?"

"Well, it's called a dead fellow, immortal poor Dao!"

"Yes, letting Hei Binglou and Ling Yu Wanjie Pavilion attract firepower is really a good strategy!"

"Haha, that's it!"

"..."

The four eternal emperors of the three Xiyitais discussed and made countermeasures.

They were really frightened by Su Lang's more than one hundred and fifty three eternal clones, and they couldn't bear revenge at all!

Now the entire Xiyi station is not only afraid to report a wave of recovery.

He also directly gave up all the Nine Desolate Universe, and part of the natural universe that is easily implicated must also be abandoned!

The key is to find an opportunity to reveal more natural cosmic coordinates to Su Lang, so that Su Lang, a dangerous figure, can stay away.

have to say.

Their caution allowed them to escape the catastrophe successfully.

The other side.

Tae Hee in the natural universe.

"Kill two more Emperors!"

"I don't know, how much can I get this time?"

Su Lang killed the enemy and was in a good mood. He smiled and gave instructions to deposit all 'currency'.

"Ding! The storage is complete, the balance is 35766 universe origin!"

"More than thirty thousand?"

"It can improve system functions again!"

"At present, those system functions that break through the limits require ten thousand cosmic origins. You have to choose."

While thinking about it, Su Lang chose from the system functions that he could improve.

quickly.

He chose one-key synthesis, one-key refining array, and one-key refining functions.

[Chapter 2385: Upgrade system functions again!](#)

Why not choose one-key alchemy?

because.

The eternal realm's pill is too few.

At present, Su Lang has not yet obtained the elixir of the Second Universe Eternal Realm, all of which are of the level of the First Universe, and all of them are of recovery type.

With the sword of life in hand, give yourself a sword to recover faster than any pill.

and.

In the eternal realm, there are not many medicines available.

In the realm before the eternal realm, most of the pills are useless for the ordinary eternal realm.

Cultivation pill can only be taken as a pill to replenish spiritual energy.

Of course, it's different for Su Lang's metamorphosis.

After taking the eternal realm of medicine, he can improve his realm through one-key cultivation and the crystal wall universe function.

In addition to direct refining, the eternal realm's pill can also be gradually strengthened with too primary pill.

So Su Lang's demand for the one-key alchemy function is not so urgent.

"system."

"Promote me the functions of one-key synthesis, one-key refining, and one-key refining!"

After Su Lang made his decision, he immediately issued an order.

"Ding! Consumes 10,000 cosmic origins, the one-key synthesis function breaks through the limit, and is upgraded to level 17, which can be synthesized with the same two-time eternal or lower level materials and pill! The synthesis ratio is 10:1!"

"Ding! Consumes 10,000 universe origins, unlocks the one-key formation function to level 17, and can refine the formation of the second universe and its lower levels!"

"Ding! Consumes 10,000 universe origins, unlocks the one-key refining function to level 17, and can refine the two universe eternal and lower level weapons!"

Consumption of 30,000, the balance is 5766 universe origin!

"Next, as usual, transfer the crystal wall world!"

"Oh, there is also the eternal life universe!"

The corner of Su Lang's mouth twitched, even if he took out two eternal bodies, it was Qian Xiyu and Zheli.

Said to be an eternal body.

In fact, it is the human-shaped crystal wall universe, which can reverse the origin of the universe! same as usual.

Su Lang took out the Eternal Realm Life Universe and put it into the large crystal wall world fused in his body.

So far.

Except Shifang's own life universe.

He also has ten more eternal life universes that he has taken!

After collecting the eternal life universe.

Su Lang cleaned up the crystal wall world in the two eternal bodies and put it into his crystal wall world.

And this time.

Su Lang was a little surprised by the number of crystal wall worlds obtained from the eternal body of Emperor Zheli.

This crystal wall universe of the Three Eternal Realm actually has more than 600 gai.

In addition, there are a few uncompleted crystal wall worlds.

It should have just been split with the core of the universe.

Looking at Qian Xiyu's eternal body, the Crystal Wall Universe is less than a hundred gai, which is simply a weak chicken.

"There is another 700-odd crystal wall world."

"The extra creatures are countless!"

"This can not only provide a huge amount of incense aspirations, but also enhance the humanity."

"The power of humanity is also part of the power of the universe!"

"..."

While thinking about it, Su Lang took out the eternal realm weapon he harvested this time.

They were all obtained from Emperor Zheli.

Both are an eternal weapon, a flywheel-shaped attack weapon, and a gray cloth-like defensive weapon.

Eternal weapons are loyal to their owners.

The same is true for these two pieces.

And they actually learned how to resist his heart tongs!

Therefore, Su Lang did not want to subdue them.

After a simple torture and no results, Su Lang used the one-key decomposition function to directly decompose it.

"It seems that his Xintong's reputation is really big."

"Even two weapons have mastered the method to fight against 'Hexintong'."

"It seems that this magical power of his heart is really not very useful in the vicinity of the Nine Desolate Universe."

"..."

While thinking about it, Su Lang began to sort out the pill recipes, instrument codes, array codes, and secret techniques of exercises.

Start with Dan Fang.

This sorting made Su Lang happy.

Because in the pill prescription obtained this time, there is actually a kind of pill called 'Zuanyou Lianqing Pill'.

The effect of this pill.

It is to speed up the eternal realm powerhouse to use the universe origin to perfect the crystal wall world, and the effect is good.

The Eternal Realm has obtained the origin of the universe, but it is not thrown into the crystal wall world and become it by itself.

It still takes time and energy to refine.

Therefore, the pill of Zhuanyou Qingqing Pill is very popular and very valuable!

[Chapter 2386: His heart is clear](#)

"Although this pill is useless to me."

"But it can help the Eternal Realm to speed up the fusion of the origin of the universe, but it is the most cherished kind of eternal realm medicine."

"Hey, I can save a wave, and when I find a chance, I will sell it for money!"

Su Lang thought so with a beautiful smile on his face.

Next.

He has read all three classics of Dan Dao Qi Dao Zhen Dao.

It is worth mentioning that in addition to the quiet refining pill, there is also a 'time and space two instrument induction array', which is a large-scale space-time fluctuation detection array method.

The sensing array of the two instruments of time and space can more clearly perceive the time and space fluctuations in the universe, and is especially sensitive to the power of time and space at the Dao level.

After sensing it, it will immediately send the signal to the owner!

"Boundless universe and forty-nine universes."

"Although I have temporarily squeezed a wave of energy, but it is far from dry."

"These natural universes are also good retreats and hiding places for me when I encounter an invincible enemy."

"Therefore, it is still necessary to hold one hand."

"But using clones to guard, some are overkill, and these formations are just right!"

"Well, after finishing the business here, go and set up the formation!"

Su Lang nodded slightly, then continued to organize the spoils.

This time it was the turn of the secret technique.

From the two of Qianxiyu, Su Lang received two more major exercises, but they still belonged to the same level as the Wuyin Heart Sutra.

Except besides.

It is the secret technique of the four eternal realms!

Three of them are relatively ordinary, that is, ordinary combat methods.

Su Lang had a broken sword in his hand, and was not eager to practice these eternal combat methods.

It was the fourth secret technique that made him look happy.

Because this secret technique is the secret technique that resists 'Hexintong', named 'Suinian Kong'.

This is also a Buddhism mystery, and it is a pairing technique with "Hexintong".

Therefore, even if it is used by a person with a low cultivation level, it has a strong resistance to his heart.

"In the Nine Desolate Universe, there are probably many people who can use 'Hexintong'."

"I also just need to take precautions in this respect, this exercise comes at the right time!"

Su Lang laughed, then glanced at the "Source Underworld Infinite Dao" he was practicing, and was about to wait for him to complete his practice, and immediately practice 'Successful Thoughts'.

Finish it all.

Su Lang sorted out the remaining miscellaneous trophies.

Did not get anything particularly useful.

then.

"Clone dispatch!"

"Baiying avatar!"

Su Lang looked up at the void of the universe, and directly dispatched all the clones!

Suddenly.

More than 150 clones became more than 15,000 clones!

Although its combat power has been reduced to the level of the Second Universe, the number has become increasingly terrifying!

If this is seen by the people at Xiyitai, their legs will feel frightened and they will feel urinary!

After the clones were dispatched.

Start collecting planets everywhere, unless it is a particularly inferior planet, accept them all!

As for Su Lang.

Stay at the center of the Taixi Universe in this three-star circle.

"This sun is very good"

"Although the innate core is missing, it is still countless times stronger than ordinary stars."

"It just fits into the sun in my blue star universe!"

"These three super planets, which are larger than the space-time superstars, are put into three crystal wall worlds."

"..."

While thinking about it, Su Lang did it.

Although this three-star ring galaxy is very huge.

But compared to the eternal life universe, it is incomparable.

and so.

Su Lang could easily put three super giant planets into his body one after another.

Only the red sun remained in the void.

"Dantian Universe, open!"

With a thought of Su Lang, he directly opened his Dantian universe.

Simultaneously.

A avatar was also dispatched to Blue Star to protect Blue Star.

Immediately after.

"The power of the universe, the great space!"

Su Lang opened his arms, and the terrifying space power descended on the red sun.

Rumble!

The integrated super giant sun shook hard!

Countless spatial distortions and ripples cause the corona above the sun to twist wildly.

The whole sun seems to be much brighter than usual, emitting more light and heat!

[Chapter 2387: It's time to set up the formation again](#)

Next.

Under Su Lang's cosmic power, under the Great Avenue of Space.

This huge sun was slowly collected into the Dantian universe.

then.

Above the blue star, countless intelligent creatures saw the second sun!

This sun is even bigger.

But it seems a bit vain and not solid.

"The second sun has appeared!"

"This must be the handwriting of the great Majesty Su Lang!"

"The new sun has appeared, representing a better future!"

"Worship the noble Majesty Su Lang!"

"..."

All the wise creatures in the world knelt down in front of Su Lang sculpture at this moment, giving their devotion to Su Lang.

Soon.

These creatures saw a more shocking scene with their own eyes!

I saw that the huge sun merged with the original sun!

The situation of a sun was restored between heaven and earth.

But the wise creatures can perceive that the sunlight sprinkled on themselves is filled with more soft power.

Suddenly.

Countless creatures worshiped Su Lang's sculpture again.

Su Lang did not pay attention to what was happening in the body.

He directly began to arrange the 'Space-Time Sensing Array' in place.

Because the one-key refining function has reached level 17, the second universe level.

So Su Lang set up the formation method more easily and calmly.

quickly.

A huge spatiotemporal sensor array appeared in front of the three-star ring galaxy.

Su Lang also deliberately tested this formation.

It really works well.

Even Su Lang returned to the boundless natural universe.

When there are cosmic avenue-level temporal and spatial fluctuations in the Taixi universe, it can perceive it and transmit the signal to Su Lang.

"It's so easy to use!"

"Next, put it in every natural universe!"

Su Lang nodded slightly, Xuan even began to arrange the formation.

Not long.

The Boundless Universe, Yuanming Universe... etc. Forty-nine natural universes are all equipped with two sensing arrays of time and space, so there is no need to stare at them at any time.

"Plus the Taixi universe, I already have fifty natural universes in my hands."

"And unlike others, I have collected these natural universes into my body!"

"The rest of the eternal powerhouse Crystal Wall Universe is limited, and the Three Eternal Eternity is only more than six hundred gai, I am especially the Crystal Wall world over sixty-six thousand gai!"

"I don't know what level of eternal realm boss will have so many crystal wall worlds for me?"

"..."

The corner of Su Lang's mouth outlines a touch of joy, and immediately uses the power of the universe to return to the Taixi universe.

The cosmic energy floating in this natural universe has not been used yet!

"It's time for formation and practice again!"

With a single thought, Su Lang arranged the super spirit gathering formation of the eternal realm.

Suddenly!

This void is like a weird black hole.

Countless cosmic energies, no matter what their attributes, are all sucked over, and nothing is spared!

Su Lang sat in the array.

As the cosmic energy concentration increases, the efficiency of the one-key practice function gradually returns to its peak state!

That terrifying cultivation rate.

Let Su Lang madly accumulate cultivation base, and step forward towards the realm of the three universes!

at the same time.

Nine Desolate universe, Yuan Shu natural universe.

A group of eternal realm powers are meeting on an empty planet.

"Are you sure?"

A three-plane eternal realm asked, "That natural universe really doesn't have any backing background!?"

"No!"

"This natural universe is inherently weak, so I dare not touch the rest of the natural universe at all."

The other person nodded solemnly, "We only got the coordinates of the natural universe by accident!"

"Well, then make preparations!"

"When you are ready, test if the Universe White Realm is not, if not, hunt it down!"

A four-planet eternal realm great power asked, "By the way, what is the name of the natural universe?"

"Gen Luo!"

"One of the natural universes of the Nine Desolate Universe."

"It is said that the natural universe of the Nine Desolate Universe has been plundered by a high-level power not long after it was born, but there are still some treasures that the power can look down upon!"

"We may have a good harvest this time!"

Another Four Eternal Realm Great Mighty said, with a slight expectation in his tone.

[Chapter 2388: Two eternal forces are eyeing Gen Luo](#)

Next.

The emperors of the universe continued to have more detailed discussions.

Then they began to send people to test whether the coordinates of "Gen Luo Universe" are true or not, and whether they are traps set by the Universe White World.

At the same time.

What everyone doesn't know is that another powerful eternal state force is also eyeing the Gen Luo universe!

One of the Nine Desolate universe.

Light jade in the natural universe.

In a void, a powerful figure stood out of thin air.

The breath of horror fell in the universe, almost suppressing time and space to solidification.

And among these powerful figures.

A young man with a bright aura blooming all over his body, with a three-dimensional face like an axe, knelt in the void, covered with blood.

This man is the Emperor Guangyu Zhou.

At this time, he had been defeated. In order to survive, he had to give in and told the intruder in front of him everything he knew.

"Hahaha!"

"Eight natural universes!"

"Even though some of them have been hunted, the rest is enough for us to eat."

Among the powerful figures, one of them laughed wildly and said happily.

"Well, let's start with Gen Luo Universe."

Another said, "The resources of this universe should be the best preserved."

"Emperor Guangyu Zhou."

"I'm very glad that you can tell us everything freely. We have decided to let you join our Black Ice Tower!"

"Tonight, we will hold a grand welcome ceremony for you, let you taste the taste of the eternal empress!"

"Tsk tut, boy, your choice is wise, and you will be grateful for your choice at this time in the future."

"Yes, don't be upset there!"

"..."

The rest of the formidable eternal realm experts all spoke to appease the newcomer Guangyu Zhou.

"Yes!"

"Thank you seniors for accepting it!"

"Guangyu, will live up to your expectations!"

The Emperor Guangyu Zhou had just been looted and lost everything. At this time, where he could be happy, he could only smile with a strong face.

"All right."

"Next, find a way to invade the Genluo universe."

"Plan and then move, first detect intelligence, make a plan, and then invade!"

An eternal emperor said with a majestic expression, and the figure disappeared directly from the place.

The other Emperor Zhou also took Guangyu Emperor Zhou to leave this messy battlefield, preparing to hunt brand new prey.

Taixi in the universe.

Su Lang had no idea that Genluo Universe, which he had set as the target of revenge, had already been targeted by the two eternal forces at the same time.

At this time, he was still absorbing the energy of the universe rapidly.

"It's so slow!"

"After so long, the sea of cultivation has accumulated so much."

Su Lang looked at the little gold on the cultivator's body and curled his lips helplessly.

With such a little cultivation base, only a few crystal wall universes can be perfected.

"Never mind."

"I can use the cultivation base to perfect the Crystal Wall Universe, I am afraid I can do it in the endless universe."

"Although the amount of cultivation required to perfect the Crystal Wall Universe is terrifying, it is far better than others who can only use the origin of the universe to perfect the Crystal Wall Universe."

Su Lang muttered, while calculating.

The free cosmic energy in a basic natural universe might enable him to perfect the crystal wall universe about four gai.

From the second cosmic level to the third cosmic level, four hundred gai must be perfected.

In other words, one hundred free cosmic energy in the basic universe is needed.

It looks like the number is huge.

But if you convert it to the lower universe, the cosmic energy is even more majestic, you don't need a hundred, and a maximum of ten is enough.

"You have to find a more advanced natural universe as soon as possible."

"It's a pity that Zhe Li and Qian Xiyu were all taken down by the special means of the Eternal Realm before, and even if they died, they couldn't tell the relevant coordinates of Xiyitai."

"Well, after absorbing a period of energy, I will go to the next natural universe to see."

Su Lang thought so, and immediately absorbed the cosmic energy, while practicing the exercises, while paying attention to his clones.

Searched by more than 15,000 Eternal Realm Hundred Shadow clones.

The Taixi universe was quickly scraped clean.

### [Chapter 2389: Practice](#)

All creatures were sent into Su Lang's crystal wall world.

In fact, apart from being photographed by Mingguang Wanjie, their lives are almost the same, without much change.

Su Lang is not so urgent for the incense willingness.

It will not be like some bad world rulers who specially set off disasters to torment living beings and squeeze the incense power.

Finished searching the Taixi universe.

The clones were arranged by Su Lang, using eternal bodies to continuously refining the origin of the universe.

Time passed slowly.

Unconsciously, the cosmic energy concentration in the Eternal Spirit Gathering Array has become very low.

This means that the free cosmic energy in the Taixi universe is almost absorbed, and it must take a long time to recover.

"system!"

"Activate the function of 'Crystal Wall Universe'!"

Su Lang glanced at the cultivator villain, and then gave instructions to the system.

Suddenly.

The system function is turned on.

The cultivating villain turned white directly, and the cultivation base was completely integrated into the half-step eternal crystal wall world in Su Lang's body.

One after another, the crystal wall world has undergone qualitative change and sublimation.

They expanded frantically, and the crystal walls became more stable.

It also incorporates perfect avenue rules such as the time and space avenue, which can be called microcosms.

In a short time.

The three-gaps crystal wall cells transform into the crystal wall universe.

If this is an ordinary eternal strong person, he doesn't know how many years of refining the origin of the universe to accomplish this goal.

After getting the new Three Gai Crystal Wall universe.

Su Lang's reserves of cosmic power have become stronger, and his realm has taken a small step towards the level of the three cosmos.

"The combat power has improved again."

"Although it's just a little bit, each clone has been promoted at the same time."

"Well, that's cool!"

An excited expression was outlined at the corner of Su Lang's mouth.

at this time.

"Ding! "Yuanming Infinite Path" has reached the founding level!"

A system prompt came.

Immediately after.

It was a huge flow of information that poured into Su Lang's mind.

The mysterious and profound meaning contained in it was directly integrated into his soul, as if he had comprehended it, all were integrated and understood without any obscurity!

There are also some profound meanings that are integrated into all life universe, crystal wall world, and crystal wall universe in Su Lang's body.

"Yuan Ming unlimited way!"

"It is possible to increase the power of the great power used!"

"Emperor Yuan Mingzhou used this technique to increase the time and space avenue, and his footsteps were often faster than the eternal same level!"

"In addition, this technique can increase the power of the Great Dao, and it can also indirectly increase the power of the universe."

"For me, this exercise is still pretty good!"

Su Lang felt the profound meaning of "The Origin of the Underworld" and nodded with satisfaction.

Soon.

"system!"

"Activate the one-click martial arts function, ten mind martial arts!"

"Practice the eternal realm secret technique "Suinian Kong"!"

Su Lang thought, and gave instructions to the system.

The secret method of Sui Nian Kong, he had already read it carefully when he was saving his cultivation skills.

At this time, the Wushu villains are free, and they can be placed immediately to let them continue to work.

then.

The villain Wu Xiu who had just stopped and took a breath of time became busy again.

"It's time to go to the next natural universe."

"I don't know if the two coordinates of the natural universe left in my hand are there in the universe?"

Su Lang's eyes showed the color of thinking, and immediately his figure flashed, and he left from the eternal spirit gathering formation.

To prevent the force of time and space damage the formation.

He has to find a more open place.

Came into a dark universe.

"Yuanming Unlimited·Time and Space Avenue!"

Su Lang's eyes flickered, a gloomy light suddenly appeared on his body, and the terrifying time and space fluctuations also instantly waved away.

The gloom appeared very quickly.

In the blink of an eye, Su Lang was enveloped.

Suddenly.

Su Lang disappeared from the place and left the natural universe of Taixi.

When he appeared again.

It has come to the majestic turbulence of time and space in another natural universe.

If it is an ordinary early warrior.

In this terrifying turbulence of time and space, he will definitely be torn into countless pieces and die on the spot.

But for Su Lang, it was like stepping in a stream, allowing the spring water to gently flow past him.

[Chapter 2390: An eternal warrior who flees](#)

but.

See the turbulent flow of time and space.

Su Lang felt something was wrong.

"This is the turbulence caused by the power of Time and Space Avenue!"

"It must be done by a strong eternal realm."

"But the eternal realm powerhouse is here to use the power of time and space for no reason what to do?"

"Moreover, the movement is so exaggerated, even the time and space fluctuations that I shuttled over are covered up!"

"Could there be a fight here?"

"..."

Su Lang's eyes flashed with a light of surprise, and he did not leave this space-time fluctuation for the time being.

Let's take a look at what happened here!

"Yuanming Unlimited-Time Backward!"

Su Lang pinched the tactics with both hands, and the power of the Time Dao on his body suddenly unfolded.

Immediately after.

I saw the time around me slowly slowing down, then stopped, and finally started to flow backwards!  
then.

A strange sight appeared around Su Lang.

Everything is going backwards!

Because the speed is too fast, all the scenes seem to have become countless streamers.  
quickly.

All the streamers disappeared.

There is only a peaceful, lonely void.

"It's this time."

Su Lang nodded slightly, and then used the Avenue of Time to make time flow.

Slowly.

Withered void.

An embarrassed figure appeared not far from Su Lang.

This is an imaginary projection, not a real person!

"unreal....."

"If it's not in the eternal state, or if it's too far away from me, it should be a real person who has been pulled back by the long river of time."

"But this person is illusory. It is highly probable that he is an eternal realm that has mastered the Avenue of Time, and has not been affected by my Avenue of Time.

Su Lang looked at the phantom close at hand, speculating in his heart.

I saw that this was an extremely embarrassed woman with a pale face and flustered eyes.

She stayed in this void, trying to use the power of the Great Avenue of Time and Space to shuttle through the barriers of the natural universe and travel to other natural universes.

But it seems that a certain method has been issued to him, unable to shuttle through the barriers of the natural universe.

The woman was unwilling.

Take out a small red shuttle from the universe of life.

Soon.

The little red shuttle rose in the wind and bloomed directly, forming a bright red flower.

The majestic power of time and space came from the flowers.

At a glance, you know that the flowers are just appearances, in essence, they are a passage of time and space!

The woman really entered that space-time passage.

Soon the flowers withered, leaving only the majestic time and space turbulence around.

But Su Lang can tell.

That female eternal warrior has still not been able to leave this natural universe.

She just sacrificed the red shuttle and crossed an extremely long distance. The goal should be the cosmic crystal wall of this natural universe!

"An eternal martial artist who flees!"

"Being imprisoned by the ability to travel through the barriers of the universe?"

"Hope to be close to the barriers of the universe, and then try to shuttle?"

"The characteristics of space determine that in the natural universe, the barriers of the natural universe are the same everywhere."

"This woman actually did this, obviously it's completely impossible!"

"..."

Su Lang thought silently, and immediately transferred some Hundred Shadow clones, and the countless treasure hunt flying flying gliders that had cooled down.

These avatars cooperated with the treasure hunting flying flying gliders and quietly spread towards the distance.

Immediately after.

Su Lang cleaned up the traces left by him around him, and then used the clone replacement function to leave this space-time turbulence.

After leaving.

Put away the clone again. Playback time

"The woman is obviously being hunted down."

"Thinking about it, it's very possible that someone invaded this life universe. She couldn't match it, and was imprisoned again, so she could only flee helplessly."

"The person who chased her is probably playing cat and mouse drama!"

"I just teleported over, and the time and space fluctuations were covered up. If someone hadn't used the time backtracking ability, they would definitely not find me."

"Others are in the dark, I am in the light, just to see what is going on."

"..."

Su Lang hides in a void, and all the clones are also hidden, moving forward cautiously.

But the treasure hunting flying flying glider does not need to hide.

Although they are a little strange, there is nothing in the endless universe?

Even if it is seen, it will not be suspicious.
