

One Click 2401

[Chapter 2401: Four Universes Top Youtian Sword](#)

In a blink of an eye, there is still 42223 universe origin left.

"really not bad!"

"The practice speed of the exercises has become faster, and it will not take long for Sui Nian Kong to complete the practice!"

"In addition, the number of the three types of clones has increased by one, and if the Baiying clone is used, there will be another thirty Second Eternal Realm subordinates!"

"It's a one-key practice function. The current speed is extremely abnormal. It will take a lot less time to absorb this Genluo universe later!"

"..."

The corner of Su Lang's mouth outlines a touch of joy.

Then he turned his gaze, and landed on the extremely distant center of the Genluo universe, the crescent-shaped super-giant incomplete planet.

This incomplete planet contains something similar to the core fragments of the Infinite Realm. It belongs to the first birth of the universe, and it is very cherished.

Just then.

The clones have recovered all the four eternal weapon fragments that exploded.

No dust was let go!

"The decomposition function is activated!"

With a thought, Su Lang broke it all down.

Because these weapons have all blew themselves up.

Therefore, the treasure obtained by decomposition is equivalent to a weapon of the Second Universe Eternal Realm.

Immediately after.

Su Lang broke down the remaining Eternal Realm weapons that he had just harvested.

One of the three universes eternally possessed a second universe weapon.

Count it down.

Su Lang disassembled a total of four two-plane eternal weapons and five one-plane eternal weapons.

Plus the rest of the heavens and earth treasures obtained from the great emperors.

Upgrading the main weapons is almost enough.

"Now I have been able to stay in the state of swallowing the clone, maintaining the combat power of the Four Eternal Realm."

"Then, strengthen the Youtian Sword!"

Su Lang thought so, and took the Youtian Sword from his hair bun.

"the host!"

"I was acting well just now!"

Xiaoyou ran out of her body, hanging around Su Lang's neck excitedly.

"Of course it is!"

"So I decided to reward you!"

Su Lang patted Xiaoyou on the head gently, and smiled, "Be prepared, I will help you evolve."

"It's going to evolve again!"

"This is great!"

When Xiaoyou heard that she was about to evolve, she was so excited that her eyes turned into crescent moons.

"Hmm."

Su Lang smiled slightly, and immediately activated the enhanced reset function, canceling the four enhanced effects on Youtian Sword.

The raw materials used for strengthening were also returned intact.

"system!"

"Start the weapon evolution function!"

"Only retain the current characteristics, evolve the Youtian Sword!"

Su Lang looked serious and gave orders to the system in his heart.

"Ding! Consume the Eternal Soul*1, the Primordial Soul*1 million, the Origin of the Universe*10000, the Eternal Realm material...The Primordial Material...The Youtian Sword has evolved into the Second Universe Eternal Primordial Weapon !!!"

Accompanied by the appearance of system prompts.

The Youtian Sword suddenly evolved to the Second Eternal Realm, greatly increasing its lethality.

of course.

Without reinforcement, there is only the Second Universe Eternal Grade, which is not as good as before.

"Start one-key enhancement function, target, Youtian Sword!"

Su Lang locked the Youtian Sword with his divine mind and issued the instruction again.

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding!....."

Four system prompts came.

The endless treasured materials disappeared and turned into mysterious energy into the Youtian Sword.

The materials obtained by decomposing four two-plane eternal weapons and five one-plane eternal weapons are all consumed!

Not only that.

The remaining trophies were also posted.

However, the completion of the four enhancements has also directly advanced the power of the Youtian Sword to the top level of the Four Eternal Realm!

If it was in the previous battle.

Youtian Sword is so powerful.

Then, with Su Lang's strength, he urged the Youtian Sword to cast a broken sword, keeping and killing the Four Eternal Realm like a dog!

"The offensive aspect has risen to another level."

"Next, it's time to strengthen the eight-sided shield."

Su Lang let the excited Xiaoyou return to his body, inserted the hair bun back, and took out the eight-sided shield of the sky.

[Chapter 2402: Excavate the core fragments of the Genluo universe](#)

"Ajia pays respects to the master!"

In the previous battle, this guy worked hard and suffered a little trauma.

"Get up."

"There are many more materials, but most of them are ordinary goods."

"If you evolve, it's definitely not complete, it can only be enhanced."

Su Lang nodded to Ah Jia, "Be prepared."

"Yes!"

"Ajia, thank the Lord for his gift!"

Qi Ling Ajia bowed down again, and then returned to his body.

Immediately after.

Su Lang strengthened the eight-sided shield of Tianjiao twice.

This weapon was originally the One Eternal Realm plus three enhancements, reaching the top level of the Two Eternal Realm.

At this time, it will be strengthened twice again, and it will immediately reach the intermediate and advanced level of the Three Eternal Realm!

After Su Lang swallowed the clone, the strength of the pinnacle of the Four Universes was spurred, and the warriors of the same level did not even want to shake it again, unless they had the offensive weapons of the Four Universes!

The eight-sided shield of Tianjiao has been strengthened.

Qi Ling Ah Jia worshiped Su Lang three times, then returned to his body and turned into a pattern on Su Lang's clothes.

"There is some material left."

"Strengthen the sword of life."

After thinking about it, Su Lang immediately strengthened the sword of life.

Suddenly.

The Sword of Life has also initially reached the Three Eternal Realm, and one sword can restore a lot of power.

"The materials are almost consumed."

"Keep some spare, save some more."

Su Lang glanced over the other weapons, the mirror of reincarnation and the nest of civilization were enough for the time being.

Three eternal incense weapons such as the piercing lock, you can wait for more special incense power to evolve!

The improvement of weapons has come to an end temporarily.

Next.

Su Lang began to organize the exercises and books, and the three secrets of formation alchemy were naturally included in it.

but.

The pill formula obtained this time is not worth mentioning, they are all ordinary.

In terms of formation.

But got three eternal formations!

One kind of sleepy formation and two killing formations can be arranged jointly, and the power is equivalent to the level of the four universes!

This is the formation from the Black Ice Tower.

But even Hei Binglou himself, because he didn't have enough formation knowledge and materials, couldn't create a formation.

Otherwise in the previous battle.

It would be more difficult for Su Lang to kill a few of them.

"Hehe."

"Three eternal formations!"

"With my knowledge of the formation, together with the other formations, it is possible to create a stronger combined formation!"

"Not to mention entering the Five Universes and reaching the eternal peak of the Four Universes, there is no problem at all!"

A smile was drawn at the corner of Su Lang's mouth, then he put the formation into the storage space, and read the Taoist classics again.

In these ancient books, they record different refining methods in various natural universes. These methods have their own merits, but in general, the essence is the same.

For Su Lang, he also mastered several tricks of refining.

In addition.

There is also a refining formula and technique for the weapons of the Second Universe Eternal Realm.

For the general eternal realm, this is definitely a treasure, and it can save them a lot of detours on the road of refining.

But for Su Lang, it didn't have that much effect.

"The system, activate the one-key pill refining function, and refine all the pill that can be refined for me."

After reading the classics, Su Lang began to activate the system function to refine alchemy, synthesize and strengthen it.

Suddenly.

One after another cherished perfect-quality pill appeared in the storage space.

Su Lang smiled slightly, and flew straight towards the crescent-shaped incomplete planet.

quickly.

Just arrived at the near void of the planet.

As the nascent universe that was also plundered by the high-level universe, the innate planet of the Genluo universe is more complete than the infinite universe.

"really not bad."

"In my ten-party life universe, the planets created by the infinite core fragments can finally be further improved."

The corner of Su Lang's mouth raised slightly, and he immediately came to the surface of the planet, put all the intelligent creatures away, and dropped them into many crystal wall universes.

Immediately after.

It is to excavate the remaining core fragments of the planet!

[Chapter 2403: Expansion of Shifang Life Cosmic Planet](#)

This kind of thing.

Su Lang had already done it once in the boundless world.

So this time, I became more proficient, and soon dug out the innate core fragments of the incomplete planet of Genluo Universe!

no surprise!

The core fragments of this congenital planet in the Genluo universe are more than the infinite universe.

basically.

What this universe was like since it was plundered by a higher-level universe last time has hardly changed.

Because during this period.

No one in the Genluo universe can be promoted to the eternal state, and it is almost impossible to use these innate core fragments.

When Emperor Genluo Zhou had just been promoted, he ushered in the disaster of no roof.

Not only did the Black Ice Tower and Lingyu Wanjie Pavilion descend, but Su Lang, a big enemy, also came!

This time.

The dead one is called a thorough!

At this moment.

Su Lang has dug through the entire crescent-shaped incomplete planet.

All innate core fragments were dug out and placed in front of them.

"Haha."

"There are so many innate core fragments!"

"This is completely comparable to the sum of my ten life universe planets now!"

"Now, let's sort them into categories!"

"..."

An excited smile appeared in Su Lang's eyes, and soon those innate core fragments were classified according to their attributes.

quickly.

These innate core fragments are divided into ten parts.

"Clone dispatch!"

With a thought, Su Lang dispatched ten clones into each life universe in an instant.

Rumble!

The powerful breath descended on the universe of life one by one.

"He is the great Creator, the supreme Emperor Zhou, Your Majesty Su Lang!"

"His Majesty Su Lang has descended into our universe. It is great. It is my lifetime glory to see His Majesty Su Lang with my own eyes!"

"You are waiting for what you do, don't hurry up and put down the things in your hands, and worship the great Su Lang together!"

"..."

The intelligent creatures living on the planet of life suddenly all boiled, crawling down in ecstasy, and worshipping continuously.

"My people."

"This life universe is about to usher in earth-shaking changes. Get ready for the new world."

"..."

Su Lang's clone was suspended above the nine heavens of the life planet, and his voice spread throughout the planet.

Suddenly.

Countless creatures are even more excited!

"Our world will change drastically!"

"This is a change under the control of His Majesty Su Lang. There must be no harm, only good!"

"Yes, the universe we live in is about to usher in a new life!"

"Thanks to the great Su Lang for hanging the curtain!"

"..."

Countless wise creatures are discussing, guessing, and are fully prepared.

This scene.

Naturally fell into Su Lang's eyes.

next moment.

"The Power of the Universe-Space Avenue!"

Su Lang's thoughts moved, and the clone immediately displayed the space avenue, squeezing selected innate core fragments directly into the life planet through the force of space.

In an instant!

Rumble!

There were huge vibrations in countless places on the planet.

The underground of the entire planet began to bulge upward, as if some monster was about to break out of the picture.

But it got out of the ground.

A giant peak that really exudes terrifying cosmic energy!

As Su Lang put in more and more congenital core fragments, the entire planet expanded in a big circle at a speed visible to the naked eye! !

In the eyes of those creatures on the planet.

The whole world suddenly became more extensive.

Countless new caves and blessings have appeared in the world, and the energy of the heavens and earth is directly doubled than before!

"The new world has come!"

"The planet we are on has directly become bigger in the hands of His Majesty Su Langzhou, the great creator!"

"Oh my God, with the concentration of energy in the world, this more obvious power of rules, I have the hope of breaking through to the level of Emperor Wu!"

"Worship your majesty Su Lang!"

"..."

The creatures on the planet watched their world become more and more expansive, the energy concentration of heaven and earth is getting higher and higher, all of them are shaking with excitement.

And such a thing.

Occurs in all ten life universes including Blue Star!

Every life universe is full of turbulence, and the whole world is caring together!

This also allowed Su Lang to obtain a wave of incense aspirations and inhale into the Void Spirit universe.

[Chapter 2404: 8,200 垓 Life World](#)

"The congenital core fragments are arranged properly."

"Now I have a large number of eternal bodies for the clone to refining the origin of the universe."

"These innate core fragments are temporarily stored in the life universe."

"If you need it urgently in the future, you can also take it out and use it."

While thinking about it, Su Lang sent the clones out again to search the planets in the Genluo universe.

Su Lang himself reached the crescent-shaped incomplete planet in front of him.

"Although this planet is incomplete, it is better than an ordinary planet."

Su Lang smiled slightly, then used the crystal wall world to fuse a larger crystal wall world in his body, and stuffed the crescent-shaped incomplete planet in.

As for completing this planet?

Su Lang didn't have that idea.

There are countless planets, continents, and any shapes in his body, and he has never cared about it.

In order to complete a giant planet wasting time, he would not do such a thing.

After charging the crescent-shaped torn planet.

Su Lang set up a super-giant eternal-level spirit gathering array formation nearby, and began to absorb the cosmic energy of this Genluo universe.

Both belong to the grassroots universe.

The Genluo universe is slightly less developed than the Infinity, Taixi and other universes, and the universe has more energy.

of course.

This is just compared with the natural universe of the same level.

If compared with the more advanced natural universe, it is far from it.

Even if it is a high-level universe that has been developed for countless years, the energy of the universe definitely exceeds this Genluo universe by many times!

at this time.

Stay in the formation.

Take advantage of the formation method to absorb cosmic energy and increase concentration.

"The eight eternal realms previously killed."

"Oh no, there are nine, and Gen Luo's weak chicken is also one."

"The universe of eternal life and the crystal wall world should also be transferred."

"The two crystal wall worlds of the Four Eternal Realms, I don't know how many there will be!"

"..."

Su Lang showed expectation and immediately waved his hand, nine eternal bodies and nine eternal life universes appeared in front of him.

first timing.

Su Lang's attention was attracted by the Four Eternal Realm Life and Universe.

Compared with the eternal life universe previously obtained, the life universe of the four universes is even more terrifying, more than tens of times larger!

There are more and stronger intelligent creatures in it.

"So big!"

"You need to fuse more crystal wall worlds to collect it."

"Fortunately, I don't have many other things, but there are so many in the crystal wall world, more than 66,000!"

"..."

While thinking about it, Su Lang activated Yuhua Guiyi Profound Truth and began to condense the giant crystal wall world.

Not long.

Thousands of crystal wall worlds merge together to form a crystal wall world with a vast space.

Then there is the collection of eternal life universe.

All of this is already familiar, it is nothing more than the eternal life universe is a little bigger.

Charged a universe of life.

Su Lang successively took the remaining eternal life universe into his body.

Immediately after.

Started to search the crystal wall universe in the eternal body again.

The first is an eternal body of the four-planet level.

"This eternal body."

"There is a crystal wall universe around 1200 Gai!"

"This number has doubled directly from the Three Eternal Eternity!"

"Hehe, now, many of the empty crystal wall worlds in my body can be filled!"

Su Lang licked his lips in excitement, and even started to transfer the planets and continents in the crystal wall world.

This is also Su Lang's very skilled business.

It's nothing more than the number.

Time passed slowly.

Su Lang quickly searched all the nine eternal bodies of the Crystal Wall universe, filling them all into his crystal wall world!

A total of around 6000 Gai has been searched!

In addition, the crystal wall world filled in after killing Yuan Mingzhou and others, Taixi Zhou and others.

Su Lang already has a living planet or a crystal wall world on the continent, and the number has reached 8,200, which is 8,200 trillion!

Such a terrifying number.

It is not an exaggeration to say that it is the world of immeasurable sand.

But this is only one-eighth of Su Lang's entire Crystal Wall world!

"Tsk tut."

"Although these crystal wall worlds have not yet been perfected into a crystal wall universe."

"But the incense aspiration power alone is staggering."

"The incense aspiration power obtained every second can almost create an incense emperor!"

"My [Jinghua Shuiyue]... coming soon, coming soon!"

Su Lang rubbed his hands in excitement, and even if he turned on the one-key practice function, he could accumulate cultivation skills!

[Chapter 2405: Unwilling Emperor Anjue](#)

at the same time.

Some of his more than 10,000 clones are refining the origin of the universe, some are searching the Genluo universe, and some are looking for the escaped female Emperor.

And in an unknown universe far away.

"Huh! Huh--!"

"Then Su Lang won't kill anymore!?"

"I have gone through several natural universes before returning here."

"..."

Emperor Anjue appeared in the empty void somewhere, his expression faint and a little afraid.

He carefully recalled the details of his escape.

After escaping from Genluo Universe, he came to Guangyu Universe, one of the natural universes in the Nine Desolate Universe.

With the help of Su Lang's time when he was blocked by a weapon explosion.

Emperor Anjue took a huge risk and spent more time travelling to the next natural universe.

The advantage is that he erased the fluctuations of time and space when he shuttled through the barriers of the universe.

But this is not assured.

To be on the safe side, Emperor Anjue shifted the two natural universes more carefully.

In the process, all traces were erased!

It was only now in the important natural universe under the Black Ice Tower that he stayed somewhat relieved and stopped moving.

Just after he rested for a while.

There was another huge wave of time and space.

"Who!?"

"Could it be that Su Lang can really catch up!?"

The Emperor Anjue was like a bird with a frightened bow, his expression changed drastically, and he was about to flee almost on the spot.

But the next moment, he felt a familiar breath.

Not Su Lang.

It's his trusted companion, Emperor Tetsuyuan Zhou!

"Brother Anjue!"

"You escaped here too!"

"That Su Lang is simply terrifying. The four of us ran away together, and we were all left alone! The Emperor Lan Zhenzhou has fallen!"

Emperor Cheyuan Zhou was also afraid and horrified, as if he still had lingering fears.

"Ugh!"

"Then Su Lang's methods are really weird!"

"You can harvest the life of the eternal realm directly, and there is no chance of survival!"

"The blank space has completely fallen, our Black Ice Tower has directly lost a Four Eternal Eternity!"

"Furthermore, our Eternal Realm weapons have also self-destructed, and those who are robbed are robbed, it is really hateful!"

"Our Black Ice Tower is so famous, and Lingluo many natural universes have been planted today, hateful, hateful!"

"..."

When Emperor Anjue saw Emperor Cheyuan Zhou, his heart was completely relieved, and then endless resentment surged from his heart.

"Brother Anjue!"

"That Su Lang is really weird."

"His endless series of weapons, weird sealing methods, and terrifying sword moves are all characteristics that the emperor of the universe possesses!"

"The forces behind this person must be particularly terrifying, what shall we do!?"

Emperor Che Yuan Zhou said nervously, he was really afraid of Su Lang.

For countless years.

It was the first time he felt that he was so close to death!

And it's the kind of complete death when you die, and any resurrection is useless!

"The **** Su Lang!"

"Although he is very strong, he will certainly not be able to find the core natural universes in our Black Ice Tower."

"So, as long as we don't go to the Nine Desolate Universe Region, safety should be fine."

"This son killed so many of us, we can't just leave it alone, we must retaliate and go back!"

"Let's go, go to the Sky Blue Universe, and leak out all the coordinates of the Genluo Universe and the Guangyu Universe in the Nine Desolate Universe!"

"Even if that guy immediately flees after gaining the benefits, there must be a large number of powerful people in the sky blue universe going over to check."

"Maybe, those strong people will guess the natural cosmic coordinates that Sulang Miscellaneous possesses."

"In addition, this person is really weird, and the forces behind him are also very mysterious. I don't know if it is a force in our vast universe."

"Let's find out if we can get any information!"

"..."

Emperor Anjue was unwilling to lose a four-planet-level sibling brother, three eternal powerhouses of the three-planet level, and his own weapons.

Under the condition of ensuring safety.

He must take some actions to vent the resentment and anger in his heart, otherwise he will not even be able to mention the mind of refining the origin of the universe.

[Chapter 2406: Suinankong reached the founding level](#)

"Big Brother Anju is right."

"The Sky Blue Cosmos Region is one of the rare open Cosmos Regions among the vast expanses of the nearby Cosmos Region. So Su Lang will soon be active there!"

Emperor Cheyuan Zhou nodded in agreement, "While Su Lang is now packing the spoils of the Genluo universe, let's go to the Kongqing Universe!"

"Not urgent!"

"Before this, we have to unite with Emperor Yan Yan Zhou!"

"This fellow Ling Yu Wanjie Pavilion also suffered a heavy loss, and for Su Lang, I definitely want to eat his flesh!"

"We act together, and the chance of successfully retaliating against Na Su Lang will be greater!"

Emperor Anjue nodded, shook his head, and said his plan.

then.

"Yes, Ling Yu Wanjie Pavilion was also killed for a Four Eternal Eternity!"

Emperor Cheyuan Zhou changed his expression and nodded, "We will contact them now!"

Soon.

The two Emperor Anjue Zhou began to contact Lingyu Wanjie Pavilion.

The forces on both sides have had contact before, otherwise they would not know each other.

therefore.

It's easy to connect.

In a certain natural universe known to both forces, Anju and Renyan had met.

Not long ago.

Still six eternal emperors of the four universes.

In an instant.

Two of them have fallen!

The remaining four looked at each other and couldn't help feeling a trace of sadness.

Next.

It's just a discussion.

Then the four of them went to the Kongqing universe together, the purpose was to find trouble for Su Lang and to find out Su Lang's intelligence!

For everything that Anjue and others did.

Although Su Lang didn't know, he also guessed that they would probably not give up.

"The Genluo universe cannot stay for long."

"After collecting the benefits, go to the next natural universe immediately!"

"I don't know what the third natural universe will be like."

Su Lang thought so, his right hand opened, and a light spot appeared in it, containing the coordinates of the third-party natural universe of the Nine Desolate Universe.

so far.

He has fully understood.

Some natural universes in the Nine Desolate Universe have been scraped by forces such as the Black Ice Tower.

perhaps.

This third coordinate of the natural universe will be nothing and not necessarily.

of course.

Su Lang didn't want to make a trip for nothing.

Time passed slowly.

In an instant, a system prompt came!

"Ding! Sui Nian Kong has reached the founding level!"

Accompanied by the sound of system prompts.

The majestic exercises and profound meanings merged into Su Lang's mind.

Suddenly.

Su Lang, the founding eternal realm exercise technique "Su Lang" completely mastered!

"Hehe."

"I practiced "Hexintong" before, and I have a certain defensive ability against this method."

"At this time, he has completed "Successful Thoughts" again. His heart-to-heart method will be completely useless for me!"

"..."

Looking at the profound meaning of the exercises in his mind, Su Lang nodded in satisfaction.

Before, he needed to call up the enemy's attribute panel to see if the other party had mastered his heart, and then be vigilant.

it's good now.

With Suinankong, whatever you want, your thoughts will not be explored!

"What exercises will you practice next?"

"Look at the eternal realm cultivation technique harvested today."

Su Lang touched his chin, and then took out the techniques he had obtained from Liu Bai, Lan Zhen and others.

There are not many eternal realm exercises.

Aside from the main practice, there are only four books in total.

Upon closer inspection, only one exercise technique for strengthening the soul entered Su Lang's eyes.

The rest of the exercises are just so-so!

Su Lang smiled, and immediately placed the exercise called "Soul Development of the Heart Jue" on the ten martial arts villains.

Suddenly.

The martial arts little people practiced the exercises tirelessly.

"It won't be long, it's another eternal realm technique!"

"The effect of "Soul Development of the Heart" seems to be good. After practicing to the founding level, the soul power will far exceed the same level!"

"My soul is already two small realms ahead of the same level, waiting for the completion of this exercise, it will be even more awesome."

Su Lang nodded slightly, with a look of expectation in his eyes.

The improvement of soul power.

But it represents an increase in the detection range of divine consciousness.

The wider the detection range of divine consciousness, the greater intelligence advantage can be obtained.

You can see the enemy, but the enemy can't see you, unhappy?

When you get the first opportunity, you have many priorities, whether you want to go or stay, and whether to engage the other party is up to you!

[Chapter 2407: Deploy again to practice](#)

Next.

Time passed slowly.

Very, very rich cosmic energy has been gathered in the Eternal Spirit Gathering Array!

The efficiency of the one-key practice function is directly maximized, absorbing cosmic energy crazily and transforming it into cultivation!

Simultaneously.

Su Lang himself also opened the external channels of countless worlds in his body.

Let the cosmic energy be infused into the life universe, the crystal wall universe, and the crystal wall world.

These unrefined cosmic energies will be absorbed and refined by countless creatures in Su Lang, and then converted into various higher-level energies.

Finally, with the release of various consumption channels such as spells, or the death of a person, all cultivation bases dissipate in the world, and the energy returns to the world.

In short.

There are countless intelligent creatures in Su Lang's 8,000-plus world.

Each one is an energy conversion machine!

The most primitive cosmic energy will be transformed into more suitable energy by the creatures in Su Lang.

and.

These energies will also be melted into the crystal wall universe and crystal wall world, and precipitate.

After finally transformed into the Crystal Wall Universe, more cosmic power can be condensed!

"Over 8,000 Gai Crystal Wall World."

"Countless intelligent creatures lived."

"Among them, most of them are collected from the powerful eternal realms and the natural universe."

"The intelligent creatures born in the Nest of Civilization account for only a part of it, and this part can be accelerated by the time avenue of the Nest of Civilization!"

"But it's not enough. More creatures still haven't caught up with the fast train of time.

The color of thinking flashed in Su Lang's eyes.

Maintaining the movement of the internal time avenue and accelerating the time of the internal world will continuously consume the power of the universe, which will not work in the long run.

But a short time is completely possible.

Such as this time.

Su Lang was accumulating cultivation skills, but he didn't need to practice himself, which was boring.

"let's start!"

"The Avenue of Time, one thought for thousands of years!"

Su Lang took a deep breath, locked the countless worlds in his body with his spiritual thoughts, and instantly displayed the power of the Great Dao of Time!

Suddenly.

One by one in the world.

The time flow rate suddenly increased!

In Su Lang's thought, ten thousand years passed in these worlds!

The time velocity multiplier in this one is simply terrifying to unimaginable!

From Su Lang's point of view, all creatures in the world are like accelerating undercurrents, madly accelerating!

among them.

It also includes the public life universe!

Chu Xiaobei, Ji Ruxue and others all practiced on the Dantian Universe Blue Star.

"Now I have reached the eternal state of the Second Universe."

"Chu Xiaobei and others are still in the early stage, and their realm is not high."

"The level of cultivation they need for promotion has become trivial to me."

"It's time to help them improve their level!"

Su Lang thought so, a smile was drawn at the corner of his mouth.

Eternal realm powerhouses, under normal circumstances, have lived for at least ten billion years.

The people close to him basically cannot live that long.

Su Lang is different.

It has only been more than half a year since I entered the way of cultivation.

And he can easily improve the cultivation of the people around him and make him prolong his life.

There is no need to watch the death of those close to him like the rest of the eternal realm, but there is nothing he can do.

The seven emotions and six desires of human beings are the way of incense and the power of humanity, which are part of the power of the universe.

If you forget feelings, that means there is a lack of the road, it is not desirable.

Alone in the eternal realm, incarnate in the humanoid universe, rule countless creatures, aloof, indifferent and ruthless.

But in fact, it is not without feelings. They can clearly experience their own cosmic power at all times, the boiling humane power, which will also arouse their own thoughts and feelings.

It's just that the long years have numbed it.

It's just numbness, not forgetting.

The previous Emperor Zhe Li Zhou was obsessed with creating his own soul son, and he had no hope in this regard.

And Zheli, in the endless universe, is not an isolated case.

If so.

Who doesn't want people around him to be with him forever?

Su Lang naturally wanted it!

"system!"

"Start one-key empowerment and repair foundation empowerment function!"

"Start one-key empowerment and rule empowerment function!"

"Start the one-key empowerment·Gong law empowerment function!"

"..."

Su Lang smiled, locked Chu Xiaobei and the others, and resolutely issued instructions!

boom! !

Terrifying cultivation base, sophisticated time rules, and a lot of too basic techniques.

Suddenly poured into Chu Xiaobei, Ji Ruxue, Murong Xianxian and others!

[Chapter 2408: World time acceleration in the body](#)

Suddenly.

The expressions of Chu Xiaobei and others who were cultivating changed, they were surprised and moved.

How can they be unfamiliar with this feeling of being instilled in the practice of regular exercises! ?

It was instantly understood that Su Lang was helping him improve.

"Brother Su Lang is helping us improve our cultivation."

"It seems that Big Brother Su Lang has completely gained a foothold in the eternal realm."

"Brother Su Lang is so good, he has never forgotten us, we are really the happiest people in the endless universe!"

"I must help Brother Su Lang. Although I can't help him fight, the chores on Blue Star must be taken care of by Brother Su Lang in an orderly manner."

"..."

Chu Xiaobei, Ji Ruxue and other women showed their brilliance and became excited.

Under Su Lang's indoctrination.

Their cultivation bases quickly reached the half-step eternal level, the time rules were mastered to the top level, and they were able to contact the power of the time avenue.

Except besides.

The women's mastery of the basic exercises is far beyond the ordinary half-step eternal.

To say the only drawback.

That is because there is not enough time to settle, compared to the half-step eternity of normal cultivation, the experience in all aspects is a bit worse.

But at this time.

Su Lang speeds up the flow of time.

Chu Xiaobei and others can settle down and have a deeper understanding of their own power.

This is for them.

It will be easier when climbing the Eternal Realm in the future.

In addition.

Because almost all Chu Xiaobei and others were promoted by Su Lang indoctrination.

Therefore, they did not follow the path of Yuhua and unity like ordinary Taichu, but completely followed the path of a great world.

and so.

After the girls reach the eternal state, the difficulty of cultivation will be the lowest compared to the ordinary eternal state.

And under the deliberate cultivation of Su Lang.

Chu Xiaobei and other women also have very many crystal wall cells.

Although it is impossible to reach Su Lang's current level, there is also a world of 20,000 gai crystal wall cells!

This potential surpasses the emperor Yuan Mingzhou a hundred times!

According to Su Lang's speculation, they practiced all the way to reach the high-level eternal state, and they did not need the core of the universe to smash their crystal wall world.

"Now they have reached half an eternity."

"This improvement span is quite large, I don't know how many times it has been improved."

"If you continue to help them ascend to the eternal state now, the span will be too big and things may go wrong."

"In that case, let them settle for a period of time in the blue star with high time velocity."

Su Lang showed a smile, and a smile was drawn at the corner of his mouth.

Soon.

He looked at the development on Blue Star again.

Under the super fast time flow, the development speed in the Dantian universe becomes super fast.

Because Chu Xiaobei and other women were deeply influenced by the 'ancient books' of Blue Star two thousand years ago.

Therefore, under their control, Blue Star has developed a civilization that combines Reiki technology and martial arts cultivation.

Various high-rise buildings, vehicles, aircrafts coming and going, people's popular 'retro' costumes and dresses made Su Lang feel a strong sense of familiarity.

"Go down at the current time flow."

"When my cosmic power is exhausted once, Chu Xiaobei and others must have settled down."

"When the time comes, I will instill the power of the Great Avenue of Time, give them some origins of the universe, and perfect the Crystal Wall Universe."

"It's just that the system's 'crystal wall universe' function can't be used for them. It can only instill more eternal realm techniques that speed up the refining of the universe."

"Although they think their cultivation speed will be slow for me, but fortunately, as long as they enter the eternal state, they basically have an infinite life span."

"With the conditions I created for them, they will be able to go far beyond the ordinary and eternal state and try to catch up with me."

"..."

While thinking about it, Su Lang continued to save his cultivation base.

Before instilling cultivation bases for Chu Xiaobei and other women, the gold on the cultivator's body was reduced a little.

It was added back soon.

Just then.

Good news from a clone

—The eternal woman who flees in panic before has been found.

[Chapter 2409: I found it, Emperor Qiongling Zhou](#)

"This woman does not belong to the natural universe of the Nine Desolate Universe."

"It doesn't belong to the Black Ice Tower and Ling Yu Wanjie Pavilion. From her body, perhaps we can get more coordinates of the natural universe."

Su Lang was delighted and immediately used the "perfect leaning over" function to perfectly control the clone of the eternal woman.

I saw a turn of the picture in front of me.

Came into a dark void.

In the vast void, Su Lang clone was flying forward.

Within its terrifying spirituality coverage.

A man and a woman were chasing and fleeing, the former sneered while the latter was full of panic and despair.

"Hahahaha!"

"Bitch girl, I advise you to stop immediately!"

"Otherwise, when I catch you, our people in the Black Ice Tower will definitely enjoy you one by one!"

"Hurry and stop, you have already hit the Temporal Forbidden Curse, and you have no chance to escape. As long as you give up resistance, I promise you will be extremely safe!"

"Moreover, joining our Black Ice Tower, you will have inexhaustible resources."

"..."

The man who kept pursuing from the rear, with a bright aura blooming on his body, but showing cruelty and desire, constantly issued threats, trying to attack the woman.

"Even if I die, I won't believe your words!"

The woman showed her death desire, and her fleeing pace did not slow down for a moment.

"System, call up the property panel."

"Oh, one is Qiu Guangyu, Sanzhou-level, and the other is Qiongling, Erzhou-level?"

"According to the dialogue between Emperor Anju Zhou and Emperor Yanyan Zhou and others."

"This Qiu Guangyu should be from the Black Ice Tower."

"It's just that this person didn't even get news of the evacuation of Anju and others. Could it be that he was simply abandoned?"

"That Qiong Ling is also amazing, at the Second Universe level, so fast, it can escape so far under the chase of the Third Universe level!"

There was a look of interest in Su Lang's eyes, and immediately used the dispatch function to make the clone he controlled to speed up.

quickly.

It chased Qiong Ling and Qiu Guangyu to a closer position.

Simultaneously.

Qiong Ling and Qiu Guangyu's weaker spirits finally saw the existence of Su Lang clone.

"what!?"

"A Three Eternal Realm!?"

"Who is he? How could he chase behind me!?"

"Master Anju, shouldn't they be confronting the people in Lingyu Wanjie Pavilion? There is no such person in Lingyu Wanjie Pavilion."

"What is this person's identity and what purpose does it have!?"

"..."

Qiu Guangyu's eyes were shocked, puzzled, and deep fear arose in his heart!

The other side.

"A three-world class eternal!"

"Who is he and why would he catch up!?"

"Is it with Qiu Guangyu? Or, it's not the same, but someone from another force!?"

"It's over, I can't run away with one Three Eternal Eternity, two Three Eternal Eternals, how can I be spared?"

"..."

Emperor Qiongling Zhou was also uncertain, and immediately became even more desperate.

she knows.

The third person who appears may be a variable that can allow her to escape from the desperate situation, but the probability is also almost zero.

Greater possibility.

It is the same as her prey, butchering her!

at this time.

The clone controlled by Su Lang was already closer to the two in front.

"You two, stop!"

Su Lang's faint voice reached Qiu Guangyu and Qiongling Zhou's ears at the same time through his spiritual thoughts.

but.

It has no effect at all.

"Stop?"

"How is it possible? Escape is my only hope for survival!"

"As long as I find a way to lift the time and space forbidden spell, I have hope to survive!"

Emperor Qiong Ling Zhou was bitter in his heart, and flew forward desperately.

Simultaneously.

"who are you?"

"I warn you, I am a member of the Eternal Realm Force Black Ice Tower!"

"Our forces rule over hundreds of natural universes, and there are many four eternal realms guarded!"

"If you are acquainted, immediately disappear from my range of perception, otherwise, don't blame my Black Ice Tower for setting you as a hunting target!"

"..."

Emperor Guangyu Zhou's expression was gloomy, his eyes faintly tinged with hideousness, and his tone was full of threats.

[Chapter 2410: I'm sorry, you are dead](#)

He saw that the avatar of Su Lang was only a three-dimensional eternal realm, which was similar to his cultivation level, and when he thought of the three-dimensional four-dimensional eternal realm of the Black Ice Tower, he suddenly felt emboldened.

But I heard this.

"Ha ha."

"Black Ice Building?"

However, Su Lang smiled coldly, sarcastically, "Since you are from the Black Ice Tower, haven't you heard from the Black Ice Tower?"

"Humph!"

"After I catch this woman, I will contact Master Anju!"

"What's more, you are trying to persuade Lingyu Ten Thousand World Pavilion to retreat from the Black Ice Tower, what news will they send me?"

Emperor Guangyu Zhou also sneered, "This fellow Daoist, if you see your cultivation base is pretty good, let's go quickly, otherwise, be careful that your cultivation base of tens of billions of years will be scattered!"

"Tsk tsk."

"It stands to reason that you are from the Black Ice Tower, and they will tell you that the Black Ice Tower has failed miserably."

The corner of Su Lang's mouth raised slightly, revealing a hint of playfulness, "But now, you are completely unaware of it, and you are obviously treated as an abandoned son."

This statement came out.

Whether it was Emperor Guangyu Zhou or Emperor Qiongling, they were shocked and immediately turned into disbelief.

"what?"

"Hei Binglou fiasco?"

"How is this possible, impossible!"

"The strength of our Black Ice Tower is even stronger than Ling Yu Wanjie Pavilion. How could it be a miserable defeat!"

Emperor Guangyu Zhou shouted in disbelief, and immediately showed contempt, "Small things, this kind of clumsy lie is also made up, and you want to use it to scare me, you dream!!"

Hear this.

Although Emperor Qiongling resented the Black Ice Tower and the Emperor Guangyu Zhou in his heart, his thoughts were similar to those of Emperor Guangyu Zhou.

The Black Ice Tower is three eternal with four universes, and ten eternal with three universes. How can it be pale?

But at this moment.

"Ah."

"You scolded me, that's embarrassing, you are dead."

"Besides, don't you believe that the Black Ice Building was defeated? Then you can take a look at this!"

A cold smile was outlined at the corner of Su Lang's mouth, and he waved his hand to throw out the eternal body of Emperor Liu Bai.

Suddenly!

A lingering breath of the eternal realm of the four universes bloomed.

"what!!"

"Liubai, Lord Zhou, has fallen!!"

"How is this possible, he is a great power of the Four Eternal Realm! Who, who can kill him?"

"You, you, how could the corpse of Lord Bai Zhou be in your hands? You are just a three-time eternal!"

"....."

Emperor Guangyu Zhou instantly thundered, his body trembled wildly, and his pupils suddenly shrank!

His exclamation was full of horror and disbelief.

But he was not blind, he could see that it was the corpse of Emperor Liu Bai Zhou, but it was unacceptable for a while! !

Leaving the emperor Zhou, dignified and eternal!

At this time, the death was unknown, and the corpse was thrown out by a three-dimensional eternal.

This is unbelievable, fantastic!

"Could it be that Ling Yu Wanjie Pavilion defeated the Black Ice Tower!?"

"This person is from Lingyu Wanjie Pavilion!?"

"But, even so, he is only three eternity, and the emperor Liubai is in the center of the Genluo universe."

"No matter how he can't take out the corpse of Emperor Bai Zhou, the doubts in it are completely puzzled!"

Emperor Qiong Lingzhou, who fled in the front, murmured in shock.

"Ling Yu Wanjie Pavilion?"

"Hehe, they don't have that strength yet."

Su Lang disdainfully smiled, "Moreover, Lingyu Wanjie Pavilion is the same as Hei Binglou, a fiasco!"
Hear this.

Emperor Guangyu Zhou and Emperor Qiongling were even more incredible.

Didn't Ling Yu Wanjie Pavilion defeat the Black Ice Tower?

Who is that! ?

And Ling Yu Wanjie Pavilion was also a miserable defeat?

how is this possible?

It is a mere cosmos, and there will be more eternal forces in it.

"impossible!"

"This is just a basic-level universe, and it's already a coincidence that Lingyu Wanjie Pavilion and Heibing Tower are attracted at the same time."

"How could there be a stronger third-party eternal force that happened to enter the Genluo universe at this time!?"

"Furthermore, Hei Binglou and Ling Yu Wanjie Pavilion are facing powerful enemies at the same time, and they will definitely join hands. If they join hands, how could they fail miserably!

"False, what you said must be false!"

The Emperor Guangyu Zhou was going crazy, the Black Ice Tower's fiasco was not over yet, and the Lingyu Wanjie Pavilion was also fiasco!
