

One Click 241

[Chapter 241: Su Lang's Super Grocery Store](#)

Su Lang waved his hand, and a spear and two large animal skins appeared on the ground.

Spreading one of the skins on the ground, Su Lang used a spear and another skin to make a sign.

On the signboard were five characters "Super Grocery Store".

Putting the sign on the ground, Su Lang completed his simple stall.

Immediately afterwards, he took out a large amount of useless pills, weapons, animal materials, space rings, etc. from the storage space, and piled the stalls full!

These items come from the spoils of Su Lang's killing of enemies and the looting of major clans in the Eastern City.

And he also took out a lot of blank jade slips, entered his practice experience into it, and sold them!

And this stall full of goods soon attracted some students.

"Wow! This mysterious senior has so many good things!"

"Hey, that's Tianxuan Zhicaobao Dan, it looks so high-quality!"

"Hey, these pills are piled up here like rubbish, is this senior so headstrong?"

"Wow, these animal materials are handled perfectly, but unfortunately I bought it for no use, and I don't know how to refine weapons."

"Senior, is your bottle of Tianquan Zijin Qidan top-quality? It looks so beautiful!"

"Senior, how do you sell this high-level genius?"

"..."

The new students gathered in front of Su Lang's booth, one by one, their eyes dazzling.

"For the sake of your new students, I will give you a bit cheaper, and all goods will be 10% off!"

"However, if you are interested in the same item, then the higher price will get."

Su Lang said faintly, "This junior, this high-level psychic mad dragon lotus will sell you 10 million gold coins."

"10 million gold coins, good!"

The junior happily took out the spirit stone and handed it to Su Lang, then took the weapon happily.

However, he did not leave there, but continued to look for what he needed.

The transaction of the first piece of goods also raised the desire of the other students to buy.

"Senior, I want this bottle of the best medicine, how many spirit stones?"

"Senior, I want this supreme quality Tai Xuan Rong Ling Ba Pill!"

"Hey, I saw it first, don't grab it!"

"..."

Everyone began to rush to buy them, and the hot scene suddenly attracted more students.

Even some veteran students took their booths and went to Su Lang to watch the excitement.

Not long after, Su Lang's booth was surrounded by water.

Then, the students who followed up were all shocked!

"Look, look, that jade slip contains all the experience of advanced attribute skills from entry to completion!"

"Wow, this senior actually masters the consummation level advanced attribute exercises, this comprehension is too strong!"

"Wow! Isn't the pile of pill in the corner the best pill? Not even a medicine bottle?"

"My goodness, this senior must be a high-level student of Danmen, at least a gold-level student!"

"Let's not stop it, you see there is a king-level pill, this senior is probably a platinum-level pill student!"

"This senior is really awesome, so many high-end medicines are piled up here for sale like groceries!"

"Stop talking, I'm going to buy a pill. This is a once-in-a-lifetime opportunity!"

"I'm fond of that superb Purifying Purple Vein Pill, don't grab it with me!"

"What? I just want to buy the marrow purple vein pill, you go away!"

"Nima, I was interested in it first, and you will grab my fare!"

"If you increase the price, increase the price, I'm afraid of you!"

"..."

More and more people have joined the panic buying army.

The students who set up the stalls also closed the stalls and rushed over, the scene was once chaotic.

However, after Su Lang exposed an extremely high and dangerous aura, many students suddenly became extremely polite.

Immediately afterwards, the students who came to the groundnut to participate in the trade conference found that there was only one booth selling things in the entire trade fair!

And at this stall, except for alchemy materials, almost everything is sold!

Immediately afterwards, later students also joined the panic buying.

In addition, some people took out the jade card of Chuanxin to call friends and call friends, and more and more students were gathered to buy them.

Although it was sold at a 10% discount, from time to time there were people bidding to buy it, and they were beaten up.

This makes the spirit stones that Su Lang harvests are even higher than they are sold at market prices!

In the midst of the students' rush to buy, a large number of spirit stones poured into Su Lang's storage space like a flood, which made him happy!

[Chapter 242: Shangyang Mountain Hall of Fame](#)

It was night in a blink of an eye.

I have to say that the students of Xuanyuan Budo Academy have too strong purchasing power.

Especially the advanced students who joined in later, these people did not blink their eyes when they increased the price.

After most of the sales, although the debris in Su Lang's storage space has not been processed, most of it has been sold.

This allowed Su Lang to harvest more than 15 million middle-grade spirit stones!

However, by this time, the remaining living creatures are basically not selling well.

The enthusiasm of the students has also been reduced by more than half.

If Su Lang took out the perfect quality pill to sell, it would definitely make the scene hot immediately.

But he did not intend to do so.

The perfect quality pill is too glaring.

Secondly, the spirit stones of the students were almost squeezed by him.

Even if the students bid for the purchase, they can't sell it at a high price.

Su Lang planned to find a suitable opportunity to find a shop outside and sell them all.

"Okay, it's almost sold!"

Su Lang waved his hand to close the booth, waved his hand and said, "Everyone, go back."

As soon as this statement came out, the students immediately sighed unwillingly.

But Su Lang was already a high-ranking platinum student in their eyes. They didn't dare to offend, so they could only obediently disperse.

Seeing the students who turned their heads one step at a time, Su Lang smiled dumbly before turning around and leaving.

When I returned to the courtyard.

Su Lang found a letter stuck in the door of the small building.

Open it and take a look.

"Small things!"

"I didn't expect you to be a counselor, so you hide in other places."

"But it doesn't matter, as long as you are at Xuanyuan Martial Arts Academy, don't even want to escape our palms."

"We will definitely stop you from crying every day, crying hard!"

"Fourth Master Xishan stay!"

The handwriting was red, which was enough to show how angry the Fourth Young Master Xishan was and how hated Su Lang was.

"It seems...have not learned enough!"

Su Lang sneered, and burned the letter with a fire.

Soon, he walked into the small building and fell asleep.

...

the next morning.

Su Lang woke up leisurely.

"Tuk tuk!"

There was a knock on the door.

"Are you so anxious to find death?"

Su Lang looked coldly, and then raised his eyebrows.

The person outside was not the Fourth Young Master of Xishan, but a female student with a golden student badge.

"It looks like it shouldn't be the fault."

While thinking, Su Lang went downstairs and opened the door.

"Hello, are you Su Lang, a student of this special class?"

The female student smiled lightly and said, "I am Jiang Yudie, the assistant teacher of Anxin Instructor, to inform you of something.

Your specialty class has already been enrolled, so classes start earlier than other classes.

Before ten o'clock, you have to arrive at Room 603, Building F, Shangyangshan. Don't be late.

Where's your jade pass? Let's add the contact information, and I will send it to your Chuanyutai for future courses. "

"Passing on the jade card, here it is."

Su Lang took out a jade medal from the storage space.

This is one of the items in the space ring given by You Lu.

Jiang Yudie took Su Lang's letter-passing jade card, and then took out her own letter-passing jade card and stacked them together.

In a short while, a connection was established between the two Chuanxin jade tiles.

"I'm going to notify other students, goodbye."

Jiang Yudie waved and left Su Lang's small courtyard.

"I didn't expect to have class so soon."

"In class... I really miss that time."

Su Lang smiled slightly, and then hurried towards Shangyang Mountain

—At this time, he had already remembered the entire Xuanyuan Academy's map in his heart.

About ten minutes later, Su Lang arrived at Shangyang Mountain.

This is a very long and long trapezoidal peak, with numerous buildings constructed from bottom to top.

The higher the building, the more magnificent and gorgeous.

On the top of the mountain, there is a super luxurious hall. Su Lang knew that it was the Hall of Fame.

The trainees in the Hall of Fame are the highest honorary title of the trainees. There are only forty people in the Hall of Fame. There are four students in the battle pill formation, ten people each.

Once you become a Hall of Fame student, you can leave your own sculpture inside!

"If you become a student in the Hall of Fame, you can enjoy the highest level of student treatment in Xuanyuan Budo Academy."

The corner of Su Lang's mouth twitched, "Soon, there will be a place for me in that hall!"

[Chapter 243: See the four fools of Xishan again](#)

With full confidence, Su Lang came to Class 603 of Building F.

At this time, there were quite a few people sitting in the classroom, and Su Lang glanced around and found that they were mostly dudes.

Basically, they are all top-grade qualifications, or guys with not bad qualifications but very poor in other aspects.

"Sure enough, they all go through the back door."

Su Lang curled his lips and walked into the classroom.

"Oh~ here's another one! This guy is twenty years old, right?"

"Intermediate general level? This age, this cultivation level, is worse than mine."

"Haha, your eldest brother doesn't talk about the second elder brother, it's all rubbish, which is like me, I am the highest quality!"

"What about your best aptitude? It's hard to practice an intermediate technique just with your understanding."

"I cross, can you mention one more thing?"

"Just mention it!"

"..."

Everyone talked for a while, and then went to do their own thing.

Su Lang glanced at the classroom and found names written on the desks, so he found his seat and sat down.

"Su Lang? Which family are you from?"

"It's a good background to be able to enter the special class, but why haven't I met you?"

"There is no very powerful Su family in this blue star main city. Could it be that you came from a different place?"

Next to him, a pale, over-indulgent panda-eyed teenager asked curiously.

"Well, out of town."

Su Lang nodded faintly.

To be honest, he has no interest in talking to these little kids.

"You turned out to be a foreigner!"

"For those from other places who have entered the specialty class, are you really a specialty student?"

"Wow, it's so rare, the specialty class actually has a specialty student!"

The panda-eyed boy was surprised, "Man, talk about it, what are you good at?"

Su Lang raised his eyebrows: "I'm—the specialty there!"

"Uh....."

The corners of the panda-eyed boy's mouth twitched and he was speechless.

At this time, a few more figures walked in outside.

The appearance of these two, five or eighty thousand guys immediately made the classroom a lot quieter.

"Who?"

Su Lang looked up, hey, acquaintance!

The four guys who walked in, who are many of the four fools of Xishan?

And when Su Lang saw the four fools of Xishan, the four fools of Xishan also saw Su Lang.

In an instant, the four people's eyes widened and a burst of fury broke out.

"Little crap, it's you!!"

"Unexpectedly, you are also a student in the specialty class!"

"It takes no effort to break through the iron shoes and find nowhere to find it!"

"Hmph, I want to see who your name is, oh, Su Lang? Never heard of it!"

"A little-known clerk who dares to provoke the Fourth Young Master of Xishan, I tell you, you are dead!"

"..."

The four silly Xishan stared at Su Lang angrily, like four pufferfish about to explode in anger.

"You guys..."

Su Lang curled his lips in disdain, "Is it not enough to dislike the lesson I received yesterday?"

As soon as this remark came out, the face of the Fourth Young Master Xishan suddenly turned blue and red.

Under the eyes of everyone, they were cleaned up by Su Lang like flies. It was a great shame.

At the same time, other students in the classroom were in an uproar when they heard what Su Lang said.

The Four Young Masters of Xishan are among the best in their generation.

It was only the Fourth Young Master Xishan who took care of others. Now this Su Lang has taken care of the Fourth Young Master Xishan, and I don't know if it is a good one or a fool...

"Humph!"

"Don't think you beat us once, it's amazing!"

"We have made a brand new preparation, and we are bound to make you pay today!"

While talking, the four young masters of Xishan showed their murderous aura, and they wanted to do it.

"stop!"

A sharp sharp shout sounded at the door.

Everyone joined together, turning their heads to look over.

I saw a woman with white, black, bright eyes and white teeth, and a slightly sickly temperament standing at the door with an angry expression on her face.

And beside her, stood golden student Jiang Yudie.

"It's Anxin mentor!"

"Sure enough, it's as beautiful as the rumors!"

"You can keep your voice down, this instructor has a bad temper. You can't eat it if you anger her!"

"..."

Some students lowered their heads and started talking in a low voice.

At the same time, the four young masters of Xishan looked stagnant, and ran out of murderous aura one after another.

[Chapter 244: The sixth and seventh system functions!](#)

"You guys!"

"Does it mean that the university is not yours?"

"I tell you, no matter what your background, you must follow the rules in the college!"

"If you have contradictions, you can go to the victory ring to solve them, and if you have big grudges, you can go to the life and death ring to solve them."

"If you dare to violate the rules and have a private fight in the academy, don't blame me for driving you out of the Xuanyuan Martial Arts Academy!"

Instructor An Xin walked into the classroom with a cold face, her petite body exuding a slight sense of majesty.

With her reprimand, the entire classroom was suddenly silent.

Although almost all the guys here are going through the back door, the power behind them is not small.

But they knew that if Anxin instructor really wanted to drive them away, it would definitely not take much effort.

The position of Xuanyuan Wudao Academy is aloof, and the position of academy tutor is also aloof!

Instructor Anxin stepped onto the podium and stared at everyone condescendingly.

After a while, the pink lips opened up.

"Specialty class is a compromise of the university to you, but this does not mean that you can get along without worry."

"Students who fail to achieve their goals within the prescribed period of training will automatically lose their status as students!"

"Next, I will prepare four classes for you, fighting, alchemy, weapon refining, and formation to determine the direction of your further training."

Having said this, the instructor Anxin turned his head to look at Jiang Yudie, "Yudie, you guard them, I will be back at ten o'clock, and all the students who are late will be recorded and expelled from the university."

"Understood, Anxin Mentor!"

Jiang Yudie nodded heavily.

Immediately, Anxin instructor turned straight and left.

Seeing the back of Anxin instructor leaving, all the students breathed out one after another.

Su Lang didn't care too much, and he was lost in thought.

"Determine the direction of further study."

"Just forget about refining the array."

"The only choices I can choose are Zhanmen and Danmen."

"Whether it is through combat or alchemy, I can quickly upgrade the student level and enjoy more generous benefits."

"Warmen trainees can watch various exercises, experience, and get guidance from the strong when they reach advanced levels."

"Pill students who are promoted to advanced levels can watch various pill codes and prescriptions and use academic resources to refine pill medicine."

"At present, my exercises have not been completed yet. Choosing a battle gate can only be regarded as icing on the cake."

"If I choose the Danmen, I can use the resources of the university to refine the pill, replace it with spirit stones, and upgrade the system functions."

"In contrast, the benefits of choosing Danmen are significantly greater."

"..."

After determining the direction of further studies, Su Lang fell asleep bored.

The other students also slouched on the table and spoke.

An hour passed in a blink of an eye, during which many students came one after another.

There was no guy who was directly dismissed because of being late.

At this time, Anxin instructor also walked into the classroom with long legs.

Suddenly, all the students sat up, for fear of angering An Xin.

"Now start the first class, practice formation."

Instructor Anxin didn't get muddled, and with a wave of his small hand, a set of pens appeared on the table.

Jiang Yudie took the pen and handed it out, one set per person.

"Do you practice formation?"

Su Lang held the array pen and raised his eyebrows, "My perverted system has a one-key alchemy, I don't know if there will be a formation?"

"Ding! When the host upgrades all the first six functions to level 10, you can activate the one-key formation function!"

The sudden system prompt made Su Lang's eyes bright.

"Noisy, there really is a training function!"

"Good, once this function is activated, won't I be able to refine the magic circle as easily as alchemy?"

"It's... the first six functions? I only have five functions activated now!"

"So what is the sixth function?"

Su Lang pondered, and immediately asked tentatively, "System, is the sixth function a one-key mixer?"

"Ding! The sixth function is the one-key mixer function, which can be activated when the current five functions are all upgraded to level 10!"

"My fork, it really is a one-key mixer!"

"If I activate the One-Key Refining Device and One-Key Refining Array, wouldn't the speed at which I make money double again?"

The pleasant system prompt made Su Lang smile with excitement.

[Chapter 245: He said his specialty!](#)

Just when Su Lang was excited.

"Su Lang!"

An Xin's clear voice resounded through the classroom, "What are you giggling? What was the first sentence I just said?"

As soon as these words came out, everyone gloated at Su Lang.

"Uh....."

Su Lang's mouth twitched, "I don't know eh."

"Hahahaha!"

"This guy is so straightforward."

"I just said that I didn't know it, which made me laugh."

"..."

Everyone burst into laughter, especially the Fourth Young Master of Xishan, tears came out of laughter.

"do not know?"

"Obviously, it's hard to enter the specialty class, you are not serious yet, do you want to be dismissed?"

An Xin said Su Lang for a while, then frowned and looked at other students, "And you, why are you smiling, aren't you the same?"

As soon as this word came out, everyone stopped laughing.

"You people are really hopeless."

An Xin sighed, then continued to lecture.

The students below looked at each other, and then continued to listen to the class lazily.

Not long after, Anxin finished the basic training and began to demonstrate by hand.

However, after she performed some operations, the students all looked confused.

"Who understands?"

"No? No one?"

"Then I will say it again, you guys listen carefully!"

An Xin patted his forehead weakly, and immediately explained it again.

This time it was more detailed, but the students were still confused.

There is no way. Formation refining is a more complicated thing than alchemy refining. It requires higher talent and requires more time and energy.

Although most of the students present are high-ranking nobles, the family can afford to hire good masters.

However, none of these young students are willing to learn.

"Well, let's move on to the next class, refining tools."

Sighing, An Xin also knew that there were no students who could enter the gate.

Next, is the refining course.

An Xin took out a set of kits and was distributed by Jiang Yudie to the students.

Soon, the refining course officially began.

This time, some students followed Anxin's courses, and from time to time they could interact with teachers and students, which made Anxin breathe a sigh of relief.

However, there is no Su Lang among these students.

He who can activate the one-key mixer, why do he learn this?

So he continued to doze off bored.

"Su Lang!"

"How much do you understand about refining tools?"

An Xin noticed Su Lang again, no way, Su Lang is too casual.

"Uh....."

Su Lang returned to his senses and replied with a smile, "I didn't understand a bit!"

"puff!!"

The boy with dark circles next to him smiled directly!

"Looking noisy, Su Lang is absolutely amazing!"

"I thought I only understood three sentences, which is already the worst. I didn't expect him to be even better."

"The key is that he doesn't understand it, so he dared to say it with confidence, my day, awesome!"

All the students looked at Su Lang one after another, their faces full of contempt.

"Su Lang, you are for fun, right?"

An Xin's expression became cold, and she stared at Su Lang with sullen beautiful eyes.

"No, mentor."

Su Lang smiled faintly, "I think it's not good not to answer you, and it's not good to lie, so I just tell the truth, I really don't understand at all."

"you!"

An Xin held her forehead with her hand, "You are really hopeless!"

"Teacher, why am I not saved?"

Su Lang smiled blankly, "I am not good at refining arrays, I have other specialties!"

"Oh?"

"Then what are your specialties?"

An Xin's expression moved, and he asked with a hint of expectation.

"I....."

Before Su Lang finished speaking, he was interrupted by the black eye boy next to him.

"Report mentor!"

The dark eye boy said loudly, "I know, he said he is good at it!"

As soon as this statement came out, the entire classroom suddenly exploded like a bowl of water poured into a boiling oil pan!

"Wow, I'm so ridiculous!"

"Hahahaha, but that is indeed a specialty!"

"Su Lang, Su Lang, you are so awesome, we admire you!"

"..."

All the students laughed, and cast contempt, cynicism and sneer at Su Lang.

"Su Lang, are you serious?"

An Xin's face was gloomy, and his voice had no emotion.

"Then... also count it."

Su Lang smiled slightly and said, "But my real specialty is alchemy!"

[Chapter 246: This is playing ball, right](#)

"Good at alchemy?"

"Su Lang, are you a lie?"

"You have a talent for alchemy, don't you understand a word of what Anxin teacher said just now?"

"That is, there are many similarities in refining alchemy. Since you are good at refining alchemy, how about answering your instructor's questions about refining?"

"Don't let him answer, he just said it, and didn't understand a bit!"

"He is a liar, trash!"

"..."

The students looked at Su Lang with disbelief, and the Fourth Young Master of Xishan kept mocking him.

"It's all quiet!"

An Xin screamed, and the students slowly closed their mouths.

However, his mouth was closed, but his contemptuous gaze remained unchanged.

"Su Lang, are you really good at alchemy?"

An Xin looked at Su Lang with a serious expression.

"Ok."

Su Lang nodded lightly without giving too much explanation.

"Well, now the refining course is almost the same, we will enter the alchemy course."

With that said, An Xin took out a set of pill stoves from the space ring and asked Du Yudie to distribute it to everyone.

"Let's talk about the simplest body tempering pill."

"This is a Tier 2 pill, which can be taken by the body temperer to shorten the body temper time."

"Its material formula is very simple: Sanri Bing, Peach Nectar, Yuhewu and Qin Mucao."

"In the first step, we need to perform preliminary treatment on these alchemy materials to remove a large amount of impurities and obtain a relatively pure liquid medicine."

"The second step, we need..."

An Xinzi explained the refining method of Body Tempering Pill carefully.

Immediately, she looked at Su Lang: "Su Lang, do you understand?"

"of course."

Su Lang smiled lightly, "I would have refined this pill long ago."

"In that case."

An Xin nodded, "Then it is up to you to demonstrate for everyone."

As soon as this statement was made, all the students immediately became excited.

In their view, Su Lang was just talking big.

So they are all waiting for Su Lang to make a fool of himself!

"Good mentor."

Su Lang smiled, and a black flame emerged between his fingers, wrapping the pill furnace.

"Advanced fire attribute technique!"

"It looks like he is very skilled!"

"Huh? Is he really good at alchemy!?"

"..."

When everyone saw that Su Lang used the Black Flame of Falling Sun, they were suddenly a little surprised.

In the eyes of Anxin Mentor and Jiang Yudie, there was a touch of surprise and expectation.

However, an unexpected scene happened.

I saw that Su Lang actually threw four unprocessed alchemy materials into the pill furnace!

This suffocating operation directly made the entire classroom silent, and the needle drop could be heard.

Immediately!

All the students couldn't help laughing.

"Hahahaha!"

"Does this kid Su Lang treat alchemy as cooking?"

"I'm so ridiculous, the instructor clearly said the steps so clearly, he actually...hahaha...I can't do it!"

"I'll just say, he is a liar, trash!"

"Not only that, he is still a fool, a fool who doesn't understand anything or pretends to understand!"

"This is simply the biggest joke I have ever encountered in my life, my lungs will burst into laughter!"

"..."

The students roared with laughter. As they leaned forward and backward, An Xin's expression was extremely gloomy.

"Su Lang!!!"

"Are you kidding me?"

An Xin roared with hatred of iron and steel, "Do you know that I really placed expectations on you!"

"Teacher, don't be angry."

"The Body Tempering Pill is too simple, so I simplified the steps."

Su Lang smiled lightly, and then said, "Look, I just need to do this, and it will be done once and for all."

With that, Su Lang stretched out his hand, and the pill furnace hulled around.

And the pill furnace not only rotates horizontally, but also rotates three hundred and sixty degrees!

"Haha, this is also called alchemy? This is playing ball, right?"

"It's so special once and for all, stupid stuff!"

"I suspect this guy is really crazy!"

"..."

The students mocked again.

An Xin's face also became more ugly, so gloomy that almost dripped water.

At this time, Su Lang patted lightly, and the Dan Lu suddenly fell on the table and fell in half.

[Chapter 247: Then I will refine it again](#)

"Su Lang!!!"

An Xin finally couldn't bear his anger.

She decided that Su Lang must be driven out of the university anyway!

But at this moment.

"what!!!"

"Anxin Mentor!"

Standing on the side, Jiang Yudie suddenly exclaimed: "Look, there are five pills in the pill furnace! This quality is definitely above the top!"

Jiang Yudie's exclamation stunned everyone, and immediately looked towards the broken furnace.

I saw five pills really lying in the broken pill furnace!

"this is....."

An Xin stepped forward and picked up five pills, and immediately appeared shocked: "Perfect quality pills!!!"

"what!?"

"Perfect quality medicine?"

"He is so messy, it is incredible to be able to refine it successfully, how can it be possible to refine a pill of perfect quality!"

"Fake, this is absolutely fake, it must be Su Lang secretly put it in while we were not paying attention!"

"Yes, yes, it is absolutely true. If this is really the pill he refined, our Fourth Master Xishan will eat **** immediately!"

"..."

The students exclaimed in disbelief, each one seemed to have seen a ghost.

Among them, the most troublesome is the Four Young Masters of Xishan.

They danced and looked at Su Lang with contempt, as if they had exposed Su Lang's lies.

"Ha ha!"

"You said this is really the pill I refined, so you eat shit?"

Su Lang sneered and looked at the Fourth Young Master of Xishan, "If that's the case, I will refine it again so that you can eat it down!"

With that said, he directly took the pill furnace of the boy with dark circles next to him.

"This time, I used the most conventional method to refine it, and I am optimistic."

Su Lang looked indifferent and began to make alchemy, from processing materials, treating liquid medicine, warming the furnace, to putting liquid medicine, injecting alchemy, and controlling the heat...

Every action is smooth and smooth, without any defects!

Those students were dazzled and didn't quite understand, they only thought there were a few brushes.

But Anxin and Jiang Yudie are different.

Especially An Xin, she herself is best at alchemy, and she is already in the realm of the emperor!

Su Lang's refining technique, even with her harshest eyes, couldn't find any faults!

The more I look at it, the more shocked and unbelievable Anxin.

At this moment, a pill fragrance spilled out.

Originally, Su Lang was able to ensure that all medicines were not leaked or wasted.

But in order to prove that this pot of pill was refined on the spot, he deliberately released some pill incense.

These pill incenses are constantly changing, which means that the process of alchemy is advancing rapidly!

Seeing this scene, no matter how stupid students are, they know that Su Lang is really going to refine the pill.

Everyone looked shocked, revealing an unbelievable look.

At this time, Su Lang stretched out his hand and completed the final step of condensing pills.

"Well, I'm done refining."

Su Lang turned and looked at the Fourth Young Master of Xishan, "It's not that you doubt it again, it's better for you to start the stove."

As soon as this remark came out, the four young masters of Xishan suddenly looked stagnant and shouted badly in their hearts.

"Why? Don't you dare?"

Su Lang smiled faintly, "Then ask Anxin instructor to open the stove and testify for me."

An Xin nodded and went straight to open the furnace lid.

I saw a layer of mist gradually dissipating, five body tempering pills lying quietly in the pill furnace.

"It's a perfect quality body tempering pill!"

An Xin picked up the pill with excitement, "The pill is still warm, it is indeed just refined."

In fact, it goes without saying that everyone knows that this is definitely a pill made by Su Langgang.

Because they were staring at him the whole time, it was certain that Su Lang had not put the medicine in the furnace.

"Unexpectedly, Su Lang's alchemy talent is really so strong!"

"It's amazing. Before, we had no eyes. Su Lang will definitely become a famous alchemy master!"

"Yes, in my opinion, it is inevitable to become King Pill, King Pill is very possible..."

The eyes of the students looking at Su Lang had completely changed.

A future Dan King or even Dan King, even their elders should be polite, let alone them.

At this time.

"Sishan four fools, I have refined the medicine."

Su Lang turned to look at the Fourth Young Master of Xishan, and sneered, "Now, you can eat shit!"

[Chapter 248: envy, jealousy, hate!](#)

As soon as this statement was made, the Four Young Master Xishan's complexion changed drastically.

The rest of the students also looked away, and the air became a little dignified.

"how?"

"Can't understand what I'm saying?"

"Oh, by the way, it is indeed difficult for me to be a bit strong, after all, there is no **** in front of you."

Su Lang clicked the corner of his mouth and turned to look at the boy with dark circles, "If that's the case, you can pull it out."

This boy with dark circles is not a good one either.

All he did before was to see Su Lang's jokes.

Su Lang had already seen this in his eyes, how could he let him go?

"You! Why do you want me to come!?"

The black-eyed teenager showed horror, if he really shit, wouldn't it be a joke for the whole school?

Besides, it is the Four Young Masters of Xishan who want to eat shit.

If he dares to pull, he will directly offend the Fourth Young Master of Xishan!

"Hehe, if you don't pull it, I'll **** you out of shit, and then let Xishan Sifang eat it!"

Su Lang looked around and sneered again and again.

"okay."

An Xin's clear voice came, "If there are conflicts, they will be resolved privately."

"Since the instructor has spoken."

"Then I will let your trash go for the time being."

The corner of Su Lang's mouth twitched, "But today's matter is not over. Sooner or later, the five of you will have to **** and eat shit."

As soon as this statement was made, all the students immediately took a breath.

They never expected Su Lang to be so strong, and they must eat less shit.

The Fourth Young Master of Xishan and the teenager with dark circles as the parties were even more angry.

But the Anxin mentor was present, they didn't dare to attack, they could only endure it forcibly.

"Su Lang."

"Your alchemy talent is very strong."

"I decided to let you join Dan Sect and accept you as a closed disciple."

"From now on, I will personally teach you the way of alchemy, are you willing?"

An Xin looked at Su Lang with scorching eyes, and she was really excited when she met such a genius and beautiful jade.

And Anxin's decision also made everyone present envy and jealous.

Even the assistant teacher Jiang Yudie opened her mouth wide, with a look of envy.

You know, in Xuanyuan Academy, every tutor's status is extremely high.

And once a student becomes a closed disciple of his instructor, his status will rise!

Besides, there is a mentor who is covered, not to mention that you can run wild in the academy, at least you will not be bullied!

However, for Su Lang, becoming a disciple of Anxin didn't have much appeal.

"Become a closed disciple of the mentor?"

Su Lang raised an eyebrow noncommittal.

Now, he has upgraded the one-key pill refining to level 8, and he can refine a martial arts pill of perfect quality!

In other words, Su Lang is already a pill-level figure, and An Xin is just a better pill emperor.

"Not bad!"

"Becoming my closed disciple can not only get my guidance at any time, but also get many welfare privileges!"

"For example, you can go to class with ordinary students without step-by-step, and your time will be very free."

"For example, if you go to the alchemy building to refine pills, you can enjoy mentor-level treatment, and the purchase of materials has a very large discount."

An Xin smiled slightly, a pair of beautiful eyes shone slightly, "For example..."

"Good good!"

"I am willing to be a closed disciple of the mentor!"

Su Lang was delighted and immediately agreed.

Only the preferential purchase of materials and the freely arranged time made him unable to refuse!

"In that case, Su Lang, from now on you will be my closed disciple and my only disciple!"

An Xin also showed joy, "Don't worry, I will never let your talent get dusty, I will definitely make you a world-famous alchemist!"

"Good good!"

Su Lang chuckled, "I would like to ask Anxin instructor to take care of me."

"You should call me master now!"

An Xin smiled slightly, that look, how gentle and gentle!

"Master is here, please be respected by the disciple."

Su Lang smiled lightly, and pretended to say a little bit.

His actions immediately made An Xin happier.

And this scene fell in the eyes of the surrounding students, and suddenly aroused more intense envy and hatred.

Some students swallowed with envy, and some students' eyes flushed with jealousy.

Among them, the Fourth Young Master of Xishan and the young man with dark circles are even more resentful.

Su Lang became the closed disciple of Anxin Mentor at this time, and it would be difficult for them to retaliate against each other!

[Chapter 249: Give you a gift](#)

"Well, teaching assistant Jiang Yudie will give you the last course."

At this time, An Xin waved his hand, and then turned to look at Su Lang: "Su Lang, you come with me."

"Ok."

Su Lang nodded and followed An Xin to leave the classroom.

Seeing the leaving figures of Su Lang and An Xin, the students in the classroom wanted to vomit blood even more envy.

"Next, I will give you a war course."

"Everyone here basically has only one way to enter the war gate."

"Now, listen carefully, everything I say next is important."

"..."

Jiang Yudie's voice spread throughout the classroom...

On the other side, Su Lang followed An Xin and left Shangyang Mountain.

However, looking at the direction Anxin is heading, it is not where any academic building is located.

"Master Anxin."

Su Lang asked a little strangely, "Where are we going?"

"Go outside the city, deep in the Wolong Mountains!"

An Xin smiled, "Since you have become my disciple, I naturally want to give you a gift."

"gift!?"

"What gift is in the mountains?"

Su Lang raised his eyebrows and asked curiously, "Could it be some kind of treasure?"

"It is not wrong to say that it is a treasure of heaven, material and earth."

An Xin smiled and nodded, "Because, what I want to give you is strange fire!"

"Different fire?"

Su Lang was surprised, and he didn't expect An Xin to give him this gift.

"Not bad!"

"As an alchemist, you must have a flame that you can handle."

"Although you have a high-level fire attribute technique, it is not the most suitable flame for alchemy after all."

"The abnormal fire I plan to send you is called Ziwei Wuding Fire. Its temperature and shape are changeable. It is most suitable for refining pills."

An Xin smiled slightly and said, "You don't have to worry about not being able to refine the alien fire, because the alien fire is a new kind of fire, which is very easy to refine."

"The new fire?"

Su Lang was surprised, "Then why don't you refining, Master?"

"I have refined it."

"But that place is very magical."

"Every 100 years, a fire will condense there again."

"The crape myrtle, which has been condensed in the past 100 years, has been refined by me."

An Xin smiled and shook his fingers, and a purple flame appeared in the air like smoke.

"That's it!"

Su Lang nodded suddenly, and immediately showed a trace of surprise on his face, "Master, are you over a hundred years old?"

"Yes!"

"Is it weird?"

"There are a lot of 500-year-old monsters in the academy!"

"We who are over 120 years old are completely young people."

"The way of martial arts is cultivated to a high level, and the life span of the warrior will increase significantly."

"The long years in the eyes of ordinary people are just a flash in the eyes of martial arts experts."

An Xin smiled faintly and said, "Of course, I haven't reached that level yet."

"That's what I said."

Su Lang nodded and asked, "Then master, since the spiritual energy has recovered for two thousand years, are there any warriors who have survived since then?"

"No one who has lived for two thousand years."

"But lived for more than a thousand years..."

An Xin said very positively, "As far as I know, there is more than one person."

"Lie noisy, live for more than a thousand years!"

Su Lang stunned to himself, "So awesome? Who are these people?"

"The patriarchs of three hidden families."

"And the founder of our Xuanyuan Budo Academy, is also the founder of the Martial Arts Alliance-Yanxingxing."

An Xin said, "Besides, there should be other hidden super bosses."

"More than a thousand years."

Su Lang nodded and said, "I don't know what level of cultivation they are?"

"As far as I know, Yan Xingxing's predecessor has already broken through to the realm of Valkyrie."

An Xin showed admiration, "It is precisely because of him that controls the Fengling Clan in the Canglan Continent, so that our Blue Star can have more breathing opportunities."

[Chapter 250: Canglan Continent!](#)

"The realm of Valkyrie?"

"Canglan Continent!?"

"That's where the Wind Spirit Race is?"

Su Lang was surprised, "But isn't that another time and space? How could Senior Yanxingxing be there?"

"Yes, the place where the Wind Spirit Clan is located is Canglan Continent."

"The Canglan Continent is a super world a million times larger than the earth!"

"In the Canglan Continent, both the concentration of spiritual energy and the cultivation resources exceed our Blue Star."

"And precisely because of this, there are many powerful races on the Canglan Continent, and the martial arts civilization is more prosperous."

"On the Canglan Continent, the level of the **** of war is no more than entering the house, and there are three realms of Wusheng, Wuxian, and Wudi above them!"

"And the history of martial arts civilization in Canglan Continent is tens of thousands of years. In the long time, the martial arts masters have created countless exercises."

"Many of the exercises on our Blue Star are passed on from there through the cracks in time and space."

"Currently, most of the exercises passed down from the Canglan Continent are from the Wind Spirit Race."

"There are many clans in the Canglan Continent, and the Fengling Clan is just a small race in the Canglan Continent."

"Of course, even if the Wind Spirit Clan is not prominent in Canglan Continent, it is still too strong for us Blue Star humans!"

"As for why Yan Xingxing was in the Canglan Continent, it was because we found a gap in time and space!"

"This space-time crack is not known to the Wind Spirit Race, and it was in our hands for the first time."

"Through this gap in time and space, the senior Yanxingxing led the human elite to establish a stronghold in the Canglan Continent."

"Every year, Xuanyuan Wudao Academy will send the most elite students to the Canglan Continent to practice."

"If you perform well enough, disciple, then you have the opportunity to travel to Canglan Continent to practice cultivation, that is the most suitable place to practice martial arts!"

An Xin said a lot in one breath, and Su Lang was stunned!

It was a long time before Su Lang digested the information in An Xin's words, breathing a bit heavy involuntarily.

"It won't be long, the resources on Bluestar absolutely cannot support me to upgrade the system functions."

"But if I set foot on the Canglan Continent, with the resources of the Canglan Continent, I will definitely make my development faster."

"Furthermore, the Fengling Clan is in Canglan Continent, in other words, Ji Ruxue and Murong Xianxian are there!"

"I thought it would be difficult to see horror again, but I didn't expect that there would be such a path in Xuanyuan Martial Arts Academy!"

Thinking of this, Su Lang has already made a decision-he must go to Canglan Continent!

However, he still has a question in his heart, he has to say.

"master."

"You said Canglan Continent is so prosperous."

Su Lang frowned and asked, "Why did the Wind Spirits come to invade our Blue Star projectile land?"

"I don't know this either."

An Xin shook his head and said, "But the wind spirit clan is invading, there must be a big secret on the blue star!"

"The big secret..."

"A secret enough to make the Wind Spirits coveted..."

Su Lang raised his eyebrows, and a strong interest rose in his heart.

At this time, the two had already reached the door of Xuanyuan Martial Arts Academy.

An Xin waved his hand, and a very cool aura aircraft appeared in front of him.

"Wow, handsome!"

Su Lang stroked the Reiki aircraft and praised it.

"If you like, I will give you one in the future."

An Xin smiled at Su Lang, "Let's go, let's sit here and go to the Wolong Mountains."

With that, she turned on the Aura aircraft and sat in the cockpit.

"Wow, there was a master so cool."

Su Lang grinned, and then also sat in the flight cabin.

Immediately, the Aura aircraft unfolded its wings and flew out like lightning.

at the same time.

Xuanyuan Wudao Academy, in a luxurious villa.

"what?"

"An Xin accepted a disciple?"

An old man with a gloomy face looked surprised and repeatedly asked, "That disciple made a perfect quality medicine?"

In front of him, stood a golden student.

"Yes, Mentor Owen Yao!"

"The disciple will follow the instructions, always pay attention to An Xin and witness everything."

"An Xin accepted the male student named Su Lang as a closed disciple on the spot."

The golden student said respectfully, "Besides, An Xin didn't finish the class, so he left with her new disciple."
