

One Click 2421

[Chapter 2421: Five Eternal Pei Yuxiao](#)

"More than a hundred clones!"

"All of them are eternal level, and they seem to be approaching the level of the three universes!"

"According to the information revealed by the Black Ice Tower, that Su Lang, there are still two Sizhou-level people."

"I guess it's right, this Su Lang is the clone of a certain super man!"

"Our approach is wise. If we provoke this terrible existence, we will definitely die!"

"The Lord Su Lang has accepted our sincerity, and we should be safe."

"Tsk tusk, just don't know who will be unlucky this time?"

"..."

Everyone at Xiyitai smiled at each other, gloating in their eyes.

In the empty green universe.

Ten hours passed quickly.

Thirty-six people from Yuxiao universe gathered together again and left the empty blue universe silently.

They came to an over-exploited and abandoned natural universe, and they will use this as a springboard to invade the Genluo universe!

"Su Lang is the eternal state of the Four Universes."

"In addition to this, there are two four eternal, but if the two are not unexpected, they should go to other natural universes to collect the spoils."

"According to the obtained coordinate analysis, they are likely to be in the natural universe adjacent to the Genluo universe."

"In order to catch Su Lang in time, we can only divide our forces. The deity leads the four deities and the four universes to Genluo forever, and the rest go to the adjacent natural universe."

"..."

Emperor Yu Xiao Zhou made some analysis and made arrangements.

The eternal emperors also took their orders and divided them into four small teams.

Immediately after.

After a very violent time and space fluctuations.

A total of thirty-six eternal emperors disappeared from the place.

at the same time.

In the Gen Luo universe.

Rumble!

A wave of terrifying time and space fluctuations appeared.

Because of the information given by Emperor Anjun Zhou and others, Emperor Yu Xiao Zhou and others were directly positioned at the center of the Genluo universe, which was the battlefield of the previous war.

How terrifying the eternity of the five universes! ?

At the moment he appeared, he directly locked Su Lang in the Eternal Spirit Gathering Array, and his magical powers were blasted fiercely, and the time and space of a trillion li was directly imprisoned!

"Stuck!"

"Hmph, count it down, in the past time of Kongqing Universe, only dozens of breaths have passed here, this guy is still here!"

"Even the Eternal Spirit Gathering Formation is arranged. This is a good formation, even I have seen it for the first time!"

Emperor Yu Xiao Zhou used the technique of time and space confinement to directly block the surrounding time and space, and his face showed a sneer with a winning ticket.

As long as the Emperor Zhou with a weaker cultivation base than him, he will not be able to shuttle through the time and space barriers of the natural universe!

In his opinion.

Su Lang had been caught by him.

Then just harvest.

however.

What makes Emperor Yuxiao Zhou and the other four four eternal realms a little strange.

Su Lang didn't even have a trace of panic or anxiety!

Instead, he raised his head and said with a smile: "Oh, finally it's here, but I waited until the flowers were gone."

"Ha ha!"

"If you are afraid, be afraid, don't conceal it like this!"

"Su Lang, your death is imminent, if you hand over all valuable things, we can spare you a lot of fun!"

"Hurry up, don't expect your companions, they are already trapped by our people!"

"..."

Next to Emperor Yuxiao Zhou, the four Four Eternal Realms showed contempt.

Although they were wary in their hearts, they were generally certain that Su Lang was dead.

"Your name is Pei Yuxiao?"

"An Eternal Realm powerhouse at the Five Universe level."

"Well, the strength is really good, but unfortunately, if you want to kill me, you are not qualified!"

Su Lang smiled faintly, stood up directly, and while talking, waved his hand to close the Eternal Realm Spirit Gathering Formation.

Although it was just a gathering formation, it was also an eternal formation formation, what a shame it was broken.

"You are not qualified to kill you?"

"I will let you know how terrifying the gap between the eternal peak of the four universes and the real eternity of the five universes can be!"

Yu Xiao Zhou Emperor Pei Yuxiao's eyes burst with cold light, and one hand came out in an instant, the majestic cosmic power instantly turned into a terrifying might, and he pressed down towards Su Lang.

[Chapter 2422: The flower of killing is about to bloom](#)

But at this moment.

An invisible barrier emerged.

Indeed, Su Lang pulled one of the opponent's Four Eternals into the Nian Feng space.

Nianfeng space can be displayed with one thought, and of course it can be fully deployed before Pei Yuxiao's attack arrives.

The next moment.

Wow!

Nianfeng Space was torn apart under Pei Yuxiao's attack.

However, Su Lang has already taken advantage of this extremely short time to use his clone to replace and escape!

Rumble!

The replacement clone was killed by Pei Yuxiao!

"what!?"

"This is... some kind of secretive means of death!?"

"In the eternal state where you died just now, there is no life world in the body, and there is nothing left after death!"

"Damn, I didn't expect this Su Lang to have such a method!"

"..."

Yu Xiao Zhou Emperor Pei Yuxiao realized that he was not killing Su Lang, and the rest of the people also discovered the clues, and they were shocked in disbelief.

It should be noted that Pei Yuxiao is eternal in the five universes!

Although Su Lang's eternal peak of the four universes seemed to be separated from it by a thin line.

But there is a gap that cannot be bridged between this line!

A Five Eternal Eternity can easily kill the Four Eternal Eternity.

however.

In Su Lang's body, this common sense has failed!

How can this not be shocking?

"Well, as soon as Su Lang fled, the remaining dozens of natural universes are ours, which is not too bad."

"Or contact the members who went to the rest of the universe, what if Su Lang was lucky enough to escape to those natural universes with us?"

"..."

After being horrified, under Pei Yuxiao's order, one of them immediately began to use the method and contacted the rest of the team.

quickly.

The remaining three teams returned to normal.

The natural universe they are in has no eternal realm.

"It looks like they all escaped."

"Now these natural universes are ours."

"Listen to my order, a Four Eternal Eternity leads two Three Eternal Eternities to the coordinates respectively to gather the spoils."

Pei Yuxiao's eyes flashed, and he chose to divide his forces further.

in fact.

He also thought that Su Lang might have eyeliners in various natural universes, and he might shoot back and break them one by one.

but.

In Pei Yuxiao's opinion.

Su Lang would certainly not be able to kill the four-horse eternity that had been divided before he arrived.

And his order of Pei Yuxiao might not be a trick to lead the snake out of the hole.

If Su Lang dared to appear, he would be able to catch it again.

He didn't think that Su Lang could have many alternative means of death, after all, a chance to replace one's death was extremely rare.

But he was wrong again! !

Su Lang's method just now was not a real substitute for death, but just shifting the shape.

The real means of death has not been triggered for a long time!

at this time.

Thirty-six people in the Yuxiao universe, divided into ten teams, went to ten natural universes.

The ten teams are basically a four-plane eternal leading two or three three-plane eternal realms, and Pei Yuxiao is alone.

After appearing in these natural universes.

After some searching, Pei Yuxiao and others were surprised!

Because these natural universes have all been scoured!

In the natural universe, all the more prosperous life planets are gone, leaving only the planets of low value.

"This, what's going on!?"

"According to the information given by the seller, these natural universes have not declined like this at all, and every natural universe has at least half an eternal planet!"

"Could it be that the seller gave the wrong message? No way, unless they are looking for death!"

"Could it be that these universes have been searched by Na Su Lang?"

"But it's even more impossible. How could he have searched so many natural universes in such a short time!?"

"Yes, according to the ratio of the flow rate of time, the time we passed in the empty blue universe, put here, only less than a hundred breaths have passed!"

"..."

One by one in the natural universe.

Pei Yuxiao and others were surprised and communicated through cross-universe messaging!

And all this.

They were all seen by Su Lang's treasure hunting flying flying glider!

"Even to divide the troops into ten teams."

"Hehe, I am very confident of my own strength!"

"You four universes are eternal, and you are indeed a little stronger than the Dark Emperor Zhou and others."

"With the information you got before, my strength still stays before."

"Who knows that my weapon has been upgraded, hahahaha!"

In the Taixi universe, Su Lang looked at Pei Yuxiao and others from the shared perspective of the treasure hunting flying flying flying flying, with a sneer at the corner of his mouth.

Immediately after.

He squeezed his right hand lightly.

The Youtian Sword of the top level of the Four Eternal Realm suddenly appeared, the horrible sword energy split the void, and the flower of killing was about to bloom!

[Chapter 2423: Hands on](#)

"It's time to do it!"

With a thought, Su Lang directly dispatched a clone to replace it, and Chu Xia was in one of the natural universes!

Because it did not use the traditional natural universe space-time barrier shuttle method.

So Su Lang's actions did not cause any large-scale temporal and spatial fluctuations.

The people in the Yuxiao universe are not the masters of this natural universe who have been in business for tens of billions of years, and they cannot clearly perceive the visitors in the universe.

Therefore, the appearance of Su Lang and the eternity of the four universes of the Yuxiao universe are completely ignorant!

Wow.

Quietly.

Su Lang appeared in the dead void of this natural universe.

Soon.

According to the intelligence obtained from the surveillance of the treasure hunt flying flying flying, he touched the place where the target was.

"Start the Xing Cuan Yun He clone function!"

"Start the avatar dispatch function!"

On the way, Su Lang directly combined the clone avatar and the twin avatars into two clones of the surrounding eternal realm.

Immediately after.

He sent it to the other two target universes, and also secretly touched the target.

These two clones.

One of them carries a three-plane eternal realm sky-wing and eight-sided shield and a three-plane life sword.

Another is carrying other various weapons.

"In this battle, start with the first star Cuanyunhe clone!"

"In this way, the first star Cuanyunhe clone will definitely attract the attention of the five eternal Pei Yuxiao!"

"With the clone, the Four Eternal Eternity plus the Eight-Edged Shield of Heaven, the Sword of Life, the Nianfeng Space, etc., will surely be able to escape calmly."

"In the meantime, I deliberately fell behind by one shot to avoid Pei Yuxiao's sharp edge!"

"..."

A light flashed in Su Lang's eyes, and together with the two clones, they were getting closer to their respective goals!

About to come into contact with the target.

"kill!"

Su Lang had a thought in his mind.

The avatar of Xing Cuan Yun He holding the eight-sided shield of the sky and the sword of life suddenly appeared in the eternal vision of one of the four universes in the Yuxiao universe named Shu Yi.

"what!?"

"This universe actually hides an eternal powerhouse of the Four Universes!?"

"Could it be that this is one of the two Four Eternals around Su Lang!?"

"Damn, how could he suddenly appear by my side!?"

The eternal powerhouse of the Four Universes named Che Yi was horrified, and he made a decision instantly and went to war! !

However, Su Lang's clone had already taken the initiative, and he immediately thought of consecrating the sky, pulling one of the two adjacent three eternal into the confinement space.

"It's that kind of weird means of sealing!!"

Shu Yi looked solemn, and the long sword of the Second Eternal Realm in his hand had been severely cut down!

Simultaneously.

Nianfeng space inside.

The Three Universes Eternal Realm is terrified, and everything is unfolding!

however.

In front of Su Lang clone's Po Yijian, there is no use for eggs at all!

The next moment.

Rumble!

The Nianfeng space was torn apart by Shu Yi.

However, the Three Eternal Realm in the Nianfeng Space has been killed by Su Lang clone with a single blow with a broken sword! !

"Dog thief, die for me!!"

Shu Yi's expression changed drastically, and he roared incomparably angrily. The long sword in his hand remained undiminished, and he slammed Su Lang's clone violently.

clang--!

The crisp metal cries spread along with the aftermath of terrifying energy.

The two long swords of Yi Zhou were also directly swept away, and it was impossible to break the defense of the eight-sided shield of the sky!

"Humph!"

"Dare to hit my attention."

"Let you pay the price of your life today!"

The cold light in Su Lang's eyes flickered, and he controlled the clone to cut himself with the sword of life, and the consumed cosmic power directly returned to fullness.

Shu Yi's long knife took the opportunity to cut it down again.

clang--!

The long knife was bounced off again, only making insignificant ripples on the eight-sided shield of the sky.

The next moment.

The avatar of Su Lang once again used the Nianfeng Space to pull in another Sanzhou Eternal who was hesitant to escape.

"Thief, you dare!"

Ji Yi opened his eyes angrily, but he knew very well that the eternity of the three universes was bound to die.

And he himself can't break the opponent's defense at all!

The only option is to ask for help! !

Taking advantage of Su Lang's avatar, sealed the eternal companions of the Three Realms with the Nianfeng Space.

Switching between the light and the flint of the light, using the natural universe barrier communication method, the news was passed to Pei Yuxiao's hands!

[Chapter 2424: Horrified Pei Yuxiao](#)

"It's now!"

From the perspective of the clone, Su Lang directly lifted his sword to kill when Switch Yi displayed the means of communication! !

"Broken a sword—!!!"

The snow-white sword body, with an incomparably fiercely piercing sword energy, directly crossed a trillion light-years, and smashed behind a Four Eternal Realm in one step! !

"what!!!"

"..."

The eternal power of the Four Universes is like falling into an ice cave, his complexion changed drastically, and various defense methods on his body unfolded frantically.

However, no effect...

Gen Luo universe.

"what!?"

"One of the Four Eternal Eternity in Su Lang?"

"The opponent has a three-dimensional eternal realm defense weapon, and the switch can't break the defense!?"

Pei Yuxiao's expression changed, and without even thinking about it, the power of time and space on his body suddenly unfolded!

By a close connection with the switch.

In a flash.

Pei Yuxiao appeared not far away from Shu Yi, and when he raised his hand, a terrifying magical power blasted out!

"Trash, come on, **** me!"

Ah Jia's arrogant words spread millions of light-years around, and it was terribly unbeatable.

Then he was hit by Pei Yuxiao's supernatural powers, and his whole body trembled wildly, almost unable to resist!

Fortunately, the avatar of Su Lang instilled the power of the universe, and the sword of life protected him.

at last.

This move was resisted!

but.

Su Lang's avatar was not unscathed, he was directly shocked by blood spurting wildly, his wrist was turned, and the sword of life was directly slashed on his body.

Not only the sword of life.

All kinds of eternal realm restoration pills are also imported without money!

Block the eternal blow of the Five Universes.

He also took out a variety of cherished perfect eternal pill.

In this scene, not to mention the switch, even Pei Yuxiao felt incredible!

The four universes are eternal, so fat and oily, taking pills is so luxurious!

of course.

Pei Yuxiao's horror was just a thought, and the second attack in his hand had already blasted out!

And Su Lang's avatar also activated the Nianfeng Space to pull in the control, driving the Heavenly Eight-Edged Shield to deploy the strongest defense, and he was already in the process of being dispatched.

In a flash.

Pei Yuxiao's attack landed on the Nianfeng space that was just unfolded, smashed it to pieces, and then landed on the octagonal shield of the sky, creating a terrifying explosion that trembled the entire universe!

but.

The explosion appeared, and the endless power covered it.

The Xing Cuan Yun He clone successfully completed the dispatch, disappeared from the original place, appeared in another natural universe, and merged with the second Xing Cuan Yun He clone!

As soon as the two star Cuanyun He clones converge, they immediately attack the target!

Two hit one under.

Su Lang's clone also completely occupies the advantages of magical powers, weapons, and sneak attacks, and almost instantly severely injured the target!

The next move will be the result!

And at the same time.

Su Lang has also killed the two Three Eternals and moved to the second natural universe, using the Youtian Sword to cleanly kill the second Four Eternals!

On this occasion.

Ji Yi and Pei Yuxiao are still in shock

—They don't understand why Su Lang's clone disappeared!

"Disappeared!"

"How is this possible? I have not sensed the powerful temporal and spatial fluctuations at all!!"

"This person is so weird that he escaped from my hand!!"

Pei Yuxiao looked at the empty void and couldn't believe his spiritual thoughts!

Shu Yi was even more stunned, and was deeply hit, both of the four universes are eternal, why is the gap so big? ?

He has to be supported in the hands of others.

Others can escape from the eternal hand of the Five Universes!

at this time!

A message of trans-cosmic barriers suddenly reached Pei Yuxiao's hands.

"what!?"

"Two Four Eternal Realms suddenly appeared, attacking and killing Emperor Ni Xuan Zhou!?"

Pei Yuxiao looked at the content of the message, his expression changed drastically, and his pupils suddenly shrank!

He immediately used subpoenas to ask for more detailed information, but he never got a reply.

obviously.

The Three Universes that sent him a message is completely finished! !

"Not good!"

"I divided the troops to get the snake out of the cave, and it was messed up!"

"The opponent's combat effectiveness is more powerful than I thought!"

"No, all members must be recalled immediately, otherwise they will be destroyed one by one, and no one is spared!"

"..."

When Pei Yuxiao was horrified, he made a decision in an instant, and directly used the means of communication to contact the other Four Eternal Realms under him.

[Chapter 2425: Destroy one by one and kill 17 people](#)

but!

In addition to getting the exact information, it was determined that the team had been beheaded.

There are still four eternal squad states that did not reply to his message!

he does not know.

Two of the four teams were beheaded by Su Lang, and one team was also being slaughtered.

The last team fought before and after the two Xing Cuanyunhe clones that were transferred to the battlefield, attacking fiercely!

And the eternal realm team that got the news.

All of them were thunderous, and they were dumbfounded with horror.

Then even thinking about it.

The four teams that did not encounter Su Lang or Su Lang's clone immediately used the cosmic barrier shuttle method to travel to the universe that had previously served as a springboard.

Simultaneously.

When Pei Yuxiao's figure moved, he disappeared from the same place.

He arrived directly at one of them, in the natural universe where the team that lost the news was.

But he was very unlucky.

He didn't encounter Su Lang's deity or two Xing Cuanyun He clones at all.

Instead, he arrived at the natural universe where Su Lang personally killed the first Four Eternal Realm.

At this time, this natural universe did not see Su Lang at all, only a messy battlefield created by the war.

"Such fierce sword spirit!"

"It has faintly approached the Five Eternal Realm!"

"This must be done by the sword weapon of the pinnacle of the Four Universes. Then Su Lang actually has the weapon of the Four Universe Eternal Realm!?"

"However, based on the information provided by the seller, Su Lang should only have mastered one Tri-Zhou-class weapon!"

"Could it be that this is a trap set up by the seller to lure us to come here and be killed!?"

"But that's not right. Those sellers are temporarily under house arrest in the empty blue universe. If there is a problem, they will be held accountable!"

"And that seller is also Sizhou Eternal, can't be an abandoned son!"

"What exactly is going on!?"

"..."

Pei Yuxiao's expression was so gloomy as the bottom of a pot, he only felt that he seemed to be in a huge trouble!

Hunt each other.

What is stressful is rolling!

But now, the identities of the hunters and prey of both sides have a faint tendency to change!

This situation.

He has never encountered Pei Yuxiao since he became the eternal state.

Everything he encountered at this time made him feel extremely humiliated and extremely angry.

For an instant.

Pei Yuxiao once again shuttled through the barriers of the natural universe to the next natural universe where his subordinates were lost.

But this natural universe is still empty.

There are only fierce battlefields and remaining scary sword intent.

Pei Yuxiao's expression was ugly as if he had eaten shit, and once again traveled through the barriers of the natural universe.

but.

The natural universe he arrived has just ended the battle.

The avatars of Su Lang and Xing Cuanyun have left!

"Damn it!"

"This Su Lang is very weird, more powerful than the intelligence, and extremely difficult to entangle!"

"Now...you can only use booby traps!"

Pei Yuxiao's heart is constantly ups and downs, it can be seen how fierce stormy waves are crashing in his heart!

He knew it would be useless to pursue it like this.

So he simply returned to the springboard universe and started to make plans!
at the same time.

After the person who found Pei Yuxiao through the treasure hunt, flying flying and other eyeliners, left.

Su Lang also returned to Taixi Universe.

"Hey!"

"Killed five Four Eternal Eternals all at once!"

"It also comes with twelve Three Eternal Realms!"

"It's really developed this time, Pei Yuxiao, I must thank you in person!"

Su Lang looked at the various treasures in the storage space, his face burst into laughter!

Seen in the spoils of harvest.

The origin of the universe is floating there, and there are eternal life universes, eternal emperor soldiers!

next moment.

"system!"

"Deposit all the origins of the universe, Xianyuan Diyuan into the balance!"

Su Lang suppressed the excitement in his heart and gave instructions to the system.

"Ding! The storage is complete, the balance is 725142 universe origin!"

Accompanied by system prompts.

The balance figure has increased wildly, reaching six digits.

In addition to the spoils, there is also the origin of the universe obtained by the clones refining the eternal body.

[Chapter 2426: Seven hundred thousand universe origin](#)

"Hey!"

"The origin of more than seven hundred thousand universes!"

"A lot of system functions can be upgraded again!"

"And the evolution of weapons also requires the origin of the universe."

"Now that the origin of the universe is sufficient, the materials needed for evolution..."

While thinking about it, Su Lang raised the corners of his mouth, and directly locked the 21 eternal weapons in the storage space!

Among the seventeen beheaded.

There are four people who have two eternal weapons. Although they are not high in rank, they are only an eternal emperor, but they are also valuable!

"system!"

"Start the one-click decomposition function!"

When Su Lang thought, he disassembled all 21 eternal weapons!

Suddenly.

A series of system prompts kept ringing in my mind.

A large number of half-step eternal souls, primordial souls, the origin of the universe, and various materials appeared in the storage space.

Basically, one piece of material obtained by the decomposition of the eternal emperor's soldiers is enough to pile up into a super giant planet!

There are even more imperial weapons in the Second Universe after being broken down, which are dozens of times as many as the weapons of the Eternal Realm in the First Universe!

"Tsk tusk, it's really exciting to break up so many eternal emperor soldiers at once."

"I will upgrade my weapons later, if those people like Pei Yuxiao still don't give up, give them a surprise!"

The corner of Su Lang's mouth raised slightly, and then he looked at his system function.

Current system functions.

One-click training, martial arts, and clone functions all require 1 million universe origins to upgrade.

The remaining one-key treasure hunting, strengthening, alchemy refining, synthesis, and empowerment functions can all be upgraded.

but.

The evolution of weapons such as the Youtian Sword will definitely require a lot of cosmic origin.

and so.

Need to reserve some cosmic origin.

Just in case.

Su Lang reserved 300,000 cosmic origins, and the remaining 400,000 cosmic origins.

"The initiation function only needs 10,000, and the rest requires 100,000."

"Seven functions, a total of five can be selected for upgrade!"

"Then treasure hunting, strengthening, synthesis, refining, and empowerment."

Su Lang thought so, and then directly issued an order to upgrade the system's functions.

Suddenly.

System prompts resounded through my mind again.

"Ding! Consumes 100,000 cosmic origins, the one-click treasure hunting function is upgraded to level 52, and the number of treasure hunting flying gliders is 12,000 trillion!"

"Ding! Consumes 100,000 cosmic origins, the one-key enhancement function is upgraded to level 13, the enhancement limit is +1, and it can currently be enhanced 13 times!"

"Ding! Consumes 100,000 universe origins, unlocks the one-key formation function to level 18, and can refine the Three Eternal Eternity and its lower-level weapons!"

"Ding! Consumes 100,000 cosmic origins, unlocks the one-key synthesis function to level 18, and can use the same three-time eternal or lower level materials and pill for synthesis! The synthesis ratio is 10:1!"

"Ding! Consumes 10,000 cosmic origins, the one-key empowerment function breaks the limit and is upgraded to level 27. The current empowerment efficiency is 100%, and the number of empowerments per day is 540!"

Listen to the pleasant system prompts.

Su Lang couldn't help but become happy.

Then it's time to be promoted!

Su Lang looked at his eternal realm weapon.

The Youtian Sword is currently the top level of the Four Eternal Realm, but it is not infinitely approaching the Five Eternal Realm.

Su Lang's strength after swallowing the clone was completely enough to master a stronger Youtian Sword.

therefore.

Youtian Sword has once again become the preferred evolution target!

Sit cross-legged in the void.

Su Lang placed the Youtian Sword horizontally on his knees, and then gave instructions to strengthen the reset!

Suddenly.

The strengthening effect of the Youtian Sword disappeared, and the mighty power returned to the Eternal Emperor of the Second Universe.

"The system, only retains the current characteristics, evolves the Youtian Sword!"

Su Lang showed expectation and continued to give orders to the system in his heart.

"Ding! Consumes Eternal Soul*3, Primordial Soul*5 million, Universe Origin*50,000, Eternal Realm materials...too elementary materials...The Youtian Sword evolves into a three-plane eternal primordial weapon !!!"

The system prompt resounded through my mind.

Su Lang did not change his expression, and continued to give instructions: "Start the one-key enhancement function!"

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding!....."

A series of strengthening reminders sounded.

The Youtian Sword began to strengthen on the basis of the Three Eternal Realm, and it consumed much more materials than before.

Fortunately, the materials Su Lang obtained were extremely sufficient, completely enough to strengthen the Youtian Sword.

[Chapter 2427: Jinghua Shuiyue appeared](#)

After three enhancements.

The power of Youtian Sword has surpassed before, reaching the pinnacle of the Four Eternal Realm!

After four enhancements.

The Youtian Sword has already infinitely approached the Five Eternal Realm.

This level is also the limit that Su Lang can grasp at present.

Xiaoyou, who was on the next level of power, ran out excitedly and rubbed against Su Lang, as happy as a little girl with candy.

Su Lang was happy with Xiaoyou for a while, and then began to strengthen the next weapon.

The weapon strengthened this time is the eight-sided shield of the sky.

The same process, strengthen reset, weapon evolution, one-click strengthening!

The Heavenly Eight-Edged Shield was originally a one-plane eternal state plus five enhancements, and its power reached the advanced level of the three-plane eternal state.

at this time.

It was directly evolved and strengthened by Su Lang to a level similar to the Youtian Sword!

It is also the eternal level of the three universes, plus four enhancements, the power is only a trace away from the eternal state of the five universes.

After both offense and defense.

Su Lang has also evolved and strengthened the sword of life to the same level as the eight-sided shield of the sky.

Now, auxiliary equipment is also available.

Look at the storage space again.

There are a lot of materials.

then.

Su Lang simply elevated the mirror of reincarnation and the nest of civilization to the eternal state of the two cosmos, responsible for the development and regulation of the sand-like world in his body.

So far.

A total of nearly two hundred thousand cosmic origins are consumed.

The remaining one hundred thousand.

Although it was possible to upgrade the empowerment function, Su Lang decided to keep it. He saved one million and went to upgrade more important system functions.

Immediately after.

Su Lang looked at the four void dragon-veined heaven realms in the Void Spirit universe.

Incense weapons also need to be upgraded!

"[Jinghua Shuiyue] It's almost ready to be cast."

"If the eternal life universe and crystal wall world harvested recently are taken into the body, the incense aspiration power should be enough."

"Tsk tusk, a total of seventeen eternal realms, and none of them are newcomers like Yizhou and Erzhou who have just entered the eternal realm, but those who have survived for more than 100 billion years!"

"The Life Universe and Crystal Wall Universe they manage must be extremely prosperous!"

"..."

Su Lang's eyes were shining brightly, he rubbed his hands excitedly, and then began to transfer the eternal life universe and the crystal wall world.

This kind of work.

Su Lang is getting more and more comfortable.

Soon, seventeen eternal life universes were collected into the body.

In addition to this, there is a full 13800 gai of crystal wall universe!

Plus the previous eight thousand two hundred gai.

The total number of crystal wall worlds with creatures in Su Lang has reached 22,000! !

This is already twenty times the eternal realm of the ordinary four universes! !

Even in the seven cosmos and eight cosmos eternal realm in those high-level universes, the crystal wall world with creatures is not as good as Su Lang at this time.

of course.

This is just a crystal wall world with life, not a perfect crystal wall universe.

Su Lang's perfect Crystal Wall Universe at this time was only more than two hundred gai.

Closer to home.

There were more than 13,000 more crystal wall universes in his body, and Su Lang, relying on the virtual spirit universe, instantly drew countless incense power!

In a giant picture scroll in the Ethereal Universe.

[Jinghua Shuiyue] It is completely cast, just wait for Su Lang to take it out!

"Jing Hua Shui Yue, now!"

Su Lang's thoughts moved, and a strange picture suddenly appeared, with a lifelike long knife on it.

Because when Su Lang used the incense willingness to cast [Mirror Flower Water Moon], he only specified the shape of a long knife, but did not specify the specific details.

and so.

This [Mirror Flower Water Moon] is very different from his impression.

However, the blade is slender and the handle is black, and the blade is like colored glaze. Numerous illusions are looming in it, ups and downs.

Ordinary half-step eternal realm will lose yourself and become a puppet when you look at it!

"really!"

"As soon as it is cast, it is an eternal realm!"

"It has reached the same level as Chuanxin Lock, Qibao Miaoshu, and Zijin Gourd!"

"However, the spirit of this knife is extremely weak, almost like a candle in the gale, which may be extinguished at any time."

Su Lang held [Mirror Flower and Water Moon] and thought silently, "Then, then, it's time to cheer the evil out."

[Chapter 2428: Eat evil and then cut the clone](#)

"Come out!"

With a move of Su Lang's heart, he opened a channel of life to the universe.

"The lower servant knocks on the Lord!"

The bitter evil who turned into a human form appeared and knelt in front of Su Lang.

In Su Lang's Dantian universe, he also enjoyed the benefits of time acceleration, and the sequelae after cutting out the clone had completely disappeared.

of course.

Unable to get the incense aspiration power, he still maintained the previous state.

"This time I cast another incense weapon."

"Although this incense weapon is also eternal, its spirit is extremely weak."

"So, I need you to cut out the clone to the Fusion Spirit."

Su Lang looked at the Evil Eater who bowed to the ground and said lightly.

"Yes, Lord!"

Bit Evil did not hesitate to accept the order simply and neatly.

"Ok."

"Currently your condition is not very good, I will give you some incense power first, take a bite and make up."

Su Lang smiled slightly and pointed at Xie's eyebrows.

Countless incense and wish power were drawn from the virtual spirit universe and poured directly into the body of eating evil.

"The lower servant, thank the Lord for the generous gift!"

Devouring evil received that incredibly turbulent incense aspiration, and was extremely excited.

He could clearly feel that his strength had recovered to a half-step eternal peak in an instant!

"It's worthy of being an innate incense creature born at the beginning of the universe."

"This ability to digest and absorb incense is simply terrifying!"

Su Lang nodded slightly as he watched the Qixie's continuous growth.

Immediately after.

He retracted his finger, took out a crystal, and handed it to Qixie.

This crystal is the special incense wishing power crystal needed for the evolution of Mirror Flower Shuiyue.

Take over the crystallization.

Ji Xie fully understood what he should do, because he had already experienced such things before.

Plug the crystal into the mouth.

In an instant, the analysis of the evil spirits clearly induced the special incense strength of the crystals.

"Control all the enemy's senses..."

The eyes of Qixie were bright, and then he began to mobilize the incense power in his body.

Regarding the control of incense aspiration, eating evil comes from instinct, and it is easy to peel off the incense aspiration.

quickly.

He stripped a large amount of incense aspiration power from his body.

This will be an important part of cutting out the clone.

Another more important ingredient is the soul that masters the avenue of time!

next moment.

In Su Lang's attention.

"Cut thirteen corpses——!!!"

Biting evil resolutely performed the exercises!

His body immediately split into two, one of which was the deity, and the other was the clone.

"Master! The clone has been cut out!"

After the two devourers stabilized, they immediately bowed and saluted.

"Good job."

Su Lang nodded with a smile, and then directly released the colorful Burning Heavenly Flames, condensed into a big cauldron.

The tripod came out.

Jinghua Shuiyue also appeared soon after.

The blade with a dreamlike light and shadow in the colored glaze instantly attracted the eyes of Qi Xie.

Immediately after.

He stayed there completely, his pupils constantly trembling, as if he was struggling!

at this time.

Su Lang stretched out a hand and held Jing Huashuiyue's knife handle.

Wow.

Qixie only felt a refreshing feeling washed by, and everything returned to be clear and bright, comfortable and gentle.

"I know it hurts to incorporate your clone into an incense weapon."

"Last time, you endured very hard, but this time it will be much easier."

Su Lang smiled slightly and said to the horrified bitterness in his heart.

"Yes, Lord!"

"Thank you for your understanding!"

Biting Xie's eyes nodded brightly, he knew that Su Lang was going to temporarily change his perception with Jinghua Shuiyue.

"Jinghuashuiyue·A dream becomes empty!"

A light flashed in Su Lang's eyes, and a large amount of cosmic power poured into the knife.

Suddenly.

The glazed blade of Jinghua Shuiyue showed a light blue light and shadow that kept flowing.

The next moment.

Su Lang slashed at Evil's body, and the blade passed through directly like nothingness.

But eating evil has completely entered the senses created by Jinghua Shuiyue!

[Chapter 2429: Promotion Incense Weapon](#)

"Fine for me!!"

Su Lang's thoughts moved, and the cauldron turned into countless brilliant colorful flames, lingering around, wrapping the mirror flowers in the middle.

Simultaneously.

The clone that Qi Xie had just cut out also threw himself into the colorful burning heaven.

Refining has begun!

However, it should have been painful to eat the evil, but he didn't feel any, just staying there calmly with such a look.

Even the refining clone did not respond, and his expression was lightly relaxed, as if he was bathing in a hot spring instead of being refined.

Time passed slowly.

quickly.

The fourth clone of Qixie was completely integrated into [Mirror Flower Water Moon].

Because of its particularity, it is directly integrated with the meager unconscious weapon spirit before, and the power of the time avenue is also integrated into the weapon.

So far.

Jinghua Shuiyue also has the spirit!

"Cancel!"

Su Lang thought, Jing Hua Shuiyue's sensory control over evil spirits disappeared.

"Master refining is complete!"

"Congratulations to the master for adding another eternal weapon!"

Devouring evil was also extremely happy, and congratulated Su Lang excitedly.

"Ok."

"Evil bitter, I will not make new incense weapons for the time being."

"Next, in addition to the aspiration power consumed by the incense weapon upgrade, there is also a part of the incense aspiration power that will be used for you."

Su Lang smiled slightly and said to Biting Xie.

"The servant, thank you Master for his generous gift!"

"Definitely live up to the master's expectations, and fight for the master in thousands of universes!"

After hearing Su Lang's words, Ji Xie became even more excited!

He knows clearly.

Su Lang's ability to collect incense is countless times more terrifying than him.

now.

Su Lang has already scraped dozens of life planets in the natural universe, and dozens of life universes and crystal wall universes of powerful eternal realms.

Those creatures who plundered will produce countless incense aspirations at every moment!

at this time.

Su Lang unexpectedly wanted to reward him partly.

Even a very small part is absolutely terrifying incense power.

I think of my very beautiful and bright future.

Biting evil cried with gratitude.

"These incense aspirations are for you."

"You take it to recover yourself first, and I will give you more incense and aspirations later."

Su Lang smiled faintly, and between waving his hands, a majestic incense and willing force poured into Evil Eater's body to restore it to its peak state.

"Yes, Lord!"

Biting the evil and bowing respectfully, he was immediately taken into the Dantian universe by Su Lang.

"I don't know what changes will happen when the Evil Devourers rise to the real eternal state?"

A ray of light flashed in Su Lang's eyes, then looked at Jing Hua Shui Yue, Chuan Xin Lock and other four weapons.

Next.

It's time to upgrade the incense weapon.

Qibao Miaoshu, Heart-piercing Lock and Purple Gourd will all evolve and strengthen.

Although Jinghua Shuiyue doesn't have enough incense aspirations, it can also increase its power through enhanced functions!

"system!"

"Start weapon evolution function, target, Qibao Miaoshu!"

Su Lang locked the Seven Treasure Tree with his divine mind and immediately issued instructions.

The voice just fell.

"Ding! Consuming special incense and wishing power to crystallize *1 billion, Qibao Miaoshu has evolved into an eternal weapon of the Second Universe!"

The system prompt sounds.

A mysterious light flashed across Qibao Miaoshu's body, and his breath suddenly rose!

"One billion incense will crystallize!"

"The special wish-power crystallization accumulated before is so exhausted."

"But it's reasonable, after all, the time I took in those creatures was too short."

"Incense aspiration power requires a huge foundation of believers, and it also takes a long time."

"..."

Su Lang thought.

His followers are irradiated with light from the world, and all of them are fanatics.

Therefore, the daily incense aspirations provided by believers have reached their limit, and they cannot be further squeezed.

What's more, he will not squeeze believers at all, otherwise, what is the difference with the bald donkeys of Mi Ling Buddhism?

Therefore.

The only way now is to increase the base of the creatures in the body and speed up the flow of time.

To increase the base of creatures, the Nest of Civilization is doing it every minute.

This eternal state assists the emperor soldier, every millisecond can produce countless spores, cast into the endless world, evolve into various intelligent creatures, and develop into a unique civilization.

[Chapter 2430: Four Imperial Soldiers of Incense Fire](#)

Speed up the flow of time.

Su Lang can do it by himself, but he needs a huge amount of cosmic power.

The more the accelerated crystal wall universe, the more cosmic power is consumed.

"Emperor Yuxiao Zhou suffered heavy losses, and it is very likely that he will not let it go."

"The power of the universe in my body has been consumed a lot, so it's better to recover it first."

While thinking about it, Su Lang put a handful of eternal realm recovery pill into his mouth.

Next.

While restoring the power of the universe, Su Lang used the same method to elevate the Heart-piercing Lock and the Purple Gourd to the Second Eternal Realm.

"system!"

"Start one-key enhanced function!"

Su Lang recruited the Seven Treasure Tree in his hands and issued the system instructions again.

"Ding! Strengthening is successful, Qibao Miaoshu +1!"

"Ding! Strengthening is successful, Qibao Miaoshu +1!"

"Ding! Strengthening is successful, Qibao Miaoshu +1!"

Three system prompts sounded, and the Seven Treasure Tree was promoted three times, reaching the peak of the Three Eternal Realm!

At this level, spurred by the combat power of Su Lang or the combat power of Xing Cuanyun He clone, it is already completely capable of plundering the weapons of the same level Emperor Zhou!

The opponent will have no resistance! !

"Next."

"Strengthen the heart-piercing lock, purple and gold gourd, beautiful and beautiful!"

Su Lang clicked on the corner of his mouth, and immediately continued to strengthen the function with three incense weapons.

among them.

The heart-piercing lock and the purple gold gourd are strengthened three times with the basic level of the two universe eternal realm, reaching the same level as the Qibao Miaoshu, the eternal peak of the three universes!

Jing Hua Shuiyue was sacrificed by Su Lang, consuming countless materials and strengthening it six times.

Its power has also reached the peak of the Three Eternal Realm!

This level can completely affect the perception of the Four Universe Eternal Realm!

"With these four incense weapons."

"It's too simple to deal with the Four Eternal Realm."

"However, the gap between the four-planet level and the five-plane level is still too big."

"With my current ability, it is not enough to kill Pei Yuxiao, and I can't even face it for a long time."

"If he strikes again, he still has to fight guerrillas and use the tactics of destroying one by one."

While thinking about it, Su Lang looked at the practice martial arts pond. The exercise "Soul Refining the Heart Jue" was being practiced, so he didn't care about the newly acquired exercise for the time being.

Wait until the exercises are completed.

Then choose the exercises to continue practicing.

Next.

Su Lang's gaze fell on the rest of the classics except for the secret technique.

That is, the three classics of Zhen Dao, Alchemy Dao and Qi Dao.

There are no bright spots in Qidao, and after reading it, some insights have been added.

after all.

The weapons of the Eternal Realm are almost unique.

It is almost impossible for different eternal realm powerhouses to create the same weapon.

Unless it is the eternal realm super organization that has lasted for hundreds of millions of years, can we sort out the systematic eternal realm refining method!

Dan Dao is the same.

The alchemy classics obtained this time only have a kind of poison pill called 'turbulent source pill', which is a bit interesting.

The eternal realm that has been poisoned by the poison of the 'source of turbulent pill' will be unable to absorb the origin of the universe for a long, long period of time to perfect the crystal wall universe, which is equivalent to breaking the way of cultivation.

But this poison pill can only take effect if the enemy eats it in his stomach.

In addition to Dan Dao Qi Dao, Jin Dao classics gave Su Lang a surprise.

Following the formation of the Eternal Realm last time.

This time, he got another eternal realm formation, and they were all defensive formations at the Four Universe level.

The name of the formation is called "Hengyu Immortal".

This formation is very strong, but it is very difficult to set up.

First of all, you need an array master with eternal realm formation knowledge, and the level of this master cannot be lower than the level of the four universes.

Then comes the layout process.

It takes a billion years for a four-planet eternal realm to be completed! !

If it is used as a guardian formation for an important base, it can be deployed slowly, but if it is to be used temporarily for combat, it is absolutely impossible.

At last.

To expand the formation and maintain the formation, eight eternal manpowers of the Three Universes are needed!

In general.

The cost-effective arrangement and use of this formation is very low.

But for Su Lang, it was too simple.

First of all, there is no shortage of manpower at all, and he can summon more than one hundred eternal clones of the three universes.

As for the formation skills, it is not enough to improve the one-key formation function.

As long as you upgrade once, you can refine the formations of the Four Eternal Realm at will.
