### [Chapter 261: Step on your head to upgrade!](#)

"Ha ha!"

Being stared at by everyone's eyes, Su Lang smiled coldly and took back the red badge from Li Ming.

Immediately, he stared at Li Ming and said lightly: "Now, I can go upstairs."

With that said, Su Lang had to walk upstairs.

However, Li Ming stretched out his hand again and stopped in front of Su Lang.

"you wanna die?"

Su Lang furrowed his brows tightly, and there was a hint of murder in his eyes.

It was just the slightest killing intent that made Li Ming's pupils shrink suddenly and his hair was terrified!

The rest of the students also felt cold all over, and it seemed that the temperature had dropped several degrees!

No wonder they had such a big reaction.

You know, from Red Maple City to the present, Su Lang killed a large number of fierce beasts and strong men.

He killed sixty to seventy beasts of Wuhuang rank alone!

How could the murderous aura emanating from him be something these little students could face indifferently.

but.

Although Su Lang's murderous spirit is very scary.

But after the initial shock, Li Ming still sneered:

"The mentor disciple badge in your hand is indeed real, and you can indeed use mentor privileges.

However, there is no such thing as jumping upstairs in the privileges of instructors! ! "

As soon as this statement came out, all the students also recovered from the brief shock.

"Yes! I also remembered that the instructor does not have the privilege of jumping upstairs."

"Yes, the privilege that the instructor can enjoy is a greater discount on the purchase of materials, but there is no such thing as jumping upstairs."

"Boy, I think you should come back in a few years. I believe you will get the silver badge and climb to the third floor, hahaha!"

"..."

All the students spoke one after another, disdainful glances broke out in their eyes again.

They were very excited.

Because they hated Su Lang very much, and their hearts were very unbalanced.

Now that he sees that Su Lang who walks through the back door of his mentor and becomes a closed disciple is shrunken, of course he is very happy!

"Humph!"

Su Lang's eyes flashed dangerously: "Li Ming, are you sure you won't let me go up?"

"Sorry, brother!"

Li Ming smiled, his eyes open and clear, "This is the rules in the school!"

"Ha ha!"

"If that's the case, then I can upgrade the student level."

"It is said that if you want to improve the level of students below platinum, you have to challenge this way besides the assessment."

Su Lang clicked the corner of his mouth and said coldly to Li Ming, "Today, I will step on your head and step onto the position of the golden student!"

As soon as this remark came out, everyone was shocked.

They didn't expect that a potential student in Sulang district would dare to challenge the gold-level Li Ming!

"you!!"

"Who gave you the courage?"

"Is it your strong background?"

"I tell you, what you look at at Xuanyuan Martial Arts Academy is talent and strength!"

As the person involved, Li Ming was even more angry: "Even if you have a background, a dude like you will always be rubbish!"

"Hehe, why do you say so much?"

"Senior Li Ming, just say, dare to accept my challenge?"

Su Lang curled his lips in disdain, "If you dare not, you tell me, I will find someone else."

"Huh! Why don't you dare!?"

Li Ming gritted his teeth and said angrily, "I'll take your challenge, the potential of the special class is a waste!"

As a gold-level student, he was in full view.

If Li Ming refuses, what happened today will be a joke and stain for his life!

What's more, in his eyes Su Lang is just rubbish, he can clean it up easily, refuse? how is this possible?

However, given him 10,000 heads, he couldn't think that what he took was a challenge from a super 'danzun'!

"Ha ha!"

"Who is a waste will know in time."

Su Lang twitched the corner of his mouth and sneered, "Please, Senior Li Ming!"

"Humph!"

"Go! Go to the examination hall!"

Li Ming snorted coldly, turned and walked downstairs.

"Go and go!"

"Look at how this waste was cleaned up by Senior Li Ming!"

"Hmph, I really thought I was still at my own house, this time I must let him know that Xuanyuan Martial Dao Academy is not their home ground for dudes!"

"..."

#### [Chapter 262: Hundreds of people laughed!](#)

Everyone watched Su Lang discussing, pointing and pointing, it seemed that Su Lang was determined to lose.

"A bunch of ignorant garbage."

Su Lang smiled disdainfully, and immediately carried his hands back and went downstairs calmly.

When the others saw this, they stopped doing alchemy, and they all followed downstairs, intending to watch Su Lang being beaten by Li Ming.

After everyone went downstairs, they passed through the inspection door and then walked out in a bustling manner.

And their comments also attracted other unsuspecting students.

"Huh? What are they talking about, all with contempt."

"What's the matter with the potential student who is walking in the middle? How can other people despise him so unscrupulously?"

"The news is coming. That potential student tried to go upstairs and was stopped by Senior Li Ming, but he was not convinced and wanted to challenge Senior Li Ming to become a golden student!"

"What!? He is a small potential student who dares to challenge Li Ming?"

"Although Li Ming is a gold-level student, his strength is very strong. A potential level dare to challenge him, is he crazy?"

"Hahahaha, I don't know if you are crazy or not, but it's real funny! Walk around and watch the show!"

"Mad, I haven't encountered such a lively thing for a long time, no alchemy, go!"

"..."

As the news spread ten to ten, more and more people knew that Su Lang, a potential student, challenged the golden student.

All people have a reaction, that is, sneered again and again, and then hooked up and followed up to watch the good show.

When Su Lang and others walked to the assessment hall, hundreds of people were already behind!

So many people came to the assessment hall and immediately attracted the attention of the staff inside.

"What are you doing?"

"There is no collective assessment today, what are you doing?"

A man with short hair wearing a platinum student badge and work uniform frowned and stopped in front of the crowd.

"Senior Wan Hong!"

"That's it, someone has to challenge and advance."

A guy familiar with the platinum student stepped forward and smiled, "That's why we came."

"It's just a challenge to advance, how come you come so many people?"

Platinum student Wan Hong looked weird, "Could it be that which star student failed this promotion challenge?"

"no no!"

"Not a star student!"

One person pointed to Su Lang and smiled, "It is a potential student of this specialty class who wants to challenge Li Ming."

As soon as this statement was made, hundreds of people burst into laughter, and the laughter almost spread throughout the hall of assessment.

And Wan Hong looked at Su Lang dumbfounded, his face filled with disbelief.

Immediately afterwards, the shock on his face turned into amusement: "You, a potential-level student, dare to challenge a gold-level student? Don't be kidding, go back!"

"What happened to potential students?"

Su Lang raised his eyebrows and smiled, "Does the university have regulations that potential students cannot challenge golden students?"

"Oh, kid!"

Wan Hong sneered, "I'm going to get you down the stairs, don't you know what's good or bad!"

"Forget it, Senior Brother Wan Hong!"

"This guy is crazy, he thinks he's not good enough, he has to step on Li Ming's head to step into the position of the golden student!"

"That is, Senior Brother Wan Hong, let him challenge Senior Li Ming, so that he knows what the sky is high and the earth is thick!"

"Yes, yes, this trash who enters the special class through the back door must learn a lesson!"

"..."

There was a lot of discussion, some were contemptuous and some were indignant.

"Brother Wan Hong!"

Li Ming stepped forward and arched his hands, "I have accepted his challenge, so let's give him a chance."

As soon as this remark came out, everyone burst into laughter again.

"In that case."

"Then let him wake up from fantasy."

Wan Hong glanced at Su Lang arrogantly, "Let's go, I will preside over this promotion challenge."

"Hahaha!"

"The promotion challenge begins!"

"I want to see how capable this potential-level garbage can be."

"What can you do, we just came to see him making a fool of yourself!"

"..."

The people around kept making mockery.

But Su Lang didn't care at all, because soon he would be able to severely beat these people's faces to be bruised and swollen!

[Chapter 263: I have no time to waste on you](#)

"Go, go to Examination Hall No. 1!"

Wan Hong waved his hand, then turned and walked towards the hall of assessment.

Su Lang and Li Ming followed closely, and the others followed suit and swarmed in.

Not long.

Everyone came to the examination hall No. 1.

This is the largest assessment hall in the assessment hall, which is used for collective assessment on weekdays.

But this time there were too many spectators for the promotion challenge assessment, so Wan Hong chose here.

The Examination Hall No. 1 has a very large area. In the middle is a huge platform with many stone tables, which are used by the students in the collective examination.

"You two choose any position."

"Alchemy materials and alchemy furnace are provided by the assessment hall, I will give you later."

Wan Hong said slowly, "Now, let me tell you about challenging the rules.

First of all, you two agree on an elixir and a time limit for alchemy.

In the limited time, if there is no pill to be refined, of course it will fail. If it fails, it will be judged a tie.

If they are all refined, then the first element to judge the outcome is the quality of the pill. Whoever refines the pill with high quality will win.

If the quality of the pill is the same, then the number of pill will be used as the standard, and whoever makes more pill will win.

If the number of pill is the same, then the time spent refining the pill will be used as the evaluation standard. Whoever spends less time wins, understand? "

"Understood, Senior Brother Wan Hong!"

Li Ming smiled and arched his hands, his face full of confidence.

Wan Hong waved his hand aloft: "If this is the case, then you first agree on the pill."

As soon as this remark came out, everyone's eyes fell on Su Lang and Li Ming.

"Hehe, I won't bully you either!"

"How about refining the simplest activating blood and increasing muscle pill among Tier 4 pills?"

Li Ming raised his chin and looked at Su Lang contemptuously, "Don't tell me, you don't even know how to refine a great pill for blood circulation and muscle growth."

As soon as his voice fell, everyone cooperated and ridiculed.

"Just him? A potential student in the specialty class? Maybe he really can't refine it!"

"If he doesn't know how to refine it, Brother Li Ming, you can compare it to Tier 3 pills!"

"The third-order pill? Hahaha, I think he is like this, it is very good to be able to refine the second-order pill!"

"..."

When everyone ridiculed.

Something unexpected happened.

"What's the meaning of refining Tier 4 pills?"

"You are a gold-level student. According to the assessment criteria, you should be able to refine a Tier 8 pill."

Su Lang twitched the corner of his mouth disdainfully: "Then let's try the simplest Tier 8 pill, the five-element recovery profound pill, dare you?"

As soon as he said this, the scene was silent, and everyone's eyes widened in disbelief.

Immediately, more violent taunts resounded throughout the hall.

"Hahaha! Laughing to me!"

"This guy wants to refine a Tier 8 pill. Does he know what a Tier 8 pill is?"

"A small potential student dare to boast about refining a Tier 8 pill, and he has to compete with a golden student, is it crazy!"

"Hey, people dare to bring it up, maybe they have alchemy skills themselves, right?"

"How old is he? How many alchemy skills can he have? Cheating skills are pretty much the same!"

"Be sure to keep an eye on it later, but you can't give him a chance to cheat."

"It's not to stop him from cheating, but to catch him cheating, and let him know how terrifying the penalty for the assessment of the hall is!"

"Yes, yes, let him have a taste!"

"..."

Everyone whispered and talked.

The surprised Li Ming also showed a strong sneer: "Since you have to go to death, then refine the five elements complex spirit profound pill, the time limit is two hours."

"Two hours?"

Su Lang raised his brows, revealing a hint of surprise.

"Hmph, dislike it too short?"

Li Ming hummed disdainfully, "Then three hours, you can always refine it in three hours, right?"

"Hahaha!"

"Laughing makes my stomach cramp!"

The others also laughed.

"No, no."

Su Lang curled his lips, "Two hours is too long, I don't have so much time to waste on you."

When these words came out, everyone was once again shocked by Su Lang's arrogance.

They really did not expect that a person could be so mad!

#### [Chapter 264: You have no chance in your life](#)

"Humph!"

"What a boastful statement!"

"However, since you think the time is too long, then one hour will determine the winner!"

Li Ming frowned and smiled instead of anger. "If you regret it, treat it like I didn't say it."

"1 hour?"

"Oh, it's too long!"

"Originally I planned to set ten minutes and five minutes."

Su Lang shook his head helplessly, "Forget it, I will save you some face, just one hour, lest you can't even refine the pill."

After hearing this, everyone was no longer shocked.

Because in their eyes, Su Lang is a lunatic with a mental disorder.

Only a madman could dare to say the maddening words of refining a Tier 8 pill in ten minutes and five minutes!

"What's wrong with the Academy?"

"Even mental illness can come in?"

Platinum student Wan Hong wrinkled his forehead, then shook his head helplessly.

"Humph!"

"Ten minutes and five minutes? Do you think you are a pill?"

Li Ming glanced at Su Lang disdainfully, "If you really can refine the Five Elements Revitalizing Profound Pill in ten minutes and five minutes, I will just kneel down and give in!"

"Then you just wait and kneel down!"

Su Lang clicked the corner of his mouth and looked at Wan Hong, "Who, please give us the pill furnace and materials."

"Huh! Uncultivated dude!"

Wan Hong snorted coldly, and immediately fetched the pill furnace and the materials for refining the five elements complex spirit profound pill.

"It's 7:56 in the evening."

"Just make up the whole point and start the challenge at 8 o'clock!"

Wan Hong dropped the pill furnace and materials, and sat on the assessment seat with his nostrils arrogantly raised.

And at this moment.

The crowd was surging, and several angry and disdainful voices sounded.

"Why are you squeezing?"

"Fuck, a few guys with potential level student badges dare to stare at us? Are the current potential levels so awesome?"

"Hehe, now other classes have not started, and a new specialty class has opened. These guys must be \*\*\*\* in the specialty class."

"Why there is some rubbish, it is an eye-catcher to watch!"

"..."

As everyone discussed, some young students squeezed forward.

"Su Lang!!!"

A familiar voice sounded.

Su Lang looked back and couldn't help but sneered.

——The visitor turned out to be Sisha Xishan and a few special class guys.

At this moment, Sisha Xishan and the other students in the specialty class looked at Su Lang sarcastically, with excitement on their faces.

"Humph--!!!"

"Su Lang, Xiao Zhe, you made a show in the special class, are you going to heaven!?"

"Hahahaha! More than he wants to go to heaven? He wants to go to Mars!"

"Tsk tusk, I never expected that he would go to the Golden Academy to insult himself! How funny!"

"..."

Four fools Xishan mocked each one.

This stunned the hundreds of veteran students who watched the show.

It turns out that the guys in these specialty classes are also here to mock the potential challenger?

At this time.

One of the Four Young Masters of Xishan walked to Su Lang and said contemptuously:

"If you want to win a golden student, you too value yourself.

I tell you, you will definitely lose, we are waiting to see your joke! "

"Oh, come here to taunt me?"

Su Lang showed disdain, "Hehe, it depends on my joke, sorry, you never have a chance in your life!"

"Humph!"

"I really don't hit the south wall or look back, or weep without seeing the coffin."

One of the Four Young Masters of Xishan said, "If you can win, I will give you 20,000 high-grade spirit stones!"

"Yes, if you can win, I will also give you 20,000 high-grade spirit stones!"

"I'll give 30,000 high-grade spirit stones, Su Lang child, can you take it away?"

"..."

Four Silly Xishan and others also hung their eyelids, looking at Su Lang contemptuously.

"Yo!"

Su Lang twitched the corner of his mouth and smiled, "You lost the bet last time, and you haven't eaten the \*\*\*\* yet, come to me to bet again?"

#### [Chapter 265: Take your time, don't worry](#)

When Xishan Sisha and others heard the word "eating shit", their expressions suddenly sank.

"Humph!"

"Even if your talent is high, so what?"

"Talent is not strength. Under the golden students, you are vulnerable!"

"You rubbish, do you know if you lose?"

"..."

The four young people of Xishan retorted, spitting wildly!

"Hahaha!"

"Since you think I'm sure to lose, and you take out the spirit stone to gamble, then we might as well open a market!"

Su Lang laughed and said, "This bet, I bet with all of you here, I am not greedy, the odds are 1:1, but someone bet!?"

As soon as this statement came out, the students who saw some numbness while watching the play were shocked.

The guy who enters the special class through the back door is indeed despised.

But their wealth is recognized, this is also one of the malicious sources of ordinary students towards the students of the special class-they are jealous!

At this time, a great opportunity to make money appeared in front of them!

There was no suspense in their eyes at Su Lang's gambling game.

As long as you dare to bet, where can you worry about winning?

So, someone was excited to speak immediately!

"I bet with you! 300,000 middle-grade spirit stones!"

"I also bet, 200,000 middle-grade spirit stones!"

"Hahaha, don't be so stingy when you pick up money, I bet 500,000 middle-grade spirit stones!"

"..."

The crowd burst into laughter, and more and more people bet.

Seeing this scene, Su Lang laughed wildly in his heart.

This is so many hundreds of people, if one person comes with one hundred thousand middle-grade spirit stones, he can also earn tens of millions of middle-grade spirit stones!

What's more, those students bet far more than this amount!

But at this moment.

One of the Fourth Young Masters of Xishan suddenly said loudly: "Senior seniors and sisters don't bet for the time being. You don't know if Su Lang children have so many spirit stones to pay for them!"

"Su Lang child!"

"Although we don't know your background, how many spirit stones can you have if you come from a different place?"

"Yes, so many of us bet, can you afford to lose?"

The Four Young Masters of Xishan raised questions one after another.

"Ha ha!"

"Do you doubt my financial resources?"

"I dare say that compared to financial resources, everyone here is rubbish!"

Su Lang smiled disdainfully, and immediately waved his big hand, and suddenly a dense cluster of spirit stones appeared on the ground!

These spirit stones are all available from low-grade to top-grade, and the brilliant light will blind everyone here!

After killing Owen Yao, Su Lang had not yet stored these spirit stones in the system, so he took them out of the storage space.

How many spirit stones does Owen Yao have? There are tens of millions of middle-grade spirit stones!

Faced with so many spirit stones, everyone in the field was shocked.

Including Sisha Xishan and other dudes, they also showed incredible expressions!

Tens of millions of middle-grade spirit stones are already a super large sum of money.

You know that the Ji family's nest in Dongfang City only has a reserve of 10 million middle-grade spirit stones!

This is a family!

As for Su Lang, just a single person, there are so many spirit stones.

It's incredible!

Looking at the hills of spirit stones in front of Su Lang, everyone's shock quickly turned into greed.

—In their opinion, as much as they can bet, they can get out of that pile of spirit stones!

then!

"I will add another 50,000 middle-grade spirit stones!"

"I added 100,000 middle-grade spirit stones!"

"I suppress all my wealth, 380,000 middle-grade spirit stones!"

"We Xishan Fourth Junior and other 8 people, we have suppressed 16 million middle-grade spirit stones in total!"

"..."

Everyone was eager to place their bets, one by one, they looked exactly like the aunts who grabbed gifts in the supermarket, even the platinum student Wan Hong.

"Oh, take your time, don't worry."

"Lined up one by one, come to me to take notes and set up a document!"

Su Lang took the spirit stone, took out a jade slip, and said loudly, "In this way, I will know how much spirit stone I should pay you if I lose!"

As soon as these words came out, everyone immediately went to Su Langyong, for fear that they were a step slower!

## [Chapter 266: Super giant game!](#)

About two hours later!

Su Lang only recorded the name of the person who placed the bet and the amount of spirit stone.

There were more people betting than he thought, almost doubled, reaching as many as 628!

Because, in these two hours, many people used the jade card to call more people!

And if it weren't for the fact that Su Lang's spirit stones were not enough, they would call in more friends.

However, such a great event will of course be notified by the closest friends!

"Okay! I have recorded everyone's betting information!"

"Once I lose, I will return your spirit stones and pay your spirit stones 1:1!"

Su Lang waved the jade slip in his hand and said loudly, "But if you lose, don't reckless!"

"Humph!"

"You will win? The sows will all go up the tree!"

"If you really win, what about our spirit stone for you? However, if you want to win, it's just a dream!"

"..."

More than 600 students booed one after another, and the entire assessment hall was like a boiling pan!

"As long as you don't fall short of the bill!"

Su Lang put the jade slip on a vacant stone table, then turned to look at Li Ming: "Senior Li Ming, let's start!"

"Haha, you are so kind to send us money so impatiently!"

Li Ming laughed and said, "Don't worry, for the sake of Lingshi, I won't let you lose too ugly!"

Su Lang laughed, "You'd better show your best alchemy level, otherwise don't regret it!"

"Humph!"

Li Ming snorted coldly, "In that case, don't blame my subordinates for being merciless!"

"Okay, stop arguing."

"It's exactly eleven o'clock, let's start!"

Wan Hong said with a red face--he suppressed all the 880,000 middle-grade spirit stones of his net worth, now he is excited!

As Wan Hong's voice just fell, the promotion challenge that set off a huge storm officially opened!

In the assessment hall.

Everyone looked at Su Lang and Li Ming excitedly.

At this moment, Li Ming has entered the best state, processing a material like a cocoon.

On the other hand, Su Lang used an alchemy material to make tea and drank it slowly.

Everyone laughed at this scene.

"This guy just gave up, right?"

"Oh, who can get into the state like Brother Li Ming? This guy is adjusting his state!"

"Yes, it should be the case. In comparison, it's really a judgmental one."

"....."

Hundreds of people talked, and the whole assessment hall was full of splashes of saliva.

"It's disgusting!"

Su Lang waved his hand in disgust, using aura to isolate the surroundings.

Soon, he began to drink tea leisurely.

But the tea couldn't stop as soon as I drank it, and in a blink of an eye, twenty minutes passed.

At this moment, everyone no longer thought that Su Lang was adjusting, but felt that he had just given up.

Because, apart from giving up, everyone didn't know what Su Lang was doing.

They never thought that Su Lang was killing time.

At this time, most of Li Ming's process of refining the pill was passed.

"Humph!"

"What a fool!"

Glancing at Su Lang, Li Ming enlarged his nostrils with disdain, and then continued alchemy.

At this moment, Su Lang suddenly moved!

With a wave of his one hand, a purple flame like smoke suddenly appeared in the air.

This flame is the most suitable crape myrtle unfixed fire for alchemy!

As soon as Ziwei's unfixed fire came out, the audience was silent.

Everyone on the scene suddenly opened their eyes like thunder, and their mouths opened as if their jaws were about to fall down!

These veteran Danmen students have basically been taught by Anxin, how can they not recognize this kind of strange fire?

"Oh my god, it's crape myrtle indeterminate fire!"

"How could he have a crape myrtle indefinite fire, that is a mysterious fire!"

"This is not true, it is definitely not true!"

"His flame is simulated by the fire attribute technique, it is fake!"

"Yes, yes, it must be so!"

"..."

Everyone talked in horror, and everyone doubted life.

In the end, unbelievable, they decided that Su Lang's Crape Myrtle was a fake!

"Tsk tusk, it's ridiculous!"

Su Lang clicked the corner of his mouth, and immediately began to make alchemy!

[Chapter 267: Make you happy for a while](#)

As Su Lang began to refine alchemy.

The shape and temperature of the crape myrtle in his hand also changed.

The smoke, like mist, gradually turned into a thick stream of smoke, just like the stream of smoke after agarwood ignited.

But this scene fell in the eyes of Wan Hong and others, and they were shocked to lose their color!

"His flame can change form!?"

"Is his flame really a crape myrtle indefinite fire?"

"No way, he, a potential student, can actually master the Crape Myrtle Flame?"

"..."

All the students were crowded and discussed, and their tone was incredible.

Li Ming, who was refining the pill, also turned his head in shock, his eyes almost bursting.

You know that he has been studying in Xuanyuan Martial Arts Academy for so long, but he doesn't dare to have any extravagant expectations of Yihuo!

Now a potential-level student can be incredibly angry, which makes him feel very uncomfortable!

Because of this change in the dim sum, Li Ming's hand movement was stagnant, almost causing the alchemy to fail.

In the assessment hall, everyone stared at Su Lang's crape myrtle intently, with jealousy in their eyes.

Among them, the jealousy and resentment of the Fourth Young Master Xishan and others are the strongest.

"Huh! Anxin instructor has the Ziwei indefinite fire, and this flame must be obtained by Anxin instructor for him!"

"Yes, this guy is just a \*\*\*\* who eats soft rice, so he won't even want to refine the fire for the rest of his life!"

"Yes, yes, Su Lang still doesn't know how to please An Xin's tutor!"

"In my opinion, kneeling and licking are indispensable, maybe...huh!"

"..."

The Fourth Young Master of Xishan laughed at me every sentence, saying that Su Lang was a little boy who was kept.

At this time, other people suddenly realized what the Fourth Young Master of Xishan had said.

On the one hand, he understood who Su Lang's mentor was, and on the other hand, he understood why Su Lang had a strange fire.

Immediately, they were confused, pointed and whispered.

"It turns out that this guy got a strange fire from eating soft rice!!"

"Let me just say, even a small general of his rank, can he refine the mysterious fire?"

"Hmph, even if he has a strange fire, he is not a trash who walks through the back door!"

"That's right, even if he has crape myrtle and no fixed fire, he will definitely not beat Senior Li Ming!"

"Well, he is doomed to lose, and his spirit stones are destined to be divided by us!"

"..."

Everyone was chattering, and their gazes at Su Lang were again full of disdain.

At this time, Su Lang finished the furnace and officially began alchemy.

In fact, he doesn't need to do this step, because it is too simple for him to refine the 8th-order pill.

What's more, the Five Elements Fuling Profound Pill is the lowest level medicine among the 8th level!

However, in order not to be overwhelmed by the world, Su Lang did not intend to refine the pill of perfect quality, nor did he intend to refine the pill within a few minutes.

"As long as it is better than the pill made by Li Ming, the amount of pill produced is also controlled."

Su Lang hooked the corner of his mouth, then glanced at Li Ming.

From the methods of Li Ming and the various states of the pill furnace, Su Lang could conclude that Li Ming could only refine the top-grade pill, and only one pill could be produced.

"Forget about refining a superb pill."

Thinking of this, Su Lang handled the materials indiscriminately and threw them into the furnace.

His actions fell in the eyes of those onlookers, and suddenly there was another wave of discussions.

"Ahahaha! His way of handling materials is so rough?"

"How can that Luoning flower just take off the rhizome? You have to remove the golden powder from the stamen!"

"This guy's level is too low, hahaha, he is lost! No suspense!"

"Come, come, everyone applaud him, let him make persistent efforts!"

"Hahahaha!"

"Papapa...Papapa..."

Everyone applauded to cheer Su Lang.

"Hey, please make you happy for a while."

"Wait, you can taste the pain of losing all your net worth!"

Su Lang smiled faintly, and then started the next step of alchemy slowly.

This step was also very rough, which made more than six hundred people completely relieved, all waiting to win and collect money.

#### [Chapter 268: Give them a chance](#)

In a blink of an eye.

Ten minutes passed.

At this moment, Li Ming is nearing the end.

Because the Five Elements Fuling Xuan Pill is the simplest pill among the 8th-order pill.

And Li Ming's strength is also top among the golden students, so he does not need to spend much time refining this pill.

Another half minute passed.

"Ning Dan!!"

With Li Ming's soft drink, the Dan furnace in front of him began to spin frantically.

The liquid medicine in the pill furnace converged toward the center of the pill furnace with the right strength, and then gradually gathered into a ball.

In the end, these clusters of pill gradually solidified and finally formed the pill.

However, just when Li Ming was about to start a pill.

"I'm done refining."

Su Lang smiled faintly, then stretched out his finger and flicked.

The pill furnace revolved for three weeks, and then it stopped.

When everyone saw this scene, a hint of surprise flashed across their faces, and then burst into laughter.

"How long did he start? Ten minutes? That's the end of the practice? How about making soup?"

"The soup hasn't been cooked so fast, otherwise how bad is the soup?"

"He said that he had finished refining so quickly, he would definitely not be able to refining medicine."

"The process of pill condensing is so random, and in the end there is no pill, I am sure he must have failed!"

"Hahaha, I laughed to death!"

"..."

Everyone ridiculed Su Lang.

"Let you see and see my pill! Open!!!"

Li Ming laughed wildly, waved his big hand, and the lid of the pill furnace rose into the sky, and a strong pill incense suddenly spread.

Smelling this pill incense, all the students exclaimed.

"This Danxiang is so pure!"

"I can be sure that Brother Li Ming refined the top-grade pill just by this pill fragrance!"

"It's worthy of being the best among the Yellow-level students, who can actually refine the high-grade 8th-order pill, it's amazing!"

"Haha, Brother Li Ming refined the top-grade pill, then Su Lang will lose!"

"Tsk tusk, I have crushed 600,000 middle-grade spirit stones, and my net worth will be doubled by the time it comes. That's great!"

"Hehehe, we will go out and have some fun when we win the money!"

"Okay, I'm excited just thinking about it!"

"..."

Hundreds of people became excited, and the atmosphere in the assessment hall reached the most enthusiastic level.

At this time.

"It's all quiet!"

Wan Hong stepped down from the assessment seat, "Now start to check the pill!"

His voice was trembling, and he was obviously extremely excited!

Soon, in the excitement of everyone, Wan Hong came to Li Ming's side.

He stretched his neck and glanced into the pill furnace, then smiled with satisfaction.

"Li Ming, refine a high-grade five-element complex spirit profound pill!"

While talking, Wan Hong took out the pill from the pill furnace and presented it in front of everyone.

Looking at the pill in Wanhong's hand, everyone was very happy. Some laughed at ease, some made sharp hiss, and some discussed how to use it after winning money...

At this moment, more than six hundred people present felt that Su Lang's spirit stone was already in his pocket.

"Everyone be quiet!"

Li Ming waved his hand proudly, and said with a smile, "Su Lang's pill has not been tested yet. Give them a chance!"

"Hahaha!"

"Yes, yes, give him a chance!"

"Senior Brother Wan Hong, if the pill he refined is too \*\*\*\* or hasn't been refined at all, don't say it, save him some face!"

"Well, that's right, after all, it's the great good person who gave us spirit stones!"

"..."

Everyone mocked Su Lang to their heart's content, but they couldn't fail to see that the corners of Su Lang's mouth had already drawn a playful smile.

"Okay, I see! If he fails to refine, or the pill is too rubbish, I won't expose it."

Wan Hong waved his hand to everyone, walking towards Su Lang with a deep sarcasm on his face, and Li Ming followed him with a face full of contempt.

Came to Su Lang.

"Junior Brother Su Lang."

Wan Hong smiled and said, "I am going to open the furnace to test the pill now, do you have any questions?"

"I have no problem, you can open the stove."

Su Lang smiled faintly, and under the gaze of more than 600 pairs of eyes, he pointed to the pill furnace in front of him.

"Ok--."

Wan Hong uttered a word from his nostril, then opened Su Lang's pill furnace nonchalantly.

Immediately, his disdainful gaze fell into the pill furnace, and then the whole person was motionless!

## [Chapter 269: He must have cheated](#)

Seeing that Wan Hong was still there, everyone was puzzled.

"Brother Wan Hong? How is it?"

Li Ming on the side poked his head strangely to look at the interior of the pill furnace, and immediately stared at him, as well as motionless!

This weird scene fell in the eyes of everyone, and immediately made them look at each other, revealing a strange look.

At this time, the Fourth Young Master Xishan and others suddenly burst into laughter.

"Hahaha!"

"This kid must be too \*\*\*\* for the refining results, even Senior Brother Wanhong and Senior Li Ming looked dumbfounded!"

"Yes, yes, that's the only way to explain it, what kind of \*\*\*\* is he refining? Even the two seniors were shocked!"

"..."

When the Fourth Young Master Xishan said so, the rest of the people also suddenly realized that they laughed again.

However, this sneer also continued for a few seconds before awkwardly stopped.

Because everyone found that Wan Hong and Li Ming were still in shock.

Immediately afterwards, Wan Hong's face changed for a while, revealing an incredible color.

On Li Ming's shocked face, there was also a thick haze!

When everyone saw this weird scene, they felt something was wrong.

"What's going on?"

"Then what did Su Lang do to make Senior Wan Hong and Senior Li Ming look like this?"

"..."

Everyone lowered their voices and talked quietly.

At this time.

Su Lang stood up Shi Ran.

"What's wrong? Two seniors?"

Su Lang hooked his mouth and smiled, "Could it be that you haven't seen such a pill?"

As soon as these words came out, Wan Hong and Li Ming were shocked.

Immediately afterwards, Li Ming stepped forward tremblingly, and said in disbelief: "You...how can you make such a high-quality pill!?"

"Yes, you are just a potential student who is under twenty years old..."

Wan Hong was also trembling, his pupils shrunk, and his face was full of shock!

"Ha ha!"

"What happened to potential students?"

Su Lang twitched the corner of his mouth with disdain, "Just because I am a potential student, can't I make a good medicine pill?"

"you!!"

Li Ming raised his finger to Su Lang, trying to refute but was speechless.

Yes, no one stipulates that potential level students cannot refine a good medicine.

When the people around saw this scene, the feeling of badness in their hearts grew stronger.

They knew that there must have been an accident in this gambling game-a big accident! !

As a result, the more than six hundred people who were still in high spirits a minute ago suddenly became panicked!

"What are you?"

Su Lang smiled disdainfully and turned to look at Wan Hong: "Senior Wan Hong, why don't you announce the result of the challenge?"

Do you think I cheated? Or are you afraid to scare everyone and dare not show my medicine? "

"You...you didn't cheat..."

Wan Hong gritted his teeth and said with difficulty, "I will show your pill now!"

As soon as these words came out, the eyes of six hundred people immediately condensed on the little pill furnace.

They want to know what on earth Wan Hong and Li Ming saw that made them so gaffe!

"Hi...whoo-!"

Wan Hong took a breath, then let out a long spit.

Then, he took a deep look at Su Lang, and with endless shock and bitterness, he took out the pill from the pill furnace.

"Su Lang, a five-element complex spirit profound pill, the best refining pill!"

With Wan Hong's dry voice, a crystal clear emerald green pill appeared in front of everyone.

Immediately, the entire assessment hall was completely silent, and the needle drop could be heard!

Everyone looked dull, looking at the medicine in Wan Hong's hand as if they had lost their souls.  
Immediately, like cold water poured into a boiling oil pan, a deafening noise erupted from the crowd!

"The best medicine!"

"Su Lang's refining is the best pill!"

"How is this possible! He is just a potential student, he is only under twenty years old!"

"At only twenty years old, you can refine Tier 8 pills and refine top quality. This is impossible!"

"Yes, and it only took him ten minutes to refine the pill, and he used that crude refining technique. There must be a problem!"

"However, Senior Brother Wan Hong said that he did not cheat, and we are monitoring the whole process. He did not have any chance to put the medicine in the furnace."

"Then what the \*\*\*\* is going on? Is this world broken? How could such a thing happen?"

"No! He must have used other cheating methods, we can't find out, otherwise it will be impossible to explain!"

"Yes, yes! That's it! He cheated!"

"..."

#### [Chapter 270: You stare at the dog](#)

Without cheating, Su Lang refined the best medicine.

This result was unacceptable to everyone except Su Lang.

Especially the Fourth Young Master of Xishan and the others, not to mention the others, they placed 18 million middle-grade spirit stones just by betting!

This is equivalent to each of them pressing two million middle-grade spirit stones.

You know, many Wu Wangs do not have this wealth!

Therefore, no matter what, they gave Su Lang the label of "cheating" immediately!

Of course, the rest of the students immediately echoed the spirit stone.

Even Wan Hong was trembling and struggling.

As a platinum student, as a staff member of the assessment hall, his vision and years of work experience told him that Su Lang did not cheat.

However, he also crushed close to one million middle-grade spirit stones, which are all the spirit stones on his body!

If you lose, let alone become a pauper, your assets will shrink by 70 to 80%!

How long it took Wan Hong to save so much wealth, he...he couldn't bear it!

then--

"Su Lang!"

Wan Hong took a deep breath, his eyes split, "Say, what kind of cheating methods did you use that we can't see!?"

"Oh? As an assessor, don't you want to be fair and just?"

Su Lang looked at Wan Hong contemptuously, "Before you said I didn't cheat, but now you say I cheated, don't you feel hot on your face?"

"Huh! I was negligent before and I was almost fooled by you."

"Fortunately, you guys reminded me that I only found something wrong."

Wan Hong's eyes flashed with cold light, "With your rough and unbearable methods, how can you make the best medicine without cheating?"

"Tsk tut!"

"The tree will die if it doesn't want skin, and people are shameless and invincible!"

A hint of sarcasm was outlined at the corner of Su Lang's mouth, "This man, once shameless, he can do everything!"

"Humph! You are talking about yourself!"

Li Ming said with a gloomy face, "Do you have a face for someone like you who walks through the back door and enters Xuanyuan Wudao Academy?"

"Yes!"

"Shameless, even deliberately tempting us to bet, and then use it as a cheat to win money!"

"Fortunately, we have sharp eyes and saw your conspiracy, Su Lang child, you just cheated, you are shameless and shameless!"

"Su Lang child, what else do you have to say?"

"..."

Hundreds of students cursed grimly, and the 600-odd mouths kept spitting out, disgustingly undesirable.

"Tsk tusk, I have never seen such a brazen person."

Su Lang pointed at Qianfu with a cold eyebrow, calmly, "And there are so many!"

"Huh! Su Lang is a child, with sharp teeth and clever tongue!"

Li Ming pointed at Su Lang and cursed, "But no matter how you quibble, cheating is cheating. More than 600 of us are watching, you can't deny it!"

"Su Lang, you dare to violate the first iron law of the assessment hall."

Wan Hong sneered, "I will let you know what rules are today!"

As soon as this remark came out, the students shouted hello!

But Su Lang still took it easy and calm.

"Tsk tsk, how about platinum students and assessment staff, so soon you can't wait to convict me?"

Su Lang said with a disdainful face, "You do this because you are afraid that I will refine the pill again and prove my innocence?"

As soon as the voice fell, Wan Hong's face, who was pierced by his mind, suddenly turned blue and red, as if he had turned on a neon light.

"So? I dare not answer?"

Su Lang glanced at Wan Hong with a calm tone.

"Humph!"

"Who said I am afraid that you will prove your innocence?"

"We give you a chance to refine the pill again!"

Wan Hong gritted his teeth and said, "But we can't see your cheating methods clearly. You must be monitored by a tutor with a higher level of refinement skills. Dare you accept it!?"

"Hahaha!"

"I didn't cheat at all, nor did I bother to cheat!"

"Even if the master of Danmen is invited to be the invigilator, I am not afraid!"

"However, I don't have time to wait for you to invite someone over, and I don't need to be so troublesome to prove my innocence!"

Su Lang clicked the corner of his mouth and said faintly, "I will not use the pill furnace, I will make alchemy out of thin air, and I will make all the steps public. You just stare at it!"
