

One Click 2701

[Chapter 2701: Kill the twenty-three-seven universe with one sword](#)

boom! !

The man in the red robe used part of the recovered power to smash the Nianfeng space with a hideous expression!

Sneer--! !

Infinity drew a sword with his right hand!

[Jinghua Shuiyue] A semi-imaginary glazed knife light is released, like a tsunami, covering hundreds of light years in an instant!

In an instant.

The man in the red robe, and the twenty-two people like Tang Zhufei who followed him, felt that they were all closed.

They suddenly lost all sense of orientation. They didn't know the up, down, front, back, and left, let alone where they were!

"What kind of ghost secret technique is this again!"

"Where am I, where am I, **** it!"

"..."

The panic and fear of all the people in the Sui Youzhou Domain could not be suppressed.

Some of them froze in place.

Others tried to escape by relying on the location in memory.

but.

Their senses had long been tampered with by Jing Hua Shuiyue, and their memory positions became no longer accurate.

Not to mention.

Su Lang still has countless arrays, Nianfeng Space, and the power of the Doudu universe to besiege them!

at this time.

Chuanxin Lock also joined the siege.

The eight black jade chains penetrate through time and space in a spiral shape, winding around 23 people, binding them into rice dumplings!

Even so, the Nianfeng Space is automatically released.

But the banning ability of Heart Piercing Lock is stronger than that of Mind Sealing Space, but the casting speed is much slower.

now.

Tang Zhufei and other 23 Seven Eternals were all banned, and the power in the body could not be used for half.

And there is no way to escape.

Endless despair filled their minds!

"Next."

"I will send you on the road!"

Su Lang looked at the trapped Tang Zhufei and others, and raised his right hand indifferently:

"The world is dead and broken! One! Sword—!!!"

The indomitable Boundless Ship pinched the Xuetian Waterfall-like Youtian Sword, and slashed at the front!

Puff! !

Twenty-three sounds of flesh and blood being cut into one layer.

Tang Zhufei, a woman with four heads and eight arms, a man in a red robe and others, their eyes widened and full of horror, they were all beaten up by one sword!

If it is cut in half by the rest of the people, it is just a small matter.

But when Su Lang cut it off with the Youtian Sword, there was only one end, and that was death!

"Ding! You get the Eternal Soul*1, the Eternal Body*1, the Eternal Daojing*1..."

"Ding! You get..."

"..."

Twenty-three consecutive system prompts came, announcing that Tang Zhufei and others had completely fallen.

Hoop!

Twenty-three corpses of the Seven Eternal Realm disappeared from the original place and were collected into the storage space.

More trophies were scraped by the system, sorted roughly, and piled up into vast continents in the storage space.

"Dead!!"

"The invaders of Sui Youzhou Domain are all dead!!"

"Oh my God, I know the lord leader is very strong, but I didn't expect the lord leader to be so strong!!"

"It's great, great, all the invaders are dead, now we are safe in the universe!"

"..."

In the boundless space, all the eternal warriors up and down were shocked and overjoyed!

Among these people.

Most of them were thinking that it would be nice to be able to beat the people of Suiyou Zhouyu away.

Killing 23 people directly is something they dare not even think of!

However, Su Lang did this.

Moreover, those of them who are stationed on the Infinity, are also fortunate to contribute from the first perspective and participate in this battle personally!

This makes everyone feel like You Rongyan, and even feel that they have no regrets in this life.

at the same time.

Su Lang was digesting the information he had received from Tang Zhufei and others.

Put the exercises aside first.

Regarding Suiyou ancestor, and Suiyou ancestor's weird treasure, it is very important.

And this important information.

Among the 23 people including Tang Zhufei, only Tang Zhufei and the woman with four heads and eight arms knew about it.

Because they are the true confidants of Suiyou Ancestor.

The others only know that there is such a treasure, and they don't even know more.

After some sorting.

Su Lang already had a general understanding of Suiyou Zhouyu, Suiyou's ancestor, and strange treasures.

[Chapter 2702: Actually, I still have a hole card](#)

"A treasure from the Universe White World?"

"Weird pages with weird characters?"

"Those strong men who go to the Lingxu Fragmented Realm to participate in the battle are special treasures that they must compete for?"

"Suspected that it can make a powerful eternal warrior transcend the endless universe? Get rid of the curse of 'Living with the Universe' and gain true eternal life!?"

"This dangerous place like the Universe White Realm is actually a way to transcend the endless universe!?"

"..."

Su Lang looked at the various information in his mind, his eyes flickered, and he was a little surprised.

The change of the Suiyou Universe actually involved things like the 'transcendence of the endless universe' and the 'true eternal life'.

And the "Lingxu Fragmented Domain" in the intelligence is also the place where Emperor Gu Jun Zhou went to participate in the war.

Now it seems.

The purpose of Emperor Gu Jun Zhou can already be roughly guessed.

He is also for 'true eternal life'!

The reason why Emperor Dou Xiu Zhou disappeared was probably because he knew these secrets, and then left with Emperor Gu Jun Zhou to pursue the true immortality.

Because the previous use of 'Calling the Word Secret' did not call out the phantom of Dou Xiu, which means that he has not fallen.

"The battle that Emperor Gu Jun Zhou faced back then seemed to make him very urgent."

"Perhaps, in that Lingxu Fragmented Realm, similar treasures from outside the endless universe?"

"It's just that, neither he nor Dou Xiu expected that such treasures would appear in the next door of Dou Dou Zhouyu for a period of time after he left!"

"Now that Suiyou ancestor has obtained that kind of treasure, in order to seek true immortality, he did not hesitate to take risks to assimilate it, and even abandon Suiyou universe.

"..."

Su Lang thought silently, a little sorrowful in his heart.

The eternal strong dominates countless worlds, but still dying...

Only by transcending the endless universe and walking out of these closed-loop-like natural universes and universes can you truly live forever.

"What is the endless universe, what is outside the endless universe?"

"The kind of treasure that comes from the Universe White Realm and can cause the entire age of the universe to change, what is it?!"

"Countless powerful eternal warriors are chasing, exhausting their efforts and working hard..."

A look flashed in Su Lang's eyes, "Old Ancestor Suiyou is an opportunity for me to get in touch with more secrets!"

Through Tang Zhufei and the four-headed Miao Man woman.

Su Lang already knew that Suiyou's situation was a bit bad.

This veteran of the Eternal Realm of the Eight Universes, his combat power plummeted, and he even stepped into the deadlock with half his foot.

"Now is a good time to deal with him."

"Otherwise, if Tang Zhufei and others fall, he might leave the retreat and either come to kill me, or go to other places to continue lingering."

"After all, Tang Zhufei and others used the [Suiyou·You Lin] secret technique before, but they borrowed his power."

"For the process of this battle, he is very likely to see it."

"..."

Su Lang thought for a while, and immediately issued instructions to everyone in the Infinity:

"The war is not over yet!"

"Next, we are going to kill the Eternal Eternal, Suiyou ancestor!!"

"Everyone quickly restore their strength, this battle will be more difficult than killing Tang Zhufei and others!"

Su Lang's voice resounded in everyone's mind.

Suddenly.

Everyone was dumbfounded, speechless, a little unbelievable.

The killing of 23 people including Tang Zhufei was already overjoyed.

Su Lang even had to do something to kill the true Eight Eternal Realm, Suiyou Patriarch! !

That is the real eternity of the eight universes!

A senior, a terrifying existence as long as the natural universe!

This is incredible!

"Brother!"

"The younger brother knows that the old ancestor You is likely to hit the door."

"But he is coming. After all, it will take some time. Why don't we take this opportunity and take a break first!?"

Yu Yangli expressed his opinions sincerely.

In this battle, he was exhausted, let alone the rest.

Therefore, he thinks that it is a better choice to repair in place and wait for work.

And this is also the thought of everyone except Chu Xiaobei and others.

"You can't say that your idea is bad, it's actually good."

Su Lang smiled and said, "It's just that you don't know that in the previous battle, I still had my hole cards to play."

[Chapter 2703: I can only say that I deserve to be my brother](#)

This statement came out.

Everyone in the Boundless was so shocked that their eyes were about to fall out!

what! ?

It's all done like that, and the hole cards are still not shown! !

"Ah this!"

"My lord dared not to do his best yet?"

"Oh my god, do you want to be so perverted, lord lord, if you don't finish playing the hole cards, you will beat the team of the eight celestial power class to the ground, and then kill 23 people with one sword!"

"How strong is the lord's lord? I can't guess at all!"

"I can only say that it is my brother!"

"..."

One hundred thousand eternal warriors, including Yu Yangli's combat power at the eight cosmic level, looked dull and shocked.

Ji Ruxue, Chu Xiaobei, Yan Hingxing and other old subordinates are quite normal about this kind of thing.

In addition.

With a half-shocked and half-stricken look in the Palace of Xiuning, it is estimated that he will soon join the queue of Ji Ruxue and others.

"Everyone."

"Now the ancestor Suiyou has been consumed a lot."

"Moreover, this person was already greatly weakened due to some special reasons."

"So this is a great time to deal with him!"

Su Lang looked at the strong among the 120,000 parts under his feet indifferently, and smiled slightly.

"It turns out that Old Ancestor You was weak!"

Yu Yangli looked excited, "In that case, what the brother said is extremely true, please also ask the brother to take us and kill the old thief!"

"Lord Lord has not shown his cards, the real combat power will be even more terrifying!"

"At this time, the ancestor Suiyou is weak, I must not miss this great opportunity to cut the grass and eliminate the roots and never suffer future troubles, lord, please take us to kill the ancestor Suiyou, although you will die without regret!"

"Small, too, I can follow the lord and conquer the eternal power of the eight universes, even if I die, I am willing!"

"..."

The rest of the eternal powerhouses, one by one, are also very passionate, their eyes are shining, and they want to run to Hammer Suiyou ancestor immediately.

They entered the Boundless Ship, followed Su Lang to kill Tang Zhufei and the others, and they already tasted the pleasure of beheading a super enemy.

And this time.

Since Su Lang decided to kill Suiyou Patriarch, he must be sure of it!

So, who wants to miss this experience of killing Suiyou ancestor! ?

"Everyone, don't worry."

"The deity has dispatched the clone and the treasure hunting ancestor flying to the Suiyou universe."

"As long as the avatar of the deity reaches the destination, then we can directly pass through many small universes and directly kill Suiyou Ancestor!"

"Now, it will take a while for the deity's clone to reach the Suiyou universe."

"Take advantage of this little time, you all quickly restore the power of the universe, and you will definitely use it in the battle waiting for it!"

Su Lang looked at the morale rising and his subordinates who couldn't wait, smiled lightly.

Hear this.

Everyone was in an uproar immediately!

For the eternal strong, crossing the barriers of the natural universe is almost commonplace, but basically it can only pass through one natural universe at a time.

Occasionally, the strong can travel through multiple natural universes at once, and the number will never be too much.

But Su Lang was able to traverse an entire high-level cosmic realm, accurately reaching the destination in another high-level cosmic realm!

The number of natural universes in these two great universes is simply innumerable!

"Quiet, rest quickly!"

Su Lang couldn't stop the shocked voices of everyone, raised his hand and pressed it down.

Suddenly.

Everyone calmed down, closed their mouths in respect and awe, and began to recover.

Su Lang also directly stuffed a large amount of pills, and then moved his heart, controlling the Infinity and returning to the opposite platform.

Here, the energy concentration of the universe is countless times higher, which can better restore the power of the universe.

"More importantly, organize the spoils!"

"The trophies I harvest this time are definitely the most once in my life!"

Su Lang sat cross-legged among the core parts of the Wuyin's center, and a trace of heat rose in his heart.

But this time he did not immediately begin to store the origin of the universe.

because.

There are still many that have not been cleaned up!

"Eternal life of the universe, out!"

Su Lang waved gently, and suddenly twenty-three Seven Universe Level eternal life universes emerged.

[Chapter 2704: No need to stay for the unwilling](#)

These life universes were obtained from Tang Zhufei and others.

"open!"

Su Lang stretched out his hand to pinch one of the life universes, and the huge power of time and space enveloped it!

Suddenly.

A gap appeared in this universe of life, revealing a miniature version of the universe star field and the universe continent inside.

In this long star field, among the continents of the universe.

There was a breath of very powerful aura, and the masters of these auras were all eternal powerhouses.

These are the warriors who followed Tang Zhufei and others to leave the Suiyou universe.

In the previous wars, they also contributed.

It's just that, like Su Lang, it's impossible to perfectly gather everyone's power through the Infinity, and increase it to a level far beyond simple addition.

Their strength can be increased by one-tenth to the Seven Eternal Eternity that accommodates them, which is pretty good.

at this time.

Perceive that the universe of life is opened.

A series of eternal auras resemble awakened behemoths, slowly rising, head raised, eyes shot out, looking towards the exit of the universe of life.

But then.

These breaths shrank like an electric shock, and gradually fell silent, shivering!

because.

They saw a pair of extremely terrifying eyes!

It's like the master overlooking the universe, the **** in eternity, crushing all existence, and can take everything from them, including life!

Those are the eyes of Su Lang!

"Mingguang Wanjie!"

Su Lang overlooked the huge universe of life. In an instant, endless golden light burst out, filling the entire universe!

The creatures below the eternal realm are directly assimilated and worshipped down in an instant!

Among the eternally strong, the weaker existences could not resist for a few breaths, so they knelt down one after another.

Only the existence of a higher cultivation base can resist a longer time.

just.

Many of them did not resist at all!

"Master Su Lang is here, the younger is willing to be a slave and maidservant, and will never betray him forever!"

"Master Su Lang of Xie Wei'an showed mercy and spared my life!"

"Great master, master of the universe, your servant worships you!"

"..."

An eternal strong man crawls down, bowing his head in awe, praise!

resistance?

Looking for death!

Twenty-three eternal powers of the seven universes are dead, and you still dare to resist?

Want to survive, now is the only chance!

If you miss this opportunity, you will definitely die!

"There are quite a few acquaintances."

"Unfortunately, my mercy is not so cheap."

An indifferent smile was outlined at the corner of Su Lang's mouth.

Soon.

"Secret word stealing!"

Su Lang unfolded the secret technique, a strange power enveloped all the eternity in this universe of life!

Suddenly.

The true thoughts of an eternal powerhouse were clearly seen by Su Lang.

These eternal powerhouses are not as respectful and completely obedient as they seem to be.

There are many unwilling people at its center.

Many people planned to surrender to Su Lang with expedient measures, and then wait for Su Lang to kill Su Lang.

Not bad.

It was Suiyou ancestor who gave them unwilling confidence.

After all, that is a real power of the Eight Eternal Realm, far beyond what Tang Zhufei and others can compare.

"Humph!"

"As long as you have a different mind, you don't need to keep it!"

A hint of coldness flashed in Su Lang's eyes, and an avatar descended into the eternal universe in his hand and began to kill!

"No! Lord Su Lang! I sincerely surrendered!"

"Great Lord Su Lang, the young one is willing to be a bull and a horse for you, never regret it!"

"Su Lang, you will die, and Suiyou Ancestor will not let you go!"

"No, don't kill me, help!"

"..."

In the universe of eternal life, a large number of eternal powerhouses were frightened by the sudden killings, one by one, they fled in panic, and they kept crying and pleading.

But how could they escape from Su Lang's clones?

Not to mention the clone of the peak combat power of the Seven Universes, even the ordinary clone of Hundred Shadows, it is not these people can fight.

In a blink of an eye.

Su Lang's clones killed all unwilling people.

Suddenly.

Another system reminder came, and there were countless more treasures in the storage space.

[Chapter 2705: Massacre hundreds of thousands of eternal warriors](#)

of course.

Su Lang did not kill them all.

There are still some eternal warriors who are really willing to take refuge.

Most of these people are 'Ranxiu' in Suiyou Universe, and they don't have much contact with Tang Zhufei and others. They only joined the Suiyou Universe to leave Suiyou.

It happened that Su Lang's Boundless Number still had a gap of twenty thousand eternal powerhouses.

The 20,000 gaps were previously used half-step eternal warrior generals.

Now with these eternal warriors who are willing to take refuge, they can fill the gap!

"If 120,000 parts are all eternally strong!"

"The strength of Infinity will definitely increase again."

Su Lang smiled slightly and immediately planted restraints and other control methods for the remaining eternal warriors while waving his hands.

"No, not dead! I'm not dead!"

"Hi, many eternity are dead, a humanoid universe, just like this, piles and piles fell!"

"It's terrible, terrible, but luckily I don't have any bad thoughts!"

"Master Su Lang is planting a ban on me, great, I don't have to die!"

"..."

The surviving eternal warriors were both frightened and pleasantly surprised.

These people had originally intended to take refuge, but at this time they were killed and banned. Not only were they not angry, but rather relieved that they were being planted.

With these control methods, they are equivalent to dogs tied to a leash and are accepted.

"My eyes look at you all the time."

"But if anyone dares to have the slightest bad idea, don't blame me for being merciless!"

"Now, hand over all your wealth, except weapons and life!"

Su Lang's avatars are suspended in the sky inside the universe of life, overlooking the eternal warriors who bow to their knees.

"Yes, master of the stalwart!!"

"The little ones will never dare, thank Master for your mercy!"

"The slave must commit crimes and make meritorious service, and fight to the death for the master!"

"..."

Every eternal warrior was grateful and swore one after another.

"It's not okay to say it nicely without speaking, it depends on your performance!"

Su Lang smiled coldly at this, "Now, let me come out!"

Talking.

A avatar of Su Lang disappeared.

The eternal warriors who knelt down one after another, left the passage.

After these people left the universe of life.

Su Lang was immediately assigned to the vacant Boundless parts.

Soon.

Su Lang began to transfer the eternal life universe in his hands again.

As a universe of life at the level of seven universes, this universe is really vast.

Su Lang must integrate some crystal wall worlds before he can install them.

But fortunately, everything is familiar to you.

Not long after, Su Lang transferred the Seven Universe Life Universe in his hands into his body.

A large number of lives have brought a strong humanity.

The Ethereal Universe instantly didn't know how much incense aspiration power it had absorbed.

"Next!"

Su Lang's gaze shifted to the next life universe.

In this universe of life, there are also many eternal warriors from Suiyou Universe.

Su Lang also used the "Secret of the Words" to steal a lot of knowledge of the eternal strong while secretly monitoring his true thoughts.

really.

Among the second wave of eternal warriors, the unwilling to occupy the majority.

Su Lang did not hesitate to kill them all!

.....

Time passed slowly.

Su Lang kept dealing with life universe after life.

Originally there were only twenty-three seven universes to deal with, but because of the mass murder, the number of eternal life universes that needed to be dealt with directly exceeded one hundred thousand!

In other words.

From the beginning to the end of sorting out the universe of eternal life, Su Lang killed more than one hundred thousand eternal powers!

It must be known that the entire Doudu Zhouyu has only one hundred thousand eternal warriors!
at this time.

Su Lang killed more than one hundred thousand eternal warriors, leaving fifty thousand eternal warriors.

These eternal warriors were all accepted by Su Lang and became residents or substitutes of the Infinite.

These eternal warriors who act as substitutes are equivalent to the 'energy batteries' that can be directly replaced, and they are naturally much faster than recharging when they are used up.

"Fifty thousand eternal warriors surrender!"

"Twenty thousand permanent, thirty thousand substitutes, no needles!"

Su Lang nodded in satisfaction. As a result, the Infinity, no matter its explosive power or endurance, became more powerful.

[Chapter 2706: Extraordinary function group with bonus](#)

Soon.

He looked at his crystal wall universe.

There are hundreds of thousands of crystal wall universes, each containing a universe of life.

There are a huge amount of life in these life universes, and countless incense aspirations can be produced every moment!

"Soon, I will be promoted to incense weapon again!"

Su Lang smiled slightly, his eyes finally shifted to the storage space.

"system!"

"Stored in all the origin of the universe, the core origin of the universe!"

With a thought, Su Lang issued instructions to the system.

"Ding! The storage is complete, the balance is 546.68 million cosmic origin!"

"Tsk tut!"

"Five hundred million!"

"Lie noisy, is the eternal warrior of Suiyou Zhouyu so fat!"

After Su Lang heard the system prompt, his expression suddenly moved, somewhat surprised.

But when he thought about it, he thought of a possibility

— Sui Youzhou domain has an abnormal appearance, those eternal warriors can hardly go further, so they have stored the origin of the universe, and now he has all of them!

"Luck is so good!"

"Five small goals, I can already upgrade all system functions!"

Su Lang licked his lips excitedly and looked at his system function.

Currently.

The one-click practice and clone dispatch functions require 100 million cosmic origins to upgrade.

Most of the remaining system functions require ten million, and some require only one million.

"Individual system functions can be upgraded more than once!"

Su Lang was a little excited, and then began to order, "System, upgrade me the one-key practice function!"

"Ding! Consumes 100 million cosmic origins, the one-key training function is increased to level 56, and the training speed is increased to...960 trillion times!"

"The cultivation rate has doubled again!"

"This multiple, one second of cultivation does not know how many years others have cultivated!"

The corner of Su Lang's mouth raised slightly, and immediately ordered again, "System, upgrade the clone dispatch function!"

"Ding! Consumes 100 million universe origins, the clone dispatch function is upgraded to level 55, the number of clones is +1, the current number of clones is 55, the number of clones is 55, and the number of twins is 55!"

"Ding! Congratulations on upgrading the clone dispatch function to level 55. You have obtained the brand new bonus function "Clone Self-Destruct"!"

Two system prompts came, and Su Lang was surprised.

"new function!"

"Hahaha, got new features again!"

Su Lang's eyes flashed, and then he began to check information about the new function.

[Self-destructive clone]: The clone will destroy itself instantly after activation, forming an attack with one hundred times the power of its current combat power.

This attack can lock a single target or multiple targets at will!

"A hundred times the current combat power attack!"

"Hahaha, this function deserves to be produced by the system, it suits me too well!"

"Nowadays, my clone can not only use the Xingchuan Yun He clone, but also various self-harming secrets. The most terrifying thing is "The Secret of Death Without Life"!"

"After the Xing Cuanyun He clone is activated, various self-harming secret techniques will be activated, and finally the clone will be used to self-destruct. That scene...tsk..."

Su Lang took a breath and slowly calmed down the excitement in his heart.

Now that he has a new hole card, he is more sure about dealing with Suiyou Ancestor!

"awesome!"

"I don't know what bonus functions can be obtained for other system functions."

Su Lang rubbed his hands impatiently, "System, upgrade me the one-key martial arts function!"

"Ding! Consumes 10 million cosmic origins, upgrades the one-key martial arts function to level 55, and increases the training speed...480 trillion times!"

"Ding! Consumes 100 million cosmic origins, upgrades the one-click martial arts function to level 56, and increases the training speed...960 trillion times!"

"Ding! Congratulations on upgrading the one-click martial arts function to level 55, and you have obtained the new bonus function 'Extreme Yiqun'!"

Accompanied by three system prompts.

Another message appeared in Su Lang's mind!

Take a closer look.

Absolute Yiqun: The proficiency of the exercises surpasses the original rank order, and the blue is better than the blue. After the current exercises are practiced again, they can reach the 'exceptional level' above the founding!

"It turned out to be about the system function of proficiency!"

"Above the founding, are you absolutely surpassing Yiqun? Also, the founders of the exercises can't exceed them. How can they not have the proficiency above the founding!?"

Su Lang was pleasantly surprised, with a bright smile on his face.

Soon.

[Chapter 2707: Material transformation, characteristic swallowing](#)

"system!"

"Stop the current exercises!"

"Activate the function of 'Ten Mind Martial Arts' and practice 'Ten Thousand Hearts into One · Infinite Profound Meaning'!"

"Ten Thousand Laws into One: Infinite Profound Meaning" is a combination of countless exercises and is exclusive to Su Lang.

It is a fusion of countless exercises, a single exercise, which can be practiced directly.

Therefore, Su Lang did not hesitate to give the order.

Suddenly.

Inside the mysterious black space.

The ten martial arts villains who were busy practicing stagnated, and then practiced again.

"The 'Ten Thousand Ways to One: Infinite Profound Meanings' contains countless profound meanings, and the time to practice may be longer."

"But no matter how long it is, it shouldn't last long. At present, I have started the 'Ten Heart Martial Arts', and the maximum speed of martial arts function is 96 trillion times. The rest of the eternal martial artists can never dream of it...!"

"In addition, 'All the Ways to One: Infinite Profound Meaning' reaches the level of 'Super Ease', which will surely bring infinite benefits, and it is worth the time spent!"

"..."

While thinking, Su Lang looked at the next system function.

At present, 310 million cosmic origins have been consumed, and there are more than 230 million!

After some consideration.

Su Lang decided to upgrade the one-key treasure hunt and one-key mixer functions, plus a cheap one-key empowerment function.

"Ding! Consumes 10 million...The number of flying gliders is 480 trillion!"

"Ding! Consumes 100 million cosmic origins, the one-click treasure hunting function is upgraded to level 55, and the number of treasure hunting flying gliders is 960 trillion!"

"Ding! Congratulations on upgrading the one-click treasure hunting function to level 55. You have obtained the new bonus function 'Material Conversion'!"

In an instant.

The information of the new bonus function appeared in Su Lang's mind!

Material transformation: Treasure hunting flying gliders who are good at collecting heaven, material and earth treasures have the ability to transform target materials into specified types of materials!

The limitation is that the transformed material has the same quality and grade as the original material.

"Material transformation!"

"It turned out to be this kind of seemingly simple, but actually extremely abnormal function!"

"Using this function, I will never lack any kind of materials, and I can use low-grade materials to transform into advanced materials!"

"The quality of the most converted materials is poor, but it can also be improved with synthesis and enhancement functions!"

"It's awesome, the functions of this system are getting better and better!"

"..."

Su Lang looked at the system function profile information in his mind, and golden light appeared in his eyes!

Now his weapon level is relatively high, many treasured eternal materials are hard to find, and it is difficult to evolve.

But now it's alright, and the evolution of weapons will no longer be blocked by some kind of material that cannot be found!

"system!"

"Start the 'material conversion' function!"

"Turn the Yizhen Chaos Stone into Yueyulan Tianyu! Turn Tianlixuanyousha into..."

Su Lang immediately activated the function to transform the materials that were lacking in the evolution of the Youtian Sword.

He chose to use more advanced materials as raw materials to transform them into low-cost materials required by Youtian Sword.

In this way, the quality of the material obtained is very, very high, which is perfect!

"Continue to transform, and soon Youtian Sword and other weapons will evolve again!"

There was a glimmer of expectation in Su Lang's heart, and he was immediately distracted, transforming materials and upgrading the one-key mixer function!

The material is enough, and the system function must keep up to evolve the weapon!

"Ding! Consumes 10 million universe origins, unlocks the one-key refining function to level 20, and can refining the Five Eternal and lower-level weapons!"

"Ding! Consumes 100 million cosmic origins, unlocks the one-key refining function to level 21, and can refining Six Eternity and its lower-level weapons!"

"Ding! Congratulations on upgrading the one-key mixer function to level 20, and you have obtained the new bonus function 'Character Swallow'!"

After the system prompts.

Another brief introduction of new functions flooded Su Lang's mind.

Devouring Features: It can swallow the features of the Innate Eternal Emperor Soldiers, and avoid all negative effects!

"Character swallowing!"

"Avoid all negative effects!"

"It's another function of smashing the sky, it is worthy of a 20-level one-key mixer function!"

After reading the function introduction information, Su Lang was excited to add another point!

[Chapter 2708: Devouring Dream Breaker Characteristics](#)

When the natural universe was born.

Some congenital treasures with strange congenital characteristics will be produced.

The weapons built with these innate treasures possess the innate characteristics of divine weapons.

For example, Su Lang's Youtian Sword has the horrible innate characteristic of breaking the defense and dying, the Broken Dream Knife has the innate characteristic that it must hit with a single blow, and the Tianjia eight-sided shield has the innate characteristic that it can block attacks...

These innate characteristics are very unreasonable and difficult to restrain.

at the same time.

Some weapons with these innate characteristics will bring negative effects.

It's like the Broken Dream Knife, with the weird side effect that keeps the holder wearing a green cap.

Until now.

Su Lang didn't dare to use it...

Fortunately, the Youtian Sword and the Heavenly Eight-Edged Shield had no negative effects, perhaps because they were both produced by the system, which perfectly avoided this.

In addition.

The more pure the innate characteristics of the weapon, the stronger.

Once the innate characteristics of a weapon are too complicated, the effect of the innate characteristics will be reduced, and the overall trend will be mediocre.

This is because when Su Lang evolves his weapons, he always only retains the current innate characteristics.

But now, the innate characteristics swallowing function can avoid all negative effects, naturally including the problem of weapons that have too many innate characteristics and too complicated, resulting in reduced effects of innate characteristics.

As long as the innate characteristics are swallowed, they can have the strongest power without affecting the effects of the original innate characteristics!

of course.

The 'innate phagocytosis' function also has limitations.

Each weapon can consume innate characteristics three times, and consumes more materials at a time than once!

"It's not a lot of three times! The materials are not a problem at all!"

"It just happens that the eternal emperor soldiers just captured have not had time to disassemble!"

There was a look of expectation in Su Lang's eyes, and he immediately looked at a sealed box in the storage space.

The box is slender and delicate, and inside is the forbidden Broken Dream Knife!

"Come out!"

With a thought of Su Lang, he put the box in front of him and released some of the restrictions.

"Master Su Lang."

"Are you finally willing to be my master!"

Broken Dream Dao Qi Ling sensed the loosening of the ban, and when he found out his mind, he saw that it was Su Lang.

It was very excited and shouted, as if it could not wait!

"No! I am not your master! Not from beginning to end!"

"But now I can give you a chance of relief."

"I can try to get rid of the 'green hat curse' on you and make you less perverted."

Su Lang cleanly denied that he was the master of Broken Dream Knife, so he didn't dare!

"A chance for liberation?"

"Get rid of the 'green hat curse' on me!"

"Alright, although this curse is strong, it also limits my freedom. Please make me normal!"

Broken Mengdao groaned, then agreed.

"well."

"After I'm done, I will find you a good host."

Su Lang nodded. In fact, he could forcibly deprive the broken dream knife of its innate characteristics.

But after all, this weapon had made some contributions, making the enemy Origin Demon Emperor, who was very powerful for Su Lang, a generation of green slaves.

Therefore, Su Lang still solicited some of its opinions.

It doesn't matter if Broken Dream Knife disagrees.

He now has one hundred thousand eternal emperor soldiers, and he is afraid that he can't find weapons with innate characteristics?

at this time.

"Find me a good host?"

Broken Dream Dao Qi Ling shook his head, "No, Lord Su Lang, I want you."

"I?"

"No, no, forget it."

Su Lang looked stagnant and waved his hand to refuse.

Although the negative effects will disappear after swallowing the innate traits, his heart is still hairy.

"Well, I know, you don't like male spirits."

Broken Dream Dao Qi Ling shook his head regretfully, "Then you let me find the master by myself."

"Do you want you to find it yourself?"

Su Lang touched his chin, "Also."

"Then please start!"

Broken Dream Knife Ling said solemnly.

Su Lang nodded slightly, took out the Youtian Sword and put it aside.

"system!"

"Activate the 'Feature Devour' function!"

Su Lang locked the Youtian Sword and Broken Dream Knife with his divine mind, allowing the former to swallow the latter's innate characteristics of "one hit must hit"!

"Ding! Consumes 1 million of the origin of the universe, eternal realm materials...successfully swallowed innate characteristics."

[Chapter 2709: Characteristics, solidified words and secrets](#)

Accompanied by the appearance of system prompts.

Youtian Sword immediately possessed the innate characteristic of 'one hit must hit'.

From then on, Su Lang basically didn't need to worry about his hit rate, unless he encountered the innate characteristic of restraining "one hit must hit."

The Broken Dream Knife's breath was greatly reduced, and the spirit of the device was a little sluggish.

"Go!"

Su Lang waved his hand and threw the Broken Dream Knife into a super-large crystal wall world in his body, letting him find his master.

out of curiosity.

Su Lang tracked the Broken Dream Knife with his spiritual mind, and also used the Avenue of Time to speed up the time in that crystal wall world.

quickly.

Su Lang saw Broken Dream Knife had selected his new owner, and that new owner turned out to be a real green slave powerhouse.

"I'm going...the innate characteristics are gone, this taste is still so tricky!"

Su Lang couldn't help but spit out, then looked at Youtian Sword.

"Master, I miss you so much~~"

The little ghost spirit ran out to let go, obviously a loli figure, but soft and charming.

"Ah, staying on top of my head every day, are you still not satisfied."

Su Lang gave a light cough and laughed, "Now I'm here to prepare you the second innate trait to be swallowed!"

"Good, good!"

Xiaoyou promised excitedly that she had already tasted the sweetness of devouring her innate characteristics.

"Ok."

Su Lang nodded slightly and looked at his storage space.

However, I saw a large number of eternal weapons piled up in one corner, and just a few, it exceeded the number of 100,000!

"There are so many eternal weapons, some of which are made of innate treasures!"

"Let me see, what good innate characteristics can I find!"

A bright smile was outlined at the corner of Su Lang's mouth, and he immediately searched among a lot of eternal weapons.

While searching.

He also activated the decomposition function to decompose the unnecessary eternal weapons into raw materials.

then.

"Ding! The decomposition is successful, and you will get the Eternal Realm material Extreme Disaster *22544..."

"Ding! The decomposition is successful,..."

"Ding!....."

System prompts came one after another.

There are occasional screams of some spirits before they die.

Disassemble these eternal weapons.

Brought more natural treasures to Su Lang!

A low-level eternal weapon, the decomposed materials, can pile up into planets.

Not to mention those high-level eternal weapons, the materials that are decomposed are countless!

Pieces of weapons were disassembled.

Su Lang was looking for weapons with innate characteristics in his heart.

The weapon recognition function allows him to never miss any weapon with innate characteristics.

In fact, the number of weapons with innate characteristics is not small.

It's just that the innate characteristics of many weapons are relatively weak, and Su Lang doesn't like it, so he hasn't selected the right one for a long time.

But when choosing weapons.

Su Lang also gradually understood one thing.

That is, weapons with innate characteristics are all related to the power of the natural universe!

It is by mobilizing the power of the natural universe that the unreasonable innate characteristics can be formed.

"It seems."

"My'Secret of Words and Words' is also a super secret technique developed by Emperor Gujun Zhou using this as an inspiration!"

"Although 'Secret of Words and Words' consumes a lot of money, it is very fearful that it can greatly mobilize the power of the natural universe to form the effect you want."

"The innate characteristics of weapons are like a solidified 'word secret', with a single effect, but more specific. The power is equally terrifying, and the key is that the consumption is small!"

"..."

Su Lang's eyes revealed a sense of comprehension. In a more advanced battle, the mobilization of the power of the natural universe may become a big bargaining chip for victory!

At this time.

A bow and arrow appeared in Su Lang's spirit.

This is a slender long bow covered with purple and black, full of texture, and the bowstring formed by energy is even thinner and invisible.

The name of the bow is 'Luotianyu'.

"Bow!"

Su Lang stretched out his hand, and the slender long bow suddenly appeared in his hand, almost two meters long.

"Buzzing!"

'Luo Tianyu' appeared in Su Lang's hands.

He made a buzzing sound, trembling constantly, with resistance and fear in it.

"open!"

Su Lang grasped the bow with his left hand, and held the bowstring with his right hand, fiercely!

Kaka Kaka!

The power of resistance came from Luo Tianyu, but still could not stop Su Lang from pulling it away.

The slender long bow became curved unwillingly, and the texture on the bow stretched out like snake scales!

[Chapter 2710: All four weapons have characteristics](#)

"Nice weapon!"

Su Lang nodded slightly and let go.

Luo Tianyu's bow and arrow are not very high-level, but the eternal level of the four universes.

But his innate characteristics are relatively strong, and he can actually mobilize the power of the current natural universe to strengthen himself to a certain extent.

When the arrow is shot, it can attract a large amount of natural cosmic power to surround and blend into the arrow, and its power can be 100% increased to twice the original!

"This innate characteristic may be called a 'knowing blow', or a 'critical strike'!"

"100% crit, every crit is double power!"

"But it's better to hear a little better!"

"Well, it's so decided!"

"..."

While thinking about it, Su Lang activated the 'Innate Characteristics Devouring' function.

Suddenly.

A system prompt appears.

"Ding! Consumes 10 million of the origin of the universe, eternal realm materials...successfully swallowed innate characteristics."

The resources consumed this time are significantly more.

The origin of the universe alone is ten times as much as before, and the rest of the materials consume more.

With a rough calculation, Su Lang almost reached hundreds of times!

but.

Youtian Sword also successfully acquired new innate characteristics, a knowing blow!

As for the original Luo Tianyu, his spirit was dim, with panic and resentment.

"Humph!"

"Start the one-click decomposition function!"

Su Lang smiled coldly, and when he waved his hand, Luo Tianyu broke down.

Soon.

Su Lang looked at Youtian Sword.

'Knowing one blow' is his third unreasonable innate characteristic after 'breaking the defense and dying' and 'one hit must be hit'.

"It seems that the innate characteristics of 'knowing one strike' are relatively ordinary, and it is not as good as death and one strike."

"But when you think about it carefully, this innate characteristic is actually terrifying!"

"From now on, all attacks condensed with the Youtian Sword can critically strike with double power!"

"This is equivalent to double my combat power in disguise!"

"..."

Su Lang laughed so badly that he quickly continued to search for other 'innate eternal emperor soldiers' with innate characteristics.

Not long.

He also found some eternal emperor soldiers with innate characteristics.

However, the Youtian Sword could not swallow the innate characteristics.

Because the origin of the universe is not enough!

Su Lang speculated that if Youtian Sword swallowed the third innate characteristic, at least 100 million universe origins and more heaven, material and earth treasures would be consumed!

But now, the origin of the universe is only more than 15 million.

"I can only upgrade his weapons."

"It just so happens that weapons such as the eight-sided shield of the sky and the sword of life can swallow the innate characteristics!"

Su Lang thought in his heart, happily taking out the Eight-Edged Shield of Heaven and starting to devour innate characteristics for it.

The current innate characteristic of Tianjia's eight-sided shield is that it can certainly block attacks, but its defense strength is slightly lacking.

The innate characteristic that Su Lang found for him is "indestructible", which can double his current defense power!

Speaking of indestructibility, Youtian Sword also has this characteristic, but it is only a characteristic, not an innate characteristic.

The other "God Slash" is just a feature.

Many weapons will come with mental attacks, and their own very strong characteristics.

"Ajia, thank the master for his innate characteristics!"

Qi Ling Ajia respectfully knelt down and thanked him, with fiery loyalty in his eyes.

"Don't worry."

"There is also an inherent characteristic of rebound!"

"As long as you can resist it, you can rebound the enemy's attack by 80% of the power!"

"Moreover, this rebounding power can freely control the target of attack!"

The corner of Su Lang's mouth grinned, "This innate characteristic is very difficult!"

Many weapons have this characteristic when rebounding from an enemy's attack, but it is only a characteristic. Very few have the innate characteristics of rebound.

Su Lang found one among so many weapons.

"hiss!"

"Rebound ability?"

"With this innate characteristic, Ah Jia can also attack the enemy!"

Ah Jia was extremely excited.

He was originally a super timid and introverted guy.

However, Su Lang gradually overcorrected, as if he became more outgoing, and liked to taunt the enemy.

Now I am not satisfied with being beaten. I really want to gain offensive ability to fight and kill the enemy!

just now.

His wish is about to be fulfilled!

"Start the innate characteristic swallowing function!"

Su Lang gave an order, and the system immediately activated the function.
