

## One Click 271

### [Chapter 271: It is extremely shameless!](#)

When Su Lang said this, everyone was stunned.

Even Wan Hong opened his mouth wide in disbelief, and his chin was about to fall off!

Immediately afterwards, Li Ming stepped forward and said with a sarcasm: "It's just wishful thinking to not use a pill furnace to refine the pill!"

Li Ming opened his head, and the Fourth Young Master of Xishan was not to be outdone, and immediately mocked.

"As everyone knows, the pill furnace is the most important tool for refining the pill. Without the pill furnace, there is no pill!"

"That is, even if someone can really make alchemy without a furnace, they are definitely big men with super high alchemy skills."

"Su Lang child, you, a Tier 8 alchemist, dare to say such a big thing, aren't you afraid that the wind will flash your tongue?"

"That is, a small alchemist who is less than twenty years old, dare to say that he doesn't use a pill furnace to make alchemy. It's a dream!"

"This Su Lang child's head must be rusted through!"

"..."

More than 600 mouths kept closing, opening and shutting up were all contemptuous words.

"Okay! Be quiet, everyone!"

Wan Hong waved his hand and laughed, "Since Su Lang wants to perform a furnaceless alchemy, then we will give him this opportunity!"

"Yes, yes! Let him do it! I want to see how he can refine the pill without a pill furnace!"

"If he can't refine it, he has cheated before!"

"Yes, if he cheated, he would lose to Li Ming. We won this bet!"

"Su Lang child, hurry up and start your performance, hahaha!"

"..."

The students didn't believe that Su Lang could make alchemy without a furnace, even though Su Lang's face was full of victory.

"Huh, a bunch of scum, don't cry too ugly in a while!"

Su Lang snorted in disdain, then snapped his fingers, and a large group of crape myrtle indeterminate fire appeared in the air.

Immediately afterwards, the purple flame gradually became thinner, forming a semi-transparent foggy flame.

"turn!"

When Su Lang thought, the flames spun, forming a small or small sphere.

Everyone's complexion changed after seeing this scene!

They knew what Su Lang was going to do—simulating a pill furnace with crape myrtle indefinite fire!

The characteristics of the Lagerstroemia unfixed fire are its changeable shape and variable temperature, which can completely simulate the state of the furnace when it is running!

"Sorry!"

"Why didn't we expect this!"

"If he uses the crape myrtle indeterminate fire to simulate the pill furnace, it is really possible for him to refine the pill!"

"..."

Everyone's expressions gradually solidified, and they felt very bad.

At this time, a sneer came.

Everyone followed the sound to see that it was Wan Hong!

"It is theoretically feasible to simulate the pill furnace with the unfixed fire of crape myrtle."

Wan Hong said with disdain, "But Su Lang is just a general, and he hasn't even activated his spiritual power!

How much mind can he separate to simulate the pill furnace? How many minds can be separated to refine the pill?

In my opinion, he can't even do a simulated pill furnace, let alone refine the pill.

Even if the pill furnace is simulated, what level of pill can he refine?

To prove that he can refine the top-grade pill, he must at least refine the top-grade pill. Huh, can he do it? "

As soon as this remark came out, it immediately attracted a lot of echoes.

"exactly!"

"This guy may not be able to simulate the pill furnace!"

"Hmph, if you have a pill furnace to refine a pill, you have to concentrate on it. In this way, he can practice a pill!"

"Yes, and to prove that he didn't cheat, you must refine the high-grade pill!"

"Yes, the top-grade pill must be refined, otherwise it is cheating!"

"..."

Everyone, you say a word to me, while belittling Su Lang, while setting the conditions for Su Lang's victory as the 'high-grade pill', it is extremely shameful!

You know, even if an ordinary gold-level student wants to refine a level 8 high-grade pill, it takes luck!

However, in the face of the winning conditions set by everyone, Su Lang didn't have any waves in his heart and even wanted to laugh.

—Even without furnace alchemy, he can easily refine a perfect quality five-element complex spirit profound pill.

If he wants to refine the top grade pill, he has to make a deliberate mistake!

### [Chapter 272: Don't panic everyone!](#)

Next.

With contempt for everyone present.

Su Lang began the first step of refining the Five Elements Rejuvenating Profound Pill-processing medicinal materials.

The Five Elements Fuling Xuan Pill requires much more medicinal materials than the Body Tempering Pill. There are not only five main materials, but also 8 auxiliary materials.

These thirteen materials are not easy to deal with, of course this is for ordinary 8th-order alchemists.

For Su Lang, dealing with these kinds of medicinal materials is simpler than eating and drinking.

However, Su Lang did not finish processing it as quickly as possible.

Instead, the materials are processed slowly, bit by bit, each of which is deliberately delayed for time, so that the shameless students can observe clearly and prevent them from turning black and white again.

For the first material, Su Lang spent two minutes processing it, during which all the techniques were impeccable, and the students were dumbfounded.

At the same time, after seeing Su Lang's incomparably perfect technique, a great sense of misfortune rose in their hearts.

"This Su Lang's technique is simply more perfect than when my instructor taught me! Isn't his alchemy attainments even better than my instructor?"

"Let me go, I actually benefited a lot from his handling methods, and solved the problems that have puzzled me for many years. What a monster!"

"His technique is so perfect, there is really real material in the alchemy process. Before he handled the materials indiscriminately, he completely looked down on Li Ming!"

"It seems that Su Lang's alchemy skills are really much better than Li Ming. How could this be!"

"It's over, he is so powerful, what if he wins? I have crushed so many spirit stones!"

"Yes, all my old bottoms are pressed in, what can I do now?"

"Damn it, this guy didn't show up his true strength in the beginning!"

"..."

After Su Lang showed his hand, the students suddenly thundered and panicked.

Immediately afterwards, Su Lang began to process the alchemy materials afterwards, and there were still no flaws in the technique.

This scene immediately caused all the students to look horrified!

"Don't panic everyone!"

"This is just the first step in alchemy, processing materials!"

Wan Hong's voice suddenly spread throughout the audience, "There are so many steps after that, why are you panicking?"

As soon as this remark came out, everyone who was at a loss was immediately given a shot in the heart.

"Yes, this is only the first step. Although Su Lang's performance is impeccable, it has nothing to do with furnace-less alchemy!"

"Yes, yes, when it comes to handling materials, although my technique is not as good as him, it is not too far off!"

"Yes, this step is not a difficult point. No furnace is the key point. He doesn't use the furnace to refine the medicine. His chance of winning is still very small!"

"Hmph, no matter how high Su Lang's children's alchemy attainments are, still the Danzun Pill God fails? No matter how hard he struggles, he will definitely lose!"

"..."

The atmosphere in the assessment hall became warm again.

Among them, the Four Young Masters of Xishan are the most active.

In Su Lang's unexpected performances one after another, their mood was ups and downs, which was more exciting than riding a roller coaster.

At this time, the mood went from the trough to the highest point. Of course, it was also the most excited and excited time.

"Tsk tsk, there are quite a few reasons for self-comfort."

"Unfortunately, you won't be able to laugh anymore soon."

Seeing the excitement and excitement on everyone's faces, Su Lang curled his lips in disdain.

Next, Su Lang spent more than ten minutes processing all the materials slowly.

Immediately, it was the second step of alchemy, processing the liquid medicine.

This step is considered an advanced step for processing materials, and there are already materials that need to be used in the furnace.

Therefore, seeing Su Lang entering the second step, everyone suddenly widened their eyes and stared at them intensively.

"First, process the passion orchid leaf and fruit concoction."

Su Lang's gaze fell on the pill furnace where the crape myrtle had no fixed fire.

With his thoughts, the shape of the pill furnace suddenly changed slightly, and it looked more solid.

At the same time, the temperature of the furnace has also become the most suitable level for processing passion orchid leaves and fruits.

Immediately afterwards, under the gaze of more than 600 pairs of eyes, Su Lang put the concoction of the passion orchid leaf and fruit into the pill furnace.

#### [Chapter 273: The skin is thicker than the crust](#)

"Destroy! Destroy!"

"It will fail, definitely!"

"With the power of the generals to simulate the pill furnace, this pill furnace is definitely not suitable for alchemy, this step will definitely fail!"

"..."

Everyone stared at the pill furnace intently, screaming in their hearts.

However, no matter how loudly they scream, it has no effect.

After the concoction of the passion orchid leaf fruit entered the pill furnace, instead of being destroyed, it quickly entered the best state of purification.

This scene immediately raised the hearts of more than 600 people at the same time!

"Gooooo!"

Someone swallowed nervously, "This guy's condensed pill furnace can actually be used?"

"No... how could he do it!?"

Someone's pupils diminished, and the excitement in his heart was cut by half.

"He's just a military commander!"

Someone squeezed their fists to expose their veins, "How can it be possible to separate the mind to deal with the liquid medicine and to separate the mind to condense the pill furnace?"

"No, no, this is just the beginning!"

Someone clenched their teeth and cursed Su Lang continuously, "He will definitely fail! He will definitely fail, he must..."

The atmosphere in the assessment hall became serious, and it seemed that even the temperature had dropped a bit.

And at this moment.

"Everyone listen to me!"

Li Ming waved his hand and said loudly, "Now that Su Lang is making alchemy, we have nothing to do, so let's discuss the alchemy and share our experience!"

Everyone was taken aback as soon as this remark

—This is so special, everyone is worried, where is the mood to exchange Dandao?

But without waiting for them to question, something shocking happened—

I saw Li Ming turned around and bowed his hand to Wan Hong, and said in a loud voice: "Senior Wanhong! I have encountered a very, very difficult knowledge point. Please also ask the seniors to clarify!"

This voice was so loud, it was almost roaring!

"Oh! If you have any questions, you can speak up!"

Wan Hong rolled his eyes and replied in a super loud voice, "I will spare no effort to answer for you!"

So the two began to 'exchange the alchemy experience', and the sound was as loud as a high-power subwoofer!

Seeing this scene, everyone was stunned, and at the same time they suddenly realized that their eyes gradually glowed.

"Noisy! This is... interfering with Su Lang's alchemy!"

"Eh, what and what? This is a normal communication experience!"

"Yes, yes, this is the exchange experience, classmate, I have a problem in alchemy here that I want to discuss with you!"

"I also happen to have a problem that has been backlogged for many years. Come on, let's have a chat!"

"..."

More than six hundred people spoke up one after another, and started a huge-scale exchange meeting in a 'roar' way!

You know, these are all veteran students, and the lowest is the military commander level!

More than 600 mouths above the rank of generals fired at the same time, and some people also used spiritual power, and the sound almost overturned the ceiling of the assessment hall!

The whole assessment hall was full of noisy, noisy, no one could not understand who was talking!

Amidst this extremely noisy sound, some of the weaker students were a little confused!

Everyone was arguing while looking at Su Lang who was doing alchemy.

A sneer appeared in everyone's hearts: "Hmph, it depends on how you make alchemy!"

"Tsk tusk, this face is thicker than the earth's crust, I really saw it today!"

In the center of the crowd, Su Lang raised his eyebrows, showing a trace of contempt in the face of the people's arrogance.

Not to mention that his true combat power has reached the level of King Wu or even quasi-Martial Emperor, it is easy to isolate everyone's voice.

Even if the people's voices are not isolated, this interference is useless to Su Lang!

He is the top Danzun. If the refining of a small 8th-order pill will be disturbed, then just take a piece of tofu and kill him.

"A group of beam jumping clowns, go ahead and perform, I happen to find it too boring!"

Su Lang looked around the people contemptuously, and then took the processed passion orchid leaf and fruit concoction from the Lagerstroemia Wuding Fire Pill furnace.

#### [Chapter 274: This Su Lang is so powerful](#)

When everyone saw that Su Lang had processed the first material, their hearts sank.

Even the noisy sound was quiet for an instant!

However, only a short time later, more than 600 people took a breath and increased their voices again!

In an instant, the air in the assessment hall began to vibrate visible to the naked eye.

Some students even felt that their hair was shaking!

This shows how huge and chaotic the sound in the assessment hall is!

"Lie noisy, so shameless? You almost attacked me blatantly!"

Su Lang rolled his eyes and scanned the students, his eyes filled with surprise and contempt.

More than 600 people turned a blind eye to Su Lang's contempt.

Although they blushed a bit, it was a matter of winning or losing their net worth. They had to bite the bullet and shamelessly!

"Oh, what's the use of struggling like this?"

"Lost face, don't you have to lose in the end?"

"It's better to hand over the spirit stone to me generously, and then leave in a cool manner."

With a ridiculous sigh, Su Lang began to process the second material.

Seeing that Su Lang had made a new move, Wan Hong and the others stared attentively again.

The scene that happened immediately made their hearts cool again!

I saw that Su Lang was unaffected by such a huge disturbance, and he didn't even wrinkle his brows!

However, everyone still did not give up.

Some people even start to use some small tricks

——For example, some sonic techniques are used to impose greater interference on Su Lang!

This is already an attack!

"There is no bottom line!"

Su Lang frowned and continued to process the material liquid medicine.

Seeing the change in Su Lang's expression, the stones in everyone's hearts were slightly put down, and a sneer appeared on their faces.

However, soon their sneers disappeared again.

Because Su Lang successfully processed the liquid medicine of the second material!

This made everyone's eyes widened in disbelief.

"Made, how can this guy manage the materials successfully in this situation?"

"Yes, in such a noisy environment, even with a regular furnace, I can't handle materials..."

"To what extent has this guy's alchemy attained?"

"..."

The mood of the people fell again, and horror and fear crawled into their hearts, making them cold all over, and their voices were much smaller.

At this time, Su Lang began to process the remaining materials.

He speeded up a little bit and finished the third material in no time.

Seeing this scene, the sound in the assessment hall became smaller again, and there was a tendency to 'extinguish'.

"This Su Lang's mind is so firm!?"

Li Ming's face was sinking, "No, he can handle materials under interference.

If everyone gave up this strategy, wouldn't Su Lang be even more comfortable? "

Thinking of this, he immediately increased his voice, Wan Hong's expression changed, and he increased his voice to cooperate.

More than 600 students understood, resisted the horror in their hearts, and continued to disturb Su Lang with the loudest voice.

However, in the next period of time, their horror became more and more unbearable!

Because Su Lang has successfully processed all the materials a second time!

Moreover, because the pill furnace is the agglomeration of the Lagerstroemia infinite fire, he skipped the furnace step and entered the third step!

"This, this! This Su Lang is so powerful!?"

"Successfully process all materials with a simulated pill furnace. Is this what he can do at his level?"

"He has started alchemy, don't stop everyone, continue to communicate!"

"..."

Everyone was horrified, while continuing to communicate.

They haven't given up yet, because alchemy and condensation are the most difficult!

However, everyone could not imagine that whether it was handling materials or refining pills and condensing pills, it was as easy as breathing for Su Lang.

He slowly refined the pill.

In the translucent pill furnace, the medicinal liquids fuse together and interact with each other to form a crystal clear green pill liquid.

Seeing this, Su Lang had already refined the pill.

The horrified students stared and opened their mouths wide, and many people could no longer maintain that noisy discussion.

The assessment hall suddenly became quieter.

[Chapter 275: My patience has run out](#)

"Gosh, he has refined the pill!"

"It's horrifying enough to process the materials with a simulated pill furnace. He also refined the pill liquid!"

"It's over, I'm afraid this guy can really make a pill!"

"No! We haven't lost yet, he can't practice the pill!"

"Yes, yes, even if it is refined, it must be top grade. He can't do it!"

"Stay steady, we will win!"

"..."

Everyone talked in a panic, temporarily stabilizing their minds.

At this moment, Su Lang started the final step-condensing pills!

For others, this step should be done cautiously.

But for Su Lang, it was a matter of turning around the furnace.

With a flick of his finger, the flame pill furnace turned quickly.

At the same time, the temperature of the Lagerstroemia unfixed fire began to rise under Su Lang's control, and finally stopped at the most suitable level for condensing pills.

After ten seconds, the liquid medicine in the translucent pill furnace concentrated and condensed, forming a pill pill in the middle of the pill furnace.

"Scatter!"

Su Lang thought, the pill furnace condensed by Ziwei's indefinite fire collapsed in an instant, and a top grade five element complex spirit profound pill fell on the ground.

Seeing the pill that fell on the ground, everyone was dumbfounded and their faces were dull.

"It's refined!"

"He actually refined the five elements complex spirit profound pill!"

"Alchemy without furnace... Alchemy without furnace... God, this is not true!"

"My eyes must be broken, maybe he used some weird illusion!"

"..."

Some people rub their eyes, hoping that what they see is fake.

Some people pinched themselves violently, hoping they were dreaming.

Many more people fell into sluggishness, with unconscious murmurs in their mouths.

at this time.

"I have refined the pill, and it is furnaceless!"

Su Lang stood up, looked around faintly, and said with a smile: "All the processes are exposed under your noses, all the garbage here, what else can you say?"

As soon as this statement came out, everyone was shocked, and the rebuttal was held in their hearts, unable to speak.

However, of course there are people who do not give up.

Four fools of Xishan and the others were among them. How could they, who had crushed 18 million middle-grade spirit stones, give up like this?

"Su Lang!"

"Even if you refine the pill, you don't necessarily win!"

"Don't forget, the pill you refine must be a top-grade pill, otherwise we will still win."

"..."

Xishan four foolishly spoke, and immediately received a lot of support.

Everyone shouted loudly, constantly emphasizing the quality of the pill.

"whispering sound!"

"What I refined is really not a top-grade pill!"

Su Lang's disdainful voice spread throughout the assessment hall, "Because what I refined is the best medicine!"

As soon as he finished speaking, the examination hall quieted down, almost audible.

The next moment, Li Ming took a step forward, and was the first to ridicule: "Su Lang, are you really good at talking!"

You have a crape myrtle without a fixed fire, and you can simulate a pill furnace to make alchemy without a furnace.

But it would be an exaggeration to say that you can refine the best pill!

The pill that you refined with a regular pill furnace before is also the best pill.

In the case of no furnace alchemy, how can you refine the same quality pill? "

"Hehe, that's because when I competed with you, I didn't use all my strength."

"In addition, when you say this, you admit that I made the first pill by myself?"

A hint of sarcasm was outlined at the corner of Su Lang's mouth, "Tsk tsk, you slap yourself in the face, it's really loud!"

"you!!"

Li Ming was embarrassed and angry, his face blushed, and he tremblingly pointed at Su Lang, but could not say anything to refute.

"Without further ado."

Wan Hong stepped forward and said sharply: "The quality of a pill is not told by the mouth."

"Hehe, in that case, check it out!"

Su Lang sneered, pointing to the pill on the ground and said, "I haven't touched this pill from beginning to end, so don't tell me that I'm stealing it.

In addition, don't play tricks when you check, my patience has been exhausted, dare to use small tricks, you will know the consequences. "

[Chapter 276: None of them can escape!](#)

"Humph!"

"As a staff member of the assessment hall, how can I resort to fraud?"

Wan Hong spoke shamelessly and came to the pill.

To be honest, because Su Lang looked confident, he was very worried at this time.

Although Wan Hong really didn't believe that Su Lang could refine the best pill, what if?

After all, Su Lang has created so many miraculous things one after another!

"Hi...who-!"

Taking a deep breath, Wan Hong squatted down, his eyes condensed, and carefully checked the pill.

However, he only took a look, and the whole person froze there!

Li Ming, the Fourth Young Master Xishan and the others saw him look stiff, his pupils contracted suddenly, and his body suddenly tightened, and a heart touched his throat!

"What happened to Senior Wan Hong?"

"Why is he frozen there?"

"Look at his look... Could it be that Su Lang's refining is really the best medicine?"

"..."

Everyone talked in low voices, everyone's voice was trembling, and their faces were full of panic.  
at this time.

"Extremely...excellent pill!"

Wan Hong whispered in disbelief, his figure softened and he sat down on the ground!

Over 600 people watched this scene, and the last fluke and hope in their hearts shattered instantly!

The entire assessment hall was completely silent, and the heart of every student could be described as a stormy sea, and the sky was broken!

They were really shocked to the point of doubting life.

Alchemy without a furnace is an incredible thing.

And Su Lang, under their interference in every way, actually refined the pill, which is even more incredible!

The most terrifying thing is that what he refined was actually an elixir of top quality!

You know, Su Lang is less than twenty years old, he has just entered Xuanyuan Martial Arts Academy.

At such an age, he has completed the miracle of furnaceless refining of the best medicine pill. This talent is simply guarded!

Seeing Su Lang standing quietly in place, everyone was full of fear, despair, low self-esteem and regret.

Compared with Su Lang's talents against the sky, these people are simply \*\*\*\* to the extreme. How can this make them not feel inferior?

Su Lang has such a terrifying talent, and the future achievements are absolutely limitless. How can they not be afraid of despair?

At this time, they not only lost a lot of spirit stones, but also offended a genius like Su Lang, how could they not regret it?

"It's over...today's affairs spread, and Su Langdan's Taoist genius will spread throughout the academy!"

"Even if he doesn't care about us, there are many people who deal with me in order to please him!"

Li Ming was trembling, and his gaze at Su Lang no longer had contempt, but was full of fear and pleading.

Not only Li Ming, but platinum student Wan Hong was also chilling like falling into an ice cave.

"Tsk tut!"

"Aren't you a Su Lang child?"

"Didn't you say that I cheated? Didn't you mean that I went to the back door to eat soft food?"

"Isn't it saying that I'm not ashamed? Isn't it that I'm sure to lose?"

Seeing more than 600 people who were silent, Su Lang sneered, "Why don't you speak anymore?"

No one answered, they dare not answer!

"Humph!"

"Isn't it a lot of noise before?"

"One by one condescendingly despise me, belittle me and ridicule me! Why are they all persuaded now?"

"Aren't your faces as thick as the crust of the earth? Come on, continue targeting me!"

Su Lang held his head high, his eyes full of irony slowly swept over everyone.

All those who were seen by Su Lang's eyes trembled all over, and then lowered their heads tremblingly.

"Su...Su Lang..."

Wan Hong plucked up the courage and said, "You have won, and we will give you the spirit stone, why be aggressive?"

"Ha ha!"

"Betting is one thing, it's another thing for you to insult me against me!"

"Think about your disgusting faces before, think about it in another way, can you swallow this breath?"

Su Lang's eyes flashed with cold light, and his face sneered again and again, "If you can't satisfy me with today's affairs, I can guarantee that you will live better than die in the next half of your life!"

As soon as this remark came out, everyone felt terrified!

You know, all their names are recorded in that jade slip.

If Su Lang wants revenge, none of them can escape!

### [Chapter 277: Sorry Su Lang, I was wrong!](#)

Seeing Su Lang who looked calm, everyone felt cold.

They knew that if Su Lang was not allowed to breathe out today, the rest of his life would definitely be miserable!

"Su Lang..."

Wan Hong stepped forward and said in a low voice, "Before we had something wrong, what do you want, just say it!"

"What do I want?"

"You have humiliated me many times, and I must slap you in the face severely to vent my anger!"

"However, the faces of you people are so dirty that I can't do it."

Su Lang looked around more than 600 people and sneered, "So, I want each of you to slap yourself three times and apologize to me!"

As soon as his voice fell, the expressions of more than 600 people including Wan Hong Li Ming changed drastically.

You know, they are top geniuses everywhere, and they are students of Xuanyuan Wudao Academy.

If they really slap themselves in the face, it will become a shame and stain in their lives!

And this will cause a great blow to their beliefs, maybe it's not necessarily even if they fail to recover!

"Su Lang!"

"Don't go too far!"

Li Ming's face was green, gritted his teeth, "It's okay to apologize, but it's impossible to slap yourself three times!"

"Not bad!"

"Su Lang, you are too unreasonable."

"We have more than 600 tianjiao here, and the future achievements are also not small."

One of the Four Young Masters of Xishan came out and said inwardly, "So I advise you not to do things too terribly!"

"Ha ha!"

"Even you are considered Tianjiao? It's just a bunch of rubbish!"

"Especially you Xishan four silly, even more \*\*\*\* among rubbish!"

Looking at the Fourth Young Master of Xishan, Su Lang sneered disdainfully, "Now you are no match for me, and you will not even have the qualifications to talk to me in the future!"

As soon as this statement came out, there was a buzzing voice in the assessment hall.

Everyone was filled with indignation, but they couldn't refute it.

Su Lang's talent is really too strong.

They know that as time goes by, the gap between themselves and Su Lang will get bigger and bigger!

In the end, Su Lang is the sun in the sky, but they are just fireflies on the ground...

"Su Lang."

"Are you really going to tear your skin with us?"

Wan Hong's face was blue and red, "It's better to step back and change the conditions!"

"Hey, we've been torn apart a long time ago. Let's change the terms? No!"

"I don't have time to talk nonsense with you. Those who are willing to apologize to me, come up and apologize, then pay the bet, and you can leave by yourself."

"I only give you one hour, beyond this time, anyone who did not apologize to me will become my mortal enemy!"

Su Lang looked at more than six hundred people coldly, without any fear!

"you!"

Li Ming's temples throbbed with blue veins, and his body trembled.

"What are you?"

"Now the timing begins!"

Su Lang looked at Li Ming coldly, "Whether to apologize or not, you decide for yourself."

As soon as his voice fell, the atmosphere in the assessment hall suddenly dropped to a freezing point.

Almost all of the more than 600 students fell silent.

If you apologize, you will be ashamed and faceless.

If he doesn't apologize, he and Su Lang will have a mortal feud. In the days to come, thinking about it will be miserable!

How to choose?

Just when everyone was silent.

A thin male student blushed and squeezed out of the crowd and came to Su Lang.

"Su Lang, I'm sorry, I was wrong!"

The male student bowed and apologized in full view.

Immediately afterwards, he raised his hand and slapped his face fiercely!

"Slap! Slap! Slap—!!!"

Loud slaps spread throughout the assessment hall and broke through the psychological defenses of many students.

"Oh, I still have to apologize after all."

"A genius like Su Lang can't afford to offend him, face and Yu Sheng, so choose Yu Sheng..."

"Let's go... let's go... I apologized earlier and made Su Lang angry, and the matter was over."

"..."

Hundreds of students looked dim and walked towards Su Lang like a \*\*\*\*\* that was defeated in a fight.

Seeing this scene, Wan Hong Li Ming, Xishan Fourth Young Master and others looked pale and desperate.

Before there were so many people, they dared to negotiate terms with Su Lang.

At this time, most people chose to apologize, which completely lost their support!

#### [Chapter 278: Lined up to slap an apology!](#)

When many students walked towards Su Lang.

The first student to apologize slapped his face, and his entire face became swollen, showing that gravity was falling.

"Well, a little sincere."

Su Lang smiled faintly, stretched out his hand and said, "Name, Lingshi, we will clear up our grievances when we finish."

"Yes... my name is Chen Quandan."

"I placed a bet of 200,000 middle-grade spirit stones, and they are all here."

With his swollen cheeks and enduring the shame in his heart, the male student took out a bag and handed it to Su Lang.

"Chen Quandan? I'm looking for it, oh here."

Su Lang counted the Lingshi, then took out the jade slip and looked at it, and found Chen Quandan's name.

"You did place a bet of 200,000 middle-grade spirit stones, and the number of spirit stones you gave is correct."

After checking, Su Lang smiled and said, "So, you can go, and you don't have to worry about my revenge."

"Yes, thanks...thank you..."

Hearing that Su Lang would not retaliate again, Chen Quandan breathed a sigh of relief, unexpectedly thanking Su Lang involuntarily.

Immediately, he came back to his senses and ran out of the assessment hall with a flushed face.

"Okay, next one!"

"Pay attention to the time, I only give you one hour."

Seeing the extra 200,000 middle-grade spirit stones in the storage space, Su Lang smiled, beckoning and shouting to the other students.

And his action immediately made everyone more humiliated and weeping.

However, since they are determined to apologize, they can only endure the shame and speed up their pace!

Hundreds of people hurriedly came to Su Lang, and they were surrounded by Su Lang.

"Come slowly and don't worry!"

"Don't panic and slap yourself, I didn't see that it doesn't count!"

"Hey, why are you so unqualified? Don't you know the line? Line up and divide into four teams!"

Seeing the blushing crowd around him, Su Lang laughed wildly in his heart.

Immediately afterwards, the students lined up in disgrace, slapped their bows left and right in front of Su Lang, and slapped themselves fiercely!

"Fuck!"

"Flap! Flap!"

"Flap! Flap—!"

"..."

The slapped sounds of various rhythms spread throughout the assessment hall, and Su Lang was refreshed.

Immediately afterwards, the students who had slapped the face again gave Su Lang the betting spirit stone, which made him smile.

Seeing Su Lang who was happy and smiling, the students sighed with mixed feelings.

However, sighing and sighing, the slap is still needed.

In the following time, more than 600 students lined up in five teams, one by one, came to Su Lang to apologize.

In order to leave this sad place early, they moved quickly

——Go forward and slap in the face, give the name, make a bet in one go, then leave quickly and disappear.

After a short while, more than 600 students all apologized.

However, there are still people who have not apologized to Su Lang!

The Fourth Young Master of Xishan and eight others, Wan Hong and Li Ming!

"You guys, are you planning to forge a death feud with me?"

Looking at the ten people whose expressions changed, Su Lang twitched his mouth, revealing a sneer.

"Humph!"

"You are just a gift for alchemy."

"We Xishan's four big families are the top forces in Blue Star City. Even if you have enemies, what can you do?"

"That is, our Patriarch is one of the top families in the entire Blue Star. You will only join other big forces in the future. We will be afraid of you? A joke!"

"..."

The Fourth Young Master Xishan waited for you to say something to me, speaking in a stern and stern voice.

Platinum students Wan Hong and Li Ming looked at each other and walked into the team of the Fourth Young Master of Xishan, glaring at Su Lang together.

It is also ridiculous.

Before these two people continued to mock and despise potential students in the special class, they were now hiding behind the Fourth Young Master Xishan and others.

"If this is the case, then we will have a vengeance."

"You Xishan four big families, I will personally visit them!"

"What you owe me today, I will make you double the return!"

Su Lang smiled faintly, as if he had made a trivial decision.

"Don't be ashamed!"

"Just you, dare to go to our four Xishan families to make trouble?"

"Hmph, let him come, as long as he dares to come, let him taste our methods!"

"..."

The Fourth Young Master Xishan and others showed disdain and sneered.

"Hehe, I hope your methods can be fresher."

Su Lang glanced faintly at Xishan Si, then turned his gaze and fell on Wan Hong.

His biggest purpose in coming here to assess the hall has not yet been completed!

[Chapter 279: Two hundred and twenty million middle-grade spirit stones!](#)

"Wan Hong, right?"

"Li Ming, this \*\*\*\* was defeated by my hands."

"Should you give me the golden student badge?"

Su Lang didn't care that Li Ming was so angry that his cheeks burst into smoke, and he spoke without hesitation.

"Humph!"

"It's for you!"

Wan Hong snorted coldly, took out the letter jade card and sent the message, and continued, "You go to the hall window to collect it yourself, we won't be accompanied!"

"It just so happens, I don't want to go with your trash!"

Su Lang curled his mouth in disdain, turned and left the examination hall.

"Country boy, let's wait and see!"

Seeing Su Lang leaving from the back, the Fourth Young Master Xishan, Wan Hong and others clenched their fists, their teeth tickling with hatred!

...

After leaving the assessment hall, Su Lang found the window to receive the badge.

Because gold badges require real names, they are all made on the spot, and you need to wait a little bit.

About ten minutes later, Su Lang got his golden badge.

This badge is about the same size as the potential badge.

But no matter the texture, shape or pattern are higher than one level.

On the front of the gold badge, the four characters "Golden Cadet" are written, and the back of it is written "Danmen·Sulang".

"Hey!"

"Now you can go to the alchemy building to make a lot of money!"

"However, I also made a lot of money in this bet, and it is estimated that I can upgrade the system functions!"

While walking outside the assessment hall, Su Lang cast his gaze into the storage space.

More than 600 students, on average, each bet more than 200,000 middle-grade spirit stones, the total number has exceeded 100 million middle-grade spirit stones!

One hundred million middle-grade spirit stones, that is, 1 million high-grade spirit stones, can already upgrade system functions!

"System, deposit all gold coins and spirit stones!"

"Ding! All gold coins and spirit stones have been deposited!"

As the system prompt came, in the mysterious black space, the number behind the balance of the middle-grade spirit stone soared, directly reaching the terrifying 9-digit number-226688745!

"Like! I have so many spirit stones?"

Su Lang was stunned with excitement, "This is so much more than 220 million middle-grade spirit stones!"

With strong excitement, Su Lang recalled the source of these spirit stones.

First of all, more than 600 people bet a total of more than 130 million middle-grade spirit stones.

Secondly, Ou Wenyao provided more than 40 million middle-grade spirit stones, and the fair sold more than 10 million.

Finally, adding the remaining spirit stones before, it is almost 200 million!

"Tsk tusk, I didn't expect it to be so developed unconsciously!"

Su Lang rubbed his hands excitedly, "So, which system function should I upgrade?"

Thinking of this, Su Lang was a little tangled.

A total of five system functions are now activated.

They are one-key training function (level 11), one-key training function (level 11), clone dispatch function (level 10), one-key treasure hunt function (level 10), and one-key alchemy function (level 8)

Each system function upgrade needs to consume 100 million middle-grade spirit stones.

"The funds consumed are 100 million middle-grade spirit stones. I can upgrade two system functions."

After thinking about it, Su Lang made a decision, "Then, upgrade the most basic one-key practice function and one-key alchemy function!"

Let's not talk about one-click training, the most basic and important function, the first upgrade!

The reason for choosing one-key alchemy among the remaining functions is because this function is upgraded to level 10, and you can get the activation authority of the one-key mixer function!

"System, upgrade me the one-key practice function and one-key alchemy function!" Su Lang ordered.

"Ding! The amount of funds currently consumed to upgrade the system is too large, and the current unit 'medium-grade spirit stone' has been replaced with 'high-grade spirit stone'!"

"Ding! Consume 1 million high-grade spirit stones, upgrade the one-key training function to level 12, and increase the training speed to 5096 times the basic speed!"

"Ding! Consuming 1 million high-grade spirit stones, the one-key alchemy function has been upgraded to level 9, which can refine elixir of the gods and below!"

With the function of the three-way system, Su Lang's face was suddenly covered with a bright smile.

And at this moment.

"Ding! The sea of repair is full, do you break through?"

[Chapter 280: The realm of senior generals!](#)

"My fork, I can break through again!"

Su Lang, who was already extremely excited, was suddenly shocked!

Immediately afterwards, he immediately chose to break through!

In the next millisecond, Su Lang uploaded a huge suction.

If the strong spiritual energy around was torn away by big hands frantically, it poured into Su Lang's body.

These flood-like auras continue to circulate in the meridians, then rush into the dantian and merge into the spiritual fluid vortex.

In a short period of time, the spiritual liquid vortex became thicker!

"Wait for the spiritual liquid vortex to condense into a solid state to the extreme, that's when I break through to the military commander!"

Su Lang's eyes gleamed, and he immediately called up his attribute panel.

"Properties panel!"

"The attack state has finally reached the elementary Wu Huang!"

"There is no need to swallow the hole card of the clone, my combat power has also crossed three full realms, hahaha!"

Looking at his attribute panel, Su Lang laughed with excitement!

After a long time, he suppressed his excitement and calmed down.

"By the way, it's been so long, and I don't know how long it will take for spiritual power to be promoted."

"Furthermore, the three top-level exercises have been practised for so long, so let's see how much time is needed."

"By the way, let's see how long it will take before the next breakthrough in cultivation level."

Thinking of this, Su Lang immediately raised his own question to the system.

"Ding! Host, your mental power level can be raised to the Nianhai realm in just 14 days!"

"Ding! Host, it takes 12 hours to reach the Consummation level with three top-level exercises!"

"Ding! Host, you only need 48 hours to break through to the pinnacle general level!"

"The exercises will take half a day, not long."

"It doesn't take long for the cultivation level to improve."

"It's a spiritual level... At the speed of level 12 one-key training 5096 times faster, it will take 14 days!"

Su Lang's brows frowned slightly, "It seems that if you want to raise your mental power level as soon as possible, you still have to rely on pill!"

So he immediately put his gaze into the storage space.

The original materials for refining spiritual pill were all from the major pill shops in Eastern City, and they were all consumed by Su Lang.

But after beheading Owen Yao, this Dan Huang collection for hundreds of years is all cheaper than Su Lang!

"As a pill emperor, you must have a lot of materials that can refine mental pill!"

Su Lang's thoughts swept back and forth in the storage space, but the final result made him frown.

Among the alchemy materials harvested from Ou Wenyao, there is no material for refining spiritual pill!

"Oh, it must have been used up by Owen Yao long ago."

Su Lang shook his head disappointedly.

He also knows that he wants to improve his mental power, and other people must also want to improve his mental power.

Moreover, the Wang-level spirit pill are so rare.

The emperor's spiritual pill is definitely more rare, and the materials are even scarcer, maybe Ou Wenyao himself is not enough.

"Forget it."

"There are always materials in the alchemy building that can refine mental pill."

"After a while, I will upgrade the student's level, and then go to buy advanced materials."

"If it doesn't, just go out of the city to buy it. It happens that there are still a lot of things to sell in the storage space."

"..."

While thinking about it, Su Lang returned to the alchemy building in Shaoxuan Mountain.
