[Chapter 2721: The trump card flipped](#)

"Humph!"

"Small bugs, dare to use them!"

Su Lang smiled coldly, and a faint light appeared on his body.

He practices too many exercises!

Defensive techniques against soul attacks are 90 million without 100 million!

Under the function of the source of the exercises, these exercises are all elevated to the eternal state.

Under the action of the unity of ten thousand laws, all of them are coordinated together to form an extremely powerful soul defense method.

and.

The eight-sided shield also has soul protection capabilities, and any attack can rebound 80% of its power.

Coupled with the secret of words and words to mobilize the power of the natural universe...

All kinds of defense methods have protected Su Lang strictly!

Silently.

Part of the power of Tan Ling was consumed, and part of it was bounced off by the eight-sided shield of the sky, killing the ancestor Suiyou.

"Scatter!"

The old ancestor Sui You's expression condensed, and he will be dispersed by the rebounding power of the ghost.

His pupils became more dignified, and his heart was so gloomy and cold as a pool of water!

Su Lang's difficulty was greater than he expected!

but.

He still firmly believed that Su Lang was promoted by the secret technique and could never last for too long!

at this time.

"Old thief Si Kouyun."

"Don't struggle, in front of me, you have no chance to win!"

Su Lang's sneer spread throughout the cosmic void hundreds of thousands of light-years away.

at the same time!

Countless golden light bursts, filling the entire battlefield!

Inside, a series of invisible fluctuations are hidden inside, this is the power of Jinghuashuiyue!

The sword light, which was displayed with the profound meaning of the world's nirvana, roared out like a white dragon in the golden light, and the surrounding eight black jade dragons followed!

This is another attack that Su Lang is doing his best!

"[Suiyou·Yanling]!"

"[Suiyou·Zhou Xuan]!"

"[Suiyou·Zhou Punishment]!"

"[Suiyou·Zhou Yi]!"

"..."

Old Ancestor Suiyou's expression was gloomy, his eyes were cold, and he didn't know how many methods broke out in an instant!

And his various methods are mainly defensive and fighting.

The only few attacks are also the number of ways to use offense instead of defense.

Obviously, he still wants to fight the war of attrition, to kill Su Lang!

"I have said it, the war of attrition is useless!"

Su Lang sneered in his heart, as countless pills were crazily digested in his body, and the sword of life was cut down again.

Spiritually.

The ancestor Suiyou used the secret technique "Zhou Yi" of escape.

If he doesn't move, it's as if the entire universe including Su Lang has changed!

Although the scope of this "universal shift" is not large.

But the ancestor Suiyou successfully avoided the attack of the eight black jade chains.

however!

The broken sword sword light followed like a shadow, stabbing Sui You's ancestor fiercely!

"How can it be!"

"The long sword has other characteristics besides its power far surpassing the same level! This is... a hit!?"

The ancestor Suiyou's eyes burst into violent horror, and he immediately mobilized all defense secrets to resist the attack of Po Yijian!

However, countless colorful silk threads emerged from him, once again forming a seemingly fragile cloth.

Obviously!

He once again used the "Final Defense" that damaged the defense of the imperial soldiers!

The colorful cloth unfolded, and countless silk threads fluttered, blocking the infinite golden light and Po Yijian.

boom!

The sword light of the broken sword once again collided with the colorful cloth of the old ancestor Suiyou, bursting out a terrible aftermath of the battle that destroyed a large number of star fields!

Hit the center.

Jianguang and the colorful cloth are deadlocked again, consuming each other!

But just when Old Ancestor Suiyou thought he was blocking this attack.

A colorful light suddenly appeared in the golden light!

This colorful light is the secret attack of the Qibao Miaoshu, almost exactly the same as the colorful cloth of Suiyou ancestor, it is hard to detect!

The ancestor Sui You found something wrong at the moment of his death!

The colorful cloth shrouded in the light of the Seven Treasure Tree will immediately revoke the defense!

"Defensive at the end! The power of deceiving spirits!"

The old ancestor Suiyou reapplied the old technique, and the two secret techniques erupted together. It was dangerous and dangerous to stabilize the colorful cloth!

but!

In Su Lang's attack this time, there were also the "Power of Bright Light" and the "Power of Mirror Flower, Water and Moon"!

These two kinds of attacks have extremely perverted assimilation and confusing abilities respectively!

When the light of Qibao Miaoshu was frustrated, the two attack effects worked together!

Suddenly!

The colorful cloth, which was kept sober by Suiyou ancestor, directly revoked the defense method!

[Chapter 2722: A thoroughly fierce battle](#)

"How can it be!!!"

"The guardian robe, blow me up!"

Seeing that his defensive emperor soldier had withdrawn his defense, the ancestor Sui You was about to be killed in the next moment, and for the first time appeared a frightened look in his eyes!

He immediately detonated the eternal emperor soldier and activated a stronger self-harming secret technique

——"[Suiyou·Ranyuan]!!!"

Suddenly, an even more terrifying aura erupted from the ancestor Sui You, who directly rose to a level, reaching the top level of the Eight Universes!

at the same time!

More magical power is shrouded in colorful cloth!

The powers of the Seven Treasure Tree, Mingguang World and Jinghua Shuiyue are temporarily invalid!

Rumble!

Colorful Cloth got the opportunity, and he was loyal and he blew himself up for Suiyou ancestor without hesitation!

Instant time!

Another aftermath of the battle that shook the universe broke out, shredding all the surrounding time and space!

The sword light broke a sword, and it was gradually consumed in that vast power.

"Su Lang child!"

"Die to me!"

The ancestor Suiyou's eyes were about to split, and his expression was terrifying. He didn't even run away anymore, but fiercely slammed the Boundless Ship controlled by Su Lang!

Although at this moment the breath of the Boundless has been restored to its peak.

But in the eyes of the ancestor Suiyou, the other party could not be recovering!

Now, it's time to decide the winner with one blow!

However, an offensive weapon finally appeared in the hands of Old Ancestor Suiyou!

It was a long spear, black like a spear entangled by withered tree roots, and its level was impressively the Seven Eternal Realm!

"Suiyou-Zhou Mee!"

"Suiyou Huanyu!"

"..."

The old ancestor Suiyou, holding a spear, directly launched various attacking secret techniques and stab Su Lang fiercely.

Wherever it passes, all existence is directly annihilated!

Even the star field a million light years away was shaken into countless powder!

The entire Suiyou Universe seemed to be torn in half by his shot!

"Are you an attack at the top level of the Eight Eternal Realm!"

"In this case, death and resurrection, there is the secret of life but not life..."

Su Lang narrowed his eyes slightly, and also displayed various self-harming secret techniques that he hadn't used before!

That is to say, "The Secret of Death Without Life" was not performed, and the rest of the secret arts were all unfolded!

Not only that!

In the boundless number.

Su Lang's major stars Cuanyunhe clone, Yu Yangli, Xiuning, Xie Xuan, and all the eternal powerhouses, all performed terrifying self-harm secret techniques!

As long as you use the secret technique that can't be killed, use it all!

While performing the secret technique, they crazily stuffed pills in their mouths.

These perfect quality eternal realm restoration healing pills are now just when they come in handy.

With everyone working together.

The breath of Boundless is soaring!

Also from the advanced level of the Eight Universe Eternal Realm, directly skyrocketed to the top level!

"The world is dying, breaking a sword!"

Su Lang raised his hands and slashed fiercely, and the giant planet-like Infinity made synchronized movements.

The Youtian Sword like the Milky Way of the Sky Waterfall was held in his hand, and he severely smashed the killed Suiyou Ancestor!

Sneer--! !

A fissure that tore through infinite time and space spread, and the white sword light fiercely killed the ancestor Suiyou!

Su Lang's broken sword, the spear of the old ancestor Su Lang, are like two fierce giant dragons tearing apart in the time and space of the universe, and they collided together in an instant!

"Boom!"

An unprecedented shock wave swept through countless light years!

The surrounding time and space are all shattered like lenses, spreading directly to the end of the spiritual mind!

I don't know how many billion light-years of the universe are directly destroyed, and the star fields that are annihilated are countless.

It's just that the creatures in these star territories have long been captured by Sui You Ancestor and used them as tools to provide humanity, and there is nothing to lose.

At this moment.

In the middle of the collision between Po Yijian and Suiyou ancestor's spear, there was even an unusual white light that made Su Lang feel frightened!

As this white light flashed.

Whether it was Po Yijian or Suiyou's ancestor's spear, many were annihilated!

at the same time.

In this same level of attack, Po Yijian possesses the characteristics of restraining everything, and has the upper hand!

[Chapter 2723: Let you see what is lasting](#)

Chichi Chichi Chichi!

The weird fluctuations spread from where the sword light and the spear collided.

All around, in the chaotic battlefield of time and space destruction, countless spatial rhythms waded in disorder, like the palm of a dying person struggling!

If you change to a normal early powerhouse, you will be unable to withstand damage from the environment, and will gradually weaken and fall.

The eternal strong man who has mastered the avenue of time and space can survive in this environment because he is independent of the natural universe.

Broken time and space.

The ancestor Sui You was holding a spear, trembling all over, and the panic in his eyes became more intense!

"How can it be!"

"How could it be so strong!"

"Even if you are the descendant of the Nine Universes, you can't be so strong. This is only one step away from the Nine Universes!"

"..."

Old Ancestor Sui You closed her shrunken mouth tightly, but couldn't help but scream in disbelief.

Perceiving the sword light that completely restrained his eternal spear and eternal magical powers, a strong sense of crisis appeared in the heart of Suiyou ancestor!

For countless years.

Only the end of his life can make him feel critical.

In addition, no one in the entire Suiyou universe, or even some of the surrounding universe, could make him feel this way.

And now!

Su Lang, a younger generation, actually caused a fatal threat to him!

"Damn it!"

"Su Lang, you chop, our company Kou Yun is invincible throughout his life, and it is impossible to lose to your hands!"

"[Suiyou·Autophagy]!!!"

The ancestor Suiyou shuddered fiercely, and the black and dry skin on the surface of his body melted, revealing the scarlet muscles and tendons inside!

It should be noted that the body of the eternal strong is composed of countless crystal wall universes.

The skin that occupies the surface of the eternal body does not know how many crystal wall universes it contains!

But at this time.

The ancestor Suiyou took all these crystal wall universes as a certain price to launch a new round of self-mutilation mystery!

This secret technique came out.

The ancestor Suiyou's breath immediately rose, and the eternal spear in his hand, the spear light that destroyed everything swelled sharply, directly stopping the disadvantage!

"Old thief Si Kouyun, you are really tenacious!"

"I have so many hole cards out, plus Youtian Sword's double attack feature, you can actually stop it!"

"Just, if this is your limit, then give up unnecessary resistance!"

Su Lang controls the Boundless, constantly maintaining the power of Breaking One Sword.

"Su Lang chopsticks!"

"You are really strong, but you can't perform this kind of attack!"

"You who use the secret technique to forcibly upgrade are already at the end of the crossbow. You can last longer than anyone else, you definitely can't compare to me!"

The old ancestor Suiyou was covered in blood, like a ghost or zombie with peeling skin!

In his body, there are countless healing and healing drugs that melt away, turning into countless energy to fill the damage caused by his secret technique.

"Not as good as you?"

"Hehe, then I will let you see what is lasting!"

There was a sneer at the corner of Su Lang's mouth, and countless pills exploded in his body.

Under the operation of the one-key practice function, the medicinal power is directly transformed into infinite power to supplement oneself.

These elixirs are not comparable to those of Suiyou ancestors, all of them are the perfect quality of the Six Eternal Realm, and even the Seven Eternal Realm!

and.

Su Lang himself has practiced a lot of body-building exercises, and his resilience far exceeds that of the same level, and he is not weaker than Suiyou ancestor.

The sword of life was chopped down one after another, greatly restoring strength.

Infinite number.

After the 120,000 eternal powerhouses who used the secret technique, they also ran wildly to restore the exercises, swallowing the pill, as long as they can't die, they will eat it desperately!

Among them, the weaker 20,000, had been replaced by the previously replaced warrior.

At last.

Infinity's own characteristics are also effective at all times, constantly absorbing the power of the surrounding natural universe to supplement itself.

All aspects of resilience add up.

The recovery speed of the Boundless Ship directly surpassed the Suiyou Ancestor!

"Do not!"

"This is impossible!"

"What hole cards do you have, how can you recover so quickly!"

The old ancestor Suiyou twitched his face while looking at Infinity, the pressure from the eternal spear in his hand increased again.

One goes down.

He will soon be unable to hold it!

This made the panic in his heart breed and spread again!

[Chapter 2724: The final trump card, Baijie Zhenyu](#)

"Ha ha!"

"Want to know what hole cards I have?"

"After you die, I will let my reincarnation master tell you!"

"Now, give up the unnecessary struggle!"

Su Lang's indifferent and cold mind erupted from the Infinity.

at the same time.

The power he recovered was enough to drive the rest of the eternal emperor soldiers while maintaining a broken sword!

In an instant!

The old ancestor Suiyou was dodged by the heart-piercing lock and the eight black jade chains were once again killed from all directions!

Not only that.

Qibao Miaoshu and Jinghua Shuiyue also showed off together.

The colorful rays of light and the glaze ripples are mixed together, like a big net covering the old ancestors of Suiyou!

Instantly!

Buzzing!

The Eternal Spear Spirit is severely affected, struggling violently, and must give up resistance!

Suddenly, Suiyou ancestor's complexion changed drastically!

In less urgent situations, he can immediately use "Suiyou-Huoling" to offset the impact.

But now.

In his current state, he couldn't spare the power to use more methods!

but!

Now the eternal spear is the key to his victory. Without this spear, he would not be able to resist the power of the broken sword!

"Su Lang, I will definitely eat your body one bite at a time!!!"

The old ancestor Suiyou roared like an evil spirit, and the scarlet muscles and tendons on his body were melted again just like the skin before!

With the help of the power gained by sacrificing countless crystal wall worlds.

Another strong power of confusing spirit burst out!

The old ancestor Suiyou didn't do two things.

Not only did he stabilize the state of the eternal spear with the power of the soul, but also delayed the attack of the heart-piercing lock, allowing him to move a few light years away.

There was even an excess of magical power that spread its teeth and claws, clinging to the Infinity and Youtian Sword!

"It's this little carving insect again!"

"Do you think I will be as powerless as you?"

Su Lang shook his head disdainfully, with countless golden lights bursting out of his body, enveloping the Infinity and Youtian Sword in gold!

The glass-like ripples of the mirror flowers and water moon also bloomed, covering a layer beyond the golden light.

Suddenly.

What magical power is all invalid!

"Do not!"

"how can that be!"

"I, I want to run out of oil and the lamp is dead! What should I do!"

Seeing that he was losing again, Sui You's ancestor, apart from panic, was uncontrollably desperate!

After casting [Suiyou·Autophagy] twice in a row, he can no longer perform a third time!

Otherwise, without waiting for the attack to be displayed, he would die directly!

Just then!

"Accept your fate, Si Kouyun!"

The killing intent flashed in Su Lang's eyes, "The world is dead, a sword!"

The energy that had just recovered from the Infinity was all pouring out again.

The golden waterfall-like secluded sky sword in his hand burst out again with pure white sword light!

"Do not--!!!"

"Su Lang, stop! Don't force me!"

The ancestor Suiyou was completely desperate when he couldn't believe it!

His lustful voice was already full of pleading.

But Su Lang was not moved at all, the sword light of the broken sword shot from the blade of Youtian Sword in an instant, and with the blessing of the characteristic of "the sword must hit", he directly killed the ancestor Suiyou!

This sword!

The ancestor Suiyou can't avoid it no matter what, even if he uses the strongest dodge secret technique [Zhou Yi], it will not help!

"Su Lang!!!"

"This is what you forced me!"

"In this battle, I won't necessarily die, but you will definitely!!!"

The despair in the eyes of the ancestor Sui You suddenly disappeared, a touch of hesitation flashed past, turning into firmness!

Just between the flashes of his thoughts.

The eternal spear in his hand didn't break open, and a more powerful force burst out, which temporarily blocked Su Lang's second breaking sword!

Although the cracks of the Eternal Long Spear continued to spread under the two sword lights, it was about to be shattered in an instant.

But it did buy a little time for Suiyou Ancestor!

And this bit of time can do a lot of things in the high-level eternal realm!

"Su Lang!"

"Let you taste it, the power from outside the endless universe!"

The old ancestor Suiyou's voice was cold, like a cold wind, "[White World·Zhenyu]——!!!"

[Chapter 2725: Use your life as a thank you gift](#)

The next moment!

A dazzling white light burst out of Suiyou's ancestor.

This light is surprisingly similar to the flashing light from the previous Po Yijian and Suiyou ancestor's spear, and it gives people a stronger sense of danger!

Through white light.

"That is... weird broken page!?"

Su Lang seemed to faintly see a broken page with ragged edges and full of holes!

Time flashed by a thought!

Su Lang felt a strong sense of crisis coming, it was an extremely heavy crisis of life and death, the kind that could never be resisted!

Moreover, this crisis came so fast that he had no time to travel through time and space, or use a clone to replace it!

Too late to watch.

Time for a few thoughts!

The white light spread to him!

"It looks like it's going to die once!"

The thought of sigh flashed in Su Lang's mind, and at the same time all weapons including the Infinity were brought into the universe of life.

Just finished everything.

He was overwhelmed by the dazzling white light!

The spreading white light did not stop there, but continued to spread for tens of millions of light years into the distance, turning all the places it passed into white, and this time it slowly stopped.

If someone looks here from thousands of light-years away, they can see a large group of white "holes"!

The white light in the void is so dazzling that even the low-level eternal strong can hardly look directly at it!

at this time.

The white light that stopped spreading suddenly began to shrink, as if the white waves that fell on the beach began to recede.

The speed of the white light contraction is slower than the speed of the explosion, of course it is still very fast overall.

After a few thoughts flashed, the white light completely disappeared.

But after the white light faded, you could see the place that was shrouded in white light before, and there was no longer any existence.

Even the fragments of time and space, and the remnants of the messy spatial rhythm lines, were all annihilated.

If you have to say something, it probably feels like white.

at this time.

A thin, pitch-black line passed by, emerging from the center of the burst of white light on the edge.

Soon.

The black line flickered, turning into an incomplete person with almost only a skeleton left.

This person is the old ancestor Kou Yun!

"I didn't even die!"

"Hahaha, there is no one in a hundred chances of survival, I ran into it! I'm not dead!"

"Furthermore, my assimilation with the broken pages is even higher, I will soon be detached, I will be eternal!!"

"..."

The ancestor Suiyou not only has the joy of the rest of his life, but also the ecstasy of getting out of the endless universe and getting eternal life!

Although he is extremely weak now.

Even using the [Suiyou·Autophagy] secret technique many times, he suffered heavy losses in the universe of the crystal wall, and his realm directly fell to the level of the seven universes.

However, he doesn't care anymore!

As long as he can truly live forever, he will surpass countless eternal powerhouses, losing strength, what's the matter, can he make up for it sooner or later?

"In my current state, as long as I assimilate for a short period of time, I will definitely be able to enter the Universe White Realm!"

"It just so happens that my current injury also needs to recover. Both of them will be taken together. Soon, I will be able to truly live forever!"

"Haha, I didn't have much to make me reach where I am before the end of the period."

"Unexpectedly, this battle brought me directly close to success!"

"Dead Su Lang child, I thank you, hahahaha!"

Old Ancestor Suiyou laughed wildly while swallowing a lot of medicine pills.

In his opinion.

This battle himself is the absolute winner!

Su Lang is dead, he is still alive, and accidentally accelerated the assimilation of the remaining pages, and is directly approaching the "last step", isn't he a winner!

But at this moment!

"Thank me?"

"Use your life as a thank you gift!"

A clear male voice suddenly appeared in Suiyou's ears.

"what!!"

The ancestor Suiyou's complexion changed drastically in an instant, and he didn't want to immediately open the Avenue of Time and Space to escape.

but!

Eight chains of black jade have already taken a step ahead of him, piercing his body fiercely!

The head, limbs, chest and abdomen were all pierced by chains, and those chains were flexibly tied with a bow.

[Chapter 2726: The death of Si Kouyun, the mysterious leftover page](#)

Under the ban of Piercing Lock.

The old ancestor Sui You, who was already seriously injured and dying, was completely banned.

In endless horror.

The ancestor Suiyou saw a familiar figure emerging from the ripples of time and space, it was Su Lang!

"Si Kouyun, just ask you, are you surprised or surprised?"

Su Lang hovered in the void, looking at the old ancestor Suiyou who had lost all resistance, smiled faintly.

"Do not!"

"impossible!"

"How can you withstand the explosive power of broken pages!"

"I have assimilated the broken pages by a large margin and survived the Grand Fortune. How could you be alive!"

"Fake, it's all fake, you are fake, who are you!!"

"..."

Seeing Su Lang, who should have died, appeared in front of him, the ancestor Sui You, his eyes were instantly covered with scarlet blood and madness, and roared like an irrational beast.

"Ah!"

"impossible?"

"Even if you kill me a few more times, it will be the same result."

"This battle is doomed from the beginning."

Su Lang chuckled lightly and lifted the Youtian Sword in his hand, "Si Kouyun, since you are the first Eight Eternity I killed, let's say your last words."

"I....."

The beastly Si Kouyun stopped his frantic roar, and opened his **** mouth slightly, "I, I would like to come down!"

Until now, he had no way to break out the power of the broken pages again.

The only option is to surrender and wait for the opportunity.

unfortunately.....

"Okay, this is your last word."

Su Lang smiled, and the long sword in his hand cut across Si Kouyun's head fiercely!

Suddenly!

The head passed through by a black jade chain flew fiercely and fell into the distance like a meteor hammer.

On that **** face, his eyes were violently open, and he couldn't squint.

"Ding! You get the mysterious torn page*1, the eternal soul*1, the eternal life crystal*1, the eternal life universe*1..."

The system prompt sounded in Su Lang's mind.

The lord of a generation of high-level universe, the old ancestor Si Kou Yun, declared his permanent fall!

But Su Lang didn't care too much about it. No matter how strong Si Kouyun was, it was just an eternal realm of eight cosmos.

Not to mention him, even Yu Yangli, the cheap junior, is the power of the Eight Universes.

What Su Lang cared more about was the "mysterious leftover pages" among the spoils!

"Mysterious broken pages!"

"It's called this name itself, or is it even the system can't know its real name!?"

"if the latter one....."

Su Lang's expression changed, and his pupils shrank suddenly!

After staying in place for a while, he took a deep breath and took the mysterious leftover page out of the storage space.

The broken page came out.

A breath that made Su Lang's heart beat suddenly dispersed!

A series of strange powers seemed to invade his body and assimilate him.

There is just such a trend.

Su Lang felt the endless pain, it was like countless steel needles piercing into the body!

Moreover, he also faintly felt a sense of reduced self-awareness.

"hiss--!!"

"How did Si Kouyun bear it!"

Su Lang took a deep breath, and immediately put the mysterious leftover pages into the storage space.

The strange feeling and countless tingling pains disappeared immediately.

"call!"

"A treasure used to transcend the endless universe? It's really weird!"

Su Lang let out a long breath, and he could feel that the mysterious torn page was indeed very powerful, but it was not necessarily a good thing.

It is possible that even the system cannot determine what the broken page is.

Moreover, the above text and the system function [Proficient in Chinese and Written Language] are also completely invalid, which is not supposed to be.

"Until you thoroughly understand the broken page, don't try to use it."

Su Lang thought vigilantly, and immediately looked at the remaining treasures harvested in this battle.

The first is the "sincerity" obtained from the ancestor Suiyou, which is more than 340 million cosmic origins.

Then there are those valuable and huge treasures of heaven, material and earth, more than they can get by killing Tang Zhufei and others.

"If I had the opportunity to use these resources before the war, I might be able to play more easily."

"However, in front of the [Power of the White World] inspired by the mysterious broken pages, I guess it is still not enough."

Su Lang muttered, then looked at Si Kouyun's eternal body and other things.

[Chapter 2727: A new bonus feature](#)

Things like the eternal Daojing are directly thrown into a certain life universe in the body.

The warriors who need to condense rules or avenues will go to enlightenment and get a lot of benefits from them to advance to the realm.

This is also a good thing for Su Lang, whether it is incense aspiration power or humanitarian power, he needs it.

The soul of eternity is naturally thrown into a certain void dragon-veined heaven in the virtual spirit universe first, and let it turn into an incense creature.

An eternal realm of eight cosmos, a soul at the level of nirvana, once formally becomes the soul of incense, it will definitely provide a huge amount of incense aspiration power.

And before Si Kouyun's soul, the souls of Tang Zhufei and others had already entered the void of dragon veins.

Soon.

It is Si Kouyun's eternal life universe and eternal body.

Su Lang looked at it with his divine mind. No matter it was the universe of eternal life or the crystal wall universe of eternal body, no creatures survived.

It should be understood that the number of crystal wall universes is huge.

It is about nine thousand gai, which is a crystal wall universe of nine quadrillion billion.

But now the life inside is dead.

Even the treasures that were originally very advanced have fallen sharply and become thinner in energy.

It can be seen that Si Kouyun really did his best in this battle, and the lamp was gone.

"If there is no mysterious torn page."

"He has no ability to let me trigger death substitution."

A smile was drawn at the corner of Su Lang's mouth, and he was still very satisfied with this inference.

Next.

It is the time to organize and use the spoils.

While Su Lang stuffed the continents and planets in the Eternal Life Universe and the Crystal Wall Universe into his body, he gave an order to store the origin of the universe.

"Ding! The storage is complete, and the balance is 398.89 million universe origins!"

The system prompt resounded through my mind.

"It seems that after Si Kouyun gave his 'sincerity,' there is not much left on him, only about 50 million."

"So, it's time to upgrade system functions!"

A glimmer of excitement flashed in Su Lang's eyes, and he immediately issued instructions.

Suddenly!

"Ding! Consumes 10 million cosmic origins, and the one-key enhancement function is upgraded to level 15... currently it can be enhanced 15 times!"

"Ding! Congratulations on... you get the bonus function "Enhanced Quality Change"!"

Soon.

A piece of information entered Su Lang's mind, which was an explanation of "enhanced qualitative change".

Enhanced qualitative change: Whenever an item is strengthened five times, use this function to make the strengthened item get an enhanced qualitative change, the effect is uncertain!

"It turned out to be such a function!"

"Every five times, the quality can change once, and that 15 times is the energy quality change three times!"

"I don't know what the specific effect of this function will be?"

"Now Youtianjian and other weapons have been strengthened six times, enough to complete a qualitative change, try it later!"

A glimmer of expectation flashed in Su Lang's eyes, and immediately continued to upgrade system functions.

"Ding! Consumes 10 million cosmic origins, unlocks the one-key alchemy function to level 20, and can refine the Five Eternal Eternity and its lower-level pills!"

"Ding! Congratulations on... you have obtained the bonus function 'Den Multiplication'!"

Pill production multiplied: When using system alchemy, the number of pill production is increased from five to ten! The quality remains the same!

"Ding! Consumes 10 million universe origins, unlocks the one-key formation function to level 20, and can refine the Five Eternity and its lower-level formations!"

"Ding! Congratulations on... you get the bonus function 'Formation Self-Regeneration'!"

Self-regeneration of formations: After using this function on the deployed formations, the formations will continue to deduce themselves, absorb the natural materials and treasures by themselves, and become a stronger formation!

"Ding! Consumes 10 million cosmic origins, unlocks the one-key synthesis function to level 20, and can use the same Five Eternity or lower level materials and medicines for synthesis! The synthesis ratio is 10:1!"

"Ding! Congratulations on... you get the bonus function 'Proportion Reduction'!"

Alternate ratio: The synthesis ratio of the one-key synthesis function is reduced from 10:1 to 5:1!

These bonus functions are very good functions in Su Lang's view!

Needless to say, it's a super magical skill to save materials!

The self-derivation function of that formation, as long as the time and materials are sufficient, it can self-generate a formation that far surpasses Su Lang's current formation!

[Chapter 2728: Evolution Youtian Sword](#)

"The formation is self-developed!"

"It seems that I don't need to sit on the bench with the methods of formation!"

"If there are enough materials and time, the array I set up can even grow to above the level of the Nine Universes!"

"Of course, the higher my formation attainments, the more advanced the 'Basic Formation' I have arranged, and the less treasures and time it takes to develop and grow on its own!"

"So, the formation skills still have to be improved!"

Su Lang is very satisfied with the newly acquired bonus features.

Looking at the system balance, only 40 million was used, and there are more than 350 million!

"carry on!"

Su Lang smiled and continued to upgrade system functions.

After some consideration.

Su Lang chose to consume 300 million cosmic origins to upgrade the functions of one-key alchemy, one-key formation and one-key synthesis to level 21!

Because the current number of one-key enhancements is completely sufficient, and level 15 can just reach the third [Enhanced Quality Change].

To achieve the fourth [Enhanced Quality Change], you have to upgrade it to level 20!

"Next."

"There is also a one-key empowerment function!"

"Now that I have more and more subordinates, they can also help me in battle."

"Upgrading the empowerment function to give them more benefits is also good for me."

Thinking of this, Su Lang gave instructions in his heart, "System, enhance the one-key empowerment function!"

"Ding! Consume 1 million cosmic origins,...580 empowerments per day!"

"Ding! Consumes 10 million cosmic origins, the one-key empowerment function breaks through the limit and is upgraded to level 30, the current empowerment efficiency is 100%, and the number of empowerments per day is 600!"

"Ding! Congratulations on raising the one-key empowerment function to level 30. You have obtained the new bonus function "Multiple Times"!"

Immediately after.

Another message appeared in my mind.

The number of empowerments has doubled, from 600 to 1200 directly!

"Hey!"

"The number of empowerments doubled!"

"This is exactly the kind of bonus feature I want!"

Su Lang's eyes brightened. With this system function, he can train his subordinates faster!

At that time, the power of his subordinates will be transformed into his combat power to a certain extent.

The key one-click empowerment function has almost no cost, except for the cost of upgrading, the next thing is pure earning!

By this time.

The system function is temporarily upgraded.

Su Lang looked at the system balance and found that there were 47.89 million universe sources left.

"The next step is to upgrade the system's functions. The cheapest one-key empowerment will cost 100 million!"

"The rest of the system functions all need one billion to upgrade!"

"These forty to fifty million are really a drop in the bucket."

Su Lang thought so, and immediately divided some to Chu Xiaobei, Ji Ruxue and others.

They need to use the origin of the universe to perfect the Crystal Wall universe.

But Su Lang didn't tell much, because what he left was still useful.

Next.

Su Lang's gaze shifted to the huge number of heaven and earth treasures.

It can be said.

From the Suiyou Universe to Si Kouyun and down to the weakest eternal warrior, all the treasures of heaven and earth and earth collected in the unknown years are now his!

"Tsk tsk!"

"It is equivalent to plundering an entire high-level universe!"

Su Lang's spiritual thought swept across the countless materials in the storage space, and couldn't help rubbing his hands excitedly.

Immediately after.

"system!"

"Start the "material conversion function"! "

Su Lang thought, and gave instructions to the system.

Suddenly.

According to his ideas, the system transforms a variety of materials into materials required for the evolution of various weapons.

The necessary materials for the evolution of weapons such as the Youtian Sword, the Heavenly Eight-Edged Shield, and the Sword of Life are completely collected!

Even the materials for the Land of Reincarnation and the Nest of Civilization have been collected!

Originally, the materials for some of these weapons had been collected, but Su Lang improved the quality of all the materials they needed this time!

In this way, after these weapons are promoted, the power may be even stronger!

"system!"

"Start the enhanced reset function! Start the weapon evolution function!"

After finishing the materials, Su Lang locked the Youtian Sword with his spiritual thoughts, "Keep my current characteristics and evolve the Youtian Sword!"

[Chapter 2729: Upgrade various weapons](#)

The voice just fell.

The system prompt sounded immediately:

"Ding! Consume the Eternal Soul*5000, the Origin of the Universe*10 million, the Eternal Realm material Non-Mind Universe Core Crystal*100, Duize Gu Yuyuan*1000, God Demon Jackdaw Crystal*4525...You Tian The sword has evolved into the eternal emperor of the six universes!!"

Accompanied by system prompts.

A series of mysterious brilliance flashed above Youtian Sword.

Suddenly, the Youtian Sword, whose breath was reduced due to the strengthening reset, surged again and entered the Six Eternal Realm.

"The existing materials are estimated to be enough to evolve the Youtian Sword to the eternal level of the Seven Universes."

"It's a pity that the limit of the one-key refining function is the eternal emperor of the six universes. To continue to evolve, you must upgrade it to level 22!"

"Well, I also have a key enhancement function anyway!"

The regret in Su Lang's eyes flashed away, and he immediately issued an instruction, "System, start the one-key enhancement function for me, and the goal is "Youtian Sword!"

The order has just arrived.

A series of system prompts sounded immediately.

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding! Strengthened successfully,..."

The Youtian Sword's aura skyrocketed, and it quickly rose from the Six Eternal Realm to the Seven Eternal Realm, returning to its previous level.

But this is just the beginning!

System prompts for successful enhancements continue to appear.

In the end, when you strengthen five times, you have already entered the eternal level of the eight universes!

At this level, the materials needed for reinforcement become more and more terrifying.

And it's getting more and more difficult to improve, because in the Eight Eternal Realms, the gap between small realms is even greater.

After strengthening seven times.

Su Lang gave up to continue strengthening, because the cost performance had begun to decrease, he still had to leave materials to strengthen the rest of the weapons.

But even so.

The power of Youtian Sword has also reached the Intermediate Level of the Eight Universes!

In addition.

One-click enhancement function also has an active bonus function that can be used, that is "enhanced qualitative change"!

"I don't know what the effect will be!"

A glimmer of expectation flashed in Su Lang's eyes, and immediately issued an instruction to the system, "Start the 'Enhanced Quality Change', and the target Youtian Sword!"

"Ding! Consuming eternal grade material: Reincarnation Tianyu Stone*1542, Zhanhai Zhouling*7845, Huanming Shadow Heart Jade*8754...The Youtian Sword has been successfully strengthened!"

Along with the system prompt appears.

The breath of Youtian Sword has soared again, and it has been directly promoted from the Eternal Intermediate Level of the Eight Realms to the Advanced Level!

"Lying down!"

"Right to an advanced level!"

"If this is replaced by using the enhanced function to enhance it again and again, it will take four times!"

"..."

Su Lang's expression moved, his eyes revealed surprise.

Although the enhancement of the qualitative change did not get anything strange, the overall improvement effect is very satisfying!

Not to mention.

Youtian Sword doesn't need any fancy things either.

With the sword coming out, you will die, breaking the defense, double power, these three characteristics, make it the purest big killer!

As for the remaining auxiliary functions, leave it to the rest of the weapons.

"A pure attack-shaped emperor soldier at the advanced level of the eight universes!"

"If this is against Si Kou Yun, the Youtian Sword is so powerful, then he is afraid that he will be forced to play the mysterious broken page with my sword!"

Su Lang stroked You Tianjian lightly, feeling the joy from Xiao You, a smile was drawn at the corner of his mouth.

at this time.

"Master~ Xiaoyou wants more!"

A soft and sweet voice came from Youtian Sword, with a touch of intoxication and charming, it was Xiaoyou's voice.

"Uh."

"When did you learn this tone?"

"Well, no, no, no, I can't give it to you, not once."

"In the future, when I have the stock, I will give you...enhancement!"

Su Lang dumbly patted the body of Youtian Sword, and shook his head with a smile.

"Well, Master, I'll wait for you!"

Xiaoyou was more sensible, and did not continue to entangle or make trouble unreasonably.

"Ok!"

Su Lang nodded his head, before putting the Youtian Sword back on his head as a hairpin.

Immediately after.

He began to use the same method to strengthen the eight-sided shield and the sword of life.

After some operations.

Tianjia's eight-sided shield also evolved into the Seven Eternal Realm.

And under the action of the one-key enhancement function, through seven enhancements, it is promoted to the intermediate level of the Eight Eternal Realm, which is the same as the Youtian Sword before the qualitative change.

[Chapter 2730: The universe is useless, I am poor again](#)

The sword of life has also evolved into the Seven Eternal Realm.

But the number of enhancements was slightly lower, with only five enhancements, and finally reached the primary level of the Eight Eternal Realm.

But this level is sufficient for the time being, and if you continue to strengthen it, the cost performance will be significantly reduced.

After the strengthening is over.

Su Lang also started to strengthen the qualitative change function.

Suddenly.

Another wave of materials was consumed.

Immediately, the "indestructible" characteristics of Tianjia's eight-sided shield were strengthened.

The original "indestructible" feature is to double the defense power.

But under the action of strengthening the qualitative change function, the "indestructible" effect has become ten times!

This undoubtedly greatly increased the defensive effect of Infinity!

Originally, the damage that the defensive imperial soldiers could bear was more than their own weapon level, and they could barely resist two attacks against attacks much higher than their own.

The defense power has now become ten times that of the basic defense.

This makes it no longer a problem for Tianjia Eight-Edged Shield to block the eternal high-level of the Eight Eternals in a short time!

Let's talk about the sword of life.

After the strengthening and qualitative change, the healing effect of the sword of life has been greatly improved, almost reaching the eternal intermediate level of the eight universes!

In addition, the sword of life has the "consumption reduction" feature, which makes it more effective in actual combat!

"Next, is the world of reincarnation and the nest of civilization!"

"These two weapons are the pinnacle of the Five Eternal Realm."

"But now I have entered the Six Eternal Realm. Recently, I have killed a large number of Eternal Realm experts and plundered countless creatures!"

"For the world of reincarnation and the nest of civilization, the pressure will definitely increase greatly."

"..."

Su Lang thought in his heart, and started the weapon upgrade process in his hand.

Everything was familiar, and soon the world of reincarnation and the nest of civilization reached the pinnacle of the eternal state of the seven universes under the dual effects of evolution and strengthening!

And both weapons have completed five enhancements.

This means that they will be able to use an "enhanced qualitative change"!

Su Lang did not hesitate and immediately used the enhanced qualitative change function on them.

Neither weapon has received any special enhancements and qualitative changes, but the basic capabilities have increased, which is equivalent to a major enhancement.

Su Lang put the two weapons back into his body, and immediately looked at himself, overlooking the countless crystal wall universe.

However, a more complete system of reincarnation has been established in the realm of reincarnation! every second.

There are countless trillions of souls passing on the road of reincarnation.

Although Su Lang has only four incense fire emperor soldiers, Xiaoluo has completed more "hells" to punish the sinful.

therefore.

The current road to reincarnation is the same as the myth that Su Lang has heard before, it is full!

But under the management of countless "ghost chasers" and "ghost officials" cultivated by Xiaoluo, everything is in order.

Let's talk about the nest of civilization.

To this day, the Nest of Civilization is no longer comparable.

The spores he produced now can evolve any kind of creature that exists in Su Lang's body!

and.

With the nourishment of a large number of eternal bodies, the Nest of Civilization has gained almost infinite energy!

original.

After Su Lang transferred the life planets and continents in the Eternal Body, the remaining crystal wall world was difficult to use.

But after passing through the nest of civilization, these unusable eternal bodies became countless creatures in Su Lang's body.

Whether these creatures are bodies or souls, they will eventually belong to Su Lang.

This is equivalent to those eternal bodies that are indirectly used perfectly!

"There is a realm of reincarnation and a nest of civilization, which really saves countless troubles!"

With a satisfied smile on Su Lang's face, he immediately counted the consumption of these weapons for promotion.

All kinds of natural treasures are too lazy to count.

Speaking of the origin of the universe, a total of 35 million was consumed, with a balance of 12.89 million!

"The origin of the universe is really useless, I'm poor again!"

Su Lang smiled bitterly and shook his head, and took out four more pieces of Incense Fire Emperor Soldier.

Wearing heart locks, Qibao Miaoshu, Jinghuashuiyue, purple gold gourd.

In the previous wars,

Su Lang only used the first three weapons, not the Zijin gourd.

Because Si Kouyun's was too fierce, he was worried that Zijin Gourd would not be able to be locked, and that it would explode and lose a lot.
