### [Chapter 2761: Devouring immeasurable phagosome blade characteristics](#)

Next.

The extremely skilled Su Lang used the fastest speed to transfer the life planets and continents in the eternal dragon body.

There are so many life planets and life continents this time!

In order to be able to install it all.

Su Lang had to use some clones to compress and splice a large number of life planets and continents in his body to save space in the Crystal Wall universe.

then.

A large number of super life continents similar to Doudu continent appeared in the crystal wall universe in his body!

But the scale is definitely much smaller than the Doudu Continent.

But in terms of quality, it definitely far surpasses Doudu Continent!

In those compressed and spliced life continents, every inch of land is at least the primary treasure land level!

The high-level treasures are countless!

The creatures living in these crystal wall universes, the cultivation environment is so good!

This also further improved the level of wisdom and civilization in Su Lang's body, and made the power of Taoism and the power of incense aspirations even stronger!

Completed the splicing of countless life continents in the Crystal Wall universe.

Su Lang threw the dragon's body to the nest of civilization, and took out more eternal bodies

——The eternal bodies of Shang Quhan and Yi Nanzhuo's subordinates, roughly numbered, have exceeded 300,000!

"Three hundred thousand eternal bodies, I'm such a direct fellow!"

Su Lang was stunned secretly, but the trophies he had harvested must be sorted out while crying.

Face more life planets and continents.

Su Lang finally started to choose this time, not any life planet or continent could enter his eyes.

Only those treasure lands with a high level can be collected by him into the crystal wall universe, merge with the existing life continents and planets, and form larger continents or planets.

The crystal wall universe with a total of 300,000 eternal bodies.

It took Su Lang a lot of time to completely organize it.

But this is not over yet.

There are still more than 300,000 life universes to deal with, including those of Shang Quhan and Yi Nanzhuo!

Compared with the crystal wall universe, the life universe is much larger, and it is more difficult to deal with!

"Ugh!"

"Too much gain..."

Su Lang sighed, and then began to transfer life to the universe.

It was another hard work.

Finally, all life universes are also processed!

"There are still many ordinary life planets and continents left."

"These things are placed in the bodies of the clones."

"It just so happens that the bodies of my clones are all empty, and there is no life continent in the universe of life."

"There are creatures in the crystal wall universe and life universe of the clones, and their strength will be slightly improved."

"..."

Thinking of this, Su Lang nodded heavily, and then threw the remaining large number of unwanted planet continents to the clones.

One by one, there was nothing in the Life Universe and Crystal Wall Universe, but all the "leftovers" were quickly packed.

At last.

Su Lang threw all his eternal body to the nest of civilization.

Fortunately, I upgraded the Nest of Civilization before, otherwise I don't know if she can eat it.

So far.

The spoils of Eternal Body are finally processed!

"Next."

"Deal with the eternal emperor soldier!"

"You can choose innate characteristics again!"

"Each eternal emperor soldier can swallow three characteristics!"

"Now my weapons can basically swallow one or two characteristics!"

A look of expectation appeared in Su Lang's eyes, and he waved his hand immediately, and a large red gravel appeared in front of him.

These gravels are full of powerful and strange aura!

"Shards of the Immeasurable Source Devouring Blade!"

"This weapon has the innate characteristics of absorbing the power of the enemy for its own use. It is very suitable for me!"

"Although the weapon has been broken into this way, fortunately, the inherent characteristics of it are kept very intact."

"In this way, I don't have to find ways to repair it, and then swallow the innate characteristics!"

Su Lang thought about it and stroked his chin, before he took out the Youtian Sword and placed it on the right.

Immediately!

"system!"

Su Lang ordered, "Give me the feature swallow function!"

[Chapter 2762: Soul-killing and invulnerable](#)

"Ding! Consumes 100 million of the origin of the universe, eternal realm materials...successfully swallowed innate characteristics."

System prompts emerged, and countless types and quantities of materials were reported.

Compared with the last time, more raw materials are consumed this time!

The origin of the universe alone consumed a full 100 million!

"I go."

"Fortunately, I left over 180 million as a spare, otherwise I wouldn't even be able to do the Devouring feature!"

Su Lang twitched the corners of his mouth, then touched his aching heart.

Soon.

He looked at Youtian Sword.

At this time, the Youtian Sword had already acquired the fourth characteristic "Evening Power Character", and the number of times it had been swallowed had also been used up.

At this time, the Youtian Sword has four characteristics: one hit must hit, breaking defense is dead, knowing one hit, and devouring power!

"There are more than 80 million cosmic origins left."

"Heaven's Eight-Edged Shield has been swallowed twice, and the third time requires 100 million cosmic origins."

"The rest of the weapons, the Infinity, the Sword of Life, the Heart-piercing Lock, and the Seven Treasure Tree, etc., were only swallowed once or zero times."

"If this is the case, then find some characteristics for them all to devour."

While thinking about it, Su Lang decomposed the fragments of the Immeasurable Source Devouring Blade, and then continued to search for useful characteristics from the captured eternal emperor soldiers.

All weapons without innate characteristics are all broken down into raw materials!

Weapons with innate characteristics remain.

Even if Su Lang can't use it himself, he can use his companions' weapons, of course, provided that the funds are sufficient.

Time passed slowly.

Among the weapons with innate characteristics.

Su Lang quickly found out many useful innate characteristics.

For example, it can kill the soul of the strong in the eternal realm.

As everyone knows, the soul of the eternal strong has long been integrated into the body's countless crystal wall cells, and ordinary ways can hardly cause harm.

Only a few special methods can do it.

If the method of killing souls is solidified into characteristics and blessed on weapons, it is definitely a big killer.

In addition to the "killing soul" feature, there is also the "invulnerable" feature.

This is a feature dedicated to defense or trapping.

As the name suggests, this is a feature that allows the weapon to form a super strong defense or siege with no dead ends and no weaknesses.

This feature is very suitable for the eight-sided shield and purple gold gourd.

Coincidentally, Su Lang found two weapons made by one person, both with the characteristics of "invulnerability".

These two weapons also happen to be a defensive weapon and a trapped weapon.

"Luck is really good!"

Su Lang rubbed his hands happily, put the two found weapons aside, and then continued to work.  
just.

No more suitable weapon characteristics were found.

Each weapon can only swallow the characteristics three times, and Su Lang must cherish these three opportunities and can't use them at will.

"So."

"Just this kills the soul and invulnerable characteristics."

"The ability to kill the soul can be used for the heart-piercing lock. It already has the power to damage the enemy's soul. With the blessing of the characteristics, it will definitely be stronger."

"The invulnerability characteristics are used for the Zijin Gourd and the Eight-Edged Shield of Heaven, but the latter requires 100 million cosmic origins, so it's slow."

"..."

Various thoughts surfaced in Su Lang's mind, and while thinking about it, he activated the innate characteristic swallowing function.

Suddenly!

Consume 11 million of the origin of the universe and various materials.

Heart-piercing lock possesses the second characteristic besides "fatal penetration", "killing the soul".

The Zijin Gourd swallowed its "invulnerability" feature, and its ability to trap people skyrocketed. It became more and more unnecessary to worry about not being able to shut people down, and was pierced from the stomach and ran away.

"The job of devouring characteristics is here for now."

"Now that a large number of eternal weapons have been decomposed, plus the raw materials seized, the number of heaven, material and earth treasures has reached the highest in history!"

"In that case, try to evolve and strengthen weapons!"

Su Lang immediately started the system function "Material Transformation" and began to transform the various materials needed for weapon evolution such as Youtian Sword!

[Chapter 2763: Youtian Sword's second enhancement qualitative change](#)

Although the current weapons such as the Youtian Sword have all reached the level of the Eight Eternal Realm.

But their realm is still at the level of the eternal realm of the six universes.

The materials needed to evolve to the eternal realm of the seven universes are at the level of the eight universes.

And this time.

Killing Shang Quhan, the eternal power of the Nine Universes, and Yi Nanzhuo, the master of the Yilong Universe, obtained a lot of materials at the level of the Eight Universes.

After some effort.

Su Lang successfully transformed a large amount of materials of the Eight Eternal Realm.

Finally, after a brief inventory, it was discovered that the Eight Eternal Realm materials needed for the evolution of weapons such as the Youtian Sword and the Heavenly Eight-Edged Shield were all available.

The materials for the Eternal Realm of the Eight Universes are all available.

The Seven Eternal Realm and the materials of its lower levels are much easier to handle.

The one-click synthesis function can use the Six Universe Eternal Realm materials, collectively called the Seven Universe level materials, not to mention the enhancement and material transformation functions!

Su Lang continued to work excitedly.

In a blink of an eye, all the materials needed for the evolution of various weapons were gathered! !

"Hahahaha!"

"System, start strengthening reset, weapon evolution, target Youtian Sword..."

Su Lang rubbed his hands excitedly and directly activated various system functions.

But when the order was halfway through, he suddenly discovered that he didn't have enough money, and the one-key mixer function level was not enough.

At this time.

A reminder to strengthen the reset function came.

"Ding! When the enhancement is reset, the current enhancement qualitative change effect will be lost!"

"Terminate the enhanced reset!"

Su Lang hurriedly issued the order, and he was relieved, "If the enhanced reset works directly, and I haven't been able to evolve Xiaoyou, that would be embarrassing!"

Fortunately, the enhanced reset function has ended!

"Since it can't evolve."

"Then continue to strengthen!"

Su Lang took a deep breath and re-issued the command to the system, "Start the one-key enhancement function, target Youtian Sword!"

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding! Strengthened successfully, Youtian Sword +1"

"Ding! Strengthened successfully,..."

In an instant!

Three consecutive system prompts came!

The power of Youtian Sword has been directly strengthened from the intermediate level of the Eight Eternal Realm to the advanced level!

The key is.

Youtian Sword has completed the tenth enhancement, and has obtained the second opportunity to enhance the qualitative change!

"Start the enhanced qualitative change function, target, Youtian sword!!"

Su Lang did not hesitate to give orders again!

"Ding! Consume the eternal grade material Blood Yang Tears Gold\*8774, Zhanhai Zhouling\*15844, Daji Glazed Jade\*7745...The Youtian Sword has been successfully strengthened!"

Along with the system prompt appears.

Su Lang discovered that Youtian Sword's breath had changed again.

Using the weapon recognition function, it turns out that Youtian Sword's "understanding one blow" feature has undergone a qualitative change.

The original knowing one-strike feature can make the attacks from Youtian Sword possess twice the power of the original.

After the qualitative change at this time, a knowing blow can increase its attack power by five times!

It seems that there are not many multiples.

But you must know that the Youtian Sword is a high-level weapon of the Eight Eternal Realm.

In addition to the power of Su Lang's own power and the power of the Boundless, any sword cut at will will be the top level of the Eight Eternal Realm, which can be called a half-step Nine Eternal.

And this kind of power will directly increase five times!

If Su Lang used Universal Nirvana or other secret techniques, he would surely be able to cut out the weak Nine Universe level attacks!

"Tsk tsk."

"Now I am truly invincible under the Nine Universes."

"In the Eight Eternity, one-on-one, all can be hacked to death!"

"Even if you encounter a gang fight, you are not afraid. If you have a thought to seal the sky and other means, you can still kill the Quartet and retreat calmly at any time!"

Su Lang's eyes lit up and a smile was drawn at the corner of his mouth.

Soon.

He put the Youtian Sword in place, and brought the Wuyin to front.

Compared with Youtian Sword, the parts of Wuyin are easy to evolve.

"system!"

"Start the enhanced reset function, the weapon evolution function, the target is endless!"

Su Lang used his divine mind to lock the parts that needed to be evolved in the Boundless, and gave orders.

Suddenly.

The breath of Boundless suddenly plummeted, and then continued to rise!

The evolution of each part can increase the overall strength of the Infinity!

[Chapter 2764: unprecedented](#)

When the evolution is complete.

Among the 120,000 parts of the Boundless Number.

There are already hundreds of six-plane eternal realm parts!

There are also more parts at the level of the Five Eternal Realm.

As part of the Second Universe Eternal Realm at the base of the Infinity, it has all evolved into the Three Universe Eternal Realm!

After completing the evolution.

Su Lang strengthened the Wuyin again, this time the number of times of strengthening was seven times!

After completing the enhancement, the power of the Infinity when no one is stationed has reached the advanced level of the eight universes!

of course.

Boundless, this behemoth, requires more materials for strengthening and evolution.

This upgrade has consumed a huge amount of loot!

For the remaining weapons.

Su Lang has not evolved for the time being, but has been strengthened all, and strengthened to ten times!

Tianjia's eight-sided shield and other weapons have ushered in their second enhancement and qualitative change!

among them.

The effect of the second strengthening of the qualitative change of the eight-sided shield of Tianjiao is "indestructible".

The first time to strengthen the qualitative change, so that the defensive power of the eight-sided shield of the sky has reached ten times the base.

This second strengthening qualitative change caused the defensive power of Tianjia's Eight-Edged Shield to skyrocket again, reaching twenty times!

Su Lang's defensive tactics were lacking compared to his attacking tactics, and he was also a "severing no prescription" secret technique and a heavenly shield with eight edges.

As for the attack, there are various secret magic bonuses!

At this time, the defensive power of Tianjia's eight-sided shield reached twenty times, which greatly made up for the shortcomings in defense!

"In terms of defense, it is also infinitely close to the Nine Eternal Realm!"

"This is just a daily state. If it's an explosive state, coupled with a severance, it will definitely make my defense reach the weak nine-plane level!"

Su Lang was delighted and satisfied.

Next.

The "consumption double reduction" feature of the sword of life has been qualitatively changed, and the energy consumed by cutting out a sword has doubled again.

This is equivalent to extending Su Lang's battery life in disguise by nearly half!

After the sword of life, there are four great incense weapons.

The "Fatal Penetration" feature of the Heart Piercing Lock has undergone a qualitative change, and the penetration ability has become more terrifying. Only the real Nine Eternal Realm can resist it!

Zijin Gourd's "impeccable" feature has undergone a qualitative change, and the ability to close people has increased significantly.

As long as you haven't reached the Nine Universe Eternal Realm, don't think of coming out again if you are sucked into it!

The power of Jinghua Shuiyue itself has been strengthened, and the hallucinogenic effect has been greatly improved. With the "ultimate rhythm" feature, it has reached the level of invincibility under the nine universes.

Finally, there is the Seven Treasure Tree, this weapon has not yet swallowed its characteristics, and the effect of strengthening the qualitative change is also its own power.

Its plundering ability is probably something no one can stop among the Eight Universes.

So far.

Su Lang's weapons have been upgraded once again.

The overall level, reaching a level that is infinitely close to the Nine Universe Eternal Realm!

If it is an explosive state, it is a weak Nine Universe level!

"Tsk tut."

"With the eternal realm of the seven universes, it possesses the strength of the weak nine universes."

"This is in the endless universe. It's not an exaggeration to say that there is no one before, no one here!"

"..."

Su Lang raised his hand with a smile and touched his chin.

of course.

He knew very well that weapons were just foreign objects, and the most important thing was his own strength.

then.

He hurriedly...waited for the one-key practice function to accumulate cultivation base...

By the way, let the little people who practice martial arts with one click move and practice brand new exercises!

This time he beheaded Shang Quhan and Yi Nanzhuo and obtained some secret techniques.

Among them, what attracted Su Lang's most attention was [Universal Borrowing Method·Lixu], [Yuanyuan Yuyan], [Nine Tribulations of Extinction], [Jilan Lan], and [Judgment of Declining Life].

All come from the secret technique of Shang Quhan.

As for the secret technique of Yi Nanzhuo, the level is similar to that of Si Kou Yun, and it has the value of practice, but it is not worth mentioning.

"system!"

"Activate the ten-heart martial arts function, practice the universal borrowing method and create a virtual reality!"

Su Lang activated the system function and began to practice the secret techniques of the exercises.

The current one-key martial arts function has been upgraded to level 57, and the martial arts speed is 1920 trillion times the basic speed.

With the support of the ten-heart martial arts function, the martial arts speed has doubled tenfold, reaching 192 trillion times!

Not much time.

Not only can the world borrow the method and create the void, but the rest of the exercises can also be completed!

[Chapter 2765: Su Lang, who do you look down on](#)

It was also when Su Lang was practicing exercises.

In a high-level cosmic region extremely far away from Doudu cosmic region.

The vast and boundless high-level universe is trembling slightly!

Within it, countless star fields were torn apart and destroyed in the time and space whistling waves!

And all this is only because the master here is angry.

However, I saw an incomparably magnificent purple-robed giant standing in the void. The giant's face was handsome and enchanting. It was in the same tune with Shang Qu Han. It was his deity, Shang Jiu Qu!

The reason why he became such a terrifying giant was entirely to vent his anger.

"Damn it!"

"Su Lang child! Choppy! Dead chopsticks!!"

"Knowing that the deity is the eternity of the Nine Universes, he even dared to oppose me and kill me the clone that was hard to cultivate!"

"You can't escape the palm of the deity, the deity will use the cruelest means to torture you until the longevity is exhausted!"

"..."

Shang Jiuqu's expression on his right hand loosened immediately, and countless gravel and soil spilled in his palm, which was a complete star field crushed by him!

For Su Lang.

He hates it to the extreme!

There are only two clones like Shang Quhan!

But now in that remote place, one was killed by the Sulang District Eight Zhou Eternal!

This is not only a great loss, but also an endless shame for him! !

"quickly!"

"Su Lang child! You wait!"

Shang Jiuqu gritted his teeth and rattled, his eyes filled with fierce light!

Soon.

With a wave of his hand, an aura condensed, it was Su Lang's aura!

"Tongyu·God Seeking Technique!"

Shang Jiuqu unfolded the tracking secret technique, turning this breath into a bead!

This was exactly the method used by Shang Quhan to chase Su Lang before, and it was no worse than the "hunting soul" of the treasure hunting ancestors.

There are countless natural universes.

This Tongyu Searching God Orb also locked Su Lang's current position!

"Still Doudu universe has not shifted?"

"Su Lang Miscellaneous, who do you look down upon!!"

Shang Jiuqu observed Su Lang's position, and he was suddenly surprised and angry!

Thinking in another way, if he is in Su Lang's situation, he will definitely move immediately, trying to get rid of the pursuit of the eternal enemies of the Nine Universes, instead of waiting for death in place.

However, Su Lang did not move!

"Do you think he can cope with the deity's attack at any time? He is so arrogant to this point?"

After Shang Jiuqu was furious at Su Lang's "abnormality", he calmed down instead, "No, he is not stupid, maybe he really has support!"

suddenly.

Shang Jiuqu thought of that possibility again

—Su Lang is very likely to be another eternal clone of the Nine Universes or simply rebuilt by the Great Power of the Nine Universes.

Although Su Lang has personally denied it.

But how can the enemy's words be believed?

"Is he really a clone of the Great Nine Universe or rebuild?"

"No, this matter must be investigated, otherwise you can't do it!"

"Anyway, Tongyu Mi Shenzhu has locked Na Su Lang's position, and I am not afraid of losing his trace!"

"..."

Shang Jiuqu took a deep breath, the anger on his face gradually suppressed and turned into calm.

It just so happened.

A piece of information appeared in his mind, this is his other clone, Shang Quyan sent back news.

In addition to Shang Quyan, Shang Jiuqu also has some clones, but the level of cultivation is much lower.

"Shang Quyan, have you finally found a clue!"

A hint of joy flashed across Shang Jiuqu's calm face, and he immediately checked the piece of information.

"Master is here!"

"Qu Yan, fortunately, did not humiliate his life, and finally found the whereabouts of the page of immortality in the Li Xuan universe, and some information!"

"The page of immortality of the Lixuan universe is a complete page of immortality, in the hands of Emperor Lixuan, but he has not assimilated yet."

"..."

After reading the information, Shang Jiuqu showed a smile on his face.

Although he was still very, very upset because of Su Lang, at least it was much better than before.

"The complete page of eternal life!"

"It's more valuable than the torn page in Su Lang's hands!"

"The incomplete page of immortality, even if it is assimilated to a certain extent, can enter the universal white world, it is destined to be unable to walk far in the white world, and the chance of detachment is almost zero!

"..."

Shang Jiuqu thought, with a sneer on his face.

[Chapter 2766: The action of Shang Jiuqu](#)

Soon.

Shang Jiuqu began to give orders.

"I contacted Emperor Li Xuanzhou and offered to trade the page of immortality, let him figure it out."

"Also, check me a person named Su Lang. He is located in the remote Doudu Universe. The characteristics of his fighting methods are..."

The order is here.

Shang Jiuqu suddenly paused.

Because Su Lang's fighting methods are really many!

The weapons are full of eight eternal realms of the eight universes, as well as the top formations of the eight universes, as well as all kinds of strange secret techniques!

But he also paused for a while, and then informed the avatar Shang Qu Yan all these details.

"Yes! Master!"

If Shang Quyan passed his command back, he went down and started to work.

Naturally, he did not do these two things.

Shang Jiuqu's subordinate, although only he and the dead Shang Quhan are two top avatars of the eight celestial universe.

However, there are still many subordinates in the remaining Eight Eternal Realms, and their combat power is not weak, but they are not as assured as the clones.

Next.

Shang Quyan handed over the investigation of Su Lang to the hands of the Eight Sovereigns and Eight Eternal Realms.

These people all got a Tongyu Seeking God Orb, which could lock Su Lang's position.

In addition, there are various characteristics of Su Lang.

"Investigate an eternal warrior at the top level of the eight universes?"

"Doudu Zhouyu? I haven't heard of it, it's a place far away from Lingxu Broken Realm."

"Can such a strong person appear in that kind of place? According to the intelligence, if Su Lang desperately, he is only at the weak Nine Universe level!"

"Don't think so much, quickly launch the intelligence network and start investigating the universe of Su Lang, Doudu, Suiyou, Yilong, etc. Be sure to find valuable information!"

"..."

Eight eternal warriors of the eight universes formed an investigation team, and they were a little shocked by the subjects to be investigated.

But astonishment is astonishment, and the investigation must be conducted.

The eight people quickly dispersed and went to various places to start investigations!

As for Shang Quyan.

Alone, he began to rush to the Lixuan universe, with the goal of the eternal life page in the hands of Emperor Lixuan.

however.

He had just reached halfway through the journey, and suddenly realized that all his Anzi in the Li Xuan universe could not be contacted!

"what happened?"

"Why did all my subordinates disappear?"

"Could it be that they have been cleaned up?"

"It's impossible. It stands to reason that Emperor Li Xuanzhou is just entering the Nine Universe level. If I can clean up my dark child, it would have been cleaned up long ago, why should I keep it until now?"

"Could it be that she only knew about those dark children not long ago and cleaned them up?"

"..."

When Shang Quyan realized that the dark children had lost contact, his brows were frowned, and he felt a bit of a bad feeling.

He immediately reported the matter to the deity Shang Jiuqu.

"what?"

"Emperor Li Xuanzhou killed all my dark sons?"

"Could someone help her? But who would help her?"

Shang Jiuqu was also puzzled for a while. Recently, the frequency of the page of immortality has increased. He has obtained two clues in a short period of time, one for each age and one for Li Xuan.

But Suiyou Zhouyu was killed by someone who cherished a clone.

Now there is a problem on the Lixuan universe, and the Anzi is gone.

Shang Jiuqu knew that it was difficult to get the eternal life page of Emperor Li Xuanzhou!

But he still did not give up.

Emperor Li Xuanzhou's body is a complete page of immortality!

He immediately took out a Tongyu Seeking God Orb, which was condensed long ago, and it was used to chase Emperor Li Xuanzhou.

Soon.

Shang Jiuqu's divine mind swept through Tongyu to search for the orb and found that Emperor Li Xuan Zhou was still in the Li Xuan Zhou region.

"This woman is still in the Li Xuan universe?"

Shang Jiuqu frowned slightly, and immediately ordered Shang Quhan to speed up to the Lixuan universe to investigate the truth.

at this time.

He suddenly changed his expression and squinted his eyes, condensing a temporary avatar.

This temporary avatar left the retreat and disappeared.

When he reappeared, he was already in a bustling restaurant.

The restaurant is not considered high-end, it is just an ordinary restaurant in the city of warriors in the universe of Shang Jiuqu.

The Shang Jiuqu, who controlled the avatar, saw a middle-aged man sitting next to a street window and a sandalwood table through the crowded restaurant.

The middle-aged man seemed to feel the gaze of Shang Jiuqu.

He turned his head, raised the wine glass in his hand, smiled and respected the incarnation of Shang Jiuqu.

## [Chapter 2767: Jing Yunzi and Emperor Li Xuanzhou](#)

"Who is your excellency?"

"Why come to my area?"

With a thought, Shang Jiuqu came to sit down opposite the middle-aged man.

He could detect that this middle-aged man was also the incarnation of the eternal power of the Nine Universes.

When the opponent came, there was no concealment, and there was no hostility on the surface, so Shang Jiuqu didn't immediately make a move.

"Hahaha!"

"Xia Xia Jing Yunzi, I took the liberty to come and disturb!"

The middle-aged man laughed, raised his glass and filled it again.

"Say something straight!"

Shang Jiuqu's expression was cold, and he was upset.

"Friends of Jiuqu Daoist are really quick to talk."

Jing Yunzi smiled and put down the wine glass, "Come here, it is to form an alliance with fellow Dao..."  
at the same time.

In the Li Xuan universe.

A large number of eternal warriors have gathered a large number of cultivation resources and are gathering in the Li Xuan universe on a large scale.

"I don't know why the lord of the universe suddenly gathered me to wait for!"

"There must be something big, otherwise it will never be possible for us to gather the creatures and spiritual resources in the universe!"

"Perhaps, our Li Xuan universe is about to face a catastrophe!"

"There is a domain owner, we must trust the domain owner!"

"..."

An eternal strong man rarely stands on the ground, waiting as humble as a mortal.

Most of them are very nervous.

Because something like this has never happened in the Lixuan universe.

And this approach is no different from the preparation before fleeing.

Fortunately, Emperor Li Xuanzhou is a great power who has entered the level of the Nine Universes, with great strength and prestige!

Therefore, the heart is not particularly flustered.

Not long.

In the waiting of everyone.

A beautiful woman in an ice blue robe emerged.

This girl is like a twenty-eight girl, wearing a thin smoky veil with green water, her shoulders are cut into a waist, her eyes are full of spring water and clear waves, her small cherry mouth is not dotted and red, and her muscles are as condensed as fat and air is like orchids. Zihua appearance.

It is Emperor Li Xuanzhou!

"See domain owner!"

A powerful eternal warrior bowed down one after another, and many of them were powerful in the eternal realm of the eight universes.

"Get up!"

"I'll make a long story short."

"The world of great controversy is coming. It is difficult for our Li Xuan Zhouyu to be alone. I must act."

"Next, I will go to the Suspended Mark Universe, join the Xuanyu Alliance, and set out now!"

Emperor Li Xuan Zhou acted vigorously and resolutely. After speaking, he immediately threw an eternal emperor soldier and turned it into a red long shuttle.

Immediately after.

She leaped and entered the long shuttle.

"Let's go, go to Xuanyu Alliance!"

"Domain Lord, we will go wherever we go!"

"..."

Although an eternal powerhouse did not know what happened, all of them chose to leave with Emperor Li Xuanzhou.

They all entered the red long shuttle, and the entire Li Xuan universe became empty in a blink of an eye.

Sneer!

The red long shuttle suddenly broke through the space-time barriers of the universe and disappeared.

The other side.

As soon as the deity of Shang Jiuqu in the closed chamber thought, the avatar in the restaurant disappeared.

As for the middle-aged man who claimed to be Jing Yunzi, he disappeared first.

"A world of great competition?"

"The higher frequency of the page of eternal life, is it a sign of the coming of the world of great controversy?"

"In the world of great controversy, even an eternal martial artist like me, may not be able to continue practicing safely."

"Therefore, Jing Yunzi is a lobbyist everywhere, to form an alliance to ensure mutual safety?"

"However, this kind of alliance relationship is not very reliable."

"..."

Shang Jiuqu thought in his heart, he didn't agree to Jing Yunzi or refuse Jing Yunzi, only said that he had to consider it.

The latter didn't mind, and left after leaving the contact information.

"The argument of a world of great controversy has yet to be confirmed."

"I don't know much about this alliance, so I won't join it temporarily."

"The most urgent task now is to get the eternal life page of Emperor Li Xuanzhou and Su Lang children!"

"..."

Shang Jiuqu frowned when he thought so, as if thinking of Su Lang's appearance would make him angry.

It was at this time.

Fight in the universe.

"Ding! The practice of the exercises is successful, and "The Source of Devour · You Pharyngeal" has reached the super level!"

[Chapter 2768: Shang Jiuqu finds out Emperor Gujun Zhou](#)

"Another exercise has been completed!"

"Next, practice "Nine Tribulations of Extinction"!"

"After all the exercises collected this time have been practiced, I will come to the source of exercises several times to upgrade a wave of secret techniques!"

Su Lang placed the new exercises on ten martial arts villains to practice automatically, while looking at the clones outside.

The first is the clone of Yilong universe.

The Yilong universe was very close, and Yi Nanzhuo and other eternal martial artists were all finished.

Moreover, Su Lang also obtained a map of the universe of the Yilong universe.

Therefore, the process of exploring the Yilong universe is very smooth.

At present, the entire Yilong universe has been explored, and the clones have come into contact with a farther universe named Fulan.

The Fulan universe is not stronger than the Yilong universe, so it sits in an eternal realm of eight universes.

But for the sake of secretive whereabouts, Su Lang did not move this universe, and neither side had any grievances nor enmity.

Under Su Lang's control.

The clones secretly controlled a few people in the cosmic domain, obtained some cosmic coordinates and routes, and then moved on.

"Based on the information currently available."

"After the Volan Cosmos Region, there are several Cosmos Regions bordering each other, and then the clones will be able to hide better."

"The retreats here are getting more and more perfect, and I will be able to venture more boldly on the Lingxu Fragmented Domain."

"..."

Su Lang thought so, and when he moved his heart, he shared the perception of another part of the clone.

This part of the clone had already crossed the Suiyou universe, passed through more than 20 high-level universes, and arrived at a universe called "Mowei".

"Mowei universe."

"It is the high-level cosmic domain under Shang Quhan! It is also one of the cosmic domains ruled by his deity!"

"From a geographical point of view, it can be regarded as the edge of Lingxu Fragmented Domain."

"Going forward is to truly enter the Lingxu Fragmented Domain!"

Su Lang touched his chin, his eyes showed the color of thinking.

One of his purposes when he went to the Lingxu Fragmented Domain was to obtain more detailed information about the pages of eternal life and the universe and white world.

In addition, the deity of Shang Quhan must be investigated.

After all, knowing yourself and the enemy can win every battle!

"Now I can send some clones to continue to explore the universe ruled by the deity of Shang Quhan."

'There are also some clones, they go deep into Lingxu Fragmented Domain! "

Thinking of this, Su Lang made a decision and continued to send the clones forward.

Finish these.

He continued to accumulate cultivation bases, practice exercises, and strive to push the realm to the eternal realm of the eight universes as soon as possible.

Time passed slowly.

Before long, in the universe of Shang Jiuqu's Tianqu.

"Ok?"

"Is there any news about Su Lang's child?"

Shang Jiuqu, who was in retreat, was overjoyed and immediately checked the information sent by his subordinates.

"Master!"

"Fortunately for my subordinates, I found someone based on the clues you provided!"

"This person is also an eternal martial artist of the Nine Universes, the emperor Gujun, who once stayed in the area of the Doudu Universe."

"After conducting a secret investigation of Emperor Gujun Zhou, his subordinates discovered that the secret technique used by Su Lang is similar to that of Emperor Gujun Zhou!"

"Perhaps, this Su Lang got the inheritance of Emperor Gujun Zhou so that he can soar into the sky and stand out from the crowd in the Doudu Zhouyu!"

"But the subordinates also discovered anomalies, that is, Su Lang's secret technique is too powerful, and the effect is better than that of Emperor Gujun Zhou!"

"In addition, Emperor Gujun Zhou doesn't like to fight, and seldom gets enemies with others."

"..."

After reading the information given by the subordinates.

Shang Jiuqu frowned. If Su Lang is really the descendant of Emperor Gujun Zhou, then Emperor Gujun Zhou will definitely help Su Lang!

"Does this guy Su Lang think that there is Emperor Gujun Zhou as a backer, so he dare to kill my clone unscrupulously?"

"No, it shouldn't be. If he is really a disciple of Emperor Gujun Zhou, Emperor Gujun Zhou will definitely not let him offend me."

"This matter is still strange. The relationship between Su Lang and Emperor Gujun Zhou needs to be further demonstrated, and the investigation must be continued!"

Thinking about this, Shang Jiuqu immediately issued an order to let the terrifying intelligence network under his command begin to exert force and conduct a deeper investigation!

#### [Chapter 2769: Re-enable the source of the exercises to update the secrets](#)

Because there is an exact goal.

So this investigation was launched immediately!

In a high-level universe called "Shuang Yao".

"For so many years."

"Trying luck everywhere to find the nascent universe, collecting materials with specific innate characteristics, finally promoted "Heng Yao" to the top level of the eight universes!"

An old man with a smile on his face is carefully raising his eternal emperor soldier with secret techniques.

If Su Lang would be able to tell the secret technique used by this old man here, it would be the "Secret of Qi Zi".

And the identity of this old man is ready to come out, it is the emperor Gujun Zhou!

Compared with Su Lang's abnormal means of upgrading weapons.

The refining method of Emperor Gu Jun Zhou was normal in the eternal realm.

It often takes countless years, countless materials, countless slow promotion weapons...

Just when Gu Jun was warming up the weapon.

A streamer flew from nowhere, fell to Gu Jun's side, and turned into a small talisman.

Gu Jun glanced, took the Fulu in his hand, and dived into his spiritual thoughts.

"Master Gu Jun!"

"Subordinates got news by accident that there is an outstanding eternal warrior in Doudu Zhouyu, who is suspected to be your descendant."

"Before you let your subordinates pay attention to this moment. After they get the clue, they will report to you immediately. The following is the specific information of that person."

In a blink of an eye, the information in Fulu was finished.

"successor?"

"At the beginning, I searched the nascent universe, and indeed found a person with good aptitude in the Doudu universe and gave him part of the inheritance."

"It's just, isn't that person named Yu Yangli, how is he called Su Lang?"

"Could it be a pseudonym? But he should have no reason to use a pseudonym, after all, he is dominating in Doudu Zhouyu."

"So... Could it be that Yu Yangli was killed and my legacy was taken away?"

"Although the possibility is not great, it still exists."

While thinking about it, Emperor Gu Jun Zhou issued an order to let his subordinates go down to investigate Su Lang.

But he didn't know.

The information he can get about Su Lang is the method used by Shang Jiuqu's subordinates.

at this time.

Gu Jun Zhou Emperor's investigation order was issued.

All the eternal warriors set out to investigate, and they were immediately known by the intelligence network under Shang Jiuqu!

Tianqu high-level universe.

"Oh?"

"Emperor Gu Jun Zhou unexpectedly sent someone to investigate Su Lang?"

When Shang Jiuqu received the information returned by his subordinates, he suddenly became surprised.

The intelligence clearly stated that it was an "investigation", not a pick-up!

"Humph!"

"It seems that Su Lang is not closely related to Emperor Gu Jun Zhou!"

"Emperor Gu Jun Zhou doesn't even know Su Lang's children, he needs to send someone to investigate!"

"So, Su Lang is not a backer, but probably a bluff!"

"Wait, wait, now in a very period of time, it's not worth offending a Nine Eternal Martial Artist whose strength is similar to mine."

Shang Jiuqu thought so, Xuan even let his subordinates continue to pay attention to this matter.

Be sure to figure out the relationship between Emperor Gu Jun Zhou and Su Lang and his attitude towards Su Lang.

Time continues to pass.

In a blink of an eye.

Su Lang had already practiced all the exercises he had obtained in the last war.

I even read all the classics of the Three Paths of Pill Formation Device, and learned all the knowledge that I can learn.

"Finally, I have finished all the exercises and secrets!"

"Shang Quhan's secret techniques, the power is really good!"

"If you use the source of the exercise method to further deduct it, my secret skills will be even more powerful!"

Su Lang rubbed his hands in excitement, and immediately began to update his secret technique.

The techniques he practiced this time ranged from Emperor Wu to Emperor Eternal Eternal Emperor level, and there were countless ones.

Therefore, there is a need to update every secret technique of the source of the exercise.

"system!"

"Activate the function of the source of exercises, deduction update [Bro Yijian]!"

Su Lang gave instructions in his heart.

Suddenly.

The source of exercise function is activated!

Numerous exercises have emerged, condensed into a transparent ball, and finally collapsed and merged, and then exploded fiercely.

Su Lang's body and soul were immediately incorporated into the brand new Po Yi Jian Upi.

"Sure enough, it's stronger than before!"

With excitement in his eyes, Su Lang stretched out his right hand, his fingertips sprayed a sharp sword light.

Where Jianmang passes, time and space are broken!

[Chapter 2770: Dare to mess with me and kill me directly](#)

"So cool!"

"Go on, deduced me [Master of the Universe]!"

Su Lang's heart moved, and he gave instructions again!

then.

Next.

The five source secret skills of the master of the universe, the flash of the universe, the jade of fate, the innocence of life and the severance of no prescription have all been updated.

Every secret skill becomes more powerful!

Among them, the 'Zero Domain Lord' and the 'Zhou Shan' have the greatest improvement.

Because of the secret methods used by Shang Quhan, the "Universal Borrowing Method·Lixu" is the strongest!

This secret technique is stronger than Si Kouyun's [Zhou Yi], once it is deployed, it can even be immune to attacks!

At this time, its effects are all integrated into the new "Zhu Shan" secret technique.

"Weapon has also been promoted."

"The secret technique has also been updated."

"Next, it's my own cultivation realm."

"It's just that from the Seven Eternal Realm to the Eight Eternal Realm, there are a lot of crystal wall universes to be perfected."

"During this period of time, the accumulated cultivation base has not been enough for me to break through."

"Oh, cultivation is really difficult."

"..."

Su Lang sighed with sincere emotion.

Immediately, he decided to use up the accumulated cultivation base first and improve himself.

After all, the deity of Shang Quhan must be eyeing, and may come to attack at any time.

If you are stronger, you can rest assured.

After making a decision.

"system!"

"Activate the function of 'Crystal Wall Universe' and perfect the designated Crystal Wall world!"

Su Lang gave instructions to the system in his mind.

The system executes instructions immediately.

In the mysterious black space, all the gold on the cultivating villain's body faded, and countless cultivation bases poured into Su Lang's body.

After these cultivation bases merged with the Time Avenue, they penetrated into each crystal wall world and merged with it.

In a blink of an eye.

A large number of crystal wall worlds have been upgraded to crystal wall universes, and they have the qualifications to condense the power of the universe.

"The number of Crystal Wall Universes raised this time has reached three thousand gai!"

"The total number of crystal wall cells has reached twelve thousand one hundred and thirty-seven!"

"This number is already close to the threshold of the Eight Eternal Realm!"

"If you can reach 13,000 gai, you can formally enter the Eight Eternal Realm!"

"At that time, the crystal wall universe with an integer number of 13,000 will bring a qualitative increase in strength!"

Su Lang touched his chin, and immediately issued an instruction, "Call up the attribute panel!"

Still not reaching the level of a plus sign.

However, Su Lang's current daily combat power has actually reached the advanced level of the Eight Universes!

"Tsk tut!"

"The clones also have the same combat power as me."

"I am equivalent to one hundred and sixty-eight high-level Eight Eternal Realm subordinates!"

"The key is that these eternal realm subordinates can use the stars and clouds to merge with each other. I don't know if they reach the limit, can they enter the realm of the nine universes?"

"However, even if it does not reach the Nine Universe Level after the fusion, it will definitely be there after using the Secret!"

"If you use the clone self-destruction function, the power will be even more terrifying!"

"With this kind of combat power, you don't need to be afraid of the weaker Nine Universe Eternal Realm, dare to provoke me and kill me directly!"

As Su Lang thought, a smile was drawn at the corner of his mouth.

at this time.

A group of people suddenly appeared in a universe near Doudu universe.

This group of people was upright and was immediately spotted by the avatar dispatched by Su Lang.
