

## One Click 2801

### [Chapter 2801: Enter Frostbite](#)

"Do not!"

"We must quickly let those who stay behind close the space-time tunnel, and then flee!"

"If the Frostbite universe is divided into separate areas, then Su Lang's raiding speed will definitely decrease."

Emperor Gujun Zhou gritted his teeth, his eyes were cracked, his eyes were red, and he immediately gave instructions to the eternal masters who stayed in the Frostbite Universe.

And this is his last stop loss method.

But he didn't know that it was useless to Su Lang at all.

Su Lang's Hundred Shadow clones and the Treasure Hunting Flying Flying Drifters had already penetrated the Frost Obsidian Universe before.

As long as the treasure hunt flying gliders and Baiying avatars have visited, Su Lang can go to any place without any restrictions.

of course.

Su Lang's main goal is the Shuang Yao universe!

at this time.

He has already appeared in the Frost Yao universe, faster than the message sent by Emperor Zhigujun!

Rumble!

The majestic fluctuations in time and space broke out without concealment.

"what's the situation?"

"How can anyone be so bold in the Frostbite universe?"

"Look at this movement, this person's cultivation is not shallow, it is terrible."

"Hmph, this child has violated the rules of the Shuang Yao universe, Master Gu Jun will definitely clean him up!"

"Yes, no matter how strong this person is, can he still be better than Master Gu Jun?"

"..."

In the Shuang Yao universe, the unknowing eternal warriors looked at the place where the time and space fluctuations came, and were a little surprised at first, and then most of them showed sneer.

at this time.

Wow!

Time and space are like waves of water being drained away, and a figure appears in front of several eternal warriors of the seven or eight cosmos who gather together.

Among the previous discussions, these people are also the most disdainful.

But now, feeling the violent Nine Eternal Realm aura on Su Lang, everyone was instantly paralyzed!

"Nine, the Nine Universe Eternal Realm powerhouse!"

"How is this possible? How can the Nine Universe Eternal Realm powerhouse come to our Shuang Yao universe!?"

"Yes, not to mention that we joined the Xuanyu Alliance. Even before joining, there will be no Nine Universe Eternal Realm powerhouses to kill!"

"This, I've heard of this person from Li Hong. He is Su Lang. He should have only belonged to the Eight Eternal Realm!"

"Damn, this person is not good, let's run away!"

"..."

The eternal warriors of the Shuangyao universe looked at Su Lang who suddenly appeared in horror. One of them stretched out his hand and pointed at Su Lang tremblingly, as if an ordinary person saw a ghost!

at this time.

"dead--!"

Su Lang's voice reached everyone's ears!

Suddenly!

The Cosmos Domination Secret Art was activated, and the entire Shuang Yao universe became Su Lang's home field.

Countless forces of the natural universe have been mobilized, forming a powerful attack and killing technique, which directly fell on these warriors of the eight universes and seven universes.

There is no suspense.

Although it was only the power of the [Zhou Territory Master] secret technique, it didn't use other real attack methods.

However, this kind of power is no longer what the ordinary Eight Cosmos and Seven Eternal Realm martial artists can resist.

At this time, Su Lang unfolded the secret technique, and the mobilized power of the natural universe moved with his heart, forming various attacks, which fell on each of the warriors.

Immediately after.

These warriors died on the spot!

A large amount of wealth was collected into Su Lang's storage space as trophies, and piled up into continents of heaven, material and earth.

"Next!"

Su Lang's heart moved and appeared in the second place.

There are also several eternal powerhouses gathering here.

Seeing Su Lang appeared, these eternal powerhouses were shocked and terrified.

Everyone was filled with the thought of running away immediately.

But how can their speed escape the palm of Su Lang?

In a blink of an eye.

A sword light flashed, everyone immediately separated and died completely.

Any of their defensive secrets and dodge secrets have no effect.

"Ding! You got the Eternal Soul\*1..."

"Ding! You get..."

A large number of system prompts sounded, and countless trophies entered the storage space.

"carry on!"

The corner of Su Lang's mouth twitched, and his figure disappeared from the place, and when he reappeared, he was in front of a wave of eternal warriors.

[Chapter 2802: Let's kill without leaving](#)

in this way.

A total of thousands of eternal powerhouses were killed by Su Lang.

The message of Emperor Gujun Zhou reached the Shuang Yao universe.

At this time, he stayed at the senior subordinates in the Frost Obsidian Universe, and all of the eternal realms of the Seven Universes and the Eight Universes were dead.

The Frost Yao universe and its attached high-level universe were completely eliminated by Su Lang!

The remaining eternal strong men flee madly, crying and crying.

Now finally got the order from Emperor Gujun Zhou.

Unexpectedly, it was for them to escape quickly, as well as the order to block the space-time tunnels of the universe.

"Why, why is this so!"

"Why Master Gu Jun would let us run away? Could this enemy even be defeated by him!"

"It's over, our Frost Yao universe is completely finished! Even Emperor Gujun Zhou can't save it!"

"No, this is impossible, Lord Gujun is invincible, no one can beat him!"

"Run away, that big demon is about to kill our universe!"

"..."

One by one, the eternal strong men fled in despair.

But they looked panicked, and most of them were at a loss, because they didn't know where to escape!

The other part has its own escape plan, and has a certain degree of confidence to be able to escape from this flesh and blood mill, so it flees madly regardless of anything.

just.

Whether at a loss or a plan to escape.

None of them can be spared from Su Lang's hands. Everyone will be killed with one blow, directly dead!

Not only the heaven, material and earth treasures collected in a lifetime belong to Su Lang, but also the countless creatures in the body, soul, and body all belong to Su Lang.

It was also when Su Lang started to kill.

Emperor Gujun Zhou has gathered his ambushes near Yilong Universe, and is returning to Shuang Yao Universe at the fastest speed.

However, his speed is really too slow.

"Damn it!"

"It's completely too late!"

"How could Su Lang's combat power be so powerful!"

"According to the original plan, even if he can return to the Frostbite universe, my left-behind subordinates can still hold him back."

"However, he can explode with a combat power that is not inferior to me, and even I am even higher. Instead of trapping him, my left-behind subordinates have become the ants that he can easily kill!"

"Now...most of my subordinates have been killed!"

"Su Lang child, I must kill you, definitely!!"

"..."

Emperor Gu Jun Zhou stopped in some despair in an unknown natural universe, and looked at the jade card of communication with less and less news in his hand. The whole person was already so angry that he was full of anger.

However, he could only furiously incompetently, and there was no way to stop Su Lang.

"I hate it! I hate it!"

"I must take revenge, Su Lang child, you wait!"

Emperor Gujun Zhou roared with a ferocious look, and immediately changed his direction, no longer heading to the Frost Obsidian Universe and the nearby Universe, but hurried toward the Suspended Scar Universe!

The Xuanhen Universe is the headquarters of the Xuanyu Alliance.

There are a number of Nine Universe Eternal Powers gathered here, with concentrated and abundant resources, and the most important thing is safety.

Emperor Gu Jun Zhou knew that if Su Lang could defeat Shang Jiuqu and die, his combat power was definitely stronger than himself.

If he wants revenge, he must further strengthen his own strength.

at the same time.

Shang Jiuqu has similar ideas.

After escaping from Su Lang's subordinates, when he was relatively safe, he immediately rushed to the Suspended Mark Universe.

This is of great benefit to him.

Not only can he find a safer place to heal his injuries, but it can also prevent Su Lang from finding his lair, the Tianqu universe.

But he didn't know.

His whereabouts have been locked by the treasure hunting ancestor glider!

Emperor Gujun Zhou did not know that Shang Jiuqu was locked by Su Lang, and his whereabouts were equivalent to being indirectly controlled by Su Lang.

Because Su Lang can find him and Shang Jiuqu as long as he finds the Suspended Marks Universe!

Time passed slowly.

Emperor Gujun Zhou and Shang Jiuqu swiftly headed to the Suspended Eternal Region.

Su Lang also slaughtered the high-level cosmic regions ruled by Gujun, such as the Frost Yao cosmic domain on a large scale.

As long as it is an eternal warrior who is completely controlled by Gu Jun and has no value to subdue, then kill them all.

If there is any value to subdue, just accept them all and use them as an infinite number of humanoid backup energy.

[Chapter 2803: The grief of Emperor Gujun Zhou](#)

I don't know a few days later.

Emperor Gujun first arrived at the Xuanyan Universe and saw Wan Qixing and Song Yuanchen, but did not see Emperor Li Xuanzhou.

"Gujun Daoist Fellow!"

"You are so anxious, but what happened?"

Wan Qixing and Song Yuanchen saw that Emperor Gujun Zhou's state was not quite right at a glance, frowned and asked.

"Ugh!"

"This is a shame!"

"I wanted to clean up that Su Lang before?"

"Who knows that his combat power is so terrifying that it has surpassed me!"

Emperor Gu Jun Zhou sighed bitterly, his eyes were bloodshot from shame, and there was still a hint of horror in his tone.

And this statement came out.

Wan Qixing and Song Yuanchen looked at each other suddenly, their faces were stunned!

Immediately after.

"Gujun Daoist Fellow!"

Wan Qixing frowned slightly and said hesitantly, "What you said, but the Su Lang who escaped from the top of your tower!?"

"It's that person!"

Emperor Gu Jun Zhou nodded in pain, and the knuckles of his clenched fists were turning white!

"impossible!"

"Friend Gujun, then Su Lang is just an eternal realm of eight cosmos!"

"Although his escape method is very good, but the cultivation base is just like that, it should not be worth mentioning to you, it can only be regarded as a small trouble at best!"

Song Yuanchen said in disbelief, "This level of level makes you so anxious, it looks like you are running for your life?"

Hear this.

Wan Qixing nodded his head in agreement, obviously not thinking that Su Lang could make Emperor Gujun Zhou like this.

"Ugh!"

"I am not in the mood to lie to you."

"That Su Lang is really powerful."

"All kinds of secret techniques make me overwhelmed!"

Emperor Gujun Zhou sighed again, and immediately clapped his hands fiercely, "By the way, before me, Shang Jiuqu had been defeated by Su Lang! He was seriously injured and had to run away immediately!"

"what?"

"This, this, this joke is not funny at all!"

"Then no matter how strong Su Lang is, it's about the same as yours. Can he beat Shang Jiuqu, which is also the upper-middle level of the Nine Zhou Dynasty, seriously injured and dying?"

"This is too incredible, I really can't believe it!"

"..."

Wan Qixing and Song Yuanchen looked at each other, then looked at Emperor Gujun Zhou with disbelief.

"Ugh!"

"What I said is real."

"Shang Jiuqu and I united against Su Lang and tried to besiege Su Lang."

"Shang Jiuqu, as the first one to do it, will consume Su Lang, and then rush to my side to kill him."

"Whoever thinks, Shang Jiuqu suffered a big defeat, and when he fled, he told me that Su Lang was already at the end of the battle."

"I just ran to kill Su Lang, but I never expected that Su Lang had recovered to his peak state in an instant!"

"I have nothing to do with him. Perhaps he is also about to end the time limit of the Secret Art. He didn't entangle with me, and directly killed my Frostbite universe."

"Our battlefield is away from my old nest Shuang Yao universe, separated by a large number of medium and large cosmic regions, but he was killed in the Shuang Yao universe in an instant."

"Now, he killed all my Frost Obsidian Cosmos Domain and its affiliated Cosmos Domain!"

"Su Lang child, he destroyed the home I built for countless years, and I will make him pay the price!"

At this point, Emperor Gujun Zhou was already trembling, his eyes were splitting, and the thick resentment even Song Yuanchen and the other two were stagnant.

at the same time.

From the mouth of Emperor Gu Jun Zhou.

Song Yuanchen and Wan Qixing had a clearer understanding of Su Lang.

In addition to Su Lang's combat power beyond everyone's imagination, his resilience and mobility are also incredible.

Anyway.

The two of them are completely unable to recover from their weak state to their peak state in an instant, and they can also fight against the senior powerhouses of the Nine Universes.

It is even impossible to cross multiple medium and large natural universes instantly!

"This Su Lang is simply too exaggerated!"

"Is this true, Daoist Gujun, you said Su Lang so badly, I think it's so fake!"

"Yeah, I really can't imagine that Su Lang can be so powerful, so powerful that it makes me feel unconfident."

"..."

Wan Qixing and Song Yuanchen looked at Emperor Gujun Zhou with hesitation and disbelief in horror.

[Chapter 2804: This Su Lang is really terrible](#)

"Ugh."

"Now, Shang Jiuqu should also be on the way to Xuanyu Alliance."

"He will not return to his lair, so as not to be chased by Su Lang and destroy his lair."

"It is estimated that it will not be long before you can see Shang Jiuqu and confirm from him that what I said is true or false."

"Unfortunately, my lair has been completely destroyed by Su Lang, and none of the immediate subordinates are spared, they are all dead."

Emperor Gu Jun Zhou sighed for the fourth time, and raised his right hand to cover the place where his left heart was, his old face was wrinkled unnaturally.

"hiss!"

"Daoist Gujun has said so, it must not be false."

"This Su Lang is so terrible, who is he!"

"I didn't look at him directly at the beginning. I never thought he was so terrifying!"

"..."

After listening to Emperor Gujun Zhou's words, Wan Qixing and Song Yuanchen all took a cold breath, and their pupils couldn't stop shrinking.

In their opinion, Gujun Zhou and Shang Jiuqu are about the same as their own.

Then, Shang Jiuqu was defeated by Su Lang, and it was estimated that it would be difficult for the two of them to go up alone.

at this time.

Emperor Gu Jun Zhou spoke again.

"Two."

"Su Lang may be stronger!"

Emperor Gu Jun Zhou took a deep breath and said, "According to the information obtained from Shang Jiuqu, Su Lang still has a variety of powerful eternal weapons and the Jiuzhou Eternal Realm, but they have not been displayed in the previous wars. !"

"Gooooo!"

Song Yuanchen and Wan Qixing swallowed a bit of difficulty at the same time.

According to Gu Jun's words, Su Lang defeated Shang Jiuqu without doing his best! ?

If this is done with all his strength, I am afraid that it will not be able to kill Shang Jiuqu on the spot! ?

suddenly.

Emperor Gu Jun Zhou spoke again.

"More importantly!"

"During the war, I found his martial arts aptitude was the most terrifying!"

"He got my seven-character secret technique, and he has already practiced far more than me. If I use the seven-character secret to fight against it, I will definitely die!"

He looked gloomy and uncertain, and slowly said: "Fortunately, I still have the remaining secret techniques..."

"terrible!"

"This Su Lang is really terrible!"

"Yes! Even if the combat power is so strong, the qualification is so terrifying!"

"If this is to give him some time, I am afraid that he will not be able to reach the top level of the Nine Universe Eternal Realm, and get a glimpse of the higher realm that has never been seen before?"

"..."

Song Yuanchen and Wan Qixing looked at each other, exclaiming, while their eyes flickered.

Su Lang is really as powerful as Gu Jun said.

Then why not talk to Su Lang and invite him to join the Xuanyu Alliance?

As for the contradiction with Gu Jun Zhou Emperor and Shang Jiuqu, as long as you pay a certain price, it should be resolved!

but.

The next words of Emperor Gujun Zhou broke the illusion of Song Yuanchen and the other two.

"Two."

"In my chamber."

"Your attitude towards Su Lang has made him very dissatisfied."

"And a person like him, arrogant and evil, will repay him."

Emperor Gu Jun said in a cold voice, "So, you still don't want to recruit him!"

This statement came out.

Suddenly Song Yuanchen and Wan Qixing were stagnant, and they sighed together.

At the top of Gujun Zhou's tower, they really had a bad attitude towards Su Lang.

Even if Emperor Li Xuanzhou sent out an invitation to Su Lang, it was finally cancelled.

This is enough to leave a gap between Su Lang and Xuanyu Alliance.

If you had to recruit Su Lang, the price to pay would be much higher.

Moreover, Emperor Gujun Zhou and Shang Jiuqu may not compromise.

After all, these two were beaten to death by Su Lang.

One person was overturned by Su Langgan, burned, killed and looted, leaving no piece of armor!

"Friend Gujun, don't worry!"

"Our Xuanyu Alliance is not accessible to everyone!"

"That Su Lang comes from a weird background, he behaves viciously and viciously, and he has made enemies with Daoist Gujun. It is naturally impossible for us to recruit him."

"On the contrary, I will truthfully report this matter to the higher authorities and let the Alliance contribute their efforts to obliterate this Su Lang!"

"..."

Song Yuanchen and Wan Qixing said each sentence.

After hearing this, Emperor Gu Jun Zhou nodded heavily, his face improved a lot.

[Chapter 2805: Upgrade eleven system functions](#)

at the same time.

In a certain high-level universe.

Su Lang sat in a place with extremely abundant cosmic energy, set up an eternal spirit gathering formation method, while cultivating, while organizing the spoils.

This battle.

Severely wounded the nine songs of Shang, and destroyed the fourteen eternal powers of the eight universes!

Destroy Gujun's Frost Obsidian forces, and kill eighteen eternal realms of the Eight Eternal Realms. There are no number of eternal warriors of the Seven Eternals and their lower levels.

Su Lang finally calculated it, the eternal powerhouse killed, regardless of rank, should be around 1.3 million!

Gu Jun's high-level cosmic domains were all killed by him!

Those who survived became Su Lang's never-betrayal servants. The number was about 200,000, and their level was not very high.

After all, the higher-ranking ones are more or less related to Emperor Gujun Zhou, who are sure to kill.

"Tsk tut!"

"Directly killed about 1.3 million eternal powerhouses."

"The resources earned this time are definitely enough to give me a big boost!"

Su Lang rubbed his hands with excitement, and immediately issued instructions to the system, "System, store it in the origin of the universe!"

"Ding! The storage is complete, and the balance is 82.2 billion universe origin!"

"I fork!"

"It's over 80 billion!"

"It's really making a lot of money. I'll go after Shang Jiuqu later and make another wave!"

A hint of surprise flashed in Su Lang's eyes, and he thought, "Now, just upgrade the system functions. The system will upgrade me the one-key practice, martial arts and clone functions!"

"Ding! Consumes 10 billion cosmic origins, the clone dispatch function is upgraded to level 57, the number of clones is +1, the current number of clones is 57, the number of clones is 57, and the number of twins is 57!"

The system prompt sounds.

The number of Su Lang's various clones is increased by one, and the total number reaches 171!

"Ding! Consumes 10 billion cosmic origins, the one-key training function is upgraded to level 58, and the training speed is increased to...3840 trillion times!"

"Ding! Consumes 10 billion cosmic origins, upgrades the one-key martial arts function to level 58, and increases the martial arts speed...3840 trillion times!"

The speed of cultivation function and martial arts function is doubled!

"There are more than 50 billion!"

"Then continue to upgrade system functions!"

Su Lang looked at the balance, tick the corner of his mouth, and gave the order again.

Suddenly.

A series of system prompts sounded again.

"Ding! Consumes 1 billion cosmic origins, the one-click treasure hunting function has been upgraded to level 56, and the number of treasure hunting flying flying gliders is 1920 trillion!"

"Ding! Consumes 1 billion cosmic origins, the one-key alchemy function has been upgraded to level 22, which can make Seven Eternal Eternity and its lower-level pills!"

"Ding! Consume 1 billion cosmic origin, the one-key refining function is upgraded to 22, which can refine Seven Eternity and its lower-level weapons!"

"Ding! Consumes 1 billion cosmic origins, the one-key refining function is upgraded to 22, which can refine the Seven Eternity and its lower levels!"

"Ding! Consumes 1 billion cosmic origins, and the one-key synthesis function is upgraded to level 22. It can be synthesized with the same Seven Eternal or lower level materials and medicines! The synthesis ratio is 5:1!"

By this time, the balance is still 47.2 billion!

Su Lang did not hesitate to continue to consume 1.1 billion, upgraded the one-key empowerment function to level 32, and the number of various empowerments reached 1280!

Finally, there is one-click enhancement.

It also consumes 1.1 billion, the enhancement function is upgraded to level 17, and the number of enhancements reaches 17 times.

"This is all upgraded again!"

"There are 45 billion cosmic origins left!"

"In that case, choose four more system functions to upgrade!"

"Just choose one-key refiner, one-key alchemy, one-key synthesis, one-key strengthening!"

Su Lang thought about it, and immediately gave instructions to the system to upgrade four functions at the beginning.

Suddenly.

Forty billion cosmic origins are consumed.

The one-key refining, alchemy and synthesis functions all reach level 23, and the one-key enhancement function reaches level 18!

So far.

There is still 5 billion in the balance, which is completely enough for the promotion of weapons, and some can be distributed to Chu Xiaobei and other women to help them cultivate.

"Tsk tut!"

"This upgrade is really cool!"

"Eleven system functions have been upgraded!"

Su Lang kept tweeting, his face was covered with a cheerful smile.

[Chapter 2806: The eternal emperor soldiers are promoted to the nine universes](#)

"Next."

"Practice the exercises."

"Although many of the exercises obtained this time have been practiced before, there are also some that have never been seen before. After practice, there are many benefits."

While thinking about it, Su Lang selected an eternal level exercise technique, put it on ten martial arts villains, and started practicing.

Soon.

Su Lang's gaze fell on his weapon again.

At this time, the one-key mixer function has been upgraded again, and all his weapons can also evolve to a higher level!

"First come to Youtian Sword!"

With a gentle move from Su Lang's right hand, Youtian Sword suddenly turned from a hairpin into a small sword, and fell into his palm cleverly.

Very happy mood swings came from Youtian Sword.

Obviously, Xiaoyou also knew that Su Lang was going to upgrade himself again.

"system!"

"Start the enhanced reset effect!"

Su Lang locked the Youtian Sword with his divine mind and gave instructions.

"Ding! After resetting the enhancement, the current enhancement qualitative change effect will be lost!"

The system prompt appears.

The current Youtian Sword has two enhanced qualitative changes.

The first time was an ordinary strengthening qualitative change, and the effect was an increase in overall power.

The second time was a qualitative change of the knowing hit feature enhancement, the power multiplier increased from twice to five times.

"OK to strengthen reset!"

Su Lang did not hesitate and gave the order.

"Ding! Youtian Sword strengthened reset successfully!"

With the appearance of the system prompt, the power of Youtian Sword immediately returned to its normal level.

But then.

"System, evolve Youtian Sword!"

Su Lang's heart moved, and he gave the order again.

"Ding! Consume the Eternal Soul\*10000, the Origin of the Universe\*100 million, the Eternal Realm material Non-Mind Universe Core Crystal\*1000, Duize Gu Yuyuan\*10000...The Youtian Sword evolved into the Seven Eternal Emperor Soldiers !"

The system prompts just ended.

Su Lang issued an instruction again: "Start the one-key enhancement function, target Youtian Sword!"

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthened successfully, Youtian Sword +1!"

"Ding! Strengthening success...!"

The system prompt sounded ten times in succession, but it was not over yet!

Su Lang was ruthless in his heart, and continued to strengthen the Youtian Sword, until he finished fifteen times of strengthening and then stopped!

And now the Youtian Sword.

Has successfully entered the level of the Nine Universe Eternal Realm!

In addition, three opportunities to strengthen qualitative changes were also obtained.

"Start the enhanced qualitative change function, target Youtian Sword!"

Su Lang did not procrastinate and gave the order again!

"Ding! Consuming eternal grade material Tianluo Fuyao Shi\*11214...The Youtian Sword has been successfully strengthened!"

"Ding! Consume eternal grade materials to realize Zen Emperor Jiyu\*85755...The Youtian Sword has been successfully strengthened and transformed!"

"Ding! Consume the eternal grade material to return to Yuan Lei Fengjin\*45898...The Youtian Sword has been successfully strengthened!"

The first time the effect of the qualitative change was strengthened, the Nether Heaven Sword's devouring power was strengthened.

The current Youtian Sword can absorb the enemy's attack to a greater extent and turn it into its own use. It is a magical skill for defensive counterattack!

The second time to strengthen the qualitative change effect is the characteristic of Youtian Sword's knowing blow, which is also five times the power.

The third time to strengthen the qualitative change effect is to increase the overall power of the Youtian Sword, making it directly from the level of entering the Nine Universes from the beginning to the intermediate level of the Nine Universes!

In general.

The power of Youtian Sword is considered to have raised a realm as a whole!

And the Nine Eternal Realm Emperor Soldiers, even the senior Nine Eternals, few people can possess.

Like Gujun and his ilk, they are not the eternal emperor soldiers of the nine universes, but only the eight universes.

"Next."

"The second weapon, the eight-sided shield!"

Su Lang inserted the extremely delighted Youtian Sword into his hair bun, and immediately took out the eight-sided shield of the sky.

After the same process.

The eight-sided Shield of Heaven also evolved into the Seven Eternal Realm, with fifteen external strengthening and qualitative changes three times.

In addition.

Su Lang still had a characteristic swallowing function, which caused the Heavenly Eight-Edged Shield to swallow the 'invulnerable' characteristic.

At last.

The effects of the three enhanced qualitative changes of the Heavenly Eight-Edged Shield are: the anti-injury characteristic, the invulnerable characteristic and the indestructible characteristic are qualitatively changed.

The defensive ability of Tianjia's eight-sided shield has also entered the middle and lower levels of the Nine Eternal Realm.

Immediately after.

Su Lang continued to promote the weapon.

The sword of life, the mirror of reincarnation, the nest of civilization, and the four incense emperor soldiers have all increased rapidly!

### [Chapter 2807: Raising the Boundless](#)

These seven eternal weapons.

Su Lang also fully used the characteristic swallowing function, devouring some of the weapon characteristics that had just been captured.

The characteristics of the Sword of Life Swallowing are all related to reducing consumption and increasing power.

The swallowing characteristics of the Reincarnation Realm and the Nest of Civilization are related to the power effect and range of influence.

Heart-piercing lock originally has the characteristics of 'fatal penetration' and 'killing the soul', at this time there is an additional 'weapon clone' characteristic.

The weapon clone feature allows the weapon to mobilize the natural cosmic energy and instantly replicate another self.

For the piercing lock, it has eight black jade chains.

With the weapon clone feature, when launching an attack, sixteen black jade chains can be displayed!

Let's talk about the beautiful scenery.

This weapon originally had the characteristic of 'Ultimate Rhythm', capable of stacking three attacks simultaneously.

At this time, there are more occult characteristics.

The invisibility feature, as the name suggests, can make Jinghua Shuiyue's attack more difficult to detect!

Originally Jinghua Shuiyue's attack was a silent illusion weapon. At this time, getting the concealment feature is no different from adding more wings!

In addition, Jinghua Shuiyue also has a chance to swallow characteristics.

Because there is no suitable innate characteristics for it to swallow, it is temporarily empty.

Then there are Qibao Miaoshu and Zijin Gourd.

The former has swallowed the characteristics of the 'Instant Method', and the speed of deploying the Seven Treasures of Light is greatly increased, and it can cover the opponent's weapon almost instantly.

On the basis of 'invulnerability', the latter has swallowed the characteristics similar to 'indestructible', but it is somewhat similar to the eight-sided shield of Tianjiao.

In fact, there are not many types of things like innate characteristics.

Some similarities can be regarded as the same characteristics.

These seven weapons have similar characteristics, but they are normal.

The avenue is simple, and the innate characteristics are not complicated. Normally, there are more innate characteristics, and the power is very strong.

After devouring the innate characteristics for seven weapons.

Su Lang has completed ten enhancements for these weapons, and all enhancements have been changed twice!

The power of every weapon, or its special effects, has skyrocketed.

at this time.

These weapons have already entered the Nine Eternal Realm!

Although because of the material.

These weapons are all at the beginning of the Nine Universes.

Of course, this is already very impressive, how many Nine Eternal Big Brothers do not even have a Nine Eternal Emperor Soldier!

But Su Lang owns nine pieces!

This isn't the limitless number yet.

I don't know if Su Lang possesses so many Nine Eternal Level things that the other Nine Eternals know, will it make his teeth broken with jealousy.

"Finally, it's the Infinity's turn!"

Su Lang returned the nine weapons that had been upgraded to the storage space, and soon took out the Infinite.

The last time Boundless was promoted, it had reached the advanced level of the Eight Universes.

This level can already be used in the battle of the Nine Universe Eternal Realm, but the loss will definitely be more serious.

Before dealing with Shang Jiuqu and Gu Jun, Su Lang had tentative thoughts in his heart, and he didn't sacrifice the Infinity.

Otherwise, whether Shang Jiuqu can escape or not has to be discussed.

"system!"

"Start the enhanced reset function!"

Su Lang locked the Infinity with his divine mind and gave instructions to the system.

"Ding! After resetting the enhancement, the current enhancement qualitative change effect will be lost!"

The system prompt appears again.

Su Lang used his will to confirm the need to reset and strengthen, and the system automatically completed the strengthen reset of the Infinite.

Suddenly.

The breath of the Infinity plummeted.

"Start the weapon evolution function!"

Su Lang activated the system function again and began to evolve the parts of the Infinite Number.

With the input of countless materials.

Every component in the Infinity has been upgraded.

There are a total of 120,000 parts, and thousands of them have reached the Seven Eternal Realm!

There are already tens of thousands of people who have reached the level of six universes!

The lower level, as the level is lower, the number also increases.

When the evolution is complete.

Su Lang has completed ten enhancements and two enhancement qualitative changes without stopping!  
then.

In the 'empty' state of the Boundless, it already possesses the power of the lower level in the Nine Universe Eternal Realm.

#### [Chapter 2808: The loot is cleared](#)

"Boundless, terrifying!"

"If it is a full-time resident martial artist, I wonder if it can reach the advanced or top level of the Nine Realms?"

Su Lang touched his chin and smiled satisfied.

So far.

The weapon was completely upgraded again.

And next.

It is once again sorting out all kinds of spoils, such as eternal weapons, eternal life universe, eternal body and so on.

Previously, when it swallowed the characteristics of weapons in hand.

Su Lang carefully screened the seized eternal weapons.

Weapons with powerful innate characteristics were saved by his transfer of characteristics to special 'tool weapons'.

Then all the captured eternal realm weapons were broken down into countless materials by Su Lang.

Almost all of the artificially refined treasures were decomposed by Su Lang.

Finish these.

Su Lang again began to pick and choose among millions of eternal life universes and more endless crystal wall universes.

All valuable treasures were taken into his inner world by him.

After being put into the living universe or the crystal wall world, crystal wall universe, it merges with the original living planet and continent.

Suddenly!

Countless worlds in Su Lang's body upgraded crazily.

Each world has become extremely rich, and the practice of the practitioners in it has become easier and easier. Masters have emerged in large numbers, and generations are stronger than generations!

Eternal life universe and eternal body after selection.

Su Lang distributed it to his companions and subordinates, allowing them to upgrade their Crystal Wall universe.

After the division, what is left is stored in the remaining division body for spare use.

In the end, the eternal body that became an empty shell was thrown into the nest of civilization.

After the nest of civilization is swallowed, countless evolutionary spores will be produced.

At present, the warriors evolved from the spores produced in the nest of civilization are all gifted in the ordinary natural universe, and they can be called tianjiao!

Under the acceleration characteristic of Spore and Su Lang's Time Avenue acceleration.

The creatures that come from these spores are progressing very terribly!

In a short time.

A large number of martial arts experts will be born and develop into an extremely powerful cultivation civilization!

"So far."

"The spoils are almost handled."

"I am now capable of killing Gu Jun and Shang Jiuqu."

With a tick at the corner of Su Lang's mouth, the perception sharing function was launched.

Suddenly.

The sights of the treasure hunting ancestral glider and the clone appeared in front of them.

But seeing them still chasing, it can be seen that Shang Jiuqu is still advancing.

"In this direction, I don't know if it is Shang Jiuqu's lair."

"If it is really his lair, then I can catch up and kill him, and earn him a fortune!"

"Well, although you can quickly catch up with Shang Jiuqu with Xing Cuanyun He clone, there is no need, let him lead the way first."

Su Lang paid attention to the vision of the clone and the treasure hunting ancestral glider, and he began to rest.

But soon he was bored everywhere with perfect leaning to occupy the avatar, doing things to pass the time.

The other side.

Emperor Gujun Zhou was still waiting for Shang Jiuqu to come in the Xuanyu Alliance.

Now he has contacted Shang Jiuqu and knows that Shang Jiuqu is coming here.

There is also Song Yuanchen who is waiting together.

As for Wanqihang, he left to report on the situation.

"Still not here....."

"It seems that Shang Jiuqu is really hurt, and the speed has become so slow!"

Emperor Gu Jun Zhou was holding the jade card for communication in his hand, his brows frowned slightly.

"Will Su Lang catch up?"

Song Yuanchen pondered for a moment, then suddenly smiled, "If he dares to catch up, then he will hit the blade of our gun!"

"It is possible."

"Then Su Lang child seems to like...buying his home! He should really want to go to Shang Jiuqu's lair to burn, kill, and looting!"

"Now there is no news about Su Lang from Shuang Yao and the nearby universe.

Presumably he has already left there, and Shang Jiuqu is seriously injured, he is likely to pursue Shang Jiuqu! "

A hint of thought flashed in the eyes of Emperor Gu Jun Zhou, and he nodded slightly.

"Haha!"

"If this is the case, no matter how strong he is, he will die in our hands!"

Song Yuanchen smiled, "When the time comes, you will be able to take revenge on fellow Taoists!"

## Chapter 2809: Leader of Xuanyu Alliance

"exactly!"

"The strength of the Xuanyu Alliance cannot be shaken by Su Lang children."

"If he really catches up, that's the way to die!"

Emperor Gu Jun Zhou smiled coldly, and immediately said, "However, I need to invite Shang Jiuqu sooner, so Su Lang can't catch up with Shang Jiuqu!"

"Fellow Daoist said well!"

Song Yuanchen nodded in agreement, and then turned to look into the distance, "Look, Friends Wan Dao brought someone here!?"

The voice just fell.

Not far away, five figures suddenly appeared.

Among them are Wan Qixing, a gray-haired old man, a middle-aged man, a young beautiful woman, and a boy with braids.

among them.

The braided boy faintly headed!

However, its external image is a bit strange.

He looked like a boy, seven or eight years old, but he wore a very solemn and generous robe, and his face was very serious.

The other three people, the gray-haired old man, the middle-aged man, and the young beautiful woman, have good auras, and they are all powerful in the Nine Eternal Realm.

"Leader!"

Song Yuanchen waited for someone to fly closer, and immediately held a fist at the boy.

"Free gift."

The boy-like leader nodded and looked at Gu Jun.

"In Xia Gujun, I have seen the leader."

Emperor Gujun is neither humble nor overbearing, and bows his hands.

"Taoists don't need to be polite."

"All of you are honored to take the position of the leader."

"Now Daoist Gujun has joined our Xuanyu Alliance, and is a member of the Xuanyu Alliance. Your trouble is my trouble."

The leader of Xuanyu returned the courtesy sternly, and said solemnly, "At present, I already know about Frost Yao's universe, then Su Lang, I will never let him get better!"

Although the leader of Xuanyu also wanted to recruit Su Lang, this super talent, or super old monster.

But first, there was a rift with Su Lang, and second, the Xuanyu Alliance was in the stage of income growth.

If a member of the alliance encounters trouble, not only does not help, but also helps its enemy deal with this member of the alliance, then the alliance will do its best.

and so.

For Su Lang, the leader of Xuanyu must speak up!

"Thank you, Lord Leader!"

"In the future, I will be lonely and loyal to the League."

Emperor Gujun Zhou looked at the solemn and serious Xuanyu leader, holding his fists in a confession.

"I said no need to be polite."

"Gujun Daoist, this is some benefits distributed after joining the League."

"I still have things to take care of. For Su Lang, Song Yuanchen and Wan Qixing will help you solve it."

Leader Xuanyu waved his hand and said, "With Shang Jiuqu, there are seven of you, and you should be able to deal with Su Lang!"

"Seven people can deal with him alone!"

Emperor Gu Jun Zhou nodded, he didn't believe it either. There were seven people on his side, so why didn't he turn Su Lang? !

"Ok!"

"I'll go ahead."

"Waiting for your good news."

Leader Xuanyu nodded, his figure gradually faded away.

There were three people left in the same place: Gu Jun, Wan Qixing, Song Yuanchen, and the gray-haired old man.

Then came some greetings and recognition.

The gray-haired old man was called Tongding Zhou Emperor, the middle-aged Han Dynasty was called Fan Mengzhou Emperor, and the young beautiful woman was called Fengfen Zhou Emperor.

"Trouble you all this time."

"Then Su Lang has a lot of secrets, and there are a lot of benefits. After killing him, I will divide it up later!"

"Now, please come with me!"

Emperor Gujun Zhou promised to give benefits, bowed his hands to everyone, and immediately began to lead the way to respond to Shang Jiuqu.

"Good talk!"

"Even if there is no benefit, we have to kill Su Lang."

"That is, people who dare to move our league, simply don't know how the dead words are written!"

"..."

Everyone laughed and followed.

at the same time.

In a certain natural universe.

"call!"

"The injury must be stopped and dealt with!"

Shang Jiuqu found a place full of energy in the universe, spit out a mouthful of scarlet turbidity, and stopped.

The battle with Su Lang has already hurt his roots!

Especially after using the [Jilan·Miesheng] secret technique, his life is in jeopardy.

If it hadn't been for the last use of [Jimei Renmaru] to absorb the vitality of his subordinates, it would be uncertain whether he could escape here.

[Chapter 2810: Why did you stop here](#)

Now I escaped for so long in one breath.

His state is a bit unstable again.

Fortunately, the distance to escape now is far enough, and it is also very close to the headquarters of the Xuanyu Alliance, which is considered a safe zone, so you can relax.

Sitting in a remote and hidden universe.

Shang Jiuqu took out countless healing medicines from his body and began to heal himself carefully.

just.

The size of the Nine Universe Eternal Realm is really too big, and his injuries are too serious.

In addition, his healing medicine is only in the Eight Eternal Realm, and the quality is not very good, so the recovery speed is relatively limited.

time flies.

Shang Jiuqu gradually recovered 30% of his injuries, barely possessing some combat power.

"Stabilize."

"Su Lang hasn't chased him, so he should have given up chasing."

"However, you still have to go to the Xuanyu Alliance, it is safer there."

Shang Jiuqu thought so in his heart, and immediately prepared to set off on the road.

But at this moment.

"Squeak!"

A black golden flying squirrel suddenly appeared not far away from him.

Immediately afterwards, a young man also appeared silently, without causing any temporal and spatial fluctuations!

Shang Jiuqu was stunned by this scene.

Soon.

"Su——Su Lang!!!"

His eyes burst open, his vellus hair stood upright, and even his hair was about to rise into the sky!

"Oh, lying noisy."

"Why did you stop here!"

"I still expect you to take me to your lair. Go and go, just as if I didn't see you."

Su Lang leaned over the doppelganger, looked at Shang Jiuqu in astonishment, then waved his hands hurriedly and even turned around.

Suddenly.

Shang Jiuqu was dumbfounded, and immediately felt severe humiliation!

The first thing Su Lang catches up with him is not to attack, but to be astonished, then pretend not to see him, let him lead the way...

The endless shame turned into a raging flame, which filled Shang Jiuqu's whole body, erupting from almost every pore!

but.

He dare not do it!

Although the breath of 'Su Lang' in front of him is not very strong, it is Su Lang, and you can't look at the surface!

Shang Jiuqu, who had only recovered from his injury, swallowed a mouthful of saliva, and immediately began to escape!

But at this moment.

Strong time and space fluctuations came from one after another, like a large mountain collapsed in a calm lake, setting off a strong time and space tsunami!

"this is!!"

"Gu Jun!?"

Shang Jiuqu felt a familiar breath, and suddenly he was surprised!

Immediately after.

He saw Gu Jun and five other people appearing, each of which is the eternal power of the Nine Universes!

"Friends in business, we are late."

Gu Jun flew to Shang Jiuqu's side and bowed his hands, "These are all masters of the Xuanyu Alliance, come to help me and wait for Su Lang!"

"Friends of Shang Dao, I have kept you waiting!"

"With us, Su Lang will definitely die!"

"Hahaha, this is the advantage of joining the league. If one person has difficulties, everyone will help!"

"..."

Wan Qixing and others flew to Shang Jiuqu's side, smiling and arching their hands.

"Six eternal powers of the nine universes!!"

"Haha, it's safe, completely safe!"

Shang Jiuqu looked at the eternal powers of the Nine Universes around him, he was immediately relieved, and he hurriedly responded one by one, thanking everyone for their help.

"Some things will be said later, let's kill this Su Lang first!"

Emperor Gu Jun stared at Su Lang all the time, his eyes were vicious, "This son will destroy my lair, I must kill him personally!"

This statement came out.

The people who were paying attention to Su Lang were distracted, and they all turned around immediately, staring at him firmly!

"Su Lang child!"

"Today is your death date!"

"With the six of us here, no matter how many means you have, you will have to die at my feet!"

"..."

Wanqixing, Song Yuanchen and others' eyes flashed cold, killing intent revealed!

They all knew many of Su Lang's methods and understood that Su Lang was not as weak as it seemed.

However, they are now seven people!

Even if not counted as Shang Jiuqu, there are six eternal realms of Nine Universes!

This is definitely a super lineup that is difficult to appear once in a trillion years!

Such a powerful team, against a Su Lang, will definitely catch it!
