

One Click 281

[Chapter 281: Give me all 10,000 copies!](#)

At this time, people still coming and going downstairs in alchemy.

However, none of the students who bet against Su Lang dared to come back, after all, they were afraid of shame.

"It's time to make alchemy to make money!"

Looking up at the towering purple-black alchemy building, Su Lang's mouth was outlined with a look of expectation.

Immediately, he wore the golden student badge on his body so that no one would come and cause trouble without long eyes.

Wearing a gold badge, Su Lang walked towards the Sixth Alchemy.

When the surrounding Silver-level students looked over, they all showed admiration and envy.

Those who are also gold-level students also cast their kind eyes.

They never thought that a few hours ago, Su Lang was still a discriminated potential student.

Without the reaction of the people, Su Lang walked straight into the alchemy building and successfully reached the 24th floor.

The 24th floor is where the 8th-order pill is refined.

There are almost everything needed for the 8th-order pill!

The place where the materials are sold is a bit like a traditional Chinese medicine shop in Su Lang's previous life

—A large bar in the front, and a huge cabinet at the back. The cabinet is covered with small drawers with the names of materials written on them.

These drawers look very small, only the size of a ring box.

But it is a space treasure, it can store a large amount of medicinal materials, and there is no need to worry about preservation!

At this moment.

In front of the bar stood a few students buying materials.

And behind the bar stood some gold-level students who acted as staff.

They talked quietly, not caring about Su Lang's arrival.

"Hello, I am a closed disciple of Anxin Mentor."

"I want to use the mentor's privileges to purchase alchemy materials!"

When he came to the bar, Su Lang said straightforwardly, and handed out the red badge given by An Xin.

As soon as he showed the red badge, the students who were talking were shocked and couldn't help but looked over!

"I'm going, it's a mentor disciple badge!"

"Hey, this...senior...who is it? Why have I never seen it?"

"I don't know, it's so enviable to be a closed disciple of the mentor!"

"Yes, being a mentor disciple can not only receive instruction at any time, but also various privileges!"

"..."

Everyone looked at Su Lang enviously, wishing that they could become a disciple of a mentor.

At this time.

A staff member carefully caught Su Lang's badge.

After checking, he respectfully returned it back.

"How much discount do I get when I buy materials?"

Su Lang collected the red badge and asked faintly.

"Senior!"

The staff respectfully said, "If you use the privileges of the instructor, you can get a 50% discount on the pill materials purchased on this floor!"

As soon as this statement was made, the rest of the students suddenly showed even stronger envy.

There is even a strong jealousy and hatred in some people's hearts.

However, due to Su Lang's identity, they dare not show it.

"50% off? Not bad!"

"Then, all the 18 kinds of 8th-order pills recorded on this list will give me 10,000 copies!"

Su Lang nodded in satisfaction, and then handed a list to the staff.

However, the staff froze there with a dull face.

And not only him, but the other students and staff also had violent eyes, staring at Su Lang like a ghost!

"What are you doing in a daze?"

"Get me the materials quickly!"

Su Lang frowned when he saw the staff were not picking up the list.

"Uh, senior..."

The staff asked with a strange face, "You can't sell the materials of the alchemy building, do you know!?"

"Of course I know!"

"Do you think I am buying these medicinal materials for sale?"

Su Lang raised his eyebrows, "My great mentor disciple, would you do this kind of dishonest thing?"

The staff pursed their lips, not knowing how to answer.

At this time.

"Ha ha!"

A gold-level student next to him sneered:

"Classmate, if you don't sell it, what do you want so many materials for? Can you run out?"

This person is one of the guys who was jealous before.

Seeing the opportunity at this time, he immediately sneered unceremoniously!

Seeing this scene, the other students who were jealous of Su Lang immediately showed their indignation and gradually gathered around.

[Chapter 282: This classmate, you are so smart](#)

Glancing at the students surrounding him, Su Lang hooked his mouth, revealing a touch of disdain.

Seeing Su Lang's face of contempt, the jealousy in the hearts of the students couldn't help but become more intense!

They speeded up their pace and surrounded Su Lang in the middle.

"Classmates, although you are a disciple of a tutor, you can't break the rules of the institution!"

"That is, there are 18 kinds of pill materials, and each pill material takes 10,000 copies, so that adds up to 180,000 pill materials!"

"180,000 copies of materials, even if it takes half an hour to refine one, it will take a full ten years to complete the refining. Don't you want to stay here for ten years?"

"How could you stay here for ten years? You just want to go out and sell materials with you, and make use of the mentor privileges to make the difference!"

"Hmph, while you haven't made a big mistake yet, take back what you said before, we will treat it as if we didn't hear it!"

"..."

Everyone stared at Su Lang closely, and they were sure that he wanted to resell the medicine.

"Ha ha!"

"Isn't it 180,000 medicines?"

"These medicinal materials are indeed a lot for you, because you spend too much time refining a pot of pill."

Surrounded by the gold students, Su Lang smiled calmly, "But I am different. My alchemy speed is enough to allow me to use up all the materials in two or three days."

As soon as this statement was made, everyone's expressions were stagnant, and they looked at each other, their expressions gradually becoming gloomy.

What Su Lang said was completely despising their slow alchemy.

"Humph!"

"You are a mentor disciple, and your talent is definitely good, but talent is not equal to strength!"

The gold student who spoke first said loudly, "You are now a gold-level disciple like us, how fast can you refine the pill?"

"Yes! You are just talking nonsense."

A golden student agreed, "A full 180,000 pieces of materials have been refined in two days. Is it possible that you can refine a pot of pill in one second? What a joke!"

"Hahahaha!"

"This classmate, you are so smart!"

Su Lang laughed, "I can really refine a pot of medicine in one second!"

"Nonsense!"

One person opened his mouth and cursed, "Refining a pot of pill in one second? Are you going to burn the alchemy materials as firewood!?"

Another person opened his mouth and cursed: "You relied on being a mentor and disciple, and you bought so many materials at a low price. Even if you didn't sell them, you were planning to spoil them! You bastard!"

"Ha ha!"

"Does the university set a limit on the purchase amount of materials? No way!"

"Since there is not, as long as I have spirit stones, I can buy as many as I want. Can you control it?"

"Furthermore, the medicinal materials I want will not be wasted by me, but will contribute their greatest value!"

"In contrast, if these materials are used by you, it is really wasted and wasted. A group of waste dared to twitter in front of me, and quickly get me away!"

Su Lang looked around at the crowd, stunned everyone, unbelievable.

"you!"

"You shameless fellow!"

"Not only to waste our academic resources, but also to say that we are waste!?"

"You are so arrogant, you dare to compare alchemy with us!?"

"..."

The students glared in anger, their cheeks bursting red, and they wanted to tear Su Lang.

"Compared with me? Just you?"

The corner of Su Lang's mouth roused, "Sorry, you are not qualified to be tied together!"

"Extremely arrogant!"

"You are also a golden student, how can you be better than us?"

A golden student growled with his eyes wide open, "The reason you refuse is nothing more than fear of failure and fear that we will expose your old bottom!"

As soon as this was said, everyone echoed.

"Yes! You just don't dare to compare with us, so you belittle us."

"Yes, bragging rubbish, if you have the ability, compare us with alchemy!"

"..."

The students were filled with righteous indignation, and they continued to provoke Su Lang.

"Ha ha!"

"Originally I didn't want to hit you!"

Su Lang sneered, "But you have to compare, then I will let you know how wasteful you are!"

[Chapter 283: I singled out all of you!](#)

"Huh, do you really think you are invincible?"

The first student who mocked Su Lang coldly snorted, "See how I teach you!"

"you?"

"I'm talking about comparing with you!"

"You trash together, I will single you out!"

Su Lang showed disdain, and immediately looked around at the rest of the students and the staff in the bar, "If you don't make a difference, join in, I will convince all of you!"

As soon as these words came out, the entire 24th floor of the alchemy building was silent, and everyone was shocked!

Too arrogant, too presumptuous, too arrogant!

They are both at the gold level, so they have to single out all the personnel on the 24th floor!

This is so maddening that there is no one before and after no one!

On the 24th floor, everyone was staring at Su Lang with a blank stare, his eyes were like looking at another lunatic.

After a moment of silence.

Everyone, look at me and I look at you, sneers and sarcasm gradually appeared on their faces.

"Hahaha, I think you are crazy, you want to single out all of us?"

The student who provoked Su Lang laughed and said, "Do you know that among us, several of us are not inferior to platinum students!"

"What about platinum students?"

Su Lang sneered, "Even if you are all platinum students, you are still **** in front of me."

As soon as his voice fell, the irony on everyone's faces suddenly turned into deep shock again.

"Fuck! You can say that, is this guy really crazy?"

This idea is in everyone's mind, but what they don't know is that what Su Lang said is the truth!

"It's crazy!"

"Isn't he just a mentor disciple? To be so defiant, I must teach him today!"

"I also want to teach him, let's compare with him together, strive for everyone to beat him, let him know what it means to be someone outside!"

"Yes, yes, I want to defeat him, let him taste the taste of failure!"

"Students, we must swell his face today!"

"..."

Everyone tells me what you say, almost everyone is clamoring to compete with Su Lang.

"Since you all compare, it's better to play together."

"As long as any one of you can win me, it is considered a loss."

Su Lang had a faint smile on his face, "But if you all lose to me, you have to apologize to me, and you have to pay me 180,000 spiritual stones for alchemy materials."

To be honest, Su Lang's bet is not big, it can be said that he does not bully at all.

A full set of alchemy materials for 180,000 copies of the 8th-level pill, each worth about two thousand low-grade spirit stones, adds up to only a few million middle-grade spirit stones.

This bet is far worse than the huge bet in the assessment hall.

"Humph!"

"We will lose? Impossible, only you will lose!"

"And if you lose, you must not only apologize publicly to all of us, but also stop the abuse of the privilege of the instructor disciple, and you must not abuse the privilege of the instructor disciple in the future!"

"..."

Everyone, you and me, set the bet.

Su Lang smiled and said: "The bet is determined, then you can talk about how to compare?"

"Before you said your alchemy speed is very fast, we are better than this, not better than others!"

"It's like Kaiyang Turtle Marrow Pill, ten materials, see who can refine these ten materials first without fail."

A golden student said, "Except for these two conditions, the others are not within the scope of the outcome, including the quality of the pill."

This student's proposal was approved by all the students.

Finally, one more item is added-the materials used in the competition shall be borne by the participants themselves.

"Then compare it."

Su Lang smiled faintly, and immediately purchased ten ingredients for Kaiyang Turtle Pill.

The other students also bought the materials one after another, staring at Su Lang with a sneer.

"It's 12:25 in the morning."

"Wait five minutes, half past twelve is the start of the game!"

A staff member acting as a referee looked at his mechanical watch and said.

As soon as his voice fell, everyone found a place to take out the pill furnace and began to adjust the state.

In sharp contrast, Su Lang didn't even bother to take out the Pill Furnace at all, so he watched indifferently.

Seeing that Su Lang was so careless, the sneers and sarcasm in the hearts of all the students couldn't help but grow stronger.

[Chapter 284: Shocking operation](#)

In an instant, 5 minutes passed.

With the referee's order, all students began to process the materials.

Because this time I don't pay attention to the quality of the pill, just refining it successfully, so everyone used the fastest speed.

And when all the students were processing the materials at full speed, Su Lang also moved.

But he did not process the material!

"Condensation!"

Su Lang thought, a group of crape myrtle indefinite fire condensed into a pill furnace.

After using this pill furnace once, Su Lang decided to abandon the traditional pill furnace.

Because the pill furnace of Ziwei's indefinite fire is so easy to use.

Not only the temperature can be changed arbitrarily, but the shape can also be changed at will, the beauty of which is beyond words.

As for the problem of the flame pill furnace being difficult to control, it did not exist for Su Lang.

In the first place, the crape myrtle unfixed fire was a different fire, and after refining, it could move with its heart.

Secondly, Su Lang's mental power has reached the fogging level, and he can already interfere with reality. It is too easy to control the flames that are like arms!

Of course, using flames to condense into a pill furnace to refine alchemy is a shocking thing in the eyes of others.

Those students who were dealing with materials saw Su Lang's actions like this, and their faces were shocked and dull, and they didn't even know that the materials in their hands fell on the ground.

After a while, there was a buzzing voice on the 24th floor of the quiet alchemy building.

"This guy's flame seems to be a crape myrtle indefinite fire!"

"Fuck, isn't this the most suitable different fire for alchemy?"

"He is such an arrogant guy, how can there be such a good flame, are you blind?"

"Hey, it is said that Anxin mentor has Ziwei, but this guy is not a disciple of Anxin mentor?"

"I heard that Mentor Anxin has no disciples... By the way, we have never seen this guy before. Is he a new disciple accepted by Mentor Anxin?"

"It should be, my God, why would Mentor Anxin like such a guy?"

"Hey, you said that he didn't deal with any materials. Why do you want to condense the flame?"

"It is said that Ziwei's indefinite fire can turn into a solid state. Seeing his condensed shape, it seems to be a pill furnace!"

"What? Condensed pill furnace? He intends to use the pill furnace condensed by Ziwei's indefinite fire to make alchemy?"

"My day, there is still this kind of operation? This special will definitely fail the alchemy!"

"This guy just came out to pretend to be forced, and he will definitely fail later!"

"exactly....."

Everyone talked a lot, and then suppressed the shock, while processing the materials, while observing Su Lang's movements from the side.

Soon after, they saw an even more incredible scene.

I saw that Su Lang actually threw all the unprocessed materials into the pill furnace of the crape myrtle indefinite fire!

At this moment, all the students were shocked and their eyes burst and their mouths opened wide!

"What's so special, I just threw all ten materials into the flame!"

"My God, does he really want to burn the materials as firewood?"

"This guy must be a madman, and only a madman can do such a crazy thing!"

"No, no, he is a fool! How can he make alchemy like this? I can guarantee that he will never make a pill!"

"I think so too, if he can refine the pill, I will swallow my pill furnace!"

"..."

Everyone whispered and talked, with horror and sneer written on their faces.

And at this moment.

Su Lang snapped his fingers lightly.

Immediately, the Crape Myrtle Wuding Fire Pill stove shook slightly, turning from a solid state to a gas state, and some impurities were discharged.

Immediately afterwards, the pill furnace turned into a solid state again, and after a few seconds it turned into a gaseous state, expelling impurities.

After this repeated, only a group of crystal clear liquid medicine remained in the pill furnace.

The next moment, Su Lang thought, the temperature of the pill furnace rose and he began to refine the pill.

Those students who were observing Su Lang saw this scene, and the sneers on their faces suddenly solidified.

They couldn't imagine that there is such an operation of processing materials in the world!

[Chapter 285: Hundreds of times faster!](#)

When shocked, all the participating students also felt a little bad in their hearts.

Because they discovered that the liquid medicine that Su Lang processed was even better than the one they processed!

The most important thing is that they have not processed the same materials yet, but Su Lang has processed all ten materials!

This speed is hundreds of times faster than them!

Just the first step of processing materials, they are lagging behind.

It is precisely because of this that many people are a little panicked.

"Quick, speed up!"

"Never consider the quality of the pill, as long as the pill of the lowest quality can be refined!"

"Quickly, the second material...the third material, lying noisy, the processing failed!"

"It can't be too fast, and haste is not fast. Although that guy used his strange way to process the materials, it is not certain whether he can refine the pill!"

"Yes, yes, the first condition for winning is not to refine defeat!"

"..."

After a panic, everyone gradually stabilized.

In this process, Su Lang's alchemy process had already passed halfway.

In the Lagerstroemia Unfixed Fire Pill Furnace, the medicinal properties of various materials and liquids are mixed together, and various magical changes have taken place.

In the end, these medicinal liquids completely turned into the embryonic form of medicinal pills- medicinal liquid!

"Next, it's condensing pills."

Su Lang glanced at all the students and found that no one had completed the material processing steps, and could not help but sneered.

"Forget it, I won't let you lose too ugly, just drink a cup of tea and then condense the pills."

With a slight smile, Su Lang took out the tea cup of spring water tea while maintaining the state of the pill solution, and made the tea.

When the other students saw that Su Lang actually started to make tea, everyone was messed up!

"This guy is making tea!"

"Has he failed in refining?"

"No, look, he is looking at us playfully!"

"Waiting noisy, what does he mean, waiting for us with tea?"

"This, this...this looks down on us too much!"

"This guy is really crazy..."

"Don't look at him, let's deal with the materials!"

"I think I'm out of play, I only processed half of this first material..."

"What's the point? This is the guy's scheming, stop it!"

"That is, if that guy uses such a strange way to refine alchemy, he will definitely fail. Don't give up halfway."

"Alright alright....."

Everyone was shaken by Su Lang's tea drink.

Although I persisted in the end, the bad feelings in my heart became stronger.

Next, the students continued to process the materials.

Su Lang still drank tea slowly, with a touch of playfulness on his face.

In a blink of an eye, many students have processed the materials and started the second step of alchemy.

And Su Lang also finished a cup of tea.

"Your mother of success is coming!"

With a tick at the corner of his mouth, Su Lang collected the tea set and began to condense pills.

This step is very important and difficult, but it is still easy for Su Lang.

"Condensation!"

When Su Lang thought, the pill was condensed into pill.

Immediately afterwards, the Ziwei Wuding Fire Pill Furnace suddenly disappeared, and dozens of pills fell to the ground.

After these pills fell on the ground, they rolled to the vicinity of a group of students under the control of Su Lang's mental power.

The sudden scene made everyone thunderous and stunned.

"This, this! It's been refined! How is this possible?"

"This is not true, it is definitely not true. How can a pill furnace condensed with flames produce a pill and dozens of pills at once!"

"Fake, these pills are definitely not made by him just now!"

"..."

The students talked in disbelief.

"Ha ha!"

"You can check these pills."

Seeing everyone in disbelief, Su Lang smiled faintly, "If you really don't believe it, I can refine it again."

As soon as these words came out, the voice of the discussion gradually weakened and slowly disappeared...

[Chapter 286: Senior Su Lang, we were wrong](#)

In fact, they have been watching Su Lang's alchemy process.

Including Su Lang's steps to condense the pills, most of them saw the end from the beginning.

So they also knew that if they were absolutely refined by Su Lang on the ground, they just couldn't believe it or accept it.

"No... it's impossible, you didn't refine it just now!"

A student tremblingly picked up a pill, and immediately shocked all over.

"Xiongtai, what's wrong with you?"

Someone asked with staring eyes.

"There is still warmth..."

The student who picked up the pill said tremblingly, "And from other signs, this pill... is really just refined!"

As soon as this statement came out, all the students were shocked.

"No, this is not true!"

Some people whispered, unbelievably, they picked up the pill for inspection.

However, after some observation, their expressions were frozen, their faces dull.

The entire 24th floor is completely silent again!

For a long time, someone gave a wry smile and put down the medicine: "As expected to be a mentor disciple, this talent, this strength, I can't compare to one in ten thousand!"

This sentence broke the silence and also woke up the rest of the students from their absence.

"My God, the pill can still be refined like this!"

"My first material hasn't been processed yet, he is finished! The enchanting is not enough to describe him!"

"I feel I should have hallucinations, it's too unreal!"

"I feel that the whole world is fake!"

"..."

Some students stared at Su Lang closely, and the whole person was shocked and numb.

Some students stared, staring at the ceiling blankly.

Even some students were in a trance, looking at everything with suspicion.

"Don't be discouraged, everyone here, you are actually pretty good."

Su Lang looked around and said faintly: "It's just that I was born in the same era, you are too unlucky!"

As soon as this was said, everyone laughed bitterly, bowed their heads, and could not speak.

They had to admit that it was indeed their misfortune to be born in the same era as the evildoers like Su Lang!

"Okay, don't stay there anymore."

Su Lang said lightly, "Hurry up and fulfill the bet."

"Yes....."

The golden student who first mocked Su Lang nodded bitterly, then folded his fists and bowed: "I don't know the name of the senior."

"Su Lang!"

Su Lang said lightly.

"Su Lang!"

"Su Lang!!!"

"Su Lang——!"

All the students muttered and muttered silently.

From now on, they will never forget the name.

"Senior Su Lang!"

The first student who mocked Su Lang bowed deeply: "I don't know Taishan. I offended you and hope to get your forgiveness!"

"Senior Su Lang! I have no eyes, please forgive me!"

"Senior Su Lang, I know I was wrong, please forgive me!"

"..."

Everyone bowed and apologized, with a panic look.

"Well, forgive you."

"Hurry up and pay the spirit stone for the materials."

Su Lang waved his hand very generously, "I'm still waiting for the materials to make alchemy, don't waste my time."

"Yes!"

"We are now raising spirit stones!"

"..."

Dozens of students participating in the competition replied in a hurry.

Soon they got together, raised several million middle-grade spirit stones, and paid Su Lang 180,000 copies of alchemy materials.

"Senior Su Lang, this is the alchemy material you want!"

A staff member respectfully handed a space ring to Su Lang.

"well."

After checking and confirming that the quantity of materials is correct, Su Lang asked, "Where is the alchemy room? I will make alchemy now."

"Senior, the corridor on the left is full of alchemy rooms."

The staff smiled, "General students need to pay to use it, but you are a tutor disciple and have the privilege of using the alchemy room for free!"

"Okay, go on your own."

Su Lang nodded, turned and walked into the left corridor.

There are alchemy rooms on both sides of the corridor. This kind of alchemy room has very good sound insulation and the concentration of spiritual energy is not bad. It can be used as a training room.

Choosing a secluded alchemy room, Su Lang closed the door, threw a bed out, lay directly on it and started sleeping.

As for alchemy, of course it is handed over to the system! !

[Chapter 287: Make another breakthrough, the pinnacle general!](#)

In a blink of an eye, it was the next afternoon.

Su Lang was sleeping soundly, but was awakened when he fell asleep.

"Ding! Ruyang Ling Juelu has reached the level of Consummation!"

"Ding! Tiankui Liucai axis has reached the level of consummation!"

"Ding! The Heavenly King Body Refining Sutra has reached the Consummation Level!"

Three system prompts came one after another.

Immediately afterwards, three strange warm currents appeared in Su Lang's body out of thin air!

"Hiss~ So cool!"

Su Lang suddenly became excited and bounced off the bed!

"It's pretty good, three top-level exercises will reach the far level after sleeping!"

With extremely excited mood, Su Lang directly opened the property panel and checked it.

"The attack state has not changed, but the other three attributes have increased by a whole small state, not bad!"

Looking at his attribute panel, Su Lang nodded in satisfaction.

Immediately, he checked the progress of the spiritual cultivation and the progress of the cultivation realm, and then lay on the bed again.

It still takes more than ten days to improve mental power.

But now it will take one and a half days before all the pills are refined.

The improvement of the cultivation level also happened to take a day and a half.

After the pill refining is completed, it is time for the cultivation realm to break through again!

...

Time flies like a white horse.

A day and a half passed again.

This alchemy room was very quiet, and no one came to disturb Su Lang during this time.

At this time, Su Lang has not slept anymore, but is always paying attention to this mysterious black space.

"Really been waiting!"

Looking at the cultivating villain and the alchemist villain in the mysterious black space, Su Lang showed an extremely expectant smile on his face.

And at this moment.

A beautiful system prompt sounded.

"Ding! The sea of repair is full, do you break through?"

"Give me a breakthrough!"

Almost at the moment the system prompt disappeared, Su Lang gave the order.

In the next moment, endless auras rushed into his body, flocked to his dantian, and finally condensed into his vortex of spiritual liquid that was about to solidify!

He needed more aura for this breakthrough than the previous one.

Just at the beginning, it almost drained the aura of the entire alchemy room.

Fortunately, this is the alchemy room of Xuanyuan Martial Arts Academy, which is even better than the spiritual energy training room of the Martial Artist Alliance.

Therefore, the aura is always coming continuously to supply Su Lang to break through.

After seven or eight breaths, Su Lang's spiritual liquid vortex solidified again, almost forming a semi-solid state.

At this point, he finally broke through to the pinnacle general level!

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: pinnacle general

[Attack level]: Intermediate Wuhuang

[Defense level]: Junior Wuhuang

【Shenfa Level】 : Intermediate Wuhuang

[Endurance level]: Junior Wuhuang

[Spirit level]: Condensed mist

[Mastering the exercises]: Boundless Heart Sutra, Ruyangling Juelu (top level, perfection), Tiankui Liucai axis (top level, perfection), Tianwang exercises (top level, perfection)

Bixue Wuhen Figure (Advanced, Consummation), Black Flame Record of Falling Sun (Advanced, Consummation), Fengwu Taixu Jue (Advanced, Consummation)

Seven Stars Hidden Killing Blade (Advanced, Beginner), Fangtian Painting Halberd War Scroll (Advanced, Beginner), Lotus Leaf Wuqu Collection (Advanced, Beginner), Ziwu Xuanming Gong (Advanced, Beginner)...

(Some exercises have been omitted)

[Activated system functions]: One-key practice function (level 12), one-key martial arts function (level 11), clone dispatch function (level 10), one-key treasure hunt function (level 10), one-key alchemy function (level 9)

"Like noisy, all have reached the level of Emperor Wu! It's so cool!"

Seeing his four-dimensional attributes, Su Lang was so excited that he fell silent.

At this point, he has successfully crossed three realms with the general level, reaching the level of the Emperor in all aspects!

After a while, Su Lang calmed down his excitement, and guessed why he had so much benefit from this breakthrough.

The actual gains from this breakthrough in the cultivation realm weren't that big.

Another reason for the improvement in all aspects is that it has reached the top level of consummation!

[Chapter 288: One hundred thousand perfect pills](#)

"The one-click martial arts 'skilled master' is easy to use!"

"If you don't have such a function, you have to start from the entry level!"

Su Lang smiled, focusing on those exercises that he hadn't practiced yet.

At this time, he still had many exercises that he hadn't practiced, including many king-level exercises.

Counting the exercises obtained from Ou Wenyao and the exercises obtained from Dongfang City's all martial kings, he now has a total of 16 king-level exercises!

"Now my combat power has reached the Wuhuang level."

"Although the top-level exercises suitable for martial-arts-level training are still useful, the improved combat power is definitely not much. I need to practice the king-level exercises!"

"But the problem is that if the Wang-level exercises are to reach the Consummation level, just relying on the current level 11 one-key martial arts practice, the practice speed is still not enough."

"It seems that I have to make money as soon as possible and upgrade the one-click martial arts function."

"There is also a one-key alchemy function, and I must upgrade to level ten as soon as possible to open up new system functions."

While thinking, Su Lang placed three top-level exercises.

At present, the top level exercise requires two and a half days to practice, while the Wang level exercise requires more than ten days to practice.

Therefore, Su Lang decided to practice three more top-level exercises, then upgrade to one-key martial arts, and then practice Wang-level exercises.

These three exercises are the "Treasure Book of the Sun and the Moon in the Sky", "The True Method of Seven Definite Thunder", and "The True Art of the Immortal Golden Tire".

Among them, the seven absolute thunder techniques, after a rough study, Su Lang discovered that this turned out to be the source of the basic thunder-attribute techniques such as the "Leisi True tactics" and "Thunder Light True tactics" that he had previously practiced!

"Tsk tsk, I didn't expect it to be so predestined."

"I still like the thunder and lightning technique, it's so awesome!"

Su Lang ticked the corner of his mouth, and then suddenly another system prompt came.

"Ding! You got too easy healing pill*5"

"Ding! The material is insufficient, the refining of the pill has been suspended."

"Finally finished!"

The corner of Su Lang's mouth twitched, and his eyes fell into the storage space.

At this time, all the alchemy materials inside have been completely consumed.

Whether it was the previous trophies or the 180,000 pieces of material won from the bet, all have become all kinds of pills.

With just 180,000 copies of Tier 8 materials, 900,000 perfect Tier 8 pills have been refined!

Although the value of the 8th-order pill is not high, the victory lies in the large quantity, which can also sell a lot of money.

In addition to the pill from other refineries and the pill from Ou Wenyao, Su Lang estimated that this time he could sell tens of millions of middle-grade spirit stones.

"Sell it first, and then use it as starting capital to search for more advanced materials in the city to make alchemy to make money!"

"The Blue Star main city is the largest city in the entire planet, and the harvest must be very impressive!"

After making up his mind, Su Lang immediately dispatched a clone.

The main city of Bluestar, Bailing Street.

Su Lang once took Anxin's Aura aircraft to pass by this place, so he had an impression of this place.

At this moment, in an empty corner, a man covered in clothing suddenly appeared.

Not only that, the man is always surrounded by mental power to prevent others from investigating himself.

At this time, the man was shocked and was controlled by Su Lang with a "perfect leaning over".

"Go directly to the biggest pill auction house."

Su Lang clicked the corner of his mouth and hurried to the west quickly.

After a short while, he smashed a huge tall building and stopped.

This pill building is called the Blue Star Pill Building, and its simple name reveals the domineering dominance of the Blue Star Pill Realm!

Lanxing Danlou manages everything related to pill.

Almost all the ingredients of the pill can be bought here.

The reason why Su Lang came here was that he planned to buy spiritual medicine materials.

Moreover, in addition to the business of elixirs, other aspects are also involved, and it is almost a universal department store!

"The top priority is to sell the pill first."

Su Lang walked directly into the luxurious Blue Star Dan Tower.

Soon, a woman in a uniform greeted her.

"Hello! Can I help you?"

Su Lang said faintly: "I want to sell pill, a pill of tens of millions of middle-grade spirit stones!"

[Chapter 289: Impersonating Owen Yao](#)

"A pill of tens of millions of middle-grade spirit stones?"

The woman in uniform opened her small mouth instantly.

Although the Blue Star Dan Tower is the largest Dan Tower in the main city of Blue Star, such large lists are rare.

Immediately afterwards, she quickly smiled and concealed her gaffe: "I'm sorry, please follow me!"

"Ok."

Su Lang nodded indifferently, and immediately followed the uniformed woman to a more luxurious room.

Sitting in the room was a King Wu, who exuded a scent of scrolls.

Seeing the two of Su Lang coming in, he immediately smiled and got up, showing kindness.

He is the one who specializes in big orders.

Therefore, he did not dare to neglect every guest who was brought over, because the other party represented a huge profit.

"Mr. Mo Qing."

The uniformed woman was attached to King Wu and whispered: "This gentleman wants to sell tens of millions of high-grade spirit stones."

"Okay, I see, you go out first!"

Mo Qing's smile became brighter.

"Yes!"

The uniformed woman politely saluted the two, and then slowly left.

"Sir, please sit down."

Mo Qing reached out and asked, "I don't know your name yet..."

Su Lang sat down unceremoniously.

But instead of answering Mo Qing's words, he threw a purple and black jade medal.

The jade tag fell on the table with a crisp sound.

"this is!?"

Mo Qing looked at the sound, his complexion instantly changed

——Because this jade card turned out to be the top VIP card of their Blue Star Danlou!

"So you are our VIP!"

The smile on Mo Qing's face turned into a deep respect.

Yes, the purple and black jade card that Su Lang took out was the VIP card of the Blue Star Danlou.

As for the origin of this jade medal, it was naturally the spoils obtained from Owen Yao.

This VIP card is a rare VIP card with a name. You can get a lot of convenience when buying or selling items in the Blue Star Danlou.

And Su Lang took it out, on the one hand for convenience, on the other hand, to impersonate O Wenyao.

Among the medicines he was going to sell this time, there were many medicines refined by Ou Wenyao.

These pills are the same as Jing Qianyi's pills, with a specific mark.

If the medicine of Ou Wenyao is sold in bulk by an unknown identity, it will definitely attract the attention of the Blue Star Pill.

As the largest Dan Tower in the main city of Blue Star, the Blue Star Dan Tower has very close ties with various forces. If it is investigated, it will be another trouble.

At this moment, Mo Qing carefully picked up the VIP card on the table and saw the identity of the VIP card owner based on the specific mark on it.

"It turned out to be Mr. Owen Yao, the junior is rude!"

Mo Qing returned the jade medal to Su Lang, with deep respect and admiration on his face, and bowed deeply.

Ou Wenyao is a generation of pill emperor, and he is also a tutor of Xuanyuan Wudao Academy, with a very noble status.

Therefore, Mo Qing put his posture particularly low!

"Don't be polite, sit down."

Su Lang imitated O Wenyao's voice and said, "This time there are a lot of pills, I hope you will give me a good price."

Mo Qing did not sit down, and respectfully said: "Don't worry! I will definitely give you the highest price."

"Then you check the pill."

Su Lang put a space ring on the table.

He had prepared this space ring a long time ago, and it contained the medicine he wanted to sell.

"Yes!"

Mo Qing carefully picked up the space ring and used his mental perception to check it.

However, when he saw the pill in the space ring, he was shocked instantly!

"This... there are so many perfect quality pills!"

"Oh my god, there is even an emperor's perfect quality pill!!"

The shocked Mo Qing couldn't help exclaiming, and the whole person was shaking slightly.

"Aren't they just some perfect quality pills? Don't make a fuss."

Su Lang had expected Mo Qing's reaction long ago, and smiled indifferently, "You can identify the pill as soon as possible and choose the high-end pill with auction value."

"Good... good!"

Mo Qing was aware of his gaffe, but he could not control his mood at all, so that his answer seemed unconscious.

[Chapter 290: I'm waiting for your good news](#)

No way, the scene he saw in the space ring was too shocking.

More than one million pills were piled in it, and the entire space ring was filled!

If it wasn't for possessing mental power, he wouldn't be able to appraise these pills if he didn't take it out.

Seeing Mo Qing still immersed in the shock, Su Lang couldn't help but shook his head.

He was too lazy to urge, just waiting for Mo Qing to calm down.

After a long time, Mo Qing completely recovered from the shock.

"Sorry, Senior Owenyao, your pill is really shocking."

A thick disbelief still remained on Mo Qing's face, "Dare to ask, have you broken through to the realm of Danzun?"

"Dan Zun!?"

Su Lang raised his brows and smiled after thinking for a moment, "Yes, I have already broken through to the realm of Danzun."

"You actually broke through to the realm of Danzun!"

Mo Qing's eyes widened, looking at Su Lang as if he was admiring a great god.

The alchemist with the highest alchemy on the Blue Star is named Yun Yemeng, and he is the only alchemy god.

But Danzun is a noble person under one person and over a hundred million people!

The Danzun on the entire Blue Star does not exceed the number of hands!

Danzun's status is more noble than Danhuang, I don't know how much.

At this moment, Mo Qing was all doubting whether he was qualified to receive the 'Senior Owen Yao' in front of him.

"Okay, it's good for you to know about this, don't talk about it everywhere."

Su Lang waved his hand faintly, "Otherwise, I don't know how many dog skin plasters have to be applied to me, I can't pull it off!"

"Yes! Junior understands!"

Mo Qing nodded like a woodpecker.

Immediately afterwards, with endless awe, admiration and honor, he began to examine the pill and distinguish the value.

About an hour later.

Mo Qing cleaned up all the pills.

"Senior, the total value of your pills is about 50 million middle-grade spirit stones."

"But there are many elixirs in it that have auction value. If it is auctioned, it will definitely be more than this number!"

Mo Qing returned the space ring to Su Lang again and again, and said carefully.

"Pick out the ones you think are valuable for auction, and sell the others directly to you Blue Star Danlou."

"In addition, I want to buy some advanced alchemy materials, and the demand is great."

Su Lang paused and continued, "But I estimate that 50 million middle-grade spirit stones are not enough, so I hope you will pay for me from the Blue Star Danlou."

At that time, I will use these materials to refine high-end pill of good quality, and also hand it to the Blue Star Pill Building for auction. How about? "

"of course can!"

Mo Qing nodded without thinking.

The other party is Dan Zun, the whole world does not exceed the number of hands, so what does it mean to advance the spirit stone? You can give it to the spirit stone directly!

"Then Owen Yao owes you Blue Star Danlou a favor."

Su Lang held out a smile in his heart, took out a jade slip and handed it to Mo Qing, "There are all kinds of materials I need."

Mo Qing took a look and found that all the materials recorded in it were the materials needed for the king-rank, imperial-rank, and even the elixir of the noble rank, and a stormy sea could not help but rise again in his heart.

"Senior, there should be no problem with the materials you need, Wang and Huang."

Taking a deep breath, Mo Qing respectfully said, "But I cannot guarantee that I can collect all the materials for you, I can only say that I will try my best to raise for you..."

"Go all out."

Su Lang said lightly, "How much time will it take?"

"One day, at most just one day!"

Mo Qing said, "Our Blue Star Dan Tower is in contact with the major Dan Towers. As long as they have the materials, they will send it over if we say something."

Su Lang smiled and said, "Okay, then I will wait for your good news."

"Yes!"

Mo Qing nodded respectfully, and then took Su Lang to rest in an extremely luxurious room.

He originally wanted to send two stunners to serve Su Lang, but Su Lang refused.

Next, Mo Qing went to work, and Su Lang took back the consciousness attached to Fen.

Xuanyuan Wudao Academy, Alchemy Room.

"I can refine 90,000 more materials in one day."

A smile appeared at the corner of Su Lang's mouth, "90,000 copies of materials, which is 450,000 pills, can sell a lot of spirit stones!"

Thinking of this, he walked out of the alchemy room, ready to buy some materials at the material bar.
