

One Click 2821

[Chapter 2821: Cut Song Yuanchen again, Tongding Zhou](#)

at the same time.

Song Yuanchen's experience was almost the same as Wan Qixing's.

Facing Su Langxing Cuanyunhe clone's broken sword at the cost of his life, he couldn't resist it at all!

After doing my best, I can only watch my fate!

But this is clearly his life.

Xing Cuanyun He cloned a sword of life, destroying all its defenses in an instant, killing him to the point of hanging by a thread!

And this, or Su Lang deliberately.

The purpose is to let another clone kill it with the Youtian Sword, triggering death and perfect plunder when breaking the defense, so that all its resurrection methods are invalidated!

At this moment.

Su Lang, who killed Wan Qixing's clone, immediately cast [Zhou Shan] after cutting out a sword, then swung out another sword, and slashed into Song Yuanchen's body.

"No... forgive me!"

Song Yuanchen trembled all over, and his eyes faded, and he fell!

"Ding! You got the Eternal Soul..."

The third system prompt appeared, representing that the fourth Nine Eternal Realm died in Su Lang's hands.

"Next."

"Tongding Emperor Zhou, it's your turn."

Su Lang faintly looked at the old man he trapped with the Nianfeng Space, his tone indifferent and ruthless.

"Su Lang!"

"I have many treasures and secret skills here!"

"I can give it to you, give it all to you, you will kill me!"

"..."

Emperor Tongding Zhou was also extremely afraid of death, or not reconciled to fall like this, he still wanted to transcend the endless universe.

then.

He gave in and begged for mercy.

"Ha ha."

"If it is useful to beg for mercy, I will not kill Emperor Fan Mengzhou."

Su Lang sneered, then stretched out his right hand and shouted, "Come on!"

Huh—!

Under the effect of the system function 'item transfer', the Youtian Sword directly appeared in the hands of Su Lang's deity.

As soon as the sword appeared.

Nianfeng space is annihilated naturally.

"good chance!"

"Broken Tripod Hanging Upside Down!"

When Emperor Tongding Zhou saw the Nianfeng space disappeared, he was immediately overwhelmed with ecstasy, directly launched the self-harming explosive secret technique, and began to escape!

however.

"I am the ruler of the universe!"

"This universe cannot travel through time and space at this moment!"

Su Lang opened his mouth, saying every word, every word!

The power of this natural universe was immediately moved, making time and space extremely strong.

Coupled with the imprisonment that Gu Jun and others had placed in order to prevent Su Lang from escaping from the beginning.

The old man Tongding was immediately hindered, and there was a slight lag in his figure!

This stagnation is trivial.

But in the battle of the Nine Eternal Realm, it is deadly!

"Die to me!"

Su Lang snorted coldly, and severely cut the Youtian Sword in his hand, "The world is dying, breaking a sword!"

at the same time.

The Boundless Space, the Seven Treasure Tree, and Jinghua Shuiyue all moved together, and all kinds of attacks crashed down!

"no, do not want!"

The old man Tongding was stiff, standing upside down all over his body, panicking and panicking in his heart.

He is already poor and at a loss!

therefore.

No matter he doesn't want to die, he can only stare wide-eyed, watching the attacks fall on him in despair!

Rumble!

A series of extremely terrifying attacks exploded on the old man Tongding.

The Boundless Ship suppressed its power, the Qibao Miaoshu controlled its weapons, and the mirror flowers disturbed its senses and restrained everything with a broken sword!

Suddenly.

I don't know how many crystal wall universe annihilated and disappeared from Emperor Tongding Zhou!

In endless despair.

Emperor Tongding Zhou ushered in his own ending, and ended his life in Su Lang's hands!

"Ding! You get the Eternal Soul*1, the Eternal Daojing*1..."

The fifth eternal power of the nine universes, falling!

"Now there are two lambs left to be slaughtered."

"Shang Jiuqu trapped by the purple gold gourd, Emperor Fengdizhou trapped by the heart-piercing lock."

Su Lang turned his gaze to look at Emperor Feng Dizhou who was firmly bound by the sixteen chains of the piercing lock.

"Su Lang!"

"My lord, my lord Su Lang!"

"I was wrong, I know I was wrong, please go around me!"

"..."

Emperor Feng Dizhou watched as he watched the five nine-time veteran powers being hacked to death by Su Lang one by one, he was already terrified to the extreme.

[Chapter 2822: Destroy the flowers, kill Emperor Fengdi Zhou](#)

In her opinion.

Su Lang is definitely a super old monster who doesn't know how old it is!

Only such an old monster can possess so many eternal emperor soldiers of the Nine Universes, so many incredible secret arts, and be able to fight one against seven!

therefore.

As the arrogant female emperor of the Nine Universes, she was completely shattered in front of Su Lang, now humble as a maidservant.

unfortunately.

Even so, Su Lang did not intend to let her go.

"Since you choose to fight to death, you must have the consciousness of death!"

While Su Lang inserted the sword of life into his back, he swallowed a lot of medicine.

In a flash.

He restored a lot of cosmic power!

"Do not!"

"Su Lang, the leader of the Xuanyu Alliance has a close relationship with me. If you kill me, he will kill you to avenge me!"

"He is the true eternal high-level powerhouse of the Nine Universes, not something you can resist!"

"You let me go, I can mediate the Xuanyu Alliance for you!!"

"..."

In panic, Emperor Feng Dizhou began to threaten Su Lang to survive.

"Tsk tut."

"Before, didn't you think that the seven people who work together can kill me?"

Su Lang sneered disdainfully, feeling that his strength was almost restored, and his smile gradually turned cold, "Do you think the leader of Xuanyu can kill me, he can?"

"you!"

"I! I... the leader will definitely not let you go!"

Emperor Feng Di Zhou was speechless by Su Lang, and the panic in his heart was gradually overwhelmed by more fear.

Just then.

Su Lang did not hesitate to raise the Youtian Sword, and controlled the weapons such as the Piercing Lock, and attacked together!

Sneer!

Under the force of Youtian Sword and Piercing Heart.

The last thin layer of defense of Emperor Feng Feng Zhou was like paper, and it was broken with a poke!

"No!"

Emperor Feng Di Zhou let out a shrill scream, and immediately lost his voice.

"Ding! You got the Eternal Soul*1..."

"now you."

Su Lang faintly took out the purple gold gourd, sneered while shaking it a few times.

Shang Jiuqu.

From the beginning, he dispatched his avatar, Shang Qu Han, to Suiyou and Doudu Zhouyu to kill him in order to seize the remaining pages of eternal life.

At this moment, it's time to end the grievances!

Holding the gourd.

Su Lang swallowed a large amount of pills again, waited for the power of the universe to recover, and then started to kill people.

Continuously beheading six senior nine cosmic eternal powers, the consumption is really too great.

Even the sword of life was completely drained and needed a good rest and recovery.

at this time.

Under the action of the elixir and the secret technique of "breathing innocence".

Su Lang's cosmic power rebounded rapidly, and gradually returned to its peak state!

But just when he was about to kill.

A ripple in time and space suddenly came!

"Who!!!"

Su Lang frowned, and a cosmic flash entered the body of Infinity.

Infinite number.

More than one hundred thousand eternal strong men have regained their strength, and their tension has reached the extreme!

Weapons such as the Youtian Sword, Tianjia Eight-Edged Shield, and Heart Piercing Lock also returned to their respective positions, ready for a fierce battle.

Soon.

A figure emerged from the ripples of time and space.

This is a middle-aged man wearing a gray robe with black edges. He has a deep breath and makes people feel like an abyss at first sight.

'Tai Jingyun! ?'

Su Lang opened the opponent's attribute panel and took a look, 'I'm another senior Nine Eternal Realm powerhouse!'

This Tai Jingyun was stronger than Zhi Gujun and the others.

This can be easily seen from the fact that there are many more founding eternal techniques in Tai Jingyun's practice.

At this time.

"You are Su Lang!"

Tai Jingyun looked at Su Lang with a smile, and then turned his gaze to the purple gold gourd, the Seven Treasure Tree, and the mirror flower water moon.

"Curious weapon!"

"It should be an incense imperial soldier cultivated on the basis of Incense Avenue."

"However, the Xianghuo Imperial Soldier cannot be promoted to the Eternal Realm. I didn't expect you to achieve it."

"The incense fire emperor soldiers of this level are even more terrifying than the innate eternal emperor soldiers!"

"..."

Tai Jingyun pointed to Su Lang's incense emperor soldier, and he was amazed, and his eyes were full of amazement.

"you know me?"

"Could it be that you also came to kill me? Are you from the Xuanyu Alliance?"

Su Lang frowned slightly, and the opponent's combat power was probably at the advanced level of the Nine Universes.

He now has two stars Cuanyun and his clones have cooled down, fighting alone, it is more difficult to kill each other.

[Chapter 2823: Jing Yunzi reappeared](#)

"Hahaha!"

"Friend Su Lang misunderstood."

"Of course, it's also presumptuous first."

"Introduce yourself first, I will startle Yunzi."

"I heard the name of Taoist Su Lang by chance, and I admired him. I saw it today, and it really deserves the reputation."

Tai Jingyun laughed, touched the short beard on his chin, and nodded.

"Ha ha."

Su Lang sneered, "Then you walked through a large number of natural universes alone and found me here!?"

"Friends of Taoism calm down."

"I'm looking for a fellow Su Lang to discuss something important."

Tai Jingyun's expression remained unchanged, still smiling.

"Something?"

"Then tell me straight, I'm still busy."

Su Lang raised his eyebrows, his tone still indifferent.

"Great."

"I went down to look for Fellow Su Lang, because I wanted to invite fellow Daoists to join the Cloud Startling Alliance!"

"Now that we have entered the world of great controversy, the Lingxu Fragmented Domain and even the rest of the universe will have eternal wars at any time."

"Taoist Su Lang is alone, and now he has offended the Xuanyu Alliance. It's better to join our Shocking Cloud Alliance and report to the group for warmth. You don't have to worry about being revenge anymore."

Tai Jingyun nodded with a smile, and then gradually became solemn.

"Jingyun Alliance!"

Su Lang's expression remained unchanged, a ray of light flashed under his eyes.

His cultivation was so fast that he had reached this level, but he didn't know much about the distribution of power at this level, the name of the strong, and so on.

And the most important thing is that he doesn't know enough about Page of Eternal Life and the White World of Universe.

Join a force.

Not only there are resources and manpower, but also various secrets can be learned faster.

of course.

The prerequisite for everything is not to be subjugated.

Nor can you directly join in without knowing a certain force.

At this time.

"Friend Su Lang."

"In your battle just now, did Shang Jiuqu participated?"

Tai Jingyun looked around the chaotic battlefield around him, and suddenly said a little strangely, "I feel his remaining breath."

Talking.

His gaze fell on the purple gold gourd in Su Lang's hand.

It is obvious that Shang Jiuqu is locked in this gourd.

"Not bad."

"Shang Jiuqu did participate in the war, but he was defeated by me at this time, and his wealth and life are all in my hands."

"What, does Fellow Daoist Jing Yunzi want to save him?"

Su Lang narrowed his eyes slightly, and a dangerous light flashed in his eyes.

"No, no, no."

"Friend Su Lang misunderstood."

"The reason I know Shang Jiuqu is because I have invited him to join the Jingyun Alliance before."

"But he said he would consider it, and in the end he considered going to the Xuanyu Alliance."

"Therefore, Shang Jiuqu has nothing to do with me. On the contrary, there is some suspicion. Daoist Su Lang can deal with him."

Tai Jingyun shook his head hurriedly, clearing the relationship between himself and Shang Jiuqu.

For Tai Jingyun's one-sided words.

Su Lang would naturally not believe it easily.

He unfolded the mystery of stolen words and searched part of the memory of Shang Jiuqu in Zijin Gourd.

Immediately found the memory of Shang Jiuqu and Tai Jingyun meeting.

Read it from beginning to end.

Su Lang found that Tai Jingyun did not lie, but Shang Jiuqu did not immediately agree and chose to consider it.

Finally, Shang Jiuqu joined the Xuanyu Alliance.

"Friend Jing Yunzi is quite honest."

Su Lang nodded slightly, trusting Jing Yunzi more.

"I have always treated people with sincerity."

"Because of this, the alliance I created has grown in a very short time!"

"Now there are seventeen eternal powers of the Nine Universes in our league! All kinds of resources are very rich!"

Jing Yunzi laughed and said, "Join our Jingyun Alliance, whether it is to avoid vengeance or practice, it is the best choice!"

Speaking of which.

He looked at Su Lang expectantly.

But Su Lang smiled without saying a word, and did not respond to him.

"Ah ha ha."

"Our alliance management is loose and free enough to not give people a sense of restraint."

Jing Yunzi smiled a little awkwardly, "Even in the league, there is no position of leader. Everyone is worthy of being a fellow daoist."

Su Lang still smiled faintly, but did not speak.

[Chapter 2824: I'll go there](#)

"Ahem."

"I also owe you fellows to praise me, and I will temporarily act as the presiding officer when something happens."

"If members of the alliance cannot participate in the meeting because of something, they only need to explain the situation."

"Occasionally, I can't get out of it. After I explain it to everyone, the rest of the daoists will choose a temporary leader from each other."

Jing Yunzi coughed slightly, smiled, and talked about the advantages of the alliance.

And this.

It really made Su Lang's eyes bright.

The most annoying thing about him is that someone on his head looks at him through his nostrils.

This shocking Yunzi alliance has a taste of 'Great Harmony', with loose management and good welfare.

Join in, there is nothing to worry about, at most when the shot should be shot, depending on the situation.

Just then.

Jing Yunzi spoke again.

"Friend Su Lang."

"Your combat power is very strong!"

"Look, you have killed so many Nine Universe Powers in this battle, and even the universe is about to become the universal white world!"

"If you join the alliance, your strength will be one of the best, and your right to speak will definitely be huge by then!"

Jing Yunzi said solemnly, pointing to the natural cosmos void with white light shining around, almost torn by the white world of the universe.

Su Lang looked at the void around him.

Only then did they discover that white light appeared in the void of the vast universe, and they had begun to connect with each other.

It must not be long before this natural universe will be gradually swallowed by the universal white world, turning into another forbidden place for living beings.

"This universe is about to turn into a universal white world."

"Those old monsters hiding in the dark must be very happy."

"The so-called world of great controversy may not necessarily be the result of them."

"..."

Su Lang sighed slightly in his heart, but that was all. Weakness in the endless universe is the original sin, and this is true for the natural universe!

"Friend Su Lang."

"You don't have to make a decision right away."

"You can think about it, and then decide whether to join the Jingyun Alliance."

"..."

Jing Yunzi saw that Su Lang was still silent, so he said helplessly.

"what?"

Su Lang returned to his senses, and raised his eyebrows, "You are not afraid that I am the same as this Shang Jiuqu, thinking about it, and then I went to another force?"

"If this is true, then it will be missed."

Jing Yunzi smiled bitterly, "I still hope that Daoist Su Lang will join in, now this world is too messy."

"How about this."

Su Lang smiled slightly, "I'll go to Jingyun Alliance with you, first inspect and inspect to see if it's worth joining."

"That's great!"

"But, you deity go!?"

Jing Yunzi was surprised at first, and then asked in a little astonishment.

In this situation, wouldn't it be common to send a clone to find out how it became the deity when he got to Su Lang's place.

but.

Seeing Su Lang's smile but silent expression.

Jing Yunzi understood it all at once

--confidence! Su Lang is self-confidence!

"Yes."

"Daoist Su Lang is so powerful."

"I don't know how many people were killed in this battle!"

"Even if I am right, there is a high possibility that I will fall."

Jing Yunzi smiled suddenly, "In that case, I will lead the way for fellow Taoists!"

Talking.

He made an invitation.

"Great."

Su Lang nodded, "However, please wait a moment for Fellow Daoist Yunzi, I will deal with this Shang Jiuqu."

Hear this.

Jing Yunzi's gaze suddenly fell on the purple golden gourd again.

The incense emperor soldiers of the Nine Eternal Realm are really amazing!

Su Lang's side.

He has already returned to his peak state.

"Purple golden gourd, refine!"

With a thought, Su Lang instilled a large amount of cosmic power into the purple gold gourd, turned it into a terrifying power, and began to refine Jiuqu!

"Ah!"

"Su Lang, you must die..."

"I want to kill... you..."

The faint screams of Shang Jiuqu came.

Zijin Gourd also trembled slightly under the dying struggle of Shang Jiuqu.

but.

With indestructible and invulnerable characteristics, even if the Zijin Gourd is only at the primary level of Jiuzhou, it is not afraid that Shang Jiuqu will burst it.

What's more, Shang Jiuqu was originally a seriously injured body.

[Chapter 2825: The death of Shang Jiuqu](#)

"Humph!"

"Dare to struggle!"

Su Lang smiled coldly, waving his hands, and the sixteen Moyu chains of Piercing Heart Lock suddenly got into the purple gold gourd.

But in the space inside the purple gourd.

Countless purple-red slime adhered to Shang Jiuqu's body, and the slime was burning with flames!

Shang Jiuqu struggled and wailed endlessly.

Suddenly, sixteen chains fell from the sky, and got into his body like poisonous snakes.

"what--!!"

"No, no! What the **** is this!"

Suddenly, Shang Jiuqu was tortured by the heart-piercing lock even more painful!

And the greatest pain comes from the pain in the soul!

Under normal circumstances, the soul of the eternal strong is difficult to be injured alone, almost all of them are as glorious as the Crystal Wall Universe, and they are all damaged.

It is very difficult to torture the soul alone.

But the heart lock is an expert in this area!

The key is that the heart-piercing lock also has the characteristic of 'killing the soul'!

This makes its torture effect even more terrifying!

Even a veteran Jiuzhou eternal powerhouse like Shang Jiuqu could hardly endure the pain of being tortured and let out a scream.

"hiss!"

"Taoist Su Lang is really a good method, even the Nine Eternal Realm can't hold it!"

Jing Yunzi on the side heard the screams coming from the Zijin gourd, and couldn't help feeling sigh.

"Humph."

Su Lang snorted softly, "This person treats me badly first, and starts with me first. I just tortured him, not too much."

"Not too much too much!"

Jing Yunzi smiled and said, "Friends can even keep him as a tool to vent their anger, and use him out to torture him if he is unhappy."

"Ha ha."

Su Lang rolled his eyes and smiled, "I'm not the kind of incompetent person. I will torture anyone who provokes me. There is no need to keep Shang Jiuqu as a tool person."

"exactly."

"Friend Su Lang is right."

Jing Yunzi nodded and said, "My idea is wrong. The practice of keeping people to vent their anger is an expression of incompetence and rage."

'This guy is very good at talking.'

'I'm so yin and yang, cynic, and he's not angry.'

'Could it be that he is so kind to me because he really sees my fighting strength?'

Su Lang thought about it for a moment, and then threw his distracting thoughts aside.

No matter how to guess.

It's better to go to Startled Cloud Alliance to see how fast it comes.

Anyway, it won't die, I'm afraid of wool.

Next.

Su Lang watched Shang Jiuqu in endless pain, melting like a candle, almost non-human, and its aura was about to be completely annihilated.

"Okay, go and die."

Su Lang said lightly.

But his voice fell to Shang Jiuqu's ears, almost like a natural sound.

Under the torment of the heart-piercing lock, Shang Jiuqu felt like he had been tortured for countless years. The pain he suffered in his entire life did not add up to that this time!

"Finally, are you going to be free!"

There was a burst of light in Shang Jiuqu's eyes, and the blade of Youtian Sword reflected in his eyes.

Puff!

The sharp blade enters the flesh, the front chest enters and the rear chest emerges, and the blade is raised high!

"Ding! You get the Eternal Soul*1, Eternal Dao Crystal*1, Eternal Body*1, Eternal Life Universe*1..."

The system prompt came.

So far.

The seven Nine Cosmos Powers that besieged Su Lang aggressively, all fell! !

'This son is really strong. '

An almost imperceptible cold light flashed through Jing Yunzi's eyes.

Although he came later, he knew very well about Su Lang's lineup in this battle.

at this time.

"Let's go."

"Falling fellow Taoist Yunzi!"

"Let me see if Jingyun Alliance is as good as you said!"

While smiling, Su Lang took in weapons such as the Youtian Sword and the Piercing Lock.

"Don't let Fellow Su Lang down!"

Jing Yunzi laughed and stretched out his right hand to invite, "Please—!"

"please!"

Su Lang nodded slightly and stretched out his hand.

Soon.

Jing Yunzi unfolded the power of time and space, opened the time and space barriers of the natural universe, and led the way ahead.

Su Lang followed immediately.

But his attention has fallen into the storage space!

Seven people were killed in this battle!

All the wealth of the seven eternal powers of the Nine Universes fell into his hands!

"Seven Nine Universe Powers."

Su Lang licked his lips with excitement, "How many cosmic origins and treasures can I harvest this time?"

[Chapter 2826: Consume 200 billion of the origin of the universe](#)

While thinking.

Su Lang gave an order to store the origin of the universe.

Suddenly the system prompt came out!

"Ding! After saving, the balance is 247.3 billion universe origin!"

After listening to the system prompts.

The excitement in Su Lang's eyes couldn't help but grow stronger!

A total of more than two hundred billion universe origins, a number that ordinary eternal warriors would never even dare to think of in their entire lives!

"It deserves to be the great power of the Nine Eternal Realm."

"Living long enough, there are enough universe origins to search!"

"With these cosmic origins, I can upgrade the system functions again!"

Su Lang smiled, and immediately checked the various system functions he had mastered.

After some selection.

He chose the clone dispatch function and the one-key practice function.

"Ding! Consume 100 billion cosmic origins, the clone dispatch function is upgraded to 58, the number of clones is +1, the current number of clones is 58, the number of clones is 58, and the number of twins is 58!"

"Ding! Consume 100 billion cosmic origins, the one-key training function has been upgraded to level 59, and the training speed has been increased to...7680 trillion times!"

After two system prompts.

The avatar dispatch and one-key training have been upgraded again.

The balance has more than 47 billion cosmic origins.

"carry on!"

Su Lang did not hesitate to give another instruction, "Improve one-key treasure hunt, one-key mixer, and one-key empowerment functions!"

"Ding! Consumes 10 billion cosmic origins, the one-click treasure hunting function is upgraded to level 57, and the number of treasure hunting flying gliders is 3840 trillion!"

"Ding! Consuming 10 billion universe origins, the one-key refining function is upgraded to 22, which can refine Seven Eternal and lower-level weapons!"

"Ding! Consumes 10 billion cosmic origins, the one-key empowerment function breaks through the limit and is upgraded to level 33, and the number of various initiations reaches 1340!"

Three more system prompts appeared.

This time.

The balance of the system is more than 17 billion.

The rest of the system functions need 100 billion to upgrade again.

"Tsk tut!"

"Unconsciously, the levels of various system functions are so high."

"The cosmic origin that improves the system's function consumption is also scary. The general Nine Universe Eternal Realm will be stunned when they see it!"

"..."

Su Lang couldn't help sighing when he looked at the system function after his promotion.

of course.

All this is very worthwhile.

To trade some of the origins of the universe for so many such abnormal and unreasonable abilities is simply something that others dream of.

If any system function is known to others, I am afraid that I will drool with envy.

"Now there are close to 20 billion left, so let's keep it for later."

"Next, let's break down the weapons of Emperor Yu Gujun and others."

Su Lang touched his chin, and Shen Min directly locked in the storage space, a powerful Eight Eternal Realm weapon.

Most of these Eight Eternal Realm weapons are at the top level, only one step away from the Nine Eternal Realm.

But this step is the difference between heaven and earth.

Any one of these weapons is not enough to compare with the Nine Eternal Emperor's soldiers such as the Youtian Sword in Su Lang's hand.

"Although these weapons also have innate characteristics."

"But the effect is not what I want, so I don't bother to swallow the innate characteristics."

"In the future, we will have more suitable innate characteristics, which will be devoured by weapons a few times."

While thinking about it, Su Lang issued a lethal order to the system, "Activate the one-key decomposition function to decompose the target!"

Suddenly!

The one-key decomposition function is activated.

In the storage parts, pieces of the Eight Eternal Realm weapons have come to the end of their lives, shattered and restored into piles of heaven, material and earth treasures!

"Hey!"

"These Eight Eternal Realm Emperor Soldiers decompose a lot of materials!"

"It can only be said that the refining methods of Gu Jun and others are really too rubbish. The materials used in this weapon can give me two pieces of eternal emperor soldiers of the Eight Eternal Realm!"

"..."

Su Lang looked at the continent made up of piles of heaven, material and earth treasures in the storage space, and couldn't help but sneered.

After disassembling the weapon.

Su Lang then decomposed the remaining refined products, such as the formation plate, other weapons, and treasures, into a clean one.

So he got a lot of material again!

[Chapter 2827: Daoist Su Lang is really hard](#)

So far.

Everything that can be decomposed is decomposed!

Su Lang couldn't find anything that could continue to decompose, so he stopped.

"Don't say, this decomposition function is really addictive."

A faint smile was drawn at the corner of Su Lang's mouth, and immediately began to deal with the rest of the spoils.

The most eye-catching thing is that there are seven corpses in the Nine Eternal Realm.

A complete eternal body in the Nine Universe Eternal Realm is definitely one of the most rare treasures in the endless universe.

But Su Lang alone got seven!

And each one is more perfect.

"Start!"

"Transfer the eternal life universe and the life world in the crystal wall universe!"

Su Lang took a deep breath and began this extremely vast project.

Ok.

He left several clones, avatars and twin avatars.

Plus the three obtained by just upgrading the one-click clone function.

After using the Baiying clone, there are also nearly a thousand Baiying clones.

These Hundred Shadows clones helped Su Lang transfer the life continents and planets within the eternal body, with exceptional skill!

Follow the old rules.

It must be Su Lang, a treasure land with a sufficiently high level.

The rest of the land will be temporarily set aside, whether it is used as a spare, or left to Chu Xiaobei and others, it will not be wasted anyway.

Time passed slowly.

Su Lang gradually transferred all the eternal bodies of the Nine Universe Eternal Realm!

His body.

Each of the more than 60,000 crystal wall universes and worlds has the largest and most prosperous continent that the current cell space can withstand!

Countless intelligent creatures live on every continent.

Especially after accepting the wise creatures remaining in the world of the Seven Nine Eternals such as Gujun Zhoudi.

The creatures in Su Lang's body have skyrocketed!

Therefore, the incense aspiration power obtained is more and more terrifying.

Every minute and every second, countless wise creatures knelt under Su Lang's feet and worshipped, offering their most pious aspirations!

"The Land of Reincarnation and the Nest of Civilization did a great job."

"Presumably, I can't use multiple levels, and my incense emperor soldiers can upgrade again."

"..."

Su Lang felt the majestic aspiration coming from the cells in his body, and there was a ray of expectation in his eyes.

After processing the eternal body.

Su Lang's gaze fell on that secret technique.

Although Emperor Gu Jun Zhou and others did not see their complete inheritance in the body world, or other places, they only remembered it in their minds.

But this can't help Su Lang.

He had long used the secret of the word thief to steal the remaining profound meanings of some exercises, repaired and perfected them with fragments, and formed the most perfect original of the exercises.

Of course, the situation was urgent during the war. Except for Shang Jiuqu and Fengdizhou Emperor, most of the others had only stolen a part of their exercises.

despite this.

The total number of part of the exercises of the seven Nine Universes Eternal Realm adds up, and the number far exceeds all the inheritance of two or three Nine Universes!

"[Tian Jun·Huahong Zhan], [Ding Realm Domain], [Tian Jun·Jue Zhan],"

"There are also [Sudden Sword·Split Universe], [Zhenhong·Guanxinpo], [Jieming·Renwan]...so many, so good!!"

Su Lang flipped through the storage space and used fragments to restore the original exercises, and the corners of his mouth gradually sketched out a satisfied smile.

Next second.

He activated the one-click martial arts function and began to practice these newly acquired techniques.

Seeing the ten martial arts villains busy in the mysterious black space, Su Lang couldn't help feeling happier.

"Next."

"Just count the three classics of the alchemy array and enrich your three knowledge!"

"Also, the one-key pill alchemy function can't be idle. This battle consumes a lot of pill, so I have to replenish it."

"Fortunately, there are enough trophies and material conversion function, so there is no need to worry about the type and quality of materials."

"..."

The color of thinking flashed in Su Lang's eyes, and he immediately took out some alchemy classics and read it.

"Friend Su Lang is really hardworking!"

"Even on the way, I didn't forget to study the exercises and classics, it makes me ashamed to wait!"

Jing Yunzi saw Su Lang take out the alchemy books out to read, and suddenly smiled and exclaimed.

[Chapter 2828: The alchemy villain is already working](#)

"Haha, you really can talk."

Su Lang smiled faintly, did not say much, then put the alchemy classics back into the storage space and took out the second one.

Jing Yunzi on the side was stunned when he saw this scene.

what happened?

Didn't Su Lang just take out the previous classic?

Why did you turn it over and put it back, and also changed it?

'Could it be that he has already studied the classics.'

'The reason why I took it out is to review it! ?'

'Hiss, Su Lang is really amazing, he never forgets to learn from the past and learns the new, no wonder he can be so powerful!'

'...'

A hint of surprise flashed in Jing Yunzi's eyes, and immediately lowered his head slightly, his eyes covered by shadows.

At this time.

Su Lang flipped through another book and changed to the next.

I have to say that the collection of the eternal powers of the Nine Universes such as Gujun Zhou is really rich!

Alchemy Dao Qi Dao Zhen Dao in all aspects of the classics, can be said to have everything.

Even if they are not interested in learning, they have collected too many pill formation classics in the long life.

'This wave is over.'

'There is no shortage of medicines and formations from One Universe to Nine Universes in Eternal Realm!'

Su Lang looked at the classics in his hand while drawing a faint smile.

While he was reading.

Inside the mysterious black space.

The alchemy villain has already been working.

It moves very fast, and a furnace of elixir is finished in an instant!

Each part of the material can produce multiple pills, and the quality is all perfect!

After these pills are refined.

Su Lang separated a trace of mind, activated the one-key synthesis function, strengthened the function, and raised the pill to a higher level.

It's not just the Nine Universe Realm Pills he used himself.

There are also a large number of elixirs of the Eight Universes, Seven Universes and even lower levels used by their subordinates.

gradually.

All kinds of medicinal herbs were abundant, and piled up into big mountains in Su Lang's storage space.

If Jing Yunzi sees these pills of Su Lang, make sure to look stupid directly!

"These medicinal pills can almost be supported by the kind of wars they had before a few more times."

"However, the pill, you are prepared for it, and you can refine more!"

"System, practice it for me, practice it fiercely!"

Seeing more and more pills, Su Lang smiled with excitement.

Time continues to pass.

Under the leadership of Jing Yunzi.

While practicing the exercises, Su Lang studied the classics of the pill, while...then he came to a hidden, fixed time-space tunnel.

At this time, the space-time tunnel is in a deserted natural universe.

Around the huge hole, based on a large number of eternal treasures, a huge magic circle is constructed, which continues to absorb the energy of the universe to maintain the existence of the space-time tunnel.

But there are a lot of 'Black Thunder' flashing and wandering around the entrance of the cave.

These are very dangerous space-time rifts.

"This fixed space-time tunnel is a bit unstable because it is very old and has not been maintained much."

"Around the route of this fixed time-space tunnel, there have been many white worlds due to the war, which makes it even more unstable."

"Even the warriors of the Seven Eternal Realm may not be able to get out after entering."

"However, for me, it is naturally a piece of cake."

Jing Yunzi pointed to the tunnel full of cracks in time and space, and explained with a smile.

"Ok."

Su Lang stared at the jade slip in his hand and nodded faintly, not paying attention to the danger of the time tunnel.

'This Su Lang, is he so relieved of me?'

Jing Yunzi was dumb, then smiled and shook his head, and said, "I'm going in first. Fellow Daoist remember to follow."

"Well, well, let's go."

Su Lang nodded, and put away the jade slip in his hand.

Jing Yunzi smiled, turned and flew into the space-time tunnel.

Su Lang followed closely and flew in comfortably, not afraid that this was a trap.

Sure enough, there was some instability in the time tunnel.

Even Su Lang saw a distorted white light, exuding a very dangerous feeling, it was the light of the universal white world!

In a flash.

Jing Yunzi and Su Lang flew out from the exit one after another.

"Ugh!"

"This tunnel can no longer be used."

Jing Yunzi looked back at the tunnel exit with regret, "The Universe White Realm has already swallowed it..."

[Chapter 2829: Into the polar rainbow universe](#)

"Haha."

"This is Lingxu Fragmented Domain, normal."

Su Lang smiled faintly, "Let's go, take me to see Jingyun Alliance."

"no problem."

"But I would like to ask Fellow Su Lang to wait a moment."

"At this time, the space-time tunnel is no longer accessible to the Seven Universes and Eight Universes. I have to seal it."

Jing Yunzi nodded, turned around and placed strict restraints in front of the time tunnel.

To this.

Su Lang has no objection.

He could also see that the restrictions set by Jingyunzi were nothing to the Nine Universe Eternal Realm, and even newcomers could easily open it.

Therefore, there is no meaning of closing his retreat.

"Sorry to keep you waiting."

After Jingyunzi arranged the restraint methods, he smiled at Su Lang, "Jingyun Alliance is not far ahead, please!"

"Let's go."

Su Lang nodded and followed Jing Yunzi up.

Not long.

Then came to a prosperous high-level universe.

This is the resident of the Jingyun Alliance, and the name is 'Ultra Rainbow Universe'.

"The extremely rainbow universe is a young, high-level universe."

"And it's still a rare twin high-level universe!"

"The two high-level universes are adjacent to each other, at the center of the universe, as the core of the entire universe."

"..."

Jing Yunzi took Su Lang to move on, and by the way introduced the details of the Extreme Rainbow Universe Region Jingyun Alliance.

While listening, Su Lang was also observing.

The extremely rainbow universe developed very well.

Moreover, in the universe, all the worlds advocate the right way, suppress the evil way, and the cultivators help each other, and the atmosphere is very good.

"This is only a small part of the universe in the Extreme Rainbow Universe."

Jing Yunzi said, "Daoist Su Lang can go around when he is free. In our Jingyun Alliance, from top to bottom, there is such a happy atmosphere."

"I will."

Su Lang smiled, "If Taoist Fellow Jing Yunzi doesn't mind, I want to put out some small things instead of eyes."

As far as the scene is concerned, it is good.

But it is also possible that Jing Yunzi made it specially for people to see, which is very easy for the Nine Eternal Realm.

Therefore, to see if this Extreme Rainbow Universe is really like this, you have to check it out yourself.

"The little thing that replaces the eyes?"

Jing Yunzi was stunned for a moment, and immediately revealed his enlightenment, "Yes, of course!"

Talking.

He also took out the universe map of the Extreme Rainbow universe and gave it to Su Lang.

"Ok."

Su Lang accepted the map and nodded with a smile.

Jing Yunzi dared to let him check it with such confidence, then this Jingyun Alliance and this extremely rainbow universe should be no problem.

Of course.

Su Lang would not be polite, and immediately released a large number of treasure hunting flying flying gliders, penetrating into the natural universe of the Extreme Rainbow Universe one by one.

quickly.

Countless treasure hunting flying flying gliders have spread across a large number of natural universes.

With the help of these treasure hunting flying flying eyes, Su Lang observed the situation of the entire Extreme Rainbow Universe Region Shocking Cloud Alliance more clearly.

it's here.

The basic law of survival remains the same, but people are much more kind before.

"It looks like this Shocking Cloud Alliance is on the right path."

"Also, this kind of atmosphere can make people who join the alliance feel more at ease."

"Especially now that the world of great controversy has come, this kind of peace of mind is becoming more and more important."

"..."

Su Lang thought in his heart, and followed Jing Yunzi to cross a barrier of natural universe.

Suddenly.

The flow of time is many times faster.

This is entering the upper universe!

"This is 'Hongyu', and there is a high-level universe called 'Jizhou' next to it."

Jing Yunzi introduced, "Among them, the 'Ultra Universe' is only open to the Nine Universe Eternal Realm, and the 'Hongyu' is open to everyone in the alliance, and it is also a place for guests.

Having said this, Jing Yunzi paused, with a smile on his face:

"Not long ago, I ran into an eternal powerhouse of the Nine Universes. He has traveled in the Endless Universe for many years and has a rich experience. He is now living in my Rainbow Alliance."

"Experienced very rich?"

Su Lang raised his eyebrows, "How do you call that senior, whose experience can't even match you?"

[Chapter 2830: Into the Cloud Alliance](#)

"Naturally it can't be compared!"

"That colleague calls himself the 'Master of Public Purity'."

"From him, I heard a lot of news that I had never heard before."

Jing Yunzi shook his head, "If you are interested, you can also ask some questions you want to know while he is still living here. He generally won't refuse."

"That's it."

"There are such strange people unexpectedly."

Su Lang nodded, ready to meet this Master Yujing.

"Ok."

"Friends of Taoism, please come with me. I will take you to Jizhou for a tour."

Jing Yunzi smiled, and once again spread the ripples of time and space, leading Su Lang to another high-level universe, Jizhou!

"Jizhou is the core of the Shocking Cloud Alliance."

"The hub of the entire alliance is here."

"Many members of the Nine Universe Eternal Realm choose to stay here."

While Jing Yunzi said, she took Su Lang around.

In the eyes of Su Lang.

The center of the Shocking Cloud Alliance is actually similar to the alliance he established in the Doudu universe.

Only in terms of management, Su Lang is monopolizing the power, so it is too loose in this Shocking Cloud Alliance.

And this is exactly what Su Lang wanted.

"how is it?"

"I have various halls of exercises, cultivation halls, and convalescence halls set up for eternal power...there is a very complete variety!"

Jing Yunzi smiled and looked at Su Lang, "Especially the Gongfa Temple in it, which is very popular with eternal power."

"Haha, not bad."

Su Lang smiled faintly, Jing Yunzi's all these things were left by him.

When he was still on the blue star of the boundless universe, he established an exchange house, which was called the real welfare.

For Su Lang.

The most valuable aspect of this Shocking Cloud Alliance is that it has loose management, intelligence channels, and an eternal level of communication platform of the Nine Universes, which can shelter from wind and rain to a certain extent.

The rest is really unattractive,

"That's good, that's good!"

Jing Yunzi showed a smile, "Then, did Daoist Su Lang decide to join Me Jingyun Alliance?"

"Join."

Su Lang nodded and immediately asked, "Do I have to pay anything?"

"That's great!"

"You don't need to pay anything to join the alliance."

"It's just that when the alliance is in crisis, we can take action together and work together to tide over the difficulties."

"Of course, if Daoists are willing to make some useful contributions to the alliance, they can get many treasures issued by the alliance."

Jing Yunzi saw Su Lang agree to come down, and suddenly his face was surprised.

Immediately after.

He took out three jade plaques and handed them to Su Lang.

"this is?"

Su Lang holding the jade card, although he saw the role of the jade card, he still pretended not to understand.

"The three jade plaques are the identity jade plaque, the communication jade plaque, and the jixun jade plaque."

"The Jade Identity Card can represent your identity, and the Jade Communication Card can directly contact me or other people. The Jade Identity Card is the place where all the eternal powers of the Nine Universes of the Shocking Cloud Alliance can communicate."

Jing Yunzi explained, "Both the Jade Identity Card for Communication and Jixun require activation of the Jade Identity Card."

"Yeah, I get it."

Su Lang has his own understanding of this.

The identity card is the account number, the communication jade card is a private chat, and the Jixun jade card is a group chat.

"So."

Jing Yunzi nodded, "Family Daoist now allows this identity jade card to recognize the master even if he has officially joined the alliance."

"no problem."

Su Lang immediately performed the jade card recognition ceremony.

He has checked this jade brand many times without any problems, so he is very happy.

"Friends of Taoism are really refreshing people."

Jing Yunzi laughed and said, "I have seen many eternal warriors, and they are the most straightforward and refreshing Dao friends!"

"You are also very straightforward."

Su Lang smiled slightly, put the jade card in his hand into the storage space, and said, "Then, there are just some questions I want to ask Master Jing. See you later."

"Okay, please!"

Jing Yunzi smiled and stretched out his hand.

Soon.

Su Lang nodded, turned around and stepped into time and space, and the ripples disappeared.

"It's great to add another one!"

Jing Yunzi looked at Su Lang's disappearing figure with a bright smile on his face.
