### [Chapter 2841: Turbulent undercurrent](#)

Although Su Lang killed seven people in Xuanyu Alliance.

But in the eyes of the braided boy, this does not seem to be a loss, but rather happy because of Su Lang's appearance.

"At present, there are not enough eternal top powerhouses in Nine Universes."

"It's still relatively suspended for the world's white world to collapse and form a white world vortex."

"With this Su Lang, he can be regarded as a high-level eternal martial artist of the Nine Universes."

"Jing Yunzi will also train Su Lang, and Master Yu Jing has probably been in contact with Su Lang."

"Su Lang is young and energetic. After learning the secrets of the page of eternal life, he will definitely have thoughts, and he is not afraid that he will not be fooled."

"It's just that if he can get stronger in a short time, that's even better."

"..."

The braided boy smiled at the corner of his mouth, his eyes flashed all over, and he didn't know what abacus he was doing.

at the same time.

In the extreme universe.

Inside a closed underground retreat hall.

"Is the boy pressed down?"

"Well, just press it down."

"It is absolutely impossible for a war to break out in advance."

"Only when the time is right can we go to war. Before that, I can also send benefits to the members of the Jingyun Alliance."

"Especially Su Lang who has great training value, we must make them stronger and play a greater role in the war!"

"..."

Jing Yunzi thought about it, and immediately flicked his right hand, and a pile of paper appeared in front of him.

If Gu Jun and others were resurrected, they would have passed out again in shock when they saw this pile of papers.

Because this is a stack of pages of eternal life!

Most of them are complete, only a few are incomplete.

"The Page of Eternal Life...I have saved so much."

"Unfortunately, if it is not a blank page of eternal life, even if the person and the book page fit together, the chance of detachment is very low."

"Blank eternal life page! Only a blank eternal life page can ensure the completion of detachment!!"

"..."

Jing Yunzi's right hand slid across the entire stack of pages of immortality, his eyes full of determination!

To blank the page of eternal life.

They, or he, have tried too many methods and made too many plans.

After countless efforts, I found the right way.

"Now the three new forces have been established."

"I am shocked by the Cloud Alliance. I am responsible for absorbing those who act conservatively and hesitate."

"The boy's Xuanyu Alliance is responsible for absorbing those who are ambitious but are more vigilant."

"The Zangzhen Sect on Mo Ya is responsible for absorbing people with huge ambitions and extreme behaviors. These people are often the strongest group of people."

"Finally, Master Yu Jing, relying on his prestige and connections, will definitely be able to enter the three old forces in the end."

"It depends on which force you enter, the Holy Demon Cult, the Ming Secret Universe Region, and the Dragon Evil Cult, the best one is the Holy Demon Cult."

"The three big powers are corrupt and degenerate, and they just want to preserve the endless universe so that they can always stay high."

"Among them, the Holy Demon Church is more aggressive. There are many generations who expect to be detached. With the secret promotion of the Master Yujing, the Holy Demon Church is gradually turning to our camp."

"..."

Jing Yunzi thought about it, with a smile on his face.

That is a confident smile!

"Everything is going smoothly according to plan."

"Sacred Demon Cult, Ming Secret Universe and Dragon Dragon Universe will also be our...my chess pieces."

"The ultimate winner, only me!"

Jing Yunzi took a deep breath and collected all the pages of immortality used as bait.

Soon.

He took out the jade plaque and sent out a message: 'Dear friends, tomorrow Tae will preach in the universe, and interested daoists can come and take a look.'

The news turned into a golden light.

Appears in Jixun Jade Brand Unreal Space.

Suddenly.

The entire Shocked Cloud Alliance is boiling! !

"what!"

"My lord is going to preach again!"

"It's great, I got a lot last time, and I don't know what I can realize this time?"

"You must not miss the preaching of the Thai leader. He is one of the wisest people I have ever met, and only Senior Yujing can compare with him."

"Everyone quickly put down what you are holding and prepare to listen to the preaching of the leader!"

"..."

The eternal powerhouses were so excited that they shared the great news with each other.

#### [Chapter 2842: The successor of Shang Jiuqu](#)

In the practice dojo.

Because Chu Xiaobei and others broke through in retreat, they couldn't come out and play together.

So Su Lang has been very boring looking through this and that.

Naturally, I saw the news in Jixun's Jade Pai at the first time.

"Jing Yunzi wants to preach?"

"A preaching by a powerful person at the advanced level of the Nine Universes may be useful to me."

"If you have nothing to gain, you can also join in the fun and get a familiar face to lay the foundation for the future collection of the younger brother."

"..."

Su Lang thought so, with a bright smile on his face.

But his deity will not go.

Because I have to hurry up and practice here.

So he plans to use Xing Cuan Yun He clone to go.

at the same time.

In the distant Tianqu universe.

An eternal formation in the void of the universe stretches for tens of thousands of light-years, forming a forbidden area that ordinary people can never approach.

Inside the formation.

A man in a white single shirt with loose long hair lay in the void.

This long-haired man is another clone of Shang Jiuqu, Shang Quyan!

Shang Quyan and Shang Quhan are said to be the clones of Shang Jiuqu, but they are not entirely true.

Because they are independent lives.

It was only later refined and nurtured by Shang Jiuqu using the supreme magic method to form his own clone.

And these two clones are also the 'tools' he has worked so hard to forge.

There is an instinct in Shang Quyan's body, that is, after the deity dies, he will come into this formation.

The deity was able to maintain a trace of true spirit in the original plan.

Use this array method that spends countless heavens, materials and treasures and time and effort to arrange.

Shang Jiuqu can take that trace of true spirit as the core, absorb the energy of the formation and the stored memory, and resurrect like bones and raw meat.

however.

Shang Jiuqu never expected that he could not even leave a trace of real spirit in Su Lang's hands.

Yes it is.

He has fallen completely!

The other clones cast from their own flesh and blood souls were also dead.

Shang Quyan, a clone made of foreign objects, also failed to keep the true spirit, and fell.

However, its original layout still played a little role.

Shang Quyan, who had lost his spiritual intelligence, relied on instinct to come to this formation.

Immediately, the formation method was automatically activated, and the resurrection process began.

In the surrounding formation, a peculiar torrent of energy was poured into his body.

These energy torrents carry the backup memories of Shang Jiuqu, and they are very complete, from birth to death.

With the infusion of energy and memory.

A ray of light gradually appeared in Shang Quyan's ignorant eyes.

But this divine light is very slack.

Because there is no real spirit as the core to condense memory and restore the soul.

Seeing the resurrection will fail.

suddenly.

The array light shines again.

Again, countless energies merged into Shang Quyan's body.

At the same time, there is a slight sigh in these energies: 'If I really get to this point, I don't know if I am resurrected, it's still not me...'

no doubt.

Even if he is resurrected, it is not his Shang Jiuqu, it is just another person who has his memory.

When Shang Jiuqu deployed this method, it was actually very clear.

But this is his last resort, his last hope for revenge.

If you can't get revenge yourself, then take revenge through the hands of 'other'!

at this time.

The second phase of the formation started.

A very weak real spirit was awakened from Shang Quyan's body and began to contain the memory of Shang Jiuqu.

This trace of true spirit is the true spirit of the original owner of Shang Quyan's body, and it was also specially left by Shang Jiuqu.

The faint real spirit absorbed a lot of energy and all the memories of Shang Jiuqu, and the divine light in his eyes became more concentrated and bright.

at last.

The formation completely ran out of energy and disappeared in smoke.

"I live!"

"I'm...Shang Jiuqu!"

Shang Quyan was suspended in the void, with a hint of joy in his eyes.

But he didn't know.

I am not Shang Jiuqu, just a fake who thinks it is true.

"Su Lang..."

"Damn Su Lang, actually forced me to this point!"

"What should I do now? With my current strength, if I seek revenge, it would be death."

"No, I must find a place to restore my cultivation first."

"..."

"Shang Jiuqu" recalled the memory of being beheaded by Su Lang, his eyes and face were full of shame and anger, but more still powerless.

Su Lang defeated their entire seven Nine Eternal Eternals by one person.

[Chapter 2843: Go to Jingyun Alliance](#)

Temporarily suppress thoughts of revenge.

"Shang Jiuqu" began to plan where to go next.

Anyway, this Tianqu universe can't stay.

After all, Su Lang could come over at any time.

Think about it.

A picture emerged in his mind.

At a table by the window of a restaurant, a middle-aged man smiled at him.

"Jing Yunzi!"

"Jingyun Alliance seems to be a small force, but it is definitely okay as a temporary foothold."

"This Jing Yunzi is also very easy to talk about. I apply for joining with my current cultivation base, and I will probably succeed."

"Well, that's it. Go to the Startled Cloud Alliance and dormant for a while, restore the cultivation base, and then find a way to seek revenge from Su Lang!"

"..."

Thinking so.

The 'Shang Jiuqu' immediately set off and began to pack the properties of the Tianqu universe and the nearby universe.

If it's not possible.

He even wanted to pack up the entire Tianqu universe.

It was also when Tai Jingyun was preparing to preach, and Shang Jiuqu's "resurrection".

The three old forces in the endless universe are also undercurrents.

In a seemingly ordinary natural universe.

A vast expanse, with black as the main color, and luxurious buildings decorated with gold, full of a lot of void.

But this building is very empty and deserted.

Because this is the basic universe.

And the time flow rate of this universe is the slowest even in the basic universe!

For the average eternal warrior, this is the place most reluctant to stay.

But for some old monsters, this is their favorite place.

it's here.

Many years have passed since the time of a breath was placed in the rest of the high-level universe!

Put the deity here, and then use the clone to go out and act, this is their way of survival.

usually.

These super powers, known as old monsters, are immortal.

But today.

A sleeping master of the Nine Universes came out of the retreat and gathered together!

at this time.

In a wide hall.

Thirteen human figures sit opposite each other, forming a circle.

These thirteen people are the thirteen powerhouses at the core of the Holy Demon Sect, and everyone is the advanced powerhouse of the Nine Universes!

just.

Their remaining lifespan is too short.

Under normal circumstances, one would not dare to leave this basic universe at all, and could only condense the clone to go out, but how could the strength of the clone be comparable to the deity?

They are a group of people imprisoned by life.

"Everyone!"

"The trend of the coming of the world of great controversy has become more and more obvious, and the frequency of the page of eternal life has become higher."

"Those who want to transcend the endless universe and get rid of the curse of 'Living with the Universe' have long been ready to move!"

"Everyone discuss, what should the Holy Demon Cult do?"

An elderly man in a robes with long eyebrows broke the silence.

"What is there to discuss?"

"I don't think those guys can make a big storm."

"Our Holy Demon Cult, as well as the Ming Secret Universe and the Dragon Dragon Universe, have ruled the Endless Universe for how many epochs, and when has there been a problem?"

"Even if this is a world of great controversy, I don't believe they can shake our position."

"At that time, we will use the Congenital Eternal Domain Treasure to stabilize the Eternal Domain on the periphery, contain the Universe White World, and let them fight each other's blood in the battlefield dedicated to them in the Lingxu Fragmented Domain.

A big man with a height of three meters, his muscles swollen and hard as a rock said.

"That's bad."

"This time is different from before."

"The coming of the world of great controversy means that a blank page of eternal life may appear!"

"That's a chance to be 100% able to transcend the endless universe, gain immortality, and get to the next level!"

A young-looking man in Qingpao said, "No one wants to give up this resource, and I don't want it!"

"Not bad."

"In the past, we were the most sticky, because the chance of detachment was slim."

"Even if it is a complete page of immortality, the chance of success in detachment is very slim."

"Instead of dying in vain for the sake of detachment, it is better to live in this universe, and then use your clone to live out all kinds of lives in those high-level universes."

"But it's different now. Once you get a blank page of immortality, it means you can break all the cages and gain complete freedom and greater strength!"

A middle-aged man with thin body, high bulge cheekbones, and sharp sword eyes said loudly!

#### [Chapter 2844: Controversy](#)

"I suggest to continue to maintain the previous purpose."

"The war in the world of great controversy will definitely break out, it depends on which side we are on."

"The Ming Secret Universe and the Dragon Dragon Universe are our natural allies, so why bother to seek distance?"

A man with a short beard in a gray robe said, "As long as the three of us work together, we will be able to curb the expansion and deterioration of the Universe White Realm and preserve the countless universes of the endless universe!"

"I agree with the purpose of changing the past."

"Don't talk about other things, in the endless universe, for so many years, too many universe white realms have appeared centered on the Lingxu Fragmented Realm."

"And our Sacred Demon Cult, Ming Secret Universe and Jielong Universe seem to be in the same camp, but there are too many sordid ones, but they seem to be in harmony with each other."

"The three of us, each one is afraid that the other party and those who hide their heads and reveal their tails will unite to seek the other two Transformation Jewels and become the only master of the endless universe."

"In this way, the three great treasures of the innate cosmic realm that our tripartite forces have mastered, the Hanging Mang Huan Zhou Zhu, Hongmeng Huan Zhou Zhu, and Chaos Huan Zhou Zhu, cannot be brought together at all, nor can they exert their greatest power at all! "

"In the past, the damage to the Lingxu Fragmented Realm was not too great. If we use a Huazhou Bead in a single family, we can curb the expansion of one of them in the Universe White Realm."

"But this time the situation is different. A single Huazhou Bead may not be able to contain the Universe White Realm."

"It is difficult for the three of us to truly unite until the last moment, but when we are forced by the situation to gather the three treasures temporarily, I am afraid it is too late!"

"At that time, even the endless universe will be destroyed. What is the point of our persistence?"

A plump young woman looked like ice and said with a slight sigh.

"No, no, no."

"The current situation of the endless universe, the Ming Secret universe and the Dragon Dragon universe must also be very clear."

"Our three parties will not wait until the last moment to temporarily unite."

An old woman in red shook her head and said, "As long as the three of us work together, we can stop those people's plans, preserve the endless universe, and protect ourselves."

"I don't agree with continuing to stick to it."

"My life span is running out. Even if I use my clone to live outside, I am not as happy as I used to be. I would rather fight for it before I die."

"If you get a blank page of immortality, wouldn't it be a big profit, hahaha!"

A plain-looking man laughed.

"It's better to stand with the Ming Secret Universe and the Dragon Dragon Universe."

An old man with a short stature said, "We are also the three major forces that have ruled the endless universe for countless years. Why are you so unconfident to deal with those who hide their heads and show their tails?"

"I think it should be changed!"

"No, it's still the safest as before."

"That's right, how many times there have been Lingxu Fragmented Domain wars, this time is nothing more than a bigger one, we can still get through it."

"Joke, it can't be better this time!"

"..."

Everyone quarreled with each other.

Among the thirteen powerful people, the ones who agreed and the ones who opposed each accounted for half, and they were unable to make decisions for a long time.

In addition to the holy demon.

People also held a meeting to discuss the affairs of the two major forces of the Ming Secret Universe and the Dragon-Jielong Universe.

But the strong of these two forces are more determined.

Most of them chose the same as before, when the Lingxu Fragmented Realm war started, using the Innate Eternal Eternal Realm Supreme Treasure Eternal Pearl to curb the expansion of the Universe White Realm.

In the past.

but.

Because this time the situation is more urgent than before.

The people in the Ming Secret Universe and the Jielong Universe are considering whether to combine the three...

It was also at the gathering of the three major cosmic domains such as the Sacred Demon Sect.

In the high-level universe, a day passed in a blink of an eye.

Tai Jingyun also officially announced that Chen Shi was preaching at Jizhou Caiyu Tianshan.

at this time.

Time is almost up.

[Chapter 2845: These are all the little brothers of the future](#)

"It's finally time to join in the fun."

"System, start Xingcuanyunhe!"

Su Lang's heart moved, and he issued system instructions!

The avatars and Gemini avatars who lost in the war before had already cooled down.

Therefore, the system function is activated, and the incarnations of the deity are merged.

Suddenly.

A star Cuanyun He clone appeared, and its aura fluctuated to the intermediate level of the Nine Universes.

"Perfect possession!"

Su Lang unfolded the system functions and leaned over the Xing Cuan Yun He clone.

"Well."

"feel good."

Su Lang manipulated the Xing Cuan Yun He clone and stretched out, and then hurried towards Caiyu Tianshan.

Said to be on the way.

In fact, it is just one step.

With one step, he came outside Caiyu Tianshan.

Many people have already arrived here.

Because Tai Jingyun does not limit the cultivation of the people who listen to the lecture, there are not only the eternal warriors of the nine universes, but also the eternal warriors of the eight universes.

As for the Seven Eternal Realm, they are not qualified to come, even if there are no restrictions.

at this time.

A group of eternal strong men gathered together in twos and threes, looking in the direction of Caiyu Tianshan from time to time to see if Tai Jingyun had come.

at this time.

"Look!"

"It's Senior Su Lang!!"

"What, Senior Su Lang is here!"

"Senior Su Lang is here, my God, he's really young!"

"Yes, there is no trace of erosion over time. How did Fellow Daoist Su Lang do it? It's really amazing."

"It's hard to believe that such a young eternal warrior can kill seven senior Nine Universe Eternals with one enemy seven!"

"Senior Su Lang, admiring your name for a long time, it is really extraordinary to see you today!"

"Friend Su Lang, there is a friend below, with a beautiful appearance, and she is already at the top level of the Eight Realms. She admires you very much. Are you interested in accepting... accepting disciples?"

"..."

An eternal warrior turned his head, and his surprised and joyful eyes fell on Su Lang one after another.

Many people stepped forward and smiled and surrounded Su Lang's side.

Everyone's faces were full of admiration and admiration, and some even stepped forward to get close to Su Lang, who planned to give gifts to Su Lang directly.

In the distance, many beautiful and immortal women were watching Su Lang, with brilliance in their eyes, with a trace of eagerness.

A young and fierce powerhouse like Su Lang is absolutely rare in the endless universe. If he can climb his thigh, he will not worry about it in the future.

And for an enthusiastic eternal warrior.

Su Lang was also smiling brightly in return of courtesy and dialogue.

Of course, he pushed all those who came directly to give gifts.

"I appreciate your kindness!"

Su Lang bowed his hands to the crowd and said with a smile on his face, "Today is the day when the leader of Tai Jingyun preached. Let's get together another day."

He happens to be short of manpower!

These people are all the little brothers of the future!

The warriors stationed in the Boundless Number are the stronger the better.

And now, apart from his clone, the remaining fighters stationed in the military are not very powerful.

If everyone in the Shocking Cloud Alliance can be recruited, the Infinite will be able to burst out even more terrifying power by then!

at this time.

A golden light fell from the sky, and it fell on the top of Caiyu Tianshan, and it was Tai Jingyun.

He fell.

Caiyu Tianshan suddenly descended rumbly, and huge colored stone pillars rose up around it quickly.

Caiyu Tianshan disappeared, replaced by a vast colorful stone forest.

"Please take your seats."

Tai Jingyun stood on a stone pillar in the middle, smiled and handed over to everyone, and even paused for Su Lang.

"The leader is so approachable!"

"Haha, where can I find such a good senior? I just met him!"

"Stop talking, I'll be seated soon!"

"..."

Everyone talked about it, and immediately began to take their seats.

People are very conscious, and those with low strength automatically sit on the periphery. The stronger the stronger, the closer to the center.

Su Lang sat on one of the three stone pillars adjacent to Tai Jingyun, in front of many Nine Universe Intermediate level powerhouses.

But no one is dissatisfied with this.

Everyone knew that Su Lang's strength was not as simple as it seemed on the surface.

#### [Chapter 2846: Su Lang's doubts](#)

Wait until everyone is seated.

"Now the preaching begins."

"The topic I'm going to talk about today is how to split the world of crystal wall cells with the least amount of core origin of the universe."

"As everyone knows..."

Jing Yunzi looked around at the crowd, his expression was calm, his voice was calm, and he began his preaching.

His themes are very common, but also extremely important.

This is especially true for the many warriors present here.

Because at the level of Eight Universes and Nine Universes, the vast majority of warriors have already reached their end, and they must slowly open up a path before they can move on.

If you can get the experience of Jingyunzi, you will definitely be able to blaze a path of becoming stronger faster and move to a higher level.

and so.

After Jing Yunzi started preaching.

Almost everyone was excited, then held their breath, and started to listen to the lecture with full concentration.

Only Su Lang was a little disappointed.

"That's it."

Su Lang touched his chin and sighed in his heart, "My crystal wall cell world is too much, and I have only completed less than one-third of the path of spiritual practice..."

but.

He still chooses to listen carefully and make a note of it.

What if it's useful in the future?

Even if you are useless, you can teach it to your partner and subordinates.

Therefore, it is not entirely a trip in vain.

Following Jing Yunzi's Jinsheng Yuzhen preaching, every sentence of Zhuji with the meaning of the word spread to everyone's ears.

An eternal strong man is fascinated by his ears, and dare not be distracted by the slightest.

"Well....."

"What he said, I knew it before."

"Hey, did he make a mistake in the previous sentence? What I'm talking about now is somewhat conscious, it's a new knowledge."

"..."

Su Lang supported his chin while listening, thinking and confirming, his thoughts kept flickering.

have to say.

Jing Yunzi is indeed a profound person.

Even if Su Lang had practiced so many exercises, after listening to Jing Yunzi's sermon, he could still gain so much.

And this also made Su Lang realize that Jing Yunzi is very different from the rest of the Nine Universe Eternal Senior Martial Artists.

"Jing Yunzi's profound knowledge can be said to be far superior to the martial artist of the same level."

"The two senior martial artists of the Nine Universes next to each other listened very carefully, and from time to time they showed Mingwu's surprise."

"The age and experience of this person's survival are very terrifying. It is estimated that only the Master Yujing can be better than him."

"Such a strong man... really doesn't have a trace of ambition for the page of eternal life, as the Master Yu Jing said?"

"Does he really just want to keep one acre of land in the battle?"

"Or, in other words, he is the person who supports the protection of the endless universe and opposes the expansion of the universe and the white world to seek transcendence among the two big 'camps' of the endless universe?"

"But it shouldn't be. If he really has this idea, why should he go it alone instead of joining the three old forces?"

"..."

Su Lang thought in his heart, unable to resolve a trace of doubt.

"Would you like to spy on his thoughts by stealing words?"

"No, it's not good, it's easy to be discovered. It's better to be refreshed and just ask."

"But if you just ask, the answer you get may not be the truth."

"After the sermon is over, find an opportunity to see if you can explore him."

Su Lang silently made a decision, even if he continued to listen to the lecture.

He used his knowledge to confirm each other and derive a higher level of mystery.

Time passed slowly.

Jing Yunzi's sermon finally ended at a certain moment.

Many warriors present were still immersed in the endless mystery, and they were unable to return to their senses for a long time.

"This preaching ends here."

"Everyone, digest it first, Taimou still has some important things to deal with, so let's leave first."

Jing Yunzi got up and bowed his hands to everyone.

Su Lang, as well as a few masters who had digested the content of the sermon, also stood up and bowed their hands in return.

Soon.

Jing Yunzi disappeared from the place and went to work.

Su Lang's figure also flashed, and after leaving everyone's spiritual consciousness range, he withdrew his perfect possession and withdrew his clone.

In the practice dojo.

Su Lang sat on the smooth, mirror-like jade ground, holding a wooden sign emitting a faint light in his hand.

[Chapter 2847: All-round nine-plane combat power](#)

This wooden sign.

It was the original exercise method he created after listening to Jing Yunzi's preaching, combined with his own knowledge.

This Su Lang original technique.

In this aspect of splitting the world of crystal wall cells, it is definitely more powerful than Jing Yunzi's method!

"When the number of empowerments is refreshed, I will instill it to the people below, Chu Xiaobei, Ji Ruxue...all need it."

Su Lang thought so, a smile was drawn at the corner of his mouth.

Soon.

He looked at his mysterious black space.

During the period of Jing Yunzi's preaching, the cultivator has accumulated a huge amount of cultivation base, and it is time to perfect the Crystal Wall Universe in a large amount!

"The 59-level one-key training function, 7680 billion times the training speed, is awesome!"

Su Lang smiled excitedly, rubbed his hands, and immediately issued instructions, "System, start the Crystal Wall Universe function for me!"

The voice just fell.

Countless cultivation bases suddenly poured into Su Lang's body from the cultivation villain!

The huge amount of cultivation is like a Tianhe, blending into the power of the Great Avenue of Time, pouring into the crystal wall world one by one.

Immediately, these forces merged with the thousands of avenues of space in the crystal wall world, completely perfecting the entire world into a crystal wall universe that can condense the power of the universe!

Compared with the ordinary eternal warrior of the nine universes.

Su Lang's speed in perfecting the Crystal Wall Universe is simply abnormal, and he can perfect the Crystal Wall Universe on the order of tens of millions in an instant!

quickly.

The cultivation base is completely exhausted, but the number of Crystal Wall Universe has also increased by more than 5,000!

That is, more than five thousand trillion crystal wall universes!

In such a short time.

Su Lang has obtained the fruits of countless millions of years of hard work by the rest of the eternal strong.

at this time.

The number of his crystal wall universe has reached 18,530!

It's not far from the true Nine Universe Eternal Realm!

"system!"

"Open the properties panel!"

Su Lang's heart moved, and a panel suddenly appeared in front of him.

[Name]: Su Lang

[Race]: Human race

[Qualification Level]: Turbidity

[Realm level]: Eight Eternity

[Attack level]: Jiuzhou Eternal

[Defensive level]: Jiuzhou Eternal

[Shenfa level]: Jiuzhou Eternal

[Endurance Level]: Nine Universes Eternal

[Spirit Level]: Realm of Universality+

[Mastering the exercises]: "Unlimited Liyu Juntian Chaos Sutra", "Ten Thousand Laws Return to One-Infinite Profound Meaning" (Eternal Grade, Super Yi)

[Activated system functions]: One-key practice function (level 59), one-key martial arts function (level 58), one-key clone function (level 58), one-key treasure hunting function (level 57), one-key alchemy function (level 23) Level), one-key mixer function (level 23), one-key refinement function (level 22), one-key synthesis function (level 23), one-key empowerment function (level 33), one-key enhancement function (level 18), One-key decomposition function (no level)

"Finally, all attributes have reached the level of the Nine Universes!"

"The spirit level has also reached the advanced level in the realm of Huanni, which is better than Jing Yunzi!"

"Cultivating for a few more days, with the function of 'spiritual cultivation', my soul will be able to go to the realm of extreme nirvana!"

"As long as the bottleneck is reached, using the function of the 'Extreme Nirvana Soul', you will be able to break the barrier in one fell swoop and succeed in an instant!"

"I don't know if there is a strong soul in this endless universe that has reached the realm of extreme nirvana?"

Su Lang glanced at his attribute panel and nodded in satisfaction, with some expectations for the brand new soul realm in his eyes.

of course.

The eternal body is the foundation, and it is necessary to give priority to improvement.

"I will work harder."

"If you practice for a few more days, you will be able to reach the Nine Eternal Realm!"

"At that time, my combat power will definitely undergo a qualitative change again, and the overall combat power will skyrocket!"

"And before that, I can improve other aspects, such as exercises, weapons, and formations!"

"..."

Su Lang silently calculated in his heart, even if he put his attention on the villain Xiwu.

at this time.

"Ding! 'Audi Ni Linglu' has reached the super-easy level!"

Accompanied by system prompts.

It is also a large amount of exercises and secrets that have been incorporated into Su Lang's body and soul.

This exercise is also the last one of the many exercises he got in the last war.

The rest of the exercises will be completed by the way when you accumulate your cultivation base.

[Chapter 2848: Stealing mystery volume](#)

"I have practiced millions of exercises again."

"It's a pity that most of the profound meanings of the exercises are repeated, almost useless."

"That is to say, the exercises of Gujun, Shang Jiuqu and other Nine Universe Eternal Realm great abilities performed by themselves are effective."

"It's also time to use the source of the exercise technique to deduce and update the secret techniques such as 'Po Yi Jian' and 'Breath without Evil'."

"By the way, the secret of word stealing is a very useful ability. You can use it as the core to deduce more concealed and more effective secret techniques!"

"..."

Su Lang touched his chin, and after making a decision, he immediately started to act.

"System! Activate the source of exercise function!"

Su Lang issued an order in his heart, "Give me an update on 'Broken Sword'!"

"Ding! 'Po Yi Jian' deduction is being updated!"

The system prompt appears.

Numerous hidden meanings emerged in Su Lang's body, melted into a colorful sphere, and began the deduction process.

quickly.

The colorful Upanishad spheres became clear and transparent, and finally exploded fiercely. Numerous brand-new Upanishads merged into Su Lang's body and soul, turning them into instinctive abilities.

"The deduction is over!"

"The brand new Poyi Sword is stronger!"

Su Lang pointed his hands together to form a sword, and a white light shined through.

He felt the profound meaning and power of breaking a sword after the update, and smiled with satisfaction.

The restraint effect of the current broken sword is too terrifying.

The defense of the powerhouse at the same level can display a twelfth effect in front of it, which is very good.

therefore.

Even if he does not use the secret technique, if Su Lang launches a broken sword, he will have a great chance to directly slay the warriors at the primary level of the Nine Universes!

"Hehehe, that's cool!"

Su Lang flicked his fingers with a smile, extinguished the sword glow, and immediately continued to order the deduction and update of other secret techniques.

In addition to breaking a sword.

The source mystery of the exercise method also includes the 'Master of the Universe', 'Zhou Flash', 'Jade Fragment of Fate', 'Breath without Evil', and 'No Respect'.

"system!"

"Start the source of exercises function..."

Following Su Lang's order, the source secret techniques of the five great exercises have all been updated and evolved.

Among the secret techniques of the Nine Universe Eternal Realm, these five secret techniques are the top one in their respective fields!

"Now, it's time to deduce the secret of stolen words."

"I have to say that Emperor Gujun Zhou's aptitude is quite good, but he is a bit too greedy."

Su Lang's mind came up with the mystery of stealing the word secret, and immediately ordered the activation of the source secret technique of the practice!

After a short deduction process.

Almost in the blink of an eye.

The secret technique was successfully deduced!

Countless secrets have gathered in Su Lang's mind into a brand-new secret technique-[Stealing Mystery Volume]!

As opposed to stealing the word secret.

Su Lang only retained the ability to steal 'thinking' and 'thoughts', and abandoned the rest of the complex functions.

Therefore, this secret technique has become purer and more terrifying!

"The mystery volume now."

"It will be effective if it is used against a strong man like Jingyunzi."

"If you add Jinghua Shuiyue to secretly guide, the effect will be even stronger!"

"However, the current Jinghua Shuiyue is only at the primary level of Nine Universes, and it is far worse when it is used on the powerhouse of Jing Yunzi's level."

"Next, I will upgrade all the weapons. It just so happens that the materials obtained by killing Gu Jun and others have not been used much yet, so I just refined the pill."

Su Lang thought to himself, and then began to upgrade his weapons.

As usual.

The first upgrade is the main battle weapon Youtian Sword!

The current Youtian Sword is of the Seven Eternal Realm, and its combat power is at the intermediate level of the Nine Eternal.

Weapon characteristics are that the sword must hit, break the defense and die, knowing one blow, and devouring power.

The total number of enhancements is 15 times.

The enhanced qualitative change effect is the power consumption increase, the knowing blow increase, and the overall power increase.

"Now the one-key mixer has reached level 23."

"It's time to evolve the Youtian Sword to the Eight Eternal Realm!"

Su Lang sat on the glorious and translucent jade ground, placed the Youtian Sword horizontally on his knees, and gently swept his palms across the snowy sword.

The sword's body trembled slightly, and Ling Xiaoyou let out a faint cry.

"system!"

"Start the enhanced reset function!"

"Start the weapon evolution function, strengthen the function with one button, and strengthen the qualitative change function!"

Su Lang issued instructions suddenly, and it was four orders at once!

#### [Chapter 2849: Upgrade ten eternal emperor soldiers](#)

Suddenly.

The number of enhancements of the Youtian Sword is reset, the effect of the enhancement qualitative change disappears and the Seven Eternal Realm is restored.

But then.

"Ding! Consumes Eternal Soul\*100,000, Universe Origin\*1 billion, Eternal Realm materials...The Youtian Sword has evolved into the Eight Eternal Emperor Soldiers!"

"Ding! Strengthening is successful, Youtian Sword +1!"

"Ding! Strengthening is successful, Youtian Sword +1!"

"Ding! Strengthening success...!"

"..."

"Ding! The first enhancement qualitative change is completed, and the power swallowing feature has been increased!"

"Ding! The second enhancement qualitative change is complete..."

"..."

The system prompts one after another.

After more than twenty system prompts, it was quiet.

And now the Youtian Sword.

On the basis of the Eight Eternal Realm, it has been strengthened 18 times, and it has completed three strengthening qualitative changes!

The direction of strengthening qualitative change is the same as before.

Its combat power was successfully promoted to the advanced level of Nine Universes!

It seems that it has only crossed a small level, but in fact the increase is very terrifying!

It should be known that when he was fighting against the seven powerful enemies of the Nine Universes, Su Lang had all his hole cards exploded before reaching the advanced level of the Nine Universes.

"Nine Universe Advanced Level."

"To control you, the consumption becomes even greater, and you have to take drugs, or you will be squeezed dry."

Su Lang stroked the sword body of Youtian Sword, feeling the excitement of Xiaoyou, a slight smile was drawn at the corner of his mouth.

Soon.

With a thought in his mind, Youtian Sword turned into a hairpin and inserted it into the bun.

Next.

It is the eight-sided shield of the sky and the sword of life.

among them.

The current combat power of Tianjia's eight-sided shield is the middle and lower levels of the Nine Universes, and the sword of life is the first level of the Nine Universes.

"system!"

"give me....."

Su Lang issued an order again and began to upgrade the two weapons.

Suddenly.

Both the Heavenly Eight-Edged Shield and the Life Sword have been strengthened 18 times, and they have completed three strengthening qualitative changes, which have been greatly improved!

The former reached the advanced level of the Nine Universes, only slightly weaker than the Youtian Sword.

The sword of life is slightly weaker than the eight-row shield of the sky, and it has reached the advanced level of the nine universes.

"Tsk tusk, three high-level weapons of the Nine Universe!"

"Although the consumption of materials is terrible, it is totally worth it!"

"Moreover, there are so many materials harvested this time, and both the realm of reincarnation and the nest of civilization can evolve."

"The incense aspirations collected recently can also evolve two weapons!"

"In addition, the remaining materials are completely enough to strengthen all weapons fifteen times, and complete three strengthening qualitative changes respectively!"

"..."

Su Lang rubbed his hands in anticipation, and then continued his weapon promotion career!

Not long.

The mirror flower water moon and the heart-piercing lock evolve to the Eight Eternal Realm, completing 18 enhancements and three enhancements and qualitative changes!

The combat power levels of the two weapons reached the level of the Heavenly Eight-Edged Shield, only slightly weaker than the Youtian Sword.

The state of reincarnation and the nest of civilization evolve to the eternal state of the eight universes, complete fifteen enhancements, three enhancements and qualitative changes, and reach the middle and upper levels of the nine universes!

On the basis of the Seven Eternal Realm, the purple golden gourd and the Seven Treasure Tree have completed fifteen enhancements, three enhancements and qualitative changes, reaching the intermediate level of the nine universes.

At last.

Su Lang would definitely not forget the Infinite.

After some operations.

The three core parts of the Infinity have reached the level of the Eight Eternal Realm!

The remaining parts have also been promoted.

At last.

Su Lang completed fifteen times of strengthening, three times of strengthening qualitative changes, one time to increase self-recovery ability, and two times to increase the overall power.

Currently.

In an unloaded state of the Infinite, it has reached the advanced level of the Nine Universe Eternal Realm!

The key is that after the self-recovery characteristics are strengthened and qualitatively changed, to a certain extent, it can fight on its own!

Of course, the fighting intensity cannot be too high, otherwise it will be difficult to last.

"Finally strengthened!"

"Family is almost completely hollowed out!"

Su Lang looked at the brand new Infinity, and he was excited and relieved again.

After reaching the Nine Universe Eternal Realm, every point of improvement will cost a huge price!

If it weren't for Su Lang's one-key synthesis, material transformation, one-key enhancement and other functions, he could make the most of all resources, and he would not be able to upgrade so many weapons at all!

#### [Chapter 2850: Repair the Desperate Eternal Prison Array](#)

at this time.

All weapons have been upgraded.

Su Lang received six nine-horizon high-level weapons, including the Youtian Sword, and the remaining weapons were all nine-horizon intermediate or upper-middle-level weapons!

These weapons alone can make countless people envy and jealous!

If these entire ten weapons are taken out together, I don't know how many chins will be shocked!

"The improvement in weapons has come to an end for the time being."

"When we have enough materials, we will strengthen all weapons to the top level of the Nine Universes!"

"Now, it's time to improve the tactics of the formation, the formation is used well, it is also a very terrifying help!"

"..."

As Su Lang put his weapon away, he thought about it, and took out a formation.

This array is full of cracks, it is the broken 'Desperate Eternal Prison Array'.

In the previous battle, without this formation, it would be much more troublesome to deal with Gu Jun and others!

"The one-key refining function could not be upgraded."

"All kinds of materials are almost consumed."

"But it doesn't matter... the system, start the one-click decomposition function!"

Su Lang issued an order in his heart, and the formation suddenly fell apart and turned into countless raw materials!

Because of the damage of the array.

The material obtained after decomposition is definitely less than during refining.

If these decomposed materials are used to refine the formation again, the strength of the formation will be weaker.

Su Lang is definitely not willing to do this.

So he thought of a way, that is

——Insufficient materials, use soil to make up!

Yes, it is to use those extra planets and continents after filling the crystal wall universe, placed in the divided body or in the infinite storage space!

These 'lands' left after being picked by Su Lang, in fact, in the eyes of low-level warriors, many of them can be regarded as treasure lands.

Under one-key synthesis, one-key enhancement and other functions.

These low-level 'mud' can gradually become high-level treasures.

Finally, it's the turn of the material transformation to appear again!

No matter what materials are needed to refine the formation, you can use this function to transform it!

Just do it.

Su Lang immediately began to act.

He intends to convert all the previously unwanted planets and continents into useful materials in one go.

However, before that.

He chose to use the 'Nine Places of Dao', and first upgrade it.

Of course he is not the only one who works.

It's the avatars acting together!

A avatar of Hundred Shadows was dispatched, a full-scale toolman of the Eternal Realm of Ten Thousand Nine Universes, and began working for Su Lang!

The tool man of the Nine Universe Eternal Realm, how powerful it is!

With a wave of a big hand, a large amount of land quality has turned into a spiritual and spiritual world!

But this project is a bit huge.

After all, the smallest units of engineering quantities are 'planets' and 'continents'...

Fortunately, Su Lang was boring and tight anyway, so he just went to work to kill the time.

at the same time.

After Tai Jingyun finished preaching, he went to deal with the affairs of the alliance.

Although the Jingyun Alliance is relatively loose, it definitely needs to be managed, otherwise the thin and thick ones will be unclear and all messed up.

at this time.

What Jing Yunzi is dealing with is to review newcomers who are about to get started in the near future.

The entry gate of Jingyun Alliance is not high.

But the audit is definitely needed. Jingyunzi needs to guard against spies from the three ancient forces.

These spies don't have to be turned away.

Instead, they need to collect some in order to better dispel the suspicion of the three ancient forces.

Jing Yunzi knew that what he did was not perfect, but there were definitely no major loopholes, only minor shortcomings.

These shortcomings may raise some suspicions.

But this is not a big problem, if people can't find any problems, then that is the biggest problem!

Anyway.

As long as the real clues are not discovered by those spies!

"Leader!"

"The Taoists who are going to join the alliance this time, I have already taken it outside the temple!"

An Eight Eternal Realm martial artist flew into a large hall and reported to Tai Jingyun who was sitting behind the case.

"Great!"

"Let you fellow Taoists come in one by one."

Jing Yunzi showed joy and said kindly to the warrior who reported to him.
