[Chapter 2871: This kid must be pretending](#)

"Ok."

"let's start."

Su Lang nodded and smiled slightly.

"Great."

"Xia Xia is currently practicing a technique that can accelerate the perfection of the Crystal Wall Universe."

"However, during the training process, I encountered a difficult point, so I asked Taoist Fellow Su Lang for advice."

"As we all know, in order to complete the crystal wall cell world into a crystal wall universe, it must be filled with the origin of the universe..."

Fang Gan did not rush to explain his difficulties.

After speaking.

He smiled and looked at Su Lang.

In fact.

He already has an answer to this difficult point.

But it took a lot of time and hard work to realize it.

The reason Fang Gan talked about this difficulty was to see if Su Lang could answer it.

If it can't... then Su Lang is just a general in terms of cultivation techniques.

If you can, just look at the time to comprehend the answer and how perfect the answer is.

"It turned out to be the problem."

Su Lang touched his chin and made a thoughtful gesture.

Le Zhengnan next to him was also lost in thought. He felt that this problem was very difficult, and for a while, he couldn't even find a clue.

'Fang Gan really has a problem!'

'Such a difficult topic, I don't know how many years it will take to solve it.'

'Su Lang's side, although it's good, but even if it can be unlocked, it will definitely take a long, long time.'

'It seems that this topic has been discussed for thousands of years!'

'...'

Le Zhengnan squinted at Fang Gan, and immediately prepared for a long-term discussion on the Tao.

Fang Gan also had a leisurely look, holding a teacup and drinking lightly, without a trace of eagerness at all.

Obviously, he also thought that Su Lang would not be able to solve this problem in a short time.

But at this moment.

"This question of fellow Daoist Fang Gan."

"It can be easily solved with a very simple trick!"

Su Lang said faintly, and took a sip from his teacup. His movements were natural, like flowing water.

This statement came out.

Fang Gan, who was also drinking tea, suddenly stagnated!

'what!'

'He actually knows the answer to this difficult point! ?'

'No, I discovered this problem by accident. I asked many colleagues, but they didn't know it!'

'But Su Lang... he doesn't really know the answer, right! ?'

'...'

A thick shock and suspicion rose in Fang Qian's heart, and after a pause, he continued half of the tea-drinking action.

He drank the tea, concealing his surprise, his expression gradually calmed down.

On the side, Le Zhengnan looked slightly stunned, and his eyes fell on Su Lang's body involuntarily.

'He, he figured out a way so quickly! ?'

'It's impossible. For such a difficult problem, even if he is better than me, it is impossible to come up with a solution in such a short period of time!'

'This guy...just kidding!'

With horrified thoughts in Le Zhengnan's heart, his eyes fell on Fang Gan's face again to see what he did.

"Hahaha!"

"Unexpectedly, Daoist Su Lang happened to have encountered this problem, and he also came up with a solution!"

Fang Gan laughed, yes, in his opinion, Su Lang must have happened to have encountered this problem, and then happened to untie the answer.

Otherwise, could it be that Su Lang immediately figured out a solution after hearing the problem?

In his opinion, this is simply impossible!

"Ah this!"

"Fang Gan Daoist misunderstood."

"I also heard this question for the first time."

Su Lang listened to Fang Gan's words and said with a smile, "Perhaps it's an analogy. With a flash of inspiration, he came up with the answer."

'impossible!'

'This kid must be pretending!'

Fang Qian thought decisively in his heart, and a trace of uncomfortable flashed in his heart.

If you have solved this problem before, you will admit that it has been solved before.

I have to say that the answer came up on the spot, what kind of pretense?

He was calm on the surface, frowned slightly in his heart, and then sneered.

'What about the answer?'

'Whether you said whether you came up with the answer you came up with on the spot or the answer you came up with before, it still depends on the quality of the answer.'

'I have been studying for many years before I came up with the perfect answer. Let me see how far your answer can be!'

[Chapter 2872: Fang Gan, a shocked but unconvinced](#)

'...'

Fang Qian thought coldly in his heart, on the surface he condemned the teacup lightly, and said with a smile:

"So that's it, Daoist Su Lang is truly peerless and intelligent! I don't know, what is Daoist's answer?"

As everyone knows.

A small part of his thoughts has been seen by Su Lang silently and mysteriously.

"Friends of Taoism have a good reputation."

"The key to this question lies in the efficiency of the integration of the time avenue and the growth of the cell wall when the crystal wall cell world is transformed into the crystal wall universe."

"The specific difficulties and corresponding answers are divided into seventeen pairs!"

A smile was drawn at the corner of Su Lang's mouth, "Now, I will talk about my own experience in detail."

He didn't care about Fang Gan's sneer. As long as he told the perfect answer, Fang Gan couldn't laugh anymore.

"Then it will work!"

Fang Gan nodded and said solemnly.

This statement came out.

Le Zhengnan next to him also pricked his ears attentively.

"Then I will start now."

"These seventeen pairs of difficulties and answers, the first one lies in the time and space of the Crystal Wall Universe."

"Time and space are one of the basic rule avenues of the universe, and also the most advanced rule avenue."

"So the first difficulty is the integration of time avenues."

"..."

Su Lang's expression was calm and confident, and the words in his mouth were not rushed or slow, and clearly organized, without any sloppy eyes.

In other words, 'all dry goods!'

Listen to Su Lang's explanation.

At the beginning, Fang Gan still had some disdain in his heart. After waiting for Su Lang to finish speaking, he would point out Su Lang's shortcomings.

however.

Soon, all his thoughts were squeezed away by astonishment!

Because Su Lang's explanation was even more detailed and perfect than the answers he himself had drawn over the years!

Many of these details, after listening to Su Lang's explanation, he suddenly realized, like a divine enlightenment!

After the consternation.

It is endless horror and incredible!

'How can it be!'

'How could he have such a perfect answer!'

'He must have encountered these problems a long, long time ago. He must have been studying for longer than me!'

'This is the only explanation, and it also means that he can't be the answer he just came up with!'

Fang Qian thought with horror, and then he felt uncomfortable and uncomfortable. Because in his opinion, Su Lang is just pretending! This is already a real hammer! at the same time.

"That's it, that's it!"

"I didn't expect the answer to such a difficult question to be so simple and clever."

"Friend Su Lang is indeed very knowledgeable!"

Le Zhengnan whispered inaudibly, and immediately thought; 'I don't know if these answers are compared with Fang Gan's own understanding, who is stronger and who is weak?'

Thinking so.

He turned to look at Fang Gan

—But seeing Fang Gan's face is already showing unconcealed surprise, occasionally a glimmer of surprise flashes in his eyes.

See here.

Le Zhengnan already knew the answer.

'It seems that the answer given by Su Lang is more perfect than Fang Gan thought of himself!'

'If it's a temporary idea, as Su Lang himself said, then his understanding is terrible!'

'Ten thousand steps back, even if Su Lang did not come up with the answer temporarily, but solved it before as Fang Gan said.'

'But the answers he gave, the main points of the explanation, are so perfect that people can't find any flaws!'

'Now, even Fang Gan is shocked by it, and he is shocked to judge him!'

Le Zhengnan thought in his heart, his impression of Su Lang suddenly improved a lot.

at this time.

"For this question, this is my answer."

Su Lang smiled slightly, "Perhaps there is something wrong, it's all about learning, and then I will invite fellow daoist Fang Gan to speak."

Talking about Dao and Dao is naturally arguing with each other.

just.

Fang Gan's own answer is not as good as Su Lang's, so how can he debate it?

"Friends of Taoism are too humble!"

"The answer you gave is perfect!"

"Thank you fellow daoist for dispelling my doubts for many years!"

Fang Gan laughed, waved his hands and said, "There is no need to debate this issue. Let's start the next topic!"

[Chapter 2873: He is pretending, yes, pretending again](#)

He thought to himself, fortunately, he didn't reveal that he had come up with the answer earlier.

Rather, he was more humble, saying that he was trapped by difficulties, so please help Su Lang to solve his doubts.

Otherwise, he will be even more embarrassed now!

"The next topic?"

"I wanted to hear the views of fellow Daoist Fang Gan."

Su Lang smiled slightly, "If that's the case, let's the next topic."

"What are you going to discuss this time?"

Le Zhengnan laughed while drinking tea, "I have benefited a lot from listening to the two talks, and now I can't wait to listen to the second scene."

"It's blunt, and there are still problems in the exercises that have not been resolved."

After all, Fang Gan felt a little unhappy, and said with a smile, "So I want to ask Daoist Su Lang to solve my doubts again."

His previous question can be answered by himself.

And this time, he intends to throw up a problem that he has not been able to solve for countless years.

"Fang Gan, fellow Daoist, let's talk about it first."

Su Lang smiled faintly, "I can't guarantee whether you can solve the puzzle."

"Then I will be brazen."

Fang Gan nodded and said, "During the battle in the Eternal Realm, it is very important to mobilize the power of the natural universe..."

'A question about the power of the natural universe!'

'The eternal warrior repairs the crystal wall universe inside, and the power mobilization method of the natural universe outside.'

'So, this topic is on the same level as the previous one!'

'But because the eternal warrior majored in the Crystal Wall Universe, his expertise in the power of the natural universe would basically be much weaker.'

'So, to some extent, these questions are more difficult!'

Le Zhengnan thought on the side, his eyes turned back and forth between Fang Qian and Su Lang, watching the changes in their expressions.

Seeing Fang Gan's expression seriously speaking, Su Lang listened solemnly, and the atmosphere of the discussion was not bad.

Soon.

Fang Gan finished speaking and started drinking tea.

His theme is how to mobilize the most natural and cosmic forces at the least cost.

Specifically, Fang Qian encountered hundreds of problems on this training theme!

At this moment, Le Zhengnan was already shocked.

Because he never expected Fang Gan to give so many questions!

This may seem like a heartbreak, but in fact it already has a faint meaning of making things difficult.
but.

Le Zhengnan looked at Su Lang and found that he still looked relaxed, calm and calm, and seemed to have no pressure at all.

See here.

Le Zhengnan couldn't help being taken aback.

Secretly, Su Lang, have all these problems been studied beforehand? impossible!

Fang Gan also had the same idea.

'With so many questions, he is still so indifferent! ?'

'Impossible, these questions are all I didn't want to understand!'

'In terms of difficulty, every question is stronger than the first one before, let alone the number a hundred times greater!'

'Su Lang, himself is extremely young, and his cultivation time is definitely shorter than me. He can't study all of these issues!'

'He's pretending, yes, pretending again!'

'...'

Fang Gan looked at Su Lang with a calm expression, his heart was very upset!

But he didn't know.

Su Lang really played on the spot!

The power of the natural universe discussed at this time.

His attainments are also much higher than the average Jiuzhou Eternal.

The secret technique of the 'universe domain ruler' deduced by the source function of the exercise method was created specifically to invoke the power of the natural universe.

This secret technique is based on the essence of countless exercises practiced by Su Lang, fused together, sublimated and qualitatively changed, and finally came out.

In the previous battle with one against seven.

Either Gujun Zhou, the creator of the secret of words, or Tongding Zhou, who specializes in the power of the natural universe, was overwhelmed by Su Lang's cosmic domain dominating secret technique.

The key is.

Invisibly, Su Lang could see part of Fang Gan's thoughts by stealing mystery scrolls.

For these problems.

Fang Qian has been studying for countless years!

At this time his attention was all on these issues.

Most of the ideas that have emerged are also about these issues.

Many of his research results over the years have been directly exposed under Su Lang's nose.

Although Fang Qian did not solve these problems, he could also provide Su Lang with many research ideas and inspirations.

Coupled with Su Lang's own profound knowledge in this area, it is even easier to come up with the answer!

[Chapter 2874: This, this has the answer](#)

but.

Su Lang was not prepared to ponder it slowly.

Because he also has a super abnormal system function, that is 'fragment repair'!

Some of the research results of Fang Gan's own research over the years are 'Gongfa Fragments'. Using system functions to repair them, you can get a complete copy of the exercises directly!

And this exercise can basically solve all kinds of problems in its research direction!

Even if not, then change some research results and continue to try to repair the fragments.

Anyway, this function does not consume any cost at all, and unlimited repairs are possible!

There are these ways.

Su Lang naturally showed a confident smile.

now.

'So many difficult problems, Su Lang, I'm going to see how many you can solve and how long it will take,ahaha!'

While drinking tea, Fang Gan looked at Su Lang and laughed wildly in his heart.

As for Su Lang, he propped his chin with his fists, thinking about life.

But in fact.....

"System, start the fragment repair function for me!"

"Oh, this question is like this, the idea is good!"

"System, start the fragment repair function for me!"

"Hey, this idea is okay, it can further enhance the speed of mobilization of the forces of the natural universe!"

"Yes, not bad, after finishing the work, use the source function of the exercise technique to update the secret technique of 'Zero Domain Master'!"

"System, don't stop, continue to start the 'fragment repair' for me!"

"..."

Su Lang constantly activated the fragment repair function, while reading the new exercises in the storage space with his spiritual thoughts, and all kinds of thoughts were surging in his heart.

have to say.

Fang Gan was able to cultivate to the advanced level of the Nine Universes, and his cultivation skills were still very impressive.

Many of his special research ideas have brought a lot of inspiration to Su Lang.

The most important thing is to make Su Lang's "fragment repair" function shine!

Brand-new exercises continue to appear in the storage space, and any one thrown out is a treasure of infinite value.

Time passed slowly.

A cup of tea time passed in a blink of an eye.

'It seems that Su Lang needs a lot of time to answer Fang Gan's questions.'

Le Zhengnan looked at the brooding Su Lang, thinking in his heart, 'this time, I must think about it for many years!'

at the same time.

'Hahahaha!'

'Su Lang hasn't spoken up until now, so he's sure he hasn't delved into these issues before.'

'Or, even if you have studied, it's definitely not as advanced as mine! This time I was able to win a round!'

'However, if you want to pull back more, you can't give Su Lang too much time to get answers.'

'It's...I have to speak first and tell the results of the research. Su Lang will surely realize it by then, ashamed of it!'

The haze in Fang Qian's heart was swept away, he became clear, and a smile appeared on his face.

But at this moment.

"Yes!"

Su Lang, who was thinking about life, suddenly sat upright with joy, and directly jumped Fang Qian and Le Zhengnan off!

Soon.

'What...what's there!'

'Could it be that Su Lang has solved one of the problems!'

Fang Gan looked at Su Lang with some suspicion, and suddenly felt a bit of a bad feeling in his heart.

Le Zhengnan was also a little stunned. He thought that Su Lang would definitely have to think about it for many years, but as soon as his thoughts fell, Su Lang had results!

This is really incredible!

"Friend Su Lang!"

Fang Gan narrowed his eyes to look at Su Lang, "You...what's wrong?"

"Of course there is an answer!" Su Lang laughed.

"Here, there is an answer!"

Fang Gan got Su Lang's definite answer, and he asked with difficulty.

"Yes."

Su Lang smiled slightly, "I do some research on the power of the natural universe."

Fang Gan's heart was stagnant, and the corners of his mouth twitched indistinctly.

Crystal Wall's cosmic direction has no shallow accomplishments, and the power of the natural universe also has advanced accomplishments, and the key is higher than him. How did you cultivate this!

At this time.

"Father Su Lang, talk about it!"

Le Zhengnan heard some anxious voices: "Which problem did you solve?"

[Chapter 2875: Hit the nail on the head, every word](#)

Fang Gan also looked at Su Lang.

He secretly said that it must be the easiest one...Although, he doesn't know which one is the easiest.
however.

"which one?"

Su Lang said with a look of astonishment, "It's not one of them, it's all solved!"

This statement came out.

"puff!"

Le Zhengnan couldn't help but squirted out the tea he had just drunk!

"You, what did you say?"

"All untied? Are you kidding me!"

Fang Gan said loudly, dumbfounded. Fortunately, he has finished drinking the tea, otherwise he would be scared!

"joke?"

"nonexistent!"

"The one hundred and one problem, I have solved all of them!"

Su Lang raised his eyebrows and smiled faintly, "Which Daoist Fang Gan would like to hear from?"

This statement came out.

The scene was silent, Fang Qian and Le Zhengnan stopped talking, and both became autistic.

Since Su Lang dared to say that, he must have really solved all the problems!

But that is hundreds of questions!

Moreover, it was Fang Gan who didn't know how many years of painstaking research, but he hadn't overcome the super problem!

'Impossible, impossible!'

'This is fake, if it's true, am I not a waste! ?'

'I have not solved the problem for hundreds of millions of years, and I have been solved by Su Lang's cup of tea, I...I don't believe it! I do not accept!'

Fang Gan sat on the stone bench, his body shook slightly, his hands holding the teacup clenched unconsciously, and his knuckles turned white.

'hiss!'

'This Su Lang's perception is too scary!'

'How many years has he cultivated, he has such a profound knowledge in the power of the natural universe!'

'I'm compared with...I, can't I be compared with that?'

Le Zhengnan took a sigh of relief in his heart, and Su Lang was already completely discouraged.
at this time.

"Fang Gan Daoist?"

Su Lang was half confused, and half a reminder voice came.

"what!"

"I'm thinking... which one should I listen to first."

Fang hurriedly recovered, "Now that I think about it, let's listen to the first one!"

"Great!"

"Then I'm going to talk about it."

"Speaking of the first question..."

Su Lang nodded slightly, with a faint smile, began to explain the main points.

See here.

Le Zhengnan ignored the horror and self-doubt, and quickly listened to it seriously.

Fang Gan was extremely complicated in his heart, his eyes diverged slightly, and he didn't know what he was thinking.

of course.

Although unwilling to admit, unwilling to accept.

But his body was very honest and began to listen carefully.

The basic cultivation of the strong makes him unable to survive the opportunity to improve his own strength.

Next.

The clear and slightly magnetic voice of Su Lang resounded in the Qingfeng Enlightenment Bamboo Forest.

Fang Qian and Le Zhengnan sat upright on the stone bench, and the more they listened, the more they became fascinated.

Su Lang's opinion really hit the nail on the head!

Every sentence can be called micro-speech and big meaning, and every word is pearly.

Just a few words contain an exaggerated amount of information, but it also makes people understand it at a single point and understand it as soon as they listen to it!

Listen and listen.

Not only Le Zhengnan had admiration for Su Lang.

Even Fang Gan, who was dissatisfied in his heart, was completely convinced, and he admired and respected Su Lang more and more!

Time passed slowly.

I don't know how many cups of tea I drank.

Su Lang finally explained all the difficult points of cultivation that Fang Gan had accumulated over the years!

"That's my opinion."

Su Lang filled his empty teacup with tea, and said lightly.

But Fang Qian and Le Zhengnan were still immersed in the key points of practice, and their minds were full of enlightenment, and they were reluctant to withdraw from this hard-won state.

Su Lang didn't care, and waited leisurely.

I drank a few more cups of tea.

Fang Qian and Le Zhengnan finally retreated from the state of enlightenment one after another.

Divine light condensed in their eyes, reflecting Su Lang's smiling face.

"Thank you, Daoist Su Lang, for solving your doubts!"

Fang Gan stood up directly, and looked at Su Lang respectfully.

"The two talked about the Dao, and they got a lot of light, thank you!"

Le Zhengnan also stood up and saluted Su Lang and Fang Gan sincerely.

[Chapter 2876: I happen to have a little research](#)

"Hahaha!"

"The purpose of discussing the Tao is to exchange experience and resolve each other's confusion."

Su Lang smiled happily, "Su can make the two of you gain something, and it's also very happy."

"Friend Su Lang!"

"Those are problems that have been perplexed for hundreds of billions of years, and now I can understand them clearly. I will remember this grace in my heart!"

Fang Gan made a long stroke again, and immediately said, "However, there is one last question below, I want to ask Daoist Su Lang!"

This statement came out.

Le Zhengnan couldn't help but glanced at Fang Gan in surprise.

'It's all this time, does this guy still want to talk?'

'No, he's not going to talk about the Tao this time, he's really-ask!'

'Taoist Su Lang's understanding is against the sky, his knowledge is extremely profound, and he is familiar with all kinds of secret techniques from ancient to modern. Fang Gan wants to seize this opportunity to gain more.'

'This old boy is so good, I almost didn't react!'

'...'

Le Zhengnan thought in his heart, and immediately decided to ask Su Lang about his own questions later.

"Oh?"

"If you have any questions, just speak up."

Su Lang smiled slightly, "Of course, I can't guarantee that it can be solved!"

This statement came out.

Le Zhengnan's eyes fell on Fang Qian again.

"Ok."

Fang Gan smiled and said, "The next question is to create a technique!"

"Creating exercises!"

Le Zhengnan asked strangely, "Are you going to create the top level of the Nine Universes?"

As the high-level powerhouses of the Nine Universe Eternal Realm, they are all powerhouses standing on the pinnacle of the entire endless universe.

It is not difficult to create low-level exercises in a high-level building.

Unless you want to create a method that is stronger than the current one.

At the advanced level of the Nine Universes, the techniques to be created must be at the top level!

This is more difficult!

"Not bad!"

"To be honest, I have almost reached the limit now."

"I want to create a top-level Kung Fu secret technique based on the current practice of the secret technique of kung fu, integrating the old and bringing forth the new!"

Fang Gan sighed, "It's just that there are too many difficulties. I originally thought I would give up and focus on the Crystal Wall Universe, but now..."

"But now the mentor is in front."

"So your idea came up again?"

Le Zhengnan laughed and said, "You old boy, you really will seize the opportunity!"

"We have reached this point."

"If you want to go further, who doesn't try to seize every opportunity?"

"The integration and innovation of gong methods are particularly important to me."

Fang Gan smiled bitterly and bowed his hand to Su Lang, "If a fellow Taoist can help me realize this idea, I would like to become a teacher of Su from now on!"

"hiss!"

Le Zhengnan's expression was shocked, "Fang Gan, you are fighting for it!"

Fang Gan didn't reply.

If you can go further and reach the top level of the Nine Universes, what about becoming a disciple?

Now it's a world of great controversy!

Absolute strength can survive in this world and compete for the opportunity of detachment!

In addition.

Although Fang Qian has hope for this report, his expectation is not high in fact.

In his opinion, Su Lang should be able to give himself some points, but not too much, not enough to make himself a disciple.

Therefore, he simply made a promise...

just.

Fang Gan didn't know, Su Lang was already happy when he said this!

It is too simple for Su Lang to integrate the exercises and form new exercises!

Fragment restoration, synthesis of exercises, one-click martial arts, the source of exercises...all the exercises can be integrated and quickly mastered with one-stop service!

"Fang Gan Daoist."

"Your question..."

Su Lang paused, poured a cup of tea faintly, and continued with Fang Gan's slightly nervous expression, "I just happened to... have a little research!!!"

This statement came out.

Le Zhengnan was shocked all over, his eyes widened, and his pupils were slightly dilated, which contained a deep shock!

On the other hand, Fang Gan grasped the edge of the table with both hands, staring at Su Lang, his mouth was a little dumbfounded and speechless.

Until now.

Both of them knew that Su Lang was a super modest person.

Su Lang said that it was a little research, it must have been researched to a level beyond what ordinary people can do! !

[Chapter 2877: Receive exercises and practice secretly](#)

"Friend Su Lang!"

Fang Gan smiled in surprise, "I'm relieved with your words!"

"Don't worry too early."

Su Lang smiled indifferently, "Fang Gan Daoist, if you want me to help solve this problem, you will inevitably reveal to me the secret technique you practiced. Can you accept this too?"

This statement came out.

Fang Gan hesitated immediately.

The secrets of the exercises are very important to the eternal martial artist, and it is rare to share the secrets of the exercises with others.

Because it is easy for others to see the flaws of one's own secret technique.

but.

Fang Gan hesitated for a moment, then nodded heavily, "I can accept it!"

"Really?"

Le Zhengnan asked with a slight frown.

"Really!"

"My secret techniques are very special. If you want to practice, you need a special foundation for practice."

"In addition, in my prediction, the created secret technique will have no weaknesses."

"In this way, I can practice, but others find it difficult to practice, and after others learn about my practice, they can at best be able to guard me a little bit. If you want to target it, it's almost impossible!"

Fang Qian opened his mouth and explained all the reasons.

he knows.

If you didn't say it, Su Lang would definitely see it. It's better to say it by himself to show sincerity!

"That's it."

Le Zhengnan nodded suddenly.

"In that case, let's start."

Su Lang also nodded in a daze, but couldn't help but smile in his heart.

It has the function of a gameplay melting pot.

He can practice any exercise.

The "special foundation" in Fang Gan's mouth does not have any restrictive effect on Su Lang!

"It's about my core practice."

"Although this exercise has various restrictions, it is difficult for others to practice, but the less people know, the better."

Fang Gan said, arching his hands to Le Zhengnan, "Daoist, sorry."

"Understand, I retire first."

Le Zhengnan nodded, Xuan even intends to leave temporarily.

But at this moment.

"Friend Le Zhengnan doesn't have to leave."

Su Lang smiled slightly, "I have a secret technique that can form a temporary isolation space."

Fang Gan smiled apologetically: "Then Daoist Le Zhengnan will stay."

"Thank you!"

Le Zhengnan arched his hands, sitting on the stone bench and began to close his eyes and rest his mind.

Fang Gan looked at Su Lang and signaled that it was time to start.

"Fengtian with a thought!"

A gray-white space came directly between Su Lang waved his hand, enveloping him and Fang Gan.

In an instant.

Fang Gan looked surprised.

Because he felt that he had been cut off from the outside world, as if he had appeared in another cosmic world.

"This is Nianfeng Space."

"People on the outside and inside can see each other, but they cannot perceive each other, nor can they interfere with each other unless the space is broken."

"If the daoists mind, you can also cut off the line of sight and completely disconnect from the outside world."

Su Lang introduced faintly.

"You don't have to cut off your sight."

Fang Gan smiled, and when he reached this level, he didn't need to speak or communicate at all, and he was not afraid of being read.

"Also."

Su Lang nodded slightly, "You can now give me a look at the Daoist exercises, as well as the integration plans and goals he made."

"That's it."

"I plan to use 'Jiyue Shenyu Gong' as the core..."

Fang Gan straightforwardly took out the exercises he had practiced and began to talk about his original plan.

Su Lang listened indifferently, and his spiritual thoughts ran across the treasures that recorded the exercises one by one.

Su Lang directly threw any exercises to the villain Xiwu wherever the spiritual mind passed.

There are a total of ten Wushu villains now.

Even if they don't use the 'ten-heart martial arts', their training speed is extremely abnormal!

It won't take long.

You can practice the placed eternal exercises to the super-easy level!

Although Fang Qian said that he had a lot of exercises, he didn't know how many times it was compared to Su Lang.

The main secret technique is only thirty.

Soon, all the martial arts villains will be trained!

After taking out his own practice.

Fang Gan then quietly watched Su Lang reading the exercises.

He is ready to wait for a long time.

[Chapter 2878: Three steps to create exercises](#)

In his opinion.

Su Lang had probably encountered the problems in the two previous discussions on the Tao, and he had realized it.

But this time.

It is a real on-site start, temporary operations!

It takes a lot of time to read dozens of difficult and obscure Nine Universes and Eight Universe Eternal Realm exercises carefully, and to understand the main points roughly.

Then you have to study the exercises in depth, and even need to practice it, which requires more time.

But the most difficult thing is to integrate all the exercises together, resolve all conflicts, introduce new ones, sublimate qualitative changes, and form a higher level of exercises!

Three big steps, one is more difficult than one, and one is more time-consuming!

"This time I am afraid it will take many years."

"Now is the time when the omens of the Great War comes, and I wonder if there will be enough gains before the Great War comes completely?"

"..."

Fang Qian thought in his heart, and then he closed his eyes and calmed down.

Time passed slowly.

Su Lang held a jade slip of eternal realm practice and read it carefully.

In this jade slip, it is not recorded the practice, but the prototype of a practice created by Fang Gan himself.

In other words, it is the idea of the exercise method, plus some scattered experiences and profound meanings.

The purpose of creating this exercise is to serve the grand plan of the integration of exercises, so as to better integrate the rest of the exercises.

But Fang Gan was clearly stuck in a difficult position, unable to break through, and the creation of the technique was at a dead end, unable to make progress.

"system!"

"Start the fragment repair function for me!"

Su Lang issued instructions in his heart, and a complete exercise method appeared in the storage space, and it was the original exercise method!

Just for a moment.

Su Lang accomplished what Fang Gan hadn't accomplished for countless years.

Next.

Su Lang continued to use the repair function of fragments to perfect the 'prototype of exercise' created by Fang Qian.

It is even a complete eternal level exercise directly from the 'gong method concept'!

Of course, the rudiments, ideas, and experiences of these exercises...are in the minority.

Most of them are the complete exercises that Fang Gan has practiced by himself.

For these exercises, Su Lang directly used the exercises to synthesize, and the ten books and ten books were merged into one exercise.

In the end, I came up with three exercises in different directions.

For these three exercises, Su Lang planned to wait for more than 30 basic exercises to be completed, and then they would also be practiced.

In the end, practice all the exercises to one side to ensure that there are no omissions, and then you can use the source of the exercises to deduce the final results!

Time passed slowly.

At a certain moment, suddenly!

"Ding! "Jiyue Shenyu Gong" has reached the super level!"

"Ding! "Dark Evil Fantasy Heart Book" has been..."

"Ding!.....!"

"..."

Ten system prompts emerged one after another.

A large amount of exercises and profound meanings directly integrated into Su Lang's body and soul, making him feel like he has been practicing for countless years.

These ten exercises are exactly the exercises that Fang Qian himself practiced.

Now he has been trained by Su Lang.

The key is to reach the super-easy level, surpassing Fang Gan's own founding level!

"well!"

"Next, practice ten more..."

Su Lang's expression on the surface did not change. He still pretended to read carefully, but secretly gave the other ten books to the little man Xiwu again.

then.

The ten martial arts villains were busy again.

Here, Su Lang began to feel the ten exercises just completed.

Fang Gan's style is both offensive and defensive, and focuses on defensive aspects.

He integrates what he has learned throughout his life to create new exercises.

It is to improve the level of the practice as a whole at the same time.

Attacks, explosive secret techniques and other offensive methods are also pulled up to reach the same level as defense, or even a higher level.

Only in this way can we gain more benefits in a world of great controversy.

Otherwise, you can only defend your own interests by defense alone.

And this requirement.

For Su Lang, it is very simple.

He only needs to control it in his heart when he activates the source of the exercise.

Wow!

Su Lang suddenly poured a cup of tea and drank it slowly.

Because now the things he needs to do personally have been done, including repairing the fragments and combining the exercises.

Just come down, you just need to wait for the exercises to complete.

[Chapter 2879: Complete, eternal flood](#)

"Friend Su Lang...you, have you finished reading the exercises?"

Fang Gan looked at Su Lang who was drinking tea in surprise.

Those more than 30 exercises can definitely not be completely read in a few cups of tea!

Su Lang looked relaxed, as if he had already read it.

"Aha."

"I looked at it roughly and got some clues."

Su Lang smiled faintly, "When I drink tea, think about it."

Hear this.

"That's it, that's great!"

Fang Gan was surprised, but he was shocked: 'Su Lang has actually finished watching the exercises, and he has a clue so soon! This, this, true! ?'

"Ok."

"Friends don't worry."

"I think about it, and there will be results soon!"

Su Lang pointed to his head, a confident smile was drawn at the corner of his mouth.

See here.

Fang Gan couldn't help being even more shocked.

'Su Lang is so confident!'

'Could it be that the exercises I want to create are very simple for him! ?'

"Impossible, my goal is to be at the top level of the Nine Universe Eternal Realm!"'

"..."

He was thinking about it in a thousand thoughts, and there was a thick unbelievable in his heart.

But the previous experience made him understand that Su Lang was not ranting!

Su Lang is a humble person!

'I don't know how far Su Lang will do it?'

'Can I advance the process of creating exercises by more than half?'

Fang Gan suppressed the horror in his heart and replaced it with a trace of growing expectations.

In a blink of an eye, some time passed.

"Ding!....."

The system prompt once again sounded ten times in a row.

This is already the fourth round ten times in a row.

It also means that the more than 30 exercises given by Fang Qian have all been completed, and Su Lang himself has completed ten exercises with the repair of fragments!

'Oh, the practice is over again!'

'It's so fast, it's worth 3840 trillion times the speed of martial arts!'

'The system, activate the ten-heart martial arts function, and continue to practice the exercises for me!'

While making a contemplative gesture, Su Lang gave instructions in his heart.

The remaining exercises, including three combined success methods, are also less than ten.

So he chose to use the ten-heart martial arts function, practice one by one!

quickly.

The rest of the exercises are all done!

'Through training is over!'

'I have to say that Fang Gan's exercises are very mysterious, and are on a higher level than those of Gujun and others!'

'Furthermore, it's a magnificent way, bright and upright, overbearing!'

'This is what I am slightly lacking.'

'Now, it's a supplement!'

Su Lang squinted his eyes, and the mystery of countless exercises emerged in his mind.

In Fang Gan's eyes, he had completely mastered the exercises that he could only practice.

And all go one step further, reaching the super-ease level!

The exercises are finished.

Next, it's time for the source of exercises function to come on stage!

'system!'

'Activate the source of exercises function!'

'Using designated exercises to deduct the highest-level exercises and secret techniques!'

Su Lang locked in the exercises Fang Qian gave and the exercises he repaired with his divine mind, and immediately issued instructions.

As soon as the voice fell, the system prompt sounded immediately.

"Ding! The source of the exercise is being deduced..."

The same as the previous deduction process.

In Su Lang's body, countless deep meanings of exercises emerged, condensed into a colorful sphere.

Immediately afterwards.

The sphere gradually became transparent, and then exploded!

The deduced secret technique is directly integrated into Su Lang's body and soul, forming an instinctive method.

'finished!'

"Eternal Breath Style"!

'Eternally powerful combat method with both offensive and defensive capabilities...'

Su Lang accepted the profound meaning of the new exercise and felt an extremely terrifying change in his body!

His eternal body has been madly improved on the original basis!

The defenses of the crystal wall cells of the skin on the body have increased exponentially, and the inner crystal wall universe has also expanded, and the cohesion of the power of the universe has been greatly enhanced.

Not only that.

Because the soul and body of the eternal warrior were forged, Su Lang's soul has also been improved.

It should be known that Su Lang's soul is now approaching the level of 'Extreme Nirvana'!

It can improve his soul, which shows the power of this "eternal flood".

[Chapter 2880: Fang Gan, willing to worship](#)

'This exercise is really good.'

'Even if I don't have all the weapons, I don't need any other secret techniques. With this technique alone, I can hammer all the martial artists of the Nine Universes who have entered the first level.'

'Facing a warrior at the intermediate level of the Nine Universes, you can also fight for a while.'

'If I add my weapons, mysteries, etc., it's even more terrifying.'

Su Lang is very satisfied with the improvement he has received.

But he was not surprised.

After all, this is the life's hard work of Fang Gan, the advanced level powerhouse of the Nine Universes!

If there is no improvement, then he would be surprised!

at the same time.

Seeing Su Lang who was drinking tea leisurely, Fang Gan suddenly stopped, with a contemplative look, his heart suddenly moved.

'Why did he suddenly stop drinking tea?'

'Looking like this, it's like thinking about something.'

'It seems that he has encountered a problem and is thinking hard!'

'Hahaha, fellow Taoist Su Lang, you are indeed exceptionally intelligent, but my exercises are not comparable!'

'I don't know when fellow Daoist will solve the first problem you encountered?'

'...'

Fang Qian thought in his heart, as if he had regained a little confidence.

But at this moment.

The divine light in Su Lang's eyes condensed and was extremely bright.

Then, he raised his head and smiled at Fang Gan.

Suddenly.

'what happened?'

'Su Lang, did he solve the first problem so quickly?'

Fang Qian's heart was stagnant, and the self-confidence that had just recovered a little became shaken again.

Thinking so.

Fang Gan couldn't help but ask, "Dao Fellow Su Lang, are you solving a difficult point!?"

"Solve a difficulty?"

The corner of Su Lang's mouth twitched, and he waved his hand, "No, no!"

Hear this.

"It turned out not to be solved..."

Fang Gan felt regretful, and he was relieved again, the confidence in his heart began to gather again.

however!

"I'm not solving a difficult point anymore."

Su Lang laughed, "but... solved all the difficulties!"

This statement came out.

Fang Gan suddenly looked dull, staring at Su Lang dumbfounded, and suddenly forgot to speak!

In his heart.

Countless thoughts of horror emerged like a volcanic eruption!

'what! !'

'Not one difficulty is solved, but all the difficulties are solved!'

'How is this possible, it's not true, but I haven't solved a difficult point for countless years, how can he...I...I'm not that stupid! ?'

'But, Su Lang is eloquent, as if he has really solved all the difficulties!'

'Then... Doesn't this mean that the road to creating exercises has been paved, I will soon be able to create higher levels of exercises, the top level of the Nine Universes is just around the corner! ?'

'...'

Fang Qian was suffering the most severe horror in countless years.

So much so that his expression is hard to control completely, and he involuntarily reveals shock, unbelievable, surprise and other complex feelings.

Seeing this scene, Su Lang on the opposite side didn't bother him, and took a cup of tea to drink at the same time.

Nian Feng space outside.

Because it is not completely cut off the line of sight.

Through the gray translucent space barrier, Le Zhengnan can see the expressions and every move of Fang Gan and Su Lang.

Looking at Fang Gan with an extremely complicated expression.

And Su Lang, who seems to have solved some trivial problems casually.

Le Zhengnan has realized

——Su Lang has helped Fang Gan successfully solve a large number of key difficulties, and there is no obstacle to creating exercises!

But both Fang Gan and Le Zhengnan were wrong.

That is, Su Lang not only solved all the difficulties of creating exercises, but also created them! at this time.

Seeing Fang Gan's face stunned, Su Lang smiled faintly and said, "Actually, I was lucky..."

"Do not!!"

"Master Su! I won't believe it, it can't be a fluke at all!"

Fang Gan recovered, stood up, and said dumbly, "You...can't you stop being so humble!"

His address to Su Lang has become an honorific!

This is the gift of a willing disciple from the bottom of my heart!
