

One Click 351

[Chapter 351: Ask the heart stone!](#)

This is a portable transmission device, but it is disposable.

"With this disk alone, it is impossible to reach the Canglan Continent directly."

Su Lang pondered silently, "It should first teleport us to the place where the time-space crack is, and then go to Canglan Continent through the time-space crack.

It's not wrong to think about it, time and space are related to the human retreat, so important, of course, you must be careful! "

At this time, Wu Junai poured spiritual power into the disc, and the big disc on the table flew into the sky, instantly expanding, covering a radius of tens of meters.

Immediately afterwards, a large amount of light burst out from the disk.

The moment Su Lang was shrouded in light, he felt waves in the surrounding space.

After a lot of spins and turns, when his vision was restored, he had already turned into a vast underground world.

At the same time, in the canyon, the disc that burst out with a huge amount of light was also shattered and disappeared.

"Is this the place where the space-time crack lies?"

"It looks so empty, there seems to be nothing!"

"No, no, your eyes are blinded. There are formations everywhere here, but they are just being covered up."

"Xuedi Lin is right. The surroundings are densely packed with powerful formations."

"..."

Everyone had a conversation, and finally a group of Jinmen disciples discovered the strangeness.

After learning that there were dangerous formations around, everyone became more careful.

Su Lang looked around curiously, but found nothing.

"If I activate the one-key array formation, according to the urine nature of the system, there must be a function of 'array recognition'.

If I have this ability at this time, the surrounding stitches will be able to show the slightest. "

Thinking of this, Su Lang ticked the corner of his mouth, and raised a strong expectation for the one-key training that was about to open.

"Follow me!"

Wrinkle Junai is so used to everyone's reactions, he faintly dropped a sentence, and walked forward.

Li Qiming immediately followed, Jin Xiutian and others followed close behind. Su Lang and Xiao Ning looked at each other and walked in the end.

After walking forward for less than a minute, everyone came to an empty room.

"God, the formation here is stronger!"

"I can feel that if all the formations here are activated, even the arrival of the Valkyrie can stop a moment!"

"Look, the stone in the middle is the legendary questioning stone!"

"Before going to the time and space cracks, we must go through the test of the heart stone, so as not to be mixed with insiders and destroy our time and space cracks!"

"Hehe, if Wenxinshi detects a gangster, I am afraid that countless formations will come and wipe it out immediately!"

"..."

Everyone talked and gave pointers.

"Ask the heart stone?"

Su Lang's eyes flashed, and he immediately understood the characteristics of the heart-enquiring stone.

"It turned out to be a god-level treasure!"

"The role is worthy of the name, Wenxin! Even if you rely on means to cover up your thoughts, you can never hide the test of the stone."

Su Lang nodded slowly, "This is a very good baby."

"According to the regulations, everyone has to experience the questioning stone before they can go through the cracks in time and space."

At this time, Wu Junai said, "Now, Li Qiming, you are the first to come."

As the number one student of the Warmen, Li Qiming was deeply respected by Jun Ai.

"Yes! Mentor!"

Li Qiming bowed his hands and came to the questioning stone.

The next moment, a burst of light burst out from the heart-enquiring stone, drowning Li Qiming's figure.

In less than three seconds, the light gradually dissipated, and Li Qiming retreated to the side if nothing had happened.

Obviously, Li Qiming is not a traitor to the Fengling clan, and does not have any evil intentions towards the human clan.

"Next, Jin Xiutian."

Wrinkle Junai waved his hand, and Jin Xiutian also bowed his hand to check.

The light burst, and then dissipated, Jin Xiutian also stood aside safe and sound.

Obviously, he has no problem.

"next."

Wrinkle Junai's eyes turned and fell on Su Lang, "Just Su Lang."

[Chapter 352: Arrived in Canglan Continent!](#)

"it is good."

Su Lang arched his hands and came to Wen Xin Shi.

Who is honest, he was a little nervous, because he didn't know if the questioning heart stone would let him expose the existence of the system.

"The system is extremely mysterious, but it is unreasonable. This questioning heart stone should not be able to detect it."

"Furthermore, Wenxinshi is testing whether the student is a Fengling clan traitor. The testing mechanism should not involve other aspects."

Just thinking of this, there was a burst of light on the Wenxin Stone.

At this moment, Su Lang felt that this light turned out to be a special 'mental attack'.

The instinctive resistance of Su Lang's mental power was directly penetrated by the light.

"It is indeed magical, the mental power of the sea of mind cannot be resisted!"

"And this feeling...It is estimated that even if the Valkyrie comes, he can't resist."

"What a magical treasure!"

As Su Lang thought, the light gradually dissipated.

He didn't feel any danger from beginning to end, and he didn't know how Wen Xinshi tested it.

"next....."

Wu Junai nodded, and the next student walked up while waving, Su Lang stepped aside.

Next, a group of students stepped forward to test, and the final result was that everyone had no problems.

"well."

"Next, I will take you to the crack in time and space!"

Xu Junai finally showed a smile, he walked forward with his hands on his back, and all the students followed.

This time, after going forward for half an hour, Wrinkle Junai stopped.

Here is a very long corridor, the front is pitch black, and you can't see your fingers.

Su Lang looked at the front, vaguely feeling a slight spatial fluctuation in front of him.

Ahead is a crack in time and space!

"The time and space cracks are not stable, the formation must be opened for stability, and only one teleport can be carried out in a short time."

"If someone doesn't listen to the order and it can't be transmitted, don't blame me."

"Now everyone is around me and follow me seven steps forward!"

As soon as Wu Jun'ai's voice fell, everyone immediately surrounded him, for fear of taking a step behind.

Soon, everyone surrounded Ruan Jun'ai with no flow.

"first step!"

Wrinkle Jun'ai stepped forward, and everyone followed.

In an instant, the endless array of rays of light lit up around, and the dark corridor was illuminated by the light, and an abrupt gray vortex emerged.

This vortex is like being in the air with poor PS technology P, incompatible with the surrounding environment.

"The second step!"

Ruan Jun'ai's voice came again, and everyone took another step, and the surrounding formation burst into a stronger light.

Next, under the leadership of Wu Jun'ai, Su Lang and others took seven steps.

After the last step was taken, the light of the formation suddenly disappeared, and everyone felt black in front of them, and a squeezing force fell on them.

This squeezing force is so strong that it can only be barely resisted by a military commander.

However, everyone present is above Wu Wang, and Su Lang's true strength is even the pinnacle of Wu Huang. Of course, this pressure is not in his eyes.

The force of squeezing came for a moment, and Su Lang suddenly felt that his senses began to twist.

Vision, hearing, and even the perception of time and space have become extremely unstable.

"Is this what it feels like to travel through time and space?"

Su Lang took a deep breath, held his breath, and stopped worrying about the outside world.

Under the situation of time perception confusion, and I don't know how long it has passed before Su Lang felt that his surroundings had returned to normal.

Immediately afterwards, a strong aura rushed towards his face, making people feel like lying in hot spring water.

"Oh wow, is this the Canglan Continent? What a strong aura!"

"Yes, the aura here is almost comparable to the best aura training room in our school."

"The spirit is strong, there must be many treasures, this Canglan Continent is simply fat and oily!"

"..."

Everyone was absorbing aura in intoxication, and their faces were full of surprises.

At the same time, Li Qiming, Jin Xiutian, Sun Teng and others looked at Su Lang with a sneer.

In their opinion, Su Lang is only a military commander, and it will definitely be difficult to pass through the cracks in time and space.

However, when they saw Su Lang, they immediately became shocked and surprised.

I saw that Su Lang was alive and well, his eyes glowing watching the surroundings, his energy was even better than both of them!

[Chapter 353: Tatian stronghold!](#)

"I'm going! How is this possible?"

"It's not a joke to travel through the cracks of time and space, he is not a martial-arts-level shit?"

"Mad, what a wicked one!"

"..."

The students who looked at Su Lang were unbelievable.

At this time, Su Lang was in a very good mood.

Finally arrived in Canglan Continent!

For others, Canglan Continent has many treasures, fat and oily, but they can only look at it from a distance.

But it's different for him!

With clone dispatch and one-click treasure hunting, he can madly grab the resources of Canglan Continent while lying down and sleeping.

However, it is not yet possible to dispatch the treasure hunt flying flying gliders until the outside world.

Suppressing the surprise in his heart, Su Lang began to observe the surrounding environment.

Here is also an empty underground space, surrounded by gray and powerful formations.

Moreover, there was even a mysterious cloud of pure moon fire on the gray wall!

"I didn't expect to see Xuanyun Jingyuehuo here!"

Su Lang looked surprised, "Yes, time and space cracks are so important, and it must be foolproof. It is appropriate to cover the breath with Xuanyun Jingyue Fire!"

At this moment, Wujun Ai said lightly.

"Now we have reached the Canglan Continent!"

"The territory of the Canglan Continent is almost endless, with tens of thousands of intelligent races living."

"Our human race can be said to be the weakest intelligent race here, so when you act, you must be careful not to expose yourself, let alone provoke foreign races!"

"Now, we will leave here and go to the stronghold established by our human race on the Canglan Continent."

Having said that, Ruo Junai once again threw a disc-shaped teleportation array to activate it.

Su Lang drove up to Wu Junai in his car, and after a while, the picture in front of him changed again.

This is a huge underground space, and Su Lang can't find the end with mental energy.

All sides of this space are wrapped by jade piles, with golden runes engraved on it, and there are a lot of mysterious clouds and pure moon fire lingering endlessly, isolating the breath.

Su Lang could feel that it was a warrior who released Xuanyun Jingyue Fire in secret to keep it alive.

On the ground, there are towers and pavilions built in accordance with the architectural style of the Blue Star, row upon row, endless.

"This is our stronghold!"

Wu Junai showed a hint of excitement, "This is the first step for our human race to set foot on the Canglan Continent!"

"Teacher, I will surely be able to overcome the thorns and thorns, go forward courageously, destroy the Wind Spirit Race, and stand firm in this Canglan continent!"

"Yes! Senior Yanxingxing opened up a stronghold in the Canglan Continent for me, and I will live up to it!"

"..."

All the trainees expressed their ambitions with pride.

"well!"

"It is worthwhile for the university to spend so many resources to nurture you! Now, let me introduce our stronghold."

Wu Junai smiled, "This stronghold is called Tatian stronghold, and it is the largest stronghold of our human race on the Canglan Continent."

The stronghold is composed of martial arts and rising stars of the various human races. Counting your group, there are already more than 1,000 people in the stronghold..."

Listening to Wu Junai's words, Su Lang pondered silently: "It seems that Human Race has more than one stronghold in Canglan Continent.

Also, Anxin instructor said before that Xuanyuan Academy sends elite disciples to Canglan Continent every year.

Although certainly not all such talents as Hall of Fame students, they are definitely not bad.

From the time the cracks were discovered to today, the days have been accumulated, and I don't know how much power has been accumulated here. "

As Su Lang thought about it, Ruan Junai also introduced the entire base.

This Tatian stronghold has thousands of people, including dozens of Wu Zun people. In addition to Tatian Hall, Spirit Gathering God Pool, Preaching Hall, Experience Tower, Spirit Beast Garden and other buildings.

Tatian Temple is the core of Tatian stronghold, responsible for handling all kinds of matters, from high-level decision-making to penalty rewards, etc., all under the control of Tatian Temple.

The Spirit Gathering Sacred Pool is to gather the surrounding auras in an array to form a liquid aura with a concentration beyond imagination for everyone to practice without any restrictions.

In the preaching hall, there are strong human races to teach the practice experience day and night, and all disciples can go in and listen at any time, without restrictions.

The experience tower is used to screen human elites, rank them, and give them the qualifications to go out for experience.

Spirit Beast Garden, as the name suggests, is a place dedicated to raising spirit beasts!

[Chapter 354: I want to vomit blood with envy](#)

On the Blue Star, the fierce beast cannot be subdued by the human race anyway.

Because those fierce beasts are all under the command of the Wind Spirit Race.

They have long been imposed by the Fengling tribe, and it is difficult to destroy them, and they have been secretly controlled by the Fengling tribe for generations!

But the Fengling clan control is only a small part of the fierce beasts in their territory.

With so many spirit beasts in the Canglan Continent, how can the mere Wind Spirit Race completely control it?

Therefore, when arriving on the Canglan Continent, the human race can select spirit beasts, subdue them, and become a great help for themselves.

However, in order to prevent the fact that the human race had a stronghold in the Canglan Continent from being exposed, the spirit beasts that people conquered have never brought back Blue Star.

And those spirit beasts who were subdued by the human race were all raised in the spirit beast garden.

"Spirit beast!"

"If it is possible, I would rather accept one as a mount."

"It's just that to become my mount, you must have great potential, otherwise you won't be able to keep up with me within a few days after taking over."

Everyone has a dream of riding a mount, and Su Lang is no exception.

When he thought of riding a tall and mighty spirit beast to hire the world, Su Lang raised his mouth, revealing a touch of expectation.

However, compared to the spirit beast, Su Lang was more looking forward to going out for experience.

As long as he goes out, his clone and the treasure hunting flying flying flying flying can be dispatched to grab a lot of wealth!

According to Rue Junai, the entire Tatian stronghold is a closed space. If you want to go out, you must obtain the qualification to go out and leave the Tatian stronghold through the teleportation formation.

There are two conditions for qualifying.

First, experience the tower.

The training tower is divided into fifteen layers, each layer is guarded by masters.

You must break through the nine floors to get the qualifications for going out.

Second, the means of concealment.

In order to prevent the existence of the human race from being known by the aliens, everyone who goes out for experience must have strong enough concealment methods.

If the concealment method fails the assessment, then even if the combat power reaches the standard, it will not be possible to go out for experience.

"Hidden means, I have Xuanyun Jingyuehuo, it's totally fine."

"In terms of combat power, with my seemingly military commander-level combat power, I definitely cannot pass the ninth floor."

Su Lang touched his chin and thought to himself, "It seems that only some strength can be exposed."

At this time.

"Everyone also understands this Tatian stronghold."

"Now, I will take you to the Temple of Heaven to register and make a register, and set up a life card!"

Wu Junai waved his hand and flew towards the middle of the Tatian stronghold.

The others hurriedly rose into the air, followed by Wu Jun Ai.

Everyone was flying, and some people looked at Su Lang subconsciously.

Su Lang is only a military commander and does not have the instinct to fly. If there is no one to help, he will make a fool of himself!

However, what happened the next moment made them want to vomit blood with envy.

Xiao Ning's complexion was reddish, she wrapped Su Lang's waist with her slender jade arms, took Su Lang to the sky, and followed closely.

"This is so special, it's already a hug!"

"Xiao Ning is actually willing to hug Su Lang, is their relationship so close?"

"My Tianle, originally I still had a glimmer of hope in my heart, but now it seems that Xiao Ning is really getting along with Su Lang!"

"Hey hey..."

In the envy and jealousy of all the students, Tatian Temple quickly appeared in front of them.

This is a white hall with a large area, magnificent and shocking.

Outside the main hall is a huge square with many people coming and going.

Each of them has a majestic aura, a high level of cultivation, and the last time they are at the level of King Wu.

At this time, Su Lang and others followed Wu Junai to the ground, and immediately attracted the attention of many warriors.

"This is the genius who came from Blue Star this year!"

"It is said that this group are all Hall of Fame students. I think I couldn't climb up to Zijin students back then."

"These are the real geniuses. They will definitely develop faster here, maybe Wu Zun will appear soon!"

"Are you blind? Look, the student behind Teacher Wu is already a junior martial artist!"

"That one is also the quasi-wuzun, and there are several peak martial emperors!"

"Fuck, this batch of Hall of Fame students is stronger than the previous batch, it's just a bunch of evildoers."

"Hey, look, how can there be a Martial Commander there?"

[Chapter 355: Set up the life card!](#)

"Huh? Martial-arts class? Are you dazzled?"

"No, there is indeed a Martial Commander-level, you see, it is him!"

"..."

Everyone looked for it, and their eyes gradually converged on Su Lang.

"Looking noisy, it's really a military commander!"

"Tsk tsk, I don't know what the academy is up to, even the Martial Commander-level has been put in!"

"That is, what is the use of a military commander here? I'm afraid I won't understand anything if I go to the preaching hall to attend a class."

"Not only that, but at the rank of military commander, he can't even pass the first level of the training tower. Could it be that he plans to stay here for more than a hundred years to be promoted to the emperor before going to the training tower?"

"Don't think about it this way, people martial-arts-level can come to Tatian stronghold, there will be specialties, don't just look at the cultivation base."

"It seems to say that, but I don't know what is special about this junior."

"No, no, no, in my opinion, he has reached this level at such a young age, and his talent must be extraordinary. It must be the school's decision to send him to the Tatian stronghold so that he can shorten his growth time."

"Hahaha, shorten the growth time? How much can it be shortened? I'm afraid we won't wait for the battle between our human race and the wind spirit race."

"..."

A group of veteran students looked at Su Lang curiously, pointed and talked.

The news spread ten to ten, and soon, the fact that there was a Martial Commander among the new students spread throughout the Tatian stronghold.

He is even more famous than a Wuzun genius like Li Qiming.

On this occasion.

Under the leadership of Wu Junai, Su Lang and others walked into the Temple of Heaven.

The Tatian Temple is divided into many rooms, like departments, responsible for different matters.

Xu Junai led the students all the way to the door of one of the huge rooms.

"Tuk tuk!"

Wu Junai knocked on the door and said, "You Li Daoyou, it's me, this year's new student has arrived."

"Instructor Wrinkle Junai!"

The door opened, and a thin old man walked out of it, arching his hand to Ruan Jun Ai.

The old man looked dry, his hair was yellow and his eyes were blank.

Su Lang glanced, calmly called up the old man's attribute panel, and found that this person was named Li Yuanju, who was an intermediate Wuzun expert.

"All come in!"

Xi Junai waved his hand to Su Lang and the others, then talked with Li Yuanju and walked into the room.

The students followed suit one after another and entered the room.

"This is the place where the students register and set up the life card?"

Su Lang looked around and found that there were many wooden cabinets in the room, like bookcases, with jade plates carved with white jade on them.

Some of these jade plaques are shining and radiant, as if paying attention to the aura of life, while others are extremely dim, like a dead object.

"This is the fate card, this is the first time I have seen you!"

Xiao Ning also looked at the surrounding wooden cabinets curiously, "It is said that the life card is used to determine whether the students who went out to practice are dead.

It can interact with its owner, and if the owner dies, the jade card will lose its light.

Moreover, the life card can also judge the distance of the owner from this place, the farther away, the dimmer the light, but it will not go out. "

"Hmm."

Su Lang nodded and said, "It can be considered a strange treasure."

Through the ability of 'weapon recognition', he has already thoroughly looked at the bottom of these life cards, but there is no way to secretly control people.

At this time, Xi Junai and Li Yuanju talked a few words, and then began to make life cards for the students.

The first one to go up was still Li Qiming.

"Ancestor, junior Li Qiming!"

Li Qiming stepped forward to bow and salute Li Yuanju.

When everyone heard what he called Li Yuanju, they were surprised that Li Yuanju and Li Qiming were actually a family!

In this way, Li Yuanju is also a member of the Li family of the ancient family of hermits!

"It's worthy of being a hidden ancient clan, a master like a cloud!"

This idea flashed through everyone's mind at the same time.

"Li Qiming, you are very good!"

Li Yuanju nodded with a smile, obviously satisfied with the younger generation of this family.

Immediately, Li Yuanju made a register for Li Qiming and made a fate card.

The material is very simple, just a piece of obedient jade, Li Qiming's blood, and a trace of spiritual power.

After special refining, a shining life card appeared.

Because Li Qiming is very close to the Ming brand, this jade brand is super bright, almost comparable to a led bulb.

[Chapter 356: It's time to hang up](#)

"Next! Jin Xiutian!"

Wu Junai waved his hand to let Jin Xiu go forward.

Immediately, they were making life cards one by one, and dozens of life cards were quickly added to the surrounding wooden cabinets.

"Thank you."

Wrinkle Junai bowed his hand to Li Yuanju and led the students around and left.

Not long after, everyone came outside the hall again.

"I'll take you here."

"From now on, you will develop freely."

"I just briefly introduced the Tatian stronghold before, and more detailed information is recorded in it, and the rules must be memorized."

Wrinkle Junai said as he took out a pile of jade slips from the space ring and distributed them to everyone.

After dividing the jade slips, he quickly left and entered the Temple of Tatian again.

Obviously, Wu Jun Ai is busy with something.

Indeed, he only saw him traveling between Blue Star and Canglan Continent, and at least part of the communication between the two sides had to fall on him.

On the square, all the students scattered with jade slips.

"Senior Su Lang, where are you going now?"

The light of Xiao Ning's beautiful eyes flowed and fell on Su Lang.

"I plan to find a place to live first."

Su Lang threw the jade slip in his hand, "It is recorded that every student can choose an independent residence, just like in Tianshenggu."

Xiao Ning smiled and said, "Well, then I will go with you!"

"Okay."

Su Lang did not refuse, and the beauty is accompanied, even if there is no other idea, seductive is good!

The two walked together, but no one came to find fault on the way.

After all, this is a stronghold in Tatian, but the hope of the human race. Who dares to kill each other here?

Even if you have a grudge, you must find a no man's land far away from Tatian stronghold!

At this time, Li Qiming was a little sad: "This Su Lang is a military commander. He wants to rise to the level where he can go out and practice. He doesn't know how many years it will take.

It is Xiao Ning's **** woman. She is already a senior martial emperor. She will definitely go out to practice as soon as possible. I want to find a chance to avenge her! "

Thinking of this, Li Qiming's eyes were a bit murderous.

At this time, Su Lang and Xiao Ning came to the residential area.

There are a number of unique two-story small buildings built here, and each small building has a defensive barrier and a mental perception barrier.

The method of choosing a place to live is exactly the same as that of Tianshenggu. Small buildings with no one can directly occupy them and turn them into their own use.

Su Lang and Xiao Ning chose two adjacent small buildings, and after saying goodbye, they separated and went home.

Su Lang entered the small building, looked around, and found that the room was empty, apparently no one had ever lived.

"Very well, I don't want to live in a second-hand house."

Su Lang showed a satisfied smile, and immediately made some arrangements according to his own preferences.

In a short while, the small building will be properly arranged.

Su Lang sat on the bed, silently thinking about the next plan.

"The most urgent thing is to go out to practice, send out the clone and the treasure hunt flying flying gliders!"

"Although it is said that my martial-arts-level combat power will surely shock everyone and make it suspect that I have a secret.

However, even counting the trump card of Swallowing Clone, Wuzun-level Xiao Xiaozhi didn't take it seriously. The entire Tatian stronghold could fight me, not many!

What's more, the Tatian stronghold is the place where the human race hopes to gather, and they basically work together, and there is almost no reason to build a big wind.

On the contrary, the more genius I behave, the more resources I get, and it's time to open up and hang up! "

Thinking of this, Su Lang couldn't help but tick the corner of his mouth, revealing a touch of excitement.

Do what you think.

Su Lang did not notify Xiao Ning, but went out alone, following the route marked in the jade slip towards the tower of experience.

Go all the way, passing the preaching hall and the spiritual gathering pool.

In the preaching hall, from time to time there are explanations of certain exercises by the old strong people, and the sound is heard, and it is inspiring.

In the Spirit Gathering Pool, hundreds of powerful men above Wuwang level floated in the air, devouring spiritual energy to strengthen themselves.

When Su Lang passed by the Preaching Hall, the warriors inside were listening carefully, and did not notice him.

But when he passed the Spirit Gathering Sacred Pool, it attracted the attention of many people.

[Chapter 357: In the blink of an eye](#)

"Is this the legendary martial-arts-level genius?"

"Based on my many years of experience, I can tell that this person will not exceed twenty years old. He is really awesome when he reaches an intermediate military commander at such an age!"

"Yes, when I was 27 years old, I only broke through to the intermediate military commander, and it took me 18 years to break through to the senior military commander!"

"It's a pity that even if he has a different appearance and is stronger than me, it will take at least a hundred years to reach the Martial Emperor rank. I am afraid that he will not be able to keep up with the final battle."

"..."

Everyone was cultivating while whispering.

At this moment, someone suddenly said in surprise: "Huh? Look, he has gone far, he didn't even enter the Spirit Gathering God Pool to cultivate!"

"what!?"

"Really, he left directly!"

"Look at the route and direction he walks, this is going to... the tower of experience!"

"No! No matter how talented he is, he is only a martial-arts-level, such a weak combat power, to break the tower of experience!?"

"Could it be that he is used to being arrogant and arrogant on the Blue Star, and he doesn't care about anything, thinking he is invincible in the world?"

"Let's go noisy, let me see if this kid is really going to experience the tower!"

"Wait, I will go too!"

"..."

There was a commotion in the Spirit Gathering Sacred Pool, and finally one by one left the Spirit Gathering Sacred Pool in surprise, following Su Lang far behind.

In a short period of time, almost all the warriors in the Spirit Gathering God Pool followed curiously.

"Huh? So many people follow me?"

Although Su Lang was a martial artist, his true combat power had reached the peak of the Martial Emperor, and he immediately noticed the martial artists who had followed him in the distance.

However, he did not care about those warriors, but walked forward on his own.

Soon, a huge white jade tower appeared in front of him.

This white jade pagoda has fifteen floors, and each floor is 100 meters high. The entire tower is extremely tall, almost like a mountain. In the enclosed space of the Tatian stronghold, it is like a heavenly pillar of Buzhou Mountain!

"Is this the training tower? I don't know how the levels are set up."

Su Lang ticked the corner of his mouth and slowly walked into the gate of the experience tower.

His move immediately stunned the students who followed.

"Fuck! This kid actually entered the training tower! I thought he was just here to visit!"

"Tian Le, I really don't know how high the sky is, and the military commander-level only dare to break into the experience tower!"

"The first level of the experience tower requires a junior martial king to get through. This kid is really arrogant."

"In my opinion, he will soon run out dingy!"

"It's not bad to learn a lesson here, so that it won't suffer a bigger loss later."

"..."

The students talked a lot, and couldn't help but sneer at Su Lang's behavior.

On this occasion, Su Lang had entered the training tower, as if he had come to a new world.

The first floor of the Pagoda is one hundred meters high and one thousand meters long and wide. It is cast from white jade on all sides and engraved with countless formations.

In the empty space, strands of impermanent white mist drifted, creating a deeper and more secluded environment.

"Huh? How on earth is it?"

Su Lang frowned slightly, and looked around suspiciously.

At this moment, the bursts of light on the four walls and ceiling suddenly shined.

Immediately afterwards, the rays of light condensed into a dazzling figure, holding an imaginary long knife, falling from the sky and killing Su Lang!

"It turned out to be tested by formation!"

"I want to come, everyone has to practice, whoever has time to stay here waiting for someone to challenge.

Guarding with spirit beasts doesn't work. What should I do if I get injured? Who doesn't care about my spirit beast..."

Su Lang, who was in a daze, raised his right hand, and with a flick of his finger, the endless green lotus dragon pattern fire condensed into a giant fire dragon, swallowing the bright figure in one mouthful.

The dazzling figure was directly wiped out, without any resistance!

"Om!"

There was a buzzing sound from the first floor of the entire training tower, and the surrounding formation burst out again, condensing into an illusory teleportation formation.

"It's through the first floor, it's really easy!"

Su Lang smiled faintly, walked into the teleportation formation, and immediately disappeared in place.

Outside the training tower, the trainees were waiting for Su Lang to escape griefily with his tail between them, and then surrounded him, telling him the truth about the truth that there are outsiders and outsiders.

But at this time, the first floor of the experience tower suddenly lit up with a humming sound!

Everyone was shocked instantly!

[Chapter 358: He has arrogant capital](#)

"This light, this buzzing, is proof of passing the level!"

"Noisy, noisy, that kid actually got through the first floor?"

"Isn't he, he's only an intermediate military commander. Is it possible that his combat power can surpass the three small realms of senior, peak, and quasi-martial king to reach the primary martial king realm?"

"Impossible, it is absolutely impossible! When I was an intermediate military commander, at most I could only compete against the peak military commander. You know I am the best at fighting!"

"But, he was the only one who just entered. Who is he?"

"Wait, see from which floor he can come out!"

"Yes, from which floor you come out, it means you have gone through several floors!"

"I think he should have reached the limit."

"..."

Everyone waited with shock.

At this moment, Su Lang appeared on the second floor of the Experience Tower.

The environment here is similar to the first time, but the aura is a little thinner, it should be deliberately created.

Soon, the surrounding formations shone brightly, condensing a figure holding a short dagger.

As soon as this figure appeared, it disappeared in place.

"It turns out that the experience of each level is not only higher in the opponent's strength, but also in different types."

"This figure is not only an Intermediate King of Martial Realm, but also good at stealth assassination, much better than the one on the first floor who only knows how to hack with a knife."

While thinking about it, Su Lang waved his hand, and the figure that had just appeared behind him was directly torn apart.

"Om——!!!"

The second floor of the experience tower lit up with a buzzing sound.

Outside the tower, everyone was shocked again and started talking.

"What! He killed an intermediate Wuwang level opponent!"

"This kid, he passed the second floor of the training tower so quickly!"

"He went in less than a few seconds before he rushed in. It's so fake!"

"Tian Le, I must have hallucinations."

"..."

In the incredible discussion of everyone, Su Lang came to the third floor through the teleportation array.

The opponents on the third level have reached the level of a high-level martial king, and are good at defense. They can be described as rough and thick. The average high-level martial king may be defeated, but it is difficult to kill.

But for Su Lang, this opponent was too weak, and he could easily solve it with a wave of his hand.

Everyone outside the tower saw the third light, heard the third buzzing sound, and suddenly opened their mouths involuntarily.

"He has broken through the third floor! The third floor is guarded by a high-level martial king!"

"Do the math, he crossed five small realms and killed his opponent, hiss!!"

"I'll stop, he not only passed the third floor, but also spent so little time, just a few seconds, just a few seconds!"

"Nima, it's impossible, it's not true, it took me an entire hour to get through the third floor! Am I still not as good as an intermediate military commander?"

"Woo, I'm worse than you, I haven't even crossed the third floor yet!"

"I know, this guy is an evildoer, he is so arrogant, he has the capital!"

"It's really amazing, but I guess it will end here, after all, the opponent on the fourth floor is the pinnacle martial king level!"

"..."

The faces of all the students were full of horror, and it was really hard for them to believe that an intermediate military commander could kill a high-level military king!

The horror in the hearts of some of the students could not be quelled, so they took out the jade plaque of the letter to inform their friends of what happened here.

Immediately, these students who sent the news quickly received a large number of responses.

"What!? The Martial Commander-level genius who just came to Tatian stronghold actually broke through the third floor of the Experience Tower!?"

"What a joke, don't bother me doing alchemy, what? You guarantee it with your personality? You...are you serious?"

"What, what, a martial commander can kill a high-level martial king? Is my ear broken or your mouth broken? What? Are you sure it's true? Okay, I will come right away!"

"..."

[Chapter 359: This son Valkyrie is expected!](#)

In a short period of time, news spread throughout Tatian stronghold like a tornado.

Many students didn't believe it the first time they got the news.

However, the students who came out of the news vowed to promise, and even swear to heaven.

As a result, many students gradually believed.

They immediately put aside the things in their hands and rushed to the training tower with a sense of uncertainty.

When they rushed to the training tower, they saw dozens of students looking up at the training tower, staring dumbfounded and eyes bursting.

"Hey, what is going on!?"

A new student asked strangely: "Why are you all like idiots?"

However, no one paid attention to him, and those sluggish students still looked at the training tower blankly.

"What the **** is going on?"

The new students were dumbfounded.

At this time, a sluggish student whispered: "The sixth floor, I actually passed the sixth floor, God, is there such a monster in the world?"

His murmur fell into the ears of the newcomers, and it was tantamount to an earth-shattering thunder!

"what did you say!?"

A student squeezed the shoulders of the whisperer and asked in disbelief, "That martial-arts-level kid actually made it through the sixth floor!?"

As soon as this question came out, all the newly arrived students immediately pricked their ears and stared at this side.

"Yes, sixth floor... sixth floor."

The whisperer stared and said with a trembling voice, "It took him a minute to rush through!"

"How is it possible! The opponent on the sixth level is the Martial Emperor! Even if it is only a junior Martial Emperor, it is definitely not a Martial Commander-level can kill!"

"Slaying opponents in the Martial Emperor Realm with the Martial Commander realm, crossing two realms, is this in a dream state?"

"What the **** is going on, is that kid hiding his strength? Impossible, I can't be mistaken, he is a military commander."

"..."

The new students looked at each other, with stormy seas in their hearts and disbelief on their faces.

At this moment, the seventh floor of the Experience Tower suddenly buzzed!

"Passed the seventh floor!!"

Whether it was the first batch of students who followed Su Lang, or those who were called from behind, they all fell into a sluggishness.

At the scene, Wan Lai was silent, and the needle drop was audible!

At the same time, in the Temple of Treading Heaven, a group of elders were staring in the direction of the Tower of Experience with their mouths stunned.

All of these elders are martial arts, and even the quasi-martial gods, every one of them was once a prestigious powerhouse!

Long Sheng ordered them to have no waves, but at this time, why are there no waves? It was a terrifying tsunami!

"This son, able to kill the junior martial emperor with the martial commander realm, is really the first enchantment of our human race since the ages, and it is not worse than those genius disciples of the holy race and immortal race!"

"Too enchanting, too defying, this martial **** is hopeful! We must protect it!"

"It's a pity, it's a pity that he was born so late so many years, otherwise our human race would be more than Master Yanxingxing a Valkyrie!"

"In any case, we must try our best to train him. I would like to accept him as a disciple and teach him what I have learned throughout my life!"

"You are so shameless, even you want to accept such a wicked character as a disciple? Only I am qualified to be his master!"

"Get out of here! You old stubborn group have already fallen behind, I'll teach you now!"

"What old stubbornness? You owe you to clean up, are you? I don't know how many good things the old man has, can you match it?"

"Hehe, what's good about your broken stuff, oops, dissatisfied, come and fight!"

"Don't quarrel, this son has amazing talents and aptitude, we can teach together!"

"This is reasonable, let's go over quickly, this child has passed the seventh floor and should be coming out soon."

The elders of the martial arts class had a quarrel, blushing and almost fighting.

Fortunately, in the end, a compromise was figured out to avoid a fight.

Immediately, the elders of all the martial arts were ready to leave the Tatian Temple and personally go to the experience tower to pick up Su Lang.

But at this moment.

The eighth floor of the training tower emits light again, and there is a buzzing sound!

[Chapter 360: Unwilling Li Qiming!](#)

"what!!!"

The martial masters who were about to leave the Temple of Heaven and go to the experience tower instantly stagnated.

All Wu Zun powerhouses looked at the direction of the training tower in disbelief, and their faces were full of disbelief.

"This child has passed the eighth floor!"

"The formation of the eighth layer can condense the opponents of the intermediate martial emperor level, and the martial commander can even kill them!"

"The most important thing is that he has just broken through the seventh floor, which means that he can easily deal with the junior martial emperor, maybe his strength is far beyond the intermediate martial emperor!"

"There are such enchanting people in the world, who can easily kill the Intermediate Martial Emperor with the Martial Commander rank!"

"Stop talking, let's go over!"

"..."

The powerful Wuzun-class experts left quickly one after another, rushing to the training tower at the fastest speed.

at the same time.

Li Qiming, Jin Xiutian and others also learned the news of Su Lang's entry into the training tower.

When the news that Su Lang had broken through the third floor came out, they all thought it was absolutely impossible.

However, when Su Lang broke through the fourth floor...the seventh and eighth floors came.

Like those students outside the tower, their brains are blank and they are directly in a state of dementia!

"Senior Su Lang is so strong!"

"I originally thought that Senior Su Lang was just a talent for alchemy, but I didn't expect that his fighting talent would be so strong!"

"The difference in combat power between Martial Commander and Martial Emperor is so big, I don't know how Senior Su Lang crossed such a huge moat!"

Xiao Ning stood among the crowd, her beautiful eyes shining brightly.

"Su Lang is so powerful that he can break through the eighth floor!"

Young people with braids, Sun Teng, He Xuan and others gathered together, their faces full of horror.

With their ten thousand heads, they couldn't think that Su Lang could have such a powerful leapfrog fighting ability.

If they were to fight against Su Lang, they would probably be easily defeated.

Because these people are nothing more than junior martial emperors and intermediate martial emperors.

"Damn, I even offended such a wicked character!"

"We are very concealed, hope not to be known by him, otherwise we are all over!"

"Yeah, with Su Lang's terrifying talent and potential, there are absolutely too many people who favor him. Then we don't need him to do anything personally, we have to finish playing!"

"..."

Sun Teng and others looked at each other, their faces were full of regret and fear.

At the same time, they also understood one thing, that was why Su Lang refused Jin Xiutian's invitation.

Su Lang possesses such a powerful potential, and his future achievements may be higher than the entire Jin family combined. How could he join the Jin family and become a vassal?

They are unwilling to change their aptitude and potential to be so defying.

"It turns out that Su Lang rejected me, not arrogant, but really has capital!"

At this moment, Jin Xiutian also suddenly said: "Oh, I put aside the cruel words to him before, and I hope he won't hold such grudges."

The other side.

"This is impossible!"

"How can a little yellow-haired kid be so strong?"

Li Qiming was stunned as he stared at the Tower of Experiences, his whole body trembling slightly.

It's too scary, the Martial Commander can kill the Intermediate Martial Emperor!

If he was promoted to King Wu, wouldn't he be able to fight against Wu Zun?

What if you are promoted to the Emperor rank? Fight against Valkyrie! ! ?

"Monster, this Su Lang is a monster against the sky!"

"Fortunately, although I hated this person, there was no head-on conflict from beginning to end."

"He shouldn't regard me as an enemy, at most he will have some hostility towards me because of Xiao Ning."

"But, I'm really unwilling. Li Qiming is the number one student in the War Sect, the number one student who has never been before, but this Su Lang..."

"Oh heaven, why did you give birth to me Li Qiming, but also give birth to him Su Lang? No! I can't be suppressed by him, my glory and my glory can't be cut off!"

Li Qiming's face rose with a trace of fear, and immediately showed extremely strong unwillingness and jealousy.
