[Chapter 401: The atmosphere gradually solidified](#)

"Master City Lord! Master Wu Ma Tao and Master Takayama Tetsu are here!"

A Martial Emperor said respectfully through the curtain of the small hall.

"Quickly invite two adults to come in, no, I will greet you!"

Nan Men Shang immediately stood up and opened the curtain.

The Emperor Wu's subordinate left wittily, revealing Wu Ma Tao and Gao Shan Che behind him.

"Haha!"

Nanmenshang laughed and said, "The presence of the two adults really makes me splendid!"

"Haha, disturb the Lord City Lord."

Wu Ma Tao and Gao Shan cheered back with a smile.

Nanmenshang hurriedly waved his hand: "What is the Lord of the City? How do I qualify to be called an adult?"

"Haha, in any case, Daoist Nanmenshang is the master of a city, why not?"

Wuma Tao smiled, then seemed to glance at Su Lang inadvertently, and said in surprise, "Hey, this Dao is friendly and strange."

"City Lord Nanmenshang, who is this fellow Taoist?"

Takayama Toru also looked at Nanmenshang with some doubts.

At the same time, he was also observing Su Lang, but found that he could not see through.

It can only be found that the body surface of this strange young strong man is covered with a layer of powerful mental power of the sea of mind.

Other than that, there was no breath.

This made Takayama Toru a little shocked immediately.

You must know that he has been fighting for a long time, and his sensitivity to breath has reached a very exaggerated level.

But when I got to Su Lang's side, I couldn't feel it at all.

This made him feel uneasy in the face of the unknown.

"Haha, let me introduce it!"

Nanmenshang said with a smile on his face, "This is a fellow Youtian Daoist who has just returned from a foreign race. He has a high level of cultivation, and his formation is unpredictable and hard to measure!"

"The city owner praised it."

Su Lang smiled faintly.

"Why!"

Nanmenshang laughed and said, "I'm telling the truth!"

As soon as these words came out, Takayama Toru and Wuma Tao suddenly appeared surprised.

They did not expect that Nanmenshang would have such a high evaluation of this Youtian!

In particular, in front of the famous formation master Wuma Tao, he even said that Youtian Formation Dao was unpredictable.

This is intriguing.

"Friend You Tian, I'll introduce these two to you."

At this time, Nanmenshang said, "This is the well-known Daoist Wu Ma Tao in the clan.

This is one of the main city guard leaders, fellow Taoist Toru Takayama who is victorious in all battles! "

"I just have a false name."

"It's hard to talk about winning every battle!"

Wuma Tao and Takayama Toru said modestly at the same time.

Among them, Gaoshan Che was really humble, and Wuma Tao was humble on the surface, but the thought of competing with Su Lang arose in his heart.

"Come on, everyone sit down and talk."

At Nanmenshang's invitation, the four people sat down around the short group.

"City Lord Nanmenshang, Daoist Youtian went to a foreign land to travel, and I will talk to you when I come back. The friendship is not shallow."

Wuma Tao said, "But you are also familiar with me. Why didn't you introduce Daoyou Youtian to me before?"

As soon as he said this, Takayama Toru also pricked his ears.

However, where did Nanmenshang and Su Lang make friends? It hasn't been long since they talked!

Therefore, he can only look at Su Lang.

"In fact, I have just met Nanmen Shang Daoyou not long ago."

Su Lang smiled, "I just came back from a foreign land, just when I found something, I came to the city lord."

Takayama Toru immediately came to the spirit: "Oh!? Found something? Is it about the alien?"

"No."

Su Lang shook his head, "It's about the Blue Wind City defensive formation."

As soon as this statement was made, the atmosphere instantly solidified.

Gao Shan looked at Su Lang in surprise, and didn't know how to answer the conversation.

Wuma Tao, who had a desire to compete with Su Lang, squinted even more.

Wuma Tao paused, and said, "This Blue Wind City formation is exactly what I set up. I wonder if Fellow Youtian has discovered?"

"I found a flaw in the defense formation."

Su Lang is straightforward, and he is not afraid to offend Wuma Tao, anyway, the Human Fengling Clan is the enemy.

"What? You found a flaw in the formation of Blue Wind City?"

Wuma Tao's face became a little ugly in an instant, but immediately returned to normal.

He said: "To be honest, my formation does have two flaws. I came to Qingfeng City this time because of this.

Fellow Daoist Youtian could discover a flaw in my formation, and the formation was impressive. "

[Chapter 402: Angry Wuma Tao](#)

This is a bit of gunpowder.

Wuma Tao said that there were two flaws in his formation, but Su Lang only saw one, saying that he admired it, but it was contemptuous!

Seeing that Wuma Tao was unhappy, Gao Shan looked towards Nanmenshang, but found that Nanmenshang had nothing to say.

At this time, shouldn't we come out to make a round?

But Nanmenshang seemed to turn a deaf ear, drinking tea to himself.

At this time.

"Friend of Taoist Wuma Tao is afraid of misunderstanding."

Su Lang smiled faintly, "I found more than one flaw, but twelve. If you investigate carefully, there will be more."

As soon as this statement was made, the expressions of the other three suddenly changed.

Nanmenshang knew it would happen, so his eyes flashed.

After hearing Su Lang's words, Gao Shan completely looked at Wuma Tao with surprise on his face.

But seeing Wuma Tao's eyes widened, in disbelief, his face turned red and blue veins looming.

The atmosphere is almost freezing!

"Friend You Tian! You can eat rice but you can't talk nonsense!"

Wuma Tao took a deep breath, and said with a gloomy expression, "I know all about the formations I set up, twelve flaws? Maybe more? It's just nonsense!"

Wuma Tao is a rare formation statue of the Fengling tribe.

Over the years, he has arranged formations for many cities and has been supported by many strong people.

When questioned in other respects, he might listen.

But it was the first time that it was questioned above the battlefield.

Coupled with the previously hidden hostility, Wuma Tao immediately lost his temper!

"What I said is true."

Su Lang picked up the teacup and took a sip.

"fart!"

"I am one of the few array masters of the Fengling Clan. Can your array skills match me?"

Wuma Tao was completely angry. He roared with blood-red eyes, "Why do you have the right to comment on my formation?"

"Formation attainments?"

"My formation skills may be higher than yours, but I dare not say how advanced my formation skills are."

Su Lang smiled indifferently: "Because I was studying formation in a foreign land, and I have seen too many strong people with great formations."

The faint smile was full of irony.

The implication is to scold Wuma Tao for sitting on the well and watching the sky, not knowing how high the sky is!

"you!"

Wuma Tao pointed at Su Lang, his fingers trembling.

Unbelievably, he, who is respected by the wind spirit clan, was actually insulted face to face.

This is really a shame!

Wuma Tao stared at Su Lang, fierce gaze spurted from his eyes.

At this moment, he really wished to smash the Youtian corpse in front of him immediately!

"Friend of Taoist Wuma Tao."

"Since I told you about the flaws in the formation, it means that I am very sure."

Su Lang said calmly, "If you don't want to believe it, let's go and see the formation together."

His words were very sincere, but when he heard Wu Ma Tao's ears, he was full of provocations!

"Youtian, since you are so sure, then I will let you find it!"

"I want to see how you can find so many flaws in my formation!"

Wuma Tao's red tendons exploded, and his voice was a little hysterical.

Su Lang smiled and said, "If you find out, how?"

Wuma Tao asked sharply, "If I can't find it, what about!!!?"

There seems to be explosive powder floating in the air, and the whole small hall will explode in the next moment!

"If you can't find it."

"These four perfect quality Taiyi Tianxin Pills belong to you."

Su Lang smiled faintly, stretched out his hand, and suddenly four perfect quality Taiyi Tianxin Pills appeared on Xiaoji.

"what!!!"

"The perfect quality Taiyi Tianxin Pill!"

As soon as Su Lang's medicine was released, Nanmenshang and Gaoshan Che looked straight.

Wuma Tao's angry expression also immediately solidified, and there was a touch of greed in his eyes!

Taiyi Tianxin Pill!

This is a noble spiritual pill, and among the same level of pill, it is considered top.

Even the ordinary Taiyi Tianxin Pill can make Wu Zun powerhouse show greed, let alone perfect quality!

[Chapter 403: No one can go back](#)

This Taiyi Tianxin Pill was made with the materials given by Rupert.

One of them will be returned to Rupert, and four will belong to Su Lang.

Originally, Su Lang intended to take it, but considering that he might not be able to push his mental power to the realm of Morning Star in one go, he stayed and prepared to take it later.

At this moment, taking out this extremely precious Taiyi Tianxin Pill as a bet, Su Lang wanted to make a fortune from Wuma Tao.

This professional refining fellow must have a lot of refining materials.

"Friend of Taoist Wuma Tao."

Su "What if I found so many flaws?"

Looking at the stunned three people, Su Lang's mouth twitched, revealing a slight smile.

"I....."

"I don't have anything long, except for spirit stones, I have also accumulated some refining materials."

Wuma Tao recovered, a little ashamed that he hadn't concealed his greed before.

However, he is not afraid of gambling and fighting, and even a little positive.

Because Wuma Tao is very confident in his formation, because his inheritance of formation is god-level!

The defensive formation deployed in Blue Wind City was taken from this god-level formation inheritance.

As a historically tested formation, Wuma Tao didn't believe that Su Lang could find more than twelve flaws!

"The five Taiyi Tianxin Pills, I'm going to make them!"

Wuma Tao thought to himself, and couldn't help feeling a little excited.

Fengling clan is the best at weapon dao, least good at formation dao, and is quite satisfactory in alchemy.

A perfect quality Taiyi Tianxin Pill is very rare, even the Pill God cannot refine it!

"Both spiritual stones and refining materials are fine."

"It would be better if there were advanced refining materials."

Su Lang said noncommittantly, "As long as the value of these four Taiyi Tianxin Pills is about the same."

"Well, a perfect quality Taiyi Tianxin Pill counts as five million top-grade spirit stones!"

Wuma Tao said, "A total of four, that is 20 million high-grade spiritual stones! I will give materials worth 20 million high-grade spiritual stones."

At such a high price, Toru Takayama and Nanmenshang did not surprise them, but showed a look that should be the case.

A five million high-grade spirit stone, the price is five times that of the Sun Jade Pill!

This shows how important this Taiyi Tianxin Pill is in the hearts of Wuma Tao and others.

No wonder Rupert would ask Su Lang to refine this Taiyi Tianxin Pill.

"Then you can take out the materials of 20 million high-grade spirit stones."

Su Lang nodded faintly. Not long ago, he had spent 40 million high-grade spirit stones at a time, leaving 50 million high-grade spirit stones.

Although the 20 million high-grade spirit stones were quite a lot for him, they couldn't make him react much.

"it is good!"

Wuma Tao nodded and agreed, and immediately took out a lot of high-ranking refining materials and some spiritual stones from the storage space.

"These things are indeed worth 20 million high-grade spirit stones."

Su Lang glanced, then withdrew his gaze, only one glance, definitely not much.

With 'treasure recognition' he is not afraid of being deceived at all!

Nanmenshang and Gaoshan Chesulang reacted in this way, and suddenly a kind of thing emerged: they are indeed powerful men who have trespassed in alien regions, and they are knowledgeable.

On the other hand, Wuma Tao looked gloomy and secretly scolded Su Lang for pretending.

"With the testimony of Nanmenshang City Lord and Gaoshan Toru, the matter is so set, but no one can go back."

Wuma Tao stood up, flicked his sleeves, and sneered, "Now, please ask Friends of You Tian to find the flaws in my formation!"

With that said, he turned straight and walked outside the small hall.

"Haha, well said, no one can go back!"

Su Lang also stood up and followed with a faint smile.

Takayama Toru and Nanmenshang looked at each other.

Gao Shanchi said in a low voice: "City Lord Nanmenshang, I couldn't say that before, fellow Taoist Wuma Tao..."

"Tru Gaoshan, for the sake of Qingfeng City and the people in the city, I can only offend Daoist Wu Ma Tao."

Nanmen Shang said, "If there are not so many flaws in the Blue Wind City defensive formation, I shall be guilty of Daoist Wu Ma Tao, even if he does not forgive me..."

"You are indeed a good city lord."

Takayama Tetsu shook his head, then nodded, "Let's go, let's go together."

Soon, Nanmenshang and Gaoshan Che also got up and set off, following Su Lang and Wuma Tao.

[Chapter 404: Listen carefully!](#)

Wuma Tao left the small hall of the City Lord's Mansion and flew straight to the sky.

Su Lang came to the highest point of the City Lord's Mansion, sat down slowly, took out some spiritual tea, and brewed it on his own.

At this time, Takayama Toru and Nanmenshang also came into the air, looking at Wuma Tao for a while, and Su Lang for a while.

On the street, many warriors of the Fengling tribe found Nanmenshang in the air, and stopped immediately, showing surprise.

"It's Lord City Lord!"

"Why does the Lord of the City fly into the air?"

"Who is the man next to Lord City Lord? Looks so tough!"

"The old man with withered yellow hair is so familiar to me, he seems to have looked up from afar, he must be an incredible figure."

"The one who sits on the roof is amazing. When I grow up, this is the first time I have seen anyone sitting on the roof of the city lord mansion."

"Tsk tsk, to be able to be so casual in front of the city lord, he must be a powerful person of noble rank, maybe his identity is more noble than the lord of the city!"

"Speak carefully! Let's see what the Lord of the City is going to do!"

"..."

In a short period of time, almost the entire Fengling Clan warriors of Qingfeng City saw Nanmenshang and Su Lang, and they couldn't help but stop watching.

At this moment, Wuma Tao came under the formation barrier, stretched out his hand a little, and the entire transparent formation barrier suddenly appeared!

I saw countless blue light patterns spread from Wuma Tao's fingertips, forming a mysterious network barrier.

Almost instantly, the sky of the entire Blue Wind City was replaced by a blue barrier.

"This is, the defensive formation is activated!!"

"Oh my God, I remembered, this old man is Master Wu Ma Tao from the teleportation formation!"

"It turned out to be him, one of the few formations of our Wind Spirit Clan. It is said that he sponsored the defense formation of our Blue Wind City!"

"Master Wuma Tao came to Qingfeng City to activate the formation today, I am afraid that something big will happen!"

"The big thing? Is it because an enemy is coming to attack the city? Is it a fierce beast or an alien?"

"I can't see it. After all, Lord City Lord did not call the defenders!"

"What exactly is going on?"

"..."

There was a lot of noise in Qingfeng City, and countless people were guessing what happened.

And at this moment.

"Youtian!"

"This is the venerable formation that I set up, Lan Ding Huan's Great Formation!"

Wuma Tao's voice spread throughout Qingfeng City, his tone scornful, "You said there are more than twelve flaws in the formation, come up, find out!"

As soon as these words came out, the whole Qingfeng City was silent!

When the wind passed, someone trembled fiercely, with an incredible color in his eyes.

Immediately afterwards, more and more people looked at each other, looking incredible at the sky.

"This is arranged by Master Wuma Tao, who has guarded the Blue Wind City for many years, the Lan Ding Huan Qian Array. Someone even said that there are more than twelve flaws!"

"How is this possible? Master Wuma Tao is a well-known formation master of our Fengling Clan. How could there be so many loopholes in the formation!"

"That Youtian must be looking for fault, ridiculous, he dared to oppose Master Wuma Tao."

"That's not right, look at the reaction of the Lord City Lord, he seems to be not helping each other, otherwise there will be no such a scene, that Youtian would have been blasted away long ago!"

"Yeah, can it be that Youtian's formation skills can be compared with Master Wu Ma Tao? This is really amazing!"

"..."

Everyone talked, their eyes fell on Su Lang.

At this time.

"Hehe, if you want to find the flaws, I can find them all by sitting here. Why do you have to be close to the formation barrier like you?"

The corner of Su Lang's mouth twitched, and his faint smile was full of sarcasm.

"Sharp teeth!"

"You should speak with strength!"

Wuma Tao sneered, "If I can't find more than twelve flaws, I will laugh at your Taiyi Tianxin Pill!"

As soon as this statement came out, the Fengling Clan warriors in the city were suddenly in an uproar.

Especially those Wuhuang-level, endless longing rose in their hearts.

A Taiyi Tianxin Pill is enough to make their mental power advance a lot!

"Hmph, I'll take a seat here."

Su Lang shook his head disdainfully, "There are already more than twelve flaws found in a moment, listen carefully!"

[Chapter 405: I still said that!](#)

With that said, Su Lang pointed to the Zhenfa Zhengbei Dao:

"Departure, the third handover point between Article 72 and Article 96 is the first flaw!

This flaw is the most obvious flaw, and you must have discovered it yourself. "

As soon as he said this, Wuma Tao's expression suddenly changed.

Because the flaw pointed out by Su Lang was the first flaw he found after studying for a long time.

At the same time, Nanmenshang and Gaoshan Toru, as well as countless Qingfeng City Fengling Clan warriors, were also surprised.

"Friend Youtian is really extraordinary!"

Nanmenshang took a deep breath, rejoicing that his decision arrived.

Takayama blinked, "Let's take a look."

Many Qingfeng City Fengling Clan warriors looked at each other, and they all understood that the man who was sitting idly on the roof of the City Lord's Mansion really had extraordinary accomplishments in the formation.

"Damn, this person found the first flaw so quickly!"

Wuma Tao cursed secretly in his heart, but he snorted coldly on the surface, "I told you before that there are two flaws. You only found this flaw because of my suggestion."

"Tsk tusk, you are also a brazen person."

Su Lang shook his head, and then pointed to the northeast of the formation, "The formation is all right, there is a problem with the sixth formation.

It is handed over with the 63rd article of Kun Wei, forming a flaw. This is the second place. "

Wuma Tao's heart bulged, then his expression was gloomy and said, "Huh, I already know this, you can find the third place and talk about it!"

"The third place is also in the Kun position, and it also comes from the sixth formation."

Su Lang sneered, "This array text is portrayed with a counter-stroke technique and runs through the two array texts. It seems to kill two birds with one stone, but two flaws are formed."

"Hey! You said there is a second flaw in the sixth formation, I admit it."

Wuma Tao looked down at Su Lang, "However, after discovering the second flaw, I carefully studied the sixth array text. From beginning to end, I did not find more flaws!

If the third flaw you mentioned is elsewhere, I believe it is absolutely impossible in the sixth formation! "

As soon as this remark came out, the Fengling Clan warriors were in an uproar again.

"Unexpectedly, Master You Tian could find two flaws, and they were admitted by Master Wu Ma Tao!"

"This person is really a fight against Master Wu Ma Tao on the battlefield!"

"What kind of fight? In my opinion, this Master Youtian must be better than Master Wuma Tao."

"Yes, yes, yes, Master Youtian is so calm, calm and unhurried, on the other hand, Master Wu Ma Tao has always been very emotional..."

"Cut, if you stood in the position of Master Wuma Tao and were questioned face to face, would you be so calm?"

"Don't quarrel! They have a dispute over the third flaw. From here you can see which one is stronger."

"..."

The warriors of Qingfeng City had a discussion and stared at Su Lang closely.

Nanmenshang and Gaoshan Toru also looked solemnly.

Next, if Su Lang can point out the third flaw, and let everyone see it clearly.

So, Wuma Tao, who claimed that his formation had only two flaws, had actually lost.

Of course, it was the formation skills that lost, not the bet.

To win the gambling contract, Su Lang must find more than 12 flaws in the formation.

At this moment, everyone is staring at Su Lang closely.

"Wuma Tao, you haven't noticed it, it means that your formation skills are not yet home."

Su Lang sneered, "It seems that you need me to point you out."

"you!"

Wuma Tao's face was blue and red, "Okay, come up, I want to see what the third flaw is!"

"Hehe, I still said that!"

"I want to point out the flaws. Why, like you, have to be close to the formation barrier?"

Su Lang showed a faint contempt on his face, and immediately stretched out his right hand and snapped his fingers.

I saw a string of text burst out, and with the sound, it fell to the Kun position of the city guard array barrier.

Suddenly, it was like raindrops falling on the calm lake, causing little ripples.

These ripples finally gathered on the sixth formation, moving with the formation energy.

When the ripples came to a certain place, they all disappeared suddenly, and a visible crack appeared on the formation flaw.

[Chapter 406: A bucket of water can't shake!](#)

Such a scene immediately silenced the entire city.

Takayama Toru and Nanmenshang's expressions changed drastically, and their faces were incredible.

Wuma Tao was even more stunned, his face distorted in horror!

"Friend You Tian... mastered the defensive formation!!!"

Gao Shan took a deep breath, turned his head and asked Nanmen Shang, "But the city lord gave Youtian Daoist Fellow the control of the formation?"

"No!"

"I have never given Youtian Daoist Fellow the control over the formation."

Nan Men Shang took out a piece of blue jade with a stiff expression, "The key to control the formation has always been in my hand.

Daoyou Youtian's hand just now used a special formation method to steal the control of the city defense formation!

Oh my god, it's fortunate that Daoyou Youtian is his own, otherwise my Blue Wind City would have fallen into the enemy's hands, and I would still be kept in the dark! "

"Directly used the formation method to control the defensive formation!!!"

Takayama was speechless, "This...this is incredible!"

"..."

The two powerful experts looked at Su Lang who was sitting on the roof, with deep awe in their eyes.

In their eyes, Su Lang had completely crushed Wuma Tao's formation skills with just this hand.

And Wuma Tao was also aware of the profundity of Su Lang's formation technique.

"This guy can control my formation out of thin air!!!"

"I made this formation by myself. Except for the formation key and my dark hand, there should be no third person who can control the formation. He actually did it!"

"And he really found the third flaw. The technique used to reveal the flaws in the formation is also unheard of. I am afraid it is the formation method in the alien region!"

Wuma Tao's expression was pale, and his withered hair seemed to grow dim.

He knew that Su Lang's formation skills were really better than his!

"No, I'm not reconciled!"

"Even if he is better at formation than me, he shouldn't humiliate me like that!"

"I'm also a rare formation master of the Wind Spirit clan anyway, he didn't give me any face, and satirized me to sit and watch the sky!"

"Youtian! I want to fight you to the end today. You can find the third flaw. It is very strong! But if you want to find more than twelve flaws, I still don't believe it!"

Wuma Tao roared wildly in his heart, and on the surface also showed a hideous expression: "Youtian! The fourth flaw! The fifth one...!!!"

As soon as this statement came out, he acknowledged the existence of the third flaw.

At this moment, those Fengling Race warriors in the city underneath were shocked.

"Master You Tian found the third flaw, Master Wu Ma Tao admitted!"

"It seems that this mysterious Master Youtian has already surpassed Master Wu Ma Tao!"

"It's shocking that the well-known Master Wu Ma Tao is inferior to the nameless Master Youtian!"

"Could it be that this is the legendary half-bucket of water jingling, can a bucket of water shake?"

"Hush, speak carefully, in any case, Master Wu Ma Tao is not something I can offend!"

"Well, I hope Master Wu Ma Tao didn't hear it!"

"..."

Although the comments of the warriors of the Fengling tribe are very small, how can they be hidden from Wuma Tao?

Wuma Tao was suddenly so angry that the three corpses jumped!

However, he couldn't take action to destroy those talkative warriors, otherwise it would appear that he became angry, narrow-minded, and not to be measured.

This is shameful!

Besides, Nan Men Shang is still watching over there.

Even if the Fengling clan is strict, the city lord will not let Wuma Tao kill people indiscriminately.

At this time, Su Lang laughed and said, "Wuma Tao, I won't sell it anymore.

Now I will point out the fourth to twelfth, no, eighteen flaws! "

With that said, Su Lang pointed towards the formation and pointed out all the remaining flaws by revealing the third formation.

For a time, the protective formation barrier covering the entire Blue Wind City was covered with a lot of cracks and loopholes.

The entire formation barrier was like a piece of green cabbage leaf eaten by insects, tattered, and seemed vulnerable.

[Chapter 407: Wuma Tao, defeated!](#)

"This...this is my formation!?"

"This is impossible, how could my formation have so many flaws!?"

Wuma Tao looked at all directions tremblingly, and the shocking flaws hit his chest like a heavy hammer.

His arrogance, his majesty, and his self-confidence, suddenly shattered! !

At this moment, Su Lang smiled again.

"It's not over yet!"

Su Lang hooked the corner of his mouth and said, "There are still nine flaws, which are caused by the wrong use and matching of formation materials.

These nine kinds of flaws merged into one, covering the entire defensive formation, reducing the power of this great defensive formation out of thin air by a full 30%!

The wrong material is used. This is a low-level error. I believe you will not make such a mistake.

If I'm right, you should not be able to find the materials for these nine formations, so use other materials instead.

It's a pity that you are not at home in the formation, and the substitute materials used are not good. That's why these nine flaws are caused.

Wuma Tao, do you want to hear, which of these nine materials should be used instead? "

When Su Lang said this, Wuma Tao was already speechless, his eyes were staring, his eyes protruding outside, constantly trembling!

"You!! You know the layout and materials needed for this formation!!!"

Wuma Tao looked at Su Lang in disbelief, "Otherwise you wouldn't know that I used nine alternative materials.

My formation inheritance has never been leaked, this formation world should only be mastered by me!

You...Who are you? Are you the other descendant of the Thirty Sixth Formation? You are in the same vein with me! ? "

Wuma Tao's words spread throughout Qingfeng City, and everyone looked weird.

"This!"

"Is it true that Daoist Wu Ma Tao and Dao You Tian are brothers?"

Takayama Toru and Nanmenshang looked at each other, their eyes full of doubts.

"No, it's wrong!"

Nanmenshang frowned and said, "If it were brothers, Daoyou Youtian should have known this relationship as soon as he saw this formation..."

"Could it be that Fellow Youtian deliberately did it?" Takayama Toru also frowned.

As the two speculated, Su Lang sneered when Wuma Tao was horrified.

"Wuma Tao, I can get a feel for your formation!"

"The various functions of the formation correspond to the required materials, as long as there is time, they can be guessed one by one."

"Why do I need to know the layout method and required materials in advance?"

Su Lang shook his head and said, "Before I said you were sitting in a well to watch the sky, and you were not convinced, are you convinced now?"

As soon as this statement came out, countless people's eyes fell on Wuma Tao.

Even if the four characters for the strong are regarded as the most important in the Fengling clan, many low-level warriors can't help showing a good show.

The generations are deflated, this is not a good show! ?

"I....."

Wuma Tao was stiff, his cheeks burst and he wanted to refute.

But when he saw the tattered formation barrier above his head, all his emotions suddenly turned into depression.

He lost!

In the field of formation that he is best at, he is defeated! !

"I serve!"

"I'm Wuma Tao, I'm not as good as Daoist Youtian!"

Wuma Tao's eyes closed tightly, a wry smile on his face.

"Haha! If you knew this time, why bother?"

"Wuma Tao, give me your bet, and I won't let you suffer."

"I can tell you the nine correct substitute materials."

Su Lang said indifferently, "As for the ways to make up for the remaining flaws, you must be able to figure out how to make up since you know the existence of the flaws."

"Well, I am willing to listen to Youtian Daoist's opinions on alternative materials."

Wuma Taofei arrived not far from Su Lang and threw a space ring, "This is a bet!"

Su Lang took the ring and put it away with satisfaction after some inspection.

Such a scene fell in the eyes of all the warriors in Qingfeng City and immediately made their buzzing voices grow louder and louder!

[Chapter 408: Yinsha Moonlight Stone!](#)

"Wuma Tao is really not as good as Lord Youtian!"

"It's more than inferior, it's greatly inferior!"

"Yes, yes, yes, Wuma Tao said that his formation has only two flaws, but Master Youtian has found a total of 27 flaws! Among them, the gap is almost like a moat!"

"In my opinion, Lord Youtian's formation skills are probably already approaching the only formation **** of our Fengling race!"

"..."

The warriors talked a lot, and countless respect and awe eyes fell on Su Lang.

...

Next.

Su Lang said the nine correct substitute materials.

Although Wu Ma Tao knew that Su Lang's formation skills were higher than his own, he was still uncertain at first.

After he pondered for a while, he discovered that the substitute materials used by Su Lang were really amazing!

Wuma Tao fell into shock all at once.

Then he kept deducing and pondering, and found that the nine materials given by Su Lang could really replace the original materials perfectly!

"It took me three full months to figure out the nine wrong materials and barely replace the original materials."

"But Youtian only spent less than a day, but found the correct nine alternative materials!"

Wuma Tao's breathing stagnated, and his mouth was dumbfounded, "Could it be that his formation skills have reached the **** level!?"

Thinking of this, Wuma Tao couldn't help looking at Su Lang, but saw that Su Lang had left the roof of the City Lord's Mansion and walked towards Nanmenshang.

Su Lang's back fell into Wuma Tao's eyes, gradually becoming extremely tall and mysterious!

"Before I, I was really sitting on the well and watching the sky!"

Wuma Tao sighed up to the sky, "After making up for this defensive formation, maybe I should also go out and travel."

After sighing, he said to Nanmen: "There are continuous flaws in the formation here, all because of me, and I will bear the cost of making up for the flaws!"

The truth in the words is correct, but it reveals a trace of alienation.

Obviously, the friendship between Wuma Tao and Nanmenshang has also broken.

"Troublesome fellow Wu Ma Tao!"

Nan Men Shang also sighed in his heart.

At this time, Su Lang came to Nanmenshang.

"City Lord Nanmenshang."

Su Lang smiled lightly, "If there are Taoists Wuma Tao making up for the formation, I'm just lazy."

"What is lazy and not lazy?"

Nanmen Shang said hurriedly, "There are so many flaws in the formation, and if an enemy catches one, there will be a catastrophe in Qingfeng City.

Fellow Youtian found all the flaws in the formation, and no one can compare the credit!

As for the gifts I mentioned before, I originally planned to give Daoists some honor-level materials and royal-level materials.

But fellow Daoists have helped me so much, and I plan to give away another precious treasure as fellow Daoists!

I am ashamed to say that I have obtained this treasure for a long time, but it has kept it in dust.

Today I will give it to Friends Youtian, I believe you can make the best use of it! "

Nan Men Shang looked sincere, took out a space ring and handed it to Su Lang.

"Oh? Thank you Nanmenshang City Lord!"

Su Lang nodded in surprise, took the ring, and then swept it curiously.

There are many kinds of materials piled in the ring, and the grade is not low.

Most of them are royal ranks, even if they are king ranks, they are also the best king rank materials.

Besides, there was a rock that shocked Su Lang's heart!

The stone is light gray, it seems to have experienced years of weathering, showing a fine grain.

And inside it, there seems to be a frosty white light looming, like a candle in the wind.

"this is!!"

Su Lang screamed in his heart, "God-level refining material Yinsha moonlight stone!"

Shady moonlight stone.

It is one of the three god-level materials necessary for Youtian Sword to be promoted to an artifact.

Su Lang originally thought that the way to obtain these materials would be to kill enemies or hunt for treasures and flying flying gliders.

However, I never expected that someone would deliver it to myself!

"Nanmenshang is really a good city owner!"

Su Lang was very excited, "I will leave Qingfeng City alone when I work on the Wind Spirit Clan in the future!"

Of course, Su Lang, who has the system, is confident and capable of turning the wind spirit clan!

Of course, this takes time.

"City Lord Nanmenshang, the treasure you gave me is very important to me."

Su Lang smiled and thanked Nanmen Shang, "Thank you!"

Nanmenshang smiled and said, "It seems that the dusty treasure has really found a suitable owner, haha!"

"Friend Youtian, congratulations!"

Takayama Toru also smiled kindly at Su Lang.

Although he has a good relationship with Wuma Tao, he will not be enmity with Su Lang, a more powerful formation master because of Wuma Tao.

[Chapter 409: Three points are true and seven points are false!](#)

"Thank you two."

Reaching out his hand without hitting the smiling man, Su Lang responded with a kind smile.

"Next, I wonder what Daoyou Youtian plans?"

Nanmen Shang smiled and said, "It's better to stay in Qingfeng City for a few days, so that I can do my best as a landlord."

Nanmenshang kept Su Lang from staying, one is because Su Lang's cultivation is high and strong, and he is very strong.

The second is because he offended Wuma Tao and wanted to make good connections with Su Lang to make up for the formation.

Moreover, he was also afraid that Wuma Tao would have hatred in his heart, and he would do his hands and feet in the formation.

"Thank you for the kindness of the city lord, I will not stay longer in Qingfeng City."

Su Lang saw Nanmenshang's intentions, smiled and refused, and said, "However, I will leave after Wuma Tao completes the formation."

At that time, not only will there be no problems in remedying those flaws, but also the control of the formation will be further in your hands. "

As soon as this remark came out, Nan Menshang's heart was relieved a lot: "It's really troublesome Daoyou Youtian! Please!"

"please!"

The three of them returned to the small hall, made a drink, and squirmed slowly, and they started talking while observing Wuma Tao who was busy making up for the formation.

"Friends of Taoist Nanmen."

"I have been out for many years in Xia, and only recently passed through the Hengduan Mountains and returned from the area of the Yinjiao tribe."

"I don't know, what major events have happened to our Fengling Clan in recent years?"

Su Lang sipped the drink made by Nanmenshang, knocking on the side.

"A big deal, it really happened!!"

Nanmenshang suddenly became interested, "Youtian Daoist, you don't know, our Fengling clan has a great opportunity!"

Because Su Lang helped Nanmenshang so much, Nanmenshang had no defense against Su Lang.

In a word, I clicked on the big secret of the Wind Spirit Clan-Invading Blue Star.

Yes, although it is said that the entire clan invaded Blue Star, this matter is kept secret among the Fengling clan.

Only those in high positions and those involved in the action can know!

The mountain on the side saw the blue star mentioned, and was slightly wary.

Su Lang appeared out of thin air. Although he helped Qingfeng City, Gaoshan Toru never saw through Su Lang, so he was still a little distrustful.

"Our Fengling Clan has a great opportunity!"

Su Lang was surprised, "Rising to our entire ethnic group?"

"It just so happens that I know it too, let me talk about it."

Gao Gao glanced at Nan Menshang and smiled at Su Lang.

Nanmenshang understood, and closed his mouth with a smile. Although both are Wu Zun, Gao Shan Toru is one of the main city guard leaders, and his identity is a little higher than him.

"Good, good."

Su Lang looked at Gaoshan Che enthusiastically.

"In fact, this opportunity is a broken continent."

Gao Shan said with a smile, "As everyone knows, outside of our Canglan Continent, there are many broken continents, also known as continental fragments.

The Broken Continent, as its name suggests, was formed by the fragmentation of a vast world like our Canglan Continent.

They are in the void outside the continent, and the area is many times smaller than the Canglan Continent.

Of course, no matter how small it is, it is larger than the territory of our Fengling tribe, and the resources on it are very rich.

In addition, our Canglan Continent is formed by 3,600 rules to protect the Canglan Continent and maintain the operation of the world.

The Broken Continent has only partially broken rules, far from enough to form a great road.

But it is precisely because of the few rules and lack of checks and balances that the rules of each continent fragment are very active.

The chance of our Fengling Clan was that a time and space crack appeared in the territory, which could lead to a broken continent.

The incomplete rules on this broken continent are very suitable for our Fengling tribe, and have unimaginable benefits for us.

But there are some intelligent beings on that broken continent, human race!

But they are not strong, and now we are planning to invade and occupy that continent fragment.

When the time comes, the territory of our Fengling clan will be equivalent to an instantaneous expansion by many times.

The above rules and resources are enough to make us infinitely useful!

Even the quasi-sage adults of our Fengling clan hope to understand the first rule on that continent fragment and break into the realm of martial sage!

Youtian Taoist Fellow has a high level of cultivation, and if he can go to the mainland fragment to practice, he will definitely be able to break through to the Martial God earlier.

If you are interested, you can follow me back to the main city, and I will help you get the qualification to go to the Broken Continent. "

Gaoshan spoke slowly, Su Lang listened carefully, nodding from time to time.

Nanmenshang on the side flashed his eyes, and said in his heart: "Dao Gaoshan still can't believe in Daoyou Youtian, what he said is three points true, seven points false.

That world... is far from comparable to mainland debris! ! "

[Chapter 410: Inquire about news](#)

About continental debris.

Above the Canglan Continent, any race with a little bit of strength knew it.

The fact that the creatures of the Canglan Continent discovered and occupied mainland fragments was not without precedent, but rather many.

Almost every race that occupies the mainland fragments will usher in explosive growth.

As for the Blue Star, it is actually not a mainland fragment, but a more advanced existence that even Emperor Wu would covet!

The matter was of great importance. Su Lang was originally unidentified. Although he did not show malice, Gaoshan Che still did not dare to leak secrets on such important matters.

However, the existence of the Blue Star is indeed similar to continental debris on the surface.

Therefore, Gaoshan Che simply used the mainland fragments to deceive Su Lang, half true.

Even though Su Lang's identity was really not a problem, he participated in the war and discovered the true secret of Blue Star.

Toru Takayama can also use the grounds of 'I am humble and I am not qualified to know the truth'.

Or, he simply apologized, and it didn't matter.

After all, he is doing this now, and it is understandable in anyone's eyes.

Even in the eyes of Nanmenshang next to him.

At this time, Gaoshan Che finished talking about the Fengling Clan's 'chance', Su Lang fell silent and fell into thought.

"Mainland fragments? Time and space cracks? Human race?"

"Tsao Takayama must be talking about the Blue Star. Could the Blue Star be a continental fragment?"

"If you think about it, it's really possible. The Blue Star itself has martial arts inheritance and is very close to the Canglan Continent. Maybe it was formed after the rest of the continent was broken."

"However, there are still many doubts, and looking at Nanmenshang's expression, Takayama Toru can't believe everything."

Su Lang silently analyzed, leaving a thought in secret.

"Friend Youtian?"

Seeing Su Lang in a trance, Nanmen couldn't help but remind him.

"It turns out to be mainland fragments!"

"That is really a great opportunity for our Fengling Race!"

Su Lang returned to his senses, showing a stunned look, pretending to have a better understanding of mainland fragments.

In fact, he didn't know what continental fragments.

But Takayama Tetsu said that he was 'well known', so if Su Lang didn't pretend to be clear, wouldn't he be exposed.

"I wonder if Fellow You Tian is interested in this continent fragment?"

Takayama asked with a smile, "It's not long before we will launch a general attack. If we miss this opportunity, the benefits we get will be greatly reduced."

In the eyes of the Fengling Race, the defeat of the Human Race is doomed, and this time is very short.

The Fengling tribe is confident that one attack will wipe out the human race.

The fighting time was short, and the personnel who participated in the fighting later naturally didn't even have much soup.

But Gao Shan Che's words fell in Su Lang's ears, and he immediately moved in his heart.

Su Lang originally thought that the Wind Spirit Clan would not launch a general attack in a short time, he still had time to improve himself, and then slowly take care of the Wind Spirit Clan.

Unexpectedly, it didn't take long for the Wind Spirit Race to launch an invading human race's general offensive!

"This news is too important. We must find an opportunity to send it to Master Lu Bai."

Su Lang thought to himself and smiled on the surface: "Of course there is interest! I just don't know the strength of the human race, the situation of both sides, and the specific total attack time."

The opportunity is rare, so of course Su Lang would like to inquire more about the news.

"The specific total attack time, I don't know."

"This time is decided by the quasi-sage personally, but it's only recently."

"As for the strength of the human race, the situation on both sides? Haha, the human race is inferior to our Fengling race. They only have one warrior, and they are still held by us."

"And our Fengling Clan, there are two Valkyrie who can descend on mainland debris!"

"In addition, there are a large number of Wu Wang Wu Huang Wu Zun strong, human race in front of us, it is like a man's arm."

Takayama laughed loudly, showing his disdain for Human Race.

"Huh? Will only two Valkyrie descend on the mainland fragments?"

Su Lang asked a little strangely, "In addition to Lord Quasi-sage, our Fengling Clan also has six great Valkyrie, are they not going?"

While waiting for Wuma Tao and Gao Shan Che to come over, Su Lang, in Nanmenshang's conversation, had found out the amount of battle power of the Wind Spirit Race.

At this time, I heard that only two Valkyrie would come to Blue Star, and I was suddenly surprised.
