[Chapter 411: News from Ji Ruxue](#)

"It's not that you don't go, but that there are other important things."

Nanmen Shang opened the mouth and said, "We Fengling Clan's war god, two people descended on the mainland debris, the two maintained the cracks in time and space, and one had important actions."

Su Lang raised his brows and smiled and asked, "There are only five people, and one more?"

"There is one more person."

Nanmenshang's voice was low, "Do you know that fellow Taoist Youtian knows that the **** of war Tu Qinzheng?"

"I know this!"

Su Lang nodded in his heart and said, "Even, I have seen the Qinghui Baojing and Hanxiang Cangyu Profound Code of Martial God Tu Qinzheng."

Su Lang had seen Tu Qinzheng's attribute panel before and knew that he mastered these two god-level techniques.

"Oh? Youtian Daoist actually knows Martial God Tu Qinzheng so thoroughly?"

Takayama Teru's expression moved, and he was convinced of Su Lang's identity.

"It's not too detailed."

Su Lang pretended to be casual and asked, "I don't know what happened to the Valkyrie Tu Qinzheng, why didn't he participate in such important events?"

"Friend Youtian also knows that there are intelligent beings named Human Race on that continent."

Nanmenshang said, "In the beginning, the space-time cracks were very narrow, and the strong had huge energy and couldn't pass.

We can only send weak warriors and fierce beasts to invade.

At that time, Tu Qinzheng had not broken through the Martial God, and was still in the realm of the Quasi Martial God.

After spending a huge price, our Wind Spirit Clan opened up a temporary passage to allow him to descend on that continent fragment.

Originally, we had great expectations for that battle, but we didn't expect that Human Race also had a quasi-god level.

Therefore, in that battle, Tu Qinzheng did not cause much loss to the human race, and later had to return to Canglan Continent before the temporary passage disappeared.

But before Tu Qin left, he was entangled with a human woman.

Not long ago, Tu Qinzheng, who broke through to the **** of war, once again descended on the mainland fragments, bringing back two human races and his daughter, a hybrid of the wind spirit race and the human race, Tu Qin was like snow. "

"Tu Qin Ruxue? That is, Ji Ruxue, has she changed to Tu Qin's surname?"

Su Lang thought to himself, "Yes, for Ruxue, the surname Ji represents painful memories..."

At this time, Nanmenshang continued: "Originally, the sons of Martial God Tu Qinzheng were rare. Even if the offspring were mixed with the human race, the rest would not say much.

However, Tu Qinzheng insisted on keeping the human race and absorbing the blood of the human race into the Fengling race, saying that this would give birth to more geniuses.

The Human Race is indeed a race with endless potential. They have had their own Valkyrie in just two thousand years, and their geniuses continue one after another, appearing far more frequently than our Fengling Race.

However, the quasi-sage master and the other Valkyrie never thought of keeping the human race, let alone changing the bloodline of the Fengling race through the human race.

Because... the quasi-sage master and the other war gods believe that the reason why the human race has a higher frequency of genius is because of that... continent fragment.

As long as our Fengling clan lives there for a long time, the frequency of geniuses will increase.

In addition, our Fengling tribe pays attention to purity of blood, and mixed blood is really difficult to be accepted by the public. "

Su Lang pondered: "So, because of the different concepts, Tu Qinzheng had a conflict with the other Valkyrie, so he just quit the burden?"

"It's not just a burden!"

Gao Shan shook his head, and then said, "Tu Qinzheng is stubborn and insists on keeping the human race. If the other war gods refuse to allow him, they have to put him under house arrest, which finally triggered a big battle.

Tu Qin was seriously injured, and finally took his daughter Tu Qin Ruxue and others to escape from the territory of the Fengling tribe, without a trace. "

"Nowhere!?"

Su Lang's mouth twitched, and ten thousand grass and mud horses ran wildly in his heart.

He finally found the Canglan Continent, the Fengling Clan, and finally met someone who could inquire about Ji Ruxue.

But I found that the person was gone again...

Nan Menshang nodded and said, "I really don't know where I am!"

"Then, Master Quasi-sage didn't find him?"

Su Lang frowned, "Tu Qin is also the Valkyrie of our race anyway!"

"I've found it. The other five warlords have been there, and there is no news."

Takayama Toru said, "As for the sage quasi-sage, he sits in the main city and can't get away."

"How can you not get out of it?"

Su Lang was surprised, "What is going on?"

[Chapter 412: The courage to burst the table Yan star!](#)

"Because Terran Martial God Yan is a star!"

Nanmenshang replied, "The only Martial God Yanxing of the Human Race has obtained a precious inheritance of martial arts in Canglan Continent. Not only is it powerful in combat, but also good at disguising.

Yanxingxing has always been hidden in the main city. Once he takes action, if our Fengling Clan can't kill him in seconds, then our main city will be destroyed.

Therefore, the quasi-sage master has never left the main city, otherwise he would have gone to the mainland fragment and wiped out all the races with a slap. "

Su Lang was shocked by these words.

Unexpectedly, Yan Hingxing dared to run to the hinterland of the Fengling Clan to pin down a quasi-sage. This courage, this courage, is simply a blow!

Moreover, Fu Yuan is also very strong, and he can actually obtain a precious Martial Saint-class inheritance in Canglan Continent.

From Nanmenshang's words, it can be heard that, except for the quasi-sage, the other Valkyrie of the Wind Spirit cannot kill Yanxingxing in a second.

"This Yanxing star is amazing!"

Su Lang exclaimed, "I'm alone, dare to sneak into the main city and be a sharp knife that points to the vitals of our Wind Spirit Race!"

"I also admire this Yanxingxing Martial God very much."

Gao Shan nodded and said, "Unfortunately, even if he restrains our quasi-sage, he can't stop the iron hoof of the Wind Spirit Race, and the Human Race will be destroyed!"

"By the way, the war will start, isn't Yanxingxing good at disguising?"

Su Lang suddenly asked, "He can hide well under the eyes of Lord Quasi-Sage, is it possible to sneak into the army and cause great damage?"

"no way!"

"Yan Hingxing has shown his feet. At that time, Master Zhunsheng immediately opened all the defense formations in the main city to prevent Yan Hingxing from leaving the main city to do things elsewhere."

"Now Yanxingxing is holding our quasi-sage master, but he himself has become a turtle in the urn.

"As long as we occupy the mainland debris, there are ways to slowly concoct him."

Gao Shan said with a smile, "Human race has no ability to resist, just like a soft persimmon, it bursts with a pinch! You Tian Dao Fellow, don't miss this good opportunity!"

Is it a soft persimmon?

Well, it is really soft now.

Su Lang is self-aware. Even though he has the trump card of swallowing clones, even if he swallows 12 clones, he can't fight against a quasi-sage.

Unless, upgrade the Youtian Sword to the highest level of the artifact.

In that way, when using the Devouring clone, with the characteristics of the Youtian Sword, Su Lang has the ability to kill the quasi-sage of the Wind Spirit Race.

But now the Youtian Sword is still a venerable tool, and even the upgrade of the primary artifact is still two materials!

But now, the Wind Spirit Race will soon launch a general attack.

Takayama Toru repeatedly urged, Su Lang could feel that this 'fast' was really fast.

"what can we do about it?"

Su Lang's heart sank, and he smiled on the surface, "Since Gaoshan Toru Daoist is kindly invited, then I am disrespectful."

Promise Takayama Toru, Su Lang was well thought out.

Although he knows that once he chooses to join the war, he must be tested for his identity.

When the time comes, his superficial disguise will be impossible to hide.

But thinking about it from another angle, I promised Takayama Toru that Su Lang is likely to get a lot of useful information before his identity is found!

"Haha, that's great!"

Takayama Toru was completely relieved of Su Lang at this time. After all, people dared to go to the lair with you. There is absolutely no problem with their identity, otherwise, wouldn't it be death?

"Friend Toru Takayama!"

Nanmenshang suddenly said, "How about adding me?"

"Oh?"

Gao Shan said in amazement, "Don't the Nanmen Taoists want to sit in Qingfeng City?"

"I was really worried about Qingfeng City before and didn't dare to go to the battlefield."

Nanmenshang smiled at Su Lang slightly, "But now, Fellow Youtian helped me make up for the formation. I am afraid that ten martial masters will come and it will be difficult to break the barriers! What am I worried about?"

"That's true!"

Gao Shan nodded, "Since the Nanmen Daoists are coming, of course I welcome the most. When we work together, we will definitely be able to win more territory!"

In the eyes of Fengling Clan, Blue Star is a lamb to be slaughtered.

Many wind spirit clan warriors have been secretly competing for the land they are about to obtain.

So Toru Takayama welcomes Nanmenshang to join.

[Chapter 413: Make big money playing double reeds](#)

"Then I will arrange it first."

Nanmenshang said, "I have a big stall here, but I can't just leave."

"it is good."

Gao Shan nodded and said, "Then Daoist You Tian and I will wait for Daoist Wu Ma Tao here."

"Abandoned!"

Nan Men Shang got up and saluted, and left quickly.

When Nanmenshang left the mouth, Gao Shan looked at Su Lang with a big smile on his face.

"Friend Gaoshan has something to say straight."

The corners of Su Lang's mouth twitched, "It makes my hair stand up."

"Aha!"

Gao Shan showed a touch of apology, "I just wanted to ask, can you sell the Taiyi Tianxin Pill of Daoist Youtian?"

As a senior martial artist, Toru Takayama's cultivation has been difficult to advance.

The biggest limiting factor is that his mental strength can't keep up.

Therefore, he has always been thinking about Su Lang's Taiyi Tianxin Pill!

"This... really doesn't hide it."

Su Lang said hesitantly, "This Taiyi Tianxin Pill is also very precious to me."

Hesitated on the surface, but Su Lang was already thinking about how to raise the price.

He needs spirit stones now, and he wants to improve his combat power as soon as possible!

And the only way is to raise the level of cultivation and cultivation technique!

This requires a more advanced one-key practice function and one-key martial arts function!

"Hey, fellow Youtian, can't I increase the price?"

Takayama Toru said eagerly, "How about a 30% premium?"

"This, it's not a question of price, I can't bear it."

Su Lang smiled secretly in his heart, frowned on the surface, and flickered, "However, Daoist Toru Takayama wants Taiyi Tianxin Pill, I can help you ask.

I bought these medicines from an alien alchemist when I was traveling abroad.

That alchemist is very good at alchemy. Not only can you buy it with spirit stones, you can also exchange alchemy materials for pills.

Only the ratio of exchange is two to one, two alchemy materials, in exchange for a perfect quality Taiyi Tianxin Pill.

In addition, if there are treasures they specify, they can also exchange for the medicine.

Sometimes, one kind of treasure can be exchanged for a lot of medicines. These four medicines of mine are exchanged for a kind of precious materials for refining equipment. "

"Not only can you buy it, but you can also trade with materials? That's great!"

A figure rushed in from outside, who was actually Nanmen Shang who had gone back and forth.

In fact, he really planned to arrange things, but before he walked far, he heard Gaoshan Toru inquiring about Taiyi Tianxin Pill, he couldn't help but stop listening.

At this time, I heard that I could buy Taiyi Tianxin Pill, and I jumped out excitedly.

"Ahem, fellow Taoist Nanmen!"

Takayama coughed lightly and said, "This is what I asked. First come first, first come first!"

"Father Gaoshan..."

Nan Men Shang was bitter, and knew he would not leave just now.

"Uh, you two don't have to worry."

Su Lang smiled, "Maybe that alchemist has many Taiyi Heavenly Heart Pills!"

As soon as these words were made, Nanmenshang and Gaoshan were surprised.

"Also ask Youtian Fellow Daoist to help us ask!"

Nanmenshang said excitedly, "Please!"

"Thank You Tian Daoist!"

Takayama Che stood up and saluted Su Lang.

"Everyone is a friend, just do it!"

Su Lang nodded, then took out the jade card of transmission, and pretended to send the message.

The other side.

In the city of Silver Horn, Su Lang's clone took out a jade card for communication and replied with a word: OK.

"Look, the alchemist agreed!"

Su Lang showed Nanmenshang and Gaoshan the jade card of communication.

"Great, great!"

"Friend You Tian, please help me ask how many Taiyi Tianxin Pills are there."

Nanmenshang and Gaoshan were so excited that they almost laughed when they saw Su Lang.

"Don't worry, let me ask!"

Su Lang and Clone sang a double reed again, saying, "There are four spirit stones you can buy. If you want more, you can only exchange it with alchemy materials."

The four that can be sold are actually the four that Su Lang holds!

After this operation, you will definitely earn more than selling directly!

[Chapter 414: Today is a profit](#)

"Four!"

Takayama Toru said, "Then I and Taoist Nanmen will have two of them first!"

"That's great!"

"By the way, I have a lot of alchemy materials stored here. I don't know if the alchemist master needs it?"

Nan Men Shang was full of excitement, took out the space ring and shook it on the ground, suddenly a large amount of materials appeared.

These materials are at least imperial rank, and most of them are noble rank, which shows that this city lord has accumulated a lot of good things.

"I also have a lot of materials here!"

Takayama did not show any weakness, and took out the materials he had collected.

"Let me see what materials are available, and then ask for you."

Su Lang nodded, then checked the types of materials and pretended to sing the double reed.

Finally, he flicked: "Of these materials, two materials can be combined to refine the Taiyi Tianxin Pill, and the remaining materials can only be used to refine other pill."

However, they are also some medicines that are of great benefit to noble martial artists, such as the Sun Jade Pill..."

"Okay, okay! We will all change!"

Toru Takayama and Nanmenshang did not even think about it, so they exchanged materials for the medicine.

"Well then, I will set up a teleportation array first."

Su Lang was happy in his heart and set up a small teleportation array

—This thing is a noble formation, he just can arrange it.

After doing all this, Su Lang put the spirit stones and materials of Nanmenshang and Gaoshan Che into the teleportation formation. After some manipulation, the spirit stones and materials disappeared.

Immediately, in the expectant eyes of Takayama Toru and Nanmenshang, the teleportation array emitted a burst of light.

After the light disappeared, a large number of pills were revealed, including Taiyi Tianxin Pill.

"The perfect quality Taiyi Tianxin Dan!"

Nanmenshang carefully picked up the pill and held it in the palm of his hand as Zhenruo.

"The rest of the pills are also of perfect quality!"

Takayama Toru picked up one of the pills, his face raised in horror, "How terrifying is this alchemist's alchemy skills?"

"I do not know either."

Su Lang shook his head, "It's unfathomable anyway."

"Youtian fellow."

At this time, Nanmenshang asked, "I still have a lot of spirit stones. I don't know what other medicines that the alchemist can buy with spirit stones?"

"exactly!"

Takayama Toru also nodded hurriedly, "I also have a lot of spirit stones here, please help from Youtian Daoist!"

"Then I'm asking!"

Su Lang picked up the jade card of transmission, and he was so happy that he almost laughed out loud.

Immediately after.

After Su Lang's operation, he sold a large number of pills.

These medicines are all refined with the materials of the warriors of the Silver Horn tribe.

But one ingredient can refine five pieces, and Su Lang has four pieces to sell.

Therefore, the pills in his hand are actually quite abundant!

"Today is a profit!"

"Look at how many spirit stones I earn, can I upgrade the system functions?"

Su Lang was so excited that he wanted to check how many spirit stones he had.

But at this moment.

Nanmenshang offered a space ring with both hands: "I can get these medicines. Daoyou Youtian has done a great job, and you must accept it!"

"Ah? Is this hard work? Then I'm not welcome!"

Su Lang smiled brightly and accepted the space ring.

During the period of spiritual exploration, it was found that there were a million high-grade spirit stones inside.

Takayama Toru also gifted Su Lang an extra space ring, which also contained one million high-grade spirit stones.

Immediately, the two will divide the pill.

At this moment, there was a rush of footsteps outside, and Su Lang and the three of them asked questions and saw Wuma Tao walking in with a complicated expression.

"I have already lost the formation..."

Wuma Tao's voice was low, but only halfway through, then stopped.

He stared blankly at the piles of pills in the teleportation array, and his eyes were about to fall out!

"This! This is!?"

He was shocked, turned his stiff neck, and looked at Nanmenshang and Takayama Toru.

"This was bought from a friend of Friends Youtian."

Nanmenshang smiled, "Not only there are Taiyi Tianxin Pills, but there are also many valuable cherished pill, all of which are of perfect quality!"

"Gooooo!"

Wuma Tao looked at the pills and couldn't help swallowing a mouthful of saliva.

[Chapter 415: Dead fish](#)

He really wants those pills!

However, this was refined by Youtian's friend, and he Wuma Tao just offended Youtian...

A sharp sense of regret rose in Wuma Tao's heart.

If he didn't offend Youtian, then he could also ask Youtian for help and get those precious pills!

Unfortunately, there is no regret medicine in the world!

"Friend Wuma Tao, have you made up for your formation?"

Su Lang smiled, "Why don't we go take a look, lest there be any flaws again."

As soon as this remark came out, Wuma Tao's face went dark.

He was still struggling, and wanted to pull his face down and begged Su Lang.

But at this moment...

"Humph!"

"If you want to see, just go and see, goodbye!"

Wuma Tao gave a cold snort, then turned and left with an unhappy expression.

"Tsk tsk, this blow can't stand it."

Su Lang curled his lips, "The heart is not good enough. No wonder the array is riddled with holes."

Nanmenshang and Gaoshan looked at each other, showing helpless smiles.

Soon after, the two divided the pill.

Came out of the small hall with Su Lang and checked the formation.

"Very well, Wuma Tao is still acquainted, and he didn't leave any successors."

After checking the formation, Su Lang smiled faintly at Nanmen Shang, "South Gate City Lord, from now on, this formation can only be mastered by the formation key, you should keep it safe."

"That's good! That's good!"

Nanmenshang breathed a sigh of relief. The city guard formation was faked by the hands. This was a thorn in his throat, which made him extremely uncomfortable but helpless.

At this time the thorn disappeared, and his whole body was relaxed a lot.

"Friend Nanmen Shang, please go and arrange the following things."

Takayama Toru reminded, "There is not much time, we are going to set off!"

"it is good!"

Nan Menshang nodded and disappeared in place.

"Fellow Gaoshan Taoist."

Su Lang said, "I want to ask you something."

Takayama Cheer smiled and replied: "Oh? Fellow Daoist Youtian, just ask, I know everything is endless."

"I need two kinds of god-level materials, the ghost bones of heaven and earth, and the broken soul ink cream."

Su Lang smiled and said, "Senior Daoist is in a high position in the main city. He must be well informed. I don't know where I can get these two things."

"God-level material heaven and earth ghost bones, soul broken ink cream?"

"This...I am not good at refining alchemy and refining arrays, and I don't even know the length of these two materials!"

Gao Shan gave a wry smile, "However, there is the largest material supplier of the Wind Spirit in the main city, maybe they will.

We will go back to the main city later, and I will take Youtian Daoist to have a look. "

"Should you go directly to the main city? Good too!"

Su Lang nodded, but his heart was a little tangled.

If you go to the main city now, you will most likely find your true identity.

But if you don't go, I'm afraid it will directly cause Takayama Toru's suspicion.

Do you want to kill Takayama directly?

Then, just like before with Ye's family, he went around attacking the city, fighting to raise the battle?

The feasibility is great!

Although the territory of the Wind Spirit Race is too broad.

Even though Su Lang had arranged for the treasure hunt flying flying glider to open up the dispatchable range, in a short time, there were still too few maps that could be dispatched.

This allows him to have a very small range of activities, and once he appears, he is easily surrounded.

but.

The difference from Bluestar is that there is a teleportation array here!

If it is through the teleportation array, set foot in every city.

Then use the swallowing clone and the clone to dispatch, and the clone to replace the city by city to kill it, and it will surely kill the wind spirit clan.

Maybe it can form a second restraint besides Yan star!

"It's a way, but it's a way to die."

"If I kill the Wind Spirit Clan for fear, then forget it, in case they and I just ended up..."

"In a short period of time, I used the Devouring clone. The strongest was only at the Martial God level. It could not pose a threat to the main city of the Wind Spirit tribe, but the Wind Spirit tribe could destroy the entire Blue Star Human tribe."

"This trick still cannot cause fatal damage to the Wind Spirit Race. Once used, it can be called life for injury, blood loss!"

"In this way... it can only be used as a backhand and used at the last moment."

A hint of cold light flashed in Su Lang's slightly squinted eyes, "There is also the Silver Horn tribe, which can start a war between the Silver Horn tribe and the Wind Spirit tribe and reduce the pressure on the human race.

However, the Silver Horn tribe can't rush in, it's also a tiger and wolf that should not be underestimated."

[Chapter 416: The main city of the Wind Spirit!](#)

Thinking of this, Su Lang cleared his mind.

First go to the main city of the Fengling clan to take a stroll and maximize your combat power in a short time.

Others, adapt to circumstances!

Therefore, Su Lang first turned the ten clones that were hunting into the appearance of the Wind Spirit Race.

Then they were dispatched to some inaccessible lanes of Qingfeng City.

Immediately afterwards, the avatars dispersed one by one, merged into the crowd, and immediately left Qingfeng City through the teleportation array to go to the various Fengling Clan cities.

When the clone arrived in the new city, it continued to take the teleportation array to the next city.

Ten avatars can take action, and they can set foot in ten cities in ten seconds. In less than half an hour, they can go to all of the more than 1,200 Fengling Clan cities!

And while the clone was secretly expanding the dispatch map, Su Lang and Gao Shan Che were chatting, while checking their own harvest this time.

From Wuma Tao, Su Lang won 13 million high-grade spirit stones and many materials.

Nanmenshang and Gaoshan Toru alone bought more than 30 million high-grade spirit stones, totaling more than 66 million.

In addition to Lingshi, Su Lang also obtained many precious materials.

"One is the lord of a city, and the other is the main city guard leader. Both are local tyrants."

"It's a pity that I still don't have enough high-ranking pills, otherwise I should still earn a lot of spirit stones."

Su Lang licked his lips and immediately ordered all the spirit stones to be stored in the system.

"Ding! All the Lingshi gold coins have been deposited!"

With the notification of the system, the balance of the original high-grade spirit stone of more than 50 million directly rose to more than 134 million!

"Which system should be upgraded with better functions?" Su Lang was a little entangled.

If you upgrade the one-key practice, the current promotion time for the small realm will be shortened to less than 5 hours.

Counting the increase in the promotion time of the small realms, by then, it will be able to promote about three small realms in one day.

If you upgrade one-click martial arts, the time it takes for the Wang-level exercises to reach the Consummation level will be shortened to one and a half days.

The three king-level exercises that are currently being practiced can reach the Consummation level in just one day after counting the previous progress.

At that time, the combat power brought by the three king-level exercises will also be very impressive.

"Well, it's almost the same after all..."

"If this is the case, let's improve the one-key practice first."

After some thinking, Su Lang chose the most basic and most important one-key practice function.

"System, upgrade me the one-key practice function!"

"Ding! The amount of funds consumed to upgrade the system is too large. At present, the unit's 'high-grade spiritual stone' has been replaced by the 'superior spiritual stone.'"

"Ding! Consume 1 million superb spiritual stones, the one-key training function is upgraded to level 13, and the training speed is increased to 21,824 times the basic speed!"

"It's more than 20,000 times. One day of cultivation is equivalent to 60 years of cultivation for others!"

Su Lang took a deep breath and asked, "System, how long will it take for me to break through to the peak martial arts realm?"

"Ding! Master, it will take you about four hours to break through to the top martial arts commander."

"Four hours, really abnormal speed!" Su Lang exclaimed in his heart.

And at this moment.

Nanmenshang flew up from below: "Two fellow Taoists, I have arranged Qingfeng City, let's set off now!"

"it is good!"

Su Lang and Gaoshan Che nodded at the same time.

Immediately afterwards, the three of them went to the teleportation formation together and disappeared in Qingfeng City.

The main city of Fengling tribe.

At this moment, a teleportation array was shining brightly, and the figures of Su Lang's trio appeared.

As soon as he appeared, Su Lang was extremely alert.

If there are strong people around who can see his identity, he will instantly replace him with a clone and escape.

Fortunately, he did not feel anyone spying on himself.

Slightly relieved, Su Lang began to look at the surrounding environment.

This is a hall that is transparent in all directions, and hundreds of teleportation formations have been built in the hall.

There are not many Fengling Clan warriors in the hall, and they are all teleported from outside.

Su Lang didn't see a single person teleporting from the main city.

"The main city is not allowed to enter and not to leave."

"This is all to prevent the human war **** from escaping."

Gao Shantou looked at Su Lang and said with a smile, "Of course, this is not absolute. As long as the quasi-sage master approves, you can still go out, such as me."

[Chapter 417: Nine days Chamber of Commerce, Lan Zheng](#)

"That's it."

Su Lang nodded indifferently, and immediately looked outside.

Standing in the main hall, you can overlook a small area of the main city with a very broad view.

This is the largest city of the Fengling tribe, and it is boundless at a glance.

A huge palace is located in the center of the city, which looks like a giant mountain from a distance.

Nanmenshang's city lord's mansion is already very extraordinary, but compared with this palace, the gap is like a small country house and a city mansion.

Surrounding the giant palace, there are rows of exquisite buildings built around, each of which is very beautiful.

The streets are crowded with people and the shops are in full swing, which is a scene of prosperity.

"It's really prosperous!"

Su Lang looked at this Wind Spirit Clan's main city and couldn't help but admire it.

"Of course."

Gao Shan looked into the distance, with a trace of pride on his face, "The Wind Spirits are changing with each passing day, and they will surely become a saint!"

In the Canglan Continent, those with Martial Saints are called Saint Clan, those with Martial Immortals are called Xian Clan, and those with Martial Emperor are Emperor Clan!

Becoming a saint race, among the tens of thousands of intelligent races on the Canglan Continent, it became a middle-to-upper-level race, capable of dominating one side.

"That is inevitable!"

Su Lang laughed, and then said, "Friend Gaoshan Taoist, you said before that there is the largest material supplier of the Fengling Clan, can you take me to see it?"

"Don't go to meet the Valkyrie first?" Takayama Toru asked.

Meet the Valkyrie!

Su Lang's heart burst, his current disguise can't stand the inspection of the Valkyrie!

If he really wanted to meet the Valkyrie first, Su Lang would have to run away!

"Friend Youtian is so anxious, it seems that what you want must be very important."

Nanmen Shang smiled and said, "In that case, let's go and see if there are any treasures you need, and then go to meet the Valkyrie!"

"it is good!"

Takayama nodded thoroughly, "Anyway, it's not in a rush."

"Then trouble fellow Daoshan Gaoshan."

Su Lang smiled slightly and said in his heart: Nanmenshang, you are such a good city lord!

Next, under the leadership of Takayama Toru, the three left the hall and went straight to the street.

The warriors who were originally said to have to go through some inspections.

But Toru Takayama is the leader of the main city guard, and the warriors who are in charge of the inspection are all his subordinates. They are so familiar with them, so they haven't checked.

Su Lang also saved a lot of trouble.

The three of them were fast, and soon came outside a 100-meter-high building.

The building is very exquisite, but there is no lack of magnificent luxury, it looks like a huge treasure!

Yes, this building feels like it is a treasure...

"Looks great!"

Gao Shan pointed to the building, haha, "This is the largest material seller of the Fengling Clan, the headquarters of the Nine Heavens Chamber of Commerce, and the things Youtian Daoist Fellow want, there is very likely to be here."

"It just so happens that I also want to purchase some pill materials, please help from Youtian Daoist!"

Nan Menshang's eyes lit up and looked at Su Lang expectantly.

As soon as this remark came out, Gao Shan Che also appeared in a daze, and looked at Su Lang with scorching eyes.

"Haha, as long as the rules are met, my friend will always come!"

Su Lang smiled, "I believe, he is happy to earn a fortune!"

In fact, the ideas of Nanmenshang and Gaoshan Toru were in Su Lang's arms.

Anyway, the two of them bought the materials and asked Su Lang to refine the pill. For every pill refining material, he could earn four spiritual stones for nothing!

This is simply picking up money!

"In that case, it should not be too late, let's go in!"

Takayama said excitedly, "I have already contacted one of the executives of the Chamber of Commerce, Lan Zheng. I have some friendship with him, so I must be able to offer some discounts!"

"We are going to be in the light of fellow Daoist Gaoshan!" Nan Men Shang also smiled.

Soon, the three walked into the headquarters of the Jiutian Chamber of Commerce.

Just a few steps after entering, a Fengling Clan Wuzun greeted him.

This person is wearing a white robe, with a scar on the corner of his left eye, which is covered by a blue tattoo, which looks a strange temperament.

The surrounding staff of the Nine-day Chamber of Commerce looked at him with awe.

Obviously, he is one of the heads of the Nine Heavens Chamber of Commerce, Lan Zheng!

[Chapter 418: Encounter Yanxingxing!](#)

"Haha! Fellow Gaoshan Taoist, why do you think of me walking around here!?"

Lan Zheng greeted him and greeted Gaoshan Toru first. In the tone he spoke with Gaoshan Toru, he was indeed familiar.

"Friend Lan Zheng, I have introduced you to the business, and I have to buy a lot myself!"

Takayama Toru smiled casually, then pointed to Nanmen Shang next to him and introduced: "This is the City Lord of Blue Wind City, fellow Nanmen Shang Daoist!"

"Friend Lan Zheng, admire for a long time!"

Nanmen Shang made a polite salute.

"Friend Nanmen, don't be so polite!"

Lan Zheng laughed, and then responded thoughtfully.

At this time, Gao Shan pointed to Su Lang and introduced, "Father Lan Zheng, this is Dao Master of Formation who has traveled to many different races, Fellow Youtian!

Fellow Youtian's formation skills are even more powerful than Wuma Taodu, and it is close to the only formation **** of our Fengling clan! "

As soon as he said this, Lan Zheng suddenly appeared in horror, and quickly turned his head to look at Su Lang.

However, when he saw Su Lang carefully, his body suddenly trembled.

Immediately afterwards, a strange color flashed in his eyes, and a smile appeared: "Friend Youtian, now you are the first master of the Wind Spirit Race Formation God, fortunately to meet you!"

"Where is it, Daoist Lan Zheng is too Qian."

Su Lang said modestly, but he muttered in his heart, "This person is a bit strange, look at the truth..."

Thinking of this, Su Lang opened Lan Zheng's property panel.

Then he glanced, and a stormy sea rose in his heart.

"Properties panel!"

[Name]: Yanxingxing

Yan star! !

This Fengling Clan Wuzun Lan Zheng, turned out to be the only Valkyrie Yanxing Xingxing of the Human Race!

"Lying down! No wonder he shows a different color to me!"

"With the combat power of his senior Valkyrie, he must have seen through my disguise!"

Su Lang was shocked and pleasantly surprised, but of course he didn't show any expression on the surface, and he looked faint.

"Haha, three of you don't stand, come, sit inside!"

Lan Zheng, Yanxingxing, stretched out his hand to invite the three of Su Lang to walk inside.

The guests came to a small luxurious hall.

Along the way, Yanxingxing kept observing Su Lang.

Although he saw Su Lang's human identity, he did not relax his vigilance.

The main reason is that Su Lang is a spy and an undercover agent. After all, it is incredible that a martial master can come to the main city of the Fengling clan.

Moreover, the human race can only come out from the Tatian stronghold. If those Wu Zuns in the Tatian stronghold send a Wu Zun over, they will definitely contact them in advance.

However, no one contacted him!

This is suspicious!

But from other perspectives, Su Lang is not like a spy sent by the Fengling Clan.

After all, if his identity is revealed, why doesn't the quasi-sage of the Fengling tribe secretly attack and solve the problems in one fell swoop?

What's more, Su Lang's disguise was not clever, he could see through it at a glance.

If Su Lang is a spy, this is... too unprofessional...

Yan Xingxing was a little confused.

He didn't intend to take the initiative to contact Su Lang, he was ready to observe and talk.

...

The four of them sat down in the small hall, chatted for a while, and entered the topic.

"Friend Lan Zheng!"

"The three of us came here to buy some materials."

"The Nanmen Daoist and I want to buy a large amount of alchemy materials, all of which are high-level."

"Youtian Daoist wants to buy two kinds of god-level materials, Heaven and Earth Ghost Bone and Soul Fragment Ink Cream. Besides, there may be other needs."

On behalf of Nanmenshang and Su Lang, Takayama Toru expressed his intention.

"Alchemy materials, I have almost everything here!"

Yan Hingxing looked at Su Lang in amazement, "And the god-level materials needed by Friends Youtian, our Chamber of Commerce also happens to have."

It's just that our Chamber of Commerce puts these two things in the most advanced secret library, but I am not alone in the control. "

[Chapter 419: Missed ten billion](#)

"really have!!"

Su Lang showed excitement and stood up, "Great, please Daoist Lan Zheng please sell me these two materials!"

"Haha, fellow Youtian, don't worry!"

Yan Hengxing smiled, "Why do our Nine Heavens Chamber of Commerce do business, how can there be any reason not to sell?"

"Then, Daoist Lan Zheng went to discuss with the other persons in charge. I hope I can get two materials tonight!"

Su Lang nodded excitedly, and bit the word 'tonight' hard.

Yan Hengxing felt a little surprised, and smiled on the surface: "Okay, I will not let Youtian Daoist down!

So, let's talk about the purchase of other alchemy materials first. "

"Haha, Fellow Lan Zheng, I want Taiyi Tianxin Pill, Fanhai Tianming Pill... the refining materials!"

"Friend Lan Zheng, I also want the refining materials for Taiyi Tianxin Pill. In addition, there are Tianli Minguang Pill and Yanlin Seven Sacred Pills..."

Gaoshan Toru and Nanmenshang were facing the Yanxing star Barabala, completely unaware that this was the human **** of war.

"They both want the materials for the emperor's emperor's pill, and the amount is so large!"

Yan Xingxing asked Gao Gao in a strange way, "Could it be that you have found a certain super alchemist who can refine so many high-level pills?"

"Uh, this..."

Gao Shan Teru looked at Su Lang's expression, and after receiving Su Lang's signal, he smiled:

"It is a stalwart alchemist who is a sturdy alchemist in a foreign race by Fellow Youtian, we guess it is a senior alchemy!"

"Alien area? Senior Pill God!?"

Yan Hingxing couldn't help but open his mouth wide, looking at Su Lang in amazement, his heart became more and more confused!

A human martial master can not only know the guard and commander of the main city of the Fengling tribe, Gaoshan Toru, but also ran to a foreign land to get to know a senior alchemy!

And listening to the tone of Gaoshan Toru's speech, this senior alchemy **** may be extremely senior, and it may even be a alchemy saint!

What is going on here?

There was a paste in Yan Xingxing's mind.

At this time, Gao Gaotong flaunted: "This pill **** can refine a high-level pill of perfect quality, and he can exchange two alchemy materials for one pill!

In addition, there are some priceless medicinal pills that can be purchased with Lingshi!

However, if you want to contact that Pill God, you have to go through the hands of Youtian Daoist! "

With that said, Gao Shanche blinked at Su Lang, a little flattering.

"That's it!"

Yan Hengxing was a little moved when he heard Gaoshan Toru's words.

Gao Gao's intention was that as long as he gave the Youtian fellow Daoist a little benefit, he could invite a suspected Pill Saint to refine his alchemy!

As long as that Youtian is not black-hearted, it must be a big profit!

You must know that even the elixir of honor can not be refined at hand, the general pill has a great chance of failure.

Only the **** of pill can refine the high-rank pill without fail.

In addition, the elixir of perfect quality is equivalent to multiple pill of ordinary quality.

Two pill materials in exchange for a superior quality pill is simply a huge profit!

And seeing the excitement of Takayama Toru and Nanmenshang, that Youtian must have received very little benefit.

As for how many there are, don't you know if you ask?

Yan Hengxing couldn't help asking: "Friend Youtian, I don't know how much spiritual stone needs to be paid for refining an exalted pill?"

"Haha, it's not calculated by the number of pills."

"Each time you make alchemy, you only need one million high-grade spirit stones, so you can make friends."

Su Lang looked sincere and sincere on the surface, but his heart suddenly hurt.

He felt as if he had missed ten billion!

Yan Xingxing was surprised: "It only needs 1 million high-grade spirit stones to mean it? This is...too little!"

With that, Yan Hingxing glanced at Gaoshan Toru and Nanmenshang, the faces of the latter two were slightly red.

"Haha, Daoist Lan Zheng can also give more." Su Lang laughed.

Yan Hingxing said: "If Youtian Daoist and our Chamber of Commerce cooperate, there will definitely be more than one million at a time."

"Well, let's talk about it in two nights!"

Su Lang nodded, his words suggesting to meet alone at night.

Yan Hengxing heard Su Lang's words, and he was surprised again: "This Youtian hinted at meeting twice at night. Does he know who I am?"

He saw through my disguise? This... how is this possible! ? "

[Chapter 420: I need more](#)

"No! He is just a Wu Zun, it is absolutely impossible to see through my disguise!"

Yan Hengxing thought, and shook his head secretly, "Perhaps, he has other purposes."

"That one!"

At this moment, Gao Shanchi said, "Friend Lan Zheng, when will our materials be ready?"

The war is about to start, and I have to go back and report to the people above and arrange the war. "

As soon as this remark came out, Yan Hingxing's heart sank.

The senior leaders of the Fengling clan have already reported that a war will be launched against the 'Mainland Fragment'.

Anyone with some identities in the main city knows this, and of course Yanxingxing also knows.

Although his identity has not yet been revealed, his situation is very difficult.

Once the war really started, he could only show up and fight to the death, which was almost a deadly situation.

However, Yan Hingxing had amazing courage, and it was not difficult for him to die generously.

"Haha, three of you wait a minute, I'll go now."

Yan Hengxing smiled and stood up, and said to Su Lang, "I wonder if Fellow Youtian needs two kinds of god-level materials?"

"I need more."

Su Lang smiled, "Daoist Lan Zheng might as well prepare the materials of Daoshan Daoist and Nanmen Daoist."

"Also."

Yan Xingxing nodded and left immediately.

In the small hall, only three people Su Lang remained.

"Two fellow Taoists."

Su Lang said to Toru Takayama and Nanmenshang, "The materials I need have very strict quality requirements.

So I need to stay and choose by myself, and later, the two can go to meet the quasi-sage.

After I get the materials, I can contact you again, or you can come to me at night. "

"Ok, no problem."

Takayama Toru and Nanmen nodded without doubt.

At this time their suspicion of Su Lang had basically been eliminated.

The three chatted for a while, and Yan Xingxing went back and forth.

He brought back the alchemy materials needed by Takayama Toru and Nanmenshang.

Takayama Toru and Nanmenshang got the pill materials and couldn't help but look at Su Lang. They couldn't wait to get more perfect quality pill materials.

"Let me first help the two of my fellow Taoists to contact me and replace the materials with medicinal pills."

Su Lang laughed, why didn't he want to accept these materials immediately?

If you exchange two materials for one pill, you can earn nine pill stones!

"That's great!"

"Trouble you Daoist Youtian, here is your hard work!"

Toru Takayama and Nanmenshang immediately handed the materials to Su Lang, and they also paid hard work.

More than last time, each person gave two million high-grade spirit stones, for a total of four million high-grade spirit stones.

Immediately, Nanmenshang and Nanmenshang were extremely excited. In the scorching eyes of Yanxingxing, Su Lang and his avatar sang another double reed, replacing all the materials of Gaoshan Toru and Nanmenshang with pill.

Thus, Su Lang had earned four million high-grade spirit stones and a large amount of high-level pills for no reason.

Especially those high-level pills, the total value is several hundred million high-grade spirit stones!

"Haha, with these pills, my cultivation level will definitely go further!"

"All are the blessings of Daoyou Youtian, Daoyou Youtian is really my noble person!"

After Takayama Toru and Nanmenshang got the medicine, they immediately thanked Su Lang.

Yan Hingxing on the side was stunned!

Seeing the high-level pill that all the materials had turned into perfect quality, he was even more excited!

"The two are so polite!"

Su Lang smiled and said, "With the four million top-grade spirit stones donated by the two, I can also buy some materials and get a lot of pills!

Fellow Daoist Lan Zheng, it should not be too late. I want to select materials right now. I wonder if it is convenient at this time? "

"Of course it's convenient!"

Yan Xingxing nodded and said, "It's not too early at this time. After we have selected the alchemy materials, we can just talk about the god-level materials."

"If this is the case, then I and Daoist Nanmen will leave first."

Toru Takayama and Nanmenshang stood up, "Friend Youtian, Daoist Lan Zheng, goodbye!"

"Goodbye!"

After bidding farewell, Gaoshan Toru and Nanmenshang left, and Su Lang and Yan Hingxing were left in the small hall.
