

One Click 421

[Chapter 421: Don't be so pessimistic!](#)

The two eyes faced each other, and the air was quite quiet.

"Is it convenient to talk here?"

Su Lang asked solemnly.

"Of course it's convenient!"

Yan Xingxing's complexion changed, and then a barrier was placed between his hands, "It's more convenient now!"

"Master Yanxingxing!"

Su Lang showed a smile, bowing his hands.

Zuoyi, this is an ancient etiquette unique to the Blue Star, which has come back with the prosperity of martial arts civilization.

"who are you?"

Yan Hingxing's face was full of disbelief, "You really see through my disguise!?"

His disguise is a saint-level inheritance, even the quasi-martial sage of the Fengling clan can't break it.

No one knows his identity, not even the people in the foothold.

However, Wu Zun, the younger generation in front of him, actually saw through his disguise!

This is really incredible!

"My name is Su Lang, this year's Hall of Fame student."

Su Lang smiled faintly, "I only came to Canglan Continent a few days ago. I originally wanted to get into the main city of the Fengling Clan to inquire about news, but I didn't expect to meet you!

In fact, I can't see through your disguise, only your true strength and race.

In this main city of the Wind Spirit Race, besides Master Yanxingxing, are there other human races? No!

That's why I am sure, you are Master Yanxingxing! "

For Yanxingxing, Su Lang admired it very much, so he used honorifics.

After all, without Yanxingxing, the Blue Star human race would have long since perished.

"hiss!!"

After listening to Su Lang's words, Yan Hengxing couldn't help but breathe a sigh of relief, "What kind of ability is this to see through the race directly?"

"Innate talent."

Su Lang smiled and said, "Master Yanxingxing, the Fengling clan is about to start the general attack, I wonder what plan you have?"

"What's the plan?"

Yan Hingxing calmed down his shock, his expression a bit bitter, "Once the Fengling Clan launches a general attack, I can only do my best!"

"Desperately..."

Su Lang hesitated to ask, "My lord has the combat power of a high-ranking martial god, facing the saint, how long can he resist?"

"I have a broken high-level defensive soldier, which may be able to withstand Huangfu Qin's tricks.

But it was impossible to escape. I could only rely on the defensive soldiers before the battle began, threatening the lives of the residents of the main city of the Fengling tribe, and confronting Huangfuqin.

In fact, this is a stubborn resistance and a dying struggle. I have almost seen my future fate. "

Yan Xingxing said with a dim expression, "Su Lang, you are one of the best geniuses of our human race.

After the start of the war, Blue Star could not be able to defend it. You protect yourself from your stronghold, and hope that there will be a comeback. "

"Master Yanxingxing, you don't have to be so pessimistic!"

The corner of Su Lang's mouth twitched, revealing a touch of confidence, "I have a way to save Blue Star, save Human Race!"

"what!?"

Yan Hengxing raised his head in astonishment and looked at Su Lang incredulously.

This descendant of Human Race actually said that he can save Blue Star and Human Race?

This is a joke, he can only go to death as a warlord, what can Su Lang do?

Yan Hingxing stared at Su Lang, and suddenly a flash of inspiration: "By the way, you have made a foreign master, do you want to ask a foreign master to take action?"

The existence of the suspected Pill Saint will certainly have many Valkyrie to indulge, and if he takes action, it may really relieve our Blue Star's crisis.

However, the temptation of Blue Star is too great, and we can't escape for a while.

Those foreign masters you invited will eventually become the murderers of the Blue Star human race.

However, if we do not invite them to take action, our Blue Star can't even struggle..."

Yan Hengxing finished speaking, then looked at Su Lang with a glimmer of hope.

"That, Master Yanxingxing."

Su Lang's expression was stagnant, and the corners of his mouth twitched, "Actually, the alien pill **** is myself, I can't invite a foreign **** of war to help the human race."

Hearing this, Yan Hingxing's face was instantly dull: "What did you say? You are the pill god? How is it possible? Our human race only has Yun Yemeng as a pill god!"

[Chapter 422: Tell it all!](#)

"Haha, my alchemy talent is better, so I became an alchemy god."

Su Lang briefly explained, "In order to avoid trouble, I used my clone to pretend to be an alien pill god, disguising my alchemy skills..."

"So that's it..."

Yan Xingxing nodded suddenly, and then said bitterly, "You pretended to be the Alien Pill God, that is to say, there is no foreign aid..."

"Yes, no foreign aid!"

Su Lang nodded and said, "However, in addition to alchemy, I am also good at refining instruments and formations, and I am also very good at practicing and practicing exercises!"

Your damaged defensive artifact, as long as the materials are sufficient, I can repair it, and even rise to the top artifact.

In addition, I can see through the formations of the Wind Spirit tribe at a glance. Even the god-level formations can find weaknesses and then use the least strength to defeat them.

In the end, I have an extraordinary savvy and can practice the exercises quickly. You will pass on the Martial Saint inheritance to me, and I will learn it in no time! "

Sulang Balabala said his 'talent'.

However, Yan Hingxing was shocked again and stiffened all over: "Su Lang, aren't you a super evildoer against the sky in all respects!?"

This level of genius, not to mention our human race, even in the Canglan Continent, it is forever! "

"But what I said is true!"

The corner of Su Lang's mouth twitched, "Do you know what I want to do with Heaven and Earth Ghost Bones and Soul Shard Moshuang? I want to refine an artifact!"

"Pill God, Tool God, Formation God!"

Yan Hingxing's eyes widened, "Su Lang, you are really amazing, but these abilities cannot be transformed into combat power in a short time!"

"Yes!"

Su Lang looked serious: "Give me enough materials and I will be able to refine a large number of pills, allowing you to break through to a higher level in a short time!"

And I can refine a lot of artifacts for you, so that you can compete with Huangfuqin!

In addition to other formations, I can find out the weaknesses of the wind spirit clan formations and destroy them!

On the other side of the time and space cracks, if the Wind Spirits want to invade the Blue Star, they will definitely use the formation method to expand the time and space cracks.

As long as I destroy those formations, I can turn the cracks in time and space into a dead end.

All the Wind Spirit Races who are in the cracks of time and space, no matter how high their cultivation level, will tragically die in the turbulence of time and space!

With these methods alone, we can compete with the Wind Spirits!

But in fact, our human race has two war powers, and the other is me! "

"..."

Yan Hingxing was dumbfounded, as if he was in an endless thunder and lightning, trembling and numb all over, even his consciousness seemed to disappear!

"The premise of all this is that you give me enough resources!"

Su Lang took a deep breath, "I need countless spirit stones, countless alchemy materials, the higher the level, the better!"

"The Wind Spirit Race is about to attack!"

Yan Hingxing was fiercely excited, "Su Lang, how long are you talking about?"

"One day!" Su Lang replied.

"one day!!"

"This...how is this enough?"

Yan Hengxing tremblingly said, "It takes more than a day to refine a furnace of God-level pill!"

Su Lang smiled mysteriously: "My inheritance is different. Master Yanxingxing only looks at the results."

As soon as this remark came out, Yan Hengxing thought for a while and nodded: "Everyone has a secret, and the same is true for myself. Since you said it, then I only look at the results, not the process."

Su Lang smiled and said, "For Master Yanxingxing, I am very relieved, and please don't worry about me running away."

"Haha, I can rest assured!"

Yan Hingxing nodded his head, "I will give you part of what you need now!"

As he said, Yanxingxing stretched out his hand and shook, a large number of Lingshi Lingyu appeared in front of Su Lang, the Lingshi piled up into a hill, and there were tens of thousands of Lingshi!

Among them are not only low-grade spirit jade, but also middle-grade spirit jade, and even high-grade spirit jade!

In sum, the total of these spirit stones and jade given by Yanxingxing is more than 300 million top-grade spirit jade!

In addition, there are many alchemy materials, including a large number of honor-level materials and god-level materials.

Immediately, Yan Hingxing stretched out his hand and a heart-guard flew out from his chest and fell in front of Su Lang.

This heart-guard is the advanced defensive artifact in the mouth of Yanxingxing.

In the end, he took out a lot of jade slips for the exercises, one by one, just looking at the appearance, they are very extraordinary, they are the holy and god-level exercises!

It can be said that Yan Hengxing has taken out all his wealth!

Chapter 423

"These things are basically obtained from the inheritance of that Martial Saint."

Yan Hingxing said solemnly: "Besides, I can also give you things from the Nine Heavens Chamber of Commerce. Anyway, the Wind Spirit Race is about to go to war, and I won't be able to hide my identity for long."

"Thank you, Master Yanxingxing!"

Su Lang nodded very excitedly, and then put everything into the storage space.

"Go! I'll take you to the Chamber of Commerce secret library!"

Yan Hingxing stood up and walked straight out, Su Lang quickly followed.

Because Lan Zheng, who Yanxingxing disguised as one of the heads of the Jiutian Chamber of Commerce, went all the way unimpeded and soon arrived at the building where the secret library was located.

Entering the building, there are all warehouses and secret warehouses!

Because of receiving an order from Yanxingxing, there was no one here at this time.

"The other persons in charge of the Nine Heavens Chamber of Commerce have long been controlled by me using the puppet secret method. I have all the permissions for the warehouse secret library here. You can take it whatever you want!"

Yan Xingxing waved his hand, and the doors of dozens of hundreds of secret libraries were all opened. Lingshi, jade, and countless materials were instantly displayed before his eyes.

"Fuck! The secret library of the largest material supplier of the Fengling Clan, this is well developed!"

Su Lang's eyes gleamed with excitement, and then rushed up and searched, not letting go of the spirit stone materials, no matter the high or low level!

In a blink of an eye, the secret library that was full of Dangdang became empty, and several doors were shaken by the wind brought up by Su Lang's running, which was quite desolate.

"Su Lang...you took all this!?"

Yan Xingxing's mouth twitched, "What do we sell in the Chamber of Commerce in the past two days? Not selling things will definitely arouse suspicion!"

Su Lang chuckled, "Uh, then I should go back a little bit?"

"Oh, forget it!"

Yan Hengxing smiled bitterly and shook his head, "I'll let the people below hurry up and buy goods!"

"Oh!?! Can you still buy?"

Su Lang's eyes glowed like a light bulb.

"You will use up the materials you have gotten first!"

Yan Hingxing showed a helpless smile, "You don't need to hide your identity anymore, the new materials are yours."

"Ahaha, I just ask casually!"

Su Lang hit a haha and said with a smile: "Then please help me prepare a quiet room, I will help you repair the defensive artifact first."

"That's the most advanced secret library!"

Yan Hingxing nodded and said, "I have to deal with some things, otherwise I will show my feet and I will come to you later!"

Su Lang smiled and said, "Aren't you staring at me?"

"If I can't believe you, would I still give you everything?"

Yan Hingxing rolled his eyes, then turned and left without any muddle.

"Tsk tsk, what kind of earning in Qingfeng City before, now it is really earning!"

Su Lang licked his lips, "There are a lot of god-level materials and spirit stones in the martial sage inheritance of Yanxingxing, and the Nine Heavens Chamber of Commerce also has a lot of high-level materials and spirit stones!

With these resources, my strength can instantly increase by many times! "

With uncontrollable excitement, Su Lang entered the high-level secret storehouse and closed the door.

"System, refining all the medicines that can be refined at present!"

"Ding! Successfully refining, you will get the intermediate god-level pill Jiuxiao Tianchen Golden Pill*5!"

"Ding! Successfully refining, you will get the Secret Pill of Seven Lives and Good Fortune of the primary god-rank pill*5!"

"Ding! Successfully refining, you will get a low-level elixir..."

"..."

"System, evolve the Youtian Sword and this broken advanced defensive artifact!"

"Ding! Consume Heaven and Earth Ghost Bones*1, Soul Fragment Ink Frost*1, Yinsha Moonlight Stone*2, Promise Fruit*4, Lingxiao Gold*6...The Youtian Sword has evolved into a primary artifact!"

"Ding! Consume Chixiao Breaking Mountain Crystal*2, Yan Luo collapsed Mountain Stone*3, Slashing Sea Xuanbing*1...The Youtian Sword has evolved into an intermediate artifact!"

"Ding! Consume... Youtian Sword has evolved into an advanced artifact!"

"Ding! Consume the Arctic Sublimation Jade*1, Endless Sea Sand*26...The Nine-Different Astrology Realm has evolved into a top-level artifact, repairing all losses!"

"System, use the remaining god-level refining materials to refine me a god-level weapon!"

"Ding! Successful refining! You have obtained the mid-level artifact Wanzhang Bipolar Ruler*1!"

Three artifacts appeared in Su Lang's hands!

[Chapter 424: The seventh system function!](#)

The first one, the high-level artifact Youtian sword!

The sword body is still crystal clear white, and the black lines on it condense in the middle, forming a line like a long and narrow black hole!

This striped road possesses a very terrifying soul-destructive power, and it is difficult for ordinary martial emperors to look directly at it, otherwise they will burn their soul!

And when it exerts its true strength, even the mental power of the Martial God Morning Star Realm will be injured!

In addition to a substantial increase in mental lethality.

The Youtian Sword's ability to break defenses has also been greatly enhanced, it can cut a higher level of defense, and it is difficult to destroy by itself!

The second piece, the Nine-Different Astrology Realm, was evolved from the damaged high-level artifact of Yanxing, and it was the best defensive artifact among the top artifacts.

The third piece, the Wanzhang Bipolar Ruler, this artifact has dual attributes of ice and fire, and can expand rapidly, both offensive and defensive!

"Wanzhang Bipolar Ruler and Jiuqi Astrology Realm are handed over to Yanxingxing, presumably he can stop Huangfuqin."

Su Lang put away the Youtian Sword, and then ordered again: "System, deposit all the spirit stones and jade into the balance!"

"Ding! All the Lingshi and Lingyu have been deposited!"

The system prompt came, and the balance that had become the best spirit stone unit directly became more than 14.6 million!

"Hey Hey!"

"Except for one-click training, now all system function upgrades require only 1 million top-grade spirit stones. This time, there will be another wave of upgrades!"

Su Lang couldn't help but let out a deep laugh, and immediately ordered: "The system, first upgrade me the one-key martial arts, clone dispatch function!"

"Ding! Consume 1 million superb spirit stones, the one-key martial arts function is increased to level 14, and the training speed is increased to 10,912 times the base speed!"

"Ding! Consume 1 million superb spirit stones, the clone dispatch function is upgraded to level 13, the number of clones is +1, and the current number of clones is 13!"

"The number of clones reaches 13!"

"In this way, the increase in combat power brought about by the swallowing clone is even more terrifying!"

"In addition, the speed of one-key martial arts practice has increased, and the three king-level exercises can be completed in just one day."

Su Lang's eyes flickered, "After all this is done, let Yanxingxing go out and do something to delay the opening of the Wind Spirit Race!

As long as I have enough time, I can practice more king-level techniques and push the combat power behind the swallowed clone to the holy level! "

Thinking of this, Su Lang couldn't help but tick the corner of his mouth, revealing a smile.

"Now there are more than 12 million superb spirit stones left!"

"One-key training and one-key training, one is level 15 immediately, and the other is level 10, you will definitely get the access to bonus features and new features!"

"Haha, I don't know what the seventh function is, it's really exciting!"

Su Lang took a deep breath, and then ordered the upgrade of the one-key training function and the one-key training function.

"Ding! Consumes 10 million superb spiritual stones, the one-key training function is upgraded to level 15, and the training speed is increased to 43648 times the basic speed!"

"Ding! Congratulations on raising the one-key training function to level 15. You have obtained the new bonus function "Infinite Cultivation"!"

"Ding! Consume 1 million superb spirit stones, the one-key refining function is upgraded to 10, and it can refining the divine rank and below!"

"Ding! Congratulations on upgrading the one-key formation function to level 10, and you have obtained the new bonus function "Array Control"!"

"Ding! Congratulations on upgrading the one-key formation function to level 10. You have obtained the activation permission for the new function "One-key synthesis function"!"

As the system prompts came out, a large amount of information was printed into Su Lang's mind, making him instantly understand the effects of the two bonus functions.

The first is the 'infinite cultivation base' function, which allows you to continue saving cultivation bases after the sea of cultivation bases is full. There is no upper limit!

So far, this function has no effect on Su Lang.

Secondly, the 'formation control' function is awesome. With this ability, you can directly usurp others' control over the formation!

However, there are limitations.

The formation that can be usurped is one level lower than the highest-level formation that can be refined by the one-key formation function.

In other words, Su Lang is currently able to refine the god-rank formation, then he can control all the noble-rank formations!

[Chapter 425: One-click synthesis!](#)

"Able to usurp control of the noble formation!"

Su Lang was extremely surprised. When he entered the main city of the Wind Spirit Clan, he had observed the city defense formation before.

The wind spirit clan's defensive formation is a holy formation, which is sufficient to withstand the attacks of the Wu Sheng-level powerhouse for a certain period of time.

In fact, the strongest formation mage of the Wind Spirit tribe is only God-level, and it is not too strong among the god-level array mage.

The reason why this defensive formation can reach the holy rank is entirely because it is an aggregation formation, also known as a united formation!

This kind of formation is made up of a large number of small formations intertwined, and there are all from the imperial-level formations to the god-level formations, and the number is as many as tens of thousands!

Among them, the most are not the god-level formations, but the lower-level formations, among which the venerable formations occupy most of the positions!

Because the power of the noble-level formation is considerable, and it is not difficult to arrange like the god-level formation, but it is the most favorite formation of the god-level mage.

"The main component of the wind spirit clan's main city protection array is the noble-level array. I can control these arrays!"

"In other words, as long as I want, I can get most of the control of the Wind Spirit Clan's main city formation in a single thought."

"Although the core of this defense formation is still a god-level formation, these god-level formations are closely related to the other formations.

I controlled the rest of the formations, and these god-level formations were considered good if they didn't collapse. "

Su Lang slowly analyzed, a sneer gradually appeared on his face.

"However, it is not yet possible to control the formation, so as not to startle the snake."

"The top priority is to improve your combat power first, but before that, there is still a new system function that has not been activated!

One-click synthesis function, you know that you can synthesize items by listening to the name, but you don't know that it is a perverted function! ? "

With a hint of excitement, Su Lang ordered: "System, activate the one-key synthesis function!"

"Ding! Consume 10 high-grade spirit stones, the one-key synthesis function has been activated!"

"Ding! The current one-key synthesis function is level 1, with a 'material synthesis' function, which can be synthesized using the same ordinary grade materials, with a synthesis ratio of 100:1!"

Two system prompts appeared in Su Lang's mind, making him a little confused.

"It can synthesize materials, it's so functional!"

Su Lang frowned: "Just what the **** is this common grade material?"

The same material is easy to understand, it is the same material.

But at the ordinary level, after thinking about it, Su Lang still couldn't figure out what level it was.

"Forget it, upgrade one level to see the changes!"

Su Lang curled his mouth and immediately ordered the upgrade of the one-key synthesis function.

"Ding! Consuming 100 high-grade spirit stones, the one-key synthesis function is upgraded to level 2, and the same body quenching material and the following materials can be used for synthesis! The synthesis ratio is 90:1!"

As soon as this prompt sound came out, Su Lang suddenly understood.

"Level 2 is the body quenching level. It seems that the ordinary level is basically useless to warriors, such as broken stones and wood?"

While thinking about it, Su Lang continued to order the upgrade of the one-key synthesis function.

Anyway, there are still more than 1.6 million best spirit stones without flowers!

"Ding! Consuming 1000 high-grade spirit stones, the one-key synthesis function is upgraded to level 3, and the same martial artist material and the following materials can be used for synthesis! The synthesis ratio is 80:1!"

"Ding! Consuming 10,000 high-grade spirit stones, the one-key synthesis function is upgraded to level 4, and the same martial artist material and the following materials can be used for synthesis! The synthesis ratio is 70:1!"

"Ding! Consume 100,000 high-grade spirit stones, the one-key synthesis function is upgraded to level 5, and the same general material and the following materials can be used for synthesis! The synthesis ratio is 60:1!"

"Ding! Congratulations on upgrading the one-key synthesis function to level 5. You have obtained the new function 'Pill Synthesis'!"

"Ding! Consume 1 million high-grade spirit stones..."

"Ding! Consume 10 million high-grade spirit stones..."

"Ding! Consumes 1 million superb spirit stones, the one-key synthesis function is upgraded to level 8, and the same Wuhuang material and the following materials can be used for synthesis! The synthesis ratio is 30:1!"

[Chapter 426: Three-digit noble pill](#)

After a series of system beeps.

Su Lang's balance of the best spirit stone is only a few hundred thousand, and the level of the one-click synthesis function has reached level 8!

The materials that can be used for synthesis have reached the Wuhuang level, which means that Su Lang can synthesize materials of the Wuzun level!

When it reaches level 5, it also comes with a new 'medicine synthesis' function!

This function is also extremely important to Su Lang.

It can even be said that sleepiness came to give pillows!

You know, he just wiped out all the secret warehouses of the Jiutian Chamber of Commerce, and the middle and low-level materials accounted for more than 90%!

Because there is a function of 'a pill in one second'.

So in a short period of time, the one-key alchemy function has refined a large number of low- and middle-level pills for Su Lang.

Coupled with the low- and medium-level pill that was refined before, and the spoils obtained from killing the enemy, Su Lang's low- and medium-level pill was already piled up.

However, these pills were of no use to Su Lang, and he could only sell them later.

And even if you sell it, you can't earn many spirit stones.

After all, the price of middle and low-level pill is there, even if it is tens of thousands of tens of thousands, it will not sell many spirit stones!

And now, with the function of 'Pill Medicine Synthesis', these pills can synthesize higher-level pills at a ratio of 30:1, up to the highest level!

Calculated based on the current ratio.

To synthesize a superior-rank pill, you need 30 royal-rank pill or 900 king-rank pill...

When the functions continue to be upgraded and the ratio becomes lower and lower, the low-level pill needed to synthesize a superior-level pill will become less and less, like an avalanche!

"hiss!"

"This feature is absolutely abnormal. No wonder it requires so many spirit stones to activate it!"

Su Lang took a deep breath, then immediately told the system to stop alchemy, and ordered: "System! Give me all the remaining low-level materials to a higher-level synthesis!"

"Ding! Consuming green bamboo*10, synthesizing Liyan bamboo*1!"

"Ding! Consume Liyan Qizhu*10 to synthesize Qiyang Qizhu*1!"

"..."

"Ding! Consume King Kong Ice*10 to synthesize Overlord Ice*1!"

"Ding! Consume bipolar dragon silk*10, synthesize Huangji dragon silk*1!"

"..."

Numerous system prompts appeared in Su Lang's mind.

Synthesis of ultra-low-level materials, upgrade to low-level materials, and low-level materials continue to be synthesized into higher-level materials!

The piles of materials in the storage space disappeared quickly at a speed visible to the naked eye.

In the blink of an eye, the low-level materials almost disappeared!

Those remaining low-level materials were only able to escape the fate of being synthesized because the quantity was less than 10 copies.

At the end, when all the materials are less than 10 copies, the system prompt stops appearing.

"The synthesis of materials is complete, now you can continue to refine the pill!"

"After the pill refining is completed, the low-level pill will be synthesized into the high-level pill, hehehe!"

Su Lang let out a burst of excitement, "Unfortunately, it is impossible to synthesize weapons. Those crafting materials that have been synthesized can only be temporarily stored in the storage space to eat ashes."

After a burst of excitement, Su Lang immediately ordered the synthesis of pill.

As a result, another round of systems continuously appeared!

"Ding! Consume Ruyi Emperor Pill*10, and you will get Taishi Ruyi Zun Pill*1!"

"Ding! Consume..."

In the storage space, the medicinal pill that was just refined disappeared quickly like the previous material.

All low-level medicines are rapidly synthesizing high-level medicines.

Not to mention the emperor-rank king-rank pill and the lower-rank pill, even the number of high-rank pill has exceeded three digits!

You must know that when Su Lang held an auction in the main city of Blue Star, there were only 20 high-ranking pills at that time, which shocked the main city of Blue Star!

And the three-digit noble medicine!

"Tsk, if I sell it, I don't know how much it can sell!"

"However, let's solve the urgent need first."

"With so many pills, knocking them down will definitely make my cultivation realm soar!"

The corner of Su Lang's mouth twitched, and immediately took out all the medicines above the emperor rank.

[Chapter 427: Too lazy to pick it up!](#)

Eliminate other medicinal pills for healing and detoxification.

There are more than 800 pills for cultivation and breakthrough realm.

Among them, there are hundreds of high-ranking pills and more than 700 royal-ranking pills.

"call--!!"

Su Lang let out a long sigh, then grabbed a handful of emperor-level pill and swallowed it directly into his abdomen!

boom! !

The terrifying medicinal power broke out directly.

The blood vessels on Su Lang's body swelled instantly, coiling around him like tree roots.

The medicinal power rushes in the body, then is captured and digested by the spiritual energy, so that it nourishes Su Lang's body, skin, flesh and blood, and gathers in the dantian spirit crystal to promote Su Lang's cultivation.

With such a strong medicinal force, Su Lang had already progressed to an extremely rapid level, and accelerated again like stepping on the accelerator!

In the mysterious black space, the cultivator quickly turned golden at a speed visible to the naked eye.

In a few blinks, almost all of the villain turned golden.

But at this moment, the medicinal powers in Su Lang's body suddenly clashed, producing many harmful substances!

These harmful substances are permeated in the flesh and blood of the meridians, which are extremely harmful and almost impossible to remove.

If it is a general warrior, I am afraid that it can't do anything about it.

Can only watch the body be polluted, the foundation of martial arts is corroded, and finally lose all the possibility of progress, and even the cultivation base will regress, and countless efforts were wasted.

However, Su Lang didn't even look at these unusually difficult toxin impurities.

Because he has Xuanyun Jingyuehuo!

The first function of Xuanyun Jingyuehuo is to annihilate the breath, and the other ability is the power of purification!

This special purifying power can purify all kinds of filth and all kinds of severe poisons.

Of course, the toxins produced by the conflict of medicine in Su Lang's body were also among them.

At this time, I saw a large amount of translucent white flame covering Su Lang's body.

Those toxins and impurities that are raging are instantly purified.

The originally stagnant cultivation base continued to advance at great speed!

Three seconds later.

"Ding! The sea of repair is full, do you break through?"

"Give me a breakthrough!"

Su Lang gave an order, and the turbulent liquid spirit appeared in the meridians.

These spiritual fluids are like the still water of the Yangtze River surging endlessly, constantly walking in the meridians, and finally converging in the dantian.

In the blink of an eye, Su Lang sent a burst of breakthrough fluctuations!

"Peak Martial Commander-level!"

Su Lang opened his eyes and shot all over him!

But he didn't stop practicing, instead he stuffed a pill again and continued to practice with his eyes closed.

With the advancement of a large number of emperor-level and noble-level pills, Su Lang's cultivation speed has increased more than two or three times? Five or six times!

When the one-key training level was still at level 14, the time required for his cultivation base breakthrough was reduced to 5 hours.

Even if it takes more time to be promoted from the peak military commander to the quasi-martial king, it will not exceed 6 hours.

At this time, the one-key training function is upgraded, and the time is reduced again, which only takes three hours.

Now that the medicine is advancing again, Su Lang estimates that he will be able to break through to the level of Zhunwu King in more than half an hour!

Of course, the medicine cannot be stopped during this period, otherwise the speed of the cultivation base will be reduced!

...

Time flies, time passes.

Su Lang's cultivation has already broken through to the rank of the quasi-wu king, at this time he is hitting the realm of the junior king.

Although it was a big bottleneck to break through from the quasi-knight to the junior king, Su Lang's training speed was still incredibly fast.

Of course, his pill was also consumed rapidly.

In fact, taking the pill like this, he is violent.

Other people take pill, who is not careful and cherish it?

Some warriors would even take a bath first, then burn incense and adjust their state before daring to take the medicine!

He ate pills like Su Lang's beans, and when someone saw him, he might vomit blood.

At this time, Yanxingxing is very angry!

He went to deal with some things, so he came back to see what Su Lang was doing.

Unexpectedly, as soon as I opened the door of the secret library, I saw Su Lang stuffing a large amount of medicine in his mouth!

One of the bones slipped from his mouth and rolled into the distance. Su Lang unexpectedly closed his eyes with a glance.

He is too lazy to pick it up! ?

Yan Hingxing stared at the pill on the ground, the emperor-rank pill of perfect quality!

[Chapter 428: The realm of the primary Wuwang!](#)

"Fuck. Groove!"

The words peculiar to Blue Star came out of Yanxingxing's mouth, "Su Lang, do you take the pill for rice!?"

"Master Yanxingxing, the war is coming, I must improve my combat power as soon as possible, so I will do this."

Su Lang opened his eyes slightly and said, "Don't say anything, wait until I break through!"

"It turned out to be a breakthrough."

"But, if you take drugs like this to upgrade, you will suffer a lot!"

Yan Hingxing looked at Su Lang, his frowning brows gradually relaxed, "It is impossible for him not to know, maybe he has a countermeasure..."

He waved his hand to close the secret library door, and then sat cross-legged to protect Su Lang.

In a blink of an eye, dawn has arrived!

"Ding! The sea of repair is full, do you break through?"

"What you are waiting for! Give me a breakthrough!"

Su Lang immediately gave the order, and his breath began to rise!

Finally, at a certain moment.

"Boom!"

A burst of breakthrough fluctuations spread from Su Lang's body!

"Elementary Martial King Realm!"

"Finally reached, the martial artist's first realm of sublimation of life essence!"

Su Lang was surprised and quickly checked the changes in his body.

Under the powerful mental power, all the changes in the body can be seen clearly.

Su Lang discovered that apart from the larger and purer spirit crystals, each of his own cells seemed to have become new and stronger.

This kind of strength means that the body is more in line with the heavens, the earth, and the aura, and it has become an extraordinary creature.

From this moment on, Su Lang's life essence can be regarded as reaching an extraordinary level!

Compared with the military commander level, the Wuwang level only has aura storage capacity, the former is hundreds of times the latter.

As for the efficiency of the use of aura, the military commander is absolutely incomparable with the king.

The gap between the two is simply huge difference!

"By the way, King Wu can protect himself from the void, this is instinct, give it a try!"

With a hint of anticipation, Su Lang explored his flying ability and quickly mastered it.

"Get up!"

With a thought in his heart, a trace of spiritual energy lingered, Su Lang's body, which was sitting cross-legged, rose out of thin air.

Not only that, he also made a few turns!

"This is the real flight"

Su Lang let out a long breath, "It's as easy as using a finger!"

At the same time, Yan Hingxing, who was sitting next to the Law Guardian, turned his head blankly, his face was full of disbelief!

"Ok!?"

"Just now... the breakthrough fluctuation of the Junior King Wu!?"

"Su Lang seems to be trying to fly? Is it true that his cultivation realm has just broken through to the junior martial king?"

"Let me go, so that said, he actually has Wuzun level combat power at the quasi-wu king level!?"

"No... he told me before that his real combat power is at the level of the Valkyrie!"

"What the **** is going on!? A warrior of the quasi-wu king level can actually have the fighting power of the **** of war!?"

And when Yanxingxing was in shock, Su Lang opened his attribute panel.

[Chapter 429: Just a few hours!](#)

"Su Lang!"

"You are, you just broke through to the realm of the junior martial king!?"

Yan Hingxing walked to Su Lang in two steps, took a deep breath, and asked incredulously.

"Yes!"

"My cultivation level is relatively low, but I practice more techniques, so my combat power is stronger than that of the same level."

Su Lang smiled and nodded, and waved his hand to pick up the pill that had slipped to the ground from his mouth.

"..."

"You were just a quasi-maru king before, but you have a martial arts level, and you even have the confidence to use a lot of resources to raise your combat power to a martial **** level!"

"You are better than the same level? Your combat power is a full three realms higher than the cultivation realm!"

"It's really hard to imagine that the true combat power of a warrior can surpass three realms! I really, it's hard to believe!"

"Su Lang, tell me you are lying to me, right! Right!?"

Yan Hingxing became more excited as she spoke, and horrified as she spoke, and in the end her voice almost went out of tune!

"Uh, yes yes!"

"Actually, my true combat power has only now reached the Wu Zun level."

Seeing Yan Xingxing, Su Lang was too excited, and said quickly, "Before my real combat power was only at the peak Martial Emperor level, but my mental power reached the Nianhai Realm to pretend to be Martial Venerable."

"Peak Wuhuang Emperor..."

"Then your combat power is also two realms higher than the cultivation realm!"

"Furthermore, you are only at the level of the quasi-wu king, and you have the spiritual power of the sea of mind..."

Yan Hengxing was talking, but the corners of his mouth twitched, and he couldn't speak.

Too enchanting!

This Su Lang is really evil!

However, since he is a human race, it is the enchantment of the human race and the nightmare of other races! !

Thinking of this, Yan Xingxing solemnly said: "Su Lang, once this battle fails, you must take the human elites and escape elsewhere!

With your talent, it is only a matter of time before we avenge us. Don't let the hatred go to your head! "

"failure!?"

Su Lang clicked the corner of his mouth, "Master Yanxingxing, I never thought that Human Race would fail!"

"The five great martial gods of the Fengling tribe, as well as the quasi-sages!"

Yan Hingxing showed a bitter face, "They are at war with our human race, and they are basically in an invincible place. It is difficult for us to defeat the Fengling race!"

"Master Yanxingxing, based on the previous situation, it is really difficult for us to defeat the Wind Spirit Race."

"But with your support, I have a stronger combat power, and, look at what this is!?"

With that said, Su Lang took out the Jiuqi Astrology Realm and the Wanzhang Bipolar Ruler from the storage space, and placed them in front of Yanxing Star.

"this is....."

"My broken defensive artifact!"

Yan Xingxing took the Nine Difference Astrology Realm first, staring at a pair of bull's eyes in horror, "It has been completely repaired, and the level has also been upgraded to the top artifact!

Su Lang, it only took me a few hours to deal with the matter, you...when did you repair it and upgrade it? "

"Just a few hours!"

Su Lang chuckled, "However, time and materials are abundant, so I simply refined this intermediate artifact Wanzhang Bipolar Ruler for you."

"Fixed in a few hours! Am I dreaming?"

Although Su Lang said something like 'only one day' before.

But when Yan Hingxing saw it with his own eyes, he still felt a little dazed.

He bit his tongue fiercely and was awakened by a sting.

At this time, Su Lang smiled and said, "Master Yanxingxing doesn't have to be so surprised, after all, I have a secret!"

"exactly!"

"Everyone has a secret!"

Yan Hengxing smiled and shook his head, "That's... even your secret is too scary!"

"Haha, so so so!"

Su Lang smiled, then pointed to Wanzhang Shuangji Ruler, "This intermediate artifact can transform into a giant form, attack powerful, and can also be used as a shield, it can be described as infinite!

Master Yanxingxing possesses the Nine-Different Astrology Realm, and his defense is unparalleled. If he sacrifices this ruler, his attack power is not weak, even facing that Fengling Clan quasi-god! "

"You...really want to give it to me?"

Yan Hingxing took a deep breath, "This is an artifact, and it's the best among the intermediate artifacts, even if it's not much worse than the advanced artifacts."

"I have a better one!"

"Master Yanxingxing, don't refuse!"

Su Lang smiled and nodded, then suddenly his expression changed and he took out the jade card for communication.

And Yanxingxing actually also took out the jade card of communication, obviously there is information!

Immediately afterwards, the two looked at the jade card, and their expressions changed drastically!

[Chapter 430: The wind spirit tribe always attack!](#)

The message Su Lang received came from Lu Bai and others.

The message stated that on the Blue Star, the time-space cracks that had been opened by the Wind Spirits were expanding rapidly, and they could not be restrained anyway.

In addition, the fierce beasts controlled by the Fengling clan also began to riot, but a wave of fierce beasts had not yet formed.

At present, the entire Blue Star has entered a state of preparation!

The news that Yan Hengxing received came from his own subordinates, the Fengling Warriors of the Jiutian Chamber of Commerce.

Originally, as the leader of the human race, he of course had a jade card for communication from Lu Bai and others.

But then the Fengling tribe searched him everywhere, and everyone in the main Fengling tribe city from top to bottom was checked.

In order to prevent the flaws from being exposed, Yanxingxing destroyed the previous communication jade card.

Now there is only one life card between Tatian stronghold and Yanxingxing!

At this moment, among the messages Yan Hengxing received, the news that the Fengling Clan had started the general attack was very positive.

And mentioned some deployments of the Wind Spirit Clan, such as the warrior group, the fierce beast group, the formation group and so on.

Finally, he asked Yanxingxing for instructions.

"The Wind Spirit Race has started a big battle!!"

The two raised their heads, looking at each other, their eyes filled with horror.

Neither Yan Xingxing nor Su Lang had expected that the Fengling Clan's general attack would come so suddenly.

"Tru Takayama and Nangong Shang said that after meeting Huangfuqin, they would come to me."

"However, they never came to me at all, and they didn't even send a message."

Su Lang was surprised, "It stands to reason that the war shouldn't have started at this time!"

"I asked the subordinate who sent me the message, but he didn't know the specific reason."

Yan Xingxing frowned, "It may be some kind of unexpected event, or it may be just an order from Huangfu Qin."

"I'm too lazy to study this."

"Now that the Wind Spirit Clan has launched a general attack in advance, although we are not yet fully prepared, we can only face it."

Su Lang let out a breath and said, "Master Yanxingxing, do you have any countermeasures?"

"Haha..."

"I told you before, I can only go desperately!"

"But with the two artifacts you gave away, I might be able to support some more time!"

Yan Hengxing smiled bitterly and shook his head, "What about you? Now that the Fengling Race is opening the total offensive, it will definitely be guarded against me in every possible way.

The god-level space imprisonment array will be activated, even the main city teleportation array cannot be used, and the small teleportation array deployed will also lose its effect.

So, now you can't leave the main city of the Wind Spirit Clan at all. "

"Haha, the wind spirit clan's formation can't stop me at all, I can go wherever I want."

Su Lang smiled, "Now I plan to go back to Tatian stronghold and return to Blue Star through the cracks in time and space to resist the invasion of the Wind Spirit Race."

"Resist the Wind Spirit Race!?"

Yan Xingxing said with some worry, "I know your combat power is very strong, but at least two of them have come to Blue Star. Can you stop it?"

"Of course I can stop it, not only that, I will kill them all!"

The corner of Su Lang's mouth twitched, revealing a sneer, "Master Yanxingxing, you can stay here to contain Huangfuqin. Once I make a move, he will definitely not sit still!

At that time, please ask Master Yanxingxing to stop him, I will clean up the other Valkyrie, and I will come to the main city of the Fengling Clan to kill Huangfuqin with you! "

"Su Lang...you are really confident that you can kill the other Wind Spirit Race Valkyrie!?"

Yan Hengxing took a deep breath and asked solemnly: "It's about the life and death of the entire human race, you can't be brave!"

"Don't worry, there is a secret skill bonus, plus my Youtian Sword, ordinary Valkyrie is not afraid!"

While smiling, Su Lang took out his top divine weapon Youtian Sword.

When Yan Hengxing saw the top artifact with black stripes on the white background, he immediately felt a crisis, and his pupils shrank suddenly!

"What a terrifying sword!"

Yan Hingxing sighed, "Now I believe it, you really have the power to kill those Fengling Race Valkyrie!"

"Haha!"

"Without delay, I am leaving here now."

"But before that, these medicines are reserved for you, and I hope to help you!"

Su Lang smiled, and immediately took out all the medicinal pills used for fighting, healing, detoxification, etc., and handed it to Yanxingxing.
