

ONE-CLICK TRAINING SYSTEM INSTANTLY MILLIONS

Chapter 5: System functions can be upgraded!

Soon after, after a few screams of crying wolf howling, Chu Ganggui passed out into a coma with abrupt pain.

Fortunately, Su Lang closed the doors and windows earlier. The good sound insulation materials of the Aura era prevented Chu Gang's screams from spreading, otherwise it would have caused trouble.

"What a relief!"

Seeing Chu Gang with broken limbs, Su Lang smiled smoothly and immediately pulled a chair to sit down.

He didn't forget that after activating the first function, he also included the ability "Properties Panel"!

"This function is great!"

The corner of Su Lang's mouth ticked, "With this function, you can know yourself and your opponents, the system, open the properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Primary body quenching

[Attack level]: primary body quenching

[Defensive Level]: Primary Body Tempering

[Shenfa Level]: Primary Body Tempering

[Endurance level]: Primary body quenching

[Master the exercises]: Infinite Heart Sutra

[Activated system function]: One-key practice function (level 1)

"Qualification is still muddy, but it is not important, I can practice without the qualification!"

Su Lang looked at the panel and moved his gaze to the column of 'Mastering the exercises'.

""The Infinite Heart Sutra"?"

After a while, Su Lang found information about this exercise from his predecessor's memory.

It turned out that this turned out to be the most advanced major practice on Blue Star.

It stands to reason that according to the unspoken rule that high-level exercises will be blocked by a monopoly, it is impossible for Su Lang to know this exercise.

Under normal circumstances.

Unless they are close relatives or direct disciples, the strong will probably not pass on their practice until they die.

Once the enemy's weaknesses are penetrated by his own technique, it is very dangerous.

Secondly, people are selfish, and they certainly don't want their good stuff to be spread everywhere!

If one's own practice is given to a higher-qualified person, wouldn't it be surpassed soon? Was stepped on from the top soon?

At that time, any status, wealth and beauty will be lost!

Therefore, the strong monopoly of high-level exercises is very serious, and even the spread of low-level exercises has been severely restricted.

But the reality is that not only Su Lang, but everyone in the world knows the "Boundless Heart Sutra", even children know it!

Thousands of years ago, a human hero took the world's worst and published this strongest major exercise method to the public, which will benefit the world's humankind endlessly!

Since then, other major exercises have gradually been eliminated, and everyone has begun to practice "The Infinite Heart Sutra".

"Unfortunately, this is just one example of the disclosure of advanced techniques."

Su Lang was a little regretful, and then continued to look down along the attribute panel, suddenly his eyes lit up, "Level 1? Can one-click training be upgraded!?"

"Host, the one-key practice function can be upgraded."

"Level 2 requires 100 gold coins, and the cultivation speed is twice the basic speed."

"Level 3 requires 1,000 gold coins, and the cultivation speed is 4 times the base speed."

"Level 4 requires 10,000 gold coins, and the cultivation speed is 8 times the base speed."

"Level 5 requires 100,000 gold coins,..."

"I fork!!"

"In this way, if you keep upgrading, wouldn't your cultivation speed reach dozens, hundreds, or thousands of times the basic speed!"

"I have practiced for one year, which is equivalent to other people's cultivation for decades, hundreds, or thousands of years!? Lying noisy, developed and developed!"

Su Lang was so ecstatic that he stood up from his chair with excitement.

He really wants to upgrade the function to advanced level now, so that he can break through quickly.

When the time comes, destroy the Broken Axe Hunting Group, and it will be easy to avenge yourself!

But soon Su Lang found that he had no money to upgrade the function. He now only had 6 gold coins left.

The distance to level 2 is still 94 gold coins!

"Money, money, money! I need money!"

Su Lang paced around in the room, "I have no money, what should I do?"

Suddenly, Su Lang's gaze fell on Chu Gang.

Although this guy must be very poor, no matter how small a mosquito is, it is meat...

With this idea in mind, Su Lang dragged Chu Gang to the opposite house, and then ransacked him and his home.

"1 silver coin and 62 copper coins? Maad poor ghost!"

Seeing the change in his hand, Su Lang slammed into the door of Chu Gang's house.
