### [Chapter 581: Then I'm welcome](#)

"Dead pervert, lure..."

Chu Xiaobei's face blushed, and he murmured a few words before driving Xiao Bai to levitate.

Yan Fa in Yaochi on the ground saw this scene, secretly saying that Chu Xiaobei was not a simple maid, and he was afraid that he would raise several classes, perhaps a concubine?

"Patriarch Yaochi, let's go."

Su Lang reminded.

"Yes Yes Yes!"

Yaochi Yan Fa hurried into the air to lead the way.

Chu Xiaobei also drove Xiaobai to follow.

Along the way, Yaochi Yan Fa's speed was too slow compared to Xiaobai.

But Chu Xiaobei had just gotten Xiaobai and hadn't had enough fun, so he flew fast.

Occasionally, I also naughty to flip in the air, drifting in the air, doing various difficult moves.

When arriving at the treasure house of the Yaochi Saint Clan, Xiaobai had already flown seven or eight times the distance.

During this period, Su Lang glanced back from time to time, and then he could see the large ripples caused by Chu Xiaobei's vigorous exercise.

This made him secretly praised in his heart many times: good ball!

Next.

When everyone landed outside the treasure house, Yaochi Yan Fa directly opened the treasure house and invited the four of Su Lang to go in and choose.

As Su Lang guessed, although the Yaochi saints are not very strong, they are after all a saint with a long history. Their treasure house is really very big and fat.

In the treasure house, countless materials were placed in different categories, and they were dazzling when they swept away.

"Please choose Su Gongzi at will!"

Yaochi Yan Fa looked serious, meaning that he could exchange the entire treasure house for a high-level sacrificial artifact.

"Then I'm welcome."

Su Lang laughed, and then walked forward with the three daughters. The place he passed was like a grassland where locusts passed by, leaving only some tattered things.

Yaochi Yan Fa couldn't help but twitch his mouth.

He never expected that Su Lang would not be good and took most of the materials directly.

Su Lang turned and smiled and said, "Sky Sea needs a lot of materials, and these low-level materials are also useful. Patriarch Yaochi would have no opinion, right?"

"Huh? Of course not!"

Yaochi Yan Fa quickly said, "Even if you take all of Su Gongzi!"

"Ok."

Su Lang nodded faintly, and continued to collect materials.

It didn't take long before he swept the entire treasure house of the Yaochi Saint Race.

Of course, Su Lang did not emptied the entire treasure house, but left a lot of things.

In fact, among the treasures taken, there were only two things that Su Lang cared more about.

These two are the Soul of Wusheng and the Soul of Wushen!

The two souls of Wusheng are both low-level holy souls, while the souls of Wushen have a full 29 shares!

Come to think of it, it should be the spoils obtained by the Yaochi Saints after killing the enemy.

Perhaps there is also his own soul and soul.

In short, from these holy souls and holy souls, we can see how terrifying the \*\*\*\* storm is behind the rise of a holy race.

"The materials are enough, let's go."

With a satisfied smile, Su Lang nodded to Yaochi Yan Fa.

"Yes!"

Yaochi Yan Fa quickly said yes, and turned around to lead the way.

Not long after, a few people came to the outside of the treasure house of the Yaochi nationality.

"The sea of sky is huge, and Xiaobei and I can't refine it in a short time."

Su Lang said to Yaochi Yan Fa, "So, I'm going to ask the master craftsman in the clan to do it, and I will deliver it to you after the refining is complete."

"Ok, no problem!"

Yaochi Yan Fa didn't want to nod directly.

For Su Lang, he obviously trusted him unconditionally!

"It's not too late."

Su Lang smiled, "I will set up a teleportation array and send the materials back to the clan."

As soon as this remark came out, Yaochi Yan Fa was immediately surprised.

Young Master Su Lang actually wants to establish a teleportation formation of Unicom's clan!

That's the emperor!

The Yaochi saints are really going to climb the thighs of the gods! Hahaha!

Of course, he didn't know that the Human Race and Wind Spirit Race that Su Lang belonged to were not emperors at all, and they were not even the Saint Race for the time being.

"Yes!"

Yaochi Yan Fa nodded excitedly, "Master Su has any needs, you can come to me!"

"..."

Su Lang felt a bit wrong when he heard this.

Looking for you for any needs? It's a bit dirty!

Hey~ I have a picture in my mind, delete it quickly.

"Okay, go ahead, the sea of sky promises to refine Baba suitable for you."

Su Lang waved his hand, then flew to Xiao Bai and squeezed into the three girls.

[Chapter 582: You are very good at singing poetry!](#)

"Respectfully send Master Su!"

Yaochi Yan Fa stood there and bowed respectfully.

Immediately after.

Su Lang and the third daughter returned to the heart of the mountains with a lot of materials.

"Su Lang, do you really plan to bring the materials back to your clan for refining?"

"Are there many alchemy masters like you in your clan?"

Chu Xiaobei's eyes lit up slightly, "Can you take me to see it too?"

"I told Yaochi Yan Fa that I would invite the craftsman in the clan to do it. In fact, I just concealed my incredible craftsmanship."

"Moreover, I have already told you that I am the most powerful one in our clan, whether it is combat power or other aspects."

"So, I am alone in refining the sea of sky, but I really plan to arrange the teleportation array."

Having said this, Su Lang turned to look at Ji Ruxue and Murong Xianxian, "The forces behind Wuyang Devil's Cave are coming soon. It is a very powerful force. I plan to send you back to Blue Star. How about?"

"It's all arranged by Brother Su Lang."

Ji Ruxue and Murongxian nodded obediently.

"Ok."

Su Lang smiled slightly, "You go back, so you can help me manage some affairs."

Ji Ruxue is a hybrid of the human race and the wind spirit race. Let her manage the wind spirit race and the human race, which can greatly promote the integration of the two races.

This is very important for the peaceful development between the two communities.

Ji Ruxue nodded heavily and said, "I will definitely work hard with sister Xianxian to help Brother Su Lang manage affairs!"

"Actually, you don't have to be so serious, don't be too tired."

Su Lang smiled and looked at Murong Xianxian, "You have built a meditation pill. You have more experience, and you can help Ruxue more."

"I know, Lord Su~"

Murong Xianxian smiled brightly and blinked mischievously.

"Hey! What about me, what about me?"

Chu Xiaobei said hurriedly, "I want to go too."

"Ok."

"I can take you to see, but you are not allowed to leak secrets."

Su Lang curled his lips and said, "Besides, you can only stay there for a short time, and you must come back with me."

"I know, I know."

Chu Xiaobei rolled his eyes, "What's the secret?"

"it is good."

"Next I will set up the teleportation array."

While talking, Su Lang took out a lot of materials.

Chu Xiaobei's expression was slightly shocked: "By the way, it's incredible that you still arrange a formation."

"I have more things to do."

"No matter what I do in the future, don't make a fuss, okay?"

The corner of Su Lang's mouth twitched, "Look at Ruxue and Slim, it has always been taken for granted."

Chu Xiaobei rolled his eyes: "Hey, you really look like you are almighty."

"I'm really almighty."

Su Lang smiled, "I am very strong in every aspect, especially that aspect!"

"Ok!?"

Chu Xiaobei asked curiously, "Which way?"

"Parking and sitting in Love Maple Forest Night, Frost Leaf is red in February Flower."

Su Lang smiled lightly, "It can only be understood by words."

"Oh!"

"I see, you are very good at chanting poetry!"

Chu Xiaobei suddenly realized, "Don't say, these two sentences are really a bit artistic, good poem, good poem!"

Murong Xianxian also nodded in agreement.

"Fuck!"

Ji Ruxue clapped her hands with stars, "Brother Su Lang, are there any more?"

"Yes."

Su Lang glanced at the petite Ji Ruxue and said with a smile, "Ping Ping has more than thirteen curls, cardamom shoots in early February."

"That's not bad, good poem, good poem!"

Ji Ruxue, Chu Xiaobei and Murong Xianxian nodded, their faces full of approval.

Su Lang stretched his brows and smiled without saying a word.

Soon, the three women were appreciating the artistic conception of the poem, and Su Lang began to arrange the teleportation array.

### [Chapter 583: I'm afraid it's not the mistress who turned back](#)

For ordinary people, even if they master the layout of the teleportation array, it is very troublesome to arrange the teleportation array.

Because the teleportation arrays are at least two in a set, and they are far apart from each other.

If it is arranged by one person, it is arranged here, and it is really troublesome to run a long way to arrange another one.

If the distance is particularly far, it is almost impossible for one person to arrange the teleportation array.

This is also because the number of ultra-long teleportation arrays on the Canglan Continent is very, very rare.

However, arranging the teleportation array was too simple for Su Lang.

long distance?

Duplicate dispatch plus duplicate replacement is over!

After half an hour, Su Lang set up the two teleportation arrays.

The other side is located at the entrance of Canglan Continent in the time-space crack.

"The teleportation array is finished, let's go."

Su Lang waved his hand, and the three women who were chatting immediately surrounded him.

Immediately, a burst of light flashed, and the four figures of Su Lang disappeared.

The area of the Fengling tribe, where the time and space cracks are located.

Because the headquarters of the exchange system is set up here, a relatively simple gathering place has been formed here.

Around the space-time crack guarding the great formation, there are shelters and caves built by warriors everywhere.

Everyone is eagerly waiting for the exchange opportunity once a day.

Those warriors below the Martial King level are practicing recklessly, looking forward to one day they can reach the Martial King level and obtain the qualification to use the exchange system.

At this moment.

Inside the space-time crack guarding the large array, a teleportation array lit up.

"coming!"

Yan Hengxing, Huangfuqin, and the four human war gods stood aside very excitedly, waiting for Su Lang's return.

When Su Lang arranged the teleportation array, he naturally alarmed Yan Xingxing.

So Yanxingxing notified Huangfuqin and the four human war gods, and everyone gathered here.

Immediately afterwards, the light dissipated, and the four figures of Su Lang appeared in the eyes of everyone.

"Welcome to the patriarch!"

When Yan Hengxing, Huangfuqin and other six people saw Su Lang, they saluted immediately.

During this period of time, although Su Lang was not in the clan, he kept bringing good things to them, and there was no shortage of any weapon and pill, which piled up their loyalty to the extreme.

"Well, don't be so polite."

Su Lang waved his hand faintly, "When I am away, thanks to you for protecting the tranquility and peace of the two races."

"This is what I should do!"

Huangfuqin said excitedly, Yan Xingxing and others also nodded again and again.

"Haha."

"I will introduce you to you."

Su Lang pulled Chu Xiaobei over and said with a smile, "This is a genius of the Xuanyu Immortal Clan, a six-star martial sage, Chu Xiaobei."

"Hello."

Chu Xiaobei smiled slightly, and at the same time he thought to himself: I didn't expect that Su Lang, the big pervert, is really the lord of the clan, no, it seems to be the lord of the two clans!

"I have seen Senior Chu!"

Huangfuqin and others were shocked and immediately saluted respectfully.

Tianle!

The genius of the fairy clan, and a six-star martial sage, this is a real big shot!

However, these characters actually went home with their owner, and they seem to be very kind, what's the relationship? Afraid it wasn't the mistress who came back?

Huangfuqin and others secretly exchanged their eyes, and they all felt the excitement of the other party.

"You should all know these two, Ji Ruxue and Murong Xianxian."

Su Lang ignored the reactions of Huangfuqin and others, and continued to introduce Ruxue and Xianxian.

Of course, Huangfuqin and others knew about Ruxue and Xianxian.

Because Su Lang once asked them to send someone to search for them.

The relationship between these two women and Su Lang is extraordinary.

Therefore, Huangfuqin and others once again saluted together: "I have seen a snow girl, a slender girl!"

Ruxue and Xianxian followed Su Lang and were respectfully saluted by Wu Sheng. So they didn't panic and responded generously.

"From now on, Ruxue and Xianxian will participate in the management of the two clans."

Su Lang smiled faintly, "You have to help them."

[Chapter 584: My beautiful girl thug](#)

"Yes!"

Everyone responded, without the slightest objection.

"I am coming back this time, besides bringing Ruxue and Xianxian back, I also plan to improve the formation."

Su Lang continued, "You should leave now and practice hard."

"Follow the order of the patriarch!"

Huangfuqin and the others bowed respectfully and retired.

Yan Xingxing also hid in the formation, continuing to guard the time and space cracks.

"Brother Su Lang, I want to go back to Blue Star to see." Ji Ruxue smiled.

"Okay, I just want to go back and have a look."

Su Lang readily agreed, and then brought the three women to the crack of time and space.

"Wow, so you are the intelligent race on the mainland fragments!"

Chu Xiaobei looked at the cracks in time and space and exclaimed, "No wonder I have never heard of your human race!"

"Haha."

"The place where our human race lives is called Blue Star."

"Blue Star is not a fragment of a continent, but a more advanced core fragment of the boundless world."

The corner of Su Lang's mouth raised and said, "Our human race has flown from the core of the boundless realm to this place."

"what?"

Chu Xiaobei was stunned, "The Core Fragment of the Boundless Realm!?"

Huangfuqin knew a little about the boundless world, and Chu Xiaobei naturally knew more and more detailed information.

"Boundless World, that is the center of the entire universe!"

"The intelligent race living in the Boundless Realm, any one can hang our entire Canglan Continent!"

"Your human race, turned out to be an intelligent race of the boundless world!? This...is this true or not?"

Chu Xiaobei was horrified, and his body couldn't help but tremble slightly, causing waves of dazzling waves.

"Whether it's true or not, you'll know when you get to Blue Star."

Su Lang smiled noncommittantly, and immediately activated the formation, opening the gap in time and space.

Wow!

Like a huge vortex that continuously rotates and consumes the surrounding void, a passage appears in the sky.

"go!"

Su Lang hugged left and right, rushing into the space-time passage with Ji Ruxue and Murong Xianxian, and Chu Xiaobei immediately followed.

Entering the passage of time and space this time, the feeling of imbalance of the five senses is getting milder and shorter.

Soon, the blue star's land appeared in the field of vision, and the horizon formed a beautiful arc in the distance.

"The rules here are more active, more prominent, and more complete!"

As soon as Chu Xiaobei appeared, he felt the difference in the rules here. A small mouth opened slightly in surprise, and he sucked in a cold breath.

"I didn't lie to you."

Su Lang was slightly proud, "Although our Blue Star is not as rich as the Canglan Continent, our world level far exceeds the Canglan Continent."

"This is really the core fragment of the Infinite Realm!"

"Your humans... are too happy!"

Chu Xiaobei said with emotion, "I can live in such a high-level world from birth."

"Heh~ what happiness is there."

"The manifestation of rules is more conducive to comprehension, but it is good to aim at warriors above the saint."

Su Lang shrugged helplessly, "The low-level warriors of our human race are very hard pressed!"

"Yes."

Chu Xiaobei nodded and said, "The spiritual energy here is indeed too thin, and it shouldn't be like that."

"Our Blue Star didn't have any aura two thousand years ago."

"I guess it has lost its spirit in the long years of its existence."

Su Lang said, "Then, perhaps because of being close to the Canglan Continent, and being affected by some, aura burst out again."

"No matter what, this place is an absolute treasure."

"In addition to the manifestation of rules, which is more conducive to comprehension, there are other magical effects."

Chu Xiaobei took a deep breath and said, "Even Emperor Wu will covet it!"

"So, I beg you not to leak the secret."

Su Lang patted Chu Xiaobei on the shoulder and smiled.

"Huh, pervert."

Chu Xiaobei moved her body and dusted the non-existent dust on her shoulders, "I am not that kind of person, Chu Xiaobei."

"Well, I can actually trust you, otherwise I won't bring you here."

Su Lang smiled, "If you need to understand the rules, my Blue Star can lend you a use."

"Really!?"

Chu Xiaobei was surprised, "I really need to understand the rules, I almost broke through to the Seven Stars!"

Then you break through, my beautiful girl thug!

Su Lang smiled secretly in his heart, Chu Xiaobei, receiving this favor, must help guard the Blue Star.

This is to tie this stinky sister more and more firmly!

"of course it's true!"

"When I spoke to Su Lang, when did I regret it?"

The corner of Su Lang's mouth raised slightly, and he waved his big hand, "Go, let's go down and stroll around."

### [Chapter 585: Evolution Youtian Sword](#)

When he came back this time, Su Lang didn't intend to make a big noise.

The main purpose is to accompany Ji Ruxue and Murong Xianxian to see their homeland and recall the happy time before.

Therefore, he did not go to Xuanyuan Wudao Academy to pretend to be forced, but took the three daughters to Nanlin City, Dongfang City, and Red Maple Town.

At the end of the war, the Fengling clan gave up the control of the beast, and still thrived.

These fierce beasts have become wild species, and they have gradually been domesticated and become spiritual pets.

However, the ones that have not been domesticated are still very cruel and need to be hunted.

But the beast wave will never appear again, which makes every city feel relieved and begin to grow and develop.

A peaceful life makes people have stronger spiritual needs, so many weird things have been made out.

Chu Xiaobei has never been in contact with Blue Star's culture, so he will be curious about many things.

Ji Ruxue and Murong Xianxian followed her and ran around, while Su Lang stood aside, smiling softly.

However, Su Lang seemed to be doing nothing on the surface, but in fact he was paying attention to Youtian Sword.

From the treasure house of the saints of Yaochi, Su Lang obtained a total of twenty-nine souls of the \*\*\*\* of war and two souls of the \*\*\*\* of war.

This has already filled up the missing materials at the end of the Youtian Sword upgrade.

"system!"

Su Lang ordered, "Only retain the current characteristics, evolve the Youtian Sword!"

"Ding! Consumes the holy refining material Yuanshiyan\*6, Mingxin jade\*6, Bodhi Treasure Heart\*6, 蓄 Amethyst\*6... Extreme Heart Saint Lucky\*6 God-level refining material Valkyrie Soul\*10...The Youtian Sword has evolved into an Intermediate Saint Soldier!"

Inside the storage space.

The Youtian Sword's brilliance flashed, and the aura became more intense in an instant, and the three rules of "breaking defense", "lossless" and "slashing soul" became more powerful!

"This is the pinnacle of the Six-Star Sacred Artifact!"

"Tsk tusk, if the Youtian Sword was at this level when attacking Wuyang Devil's Cave, then Wuyang Martial Sage would die with a single sword!"

The corner of Su Lang's mouth raised, and a smile was drawn.

One day passed in a blink of an eye.

The Dongfang City of Nanlin City was not enough to play, and the three daughters of Chu Xiaobei just dragged Su Lang to continue traveling.

At this time, the three daughters of Chu Xiaobei were still playing outside.

Su Lang stayed in an inn with his eyes closed just like a man who was tired and paralyzed after shopping with a woman.

At this time, a system prompt broke the peace!

"Ding! Thunder rules have been understood! Do you accept it?"

"What!?"

The bored Su Lang suddenly widened his eyes: "By the way, I forgot, I can understand a rule in thirty-two hours!"

The automatic comprehension rule is a super abnormal new function that comes with the one-key training function when it reaches level 20.

At this time, this function comprehended the first rule for Su Lang, the rule of Thunder!

"System! Receive the Thunder Rules!"

Su Lang issued the order with strong expectations.

"Ding! Thunder rules have been issued!"

boom!

Su Lang only felt that he heard a thunderous thunder, and his whole body was numb.

Immediately afterwards, countless fine ray silks emerged out of thin air beside Su Lang.

This is not his deliberate manipulation, but a natural scene created by the manifestation of rules!

"Is this Thunder?"

Su Lang stretched out a hand, countless thunder and lightning came and passed, it was beautiful and unusual.

And behind this beauty, there is an extremely terrifying power.

As long as a trace of the power of the thunder system rules, Su Lang can turn the small city he is in into a thunder domain, and all creatures below the holy rank will be wiped out in an instant.

Of course, Su Lang would not do such a frantic thing.

"The power of rules is terrifying."

"This is why there is an endless moat between the Martial God and Martial Saint!"

Su Lang sighed and took the power of the rules.

at the same time.

Li Xianyang, who was far away in the heart of the mountains of the Yaochi saint race in the Canglan Continent, was staring at the thunder and lightning rules in his hand.

"This, this!?! I suddenly master the rules of thunder and lightning!"

Li Xianyang's eyes were bulging, and his face was incredible.

The power of rules, it takes more than ten thousand years for a martial sage to understand one roughly!

In Li Xianyang's more than one million years, he also comprehended dozens of superficial rules.

But now, he actually understood the rules of the Thunder System in an instant, which made him feel like he was hit in the forehead by a big pie of the sun.

## [Chapter 586: Of course I will do it](#)

"correct!!"

"It must be the master who understood the rules of the Thunder System!"

Li Xianyang suddenly realized that, and his awe and loyalty to Su Lang burst out again.

The other side.

"Next, what rules should I understand?"

It was time to make a choice again, and Su Lang had a headache.

After some thinking, he decided to start with the basic rules of the five elements.

The so-called basic rules of the five elements are well known in the world.

This is the most basic rule for constructing the world and the preferred rule for 99% of Wu Sheng.

Even, ordinary martial arts have no choice but to choose the basic rules of the five elements.

Because only these five rules are the easiest to manifest and comprehend.

Of course, this does not mean that the basic rules of the five elements are very profitable. On the contrary, these five rules are very powerful and the finest rules derived are the most.

At this moment, Su Lang's gaze was placed on the fire rules.

The fire rules and the thunder rules are the ultimate offensive rules, with great power, form and wind, and endless magical uses.

In addition, Su Lang encountered the embarrassment of not being able to refine the materials when he was refining alchemy and refining equipment. At that time, he planned to understand the rules of the fire system earlier.

"System, let me understand the rules of the fire system!"

"Ding! Fire rules have begun to comprehend!"

Inside the mysterious black space, the white haze on the self-cultivation villain immediately changed into white flames.

"Hey, after 32 hours, it's another rule!"

The corner of Su Lang's mouth raised, and he continued to close his eyes and rest.

...

Another day passed in a blink of an eye.

The four of Su Lang visited almost all the places on the Blue Star.

Including the forbidden areas in the eyes of the world, they have not let go.

Anyway, no creatures on the entire Blue Star can cause any harm to them.

After a tour, Ji Ruxue and Murong Xianxian stayed behind, assisted by Huangfuqin and others to manage the Human Race and Fengling Race.

Su Lang returned to Canglan Continent with Chu Xiaobei, who had already broken through to the Seven-Star Martial Saint.

Yes, after playing with Blue Star for two days, Chu Xiaobei broke through!

At this moment.

The figures of Su Lang and Chu Xiaobei appeared in the heart of the mountains.

"Blue Star is really fun!"

Chu Xiaobei tilted her head and flattened her mouth. "Unfortunately, it's too small. Just turn around and finish shopping."

No way, Blue Star is huge in the eyes of ordinary people, and Qiongqi can't finish it for a lifetime.

But in the eyes of Wu Sheng like Chu Xiaobei, it is just a small place, and it can't even compare with a small race.

"Haha."

"Next time, we will go to the moon and Mars to have a look."

Su Lang smiled, "I guess, those celestial bodies are probably also from the boundless world."

"indeed."

"I looked up at the blue star sky and found that at least a dozen stars have relatively strong rules."

"These stars, perhaps like the blue stars, come from the boundless realm."

Chu Xiaobei groaned for a moment, but he showed a hint of flattery, "Su Lang, when I break through Wuxian in the future, can I come and collect some stars into the inner world?"

"Oh, do you still want my stars?"

Su Lang raised his brows and smiled, "You are really getting more and more rude."

"Huh~"

Chu Xiaobei rolled his eyes, "Just forget it."

"Go ahead!"

Su Lang smiled, "If it were you, of course I would do it!"

"Humph!"

"I knew you would agree, hehe."

Chu Xiaobei was so happy that his eyes narrowed, "Don't worry, I'll take some corners and corners when I arrive, and I will leave the big stars for you."

"Yo, I'll take care of it."

Su Lang rolled his eyes and smiled lightly.

"Humph!"

Chu Xiaobei raised her chin proudly, and said, "By the way, you just accompany us to play these two days. The sky and sea of the Yaochi saints have not yet begun to refine, right?"

"Who said I didn't refine it."

"When you don't know, I have already refined all the accessories of the sky sea."

The corner of Su Lang's mouth twitched, "I'll find Yan Falai from Yaochi later, and assemble it for him on the spot."

"Really?"

Chu Xiaobei said in amazement, "I didn't notice any movement, you are almost refined, what a...freak!"

#### [Chapter 587: Taiyu Immortal Pill](#)

"I said, I am almighty."

Su Lang smiled lightly, "Okay, you just broke through, so you should go to consolidate your cultivation, don't wait for the realm to fall down and cry there."

"what?"

Chu Xiaobei said reluctantly, "But I really want to see you refine the sea of sky."

"Don't worry."

"My cultivation base will also break through."

Su Lang said, "After the breakthrough, I will refine the sea of sky."

After staying at Blue Star for two full days, Su Lang's cultivation was long enough for two breakthroughs.

It's just that he didn't choose to break through for the time being, but stored his cultivation base.

In addition, the five god-level exercises are about to be practiced to the founding level!

"Wow, you are going to break through again!?"

"Tian Le, you are really a monster!"

Chu Xiaobei looked horrified, "My unparalleled level of aptitude is nothing compared to you. What kind of aptitude are you!?"

"Haha, I don't have the qualifications for cultivation." Su Lang laughed.

"You lie to the ghost!"

Chu Xiaobei rolled his eyes fiercely, "Okay, I'm going to consolidate the cultivation base. When the realm is consolidated, my combat power may reach the quasi-xian level, hehe!"

Hey mao.

A good high cold girl, but her heart is like a sand sculpture girl.

Su Lang complained in his heart and smiled slightly on the surface: "Then, see you next time."

"Bye!"

Chu Xiaobei said goodbye to Su Lang, which was a word she learned on Blue Star.

The two bid farewell, Chu Xiaobei retreated to consolidate his realm, and Su Lang also turned and walked to the room.

At this time, a door opened.

"the host!"

Li Xianyang bowed respectfully to Su Lang, like a slave.

Before Su Lang was talking to Chu Xiaobei, he didn't dare to interrupt, so he ran out at this time.

"Well, how is your soul injury?" Su Lang asked lightly.

"Soul injuries..."

Li Xianyang replied respectfully, "Master, my soul injury has healed a little and a half, and the soul origin has not improved much."

"It seems that the effect of that quasi elixir is not very big."

Su Lang frowned and said, "You wait, I will refine an elixir for you to try."

"This is the elixir!!"

Li Xianyang was shocked on the spot.

Although Su Lang had told him that he could refine the elixir.

But Su Lang said casually that he wanted to refine the elixir, which was as simple as rubbing a mud pill. This was really shocking.

"What are you doing all the fuss about, can it be a little bit pattern?"

Su Lang waved his hand, "Go go, go to the closed room and wait."

"Subordinates obey!"

Li Xianyang trembled and hurriedly bowed to leave.

Look at his cautious look, just like those little eunuchs in the palace...

Li Xianyang left.

Su Lang entered his room and ordered the system to refine pills and synthesize elixir.

With the efforts of the system, an elixir was quickly synthesized.

And to synthesize this elixir, it consumes a thousand holy-rank spiritual healing pills.

But Su Lang distressed for a while!

at this time.

Su Lang is observing the elixir in his hand.

It was the first time he had refined the elixir, so he was very curious.

The elixir in my hand is called Taiyu Immortal Pill, and it is orange-red with irregular dents on the surface, just like a...sugar orange! ?

Taiyu Immortal Pill is the lowest elixir.

But even the low-level elixir, the power of the above rules is terrifying to the creeps!

"With such a powerful elixir, Li Xianyang will definitely change from a middle-aged and elderly person with kidney deficiency to a strong young man instantly after taking it, hehe."

Su Lang smiled with satisfaction, and immediately put the elixir into the storage space.

Next.

It's time to break through the cultivation base!

"System, give me a breakthrough!"

Su Lang closed his eyes tightly and gave an order, and his body instantly turned into a black hole.

This time, Wu Zun's two small realms broke through one after another, and the movement was more than before.

The spiritual energy in the heart of the mountains is like Baichuan Nahai, pouring into Su Lang's body one after another, and the spiritual fog forms a funnel cloud in the sky, which is quite spectacular.

And in his body there are countless liquid auras appearing out of thin air, like lead and mercury, integrated into the dantian spiritual core.

At this time, the shape and size of the spiritual core has not changed anymore, but it has become more and more empty and transparent.

The film that seemed to be able to rub at any time seemed to become thinner and thinner.

"Achieved, the realm of advanced martial arts!"

Su Lang's eyes opened suddenly, as if two searchlights were turned on, shooting out a dazzling light.

Immediately afterwards, the light disappeared, Su Lang returned to normal, and his breath was again covered by Xuanyun Jingyue Fire.

[Chapter 588: Five more god-level exercises!](#)

at the same time.

Li Xianyang, who was waiting excitedly for the elixir in the room, also grew his mouth in shock again!

"My cultivation base has broken through again!"

Li Xianyang trembled with excitement, "My Lord is really a super genius unparalleled in the sky and the earth for generations!"

And at this moment.

He suddenly discovered that he had mastered five god-level techniques in an instant.

Yes, it was the five god-level techniques that Su Lang practiced that reached the founding level!

"I drop the sky!"

"Understand and master the five god-level techniques in an instant!"

Li Xianyang's chin is about to fall, "The master's innate and savvy can't be described by evildoers at all!"

In the room, Su Lang hooked his mouth and opened his attribute panel.

"Properties panel!"

"Hahaha!"

"It has directly reached the quasi-sage + realm."

Su Langchang smiled, "Unfortunately, the gap between the quasi-sage and the holy level is really too big, otherwise I am afraid I have reached the holy level now."

Immediately after.

He once again selected five god-level exercises.

They are "Chongxu Underworld Sword Picture", "Wu Shen Shen Body Jue", "Nine Color Jade Cicada Sutra", "Shen Luo Wanxiang Jue", and "Secret Method of Extinguishing Heaven with Blood Flame".

The first "Chongxu Underworld Sword Picture" is a synthesis of, as the name suggests, a god-level sword art.

The second "Wu Shen Shen Body Jue", obtained from Huangfu Qin, is a god-level forging exercise technique, mainly to increase the endurance of battery life.

The third "Nine Color Jade Cicada Sutra", also obtained from Huangfuqin, is a body-building exercise of its own type.

The following two exercises all come from Yanxingxing, which is the god-level exercises Yanxingxing obtained from a martial sage inheritance, or it is a secret technique.

Among them, "Shen Luo Wanxiang Jue" is a secret technique for changing the appearance and atmosphere of the body.

With this, Yan Hingxing was hidden in the main city of the Fengling Clan, and Huangfuqin of the quasi-sage realm could not see through it a bit.

"The Secret Method of Extinguishing the Sky with Blood Flame" is an explosive secret method that hurts oneself eight thousand and wounds ten thousand enemies.

This secret technique is similar to the secret technique used by Owenyao in the battle of Wolong Mountains.

The blood flame extinguishing sky secret method is practiced to the founding level, which is extremely useful for Wu Sheng, enough to be used as a hole card.

"System, place the technique!"

"Ding! The exercise is successfully placed, and it has started to practice automatically!"

"well."

Su Lang nodded in satisfaction, then opened the door and shouted, "Li Xianyang, come and see me."

Li Xianyang, who heard Su Lang's call, ran over immediately.

"Master!"

Li Xianyang stood in front of Su Lang, not even daring to straighten his back.

Su Lang understood that the old servants were always hunched in the TV series he watched before.

Being an old servant for a lifetime, the habit becomes natural, of course it is a camel.

"Take this elixir."

Su Lang lightly handed out the Taiyu Immortal Pill.

"Thank you Lord Longen!"

Li Xianyang immediately knelt on his knees, hit his forehead on the ground, and respectfully held the elixir with both hands.

"Ok."

Su Lang smiled faintly, "Heal your wounds sooner, don't be vain all day long."

"Slave to follow orders!"

Li Xianyang knocked his head heavily before retiring with the elixir.

### [Chapter 589: You really don't want to die](#)

Wait for Li Xianyang to leave.

Su Lang sent a message to Yaochi Yan Fa.

He was told that he was about to start refining the sea of sky.

Immediately afterwards, Su Lang came to Chu Xiaobei's door, knocked on the door, pressed his face to the door and said, "I'm going to refine the sea of sky, are you going?"

"Of course I am going!"

With Chu Xiaobei's voice, the door opened instantly.

Su Lang was sticking to the door, and he drove forward when he was caught off guard, and the two \*\*\*\* in front of him gradually occupied his vision.

"what!"

Chu Xiaobei screamed, and quickly turned away, "Su Lang big pervert, you really don't want to die, you don't change your sex!"

"Pooh!"

"Not because you suddenly opened the door!"

Su Lang stood steadily, embraced with his hands, and rolled his eyes.

to be frank.

I really want to experience the feeling of facial cleanser.

Unfortunately, Chu Xiaobei flashed too fast!

"Humph!"

Chu Xiaobei glanced at Su Lang disgustingly, "You are not allowed to ride my Xiaobai after a while."

"Tsk tsk."

Su Lang raised his brows, "I made the big bird."

Chu Xiaobei retorted: "But it's mine now, only I can use it!"

"Cut! Where is Snow and Slender?"

"Humph!"

...

Chu Xiaobei finally allowed Su Lang to sit with Xiaobai.

quickly.

The two came to the location agreed upon with Yaochi Yan Fa.

Yaochi Yan Fa and the other four martial sages are suspended in the air.

Under them

——Wow, it's really crowded!

At a glance, people from the Yaochi saints are everywhere in the sky and underground, and even spread to the place where the sky and the earth meet.

Su Lang estimated that the number of people who came would be 100 million!

At this moment, seeing the arrival of Su Lang, the people of the Yaochi tribe below were excited.

"It's Master Su!"

"Wow, Lord Su is so handsome!"

"Oh my god, that big white bird is so beautiful!"

"Master Su and Miss Chu are really a pair of jade men made in heaven!"

"Our Yaochi nationality's iconic high-level sacrificial artifact will be born from them soon, so excited!"

"..."

People in the unit of billions are making noise, the sound is really like a volcanic eruption and a tsunami!  
Simultaneously.

Yaochi Yan Fa and other five sages respectfully greeted him: "I have met Young Master Su and Miss Chu!"

"Patriarch Yan Fa, are you calling all the Yaochi people here?"

Su Lang pointed at the dark crowd below and smiled, "It's just a practice, why make such a big movement?"

"Haha!"

"Master Su, this matter is a trivial matter to you, but it is the most important event in history for us Yaochi!"

Yaochi Yan Fa smiled and said, "The high-level sacred artifact, and it is the iconic sacred artifact of our Yaochi people, this meaning is really too great!"

"Well, it doesn't affect me anyway."

Su Lang shrugged his shoulders indifferently, "It's not too late, just start like this."

"it is good!"

Yaochi Yan Fa and others nodded again and again, all old faces almost burst into laughter.

next moment.

With a wave of Su Lang's big hand, thousands of 'parts' of the sea of sky spilled out, floating up and down in the air.

These parts alone exude dazzling light and majestic breath.

Among them, the lowest-level parts have reached the level of the \*\*\*\* of war, which can be called an artifact.

And there are quite a few who have reached the holy rank, twelve of them!

Thousands of treasures were suppressed by the horrible atmosphere, and the billions of people of the Yaochi tribe felt it was difficult to breathe and their movements were slow.

The five martial sages including Yaochi Yan Fa were also dumbfounded and dumbfounded.

day!

Are the parts just so scary?

Stormy waves rose in everyone's hearts.

Immediately after.

Su Lang flicked with one hand and a saint step vessel appeared

—Yes, this time it was refined by the decomposition of the water moon gold furnace.

No way, although the secret library of the saints of Yaochi has been searched, it is still poor. If you can use it, just use it.

As soon as the saint stepping device appeared, Yaochi Yan Fa and the others kept their eyes on it.

At this time.

Su Lang stretched out his hand and took a piece of 'Holy Parts' into his hands!

#### [Chapter 590: Began to refine the sea of sky](#)

"It's getting started!"

"Look! Su Gongzi has started refining!"

"I thought it was Miss Chu who did it, but I didn't expect Young Master Su to refine it herself."

"Su Gongzi is the real genius. The young people of our Yaochi ethnic group can't compare to Su Gongzi's toe."

"Yes, it would be nice if I had a one-thousandth excellent Master Su."

"Cut, I'm satisfied as long as Young Master Su is one out of ten thousand excellent!"

"..."

During the discussion, Su Lang threw the sacred 'parts' in his hands into the cauldron, and then stretched out his hand, twelve top-level artifact 'parts' filed into the cauldron.

"Thunder!"

Su Lang's eyes flashed, and endless thunder was born from the void, forming a terrifying thunderland around the cauldron.

Yes, this time the refiner Su Lang directly used the Thunder System rules.

Although during alchemy, thunder and lightning are definitely not as easy to control as flames.

But after mastering the rules of thunder and lightning, it can be controlled from the heart, and the effect is actually similar to that of flames.

The point is, the use of lightning is really exciting.

You see, the fans below are all boiling...

"God! It's the power of thunder and lightning rules!"

"So handsome, Young Master Su is like Thor!"

"The power of the rules can only be mastered by Martial Saint. Has the realm of Su Gongzi reached the level of Martial Saint!?"

"No, I observe Su Gongzi's aura fluctuations, obviously only Wu Zun level?"

"Then what the \*\*\*\* is going on? Is it possible that Young Master Su has understood the rules only at the Wu Zun level?"

"It can only be so. Young Master Su's talent is really terrifying! A step that Quasi-Sage has been difficult to take for tens of thousands of years, but he has passed it at such a young age."

"..."

Countless people were talking in astonishment, their voices buzzing, spread all over the world, the scene was vast.

The five sages including Chu Xiaobei and Yaochi Yan Fa were also extremely shocked.

Wu Zun level comprehend the rules, such a thing is really unheard of, they have never seen anything like this.

"Su Lang, the big satyr, understood the rules without saying a word..."

Chu Xiaobei couldn't help widening her beautiful eyes, "Such a qualification is so many times higher than I don't know. My unparalleled qualification is simply not enough."

Although she had an unparalleled qualification, she understood the rules earlier than other warriors, but she only understood the rules at the intermediate Martial God realm.

"Young Master Su Lang may be the most qualified existence in Canglan Continent!"

"As long as there is no accident, Young Master Su Lang will definitely become a generation of Emperor Wu!"

Yaochi Yan Fa and the others looked at each other, their faces full of surprise.

at this time.

The Qi Ding surrounded by thunder and lightning turned red, and Su Lang immediately played countless Qi tactics and began to fuse the sacred 'parts' and the twelve \*\*\*\* 'parts'.

Because Su Lang's refinement level is supreme, there is no difficulty in this work at all.

In just a few dozen breaths, thirteen parts are integrated.

Immediately afterwards, Su Lang opened the cauldron, and a stronger and larger 'part' came out.

Yes, this is still part of the 'part'.

Su Lang temporarily put this part aside, and then repeated the previous work.

Combine the remaining eleven holy parts with 132 artifacts to form eleven more powerful holy parts.

If the previous twelve holy parts were the lowest one-star sacred artifacts, the twelve holy parts at this time reached two stars.

A more majestic coercion dropped from the top of the twelve holy parts to the ground, and the Yaochi people below felt suffocated.

Those with weak cultivation bases even couldn't stand firmly, and they were about to vomit blood.

Some Yaochi warriors immediately opened their formations, or opened their own warriors domain to resist the pressure of the sacred instruments, so as to avoid casualties.

"Just these twelve sacred artifacts parts are already so powerful, how terrifying it would be if the real sky sea is refined!"

Yaochi Yan Fa and other five saints stared at the twelve saint-level parts that were floating in the air, all of them trembling with excitement.
