

Back at his home, Su Lang began to worry again.

It is impossible to earn 94 gold coins to work. It is impossible to work in a lifetime.

I can only think of other ways like this...

After a moment of contemplation, Su Lang's inspiration flashed, and he thought of two ways.

The first one is to sell the house!

Although Su Lang's house was ordinary, it was worth twenty or thirty gold coins.

Although you will be homeless after you sell the house, as long as the system is upgraded, is it not a matter of minutes to become a more advanced warrior?

When the time comes to buy a house, it is not a large villa covering a few acres without even looking at it!

The second method is to go to the Martial Arts Alliance Hall to receive the primary body tempering allowance.

The Warrior Alliance was established by the Warriors thousands of years ago to resist the invasion of beasts.

Today, it has become an official organization, covering all bases, large and small, with super powerful dominance.

In order to stimulate people to continue to practice and become stronger, resist the fierce beasts and protect their homes, the Martial Arts Alliance has launched generous benefits for the warriors.

Every ordinary person who is promoted to the primary body tempering can go to the Martial Arts Alliance to receive 10 gold coins as a training capital.

And every time you break through a small realm, you can go to the Warrior League to receive a allowance, and the higher the realm, the more generous the reward.

For example, if you break through from the primary body tempering to the intermediate tempering body, you can get 20 gold coins.

In addition, the warrior can receive some allowances every month, of course, it cannot be compared with the amount received by breaking through the realm.

"This benefit is really great!"

Su Lang was very excited, "Go to sell the house first, then get the allowance, and then go to the F-class Wind Wolf area to see the cluttered strongholds of the Broken Axe Hunting Group."

Just do it, Su Lang immediately began to pack up and salute.

Because the home was simple and humble, there was nothing to bring, so Su Lang soon carried a backpack and went out with Tang Dao.

After leaving the community, Su Lang found a shop nearby to buy second-hand houses and sold the house for 25 gold coins.

Because the shop is very familiar with the community where Su Lang is located, even the process of home inspection is omitted, which is much more convenient.

Holding 31 gold coins, Su Lang got on the Aura bus and rushed to the Wuzhe League Building.

After the disaster, the science and technology tree collapsed, and most of the science and technology products were useless. Traditional cars were one of them.

Neither gasoline cars nor electric cars can be used.

However, two thousand years are enough time for mankind to develop a new means of transportation-Aura cars.

It's just that Aura cars are extremely expensive, and the cost of operation and maintenance is also very high. It is difficult for even an official fighter to own a private Aura car.

As for catching beasts as mounts?

That is impossible. Countless people have tried for thousands of years, but no one succeeded...

The Reiki bus kept moving forward, while Su Lang sat in his seat and stared at the white little man in the one-key practice space.

At the first taste of the sweetness of a breakthrough, Su Lang couldn't bear to leave the white villain for a moment.

Looking at the golden air flow that keeps running, and feeling the aura that keeps pouring into the body, it's not too cool! !

...

Half an hour later, the Lingqi bus arrived at the Wuzhe League Building.

"This is the Martial Arts Alliance Building? It really looks impressive!"

Su Lang got out of the car. He was very knowledgeable and shocked by the buildings in front of him.

This building is like a black crystal cast, very tall, and more than several times taller than the Dubai Tower in the impression.

Its area is also extremely wide, just like a giant mountain.

The Warrior Alliance Building is the base of the Warrior Alliance. There are not only various offices, but also various shops, training rooms, exercise rooms, and so on.

What Su Lang was going to was an office dedicated to receiving allowances.

This office is on the ground floor of the building, also known as the Hall of the Warrior Alliance, with a very large area and magnificent splendor.

There are no less than a hundred people coming and going in the hall, just the reception window!

These reception windows are divided into levels, and the warriors of the corresponding realm look for the corresponding windows to do things.

Higher-level warriors have the privilege to use lower-level windows first.

Privileges are everywhere in this era where martial arts are respected and power is attributed to individuals.

"The Body Temperer Window... here..."

Su Lang looked around and walked to the left.

Body tempering is the lowest level of warriors, and there are many people who come to receive allowances, and there is a long line in front of each window.
