[Chapter 631: Can't wait for the prospective saints](#)

"Subordinates obey!"

Yan Hengxing took his leave and went to open the crack in time and space.

Not long.

The formation of time and space cracks was opened, and a huge vortex appeared in the sky, occupying everyone's field of vision.

Seeing this scene, the warriors in the new city looked up and talked a lot.

"The crack in time and space has opened!"

"The crack in time and space has not been opened for a long time. This time it has been fully opened. I am afraid that there will be a big action!"

"Haha, could it be that the brothers and sisters of Human Race are going to enter the Canglan Continent on a large scale?"

"Hey good, I haven't seen my Cuihua for a long time."

"Your sister, she sprinkled dog food for me."

"..."

The warriors whispered to each other, and the discussion was diverse.

However, they didn't know that at this time, there were tens of thousands of warriors and quasi-sages passing through the cracks in time and space to the Blue Star.

Yes, in order to avoid causing a sensation, and to avoid leaking the news, the figures of Su Lang who used the formation realm were blocked.

Silently, Su Lang led everyone into Blue Star!

Yan Hengxing, Huangfuqin and others were also accompanied.

Just entering Blue Star, Ji Ruxue and Murong Xianxian took their flying treasures to Su Lang's side.

"Brother Su Lang!"

"Su Lang, you are back!"

"..."

The two women surrounded Su Lang and laughed at Yan Yan.

But after only a few words, they ran to find Chu Xiaobei to play.

"These three girls have a good relationship."

The corner of Su Lang's mouth twitched, revealing a slight smile.

at the same time.

The Valkyrie of the Three Sages and the quasi-sages have already felt the difference in Blue Star.

"The rules here are so active!"

"It's easier to understand the power of rules here!"

"This feeling... the place where the Lord brought us here is probably a higher level world than Canglan Continent!"

"The Lord is too powerful, there is such a treasure!"

"..."

Thousands of war gods and Zhunsheng couldn't help but talk, and some warriors even meditated on the spot and began to understand the rules.

"Don't worry, everyone."

"Don't understand the rules here."

Su Lang waved his hand in a dubious manner, "I will take you to the prepared place."

Time and space cracks are close to big cities such as Blue Star City. Once someone breaks through to Wu Sheng, it will cause a huge sensation.

If Wu Sheng appeared one after another, it was likely to cause panic and disrupt the order on the Blue Star.

After Su Lang spoke, those warriors who had begun to comprehend the rules only received a little regret.

Then, under the leadership of Su Lang, tens of thousands of people came to a remote sea island.

There is the sea around here, no one comes at all, it is not easy to be disturbed, and when the martial artist breaks through the martial arts, it is not easy to cause a sensation on the blue star.

"Everyone is practicing here."

"I hope you can break through the martial arts realm as soon as possible, I need your help."

As Su Lang said, he looked at Yanxingxing, "You and Huangfuqin are also practicing here, by the way, manage these personnel.

The job of guarding the cracks in time and space is temporarily handed to me, just as I want to reform the formation. "

It was Su Lang's plan to transform the guardian formation of the two clans and the cracks in time and space, but something was delayed.

When I come back, I will do it.

"Yes, patriarch!"

Yan Hengxing and Huangfuqin bowed.

Su Lang took out some holy grade pills and quasi-elixir pills to them, and went to the time and space cracks alone.

Next.

Under the arrangement of Yanxingxing and Huangfuqin, the three tribal gods and quasi-sages began to practice and comprehend the rules.

From time to time, someone took out a quasi elixir and cautiously took it into the belly.

On the top of the island mountain, Chu Xiaobei and Ji Ruxue Murong Slim sat facing each other and took out an elixir.

This elixir is the immortal soul pill, the elixir of three tribulations.

"Is this the elixir?"

"Gave me a strange feeling!"

"Well, I think I have to stay away, or it will be dangerous."

"..."

Ji Ruxue and Murong Xianxian looked at the pill in Chu Xiaobei's hand, and couldn't help feeling dizzy and confused, and immediately raised their vigilance.

"This pill is indeed too dangerous for you, even the smell is not smellable!"

Chu Xiaobei smiled and said, "You go and play, I want to practice, and strive to break through to the Eight-Star Martial Saint as soon as possible."

"We don't want to play."

"Sister Xiaobei, let's go to the sky to watch you, can we protect you?"

Ji Ruxue turned her smart eyes, and Murong Xianxian nodded heavily.

[Chapter 632: Cangkong Phantom United Fairy Array](#)

"Okay!"

Chu Xiaobei smiled and nodded, "But you have to be farther apart!"

"There will be no problems with the flying treasures that Brother Su Lang has refined for us."

Ji Ruxue and Murong Xianxian smiled and flew high into the sky.

Look down from the air.

Every certain distance on the entire island, there is a quasi-sage or peak warrior or cross-legged meditation, or eyes closed, or taking pills, or whispering.

Because the warriors understand the rules, a trace of anomaly appears on the island from time to time, which is quite strange!

"We will also understand the rules in the future and become a martial artist!"

"Well, at least you have to become a martial artist to be useful to Brother Su. I don't want to be a vase."

Although it was difficult, Ji Ruxue and Murong Xianxian made up their minds to become Su Lang's good helpers.

The other side.

Su Lang had already come to the crack of time and space of Blue Star.

Strictly speaking, it didn't take long for the formations here to be deployed, but they could no longer keep up with Su Lang's pace, and could no longer protect Blue Star's safety.

"Liutianlou is so powerful that you have to deploy a fairy-level formation."

Su Lang thought while checking the formations he had mastered.

The formations currently mastered are all holy steps, coming from Li Xianyang and the holy land of the holy cities.

"I remember that Li Xianyang had burned some Array Dao classics, look for it."

Su Lang took out all the classics engraved by Li Xianyang and began to search through ten lines.

Soon, he found the Zhendao classics.

This is a sacred formation, but it records a comprehensive formation of immortality for the first time.

This formation is called the Cangkong Phantom Immortal Formation, and it is equipped with defense, counterattack, illusion and mental defense. Although the level is only a catastrophe immortal level, it is really good.

"It's you!"

Su Lang clicked the corner of his mouth and began to study the layout of this formation.

Not long after, this formation was completely mastered by him.

"Next, it's time to synthesize the fairy-level materials needed for the formation."

"Although this formation is a fairy rank, most of the materials are holy ranks. It's really a friendly formation."

With a happy mood, Su Lang quickly synthesized the required materials, and used the one-key refining function to refine the sky phantom fairy array.

A pink piece the size of a millstone appeared in Su Lang's hands.

Engraved with dense arrays of texts, it makes people dizzy at first glance.

This is the formation of Cangkong Phantom Immortal Formation.

However, after refining the formation plate, Su Lang did not end there, but began to refine more sky magical fairy formations and holy rank formations.

His purpose is to use multiple immortal formations and holy formations to form a combined formation to improve the various abilities of the formation.

Even with the help of a key refining array, this process took Su Lang a lot of time.

Fortunately, what Su Lang worried about did not happen

—Lantian Tower hasn't appeared in the holy city, at least it hasn't appeared on the surface.

At this moment.

Su Lang had already refined the first immortal rank united formation, possessing the power of the two tribulation martial immortal rank.

Although it seems that it has only improved a small level, the power of the increase is very scary.

The higher the realm, the greater the gap between the smaller realms.

At the level of Wuxian, a small gap is like a chasm!

That is to say, Su Lang's Array Dao attainments are extraordinary, and only then can he use the One Tribulation Immortal Array and the Holy Step Array to lay out the Second-Order Immortal Array.

It was impossible to do so with any immortal formation mage.

"This formation has the power of the Second Tribulation Martial Immortal rank, and it has the ability to explode!"

"Once the defense is insufficient, it will explode and destroy, and die with the enemy!"

"Not only that, the time of self-destruction can also destroy time and space cracks, causing time and space turbulence, making people unable to pass through time and space cracks in a short time, um, yes!"

Su Lang was very satisfied with his work, and with a big wave of his hand, he began to set up this joint two-tribulation immortal formation.

Because it is based on the array plate, the layout is quickly completed.

Su Lang took out one million middle-grade spirit jade from the system and embedded it in the formation as energy.

No way, the concentration of aura on the blue star is still too low to support the operation of the immortal formation.

After releasing the energy, Su Lang cancelled and decomposed the originally arranged holy step formation, restored it to materials, and then activated the new formation.

[Chapter 633: Become a construction mad](#)

"Cangkong phantoms unite the immortal formation, come!"

Su Lang pinched the tactics with both hands and activated the United Immortal Formation.

Suddenly, a layer of pink mask stretched out from the main array and gradually swallowed the sky.

After a while, the entire sky turned a faint pink!

"I don't know who created the sky phantom fairy array. It turned out to be pink. It's really a show bag."

Su Lang rolled his eyes silently, and immediately activated the Array Magic function, transforming a blue sky and white clouds.

"Here is finished, and there is still Canglan Continent."

"The formation of the sea of sky can be upgraded."

"Chiri Holy City, Chiri Mountain, Tianyun Holy City, and Tianyun Holy Realm must also be deployed."

"Hi, I feel like a construction madman."

"..."

While grumbling, Su Lang opened the time-space crack and came to the entrance of the time-space crack in Canglan Continent.

Using the same method, Su Lang arranged a second azure phantom united immortal formation to protect the entrance to the crack in time and space.

By the way, the newly built city was also protected.

As for the main city of the Wind Spirit tribe, Su Lang found that everyone was gathering here, and the main city of the Wind Spirit tribe was likely to become a secondary city, so he didn't bother to change the formation.

Immediately, through the dispatch of clones and substitution of clones, he arranged the Cangkong Phantom Alliance Immortal Array in the four places of Chiri Holy City, Chiri Mountain, Tianyun Holy City, and Tianyun Holy Realm.

Compared to the Blue Star, the three sky phantoms of the Canglan Continent combined with the immortal array Su Lang Duzhi and left one hundred thousand high-grade spirit jade.

Because the aura of the Canglan Continent is very strong, especially the holy city and holy land, there is no need for too much spiritual jade.

Of course, as for energy, the more sufficient the better.

After finishing the formation, Su Lang immediately notified the patriarchs of the two clans, Chirimuzhu and Tianyunzhi.

"what!?"

"The Lord has arranged a fairy-step formation for our holy city and holy land!"

"It's great, great, the safety of our lair is guaranteed with the fairy-step formation!"

"The Lord is so kind to us!"

"Thank the Lord so much!"

"..."

The martial sages of the Chiri Saint Clan and the Tianyun Saint Clan were grateful.

At this time.

Su Lang's figure appeared above the sea of sky.

"The Lord is back!"

"The Lord has such a magical means of teleportation, it's really unheard of!"

"Can you guess the miracle of the Lord!?"

"..."

In the sea of sky, the martial gods looked at Su Lang excitedly.

And Su Lang was looking down at the sea of sky.

Originally, the sea of sky was refined for the saints of Yaochi.

But now the Yaochi saints have become Su Lang's assets, and of course the sea of sky is back in his hands.

"The sea of sky is one of my reliance against the Slaughter Tower."

"So not only must the formation be upgraded, but it must also be strengthened."

While thinking, Su Lang flew to the top of the sea of sky.

"Yan Fa, let everyone come out."

Su Lang's faint voice spread into the sea of sky.

"Yes, Lord!"

Yan Fa took the order, and immediately the sixteen martial sages and all the warriors evacuated from the sea of sky.

"These are the formation keys of Cangkong Phantom and Immortal Array, you keep them."

Su Lang threw a lot of keys and jade slips (instructions) to Chiri Muzhu and Tian Yunzhi.

"Thank the Lord for the generous gift!"

The patriarchs of the two clans knelt down and thanked them for a long time.

That's a fairy formation, a real fairy formation!

"All get up."

Su Lang smiled faintly.

Chiri Muzhu and Tianyunzhi took their orders and immediately stood aside and watched.

Yaochi Yan Fa and the others are not enthusiastic.

Because they knew that the reason why Su Lang asked them to evacuate from the sea of sky was definitely not aimless. Most of them wanted to reform their formation.

At this time.

Without the auspices of the martial gods and martial sages, the power of the sky sea gradually declined by more than half.

Outside the holy city of Yaochi.

A warrior looked up at the sky and discovered the anomaly of the sea of sky.

This martial artist looks ordinary, but he is a member of the Slaughter Tower, with a cultivation base of six-star martial sage!

"The power of this quasi-immortal weapon suddenly dropped!"

"Unfortunately, the formation barrier still exists. At the moment, the city is under martial law and no one can enter or leave. I still can't get in."

"But the changes here can be reported to the adults, and maybe the adults can see something."

"..."

Thinking about it, Liutianlou Six-Star Martial Saint took out the jade card of transmission and prepared to send the message.

But at this moment, an accident happened suddenly.

[Chapter 634: Zhu 108](#)

I saw that the indigo light mask covering a large area disappeared instantly.

In the sky, the scene like an ocean disappeared.

"This is... the quasi-immortal weapon has been put away!?"

The Six-Star Martial Saint was surprised, and immediately used the technique, intending to sneak into the city.

But when he left, he hesitated again.

"Cai Liao is dead here, and it's probably a martial immortal who killed him!"

"If I sneak in, I can't hide from Wuxian's search, and my life will be in danger."

"And the quasi-immortal weapon was put away, it is probably a trap!"

"..."

The six-star Martial Saint of Luntianlou was more frightened as he thought about it, and in the end he even sweated.

"Fortunately, I am not so impulsive!"

"The most urgent thing is to send a message, and then leave this place."

Liutianlou Six-Star Martial Saint took a deep breath, even if he wanted to leave.

But at this moment.

A joking voice suddenly sounded in his ear: "Since it's here, let's save your life."

"what!?"

The six-star Martial Saint of Luntianlou instantly turned pale, his hair standing upside down.

He was found! !

escape! !

Without even thinking about it, the Six-Star Martial Saint of Tuantian Tower immediately turned into Streamer and fled towards the distance.

But as soon as he moved, he felt a terrifying mental attack falling on him.

"boom!!"

In the sea of consciousness, there was a violent silent explosion, and the six-star Martial Saint of Liutianlou darkened his eyes and died immediately.

"Ding! You get the Soul of the Intermediate Martial Saint*1, the Enlightenment of Space*1, the Seven-Color Nail of the Elementary Saint Soldier Flying Star*1, the Supreme Spirit Jade*5230, the High Grade Spirit Jade*220682, the Middle Grade Spirit Jade*3250684, the Lower Grade Spirit Jade*25653686, material for holy refiner..."

A system reminder appeared in Su Lang's mind.

"Ok?"

When Su Lang's expression moved, he saw Li Xianyang flying from a distance.

"Master Xianyang!"

"It's Master Xianyang here!"

"..."

Yaochi Yan Fa and others looked in awe.

In their eyes, Li Xianyang was not only a strong man who could kill the immortal in seconds, but also the highest-ranking servant around Su Lang, and he was regarded as their chief manager.

"It turns out that Li Xianyang killed it." Su Lang smiled faintly.

"Master!"

Li Xianyang saluted, "Just now, I sensed that there was a wave of Saint-level cultivation techniques outside the city, and immediately I found a sage martial artist sneaking up and killed him."

"well done!"

"Appearing nearby at this time, it is likely to be the people from Tutianlou."

Su Lang rummaged through the storage space and took out some things.

Among them is a red token with the character 'Zhu' engraved on the front and 108 on the back.

"This token, Cai Liao also has a similar one."

Su Lang said, "However, the sculpture is not Zhu, but Sheng, and the serial number is even higher."

"It seems that this person is the spy of the Slaughter Tower!"

Li Xianyang looked solemn, "They are already eyeing us!"

As soon as he said this, Yaochi Yan Fa and others also showed nervousness.

"do not worry."

Su Lang smiled faintly, "I will transform the sea of the sky. Even if the real martial immortal comes, it will be difficult to break the defense."

"Master...I want to transform the sea of sky!?"

Li Xianyang looked surprised, "The sea of the sky is a quasi-immortal weapon, is it to be promoted to a fairy-tool?"

"Not bad!"

Su Lang hooked the corner of his mouth.

"what!?"

"The Lord wants to promote the sea of the sky to an immortal weapon!"

"Fairy tools, even in the fairy clan, they are precious treasures!"

"We are blessed by the Lord, we really have accumulated hundreds of lifetime virtues!"

"Yeah yeah!"

"..."

Yaochi Yan Fa and others are going crazy!

At this time, Su Lang stretched out his hand, and the sea of sky shrank to the size of a palm.

Those buildings that depended on the sky and sea fell down, and Yaochi Yan Fa and others quickly supported them.

Immediately, Su Lang collected the sea of sky into the storage space.

"It's about to begin, the evolution of the sea of sky!"

Su Lang's eyes lit up slightly, and he gave instructions to the system.

[Chapter 635: Fairy sky sea](#)

"System, evolve the sea of sky!"

Su Lang did not choose to retain certain characteristics of the Sky Sea, because that would require certain materials to be consumed.

For the sea of sky to evolve into a fairy tool, it needs to consume a lot of holy-level materials and immortal-level materials.

The immortal-level materials on Su Lang are all synthesized, if the consumption materials need to be specified, it is definitely not enough.

Therefore, it can only evolve randomly.

Anyway, no matter how it evolves, it is also a defensive auxiliary type fairy weapon, and this will not change.

"Ding! Consumption of fairy-level materials, Extreme Saint Xianliu*2, Arctic Wangchen Stone*1, Wuying Cuiyu Jade*1, Photographic Wuxiangquan*2...

Saint-level refining material: Soul of Wusheng*5, Xuanshizhenyan*20, Mingxin Sacred Jade*30, Heart of Stars and Moon*30, Shocking Amethyst*50..., the sky sea evolved into Elementary fairy! "

The system prompt sounded, and a large amount of materials in Su Lang's storage space disappeared out of thin air.

The sea of sky has also successfully evolved into a primary fairy weapon.

Su Lang made a soft move, and the sea of sky after evolution appeared in his hands.

"this is!?"

Li Xianyang shouted in shock, "The breath of the fairy!"

He experienced the battle of the ancient continent and saw the fairy, so he immediately felt the unusual aura of the sky and sea.

"what!?"

"Have you finished upgrading the Sky Sea so soon?"

"The Lord hasn't done anything, the sea of sky has been upgraded to an immortal weapon!"

"What does it mean that the Lord hasn't done anything? That is the method of the Lord, we can't see through it at all!"

"The Lord is really amazing, I can promote the quasi-immortal implement to the immortal implement in the blink of an eye!"

"It's great, great, even the immortal clan cherishes a rare existence. Only high-level martial immortals can have it. We are only the saint clan, but we already have the immortal artifact!"

"It's all up to the Lord, don't talk about immortal artifacts without the Lord, we all salivate with the rare artifacts."

"Haha, it's nice to have the master take photos!"

"..."

Li Xianyang, Yaochi Yan Fa, Chi Ri, Tian Yun and others all stared at the sea of sky with their eyes bright.

The original indigo blue sky and sea color became more pure and full of spirituality.

At this time, the various abilities possessed by the sea of sky have been greatly improved, reaching the level of a martial arts immortal.

But don't look at the level of the immortal weapon itself, which is only the level of the one-half martial arts, but its defensive power is definitely not a one-half martial arts can break.

Even if the Second Tribulation Martial Immortal attacks with all its strength, it cannot be broken in a short time.

Only the Martial God of Three Tribulations can break the defense of the Sea of Sky in a short time, and the Martial God of Four Tribulations may be able to kill the Sea of Sky in seconds.

In addition, the scope of the Sky Sea Guard has become even larger.

In the past, it could only cover the holy city of Yaochi and a part of the surrounding area.

And now, it can already cover dozens of Jade Lake holy cities.

You know, Yaochi Holy City is already a huge area beyond the sight of ordinary warriors, and ordinary warriors can't cross it in a short time.

It can be seen that the scope of dozens of Yaochi holy cities is so vast.

This is the terrifying ability of the fairy.

A defensive fairy weapon can protect a large area of land and ensure the safety of the creatures in it.

However, the biggest change in the sea of sky is not these, but the spirit!

Weapons, treasures, etc., reproduce auras at the time of the holy order, and have functions such as automatic protection of the lord.

But it is equivalent to a slightly spiritual...Uh, mentally retarded! ?

But at the immortal level, it's completely different.

Lingyun evolved into Qi Ling, possessing a truly complete Lingzhi.

Although this kind of intelligence is slightly weak, only equivalent to a few years old, but it is already able to communicate at a deeper level.

The immortal weapon has its spirit, even if it is unguarded, it can control itself and exert its greatest power.

Of course, someone guarding and controlling is of course the best.

At this moment.

The sea of sky was pinched by Su Lang in his hand, like a delicate indigo blue snowflake, palm-sized, divided into twelve branches.

The spirit of the device emerged from the body of the sea of the sky, translucent, round, and it looked as good as a bun.

[Chapter 636: Oh, your sister!](#)

"Is this the spirit of the fairy!?"

"A brand-new creature born from a weapon and treasure!"

"It's like a child, full of innocence and purity."

"..."

The martial sages looked closely at Qi Ling, like a bunch of seven aunts and eight wives looking at someone's newborn baby.

However, they were looking at Qi Ling, but Qi Ling did not look at them, but at Su Lang.

The first thing it saw was Su Lang, and it kept looking at Su Lang from behind.

"Chiji? Chichi!"

It felt a very cordial breath, so it exuded a happy mood.

"What the hell?"

"Shout to me as soon as you come out?"

Su Lang's eyes widened, and there was an urge to squeeze this spirit.

Yaochi Yan Fa and others were also dumb, laughing at each other.

At this time.

Qi Ling no longer screamed, but began to tremble all over, as if something was brewing.

Su Lang knew that what was brewing was definitely not a fart.

Immediately afterwards, Qi Lingyuan opened two eyes, then his nose and mouth.

It has differentiated its facial features, and it looks very similar to Su Lang.

Well, it just squeezed its face just like Su Lang!

"I can't change my appearance..."

Looking at the spirit of the sky sea, Su Lang was full of black lines, and the corners of his mouth twitched.

The Yaochi Yan Fa and others were also stunned.

No way, the appearance of Qi Ling is really curious.

Round translucent body with eyes, nose and mouth!

I don't know if you have ever watched "Annoying Orange", it is the one with a human face on it...

"Chiji!! Jiji!!"

Qi Ling, who had squeezed his face, yelled at Su Lang again.

"I cross, what about the good wisdom?"

Su Lang rolled his eyes fiercely, and asked Li Xianyang, "What can you do?"

"Lord."

Li Xianyang suppressed a smile and replied: "The spirit of the device has just been born, just like a newborn baby, and you need to teach it yourself."

"Does that mean I have to be his father?"

Su Lang's eyes rolled even harder.

"Well, Master and Father!"

Li Xianyang nodded heavily and said, "The immortal weapon is not like those low-level weapons and treasures. It cannot be viewed as a tool. It has its own wisdom..."

The implication is that immortals are already independent creatures.

It possesses complete wisdom and emotions, it can love, hate, be loyal, or betray!

"It seems that this child has to be spoiled."

Su Lang breathed out helplessly, he didn't want to be a dad.

After all, he has too much business, and he has no time to take this 'child'.

However, if you don't raise it, who will raise it?

Su Lang looked around at the martial sages, then shook his head in disappointment.

At first glance, this gang of elders is not for bringing children.

"Would you like Chu Xiaobei to bring it?"

"She was born into an immortal clan, and she has exceptional aptitude, and her status in the Xuanyu Xian clan is definitely not low. She must have seen an immortal tool!"

"At least, she has more experience than everyone else!"

Su Lang thought for a while, with a smile on his face.

Chu Xiaobei is a good candidate!

Of course, before handing the Sea of Sky to Chu Xiaobei, Su Lang still had to do something with it.

The first is to arrange the Cangkong Phantom Alliance Immortal Array!

With the rank of the sea of sky itself, with the addition of this set of immortal formations, its abilities in all aspects can be greatly improved again.

At that time, I am afraid that only the Four Tribulations Martial Immortal can break through, and it will take a long time.

The second thing is to give some basic teachings on the sea of sky.

Also, give it a name.

"Little boy, your name will be...Xiaohai!"

Su Lang held the sea of sky and whispered softly, "And I, your master, come, call master!"

The spirit of the sky sea is now called Xiaohai. Xiao Hai was stunned, and then shouted: "Jiji!"

puff! !

Li Xianyang and others couldn't help but laugh.

"cough!"

Su Lang's face was embarrassed, "It's not jiji, it's the master, come and read to me, master~human~!"

"[]~[]~!"

Xiao Hai shouted earnestly.

Pooh, oh your sister!

Su Lang felt a wave of powerlessness. Is this the feeling of bringing a child?

[Chapter 637: Let Chu Xiaobei bring](#)

"Master!"

Li Xianyang smiled, "Xiaohai has just been born, and I don't understand vocabulary, maybe I can teach him simpler repetition."

"Reiterative title?"

Su Lang raised his brows and asked, "That's what Daddy Ma Ma?"

However, Li Xianyang had not had time to nod.

I heard Xiao Hai yelling in Su Lang's palm: "Ma Ma~ Ma Ma~ Ma Ma~"

Ma, your sister, my man!

Su Lang felt that he was about to vomit blood.

This child is too difficult to take, so I must give it to Chu Xiaobei early.

"Ma Ma~ Ma Ma~"

Xiao Hai continued to shout happily, and Su Lang felt that he could not change it in a short time.

Perhaps it will be upgraded in the future, so that its intelligence will be improved a bit, so that it can be changed?

"Well, try to upgrade it sooner."

Su Lang nodded madly in his heart, and immediately patted Xiaohai to prevent it from calling Mama.

Immediately after.

Su Lang input a lot of spiritual power into Xiaohai!

Xiao Hai's body instantly returned to its original shape, occupying a large area of the sky.

This is its instinct, defense, counterattack, illusion and other inherent abilities are also its instincts, these do not need to be taught, otherwise the skr person should be tired.

In the next moment, a pure indigo blue mask was derived from Xiao Hai, forming a circular mask, covering all the area of dozens of Yaochi holy cities.

The huge movement immediately attracted the attention of the warriors in the city.

However, it hasn't caused much sensation. After all, such 'big events' will happen in two or three days in the holy city of Yaochi, and everyone is getting used to it.

And these low-level warriors also couldn't recognize the fairy.

Everyone exclaimed and discussed for a while, why should they go.

Yaochi Yan Fa and the others were different. They looked at the brand new Xiaohai as if an antique appraiser had discovered a super giant treasure, and their eyes were almost out of light.

"You get out of the way first, I want to set up the formation."

Su Lang waved his big hand, and although everyone was reluctant to give up, they also dispersed and watched in the distance.

Su Lang was already familiar with the arrangement of the Cangkong Phantom Alliance Immortal Array.

After a series of operations like flowing water, the formation was completed, and Xiao Hai's indigo blue barrier appeared a little bit of pink, it looked like a girl.

"Ma Ma Ma Ma~"

Xiao Hai felt that he had become stronger, so he shouted happily.

Su Lang was already unable to complain about this, he beckoned, and the spirit of the little sea weapon fell into the palm of his hand.

"You must protect this place in the future."

Su Lang said solemnly, "You can't leave without my order."

After speaking, Su Lang wondered if he was a bit cruel, and even said this to a newly born 'child'.

Bah, think too much.

"Ma Ma Ma Ma~"

Xiao Hai screamed happily, as he agreed to Su Lang's request.

Immediately, Su Lang summoned Li Xianyang and others.

"You just guard the sea of sky as before."

Su Lang ordered, "Li Xianyang, you don't need to practice, and you have a lot of vision and poison, so you can just walk around and find people who are looking for Tuantian Tower."

"The servant obeys!"

Li Xianyang and others knelt to take orders.

Immediately after.

Yaochi Yan Fa and other sixteen martial sages placed those supporting buildings on the sea of sky, and immediately entered the sea of sky to guard.

Li Xianyang transformed himself into the city, wandering around, acting as an inspector.

And Su Lang came to the closed room of a certain building on the sea in the sky.

At this moment, the cultivating villain in the mysterious black space was almost all golden.

Including the halo behind his head, as well as the enveloping surroundings.

This means that Su Lang will not only be able to break through the realm of cultivation very soon, but also be promoted to his spiritual level and understand the rules of the fire system!

"The mental progress is slower, take drugs, take drugs!"

Sitting on the ground, Su Lang took out a handful of spiritual cultivation pills and stuffed it into his mouth. He didn't stop taking medicine until he reached the limit of his body.

Time passed slowly.

after an hour.

The cultivator itself is completely golden!

"Ding! The sea of repair is full, do you break through?"

"No breakthrough for now!"

Two hours later.

All the white clouds surrounding the cultivating villain turned golden.

Comprehend the fire rules!

Three hours later.

The white halo behind the cultivator's head was completely covered by gold.

Mental power reached the breaking point!

[Chapter 638: The mystery of the different fire!](#)

"system!"

Su Lang ordered, "Break through the realm of cultivation!"

As soon as the command was delivered, a large amount of lead-mercury aura appeared in Su Lang's body out of thin air.

Not only that, his body has also become a spiritual black hole.

Countless spiritual energy came surgingly and poured into Su Lang's body.

Because the sea of sky itself has a powerful gathering function, the aura in the retreat room is stronger than the aura of the heart of the mountains, so the process is very smooth.

Not long.

Su Lang no longer absorbs aura, the breakthrough process is over.

His cultivation realm has officially reached the peak martial arts level!

At this moment, the spiritual core in the dantian almost completely disappeared, and only a little phantom was visible.

"The invisible film still exists."

"This is the moat for Wu Zun to reach the realm of Martial God."

"However, it is nothing to me!"

The corner of Su Lang's mouth twitched, and a smile appeared, "Next, the system, break through the spiritual realm!"

Su Lang gave an order.

In the sea of consciousness, the hexagonal crystallized mental power in the halo suddenly began to expand frantically.

This golden star continued to grow, and its shape began to change.

The original six-pointed star shape became more and more rounded, gradually forming a spherical shape.

The light it emits is more and more dazzling, almost like the same day!

The bright golden light burst out, and the entire black sea of consciousness was opened up more bright space!

However, although the Sea of Consciousness that is currently being developed may seem vast, it actually only accounts for a very small part of the Sea of Consciousness.

The sea of knowledge is the most mysterious place of warriors, and almost no one can develop it to the end.

At this time.

The sphere of Jinghua's mental power ball has filled the entire sea of consciousness halo.

The surface of the psychic ball is covered with pits and pits, and a halo is set on its waist. Overall, it looks like a strange moon with a planetary ring.

"Is this the realm of Huiyue!"

Su Lang felt the enormous spiritual power in the sea of knowledge, and his eyes sparkled with excitement.

The realm of Huiyue, the realm of spiritual power possessed by Wu Sheng, he also has!

"If I use the clone to swallow it, I don't know if I can reach the realm of the sun."

As Su Lang thought, he calmed down the turbulent spirit in the sea.

— I just broke through, "Huiyue" is still a bit unstable.

A short while.

The spiritual power has calmed down, and Su Lang's spiritual realm has been consolidated!

"System, accept the fire rules!"

Su Lang continued to give orders without any muddle.

"Ding! Fire rules have been issued!"

Silently, an invisible and transparent flame seemed to rise around Su Lang.

This flame is ever-changing, and it seems that countless different kinds of flames can be transformed into.

This is the vision of comprehending the rules. When Su Lang comprehended the rules of the Thunder System before, countless lasses appeared.

"Fire rules!"

Su Lang's eyes flickered, and he stretched out a hand, countless flames are coming and going, and they are unusually brilliant.

The highest power of these flames has reached the real martial arts level!

This made Su Lang very happy.

Soon, Su Lang discovered an interesting thing

—The fire rules he comprehend couldn't evolve three kinds of different fires: Qinglian Dragon Fire, Xuanyun Jingyue Fire, and Ziwei Wuding Fire!

"Can't evolve alien fire..."

"There is no strange fire on the Canglan Continent."

"It seems that the different fire is more mysterious than I thought."

"Perhaps, I can go back to the blue star and refine all those abnormal fires."

Su Lang thought about it, planning to refine those strange fires next time he returned to Blue Star.

He accompanied Chu Xiaobei's three daughters to almost the entire Blue Star before, and of course he saw a lot of strange fires.

But the different fire did not have any important effect on Su Lang, at least on the surface.

Therefore, Su Lang didn't think much about it, and didn't try to refine it.

I don't know what kind of strange results will be produced after refining those strange fires.

"Come!"

Su Lang accepted the rules of the fire system and asked, "System, how long will it take for my five god-level exercises to reach the founding level?"

"Ding! Host, it takes 18 hours to cultivate to the founding level with the five god-level techniques!"

[Chapter 639: Nine Star Sacred Sword, Youtian!](#)

"18 more hours, close to a day?"

Su Lang raised his brows slightly, "It's so slow, one day, how long it is!"

I don't know if the other warriors heard Su Lang's complaint and couldn't help but rush up and desperately!

They practiced the god-level techniques to reach the Consummation level for 10,000 years...

"I haven't seen the property panel for a long time, looking forward to~"

With a thought, Su Lang opened his attribute panel.

"Oh~"

A hint of excitement appeared on Su Lang's face, "The attack level has finally reached the real martial sage level!"

From the quasi-sage to the real sacred order, there is an unknowingly large moat.

Even if Su Lang had practiced a lot of exercises and understood the rules of the Thunder System, it would be difficult for him to cross this gap.

Until today, once again comprehending the rules of the fire system, did the attack state cross the sky and reach the one-star martial sage state!

After some excitement, Su Lang calmed down and took out the Youtian Sword.

At this time, he had already put the resources of the three holy races into his bag, possessing a variety of treasured holy rank materials, and could also synthesize fairy rank materials.

Therefore, Su Lang intends to be promoted to Youtian Sword again.

Of course, he didn't know if the materials were enough, just a pure try.

"system!"

Su Lang ordered, "Only retain the current characteristics, evolve the Youtian Sword!"

"Ding! Host, to retain the characteristics and evolve the Youtian Sword, you need to use the holy refining material Tianyue holy soil*20, misty holy lotus petals*12, jade girl long hatred stone*12, drunken dream Tianze jade*12, Qing Huihuan Amethyst*12, Soul of Wusheng*2, Soul of Valkyrie*10..."

"Need so many materials, but also the soul of Martial Saint?"

Su Lang frowned slightly, and then began to search for the materials proposed by the system in the storage space.

The most cherished soul of Martial Saint is enough.

Su Lang slayed the two martial sages of Wuyang Demon Cave, and slayed Cai Liao and Zhu 108, and then obtained nine shares from the three clans secret library.

Counting the soul of Wusheng that has been used, there are currently seven remaining.

The Valkyrie Soul has more left, which is completely enough.

After some inventory, Su Lang discovered that the missing materials were the Jade Girl Changhen Stone and Drunken Dream Tianze Jade.

Fortunately, the number is insufficient.

Su Lang took out a lot of god-level materials and began to synthesize according to feelings.

After trying hundreds of times and synthesizing hundreds of holy grade materials, I finally synthesized the Jade Girl Changhen Stone and Drunken Dream Tianze Jade.

"This is enough material!"

Su Lang smiled, "System! Only retain the current characteristics, evolve the Heavenly Sword!"

"Ding! Consumption of holy refining material Tianyue holy soil*20, misty sacred lotus petals*12, jade girl of long hatred*12, drunken dream Tianze jade*12, Qinghui magic amethyst*12, Wusheng soul *2, the Soul of the Valkyrie*10...The Youtian Sword has evolved into a high-level saint!"

The Youtian Sword in Su Lang's hand flashed light, and the black pattern on the white background seemed to come alive, quite spiritual.

"Nine Star Sacred Sword!"

"It's only a little bit to reach the quasi-immortal level."

Su Lang swung the Youtian Sword lightly, and he felt that he could kill almost all the martial sages in the world with a sword in his hand.

In fact, although it is not so exaggerated, it is not far off.

There are really too few Martial Saints who can hold the Youtian Sword!

[Chapter 640: Sure enough](#)

Played the Youtian Sword.

Su Lang put it in the storage space and once again faced a multiple-choice question.

That is what rules should be understood by the following rules.

The basic rules of the five elements of heaven, earth, and earth, there are still four types of gold, wood, water, and soil that are not understood.

"Well."

"I don't have many exercises from the Metal System, the Wood System, and the Earth System, but it's the water system. There are exercises such as blowing snow without traces."

Su Lang thought, and suddenly the corner of his mouth twitched, "Moreover, I was originally called Lang. Only by comprehending a water system technique can I have a more pleasant wave!"

With a decision in his mind, Su Lang immediately issued an order: "System, let me understand the rules of the water system!"

"Ding! Start to comprehend the rules of the water system!"

At this point, in the mysterious black space, the whole body of the cultivating villain, the halo, and the halo have become white again.

But Su Lang knew that it would not take long for it to turn golden again.

No way, our cultivation speed is more than five million times that of ordinary talents!

Newly understood rules are selected.

Su Lang planned to return to Blue Star to take a look.

Coming out of the closed room, a dumpling suddenly appeared in front of Su Lang. It was the spirit of the sky sea, Xiao Hai.

It was still holding a face that looked like Su Lang, and Su Lang was speechless for a while.

"Ma Ma Ma Ma~"

Xiao Hai yelled and threw himself into Su Lang's arms.

"I'll go, don't call me numb, I will find one for you right away!"

Su Lang rolled his eyes fiercely, and immediately patted Xiaohai, "Go and play."

"Ma Ma Ma Ma~"

Xiao Hai seemed to feel Su Lang's emotions, and made some grievances.

"Uh....."

Su Lang could not laugh or cry, but was speechless.

In the end, he could only pat Xiaohai lightly to express comfort.

Xiao Hai was really coaxing too, so he didn't feel wronged, but he became more excited.

"Ma Ma Ma Ma!"

It called out loudly, making Su Lang feel as if he had made a serious mistake.

You shouldn't give you a little sweetness to this clingy little fairy.

"Ugh."

Su Lang held his forehead with his hand and sighed.

He really wanted to just leave like this.

But in this case, it's like a scumbag who doesn't care about children.

My Su Lang is so handsome, don't be a scumbag!

then what should we do.

Thinking...

He quickly thought of a way!

"My clone is exactly the same as me, I will call a clone to play with it."

Su Lang stretched his brows, and immediately sent a clone to his side.

"Chiji!?"

Xiao Hai looked at the two Ma Ma in front of him, and suddenly crashed.

"Hehe."

"Sure enough, silly and confused!"

Su Lang showed complacency, and then immediately used his clone to replace him to Blue Star.

But after he replaced the clones, two clones were left in place, causing Xiao Hai to stay there stupidly, unable to tell who was the real and the fake.

It probably didn't think that the two in front of it were real.

At this time, Su Lang withdrew one clone, and immediately issued an order to the other clone: Bring me a child!

The clone with medium wits really started to execute the order and played with Xiaohai!

Mad, that's so cool!

It would be nice to have a clone when studying before.

You, learn math for me!

You, learn Chinese for me!

You, learn English for me!

Gee, think about it!

Closer to home.

Su Lang has arrived at the remote island of Blue Star.

As soon as he appeared above the small island, he discovered that there was a lot of martial sage-level aura between heaven and earth!

"One, two, three, four, five... Eighteen!"

"In such a short period of time, eighteen quasi-sages have broken through to the martial-sage level!"

A satisfied smile appeared on Su Lang's face.

So many martial sages appeared in a short period of time, which was very surprising, but in fact, it did not surprise Su Lang.

Think about it, how long have those quasi-sages stuck at the quasi-sage level?

Not to mention 10,000 years, there are old quasi-sages who have been holding back tens of thousands of years.

In fact, all aspects of their conditions have reached a breakthrough point, only one opportunity is left.

At this time, when I came to Blue Star, I was assisted by the quasi elixir, and of course I broke through all at once.
